UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the quarterly period ended September 30, 2015

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934.

For the transition period from _____ to _____

1-13948

(Commission file number)

SCHWEITZER-MAUDUIT INTERNATIONAL, INC.
(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of incorporation or organization)

62-1612879
(I.R.S. Employer Identification No.)

100 North Point Center East, Suite 600
Alpharetta, Georgia
(Address of principal executive offices)

30022
(Zip Code)

1-800-514-0186

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes
o No x

The Company had 30,472,399 shares of common stock issued and outstanding as of November 4, 2015.

Note 1. General

Nature of Business

Schweitzer-Mauduit International, Inc., or SWM or the Company, headquartered in the United States of America, is a multinational diversified producer of highly engineered solutions and advanced materials for a variety of industries. Historically, the Company has primarily served the tobacco industry through the manufacture and sale of paper and reconstituted tobacco products, which remains a key focus. We manufacture lightweight specialty papers used in manufacturing ventilated cigarettes, reconstituted tobacco used in producing blended cigarettes, and banded papers used in the production of lower ignition propensity, or LIP, cigarettes. The Company also produces premium specialized papers for other applications and, through our Advanced Materials & Structures segment, is a specialty producer of resin-based plastic netting through an extrusion process, as well as certain meltblown products, machined plastic core tubes, and resin-based rolled products for use in other end segments, such as filtration, medical and specialty industries.

The primary products we sell to the tobacco industry include cigarette, plug wrap and base tipping papers, or Cigarette Papers, which are used to wrap various parts of a cigarette, and reconstituted tobacco leaf, or RTL, which is used as a blend with virgin tobacco in cigarettes, reconstituted tobacco wrappers and binders for cigars. We sell these products directly to tobacco companies or their designated converters in the Americas, Europe, Asia and elsewhere. We also sell a diverse mix of products to non-tobacco industries, including low volume, high-value engineered papers and commodity paper grades produced, among other reasons, to maximize our machine utilization. In December 2013, we acquired DelStar, Inc., or DelStar, a manufacturer of plastic netting and other resin-based products mainly focused on the filtration, industrial and medical market segments. The acquisition of DelStar diversifies SWM's global presence in advanced materials, particularly in filtration. In December 2014, we acquired in two separate transactions certain assets from Pronamic Industries, Inc. and Smith & Nephew's Advanced Wound Management Division, which we expect to complement the DelStar acquisition and which have been incorporated into our Advanced Materials & Structures (formerly Filtration) operating segment. As discussed more fully in Note 16. Subsequent Events, in October 2015, the Company completed the acquisition of Argotec Intermediate Holdings, LLC, or Argotec, a manufacturer of highly engineered thermoplastic polyurethane films for demanding specialty applications in surface protection, glass lamination and medical products. This acquisition will be incorporated into the Advanced Materials & Structures operating segment.

In September 2015, we changed the name of the Filtration segment to the Advanced Materials & Structures segment to reflect the nature of the businesses that comprise this segment.

We conduct business in over 90 countries and operate 17 production locations worldwide, with locations in the United States, United Kingdom, Canada, France, Luxembourg, Russia, Brazil, China and Poland. We also have a 50% equity interest in two joint ventures in China: China Tobacco Mauduit (Jiangmen) Paper Industry Ltd., or CTM, which produces cigarette and porous plug wrap papers, and China Tobacco Schweitzer (Yunnan) Reconstituted Tobacco Co. Ltd., or CTS, which produces RTL.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements and the notes thereto have been prepared in accordance with the instructions of Form 10-Q and Rule 10-01 of Regulation S-X of the Securities and Exchange Commission, or the SEC, and do not include all of the information and disclosures required by accounting principles generally accepted in the United States of America, or U.S. GAAP. However, such information reflects all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair statement of results for the interim periods including the results of a business reclassified as a discontinued

operation which is more fully described in Note 4. Discontinued Operations.

The results of operations are not necessarily indicative of the results to be expected for the full year. The unaudited condensed consolidated financial statements and these notes thereto included herein should be read in conjunction with the audited consolidated financial statements and the related notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2014, as filed with the SEC on February 27, 2015.

7

Principles of Consolidation

The condensed consolidated financial statements include the accounts of the Company and wholly-owned, majority-owned and controlled subsidiaries. The Company's share of the net income of its 50% owned joint ventures in China is included in the condensed consolidated statements of income as income from equity affiliates. Intercompany balances and transactions have been eliminated.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and related disclosures of contingent assets and liabilities in the condensed consolidated financial statements and accompanying notes. Estimates are used for, but not limited to, inventory valuation, useful lives of tangible and intangible assets, fair values, sales returns, receivables valuation, pension, postretirement and other benefits, restructuring and impairment, taxes and contingencies. Actual results could differ materially from those estimates.

Recent Accounting Pronouncements

In May 2014, FASB issued ASU 2014-09, "Revenue from Contracts with Customers" (Topic 606). The new guidance specifies how and when an entity will recognize revenue arising from contracts with customers and requires entities to disclose information about the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers. In August 2015, FASB deferred the effective date for annual reporting periods beginning after December 15, 2017 (including interim reporting periods within those periods). Early adoption is permitted to the original effective date of December 15, 2016 (including interim reporting periods within those periods). The Company is currently in the process of evaluating the impact of the adoption on the consolidated financial statements.

In November 2014, the FASB issued ASU 2014-16, "Derivatives and Hedging (Topic 815): Determining Whether the Host Contract in a Hybrid Financial Instrument Issued in the Form of a Share is More Akin to Debt or to Equity." The update requires an entity to determine the nature of the host contract by considering all stated and implied substantive terms and features of the hybrid financial instrument, weighing each term and feature on the basis of the relevant facts and circumstances (commonly referred to as the whole-instrument approach). This guidance is effective for annual periods beginning after December 15, 2015, and interim periods thereafter. Early adoption is permitted. The Company is currently in the process of evaluating the impact the adoption will have on the consolidated financial statements.

In February 2015, FASB issued ASU No. 2015-02, "Consolidation (Topic 810): Amendments to the Consolidation Analysis." This standard modifies existing consolidation guidance for reporting organizations that are required to evaluate whether they should consolidate certain legal entities. This update is effective for fiscal years and interim periods within those years beginning after December 15, 2015, and requires either a retrospective approach to adoption or a modified retrospective approach, by recording a cumulative-effect adjustment to equity as of the beginning of the fiscal year of adoption. Early adoption is permitted. The Company is currently in the process of evaluating the impact of the adoption on the consolidated financial statements.

In April 2015, FASB issued ASU No. 2015-03, "Simplifying the Presentation of Debt Issuance Costs." This new standard requires that debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of debt liabilities, consistent with treatment of debt discounts or premiums. The recognition and measurement guidance for debt issuance costs would not be affected by the amendments in this Update. This ASU is effective for annual reporting periods beginning after December 15, 2015, and interim periods within those years. The Company is currently in the process of evaluating the impact of the adoption on the consolidated financial statements.

In May 2015, FASB issued ASU 2015-07, "Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)." Currently, investments valued using the practical expedient are categorized within the fair value hierarchy. There is diversity in how certain investments measured at net asset value with future redemption dates should be categorized within the fair value hierarchy which this update

8

addresses. If an investment has its fair value measured at net asset value per share (or its equivalent) using the practical expedient, it should not be categorized in the fair value hierarchy. Removing these types of investments from the fair value hierarchy chart eliminates the diversity in classification of these investments and ensures that all investments categorized in the fair value hierarchy are classified consistently. Investments that calculate net asset value per share (or its equivalent) without the use of the practical expedient will continue to be included in the fair value hierarchy. For public business entities, the amendments will be effective for annual periods, including interim periods within those annual periods, beginning after December 15, 2015, with early adoption permitted. The Company is currently in the process of evaluating the impact of the adoption on the consolidated financial statements.

In July 2015, FASB issued ASU 2015-11, "Inventory (Topic 330): Simplifying the Measurement of Inventory." This update requires entities to measure inventory at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal, and transportation. Subsequent measurement is unchanged for inventory measured using LIFO or the retail inventory method. This ASU is effective for annual reporting periods beginning after December 15, 2016, and interim periods within those years. The Company is currently in the process of evaluating the impact of the adoption on the consolidated financial statements.

In September 2015, FASB issued ASU 2015-16, "Business Combinations (Topic 805): Simplifying the Accounting for Measurement-Period Adjustments." The provisions in this Update require an entity that acquires a business to recognize adjustments to provisional amounts that are identified during the measurement period in the reporting period in which the adjustment amounts are determined. The entity is also required to record, in the same period's financial statements, the effect on earnings of changes in depreciation, amortization, or other income effects, if any, as a result of the change to the provisional amounts, calculated as if the accounting had been completed at the acquisition date. The amendments in this Update are effective for fiscal years beginning after December 15, 2015, including interim periods within those fiscal years. The Company is currently in the process of evaluating the impact of the adoption on the consolidated financial statements.

Note 2. Other Comprehensive Income

Comprehensive income includes net income, as well as items charged and credited directly to stockholders' equity, which are excluded from net income. The Company has presented comprehensive income in the condensed consolidated statements of comprehensive income (loss). Reclassification adjustments of derivative instruments are presented in Net Sales in the condensed consolidated statements of income. See Note 11. Derivatives for additional information. Amortization of accumulated pension and other post-employment benefit, or OPEB, liabilities are included in the computation of net periodic pension and OPEB costs, which are more fully discussed in Note 13. Postretirement and Other Benefits.

Components of accumulated other comprehensive loss were as follows (\$ in millions):

	September 30, 2015	December 31, 2014
Accumulated pension and OPEB liability adjustments, net of income tax of \$22.0 million and \$21.0 million at September 30, 2015 and December 31, 2014, respectively	\$(40.2)	\$(38.4)
Accumulated unrealized loss on derivative instruments, net of income tax of \$0.5 million and \$0.0 million at September 30, 2015 and December 31, 2014, respectively	(26.1)	(8.3)
Accumulated unrealized foreign currency translation adjustments	(71.9)	(29.8)
Accumulated other comprehensive loss	\$(138.2)	\$(76.5)

Changes in the components of accumulated other comprehensive loss were as follows (\$ in millions):

Total	\$(63.2)	\$1.5	\$(61.7)	\$(30.1)	\$(1.0)	\$(31.1)

Note 3. Business Acquisition

In December 2014, the Company acquired certain assets from Pronamic Industries, Inc., or Pronamic, and Smith & Nephew, or SNN. These assets were incorporated into SWM's Advanced Materials & Structures segment. The acquisition of these assets provided further opportunities for growth into the filtration and healthcare industries. These acquisitions were treated as business combinations and accounted for in accordance with the guidance provided by ASC 805, Business Combinations. The purchase price included initial cash payments of \$30.7 million, net of \$0.7 million in working capital adjustments and \$0.4 million in cash paid in June 2015 primarily for the additional adjustments to the value of working capital at the acquisition date.

An additional variable payment of up to \$3.5 million was potentially due in connection with one of the acquisitions. The ultimate payment was to be based on the performance of the assets over a period from the acquisition date through December 31, 2015. Of this amount, \$1.0 million was recorded at the acquisition date as a payable based on management's estimate of the fair value of the variable consideration as of that date. During the first half of 2015, however, this \$1.0 million was reversed through other income on the condensed consolidated statement of income based on current projections of performance of the assets through December 31, 2015. As part of a settlement of certain items that had arisen in 2015, in September 2015, the seller waived the right to payment from SWM.

As of September 30, 2015, the fair values of the assets acquired and liabilities assumed for the acquisition of assets from Pronamic and SNN are provisional because final appraisals have not yet been completed. The cash paid for these acquisitions and the preliminary fair values of the assets acquired and liabilities assumed as of the December 19, 2014 and December 31, 2014 acquisition dates for Pronamic assets and SNN assets, respectively, were as follows (\$ in millions):

	Preliminary Fair Value as Acquisition Date
Accounts receivable	\$3.5
Inventory	3.2
Other current assets	0.2
Property, plant and equipment	9.3
Identifiable intangible assets	11.6
Total Assets	27.8
Accounts payable	1.4
Accrued expenses	1.4
Net assets acquired	25.0
Goodwill	5.4
Cash paid	\$30.4

The Company used the income, market, or cost approach (or a combination thereof) for the preliminary valuation as appropriate and used valuation inputs in these models and analyses that were based on market participant assumptions. Market participants are considered to be buyers and sellers in the principal or most advantageous market for the asset or liability. For certain items, the carrying amount was determined to be a reasonable approximation of fair value based on information available to SWM management.

Properties acquired included two manufacturing and related facilities, land and leased sites that include leasehold improvements, and machinery and equipment for use in manufacturing operations. Management valued properties using the cost approach supported where available by observable market data which included consideration of obsolescence.

