QUESTIONS AND ANSWERS

Q1: WHO IS SOLICITING MY PROXY?

A: We, the board of directors of IVG Corp., are sending you this proxy statement in connection with our solicitation of proxies for use at a

Edgar Filing: IVG CORP - Form PRE 14A

Special Meeting of Shareholders. Certain directors, officers and employees of IVG Corp. also may solicit proxies on our behalf by mail, phone, fax or in person.

Q2: WHO IS PAYING FOR THIS SOLICITATION?

A: IVG Corp. will pay for the solicitation of proxies. IVG Corp. also will reimburse banks, brokers, custodians, nominees and fiduciaries for their reasonable charges and expenses in forwarding our proxy materials to the beneficial owners of IVG Corp. common stock.

Q3: WHAT AM I VOTING ON?

A: Three items: (1) to approve an amendment to Article IV of our Certificate of Incorporation and effect a one-for-twenty reverse stock split and a decrease in our authorized Common Stock from 300,000,000 to 150,000,000 shares; (2) to approve a further amendment to Article IV of our Certificate of Incorporation to authorize 10,000,000 shares of preferred stock and to permit such shares of preferred stock to be designated and issued from time to time, and the rights of such preferred stock to be fixed from time to time, by the Board of Directors without shareholder approval; and (3) to approve an amendment to Article I of our Certificate of Incorporation to effect a change in our name from IVG Corp. to Group Management Corp.

Q4: WHO CAN VOTE?

A: Only those who owned common stock at the close of business on November 13, 2001, the record date for the Special Meeting, can vote. If you owned common stock on the record date, you have one vote per share for each matter presented at the Special Meeting.

Q5: HOW DO I VOTE?

A: You may vote your shares either in person or by proxy. To vote by proxy, you should mark, date, sign and mail the enclosed proxy in the enclosed prepaid envelope. Giving a proxy will not affect your right to vote your shares if you attend the Special Meeting and want to vote in person by voting you automatically revoke your proxy. You also may revoke your proxy at any time before the voting by giving the Secretary of IVG Corp. written notice of your revocation or by submitting a later-dated proxy. If you execute, date and return your proxy but do not mark your voting preference, the individuals named as proxies will vote your shares FOR each of the proposals.

1

Q6: WHAT CONSTITUTES A QUORUM?

A: Voting can take place at the Special Meeting only if shareholders owning a majority of the voting power of the common stock (a majority of the total number of votes entitled to be cast) are present in person or represented by effective proxies. On the record date, we had _____ shares of common stock outstanding. Both abstentions and broker non-votes are counted as present for purposes of establishing the quorum necessary for the meeting to proceed. A broker non-vote results from a situation in which a broker holding your shares in "street" or "nominee" name indicates to us on a proxy that you have not voted and it lacks discretionary authority to vote your shares.

Q7: WHAT VOTE OF THE SHAREHOLDERS WILL RESULT IN THE MATTERS BEING PASSED?

Edgar Filing: IVG CORP - Form PRE 14A

To approve each item, shareholders holding a majority of the total voting power of the outstanding common stock must affirmatively vote to approve the matter. Abstentions and broker non-votes have the same effect as votes "against" the proposal.

Q8: HOW DOES THE BOARD RECOMMEND THAT I VOTE ON THE MATTERS PROPOSED?

A: The board of directors of IVG Corp. unanimously recommends that shareholders vote FOR each of the proposals submitted at the Special Meeting.

Q9: WILL THERE BE OTHER MATTERS PROPOSED AT THE SPECIAL MEETING?

A: No other matters will be proposed at the Special Meeting.

Q10: WHEN ARE 2002 SHAREHOLDER PROPOSALS DUE IF THEY ARE TO BE INCLUDED IN THE COMPANY'S PROXY MATERIALS?

A: To be considered for presentation at IVG Corp.'s 2002 Annual Meeting of Shareholders and included in our proxy statement, a shareholder proposal must be received at IVG Corp.'s offices no later than March 29, 2002. To curtail controversy as to the date on which a proposal was received by the company, we suggest that proponents submit their proposals by certified mail, return receipt requested.

