COMMITTEES OF THE BOARD OF DIRECTORS

The Board of Directors has a Compensation Committee and an Audit Committee. The Compensation Committee and Audit Committee consists of two directors, Karl Arleth and James J. Woodcock. Messrs. Arleth and Woodcock are independent directors who are not a salaried officers of the Company. Messrs. Arleth and Woodcock are independent directors based on Rule 4200(a)(15) of the NASD's listing standards.

The purpose of the Compensation Committee is to review the Company's compensation of its executives, to make determinations relative thereto and to

Edgar Filing: TETON PETROLEUM CO - Form DEF 14A

submit recommendations to the Board of Directors with respect thereto in order to ensure that such officers and directors receive adequate and fair compensation. The Compensation Committee did not meet during the last fiscal year.

During the fiscal year ending 2003, the Audit Committee will be responsible for the general oversight of audit, legal compliance and potential conflict of interest matters, including (a) recommending the engagement and termination of the independent public accountants to audit the financial statements of the Company, (b) overseeing the scope of the external audit services, (c) reviewing adjustments recommended by the independent public accountant and addressing disagreements between the independent public accountants and management, (d) reviewing the adequacy of internal controls and management's handling of identified material inadequacies and reportable conditions in the internal controls over financial reporting and compliance with laws and regulations, and (e) supervising the internal audit function, which may include approving the selection, compensation and termination of internal auditors.

The Audit Committee did not meet during the last fiscal year because it was approved late in the 2002 year by the Board of Directors and was not formally in place to perform its functions. However, the responsibilities of the Audit Committee during 2002 were conducted by the board of directors. Although there is no written charter for the Audit Committee, the charter is currently being formalized and will be filed with the Securities and Exchange upon completion.

For the fiscal year ended 2002, the Board of Directors conducted discussions with management and the independent auditor regarding the acceptability and the quality of the accounting principles used in the reports in accordance with Statements on Accounting Standards (SAS) No. 61,. These discussions included the clarity of the disclosures made therein, the underlying estimates and assumptions used in the financial reporting and the reasonableness of the significant judgments and management decisions made in developing the financial statements. In addition, the board of directors discussed with the independent auditor the matters in the written disclosures required by Independence Standards Board Standard No. 1.

For the fiscal year ended 2002, the Board of Directors have also discussed with management and its independent auditors issues related to the overall scope and objectives of the audits conducted, the internal controls used by the Company, and the selection of the Company's independent auditor. Additional meetings were held with the independent auditor, with financial management present, to discuss the specific results of audit investigations and examinations and the auditor's judgments regarding any and all of the above issues.

Pursuant to the reviews and discussions described above, the Board of Directors recommended that the audited financial statements be included in the Annual Report on Form 10-KSB for the fiscal year ended December 31, 2001 and 2000 for filing with the Securities and Exchange Commission.

For the fiscal year ending 2003 , the Audit Committee will oversee the financial reporting process for the Company on behalf of the Board of Directors. In fulfilling its oversight responsibilities, the Committee will review the annual financial statements to be included in the annual report and filed with the Securities and Exchange Commission, as well as the unaudited financial statements to be filed with the Company's quarterly reports on Form 10-QSB.

The Board does not have a nominating committee or a committee performing the functions of a nominating committee. Although there are no formal procedures for stockholders to nominate persons to serve as directors, the Board

Edgar Filing: TETON PETROLEUM CO - Form DEF 14A

will consider nominations from stockholders, which should be addressed to H. Howard Cooper at the Company's address set forth above.

RECOMMENDATION OF THE BOARD:

THE BOARD RECOMMENDS A VOTE FOR THE ELECTION OF ALL THE ABOVE NOMINEES.

3

PROPOSAL NO. 2

AMENDMENT TO THE ARTICLES OF INCORPORATION

The Board of the Company proposes amending the Company's certificate of incorporation to increase the number of authorized shares of common stock from 100,000,000 to 250,000,000 and to authorize the creation of 25,000,000 shares of blank check preferred stock. The Company currently has authorized capital stock of 100,000,000 of shares of common stock and approximately 69,423,319 shares of common stock are outstanding as of the Record Date. The Board believes that the increase in authorized shares would provide the Company greater flexibility with respect to the Company's capital structure for such purposes as additional equity financing, and stock based acquisitions.

