FIRST FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

PART I - FINANCIAL INFORMATION

1 - Basis of Presentation

The financial information included herein for First Financial Corporation, and all of its wholly owned and majority owned subsidiaries (the "Company") is unaudited; however, such unaudited information reflects all adjustments which are, in management's opinion, necessary for a fair presentation of the financial position, results of operations and statement of cash flows for the interim periods. In preparing these financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenue and expense for the period. Actual results could differ significantly from those estimates.

As more fully discussed in Form 8-K dated November 14, 2002, effective July 31, 2002, the Company acquired all of the outstanding common stock of First Preference Mortgage Corp. ("FPMC") so that the Company directly owns 100% of the capital stock of FPMC. FPMC was a third-tier subsidiary of Key Group, Ltd. ("Key Group"), a Texas Limited Partnership, which the Company owned an approximately 53% interest. The Company's consolidated statements of income include the revenue and expense of Key Group for the period January 1, 2002 to July 31, 2002 and the revenue and expense of FPMC for the period August 1, 2002 to September 30, 2002. The minority interest in net loss (income) represents the ownership of other entities in the net loss (income) of Key Group.

The results of operations and changes in cash flow for the nine-month period ended September 30, 2002 are not necessarily indicative of the results to be expected for the full year.

Certain reclassifications were made to prior periods to ensure comparability with the current period.

2 - Earnings Per Share

Earnings per common share were computed by dividing net income by the weighted average number of shares outstanding.

3 - Income Taxes

Income taxes are provided for the tax effects of transactions reported in the financial statements and consist of taxes currently due plus deferred taxes related primarily to differences between the basis of the loan loss reserve for financial and income tax reporting. The deferred tax assets and liabilities represent the future tax return consequences of those differences, which will either be taxable or deductible when the assets and liabilities are recovered or settled. Deferred taxes also are recognized for operating losses that are available to offset future taxable income and tax

credits that are available to offset future federal income taxes. The Company has approximately \$6,000,000 in available net operating loss carryforward benefits for financial statement purposes to offset future income, if any. A valuation allowance has been provided for all tax benefits.

4 - Contingencies

Substantially all of the conventional pools of manufactured home loans serviced by the Company, approximately \$347,000 at September 30, 2002, were sold to investors with recourse. The recourse provisions typically require the Company to repurchase delinquent loans at the unpaid balances plus accrued interest, or replace delinquent loans with another loan which is current. Further, several of the agreements require the Company to establish and maintain cash reserve accounts. Deposits are periodically made to the accounts equal to a specified percent of the outstanding loans. The accounts may be used to cover deficiencies from foreclosure and liquidation of delinquent pooled mortgage loans. Such cash reserve accounts totaled \$10,495 and are included in restricted cash at September 30, 2002.

Item 2. Management's Discussion and Analysis of Results of Operations and Financial Condition

Results of Operations

The Company had net income of \$374,836 for the nine months ended September 30, 2002 compared to net income of \$91,386 for the same period in 2001. Loan administration revenues were \$5,304,859 for the first nine months of 2002 compared to \$6,379,531 for the same period of 2001. The decrease in loan administration revenues is the result of decreased loan origination fees from the Company's retail branch mortgage loan operations. During the nine months ended September 30, 2002, First Preference Mortgage Corp. ("FPMC"), funded approximately \$63.6 million in retail residential mortgage loans and approximately \$409.2 million in wholesale loans compared to approximately \$108.0 million and \$311.9 million during the same period in 2001, respectively. Revenue generated by retail loans is approximately 450% of the revenue received from wholesale loans. In addition, during the nine months ended September 30, 2002, the revenues from the sale of the mortgage loans to governmental and private investors decreased significantly due to the unstable market conditions that prevailed during the period.

For the seven months ended July 31, 2002, Key Group had a net loss of (\$786,352) compared to net income of \$207,190 for the nine months ended September 30, 2001. This significant change by Key Group is primarily due to the decrease in retail residential mortgage loan originations and reduced revenues from the sale of the mortgage loans as discussed above. The Company's share of the net income (loss) of Key Group was (\$416,303) for the seven months ended July 31, 2002 and \$109,678 for the nine months ended September 30, 2001. The minority interest in the net loss of Key Group amounted to \$370,049 for the seven months ended July 31, 2002 compared to a minority interest in the net income of (\$97,512) for the nine months ended September 30, 2001. The minority interest represents the ownership of other entities in the Key Group net income or net loss.

For the two months ended September 30, 2002, FPMC had net income of \$744,522. Approximately \$636,000 of the net income is attributable to the recoupment of an asset valuation reserve that was required to be recorded by FPMC in connection with its acquisition by the Company as discussed above.

Interest income for the nine months ended September 30, 2002 amounted to \$1,590,831 compared to \$1,447,001 for the same period in 2001. This increase is primarily due to the increase in new residential mortgage loans originated during the first nine months of 2002 as compared to 2001 as discussed above. FPMC earns interest from the date the mortgage loan is closed until the date the mortgage loan is sold to investors.

