**PRELIMINARY PROXY STATEMENT SUBJECT TO COMPLETION DATED JULY 25, 2011**

**PROPOSED BUSINESS COMBINATION YOUR VOTE IS VERY IMPORTANT**

On behalf of the boards of directors of Atlantic Power Corporation ("**Atlantic Power**") and of CPI Income Services Ltd., the general partner of Capital Power Income L.P. ("**CPILP**"), we send to you this management proxy circular and joint proxy statement that describes the proposed statutory plan of arrangement ("**Plan of Arrangement**") and related transactions whereby Atlantic Power will acquire, directly and indirectly, all of the outstanding limited partnership units of CPILP (the "**Arrangement**").

CPILP unitholders will be permitted to exchange each of their limited partnership units for, at their election, C\$19.40 in cash or 1.3 Atlantic Power common shares, subject to proration if total cash elections exceed approximately C\$506.5 million or share elections exceed approximately 31.5 million Atlantic Power common shares. Based on the current number of Atlantic Power common shares outstanding (and specifically excluding any common shares of Atlantic Power that may be issued to finance the cash portion of the purchase price), the existing Atlantic Power shareholders will own approximately 70% of the combined company and former CPILP unitholders will own approximately 30%.

Based on the closing price of the Atlantic Power common shares on the Toronto Stock Exchange ("**TSX**") of C\$ on , 2011, the transaction values CPILP at approximately C\$ billion or C\$ per unit. This represents a premium of approximately % over CPILP's -day volume-weighted average trading price on the TSX through June 17, 2011, the last trading day prior to the public announcement by Atlantic Power and CPILP of their proposed strategic combination.

Capital Power Corporation ("**Capital Power**") and EPCOR Utilities Inc. ("**EPCOR**"), the direct and indirect holders of all of the issued and outstanding shares of CPI Investments Inc., which directly and indirectly holds an aggregate of approximately 29% of the outstanding limited partnership units of CPILP, have entered into agreements with Atlantic Power pursuant to which they each have agreed to support the Arrangement. In addition, in connection with completion of the Arrangement, CPILP will sell its Roxboro and Southport facilities located in North Carolina to an affiliate of Capital Power and the management agreements between Capital Power and CPILP will be terminated (or assigned to Atlantic Power).

The transactions are subject to, among other things, certain approvals by the shareholders of Atlantic Power and the unitholders of CPILP. Specifically, at special meetings expected to be held on 2011, Atlantic Power shareholders will be asked to approve an ordinary resolution that authorizes the issuance of the common shares of Atlantic Power necessary to complete the Arrangement and CPILP unitholders will be asked to approve a special resolution that authorizes the Arrangement, the Plan of Arrangement and certain other steps required to complete the Arrangement. The text of the resolutions are set forth in Annex F and G to this management proxy circular and joint proxy statement, respectively.

**The Atlantic Power board of directors unanimously recommends that the Atlantic Power shareholders vote "FOR" the ordinary resolution to issue the common shares necessary to complete the Arrangement.**

**The board of directors of CPI Income Services Ltd., the general partner of CPILP, unanimously recommends that the CPILP unitholders vote "FOR" the special resolution to approve the Arrangement, the Plan of Arrangement and certain other steps required to complete the Arrangement.**

**Your vote is very important, regardless of the number of shares or units you own. Whether or not you expect to attend the Atlantic Power or CPILP special meeting in person, please vote your shares or units as promptly as possible so that they may be represented and voted at the applicable special meeting.**

If you are unable to attend the Atlantic Power special meeting in person, please complete, date and sign the accompanying form of proxy (printed on paper) and return it, in the envelope provided to Computershare Trust Company of Canada, Proxy Department, 9th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1, so that it is received not less than 48 hours, excluding Saturdays, Sundays and holidays, before the time fixed for holding the Atlantic Power special meeting or any adjournments or postponements thereof.

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

If you are unable to attend the CPILP special meeting in person, please complete, date and sign the accompanying form of proxy (printed on paper) and return it, in the envelope provided to Computershare Trust Company of Canada, Proxy Department, 9th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1, so that it is received not less than 48 hours, excluding Saturdays, Sundays and holidays, before the time fixed for holding the CPILP special meeting or any adjournments or postponements thereof.

We also encourage all registered CPILP unitholders to complete and return the enclosed letter of transmittal and election form (printed on paper) ("**Letter of Transmittal and Election Form**"), together with the certificate(s) representing your CPILP units, to Computershare Investor Services Inc. (the "**Depositary**") at the address specified in the Letter of Transmittal and Election Form. The Letter of Transmittal and Election Form contains procedural information relating to the Plan of Arrangement and should be reviewed carefully. To make a valid election as to the form of consideration that you wish to receive under the Plan of Arrangement (subject to proration), you must sign and return, if applicable, the Letter of Transmittal and Election Form and make a proper election thereunder and return it with accompanying CPILP unit certificate(s) to the Depositary prior to 5:00 p.m. (Mountain time) on , 2011, or, if the CPILP meeting is adjourned or postponed, such time on the third business day immediately prior to the date of such adjourned or postponed meeting (the "**Election Deadline**"). If you fail to make a proper election prior to the Election Deadline you will be deemed to have elected to receive Atlantic Power shares in respect of all of your CPILP units.

If you are a non-registered holder of CPILP units or Atlantic Power shares and have received these materials through your broker, investment dealer or other intermediary, please follow the instructions provided by such broker, investment dealer or other intermediary to ensure that your vote is counted and, in the case of CPILP unitholders, for instructions and assistance in delivering your certificate(s) representing those units and, if applicable, making an election with respect to the form of consideration you wish to receive.

More information about Atlantic Power, CPILP and the transaction, including other conditions, is contained in this management proxy circular and joint proxy statement. You should read this entire management proxy circular and joint proxy statement carefully, including the section entitled "Risk Factors" beginning on page 22. If you have any questions with regard to the procedures for voting or completing your transmittal documentation, please contact , our proxy solicitation agent, by telephone at toll-free or by e-mail at .

We look forward to the successful combination of Atlantic Power and CPILP and thank you for your ongoing support as we prepare to take this important step in creating a leading North American contracted power generation platform.

Sincerely,

Barry E. Welch  
President and Chief Executive Officer  
Atlantic Power Corporation

Stuart A. Lee  
President  
CPI Income Services Ltd.,  
as General Partner of CPILP

**Neither the Securities and Exchange Commission nor any state securities commission nor any Canadian securities regulator has approved or disapproved of the securities to be issued under this management proxy circular and joint proxy statement or determined that this management proxy circular and joint proxy statement is accurate or complete. Any representation to the contrary is a criminal offense.**

**This management proxy circular and joint proxy statement is dated , 2011 and is first being mailed to the shareholders of Atlantic Power and the unitholders of CPILP on or about , 2011.**

**NOTICE OF SPECIAL MEETING OF SHAREHOLDERS**

**NOTICE IS HEREBY GIVEN** that a special meeting of the holders of common shares of Atlantic Power Corporation will be held at the King Edward Hotel, \_\_\_\_\_, 37 King Street East, Toronto, Ontario on \_\_\_\_\_, the \_\_\_\_\_ day of \_\_\_\_\_, 2011 at the hour of \_\_\_\_\_ a.m. (Toronto time) for the following purposes:

1. to consider, and if thought advisable, to approve, with or without variation, an ordinary resolution, the full text of which is set forth in Annex F to the accompanying management proxy circular and joint proxy statement, dated \_\_\_\_\_, 2011 authorizing Atlantic Power to issue such number of common shares in the capital of Atlantic Power as is necessary to complete the Arrangement, being 1.3 Atlantic Power common shares for each CPILP unit to a maximum of 31,500,221 Atlantic Power common shares pursuant to the terms of the arrangement agreement dated June 20, 2011 among Capital Power Income L.P., CPI Income Services Ltd., CPI Investments Inc. and Atlantic Power (the "**Arrangement Agreement**"), a copy of which is included as Annex A to the accompanying management proxy circular and joint proxy statement (all as more particularly described in the accompanying management proxy circular and joint proxy statement) (the "**Share Issuance Resolution**"); and
2. to transact such further or other business as may properly come before the Atlantic Power special meeting or any adjournments or postponements thereof.

An "ordinary resolution" is a resolution passed by at least a majority of the votes cast by the Atlantic Power shareholders who voted in respect of that resolution at the Atlantic Power special meeting.

Only Atlantic Power common shareholders of record at the close of business on \_\_\_\_\_, 2011 are entitled to notice of and to attend the Atlantic Power special meeting or any adjournments or postponements thereof and to vote at the Atlantic Power special meeting. No person who becomes an Atlantic Power common shareholder after such date shall be entitled to receive notice of and vote at the Atlantic Power special meeting or any adjournment or postponement thereof.

The accompanying management proxy circular and joint proxy statement provides additional information relating to the matters to be dealt with at the Atlantic Power special meeting and forms part of this notice.

**Your vote is important. Whether or not you expect to attend in person, we urge you to authorize a proxy to vote your shares as promptly as possible so that your shares may be represented and voted at the Atlantic Power special meeting.**

**If you are unable to attend the Atlantic Power special meeting in person, please complete, date and sign the accompanying form of proxy and return it, in the envelope provided, to Computershare Trust Company of Canada, Proxy Department, 9th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1, so that it is received by Computershare Trust Company of Canada not less than 48 hours, excluding Saturdays, Sundays and holidays, before the time fixed for holding the Atlantic Power special meeting or any adjournments or postponements thereof or by the chairman of the meeting prior to the commencement of the meeting or any adjournments or postponements thereof.** The instrument appointing a proxy shall be in writing and shall be executed by the Atlantic Power common shareholder or the Atlantic Power common shareholder's attorney authorized in writing or, if the Atlantic Power common shareholder is a corporation, under its corporate seal by an officer or attorney thereof duly authorized.

If you have any questions about the information contained in this document or require assistance in completing your proxy card, please contact Atlantic Power's proxy solicitor, \_\_\_\_\_, toll free at \_\_\_\_\_.

**NOTICE OF SPECIAL MEETING OF UNITHOLDERS**

**NOTICE IS HEREBY GIVEN** that, pursuant to an interim order of the Court of Queen's Bench of Alberta dated \_\_\_\_\_, 2011 ("Interim Order"), a special meeting of the holders of limited partnership units of Capital Power Income L.P. will be held at \_\_\_\_\_ at \_\_\_\_\_ a.m. (Edmonton time) on \_\_\_\_\_, 2011 for the following purposes:

1. to consider, and, if thought advisable, to pass, with or without variation, pursuant to the Interim Order, an extraordinary resolution (the "**Arrangement Resolution**"), the full text of which is set forth in Annex G to the accompanying management proxy circular and joint proxy statement dated \_\_\_\_\_, 2011, to approve an arrangement under section 192 of the *Canada Business Corporations Act* (all as more particularly described in the accompanying management proxy circular and joint proxy statement); and
2. to transact such further and other business as may properly come before the CPILP special meeting or any adjournments or postponements thereof.

As an "extraordinary resolution," the Arrangement Resolution must be passed by not less than 66<sup>2</sup>/<sub>3</sub>% of the votes cast by the CPILP unitholders, in person or by proxy, at the CPILP special meeting. The Arrangement Resolution must also be passed by not less than a simple majority of the vote cast by the CPILP unitholders, in person or by proxy, at the CPILP special meeting after excluding those votes required to be excluded by the minority approval provisions of Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions*.

Only CPILP unitholders of record at the close of business on \_\_\_\_\_, 2011 are entitled to notice of and to attend the CPILP special meeting or any adjournments or postponements thereof and to vote at the CPILP special meeting. No person who becomes a CPILP unitholder after such date shall be entitled to receive notice of and vote at the CPILP special meeting or any adjournment or postponement thereof.

The accompanying management proxy circular and joint proxy statement accompanying this notice provides additional information relating to the matters to be dealt with at the CPILP special meeting and is incorporated into and forms part of this notice.

**Your vote is important. Whether or not you expect to attend in person, we urge you to authorize a proxy to vote your CPILP units as promptly as possible so that your CPILP units may be represented and voted at the CPILP special meeting.**

**If you are unable to attend the CPILP special meeting in person, please complete, date and sign the accompanying form of proxy and return it, in the envelope provided to Computershare Trust Company of Canada, Proxy Department, 9<sup>th</sup> Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1, so that it is received by Computershare Trust Company of Canada not less than 48 hours, excluding Saturdays, Sundays and holidays, before the time fixed for holding the CPILP special meeting or any adjournments or postponements thereof.** The instrument appointing a proxy shall be in writing and shall be executed by the CPILP unitholder or the CPILP unitholder's attorney authorized in writing or, if the CPILP unitholder is a corporation, under its corporate seal by an officer or attorney thereof duly authorized.

If you have any questions about the information contained in this document or require assistance in completing your proxy card, please contact CPILP's proxy solicitor, \_\_\_\_\_, toll free at \_\_\_\_\_.

**ADDITIONAL INFORMATION**

This management proxy circular and joint proxy statement incorporates important business and financial information about Atlantic Power from other documents that are not included in or delivered with this management proxy circular and joint proxy statement. This information is available to you without charge upon your request. You can obtain the documents incorporated by reference into this management proxy circular and joint proxy statement by requesting them in writing or by telephone from the appropriate entity at the following addresses and telephone numbers:

Atlantic Power Corporation  
200 Clarendon Street, Floor 25  
Boston, Massachusetts 02116  
Attn: Investor Relations  
617-977-2700

Investors may also consult Atlantic Power's and CPILP's website for more information about Atlantic Power and CPILP, respectively. Atlantic Power's website is [www.atlanticpower.com](http://www.atlanticpower.com). CPILP's website is [www.capitalpowerincome.ca](http://www.capitalpowerincome.ca). Information included on these websites is **not** incorporated by reference into this management proxy circular and joint proxy statement.

**If you would like to request any documents, please do so by \_\_\_\_\_, 2011 in order to receive them before the special meetings.**

For a more detailed description of the information incorporated by reference in this management circular and joint proxy statement and how you may obtain it, see "Where You Can Find More Information" beginning on page 149.

**ABOUT THIS JOINT PROXY STATEMENT**

For ease of reference, we refer to this management proxy circular and joint proxy as this "joint proxy statement".

This joint proxy statement constitutes a proxy statement of Atlantic Power under Section 14(a) of the *Securities Exchange Act of 1934*, as amended (the "**Exchange Act**"), and a management proxy circular of both Atlantic Power and CPILP under National Instrument 51-102 Continuous Disclosure Obligations ("**NI 51-102**") of the Canadian Securities Administrators (the "**CSA**"). It also constitutes a notice of meeting with respect to the special meeting of Atlantic Power shareholders and a notice of meeting with respect to the special meeting of CPILP unitholders.

You should rely only on the information contained in or incorporated by reference into this joint proxy statement. No one has been authorized to provide you with information that is different from that contained in, or incorporated by reference into, this joint proxy statement. This joint proxy statement is dated \_\_\_\_\_. You should not assume that the information contained in this joint proxy statement is accurate as of any date other than that date. Neither the mailing of this joint proxy statement to Atlantic Power shareholders or CPILP unitholders nor the issuance by Atlantic Power of common shares in connection with the Arrangement will create any implication to the contrary.

This joint proxy statement does not constitute an offer to sell, or a solicitation of an offer to buy, any securities, or the solicitation of a proxy, in any jurisdiction to or from any person to whom it is unlawful to make any such offer or solicitation. Information contained in this joint proxy statement regarding Atlantic Power has been provided by Atlantic Power and information contained in this joint proxy statement regarding CPILP has been provided by CPILP.

**QUESTIONS AND ANSWERS**

*Set forth below are questions that you, as a shareholder of Atlantic Power or unitholder of CPILP, may have regarding the Plan of Arrangement and the other matters to be considered at the special meetings of shareholders of Atlantic Power and unitholders of CPILP and the answers to those questions. Atlantic Power and CPILP urge you to read carefully the remainder of this joint proxy statement because the information in this section does not provide all the information that might be important to you with respect to the Plan of Arrangement and the other matters to be considered at the special meetings. Atlantic Power, following completion of the Plan of Arrangement, is sometimes referred to in this joint proxy statement as the "Combined Company". All references to US\$ or \$ are to United States dollars, and all references to C\$ are to Canadian dollars.*

**Q: Why am I receiving this joint proxy statement?**

A:

Atlantic Power and CPILP have entered into the Arrangement Agreement pursuant to which Atlantic Power has agreed to acquire, directly and indirectly, all of the outstanding CPILP units pursuant to a Plan of Arrangement under the *Canada Business Corporations Act* (the "CBCA"), all as more fully described in this joint proxy statement. In order to effect the Plan of Arrangement:

Atlantic Power shareholders must approve the Share Issuance Resolution attached hereto as Annex F approving the issuance of Atlantic Power common shares to be issued in consideration for the acquisition of CPILP units as is necessary to complete the Arrangement; and

CPILP unitholders must approve the Arrangement Resolution attached hereto as Annex G approving the Arrangement, the Plan of Arrangement and certain other steps required to complete the Arrangement.

Atlantic Power and CPILP will hold separate special meetings to obtain these approvals. This joint proxy statement contains important information about the Plan of Arrangement and the special meetings of shareholders of Atlantic Power and unitholders of CPILP.

Your vote is important. You do not need to attend the special meetings in person to vote. Atlantic Power and CPILP encourage you to vote as soon as possible.

**Q: Is the Arrangement supported by the boards of directors of Atlantic Power and CPI Income Services Ltd. as the general partner of CPILP?**

A:

Yes. The board of directors of Atlantic Power has unanimously determined that (i) the Arrangement is in the best interests of Atlantic Power and is fair to Atlantic Power's stakeholders, (ii) Atlantic Power should enter into the Arrangement Agreement, and (iii) Atlantic Power's shareholders should vote FOR the Share Issuance Resolution.

In making its recommendation, the Atlantic Power board of directors considered a number of factors as described in this joint proxy statement under the heading "The Arrangement Agreement and Plan of Arrangement Atlantic Power's Reasons for the Arrangement Agreement; Recommendations of Atlantic Power's Board of Directors."

The members of the board of directors of CPI Income Services Ltd., the general partner of CPILP, entitled to vote, being the independent directors of CPI Income Services Ltd., the general partner of CPILP, determined unanimously that the Arrangement is in the best interests of CPILP and is fair to the CPILP unitholders and resolved unanimously to recommend to the CPILP unitholders that they vote FOR the Arrangement Resolution. The members of the board of directors of CPI Income Services Ltd., the general partner of CPILP, entitled to vote also unanimously approved the Arrangement and the execution and performance of the Arrangement Agreement.

Table of Contents

In making its recommendation, the board of directors of CPI Income Services Ltd., the general partner of CPILP, considered a number of factors as described in this joint proxy statement under the heading "The Arrangement Agreement and Plan of Arrangement CPILP's Reasons for the Plan of Arrangement; Recommendations of the Board of Directors of CPILP's General Partner."

**Q: What are Atlantic Power's and CPILP's reasons for the entering into the Arrangement Agreement?**

A:

The boards of directors of Atlantic Power and of CPI Income Services Ltd., the general partner of CPILP, each concluded that the potential benefits they expect from combining Atlantic Power and CPILP, including, among other things, strengthening Atlantic Power's dividend sustainability for the foreseeable future as a result of immediate accretion to cash available for distribution, creation of a combined company with a larger and more diversified portfolio and anticipated enhanced access to capital, outweighed the uncertainties, risks and potentially negative factors relevant to the Plan of Arrangement. For a more detailed discussion of the reasoning of Atlantic Power's board of directors and the board of directors of CPI Income Services Ltd., the general partner of CPILP, see "The Arrangement Agreement and Plan of Arrangement Atlantic Power's Reasons for the Arrangement Agreement; Recommendations of Atlantic Power's Board of Directors" and " CPILP's Reasons for the Plan of Arrangement; Recommendations of the Board of Directors of CPILP's General Partner" in this joint proxy statement, beginning on pages 55 and 77, respectively.

**Q: What is a plan of arrangement?**

A:

A plan of arrangement is a statutory procedure under Canadian corporate law that allows companies to carry out transactions with securityholders and court approval. The Plan of Arrangement you are being asked to consider will allow Atlantic Power to acquire, directly and indirectly, all of the outstanding CPILP units.

**Q: If I am a CPILP unitholder, how do I elect to receive my consideration under the Plan of Arrangement?**

A:

Each registered holder of CPILP units prior to the deadline for making consideration elections, being 5:00 p.m. (Edmonton time) on \_\_\_\_\_, 2011, will have the right to elect in the Letter of Transmittal and Election Form to be sent by CPILP to the CPILP unitholders in connection with the Plan of Arrangement to receive the consideration set out above, subject to proration.

CDS Clearing and Depository Services Inc. is the only registered holder of CPILP units. All other holders of CPILP units should contact the broker, investment dealer or other intermediary through which they hold CPILP units for instructions and assistance in making an election with respect to the form of consideration they wish to receive.

**If you fail to make a proper election by the election deadline, you will be deemed to have elected to receive share consideration for all of your CPILP units, subject to proration.**

**Q: If I am a CPILP unitholder, am I assured of receiving the exact form of consideration I elect to receive?**

A:

No. Both the aggregate number of Atlantic Power common shares and the aggregate amount of cash to be paid to CPILP unitholders under the Plan of Arrangement are fixed. All cash elections will be subject to proration if total cash elections exceed approximately C\$506.5 million and all share elections will be subject to proration if total share elections exceed approximately 31.5 million Atlantic Power common shares. Accordingly, there is no assurance that you will receive the form of consideration you elect with respect to all of your CPILP units. If the elections of all CPILP unitholders result in an oversubscription for Atlantic Power common shares or cash,

Table of Contents

Atlantic Power will allocate the consideration you will receive between cash and Atlantic Power common shares.

**Q: What is the value of the consideration to be received under the Plan of Arrangement?**

A:

If the Plan of Arrangement is completed, holders of CPILP units will receive, at their election, C\$19.40 per unit in cash or 1.3 Atlantic Power common shares per unit, subject to proration if total cash elections exceed approximately C\$506.5 million or share elections exceed approximately 31.5 million Atlantic Power common shares. Because Atlantic Power will issue a fixed number of Atlantic Power common shares in exchange for each CPILP unit, the market value of the consideration that CPILP unitholders will receive will depend on the price per Atlantic Power common share at the time the transaction is completed. That price will not be known at the time of the special meetings and may be less or more than the current price or the price at the time of the special meetings.

**Q: How does Atlantic Power intend to finance the cash portion of the consideration to be received under the Plan of Arrangement?**

A:

Atlantic Power intends to finance the cash portion of the purchase price to complete the Plan of Arrangement by issuing up to approximately C\$200.0 million of equity and up to approximately C\$425.0 million of debt through public and private offerings. However, in the event that such financing is not available on terms satisfactory to Atlantic Power, Atlantic Power has received an executed commitment letter (the "**TLB Commitment Letter**"), evidencing the commitment of a Canadian chartered bank and another financial institution to structure, arrange, underwrite and syndicate a senior secured credit facility consisting of a term B loan facility (the "**Tranche B Facility**") in the amount of \$625 million, subject to the terms and conditions set forth therein.

**Q: Will the Atlantic Power common shares be traded on an exchange?**

A:

It is a condition of the completion of the Plan of Arrangement that the common shares of Atlantic Power received under the Plan of Arrangement be approved for listing on the NYSE and on the TSX.

**Q: Why are the North Carolina facilities being sold to Capital Power rather than being included in the transaction?**

A:

The North Carolina facilities are not of strategic interest to Atlantic Power. At the time of, and leading up to, the signing of the Arrangement Agreement, there was uncertainty surrounding the negotiations and finalized terms of the power purchase agreements for these facilities. Capital Power agreed to purchase the North Carolina facilities to facilitate the consummation of the transaction. The price of approximately C\$121.4 million was negotiated in good faith between the independent directors of CPI Income Services Ltd., as general partner of CPILP, and Capital Power. CIBC World Markets Inc. ("**CIBC**") provided a written opinion to the special committee of the board of directors of CPI Income Services Ltd., as general partner of CPILP, and to the independent director of CPI Preferred Equity Ltd. that the consideration to be received by CPI Preferred Equity Ltd. pursuant to the membership interest purchase agreement in respect of the North Carolina assets is fair, from a financial point of view, to CPI Preferred Equity Ltd.

**Q: How is the Plan of Arrangement expected to impact the payment of dividends on Atlantic Power common shares?**

A:

The transactions contemplated by the Plan of Arrangement are expected to be immediately accretive to cash available for distribution following the effective date of the Plan of Arrangement

Table of Contents

(the "**Effective Date**"). As a result, Atlantic Power intends to increase its dividend by 5% from C\$1.094 per share to C\$1.15 per share on an annual basis following the Effective Date. Atlantic Power's dividend will continue to be paid monthly. CPILP unitholders that become holders of Atlantic Power common shares pursuant to the Arrangement will experience a reduction in per share dividends relative to per unit distributions of CPILP, however, the dividends of the Combined Company are expected to have increased sustainability over time.

**Q: If I hold CPILP units will I still be paid distributions prior to the Effective Date?**

A:

CPILP expects to continue to pay monthly distributions to CPILP unitholders up to and including the month immediately preceding the month in which the Effective Date occurs. However, no distribution shall be paid unless and until the board of directors of CPI Income Services Ltd., the general partner of CPILP, in its sole discretion, makes a declaration that such distribution is payable.

**Q: When and where will the special meetings be held?**

A:

The Atlantic Power special meeting will be held at the King Edward Hotel, \_\_\_\_\_, 37 King Street East, Toronto, Ontario \_\_\_\_\_ on \_\_\_\_\_, 2011 at \_\_\_\_\_ a.m., Toronto time.

The CPILP special meeting will be held at \_\_\_\_\_ on \_\_\_\_\_, 2011 at \_\_\_\_\_ a.m., Edmonton time.

**Q: Who is entitled to vote at the Atlantic Power and CPILP special meetings?**

A:

Atlantic Power has fixed \_\_\_\_\_, 2011 as the record date for the Atlantic Power special meeting. If you were an Atlantic Power shareholder as of the close of business on such date, you are entitled to vote on matters that come before the Atlantic Power special meeting.

CPILP has fixed \_\_\_\_\_, 2011 as the record date for the CPILP special meeting. If you were a CPILP unitholder as of the close of business on such date, you are entitled to vote on matters that come before the CPILP special meeting.

**Q: What vote is required to approve each of the Share Issuance Resolution and the Arrangement Resolution?**

A:

*Atlantic Power:* The Share Issuance Resolution must be approved by a majority of the votes cast by Atlantic Power shareholders, either in person or by proxy, at the Atlantic Power special meeting.

*CPILP:* Pursuant to the Interim Order, the Arrangement Resolution must be approved by not less than 66<sup>2</sup>/<sub>3</sub>% of the votes cast by CPILP unitholders, either in person or by proxy, at the CPILP special meeting. In addition, the Arrangement Resolution must be approved by a simple majority of the votes cast by CPILP unitholders present in person or by proxy at the CPILP special meeting, after excluding those votes required to be excluded by the minority approval provisions of MI 61-101, such as the votes cast by CPI Income Services Ltd., as general partner of CPILP, and CPI Investments, Inc. ("**CPI Investments**"). Notwithstanding the foregoing, the Arrangement Resolution authorizes the board of directors of CPI Income Services Ltd., the general partner of CPILP, without further notice to or approval of the unitholders, subject to the terms of the Plan of Arrangement and the Arrangement Agreement, to amend the Plan of Arrangement or the Arrangement Agreement or to decide not to proceed with the Plan of Arrangement at any time prior to the Plan of Arrangement becoming effective pursuant to the provisions of the CBCA. Capital Power and EPCOR, the direct and indirect holders of all of the issued and outstanding

Table of Contents

shares of CPI Investments, which directly and indirectly holds an aggregate of approximately 29% of the outstanding limited partnership units of CPILP, have entered into agreements with Atlantic Power pursuant to which they each have agreed to support the Arrangement.

**Q: How many votes do I have?**

A:

*Atlantic Power:* You are entitled to one vote for each Atlantic Power common share that you owned as of the close of business on the Atlantic Power record date. As of the close of business on the Atlantic Power record date, there were approximately \_\_\_\_\_ outstanding Atlantic Power common shares.

*CPILP:* You are entitled to one vote for each CPILP unit that you owned as of the close of business on the CPILP record date. As of the close of business on the CPILP record date, there were 56,597,899 outstanding CPILP units.

**Q: How do I vote?**

A:

If you are a registered shareholder of Atlantic Power as of the close of business on the record date for the Atlantic Power special meeting or a registered unitholder of CPILP as of the close of business on the record date for the CPILP special meeting, you may vote in person by attending your respective special meeting or, to ensure your shares or units are represented at the meeting, you may authorize a proxy to vote by:

accessing the Internet website specified on your form of proxy;

calling the toll-free number specified on your form of proxy; or

signing and returning your form of proxy in the postage-paid envelope provided.

If you hold Atlantic Power common shares or CPILP units in "street name" through a stock brokerage account or through a bank or other nominee, please follow the voting instructions provided by your broker, investment dealer or other intermediary to ensure that your shares or units are represented at the applicable special meeting. CDS Clearing and Depository Services Inc. is the only registered holder of CPILP units. All other holders of CPILP units beneficially hold those units in "street name" and should follow the voting instructions provided by their broker, investment dealer or other intermediary.