INCREASE IN AUTHORIZED COMMON STOCK

The terms of the additional shares of common stock will be identical to those of the currently outstanding shares of common stock. However, because holders of common stock have no preemptive rights to purchase or subscribe for any unissued stock of the Company, the issuance of additional shares of common stock will reduce the current stockholders' percentage ownership interest in the total outstanding shares of common stock. This amendment will not alter the current number of issued shares. The relative rights and limitations of the shares of common stock would remain unchanged under this proposal.

As of February 13, 2003, a total of 69,423,319 shares of the Company's currently authorized shares of common stock are issued and outstanding. The increase in the number of authorized but unissued shares of common stock would enable the Company, without further stockholder approval, to issue shares from time to time as may be required for proper business purposes, such as raising additional capital for ongoing operations, business and asset acquisitions, stock splits and dividends, present and future employee benefit programs and other corporate purposes. If approved, the Company has no present intentions to issue any of the newly authorized shares of common stock

In addition, the Company's stockholders at the Annual Meeting are being asked to approve a Reverse Stock Split pursuant to which each twelve currently outstanding shares of Common Stock (the "Old Shares") would be automatically converted into one share of Common Stock (the "New Shares"). The reason for the Reverse Stock Split is to increase the per share stock price. The one for twelve reverse Stock Split is being effectuated by reducing the number of issued and outstanding shares at the ratio of 12 to 1. Accordingly, as a result of the Reverse Stock Split, the Company will have approximately 94,214,724 authorized unissued shares, which shares may be issued in connection with acquisitions or subsequent financings. In the event the Company receives shareholder approval to increase its authorized common stock to 250,000,000 then it will have 244,214,724 authorized unissue shares, which shares may be issued in connection with acquisitions or subsequent financings. See Proposal No. 4 for more information regarding the Reverse Stock Split.

Edgar Filing: TETON PETROLEUM CO - Form DEF 14A

If the shareholders approve both the increase in authorized capital stock (Proposal No. 2) and the Revers Stock Split (Proposal No. 4), the ratio of issued-to-authorized shares would increase from approximately 1:2 to 1:50. The Company believes this dramatic increase is in the best interest of the Company because it would be able to issue shares from time to time as may be required for proper business purposes, such as raising additional capital for ongoing operations, business and asset acquisitions, stock splits and dividends, present and future employee benefit programs and other corporate purposes, without the expense and time of obtaining stockholder approval.

In addition, one of the effects of proposed amendment might be to enable the Board to render it more difficult to, or discourage an attempt to, obtain control of the Company by means of a merger, tender offer, proxy contest or otherwise, and thereby protect the continuity of present management. The Board would, unless prohibited by applicable law, have additional shares of common stock available to effect transactions (such as private placements) in which the number of the Company's outstanding shares would be increased and would thereby dilute the interest of any party attempting to gain control of the Company. Such action could discourage an acquisition of the Company, which stockholders might view as desirable.

4

CREATION OF BLANK CHECK PREFERRED STOCK

The amendment to the certificate of incorporation will create 25,000,000 authorized shares of "blank check" preferred stock. Article IV of the proposed amendment to the certificate of incorporation attached as Exhibit "A" to this proxy statement contains provisions related to the "blank check" preferred stock. The following summary does not purport to be complete and is qualified in its entirety by reference to the proposed amendment to the certificate of incorporation as set forth in Exhibit "A."

The term "blank check" refers to preferred stock, the creation and issuance of which is authorized in advance by the stockholders and the terms, rights and features of which are determined by the Board of the Company upon issuance. The authorization of such blank check preferred stock would permit the board of directors to authorize and issue preferred stock from time to time in one or more series.

Subject to the provisions of the Company's amendment to the certificate of incorporation and the limitations prescribed by law, the Board would be expressly authorized, at its discretion, to adopt resolutions to issue shares, to fix the number of shares and to change the number of shares constituting any series and to provide for or change the voting powers, designations, preferences and relative, participating, optional or other annual rights, qualifications, limitations or restrictions thereof, including dividend rights (including whether the dividends are cumulative), dividend rates, terms of redemption (including sinking fund provisions), redemption prices, conversion rights and liquidation preferences of the shares constituting any series of the preferred stock, in each case without any further action or vote by the stockholders. The Board would be required to make any determination to issue shares of preferred stock based on its judgment as to the best interests of the Company and its stockholders. The Board is seeking stockholder approval of an amendment to the certificate of incorporation which would give the Board flexibility, without further stockholder action, to issue preferred stock on such terms and conditions as the board of directors deems to be in the best interests of the Company and its stockholders. The Company has no immediate definitive plans to issue any shares of preferred stock. Therefore, the terms, rights and features

Edgar Filing: TETON PETROLEUM CO - Form DEF 14A

of a preferred stock subject to this proposal cannot be stated or predicted with certainty.

