Purpose of This Amendment

We are amending our Form 10-Q for the period ended June 30, 2010 to correct our balance sheet's description of our authorized shares. We reported in error that there were 100,000,000 shares of common stock authorized while the correct number of authorized shares is 950,000,000.

VIEW SYSTEMS, INC.
FORM 10-Q
FOR THE PERIOD ENDED JUNE 30, 2010
As Amended

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995

Information included in this Form 10-Q contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended (Securities Act), and Section 21E of the Securities Exchange Act of 1934, as amended (Exchange Act). This information may involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of View Systems, Inc. (the Company), to be materially different from future results, performance or achievements expressed or implied by any forward-looking statements. Forward-looking statements, which involve assumptions and describe future plans, strategies and expectations of the Company, are generally identifiable by use of the words may, will, should, expect, anticipate, estimate, believe, intend, or project or the negative of these words or other variations on these words or comparable terminology. These forward-looking statements are based on assumptions that may be incorrect, and there can be no assurance that these projections included in these forward-looking statements will come to pass. Actual results of the Company could differ materially from those expressed or implied by the forward-looking statements as a result of various factors. Except as required by applicable laws, the Company has no obligation to update publicly any forward-looking statements for any reason, even if new information becomes available or other events occur in the future.

VIEW SYSTEMS, INC.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2010 AND DECEMBER 31, 2009

1.

NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations

View Systems, Inc. (the Company) designs and develops computer software and hardware used in conjunction with surveillance capabilities. The technology utilizes the compression and decompression of digital inputs. In March 2002, the Company acquired Milestone Technology, Inc. (Milestone), which has developed a concealed weapons detection portal.

Basis of Consolidation

The consolidated financial statements include the accounts of the Company and its wholly owned subsidiary, Milestone Technology, Inc. All significant intercompany accounts and transactions have been eliminated in consolidation.

Cash and Cash Equivalents

The Company considers all highly liquid investments with maturities of three months or less to be cash equivalents.

Use of Estimates

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could differ from the estimates that were used.

Accounts Receivable

Accounts receivable consists of amounts due from customers. Management periodically reviews the open accounts and makes a determination as to the ultimate collectibility of each account. Once it is determined that collection is in doubt the account is written off as a bad debt. In order to provide for accounts that may become uncollectible in the future, the Company has established an allowance for doubtful accounts. The balance of the allowance for doubtful accounts is based on management's judgment and the Company's prior experience with managing accounts receivable.

VIEW SYSTEMS, INC.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2010 AND DECEMBER 31, 2009

1.

NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Revenue Recognition

The Company has three main products, namely the concealed weapons detection system, the visual first responder system and the Viewmaxx digital video system. In all cases revenue is considered earned when the product is shipped to the customer. The concealed weapons system and the digital video system each require installation and training.

The customer can engage us for installation and training, which is a revenue source separate and apart from the sale of the product. In those cases revenue is recognized at the completion of the installation and training. However, the customer can also self install or can engage another firm to provide installation and training. Each product has an unconditional 30 day warranty, during which time the product can be returned for a complete refund. Prior to the issuance of financial statements management reviews any returns subsequent to the end of the accounting period which are from sales recognized during the accounting period, and makes appropriate adjustments as necessary.

Product prices are fixed or determinable and products are only shipped when collectibility is reasonably assured.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined by the last-in-first-out method (LIFO). All inventory as of June 30, 2010 and December 31, 2009 consisted of unassembled parts of products.

Property and Equipment

Edgar Filing: VIEW SYSTEMS INC - Form 10-Q/A

Property and equipment is recorded at cost and depreciated over their useful lives, using the straight-line and accelerated depreciation methods. Upon sale or retirement, the cost and related accumulated depreciation are eliminated from the respective accounts, and the resulting gain or loss is included in the results of operations. The useful lives of property and equipment for purposes of computing depreciation are as follows:

Equipment

5-7 years

Software tools

3 years

Repairs and maintenance charges which do not increase the useful lives of assets are charged to operations as incurred. Depreciation expense for the periods ended June 30, 2010 and December 31, 2009 amounted to \$10,000 and \$11,985, respectively.