**Q: My shares or units are held in "street name" by my broker or I am a non-registered shareholder or unitholder. Will my broker automatically vote my shares or units for me?**

A:

No. If your shares or units are held in the name of a broker, investment dealer or other intermediary, you are considered the "beneficial owner" of the shares or units held for you in what is known as "street name." You are **not** the "record holder" or "registered holder" of such shares or units. If this is the case, this joint proxy statement has been forwarded to you by your broker, investment dealer or other intermediary. As the beneficial owner, unless your broker, investment dealer or other intermediary has discretionary authority over your shares or units, you generally have the right to direct your broker, investment dealer or other intermediary as to how to vote your shares or units. If you do not provide voting instructions, your shares or units will not be voted on any resolutions on which your broker, investment dealer or other intermediary does not have discretionary authority.

Please follow the voting instructions provided by your broker, investment dealer or other intermediary so that it may vote your shares or units on your behalf. Please note that you may not vote shares or units held in street name by returning a form of proxy directly to Atlantic Power or

Table of Contents

CPILP or by voting in person at the applicable special meeting unless you first provide a proxy from your broker, investment dealer or other intermediary.

If you do not instruct your broker, investment dealer or other intermediary on how to vote your shares or units, your broker, investment dealer or other intermediary will not vote your shares or units on any matter to be voted on at the applicable special meeting.

**Q: What will happen if I return my form of proxy without indicating how to vote?**

A:

If you are a registered holder of Atlantic Power common shares or a registered holder of CPILP units and you sign and return your form of proxy without indicating how to vote on the Share Issuance Resolution or Arrangement Resolution, as applicable, the Atlantic Power common shares or CPILP units represented by your proxy will be voted "FOR" the Share Issuance Resolution and "FOR" the Arrangement Resolution, as applicable.

**Q: What constitutes a quorum?**

A:

*Atlantic Power:* A quorum must be present at the special meeting for any business to be conducted. Pursuant to Atlantic Power's articles, the presence of two persons, present in person, each being a shareholder entitled to vote or a duly appointed proxy for a shareholder so entitled, constitutes a quorum. For purposes of counting votes, abstentions and broker non-votes will not be counted as votes cast at the Atlantic Power special meeting.

*CPILP:* A quorum must be present at the CPILP special meeting for any business to be conducted. Pursuant to the limited partnership agreement of CPILP, the quorum for the CPILP special meeting is one or more CPILP unitholders present in person or by proxy representing at least 10% of the outstanding units.

**Q: Can I change my vote after I have returned a proxy or voting instruction card?**

A:

Yes.

*If you are a registered holder of Atlantic Power common shares as of the close of business on the record date for the Atlantic Power special meeting:* You can change your vote at any time before the start of the Atlantic Power special meeting, unless otherwise noted. In addition to revocation in any other manner permitted by law, you can revoke your proxy in one of the following ways:

you can grant a new, valid proxy bearing a later date (including by telephone or Internet);

you can deposit a signed notice of revocation at Atlantic Power's registered office at any time up to and including the last business day preceding the day of the Atlantic Power special meeting (or any adjournment or postponement thereof) or with the chair of the Atlantic Power special meeting on the day of the Atlantic Power special meeting (or any adjournment or postponement thereof); or

you can attend the special meeting and vote in person, which will automatically cancel any proxy previously given, or you may revoke your proxy in person, but your attendance alone will not revoke any proxy that you have previously given.

If you choose any of the foregoing methods, your notice of revocation or your new proxy must be received by Atlantic Power no later than the beginning of the Atlantic Power special meeting. If you have voted your shares by telephone or through the Internet, you may revoke your prior telephone or Internet vote by any manner described above. Only your latest dated proxy will count.

*If you are a registered holder of CPILP units as of the close of business on the record date for the CPILP special meeting:* You can change your vote at any time before the start of the CPILP

Table of Contents

special meeting. In addition to revocation in any other manner permitted by law, you can revoke your proxy in one of the following ways:

you can grant a new, valid proxy bearing a later date (including by telephone or Internet);

you can send a signed notice of revocation; or

you can attend your special meeting and vote in person, which will automatically cancel any proxy previously given, or you may revoke your proxy in person, but your attendance alone will not revoke any proxy that you have previously given.

If you choose any of the foregoing methods, your notice of revocation or your new proxy must be received by CPILP no later than the beginning of the CPILP special meeting. If you have voted your units by telephone or through the Internet, you may revoke your prior telephone or Internet vote by any manner described above. Only your latest-dated proxy will count.

*If you hold your Atlantic Power common shares or CPILP units in "street name":* You may change your vote by submitting another later-dated voting instruction form to your broker, investment dealer or other intermediary or by voting again by telephone or by Internet. In order to revoke a previous instruction, you must notify your broker, investment dealer or other intermediary in writing of your revocation. In order to ensure that the broker, investment dealer or other intermediary acts upon revocation, the written notice should be received by the broker, investment dealer or other intermediary well in advance of the applicable special meeting.

**Q: What other approvals are required for the Plan of Arrangement?**

A:

The Arrangement is subject to certain regulatory approvals, including approval under the *Investment Canada Act*, the *Competition Act* (Canada), the *Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended* (United States) and from the Federal Energy Regulatory Commission under the *United States Federal Power Act*, as more particularly set forth in the Arrangement Agreement.

The Arrangement must also be approved by the Court of Queen's Bench of Alberta. The court will be asked to make an order approving the Arrangement and determine that the Arrangement is fair to the CPILP unitholders. CPILP, CPI Income Services Ltd., as general partner of CPILP, and CPI Investments will apply to the court for this order if the regulatory approvals described above have been obtained and the CPILP unitholders approve the Arrangement Resolution at the CPILP special meeting.

In addition, in connection with the Arrangement, certain regulatory approvals of the power generation regulatory authorities that have jurisdiction over CPILP's projects are required.

**Q: What are the material Canadian federal income tax consequences of the Plan of Arrangement to holders of CPILP units?**

A:

CPILP unitholders will realize a taxable disposition of their CPILP units under the Plan of Arrangement. Eligible holders that receive Atlantic Power common shares pursuant to the Plan of Arrangement will be entitled to make a joint tax election with Atlantic Power under the *Income Tax Act* (Canada) (the "**Tax Act**") that will, depending on the circumstances of each particular unitholder, allow for a full or partial deferral of taxable gains that would otherwise be realized.

Atlantic Power common shares will be considered "qualified investments" for registered retirement savings plans and other tax-exempt plans.

The primary Canadian federal income tax considerations arising in respect of the Plan of Arrangement, as well as the procedure to be followed by CPILP unitholders intending to make a

Table of Contents

joint tax election, are described more fully below under the heading "Material Canadian Federal Income Tax Considerations," beginning on page 108.

**Q: When do you expect the Plan of Arrangement to be completed?**

A:

Atlantic Power and CPILP are working to complete the Plan of Arrangement in the fourth quarter of 2011. However, the Plan of Arrangement is subject to obtaining various regulatory approvals and other conditions, and it is possible that factors outside the control of both entities could result in the Plan of Arrangement being completed at a later date, or not at all. There may be a substantial amount of time between the respective Atlantic Power and CPILP special meetings and the completion of the Plan of Arrangement. Atlantic Power and CPILP hope to complete the Plan of Arrangement as soon as reasonably practicable.

**Q: What will happen to CPILP if the Plan of Arrangement is completed?**

A:

If the Plan of Arrangement is completed, Atlantic Power will acquire all of the CPILP units and CPILP will become a wholly-owned subsidiary of Atlantic Power. Atlantic Power intends to have the CPILP units de-listed from the TSX.

**Q: What do I need to do now?**

A:

You should carefully read and consider the information contained in, and incorporated by reference into, this joint proxy statement. Registered holders of Atlantic Power shares or CPILP units should then vote by completing the enclosed form of proxy or, alternatively, by telephone, or over the Internet, in each case in accordance with the enclosed instructions.

If you hold your Atlantic Power common shares or CPILP units through a broker, investment dealer or other intermediary, please follow the instructions provided by such broker, investment dealer or other intermediary to ensure that your vote is counted at the meeting and, if you are a CPILP unitholder, making an election with respect to the form of consideration you wish to receive in exchange for your CPILP units.

**Q: As a registered holder of CPILP units, should I send in my Letter of Transmittal and Election Form and CPILP unit certificates now?**

A:

Yes. It is recommended that all registered holders of CPILP units complete, sign and return the Letter of Transmittal and Election Form with accompanying CPILP unit certificate(s) to Computershare Investor Services Inc. as soon as possible. To make a valid election as to the form of consideration that you wish to receive under the Plan of Arrangement (subject to proration), you must complete, sign and return the Letter of Transmittal and Election Form and make a proper election thereunder and return it with accompanying CPILP unit certificate(s) to Computershare Investor Services Inc. prior to the election deadline, being 5:00 p.m. (Edmonton time) on \_\_\_\_\_, 2011. **If you fail to make a proper election by the election deadline, you will be deemed to have elected to receive share consideration for all of your CPILP units, subject to proration.**

**Q: If my CPILP units are held in street name by my broker, investment dealer or other intermediary, will my broker automatically make an election for me?**

A:

No, a broker, investment dealer or other intermediary will make an election on your behalf, *only* if you provide instructions to them on which election to make or if they have discretionary authority over your units. Without instructions, no election will be made on your behalf (unless they have discretionary authority over your units). CPILP unitholders should instruct their brokers, investment dealers or other intermediaries to make an election on their behalf by following the

Table of Contents

directions provided to them by their brokers. **If you fail to make a proper election in accordance with the instructions provided by your broker, you will be deemed to have elected to receive share consideration for all of your CPILP units, subject to proration.**

**Q: Are shareholders or unitholders entitled to appraisal/dissent rights?**

A:

*Atlantic Power:* The shareholders of Atlantic Power are not entitled to dissent rights in connection with the Share Issuance Resolution.

*CPILP:* The unitholders of CPILP are not entitled to dissent rights in connection with the Arrangement Resolution.

**Q: What happens if I sell my shares or units before the special meeting?**

A:

The record date of each of the special meetings is \_\_\_\_\_, 2011. If you transfer your shares or units after the applicable record date but before the applicable special meeting, you will retain your right to vote at the applicable special meeting.

**Q: If the Plan of Arrangement is approved, can I sell my CPILP units after the special meeting but before completion of the Plan of Arrangement?**

A:

The Letter of Transmittal and Election Form to be completed by registered holders of CPILP units provides that the deposit of CPILP units is irrevocable. Accordingly, a registered holder of CPILP units that has validly deposited units and made an election will not be able to withdraw and sell those units after so doing. Notwithstanding the irrevocable nature of the deposit of units, elections as to the form of consideration may be changed prior to the election deadline, being 5:00 p.m. (Edmonton time) on \_\_\_\_\_, 2011, by submitting a new Letter of Transmittal and Election Form.

If you hold your CPILP units in "street name," once you have provided your broker, investment dealer or other intermediary with your election as to the form of consideration to be received, your broker, investment dealer or other intermediary will make an election on your behalf via an online system set up by CDS Clearing and Depository Services Inc. Once your election has been submitted, this effectively "freezes" your CPILP units such that you will not be able to sell your units after making an election unless your broker, investment dealer or other intermediary makes an online withdrawal. An online withdrawal could only be made prior to the election deadline, being \_\_\_\_\_, 2011.

**Q: Who is soliciting my proxy?**

A:

*Atlantic Power:* Your proxy is being solicited by or on behalf of management of Atlantic Power for use at the Atlantic Power special meeting and any adjournment or postponement thereof. All associated costs of the proxy solicitation will be borne by Atlantic Power. In addition to the use of the mail, proxies may be solicited by directors, officers and other employees of Atlantic Power, without additional remuneration, by personal interview, telephone, facsimile or otherwise. Atlantic Power will also request brokerage firms, nominees, custodians and fiduciaries to forward proxy materials to the beneficial owners of shares and will provide customary reimbursement to such firms for the cost of forwarding these materials. Atlantic Power has retained \_\_\_\_\_ to assist in its solicitation of proxies and has agreed to pay them a fee of approximately \_\_\_\_\_, plus reasonable expenses, for these services.

*CPILP:* Management of CPI Income Services Ltd., the general partner of CPILP, is soliciting your proxy for use at the CPILP special meeting and any adjournment or postponement thereof. All associated costs of the proxy solicitation will be borne by CPILP. In addition to the use of the

Table of Contents

mail, proxies may be solicited by directors, officers and other employees of CPILP or its general partner, without additional remuneration, by personal interview, telephone, facsimile or otherwise. CPILP will also request brokerage firms, nominees, custodians and fiduciaries to forward proxy materials to the beneficial owners of units and will provide customary reimbursement to such firms for the cost of forwarding these materials. CPILP has retained \_\_\_\_\_ to assist in its solicitation of proxies and has agreed to pay them a fee of approximately C\$ \_\_\_\_\_, plus reasonable out-of-pocket expenses, for these services.

**Q: What if I hold both Atlantic Power common shares and CPILP units?**

A:

If you are a shareholder of Atlantic Power and a unitholder of CPILP, you will receive two separate packages of proxy materials. A vote as a CPILP unitholder will not count as a vote as an Atlantic Power shareholder, and a vote as an Atlantic Power shareholder will not count as a vote as a CPILP unitholder. Therefore, please separately vote each of your CPILP units and Atlantic Power common shares.

**Q: Who can help answer my questions?**

A:

CPILP unitholders or Atlantic Power shareholders who have questions about the Plan of Arrangement or the other matters to be voted on at the special meetings or desire additional copies of this joint proxy statement or additional forms of proxy should contact:

**If you are an Atlantic Power shareholder:**

Atlantic Power Corporation  
200 Clarendon Street, Floor 25  
Boston, Massachusetts 02116  
Attn: Investor Relations  
617-977-2700

**If you are a CPILP unitholder:**

Capital Power Income L.P.  
10065 Jasper Avenue  
Edmonton, Alberta T5J 3B1  
Attn: Investor Relations  
780-392-5105

Table of Contents

**SUMMARY**

*This summary highlights information contained elsewhere in this joint proxy statement and may not contain all the information that is important to you. Atlantic Power and CPILP urge you to read carefully the remainder of this joint proxy statement, including the annexes, the exhibits, the documents incorporated by reference and the other documents to which we have referred you because this summary does not provide all the information that might be important to you with respect to the Plan of Arrangement and the other matters being considered at the Atlantic Power and CPILP special meetings. See also the section entitled "Where You Can Find More Information" beginning on page 149.*

**The Entities**

*Atlantic Power Corporation (see page 32)*

Atlantic Power owns and operates a diverse fleet of power generation and infrastructure assets in the United States. Atlantic Power's generation projects sell electricity to utilities and other large commercial customers under long-term power purchase agreements ("PPA"), which seek to minimize exposure to changes in commodity prices. Atlantic Power's power generation projects in operation have an aggregate gross electric generation capacity of approximately 1,948 MW, in which Atlantic Power's ownership interest is approximately 871 MW. Atlantic Power's current portfolio consists of interests in 12 operational power generation projects across nine states, one 53 MW biomass project under construction in Georgia, and an 84-mile, 500 kilovolt electric transmission line located in California. Atlantic Power also owns a majority interest in Rollcast Energy, Inc., a biomass power plant developer with several projects under development. Atlantic Power's common shares trade on the NYSE under the symbol "AT" and on the TSX under the symbol "ATP." Atlantic Power's headquarters are located at 200 Clarendon Street, Floor 25, Boston, Massachusetts, USA 02116, telephone number 617-977-2400. Atlantic Power's registered office is located at 355 Burrard Street, Suite 1900, Vancouver, British Columbia, Canada V6C 2G8.

*Capital Power Income L.P. (see page 32)*

CPILP's primary business is the ownership and operation of power plants in Canada and the United States, which generate electricity and steam, from which it derives its earnings and cash flows. The power plants generate electricity and steam from a combination of natural gas, waste heat, wood waste, water flow, coal and tire-derived fuel. CPILP's generation projects sell electricity to utilities and other large commercial customers under long-term PPAs, which seek to minimize exposure to changes in commodity prices. At present, CPILP's portfolio consists of 19 wholly-owned power generation assets located in both Canada (in the provinces of British Columbia and Ontario) and the United States (in the states of California, Colorado, Illinois, New Jersey, New York and North Carolina), a 50.15% interest in a power generation asset in Washington State, and a 14.3% common equity interest in Primary Energy Recycling Holdings LLC. CPILP's assets have a total net generating capacity of 1,400 MW and more than four million pounds per hour of thermal energy. The CPILP units trade on the TSX under the symbol "CPA.UN." The head office of CPILP is located at 10065 Jasper Avenue, Edmonton, Alberta, T5J 3B1. The registered office of CPILP is 200 University Avenue, Toronto, Ontario, M5H 3C6, telephone number 1-866-896-4636.

*CPI Income Services Ltd. (see page 33)*

CPI Income Services Ltd. (the "**General Partner**") is responsible for the management of CPILP. Pursuant to CPILP's partnership agreement, the General Partner is prohibited from undertaking any business activity other than acting as general partner of CPILP. The head and registered office of the General Partner is located at 10065 Jasper Avenue, Edmonton, Alberta, T5J 3B1, telephone number 1-866-896-4636. The General Partner has engaged CP Regional Power Services Limited

Table of Contents

Partnership and Capital Power Operations (USA) Inc. (together, the "**Manager**"), both subsidiaries of Capital Power, to perform management and administrative services for CPILP and to operate and maintain CPILP's power plants pursuant to certain management and operations agreements. The management and operations agreements will be terminated and/or assigned in connection with the Plan of Arrangement in consideration for the payment of an aggregate of C\$10.0 million. See "Summary of the Arrangement Agreement Summaries of Other Agreements Relating to the Arrangement Management Agreements Termination Agreement and Management Agreement Assignment Agreement" beginning on page 106.

*CPI Investments Inc. (see page 33)*

CPI Investments is a holding company that owns, directly and indirectly, approximately 29.18% of the CPILP units and 100% of the shares of the General Partner. Capital Power L.P. ("**Capital Power LP**") owns a 49% voting interest and a 100% economic interest in CPI Investments and EPCOR owns the other 51% voting interest in CPI Investments. CPI Investments was incorporated on February 12, 2009 under the CBCA. The head and registered office of CPI Investments is located at TD Tower, 5th Floor, 10088-102 Avenue, Edmonton, Alberta, Canada, T5J 2Z1, telephone number 1-866-896-4636.

**The Arrangement Agreement and Plan of Arrangement (see page 48)**

On June 20, 2011, Atlantic Power, CPILP, the General Partner and CPI Investments entered into the Arrangement Agreement, which provides that Atlantic Power will acquire, directly or indirectly, all of the issued and outstanding CPILP units pursuant to the Plan of Arrangement under the CBCA. Under the terms of the Plan of Arrangement, CPILP unitholders will be permitted to exchange each of their CPILP units for, at their election, C\$19.40 in cash or 1.3 Atlantic Power common shares. All cash elections will be subject to proration if total cash elections exceed approximately C\$506.5 million and all share elections will be subject to proration if total share elections exceed approximately 31.5 million Atlantic Power common shares.

Pursuant to the Plan of Arrangement, CPILP will sell its Roxboro and Southport facilities located in North Carolina to an affiliate of Capital Power, for approximately C\$121.4 million. Additionally, in connection with the Plan of Arrangement, the management agreements between certain subsidiaries of Capital Power and CPILP and certain of its subsidiaries will be terminated (or assigned) in consideration of a payment of C\$10.0 million. Atlantic Power or its subsidiaries will assume the management of CPILP and intends to enter into a transitional services agreement with Capital Power for a term of up to 12 months following the completion of the Plan of Arrangement, which will facilitate the integration of CPILP into Atlantic Power.

The Arrangement Agreement contains customary representations, warranties and covenants. Among these covenants, CPILP and CPI Income Services Ltd. have each agreed not to solicit alternative transactions, except that CPILP may respond to an alternative transaction proposal that constitutes, or would reasonably be expected to lead to, a superior proposal. In addition, Atlantic Power or CPILP may be required to pay a C\$35.0 million fee if the Arrangement Agreement is terminated in certain circumstances.

The completion of the Plan of Arrangement is subject to the receipt of all necessary court and regulatory approvals in Canada and the United States and certain other closing conditions. Atlantic Power and CPILP currently expect to complete the Plan of Arrangement in the fourth quarter of 2011, subject to receipt of required shareholder/unitholder, court and regulatory approvals and the satisfaction or waiver of the financing and other conditions to the Plan of Arrangement described in the Arrangement Agreement.

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

The full text of the Arrangement Agreement is attached as Annex A to this joint proxy statement. Atlantic Power and CPILP urge you to read it carefully.

#### *Atlantic Power's Reasons for the Arrangement Agreement (see page 55)*

On June 19, 2011, at a meeting of the Atlantic Power board of directors, by unanimous vote, the Atlantic Power board of directors determined that the Arrangement, including the issuance of Atlantic Power common shares to CPILP unitholders necessary to complete the Arrangement, is in the best interests of Atlantic Power and is fair to the stakeholders of Atlantic Power. In reaching these determinations, the Atlantic Power board of directors consulted with Atlantic Power's management and its legal, financial and other advisors, and also considered numerous factors, including strategic and financial benefits of the Arrangement and other factors which the Atlantic Power board of directors viewed as supporting its decisions.

The strategic benefits that the Atlantic Power board of directors believes should result from the combination of Atlantic Power and CPILP include, among other things, the following:

Atlantic Power will have a larger and more diversified portfolio of contracted power generation assets;

Atlantic Power's proven management team will be combined with CPILP's highly qualified operations and other personnel;

Atlantic Power's market capitalization and enterprise value are expected to double, which is expected to add liquidity and enhance access to capital; and

Atlantic Power's asset portfolio will expand and its geographic diversification and fuel type diversification will be enhanced.

The financial benefits that the Atlantic Power board of directors believes should result from the combination of Atlantic Power and CPILP include, among other things, the following:

upon completion of the Plan of Arrangement, Atlantic Power intends to increase dividends;

Atlantic Power's dividend sustainability for the foreseeable future is expected to strengthen as a result of immediate accretion to cash available for distribution; and

a significant improvement in Atlantic Power's dividend payout ratio starting in 2012.

#### *CPILP's Reasons for the Plan of Arrangement (see page 77)*

At a meeting held on June 19, 2011, the members of the board of directors of the General Partner entitled to vote, being the independent directors of the General Partner, determined unanimously that the Arrangement is in the best interests of CPILP and is fair to the CPILP unitholders and resolved unanimously to recommend to the CPILP unitholders that they vote in favor of the Arrangement. In reaching these decisions, the board of directors of the General Partner consulted with its management and financial, legal and other advisors, and considered a variety of factors weighing in favor of or relevant to the Plan of Arrangement, including strategic and financial benefits of the Plan of Arrangement and other factors which the board of directors of the General Partner viewed as supporting its decisions.

The strategic benefits that the board of directors of the General Partner believes should result from the combination of Atlantic Power and CPILP include, among other things, the following:

the creation of a larger, more diversified power company than CPILP on a standalone basis;

the enhancement to Atlantic Power's proven management team by combining it with CPILP's highly qualified operations and other personnel;

Table of Contents

the advantages resulting from larger scale and expanded scope of the Combined Company in meeting the challenges facing the power industry;

the benefit of allowing the business of CPILP to grow independently of the Manager, which has its own power generation business, and the additional growth opportunities of the Combined Company;

the complementary nature of the respective products and geographical markets of the two entities; and

the expected market capitalization, free cash flow, liquidity and capital structure of the Combined Company relative to CPILP on a stand-alone basis.

The financial benefits that the board of directors of the General Partner believes should result from the combination of Atlantic Power and CPILP include, among other things, the following:

CPILP unitholders may receive Atlantic Power common shares as consideration for their CPILP units, which would allow them to own common shares of the Combined Company; and

the belief that the Combined Company will have a strong cash generation profile.

The other benefits that the board of directors of the General Partner believes should result from the combination of Atlantic Power and CPILP include, among other things, the following:

the inherent constraints associated with CPILP's current growth structure and the belief that the Combined Company will be well positioned and structured to generate and exploit future growth opportunities; and

the prospect of finding it necessary to develop or otherwise replace the management, employee work force and administrative functions performed by the Manager, given that Capital Power had advised CPILP that it was considering divesting itself of all of its CPILP interests in order to focus on its own core business.

***Recommendations of the Board of Directors of Atlantic Power (see page 34)***

At a meeting held on June 19, 2011, after considering the various factors and considerations further disclosed in the section titled "The Arrangement Agreement and Plan of Arrangement Atlantic Power's Reasons for the Arrangement Agreement; Recommendations of Atlantic Power's Board of Directors" Atlantic Power's board of directors unanimously determined that the Plan of Arrangement and the other transactions contemplated by the Arrangement Agreement, including the issuance of Atlantic Power common shares to CPILP unitholders necessary to complete the Plan of Arrangement, are in the best interests of Atlantic Power and is fair to its stakeholders. **Accordingly, the Atlantic Power board of directors unanimously recommends that the Atlantic Power shareholders vote "FOR" the Share Issuance Resolution.**

***Recommendations of the Board of Directors of the General Partner (see page 39)***

At a meeting held on June 19, 2011, after considering, among other things, the oral opinions of CIBC and Greenhill & Co. Canada Ltd. ("Greenhill"), subsequently confirmed in writing, the full text of which are attached as Annexes D and E, respectively, of this joint proxy statement, the members of the board of directors of the General Partner entitled to vote determined unanimously that the Plan of Arrangement is in the best interests of CPILP and is fair to the CPILP unitholders and resolved unanimously to recommend to the CPILP unitholders that they vote in favor of the Plan of Arrangement. The members of the board of directors of the General Partner entitled to vote also unanimously approved the Plan of Arrangement and the execution and performance of the

Table of Contents

Arrangement Agreement. **Accordingly, the board of directors of the General Partner unanimously recommends that the CPILP unitholders vote "FOR" the approval of the Arrangement Resolution.**

*Opinions of Atlantic Power's Financial Advisors (see page 58)*

In connection with the Arrangement Agreement, TD Securities Inc. ("**TD Securities**") and Morgan Stanley & Co. LLC ("**Morgan Stanley**") each delivered to Atlantic Power's board of directors its written opinion, dated June 19, 2011, that, on such date and based upon and subject to the various limitations, qualifications and assumptions set forth in each written opinion, the consideration to be paid by Atlantic Power to CPILP unitholders pursuant to the Arrangement Agreement was fair, from a financial point of view, to Atlantic Power. The full texts of these opinions are attached as Annexes B and C, respectively, to this joint proxy statement.

You should read each opinion carefully in its entirety for a description of the assumptions made, the matters considered and limitations on the review undertaken. Each opinion is addressed to the board of directors of Atlantic Power, and addresses only the fairness from a financial point of view of the consideration to be paid by Atlantic Power to CPILP unitholders pursuant to the Arrangement Agreement. The opinions do not address any other aspect of the Plan of Arrangement and do not constitute a recommendation to the shareholders of Atlantic Power or unitholders of CPILP as to how to vote with respect to the Plan of Arrangement or any other matter. In addition, the opinions do not in any manner address the prices at which Atlantic Power common shares will trade following the consummation of the Plan of Arrangement or at any other time.

*Opinions of CPILP's Financial Advisors (see page 80)*

In connection with the Arrangement Agreement, on June 19, 2011, the board of directors of the General Partner received written opinions from each of CIBC and Greenhill stating that, on such date and based upon and subject to the various limitations, qualifications and assumptions set forth in each written opinion, the consideration to be received by CPILP unitholders pursuant to the Arrangement Agreement was fair from a financial point of view to such CPILP unitholders (other than the General Partner, CPI Investments and Atlantic Power in respect of the Greenhill opinion, and other than Capital Power and its affiliates in respect of the CIBC opinion). The full texts of these opinions, which set forth, among other things, the assumptions made, procedures followed, matters considered and qualifications and limitations on the scope of the review undertaken, are attached as Annexes D and E, respectively, to this joint proxy statement. CIBC also provided its written opinion to the special committee of the board of directors of the General Partner and the independent director of the board of directors of CPI Preferred Equity Ltd. that the consideration to be received by CPI Preferred Equity Ltd. pursuant to the membership interest purchase agreement in respect of the North Carolina assets is fair, from a financial point of view, to CPI Preferred Equity Ltd.

*Interests of Certain CPILP Directors and Officers in the Plan of Arrangement (see page 81)*

Certain of the directors and officers of the General Partner are also officers and/or directors of Capital Power and its affiliates and are not considered to be independent of CPILP within the meaning of applicable Canadian securities laws. Capital Power and its affiliates have interests in the Plan of Arrangement and certain other transactions to be completed in connection with the Plan of Arrangement that are different from, or in addition to, the interests of the other CPILP unitholders. See "Canadian Securities Law Matters" beginning on page 85.

The board of directors of the General Partner was aware of and considered these interests, among other matters, in evaluating the Plan of Arrangement, and in recommending that CPILP unitholders vote in favor of the Arrangement Resolution. The members of the board of directors of the General Partner who are officers and/or directors of Capital Power and its affiliates did not participate in the

Table of Contents

vote to approve the Plan of Arrangement, as a result of the potential conflict of interest presented by their positions with Capital Power and its affiliates.

