NOTES TO INTERIM FINANCIAL STATEMENTS

1. BASIS OF PRESENTATION

The foregoing unaudited interim financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Regulation S-B as promulgated by the Securities and Exchange Commission. Accordingly, these financial statements do not include all of the disclosures required by generally accepted accounting principles for complete financial statements. These unaudited interim financial statements should be read in conjunction with the audited financial statements for the period ended June 30, 2001. In the opinion of management, the unaudited interim financial statements furnished herein include all adjustments, all of which are of a normal recurring nature, necessary for a fair statement of the results for the interim period presented.

The preparation of financial statements in accordance with generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities known to exist as of the date the financial statements are published, and the reported amounts of revenues and expenses during the reporting period. Uncertainties with respect to such estimates and assumptions are inherent in the preparation of the Company's financial statements; accordingly, it is possible that the actual results could differ from these estimates and assumptions that could have a material effect on the reported amounts of the Company's financial position and results of operations.

Operating results for the nine-month period ended March 31, 2002 are not necessarily indicative of the results that may be expected for the year ending June 30, 2002.

---

PART II.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR RESULTS OF OPERATIONS

Financial Condition, Liquidity and Capital Resources

Since inception on June 26, 2000, our Company has been engaged in exploration and acquisition of mineral properties. Our Company's principal capital resources have been acquired through issuance of common stock and from shareholder loans.

At March 31, 2002, we had positive working capital of \$17,695 compared to \$48,428 at June 30, 2001. This change is primarily the result of increased activity of the Company resulting in expenses in all major categories.

At March 31, 2002, our Company's total assets of \$19,102 consisted of mainly cash, which compares with our Company's assets at June 30, 2001 of \$51,335, also mainly of cash.

At March 31, 2002, our Company's total liabilities were \$1,272 down from \$2,772 at June 30, 2001.

Our Company has not had revenues from inception. Although there is insufficient capital to fully explore and develop its mineral properties, our Company expects to survive and exploit its resources primarily with funding from sales of its securities and, as necessary, from shareholder loans.

Our Company has no long-term debt and does not regard long-term borrowing as a good, prospective source of financing.

Results of Operations

Our Company posted a loss of \$30,733 for the nine months ending March 31, 2002. The principal components of the loss were travel, rent, professional expenses, and general office and administrative expenses.

Operating expenses for the nine months ending March 31, 2002 were \$30,733 up from \$29,975 in the same period of the prior year as a rise in general and administrative expenses, travel and rent more than offset a decline in legal and accounting expenses.

---

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized on this 29th day of April 2002.