It is not possible to state the effects of the proposed amendment upon the rights of holders of common stock until the Board determines the respective rights of the holders of one or more series of preferred stock. However, the issuance of shares of preferred stock pursuant to the Board's authority described above may adversely affect the rights of the holders of common stock. Specifically, the effects of such issuances of preferred stock could include (i) reduction of the amount of cash otherwise available for payment of dividends on common stock, if any, (ii) restrictions on dividends on common stock, (iii) dilution of the voting power of common stock, and (iv) restrictions on the rights of holders of common stock to share in the Company's assets on liquidation until satisfaction of any liquidation preference granted to the holders of such subsequently designated series of preferred stock. For example, preferred stock issued by the Company may rank prior to the common stock as to dividend rights, liquidation preferences or both, may have full or limited voting rights, and may be convertible into shares of common stock. Accordingly, the issuance of shares of preferred stock could decrease the amount of earnings and assets allocable to or available for distribution to holders of common stock and adversely affect the rights and powers, including voting rights of the common stock, and may discourage bids for the common Stock or may otherwise adversely affect the market price of the common Stock.

The amendment will provide the Company with increased financial flexibility in meeting future capital requirements by providing another type of security in addition to its common stock, as it will allow preferred stock to be available for issuance from time to time and with such features as determined by the Board for any proper corporate purpose. Such purposes could include, without limitation, issuance for cash as a means of obtaining capital for use by the Company, or issuance as part or all of the consideration required to be paid by the Company for acquisitions of other businesses or assets.

5

Any issuance of preferred stock with voting rights could, under certain circumstances, have the effect of delaying or preventing a change in control of the Company by increasing the number of outstanding shares entitled to vote and by increasing the number of votes required to approve a change in control of the Company. Shares of voting or convertible preferred stock could be issued, or rights to purchase such shares could be issued, to render more difficult or discourage an attempt to obtain control of the Company by means of a tender offer, proxy contest, merger or otherwise. The ability of the board of directors to issue such additional shares of preferred stock, with the rights and preferences it deems advisable, could discourage an attempt by a party to acquire control of the Company by tender offer or other means. Such issuances could therefore deprive stockholders of benefits that could result from such an attempt, such as the realization of a premium over the market price that such an attempt could cause. Moreover, the issuance of such additional shares of preferred stock to persons friendly to the Board could make it more difficult to remove incumbent managers and directors from office even if such change were to be favorable to stockholders generally.

While the amendment may have anti-takeover ramifications, the Board believes that the financial flexibility offered by the amendment outweighs any disadvantages. To the extent that the amendment may have anti-takeover effects, the amendment may encourage persons seeking to acquire the Company to negotiate directly with the Board enabling the Board to consider the proposed transaction in a manner that best serves the stockholders' interests.

Edgar Filing: TETON PETROLEUM CO - Form DEF 14A

Unless marked otherwise, proxies received will be voted "FOR" the approval of this Proposal No. 2. amending the certificate of incorporation of the Company requires the affirmative vote of the holders of a majority of the outstanding shares of common stock of the Company.

RECOMMENDATION OF THE BOARD FOR PROPOSAL NO. 2:

THE BOARD RECOMMENDS A VOTE FOR APPROVAL OF THE AMENDMENT OF THE CERTIFICATE OF INCORPORATION.

6

PROPOSAL NO. 3

APPROVAL OF THE 2003 EMPLOYEE STOCK OPTION PLAN

At the Annual Meeting, the Company's stockholders are being asked to approve the 2003 Employee Stock Option Plan (the "2003 Option Plan") and to authorize 25,000,000 shares of Common Stock for issuance thereunder. The following is a summary of principal features of the 2003 Option Plan. The summary, however, does not purport to be a complete description of all the provisions of the 2003 Option Plan. Any stockholder of the Company who wishes to obtain a copy of the actual plan document may do so upon written request to the Company's Secretary, Thomas F. Conroy, at the Company's principal offices at P.O. Box 774327, Steamboat Springs, Colorado 80477.