STOCK OWNERSHIP

BENEFICIAL OWNERSHIP OF CERTAIN SHAREHOLDERS, DIRECTORS AND EXECUTIVE OFFICERS

The following table sets forth information with respect to the beneficial ownership of our common stock at October 26, 2001 by:

ITEM 1.

APPROVAL OF AMENDMENTS TO ARTICLE IV OF OUR CERTIFICATE OF INCORPORATION TO EFFECT REVERSE STOCK SPLIT AND DECREASE AUTHORIZED COMMON STOCK

GENERAL

Our Board has unanimously approved, and recommends that the shareholders adopt, a proposal to amend Article IV of our Certificate of Incorporation (the "Certificate") to effect a one-for-twenty reverse stock split of the Company's outstanding common stock, decrease the number of authorized shares of our common stock, par value \$0.0001, from 300,000,000 to 150,000,000 shares and provide additional information concerning the rights and preferences of our common stock. The text required to effect these changes is set forth in clause (a) of the first sentence of paragraph A of the proposed amended Article IV and in paragraphs B.(1) and C of the proposed amended Article IV as set forth in the proposed Certificate of Amendment to the Certificate of Incorporation of IVG Corp. attached to this Proxy Statement as Appendix A (the "Certificate of Amendment").

Paragraph C of the proposed amended Article IV provides for the combination of our presently issued and outstanding shares of common stock into a smaller number of shares of identical common stock. This is known as a "reverse stock split." Under the proposal, each twenty shares of our presently issued and outstanding common stock, as of the close of business on the effective date of the Certificate of Amendment, will be converted automatically into one share of our post-reverse stock split common stock. Fractional shares will not be issued. Instead, we will issue one full share of our post-reverse stock split common stock to any shareholder who would have been entitled to receive a fractional share as a result of the reverse stock split. Each shareholder will hold the same percentage of our outstanding common stock

Edgar Filing: IVG CORP - Form PRE 14A

immediately following the reverse stock split as he did immediately prior to the reverse stock split, except for minor adjustments required due to the treatment of fractional shares.

In conjunction with the reverse stock split, the first sentence of paragraph A of the proposed amended Article IV provides for a decrease in the number of authorized shares of our common stock from 300,000,000 to 150,000,000. If the reverse stock split is approved and effected, the number of shares of common stock outstanding will decrease to a number between 3 and 4 million. As our business consists in large part of making acquisitions of portfolio companies, and may require us to issue our common stock from time to time in connection with these acquisitions, the Board believes that the Company may require a reasonable amount of excess authorized common stock to implement the Company's business plan. We believe, however, that the present number of shares of our authorized common stock will be higher than needed by us to effect our future financing plans and that IVG Corp. will be subject to unnecessarily high franchise taxes in respect of these shares. Assuming the reverse stock split is effected, the Board believes that reducing the number of these authorized shares is in the best interest of IVG Corp. and its shareholders, and that the proposed number of 150,000,000 authorized shares of common stock will adequately provide for the company's future needs.

5

REASONS FOR THE REVERSE STOCK SPLIT

The primary purposes of the reverse stock split are to:

- o increase the per share price of our common stock;
- o reduce the number of outstanding shares to a level more consistent with other public companies with a similar market capitalization; and
- o maintain the company's flexibility to issue additional shares to facilitate future stock acquisitions and financings.

The reduction in the number of issued and outstanding shares of common stock to result from the reverse stock split is expected to increase the market price of the common stock to a level above the current market trading price. While the board believes that the shares of common stock will trade at higher prices than those which have prevailed in the recent past, there can be no assurance that such increase in the trading price will occur or, if it does occur, that it will equal or exceed the direct arithmetical result of the reverse stock split, which would raise the current per share price to approximately \$2.00.

