Pro-forma operating margin increased to 11.2% from 8.3% in 2004

Pro-forma gross margin, which excludes amortization of acquired intangible assets in the fourth quarter, reached a record 57.7%, up from 56.2% in the fourth quarter 2004. Pro-forma gross margin for the year reached 56.7% compared with 55.0% for the year 2004.

The company also reported record fourth quarter 2005 pro-forma operating profit of \$12.7 million and operating margin of 14.1%, compared with \$9.2 million and 13.2%, respectively, in the fourth quarter of 2004. For the year, pro-forma operating profit increased to \$34.9 million from \$20.9 million in 2004 and operating margins switched to double digit for the first time at 11.2% from 8.3% in 2004.

Fourth quarter 2005 pro-forma net income was \$12.3 million or \$0.57 per fully diluted share, up from \$9.2 million or \$0.48 per fully diluted share in the same quarter of 2004. Pro-forma net income for the year was \$34.6 million or \$1.67 per fully diluted share, compared with net income of \$22.2 million or \$1.19 per fully diluted share for 2004.

On a GAAP basis: fourth quarter gross margin was 57.1%, compared with 56.0% in the fourth quarter of 2004; operating profit was \$11.7 million and operating margin was 13.0%, compared with \$9.0 million and 12.9%, respectively, in the fourth quarter of 2004; and fourth quarter net income was \$16.1 million, or \$0.74 per fully diluted share, compared with net income of \$9.0 million, or \$0.47 per share, on a fully diluted basis, for the fourth quarter of 2004.

Total cash and equivalents at December 31, 2005 rose to \$411.6 million compared with \$184.9 million at September 30, 2005 and with \$165.9 million at the end of 2004.

Commenting on the results, Haim Shani, Chief Executive Officer of NICE said, "2005 was an outstanding year. We posted record results throughout the year, having more than doubled our revenues over the last three years and having achieved the highest profitability since our inception."

"Our strong performance is primarily the result of our unique strategy for leading the Insight from Interactions(TM) revolution in each of our sectors. In the enterprise interactions solutions sector we accelerated the momentum of NICE Perform, with a strong trend of repeat orders. We also doubled the number of our VoIP customers and have seen the dollar value per deal grow significantly. In the public and security sector, NICE won several strategic bids with our next generation of digital video security solutions, which have become the de-facto choice for public authorities seeking to ensure citizen security. We also further consolidated our leadership in the emergency communications market."

"We remain confident that the strong momentum of our Insight from Interactions solutions, as supported by our vision and powerful growth strategy, will continue to generate growth in 2006."

Ran Oz, NICE's Corporate Vice President and Chief Financial Officer, stated, "We had a very strong booking momentum over the last seven quarters with a book-to-bill ratio consistently greater than one. Our strong backlog coming into 2006 gives us excellent visibility. Accordingly, we provide the following guidance for the first quarter of 2006, which is higher than our initial plan: Revenue is expected to be between \$84 and \$87 million, and pro-forma EPS, on a fully diluted basis, in the range of \$0.37 - \$0.41."

Mr. Oz continued, "Our strong forward visibility gives us confidence for substantial growth in fiscal year 2006, and enables us to raise our previously announced full year 2006 revenue guidance to be between \$367 - \$375 million; and adjust the EPS guidance, on a fully diluted basis, to \$1.90-\$2.00, to account for the raised revenue guidance and the additional 4.6 million shares from our December 2005 public offering.

Conference Call

NICE will host a conference call to discuss the results and its business outlook today at 8:30 a.m. EST (15:30 Israel).
