PROXY STATEMENT

The Board of Directors of Escalade, Incorporated (hereinafter referred to as "Escalade" or the "Company"), headquartered at 817 Maxwell Avenue, Evansville, Indiana 47711 (812) 467-4449, is soliciting proxies, the form of which is enclosed, for the Annual Meeting of Stockholders to be held on Friday, April 24, 2009, at 7:30 a.m. Central Daylight Savings Time. Each of the 12,616,042 shares of common stock outstanding on February 20, 2009 is entitled to one vote on all matters acted upon at the meeting and only stockholders of record on the books of the Company at the close of business on February 20, 2009 will be entitled to vote at the meeting, either in person or by proxy.

The shares represented by all properly executed proxies received by the Company will be voted as designated and each not designated will be voted affirmatively. Unless discretionary authority is withheld, all other matters coming before the meeting will be voted according to the best judgment of the proxies. Any proxy given by a stockholder of record may be revoked at any time before it is voted, by written notice to the Company's Secretary, by execution of a later dated proxy, or by a personal vote at the Annual Meeting. This proxy statement is being mailed to stockholders on or about April 9, 2009.

The expense of soliciting proxies will be borne by the Company. Proxies will be solicited principally by mail, but may also be solicited by directors, officers, and other regular employees of the Company, who will receive no compensation in addition to their regular salaries. Bankers and others who hold stock in trust will be asked to send proxy materials to the beneficial owners of the stock, and the Company may reimburse them for their expenses.

The holders of a majority of the Company's outstanding common stock must be present or represented by proxy at the Annual Meeting to constitute a quorum.

The eight (8) nominees receiving the greatest number of votes cast at the Annual Meeting upon the presence of a quorum will be elected as directors. A properly executed proxy marked "Withhold Authority to Vote" with respect to the election of one or more directors will not be voted with respect to the director or directors indicated, although it will be counted for purposes of determining whether there is a quorum present at the Annual Meeting. The persons named as proxies in the enclosed proxy will vote for the election of the nominees named below unless authority to vote is withheld.

For each other item presented at the Annual Meeting, the affirmative vote of the holders of a majority of the Company's shares present or represented by proxy at the Annual Meeting and entitled to vote on the item will be required for approval. A properly executed proxy marked "Abstain" with respect to any such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum present at the Annual Meeting. Accordingly, an abstention will have the effect of a negative vote.

If you hold your shares in "street name" through a broker or other nominee, your broker or nominee may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. Thus, if you do not give your broker or nominee specific instructions, your shares may not be voted on those matters and will not be counted in determining the number of shares necessary for approval. Shares represented by such "broker non-votes" will be counted in determining whether there is a quorum.

The Annual Report of the Company for its fiscal year 2008 is being mailed to you with this proxy statement, but such report and financial statements are not a part of this proxy statement.

The following table sets forth certain information regarding beneficial ownership of the Company's common stock by its named Executive officers (as defined on page 9) and by the only stockholders deemed to be beneficial owners of 5% or more of the common stock of the Company as of February 20, 2009.

**ITEM NO. 1
ELECTION OF DIRECTORS**

The Board of Directors currently has seven members and the Board has voted to increase the size of the Board to eight (8) members as of the date of the Annual Meeting. The nominees presented for election include the seven individuals who are current directors and one new nominee, Patrick J. Griffin, the Company's Vice President Sales & Marketing, Martin Yale International. Those persons whose names are set forth below are standing for election. The term of office of elected directors is until the next Annual Meeting or their successors are elected and qualified.

Director candidates are nominated by the independent members of the Board of Directors, as the Company does not believe that it is necessary to have a separate Nominating Committee, as such nominations are handled by the full board. The Board has determined that a potential candidate to be nominated to serve as a director should have the following primary attributes: high achievement expectations with regard to increasing stockholder value; uncompromising position on maintaining ethics; conservative attitude towards financial accounting and disclosure; and should be a stockholder of the Company to bring the perspective of a stockholder to the Board. To date, the Board has not deemed it necessary to engage a third party search firm to assist in identifying suitable candidates for directors, but has the authority to do so in the future. No fees were paid to any such search firm in connection with the nominees for directors named in this proxy statement. The Board believes that the existing Board members and executive management of the Company have sufficient networks of business contacts that will likely form the candidate pool from which nominees will be identified. Once a candidate is identified, as many members of the Board as feasible will meet with such candidate and the Board as a whole subsequently will evaluate the candidates using the criteria outlined above. The independent Board members will then make the final determination of whether or not to nominate the candidate.

