**Item 2.02. Results of Operations and Financial Condition**

OGE Energy Corp. (the Company) is the parent company of Oklahoma Gas and Electric Company (OG&E), a regulated electric utility with approximately 755,000 customers in Oklahoma and western Arkansas, and Enogex Inc. and its subsidiaries (Enogex), a natural gas pipeline business with principal operations in Oklahoma.

On February 16, 2007, the Company issued a press release describing the Company's consolidated financial results for the quarter and year ended December 31, 2006, which is furnished as Exhibit 99.01 and incorporated herein by reference. As described in the press release, the Company reported earnings of \$2.84 per diluted share for the year ended December 31, 2006, compared with \$2.32 per diluted share for the year ended December 31, 2005. Earnings were higher due to improved financial performance at OG&E primarily the result of higher electric rates, customer growth and more favorable weather during 2006 and at Enogex primarily the result of a 27 percent increase in gross margins as a result of favorable commodity prices and processing spreads, higher volumes and the timing associated with hedging gains in Enogex's marketing business. As described in the press release, the Company reported earnings of \$0.24 per diluted share for the quarter ended December 31, 2006, compared with \$0.62 per diluted share for the quarter ended December 31, 2005. Lower earnings in the fourth quarter of 2006 were primarily due to a year-end adjustment at OG&E for fuel-related costs during 2006 partially offset by a 20 percent increase in gross margins at Enogex. Financial results for Enogex for the fourth quarter of 2005 also included discontinued operations, including a gain from an asset sale. Also, the Company reaffirmed its 2007 earnings guidance at \$2.30 to \$2.50 per diluted share, but is currently projecting earnings to be toward the lower half of the range. For further information, see the press release attached as Exhibit 99.01.

OG&E posted earnings of \$1.62 per diluted share for the year ended December 31, 2006, compared with earnings of \$1.43 per diluted share for the year ended December 31, 2005. Enogex posted earnings of \$1.23 per diluted share for the year ended December 31, 2006, compared with earnings of \$0.99 per diluted share for the year ended December 31, 2005. The holding company posted a loss of \$0.01 per diluted share for the year ended December 31, 2006, compared with a loss of \$0.10 per diluted share for the year ended December 31, 2005.

OG&E posted a loss of \$0.01 per diluted share in the fourth quarter of 2006, compared to earnings of \$0.03 per diluted share in the fourth quarter of 2005. Enogex posted earnings of \$0.25 per diluted share in the fourth quarter of 2006, compared with earnings of \$0.61 per diluted share in the fourth quarter of 2005. The holding company earnings were flat in the fourth quarter of 2006, compared to a loss of \$0.02 per diluted share in the fourth quarter of 2005.

Exhibit 99.01

## OGE Energy Corp. Announces 2006 Results, 2007 Outlook

OKLAHOMA CITY OGE Energy Corp. (NYSE: OGE), the parent company of Oklahoma Gas and Electric Company (OG&E) and Enogex Inc., today reported earnings from continuing operations of \$2.45 per diluted share in 2006, compared with earnings from continuing operations of \$1.77 per diluted share in 2005.

Including results from discontinued operations at Enogex, OGE Energy recorded earnings of \$2.84 per diluted share for 2006. In 2005, including results from discontinued operations, the company reported earnings of \$2.32 per diluted share.

In 2006, OG&E reported net income of \$149 million and contributed \$1.62 in diluted earnings per share, compared with net income of \$130 million, or \$1.43 per diluted share in 2005. Enogex reported income from continuing operations of \$78 million, or \$0.84 in diluted earnings per share in 2006, compared with income from continuing operations of \$40 million, or \$0.44 in diluted earnings per share for 2005.

We are pleased to report record earnings, said Steven E. Moore, OGE Energy chairman and CEO. But as we celebrate, we also look ahead to our \$3.3 billion plan to expand capacity, increase reliability and improve environmental performance in our utility business as we also pursue growth for our pipeline operations. As always, the key to our continued success is our ability to overcome the challenges we face in balancing cost and service for our customers alongside appropriate risk and returns for our shareowners.

