Notes to CONDENSED CONSOLIDATED Financial Statements

(UNAUDITED)

Note 1 — Basis of Presentation

In the opinion of management, the accompanying condensed consolidated financial statements include all adjustments necessary to present fairly the financial position, results of operations and cash flows of Acme United Corporation (the “Company”). These adjustments are of a normal, recurring nature. However, the financial statements do not include all of the disclosures normally required by accounting principles generally accepted in the United States of America or those normally made in the Company's Annual Report on Form 10-K. Please refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2012 for such disclosures. The condensed consolidated balance sheet as of December 31, 2012 was derived from the audited consolidated balance sheet as of that date. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. The information included in this Quarterly Report on Form 10-Q should be read in conjunction with the Management's Discussion and Analysis of Financial Condition and Results of Operations and the financial statements and notes thereto, included in the Company's 2012 Annual Report on Form 10-K.

The Company has evaluated events and transactions subsequent to June 30, 2013 and through the date these condensed consolidated financial statements were included in this Form 10-Q and filed with the SEC.

Recent accounting pronouncements

In February 2013, the Financial Accounting Standards Board (the “FASB”) issued a final rule related to the reporting of amounts reclassified out of accumulated other comprehensive income that requires entities to report, either on their income statement or in a footnote to their financial statements, the effects on earnings from items that are reclassified out of other comprehensive income. This standard update is effective for reporting periods beginning after December 15, 2012. The adoption of this accounting standard did not have an impact on our consolidated financial statements.

Note 2 — Contingencies

The Company is involved from time to time in disputes and other litigation in the ordinary course of business and may encounter other contingencies, which may include environmental and other matters. The Company presently has no matters other than the environmental remediation accrual described below.

In December 2008, the Company sold property it owned in Bridgeport, Connecticut to B&E Juices, Inc. for \$2.5 million, of which \$2.0 million is secured by a mortgage on the property. The property consists of approximately four acres of land and 48,000 sq. feet of warehouse space. The property was the site of the Company's original scissor factory which opened in 1887 and was closed in 1996.

Under the terms of the sale agreement, and as required by the Connecticut Transfer Act, the Company is required to remediate any environmental contamination on the property. During 2008, the Company hired an independent environmental consulting firm to conduct environmental studies in order to identify the extent of the environmental contamination on the property and to develop a remediation plan. As a result of those studies and the estimates prepared by the independent environmental consulting firm, the Company recorded an undiscounted liability of approximately \$1.8 million related to the remediation of the property. This accrual included the costs of required investigation, remedial activities, and post-remediation operating and maintenance.

The remediation work, which began in the third quarter of 2009, was completed during the third quarter of 2012. The Company, with the assistance of its independent environmental consulting firm, must continue to monitor contaminant levels on the property to ensure they comply with set governmental standards. The Company expects that the monitoring period could last a minimum of two years. At June 30, 2013, the Company had approximately \$81,000 remaining in its accrual for post-remediation monitoring and project closing costs, of which approximately \$22,000 was classified as a current liability.

The change in the accrual for environmental remediation for the six months ended June 30, 2013 follows (in thousands):

Balance at December 31, 2012	Payments	Balance at June 30, 2013
\$ 124	\$ (43)	\$ 81

Also, as part of the sale, the Company provided the buyer with a mortgage of \$2.0 million at six percent interest per year. The mortgage is payable in monthly installments of principal and interest with the outstanding balance due in full, one year after remediation and monitoring on the property have been completed.

Note 3 — Pension

Components of net periodic benefit cost are as follows (in thousands):

	Three Months Ended June 30, 2013	2012	Six Months Ended June 30, 2013	2012
Components of net periodic benefit cost:				
Interest cost	\$17	\$17	\$43	\$43
Service cost	12	12	17	18
Expected return on plan assets	(28)	(28)	(54)	(75)
Amortization of prior service costs	2	2	5	5
Amortization of actuarial loss	39	39	77	95
	\$43	\$43	\$87	\$85

The Company's funding policy with respect to its qualified plan is to contribute at least the minimum amount required by applicable laws and regulations. In 2013, the Company is required to contribute approximately \$235,000.