The Board is increasing the size of the Board by one member and is nominating Patrick J. Griffin, the Company's Vice President Sales & Marketing, Martin Yale International. Patrick Griffin is also the son of Robert E. Griffin, the Company's Chairman of the Board and largest stockholder. The Board believes that Mr. Griffin satisfies the criteria set forth above in selecting him as a nominee for director.

The Company does not have a formal process by which stockholders can propose nominees to serve as directors. If any stockholder would desire to submit the names and qualifications of potential candidates for directors, the Board would evaluate the possible nominee according to the above criteria and would consider such person in comparison to all other candidates and the number of directors then constituting the Board. The Company has not received any such proposals for this Annual Meeting. Accordingly, the Board has made no rejections or refusals of such candidates.

While there is no reason to believe that any of the persons nominated will, prior to the date of the meeting, refuse or be unable to accept the nomination, should any person nominated so refuse or become unable to accept, it is the intention of the persons named in the proxy to vote for such other person or persons as the Directors recommend.

The Board does not have a formal policy regarding director attendance at the Annual Meeting. Typically, the Board holds its annual organizational meeting directly following the Annual Meeting, which results in most directors being able to attend the Annual Meeting.

With the exceptions of Messrs. Griffin and Keller who are executive officers of the Company and Patrick J. Griffin, an employee of the Company, the Board has determined that all of the above named incumbent directors have met the independence standards of Rule 4200(a)(15) of the National Association of Securities Dealers listing standards.

The Board of Directors unanimously recommends that you vote FOR Proposal 1 relating to the election of directors.

BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

To the best of the Company's knowledge, all of the Company's directors, officers and 10% or more stockholders have timely filed with the Securities and Exchange Commission all reports required to be so filed pursuant to Section 16 of the Securities Exchange Act of 1934 for fiscal 2008, except that Mr. Keller had one late Form 4 filing regarding the restricted stock units awarded by the Company in February 2008.

BOARD OF DIRECTORS, ITS COMMITTEES, MEETINGS, AND FUNCTIONS

The Board of Directors of the Company currently consists of two members who are executive officers (Robert E. Griffin and Robert J. Keller) and five independent members (Blaine E. Matthews, Jr., Edward E. Williams, Richard D. White, George Savitsky and Richard F. Baalman, Jr.). If elected as a director at the Annual Meeting, Patrick J. Griffin is an employee of the Company and will not be considered an independent director.

During 2008, all Directors attended 100% of all meetings of the Board of Directors and the committees on which they served. The Board of Directors had six meetings and the independent directors held regular executive sessions in conjunction with four of the Board meetings. The Board has not designated a lead or presiding director to chair executive sessions.

REPORT OF THE AUDIT COMMITTEE

In accordance with its written charter as adopted by the Board of Directors (Board), the Audit Committee of the Board (Committee) assists the Board in fulfilling its responsibility for oversight of the quality and integrity of the accounting, auditing and financial reporting practices of Escalade. All of the Committee members are independent directors as defined under NASDAQ rules. During fiscal year 2008, the Committee met five times, and discussed the interim financial information contained in each quarterly earnings announcement with the Chief Financial Officer and independent auditors prior to public release.

In discharging its oversight responsibility as to the audit process, the Committee obtained from the independent auditors a formal written statement describing all relationships between the auditors and the Company that might bear on the auditors' independence consistent with Independence Standards Board Standard No. 1, Independence discussions with Audit Committees, discussed with the auditors any relationships that may impact their objectivity and independence and satisfied itself as to the auditors' independence. The Audit Committee also discussed and considered whether the provision of non-audit services by the Company's auditors is consistent with the auditors' independence. The Audit Committee has determined that the provisions of such services are consistent with the auditors' independence. The Committee also discussed with management, and the independent auditors the quality and adequacy of Escalade's internal controls. The Committee reviewed with the independent auditors their audit plan, audit scope and identification of audit risks.