For the three months ended Dec. 31, 2006, OGE Energy reported earnings from continuing operations of \$0.24 per diluted share, compared with earnings from continuing operations of \$0.19 per diluted share in the fourth quarter of 2005. Including results from discontinued operations, fourth-quarter 2006 earnings were \$0.24 per diluted share, compared with \$0.62 per diluted share in the year-ago quarter.

Financial results improved in the fourth quarter of 2006 primarily due to a 20 percent increase in gross margins at Enogex, the company's natural gas pipeline business, partially offset by lower margins at OG&E, the regulated electric utility, which made a year-end adjustment for fuel-related costs during 2006. Financial results for Enogex for the fourth quarter of 2005 also included \$38.8 million of discontinued operations, including a gain from an asset sale.

### Discussion of full-year 2006

**OGE Energy** reported consolidated operating revenues of \$4.0 billion in 2006, compared with \$5.9 billion in 2005. The decrease in revenues was primarily due to a lower level of trading activity due to a shift in strategy in Enogex's marketing business. Gross margin on revenues was \$1.1 billion in 2006, compared with \$969 million in 2005. Operating income was \$433 million in 2006, compared with \$322 million in 2005. Net income was \$262 million in 2006, compared with \$211 million in 2005.

**OG&E** reported operating revenues of \$1.75 billion in 2006, compared with \$1.72 billion in 2005. Gross margin on revenues at OG&E was \$796 million, compared with \$727 million in 2005. OG&E's increase, \$1.62 in diluted earnings per share in 2006 compared with \$1.43 per

## Edgar Filing: OGE ENERGY CORP - Form 8-K

diluted share in 2005, reflects higher electric rates, customer growth and more favorable weather during 2006, partially offset by higher expenses for operations, maintenance, and interest.

*Enogex* reported operating revenues of \$2.4 billion in 2006, compared with \$4.3 billion in 2005. Gross margin on revenues at Enogex was \$307 million, compared to \$242 million in 2005. Earnings from continuing operations at Enogex, \$0.84 per diluted share in 2006 compared to \$0.44 per diluted share in 2005, were higher primarily due to a 27 percent increase in gross margins, a result of favorable commodity prices and processing spreads, higher volumes and the timing associated with hedging gains in the marketing business.

*The holding company* posted a loss of \$0.01 per share to OGE Energy's consolidated results in 2006, compared with a loss of \$0.10 per share in 2005. The improvement was primarily due to higher income tax benefits in 2006.

### Discussion of Fourth Quarter 2006

*OGE Energy* reported consolidated operating revenues of \$831 million in the fourth quarter, compared with \$1.6 billion a year earlier. The fourth-quarter gross margin on revenues was \$216 million, compared with \$209 million in the year-earlier quarter. Operating income was \$43 million in the fourth quarter, compared with \$39 million in the year-earlier quarter.

*OG&E* posted a net loss \$1.0 million, or \$0.01 per diluted share to OGE Energy's consolidated fourth-quarter results, compared with net income of \$2.3 million, or \$0.03 per diluted share for the fourth quarter a year ago. The decline was due primarily to a lower gross margin on revenues, \$129 million, compared with \$138 million in the fourth quarter of 2005. Customer growth and higher electric rates resulted in higher revenues, offset by a \$26.7 million reduction in revenues (approximately \$16.7 million of net income) stemming from collections of fuel-related costs under approved tariffs during 2006 in excess of amounts intended by the Oklahoma Corporation Commission in its rate increase order of December 2005. In January 2007, OG&E voluntarily filed revised tariffs that will cause the excess amounts to be credited to customers in 2007 and 2008 and will reduce OG&E's recoveries going forward to the level intended by the Oklahoma Corporation Commission in its December 2005 order.