Note 4 — Debt and Shareholders' Equity

On April 25, 2013, the Company amended its revolving loan agreement with HSBC Bank N.A. dated April 5, 2012. The amendment increased the borrowing limit to \$40 million from \$30 million. The interest rate remains the same at LIBOR plus 1.75%. All principal amounts outstanding under the agreement are required to be repaid in a single amount on April 5, 2017, the date the agreement expires; interest is payable monthly. Funds borrowed under the agreement may be used for working capital, general operating expenses, share repurchases, acquisitions and certain other purposes. Under the amended loan agreement, the Company is required to maintain specific amounts of tangible net worth, a debt/net worth ratio, and a fixed charge coverage ratio.

As of June 30, 2013 and December 31, 2012, the Company had outstanding borrowings of \$26,011,829 and \$24,319,829, respectively, under the Company's revolving loan agreement with HSBC. Under the revolving loan agreement, the Company is required to maintain specific amounts of tangible net worth, a specified debt service coverage ratio, and a fixed charge coverage ratio. At June 30, 2013 the Company was in compliance with these covenants.

During the first six months of 2013, the Company issued a total of 53,825 shares of common stock and received aggregate proceeds of \$321,992 upon the exercise of employee stock options.

Note 5— Segment Information

The Company reports financial information based on the organizational structure used by management for making operating and investment decisions and for assessing performance. The Company's reportable business segments consist of: (1) United States; (2) Canada and (3) Europe. As described below, the activities of the Company's Asian operations are closely linked to those of the U.S. operations; accordingly, management reviews the financial results of both on a consolidated basis, and the results of the Asian operations have been aggregated with the results of the United States operations to form one reportable segment called the "United States segment" or "U.S. segment". Each reportable segment derives its revenue from the sales of cutting devices, measuring instruments and safety products for school, office, home, hardware and industrial use.

Domestic sales orders are filled from the Company's distribution center in North Carolina. The Company is responsible for the costs of shipping, insurance, customs clearance, duties, storage and distribution related to such products. Orders filled from the Company's inventory are generally for less than container-sized lots.

Direct import sales are products sold by the Company's Asian subsidiary, directly to major U.S. retailers, who take ownership of the products in Asia. These sales are completed by delivering product to the customers' common carriers at the shipping points in Asia. Direct import sales are made in larger quantities than domestic sales, typically full containers. Direct import sales represented approximately 27% and 21% of the Company's total net sales for the three and six months ended June 30, 2013 compared to 28% and 22% for the comparable periods in 2012.

The chief operating decision maker evaluates the performance of each operating segment based on segment revenues and operating income. Segment amounts are presented after converting to U.S. dollars and consolidating eliminations.

Note 6 – Stock Based Compensation

The Company recognizes share-based compensation at the fair value of the equity instrument on the grant date. Compensation expense is recognized over the required service period. Share-based compensation expenses were \$167,410 and \$145,237 for the quarters ended June 30, 2013 and 2012, respectively. Share-based compensation expenses were \$272,410 and \$232,753 for the six months ended June 30, 2013 and 2012, respectively. During the three months ended June 30, 2013, the Company issued 20,500 options with a weighted average fair value of \$2.75 per share. During the six months ended June 30, 2013 the Company issued 58,000 options with a weighted average fair value of \$2.69.

As of June 30, 2013, there was a total of \$645,000 of unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested share –based payments granted to the Company’s employees. The remaining unamortized expense is expected to be recognized over a weighted average period of approximately 3 years.

Note 7 – Fair Value Measurements

The carrying value of the Company’s bank debt and note receivable approximates fair value. Fair value was determined using a discounted cash flow analysis.

Note 8 – Business Combination

On June 7, 2012, the Company purchased certain assets of The C-Thru Ruler Company (“C-Thru”), a leading supplier of drafting, measuring, lettering and stencil products. The Company purchased inventory and intellectual property for approximately \$1.47 million using funds borrowed under its revolving credit facility with HSBC. The Company recorded approximately \$0.42 million for inventory, as well as approximately \$1.05 million for intangible assets,

consisting primarily of customer relationships.

Assuming C-Thru was acquired on January 1, 2012, unaudited proforma combined net sales for the three and six months ended June 30, 2012 for the Company would have been approximately \$28.2 million and \$45.6 million, respectively.

Unaudited net income for the three and six months ended June 30, 2012 attributable to C-Thru were not material to the Company's financial statements for those periods.