The Committee discussed and reviewed with the independent auditors all communications required by auditing standards generally accepted in the United States of America, including those described in Statement on Auditing Standards No. 61, as amended, Communication with Audit Committees, and, with and without management present, discussed and reviewed the results of the independent auditors' examination of the financial statements.

The Committee reviewed the audited financial statements of Escalade as of and for the year ended December 27, 2008, with management and the independent auditors. Management has the responsibility for the preparation of financial statements and the independent auditors have the responsibility for the examination of those statements.

Based on the above-mentioned review and discussions with management and the independent auditors, the Committee recommended to the Board that Escalade's audited financial statements be included in its Annual Report on Form 10-K for the year ended December 27, 2008, for filing with the Securities and Exchange Commission.

REPORT OF THE COMPENSATION COMMITTEE

The Compensation Committee has reviewed and discussed with the Company's management the Compensation Discussion and Analysis (CD&A) as well as the accompanying tables set forth below. Based on that discussion, the Committee recommended to the Board of Directors that the CD&A be included in this proxy statement and incorporated into the Company's Annual Report on Form 10-K for the Company's fiscal year ended December 27, 2008.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

In 2008, all members of the Compensation Committee were independent directors and served the full year. No other director or executive officer of the Company serves on any board of directors or compensation committee of any entity that compensates any of Messrs. White, Baalman, and Savitsky.

COMPENSATION DISCUSSION AND ANALYSIS (CD&A)

Compensation Philosophy

The Company's philosophy in setting compensation policies for its named executive officers is to align pay with performance, while at the same time providing competitive compensation that allows the Company to retain and attract executive talent. The Compensation Committee, composed entirely of independent Directors, establishes, approves and evaluates the Company's compensation policies applicable to the named executive officers.

Throughout this proxy statement, all references to the named executive officers means Robert E. Griffin, Robert J. Keller and Terry D. Frandsen, the individuals identified under EXECUTIVE COMPENSATION Summary Compensation Table. Throughout 2008, Mr. Keller served as the Company's Chief Executive. Mr. Frandsen served as the Company's Chief Financial Officer for all of 2008 until his resignation in January, 2009.

The Compensation Committee strongly believes that executive compensation should be directly linked to continuous improvements in corporate performance and increases in stockholder value. Consequently the Compensation Committee has adopted the following guidelines for use in evaluating executive compensation:

Provide a competitive total compensation package that enables Escalade to attract and retain key executive talent;

Align all pay programs with Escalade's annual and long-term business strategies and objectives; and

Provide a mix of base and performance-leveraged variable compensation that directly links executive compensation to the performance of Escalade and stockholder return.

Compensation Program; Mix of Pay Components

Consistent with the above philosophy, the Compensation Committee currently utilizes the following components of compensation for the Company's named executive officers:

Base salary;

Annual incentive cash bonuses;

Long-term equity incentives, historically in the form of stock options and/or restricted stock units; and

Health, welfare and other benefits

Executive compensation is based on a pay-for-performance philosophy. Consequently, a significant portion of annual and long-term compensation for the named executive officers is at-risk. This provides additional upside potential and downside risk for the Company's Chief Executive Officer and Chief Financial Officer, recognizing that the individuals serving in these roles have greater influence on the performance of the Company.

Other than employees working under collective bargaining agreements and Mr. Keller, the Company's Chief Executive Officer, all employees of the Company, including the named executive officers, are employed at will, without employment agreements, severance payment arrangements or change in control agreements. In order to induce Mr. Keller to accept the Company's offer to become its Chief Executive Officer in August 2007, the Compensation Committee believed that it was necessary and appropriate to offer Mr. Keller certain potential payments upon termination or change in control which are described under Executive Compensation Potential Payments upon Termination or Change in Control.

The Role of the Compensation Committee and Method of Determining Amount of Total Compensation

The Compensation Committee is responsible for the approval and administration of compensation programs for the named executive officers. The Committee focuses on the attraction and retention of key executives and, when making decisions, considers the Company's compensation philosophy, the achievement of business goals set by the Company, relevant peer data, the competitive environment in which the Company competes for talent, how the Company is positioned for the future, and recommendations made by the Company's Chairman and Chief Executive Officer. While the Committee primarily focuses on compensation for the named executive officers, the Committee also reviews the compensation of certain other key employees, such as the subsidiary and division heads, and the appropriateness and fairness of the allocation of annual incentive compensation among the participants in such plans at the subsidiary level.