VIEW SYSTEMS, INC.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2010 AND DECEMBER 31, 2009

1.

NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Licenses

In connection with the acquisition of Milestone, the Company received various licenses to products developed by INEEL (Idaho National Engineering and Environmental Laboratory). Milestone transferred the licenses to View Systems, Inc., and in November 2003, two separate licenses were signed in the name of View Systems with Bechtel BWXT Idaho, LLC (BBWI).

BBWI is the management and operating contractor of the INEEL under its Contract No. DE-AC07-99ID13727 (M&O Contract) and has the authorization, right and ability to grant the license of the Agreement. The licenses allow View Systems to commercially develop, manufacture, use, sell and distribute processes and products embodying the U.S. Patent No. 6.150.810 Method for Detecting the Presence of a Ferromagnetic Object Using Maximum and Minimum Magnetic Field Data , and U.S. Patent Application S/N 10/623,372, Communication Systems, Camera Devices, and Communication Methods .

The valuation of these licenses consist of the cost of acquiring Milestone, that is, the difference of the cost paid for the entity vs. the value of the underlying assets and liabilities which was determined to be \$1,626,854. The cost of the licenses is being amortized on a straight line basis over the remaining useful lives of the underlying patents, which at the date of the purchase was 15.5 years. Amortization expense for the periods ended June 30, 2010 and December 31, 2009 was \$52,480 and \$104,958, respectively. Consistent with SFAS No. 142, the license was also analyzed to determine if any impairment existed at June 30, 2010 and December 31, 2009. It was determined not to be impaired. The Company has fundamentally advanced the technology under which these licenses operate but never sought its own patent protection.

Income Taxes

Deferred income taxes are recorded under the assets and liability method whereby deferred tax assets and liabilities are recognized for the future tax consequences, measured by enacted tax rates, attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and operating loss carryforwards. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period the rate change becomes effective. Valuation allowances are recorded for deferred tax assets when it is more likely than not that such deferred tax assets will not be realized.

Research and Development

Research and development costs are expensed as incurred.

Advertising

Advertising costs are charged to operations as incurred. Advertising costs for the periods ended June 30, 2010 and December 31, 2009 were \$8,000 and \$19,737.

Nonmonetary Transactions

Nonmonetary transactions are accounted for in accordance with Accounting Principles Board Opinion No. 29, Accounting for Nonmonetary Transactions which requires the transfer or distribution of a nonmonetary asset or liability to be based generally, on the fair value of the asset or liability that is received or surrendered, whichever is more clearly evident.

VIEW SYSTEMS, INC.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2010 AND DECEMBER 31, 2009

1.

NATURE OF OPERATIONS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Financial Instruments

For most financial instruments, including cash, accounts receivable, accounts payable and accruals, management believes that the carrying amount approximates fair value, as the majority of these instruments are short-term in nature.

Reverse Stock Split

During 2008 the Board of Directors approved a 1 for 80 reverse stock split of the issued and outstanding common and preferred stock. The reverse split did not change the authorized shares or the par value for either class of stock.

Net Loss Per Common Share

Basic net loss per common share is computed by dividing net loss available to common stockholder by the weighted average number of common shares outstanding. Diluted net loss per common share is computed by dividing net loss available to common stockholders by the weighted average number of common shares and dilutive potential common share equivalents then outstanding. Potential common shares consist of shares issuable upon the exercise of stock options and warrants in addition to shares that may be issued in the event that convertible debt is exchanged for shares of common stock. The calculation of the net loss per share available to common stockholders for the periods ended

Edgar Filing: VIEW SYSTEMS INC - Form 10-Q/A

June 30, 2010 and December 31, 2009 does not include potential shares of common stock equivalents, as their impact would be antidilutive. The following reconciles amounts reported in the financial statements:

\$

(0.09)

VIEW SYSTEMS, INC.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2010 AND DECEMBER 31, 2009

2.