Intangible assets acquired included contracts with significant customers, technology related to products subject to a number of existing patents and trade know-how, and a number of customer relationships in water filtration, industrial filtration and healthcare industries. Management valued intangible assets using the relief from royalty and multi-period excess earnings methods, both forms of the income approach supported by observable market data for peer companies. The following table shows the fair values assigned to intangible assets (\$ in millions):

	Preliminary Fair Value as of December 31, 2014	Weighted-Average Amortization Period (Years)
Amortizable intangible assets:		
Customer relationships	\$6.1	15
Developed Technology	2.1	20
Patents	1.5	17
Customer contracts	1.9	6
Total	\$11.6	15

In connection with the acquisitions, the Company recorded goodwill, which represents the excess of the consideration transferred over the estimated preliminary fair value of tangible and intangible assets acquired, net of liabilities assumed. The goodwill is attributed primarily to incremental revenue growth from combining the acquired assets with DelStar's existing business and workforce as well as the benefits of access to different markets and customers. Goodwill from these acquisitions was assigned to the Advanced Materials & Structures segment. None of the goodwill is expected to be deductible for tax purposes.

The goodwill was determined on the basis of the provisional fair values of the assets and liabilities identified as of the acquisition date. It may be adjusted, within a period of no more than 12 months from the acquisition date, if the provisional fair values change as a result of circumstances existing at the acquisition date. Such fair value adjustments may arise in respect to property, plant and equipment, intangible assets and inventories, upon completion of the necessary valuations and physical verifications of such assets. The amount of provisions may also be adjusted as a result of ongoing procedures to identify and measure liabilities and contingent liabilities, including tax, environmental risks and litigation. The amount of deferred taxes may also be adjusted during the measurement period.

In the three and nine months ended September 30, 2015 and the fourth quarter of 2014, the Company recognized \$0.2 million, \$0.8 million and \$1.3 million, respectively, in direct and indirect acquisition-related costs related to the purchases. Direct and indirect acquisition-related costs were expensed as incurred and are included in the General Expense line item in the Consolidated Statements of Income.

The amounts of the unaudited pro forma Net Sales and Income from Continuing Operations of the combined entity had the acquisition date been January 1, 2014 are as follows (\$ in millions):

	Net Sales	Income from Continuing Operations
2014 Supplemental Pro Forma from July 1, 2014 - September 30, 2014	\$211.6	\$23.7
2014 Supplemental Pro Forma from January 1, 2014 - September 30, 2014	\$634.6	\$73.3

Note 4. Discontinued Operations

Beginning in 2013, the Company's former paper mill in San Pedro, Philippines has been reported as a discontinued operation. This mill was previously presented as a component of our Paper segment. The physical assets at the Philippines paper mill were sold during the fourth quarter of 2013. For all periods presented, results of this mill have been removed from each individual line within the statements of income and the operating activities section of the statements of cash flow. In each case, a separate line has been added for the net results of discontinued operations.

Included in Other Current Assets, Other Assets and Accrued Expenses within the condensed consolidated balance sheet are the following major classes of assets and liabilities, respectively, associated with the discontinued operations (\$ in millions):

	September 30, 2015	December 31, 2014
Assets of discontinued operations:		
Current assets	\$1.1	\$1.6
Other assets	2.6	2.3
Liabilities of discontinued operations:		
Current liabilities	0.6	0.1

Summary financial results of discontinued operations were as follows (\$ in millions):

	Three Months Ended		Nine Months Ended	
	September 30, 2015	September 30, 2014	September 30, 2015	September 30, 2014
Net sales	\$—	\$—	\$—	\$—
Other income (expense)	0.2	—	(0.7) —
Income (loss) from discontinued operations before income taxes	0.2	(0.1) (0.7) (0.1
Income tax provision	—	—	(0.2) —
Income (loss) from discontinued operations	0.2	(0.1) (0.9) (0.1

Note 5. Net Income Per Share

The Company uses the two-class method to calculate earnings per share. The Company has granted restricted stock that contains non-forfeitable rights to dividends on unvested shares. Since these unvested shares are considered participating securities under the two-class method, the Company allocates earnings per share to common stock and participating securities according to dividends declared and participation rights in undistributed earnings.

Diluted net income per common share is computed based on net income divided by the weighted average number of common and potential common shares outstanding. Potential common shares during the respective periods are those related to dilutive stock-based compensation, including long-term share-based incentive compensation and directors' accumulated deferred stock compensation which may be received by the directors in the form of stock or cash. A reconciliation of the average number of common and potential common shares outstanding used in the calculations of basic and diluted net income per share follows (\$ in millions, shares in thousands):

	Three Months Ended		Nine Months Ended	
	September 30, 2015	September 30, 2014	September 30, 2015	September 30, 2014
Numerator (basic and diluted):				
Net income	\$25.8	\$23.0	\$68.0	\$71.2
Less: Dividends paid to participating securities	—	(0.1)	(0.2)	(0.3)
Less: Undistributed earnings available to participating securities	—	(0.1)	(0.2)	(0.4)
Undistributed and distributed earnings available to common stockholders	\$25.8	\$22.8	\$67.6	\$70.5
Denominator:				
Average number of common shares outstanding	30,275.4	30,098.3	30,243.0	30,284.9
Effect of dilutive stock-based compensation	133.2	127.2	123.6	117.8
Average number of common and potential common shares outstanding	30,408.6	30,225.5	30,366.6	30,402.7

There were no anti-dilutive stock options during the three or nine month periods ended September 30, 2015 or 2014.

Note 6. Inventories

Inventories are valued at the lower of cost, using the First-In, First-Out, or FIFO, and weighted average methods, or market. The Company's costs included in inventory primarily include pulp, resins, chemicals, direct labor, utilities, maintenance, depreciation, finishing supplies and an allocation of overhead costs. Machine start-up costs or abnormal machine shut downs are expensed in the period incurred and are not reflected in inventory. The definition of market value, with respect to all inventories, is replacement cost or net realizable value. The Company reviews inventories at least quarterly to determine the necessity of write-offs for excess, obsolete or unsalable inventory. The Company estimates write-offs for inventory obsolescence and shrinkage based on its judgment of future realization. These reviews require the Company to assess customer and market demand. The following schedule details inventories by major class (\$ in millions):

	September 30, 2015	December 31, 2014
Raw materials	\$32.0	\$35.1
Work in process	19.7	17.4
Finished goods	36.6	40.4
Supplies and other	14.1	15.5
Total	\$102.4	\$108.4

Note 7. Goodwill

The changes in the carrying amount of goodwill by segment for the nine months ended September 30, 2015 were as follows (\$ in millions):

	Reconstituted Tobacco	Advanced Materials & Structures	Total
Goodwill as of December 31, 2014	\$5.3	\$120.2	\$125.5
Foreign currency translation adjustments	(0.4) (0.6) (1.0
Goodwill as of September 30, 2015	\$4.9	\$119.6	\$124.5

Note 8. Intangible Assets

The gross carrying amount and accumulated amortization for intangible assets consisted of the following (\$ in millions):

	September 30, 2015				December 31, 2014			
	Gross Carrying Amount	Accumulated Amortization	Foreign Currency Impact	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Foreign Currency Impact	Net Carrying Amount
Amortized intangible assets								
Reconstituted Tobacco								
Customer-related intangibles	\$10.0	\$10.0	\$—	\$—	\$10.0	\$10.0	\$—	\$—
Advanced Materials & Structures								
Customer Relationships	51.4	3.9	(0.3) 47.2	51.4	2.1	—	49.3
Developed Technology	16.0	2.1	(0.2) 13.7	16.0	1.2	—	14.8
Customer Contracts	1.9	0.4	—	1.5	1.9	—	—	1.9
Patents	1.5	0.1	—	1.4	1.5	—	—	1.5
Total	\$80.8	\$16.5	\$(0.5) \$63.8	\$80.8	\$13.3	\$—	\$67.5
Unamortized intangible assets (Advanced Materials & Structures)								
Trade names	\$21.8				\$21.8			

Amortization expense of intangible assets was \$1.1 million and \$0.8 million for the three months ended September 30, 2015 and 2014, respectively, and \$3.2 million and \$2.3 million for the nine months ended September 30, 2015 and 2014, respectively. Finite-lived intangibles in the Advanced Materials & Structures segment are expensed using the straight-line amortization method. The estimated average aggregate amortization expense is \$4.0 million in each of the next five years.

Note 9. Restructuring and Impairment Activities

The Company incurred restructuring and impairment expenses of \$1.3 million and \$3.3 million in the three months ended September 30, 2015 and 2014, respectively, and \$10.5 million and \$6.6 million in the nine months ended September 30, 2015 and 2014, respectively.

In the Paper segment, restructuring expenses were \$0.5 million for the three and nine months ended September 30, 2015 and \$2.5 million for the three and nine months ended September 30, 2014. Expenses in 2015 related primarily to severance accruals for employees of one of our French manufacturing facilities as a result of previously announced

restructuring actions. Expenses in 2014 related primarily to severance accruals for employees of our Brazil manufacturing facility and a loss on the sale of our Lee Mills plant.

Reconstituted Tobacco segment restructuring and impairment expenses were \$0.9 million and \$0.8 million for the three months ended September 30, 2015 and 2014, respectively, and \$10.0 million and \$4.1 million, respectively, for the nine months ended September 30, 2015 and 2014. During the nine months ended September 30, 2015, restructuring and impairment expenses were composed of \$6.5 million in severance accruals for employees at our Spay, France facility as well as \$3.5 million in loss recognized to adjust the recorded value of equipment at our Philippines RTL location to its estimated fair value as discussed in more detail below. The 2014 restructuring expenses primarily related to a voluntary early retirement program at our Spay, France facility related to previously announced actions.

Additionally, the Company reversed \$0.1 million and incurred \$0.2 million in restructuring expenses during the three months and nine months ended September 30, 2015, respectively, related to accruals for severance expenses within supporting overhead departments which were not allocated to a specific segment. In the nine months ended September 30, 2015, the Company also reversed \$0.2 million in previously accrued severance costs in our Advanced Materials & Structures segment resulting from one of our business acquisitions in December 2014.

Restructuring liabilities were classified within Accrued Expenses in each of the consolidated balance sheets as of September 30, 2015 and December 31, 2014. Changes in the restructuring liabilities, substantially all of which are employee-related, during the periods ended September 30, 2015 and December 31, 2014 are summarized as follows (\$ in millions):

	Nine Months Ended September 30, 2015	Year Ended December 31, 2014
Balance at beginning of year	\$8.7	\$4.7
Accruals for announced programs	7.2	11.2
Cash payments	(6.8) (6.3
Exchange rate impacts	(0.5) (0.9
Balance at end of period	\$8.6	\$8.7

Long-lived assets to be sold are classified as held for sale in the period in which all of the following criteria are met: management, having the authority to approve the action, commits to a plan to sell the assets; the asset are available for immediate sale in present condition subject only to terms that are usual and customary for sales of such assets; an active program to locate a buyer and other actions required to complete the plan to sell the assets have been initiated; the sale of the assets is probable, and transfer of the assets is expected to qualify for recognition as a completed sale within one year, except if events or circumstances beyond our control extend the period of time required to sell the assets beyond one year; the assets are being actively marketed for sale at a price that is reasonable in relation to current fair value; and actions required to complete the plan indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

A long-lived asset that is classified as held for sale is initially measured at the lower of its carrying value or fair value less any costs to sell. Any loss resulting from this measurement is recognized in the period in which the held for sale criteria are met. Conversely, gains are not recognized on the sale of a long-lived asset until the date of sale. The fair value of a long-lived asset less any costs to sell is assessed each reporting period it remains classified as held for sale and any reduction in fair value is reported as an adjustment to the carrying value of the asset. Upon being classified as held for sale depreciation is ceased. Long-lived assets to be disposed of other than by sale are continued to be depreciated. Upon determining that a long-lived asset meets the criteria to be classified as held for sale, the assets and liabilities of the disposal group, if material, are reported in the line item "Assets held for sale" in our condensed consolidated balance sheets.

As a result of the decision to dispose of the Company's mothballed RTL facility and related equipment in the Philippines in early 2015, the physical assets of this entity that are expected to be sold within one year of the balance sheet date were reclassified from Property, Plant and Equipment, net, and are now reflected as assets held for sale on the accompanying condensed consolidating balance sheets. These assets are included in the Reconstituted Tobacco segment. As discussed above, during the nine months ending September 30, 2015, the Company incurred \$3.5 million in impairment expense to write-down the carrying value of this equipment to its estimated fair value.