In 2008, the Committee reviewed all compensation components for the Company's named executive officers and together with the Board of Directors, reviewed and evaluated the level of performance of the Company and of each executive officer, including the Chief Executive Officer and Chief Financial Officer, in order to determine current and future appropriate compensation levels. In addition, the Committee conducted an annual review of the Company's compensation philosophy to ensure that it remains appropriate given the Company's strategic objectives. In 2006, the Committee took the following actions, the results from which the Committee considers still relevant and therefore did not deem it necessary to repeat these procedures in 2008:

Engaged Frederic W. Cook & Co., Inc., an internationally recognized compensation consulting firm to advise on executive officer compensation, to provide the Committee with relevant market data and to advise the Committee on alternatives when making compensation decisions for the named executive officers. Except for services provided by Frederic W. Cook & Co., Inc. at the request of the Compensation Committee, there is no other affiliation between the consultant and the Company or the Company's management.

Conducted a review of compensation paid by companies that are similar in terms of industry, business, market capitalization, asset size and geographic footprint. The competitive market data for the study came from two recognized external compensation survey sources, and was deemed to fairly represent the labor markets in which the Company competes for executive talent. The market information served as one of the factors in determining the total compensation for the Company's executive officers.

Except for the Escalade, Incorporated 2007 Incentive Plan which was approved by stockholders at the 2008 Annual Meeting, the Compensation Committee does not participate in any programs which they administer.

Role of Executive Officers in Compensation Decisions

Mr. Griffin, the Company's Chairman, occasionally participates in Compensation Committee meetings and the compensation of the Company's other named executive officers, but does not make any recommendations regarding his own compensation. Consistent with the Committee's past practices, Mr. Keller, as the Company's current Chief Executive Officer, will make recommendations regarding the compensation for the Company's Chief Financial Officer, but will not make recommendations for either himself or Mr. Griffin. Although the Committee considers recommendations by Messrs. Griffin and Keller along with data provided by its other advisors, the Committee retains full discretion to set all compensation for the Company's named executive officers.

Base Salary

The Compensation Committee seeks to compensate the named executive officers competitively within the industry while at the same time designing compensation components that base a significant portion of total compensation on performance. In general, base salary levels are set at the beginning of each year at levels believed by the Compensation Committee to be sufficient to attract and retain qualified executives when considered with the other components of the Company's compensation structure. The primary considerations in determining whether base salaries will be adjusted is the Company's income level generated in the previous year and any changes in level of responsibility. The Compensation Committee also subjectively reviews the individual performance of each named executive officer, based on the performance of the Company and the individual's level of contribution towards that performance.

Accordingly, for fiscal 2008 the Compensation Committee established base salaries for the Company's key executives with the intent to motivate performance by providing significant upside potential through incentive compensation and less on guaranteed compensation in the form of salaries. The Compensation Committee does not target any specific benchmark for base salary levels for its key executives compared to comparable companies within the Company's industries, but generally believes that base salaries should be in the lower half of such comparisons coupled with significant opportunities to achieve high incentive, performance based compensation. The Compensation Committee considered the scope of and accountability associated with each executive officer's position in addition to such factors as the performance and experience of each executive officer when setting base salary levels for fiscal 2008.

In 2008, the Compensation Committee made no change to the base salary of \$300,000 for Robert J. Keller, the Company's Chief Executive Officer pursuant to the terms of his employment offer letter. The Compensation Committee increased the base salary for Terry D. Frandsen, the Company's Chief Financial Officer, by 3.0% to \$187,000. The Compensation Committee believed that such salaries were warranted for each such officer based primarily on the Company's performance and their contribution to such results.

In 2008, the Compensation Committee made no change to the base salary for Robert E. Griffin, the Company's Chairman of the Board.