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Information

The Company may from time to time make written or oral “forward-looking statements”, including statements contained in this report and in other communications by the Company, which are made in good faith by the Company pursuant to the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements include statements of the Company’s plans, objectives, expectations, estimates and intentions, which are subject to change based on various important factors (some of which are beyond the Company’s control). The following factors, in addition to others not listed, could cause the Company’s actual results to differ materially from those expressed in forward looking statements: the strength of the domestic and local economies in which the Company conducts operations, the impact of uncertainties in global economic conditions, changes in client needs and consumer spending habits, the impact of competition and technological change on the Company, the Company’s ability to manage its growth effectively, including its ability to successfully integrate any business which it might acquire, and currency fluctuations. For a more detailed discussion of these and other factors affecting us, see the Risk Factors described in Item 1A included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2012. All forward-looking statements in this report are based upon information available to the Company on the date of this report. The Company undertakes no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events, or otherwise, except as required by law.

Critical Accounting Policies

There have been no material changes to the Company’s critical accounting policies and estimates from the information provided in Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operations, included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2012.

Results of Operations

On June 7, 2012, the Company purchased certain assets of The C-Thru Ruler Company, a leading supplier of drafting, measuring, lettering and stencil products. The Company purchased inventory and intellectual property related to C-Thru's lettering and ruler business for approximately \$1.47 million using funds borrowed under its revolving loan agreement with HSBC. The Company recorded approximately \$0.42 million for inventory, as well as approximately \$1.05 million for intangible assets, consisting of customer relationships.

Traditionally, the Company's sales are stronger in the second and third quarters, and weaker in the first and fourth quarters of the fiscal year, due to the seasonal nature of the back-to-school market.

Net sales

Consolidated net sales for the three months ended June 30, 2013 were \$28,412,000 compared with \$27,594,000 in the same period in 2012, a 3% increase (4% in local currency). Consolidated net sales for the six months ended June 30, 2013 were \$46,063,000, compared with \$44,472,000 for the same period in 2012, a 4% increase (5% in local currency). Net sales for the three and six months ended June 30, 2013 in the U.S. segment increased 4% and 7%, respectively, compared with the same periods in 2012. Sales in the U.S. for both periods increased primarily due to increased sales in the back to school market and additional sales resulting from the acquisition of C-Thru Ruler Company in June of 2012. Also contributing to the increased sales in the year to date period were higher sales of Camillus brand knives. Net sales in Canada for the three months ended June 30, 2013 decreased 5% in U.S. dollars (3% in local currency). Net sales in Canada for the six months ended June 30, 2013 decreased 4% in U.S. dollars (3% in local currency) compared with the same period in 2012. The decline in sales in Canada for the three and six months ended June 30, 2013 is principally due to general softness in the Canadian economy.

European net sales for the three months ended June 30, 2013 increased 3% in U.S. dollars (2% in local currency) compared with the same period in 2012. European net sales for the six months ended June 30, 2013 decreased 18% in both U.S. dollars and local currency. The decrease in sales for the six months ended June 30, 2013 was primarily due to the bankruptcy and liquidation of a large customer in Germany in the second quarter of 2012.

Gross profit

Gross profit for the three months ended June 30, 2012 was \$10,081,000 (35.5% of net sales) compared to \$9,821,000 (35.6% of net sales) for the same period in 2012. Gross profit for the six months ended June 30, 2013 was \$16,509,000 (35.8% of net sales) compared to \$15,765,000 (35.5% of net sales) in the same period in 2012.

Selling, general and administrative expenses

Selling, general and administrative ("SG&A") expenses for the three months ended June 30, 2013 were \$6,889,000 (24.2% of net sales) compared with \$6,743,000 (24.4% of net sales) for the same period of 2012, an increase of \$146,000. SG&A expenses for the six months ended June 30, 2013 were \$12,803,000 (27.8% of net sales) compared with \$12,229,000 (27.5% of net sales) in the comparable period of 2012, an increase of \$574,000. The increases in SG&A expenses for the three and six months ended June 30, 2013, compared to the same periods in 2012, were primarily due to increases in shipping expense and sales commissions which resulted from higher sales and the addition of sales and marketing personnel.

Operating income

Operating income for the three months ended June 30, 2013 was \$3,192,000 compared with \$3,078,000 in the same period of 2012. Operating income for the six months ended June 30, 2013 was \$3,706,000 compared to \$3,536,000 in the same period of 2012. Operating income in the U.S. segment increased by \$114,000 and \$514,000 for the three and six months ended June 30, 2013, respectively, compared to the same periods in 2012. The increase in operating income is principally due to higher sales. Operating income in the Canadian segment decreased by \$46,000 and \$108,000 for the three and six months ended June 30, 2013, respectively, compared to the same periods in 2012. The decrease in operating income in Canada was principally due to the decline in sales.