Salaries and related expenses decreased to \$4,392,897 for the nine months ended September 30, 2002, compared to \$4,601,443 for the same period in 2001. This decrease is primarily due to the reduction in the amount of commission expense resulting from decreased retail residential mortgage loan originations as discussed above.

For the nine months ended September 30, 2002, interest expense amounted to \$1,027,707 compared to \$1,236,440 for the same period in 2001. The decrease in interest expense for the nine months ended September 30, 2002 is primarily due to decrease in the weighted average interest rate from 6.31% for the nine months ended September 30, 2001 to 4.40% for the same period in 2002.

During the nine months ended September 30, 2002, the provision for losses under servicing agreements was (\$0) resulting in a balance in the reserve for losses under servicing agreements of \$236,929 at September 30, 2002. For the nine months ended September 30, 2001, the Company had a negative provision for losses under servicing agreements of (\$0) which resulted in a balance in the reserve for losses under servicing agreements of \$236,929 at September 30, 2001. As previously discussed, under the terms of certain of its servicing agreements, the Company is at risk for any credit losses and costs of foreclosure, net of credit insurance proceeds, if any, sustained on default of the borrower. The Company has analyzed its servicing portfolio characteristics, including servicing portfolio balance, loss experience, maturity and aging of the loans and the credit insurance coverage on the loans. Based on this analysis, it is the Company's belief that its reserve for losses under servicing agreements is adequate for potential losses attributable to the servicing agreements.

Other income for the nine months ended September 30, 2002 amounted to \$1,562,087 compared to \$1,011,478 for the same period in 2001. In the second quarter of 2001, the Company evaluated its billings for consulting fees and increased the fees to reflect the current cost of providing these services. In addition, FPMC recognized approximately \$636,000 in other income as discussed above.

The consolidated statements of income for the nine months ended September 30, 2002 reflect equity in the net loss of affiliates of (\$206) compared to a net loss of \$25,248 for the same period in 2001.

Other comprehensive income consists of unrealized holding gains (losses) on marketable investment securities net of income taxes. For the nine months ended September 30, 2002, unrealized holding gains amounted to \$16,315 compared to unrealized holding losses of (\$25,248) for the nine months ended September 30, 2001.

Financial Condition

At September 30, 2002, the Company's total assets were \$48,752,270 compared to \$28,219,264 at September 30, 2001. Included in the Company's total assets at September 30, 2002 are the assets of FPMC which amounted to \$47,080,637. At September 30, 2001 the Company's assets included the assets of Key Group which amounted to \$25,220,754. The FPMC assets at September 30, 2002 consisted primarily of cash and cash equivalents of \$673,059, accounts and notes receivable of \$1,277,937, mortgage loans of \$41,777,247, property and equipment of \$444,191, real estate of \$444,000 and prepaid expenses and other assets of \$1,464,203. The minority interest in the net assets of Key Group at September 30, 2001 amounted to \$1,421,991.

On consolidated basis, cash and cash equivalents (including restricted cash) were \$1,580,368 at September 30, 2002. Included therein was cash and cash equivalents of FPMC of \$673,059 and Apex Lloyds Insurance Company of \$869,151. The cash flow of FPMC is only available to the Company as allowed under the terms of FPMC's mortgage warehouse line of credit agreement. The cash flow of Apex Lloyds Insurance Company is only available to the Company as allowed by state insurance regulations.

As more fully discussed in the Annual Report Form 10-KSB for the year ended December 31, 2001, FPMC has a mortgage warehouse line of credit with a financial institution totaling \$45,000,000 which expired March 31, 2002. This agreement was extended until October 31, 2002 and was subsequently extended to April 30, 2003. This agreement includes certain financial covenants including requirements to maintain FPMC stockholders' equity above \$3,500,000 and adjusted-tangible-net worth above \$3,200,000. Also, FPMC's total liabilities to adjusted tangible net worth may never exceed 15 to 1. In addition, FPMC has a loan participation agreement with another financial institution amounting to \$17,000,000. Under this agreement, the financial institution has the option to purchase an undivided interest in the residential mortgage loans originated by FPMC. When the subject mortgage loan is sold in the secondary market, the financial institution recoups its investment plus a specified yield on its investment.

Item 3. Controls and Procedures

Within the 90 days prior to the filing of this report, the Company evaluated the effectiveness of the design and operation of its disclosure controls and procedures. The evaluation was carried out under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer. Based on and as of the date of the evaluation, the Chief Executive Officer and the Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company, including its consolidated subsidiaries, required to be included in reports the Company files with or submits to the Securities and Exchange Commission under the Securities Exchange Act of 1934. There have been no significant changes in the Company's internal controls or in other factors that could significantly affect the Company's internal controls subsequent to the date of the evaluation.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is involved in routine litigation incidental to its business, both as a plaintiff and a defendant. Management of the Company, after consulting with legal counsel, feels that liability resulting from the litigation, if any, will not have a material effect on this financial position of the Company.

Item 5. Other Information