All questions of interpretation of the 2003 Option Plan are determined by the Board, and its decisions are final and binding upon all participants. Any determination by a majority of the members of the Board of Directors at any meeting, or by written consent in lieu of a meeting, shall be deemed to have been made by the whole Board of Directors.

Edgar Filing: TETON PETROLEUM CO - Form DEF 14A

Notwithstanding the foregoing, the Board of Directors may at any time, or from time to time, appoint a committee (the "Committee") of at least two members of the Board of Directors, and delegate to the Committee the authority of the Board of Directors to administer the Plan. Upon such appointment and delegation, the Committee shall have all the powers, privileges and duties of the Board of Directors, and shall be substituted for the Board of Directors, in the administration of the Plan, subject to certain limitations.

Members of the Board of Directors who are eligible employees are permitted to participate in the 2003 Option Plan, provided that any such eligible member may not vote on any matter affecting the administration of the 2003 Option Plan or the grant of any option pursuant to it, or serve on a committee appointed to administer the 2003 Option Plan. In the event that any member of the Board of Directors is at any time not a "disinterested person", as defined in Rule 16b-3(c)(3)(i) promulgated pursuant to the Securities Exchange Act of 1934, the Plan shall not be administered by the Board of Directors, and may only be administered by a Committee, all the members of which are disinterested persons, as so defined.

The purchase price of the Common Shares subject to each Non-ISO shall be determined at the time such Option is granted, but in no case less than 85% of the fair market value of such Common Shares at the time such Option is granted.

(b) VESTING. The dates on which each Option (or portion thereof) shall be exercisable and the conditions precedent to such exercise, if any, shall be fixed by the Board of Directors, in its discretion, at the time such Option is granted.

(c) EXPIRATION. The expiration of each Option shall be fixed by the Board of Directors, in its discretion, at the time such Option is granted; however, unless otherwise determined by the Board of Directors at the time such Option is granted, an Option shall be exercisable for ten (10) years after the date on which it was granted (the "Grant Date"). Each Option shall be subject to earlier termination as expressly provided in the 2003 Option Plan or as determined by the Board of Directors, in its discretion, at the time such Option is granted.

(d) TRANSFERABILITY. No Option shall be transferable, except by will or the laws of descent and distribution, and any Option may be exercised during the lifetime

Edgar Filing: TETON PETROLEUM CO - Form DEF 14A

of the Optionee only by him. No Option granted under the Plan shall be subject to execution, attachment or other process.

(e) OPTION ADJUSTMENTS. The aggregate number and class of shares as to which Options may be granted under the Plan, the number and class shares covered by each outstanding Option and the exercise price per share thereof (but not the total price), and all such Options, shall each be proportionately adjusted for any increase decrease in the number of issued Common Shares resulting from split-up spin-off or consolidation of shares or any like Capital adjustment or the payment of any stock dividend.

Except as otherwise provided in the 2003 Option Plan, any Option granted hereunder shall terminate in the event of a merger, consolidation, acquisition of property or stock, separation, reorganization or liquidation of the Company. However, the Optionee shall have the right immediately prior to any such transaction to exercise his Option in whole or in part notwithstanding any otherwise applicable vesting requirements.

(f) TERMINATION, MODIFICATION AND AMENDMENT. The 2003 Option Plan (but not Options previously granted under the Plan) shall terminate ten (10) years from the earlier of the date of its adoption by the Board of Directors or the date on which the Plan is approved by the affirmative vote of the holders of a majority of the outstanding shares of capital stock of the Company entitled to vote thereon, and no Option shall be granted after termination of the Plan. Subject to certain restrictions, the Plan may at any time be terminated and from time to time be modified or amended by the affirmative vote of the holders of a majority of the outstanding shares of the capital stock of the Company present, or represented, and entitled to vote at a meeting duly held in accordance with the applicable laws of the State of Delaware.