GOING CONCERN

The Company has incurred, and continues to incur, losses from operations. For the periods ended June 30, 2010 and December 31, 2009, the Company incurred net losses of \$258,602 and \$1,560,012, respectively. In addition, certain notes payable have come due and the note holders are demanding payment.

Management is very actively working to cure these situations. It has implemented major plans for the future growth and development of the Company. Management is in the process of renegotiating more favorable repayment terms on the notes payable, and the Company anticipates that these negotiations will result in extended payment plans. In addition, during 2009 and 2008, the Company implemented marketing and information strategies to increase public awareness of its products and thereby enhance its sales. It has established new international markets which it believes will be the source for sales growth in the very near future. It also was able to reduce the per unit cost of manufacturing its products. Additionally, the Company has increased the efficiency of its processes and focused its development efforts on products that appear to have greater sales potential.

Historically, the Company has financed its operations primarily through private financing; however, sales revenue during 2010 and 2009 and decreases in expenses during 2010 made a significant contribution to working capital. It is management's intention to finance operations during the remainder of 2010 primarily through increased sales although there will still be a need for additional equity financing. In addition, management is actively seeking out mergers and acquisitions which would be beneficial to the future growth of the Company. There can be no assurance, however, that this financing will be successful, and the Company may be required to further reduce expenses and scale back operations.

VIEW SYSTEMS, INC.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2010 AND DECEMBER 31, 2009

3.

NEW ACCOUNTING PRONOUNCEMENTS

The Financial Accounting Standards Board (FASB) periodically issues new accounting standards in a continuing effort to improve standards of financial accounting and reporting. The Company has reviewed the recently issued pronouncements and concluded that there are no new accounting standards are applicable to the Company.

4.

BUSINESS COMBINATION

The Company purchased 100% of the common stock of Milestone Technology, Inc., effective March 25, 2002. The purchase was accomplished in two transactions. The Company acquired 6% of Milestone in December 2001 in exchange for 500,000 shares of the Company's common stock. In March 2002, the Company acquired the remaining 94% of Milestone for 3,300,000 share of the Company's common stock. Based on the market value of the Company's common stock (\$0.55 per share in December 2001 and \$0.31 per share in March 2002) the total cost of the acquisition was \$1,298,000.

Milestone Technology, Inc., is a developer of concealed weapons detections systems. Its primary product is a walk-through detector that uses advanced magnetic technology to accurately pinpoint the location, size, and number of concealed weapons.

5.

DUE FROM AFFILIATED ENTITIES

The Company has advanced non-interest bearing funds of \$147,507 as of June 30, 2010 and \$147,587 as of December 31, 2009 to a related corporation, The Fight Zone, Inc., (formerly Geoscopix, Inc.), which until approximately March 2008 was controlled by the Chief Executive Officer of the Company. There are no formal repayment terms associated with this advance, but the Fight Zone, Inc.'s viability is no longer certain, and Management is exploring its collection options.

NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2010 AND DECEMBER 31, 2009

6.

NOTES PAYABLE

Notes payable as of June 30, 2010 and December 31, 2009 consists of the following:

JUN 30

2010

DEC 31, 2009

**Investor/stockholder
Group**

During 2006 the Company negotiated a loan arrangement with a group of investors to loan a specific amount to the Company which, once the total amounts loaned reached a certain amount, the loans would be converted into shares of common stock. Since the threshold was never achieved, the

conversion option was terminated and the loans became due on demand with interest at 8% per annum. After the reporting period, the balance due was settled for the issuance of 4,500,000 shares of Company common stock.

\$ 162,092

\$ 162,092

Stockholder

An unsecured loan from a stockholder which is payable on demand with interest at 12%.