In February 2009, the Compensation Committee established the 2009 base salary levels for Mr. Keller and Mr. Griffin. The base salary for Mr. Keller was voluntarily reduced by 10% to \$270,000 and the base salary of Mr. Griffin was voluntarily reduced 10% to \$50,580. These salary reductions for 2009, along with other cost saving measures company-wide, were implemented to improve the operating performance of the Company. In March 2009, the Company appointed Deborah J. Meinert as the Company's new Chief Financial Officer and the Compensation Committee set her 2009 base salary at \$132,000.

Annual Cash Incentive Bonus

The Compensation Committee believes a large portion of each executive officer's total compensation should come from performance based results. In 2008, the Compensation Committee approved a Profit Incentive Bonus Plan (the "Bonus Plan") based on the ratio of net income before taxes (NIBT) to invested capital, defined as beginning shareholders equity plus average debt outstanding during the year. Under this Bonus Plan, three bonus pools were generated; one for each business segment (Sporting Goods and Office Products) based on their separate performance and one for named executives based on the Company as a whole. The Compensation Committee reviews, approves and/or modifies target performance levels suggested by management that dictate the factors used to generate the bonus pools. Bonus pools are calculated by multiplying NIBT before incentive bonuses by the applicable bonus factor based on actual results achieved.

Virtually all employees are eligible to participate in the Bonus Plan and amounts paid under the Bonus Plan are determined and dispersed following completion of the Company's annual audited financial statements. Based on performance targets established by the Compensation Committee, the three bonus pools are created. While the amounts of the bonus pools are determined by the target performance levels established early in the fiscal year to which the bonuses relate, the Compensation Committee has discretion to alter the amount of the individual bonus pools based on factors that significantly change the dynamics of the business or the environment in which the business operates. The Compensation Committee reviews and approves the bonus pool allocations based on recommendations submitted by Mr. Keller in consultation with the senior management in each business unit. Criteria used in determining the amount of bonus allocated to each employee include the employee's level of responsibility, level of performance, and the individual's overall contribution to the success of the business segment.

For 2008, the business results fell below the minimum threshold for generating bonus pools and the Compensation Committee determined that no bonus awards would be made.

Long Term Equity Incentives

Each year, the Compensation Committee determines the amount and character of any long term equity incentive grants to the Company's executive officers and other eligible employees. The Committee considers equity grants to be an effective incentive to encourage stock ownership by officers and key employees increasing their proprietary interest in the success of the Company. At the 2007 Annual Meeting, stockholders approved the Escalade Incorporated 2007 Incentive Plan ("2007 Incentive Plan") which provides a broader array of long-term incentive awards for grant to the Company's employees, including the Chief Executive Officer and Chief Financial Officer. In 2008, the Compensation Committee determined that granting restricted stock units was the best method of satisfying the Committee's compensation philosophy and objectives of directly connecting long term incentives to achieving long term performance objectives. Accordingly the Company granted 25,000 and 12,000 restricted stock units to Messrs. Keller and Frandsen, respectively.

Each restricted stock unit grant includes a performance adjustment factor based on performance targets (net income before taxes) set annually by the Compensation Committee in consultation with senior management. If the Company achieves 110% or more of the performance target, the number of restricted stock units granted increases by 50%; conversely, if the Company achieves 90% or less of the performance target, the number of restricted stock units decreases by 25%. The actual results for 2008 were less than 90% of the performance target set by the Compensation Committee. As a result the number of restricted stock units granted to Mr. Frandsen was decreased by 3,000 (25% of 12,000) so the net amount granted was 9,000 restricted stock units. Mr. Keller's units were reduced by 6,250 (25% of 25,000) so that the net amount granted was 18,750 restricted stock units. The Compensation Committee believes the performance adjustment factor is an integral part of the restricted stock unit grant and intends to include it in all future grants to employees.

Edgar Filing: ESCALADE INC - Form DEF 14A

The restricted stock units granted to Messrs Keller and Frandsen vest at the end of three years provided that the named executive is still employed by the Company and that certain performance criteria related to the market price of the Company's stock is satisfied. The criteria in 2008 is for any 30 consecutive trading days on the NASDAQ Stock Market (or such other principal securities exchange on which the Company's shares of common stock are then traded) during the period beginning on the grant date and ending on the third anniversary thereof, the closing price per share is at least 15% higher than the closing price per share on the grant date (plus any dividends paid by the Company during such three year period). Mr. Frandsen resigned in January, 2009 so any unvested restricted stock units have been forfeited. The 2008 award for Mr. Keller was valued at \$6.16 per unit.