Note 10. Debt

Total debt is summarized in the following table (\$ in millions):

	September 30, 2015	December 31, 2014
Credit Agreement - U.S. dollar borrowings	\$371.0	\$354.0
Credit Agreement - euro borrowings	16.8	71.1
French Employee Profit Sharing	11.7	14.6
Bank Overdrafts	0.6	0.4
Total Debt	400.1	440.1
Less: Current debt	(3.1) (2.9
Long-Term Debt	\$397.0	\$437.2

Credit Agreement

As of September 30, 2015, the Company had in place a five-year unsecured revolving credit facility, or Credit Agreement, which provided for borrowing capacity of \$500 million in U.S. dollars or a \$300 million equivalent sublimit in euros, with an option to increase borrowing capacity by \$200 million, subject to the discretion of the lenders. The Credit Agreement contained representations and warranties customary for facilities of this type and covenants and provisions that, among other things, required the Company to maintain (a) a maximum net debt to EBITDA ratio of 3.00 and (b) a minimum interest coverage ratio of 3.50. The Company was in compliance with all of its covenants under the Credit Agreement at September 30, 2015. The outstanding amounts under the facility were due upon maturity in December 2018.

Under the Credit Agreement, interest rates were based on the London Interbank Offered Rate plus an applicable margin that varies from 1.25% to 2.00% depending on the Net Debt to EBITDA Ratio, as defined in the Credit Agreement. The Company incurred commitment fees at an annual rate of 0.20% to 0.30% of the applicable margin on the committed amounts not drawn, depending on the Net Debt to EBITDA Ratio. As of September 30, 2015, the applicable interest rate on Credit Agreement borrowings was 1.50% on U.S. dollar borrowings and 1.13% on euro borrowings.

On October 28, 2015, the Company entered into an amended and restated credit agreement, or the Amended Credit Agreement. See Note 16. Subsequent Events.

Fair Value of Debt

At September 30, 2015 and December 31, 2014, the estimated fair values of the Company's current and long-term debt approximated the respective carrying amounts as the interest rates were variable and based on current market indices.

Note 11. Derivatives

In the normal course of business, the Company is exposed to foreign currency exchange rate risk and interest rate risk on its variable-rate debt. To manage these risks, the Company utilizes a variety of practices including, where considered appropriate, derivative instruments. The Company has no derivative instruments for trading or speculative purposes or derivatives with credit risk-related contingent features. All derivative instruments used by the Company are either exchange traded or are entered into with major financial institutions in order to reduce credit risk and risk of nonperformance by third parties. The fair values of the Company's derivative instruments are determined using observable inputs and are considered Level 2 assets or liabilities.

The Company utilizes currency forward, swap and, to a lesser extent, option contracts to selectively hedge its exposure to foreign currency risk when it is practical and economical to do so. The use of these contracts minimizes transactional exposure to exchange rate changes. We designate certain of our foreign currency hedges as cash flow hedges. Changes in the fair value of cash flow hedges are reported as a component of other comprehensive income (loss) and reclassified

17

into earnings when the forecasted transaction affects earnings. For foreign exchange contracts not designated as cash flow hedges, changes in the contracts' fair value are recorded to net income each period.

The Company selectively hedges its exposure to interest rate increases on variable-rate, long-term debt when it is practical and economical to do so. Changes in the fair value of interest rate contracts considered cash flow hedges are reported as a component of other comprehensive income (loss) and reclassified into earnings when the forecasted transaction affects earnings.

The following table presents the fair value of asset and liability derivatives and the respective balance sheet locations at September 30, 2015 (\$ in millions):

	Asset Derivatives		Liability Derivatives	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Derivatives designated as hedges:				
Foreign exchange contracts	Accounts Receivable	\$0.8	Accrued Expenses	\$12.8
Foreign exchange contracts	Other Assets	—	Other Liabilities	8.7
Interest rate contracts	Other Assets	—	Other Liabilities	1.2
Total derivatives designated as hedges		\$0.8		\$22.7

The following table presents the fair value of asset and liability derivatives and the respective balance sheet locations at December 31, 2014 (\$ in millions):

	Asset Derivatives		Liability Derivatives	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Derivatives designated as hedges:				
Foreign exchange contracts	Accounts Receivable	\$0.4	Accrued Expenses	\$4.8
Foreign exchange contracts	Other Assets	—	Other Liabilities	4.0
Interest rate contracts	Other Assets	—	Other Liabilities	0.5
Total derivatives designated as hedges		\$0.4		\$9.3

The following table provides the gross effect that derivative instruments in cash flow hedging relationships had on accumulated other comprehensive income (loss), or AOCI, and results of operations (\$ in millions):

Derivatives Designated as Cash Flow Hedging Relationships	Unrealized (Loss) Gain Recognized in AOCI on Derivatives, Net of Tax				Loss Reclassified from AOCI			
	Three Months Ended September 30, 2015		Nine Months Ended September 30, 2014		Three Months Ended September 30, 2015		Nine Months Ended September 30, 2014	
Foreign exchange contracts	\$(15.1)) \$(2.1)) \$(24.6)) \$3.5	\$(3.7)) \$(0.8)) \$(7.3)) \$(3.0)
Interest rate contracts	(0.3)) 0.2	(0.5)) (0.3)	—) —	—) —
Total	\$(15.4)) \$(1.9)) \$(25.1)) \$3.2	\$(3.7)) \$(0.8)) \$(7.3)) \$(3.0)

The Company's designated derivative instruments are highly effective. As such, related to the hedge ineffectiveness or amounts excluded from hedge effectiveness testing, there were no gains or losses recognized immediately in income for the three or nine months ended September 30, 2015 and 2014.

The following table provides the effect that derivative instruments not designated as hedging instruments had on net income (\$ in millions):

Derivatives Not Designated as Cash Flow Hedging Instruments	Amount of (Loss) Gain Recognized in Other Income / Expense			
	Three Months Ended		Nine Months Ended	
	September 30, 2015	September 30, 2014	September 30, 2015	September 30, 2014
Foreign exchange contracts	\$0.3	\$(0.4)) \$(1.3) \$(0.3

Note 12. Commitments and Contingencies

Litigation

Imposto sobre Circulação de Mercadorias e Serviços, or ICMS, a form of value-added tax in Brazil, was assessed to our Brazilian subsidiary Schweitzer-Mauduit do Brasil Indústria e Comércio de Papel Ltda., or SWM-B, in December of 2000. SWM-B received two assessments from the tax authorities of the State of Rio de Janeiro for unpaid ICMS taxes on certain raw materials from January 1995 through November 2000, collectively the Raw Materials Assessment.

The Raw Materials Assessments concerned the accrual and use by SWM-B of ICMS tax credits generated from the production and sale of certain non-tobacco related grades of paper sold domestically that are immune from the tax to offset ICMS taxes otherwise owed on the sale of products that are not immune. One of the two assessments, or Assessment 1 (case number 2001.001.115144-5), related in part to tax periods that predated our acquisition of the Pirahy mill in Pirai, Brazil and is covered in part by an indemnification from the sellers of the Pirahy mill. The second assessment, or Assessment 2 (case number 2001.001.064544-6), pertains exclusively to periods that SWM-B owned the Pirahy mill. While SWM-B would be primarily responsible for the full payment of the Raw Materials Assessments in the event of an ultimate unfavorable outcome, SWM-B is not aware of any difficulties that would be encountered in obtaining reimbursement of that portion of any payment resulting from Assessment 1 from the previous owners of the Pirahy mill under the indemnification.

SWM-B has contested the Raw Materials Assessments based on Article 150, VI of the Brazilian Federal Constitution of 1988, which grants immunity from ICMS taxes to papers intended for printing books, newspapers and periodicals, or immune papers, and thus to the raw material inputs used to produce immune papers.

Both Raw Materials Assessments proceeded through judicial courts to appeals in separate chambers of the Federal Supreme Court of Brazil. SWM-B won a favorable ruling in both assessments at the first level, but on appeal, SWM-B won Assessment 1 and lost Assessment 2. On October 30, 2015, the Federal Supreme Court announced its denial of the State's appeal of Assessment 1, in the amount of approximately \$16 million, of which approximately \$12 million is covered by the indemnity referenced above, based on the foreign currency exchange rate at September 30, 2015. Further proceedings concerning Assessment 1 are possible. Assessment 2, in the amount of approximately \$10 million, remains before the Federal Supreme Court of Brazil on SWM-B's appeal on the merits and is likely to be finally decided by the action of the chamber of the court hearing the matter. No docket entry has been made yet regarding argument on Assessment 2.

SWM-B received assessments from the tax authorities of the State of Rio de Janeiro for unpaid ICMS and Fundo Estadual de Combate à Pobreza (FECP, a value-added tax similar to ICMS) taxes on interstate purchases of electricity. The state issued three sets of assessments against SWM-B, one for May 2006 - November 2007, a second for January 2008 - December 2010, and a third for September 2011 - September 2013, collectively the Electricity Assessments. SWM-B has challenged all three Electricity Assessments in administrative proceedings before the state tax council (in the first-level court Junta de Revisão Fiscal and the appellate court Conselho de Contribuintes) based on Resolution

1.610/89, which defers these taxes on electricity purchased by an "electricity-intensive consumer."

SWM-B's challenges to the first two sets of Electricity Assessments were unsuccessful at the first administrative level, but different appeals chambers of the Conselho de Contribuintes reached different conclusions about these assessments, causing the State to appeal the first assessment and SWM-B to appeal the second assessment to the full Conselho de

19

Contribuintes. In October and November 2014, a majority of the Conselho de Contribuintes sitting en banc ruled against SWM-B in each of the first and second electricity assessments. The State issued notices to SWM-B to pay approximately \$3.0 million in the first electricity assessment and \$6.0 million in the second electricity assessment, based on the foreign currency exchange rate at September 30, 2015. SWM-B filed separate challenges to these electricity assessments in further court proceedings in the state judicial system and different chambers of the court granted SWM-B preliminary injunctions against enforcement. SWM-B's challenge to the third electricity assessment (approximately \$3.0 million as of September 30, 2015) remains pending at the first administrative level (Junta de Revisão Fiscal).

SWM-B believes that both the Raw Materials Assessments and the Electricity Assessments will ultimately be resolved in its favor. No liability has been recorded in our consolidated financial statements for these assessments based on our evaluation of these matters under the facts and law as presently understood. The Company can give no assurance as to the ultimate outcome of such proceedings.

Environmental Matters

The Company's operations are subject to various nations' federal, state and local laws, regulations and ordinances relating to environmental matters. The nature of the Company's operations exposes it to the risk of claims with respect to various environmental matters, and there can be no assurance that material costs or liabilities will not be incurred in connection with such claims. While the Company has incurred in the past several years, and will continue to incur, capital and operating expenditures in order to comply with environmental laws and regulations, it believes that its future cost of compliance with environmental laws, regulations and ordinances, and its exposure to liability for environmental claims and its obligation to participate in the remediation and monitoring of certain hazardous waste disposal sites, will not have a material effect on its financial condition, results of operations or cash flows. However, future events, such as changes in existing laws and regulations, or unknown contamination of sites owned, operated or used for waste disposal by the Company (including contamination caused by prior owners and operators of such sites or other waste generators) may give rise to additional costs which could have a material effect on its financial condition or results of operations.

General Matters

In the ordinary course of its business activities, the Company and its subsidiaries are involved in certain other judicial, administrative and regulatory proceedings involving both private parties and governmental authorities. These proceedings include insured and uninsured regulatory, employment, general and commercial liability, environmental and other matters. At this time, the Company does not expect any of these proceedings to have an adverse material effect on its reputation, business, financial condition, results of operations or cash flows. However, as the outcome of such proceedings are unpredictable, the Company can give no assurance that the results of any such proceedings will not materially affect its reputation, business, financial condition, results of operations or cash flows.

Note 13. Postretirement and Other Benefits

The Company sponsors pension benefits in the United States, France and Canada and OPEB benefits related to postretirement healthcare and life insurance in the United States and Canada. The Company's Canadian pension and OPEB benefits are not material and therefore are not included in the following disclosures.

Pension and OPEB Benefits

The components of net pension and OPEB benefit costs for U.S. employees and net pension benefit costs for French employees during the three or nine months ended September 30, 2015 and 2014 were as follows (\$ in millions):

	Three Months Ended September 30,					
	U.S. Pension Benefits		French Pension Benefits		U.S. OPEB Benefits	
	2015	2014	2015	2014	2015	2014
Service cost	\$—	\$—	\$0.3	\$0.3	\$—	\$—
Interest cost	1.2	1.3	0.1	0.2	—	—
Expected return on plan assets	(1.8)	(1.8)	(0.1)	(0.1)	—	—
Amortizations and other	1.1	1.0	0.3	0.3	0.1	(0.1)
Net periodic benefit cost	\$0.5	\$0.5	\$0.6	\$0.7	\$0.1	\$(0.1)
	Nine Months Ended September 30,					
	U.S. Pension Benefits		French Pension Benefits		U.S. OPEB Benefits	
	2015	2014	2015	2014	2015	2014
Service cost	\$—	\$—	\$0.9	\$1.0	\$—	\$—
Interest cost	3.8	4.1	0.3	0.7	—	0.1
Expected return on plan assets	(5.3)	(5.5)	(0.2)	(0.3)	—	—
Amortizations and other	3.9	3.2	0.9	0.8	(0.1)	(0.5)
Net periodic benefit cost	\$2.4	\$1.8	\$1.9	\$2.2	\$(0.1)	\$(0.4)

During the fiscal year ending December 31, 2015, the Company expects to recognize approximately \$4.9 million for amortization of accumulated other comprehensive loss related to its U.S. pension and OPEB plans and approximately \$1.1 million for its French pension plans.