Our common stock is currently quoted on the OTC Bulletin Board of the National Association of Securities Dealers, Inc. A higher per share price for the Common Stock may ultimately enable the Company to meet the \$4.00 minimum bid price requirement for initial listing on the Nasdaq SmallCap Market. This would expand the market liquidity of our common stock and the ability of investors to trade our common stock. Because trading of our common stock is currently conducted in the over-the-counter market, investors may find it difficult to dispose of, or to obtain accurate quotations as to the market value of, the common stock.

The board believes that the reverse stock split also could result in a broader market for our common stock than the current market. Many institutional investors are unwilling or unable due to investment restrictions to invest in companies whose stock trades at less than \$1.00 per share because of a general

Edgar Filing: IVG CORP - Form PRE 14A

presumption that such stocks may be highly speculative. The reverse stock split is anticipated to result in a price increase for our common stock relieving, to some extent, the effect of such limitations on the market for our common stock. Additionally, brokerage commissions on the sale of lower priced stocks often represent a higher percentage of the sales price than commissions on relatively higher priced stocks. The expected increase in trading price may also encourage interest and trading in our common stock and possibly promote greater liquidity for our shareholders. We also believe that the current per share price of our common stock has or may have a negative effect on our ability to use our common stock in connection with possible future transactions such as financings, strategic alliances, acquisitions and other uses not presently determinable.

6

In addition, a number of other public companies have market capitalization similar to that of IVG Corp., but generally have less than 5 million shares outstanding, compared to the over 60 million shares that we have outstanding. The board believes that the reverse stock split would more closely align our capital structure with companies of comparable market capitalization, which the board believes is a more appropriate capital structure than our current structure.

For the above reasons, we believe that the reverse stock split is in the best interests of IVG Corp. and its shareholders. However, there can be no assurances that the reverse stock split will have the desired effects.

EFFECTS OF THE REVERSE STOCK SPLIT

Subject to shareholder approval, the reverse stock split will be effected by filing the Certificate of Amendment and will be effective upon the close of business on the date of filing. Although we expect to file the Certificate of Amendment with the Delaware Secretary of State's office promptly following approval at the Special Meeting, the actual timing of the filing will be determined by our management based upon their evaluation as to when the filing will be most advantageous to IVG Corp. and its shareholders. We reserve the right to forego or postpone filing the Certificate of Amendment if we determine that action to be in the best interests of IVG Corp. and its shareholders.

We are currently authorized to issue 300 million shares of common stock of which _____ shares were issued and outstanding at the close of business on the record date. Adoption of the reverse stock split will reduce the shares of common stock outstanding on the record date to approximately _____. The number of authorized shares is proposed to be set at 150,000,000. The reverse stock split will have no effect on the par value of the common stock.

The effect of the reverse split upon holders of common stock will be that the total number of shares of our common stock held by each shareholder will be automatically converted into the number of whole shares of common stock equal to the number of shares of common stock owned immediately prior to the reverse stock split divided by twenty, adjusted for any fractional shares. Each of our shareholders will continue to own one or more shares of common stock and will continue to share in the assets and future growth of the company as a shareholder.

Assuming the reverse stock split is approved by the shareholders at the Special Meeting and implemented, each shareholder's percentage ownership interest in the company and proportional voting power will remain unchanged, except for minor differences resulting from adjustments for fractional shares.

Edgar Filing: IVG CORP - Form PRE 14A

The rights and privileges of the holders of shares of common stock will be substantially unaffected by the reverse stock split. All issued and outstanding options, warrants, and convertible securities would be appropriately adjusted for the reverse stock split automatically on the effective date of the reverse stock split. All shares, options, warrants or convertible securities that IVG Corp. has agreed to issue (or agrees to issue prior to the effective date of the reverse stock split) in any merger or acquisition agreement also will be appropriately adjusted for the reverse stock split.

7

The reverse stock split also may result in some shareholders owning "odd lots" of less than 100 shares of common stock received as a result of the reverse stock split. Brokerage commissions and other costs of transactions in odd lots may be higher, particularly on a per-share basis, than the cost of transactions in even multiples of 100 shares.