The following table indicates, as of the date hereof, the number of CPILP units beneficially owned, directly or indirectly, or over which control or direction is exercised, by: (i) each director and officer of CPILP; (ii) each associate or affiliate of an insider of CPILP; (iii) each associate or affiliate of CPILP; (iv) each insider of CPILP (other than a director or officer of CPILP); and (v) each person acting jointly or in concert with CPILP, and the maximum amount of potential cash consideration payable to each pursuant to the Plan of Arrangement:

Name	Position with CPILP	CPILP Units	Maximum Amount of Potential Cash Consideration
Graham L. Brown	Director		n/a
Brian A. Felesky	Director (Independent)	5,640	\$ 109,416
Allen R. Hagerman	Director (Independent)	17,702	\$ 343,419
Francois L. Poirier	Director (Independent)	3,100	\$ 60,140
Brian T. Vaasjo	Chairman and Director	7,400	\$ 143,560
Rodney D. Wimer	Director (Independent)		n/a
James Oosterbaan	Director		n/a
Stuart A. Lee	Director and President	3,536	\$ 68,598
	General Counsel and Corporate		
B. Kathryn Chisholm	Secretary	915	\$ 17,751
Peter D. Johanson	Controller	400	\$ 7,760
Leah M. Fitzgerald	Assistant Corporate Secretary		n/a
Anthony Scozzafava	Chief Financial Officer	2,050	\$ 39,770
Yale Loh	Vice President, Treasurer		n/a
Capital Power Corporation(1)	Unitholder	16,513,504	\$ 320,361,978

(1)

Capital Power indirectly owns 49% of the voting interests and all of the economic interests in CPI Investments. EPCOR owns the remaining 51% voting interest in CPI Investments. CPI Investments owns 16,513,504 CPILP units. Under the Plan of Arrangement, Atlantic Power will acquire all of the outstanding shares of CPI Investments on effectively the same basis as the acquisition of CPILP units under the Plan of Arrangement.

All current directors and officers of the General Partner will resign their positions in connection with the Plan of Arrangement.

***Regulatory Approvals Required for the Plan of Arrangement and Other Regulatory Matters (see page 88)***

CPILP units currently trade on the TSX. After the Plan of Arrangement, Atlantic Power intends to delist the CPILP units from the TSX. The preferred shares of CPI Preferred Equity Ltd. will remain outstanding and listed on the TSX.

Atlantic Power common shares currently trade on the TSX and NYSE. Atlantic Power will also apply to list Atlantic Power common shares issuable under the Plan of Arrangement on the NYSE and the TSX, and it is a condition to the completion of the Plan of Arrangement that Atlantic Power shall have obtained approval for these listings.

In addition to certain regulatory approvals of the power generation regulatory authorities required in connection with the Plan of Arrangement, the Arrangement is subject to approval under the *Investment Canada Act*, the *Competition Act* (Canada), the *Hart-Scott-Rodino Antitrust Improvements Act of 1976*, as amended (United States) and the *United States Federal Power Act*.

Table of Contents

The Arrangement must also be approved by the Court of Queen's Bench of Alberta. The court will be asked to make an order approving the Arrangement and determine that the Arrangement is fair to the CPILP unitholders. CPILP and the General Partner will apply to the court for this order if the regulatory approvals described above have been obtained and the CPILP unitholders approve the Arrangement Resolution at the CPILP special meeting.

**Summaries of Other Agreements Relating to the Arrangement**

*The Support Agreements (see page 104)*

As part of the Plan of Arrangement, Atlantic Power will acquire all of the outstanding shares of CPI Investments (an entity indirectly owned by Capital Power and EPCOR), the direct and indirect holder of 16,513,504 CPILP units, on effectively the same basis as the acquisition of CPILP units under the Plan of Arrangement. In order to confirm the commitment of each shareholder of CPI Investments to support the Plan of Arrangement, contemporaneously with the entering into of the Arrangement Agreement, Atlantic Power entered into two support agreements, one with EPCOR and the other with Capital Power and Capital Power LP, the entity through which Capital Power holds its shares of CPI Investments. Pursuant to the support agreements, each of Capital Power LP and EPCOR agreed to, among other things, (i) vote all of its shares of CPI Investments in favor of the Plan of Arrangement and any related matters to give legal effect to the Plan of Arrangement, (ii) vote all of its shares of CPI Investments against any resolutions or proposals that might reasonably be expected to impede, frustrate, delay or prevent the Plan of Arrangement, (iii) not sell, transfer, pledge or assign its shares of CPI Investments or enter into a voting agreement with respect to such shares, (iv) not exercise any rights or remedies to impede, frustrate, delay or prevent the Plan of Arrangement and (v) abide by certain non-solicitation covenants in respect of CPILP and CPI Investments.

Pursuant to the support agreement among Atlantic Power, Capital Power LP and Capital Power, among other things, (i) Capital Power agreed to cause Capital Power LP to fulfill its obligations under the support agreement and not to make certain acquisition proposals in respect of CPILP or CPI Investments, (ii) Capital Power LP and CPI Investments made certain representations specific to the Plan of Arrangement, including with respect to the representations and warranties made by CPI Investments in the Arrangement Agreement and equipment and personal property owned by Capital Power LP and/or Capital Power and used in the operations of the CPILP or any of the CPILP's facilities and (iii) Capital Power LP agreed that for a period of 90 days commencing on the Effective Date, Capital Power LP will not, without the prior consent of Atlantic Power, offer, sell, pledge, grant any option to purchase, hedge, transfer, assign, make any short sale or otherwise dispose of any Atlantic Power common shares received pursuant to the Plan of Arrangement (or agree to, or announce, any intention to do so) with certain limited customary exceptions. For a further discussion of the support agreements, see "Summary of the Arrangement Agreement Summaries of Other Agreements Relating to the Arrangement Support Agreements."

*Management Agreements Termination Agreement and Management Agreement Assignment Agreement (see page 106)*

On June 20, 2011, certain subsidiaries of Capital Power entered into an agreement (the "**Management Agreements Termination Agreement**") with CPILP and certain of its subsidiaries pursuant to which the parties agreed to terminate each of the management and operations agreements between them, other than the Frederickson Agreement (as defined below), effective immediately upon completion of the Plan of Arrangement. In consideration for the termination of the management and operations agreements, CPILP and its subsidiaries agreed to pay to the subsidiaries of Capital Power an aggregate of C\$8.5 million.

Table of Contents

On June 20, 2011, a subsidiary of Capital Power entered into an agreement with Atlantic Power and Frederickson Power L.P., a subsidiary of CPILP, pursuant to which the subsidiary of Capital Power agreed to assign its right, benefit, interest and obligation in, to and under the operations and maintenance agreement in respect of CPILP's Frederickson facility (the "**Frederickson Agreement**") to Atlantic Power. The assignment will be effective immediately upon completion of the Plan of Arrangement. In consideration for the assignment, Atlantic Power has agreed to pay C\$1.5 million to the subsidiary of Capital Power. The assignment is conditional on, among other things, receipt of the consent of Puget Sound Energy, Inc., the counterparty to the Frederickson Agreement, to the assignment.

*North Carolina Purchase and Sale Agreement (see page 106)*

On June 20, 2011, a subsidiary of Capital Power entered into a purchase and sale agreement with certain subsidiaries of CPILP, pursuant to which the subsidiary of Capital Power agreed to purchase and the subsidiaries of CPILP agreed to sell indirectly all of the membership interests in the limited liability company that owns CPILP's Roxboro and Southport power plants in North Carolina. The purchase price for the membership interests is approximately C\$121.4 million. Closing of the purchase and sale will take place on the Effective Date. Closing of the purchase and sale will be conditional on, among other things, receipt of all necessary regulatory approvals and consents, including, without limitation, expiration or early termination of the applicable waiting periods under the *Hart-Scott Rodino Antitrust Improvements Act of 1976* and prior authorization from the Federal Energy Regulatory Commission under Section 203 of the *United States Federal Power Act*.

*Employee Hiring and Lease Assignment Agreement (see page 106)*

On June 20, 2011, Atlantic Power, Capital Power and Capital Power Operations (USA) Inc. ("CPO USA") entered into an employee hiring and lease assignment agreement pursuant to which Atlantic Power agreed to assume the employment of certain designated employees who perform functions related to CPILP's business. This agreement was necessitated by the fact that neither CPILP nor the General Partner has any employees. Persons performing the functions of employees of CPILP are currently employed by Capital Power and CPO USA rather than directly by CPILP. For further details regarding CPILP employees, see "Business of the Partnership Employees of the Partnership" beginning on Schedule I-25.

Pursuant to the agreement, Atlantic Power will (i) be bound by the collective agreements currently in place for Capital Power's unionized employees and, (ii) for certain individuals whose employment is not governed by the collective agreements, Atlantic Power will make offers of employment on substantially the same (or better) terms and conditions of employment, in the aggregate, as are in effect on the date of the offer. Existing employee benefits provided by Capital Power will vest on closing of the Plan of Arrangement and be paid out by Capital Power. The agreement also contemplates the negotiation of the assignment of office leases for Capital Power's offices located in the cities of Richmond, B.C., Toronto, Ontario and Chicago, Illinois.

*Canadian Pension Transfer Agreement (see page 107)*

On June 20, 2011, Atlantic Power and Capital Power entered into a Canadian pension transfer agreement pursuant to which Atlantic Power agreed to assume the pension plan assets and obligations from Capital Power related to the employees that it assumes pursuant to the employee hiring and lease assignment agreement described above.

The agreement primarily relates to the Capital Power Pension Plan (which is a Canadian registered pension plan with both a defined benefit and defined contribution component). For further details regarding Capital Power's pension plan assets and obligations, see "Compensation Discussion and

Table of Contents

Analysis Pension Programs" beginning on Schedule I-65. The agreement provides that the assets associated with the pension plan obligations of the employees being transferred to Atlantic Power will be carved out of the Capital Power Pension Plan and transferred to a new plan to be established by Atlantic Power. The new pension plan for Atlantic Power will have equivalent terms to the Capital Power Pension Plan.

If there is a deficiency in the Capital Power Pension Plan on a going concern basis at the time of closing of the Plan of Arrangement, Capital Power is required to pay Atlantic Power the amount of the deficiency related to the assumed employees (and if there is a surplus, Atlantic Power is required to make a payment to Capital Power). Currently, it is estimated that there is a deficiency of approximately C\$2.0 million. Atlantic Power is required to establish savings plans that are substantially the same as certain group RRSPs provided by Capital Power. Capital Power and Atlantic Power will take all commercially reasonable steps to permit transferring employees with balances in Capital Power's Group RRSPs to transfer their assets to Atlantic Power's Group RRSPs.

**The Atlantic Power Special Meeting**

*Date, Time and Place (see page 34)*

The special meeting of Atlantic Power shareholders will be held at the King Edward Hotel, \_\_\_\_\_, 37 King Street East, Toronto, Ontario on \_\_\_\_\_, the \_\_\_\_\_ day of \_\_\_\_\_, 2011 at the hour of \_\_\_\_\_ a.m. (Toronto time).

*Purpose (see page 34)*

At the Atlantic Power special meeting, Atlantic Power shareholders will be asked to vote on the following resolutions:

to consider, and if thought advisable, to approve, with or without variation, the Share Issuance Resolution, the full text of which is set forth in Annex F to this management proxy circular and joint proxy statement, authorizing Atlantic Power to issue such number of common shares in the capital of Atlantic Power as is necessary to complete the Arrangement, being 1.3 Atlantic Power common shares for each CPILP unit to a maximum of 31,500,221 Atlantic Power common shares pursuant to the terms of the Arrangement Agreement (all as more particularly described in this joint proxy statement); and

to transact such further or other business as may properly come before the Atlantic Power special meeting or any adjournments or postponements thereof.

***Share Issuance Resolution (see page 34)***

Pursuant to the rules of the NYSE and TSX, securityholder approval is required in instances where the number of securities issued or issuable in payment of the purchase price in a transaction such as the Plan of Arrangement exceeds 20% (NYSE) or 25% (TSX) of the number of securities of the listed issuer which are outstanding, on a non-diluted basis. Because the Arrangement Agreement contemplates the issuance of Atlantic Power common shares in excess of these thresholds on a non-diluted basis, the rules of the NYSE and TSX require that Atlantic Power must obtain approval of the Share Issuance Resolution by the holders of a majority of the Atlantic Power common shares represented in person or by proxy at the Atlantic Power special meeting.

As of the close of business on the date of this joint proxy statement, there were approximately \_\_\_\_\_ outstanding Atlantic Power common shares. Pursuant to the Plan of Arrangement, Atlantic Power currently estimates that it will issue or reserve for issuance approximately \_\_\_\_\_ Atlantic Power common shares (equal to approximately \_\_\_\_\_ of Atlantic Power's current issued and outstanding common shares) pursuant to or as contemplated by the Arrangement Agreement, including approximately 31.5 million Atlantic Power common shares issuable in exchange for CPILP units in the Plan of Arrangement.

Table of Contents

***Record Date; Shares Entitled to Vote (see page 35)***

Only holders of Atlantic Power common shares at the close of business on \_\_\_\_\_, 2011, the record date for the Atlantic Power special meeting, will be entitled to notice of, and to vote at, the Atlantic Power special meeting or any adjournments or postponements thereof. On the record date, there were outstanding a total of approximately \_\_\_\_\_ Atlantic Power common shares. Each outstanding Atlantic Power common share is entitled to one vote on the Share Issuance Resolution and any other matter properly coming before the Atlantic Power special meeting.

***Required Vote (see page 35)***

The Share Issuance Resolution will be approved if a majority of the votes cast by Atlantic Power shareholders, either in person or by proxy at the Atlantic Power special meeting are voted in favor of the resolution.

***Share Ownership by and Voting Rights of Directors and Executive Officers (see page 35)***

As of the close of business on the Atlantic Power record date, Atlantic Power's directors and executive officers and their affiliates beneficially owned and had the right to vote \_\_\_\_\_ Atlantic Power common shares at the Atlantic Power special meeting, which represents approximately \_\_\_\_\_ % of the Atlantic Power common shares entitled to vote at the Atlantic Power special meeting. Each of the directors and officers of Atlantic Power have indicated their intention to vote in favor of the Share Issuance Resolution.

***Failure to Vote and Broker Non-Vote (see page 35)***

If you are an Atlantic Power shareholder and fail to vote or fail to instruct your broker, investment dealer or other intermediary to vote, it will have no effect on any of the Atlantic Power proposals, assuming a quorum is present.

**The CPILP Special Meeting**

***Date, Time and Place (see page 39)***

The special meeting of CPILP unitholders will be held at the \_\_\_\_\_, \_\_\_\_\_ on \_\_\_\_\_, the \_\_\_\_\_ day of \_\_\_\_\_, 2011 at the hour of \_\_\_\_\_ a.m. (Edmonton time).

***Purpose (see page 39)***

At the CPILP special meeting, CPILP unitholders will be asked to vote on the following resolutions:

to consider, and, if thought advisable, to pass, with or without variation, pursuant to the Interim Order of the Court of Queen's Bench of Alberta, the Arrangement Resolution, the full text of which is set forth in Annex G to this management proxy circular and joint proxy statement, to approve an arrangement under section 192 of the CBCA (all as more particularly described in this joint proxy statement); and

to transact such further or other business as may properly come before the CPILP special meeting or any adjournments or postponements thereof.

***Record Date; Units Entitled to Vote (see page 39)***

Only holders of CPILP units at the close of business on \_\_\_\_\_, 2011, the record date for the CPILP special meeting, will be entitled to notice of, and to vote at, the CPILP special meeting or any adjournments or postponements thereof. On the record date, there were outstanding a total of \_\_\_\_\_

Table of Contents

56,597,899 CPILP units. Each outstanding CPILP unit is entitled to one vote on the Arrangement Resolution and any other matter properly coming before the CPILP special meeting.

***Required Vote (see page 40)***

Pursuant to the Interim Order, the number of votes required to pass the Arrangement Resolution shall be not less than  $66\frac{2}{3}\%$  of the votes cast by CPILP unitholders, either in person or by proxy, at the CPILP special meeting. In addition, the Arrangement Resolution must be approved by a simple majority of the votes cast by the CPILP unitholders present in person or by proxy at the CPILP special meeting, after excluding those votes required to be excluded pursuant to the minority approval provisions of MI 61-101, being the votes of "interested parties" and their related parties and joint actors, which includes the General Partner and CPI Investments. Notwithstanding the foregoing, the Arrangement Resolution authorizes the board of directors of the General Partner, without further notice to or approval of the CPILP unitholders, subject to the terms of the Plan of Arrangement and the Arrangement Agreement, to amend the Plan of Arrangement or the Arrangement Agreement or to decide not to proceed with the Plan of Arrangement at any time prior to the Plan of Arrangement becoming effective pursuant to the provisions of the CBCA.

***Unit Ownership by and Voting Rights of Directors and Executive Officers (see page 39)***

As of the close of business on the CPILP record date, CPILP's directors and executive officers and their affiliates beneficially owned and had the right to vote CPILP units at the CPILP special meeting, which represents approximately % of the CPILP units entitled to vote at the CPILP special meeting. It is expected that CPILP's directors and executive officers will vote in favor of the Arrangement Resolution.

***Failure to Vote and Broker Non-Vote (see page 40)***

If you are a CPILP unitholder and fail to vote or fail to instruct your broker, investment dealer or other intermediary to vote, it will have no effect on any of the CPILP proposals, assuming a quorum is present.

***Procedures for the Surrender of Unit Certificate and Receipt of Consideration (see page 42)***

Each registered holder of CPILP units is required to validly complete and duly sign a Letter of Transmittal and Election Form and submit such documents, together with such holder's CPILP unit certificate(s), if any, to the Depository in order to receive the consideration under the Plan of Arrangement. The details of the procedures for the deposit of CPILP unit certificates and the delivery by the Depository of Atlantic Power common shares and cash are set out in the Letter of Transmittal and Election Form accompanying this joint proxy statement. If you hold your CPILP units through a nominee such as a broker or dealer, you should carefully follow any instructions provided to you by such nominee for making an election. CDS Clearing and Depository Services Inc. is the only registered holder of CPILP units. All other holders should consult their broker, dealer or other nominee through which they hold CPILP units for instructions and assistance in making an election. Pursuant to the terms of the Arrangement Agreement and the Plan of Arrangement, CPILP unitholders are entitled to receive, at their election, for each CPILP unit held (i) C\$19.40 in cash (the "**Cash Consideration**") or (ii) 1.3 Atlantic Power common shares (the "**Share Consideration**"), subject to the Aggregate Cash Maximum and the Aggregate Share Maximum (together the "**Consideration**").

The Election Deadline to deposit such properly completed Letter of Transmittal and Election Form with the Depository is 5:00 p.m. (Edmonton time) on the date that is three business days prior to the date of the CPILP special meeting. Assuming the CPILP special meeting is held on , 2011, the Election Deadline will be 5:00 p.m. (Edmonton time) on , 2011. CPILP unitholders who do

Table of Contents

not forward to the Depository a validly completed and duly signed Letter of Transmittal and Election Form, together with their CPILP unit certificate(s), if any, will not receive the cash and/or Atlantic Power common shares, as applicable, to which they are otherwise entitled until such a deposit is made. Any CPILP unitholder who does not deposit a duly completed Letter of Transmittal and Election Form with the Depository prior to the Election Deadline shall be deemed to have elected to receive the Share Consideration in respect of all of such holder's CPILP units.

Any certificate which immediately prior to the Effective Time represented outstanding CPILP units that is not deposited with the Depository together with all other instruments or documents required by the Plan of Arrangement on or prior to the sixth anniversary of the Effective Date will cease to represent a claim or interest of any kind or nature as a CPILP unitholder or as a shareholder of Atlantic Power. On such date, the cash and Atlantic Power common shares to which the former holder of the certificate referred to in the preceding sentence was ultimately entitled under the Plan of Arrangement will be deemed to have been donated, surrendered and forfeited for no consideration to Atlantic Power.

**Appraisal/Dissent Rights (see page 47)**

The shareholders of Atlantic Power are not entitled to dissent rights in connection with the Share Issuance Resolution.

The unitholders of CPILP are not entitled to dissent rights in connection with the Arrangement Resolution.

**U.S. Securities Law Matters (see page 86)**

The common shares of Atlantic Power to be issued pursuant to the Plan of Arrangement will not be registered under the *Securities Act of 1933*, as amended (the "**Securities Act**"), or the securities laws of any state of the United States and will be issued in reliance upon the exemption from registration set forth in Section 3(a)(10) of the Securities Act. The common shares of Atlantic Power to be issued pursuant to the Plan of Arrangement will be freely transferable under U.S. federal securities laws, except for securities held by persons who are deemed to be "affiliates" of Atlantic Power following completion of the Plan of Arrangement.

**Material Canadian Federal Income Tax Consequences (see page 108)**

CPILP unitholders will realize a taxable disposition of their CPILP units under the Plan of Arrangement. Eligible holders that receive Atlantic Power common shares pursuant to the Plan of Arrangement will be entitled to make a joint tax election with Atlantic Power under the Tax Act that will, depending on the circumstances of each particular CPILP unitholder, allow for a full or partial deferral of taxable gains that would otherwise be realized.

Atlantic Power common shares will be considered "qualified investments" for registered retirement savings plans and other tax-exempt plans.

The primary Canadian federal income tax considerations arising in respect of the Plan of Arrangement, as well as the procedure to be followed by CPILP unitholders intending to make a joint tax election, are described more fully below under the heading "Material Canadian Federal Income Tax Considerations".

**Material U.S. Federal Income Tax Consequences (see page 112)**

CPILP does not permit non-residents of Canada (as determined for purposes of the Tax Act) to hold CPILP units. Persons who are not US Holders will not be subject to U.S. federal income tax with respect to their CPILP units or Atlantic Power common shares received in exchange therefor unless

Table of Contents

(1) such person's income with respect thereto is effectively connected with the conduct of a trade or business in the United States, or (2) such person is an individual who is present in the United States for 183 days or more during the taxable year and has a "tax home" in the United States. Even if a non-US Holder is subject to U.S. federal income tax under either test in the preceding sentence, such person may be eligible for relief from (or reduction to) any U.S. income tax under a tax treaty. See "Certain U.S. Federal Income Tax Considerations" beginning on page 112.

**Atlantic Power Financing (see page 113)**

Atlantic Power intends to finance the cash portion of the purchase price to complete the Plan of Arrangement by issuing up to approximately C\$200.0 million of equity and up to approximately C\$425.0 million of debt through public and private offerings. However, in the event that such financing is not available on terms satisfactory to Atlantic Power, Atlantic Power has received the TLB Commitment Letter, evidencing the commitment of a Canadian chartered bank and another financial institution to structure, arrange, underwrite and syndicate a senior secured credit facility consisting of the Tranche B Facility in the amount of \$625 million, subject to the terms and conditions set forth therein.

Table of Contents**Selected Historical Consolidated Financial Data of Atlantic Power**

The following table presents selected consolidated financial information for Atlantic Power. The annual historical information as of, and for the years ended, December 31, 2010, 2009 and 2008 has been derived from the audited consolidated financial statements appearing in Atlantic Power's Annual Report on Form 10-K for the year ended December 31, 2010, incorporated by reference into this joint proxy statement. The annual historical information as of, and for the years ended, December 31, 2007 and 2006 has been derived from historical financial statements not incorporated by reference into this joint proxy statement. The historical information as of, and for the three-month periods ended, March 31, 2011 and 2010 has been derived from the unaudited consolidated financial statements appearing in Atlantic Power's Quarterly Report on Form 10-Q for the quarter ended March 31, 2011, incorporated by reference into this joint proxy statement. Data for all periods have been prepared under U.S. GAAP. You should read the following selected consolidated financial data together with Atlantic Power's consolidated financial statements and the notes thereto and the discussion under "Management's Discussion and Analysis of Financial Condition and Results of Operations" included as part of Atlantic Power's Annual Report on Form 10-K for the year ended December 31, 2010 and Quarterly Report on Form 10-Q for the quarter ended March 31, 2011, each of which is incorporated by reference into this joint proxy statement. See "Where You Can Find More Information" beginning on page 149 of this joint proxy statement.

(in thousands of US dollars, except as otherwise stated)	Year Ended December 31,					Three months ended March 31,

Total long-term liabilities	\$ 518,273	\$ 402,212	\$ 654,499	\$ 715,923	\$ 613,423	\$ 504,492	\$ 421,133

(a) Unaudited.

(b) The C\$ amounts were converted using the average exchange rates for the applicable reporting periods.

(c) Diluted earnings (loss) per share is computed including dilutive potential shares, which include those issuable upon conversion of convertible debentures and under Atlantic Power's long term incentive plan. Because Atlantic Power reported a loss during the years ended December 31, 2010, 2009, 2007 and 2006, and for the three month periods ended March 31, 2010, the effect of including potentially dilutive shares in the calculation during those periods is anti-dilutive. Please see the notes to Atlantic Power's historical consolidated financial statements incorporated by reference into this joint proxy statement for information relating to the number of shares used in calculating basic and diluted earnings per share for the periods presented.

(d) At the time of Atlantic Power's initial public offering, its publicly traded security was an income participating security, or an "IPS", each of which was comprised of one common share and C\$5.767 principal amount of 11% subordinated notes due 2016. On November 27, 2009, Atlantic Power converted from the IPS structure to a traditional common share structure. In connection with the conversion, each IPS was exchanged for one new common share.

Table of Contents**Selected Historical Consolidated Financial Data of CPILP**

The following table presents selected consolidated financial information for CPILP. The selected historical financial data as of, and for the years ended, December 31, 2010, 2009 and 2008 has been derived from CPILP's audited consolidated financial statements for those periods appearing elsewhere in this joint proxy statement. The selected historical financial data as of, and for the years ended, December 31, 2007 and 2006 has been derived from the audited consolidated financial statements of CPILP not appearing in this joint proxy statement. The selected historical financial data as of, and for the periods ended, March 31, 2011 and 2010 are derived from CPILP's unaudited consolidated financial statements for those periods appearing elsewhere in this joint proxy statement.

Data for all periods presented below have been prepared under Canadian generally accepted accounting principles and are reported in Canadian dollars. You should read the following selected consolidated financial data together with CPILP's consolidated financial statements and the notes thereto and the discussion under "Management's Discussion and Analysis of Financial Condition and Results of Operations" for CPILP included elsewhere in this joint proxy statement.

Table of Contents**Summary Unaudited Pro Forma Condensed Combined Consolidated Financial Information**

The following table sets forth selected information about the pro forma financial condition and results of operations, including per share data, of Atlantic Power after giving effect to the completion of Plan of Arrangement with CPILP. The table sets forth selected unaudited pro forma condensed combined consolidated statements of operations for the three months ended March 31, 2011 and the year ended December 31, 2010, as if the Plan of Arrangement had been completed on January 1, 2010, and the selected unaudited pro forma condensed combined consolidated balance sheet data as of March 31, 2011, as if the Plan of Arrangement had been completed on that date. The information presented below was derived from Atlantic Power's and CPILP's consolidated historical financial statements, and should be read in conjunction with these financial statements and the notes thereto, included elsewhere or incorporated by reference into this joint proxy statement and the other unaudited pro forma financial data, including related notes, included elsewhere in this joint proxy statement. CPILP's historical consolidated financial statements have been prepared in accordance with Canadian GAAP and include a discussion of the significant differences between Canadian GAAP and U.S. GAAP in Note 27 to the CPILP audited consolidated financial statements for the year ended December 31, 2010. For purposes of the unaudited pro forma condensed combined financial data, CPILP's balance sheet financial data has been translated from Canadian Dollars into U.S. Dollars using a C\$/\\$ exchange rate of C\\$0.9718 to \\$1.00 and is presented in accordance with U.S. GAAP. CPILP's statement of operations financial data has been translated from Canadian dollars into U.S. dollars using an average C\$/\\$ exchange rate of C\\$0.9855 to \\$1.00 and C\\$1.0295 to \\$1.00 for the three months ended March 31, 2011 and the year ended December 31, 2010, respectively, and is presented in accordance with U.S. GAAP.

The unaudited pro forma financial data is based on estimates and assumptions that are preliminary and does not purport to represent the financial position or results of operations that would actually have occurred had the Plan of Arrangement been completed as of the dates or at the beginning of the periods presented or what the Combined Company's results will be for any future date or any future period. See the sections entitled "Cautionary Note Regarding Forward-Looking Statements" and "Risk Factors".

- (1) Net income (loss) attributable to Atlantic Power on a pro forma basis reflects:
- a. a significant increase in amortization expense as a result of the estimated increase in fair value associated with CPILP PPA's (see Note 5(e) in the notes to the unaudited condensed combined consolidated financial statements);
  - b. timing differences in Atlantic Power's deferred tax expense; and
  - c. timing differences in CPILP's deferred tax benefit.

Table of Contents**Selected Comparative Per Share/Unit Market Price and Dividend Information**

Atlantic Power's common shares are listed and traded on the NYSE under the symbol "AT" and on the TSX under the symbol "ATP". CPILP's units are listed and traded on the TSX under the symbol "CPA.UN". The following table sets forth, for the quarters indicated, the high and low sales price per share of Atlantic Power's common shares as reported on both the NYSE and the TSX and the high and low sales price per CPILP unit as reported on the TSX. In addition, the table sets forth the monthly cash dividends per share declared by Atlantic Power with respect to its common shares and the monthly cash distribution per unit declared by CPILP with respect to its limited partnership units. On the Atlantic Power record date ( , 2011), there were approximately common shares of Atlantic Power outstanding. On the CPILP record date ( , 2011), there were 56,597,899 CPILP units outstanding.

Table of Contents**Certain Historical and Pro Forma Per Share/Unit Data**

The following tables set forth certain historical, pro forma and pro forma equivalent per share financial information for Atlantic Power common shares and per unit financial information for CPILP units. The pro forma and pro forma equivalent per share/unit information gives effect to the Plan of Arrangement as if the Plan of Arrangement had occurred on March 31, 2011 in the case of book value per share data and as of January 1, 2010 in the case of net income per share/unit data.

