(UNAUDITED)

NOTE 1: BASIS OF PRESENTATION:

The accompanying condensed financial statements and footnotes thereto are unaudited.

The Condensed Balance Sheets as of September 30, 2011 and December 31, 2010, the Condensed Statements of Operations for the three months and nine months ended September 30, 2011 and 2010 and the Condensed Statements of Cash Flows for the nine months ended September 30, 2011 and 2010 have been prepared by us without audit, and in accordance with the requirements of Form 10-Q and, therefore, they do not include all information and footnotes necessary for a fair presentation of financial position, results of operations, and cash flows in conformity with accounting principles generally accepted in the United States of America. In our opinion, the accompanying unaudited condensed financial statements contain all adjustments necessary to present fairly in all material respects our financial position as of September 30, 2011, results of operations for the three months and nine months ended September 30, 2011 and 2010 and cash flows for the nine months ended September 30, 2011 and 2010. All such adjustments are of a normal recurring nature. The results of operations and cash flows for the three months and nine months ended September 30, 2011 are not necessarily indicative of the results to be expected for the full year. We have evaluated subsequent events through the filing of this Form 10-Q with the SEC, and determined there have not been any events that have occurred that would require adjustments to our unaudited Condensed Financial Statements.

The information contained in this report on Form 10-Q should be read in conjunction with our Form 10-K for our fiscal year ended December 31, 2010.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the amounts of assets, liabilities, revenue, costs and expenses. Actual results could differ from these estimates.

Agreement with Simon Property Group, L.P.

In April 2011, we signed an exclusive rights agreement with a Top Mall Developer (the "Simon Property Group") to create a location-based mobile marketing network called Mobiquity Networks. The 50 mall agreement runs through December of 2015 and includes top malls in the Simon Mall portfolio. This new alliance will give advertisers the opportunity to reach millions of mall visitors per month with mobile digital content and offers when they are most receptive to advertising messages.

In connection with Eye Corp., Mobiquity Networks will deliver digital content and offers to shoppers on their mobile devices through Eye Corp's extensive Mall Advertising Network. Eye Corp and Mobiquity Networks have an exclusive agreement to build a location-based mobile marketing network throughout Eye Corp's Mall Advertising network. New properties to be added to the Mobiquity Networks portfolio will include iconic malls in the top DMA's (designated market area) in the US. These prestigious malls further complement Mobiquity Networks' portfolio of prominent malls including Queens Center Mall in New York City, Northbridge in Chicago, and Santa Monica Place in Los Angeles.

Ace's Location-Based Mobile advertising medium is designed to reach on-the-go shoppers via their mobile devices with free rich media content delivered using Bluetooth or Wi-Fi. This advertising medium offers extremely targeted messaging engineered to engage and influence shoppers as they move about the mall environment. Eye Corp, along with Ace Marketing, will jointly create mobile marketing programs for existing clients in conjunction with their already active in mall advertising programs. Mobiquity Networks proximity marketing units will be strategically positioned in shopping malls near entrances, anchor stores, escalators and other high-traffic, and high dwell-time areas. Mobiquity Networks proximity marketing unit placement takes advantage of the opportunity to provide a reminder to consumers and touch them just before making a purchase decision. These units generate high awareness and brand recognition at the right time and place. When combined with the impact of other visual advertising mediums (in mall assets) or as a stand-alone medium, Mobiquity Networks is a great mobile solution to promote a brand on a local or national level.

NOTE 2: ACCOUNTING PRONOUNCEMENTS:

Except for rules and interpretive releases of the SEC under authority of federal securities laws and a limited number of grandfathered standards, the FASB Accounting Standards Codification™ ("ASC") is the sole source of authoritative GAAP literature recognized by the FASB and applicable to the Company. Management has reviewed the aforementioned rules and releases and believes any effect will not have a material impact on the Company's present or future consolidated financial statements.