Note 14. Income Taxes

For interim financial reporting, the Company estimates the annual tax rate based on projected taxable income for the full year and records a quarterly income tax provision in accordance with ASC No. 740-270 "Accounting for Income Taxes in Interim Periods." The rate so determined is used in providing for income taxes on a year-to-date basis. As the year progresses, the Company refines the estimates of the year's taxable income as new information becomes available. This continual estimation process can result in a change to the expected effective tax rate for the year. When this occurs, the Company adjusts the income tax provision during the quarter in which the change in estimate occurs so that the year-to-date provision reflects the expected annual tax rate. Our effective tax rate could fluctuate significantly on a quarterly basis and could be adversely affected to the extent earnings are lower than anticipated in countries that have lower statutory rates and higher than anticipated in countries that have higher statutory rates. Our effective tax rate could also fluctuate due to changes in the valuation of our deferred tax assets or liabilities, or by changes in tax laws, regulations, or accounting principles, as well as certain discrete items. Jurisdictions with a projected loss for the year or an actual year-to-date loss where no tax benefit can be recognized are excluded from the estimated annual effective tax rate. The impact of including these jurisdictions on the quarterly effective rate calculations could result in a higher or lower effective tax rate during a particular quarter, based upon the mix and timing of actual earnings verses annual projections.

The Company's deferred tax asset valuation allowances are primarily the result of uncertainties regarding the future realization of recorded tax benefits on tax loss carryforwards for certain entities. The Company's assumptions, judgments and estimates relative to the valuation of these net deferred tax assets take into account available positive and negative evidence of realizability, including recent financial performance, the ability to realize benefits of restructuring and other recent actions, projections of the amount and category of future taxable income and tax planning strategies. Actual future operating results and the underlying amount and category of income in future

periods could differ from the Company's current assumptions, judgments and estimates.

21

All unrecognized tax positions would impact the Company's effective tax rate if recognized. The Company's policy with respect to penalties and interest in connection with income tax assessments or related to unrecognized tax benefits is to classify penalties as provision for income taxes and interest as interest expense in its consolidated statement of income. There were no material income tax penalties or interest accrued during the three or nine months ended September 30, 2015 or 2014.

Our effective tax rate from continuing operations was 18.8% and 8.8% for the three months ended September 30, 2015 and 2014, respectively, and increased primarily due to a higher concentration of earnings in higher taxed jurisdictions. Our effective tax rate from continuing operations was 21.7% and 20.8% for the nine months ended September 30, 2015 and 2014, respectively, and the increase is attributed to a change in our geographic mix of earnings with a concentration of earnings from higher taxed jurisdictions as well as losses at our Philippines RTL entity for which we did not record a tax benefit.

Note 15. Segment Information

The Company's three operating product line segments are also the Company's three reportable segments: Paper, Reconstituted Tobacco and Advanced Materials & Structures (formerly, Filtration). The Paper segment primarily produces Cigarette Papers including LIP papers, plug wrap papers and base tipping papers used to wrap various parts of a cigarette for sale to cigarette manufacturers. The Paper segment also produces commercial and industrial products such as lightweight printing and writing papers, battery separator paper, drinking straw wrap, filter paper and other specialized papers. These non-tobacco industry products are generally sold directly to converters and other end-users or brokers. The Reconstituted Tobacco segment produces RTL and wrapper and binder products for sale to cigarette and cigar manufacturers. The Advanced Materials & Structures segment primarily produces thermoplastic nets, nonwoven materials, films and laminates which are critical components performing support, separation or filtration functions.

In September 2015, the Company changed the name of the Filtration segment to the Advanced Materials & Structures segment to reflect businesses that comprise this segment.

Information about Net Sales and Operating Profit

The accounting policies of these segments are the same as those described in Note 2. Summary of Significant Accounting Policies in the notes to the consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. The Company primarily evaluates segment performance and allocates resources based on operating profit. Expense amounts not associated with segments are referred to as unallocated expenses.

Note 16. Subsequent Events

Acquisition of Argotec Intermediate Holdings LLC

On October 28, 2015, the Company completed the acquisition of all of the equity interests in Argotec Intermediate Holdings LLC, or Argotec, a manufacturer of highly engineered thermoplastic polyurethane films for demanding specialty applications in surface protection, glass lamination and medical products, pursuant to that certain Equity Interest Purchase Agreement, or Purchase Agreement, with SWM-Argotec, LLC, a Delaware limited liability company and indirect wholly-owned subsidiary of the Company, Argotec Intermediate Holdings Two LLC, a Delaware limited liability company ("Seller"), Argotec, Argotec LLC, a Delaware limited liability company, Argotec Holdings LLC, a Delaware limited liability company and certain equity holders of Argotec Holdings LLC.

The purchase price to acquire Argotec and its subsidiaries was \$280 million in cash, or the Base Purchase Price, subject to certain customary adjustments, in each case upon the terms and subject to the conditions contained in the Purchase Agreement. Five percent of the Base Purchase Price was placed in an escrow fund to secure the indemnification obligations of Seller for a period of 15 months following the closing of the transaction. Seller's indemnification obligations for breaches of its representations and warranties will be subject to an aggregate cap equal to eight percent of the Base Purchase Price, a per-claim threshold of \$35 thousand and an aggregate deductible of one percent of the Base Purchase Price, subject to certain exclusions. Representations and warranties of Seller will generally survive for 15 months after closing, subject to a longer survival period for certain specified representations.

Amendment and Restatement of Credit Facility

On October 28, 2015, the Company entered into a Second Amended and Restated Credit Agreement, or the Amended Credit Agreement, providing for credit facilities in the aggregate principal amount of \$1 billion, consisting of a \$650 million Revolving Credit Facility, available to the Company and certain of its foreign subsidiaries; a \$100 million Term Loan A-1 made to the Company; and a \$250 million Term Loan A-2 made to the Company. The Revolving Credit Facility matures on October 28, 2020. The Term Loan A-1 amortizes at the rate of 5% for the first 2 years, at the rate of 10% for the final three years and matures on October 28, 2020. The Term Loan A-2 amortizes at the rate of 1% per year and matures on October 28, 2022. The Term Loans are generally subject to mandatory repayment out of the net cash proceeds of asset sales which are not reinvested in operating assets. The credit facilities are secured by substantially all of the personal property of the Company and its domestic subsidiaries and the obligations of the Company's foreign subsidiaries under the Revolving Credit Facility are also secured by certain assets of such foreign subsidiaries. The Amended Credit Agreement amends and restates the Company's Amended and Restated Credit Agreement, dated as of December 11, 2013, which provided for a \$500.0 million unsecured revolving credit facility which was scheduled to mature on December 11, 2018.

The interest rate margins applicable to the Revolving Credit Facility and the Term Loans under the Amended Credit Agreement will be based on a fluctuating rate of interest measured by reference to either, at the Company's option, (i) a base rate, plus an applicable margin, which ranges from 0.25% to 1.25%, in the case of the Revolving Credit Facility

and Term Loan A-1, and from 0.50% to 1.50%, in the case of Term Loan A-2, or (ii) an adjusted London interbank offered rate (adjusted for maximum reserves) (“LIBOR”), plus an applicable margin, which ranges from 1.25% to 2.25%, in the case of the Revolving Credit Facility and Term Loan A-1, and from 1.50% to 2.50%, in the case of Term

23

Loan A-2. The applicable margin, in each case, will be adjusted from time to time based on the Company's ratio of net debt to EBITDA.

The Amended Credit Agreement also contains representations and warranties which are customary for facilities of this type and covenants and provisions that, among other things, require the Company to maintain (a) a maximum net debt to EBITDA ratio of 3.50, reducing to 3.00 after September 30, 2016 and (b) minimum interest coverage of 3.00. The Amended Credit Agreement contains provisions allowing the Company to increase the leverage ratio upon the occurrence of a material acquisition or the occurrence of unsecured indebtedness.

On October 28, 2015, the Company borrowed the Term Loans under the Amended Credit Agreement in the aggregate amount of \$350 million as well as \$329.5 million under the revolving credit facility.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following is a discussion of our financial condition and results of operations. This discussion should be read in conjunction with our unaudited condensed consolidated financial statements and related notes included elsewhere in this report and the audited consolidated financial statements and related notes and the selected financial data included in our Annual Report on Form 10-K for the year ended December 31, 2014. The discussion of our financial condition and results of operations includes various forward-looking statements about our markets, the demand for our products, our future prospects and other matters. These statements are based on certain assumptions and estimates that we consider reasonable. For information about risks and exposures relating to us and our business, you should read the section entitled "Risk Factors" in Part 1, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014 and the section entitled "Forward-Looking Statements" at the end of this Item 2. Unless the context indicates otherwise, references to "SWM", "we", "us", "our", the "Company" or similar terms include Schweitzer-Mauduit International, Inc. and our consolidated subsidiaries.

Third Quarter Highlights

In the three months ended September 30, 2015, SWM reported net income of \$25.8 million on total net sales of \$184.4 million. Compared to the prior-year period, net sales decreased \$19.9 million due primarily to \$22.0 million of unfavorable net foreign currency translation impacts mainly driven by a weaker euro. While the Paper and Reconstituted Tobacco segments were impacted by lower average selling prices, primarily in LIP paper, lower overall sales volumes and an unfavorable mix of products sold in the Reconstituted Tobacco segment, these were partially offset by a favorable mix of products sold in the Paper segment. The Advanced Materials & Structures (formerly Filtration) segment benefited from \$9.3 million in net sales from the business acquisitions made in December 2014.

Gross profit declined \$0.5 million to \$52.4 million in the three months ended September 30, 2015 compared with \$52.9 million in the prior-year period primarily due to \$5.2 million in unfavorable net foreign currency translation impacts mainly driven by a weaker euro. In the Paper and Reconstituted Tobacco segments, lower average selling prices, primarily in LIP paper, along with lower overall sales volumes and an unfavorable mix of products sold in the Reconstituted Tobacco segment were partially offset by lower manufacturing expenses, improved factory utilization,

and a favorable mix of products sold in the Paper segment. The Advanced Materials & Structures segment benefited

25

primarily from higher volumes resulting from business acquisitions made in December 2014 and lower raw material costs partially offset by unfavorable product mix due to lower sales to oil, gas, and mining related customers.

Cash provided by operations was \$24.5 million in the third quarter of 2015 compared to \$34.4 million in the prior-year period. The \$9.9 million decrease was due primarily to \$7.9 million unfavorable quarter over quarter net change in operating working capital. Uses of cash during the third quarter of 2015 included \$4.9 million of capital spending, \$11.6 million cash dividends paid to SWM stockholders and \$1.9 million net repayments of debt.

On September 17, 2015, the Company entered into an Equity Interest Purchase Agreement (the "Purchase Agreement") with SWM-Argotec, LLC, a Delaware limited liability company and indirect wholly-owned subsidiary of the Company, Argotec Intermediate Holdings Two LLC, a Delaware limited liability company, Argotec Intermediate Holdings LLC, a Delaware limited liability company ("Argotec"), Argotec LLC, a Delaware limited liability company, Argotec Holdings LLC, a Delaware limited liability company and certain equity holders of Argotec Holdings LLC listed on the signature pages of the Purchase Agreement, which Purchase Agreement provided for the acquisition of all of the equity interests in Argotec and its subsidiaries. The purchase price was \$280 million in cash, subject to certain customary adjustments. Argotec is a manufacturer of thermoplastic polyurethane films used in a wide range of industries and market segments, including automotive paint protection, glass lamination, medical, graphics, textiles, and other industrial applications. On October 28, 2015, the Company completed the transaction. In connection with the completion of the Argotec transaction, the Company also entered into a second amended and restated credit agreement, the Amended Credit Agreement, which replaced its then-existing five year revolving credit facility.

In September 2015, the Company changed the name of its Filtration segment to the Advanced Materials & Structures segment. The change was made to reflect the nature of the businesses that comprise that segment.