The pro forma per share/unit balance sheet information combines CPILP's March 31, 2011 unaudited consolidated balance sheet with Atlantic Power's March 31, 2011 unaudited consolidated balance sheet. The pro forma per share/unit income statement information for the fiscal year ended December 31, 2010, combines CPILP's audited consolidated statement of income for the fiscal year ended December 31, 2010, with Atlantic Power's audited consolidated statement of operations for the fiscal year ended December 31, 2010. The pro forma per share/unit income statement information for the three months ended March 31, 2011, combines CPILP's unaudited consolidated statement of income for the three months ended March 31, 2011, with Atlantic Power's unaudited consolidated statement of operations for the three months ended March 31, 2011. The CPILP pro forma equivalent per share/unit financial information is calculated by multiplying the unaudited Atlantic Power pro forma combined per share/unit amounts by 1.3 (being the exchange ratio under the Plan of Arrangement). The balance sheet of CPILP as of March 31, 2011 has been translated using a C\$/\\$ exchange rate of C\$0.9718 to \$1.00.

The per share data for the Combined Company on a pro forma basis presented below is not necessarily indicative of the financial condition of the Combined Company had the Plan of Arrangement been completed on March 31, 2011 and the operating results that would have been achieved by the Combined Company had the Plan of Arrangement been completed as of the beginning of the period presented, and should not be construed as representative of the Combined Company's future financial condition or operating results. The per share data for the Combined Company on a pro forma basis presented below has been derived from the unaudited pro forma condensed combined consolidated financial data of the Combined Company included in this joint proxy statement. In addition, the unaudited pro forma information does not purport to indicate balance sheet data or results of operations data as of any future date or for any future period.

**RISK FACTORS**

*In addition to the other information included and incorporated by reference into this joint proxy statement, including the matters addressed in the section entitled "Cautionary Note Regarding Forward-Looking Statements," you should carefully consider the following risks before deciding whether to vote for the Share Issuance Resolution, in the case of Atlantic Power shareholders, or the Arrangement Resolution, in the case of CPILP unitholders. In addition, you should read and consider Atlantic Power's Annual Report on Form 10-K for the year ended December 31, 2010, as updated by subsequent Quarterly Reports on Form 10-Q, all of which are filed with the SEC and incorporated by reference into this joint proxy statement. See "Where You Can Find More Information" beginning on page 149.*

**Risk Factors Relating to the Plan of Arrangement**

***The exchange ratio is fixed and will not be adjusted in the event of any change in either CPILP's unit price or Atlantic Power's share price.***

Under the Plan of Arrangement, for each CPILP unit held, CPILP unitholders will be entitled to elect to receive either C\$19.40 in cash or 1.3 Atlantic Power common shares, subject to proration. This exchange ratio is fixed in the Plan of Arrangement and will not be adjusted for changes in the market price of either CPILP units or Atlantic Power shares. Changes in the price of Atlantic Power's shares prior to completion of the Plan of Arrangement may affect the market value that CPILP unitholders will receive on the date of the effective time for the Plan of Arrangement. Share price changes may result from a variety of factors (many of which are beyond Atlantic Power's or Capital Power's control).

***Because the Plan of Arrangement will be completed after the date of the special meetings, at the time of the applicable special meeting, you will not know the exact market value of the Atlantic Power shares that CPILP unitholders will receive upon completion of the Plan of Arrangement.***

If the price of Atlantic Power common shares increases between the time of the special meetings and the effective time of the Plan of Arrangement, CPILP unitholders will receive Atlantic Power common shares that have a market value that is greater than the market value of such shares at the time of the special meetings. If the price of Atlantic Power common shares decreases between the time of the special meetings and the effective time of the Plan of Arrangement, CPILP unitholders will receive Atlantic Power common shares that have a market value that is less than the market value of such shares at the time of the special meetings. Therefore, because the exchange ratio is fixed, Atlantic Power shareholders and CPILP unitholders cannot be sure at the time of the special meetings of the market value of the share consideration that will be paid to CPILP unitholders upon completion of the Plan of Arrangement.

***Failure to complete the Plan of Arrangement could negatively impact the share or unit prices and the future business and financial results of Atlantic Power and CPILP.***

If the Plan of Arrangement is not completed, the ongoing businesses of Atlantic Power and CPILP may be adversely affected. If the Plan of Arrangement is not completed, CPILP will have to consider alternative transactions, including the internalization of management. Additionally, if the Plan of Arrangement is not completed and the Arrangement Agreement is terminated, either Atlantic Power or CPILP, as the case may be, may be required to pay to the other a break-up fee under the Arrangement Agreement in the amount of C\$35.0 million. The foregoing risks, or other risks arising in connection with the failure of the Plan of Arrangement, including the diversion of management attention from conducting the business of the respective entity and pursuing other opportunities during the pendency of the Plan of Arrangement, may have an adverse effect on the business, operations, financial results and share or unit prices of Atlantic Power and CPILP.

Table of Contents

***The Arrangement Agreement contains provisions that could discourage a potential competing acquirer of CPILP.***

The Arrangement Agreement contains "no shop" provisions that, subject to limited exceptions, restrict CPILP's and the General Partner's ability to solicit, encourage, facilitate or discuss competing third-party proposals to acquire units or assets of CPILP. In certain specified circumstances, one of the parties will be required to pay a break-up fee of C\$35.0 million to the other party. See "Summary of the Arrangement Agreement Covenants Non-Solicitation" on page 100 and " Termination of the Arrangement Agreement Termination Payment" beginning on page 103.

These provisions could discourage a potential competing acquirer that might have an interest in acquiring all or a significant part of CPILP from considering or proposing that acquisition, even if it were prepared to pay consideration with a higher per share or unit cash or market value than the market value proposed to be received or realized in the Plan of Arrangement, or might result in a potential competing acquirer proposing to pay a lower price than it might otherwise have proposed to pay because of the added expense of the C\$35.0 million termination fee that may become payable in certain circumstances.

***In certain circumstances, if the Arrangement Agreement is terminated without any payment of a termination payment, Atlantic Power or CPILP may be required to make an expense reimbursement payment to the other party.***

Under the Arrangement Agreement, CPILP would be required to make an expense reimbursement payment to Atlantic Power, up to a maximum of C\$8.0 million, in the event the Arrangement Agreement is terminated in certain circumstances, including, but not limited to, if the CPILP unitholders do not approve the Arrangement Resolution at the CPILP special meeting.

Under the Arrangement Agreement, Atlantic Power would be required to make an expense reimbursement payment to CPILP, up to a maximum of C\$8.0 million, in the event the Arrangement Agreement is terminated in certain circumstances, including, but not limited to, if the Atlantic Power shareholders do not approve the Share Issuance Resolution at the Atlantic Power special meeting.

If the Arrangement Agreement is terminated and either Atlantic Power or CPILP determines to seek another business combination, it may not be able to negotiate a transaction with another party on terms comparable to, or better than, the terms of the Plan of Arrangement.

***If the financing for the transactions contemplated by the Arrangement Agreement becomes unavailable, the Plan of Arrangement may not be completed.***

Atlantic Power intends to finance the cash portion of the purchase price to complete the Plan of Arrangement by issuing up to approximately C\$200.0 million of equity and up to approximately C\$425.0 million of debt through public and private offerings. However, in the event that such financing is not available on terms satisfactory to Atlantic Power, Atlantic Power has received the written commitment of a Canadian chartered bank and another financial institution to structure, arrange, underwrite and syndicate the Tranche B Facility, being a senior secured credit facility in the amount of \$625 million. Funding under the Tranche B Facility is subject to certain conditions, including, without limitation, that there shall not have occurred a Material Adverse Effect (as defined in the Arrangement Agreement) in respect of Atlantic Power, CPILP, the General Partner and CPI Investments taken as a whole. In the event that the lenders under the Tranche B Facility fail to provide funding, Atlantic Power may not be able to complete the Plan of Arrangement and may be subject to a termination fee of C\$35.0 million.

Table of Contents

***Obtaining required governmental and court approvals necessary to satisfy closing conditions may delay or prevent completion of the Plan of Arrangement.***

Completion of the Plan of Arrangement is conditioned upon the receipt of certain governmental authorizations, consents, orders or other approvals, including but not limited to approval under the *Investment Canada Act*, the *Competition Act* (Canada), the *Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended* (United States) and the *United States Federal Power Act*. The Plan of Arrangement must also be approved by the Court of Queen's Bench of Alberta. No assurance can be given that the required approvals will be obtained, and, even if such approvals are obtained, no assurance can be given as to the terms, conditions and timing of the approvals or that they will satisfy the terms of the Arrangement Agreement. See Summary of the Arrangement Agreement "Conditions Precedent to the Plan of Arrangement" beginning on page 94 for a discussion of the conditions to the completion of the Plan of Arrangement and "The Arrangement Agreement and Plan of Arrangement Regulatory Approvals Required for the Plan of Arrangement and Other Regulatory Matters" beginning on page 88 for a description of the regulatory approvals necessary in connection with the Plan of Arrangement.

**Risk Factors Relating to the Combined Company Following the Plan of Arrangement**

***The failure to integrate successfully the businesses of Atlantic Power and CPILP in the expected timeframe would adversely affect the Combined Company's future results.***

The success of the Plan of Arrangement will depend, in large part, on the ability of the Combined Company to realize the anticipated benefits, including cost savings, from combining the businesses of Atlantic Power and CPILP. To realize these anticipated benefits, the businesses of Atlantic Power and CPILP must be successfully integrated. This integration will be complex and time-consuming. The failure to integrate successfully and to manage successfully the challenges presented by the integration process may result in the Combined Company not fully achieving the anticipated benefits of the Plan of Arrangement.

Potential difficulties that may be encountered in the integration process include the following:

challenges and difficulties associated with managing the larger, more complex, combined business;

conforming standards, controls, procedures and policies, business cultures and compensation structures between the entities;

integrating personnel from the two entities while maintaining focus on developing, producing and delivering consistent, high quality services;

consolidating corporate and administrative infrastructures;

coordinating geographically dispersed organizations;

potential unknown liabilities and unforeseen expenses, delays or regulatory conditions associated with the Plan of Arrangement;

performance shortfalls at one or both of the entities as a result of the diversion of management's attention caused by completing the Plan of Arrangement and integrating the entities' operations; and

the ability of the Combined Company to deliver on its strategy going forward.

Table of Contents

***The growth plans of the Combined Company are dependent on future acquisitions and growth opportunities that may not be realized.***

The ability to expand through acquisitions and growth opportunities is integral to the Combined Company's business strategy and requires that it identifies and consummates suitable acquisition or investment opportunities that meet its investment criteria and are compatible with its growth strategy. The Combined Company may not be successful in identifying and consummating acquisitions or investments that meet its investment criteria on satisfactory terms or at all. The failure to identify and consummate suitable acquisitions, to take advantage of other investment opportunities, or to integrate successfully any acquisitions without substantial expense, delay or other operational or financial problems, would impede the Combined Company's growth and negatively affect its results of operations and cash available for distribution to its shareholders.

***Increased debt and debt service obligations may adversely affect the Combined Company.***

Atlantic Power intends to finance the cash portion of the purchase price to complete the Plan of Arrangement by issuing up to approximately C\$200.0 million of equity and up to approximately C\$425.0 million of debt through public and private offerings. However, in the event Atlantic Power is unable to successfully complete such offerings, it may need to borrow up to approximately \$625.0 million pursuant to a senior secured term loan facility. Such facility will be guaranteed by Atlantic Power and each of its existing and subsequently acquired or organized direct or indirect subsidiaries (excluding CPILP and each of its subsidiaries), and to contain covenants restricting certain actions by Atlantic Power and its subsidiaries (including CPILP and its subsidiaries), including financial, affirmative and negative covenants, which may include limitations on the ability to incur indebtedness, create liens and merge and consolidate with other companies, in each case, subject to exceptions and baskets that may be mutually agreed upon by Atlantic Power and the lender parties thereto, the exact terms of which will be negotiated before the effective time for the Plan of Arrangement.

After the Plan of Arrangement, the Combined Company will have an increased amount of indebtedness. On a pro forma basis assuming the Plan of Arrangement was consummated on \_\_\_\_\_, the Combined Company would have had \_\_\_\_\_ of indebtedness. The Combined Company may also obtain additional long-term debt and working capital lines of credit to meet future financing needs, subject to certain restrictions under its existing indebtedness, which would increase its total debt.

The potential significant negative consequences on the Combined Company's financial condition and results of operations that could result from its increased amount of debt include:

limitations on the Combined Company's ability to obtain additional debt or equity financing;

instances in which the Combined Company is unable to meet the financial covenants contained in its debt agreements or to generate cash sufficient to make required debt payments, which circumstances would have the potential of accelerating the maturity of some or all of the Combined Company's outstanding indebtedness;

the allocation of a material portion of the Combined Company's cash flow from operations to service the Combined Company's debt, thus reducing the amount of the Combined Company's cash flow available for other purposes, including funding operating costs and capital expenditures that could improve the Combined Company's competitive position, results of operations or share price;

requiring the Combined Company to sell debt or equity securities or to sell some of its core assets, possibly on unfavorable terms, to meet payment obligations;

compromising the Combined Company's flexibility to plan for, or react to, competitive challenges in its business and the power industry;

Table of Contents

the possibility of the Combined Company being put at a competitive disadvantage with competitors that do not have as much debt as the Combined Company, and competitors that may be in a more favorable position to access additional capital resources in a timely manner; and

limitations on the Combined Company's ability to execute business development activities to support its strategies.

***A downgrade in Atlantic Power's or CPILP's credit ratings or any deterioration in their credit quality could negatively affect the Combined Company's ability to access capital and its ability to hedge and could trigger termination rights under certain contracts.***

A downgrade in Atlantic Power's or CPILP's credit ratings or deterioration in their credit quality could adversely affect the Combined Company's ability to renew existing, or obtain access to new, credit facilities and could increase the cost of such facilities and trigger termination rights or enhanced disclosure requirements under certain contracts to which CPILP is a party. Any downgrade of CPILP's corporate credit rating could cause counterparties and financial derivative markets to require CPILP to post letters of credit or other collateral, make cash prepayments, obtain a guarantee agreement or provide other security, all of which would expose CPILP to additional costs.

***The Plan of Arrangement, if completed, will dilute the the ownership position of Atlantic Power's current common shareholders in the Combined Company.***

If the Plan of Arrangement is completed, Atlantic Power would issue approximately 31.5 million common shares in connection with the Plan of Arrangement, representing approximately 31.49% of its outstanding common shares after giving effect to the Plan of Arrangement (based on the number of Atlantic Power common shares outstanding on June 20, 2011, being the date of the Arrangement Agreement, and excluding any common shares that may be issued to finance the cash portion of the purchase price under the Plan of Arrangement). Consequently, following the Plan of Arrangement, Atlantic Power's current shareholders, as a general matter, would have less influence over the management and policies of the Combined Company than they currently exercise over the management and policies of Atlantic Power.

***The Combined Company's results of operations may differ significantly from the unaudited pro forma condensed combined financial data included in this joint proxy statement.***

This joint proxy statement includes unaudited pro forma condensed combined financial statements to illustrate the effects of the Plan of Arrangement on Atlantic Power's historical financial position and operating results. The unaudited pro forma condensed combined statements of income for the fiscal year ended December 31, 2010 and for the three months ended March 31, 2011 combine the historical consolidated statements of income of Atlantic Power and CPILP, giving effect to the Plan of Arrangement, as if it had occurred on January 1, 2010. The unaudited pro forma condensed combined balance sheet as of March 31, 2011 combines the historical consolidated balance sheets of Atlantic Power and CPILP, giving effect to the Plan of Arrangement as if it had occurred on March 31, 2011. This unaudited pro forma financial data is presented for illustrative purposes only and does not necessarily indicate the results of operations or the combined financial position that would have resulted had the Plan of Arrangement been completed as of the dates or at the beginning of the periods presented, as applicable, nor is it indicative of the results of operations in future periods or the future financial position of the Combined Company.

Table of Contents

***The Combined Company is expected to incur significant expenses related to the integration of Atlantic Power and CPILP.***

The Combined Company is expected to incur significant expenses in connection with the Plan of Arrangement and the integration of Atlantic Power and CPILP. There are a large number of processes, policies, procedures, operations, technologies and systems that must be integrated. While Atlantic Power and CPILP have assumed that a certain level of expenses will be incurred, there are many factors beyond their control that could affect the total amount or the timing of the integration expenses. Moreover, many of the expenses that will be incurred are, by their nature, difficult to estimate accurately. These integration expenses likely will result in the Combined Company taking significant charges against earnings following the completion of the Plan of Arrangement, and the amount and timing of such charges are uncertain at present.

***If goodwill or other intangible assets that the Combined Company records in connection with the Plan of Arrangement become impaired, the Combined Company could have to take significant charges against earnings.***

In connection with the accounting for the Plan of Arrangement, the Combined Company expects to record a significant amount of goodwill and other intangible assets. Under U.S. GAAP, the Combined Company must assess, at least annually and potentially more frequently, whether the value of goodwill and other indefinite-lived intangible assets has been impaired. Amortizing intangible assets will be assessed for impairment in the event of an impairment indicator. Any reduction or impairment of the value of goodwill or other intangible assets will result in a charge against earnings, which could materially adversely affect the Combined Company's results of operations and shareholders' equity in future periods.

***Atlantic Power, CPILP and, subsequently, the Combined Company must continue to retain, motivate and recruit executives and other key employees, which may be difficult in light of the uncertainty regarding the Plan of Arrangement, and failure to do so could negatively affect the Combined Company.***

The Combined Company must be successful at retaining, recruiting and motivating key employees following the completion of the Plan of Arrangement. Experienced employees in the power industry are in high demand and competition for their talents can be intense. Employees of both Atlantic Power and CPILP may experience uncertainty about their future role with the Combined Company until, or even after, strategies with regard to the Combined Company are announced or executed. These potential distractions of the Plan of Arrangement may adversely affect the ability of Atlantic Power, CPILP or the Combined Company to attract, motivate and retain executives and other key employees and keep them focused on applicable strategies and goals. A failure by Atlantic Power, CPILP or the Combined Company to retain and motivate executives and other key employees during the period prior to or after the completion of the Plan of Arrangement could have an adverse impact on the business of Atlantic Power, CPILP or the Combined Company.

***The Atlantic Power common shares to be received by CPILP unitholders as a result of the Plan of Arrangement will have different rights from the CPILP units.***

Upon completion of the Plan of Arrangement, many CPILP unitholders will become Atlantic Power shareholders and their rights as shareholders will be governed by Atlantic Power's articles and the *Business Corporations Act* (British Columbia) (the "BCBCA"). The rights associated with CPILP units are different from the rights associated with Atlantic Power common shares. Please see "Comparison of Rights of Atlantic Power Shareholders and CPILP Unitholders" beginning on page 140 for a discussion of the different rights associated with Atlantic Power common shares.

Table of Contents

***There are factors that could cause the Plan of Arrangement not to be accretive and could cause dilution to the Combined Company's distributable cash flow per share, which may negatively affect the market price of the Combined Company's common shares.***

Atlantic Power and CPILP currently anticipate that the Plan of Arrangement will be immediately accretive to distributable cash flow per share of the Combined Company. This expectation is based on preliminary estimates, which may materially change. The Combined Company could also encounter additional transaction and integration-related costs or other factors such as the failure to realize all of the benefits anticipated in the Plan of Arrangement. All of these factors could cause dilution to the Combined Company's distributable cash flow per share or decrease or delay the expected accretive effect of the Plan of Arrangement and cause a decrease in the market price of the Combined Company's common shares. Accordingly, Atlantic Power may not be able to increase its dividends following completion of the Plan of Arrangement as currently planned.

***Atlantic Power and CPI Preferred Equity Ltd. are subject to Canadian tax.***

As a Canadian corporation, Atlantic Power is generally subject to Canadian federal, provincial and other taxes, and dividends paid by it are generally subject to Canadian withholding tax if paid to a shareholder that is not a resident of Canada. In connection with Atlantic Power's conversion from an IPS structure to a traditional common share structure in 2009 and the related reorganization of its organizational structure, Atlantic Power received a note from its primary US holding company (the "**Intercompany Note**"). Atlantic Power is required to include in computing its taxable income interest on the Intercompany Note and following the completion of the Plan of Arrangement, income earned by CPILP. Atlantic Power expects that its existing tax attributes initially will be available to offset this income inclusion such that it will not result in an immediate material increase to its liability for Canadian taxes. However, once Atlantic Power fully utilizes its existing tax attributes (or if, for any reason, these attributes were not available), Atlantic Power's Canadian tax liability would materially increase. Although Atlantic Power intends to explore potential opportunities in the future to preserve the tax efficiency of its structure, no assurances can be given that its Canadian tax liability will not materially increase at that time.

CPI Preferred Equity Ltd., a subsidiary of CPILP, is also a Canadian corporation and is generally subject to Canadian federal, provincial and other taxes. CPI Preferred Equity Ltd. is, and following the completion of the Plan of Arrangement will continue to be, liable to pay material Canadian cash taxes.

***Atlantic Power's prior and current structure, and its incorporation of the CPILP structure following the Plan of Arrangement, may be subject to additional US federal income tax liability.***

Under Atlantic Power's prior IPS structure, Atlantic Power treated the subordinated note represented by such IPS's as debt for US federal income tax purposes. Accordingly, Atlantic Power deducted the interest payments on the subordinated notes and reduced its net taxable income treated as "effectively connected income" for US federal income tax purposes. Under Atlantic Power's current structure, its subsidiaries that are incorporated in the United States are subject to US federal income tax on their income at regular corporate rates (currently as high as 35%, plus state and local taxes), and Atlantic Power's primary US holding company will claim interest deductions with respect to the Intercompany Note in computing its income for US federal income tax purposes. To the extent this interest expense is disallowed or is otherwise not deductible, the US federal income tax liability of Atlantic Power's primary US holding company will increase, which could materially affect the after-tax cash available to distribute to Atlantic Power. While Atlantic Power received advice from its US tax counsel, based on certain representations by Atlantic Power and its primary US holding company and determinations made by its independent advisors, as applicable, that the subordinated notes and the Intercompany Note should be treated as debt for US federal income tax purposes, it is possible that the Internal Revenue Service ("**IRS**") could successfully challenge those positions and assert that

Table of Contents

subordinated notes or the Intercompany Note should be treated as equity rather than debt for US federal income tax purposes. In this case, the otherwise deductible interest on the subordinated notes or the Intercompany Note would be treated as non-deductible distributions and, in the case of the Intercompany Note, would be subject to US withholding tax to the extent Atlantic Power's primary US holding company had current or accumulated earnings and profits. The determination of whether the subordinated notes and the primary US holding company's indebtedness to Atlantic Power is debt or equity for US federal income tax purposes is based on an analysis of the facts and circumstances. There is no clear statutory definition of debt for US federal income tax purposes, and its characterization is governed by principles developed in case law, which analyzes numerous factors that are intended to identify the nature of the purported creditor's interest in the borrower.

Furthermore, not all courts have applied this analysis in the same manner, and some courts have placed more emphasis on certain factors than other courts have. To the extent it were ultimately determined that the subordinated notes or the Intercompany Note were not debt, Atlantic Power's US federal income tax liability for the applicable open tax years would materially increase, which could materially affect the after-tax cash available to Atlantic Power to distribute. Alternatively, the IRS could argue that the interest on the subordinated notes or the Intercompany Note exceeded or exceeds an arm's length rate, in which case only the portion of the interest expense that does not exceed an arm's length rate may be deductible and, in the case of the Intercompany Note, the remainder would be subject to US withholding tax to the extent Atlantic Power's primary US holding company had current or accumulated earnings and profits. Atlantic Power has received advice from independent advisors that the interest rates on the subordinated notes and the Intercompany Note were, when issued, commercially reasonable under the circumstances, but the advice is not binding on the IRS.

Furthermore, pursuant to the US "earnings stripping" limitations, Atlantic Power's primary US holding company's deductions attributable to the interest expense on the Intercompany Note may be limited by the amount by which its net interest expense (the interest paid by the US holding company on all debt, including the Intercompany Note, less its interest income) exceeds 50% of its adjusted taxable income (generally, US federal taxable income before net interest expense, net operating loss carryovers, depreciation and amortization). Any disallowed interest expense may currently be carried forward to future years. Moreover, proposed legislation has been introduced, though not enacted, several times in recent years that would further limit the 50% of adjusted taxable income cap described above to 25% of adjusted taxable income, although recent proposals in the Fiscal Year Budget for 2010 would only apply the revised rules to certain foreign corporations that were expatriated. Furthermore, if Atlantic Power's primary US holding company does not make regular interest payments as required under the Intercompany Note, other limitations on the deductibility of interest under US federal income tax laws could apply to defer and/or eliminate all or a portion of the interest deduction that the US holding company would otherwise be entitled to with respect to the Intercompany Note.

CPILP's US structure has in place intercompany financing arrangements (the "**CPILP Financing Arrangements**"). While CPILP has received advice from its US accountants, based on certain representations by its holding companies, that the payments on the CPILP Financing Arrangements should be deductible for US federal income tax purposes, it is possible that the IRS could successfully challenge the deductibility of these payments. If the IRS were to succeed in characterizing these payments as non-deductible, the adverse consequences discussed above with respect to the Intercompany Loan could apply in connection with the CPILP Financing Arrangements. In addition, even if the payments are respected as interest, the deduction thereof could nevertheless be limited by the earnings stripping limitations, as discussed in the preceding paragraph. The earnings stripping limitations will also apply to other indebtedness of CPILP's US group that is guaranteed by CPILP or Atlantic Power. Finally, the applicability of recent changes to the US-Canada Income Tax Treaty to the structure associated with certain of the CPILP Financing Arrangements may result in distributions from CPILP's US group to its Canadian parent being subject to a 30% rate of withholding tax instead of the 5% rate that would otherwise have applied.

Table of Contents

**CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This joint proxy statement and the documents incorporated by reference herein contain forward-looking statements within the meaning of the *Private Securities Litigation Reform Act of 1995* with respect to the financial condition, results of operations, business strategies, operating efficiencies, synergies, revenue enhancements, competitive positions, plans and objectives of management and growth opportunities of Atlantic Power and CPILP, and with respect to the Plan of Arrangement and the markets for CPILP units and Atlantic Power common shares and other matters. Statements in this joint proxy statement and the documents incorporated by reference herein that are not historical facts are hereby identified as forward-looking statements for the purpose of the safe harbor provided by Section 27A of the Securities Act and Section 21E of the Exchange Act and forward-looking information within the meaning defined under applicable Canadian securities legislation (collectively, "**forward-looking statements**").

These forward-looking statements relate to, among other things, the expected benefits of the Plan of Arrangement, such as accretion, the ability to pay increased dividends, enhanced cash flow, growth potential, liquidity and access to capital, market profile and financial strength; the position of the Combined Company; and the expected timing of the completion of the transaction.

Forward-looking statements can generally be identified by the use of words such as "should," "intend," "may," "expect," "believe," "anticipate," "estimate," "continue," "plan," "project," "will," "could," "would," "target," "potential" and other similar expressions. In addition, any statements that refer to expectations, projections or other characterizations of future events or circumstances are forward-looking statements. Although Atlantic Power and CPILP believe that the expectations reflected in such forward-looking statements are reasonable, such statements involve risks and uncertainties, and undue reliance should not be placed on such statements. Certain material factors or assumptions are applied in making forward-looking statements, including, but not limited to, factors and assumptions regarding the items outlined above. Actual results may differ materially from those expressed or implied in such statements. Important factors that could cause actual results to differ materially from these expectations include, among other things:

the failure to receive, on a timely basis or otherwise, the required approvals by Atlantic Power shareholders, CPILP unitholders and government or regulatory agencies (including the terms of such approvals);

the risk that a condition to closing of the Plan of Arrangement may not be satisfied;

the possibility that the anticipated benefits and synergies from the Plan of Arrangement cannot be fully realized or may take longer to realize than expected;

the possibility that costs or difficulties related to the integration of Atlantic Power and CPILP operations will be greater than expected;

the ability of the Combined Company to retain and hire key personnel and maintain relationships with customers, suppliers or other business partners;

the impact of legislative, regulatory, competitive and technological changes; the risk that the credit ratings of the Combined Company may be different from what the companies expect; and

other risk factors relating to the power industry, as detailed from time to time in Atlantic Power's filings with the Securities and Exchange Commission ("**SEC**") and the Canadian Securities Administrators (the "**CSA**"), and CPILP's filings with the CSA.

Additional information about these factors and about the material factors or assumptions underlying such forward-looking statements may be found in this joint proxy statement, as well as under Item 1A in Atlantic Power's Annual Report on Form 10-K for the fiscal year ended

Table of Contents

December 31, 2010, as updated by subsequent Quarterly Reports on Form 10-Q, all of which are filed with the SEC and incorporated by reference into this joint proxy statement. These important factors also include those set forth under the section entitled "Risk Factors", beginning on page 22 of the joint proxy statement.

Readers are cautioned that any forward-looking statement speaks only as of the date of this joint proxy statement or, if such statement is included in a document incorporated by reference into this joint proxy statement, as of the date of such other document. Neither Atlantic Power nor CPILP undertakes any obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise, except as may be required by applicable law. Atlantic Power and CPILP caution further that, as it is not possible to predict or identify all relevant factors that may impact forward-looking statements, the foregoing list should not be considered a complete statement of all potential risks and uncertainties.