NOTE 3: SUMMARY OF SELECTED SIGNIFICANT ACCOUNTING POLICIES

Revenue Recognition - Revenue is recognized when title and risk of loss transfers to the customer and the earnings process is complete. In general, title passes to our customers upon the customer's receipt of the merchandise. The

Company applies the revenue recognition principles which provides for revenue to be recognized when (i) persuasive evidence of an arrangement exists, (ii) delivery has been completed, (iii) the customer accepts and verifies receipt, (iv) collectability is reasonably assured. Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 4: LOSS PER SHARE

Basic loss per common share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period. Dilutive loss per share gives effect to stock options and warrants, which are considered to be dilutive common stock equivalents. Basic loss per common share was computed by dividing net loss by the weighted average number of shares of common stock outstanding. The number of common shares potentially issuable upon the exercise of certain options and warrants that were excluded from the diluted loss per common share calculation was approximately 15,900,000 and 6,300,000 because they are anti-dilutive as a result of a net loss for the three and nine months ended September 30, 2011 and 2010, respectively.

NOTE 5: STOCK COMPENSATION

Compensation costs related to share-based payment transactions, including employee stock options, are recognized in the financial statements utilizing the straight line method for the cost of these awards.

The Company's results for the three month periods ended September 30, 2011 and 2010 include employee share-based compensation expense totaling approximately \$85,000 and \$56,000, respectively. The Company's results for the nine month periods ended September 30, 2011 and 2010 include employee share-based compensation expense totaling approximately \$262,000 and \$553,000, respectively. Such amounts have been included in the Condensed Consolidated Statements of Operations within selling, general and administrative expenses. No income tax benefit has been recognized in the statement of operations for share-based compensation arrangements due to a history of operating losses.

NOTE 6: STOCK OPTION PLAN

During Fiscal 2005, the Company established, and the stockholders approved, an Employee Benefit and Consulting Services Compensation Plan (the "2005 Plan") for the granting of up to 2,000,000 non-statutory and incentive stock options and stock awards to directors, officers, consultants and key employees of the Company. On June 9, 2005, the Board of Directors amended the Plan to increase the number of stock options and awards to be granted under the Plan to 4,000,000. In October 2009, the Company established and the stockholders approved a 2009 Employee Benefit and Consulting Services Compensation Plan (the "2009 Plan") for granting up to 4,000,000 non-statutory and incentive stock options and awards to directors, officers, consultants and employees of the Company. (The 2005 Plan and the 2009 Plan are collectively referred to as the "Plans".)

All stock options under the Plans are granted at or above the fair market value of the common stock at the grant date. Employee and non-employee stock options vest over varying periods and generally expire either 5 or 10 years from the grant date.

The fair value of options at the date of grant was estimated using the Black-Scholes option pricing model. The fair values of these restricted stock awards are equal to the market value of the Company's stock on the date of grant, after taking into certain discounts. The expected volatility is based upon historical volatility of our stock and other contributing factors. The expected term is based upon observation of actual time elapsed between date of grant and exercise of options for all employees. Previously, such assumptions were determined based on historical data.

The 50 mall agreement runs through December of 2015 and includes top malls in the Simon Mall portfolio. These units generate high awareness and brand recognition at the right time and place. When combined with the impact of other visual advertising mediums (in mall assets) or as a stand-alone medium, Mobiquity Networks is a great mobile solution to promote a brand on a local or national level.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with generally accepted accounting principles in the United States. The preparation of financial statements requires management to make estimates and disclosures on the date of the financial statements. On an on-going basis, we evaluate our estimates including, but not limited to, those related to revenue recognition. We use authoritative pronouncements, historical experience and other assumptions as the basis for making judgments. Actual results could differ from those estimates. We believe that the following critical accounting policies affect our more significant judgments and estimates in the preparation of our financial statements.

REVENUE RECOGNITION. Revenues are recognized when title and risk of loss transfers to the customer and the earnings process is complete. In general, title passes to our customers upon the customer's receipt of the merchandise. Revenue is accounted by reporting revenue gross as a principal versus net as an agent. Revenue is recognized on a gross basis since our company has the risks and rewards of ownership, latitude in selection of vendors and pricing, and bears all credit risk. Our company records all shipping and handling fees billed to customers as revenues, and related costs as cost of goods sold, when incurred.