It is not necessary to forward to us your certificates representing shares of pre-reverse stock split common stock for surrender in exchange for certificates representing post reverse stock split common stock. We will reflect on our books your ownership of the number of whole shares of post-reverse stock split common stock into which the shares of pre-reverse stock split common stock have been converted as a result of the reverse stock split.

CERTAIN FEDERAL INCOME TAX CONSIDERATIONS

The following discussion describes certain material federal income tax considerations relating to the reverse stock split. This discussion is based upon the Internal Revenue Code, existing and proposed regulations thereunder, legislative history, judicial decisions, and current administrative rulings and practices, all as amended and in effect on the date hereof. Any of these authorities could be repealed, overruled, or modified at any time. Any such change could be retroactive and, accordingly, could cause the tax consequences to vary substantially from the consequences described herein. No ruling from the Internal Revenue Service (the "IRS") with respect to the matters discussed herein has been requested, and there is no assurance that the IRS would agree with the conclusions set forth in this discussion.

This discussion may not address certain federal income tax consequences that may be relevant to particular shareholders in light of their personal circumstances or to shareholders who may be subject to special treatment under the federal income tax laws. This discussion also does not address any tax consequences under state, local or foreign laws.

SHAREHOLDERS ARE URGED TO CONSULT THEIR TAX ADVISORS AS TO THE PARTICULAR TAX CONSEQUENCES OF THE REVERSE STOCK SPLIT FOR THEM, INCLUDING THE APPLICABILITY OF ANY STATE, LOCAL OR FOREIGN TAX LAWS, CHANGES IN APPLICABLE TAX LAWS AND ANY PENDING OR PROPOSED LEGISLATION.

The reverse stock split is intended to be a tax-free recapitalization to the Company and its shareholders, except for those shareholders who receive a whole share of common stock in lieu of a fractional share. Shareholders will not recognize any gain or loss for federal income tax purposes as a result of the reverse stock split, except for those shareholders receiving a whole share of common stock in lieu of a fractional share (as described below). The holding period for shares of common stock after the reverse stock split will include the holding period of shares of common stock before the reverse stock split, provided that such shares of common stock are held as a capital asset at the effective time of the Certificate of Amendment. The adjusted basis of the shares of common stock after the reverse stock split will be the same as the adjusted

Edgar Filing: IVG CORP - Form PRE 14A

basis of the shares of common stock before the reverse stock split excluding the basis of fractional shares.

A shareholder who receives a whole share of common stock in lieu of a fractional share generally may recognize gain in an amount not to exceed the excess of the fair market value of such whole share over the fair market value of the fractional share to which the shareholder was otherwise entitled.

We recommend a vote FOR the approval of the amendments to Article IV necessary to effect the reverse stock split and increase the authorized Common Stock.

ITEM 2.

APPROVAL OF AMENDMENTS TO ARTICLE IV OF
OUR CERTIFICATE OF INCORPORATION TO
AUTHORIZE 10,000,000 SHARES OF PREFERRED STOCK.

GENERAL

Our Board has unanimously approved, and recommends that the shareholders adopt, a proposal to amend Article IV of our Certificate to authorize 10,000,000 shares of preferred stock. This class of preferred stock, if authorized, would be issuable from time to time by the Board of Directors without shareholder approval. Such preferred stock is frequently referred to as "blank check preferred stock." The text required to authorize and create this blank check preferred stock is set forth in clause (b) of the first sentence of paragraph A of the proposed amended Article IV and in paragraph B.(2) of the proposed amended Article IV as set forth in the proposed Certificate of Amendment.

Paragraph B.(2) of the proposed amended Article IV provides that the preferred stock, par value \$0.0001 (the "Preferred Stock"), may be issued from time to time in one or more series. The Board of Directors is authorized to fix the number of shares of any series of Preferred Stock and to determine the designation of any such shares. The Board of Directors also is authorized to determine or alter the rights, preferences, privileges and restrictions granted to or imposed upon any unissued series of Preferred Stock and, within the limits and restrictions stated in any resolutions of the Board of Directors originally fixing the number of shares constituting any series, to increase or decrease the number of shares of a series (but not below the number of shares of such series then outstanding) subsequent to the issuance of shares of such series.