Table of Contents

**THE ENTITIES**

**Atlantic Power Corporation**

Atlantic Power owns and operates a diverse fleet of power generation and infrastructure assets in the United States. Atlantic Power's generation projects sell electricity to utilities and other large commercial customers under long-term PPAs, which seek to minimize exposure to changes in commodity prices. Atlantic Power's power generation projects in operation have an aggregate gross electric generation capacity of approximately 1,948 MW in which Atlantic Power's ownership interest is approximately 871 MW. Atlantic Power's corporate strategy is to generate stable cash flows from Atlantic Power's existing assets and to make accretive acquisitions to sustain Atlantic Power's dividend payout to shareholders, which is currently paid monthly at an annual rate of C\$1.094 per share. Atlantic Power's current portfolio consists of interests in 12 operational power generation projects across nine states, one 53 MW biomass project under construction in Georgia, and an 84-mile, 500 kilovolt electric transmission line located in California. Atlantic Power also owns a majority interest in Rollcast Energy, a biomass power plant developer with several projects under development.

Atlantic Power sells the capacity and power from its projects under PPAs with a variety of utilities and other parties. Under the PPAs, which have expiration dates ranging from 2010 to 2037, Atlantic Power receives payments for electric energy sold to its customers (known as energy payments), in addition to payments for electric generation capacity (known as capacity payments). Atlantic Power also sells steam from a number of its projects under steam sales agreements to industrial purchasers. The transmission system rights owned by Atlantic Power in its power transmission project entitle it to payments indirectly from the utilities that make use of the transmission line.

Atlantic Power's projects generally operate pursuant to long-term supply agreements, typically accompanied by fuel transportation arrangements. In most cases, the fuel supply and transportation arrangements correspond to the term of the relevant PPAs and most of the PPAs and steam sales agreements provide for the pass-through or indexing of fuel costs to Atlantic Power's customers.

Atlantic Power partners with recognized leaders in the independent power business to operate and maintain its projects, including Caithness Energy LLC, Power Plant Management Services and the Western Area Power Administration. Under these operation, maintenance and management agreements, the operator is typically responsible for operations, maintenance and repair services.

Atlantic Power's common shares trade on the NYSE under the symbol "AT" and on the TSX under the symbol "ATP". Additional information about Atlantic Power is included in documents incorporated by reference into this joint proxy statement. See "Where You Can Find More Information" beginning on page 149.

Atlantic Power is corporation continued under the laws of the Province of British Columbia. Atlantic Power's headquarters are located at 200 Clarendon Street, Floor 25, Boston, Massachusetts, USA 02116, telephone number 617-977-2400. Atlantic Power's registered office is located at 355 Burrard Street, Suite 1900, Vancouver, British Columbia, Canada V6C 2G8.

**Capital Power Income L.P.**

CPILP's primary business is the ownership and operation of power plants in Canada and the United States, which generate electricity and steam, from which it derives its earnings and cash flows. The power plants generate electricity and steam from a combination of natural gas, waste heat, wood waste, water flow, coal and tire-derived fuel. CPILP's generation projects sell electricity to utilities and other large commercial customers under long-term PPAs, which seek to minimize exposure to changes in commodity prices. At present, CPILP's portfolio consists of 19 wholly-owned power generation assets located in both Canada (in the provinces of British Columbia and Ontario) and the United States (in the states of California, Colorado, Illinois, New Jersey, New York and North Carolina), a 50.15%

Table of Contents

interest in a power generation asset in Washington State, and a 14.3% common equity interest in Primary Energy Recycling Holdings LLC. CPILP's assets have a total net generating capacity of 1,400 MW and more than four million pounds per hour of thermal energy.

The CPILP units trade on the TSX under the symbol "CPA.UN".

CPILP is a limited partnership created under the laws of the Province of Ontario pursuant to a limited partnership agreement dated March 27, 1997, as amended, which we refer to in this joint proxy statement as CPILP's partnership agreement. CPILP is only permitted to carry on activities that are directly or indirectly related to the energy supply industry and to hold investments in other entities which are primarily engaged in such industry. The head office of CPILP is located at 10065 Jasper Avenue, Edmonton, Alberta, T5J 3B1. The registered office of CPILP is 200 University Avenue, Toronto, Ontario, M5H 3C6, telephone number 1-866-896-4636 (toll free). See "Information Regarding CPILP" beginning on page 119.

**CPI Income Services Ltd.**

The General Partner is the general partner of CPILP and is responsible for the management of CPILP. Pursuant to CPILP's partnership agreement, the General Partner is prohibited from undertaking any business activity other than acting as general partner of CPILP. The General Partner has engaged the Manager, which consists of two subsidiaries of Capital Power, to perform management and administrative services for CPILP and to operate and maintain CPILP's power plants pursuant to certain management and operations agreements. The management and operations agreements will be terminated and/or assigned in connection with the Plan of Arrangement in consideration for the payment of an aggregate of C\$10.0 million. See "Summary of the Arrangement Agreement Summaries of Other Agreements Relating to the Arrangement Management Agreements Termination Agreement and Management Agreement Assignment Agreement" beginning on page 106.

The General Partner was incorporated on February 13, 1997 under the CBCA. The General Partner is a wholly-owned subsidiary of CPI Investments. The head and registered office of The General Partner is located at 10065 Jasper Avenue, Edmonton, Alberta, T5J 3B1, telephone number 1-866-896-4636 (toll free).

**CPI Investments Inc.**

CPI Investments is a holding company that owns 100% of the shares of the General Partner and, together with the CPILP units held by the General Partner, 29.18% of the outstanding CPILP units.

Capital Power LP holds a 49% voting interest and a 100% economic interest in CPI Investments and EPCOR holds the other 51% voting interest in CPI Investments. Pursuant to the shareholders agreement in respect of CPI Investments, CPILP and EPCOR agreed that the board of directors of CPI Investments shall consist of three directors and EPCOR is entitled to nominate one person for election to the board of directors of CPI Investments.

CPI Investments was incorporated on February 12, 2009 under the CBCA. The head and registered office of CPI Investments is located at TD Tower, 5th Floor, 10088-102 Avenue, Edmonton, Alberta, Canada, T5J 2Z1, telephone number 1-866-896-4636 (toll free).

Table of Contents

**THE ATLANTIC POWER SPECIAL MEETING**

**Date, Time and Place**

The special meeting of Atlantic Power shareholders will be held at the King Edward Hotel, \_\_\_\_\_, 37 King Street East, Toronto, Ontario on \_\_\_\_\_, the \_\_\_\_\_ day of \_\_\_\_\_, 2011 at the hour of \_\_\_\_\_ a.m. (Toronto time).

**Purpose of the Special Meeting**

At the Atlantic Power special meeting, Atlantic Power shareholders will be asked to vote on the following resolutions:

to consider, and if thought advisable, to approve, with or without variation, the Share Issuance Resolution, the full text of which is set forth in Annex F to this management proxy circular and joint proxy statement, authorizing Atlantic Power to issue such number of common shares in the capital of Atlantic Power as is necessary to complete the Arrangement, being 1.3 Atlantic Power common shares for each CPILP unit to a maximum of 31,500,221 Atlantic Power common shares pursuant to the terms of the Arrangement Agreement (all as more particularly described in this joint proxy statement); and

to transact such further or other business as may properly come before the Atlantic Power special meeting or any adjournments or postponements thereof.

**Recommendations of the Board of Directors of Atlantic Power**

At a meeting held on June 19, 2011, after considering, Atlantic Power's board of directors unanimously determined that the Arrangement and the other transactions contemplated by the Arrangement Agreement, including the issuance of Atlantic Power common shares necessary to complete the Arrangement, are in the best interests of Atlantic Power and is fair to its stakeholders. **Accordingly, the Atlantic Power board of directors unanimously recommends that the Atlantic Power shareholders vote "FOR" the Share Issuance Resolution.** For a discussion of the material factors considered by the Atlantic Power board of directors in reaching its conclusions, see "The Arrangement Agreement and Plan of Arrangement Atlantic Power's Reasons for the Agreement"; Recommendations of the Atlantic Power Board of Directors; beginning on page 55.

Atlantic Power shareholders should carefully read this joint proxy statement in its entirety for more detailed information concerning the Plan of Arrangement and the Arrangement Agreement. In addition, Atlantic Power shareholders are directed to the Arrangement Agreement which is included as Annex A in this joint proxy statement.

**Share Issuance Resolution**

Pursuant to the rules of the NYSE and TSX, securityholder approval is required in instances where the number of securities issued or issuable in payment of the purchase price in a transaction such as the Plan of Arrangement exceeds 20% (NYSE) or 25% (TSX) of the number of securities of the listed issuer which are outstanding, on a non-diluted basis. Because the Arrangement Agreement contemplates the issuance of Atlantic Power common shares in excess of these thresholds on a non-diluted basis, the rules of the NYSE and TSX require that Atlantic Power must obtain approval of the Share Issuance Resolution by the holders of a majority of the Atlantic Power common shares represented in person or by proxy at the Atlantic Power special meeting.

As of the close of business on the date of this joint proxy statement, there were approximately \_\_\_\_\_ outstanding Atlantic Power common shares. If the Plan of Arrangement is completed, Atlantic Power currently estimates that it will issue or reserve for issuance approximately \_\_\_\_\_ Atlantic Power common shares (equal to approximately \_\_\_\_\_ of Atlantic Power's current issued and outstanding

Table of Contents

common shares) pursuant to or as contemplated by the Arrangement Agreement, including up to approximately 31.5 million Atlantic Power common shares issuable in exchange for CPILP units in the Plan of Arrangement and such other Atlantic Power common shares pursuant to offerings to be conducted to raise cash proceeds to be used to satisfy the cash portion of the purchase price under the Plan of Arrangement.

**Record Date; Shares Entitled to Vote**

Only holders of Atlantic Power common shares at the close of business on \_\_\_\_\_, 2011, the record date for the Atlantic Power special meeting, will be entitled to notice of, and to vote at, the Atlantic Power special meeting or any adjournments or postponements thereof, except to the extent the shareholder has transferred any such common shares after the record date and the transferee of such common shares establishes ownership thereof and makes a written demand to the Corporate Secretary of Atlantic Power, not later than 10 days before the date of the special meeting, to be included in the list of shareholders entitled to vote at the special meeting, in which case the transferee will be entitled to vote such common shares. On the record date, there were outstanding a total of approximately \_\_\_\_\_ Atlantic Power common shares. Each outstanding Atlantic Power common share is entitled to one vote on the Share Issuance Resolution and any other matter properly coming before the Atlantic Power special meeting. The Atlantic Power common shares represented by the proxy will be voted for, voted against or withheld from voting in accordance with the instructions of the shareholder on any ballot that may be called for. If the shareholder specifies that the shares registered in the shareholder's name be voted for, voted against or withheld with respect to any matter to be acted upon, the shares will be voted accordingly.

**Share Ownership by and Voting Rights of Directors and Executive Officers**

As of the close of business on the Atlantic Power record date, Atlantic Power's directors and executive officers and their affiliates beneficially owned and had the right to vote \_\_\_\_\_ Atlantic Power common shares at the Atlantic Power special meeting, which represents approximately \_\_\_\_\_ % of the Atlantic Power common shares entitled to vote at the Atlantic Power special meeting. Each of the directors and officers of Atlantic Power have indicated their intention to vote in favor of the Share Issuance Resolution.

**Quorum**

A quorum must be present at the Atlantic Power special meeting for any business to be conducted. Pursuant to Atlantic Power's articles, the presence of two persons, present in person, each being an Atlantic Power shareholder entitled to vote or a duly appointed proxy for an Atlantic Power shareholder so entitled constitutes a quorum.

**Required Vote**

The Share Issuance Resolution will be approved if a majority of the votes cast by Atlantic Power shareholders, either in person or by proxy at the Atlantic Power special meeting, vote in favor of the resolution.

**Failure to Vote and Broker Non-Votes**

If you are an Atlantic Power shareholder and fail to vote or fail to instruct your broker, investment dealer or other intermediary to vote, it will have no effect on any of the Atlantic Power proposals, assuming a quorum is present.

Table of Contents

**Appointment of Proxyholder**

The persons designated by management of Atlantic Power in the enclosed proxy card are Irving Gerstein and John McNeil. **Each Atlantic Power shareholder has the right to appoint as proxyholder a person or company, who need not be a shareholder of Atlantic Power, other than the persons designated by management of Atlantic Power in the enclosed form of proxy, to attend and act on the shareholder's behalf at the Atlantic Power special meeting or at any adjournment or postponement thereof.** Such right may be exercised by inserting the name of the person or company in the blank space provided in the enclosed proxy card or by completing another proxy card.

A document appointing a proxy must be in writing and completed and signed by a shareholder or his or her attorney authorized in writing or, if the shareholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Instructions provided to the agent by a shareholder must be in writing and completed and signed by the shareholder or his or her attorney authorized in writing or, if the shareholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. Persons signing as officers, attorneys, executors, administrators, and trustees or similarly otherwise should so indicate and provide satisfactory evidence of such authority.

**Record Holders**

If you are a registered holder of Atlantic Power common shares as of the close of business on the record date for the Atlantic Power special meeting, a form of proxy is enclosed for your use. Atlantic Power requests that you vote your shares by telephone or through the Internet, or sign the accompanying form of proxy and return it promptly in the enclosed postage-paid envelope. Information and applicable deadlines for voting by telephone or through the Internet are set forth on the enclosed form of proxy. When the enclosed form of proxy is returned completed and properly executed, the Atlantic Power common shares represented by it will be voted at the Atlantic Power special meeting or any adjournment or postponement thereof in accordance with the instructions contained in the form of proxy and if the shareholder specifies a choice with respect to any matter to be acted upon, the Atlantic Power common shares will be voted accordingly. Your telephone or Internet vote authorizes the named proxies to vote your shares in the same manner as if you had completed, signed and returned a form of proxy.

**Your vote is important. Accordingly, if you are a registered holder of Atlantic Power common shares as of the close of business on the record date, please sign and return the enclosed form of proxy or vote via telephone or the Internet whether or not you plan to attend the Atlantic Power special meeting in person.**

**If a proxy is signed and returned without an indication as to how the Atlantic Power common shares represented are to be voted with regard to a particular proposal, the Atlantic Power common shares represented by the proxy will be voted in favor of the Share Issuance Resolution.** At the date hereof, the Atlantic Power board of directors has no knowledge of any business that will be presented for consideration at the special meeting and which would be required to be set forth in this joint proxy statement or the related Atlantic Power proxy other than the matters set forth in Atlantic Power's Notice of Special Meeting of Shareholders. Business transacted at the Atlantic Power special meeting is expected to be limited to those matters set forth in such notice. Nonetheless, if any amendments to matters identified in the accompanying Notice of Atlantic Power Special Meeting of Shareholders or any other matter is properly presented at the Atlantic Power special meeting for consideration, it is intended that the persons named in the enclosed proxy and acting thereunder will vote in accordance with their best judgment and pursuant to such discretionary authority on such matter.

**Shares Held in Street Name/Non-Registered Shareholders**

The proxy card provided with this joint proxy statement will indicate whether or not you are a registered shareholder. Non-registered shareholders hold their Atlantic Power common shares through

Table of Contents

intermediaries, such as banks, trust companies, securities dealers or brokers. If you are a non-registered shareholder, the intermediary holding your Atlantic Power common shares should provide a voting instruction form which you must complete by using any one of the methods outlined therein. This voting instruction form will constitute voting instructions that the intermediary must follow and should be returned in accordance with the instructions to ensure it is counted for the Atlantic Power special meeting. In order to expedite your vote, you may vote by using a touch-tone telephone or via the Internet, following the instructions outlined on the voting instruction form.

If, as a non-registered shareholder, you wish to attend the Atlantic Power special meeting and vote your common shares in person, or have another person attend and vote your common shares on your behalf, you should fill your own name, or the name of your appointee, in the space provided on the voting instruction form. An intermediary's voting instruction form will likely provide corresponding instructions to cast your vote in person. In either case, you should carefully follow the instructions provided by the intermediary and contact the intermediary promptly if you need help.

A non-registered shareholder may revoke a proxy or voting instruction which has been previously given to an intermediary by written notice to the intermediary. In order to ensure that the intermediary acts upon a revocation, the written notice should be received by the intermediary well in advance of the Atlantic Power special meeting.

**Revocability of Proxy; Changing Your Vote**

*If you are a registered holder of Atlantic Power common shares as of the close of business on the record date for the Atlantic Power special meeting:* You can change your vote at any time before the start of the Atlantic Power special meeting, unless otherwise noted. In addition to revocation in any other manner permitted by law, you can do this in one of the following ways:

you can grant a new, valid proxy bearing a later date (including by telephone or Internet);

you can deposit a signed notice of revocation at Atlantic Power's registered office at any time up to and including the last business day preceding the day of the Atlantic Power special meeting (or any adjournment or postponement thereof) or with the chair of the Atlantic Power special meeting on the day of the Atlantic Power special meeting (or any adjournment or postponement thereof); or

you can attend the special meeting and vote in person, which will automatically cancel any proxy previously given, or you may revoke your proxy in person, but your attendance alone will not revoke any proxy that you have previously given.

If you choose any of the foregoing methods, your notice of revocation or your new proxy must be received by Atlantic Power no later than the beginning of the Atlantic Power special meeting. If you have voted your shares by telephone or through the Internet, you may revoke your prior telephone or Internet vote by any manner described above.

*If you hold Atlantic Power common shares in "street name":* You must contact your broker, investment dealer or other intermediary in writing to change your vote. In order to ensure that the broker, investment dealer or other intermediary acts upon revocation, the written notice should be received by the broker, investment dealer or other intermediary well in advance of your special meeting.

**Additional Disclosure Required by Canadian Securities Laws**

*Solicitation of Proxies*

**Management of Atlantic Power is soliciting proxies for use at the Atlantic Power special meeting or at any adjournment or postponement thereof.** In accordance with the Arrangement Agreement, the cost of proxy solicitation for the Atlantic Power special meeting will be borne by Atlantic Power. In

Table of Contents

addition to the use of the mail, proxies may be solicited by directors, officers and other employees of Atlantic Power, without additional remuneration, by personal interview, telephone, facsimile or otherwise. Atlantic Power will also request brokerage firms, nominees, custodians and fiduciaries to forward proxy materials to the beneficial owners of shares and will provide customary reimbursement to such firms for the cost of forwarding these materials. Atlantic Power has retained \_\_\_\_\_ to assist in its solicitation of proxies and has agreed to pay them a fee of approximately \_\_\_\_\_, plus reasonable expenses, for these services.

***Principal Shareholders***

To the knowledge of the directors of Atlantic Power, there are no persons that beneficially own or exercise control or direction over Atlantic Power common shares carrying 10% or more of the votes attached to the issued and outstanding Atlantic Power common shares. See "Information Regarding Atlantic Power Security Ownership of Certain Beneficial Owners and Management" beginning on page 117.

***Executive Compensation***

Disclosure regarding compensation of the directors of Atlantic Power, compensation of the named executive officers of Atlantic Power, the equity compensation plans of Atlantic Power and Atlantic Power's compensation discussion and analysis may be found at pages C-13 to C-30 of Atlantic Power's management information circular filed on SEDAR on May 2, 2011 under the headings "Compensation Discussion and Analysis," "Summary Compensation Table," "Outstanding Share-Based Awards," "Stock Vested," "Equity Compensation Plan Information," "Employment Contracts," "Termination and Change of Control Benefits," "Compensation Risk Assessment" and "Compensation of Directors," which sections are incorporated by reference herein.

***Directors' and Officers' Insurance and Indemnification***

Atlantic Power has obtained a directors' and officers' policy of insurance for directors and officers of the Atlantic Power and its subsidiaries that provides an aggregate limit of liability to the insured directors, officers and corporations of C\$40.0 million.

The articles of Atlantic Power also provide for the indemnification of the directors and officers from and against liability and costs in respect of any action or suit against them in connection with the execution of their duties of office, subject to certain limitations.

***Interest of Informed Persons in Material Transactions***

To the knowledge of the directors of Atlantic Power, other than as disclosed under the heading "The Atlantic Power Special Meeting Directors' and Officers' Insurance and Indemnification," no insider, director or any associate or affiliate of any such persons, had any material interest, direct or indirect, by way of beneficial ownership of securities or otherwise, in any material transaction with Atlantic Power since the commencement of Atlantic Power's last financial period.

The board of directors will review and approve all relationships and transactions in which Atlantic Power and any of its directors and executive officers and their immediate family members, as well as holders of more than 5% of any class of its voting securities and their family members, have a direct or indirect material interest. In approving or rejecting such proposed relationships and transactions, the board shall consider the relevant facts and circumstances available and deemed relevant to this determination. Atlantic Power's Nominating and Governance Committee is responsible under its charter for monitoring compliance with the Code of Business Conduct and Ethics.

Table of Contents

**THE CPILP SPECIAL MEETING**

**Date, Time and Place**

The special meeting of CPILP unitholders will be held at the \_\_\_\_\_, \_\_\_\_\_ on \_\_\_\_\_, the \_\_\_\_\_ day of \_\_\_\_\_, 2011 at the hour of \_\_\_\_\_ a.m. (Edmonton time).

**Purpose of the Special Meeting**

At the CPILP special meeting, CPILP unitholders will be asked:

to consider, and, if thought advisable, to pass, with or without variation, pursuant to the Interim Order of the Court of Queen's Bench of Alberta, the Arrangement Resolution, the full text of which is set forth in Annex G to this management proxy circular and joint proxy statement, to approve an arrangement under section 192 of the CBCA (all as more particularly described in this joint proxy statement); and

to transact such further or other business as may properly come before the CPILP special meeting or any adjournments or postponements thereof.

**Recommendations of the Board of Directors of the General Partner**

At a meeting held on June 19, 2011, after considering, among other things, the oral opinions of CIBC and Greenhill, subsequently confirmed in writing, the full text of which are attached as Annexes D and E, respectively, of this joint proxy statement, the members of the board of directors of the General Partner entitled to vote, being the independent directors of the General Partner, determined unanimously that the Arrangement is in the best interests of CPILP and is fair to the CPILP unitholders and resolved unanimously to recommend to the CPILP unitholders that they vote in favor of the Arrangement. The members of the board of directors of the General Partner entitled to vote also unanimously approved the Arrangement and the execution and performance of the Arrangement Agreement. **Accordingly, the board of directors of the General Partner unanimously recommends that the CPILP unitholders vote "FOR" the approval of the Arrangement Resolution.** For a discussion of the material factors considered by the board of directors of the General Partner in reaching its conclusions, see "The Arrangement Agreement and Plan of Arrangement"; CPILP's Reasons for the Plan of Arrangement"; Recommendations of the Board of Directors of the General Partner beginning on page 77.

CPILP unitholders should carefully read this joint proxy statement in its entirety for more detailed information concerning the Plan of Arrangement and the Arrangement Agreement. In addition, CPILP unitholders are directed to the Arrangement Agreement which is included as Annex A in this joint proxy statement.

**Record Date; Units Entitled to Vote**

Only holders of CPILP units at the close of business on \_\_\_\_\_, 2011, the record date for the CPILP special meeting, will be entitled to notice of, and to vote at, the CPILP special meeting or any adjournments or postponements thereof. On the record date, there were outstanding a total of 56,597,899 CPILP units. Each outstanding CPILP unit is entitled to one vote on each proposal and any other matter properly coming before the CPILP special meeting.

**Unit Ownership by and Voting Rights of Directors and Executive Officers**

As of the close of business on the CPILP record date, CPILP's directors and executive officers and their affiliates beneficially owned and had the right to vote \_\_\_\_\_ CPILP units at the CPILP special meeting, which represents approximately \_\_\_\_\_ % of the CPILP units entitled to vote at the CPILP

Table of Contents

special meeting. It is expected that CPILP's directors and executive officers will vote in favor of all resolutions.

**Quorum**

**A quorum must be present at the CPILP special meeting for any business to be conducted. Pursuant to the limited partnership agreement of CPILP, the quorum for the CPILP special meeting is one or more CPILP unitholders present in person or by proxy representing at least 10% of the outstanding units.**

**Required Vote**

Pursuant to the Interim Order, the number of votes required to pass the Arrangement Resolution shall be not less than 66<sup>2</sup>/<sub>3</sub>% of the votes cast by CPILP unitholders, either in person or by proxy, at the CPILP special meeting. In addition, the Arrangement Resolution must be approved by a simple majority of the votes cast by the CPILP unitholders present in person or by proxy at the CPILP special meeting, after excluding those votes required to be excluded pursuant to the minority approval provisions of MI 61-101, being the votes of "interested parties" and their related parties and joint actors, which include the General Partner and CPI Investments. Notwithstanding the foregoing, the Arrangement Resolution authorizes the board of directors of the General Partner, without further notice to or approval of the CPILP unitholders, subject to the terms of the Plan of Arrangement and the Arrangement Agreement, to amend the Plan of Arrangement or the Arrangement Agreement or to decide not to proceed with the Plan of Arrangement at any time prior to the Plan of Arrangement becoming effective pursuant to the provisions of the CBCA. See "The Arrangement Agreement and Plan of Arrangement Canadian Securities Laws Matters" beginning on page 85.

**Failure to Vote and Broker Non-Votes**

If you are a CPILP unitholder and fail to vote or fail to instruct your broker, investment dealer or other intermediary to vote, it will have no effect on any of the CPILP proposals, assuming a quorum is present.

**Appointment of Proxyholder**

The persons designated by management of the General Partner in the enclosed proxy card are Stuart A. Lee, a director and president of the General Partner, and Anthony Scozzafava, the chief financial officer of the General Partner. **Each CPILP unitholder has the right to appoint as proxyholder a person or company, who need not be a unitholder of CPILP, other than the persons designated by management of the General Partner in the enclosed form of proxy, to attend and act on the unitholder's behalf at the CPILP special meeting or at any adjournment or postponement thereof.** Such right may be exercised by inserting the name of the person or company in the blank space provided in the enclosed proxy card or by completing another proxy card.

**Record Holders**

CDS Clearing and Depository Services Inc. is the only registered holder of CPILP units. All other holders of CPILP units are non-registered holders. See " Units Held in Street Name/Non-Registered CPILP Unitholders" beginning on page 41. If you are a registered holder of CPILP units as of the close of business on the record date for the CPILP special meeting, a proxy card is enclosed for your use. CPILP requests that you vote your shares by telephone or through the Internet, or sign the accompanying proxy card and return it promptly in the enclosed postage-paid envelope. Information and applicable deadlines for voting by telephone or through the Internet are set forth on the enclosed proxy card. When the enclosed proxy card is returned properly executed, the CPILP units represented by it will be voted at the CPILP special meeting or any adjournment or postponement thereof in

Table of Contents

accordance with the instructions contained in the proxy card and if the unitholder specifies a choice with respect to any matter to be acted upon, the CPILP units will be voted accordingly. Your telephone or Internet vote authorizes the named proxies to vote your units in the same manner as if you had marked, signed and returned a proxy card.

**Your vote is important. Accordingly, if you are a registered holder of CPILP units as of the close of business on the record date, please sign and return the enclosed proxy card or vote via telephone or the Internet whether or not you plan to attend the CPILP special meeting in person.**

If a proxy card is signed and returned without an indication as to how the CPILP units represented are to be voted with regard to a particular proposal, the CPILP units represented by the proxy will be voted in accordance with the recommendations of the General Partner's board of directors. At the date hereof, the board of directors of the General Partner has no knowledge of any business that will be presented for consideration at the special meeting and which would be required to be set forth in this joint proxy statement or the related CPILP proxy card other than the matters set forth in CPILP's Notice of Special Meeting of Unitholders. Business transacted at the CPILP special meeting is expected to be limited to those matters set forth in such notice. Nonetheless, if any amendments to matters identified in the accompanying Notice of CPILP Special Meeting of Unitholders or any other matter is properly presented at the CPILP special meeting for consideration, it is intended that the persons named in the enclosed proxy card and acting thereunder will vote in accordance with their best judgment and pursuant to such discretionary authority on such matter.

**Units Held in Street Name/Non-Registered CPILP Unitholders**

The proxy card provided with this joint proxy statement will indicate whether or not you are a registered unitholder. All holders other than CDS Clearing and Depository Services Inc. are non-registered holders. Non-registered unitholders hold their CPILP units through intermediaries, such as banks, trust companies, securities dealers or brokers. If you are a non-registered unitholder, the intermediary holding your CPILP units should provide a voting instruction form which you must complete by using any one of the methods outlined therein. This voting instruction form will constitute voting instructions that the intermediary must follow and should be returned in accordance with the instructions to ensure it is counted for the CPILP special meeting. In order to expedite your vote, you may vote by using a touch-tone telephone or via the Internet, following the instructions outlined on the voting instruction form.

If, as a non-registered unitholder, you wish to attend the CPILP special meeting and vote your units in person, or have another person attend and vote your units on your behalf, you should fill your own name, or the name of your appointee, in the space provided on the voting instruction form. An intermediary's voting instruction form will likely provide corresponding instructions to cast your vote in person. In either case, you should carefully follow the instructions provided by the intermediary and contact the intermediary promptly if you need help.

A non-registered unitholder may revoke a proxy or voting instruction which has been previously given to an intermediary by written notice to the intermediary. In order to ensure that the intermediary acts upon a revocation, the written notice should be received by the intermediary well in advance of the CPILP special meeting.

**Revocability of Proxy; Changing Your Vote**

*If you are a registered holder of CPILP units as of the close of business on the record date for the CPILP special meeting:* You can change your vote at any time before the start of your special meeting, unless otherwise noted. In addition to revocation in any other manner permitted by law, you can do this in one of the following ways:

you can grant a new, valid proxy bearing a later date (including by telephone or Internet);

Table of Contents

you can deposit a signed notice of revocation at CPILP's registered office at any time up to and including the last business day preceding the day of the CPILP special meeting (or any adjournment or postponement thereof) or with the chair of the CPILP special meeting on the day of the CPILP special meeting (or any adjournment or postponement thereof); or

you can attend the special meeting and vote in person, which will automatically cancel any proxy previously given, or you may revoke your proxy in person, but your attendance alone will not revoke any proxy that you have previously given.