ALLOWANCE FOR DOUBTFUL ACCOUNTS. We are required to make judgments based on historical experience and future expectations, as to the realizability of our accounts receivable. We make these assessments based on the following factors: (a) historical experience, (b) customer concentrations, (c) customer credit worthiness, (d) current economic conditions, and (e) changes in customer payment terms.

STOCK BASED COMPENSATION. The Company records compensation expense associated with stock options and other equity-based compensation. Share-based compensation expense is determined based on the grant-date fair value estimated using the Black Scholes method. The Company recognizes compensation expense on a straight-line basis over the requisite service period of the award.

RESULTS OF OPERATIONS

The following table sets forth certain selected unaudited condensed statement of operations data for the periods indicated in dollars and as a percentage of total net revenues. The following discussion relates to our results of operations for the periods noted and is not necessarily indicative of the results expected for any other interim period or any future fiscal year. In addition, we note that the period-to-period comparison may not be indicative of future performance.

	Three Months Ended September 30,	
	2011	2010
Revenue	\$ 650,370	\$ 773,830
Cost of Revenues	484,032	509,973
Gross Profit	166,338	263,857
Selling, General and Administrative Expenses	852,186	598,949
(Loss) from Operations	\$ (685,848)	\$ (335,092)

We generated revenues of \$650,370 in the third quarter of 2011 compared to \$773,830 in the same three month period ended September 30, 2010. The decrease in revenues of \$123,460 in 2011 compared to 2010 was due to the downturn in the overall economy.

Cost of revenues was \$484,032 or 74.4% of revenues in the third quarter of 2011 compared to \$509,973 or 65.9% of revenues in the same three months of 2010. Cost of revenues includes purchases and freight costs associated with the shipping of merchandise to our customers. Cost of revenues in 2011 include \$44,164 costs associated with purchasing air cards for our proximity marketing business and the installations costs of connecting the air cards to our servers. These costs have no significant revenues associated with these costs for the 2011 third quarter.

Gross profit was \$166,338 in the third quarter of 2011 or 25.6% of net revenues compared to \$263,857 in the same three months of 2010 or 34.1% of revenues. Gross profits will vary period-to-period depending upon a number of factors including the mix of items sold, pricing of the items and the volume of product sold. Also, it is our practice to pass freight costs on to our customers. Reimbursement of freight costs which are included in revenues have lower profit margins than sales of our promotional products and has the effect of reducing our overall gross profit margin on sales of products, particularly on smaller orders. If you exclude the proximity costs of \$44,164 from our 2011 third quarter cost of revenues, our gross profit percentage would have been approximately 32%.

Selling, general, and administrative expenses were \$852,186 in the third quarter of 2011 compared to \$598,949 in the same three months of 2010. Such costs include payroll and related expenses, commissions, insurance, rents, professional, consulting and public awareness fees. The \$253,237 increase in costs relates primarily to an

approximate \$115,000 increase in rent and licensing fees for our proximity marketing program which is taking place at malls throughout the country, an increase in commissions of \$53,588 and an increase in stock compensation of \$29,177..

Net loss was \$(685,848) in the third quarter of 2011 compared to a net loss of \$(335,092) for the same three months in 2010, an increase of \$350,756. The third quarter net loss for 2011 includes a \$123,460 decrease in revenues and a \$253,237 increase in costs relates primarily to a \$115,000 increase in rent and licensing fees for our proximity marketing program which is taking place at malls throughout the country, an increase in commissions of \$53,588 and an increase in stock compensation of \$29,177.. No benefit for income taxes is provided for in 2011 and 2010 due to the full valuation allowance on the net deferred tax assets.

	Nine Months Ended September 30,	
	2011	2010
Revenue	\$ 2,284,573	\$ 2,447,723
Cost of Revenues	1,761,655	1,688,609
Gross Profit	522,918	759,114
Selling, General and Administrative Expenses	2,107,440	2,048,720
Loss) from Operations	\$ (1,584,522)	\$(1,289,606)

We generated revenues of \$2,284,573 in the first nine months of 2011 compared to \$2,447,723 in the same nine month period ended September 30, 2010. The decrease in revenues of \$163,150 in 2011 compared to 2010 was due to the downturn in the overall economy.