The operating loss in Europe decreased by \$46,000, from net operating loss of \$30,000 in the second quarter of 2012 to net operating income of \$16,000 in the same period of 2013. Europe had an operating loss of \$24,000 for the six months ended June 30, 2013 compared to operating income of \$212,000 for the comparable period in 2012. The decrease in operating income for the six months ended June 30, 2013 is primarily due to lower sales, which resulted

from the bankruptcy and liquidation of a large customer in Germany in the second quarter of 2012.

Interest expense, net

Interest expense, net for the three months ended June 30, 2013 was \$74,000, compared with \$62,000 for the same period of 2012, a \$12,000 increase. Interest expense, net for the six months ended June 30, 2013, was \$142,000 compared to \$117,000 for the same period in 2012. The increase in interest expense for the three and six months ended June 30, 2013 was primarily the result of higher average borrowings under the Company's revolving loan agreement.

Other expense (income), net

Net other expense was \$25,000 in the three months ended June 30, 2013 compared to \$43,000 in the same period of 2012. Net other expense was \$28,000 in the first six months of 2013 compared to \$86,000 in the same period of 2012. The decrease in other expense, net for the three and six months ended June 30, 2013, was primarily due to lower losses from foreign currency transactions.

Income taxes

The Company's effective tax rates for both the three and six month periods ended June 30, 2013 was 29%, compared to 31% and 30% in the same periods of 2012. The decrease in the effective tax rate for the three and six months ended June 30, 2013 was due to the Company generating a higher proportion of earnings in jurisdictions with lower tax rates.

Financial Condition

Liquidity and Capital Resources

During the first six months of 2013, working capital increased approximately \$4,272,000 compared to December 31, 2012. Inventory decreased by approximately \$842,000 at June 30, 2013 compared to December 31, 2012. Inventory turnover, calculated using a twelve month average inventory balance, was 1.8 for the twelve months ended June 30, 2013 compared to 1.9 for the year ended December 31, 2012. Receivables increased by approximately \$9.0 million at June 30, 2013 compared to December 31, 2012. The increase in accounts receivables occurred primarily due to the higher sales in the second quarter of 2013 compared to the quarter ended December 31, 2012. The average number of days sales outstanding in accounts receivable was 63 days at June 30, 2013 compared to 61 days at December 31, 2012.

The Company's working capital, current ratio and long-term debt to equity ratio follow:

	June 30, 2013	December 31, 2012		
(in thousands)				
Working capital	\$50,950	\$46,679		
Current ratio	4.52	4.98		
Long term debt to equity ratio	78.3	% 78.8		%

During the first six months of 2013, total debt outstanding under the Company's revolving credit facility with HSBC increased by approximately \$1.7 million, compared to total debt thereunder at December 31, 2012. As of June 30, 2013, \$26,011,829 was outstanding and \$13,988,171 was available for borrowing under the Company's revolving credit facility.

On April 25, 2013, the Company amended its loan agreement with HSBC Bank, N.A. dated April 5, 2012. The amendment increased the borrowing limit to \$40 million from \$30 million. The interest rate remains the same at LIBOR plus 1.75%. All principal amounts outstanding under the agreement are required to be repaid in a single amount on April 5, 2017, the date the agreement expires; interest is payable monthly. Funds borrowed under the agreement may be used for working capital, general operating expenses, share repurchases, acquisitions and certain other purposes. Under the amended loan agreement, the Company is required to maintain specific amounts of tangible net worth, a debt/net worth ratio, and a fixed charge coverage ratio.

As discussed in Note 2 to the Condensed Consolidated Financial Statements set forth in Item 1 above, at June 30, 2013 the Company had approximately \$82,000 remaining in its accrual for environmental remediation and monitoring, with approximately \$21,000 classified as a current liability. The Company intends to use cash flow from operations, borrowings under its revolving credit facility and/or payments made to the Company under the 2008 mortgage to pay for these costs.

The Company believes that cash expected to be generated from operating activities, together with funds available under its amended revolving credit facility are expected, under current conditions, to be sufficient to finance the Company's planned operations over the next twelve months.