Year-to-Date Highlights

In the nine months ended September 30, 2015, SWM reported net income of \$68.0 million on total net sales of \$554.3 million. Compared to the prior-year period, net sales decreased \$58.3 million due primarily to \$61.2 million of unfavorable net foreign currency translation impacts mainly driven by a weaker euro. While the Paper and Reconstituted Tobacco segments were impacted by lower average selling prices, primarily in LIP paper, lower sales volumes and an unfavorable mix of products sold in the Reconstituted Tobacco segment, the Advanced Materials & Structures segment benefited from \$24.5 million in net sales from the business acquisitions made in December 2014 along with some growth in the organic business.

Gross profit declined \$11.1 million to \$158.6 million in the nine months ended September 30, 2015 compared with \$169.7 million in the prior-year period primarily due to \$14.7 million in unfavorable net foreign currency translation impacts mainly driven by a weaker euro. In the Paper and Reconstituted Tobacco segments, lower sales volumes and lower average selling prices and slight increases in manufacturing costs were partially offset by improved overhead absorption. The Advanced Materials & Structures segment benefited from higher sales volumes associated with the business acquisitions made in December 2014 along with organic business growth, lower raw material costs, and \$2.9 million in lower purchase accounting fair market value adjustments in inventory in 2015, partially offset by unfavorable product mix due to lower sales to oil, gas, and mining related customers.

Cash provided by operations was \$80.2 million in the first nine months of 2015 compared to \$91.8 million in the prior-year period. The \$11.6 million decrease was due primarily to lower net income, combined with the impact of certain non-cash adjustments to net income, including \$2.9 million in lower amortization associated with the inventory step up value from the Advanced Materials & Structures segment acquisitions in December 2014 and 2013, higher income from equity affiliates generated by the startup of China Tobacco Schweitzer (Yunnan) Reconstituted Tobacco Co. Ltd., or CTS, our RTL joint venture in China, in late 2014, and \$4.3 million net gain from the recognition of the sale of water rights at our Spotswood, New Jersey facility for which the cash was received in a prior period. This was partially offset by \$5.1 million favorable year-over-year net change in operating working capital and the non-cash impact of \$3.5 million of restructuring impairment at our Philippines RTL site. Uses of cash during the nine months ended September 30, 2015 included \$14.0 million of capital spending, \$34.7 million cash dividends paid to SWM stockholders, and \$32.4 million net repayments of debt.

Three Months Ended September 30, 2015 Compared with the Three Months Ended September 30, 2014

Net Sales

(dollars in millions)

	Three Months Ended		Change	Percent Change	Consolidated Sales Volume Change	
	September 30, 2015	September 30, 2014			2015	2014
Paper	\$112.8	\$130.7	\$(17.9)	(13.7)%	(2.0))%
Reconstituted Tobacco	29.6	40.3	(10.7)	(26.6)	(10.0))
Advanced Materials & Structures	42.0	33.3	8.7	26.1	N.M.	
Total	\$184.4	\$204.3	\$(19.9)	(9.7)%	(4.5))%

N.M. - Not Meaningful

Net sales were \$184.4 million in the three months ended September 30, 2015 compared with \$204.3 million in the prior-year period. The decrease in net sales consisted of the following (dollars in millions):

	Amount	Percent
Changes due to net foreign currency impacts	(22.0)	(10.8)%
Changes due to royalty income	(0.5)	(0.2)
Changes due to discounts, returns and allowances	(0.1)	—
Changes in volume, product mix and selling prices	2.7	1.3
Total	\$(19.9)	(9.7)%

The Paper segment's net sales during the three months ended September 30, 2015 of \$112.8 million decreased by \$17.9 million, or 13.7%, versus \$130.7 million in the prior-year period. This decrease in net sales was primarily the result of \$16.7 million of unfavorable net foreign currency translation impacts, mainly from a weaker euro, \$0.5 million in lower royalties received and the combined \$0.7 million impact of lower average selling prices, mainly from LIP pricing concessions, lower sales volumes and favorable overall mix of products sold.

The Reconstituted Tobacco segment's net sales during the three months ended September 30, 2015 of \$29.6 million decreased by \$10.7 million, or 26.6%, compared with \$40.3 million in the prior-year period. This decrease in net sales of the Reconstituted Tobacco segment resulted primarily from \$5.1 million in unfavorable net foreign currency translation impacts and a combined \$5.6 million impact of lower sales volumes and unfavorable mix of products sold.

The increase of \$8.7 million, or 26.1%, in net sales generated by our Advanced Materials & Structures segment of \$42.0 million compared to \$33.3 million in the prior-year period was primarily due to \$9.3 million in net sales from acquisitions made in December 2014, partially offset by unfavorable product mix due to lower sales to oil, gas, and mining related customers.

Gross Profit

(dollars in millions)

	Three Months Ended		Change	Percent Change	Percent of Net Sales	
	September 30, 2015	September 30, 2014			2015	2014
Net Sales	\$184.4	\$204.3	\$(19.9)	(9.7)%	100.0%	100.0%
Cost of products sold	132.0	151.4	(19.4)	(12.8)	71.6	74.1
Gross Profit	\$52.4	\$52.9	\$(0.5)	(0.9)%	28.4%	25.9%

The \$0.5 million decrease in gross profit during the three months ended September 30, 2015 versus the prior-year period was primarily due to approximately \$5.0 million of unfavorable net foreign currency translation impacts

mainly

28

driven by a weaker euro. In the Paper and Reconstituted Tobacco segments, lower average selling prices in Paper and lower overall sales volumes and an unfavorable mix of products sold in the Reconstituted Tobacco segment were partially offset by lower manufacturing expenses, improved factory utilization in paper operations, and a favorable mix of products sold in the Paper segment. The Advanced Materials & Structures segment benefited from higher sales volumes resulting primarily from business acquisitions made in December 2014, and lower raw material costs partially offset by unfavorable product mix due to lower sales to oil, gas, and mining related customers. Overall gross profit margin increased 2.5% versus the prior year quarter primarily due to improved manufacturing utilization in paper operations.

Nonmanufacturing Expenses (dollars in millions)

	Three Months Ended			Percent Change	Percent of Net Sales		
	September 30, 2015	September 30, 2014	Change		2015	2014	
Selling expense	5.5	5.5	\$—	—	% 3.0	% 2.7	%
Research expense	3.5	3.6	(0.1)	(2.8)	1.9	1.8	
General expense	10.3	15.3	(5.0)	(32.7)	5.6	7.5	
Nonmanufacturing expenses	\$19.3	\$24.4	\$(5.1)	(20.9)	% 10.5	% 11.9	%

Nonmanufacturing expenses in the three months ended September 30, 2015 decreased by \$5.1 million to \$19.3 million from \$24.4 million in the prior-year period due primarily to approximately \$1.5 million in favorable net foreign currency translation impacts mainly from a weaker euro and \$4.2 million in lower general expenditures, primarily due to timing of expenses year over year. These were partially offset by approximately \$0.3 million in incremental costs from acquisitions made in December 2014.

Restructuring and Impairment Expense

The Company incurred total restructuring and impairment expense of \$1.3 million in the three months ended September 30, 2015 compared with \$3.3 million in the three months ended September 30, 2014. In the third quarter of 2015, the restructuring expense primarily related to the implementation of a voluntary retirement program announced in late 2014 and available to certain employees at our French manufacturing facilities. This restructuring expense will be accrued over the remaining service lives of the affected employees, of which \$1.4 million was recognized during the three months ended September 30, 2015. In the third quarter of 2014, the restructuring expense related to a previously announced voluntary redundancy program for our Spay, France facility as well as a loss on the sale of our Lee Mills facility and severance costs incurred during the period related to employees in our Brazil manufacturing facility.

Operating Profit (dollars in millions)

	Three Months Ended			Percent Change	Return on Net Sales		
	September 30, 2015	September 30, 2014	Change		2015	2014	
Paper	\$22.6	\$16.0	\$6.6	41.3	% 20.0	% 12.2	%
Reconstituted Tobacco	7.8	11.1	(3.3)	(29.7)	26.4	27.5	
Advanced Materials & Structures	4.7	3.6	1.1	30.6	11.2	10.8	
Unallocated expenses	(3.3)	(5.5)	2.2	(40.0)			
Total	\$31.8	\$25.2	\$6.6	26.2	% 17.2	% 12.3	%

Operating profit was \$31.8 million in the three months ended September 30, 2015 compared with \$25.2 million during the prior-year period.

The Paper segment's operating profit in the three months ended September 30, 2015 was \$22.6 million, an increase of \$6.6 million, or 41.3%, from the prior-year period. The increase was primarily due to the impact of \$1.9 million favorable mix of products sold, as well as lower manufacturing expenses and improved factory utilization of approximately \$5.0 million compared to the prior year quarter and \$2.0 million in lower restructuring expenses. These were partially offset by the impact of \$0.7 million in lower average selling prices, mainly from LIP pricing concessions, and lower sales volumes, \$1.5 million in higher inflationary costs, and \$1.6 million in unfavorable net foreign currency translation impacts.

The Reconstituted Tobacco segment's operating profit in the three months ended September 30, 2015 was \$7.8 million compared to \$11.1 million in the prior-year period. The decrease of \$3.3 million was primarily due to \$1.4 million in unfavorable net foreign currency translation impacts, primarily due to a weaker euro. Additionally, the year-over-year decrease was impacted by a combined \$1.9 million impact of lower sales volumes and unfavorable mix of products sold partially offset by the combined impact of lower manufacturing and inflationary costs, and improved overhead absorption.

The Advanced Materials & Structures segment's operating profit in the three months ended September 30, 2015 was \$4.7 million compared to \$3.6 million in the prior year period. The increase of \$1.1 million in the Advanced Materials & Structures segment's operating profit during the three months ended September 30, 2015 compared to the prior-year period was positively impacted by incremental operating profit resulting from acquisitions made in December 2014 and lower raw material costs partially offset by unfavorable product mix due to lower sales to oil, gas, and mining related customers.

Non-Operating Expenses

Interest expense was \$1.7 million in the three months ended September 30, 2015, a decrease of \$0.1 million from \$1.8 million in the prior-year period. The weighted average effective interest rate on our debt facilities was approximately 1.47% and 1.50% for the three months ended September 30, 2015 and 2014, respectively.

Other income, net was \$1.3 million during the three months ended September 30, 2015. The \$1.4 million decrease in other income, net compared to \$2.7 million in the three months ended September 30, 2014 was due primarily to \$1.3 million in higher transactional foreign currency losses, mostly from our Brazil operations.

Income Taxes

A \$5.9 million provision for income taxes in the three months ended September 30, 2015 resulted in an effective tax rate of 18.8% compared with 8.8% in the prior year period. The increase in the effective tax rate was primarily attributed to a concentration of earnings from higher taxed jurisdictions. Additionally, the third quarter 2014 tax rate was driven lower by several discrete tax items.

Income from Equity Affiliates

Income from equity affiliates was \$0.1 million in the three months ended September 30, 2015 compared with a loss of \$0.7 million during the prior-year period and reflected the results of operations of CTM and CTS, our joint ventures in China. The increase in earnings was driven by the commencement of operations at CTS in late 2014.

Discontinued Operations

Because we closed our Philippines mill, as previously reported, the results of this mill were reported as discontinued operations for all periods presented. Consequently, this mill's results have been removed from each line of the statements of income and the operating activities section of the statements of cash flow. In each case, a separate line

has been added for the net results of the discontinued operation. The income from discontinued operations of \$0.2 million in the three months ended September 30, 2015 related to adjustments made in the course of settlement of certain assets and liabilities at our closed Philippines mill.

Net Income and Income per Share

Net income in the three months ended September 30, 2015 was \$25.8 million, or \$0.85 per diluted share, compared with \$23.0 million, or \$0.76 per diluted share, during the prior-year period. The increase in net income was primarily due to higher sales volumes in the Advanced Materials & Structures segment and improved factory utilization and favorable product mix in the Paper segment, partially offset by lower selling prices in the Paper segment, lower Reconstituted Tobacco segment volumes and unfavorable mix of products sold, and unfavorable net foreign currency translation impacts of approximately \$3.3 million, or \$0.11 per diluted share.

Nine Months Ended September 30, 2015 Compared with the Nine Months Ended September 30, 2014

Net Sales

(dollars in millions)

	Nine Months Ended		Change	Percent Change	Consolidated Sales Volume Change
	September 30, 2015	September 30, 2014			
Paper	\$328.8	\$384.6	\$(55.8)	(14.5)%	(2.4)%
Reconstituted Tobacco	102.4	130.9	(28.5)	(21.8))
Advanced Materials & Structures	123.1	97.1	26.0	26.8	N.M.
Total	\$554.3	\$612.6	\$(58.3)	(9.5)%	(2.4)%

N.M. - Not Meaningful

Net sales were \$554.3 million in the nine months ended September 30, 2015 compared with \$612.6 million in the prior-year period. The decrease in net sales consisted of the following (dollars in millions):

	Amount	Percent
Changes due to net foreign currency impacts	(61.2)	(10.0)%
Changes due to royalty income	(1.4)	(0.2)
Changes in volume, product mix and selling prices	4.3	0.7
Total	\$(58.3)	(9.5)%

The Paper segment's net sales during the nine months ended September 30, 2015 of \$328.8 million decreased by \$55.8 million, or 14.5%, versus \$384.6 million in the prior-year period. This decrease in net sales was primarily the result of approximately \$42 million of unfavorable net foreign currency translation impacts, mainly resulting from a weaker euro, \$1.4 million in lower royalty income, and a \$12.0 million combined impact of lower average selling prices, lower sales volumes, and favorable overall mix of products sold.