If you choose any of the foregoing methods, your notice of revocation or your new proxy must be received by CPILP no later than the beginning of the CPILP special meeting. If you have voted your units by telephone or through the Internet, you may revoke your prior telephone or Internet vote by any manner described above.

*If you hold CPILP units in "street name":* You must contact your broker, investment dealer or other intermediary in writing to change your vote. In order to ensure that the broker, investment dealer or other intermediary acts upon revocation, the written notice should be received by the broker, investment dealer or other intermediary well in advance of your special meeting.

**Solicitation of Proxies**

**The management of the General Partner is soliciting proxies for use at the CPILP special meeting or at any adjournment or postponement thereof.** In accordance with the Arrangement Agreement, the cost of proxy solicitation for the CPILP special meeting will be borne by CPILP. In addition to the use of the mail, proxies may be solicited by directors, officers and other employees of CPILP, without additional remuneration, by personal interview, telephone, facsimile or otherwise. CPILP will also request brokerage firms, nominees, custodians and fiduciaries to forward proxy materials to the beneficial owners of units and will provide customary reimbursement to such firms for the cost of forwarding these materials. CPILP has retained \_\_\_\_\_ to assist in its solicitation of proxies and has agreed to pay them a fee of approximately \_\_\_\_\_, plus reasonable expenses, for these services.

**Principal Unitholders**

CPI Investments, together with its wholly-owned subsidiary CPI Incomes Services Ltd., holds 16,513,504 units representing approximately 29.18% of the issued and outstanding CPILP units. To the knowledge of the directors of the General Partner, there are no other persons that beneficially own or exercise control or direction over CPILP units carrying 10% or more of the votes attached to the issued and outstanding CPILP units.

**Procedures for the Surrender of Unit Certificate and Receipt of Consideration**

*Letter of Transmittal and Election Form*

*General*

Each registered holder of CPILP units is required to validly complete and duly sign a Letter of Transmittal and Election Form and submit such document, together with such holder's CPILP unit certificate(s), if any, to the Depository in order to receive the consideration under the Plan of Arrangement.

The details of the procedures for the deposit of CPILP unit certificates and the delivery by the Depository of Atlantic Power common shares and cash are set out in the Letter of Transmittal and Election Form accompanying this joint proxy statement.

Registered holders of CPILP units who have not received a Letter of Transmittal and Election Form should contact CPILP, Attention: \_\_\_\_\_, at \_\_\_\_\_ or Computershare Investor Services Inc. at \_\_\_\_\_.

Table of Contents

**Only registered holders of CPILP units are required to submit a Letter of Transmittal and Election Form. CDS Clearing and Depository Services Inc. is the only registered holder of CPILP units. All other holders of CPILP units are non-registered holders. If you are a non-registered holder, you should carefully follow any instructions provided to you by your broker, dealer or investment advisor for making an election.** See " Units Registered in the Name of an Intermediary" beginning on page 46. Failure to return the Letter of Transmittal and Election Form and the certificates representing your CPILP units, if any, will result in a delay in you receiving your cash or Atlantic Power common shares under the Plan of Arrangement.

Each registered holder of CPILP units must validly complete, duly sign and return the enclosed Letter of Transmittal and Election Form, together with the certificate(s) representing their CPILP units, if any, to the Depository at one of the offices specified in the Letter of Transmittal and Election Form.

CPILP unitholders who deposit a validly completed and duly signed Letter of Transmittal and Election Form, together with accompanying CPILP unit certificate(s), if any, will be entitled to receive in exchange therefor, and the Depository will deliver as soon as possible to such CPILP unitholder following the Effective Time (i) a cheque for the cash consideration to which such CPILP unitholder is entitled to receive in accordance with the Plan of Arrangement, and (ii) a certificate representing that number of Atlantic Power common shares which such CPILP unitholder has the right to receive under the Plan of Arrangement (together with any dividends or distributions with respect thereto pursuant to the Plan of Arrangement), less any amounts required to be withheld. It is recommended that CPILP unitholders complete and return their Letter of Transmittal and Election Form to the Depository on or before the Election Deadline (as defined below). Once CPILP unitholders surrender their CPILP unit certificates, they will not be entitled to sell the securities to which those certificates relate.

If a CPILP unitholder deposits CPILP units with the Depository prior to the CPILP special meeting and if the Arrangement is approved at the CPILP special meeting (including any adjournment or postponement thereof) then the deposit of the CPILP units is irrevocable unless the Plan of Arrangement is not subsequently completed.

CPILP unitholders who do not forward to the Depository a validly completed and duly signed Letter of Transmittal and Election Form, together with their CPILP unit certificate(s), if any, will not receive the cash and/or Atlantic Power common shares, as applicable, to which they are otherwise entitled until such a deposit is made. Whether or not CPILP unitholders forward their CPILP unit certificate(s) upon the completion of the Plan of Arrangement on the Effective Date, CPILP unitholders will cease to be unitholders of CPILP as of the Effective Date and will only be entitled to receive the cash and/or Atlantic Power common shares to which they are entitled under the Plan of Arrangement.

No commission will be charged to CPILP unitholders who deliver their certificate(s) evidencing CPILP units according to the instructions set out in the Letter of Transmittal and Election Form. It is not possible to determine precisely when the Plan of Arrangement will become effective. If the Final Order is obtained and all conditions set forth in the Arrangement Agreement are satisfied or waived, CPILP or the General Partner will file the Articles of Arrangement giving effect to the Plan of Arrangement as soon as reasonably practicable, such that the Effective Date is expected to be on or about \_\_\_\_\_, 2011.

*How to Make an Election*

Pursuant to the terms of the Arrangement Agreement and the Plan of Arrangement, CPILP unitholders are entitled to receive, at their election, for each CPILP unit held (i) C\$19.40 in cash or (ii) 1.3 Atlantic Power common shares, subject to the Aggregate Cash Maximum (as defined below) and the Aggregate Share Maximum (as defined below), by completing a Letter of Transmittal and Election Form and sending it to the Depository, together with any certificates representing the CPILP

Table of Contents

units in accordance with the instructions provided on the form, at one of the offices specified in the Letter of Transmittal and Election Form.

The Election Deadline to deposit such properly completed Letter of Transmittal and Election Form with the Depository is 5:00 p.m. (Edmonton time) on the date that is three business days prior to the date of the CPILP special meeting. Assuming the CPILP special meeting is held on \_\_\_\_\_, 2011, the Election Deadline will be 5:00 p.m. (Edmonton time) on \_\_\_\_\_, 2011. Each CPILP unitholder's election is subject to the proration provisions described below.

*What Happens if a CPILP unitholder Fails to Make a Valid Election*

Any CPILP unitholder who does not deposit a duly completed Letter of Transmittal and Election Form with the Depository prior to the Election Deadline, or otherwise fails to comply with the requirements of the Plan of Arrangement and the Letter of Transmittal and Election Form with respect to such holder's election to receive Cash Consideration or Share Consideration, shall be deemed to have elected to receive the Share Consideration in respect of all of such holder's CPILP units.

*Proration Provisions*

With respect to the Cash Consideration, the Plan of Arrangement provides that the aggregate amount of cash available to be paid under the Plan of Arrangement is limited to C\$506,513,834 (the "**Aggregate Cash Maximum**"). If the aggregate amount of Cash Consideration that would be paid to CPILP unitholders pursuant to the Plan of Arrangement (the "**Aggregate Cash Elected**"), but for prorationing pursuant to the Plan of Arrangement, exceeds the Aggregate Cash Maximum, then, notwithstanding any election to receive the Cash Consideration, the aggregate amount of cash paid to each CPILP unitholder that made an election to receive the Cash Consideration and to Capital Power LP (if it makes an election to receive Cash Consideration) will be prorated (based on the fraction equal to the Aggregate Cash Maximum divided by the Aggregate Cash Elected) so that the aggregate amount of cash payable to all such CPILP unitholders and Capital Power LP shall be equal to the Aggregate Cash Maximum (the amount of the reduction in cash payable to any CPILP unitholder being the "Cash Reduction" in respect of such holder). In lieu of the amount of cash equal to the Cash Reduction in respect of a CPILP unitholder, each such CPILP unitholder shall receive a number of Atlantic Power common shares equal to the product of (i) the Cash Reduction divided by the Cash Consideration per CPILP unit and (ii) 1.3.

With respect to the Share Consideration, the Plan of Arrangement provides that the aggregate number of Atlantic Power common shares to be issued under the Plan of Arrangement is limited to 31,500,221 shares (the "**Aggregate Share Maximum**"). If the aggregate number of Atlantic Power common shares that would be issued to CPILP unitholders pursuant to the Plan of Arrangement (the "**Aggregate Shares Elected**"), but for prorationing pursuant to the Plan of Arrangement, exceeds the Aggregate Share Maximum, then, notwithstanding any election or deemed election to receive the Share Consideration, the aggregate number of Atlantic Power common shares issued to each CPILP unitholder that made or was deemed to make an election to receive the Share Consideration and to Capital Power LP (if it makes or is deemed to make an election to receive Share Consideration) will be prorated (based on the fraction equal to the Aggregate Share Maximum divided by the Aggregate Shares Elected) so that the aggregate number of Atlantic Power common shares issuable to all such CPILP unitholders and Capital Power LP shall be equal to the Aggregate Share Maximum (the reduction in the number of Atlantic Power common shares payable to any CPILP unitholder being the "Share Reduction" in respect of such holder). In lieu of the number of the Atlantic Power common shares equal to the Share Reduction in respect of a CPILP unitholder, each such CPILP unitholder shall receive an amount of cash equal to the product of (i) the Share Reduction divided by 1.3 and (ii) the Cash Consideration per CPILP unit.

Table of Contents

*Fractional Shares*

In no event shall any holder of CPILP units be entitled to receive a fraction of an Atlantic Power common share in consideration therefore. Where the aggregate number of Atlantic Power common shares to be issued to a holder of CPILP units as consideration under the Plan of Arrangement would result in a fraction of an Atlantic Power common share being issuable, the number of Atlantic Power common shares to be received by such holder shall be rounded down to the nearest whole number of Atlantic Power common shares and no CPILP unitholder will be entitled to any compensation in respect of such fractional Atlantic Power common share.

*Fractional Cash*

Any cash payable to a CPILP unitholder pursuant to the Plan of Arrangement shall be rounded down to the nearest whole cent.

*Method of Delivery*

The method of delivery of certificates representing CPILP units and all other required documents is at the option and risk of the person depositing his or her CPILP units. Any use of the mail to forward certificates representing CPILP units or the related Letter of Transmittal and Election Form is at the election and sole risk of the person depositing CPILP units, and documents so mailed shall be deemed to have been received by CPILP only upon actual receipt by the Depository. If such certificates and other documents are to be mailed, CPILP recommends that insured mail be used with return receipt or acknowledgement of receipt requested.

Cheque(s) representing the cash payable and/or certificate(s) representing the Atlantic Power common shares issuable to a former holder of CPILP units who has complied with the procedures set out above will, as soon as practicable after the Effective Date and after the receipt of all required documents: (i) be forwarded to the former CPILP unitholder at the address specified in the Letter of Transmittal and Election Form by first-class mail; or (ii) be made available at the offices of the Depository, Computershare Investor Services Inc., for pickup by the holder as requested by the holder, in the Letter of Transmittal and Election Form. Under no circumstances will interest accrue or be paid by CPILP, Atlantic Power or the Depository on the consideration for the CPILP units to persons depositing CPILP units with the Depository, regardless of any delay in issuing the applicable cheques and/or Atlantic Power common shares, as applicable, for the CPILP units.

*Destroyed, Lost or Misplaced Unit Certificates*

In the event any certificate which immediately prior to the Effective Time represented one or more outstanding CPILP units has been lost, stolen or destroyed, upon the making of an affidavit of that fact by the holder claiming such certificate to be lost, stolen or destroyed, the Depository will deliver, in exchange for such lost, stolen or destroyed certificate, certificates representing Atlantic Power common shares and/or a cheque for the amount of any cash consideration to which such CPILP unitholder is entitled to receive in accordance with such holder's Letter of Transmittal and Election Form and the Plan of Arrangement, in each case, less any amounts required to be withheld. When authorizing such payment and delivery in exchange for any lost, stolen or destroyed certificate, the Person to whom cheques and/or certificates are to be issued shall, as a condition precedent to the payment and delivery thereof, give a bond satisfactory to Atlantic Power and the Depository in such sum as Atlantic Power and the Depository may direct, or otherwise indemnify CPILP, Atlantic Power and the Depository in a manner satisfactory to Atlantic Power and the Depository, against any claim that may be made with respect to the certificate alleged to have been lost, stolen or destroyed.

Table of Contents

***Units Registered in the Name of Intermediary***

Only registered holders of CPILP units are entitled to make an election as to the type of consideration they will receive under the Plan of Arrangement. CDS Clearing and Depository Services Inc. ("CDS") is the only registered holder of CPILP units. CDS will establish an electronic facility which will allow intermediaries to communicate election instructions they receive from brokers and the holders of CPILP units they represent to CDS who will, in turn, make the election on their behalf as the registered holder of CPILP units. CPILP unitholders who are beneficial holders of CPILP units should contact their investment advisor to determine how their election can be made. CPILP unitholders may also contact \_\_\_\_\_ in the manner set out on the back page of this management proxy circular and joint proxy statement for further information and assistance. If you fail to instruct your broker or investment advisor with respect to your election then, unless your broker or investment advisor has discretionary authority, they will not make an election on your behalf and you will be deemed to have elected Share Consideration in respect of your CPILP units.

***Failure to Deliver Unit Certificates***

Any certificate which immediately prior to the Effective Time represented outstanding CPILP units that is not deposited with the Depository together with all other instruments or documents required by the Plan of Arrangement on or prior to the sixth anniversary of the Effective Date will cease to represent a claim or interest of any kind or nature as a CPILP unitholder or as a shareholder of Atlantic Power. On such date, the cash and Atlantic Power common shares to which the former holder of the certificate referred to in the preceding sentence was ultimately entitled under the Plan of Arrangement will be deemed to have been donated, surrendered and forfeited for no consideration to Atlantic Power. None of Atlantic Power, CPILP, the General Partner, CPI Investments or the Depository shall be liable to any Person in respect of any cash or Atlantic Power common shares (or dividends, distributions and interest in respect thereof) delivered to a public official pursuant to any applicable abandoned property, escheat or similar law.

***Withholding***

A holder of CPILP units will be liable for, and Atlantic Power and the Depository will be entitled to deduct and withhold from any amount paid to such holder, such amounts as each of Atlantic Power or the Depository is required or permitted to deduct and withhold under the Tax Act, the *United States Internal Revenue Code of 1986*, as amended, or any provision of applicable federal, provincial, state, local or foreign tax law with respect to any consideration otherwise payable under the Plan of Arrangement to such holder, and Atlantic Power and the Depository will be entitled to recover from such holder any portion of such amounts that is required to be withheld thereunder and is not otherwise deducted or withheld. To the extent that amounts are so withheld, such withheld amounts shall be treated for all purposes hereof as having been paid to the holder of the CPILP units in respect of which such deduction and withholding was made, provided that such withheld amounts are actually remitted by Atlantic Power or the Depository to the appropriate taxing authority in the name of the relevant holder of CPILP units. To the extent that the amount so required or entitled to be deducted or withheld from any payment to such a holder exceeds the cash portion of the consideration otherwise payable to the holder, Atlantic Power and the Depository are authorized pursuant to the Plan of Arrangement to sell or otherwise dispose of such portion of the Atlantic Power common shares otherwise deliverable to such holder as is necessary to provide sufficient funds to Atlantic Power or the Depository, as the case may be, to enable it to comply with such deduction or withholding requirement or entitlement and Atlantic Power or the Depository will notify the holder thereof and remit to such holder any unapplied balance of the net proceeds of such sale.

Table of Contents

**APPRAISAL/DISSENT RIGHTS**

Appraisal or dissent rights are statutory rights that, if applicable under law, enable shareholders or unitholders, as applicable, to dissent from an extraordinary transaction, such as the Plan of Arrangement, and to demand that the corporation or other entity pay the fair value for their shares or units, as applicable, as determined by a court in a judicial proceeding instead of receiving the consideration offered to holders in connection with the extraordinary transaction. Appraisal or dissent rights are not available in all circumstances.

**Atlantic Power**

The holders of Atlantic Power common shares are not entitled to dissent rights in connection with the Share Issuance Resolution.

**CPILP**

The unitholders of CPILP are not entitled to dissent rights in connection with the Arrangement Resolution.

Table of Contents

**THE ARRANGEMENT AGREEMENT AND PLAN OF ARRANGEMENT**

**Effects of the Plan of Arrangement**

In order to effect the combination of Atlantic Power and CPILP, Atlantic Power will acquire, directly and indirectly, all of the outstanding CPILP units for C\$19.40 per unit in cash or 1.3 Atlantic Power common shares per unit, all subject to proration.

Under the terms of the Plan of Arrangement, CPILP unitholders will be entitled to elect to receive either C\$19.40 in cash or 1.3 Atlantic Power common shares for each CPILP unit held. All cash elections will be subject to proration if total cash elections exceed approximately C\$506.5 million and all share elections will be subject to proration if total share elections exceed approximately 31.5 million Atlantic Power common shares. As part of the Plan of Arrangement, Atlantic Power will acquire all of the outstanding shares of CPI Investments, the direct and indirect holder of 16,513,504 CPILP units, on effectively the same basis as the acquisition of CPILP units under the Plan of Arrangement. Atlantic Power shareholders will continue to hold their existing Atlantic Power common shares after the Plan of Arrangement. Based on the number of Atlantic Power common shares outstanding immediately prior to the Effective Date and excluding any common shares of Atlantic Power that may be issued to finance the cash portion of the purchase price under the Plan of Arrangement, Atlantic Power estimates that upon completion of the Plan of Arrangement current Atlantic Power shareholders will own approximately 70% of the Combined Company and former CPILP unitholders will own approximately 30% of the Combined Company, in each case on a fully-diluted basis.

Under the Plan of Arrangement, Atlantic Power will indirectly acquire the 16,513,504 CPILP units held by CPI Investments and the General Partner through the acquisition of all of the outstanding shares of CPI Investments from Capital Power L.P. and EPCOR.

Pursuant to the Plan of Arrangement, all of the shares of CPI Investments held by EPCOR will be transferred to Atlantic Power in exchange for C\$1.00 in cash and all of the shares of CPI Investments held by Capital Power L.P. will be transferred to Atlantic Power in exchange for aggregate consideration comprised of (i) a non-interest bearing promissory note (the "**Purchaser Note**") to be issued by Atlantic Power in favor of Capital Power L.P. in the principal amount of C\$121,405,211, and (ii) either (A) the Cash Consideration or (B) the Share Consideration, as elected or deemed to be elected by Capital Power L.P. Atlantic Power will subsequently, as part of the Plan of Arrangement, pay C\$121,405,211 to Capital Power L.P. in satisfaction in full of the Purchaser Note.

If Capital Power L.P. elects to receive Cash Consideration, then, in addition to the C\$121,405,211 payable in satisfaction of the Purchaser Note, it shall receive cash equal to (i) the product of (A) the Cash Consideration per CPILP unit and (B) the number of CPILP units held by CPI Investments and the General Partner, (ii) less the principal amount of the Purchaser Note, subject to proration as described under "The CPILP Special Meeting Procedures for the Surrender of Unit Certificate and Receipt of Consideration Letter of Transmittal and Election Form Proration Provisions" beginning on page 44.

If Capital Power L.P. elects to receive Share Consideration, then, in addition to the C\$121,405,211 payable in satisfaction of the Purchaser Note, it shall receive that number of Atlantic Power common shares equal to (i) the product of (A) 1.3 and (B) the number of CPILP units held by CPI Investments and the General Partner, (ii) less the product of (A) the principal amount of the Purchaser Note divided by the Cash Consideration per CPILP unit and (B) 1.3, subject to proration as described under "The CPILP Special Meeting Procedures for the Surrender of Unit Certificate and Receipt of Consideration Letter of Transmittal and Election Form Proration Provisions" beginning on page 44.

**Background of the Plan of Arrangement**

The provisions of the Arrangement Agreement are the result of negotiations conducted between representatives of CPILP, the General Partner, the Manager and Atlantic Power and their respective

Table of Contents

financial and legal advisors. The following is a summary of the principal events leading up to the settlement of the Arrangement Agreement and related transaction documents and the meetings, negotiations, discussions and actions between the parties that preceded the public announcement of the execution of the Arrangement Agreement.

At CPILP's annual strategic review meeting on June 7, 2010, the Manager delivered a presentation to the board of directors of the General Partner which questioned the status quo relationship between the Manager and CPILP, whereby the Manager (being two subsidiaries of Capital Power) was engaged by the General Partner to perform all of the management, employment and administrative services for CPILP and to operate and maintain all of CPILP's facilities pursuant to various management and operating agreements. Specifically, the Manager advised the board of directors of the General Partner that Capital Power was considering divesting itself of all of its CPILP interests in order to focus on its own core business. In this context, the Manager shared with the board of directors of the General Partner its preliminary analysis of strategic alternatives for CPILP, ultimately focusing on three: (i) internalization of management; (ii) merger with or sale to a third party; or (iii) purchase of CPILP by Capital Power. The Manager communicated Capital Power's commitment to continue managing CPILP to the best of its abilities and in accordance with the terms in the Management Agreements until the relationship was modified. The Manager also indicated that Capital Power would not be interested in acquiring CPILP.

Following this, the board of directors of the General Partner resolved to form the Special Committee comprised of members of the board who are considered to be independent and not related to the Manager or Capital Power, being Messrs. Francois Poirier (Chair), Brian Felesky, Allen Hagerman and Rod Wimer. The Special Committee's purpose was, among other things, to review and consider potential alternatives for the restructuring of the relationship between the Manager and CPILP and, if and when appropriate, to review and negotiate the terms and conditions of any transaction involving CPILP which may result.

Following the board meeting, the Special Committee met to discuss the Manager's preliminary analysis of alternatives. The Special Committee retained Greenhill as its independent financial advisor and McCarthy Tétrauld LLP as its independent legal advisor. The Special Committee also retained Roades Advisors LLC ("**Roades**") to provide additional independent business and financial due diligence support. Between June 8, 2010 and June 18, 2011 (being the last meeting prior to the public announcement of the signing of the Arrangement Agreement), the Special Committee in executing its mandate would meet more than 30 times, most often with its financial advisors and legal counsel present at such meetings.

Throughout the summer of 2010, the Special Committee worked with its advisors to analyze a broad spectrum of strategic alternatives available to CPILP. The Special Committee directed its advisors to work with the Manager to analyze all reasonably viable alternatives including, but not limited to, the sale of CPILP to a third party, roll-up into Capital Power, a change in its distribution policy, one or more asset sales and/or the internalization of management.

On June 28, 2010, Greenhill and Roades met with the Manager to discuss their respective views on strategic alternatives. At this meeting, Capital Power reiterated that it did not feel that the status quo was the best option for CPILP or Capital Power.

On July 6, 2010, Greenhill made an initial presentation to the Special Committee. Greenhill noted that Capital Power's desire to terminate its relationship with CPILP raised a number of issues that needed to be carefully analyzed for each alternative to be considered. The Special Committee instructed Greenhill to carry out all analyses or preparatory work that it considered reasonably useful or necessary in connection with each potential alternative.

On August 9, 2010, Greenhill delivered its preliminary evaluation of strategic alternatives to the Special Committee. One alternative that Capital Power proposed involved the exchange of certain of

Table of Contents

CPILP's assets for Capital Power's partnership units. At the Special Committee's request, Greenhill examined a variety of asset swap scenarios. Based partially on Greenhill's examination, the Special Committee came to the preliminary conclusion that this alternative was unlikely to be in the best interests of CPILP and would, among other things, have a negative impact on CPILP's distribution sustainability. The other alternatives considered by Greenhill included maintaining the status quo and the internalization of management. With respect to this latter alternative, it was determined that, based on its preliminary analysis, the prospect of identifying and recruiting a credible management team would be time-consuming, may not ultimately be successful and would create uncertainty for CPILP in the meantime.

Over the next two months, the Special Committee and its advisors continued to conduct financial and legal analysis on various strategic alternatives. During this same period, the Special Committee and Capital Power met periodically to discuss the status of the Special Committee's strategic review process. On August 16, 2010, Messrs. Poirier and Hagerman met with Messrs. Vaasjo and Lee from Capital Power to discuss the Special Committee's preliminary view that pursuing a sale or merger transaction would be in CPILP's best interest. These same parties, and their respective financial advisors, met again on numerous occasions throughout September 2010 to discuss the most effective strategies to seek a successful sale or merger for CPILP. The parties worked collaboratively to align their interests on a number of issues in the event of a change of control transaction, including with respect to the treatment of the Management Agreements and CPILP's "right of first look" with respect to acquisition and disposition opportunities presented to it by Capital Power.

On August 20, 2010, Standard and Poor's published a credit ratings report which indicated that it had downgraded CPILP from BBB+ (outlook negative) to BBB (outlook stable). The reduced rating reflected, among other things, Standard and Poor's view that CPILP's financial risk profile had weakened as a result of debt-financed growth and the expectation that improvement in the medium term was unlikely as CPILP continued to execute its growth plan.

On October 1, 2010, the board of directors of the General Partner resolved to establish a strategic review sub-committee comprised of Messrs. Lee and Poirier. The strategic review sub-committee was to act in an administrative capacity only to investigate all available strategic alternatives in the best interests of CPILP. Notwithstanding the creation of the strategic review sub-committee, all material business and commercial decisions including, for example, the approval of a sale process, recommendation or rejection of any third party offer and any final unitholder recommendation, would be made by the Special Committee and the board of directors of the General Partner.

On October 5, 2010, CPILP and Capital Power issued a joint press release announcing that CPILP would initiate a process to review its strategic alternatives. The board of directors of the General Partner retained Greenhill and CIBC as co-financial advisors, and Roades Advisors LLC for due diligence support. McCarthy Tétrault LLP continued to act as legal advisors to CPILP, with Fraser Milner Casgrain LLP (Canadian counsel) and K&L Gates LLP (US counsel) acting for the General Partner and the Manager.

Under the direction of the board of directors of the General Partner, the strategic review sub-committee instructed its financial advisors to solicit indications of interest to acquire CPILP from a broad range of potential financial and strategic purchasers. With the assistance of the Manager and its advisors, CPILP and its advisors prepared a confidential information memorandum describing CPILP and its business. Greenhill and CIBC identified a list of over 60 prospective purchasers. These prospective purchasers were contacted by Greenhill and CIBC during the months of October and November 2010.

Of those prospective purchasers contacted, 27 of them executed confidentiality agreements and received a confidential information memorandum and were invited to submit preliminary indicative offers. On or before November 30, 2010, nine parties, including Atlantic Power, had submitted

Table of Contents

indicative offers to acquire all of CPILP or a selection of its assets. Of these nine parties, three were invited to proceed to a further round of enhanced due diligence access.

In order to facilitate their diligence review of CPILP and encourage the submission of more formal proposals, these three prospective purchasers were provided with access to an electronic data room containing detailed information regarding CPILP, and were also given access to certain of the Manager's personnel. Throughout this period, the strategic review sub-committee provided regular oversight and direction to CPILP's financial advisors. Informally, Mr. Poirier communicated regularly with the other members of the Special Committee to keep them informed about the status of the sales process.

At meetings of the independent directors' committee (the same directors that make up the Special Committee) on both December 17 and December 30, 2010, Mr. Poirier provided a status update on the steps undertaken to date in the sale process.

On January 17, 2011, the Special Committee met to discuss the uncertainty and timing issues surrounding the pending decision from the North Carolina Utilities Commission ("NCUC") pertaining to the Roxboro and Southport facilities in North Carolina (the "**North Carolina facilities**"), and its impact upon the sale process. At this meeting, Mr. Poirier and Greenhill also provided a further status update on the steps undertaken to date in the sale process.

On January 27, 2011, CPILP issued a press release announcing the issuance of an Order of Arbitration by the NCUC relating to the PPAs for CPILP's North Carolina facilities with Progress Energy Inc. In the months following the release of the Order, CPILP and Progress Energy Inc. negotiated the PPAs within the scope provided in the NCUC ruling. By the middle of March 2011, CPILP and Progress Energy Inc. concluded an interim contract setting out the material terms upon which the PPAs would ultimately be based. In the meantime, the remaining interested parties were asked to submit alternative offers for CPILP, one of which included the North Carolina facilities and another which excluded those assets.

On March 14, 2011, following their due diligence review period, two of the three parties, including Atlantic Power, submitted offers which included their respective comments on a draft form of the Arrangement Agreement. The strategic review sub-committee and its financial advisors reviewed each offer. At the request and direction of the strategic review sub-committee, Greenhill and CIBC continued discussions with both prospective purchasers regarding, among other things, offer price and the prospective purchasers' sources of financing. As a result of such discussions, Atlantic Power submitted a subsequent proposal on April 14, 2011, which proposal was further amended and submitted on April 26, 2011. The other prospective purchaser elected not to amend its March 14, 2011 proposal.

