## Explanation of Responses:

\* If the form is filed by more than one reporting person, *see* Instruction 4(b)(v).

\*\* Intentional misstatements or omissions of facts constitute Federal Criminal Violations. *See* 18 U.S.C. 1001 and 15 U.S.C. 78ff(a).

As reported in a Form 4 filed on June 19, 2002, the reporting person entered into a series of forward contracts (collectively, the "Contracts") in June 2002 pursuant to a Master Agreement with an unaffiliated third party (the "Counterparty"). The Contracts required

- (1) the reporting person to deliver to the Counterparty, on the maturity date of the Contracts, an amount of securities or cash that depended on the price of the issuer's common stock at maturity. Generally, each Contract had a floor price per share equal to 75% of the exercise price set forth in Column 2 above, and a ceiling price per share equal to 200% of that price. (Footnote 1 is continued in footnote 2 below.)

(This is a continuation of footnote 1 above.) The reporting person also entered into a "credit side letter" with the Counterparty pursuant to which the reporting person was entitled to borrow money from the Counterparty during the term of the Contracts. The reporting person

- (2) borrowed from the Counterparty a total of \$45,006,250 pursuant to the credit side letter. On the maturity date of the Contracts, the market price of the issuer's common stock was between the floor price and the ceiling price of each Contract. Accordingly, both the put and the call that may be deemed to be embedded in each Contract expired out of the money. The reporting person therefore repaid the loan in cash and delivered no shares of the issuer's common stock to the Counterparty.

On June 28, 2005, the reporting person entered into a variable forward contract (the "2005 Contract") with an unaffiliated third party (the "2005 Counterparty") pursuant to which the reporting person is obligated to deliver to the 2005 Counterparty up to 2,700,000 shares of the issuer's common stock (or an equivalent amount of cash, at the reporting person's election) on the maturity date of the 2005 Contract

- (3) (i.e., June 20, 2008, or an earlier date if the parties agree to terminate the Contract early). In return, the 2005 Counterparty will pre-pay to the reporting person \$52,132,486 as the "purchase price" of any shares so delivered, which is the product of the floor price of the 2005 Contract (as described below) and the number of the shares of the issuer's common stock subject to the 2005 Contract, discounted to an agreed-upon present value. (Footnote 3 is continued in footnotes 4, 5 and 6 below.)

(This is a continuation of footnote 3 above.) The reporting person pledged 2,700,000 shares of the issuer's common stock (the "Pledged Shares") to secure his obligations under the 2005 Contract, and, subject to certain exceptions, retains voting and dividend rights in the Pledged Shares during the period of the pledge. The number of shares (or the cash value thereof) to be delivered to the 2005 Counterparty

- (4) on the maturity date is to be determined as follows, on the basis of prices of the issuer's common stock that are subject to adjustment for dividends received by the reporting person and other events specified in the 2005 Contract: (Footnote 4 is continued in footnotes 5 and 6 below.)

(This is a continuation of footnote 4 above.) > If the market value per share of the issuer's common stock on the maturity date (based on a five-day trailing average of closing prices) is less than or equal to \$22.17 (i.e., the "floor price"), the reporting person will deliver to the 2005 Counterparty the entire amount of Pledged Shares or the cash value thereof; > If the market value per share of the issuer's common

- (5) stock on the maturity date is between the floor price and \$44.14 (the "ceiling price"), the reporting person will deliver to the 2005 Counterparty a number of shares (or the cash value thereof) determined by multiplying the Pledged Shares by the floor price, and dividing the resulting number by the market value per share of the issuer's common stock on the maturity date; (Footnote 5 is continued in footnote 6 below.)

(This is a continuation of footnote 5 above.) > If the market value per share of the issuer's common stock on the maturity date is greater than the ceiling price, the reporting person will deliver to the 2005 Counterparty a number of shares (or the cash value thereof)

- (6) determined by a formula specified in the 2005 Contract which would result in the reporting person's becoming obligated to deliver fewer than the number of Pledged Shares (or the cash value thereof).

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, *see* Instruction 6 for procedure.

Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number.