Cost of revenues was \$1,761,655 or 77.1% of revenues in the first nine months of 2011 compared to \$1,688,609 or 69% of revenues in the same nine months of 2010. Cost of revenues includes purchases and freight costs associated with the shipping of merchandise to our customers. Increase in cost of revenues of \$73,046 in 2011 is related to an increase in purchases due to the mix of items our customer base has ordered during the nine months ended September 30, 2011. Cost of revenues in 2011 include \$70,344 costs associated with purchasing air cards for our proximity marketing business and the installations costs of connecting the air cards to our servers. These costs have no significant revenues associated with these costs for the nine months ended September 30, 2011.

Gross profit was \$522,918 in the first nine months of 2011 or 22.9% of net revenues compared to \$759,114 in the same nine months of 2010 or 31% of revenues. Gross profits will vary period-to-period depending upon a number of factors including the mix of items sold, pricing of the items and the volume of product sold. Also, it is our practice to pass freight costs on to our customers. Reimbursement of freight costs which are included in revenues have lower profit margins than sales of our promotional products and has the effect of reducing our overall gross profit margin on sales of products, particularly on smaller orders. If you exclude the proximity costs of \$70,344 from our 2011 nine month cost of revenues, our gross profit percentage would have been approximately 26%.

Selling, general, and administrative expenses were \$2,107,440 in the first nine months of 2011 compared to \$2,048,720 in the same nine months of 2010. Such costs include payroll and related expenses, commissions, insurance, rents, professional, consulting and public awareness fees. The increase in costs relates to an increase in rents and licensing fees which relates to our mall proximity program as described above.

Net loss was \$(1,584,522) in the first nine months of 2011 compared to a net loss of \$(1,289,606) for the same nine months in 2010, an increase of \$294,916. The first nine months net loss for 2011 includes a decrease in revenues of approximately \$163,150 and an increase in rents and licensing fees relating to our proximity marketing mall program of approximately \$110,000. No benefit for income taxes is provided for in 2011 and 2010 due to the full valuation allowance on the net deferred tax assets.

Liquidity and Capital Resources

The Company had cash and cash equivalents of \$1,094,001 at September 30, 2011. Cash used by operating activities for the nine months ended September 30, 2011 was \$(1,436,115). This resulted primarily from a net loss of (\$1,585,105) partially offset by an increase in accounts receivable of \$44,045 and \$268,173 in prepaid expenses and other assets. Net cash of \$497,715 was used by investing activities to acquire property and equipment. Net cash was provided by financing activities totaling \$2,264,250 resulting from the issuance of common stock.

The Company had cash and cash equivalents of \$260,683 at September 30, 2010. Cash used by operating activities for the nine months ended September 30, 2010 was \$(771,066). This resulted primarily from a net loss of (\$1,289,743) partially offset by a decrease in accounts receivable of \$196,306 and \$552,693 in stock based payments. Net cash of \$164,362 was used by investing activities to acquire property and equipment. Net cash was provided by financing activities totaling \$600,500 resulting from the issuance of common stock.

Our Company commenced operations in 1998 and was initially funded by our three founders, each of whom has made demand loans to our Company that have been repaid. Since 1999, we have relied primarily on equity financing from outside investors to supplement our cash flow from operations.

We anticipate that our future liquidity requirements will arise from the need to expand our Proximity Marketing Division to finance our accounts receivable and inventories, hire additional sales persons, capital expenditures and possible acquisitions. The primary sources of funding for such requirements will be cash generated from operations, raising additional capital from the sale of equity or other securities and borrowings under debt facilities which currently do not exist. We believe that we can generate sufficient cash flow from these sources to fund our operations for at least the next twelve months. In the event we should need additional financing, we can provide no assurances that we will be able to obtain financing on terms satisfactory to us, if at all.