REASONS FOR PREFERRED STOCK

The Board believes this proposed amendment to be in the best interest of the Company as it will enhance our ability to seek financing, in particular from investors seeking to purchase Preferred Stock. The Board believes that its ability to pursue financing opportunities in the future will be essential to the growth of the Company, and the ability to issue Preferred Stock will give it needed flexibility.

9

EFFECTS OF PREFERRED STOCK

Edgar Filing: IVG CORP - Form PRE 14A

The Board of Directors does not presently intend to issue any Preferred Stock. Although it is not possible to state the actual effects of any issuance of Preferred Stock upon the rights of holders of other Company securities, such effects might include: (i) restrictions on Common Stock dividends if Preferred Stock dividends have not been paid; (ii) dilution of the voting power and equity interest of holders of Common Stock to the extent that any Preferred Stock series has voting rights or that any Preferred Stock series is convertible into Common Stock; or (iii) inability of holders of Common Stock to share in the Company's assets on liquidation until satisfaction of any liquidation preferences granted to the holders of Preferred Stock. In addition, the issuance of Preferred Stock under certain circumstances may have the effect of discouraging an attempt to change control of the Company by, for example, creating voting impediments to the approval of mergers and other similar transactions involving the Company.

RIGHTS OF COMMON STOCK

Subject to such preferential rights as may be determined by the Board of Directors of the Company in connection with the future issuance, if any, of shares of Preferred Stock, holders of shares of our Common Stock are entitled to one vote per share on all matters submitted to a vote of shareholders, to receive such dividends as may be declared by the Board of Directors of the Company out of funds of the Company legally available therefor, and, in the event of the liquidation, dissolution or winding-up of the affairs of the Company, to share prorata according to their respective interests in the Company's assets after payment of or provision for the payment of all debts and other liabilities of the Company. Holders of our Common Stock do not have cumulative voting rights, preemptive rights or other rights to purchase additional securities of the Company or any rights of conversion or redemption.

CERTIFICATE OF INCORPORATION; BYLAWS

Our Certificate of Incorporation and Bylaws do not contain any specific provisions the effect of which might be to discourage, delay or impede a change of control of the Company.

We recommend a vote FOR the amendments to Article IV necessary to authorize and create the Preferred Stock.

10

ITEM 3.

APPROVAL OF AMENDMENT TO ARTICLE I OF
OUR CERTIFICATE OF INCORPORATION TO CHANGE OUR NAME
FROM IVG CORP. TO GROUP MANAGEMENT CORP.

GENERAL

Our Board has unanimously approved, and recommends that the shareholders adopt, a proposal to amend Article I of our Certificate to change the name of the company from IVG Corp. to Group Management Corp. The text required to effect these changes is contained in the proposed amended Article I as set forth in the proposed Certificate of Amendment.

REASONS FOR THE NAME CHANGE

Edgar Filing: IVG CORP - Form PRE 14A

The Board of Directors believes that it is in the best interest of the Company to change its name in order to reflect its current and future business activities and strategic direction.

Previously, our acquisition and investment strategy consisted of targeting portfolio companies that provided products or services on the Internet or technology for Internet application. Recently, we have refocused our business plan to pursue acquisitions of professional employer organizations and of companies producing products for the creative products market. In accordance with this plan, we intend to acquire Group Management Services, Inc. and to focus the greater part of our financial and other resources on obtaining revenues in the professional employer organization or staff leasing industry and in the creative products industry.

While we intend to continue fostering growth in our existing portfolio companies, our primary focus will be on our business service companies and companies in the creative products industry and, consequently, we believe that the name change will better reflect our intent.

For the above reasons, we believe that the name change is in the best interests of IVG Corp. and its shareholders.

We recommend a vote FOR the amendment to Article I to effect the name change to Group Management Corp.