*Enogex* posted income from continuing operations of \$23 million, or \$0.25 per diluted share to OGE Energy's consolidated fourth-quarter results, compared with income from continuing operations of \$17 million, or \$0.18 per diluted share for the fourth quarter a year ago. Fourth-quarter gross margin on revenues was \$86 million, compared with \$72 million a year earlier. The increase was primarily due to higher gathered volumes and favorable processing spreads in the gathering and processing business and higher demand fees in the transportation and storage business, partially offset by lower margins in the marketing business.

*Holding company* results were flat in the fourth quarter, compared to a loss of \$0.02 per share in the 2005 quarter, primarily due to lower interest expenses.

### 2007 Outlook

OGE Energy reaffirms its consolidated earnings guidance for 2007 at \$2.30 - \$2.50 per diluted share, previously reported with third-quarter 2006 results, but is currently projecting earnings to be toward the lower half of the range. The guidance assumes approximately 92.5 million average diluted shares outstanding, normal weather for 2007, sales growth at OG&E of approximately 2 percent, and excludes any gains on asset sales.

## Edgar Filing: OGE ENERGY CORP - Form 8-K

The 2007 guidance continues to include:

- o OG&E: \$1.67 - \$1.75 per diluted share on net income of \$154-162 million.
- o Enogex: \$0.68 - \$0.78 per diluted share on net income of \$63-72 million.
- o Holding co.: loss of \$0.03 - \$0.05 per diluted share on a net loss of \$3-4 million.

More detailed information on the Company's 2007 outlook is provided in its Annual Report on Form 10-K for the year ended Dec. 31, 2006, which is being filed today with the Securities and Exchange Commission.

### Conference Call Webcast

OGE Energy will host a conference call for discussion of the results and the outlook for 2007 on Friday, Feb. 16, at 8 a.m. CST. The conference, hosted by James R. Hatfield, senior vice president and CFO, will be available through [www.oge.com](http://www.oge.com).

OGE Energy is the parent company of Oklahoma Gas and Electric Company (OG&E), which serves approximately 755,000 customers in a service territory spanning 30,000 square miles in Oklahoma and western Arkansas, and of Enogex Inc., a natural gas pipeline business with principal operations in Oklahoma.

Some of the matters discussed on this news release may contain forward-looking statements that are subject to certain risks, uncertainties and assumptions. Such forward-looking statements are intended to be identified in this document by the words anticipate, believe, estimate, expect, intend, objective, plan, possible, potential, project and similar expressions. Actual results may vary materially. Factors that could cause actual results to differ materially from the forward-looking statements include, but are not limited to general economic conditions, including the availability of credit, actions of rating agencies and their impact on capital expenditures; OGE Energy Corp.'s (collectively, with its subsidiaries, the Company) ability and the ability of its subsidiaries to obtain financing on favorable terms; prices and availability of electricity, coal, natural gas and natural gas liquids, each on a stand-alone basis and in relation to each other; business conditions in the energy industry; competitive factors including the extent and timing of the entry of additional competition in the markets served by the Company; unusual weather; availability and prices of raw materials for current and future construction projects; federal or state legislation and regulatory decisions (including the approval of future regulatory filings with the Oklahoma Corporation Commission (OCC) or the Arkansas Public Service Commission (APSC) related to its proposed construction of a new power plant and the outcome of Oklahoma Gas and Electric Company's (OG&E) current Federal Energy Regulatory Commission (FERC) audit) and initiatives that affect cost and investment recovery, have an impact on rate structures or affect the speed and degree to which competition enters the Company's markets; environmental laws and regulations that may impact the Company's operations; changes in accounting standards, rules or guidelines; the discontinuance of regulated accounting principles under Financial Accounting Standards Board Statement of Financial Accounting Standard (SFAS) No. 71, Accounting for the Effects of Certain Types of Regulation; creditworthiness of suppliers, customers and other contractual parties; the higher degree of risk associated with the Company's nonregulated business compared with the Company's regulated utility business; and other risk factors listed in the reports filed by the Company with the Securities and Exchange Commission.