Neither prospective purchaser had a strategic interest in acquiring the North Carolina facilities and, at the time, there remained uncertainty surrounding the negotiations and finalized terms of the PPAs for these facilities. Accordingly, the formal offers from both of these prospective purchasers either excluded or attributed less than fair value to these assets. CPILP proposed that Capital Power should enter into negotiations with CPILP to acquire these assets as a way to facilitate the sale process. On May 2, 2011, the Special Committee met to discuss the terms upon which CPILP would be willing to negotiate the sale of the North Carolina assets to Capital Power.

At this time, the strategic review sub-committee instructed the financial advisors to seek from Atlantic Power an enhancement to its April 26, 2011 offer (excluding the North Carolina facilities). On May 5, 2011, Atlantic Power submitted a further amended proposal outlining the terms upon which it would acquire CPILP (excluding the North Carolina facilities). Atlantic Power requested that CPILP commit to exclusive negotiations with Atlantic Power for a 21 day period. After consideration of the merits of acceding to this request, CPILP, the Manager and CPI Investments entered an Exclusivity Agreement dated May 9, 2011 with Atlantic Power.

Table of Contents

On May 6, 2011, the strategic review sub-committee and its financial and legal advisors met with Atlantic Power and its financial and legal advisors in Toronto. At this meeting, the parties discussed, among other things, the Exclusivity Agreement, Atlantic Power's proposed plan to finance the acquisition of CPILP and the overall transaction structure and timing.

In order to facilitate CPILP's due diligence review of Atlantic Power, CPILP, the Manager and Capital Power entered into a confidentiality agreement dated May 6, 2011 with Atlantic Power. On May 11, 2011, the Special Committee met with its advisors to receive an update on the due diligence performed to date on Atlantic Power. Financial due diligence on Atlantic Power was performed by the Manager and the financial advisors, with support from Roades Advisors LLC. Legal due diligence on Atlantic Power was performed on behalf of the General Partner by the Manager's counsel, Fraser Milner Casgrain LLP and K&L Gates LLP, with oversight and support from CPILP's counsel, Ogilvy Renault LLP and Richard A. Shaw Professional Corporation (CPILP's new counsel). The Special Committee discussed the appropriateness of the Manager and its advisors conducting due diligence on behalf of CPILP. At this same meeting, the Special Committee also discussed the progress of negotiations with Capital Power to acquire CPILP's North Carolina facilities.

Over the ensuing weeks, both CPILP and Atlantic Power and their respective advisors conducted detailed due diligence reviews of the other's business, financial models and legal structures and commitments. A number of meetings took place between CPILP and its advisors and representatives of Atlantic Power and its advisors, during which information regarding each entity and its business and operations was shared, and the proposed terms of a transaction between the parties were discussed. During this same period, the Manager, on behalf of the General Partner, and CPILP and their legal advisors, Fraser Milner Casgrain LLP and Ogilvy Renault LLP, respectively, continued to negotiate the terms of the Plan of Arrangement and the Arrangement Agreement with Atlantic Power and its legal counsel, Goodmans LLP.

On May 20, 2011, Greenhill and CIBC provided the Special Committee with a process and due diligence update. There was also a thorough discussion about financial analyses of both CPILP and Atlantic Power, particularly in the context of Atlantic Power's offer which included a mixture of cash and equity. The financial advisors were instructed to refine their analysis in this regard, as more information about Atlantic Power became available through the due diligence process.

On May 26, 2011, the strategic review sub-committee and its financial and legal advisors met in Toronto with Atlantic Power and its financial and legal advisors to further negotiate the terms and timing of a potential transaction.

On May 30, 2011, the board of directors of the General Partner met to receive an updated report from Greenhill and CIBC with respect to negotiations to date with Atlantic Power. At that meeting, it was resolved to extend the exclusivity period for discussions with Atlantic Power. Accordingly, effective May 30, 2011, CPILP, the Manager and CPI Investments agreed to extend the Exclusivity Agreement for a further 14 days, to expire on June 13, 2011. In the following two weeks, representatives of Atlantic Power and its outside financial and legal advisors and other consultants, and representatives of CPILP and its outside financial and legal advisors and other consultants, continued their respective due diligence investigations, including in relation to CPILP's pension liabilities, financial, legal, environmental and operational matters and potential synergies.

On June 2, 2011, the Special Committee asked its legal advisors to review the legal duties and standards for directors to follow in the context of the Arrangement. There was a discussion about various governance issues, including further discussions of the appropriateness of CPILP relying upon the due diligence performed by the Manager and its advisors.

On June 3, 2011, Atlantic Power's senior management made a presentation to the board of directors of the General Partner in Calgary regarding Atlantic Power and its view of the anticipated strategic, financial and operational characteristics of the Combined Company. At this same meeting,

Table of Contents

Atlantic Power alerted CPILP to the prospect of a credit rating for the Combined Company that may be lower than that of CPILP. The parties also made progress in their discussions regarding the contractual and other business terms of a transaction. These discussions included the scope of the support agreements to be provided by each of Capital Power LP and EPCOR, the prospect that Capital Power would agree to a lock-up of any Atlantic Power shares it received as a result of the Plan of Arrangement, the terms of Atlantic Power's bridge financing commitment and a number of other terms that affected transaction certainty.

During a meeting on June 10, 2011, Atlantic Power informed CPILP that it intended to lower its offer price for CPILP based on its due diligence findings. The strategic review sub-committee met with its financial and legal advisors to discuss the implications of this information, in addition to the prospect of a credit ratings downgrade in the Combined Company.

On June 11, 2011, the Special Committee met with its legal advisors to review the status of negotiations with Atlantic Power. At this meeting, there was considerable discussion about the terms upon which CPILP would sell the North Carolina facilities to Capital Power, and the impact of that disposition upon a transaction with Atlantic Power for the remainder of CPILP. There was also a significant discussion about Atlantic Power's proposed reduction to the purchase price.

On June 15, 2011, the strategic review sub-committee and its financial and legal advisors met in Toronto with Atlantic Power and its financial and legal advisors to further negotiate the terms of a potential transaction. At this meeting, a broad list of issues were discussed including each parties' outstanding due diligence items, allocation of severance and pension deficit obligations, the scope of transitional services that would be required and the status of the legal documentation needed to consummate the Plan of Arrangement and the related transactions. Atlantic Power also provided the strategic review sub-committee and its advisors with the initial draft commitment letters in connection to the proposed bridge financing in support of the Plan of Arrangement. At the meeting, the terms and conditions of these commitment letters were reviewed in detail. There was also considerable discussion around Capital Power's acquisition of the North Carolina facilities, as well as Atlantic Power's request for a lock-up agreement from Capital Power to the extent that it received Atlantic Power common shares as consideration for its units. Over the course of the meeting, the parties and their respective advisors developed tentative agreement on each of the outstanding issues and were ultimately able to settle upon an indicative price by which Atlantic Power would be willing to acquire all of the CPILP units.

On June 16, 2011, the board of directors of the General Partner met with their financial and legal advisors to receive an update on the transaction with Atlantic Power, as well as to discuss the preliminary version of the due diligence report prepared by the Manager and its advisors. The meeting also discussed Atlantic Power's proposed bridge financing commitment, involving up to C\$400 million to be drawn by CPILP, and its potential impact upon the credit profile and exposure of CPILP's existing debt instruments. In particular, the board of directors of the General Partner were particularly concerned about how the proposed bridge financing might impact the ability of CPILP and CPI Preferred Equity Ltd. to meet their respective payment obligations. In this regard, it was determined that Atlantic Power would be asked to provide parental guarantees to the payment obligations for the public debtholders at CPILP (medium term notes) in the event the portion of the bridge financing to be drawn by CPILP was drawn, and CPI Preferred Equity Ltd. (preferred shares). At this board meeting, representatives of Greenhill and CIBC reviewed with the board their financial analyses with respect to Atlantic Power and the proposed Arrangement. Each of Greenhill and CIBC also rendered oral versions of their respective opinions to the Special Committee with respect to the fairness, from a financial point of view, to the holders of CPILP units (other than the General Partner, CPI Investments and Atlantic Power in respect of the Greenhill opinion and other than Capital Power and its affiliates in respect of the CIBC opinion) of the consideration to be received by such holders pursuant to the Arrangement Agreement. Finally, the board discussed a likely timetable for the completion of the remaining items in relation to the execution of the Arrangement Agreement and related materials.

Table of Contents

On June 18, 2011, the Special Committee met with its financial and legal advisors, as well as the Manager's legal advisor, to review the status of the key transaction documents including the Arrangement Agreement and the support agreements. At the meeting, the Special Committee's legal advisors reviewed the legal duties imposed upon the directors in the circumstances, and Greenhill and CIBC made presentations with respect to their respective fairness opinions and supporting analyses. The Special Committee spent a considerable amount of this meeting reviewing with its advisors the impact of the Plan of Arrangement upon CPILP's stakeholders including, but not limited to, the unitholders, public debtholders, preferred shareholders and creditors and employees.

On June 19, 2011, the board of directors of the General Partner met to consider the terms of the Arrangement Agreement, at which meeting representatives of CPILP's and the Manager's financial and legal advisors were present. At this meeting, Fraser Milner Casgrain LLP reviewed the key elements of the transaction documents, with a focus on the deal protection provisions in each such document. After the meeting, the Special Committee went *in camera* with its financial and legal advisors.

During its *in camera* session, at the request of the Special Committee, Greenhill and CIBC each confirmed that nothing had occurred that would alter either of its financial analysis that was presented on June 16, 2011. Greenhill and CIBC also confirmed that they would deliver their respective written fairness opinions as of this date. Representatives of Norton Rose OR LLP (successor of Ogilvy Renault LLP) and Richard A. Shaw Professional Corporation reviewed for the Special Committee the terms of the Arrangement Agreement and the conduct of the negotiations to that point in time. Members of the Special Committee, with the assistance of their legal and financial advisors, reviewed and discussed the terms of the Arrangement Agreement and the process for completing the transaction. After a thorough review and discussion, the Special Committee resolved unanimously to recommend that the board of directors of the General Partner approve the Arrangement Agreement and the Plan of Arrangement, authorize CPILP to enter into the Arrangement Agreement and recommend that unitholders vote in favor of the Plan of Arrangement.

Following the conclusion of the Special Committee's *in camera* session, the board of directors of the General Partner reassembled to receive the report of the Special Committee. The Special Committee reported that Greenhill and CIBC reviewed and discussed its financial analyses with respect to Atlantic Power and the proposed Plan of Arrangement and rendered their respective opinions to the Special Committee with respect to the fairness, from a financial point of view, to the holders of CPILP units (other than Capital Power, CPI Investments and Atlantic Power), of the consideration to be received by such holders pursuant to the Arrangement Agreement. The Special Committee further reported that it had reviewed the definitive agreements with counsel and, following its review and deliberations, was recommending that the board of directors of the General Partner approve and authorize CPILP to enter into the Arrangement Agreement and recommend to unitholders that they vote in favor of the transaction at a special unitholders meeting to be convened. At this point, the CPC-elect directors recused themselves and left the board meeting. After a further discussion, and consideration of the advice received from its financial and legal advisors, the board of directors of the General Partner resolved (with Messrs. Vaasjo, Lee, Oosterbaan and Brown abstaining) to approve the Plan of Arrangement and to recommend to unitholders that they vote in favor of the Plan of Arrangement.

Later that day and into the following morning, the Arrangement Agreement, the support agreements, the Management Agreement Termination Agreement, the Management Agreement Assignment Agreement, Membership Interest Purchase Agreement with respect to the North Carolina facilities, the Employee Hiring Agreement and the Pension Transfer Agreement were finalized and executed by the appropriate parties.

Prior to the opening of the North American financial markets on June 20, 2011, Atlantic Power and CPILP issued a joint press release announcing the execution of the Arrangement Agreement and related aspects of the Plan of Arrangement.

Table of Contents

**Atlantic Power's Reasons for the Arrangement Agreement; Recommendations of Atlantic Power's Board of Directors**

At a meeting held on June 19, 2011, Atlantic Power's board of directors, unanimously determined that the Arrangement and the other transactions contemplated by the Arrangement Agreement, including the issuance of Atlantic Power common shares to CPILP unitholders necessary to complete the Arrangement, are in the best interests of Atlantic Power and is fair to its stakeholders. **Accordingly, the Atlantic Power board of directors unanimously recommends that the Atlantic Power shareholders vote "FOR" the Share Issuance Resolution.** In reaching these determinations, the Atlantic Power board of directors consulted with Atlantic Power's management and its legal, financial and other advisors, and also considered numerous factors, including the following factors which the Atlantic Power board of directors viewed as supporting its decisions:

*Strategic Benefits of the Plan of Arrangement.* The Atlantic Power board of directors believes that the combination of Atlantic Power and CPILP should result in significant strategic benefits to the Combined Company, which benefits would accrue to Atlantic Power's shareholders, as shareholders of the Combined Company, and to the Combined Company. These strategic benefits include the following:

Atlantic Power will become a leading publicly-traded power generation and infrastructure company, with a larger and more diversified portfolio of contracted power generation assets in the United States and Canada;

combines Atlantic Power's proven management team with CPILP's highly qualified operations, maintenance, commercial management, accounting, human resources, legal and other personnel;

Atlantic Power's market capitalization and enterprise value are expected to nearly double, which is expected to add liquidity and enhance access to capital to fuel the long term growth of Atlantic Power's asset base throughout North America;

expands and diversifies Atlantic Power's asset portfolio to include projects in Canada and regions of the United States where Atlantic Power does not currently have a presence;

enhanced geographic diversification is anticipated to lead to additional growth opportunities in those regions that Atlantic Power did not previously operate; and

enhances diversification of the fuel types used by Atlantic Power's projects to include additional hydro, biomass and natural gas.

*Financial Benefits of the Plan of Arrangement.* The Atlantic Power board of directors believes that the combination of Atlantic Power and CPILP should result in significant financial benefits to Atlantic Power's shareholders and the Combined Company. These financial benefits include the following:

upon completion of the Plan of Arrangement, Atlantic Power intends to increase dividends by 5%, from C\$1.094 to C\$1.15 per share on an annual basis;

strengthens Atlantic Power's dividend sustainability for the foreseeable future with immediate accretion to cash available for distribution;

significant improvement in Atlantic Power's dividend payout ratio starting in 2012;

extends Atlantic Power's average PPA term from 8.8 to 9.1 years and enhances the credit quality of Atlantic Power's power offtakers; and

the combined companies will benefit from cost savings attributable to synergies from combining the two entities and eliminating the public company reporting costs for CPILP.

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

*Other Factors Considered.* During the course of its deliberations relating to the Arrangement Agreement and Plan of Arrangement, Atlantic Power's board of directors considered the following factors in addition to the benefits described above:

its knowledge of Atlantic Power's business, operations, financial condition, earnings, strategy and future prospects and its knowledge of CPILP's business, operations, financial condition, earnings, strategy and future prospects, taking into account, among many factors, Atlantic Power's and CPILP's internal financial forecasts for the 2011 to 2015 fiscal years and the results of Atlantic Power's due diligence review of CPILP;

Atlantic Power's management team's ability to integrate the labor force and the operations of Atlantic Power and CPILP;

the opinion of TD Securities dated June 19, 2011 and the opinion of Morgan Stanley dated June 19, 2011, to the Atlantic Power board of directors to the effect that, as of that date and based on and subject to the various limitations, qualifications and assumptions described in the opinions, included with this joint proxy statement as Annexes B and C, the consideration to be paid by Atlantic Power to CPILP unitholders pursuant to the Arrangement Agreement was fair, from a financial point of view, to Atlantic Power (as more fully described below under the caption " Opinions of Atlantic Power's Financial Advisors");

its view of the possible prospects of the Combined Company in light of industry and economic trends, as well as Atlantic Power-specific factors;

the current and prospective competitive climate in the industry in which Atlantic Power and CPILP operate, including the potential for further consolidation;

the terms and conditions of the Arrangement Agreement, including the commitments by both Atlantic Power and CPILP to complete the Plan of Arrangement, and the likelihood of completing the Plan of Arrangement and the fees and expenses that may be payable if the Plan of Arrangement is not completed;

the likelihood that Atlantic Power would be able to obtain the necessary financing given the financing commitments from the commitment parties, and the fact that Atlantic Power would only be required to pay a break-up fee and would not be required to complete the transaction in the event that the financing contemplated by the Arrangement Agreement is not consummated;

the impact and fairness of the Plan of Arrangement on all stakeholders in Atlantic Power, including holders of Atlantic Power common shares;

the regulatory and other approvals and consents required to complete the Plan of Arrangement;

the results of due diligence investigations of CPILP by Atlantic Power's management and financial, legal and other advisors; and

the fact that the shareholders or unitholders of Atlantic Power and CPILP, respectively, would vote on approval of the transaction and the likelihood of obtaining such approvals.

The Atlantic Power board of directors weighed these factors against a number of uncertainties, risks and potentially negative factors relevant to the Plan of Arrangement, including:

the challenges inherent in the combination of two entities of the size, geographic diversity and complexity of Atlantic Power and CPILP, including the possible diversion of management attention for an extended period of time;

the restrictions on the conduct of Atlantic Power's business during the period between execution of the Arrangement Agreement and the consummation of the Plan of Arrangement;

Table of Contents

the risk of not being able to realize all of the anticipated cost savings and operational synergies between Atlantic Power and CPILP and the risk that other anticipated benefits to the Combined Company might not be realized;

the risk that, despite the combined efforts of Atlantic Power and CPILP prior to the consummation of the Plan of Arrangement, the Combined Company may lose key personnel or that certain employees do not transfer as contemplated by the employee transfer arrangement;

the costs associated with completion of the Plan of Arrangement and the realization of the benefits expected to be obtained in connection with the Plan of Arrangement, including transaction expenses arising from the Plan of Arrangement;

the risk that regulatory agencies may not approve the Plan of Arrangement or may impose terms and conditions on their approvals that adversely affect the business and financial results of the Combined Company (see "Regulatory Approvals Required for the Plan of Arrangement and Other Regulatory Matters" on page 88;

the risk that the Plan of Arrangement may not be completed despite the parties' efforts or that completion may be unduly delayed, even if the requisite approval is obtained from Atlantic Power's shareholders and CPILP's unitholders;

the increased leverage of the Combined Company which will result in high interest payments and could negatively affect the Combined Company's credit ratings, limit access to credit markets or make such access more expensive and reduce operational and strategic flexibility; and

the risks of the type and nature described under the section entitled "Risk Factors," beginning on page 22 and the matters described under "Cautionary Note Regarding Forward-Looking Statements" beginning on page 30.

Atlantic Power's board of directors concluded that the uncertainties, risks and potentially negative factors relevant to the Plan of Arrangement were outweighed by the potential benefits that it expected Atlantic Power would achieve as a result of the Plan of Arrangement.

This discussion of the information and factors considered by Atlantic Power's board of directors includes the principal positive and negative factors considered by the Atlantic Power board of directors, but is not intended to be exhaustive and may not include all of the factors considered by the Atlantic Power board of directors. In view of the wide variety of factors considered in connection with its evaluation of the Plan of Arrangement and the other transactions contemplated in connection with the Plan of Arrangement, and the complexity of these matters, Atlantic Power's board of directors did not find it useful and did not attempt to quantify or assign any relative or specific weights to the various factors that it considered in reaching its determination to approve the Plan of Arrangement and the other transactions contemplated in connection with the Plan of Arrangement and to make its recommendations to Atlantic Power shareholders. Rather, Atlantic Power's board of directors viewed its decisions as being based on the totality of the information presented to it and the factors it considered. In addition, individual members of Atlantic Power's board of directors may have given differing weights to different factors. It should be noted that this explanation of the reasoning of the Atlantic Power board of directors and certain information presented in this section is forward-looking in nature and, therefore, that information should be read in light of the factors discussed in the section entitled "Cautionary Note Regarding Forward-Looking Statements" in this joint proxy statement, beginning on page 30.

Table of Contents

**Opinions of Atlantic Power's Financial Advisors**

*Opinion of TD Securities Inc.*

On June 19, 2011, TD Securities rendered to Atlantic Power's board of directors its opinion that on such date and based upon and subject to the limitations, qualifications and assumptions set forth in the written opinion, the Consideration to be paid by Atlantic Power in connection with the transaction contemplated by the Arrangement Agreement (the "**Proposed Transaction**") was fair, from a financial point of view, to Atlantic Power (the "**TD Securities Fairness Opinion**").

**The full text of the written fairness opinion of TD Securities, dated June 19, 2011, is attached to this joint proxy statement as Annex B. The opinion sets forth, among other things, the assumptions made, procedures followed, matters considered and qualifications and limitations on the scope of the review undertaken by TD Securities in rendering its opinion. You should read the entire opinion carefully and in its entirety. TD Securities Inc.'s opinion is directed to Atlantic Power's board of directors and addresses only the fairness from a financial point of view of the Consideration to be paid by Atlantic Power in connection with the Proposed Transaction as at the date of the opinion. It does not address any other aspect of the Proposed Transaction and does not constitute a recommendation to the shareholders of Atlantic Power or unitholders of CPILP as to how to vote with respect to the Plan of Arrangement or any other matter. In addition, the opinion does not in any manner address the prices at which Atlantic Power common shares will trade following the consummation of the Plan of Arrangement. The summary of the opinion of TD Securities set forth in this joint proxy statement is qualified in its entirety by reference to the full text of the opinion.**

In connection with the TD Securities Fairness Opinion, TD Securities reviewed (where applicable) and relied upon (without attempting to verify independently the completeness, accuracy, or fair presentation of) or carried out, among other things, the following:

A draft of the Arrangement Agreement dated June 17, 2011;

Annual reports (or equivalent Form 10-K) of Atlantic Power and CPILP, including the audited financial statements and management's discussion and analysis contained therein, for the three years ended December 31, 2008, 2009 and 2010;

Quarterly interim reports (or equivalent Form 10-Q) of Atlantic Power and CPILP including the unaudited financial statements and management's discussion and analysis contained therein, for each of the quarterly periods in 2008, 2009, 2010 and 2011;

Annual information forms (or equivalent Form 10-K) of Atlantic Power and CPILP for the three years ended December 31, 2008, 2009 and 2010;

Notices of meetings and management information circulars for the annual meeting of shareholders (or equivalent Schedule 14A) of Atlantic Power for the three years ended December 31, 2008, 2009 and 2010;

Unaudited financial forecast and financial model for CPILP as prepared by management of CPILP and included in the electronic data room;

Certain financial forecasts for CPILP as prepared by the management of Atlantic Power;

Base case financial forecast for Atlantic Power as prepared by the management of Atlantic Power;

Discussions with management of Atlantic Power and CPILP with respect to the information referred to herein and other issues deemed relevant by TD Securities including the financial outlook of Atlantic Power, CPILP and the combined company including synergies resulting from the Proposed Transaction;

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

Discussions with the management of Atlantic Power pertaining to target pro forma capital structure and dividend policy for Atlantic Power;

Discussions with Atlantic Power's tax advisor, KPMG LLP, regarding Atlantic Power, CPILP and the combined company;

Review of Atlantic Power and CPILP data room materials considered relevant to the Proposed Transaction;

Representations contained in a certificate dated June 19, 2011 from a senior officer of Atlantic Power;

Various research publications prepared by equity research analysts regarding Atlantic Power, CPILP and the overall power generation industry in Canada and the United States, and other selected public companies considered relevant;

Atlantic Power management presentations dated May 16, 2011 and May 20, 2011;

CPILP management presentation dated January 6, 2011;

CPILP Confidential Information Memorandum dated October 2010;

Public information relating to the business, operations, financial performance and share/unit trading history of Atlantic Power and CPILP and other selected public companies considered relevant;

Public information with respect to certain other transactions of a comparable nature considered relevant; and

Such other corporate, industry, and financial market information, investigations and analyses as TD Securities considered necessary or appropriate in the circumstances.

With Atlantic Power's acknowledgement and agreement, TD Securities relied upon and assumed the accuracy, completeness and fair presentation of all data, documents, advice, opinions and other information obtained by it from public sources (including on SEDAR) or provided to it by or on behalf of Atlantic Power and/or CPILP and/or their respective personnel, consultants and advisors, or otherwise obtained by TD Securities, including the certificate dated June 19, 2011 from a senior officer of Atlantic Power and all other documents and information referred to above (collectively, the "Data"). The TD Securities Fairness Opinion is premised and conditional upon such accuracy, completeness and fair presentation and upon there being no "misrepresentation" (as defined in the *Securities Act* (Ontario)) in the Data. In addition, TD Securities assumed that there is no information relating to the business, operations, assets, liabilities, condition (financial or otherwise), capital or prospects of Atlantic Power, CPILP or any of their respective affiliates that is or could reasonably be expected to be material to the TD Securities Fairness Opinion that was not disclosed or otherwise made available to TD Securities as part of the Data. Subject to the exercise of professional judgment and except as expressly described in the TD Securities Fairness Opinion, TD Securities did not attempt to verify independently the accuracy, completeness or fair presentation of any of the Data.

With respect to the budgets, forecasts, projections or estimates provided to TD Securities and used in its analyses, TD Securities noted that projecting future results is inherently subject to uncertainty. TD Securities assumed, however, that such budgets, forecasts, projections and estimates were prepared using the assumptions identified therein (as discussed between senior management of Atlantic Power and TD Securities) which TD Securities was advised are (or were at the time of preparation and continue to be), in the opinion of Atlantic Power, reasonable in the circumstances. In addition, TD Securities assumed that the expected synergies will be achieved at the times and in the amounts projected by Atlantic Power. TD Securities expressed no independent view as to the reasonableness of such budgets, forecasts, projections and estimates and the assumptions on which they are based.

Table of Contents

TD Securities was not engaged to review and did not review any of the legal, accounting or tax aspects of the Proposed Transaction. In preparing the TD Securities Fairness Opinion, TD Securities assumed that the Proposed Transaction complies with all applicable laws and accounting requirements and has no adverse tax or other adverse consequences for Atlantic Power.

In preparing the TD Securities Fairness Opinion, TD Securities made several assumptions, including that all final executed versions of agreements and documents relating to the Proposed Transaction will conform in all material respects to the drafts provided to or terms discussed with TD Securities, all conditions to the completion of the Proposed Transaction can and will be satisfied in due course, that all consents, permissions, exemptions or orders of relevant regulatory authorities or third parties will be obtained, without adverse condition or qualification, and that the actions being taken and procedures being followed to implement the Proposed Transaction are valid and effective and comply with all applicable laws and regulatory requirements. In its analysis in connection with the preparation of the TD Securities Fairness Opinion, TD Securities made numerous assumptions with respect to industry performance, general business and economic conditions, and other matters, many of which are beyond the control of TD Securities, Atlantic Power, CPILP or their respective affiliates. Among other things, TD Securities assumed the accuracy, completeness and fair presentation of and relied upon the financial statements forming part of the Data. The TD Securities Fairness Opinion is conditional on all such assumptions being correct.

The TD Securities Fairness Opinion was provided for the exclusive use of the Board of Directors of Atlantic Power and is not intended to and does not constitute a recommendation to the Board of Directors of Atlantic Power. Furthermore, the TD Securities Fairness Opinion is not intended to be, and does not constitute, a recommendation that Atlantic Power shareholders vote in favor of the Proposed Transaction or as an opinion concerning the trading price or value of any securities of Atlantic Power following the announcement or completion of the Proposed Transaction. The TD Securities Fairness Opinion does not address the relative merits of the Proposed Transaction as compared to other transactions or business strategies that might be available to Atlantic Power, nor does it address the underlying business decision to implement the Proposed Transaction. In preparing the TD Securities Fairness Opinion TD Securities did not consider the economic or other interests of either individual, or particular groups of, Atlantic Power stakeholders. The TD Securities Fairness Opinion must not be used by any other person or relied upon by any other person other than the Board of Directors of Atlantic Power without the express prior written consent of TD Securities. The TD Securities Fairness Opinion was rendered as of June 19, 2011, on the basis of securities markets, economic and general business and financial conditions prevailing on that date and the condition and prospects, financial and otherwise, of Atlantic Power and CPILP and their respective subsidiaries and affiliates as they were reflected in the Data provided or otherwise available to TD Securities. Although TD Securities reserved the right to change, modify, update, supplement or withdraw the TD Securities Fairness Opinion in the event that there is any material change in any fact or matter affecting the TD Securities Fairness Opinion, it disclaims any undertaking or obligation to advise any person of any such material change that may come to its attention or to change, modify, update, supplement or withdraw the TD Securities Fairness Opinion as a result of any such material change. TD Securities did not undertake an independent evaluation, appraisal or physical inspection of any assets or liabilities of Atlantic Power or CPILP or their respective subsidiaries. TD Securities is not an expert on, and did not render advice to the Board of Directors of Atlantic Power regarding, legal, accounting, regulatory or tax matters.

The following is a brief summary of the material analyses performed by TD Securities in connection with its oral opinion and the preparation of its written opinion letter dated June 19, 2011. Some of these summaries of financial analyses include information presented in tabular format. In order to understand fully the financial analyses used by TD Securities, the tables must be read together

Table of Contents

with the text of each summary. The tables alone do not constitute a complete description of the financial analyses.

***Historical Share Price Analysis***

TD Securities reviewed the share price performance of Atlantic Power and CPILP for various periods ending on June 17, 2011 (the last trading day prior to the meeting of the Board of Directors of Atlantic Power approving the execution of the Arrangement Agreement) as observed on the Toronto Stock Exchange (TSX) and other Canadian exchanges as reported by Bloomberg L.P. TD Securities noted that the range of low and high closing prices of Atlantic Power common shares during the prior 60-day period was C\$13.96 to C\$15.19. TD Securities noted that the range of low and high closing prices of CPILP units during the prior 60-day period was C\$18.28 to C\$20.90. The consideration (C\$19.42 assuming the closing price C\$14.96 for Atlantic Power common shares on the TSX on June 17, 2011) represented a 4.2% premium to the closing price of CPILP units on June 17, 2011.