The Reconstituted Tobacco segment's net sales during the nine months ended September 30, 2015 of \$102.4 million decreased by \$28.5 million, or 21.8%, compared with \$130.9 million in the prior-year period. This decrease in net sales of the Reconstituted Tobacco segment resulted primarily from approximately \$18.1 million in unfavorable net foreign currency translation impacts along with a combined \$10.4 million impact of lower sales volumes and unfavorable mix of products sold.

The increase of \$26.0 million, or 26.8% in net sales generated by our Advanced Materials & Structures segment of \$123.1 million compared to \$97.1 million in the prior-year period was due primarily to \$24.5 million in net sales from acquisitions made in December 2014 as well as \$1.5 million in core business growth.

Gross Profit
(dollars in millions)

	Nine Months Ended		Change	Percent Change	Percent of Net Sales	
	September 30, 2015	September 30, 2014			2015	2014
Net Sales	\$554.3	\$612.6	\$(58.3)	(9.5)%	100.0	% 100.0
Cost of products sold	395.7	442.9	(47.2)	(10.7)	71.4	72.3
Gross Profit	\$158.6	\$169.7	\$(11.1)	(6.5)%	28.6	% 27.7

The \$11.1 million decrease in gross profit during the nine months ended September 30, 2015 versus the prior-year period was primarily due to \$14.7 million of unfavorable net foreign currency translation impacts mainly driven by a weaker euro. In the Paper and Reconstituted Tobacco segments, lower sales volumes, lower average selling prices in the Paper segment and slight increases in manufacturing costs were partially offset by improved overhead absorption. The Advanced Materials & Structures segment benefited from higher sales volumes associated with the business acquisitions made in December 2014, lower raw material costs, and \$2.9 million in lower purchase accounting fair market value adjustments in inventory in 2015, partially offset by unfavorable product mix due to lower sales to oil, gas, and mining related customers.

Nonmanufacturing Expenses
(dollars in millions)

	Nine Months Ended		Change	Percent Change	Percent of Net Sales	
	September 30, 2015	September 30, 2014			2015	2014
Selling expense	\$16.0	\$16.5	\$(0.5)	(3.0)%	2.9	% 2.7
Research expense	10.5	11.9	(1.4)	(11.8)	1.9	1.9
General expense	43.3	45.9	(2.6)	(5.7)	7.8	7.5
Nonmanufacturing expenses	\$69.8	\$74.3	\$(4.5)	(6.1)%	12.6	% 12.1

Nonmanufacturing expenses in the nine months ended September 30, 2015 decreased by \$4.5 million to \$69.8 million from \$74.3 million in the prior-year period due primarily to approximately \$4.8 million in favorable net foreign currency translation impacts mainly from a weaker euro, \$1.5 million in lower expenditures resulting from reorganization measures taken in our research and development and sales and marketing units, and timing of expenses year over year, partially offset by \$4.1 million in higher incremental costs from acquisitions, and \$1.2 million of incremental costs from the operations of our Luxembourg office which was established in late 2014.

Restructuring and Impairment Expense

The Company incurred total restructuring and impairment expense of \$10.5 million in the nine months ended September 30, 2015 compared with \$6.6 million in the nine months ended September 30, 2014. In the 2015 period, the restructuring expense primarily related to the implementation of a voluntary retirement program announced in late 2014 and available to certain employees at our French manufacturing facilities. This restructuring expense will be accrued over the remaining service lives of the affected employees, of which \$7.0 million was recognized during the 2015 period. During 2015, the Company also recognized a loss of \$0.7 million on the sale of certain equipment from our mothballed Philippines site and \$2.8 million of loss recognized to write down equipment at that same Philippines site to its expected recoverable sales value. In the 2014 period, the restructuring expense primarily related to the implementation of a previously announced voluntary redundancy program available to certain employees at our Spay, France facility as well as recognition of a loss on the sale of the Lee Mills manufacturing facility and costs related to severance of employees in our Brazil manufacturing facility.

Operating Profit
(dollars in millions)

	Nine Months Ended			Percent Change	Return on Net Sales		
	September 30, 2015	September 30, 2014	Change		2015	2014	
Paper	\$59.0	\$60.1	\$(1.1)	(1.8)%	17.9	% 15.6	%
Reconstituted Tobacco	24.6	39.0	(14.4)	(36.9)	24.0	29.8	
Advanced Materials & Structures	12.6	7.9	4.7	59.5	10.2	8.1	
Unallocated expenses	(17.9)	(18.2)	0.3	(1.6)			
Total	\$78.3	\$88.8	\$(10.5)	(11.8)%	14.1	% 14.5	%

Operating profit was \$78.3 million in the nine months ended September 30, 2015 compared with \$88.8 million during the prior-year period.

The Paper segment's operating profit in the nine months ended September 30, 2015 was \$59.0 million, a decrease of \$1.1 million from the prior-year period. The decrease was primarily due to the combined impact of lower average selling prices, primarily in LIP paper, lower sales volumes, partially offset by an overall favorable mix of products sold, which negatively impacted operating profit by \$8.8 million in the nine months ended September 30, 2015 compared to the prior-year period, along with \$5.7 million of increased inflationary, manufacturing and overhead costs. The impact of these factors was partially offset by \$10.6 million in improved overhead absorption as a result of improved factory utilization and \$2.0 million in lower restructuring costs incurred.

The Reconstituted Tobacco segment's operating profit in the nine months ended September 30, 2015 was \$24.6 million compared to \$39.0 million in the prior-year period. The decrease of \$14.4 million was primarily due to \$6.3 million in unfavorable net foreign currency translation impacts, primarily due to a weaker euro. Additionally, the year-over-year decrease was impacted by a \$5.9 million increase in restructuring expenses incurred by our French operations during 2015 as well as a combined \$7.0 million impact of lower sales volumes and unfavorable mix of products sold. The Reconstituted Tobacco segment benefited from the combined \$4.3 million impact of average lower manufacturing, material and overhead costs as a result of restructuring actions and other production efficiencies.

The Advanced Materials & Structures segment's operating profit in the nine months ended September 30, 2015 was \$12.6 million compared to \$7.9 million in the prior year period. The increase of \$4.7 million in the Advanced Materials & Structures segment's operating profit during the nine months ended September 30, 2015 compared to the prior-year period was positively impacted by \$2.9 million lower amortization associated with the inventory step up value from Advanced Materials & Structures segment acquisitions in December 2014 and 2013. Operating profit in this segment was also impacted by incremental operating profit resulting from acquisitions made in December 2014 as well as lower material costs, partially offset by unfavorable product mix associated with lower sales to oil, gas, and mining related customers.

Non-Operating Expenses

Interest expense was \$5.3 million in the nine months ended September 30, 2015, consistent with \$5.4 million in the prior-year period. The weighted average effective interest rate on our debt facilities was approximately 1.44% and 1.50% for the nine months ended September 30, 2015 and 2014, respectively.

Other income, net was \$9.5 million during the nine months ended September 30, 2015. The \$3.2 million increase in other income, net compared to \$6.3 million during the nine months ended September 30, 2014 was due primarily to the recognition of a gain of \$4.3 million related to the sale of water rights at our Spotswood, New Jersey facility as well as a \$1.0 million reversal of accrued contingent consideration related to an acquisition made in the Advanced

Materials & Structures segment in December 2014, partially offset by higher transactional foreign currency losses in 2015 versus the prior year period.

Income Taxes

A \$17.9 million provision for income taxes in the nine months ended September 30, 2015 resulted in an effective tax rate of 21.7% compared with 20.8% in the prior year period. The increase in the effective tax rate was primarily attributed to a change in our geographic mix of earnings with a concentration of earnings from higher taxed jurisdictions during the 2015 period.

Income from Equity Affiliates

Income from equity affiliates was \$4.3 million in the nine months ended September 30, 2015 compared with \$0.2 million during the prior-year period and reflected the results of operations of CTM and CTS. The increase in earnings was driven primarily by the commencement of operations at CTS in late 2014.

Discontinued Operations

Because we closed our Philippines mill as previously reported, the results of this mill were reported as discontinued operations for all periods presented. Consequently, this mill's results have been removed from each line of the statements of income and the operating activities section of the statements of cash flow. In each case, a separate line has been added for the net results of the discontinued operation. The loss from discontinued operations of \$0.9 million incurred in the nine months ended September 30, 2015 related to the write down to estimated recoverable value of certain assets at our closed Philippines mill as well as recognition of estimated taxes due to the local taxing authority.

Net Income and Income per Share

Net income in the nine months ended September 30, 2015 was \$68.0 million, or \$2.22 per diluted share, compared with \$71.2 million, or \$2.32 per diluted share, during the prior-year period. The decrease in net income was primarily due to lower average selling prices, lower sales volume and unfavorable mix of products sold as well as higher restructuring costs and unfavorable net foreign currency translation impacts of approximately \$8.6 million, or \$0.30 per diluted share, partially offset by higher sales volumes and lower raw material costs in the Advanced Materials & Structures segment.

Liquidity and Capital Resources

The Company has created a long-term capital allocation strategy which is focused on the following:

Reinvesting capital in businesses through a disciplined approach to meet global demand for value-adding solutions;

Returning at least one-third of annual free cash flow to stockholders via dividends and/or share repurchase programs;
and

Retaining flexibility to execute growth opportunities in current and adjacent industries.

A major factor in our liquidity and capital resource planning is our generation of cash flow from operations, which is sensitive to changes in the mix of products sold, sales volume and selling prices of our products, as well as changes in our production volumes, costs, foreign currency exchange rates and working capital. Our liquidity is supplemented by funds available under our Credit Agreement (as defined below) with a syndicate of banks that is used as either operating conditions or strategic opportunities warrant.

As of September 30, 2015, \$260.3 million of the Company's \$268.5 million of cash and cash equivalents was held by foreign subsidiaries. Movement of cash balances may have significant tax consequences. The Company considers the undistributed earnings of certain of its foreign subsidiaries to be indefinitely reinvested overseas and currently plans to repatriate such earnings only when it is tax efficient to do so. We believe that we are able to maintain a sufficient level of liquidity for our domestic operations and commitments without repatriation of the cash held by these other foreign subsidiaries. Certain global business realignments and other activities have been implemented that could permit the eventual repatriation of certain of these funds. The Company established a holding company in Luxembourg in 2014. As a result of the new holding company structure, beginning in 2014, some of the foreign earnings flow directly to the U.S., and these earnings are no longer considered to be permanently reinvested overseas.

We expect capital spending for 2015 to be between approximately \$20 million and \$25 million. We generally fund our capital projects using cash on-hand, cash generated from operations and our existing credit facilities, including the Amended Credit Agreement.

Cash Requirements

As of September 30, 2015, we had net operating working capital of \$114.0 million and cash and cash equivalents of \$268.5 million, compared with net operating working capital of \$99.3 million and cash and cash equivalents of \$290.3 million as of December 31, 2014. These changes primarily reflect the impacts of changes in currency exchange rates and changes in operating working capital presented on the unaudited condensed consolidated statements of cash flow contained in this report.

Cash Flows from Operating Activities (\$ in millions)	Nine Months Ended	
	September 30, 2015	September 30, 2014
Net Income	\$68.0	\$71.2
Less: Loss from discontinued operations	(0.9)	(0.1)
Income from continuing operations	68.9	71.3
Non-cash items included in net income:		
Depreciation and amortization	29.0	34.9
Restructuring-related impairment	3.5	—
Deferred income tax provision	0.5	2.6
Pension and other postretirement benefits	3.4	2.9
Stock-based compensation	1.8	4.3
Income from equity affiliates	(4.3)	(0.2)
Gain on sale of intangible assets	(4.3)	—
Excess tax benefits of stock-based awards	(0.5)	(0.6)
Cash dividends received from equity affiliates	3.9	4.4
Other items	0.3	(0.9)
Net changes in operating working capital	(22.5)	(27.6)
Net cash provided by operating activities of:		
Continuing operations	79.7	91.1
Discontinued operations	0.5	0.7
Net cash provided by operations	\$80.2	\$91.8

Net cash provided by operations was \$80.2 million in the nine months ended September 30, 2015 compared with \$91.8 million in the prior-year period. Our net cash provided by operations decreased primarily due to lower net income combined with the impact of certain adjustments to net income for non-cash items including \$2.9 million lower amortization associated with the inventory step up value from Advanced Materials & Structures segment acquisitions in December 2014 and 2013, recognition of \$4.3 million of gain on the sale of water rights at our Spotswood, New Jersey facility for which the cash was received in a prior period, and the non-cash impact of higher income from equity affiliates generated by CTS, which began operations in late 2014. The change in net cash provided by operations was also impacted by \$5.1 million favorable year-over-year net change in operating working capital and \$3.5 million of restructuring-related impairment at our Philippines RTL site.