FEDERAL INCOME TAX ASPECTS OF THE 2003 OPTION PLAN

THE FOLLOWING IS A BRIEF SUMMARY OF THE EFFECT OF FEDERAL INCOME TAXATION UPON THE PARTICIPANTS AND THE COMPANY WITH RESPECT TO THE PURCHASE OF SHARES UNDER THE 2003 OPTION PLAN. THIS SUMMARY DOES NOT PURPORT TO BE COMPLETE AND DOES NOT ADDRESS THE FEDERAL INCOME TAX CONSEQUENCES TO TAXPAYERS WITH SPECIAL TAX STATUS. IN ADDITION, THIS SUMMARY DOES NOT DISCUSS THE PROVISIONS OF THE INCOME TAX LAWS OF ANY MUNICIPALITY, STATE OR FOREIGN COUNTRY IN WHICH THE PARTICIPANT MAY RESIDE, AND DOES NOT DISCUSS ESTATE, GIFT OR OTHER TAX CONSEQUENCES OTHER THAN INCOME TAX CONSEQUENCES. THE COMPANY ADVISES EACH PARTICIPANT TO CONSULT HIS OR HER OWN TAX ADVISOR REGARDING THE TAX CONSEQUENCES OF PARTICIPATION IN THE 2003 OPTION PLAN AND FOR REFERENCE TO APPLICABLE PROVISIONS OF THE CODE.

The 2003 Option Plan and the right of participants to make purchases thereunder are intended to qualify under the provisions of Sections 421, 422 and 423 of the Code. Under these provisions, no income will be recognized by a participant prior to disposition of shares acquired under the 2003 Option Plan.

If the shares are sold or otherwise disposed of (including by way of gift) more than two years after the first day of the offering period during which shares were purchased (the "Offering Date"), a participant will recognize as ordinary income at the time of such disposition the lesser of (a) the excess of the fair market value of the shares at the time of such disposition over the purchase price of the shares or (b) 15% of the fair market value of the shares on the first day of the offering period. Any further gain or loss upon such disposition will be treated as long-term capital gain or loss. If the shares are sold for a sale price less than the purchase price, there is no ordinary income and the participant has a capital loss for the difference.

Edgar Filing: TETON PETROLEUM CO - Form DEF 14A

If the shares are sold or otherwise disposed of (including by way of gift) before the expiration of the two-year holding period described above, the excess of the fair market value of the shares on the purchase date over the purchase price will be treated as ordinary income to the participant. This excess will constitute ordinary income in the year of sale or other disposition even if no gain is realized on the sale or a gift of the shares is made. The balance of any gain or loss will be treated as capital gain or loss and will be treated as long-term capital gain or loss if the shares have been held more than one year.

In the case of a participant who is subject to Section 16(b) of the Exchange Act, the purchase date for purposes of calculating such participant's compensation income and beginning of the capital gain holding period may be deferred for up to six months under certain circumstances. Such individuals should consult with their personal tax advisors prior to buying or selling shares under the 2003 Option Plan.

The ordinary income reported under the rules described above, added to the actual purchase price of the shares, determines the tax basis of the shares for the purpose of determining capital gain or loss on a sale or exchange of the shares.

The Company is entitled to a deduction for amounts taxed as ordinary income to a participant only to the extent that ordinary income must be reported upon disposition of shares by the participant before the expiration of the two-year holding period described above.

RESTRICTIONS ON RESALE

Certain officers and directors of the Company may be deemed to be "affiliates" of the Company as that term is defined under the Securities Act. The Common Stock acquired under the 2003 Option Plan by an affiliate may be reoffered or resold only pursuant to an effective registration statement or pursuant to Rule 144 under the Securities Act or another exemption from the registration requirements of the Securities Act.

REQUIRED VOTE

The approval of the 2003 Option Plan and the reservation of 25,000,000 shares for issuance requires the affirmative vote of the holders of a majority of the shares of the Company's Common Stock present at the Annual Meeting in person or by proxy and entitled to vote and constituting at least a majority of the required quorum.

The proxy holders intend to vote the shares represented by proxies to approve, the 2003 Stock Option Plan.

RECOMMENDATION OF THE BOARD:

THE BOARD RECOMMENDS A VOTE FOR APPROVAL OF THE 2003 STOCK OPTION PLAN.

PROPOSAL NO. 4

ONE FOR TWELVE REVERSE SPLIT

At the Annual Meeting, the Company's stockholders are being asked to approve a Reverse Stock Split pursuant to which each twelve currently outstanding shares

Edgar Filing: TETON PETROLEUM CO - Form DEF 14A

of Common Stock (the "Old Shares") would be automatically converted into one share of Common Stock (the "New Shares"). The reason for the Reverse Stock Split is to increase the per share stock price. The Company believes that if it is successful in maintaining a higher stock price, the stock will generate greater interest among professional investors and institutions. If the Company is successful in generating interest among such entities, it is anticipated that the shares of its Common Stock would have greater liquidity and a stronger investor base. No assurance can be given, however, that the market price of the New Shares will rise in proportion to the reduction in the number of outstanding shares resulting from the Reverse Stock Split. The New Shares issued pursuant to the Reverse Stock Split will be fully paid and non-assessable. All New Shares will have the same par value, voting rights and other rights as Old Shares. Stockholders of the Company do not have preemptive rights to acquire additional shares of Common Stock, which may be issued.