Health, Welfare and Other Benefits

The Company provides medical, life, 401(k) plan and similar benefits to all of its salaried employees, including the named executive officers. Other than a non-qualified deferred compensation plan in which Mr. Griffin participates, none of these benefits discriminate in scope, terms or operation in favor of the named executive officers.

Tax and Accounting Considerations

As necessary, the Compensation Committee reviews accounting and tax laws, rules and regulations that may affect the Company's compensation plans. However, tax and accounting considerations have not significantly impacted the compensation programs offered to the Company's executives. Section 162(m) of the Internal Revenue Code generally provides that certain compensation in excess of \$1 million per year paid to a company's chief executive officer and any of its four other highest paid executive officers is not deductible by a company unless the compensation qualifies for an exception. Based on the Compensation Committee's past compensation practices, the Committee does not currently believe that Section 162 (m) will adversely affect the Company's ability to obtain a tax deduction for compensation paid to its named executive officers.

Pension Benefits

Other than the Company's 401(k) defined contribution plan, the Company has no pension plans in which the named executive officers participate.

Nonqualified Deferred Compensation

The Company maintains a nonqualified deferred compensation plan that allowed Mr. Griffin, and certain other executive officers who are no longer with the Company, to defer a portion of their incentive bonuses earned during each of the years between 1985 and 1992. The Company provided a matching contribution equal to 70% of the deferred amount. The plan is unfunded and amounts owed to participants under the plan are subject to the claims of general creditors of the Company. The Company accrues interest on the balance owed to participants at the rate of 9% compounded monthly. This plan is intended to comply with the requirements of Section 409(A) of the Internal Revenue Code.

The following table illustrates the nonqualified deferred compensation benefits provided to the named executive officers in 2008. It does not reflect matching 401(k) or discretionary contributions made under the Company's qualified retirement plan.

Name	Executive Contributions in 2008 (\$)	Registrant Contributions in 2008 (\$)	Aggregate Earnings in 2008 (\$) (1)	Aggregate Withdrawals / Distributions (\$)	Aggregate Balance at December 27, 2008 (\$)
Robert E. Griffin			100,947		1,177,062
Robert J. Keller					
Terry Frandsen					

(1) Amounts recorded in this column represent interest accrued on cumulative deferred balances and is included in column (h) of the Summary of Compensation Table.

Potential Payments upon Termination or Change in Control

With the exception of Mr. Robert Keller, Chief Executive Officer and President, the Company currently does not have employment, severance, change in control or similar agreements with any of its named executive officers. Other than benefits that are generally available to all other salaried employees of the Company, the named executive officers have no agreements that would provide them with any cash payments upon termination of employment with the Company. Under the terms of Mr. Keller's employment offer, in the event his employment with the Company is terminated without cause, or Mr. Keller resigns with good reason, within six months of a Change in Control (as defined in the Escalade, Incorporated 2007 Incentive Plan), he is entitled to an amount equal to six months base salary (currently \$150,000) plus one half of the target bonus for the fiscal year in which termination occurs (which amount is indeterminate at this point in time). Mr. Keller will also be entitled to a pro-rata vesting of restricted stock unit grants (currently estimated at \$43,750 per the above paragraph) and continuation for six months of health and welfare benefits in effect at the time of termination.

Upon a change in control of the Company, as defined in the Escalade, Incorporated 2007 Incentive Plan (approved by the Company's stockholders at the 2007 annual meeting), the vesting of all outstanding, unvested stock options would be accelerated. This is true for all stock option recipients, not just the named executive officers. Based upon the closing stock price of the Company's common stock as of December 27, 2008 (\$), Mr. Terry Frandsen is the only named executive officer who would potentially receive value for unexercised stock options: approximately \$33,900. Such options will expire if not exercised on or before April 30, 2009. The potential value of unexercised stock options is computed as the difference between the exercise price and the closing stock price multiplied by the number of shares. Options with exercise prices higher than the closing market price are not included in the calculation.