Operating Working Capital (\$ in millions)	Nine Months Ended	
	September 30, 2015	September 30, 2014
Changes in operating working capital		
Accounts receivable	\$(32.6)	\$(30.2)
Inventories	(3.0)	11.2
Prepaid expenses	—	(0.7)
Accounts payable	2.0	3.6
Accrued expenses	(1.5)	(5.1)
Accrued income taxes	12.6	(6.4)
Net changes in operating working capital	\$(22.5)	\$(27.6)

In the nine months ended September 30, 2015, net changes in operating working capital used cash of \$22.5 million compared to the prior-year period, in which net changes in operating working capital used cash of \$27.6 million. This

favorable change in working capital was primarily driven by an decrease in income taxes payable from a refund of prior year taxes paid in France, partially offset by increases in inventory compared to the fourth quarter of 2014.

In the nine months ended September 30, 2014, net changes in operating working capital used cash of \$27.6 million. This unfavorable change in working capital was driven primarily by an increase in accounts receivable due to higher net sales at the end of the third quarter 2014 compared to the fourth quarter 2013, increased receivables related to our French LTR unit providing technical services work to CTS and utilization of open customer credits, as well as timing of income tax installment payments.

Cash Flows from Investing Activities (\$ in millions)	Nine Months Ended	
	September 30, 2015	September 30, 2014
Capital spending	\$ (14.0)) \$ (26.2)
Capitalized software costs	(0.7)) (0.5)
Acquisitions, net of cash acquired	(0.4)) (2.3)
Investment in equity affiliates	—) (8.8)
Other	2.9) 3.5
Cash used for investing	\$ (12.2)) \$ (34.3)

Cash used for investing activities during the nine months ended September 30, 2015 was \$12.2 million and consisted primarily of capital spending, compared to \$34.3 million in the prior year quarter which, along with capital spending, included equity contributions to CTS and a working capital adjustment related to our acquisition of DelStar.

Cash Flows from Financing Activities (\$ in millions)	Nine Months Ended	
	September 30, 2015	September 30, 2014
Cash dividends paid to SWM stockholders	\$ (34.7)) \$ (33.0)
Net (payments of) proceeds from borrowings	(32.4)) 63.4
Purchases of common stock	(2.9)) (52.5)
Excess tax benefits of stock-based awards	0.5) 0.6
Cash used for financing	\$ (69.5)) \$ (21.5)

During the nine months ended September 30, 2015, financing activities consisted primarily of share repurchases of \$2.9 million in connection with the surrender of shares by employees to satisfy their personal statutory income tax withholding obligations related to equity awards which vested during the period, cash dividends of \$34.7 million paid to SWM stockholders, and net repayments of proceeds from borrowings of \$32.4 million.

During the nine months ended September 30, 2014, financing activities consisted primarily of share repurchases of \$52.5 million and cash dividends of \$33.0 million paid to SWM stockholders, partially offset by net proceeds from borrowings of \$63.4 million.

Dividend Payments

We have declared and paid cash dividends on our common stock every fiscal quarter since the second quarter of 1996. On November 4, 2015, we announced a cash dividend of \$0.40 per share payable on December 24, 2015 to stockholders of record as of November 27, 2015. The covenants contained in our Amended Credit Agreement (as defined below) require that we maintain certain financial ratios, as disclosed in Note 16. Subsequent Events, of the notes to unaudited condensed consolidated financial statements, none of which under normal business conditions would materially limit our ability to pay such dividends. We plan to continue to assess our dividend policy in light of our capital allocation strategy, cash generation, debt levels and ongoing requirements for cash to fund operations and

to pursue possible strategic opportunities.

37

Share Repurchases

In the nine months ended September 30, 2015, we repurchased 63,365 shares of our common stock at a cost of \$2.9 million for the value of employees' stock-based compensation share awards surrendered to satisfy their personal statutory income tax withholding obligations, as discussed above. See Part II, Item 2, Unregistered Sales of Equity Securities and Use of Proceeds.

In the nine months ended September 30, 2014, we repurchased 1,161,812 shares of our common stock for \$52.5 million through open market purchases in connection with our first quarter 2014 share repurchase program and for the value of employees' stock-based compensation share awards surrendered to satisfy their personal statutory income tax withholding obligations.

Debt Instruments and Related Covenants

Debt Instruments and Related Covenants (\$ in millions)	Nine Months Ended	
	September 30, 2015	September 30, 2014
Changes in short-term debt	\$0.2	\$5.5
Proceeds from issuances of long-term debt	35.5	215.3
Payments on long-term debt	(68.1) (157.4
Net (payments on) proceeds from borrowings	\$(32.4) \$63.4

Net payments on long-term debt were \$32.6 million during the nine months ended September 30, 2015. With the current level of borrowing and forecasted results, we expect to remain in compliance with the financial covenants contained in our Credit Agreement.

As of September 30, 2015, the Company's five-year unsecured revolving credit facility, or Credit Agreement, provided for borrowing capacity of \$500 million and included a \$300 million equivalent sub-limit available in euro with an option to increase borrowing capacity by \$200 million, subject to the discretion of the lenders. Availability under the Credit Agreement was \$111.8 million as of September 30, 2015. We also had availability under our bank overdraft facilities and lines of credit of \$28.7 million as of September 30, 2015.

The Credit Agreement contained certain covenants and provisions that, among other things, required the Company to maintain (a) a maximum net debt to EBITDA ratio of 3.00 and (b) a minimum interest coverage ratio of 3.50. The Company was in compliance with all of its covenants under the Credit Agreement at September 30, 2015.

On October 28, 2015, the Company entered into a second amended and restated credit agreement, or the Amended Credit Agreement, providing for credit facilities in the aggregate principal amount of \$1 billion, consisting of a \$650 million revolving credit facility available to the Company and certain of its subsidiaries; a \$100 million Term Loan A-1 made to the Company; and a \$250 million Term Loan A-2 made to the Company. On October 28, 2015, the Company borrowed the Term Loans under the Amended Credit Agreement in the aggregate amount of \$350 million as well as \$329.5 million under the revolving credit facility. The credit facilities are secured by substantially all of the personal property of the Company and its domestic subsidiaries and the obligations of the Company's foreign subsidiaries under the Revolving Credit Facility are also secured by certain assets of such foreign subsidiaries.

The Amended Credit Agreement also contains representations and warranties which are customary for facilities of this type and covenants and provisions that, among other things, require the Company to maintain (a) a maximum net debt to EBITDA ratio of 3.50, reducing to 3.00 after September 30, 2016 and (b) minimum interest coverage of 3.00. The Amended Credit Agreement contains provisions allowing the Company to increase the leverage ratio upon the occurrence of a material acquisition or the incurrence of unsecured indebtedness.

Our total debt to capital ratios at September 30, 2015 and December 31, 2014 were 46.5% and 47.4%, respectively.

Off-Balance Sheet Arrangements

As of September 30, 2015, we did not have any significant off-balance sheet arrangements, as defined in Item 303(a)(4)(ii) of SEC Regulation S-K.

Other Factors Affecting Liquidity and Capital Resources

Our pension obligations are funded by our separate pension trusts, which held \$139.1 million in assets at December 31, 2014. The combined projected benefit obligation of our U.S. and French pension plans was underfunded by \$30.6 million as of December 31, 2014. We make contributions to our pension trusts based on many factors, including regulatory guidelines, investment returns of the trusts and availability of cash for pension contributions compared to other priorities. We are not required to make contributions to our U.S. and French pension plans during 2015.

The Paper segment has minimum purchase agreements for flax fiber during 2015 of approximately \$3 million. The Paper segment's PDM Industries S.A.S., or PDMI, mill has a minimum annual commitment for calcium carbonate purchases, a raw material used in the manufacturing of some paper products, which totals approximately \$2 million per year through 2024. Future purchases are expected to be at levels that exceed such minimum levels under these contracts.

The Company has agreements with an energy cogeneration supplier in France whereby the supplier constructed and operates a cogeneration facility at certain of our mills and supplies steam that is used in the operation of these mills. The Company is committed to purchasing minimum annual amounts of steam generated by these facilities under the agreements through 2024. These minimum annual commitments total approximately \$4 million. The Company's current and expected requirements for steam at these facilities are at levels that exceed the minimum levels under the contracts.

Schweitzer-Mauduit do Brasil Industria e Comércio de Papel Ltda., our Paper segment's Brazilian mill, has an agreement for the transmission and distribution of energy that covers 100% of the mill's consumption of electrical energy valued at approximately \$4 million annually through 2015. The French mills have contracts for natural gas to be distributed to and consumed at PDMI, LTRI and St. Girons. The value of the natural gas and distribution to be provided under these contracts is estimated at approximately \$16 million in 2015.

Outlook

We believe that SWM's solid operating foundation and technology position allow us to seize opportunities in our tobacco business by providing value-adding solutions to our customers. Smoking attrition rates in mature areas drive the overall demand decline for cigarette papers. Based on the current trend of reduced cigarette consumption, especially in the U.S. and Western Europe, we expect our tobacco paper sales volumes to be impacted by the overall industry attrition rates. Based on early customer indications, we expect at least a 10% decline in Reconstituted Tobacco segment sales volumes in 2016 from originally planned 2015 volumes, with weakness in sales volumes potentially continuing through 2017, due to blend reformulations and significant availability of substitute low-price tobacco leaf. We are working closely with several of our customers in developing RTL for heat-non-burn reduced harm tobacco products, which may provide a longer-term partial offset to this anticipated sales volume decline.

We also plan to continue seeking to capitalize on growth opportunities and regulatory trends requiring more sophisticated cigarettes in design and performance. For example, we expect increased demand over time for RTL from CTS, our RTL joint venture in China, as proposed tar delivery limits are implemented in China. To the extent additional countries adopt LIP legislation, we plan to build upon our technology and strong reputation in this premium application to serve our customers' additional needs for those products, which we would expect to lead to an improved margin profile in our Paper segment. The timing of potential regulations and implementations is unknown.

Worldwide economic uncertainty and its effects on foreign exchange volatility can be challenging for our global results. We serve tobacco industry customers and face competitive pressure on pricing and sales volumes worldwide due to the continued decline of cigarette consumption in Western countries. We expect pricing pressure to continue with respect to our LIP products and are continuing to pursue intellectual property litigation in Germany to protect our LIP technology. We cannot give any assurances as to the outcome of this or any other litigation. We also expect to continue to reduce

39

costs through our operational excellence program as well as through restructuring and cost reduction activities. We expect that such cost reductions will deliver value to our customers and help mitigate anticipated inflationary and competitive pressures. In addition, we are evaluating other opportunities to address ongoing imbalances of demand and supply, particularly as tobacco industry growth is occurring primarily in regions such as Asia, in an effort to continue providing competitive and high quality, value-adding solutions in growing areas.

In the third quarter of 2015, we changed the name of the Filtration segment to the Advanced Materials & Structures segment to reflect how we are strategically managing the business going forward. The businesses that comprise this segment have highly complementary technologies and end markets, and our expanded leadership team is focused on extracting significant value from the combination of these assets.

In September 2015, we entered into a definitive agreement to acquire Argotec Intermediate Holdings LLC and its subsidiaries, or Argotec, a manufacturer of highly engineered thermoplastic polyurethane films for demanding specialty applications in surface protection, glass lamination and medical products. On October 28, 2015, we completed the acquisition, which, along with the acquisitions completed during late 2013 and late 2014, provided for diversification beyond the tobacco industry. These businesses comprise our Advanced Materials & Structures segment, and we expect that growth will be driven organically by continued strong demand for these highly differentiated products and potentially by additional acquisitions. We also believe that adjacencies between our specialty filtration, medical and industrial products, the Argotec technologies and certain of SWM's legacy non-tobacco offerings will allow us to realize commercial synergy growth. Similar to our past acquisitions, we expect Argotec to benefit from SWM's global footprint, international sales capabilities, expertise stemming from our operational excellence program and plan to invest capital for growth.