The one for twelve reverse Stock Split is being effectuated by reducing the number of issued and outstanding shares at the ratio of 12 to 1. Accordingly, as a result of the Reverse Stock Split, the Company will have approximately 94,214,724 authorized unissued shares, which shares may be issued in connection with acquisitions or subsequent financings. In the event the Company receives shareholder approval to increase its authorized common stock to 250,000,000 then it will have 244,214,714 authorized unissue shares, which shares may be issued in connection with acquisitions or subsequent financings. See Proposal No. 4 for more information regarding the Reverse Stock Split. There can be no assurance that the Company will be successful in making any such acquisitions or obtaining any such financings. In addition, the Reverse Stock Split has potentially dilutive effects on each of the shareholders. Each of the shareholders may be diluted to the extent that any of the authorized but unissued shares are subsequently issued.

The Reverse Stock Split will not alter any shareholder's percentage interest in the Company's equity, except to the extent that the Reverse Stock Split results in any of the Company's shareholders owning a fractional share. In lieu of issuing fractional shares, the Company will issue to any shareholder who otherwise would have been entitled to receive a fractional share as a result of the Reverse Split an additional full share of its common stock. The principal effects of the Reverse Stock Split will be that the number of shares of Common Stock issued and outstanding will be reduced from 69,423,319 to approximately 5,785,276.

In addition, commencing with the effective date of the Reverse Stock Split, all outstanding options entitling the holders thereof to purchase shares of the Company's common stock will entitle such holders to receive, upon exercise of their options, 1/12 of the number of shares of the Company's common stock which such holders may purchase upon exercise of their options. In addition, commencing on the effective date of the Reverse Stock Split, the exercise price of all outstanding options will be increased by a multiple of twelve.

The Company believes that the Federal income tax consequences of the reverse stock split to holders of Common Stock will be as follows:

(i) Except as explained in (v) below, no income gain or loss will be recognized by a shareholder on the surrender of the current shares or receipt of the certificate representing new post-split shares.

(ii) Except as explained in (v) below, the tax basis of the New Shares will equal the tax basis of the Old Shares exchanged therefore.

(iii) Except as explained in (v) below, the holding period of the New Shares will include the holding period of the Old Shares if such Old Shares were held as capital assets.

Edgar Filing: TETON PETROLEUM CO - Form DEF 14A

(iv) The conversion of the Old Shares into the new shares will produce no taxable income or gain or loss to the Company.

(v) The Federal income tax treatment of the receipt of the additional fractional interest by a shareholder is not clear and may result in tax liability not material in amount in view of the low value of such fractional interest.

The Company's opinion is not binding upon the Internal Revenue Service or the courts, and there can be no assurance that the Internal Revenue Service or the courts will accept the positions expressed above.

10

THE ABOVE REFERENCED IS A BRIEF SUMMARY OF THE EFFECT OF FEDERAL INCOME TAXATION UPON THE PARTICIPANTS AND THE COMPANY WITH RESPECT TO THE REVERSE STOCK SPLIT. THIS SUMMARY DOES NOT PURPORT TO BE COMPLETE AND DOES NOT ADDRESS THE FEDERAL INCOME TAX CONSEQUENCES TO TAXPAYERS WITH SPECIAL TAX STATUS. IN ADDITION, THIS SUMMARY DOES NOT DISCUSS THE PROVISIONS OF THE INCOME TAX LAWS OF ANY MUNICIPALITY, STATE OR FOREIGN COUNTRY IN WHICH THE PARTICIPANT MAY RESIDE, AND DOES NOT DISCUSS ESTATE, GIFT OR OTHER TAX CONSEQUENCES OTHER THAN INCOME TAX CONSEQUENCES. THE COMPANY ADVISES EACH PARTICIPANT TO CONSULT HIS OR HER OWN TAX ADVISOR REGARDING THE TAX CONSEQUENCES OF THE REVERSE STOCK SPLIT AND FOR REFERENCE TO APPLICABLE PROVISIONS OF THE CODE.