Along with the upcoming launch of new product technology in the filtration business, given the recent volatility of demand in natural resources commodity markets, strong cost control measures and sales mix management may be required in our Advanced Materials & Structures segment to mitigate the recent sales declines from oil, gas and mining related customers. We also plan to continue reviewing various internal and external growth opportunities, including potential acquisitions in, or adjacent to, our Advanced Materials & Structures business unit, to diversify the Company over the long term.

On November 1, 2015, Allison Aden joined the Company as Executive Vice President, Finance and Chief Financial Officer. Ms. Aden has a deep accounting and planning background, including significant M&A and integration experience. She brings more than 30 years of financial, accounting, and management experience to SWM, including most recently serving as Chief Financial Officer at Americold Logistics, LLC and Recall Holdings Limited.

Forward-Looking Statements

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 that are subject to the safe harbor created by that Act. Forward-looking statements include, without limitation, those regarding 2015 outlook and future performance, our capital allocation strategy, including future dividend amounts, mergers and acquisitions, future market trends, future RTL operating profit, sales and volume trends, the development and success of RTL for heat-non-burn applications, smoking attrition rates, acquisition synergies, including those relating to our Advanced Materials & Structures segment, growth prospects, capital spending, the impact of our operational excellence program and other cost savings programs, the sales and profitability of CTS, the adoption of LIP regulations in new countries, the margin profile in our Paper segment, European patent oppositions, currency rates and trends, demand for reconstituted tobacco, future cash flows, benefits associated with our global asset realignment, outcome of litigation (including the LIP litigation) or other disputes, purchase accounting impacts, LIP pricing, future compliance with our credit agreement covenants and other statements generally identified by words such as "believe," "expect," "intend," "plan," "potential," "anticipate," "project," "appear," "should," "could," "may," "typically," "will," and similar words. These statements are not guarantees of future performance and involve

certain risks and uncertainties that may cause actual results to differ materially from our expectations as of the date of this report. These risks include, among other things, those set forth in Part I, Item 1A. Risk Factors of our Annual Report on Form 10-K for the year ended December 31, 2014, as well as the following factors:

Changes in sales or production volumes, pricing and/or manufacturing costs of reconstituted tobacco products, cigarette paper (including for lower ignition propensity cigarettes), filtration-related products due to changing customer demands (including any change by our customers in their tobacco and tobacco-related blends for their cigarettes, their target inventory levels and/or the overall demand for their products), new technologies such as e-cigarettes, inventory adjustments and rebalancings, competition or otherwise;

Changes in the cigarette and tobacco markets in China, including relating to the demand for reconstituted tobacco and premium cigarettes;

Risks associated with the implementation of our strategic growth initiatives, including diversification, and the Company's understanding of, and entry into, new industries and technologies;

Changes in the source and intensity of competition in our market segments;

Our ability to attract and retain key personnel, due to our prior restructuring actions, the tobacco industry in which we operate or otherwise;

Weather conditions, including potential impacts, if any, from climate change, known and unknown, seasonality factors that affect the demand for virgin tobacco leaf and natural disasters or unusual weather events;

Increases in commodity prices and lack of availability of such commodities, including energy, wood pulp and resins, could impact the profitability of our products;

Adverse changes in the oil, gas, and mining sectors impacting key Advanced Materials & Structures segment customers;

Increases in operating costs due to inflation or otherwise, such as labor expense, compensation and benefits costs, including costs related to the comprehensive health care reform law enacted in 2010;

Employee retention and labor shortages;

Changes in employment, wage and hour laws and regulations in the U.S. and France, including loi de Sécurisation de l'emploi, equal pay initiatives, additional anti-discrimination rules or tests and different interpretations of exemptions from overtime laws;

Regulatory or enforcement initiatives by regulatory agencies, including the U.S. Food and Drug Administration or other regulatory agencies, relating to regulation of cigars and cigar components or otherwise;

New reports as to the effect of smoking on human health or the environment;

Changes in general economic, financial and credit conditions in the U.S., Europe and elsewhere, including the impact thereof on currency exchange rates (including any weakening of the euro) and on interest rates;

Existing and future governmental regulation and the enforcement thereof, including regulation relating to the tobacco industry, taxation and the environment;

The success of, and costs associated with, current or future restructuring initiatives, including the granting of any needed governmental approvals and the occurrence of work stoppages or other labor disruptions;

.

Changes in the discount rates, revenue growth, cash flow growth rates or other assumptions used by the Company in its assessment for impairment of assets and adverse economic conditions or other factors that would result in significant impairment charges;

• The failure of one or more material suppliers, including energy, resin and pulp suppliers, to supply materials as needed to maintain our product plans and cost structure;

• International conflicts and disputes (for example, relating to Russia and to the Ukraine), including their impact on our sales and the adoption of new LIP regulations;

• The pace and extent of further international adoption of LIP cigarette standards and the nature of standards so adopted;

• Risks associated with our 50%-owned, non-U.S. joint ventures relating to control and decision-making, compliance, transparency and customer relations, among others;

• A failure in our risk management and/or currency or interest rate swaps and hedging programs, including the failures of any insurance company or counterparty;

• Increase in interest rates or the manner in which we finance our debt and future capital needs, including potential acquisitions;

• The number, type, outcomes (by judgment or settlement) and costs of legal, tax, regulatory or administrative proceedings and or amnesty programs, including those in Brazil;

• The outcome and cost of LIP intellectual property litigation in Germany and the European Patent Office opposition proceedings;

• Labor activities, including strikes or other disruptions, at our facilities and the impact of new regulations or changes in existing regulations and procedures by the National Labor Relations Board or other U.S. and non-U.S. authorities;

• Risks associated with acquisitions or other strategic transactions, including acquired liabilities and restrictions, retaining customers from businesses acquired, achieving any expected results or synergies from acquired businesses, complying with new regulatory frameworks, difficulties in integrating acquired businesses or implementing strategic transactions generally and risks associated with international acquisition transactions, including in countries where we do not currently have a material presence;

• Risks associated with dispositions, including post-closing claims being made against us, disruption to our other businesses during a sale process or thereafter, credit risks associated with any buyer of such disposed assets and our ability to collect funds due from any such buyer;

• Risks associated with our global asset realignment initiatives, including: changes in law, treaties, interpretations, or regulatory determinations; audits made by applicable regulatory authorities and our auditor; and our ability to operate our business in a manner consistent with the regulatory requirements for such realignment;

• Increased taxation on tobacco-related products;

• Costs and timing of implementation of any upgrades or changes to our information technology systems;

• Failure by us to comply with any privacy or data security laws or to protect against theft of customer, employee and corporate sensitive information; and

• Other factors described elsewhere in this document and from time to time in documents that we file with the SEC.

All forward-looking statements made in this document are qualified by these cautionary statements. These forward-looking statements are made only as of the date of this document, and we do not undertake any obligation, other than as may be required by law, to update or revise any forward-looking or cautionary statements to reflect changes in

42

assumptions, the occurrence of events, unanticipated or otherwise, or changes in future operating results over time or otherwise.

Comparisons of results for current and any prior periods are not intended to express any future trends or indications of future performance unless expressed as such, and should only be viewed as historical data.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Our market risk exposure at September 30, 2015 is consistent with, and not materially different than, the market risk and discussion of exposure presented under the caption “Quantitative and Qualitative Disclosures about Market Risk” in Part II, Item 7A of our Annual Report on Form 10-K for the year ended December 31, 2014.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We currently have in place systems relating to disclosure controls and procedures designed to ensure the timely recording, processing, summarizing and reporting of information required to be disclosed in periodic reports under the Securities Exchange Act of 1934, as amended. These disclosure controls and procedures include those designed to ensure that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions about required disclosure. Upon completing our review and evaluation of the effectiveness of our disclosure controls and procedures as of September 30, 2015, our Chief Executive Officer and Chief Financial Officer have concluded that these controls and procedures were effective as of September 30, 2015.

Changes in Internal Control Over Financial Reporting

No changes in our internal control over financial reporting were identified as having occurred in the fiscal quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in various legal proceedings and disputes. See Note 18. Commitments and Contingencies, of the notes to the consolidated financial statements in our Annual Report on Form 10-K for the year ended December 31, 2014 and Note 12. Commitments and Contingencies, of the notes to the unaudited condensed consolidated financial statements included in this report. There have been no material developments with regards to these matters.

Item 1A. Risk Factors

As of September 30, 2015, there were no material changes in the risk factors previously disclosed in Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities By the Issuer and Affiliated Purchasers

The following table indicates the cost of and number of shares of the Company's common stock it has repurchased during 2015:

Issuer Purchases of Equity Securities

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs (# shares)	(\$ in millions)	Approximate Dollar Value of Shares that May Yet be Purchased Under the Programs (\$ in millions)
First Quarter 2015	63,220	46.30			
Second Quarter 2015	145	46.00	—	—	—
Third Quarter 2015	—	—	—	—	—
Total Year-to-Date 2015	63,365	\$46.30	—	\$—	\$—

From time to time, the Company uses corporate 10b5-1 plans to allow for share repurchases to be made at predetermined stock price levels, without restricting such repurchases to specific windows of time. Any future common stock repurchases will be dependent upon various factors, including the Company's stock price, strategic opportunities and cash availability.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Not applicable.

Item 6. Exhibits

Exhibit Number	Exhibit
2.1	Equity Interest Purchase Agreement, dated September 17, 2015, among Schweitzer-Mauduit International, Inc., SWM-Argotec, LLC, Argotec Intermediate Holdings Two LLC, Argotec Intermediate Holdings LLC, Argotec LLC, Argotec Holdings LLC and certain equity holders of Argotec Holdings LLC listed on the signature pages of the Purchase Agreement (incorporated by reference to the Company's Current Report on Form 8-K filed with the SEC on September 21, 2015).*

Schweitzer-Mauduit International, Inc.
(Registrant)

By: /s/ Robert J. Cardin
Robert J. Cardin
Corporate Controller and
Interim Chief Financial Officer
(duly authorized officer and principal accounting officer)

November 4, 2015

GLOSSARY OF TERMS

The following are definitions of certain terms used in this Quarterly Report on Form 10-Q filing:

"Banded cigarette paper" is a type of paper, used to produce lower ignition propensity cigarettes, by applying bands to the paper during the papermaking process.

"Binder" is used to hold the tobacco leaves in a cylindrical shape during the production process of cigars.

"Cigarette paper" wraps the column of tobacco within a cigarette and has varying properties such as basis weight, porosity, opacity, tensile strength, texture and burn rate.

"Flax" is a cellulose fiber from a flax plant used as a raw material in the production of certain cigarette papers.

"Lower ignition propensity cigarette paper" includes banded and print banded cigarette paper, both of which contain bands, which increase the likelihood that an unattended cigarette will self-extinguish.

"Net debt to EBITDA ratio" is a financial measurement used in bank covenants where "Net Debt" is defined as consolidated total debt minus unrestricted cash and cash equivalents in excess of \$15 million, and "EBITDA" is defined as net income plus the sum of interest expense, income tax expense, depreciation and amortization, non-cash restructuring and impairment charges less amortization of deferred revenue and interest in the earnings of equity affiliates to the extent such earnings are not distributed to the Company.

"Total debt to capital ratio" is total debt divided by the sum of total debt and total stockholders' equity.

"Net debt to equity ratio" is total debt less cash and cash equivalents, divided by stockholders' equity.

"Net operating working capital" is accounts receivable, inventory, income taxes receivable and prepaid expense, less accounts payable, accrued expenses and income taxes payable.

"Opacity" is a measure of the extent to which light is allowed to pass through a given material.

"Operating profit return on assets" is operating profit divided by average total assets.

"Plug wrap paper" wraps the outer layer of a cigarette filter and is used to hold the filter materials in a cylindrical form.

"Print banded cigarette paper" is a type of paper, used to produce lower ignition propensity cigarettes, with bands added to the paper during a printing process, subsequent to the papermaking process.

"Reconstituted tobacco" is produced in two forms: leaf, or reconstituted tobacco leaf, and wrapper and binder products. Reconstituted tobacco leaf is blended with virgin tobacco as a design aid to achieve certain attributes of finished cigarettes. Wrapper and binder are reconstituted tobacco products used by manufacturers of cigars.

"Restructuring expense" represents expenses incurred in connection with activities intended to significantly change the size or nature of the business operations, including significantly reduced utilization of operating equipment, exit of a product or market or a significant workforce reduction and charges to reduce property, plant and equipment to its fair value.

"Start-up costs" are costs incurred prior to generation of income producing activities in the case of a new plant, or costs incurred in excess of expected ongoing normal costs in the case of a new or rebuilt machine. Start-up costs can include excess variable costs such as raw materials, utilities and labor and unabsorbed fixed costs.

"Tipping paper" joins the filter element to the tobacco-filled column of the cigarette and is both printable and glueable at high speeds.

"Wrapper" covers the outside of cigars providing a uniform, finished appearance.