***Equity Research Analyst Price Targets***

TD Securities reviewed the public market trading price targets for Atlantic Power common shares prepared and published by equity research analysts between May 12, 2011 and May 27, 2011. These targets reflected each analyst's estimate of the 12-month target trading price of Atlantic Power common shares. TD Securities noted that the range of 12-month research analyst price targets for Atlantic Power was C\$12.00 to C\$15.00 per share. Using a discount rate of 9%, TD Securities discounted the analysts' price targets back 12-months to arrive at a range of present values for these targets. TD Securities' analysis of the present value of equity research analysts' future price targets implied an equity range for Atlantic Power of approximately \$11.01 to \$13.76 per share.

TD Securities reviewed the public market trading price targets for CPILP units prepared and published by equity research analysts between April 28, 2011 and June 13, 2011. These targets reflected each analyst's estimate of the 12-month target trading price of CPILP units. TD Securities noted that the range of 12-month research analyst price targets for CPILP was C\$16.50 to C\$20.00 per unit. Using a discount rate of 9%, TD Securities discounted the analysts' price targets back 12-months to arrive at a range of present values for these targets. TD Securities' analysis of the present value of equity research analysts' future price targets implied an equity range for CPILP of approximately C\$15.14 to C\$18.35 per unit.

The public market trading price targets published by equity research analysts do not necessarily reflect current market trading prices for Atlantic Power common shares and CPILP units and these estimates are subject to uncertainties, including the future financial performance of Atlantic Power and CPILP and future financial market conditions.

***Comparable Company Analysis***

TD Securities performed a comparable company analysis, which is designed to provide an implied value of a company by comparing it to similar companies. TD Securities compared certain financial information of Atlantic Power and CPILP with publicly-available information for peer group companies and funds that operate in and are exposed to similar lines of business as Atlantic Power and CPILP, namely Canadian-traded independent power producers. The peer group included:

Algonquin Power & Utilities Corp.

Atlantic Power Corp.

Boralex Inc.

Brookfield Renewable Power Fund

Table of Contents

Capital Power Income L.P.

Innergex Renewable Energy Inc.

Capstone Infrastructure Corp.

Northland Power Inc.

For this analysis, TD Securities considered the ratio of enterprise value (defined as equity value plus total debt, minority interest, capital lease obligations and preferred shares less cash and cash equivalents, referred to as EV) to 2011 estimated earnings before interest, taxes, depreciation and amortization (referred to as EBITDA), EV/EBITDA, to be the primary value multiple when analyzing each of these companies or funds. Based on estimates for the peer group companies or funds provided by the Institutional Brokers' Estimate System (I/B/E/S), and public filings, TD Securities calculated the relevant metrics for each of the comparable companies or funds. TD Securities selected, using its experience and judgment, a representative range of EV/EBITDA multiples of the comparable companies or funds and applied this range of multiples to the relevant financial statistics for Atlantic Power and CPILP. For purposes of estimated 2011 EBITDA, TD Securities utilized consensus metrics provided by I/B/E/S, as well as estimates prepared by Atlantic Power management.

TD Securities calculated the implied equity range for Atlantic Power common shares as follows:

	<b>Estimated 2011 EBITDA (C\$MM)</b>	<b>EV/EBITDA Multiple Range</b>	<b>Implied Range Per Atlantic Power Common Share</b>
I/B/E/S Consensus	C\$ 133	10.0x - 11.0x	C\$10.40 - \$12.34
Atlantic Power Management	C\$ 147	10.0x - 11.0x	C\$12.43 - \$14.57

TD Securities calculated the implied equity range per CPILP unit as follows:

	<b>Estimated 2011 EBITDA (C\$MM)</b>	<b>EV/EBITDA Multiple Range</b>	<b>Implied Range Per CPILP Unit</b>
I/B/E/S Consensus	C\$ 187	10.0x - 11.0x	C\$ 17.79 - \$21.10
Atlantic Power Management	C\$ 174	10.0x - 11.0x	C\$ 17.51 - \$20.58

The process of analyzing EV/EBITDA multiples implied by comparable publicly traded companies or funds and applying these EV/EBITDA multiples to Atlantic Power and CPILP involved certain judgments concerning the financial and operating characteristics of the peer group compared to Atlantic Power and CPILP. Given differences in business mix, growth prospects and risks inherent in the comparable companies or funds identified, TD Securities did not consider any specific company to be directly comparable to Atlantic Power or CPILP.

***Precedent Transaction Analysis***

Using publicly-available information, TD Securities reviewed the terms of selected precedent transactions in which the targets were Canadian independent power producers, such as Atlantic Power and CPILP.

TD Securities reviewed the consideration given and calculated the ratio of EV to EBITDA ("EV/EBITDA Multiple").

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

For this analysis, TD Securities reviewed the following transactions:

Acquiror	Target	Announcement Date
Borex Inc.	Borex Power Income Fund	05/03/2010
Innergex Power Income Fund	Innergex Renewable Energy Inc.	02/01/2010
Northland Power Income Fund	Northland Power Inc.	04/23/2009
FPL Energy, LLC	Creststreet Power & Income Fund LP	04/18/2008
Cheung Kong Infrastructure Holdings Ltd.	TransAlta Power, LP	10/15/2007
Fort Chicago Energy Partners LP	Countryside Power Income Fund	06/20/2007
Macquarie Power & Infrastructure Income Fund	Clean Power Income Fund	04/15/2007
Harbinger Capital Partners	Calpine Power Income Fund	01/29/2007
EPCOR Utilities Inc.	TransCanada Power L.P. (30.6% interest in public units and control of the General Partner)	05/17/2005

Based on the analysis of the relevant characteristics for each of the selected precedent transactions and on the experience and judgment of TD Securities, TD Securities selected a representative range of EV/EBITDA Multiples of the selected precedent transactions and applied this range of multiples to the relevant EBITDA estimates for CPILP.

TD Securities calculated the implied equity range per CPILP unit as follows:

	Estimated 2011 EBITDA (C\$MM)	EV/EBITDA Multiple Range	Implied Range Per CPILP Unit
I/B/E/S Consensus	C\$ 187	9.5x - 11.0x	C\$16.13 - \$21.10
Atlantic Power Management	C\$ 174	9.5x - 11.0x	C\$15.97 - \$20.58

The process of analyzing EV/EBITDA Multiples implied by selected precedent transactions and applying these EV/EBITDA multiples to CPILP involved certain judgments concerning, among other things, the financial and operating characteristics of the companies or funds acquired in these transactions compared to the business of CPILP. Given the differences in business mix, economic and market conditions, growth prospects and risks inherent in the selected precedent transactions identified, TD Securities did not consider any specific selected precedent transaction to be directly comparable to CPILP.

### *Discounted Cash Flow Analysis*

TD Securities performed discounted cash flow (DCF) analysis on Atlantic Power and CPILP, which is an analysis of the present value of expected future cash flows. The DCF methodology reflects the growth prospects and risks inherent in each business by taking into account the amount, timing and relative certainty of projected free cash flows expected to be generated by each business. The DCF approach requires that certain assumptions be made regarding, among other things, future free cash flows, discount rates and terminal values. The possibility that some of the assumptions will prove to be inaccurate is one factor involved in the determination of discount rates to be used in establishing a range of values. TD Securities' DCF analysis of Atlantic Power and CPILP involved discounting to a present value the projected levered after tax free cash flows from January 1, 2012 until December 31, 2024 for each of Atlantic Power and CPILP, plus terminal values determined as at December 31, 2024, utilizing an appropriate cost of equity as the discount rate.

TD Securities analyzed Atlantic Power's business through discussions with Atlantic Power management, a review of 2012 - 2024 financial forecasts prepared by Atlantic Power management and

Table of Contents

by using publicly-available information. The terminal value was calculated by applying a terminal year perpetual growth formula to 2025 free cash flow as projected by Atlantic Power management. The perpetual growth formula used a 0% terminal year growth rate and 8.5% - 9.5% was selected as the appropriate equity discount rate range. The discount rate range was selected based on an analysis of Atlantic Power's cost of equity. This analysis resulted in an implied equity range for Atlantic Power of C\$9.49 - C\$10.57 per share.

TD Securities analyzed CPILP's business through discussions with both Atlantic Power and CPILP management, a review of 2012 - 2024 financial forecasts prepared by Atlantic Power management and by using publicly-available information. Atlantic Power management prepared two financial forecasts for CPILP. A low case and a high case incorporating the results of the due diligence performed by Atlantic Power on CPILP. Atlantic Power management also identified synergies related to the elimination of certain public company costs and efficient use of available tax deductions. The terminal value was calculated by applying a terminal year perpetual growth formula to 2025 free cash flow, as projected by Atlantic Power management. The perpetual growth formula used a 0% terminal year growth rate and 8.5% - 9.5% was selected as the appropriate equity discount rate range. The discount rate range was selected based on an analysis of CPILP's cost of equity. This analysis resulted in an implied equity range for CPILP of C\$15.72 - C\$19.33 per unit including synergies.

TD Securities analyzed the implied value, using the DCF methodology described above, of Atlantic Power per common share on a pro forma basis, after giving effect to the Proposed Transaction. TD Securities assumed that Atlantic Power successfully completes the public market financings for the Proposed Transaction as contemplated at June 17, 2011. The public market financings contemplated at June 17, 2011 included, among other things, a term-debt issuance of approximately \$430 million and an Atlantic Power public common share offering of approximately C\$200 million. TD Securities performed its analysis using the low and high financial forecasts including the identified synergies above. The analysis resulted in an implied equity range for Atlantic Power on a pro forma basis, after giving effect to the Proposed Transaction of C\$10.23 - C\$12.52 per share including synergies.

***Distributable Cash Flow Accretion and Payout Ratio Analysis***

TD Securities performed distributable cash flow accretion analysis, which compares the projected cash flows available for distribution to common shareholders of Atlantic Power on a standalone and pro forma basis, using forecasts prepared by Atlantic Power management. Cash flow available for distribution is defined as cash from operations less maintenance capital expenditures and mandatory debt principal or amortization payments.

<b>Distributable Cash Flow Per Share</b>	<b>2011 - 2020 Average</b>
Atlantic Power Standalone	C\$0.95
Pro Forma Atlantic Power Management	C\$1.20 - C\$1.29

TD Securities performed payout ratio analysis, which is an analysis of the percentage resulting from the projected dividends paid to common shareholders of Atlantic Power compared to projected cash flows available for distribution to common shareholders on a standalone and pro forma basis, using forecasts prepared by Atlantic Power management, Atlantic Power standalone annual dividend per share used in the analysis was C\$1.09 and the Atlantic Power pro forma annual dividend per share (under the low and high case) used in the analysis was C\$1.15. The forecasted annual dividend per share, as a percentage of forecasted cash flow available for distribution per share, results in an implied forecasted payout ratio.

<b>Payout Ratio</b>	<b>2011 - 2020 Average</b>
Atlantic Power Standalone	124.9%
Pro Forma Atlantic Power Management	90.0% - 97.4%

Table of Contents

***Exchange Ratio Analysis***

TD Securities performed an analysis of the exchange ratio of CPILP units to Atlantic Power common shares, using the transaction consideration of C\$19.42 (based on the closing price for Atlantic Power common shares on June 17, 2011) and the volume-weighted average prices of Atlantic Power's shares as at June 17, 2011 as observed on the Toronto Stock Exchange (TSX) and other Canadian exchanges as reported by Bloomberg L.P. This implied exchange ratios observed during these periods ranging from 1.29x to 1.33x Atlantic Power common shares per CPILP unit.

**General**

In connection with the review of the Proposed Transaction by the board of directors of Atlantic Power, TD Securities performed a variety of financial and comparative analyses for purposes of rendering its opinion. The preparation of a financial opinion is a complex process and is not necessarily amenable to partial analysis or summary description. In arriving at its opinion, TD Securities considered the results of all of its analyses as a whole and did not attribute any particular weight to any single analysis or factor it considered. TD Securities believes that its analyses must be considered as a whole and that selecting portions of the analyses or the factors considered by it, without considering all factors and analyses together, could create an incomplete or misleading view of the process underlying the TD Securities Fairness Opinion. In addition, TD Securities may have given various analyses and factors more or less weight than other analyses and factors, and may have deemed various assumptions more or less probable than other assumptions. As a result, the ranges of implied values resulting from any particular analysis or combination of analyses described above should not be taken to be the view of TD Securities with respect to the actual value of Atlantic Power or CPILP. TD Securities has not prepared a valuation of Atlantic Power or CPILP or any of their respective securities or assets or liabilities and the Fairness Opinion should not be construed as such.

In performing its analyses, TD Securities made numerous assumptions with respect to industry performance, general business, regulatory, economic, market and financial conditions and other matters. Many of these assumptions are beyond the control of Atlantic Power and CPILP. Any estimates contained in TD Securities' analyses are not necessarily indicative of future results or actual values, which may be significantly more or less favourable than those suggested by such estimates.

The analyses performed were prepared solely as part of TD Securities' analysis of the fairness of the Consideration to be paid by Atlantic Power in connection with the Proposed Transaction from a financial point of view to Atlantic Power, and were conducted in connection with the delivery of the TD Securities Fairness Opinion to the board of directors of Atlantic Power. These analyses do not purport to be appraisals or to reflect the prices at which shares of common stock of Atlantic Power or CPILP units might actually trade. The consideration to be paid to the holders of CPILP units and other terms of the Proposed Transaction were determined through arm's-length negotiations between Atlantic Power and CPILP and were approved by Atlantic Power's board of directors. TD Securities provided advice to Atlantic Power during such negotiations; however, TD Securities did not recommend any specific consideration to Atlantic Power or that any specific consideration constituted the only appropriate consideration for the proposed transaction. In addition, as described above, TD Securities' opinion and presentation to Atlantic Power's board of directors were one of many factors taken into consideration by such Board in making their decision to approve the Proposed Transaction. Consequently, the TD Securities analyses as described above should not be viewed as determinative of the opinion of Atlantic Power's board of directors with respect to the consideration or the value of CPILP, or of whether the board of directors of Atlantic Power would have been willing to agree to pay a different consideration. See the section entitled "Atlantic Power's Reasons for the Arrangement Agreement; Recommendations of Atlantic Power's Board of Directors" beginning on page 55.

Table of Contents

The TD Securities Fairness Opinion was approved by a committee of senior investment banking professionals of TD Securities in accordance with its customary practice.

Atlantic Power retained TD Securities based upon TD Securities' qualifications, experience and expertise and its knowledge of the business affairs of Atlantic Power. Neither TD Securities, nor any of its affiliates is an insider, associate or affiliate (as those terms are defined in the Securities Act (Ontario)) of Atlantic Power, CPILP or any of their respective affiliates (collectively, the "Interested Parties"). Neither TD Securities nor any of its affiliates is an advisor to any Interested Party with respect to the Proposed Transaction, other than to Atlantic Power and its affiliates.

TD Securities and its affiliates have not been engaged to provide any financial advisory services, have not acted as lead or co-lead manager on any offering of securities of Atlantic Power or any other Interested Party, or had a material financial interest in any transaction involving Atlantic Power or any other Interested Party during the 24 months preceding the date on which TD Securities was first contacted in respect of the Proposed Transaction other than services provided under its engagement in respect of the Proposed Transaction or as described hereinafter. TD Securities acted as a co-manager for the offering of Atlantic Power common shares and convertible debentures in October 2010. TD Securities acted as co-financial advisor, co-lead underwriter, lead arranger and co-lead arranger in connection with the initial public offering of common shares of Capital Power and the related reorganization and acquisition transactions involving EPCOR Utilities Inc. ("EPCOR") and Capital Power LP and related financings in 2009. TD Securities acted as financial advisor to EPCOR for two unrelated transactions during the 24 month period referenced above.

No understanding or agreement exists between TD Securities and any Interested Party with respect to future financial advisory or investment banking business other than those that may arise as a result of the terms of its engagement in respect of the Proposed Transaction. TD Securities may in the future, in the ordinary course of its business, perform financial advisory or investment banking services for Atlantic Power, any other Interested Party or any of their respective associates. A Canadian chartered bank, the parent company of TD Securities, directly or through one or more affiliates may provide banking services, extend loans or credit, offer financial products or provide other financial services to Atlantic Power, any other Interested Party or any of its associates.

TD Securities and its affiliates act as a trader and dealer, both as principal and as agent, in major financial markets and, as such, may have and may in the future have positions in the securities of Atlantic Power and/or any other Interested Party and/or their respective associates and, from time to time, may have executed or may execute transactions on behalf of Atlantic Power and/or any other Interested Party and/or their respective associates or other clients for which it may have received or may receive compensation. As an investment dealer, TD Securities conducts research on securities and may, in the ordinary course of its business, provide research reports and investment advice to its clients on investment matters, including matters with respect to the Proposed Transaction, Atlantic Power and/or any other Interested Party and/or their respective associates.

Under the terms of TD Securities' engagement, Atlantic Power has agreed to pay TD Securities for its financial advisory services in connection with the Proposed Transaction a customary fee, a portion of which became payable upon public announcement of the Proposed Transaction and upon delivery of the opinion and a significant portion of which is contingent upon completion of the Proposed Transaction or in the event Atlantic Power receives a termination fee. In addition, TD Securities or one of its affiliates is providing or arranging financing for Atlantic Power in connection with the Proposed Transaction and will receive customary fees in connection with such services, a substantial portion of which are contingent upon the closing of the Proposed Transaction. Atlantic Power has also agreed to reimburse TD Securities for its reasonable expenses incurred in performing its services, including reasonable fees and costs of its legal counsel and other advisors retained by TD Securities. In addition, Atlantic Power has agreed to indemnify TD Securities and its

Table of Contents

affiliates, and each of their respective directors, officers, employees, partners, agents and shareholders against certain expenses, losses, claims, actions, suits, proceedings, damages and liabilities related to, caused by, resulting from or arising out of or based on, directly or indirectly, TD Securities' engagement.

*Opinion of Morgan Stanley & Co. LLC*

Atlantic Power retained Morgan Stanley to provide it with financial advisory services and a financial opinion in connection with the transaction. Atlantic Power selected Morgan Stanley to act as its financial advisor based on Morgan Stanley's qualifications, expertise and reputation and its knowledge of the business and affairs of Atlantic Power. At the meeting of the Atlantic Power board of directors on June 19, 2011, Morgan Stanley rendered its oral opinion, subsequently confirmed in writing, that as of such date and based upon and subject to the various assumptions, considerations, qualifications and limitations set forth in its written opinion, the consideration to be paid by Atlantic Power pursuant to the Arrangement Agreement was fair, from a financial point of view, to Atlantic Power.

**The full text of the written opinion of Morgan Stanley, dated June 19, 2011, which discusses, among other things, the assumptions made, procedures followed, matters considered, and qualifications and limitations of the review undertaken by Morgan Stanley in rendering its opinion, is attached as Annex C and incorporated by reference into this section of the joint proxy statement. The summary of the Morgan Stanley opinion provided in this joint proxy statement is qualified in its entirety by reference to the full text of the opinion. We encourage you to read the opinion carefully and in its entirety. The Morgan Stanley opinion is directed to the Atlantic Power board of directors and addresses only the fairness, from a financial point of view, of the consideration to be paid by Atlantic Power pursuant to the Arrangement Agreement. The Morgan Stanley opinion does not address any other aspect of the transaction and does not constitute a recommendation to any Atlantic Power shareholder or unitholder of CPILP as to how any such shareholder or unitholder should vote with respect to the proposed transaction or whether to take any other action with respect to the transaction. The opinion also does not address the prices at which Atlantic Power common shares will trade following the completion of the transaction or at any time.**

For the purposes of its opinion, Morgan Stanley, among other things:

Reviewed certain publicly available financial statements and other business and financial information of CPILP and Atlantic Power, respectively;

Reviewed certain internal financial statements and other financial and operating data concerning CPILP and Atlantic Power, respectively;

Reviewed certain financial projections relating to CPILP prepared by the management of CPILP (the "CPILP Forecasts") and certain financial projections relating to Atlantic Power prepared by the management of Atlantic Power (the "Atlantic Power Forecasts");

Reviewed certain adjustments to the CPILP Forecasts prepared by the management of Atlantic Power (the "Atlantic Power-CPILP Forecasts") and discussed with the management of Atlantic Power its assessments as to the relative likelihood of achieving the future financial results reflected in the CPILP Forecasts and the Atlantic Power-CPILP Forecasts;

Discussed with the management of Atlantic Power the past and current operations and financial condition and the prospects of Atlantic Power, including information relating to certain strategic, financial and operational benefits anticipated from the transaction (the "Synergy/Costs Savings");

Reviewed the pro forma impact of the transaction on Atlantic Power's earnings per share, cash flow, consolidated capitalization and financial ratios;

Table of Contents

Reviewed the reported prices and trading activity for the CPILP units and Atlantic Power common shares;

Compared the financial performance of CPILP and Atlantic Power and the prices and trading activity of the CPILP units and the Atlantic Power common shares with that of certain other publicly-traded companies that Morgan Stanley deemed relevant, and their securities;

Reviewed the financial terms, to the extent publicly available, of certain acquisition transactions that Morgan Stanley deemed relevant;

Participated in certain discussions and negotiations among representatives of CPILP and Atlantic Power and certain parties and their financial and legal advisors;

Reviewed the Arrangement Agreement and certain related documents; and

Performed such other analyses and considered such other factors as Morgan Stanley deemed appropriate.

In arriving at its opinion, Morgan Stanley assumed and relied upon, without independent verification, the accuracy and completeness of the information that was publicly available or supplied or otherwise made available to it by CPILP and Atlantic Power, and formed a substantial basis for its opinion. With respect to the CPILP Forecasts, Morgan Stanley assumed that they were reasonably prepared on bases reflecting the best currently available estimates and judgments of the management of CPILP of the future financial performance of CPILP. With respect to the Atlantic Power-CPILP Forecasts, the Atlantic Power Forecasts, and the Synergy/Cost Savings, Morgan Stanley assumed that they were reasonably prepared on bases reflecting the best currently available estimates and judgments of the management of Atlantic Power of the future financial performance of CPILP and Atlantic Power and the other matters covered thereby, and based on the assessments of the management of Atlantic Power as to the relative likelihood of achieving the future financial results reflected in the CPILP Forecasts and the Atlantic Power-CPILP Forecasts, Morgan Stanley relied, at the direction of Atlantic Power, on the Atlantic Power-CPILP Forecasts for purposes of its opinion. In addition, Morgan Stanley assumed that the Synergies/Cost Savings will be achieved at the times and in the amounts projected. In rendering its opinion, Morgan Stanley assumed that the final form of the Arrangement Agreement will not differ in any material respect from the draft reviewed by Morgan Stanley. In addition, Morgan Stanley assumed that the transaction will be consummated in accordance with the terms set forth in the Arrangement Agreement without any waiver, amendment or delay of any terms or conditions. Morgan Stanley assumed that in connection with the receipt of all the necessary governmental, regulatory or other approvals and consents required for the proposed transaction, no delays, limitations, conditions or restrictions will be imposed that would have a material adverse effect on the contemplated benefits expected to be derived in the proposed transaction.

Morgan Stanley is not a legal, tax or regulatory advisor. Morgan Stanley is a financial advisor only and it relied upon, without independent verification, the assessment of Atlantic Power and CPILP and their legal, tax or regulatory advisors with respect to legal, tax or regulatory matters. Morgan Stanley expressed no view on, and its opinion did not address, any other term or aspect of the Arrangement Agreement or the transaction or any term or aspect of any other agreement or instrument contemplated by the Arrangement Agreement or entered into in connection with the transaction, including, without limitation, the NC Purchase Agreement, or the fairness of the transactions contemplated thereby, including, without limitation, the North Carolina transaction. Morgan Stanley expressed no opinion as to the relative fairness of any portion of the consideration to be paid by Atlantic Power for the CPILP units and the Class A and Class B shares in the capital of CPI Investments. Morgan Stanley expressed no opinion with respect to the fairness of the amount or nature of the compensation to any of the officers, directors or employees of CPILP or CPI Investments, or any class of such persons, relative to the consideration to be paid to the holders of the

Table of Contents

CPILP units and the Class A and Class B shares in the capital of CPI Investments in the transaction. Morgan Stanley did not make any independent valuation or appraisal of the assets or liabilities of CPILP, CPI Investments or Atlantic Power, nor was Morgan Stanley furnished with any such valuations or appraisals. Morgan Stanley's opinion was necessarily based on financial, economic, market and other conditions as in effect on, and the information made available to it as of, June 19, 2011. Events occurring after June 19, 2011 may affect Morgan Stanley's opinion and the assumptions used in preparing it, and Morgan Stanley did not assume any obligation to update, revise or reaffirm its opinion.

The following is a summary of the material financial analyses performed by Morgan Stanley in connection with its oral opinion and the preparation of its written opinion, dated as of June 19, 2011. Although each analysis was provided to the Atlantic Power board of directors, in connection with arriving at its opinion, Morgan Stanley considered all of its analysis as a whole and did not attribute any particular weight to any analysis described below. Some of these summaries include information in tabular format. In order to understand fully the financial analyses used by Morgan Stanley, the tables must be read together with the text of each summary. The tables alone do not constitute a complete description of the analyses.

**Historical Trading and Exchange Ratio Review.** Morgan Stanley reviewed the ranges of closing prices of Atlantic Power common shares and CPILP units for various periods ending on June 17, 2011. Morgan Stanley noted that for the 52-week period ending June 17, 2011 the ranges of closing prices per share for Atlantic Power common shares and CPILP units were C\$12.11 to C\$15.50 and C\$15.90 to C\$21.22, respectively. Morgan Stanley also calculated the average trading ratio of the price of CPILP units to the price of Atlantic Power common shares over the following periods:

Period Ending June 17, 2011	Average Historical Trading Ratio
June 17, 2011	1.25x
1 Week Prior	1.26x
1 Month Prior	1.29x
3 Months Prior	1.33x
6 Months Prior	1.29x
1 Year Prior	1.30x

Morgan Stanley noted that the exchange ratio pursuant to the Arrangement Agreement is 1.3 shares of Atlantic Power common shares for each CPILP unit, and that the implied offer value per CPILP unit as of June 17, 2011 was C\$19.42, based on the closing price of Atlantic Power common shares on June 17, 2011 of \$14.96.

**Equity Research Analysts' Price Targets.** Morgan Stanley reviewed the most recent equity research analysts' per-share target prices for Atlantic Power common shares and CPILP units, respectively. These targets reflect each analyst's estimate of the future public market trading price for Atlantic Power common shares and CPILP units. Target prices for CPILP units ranged from C\$16.50 to C\$20.00, compared with the implied offer value per unit of C\$19.42 as of June 17, 2011. Target prices for Atlantic Power common shares ranged from C\$12.00 to C\$15.00, compared with the closing price of Atlantic Power common shares of \$14.96 as of June 17, 2011.

The public market trading price targets published by equity research analysts do not necessarily reflect current market trading prices for Atlantic Power common shares or CPILP units and these estimates are subject to uncertainties, including the future financial performance of Atlantic Power and CPILP and future financial market conditions.

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

**Selected Companies Analysis.** Morgan Stanley reviewed and compared certain publicly available and internal financial information, ratios and publicly available market multiples relating to Atlantic Power and CPILP, respectively, to corresponding financial data for publicly-traded companies that shared characteristics with Atlantic Power and CPILP to derive an implied per share equity reference range for Atlantic Power and CPILP.

The companies included in the selected companies analysis were:

Capstone Infrastructure Corporation;

Brookfield Renewable Power Fund;

Northland Power Incorporated;

Algonquin Power and Utilities Corporation; and

Innergex Renewable Energy Inc.

Morgan Stanley then reviewed both publicly available and internal financial information for each of Atlantic Power and CPILP to compare financial information and multiples of market value of the companies included in the selected companies analysis to the following metrics for Atlantic Power and CPILP:

aggregate value (defined as equity value plus estimated total debt, minority interest, capital lease obligations and preferred stock less cash and cash equivalents) to 2011 estimated earnings before interest, taxes, depreciation and amortization (which is referred to herein as EBITDA); and

aggregate value to 2012 estimated EBITDA.

The following table reflects the results of this analysis, as well as the multiples for Atlantic Power and CPILP based on the median statistics of EBITDA for these companies obtained from I/B/E/S, a data service that monitors and publishes a compilation of earnings estimates produced by selected research analysts on companies of interest to investors:

	Aggregate Value to EBITDA	
	2011E	2012E
Representative range derived for Atlantic Power from selected companies	11.0x - 13.0x	9.0x - 11.0x
Atlantic Power multiples (I/B/E/S)	13.9x	13.0x
Representative range derived for CPILP from selected companies	11.0x - 13.0x	9.0x - 11.0x
CPILP multiples (I/B/E/S)	10.3x	10.0x

Applying representative ranges of multiples that were derived from the selected companies analysis, Morgan Stanley calculated an implied per share equity reference range for Atlantic Power common shares and CPILP units with respect to the following metrics:

aggregate value to 2011 estimated EBITDA; and

aggregate value to 2012 estimated EBITDA.

Based on this analysis, Morgan Stanley derived an implied per share equity reference range for Atlantic Power common shares of C\$12.26 to C\$18.85 and an implied per share equity reference range for CPILP units of C\$14.94 to C\$28.33.

Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

Morgan Stanley noted that the implied offer value per CPILP unit as of June 17, 2011 was C\$19.42, based on the closing price of Atlantic Power common shares on June 17, 2011 of \$14.96.

Table of Contents

Atlantic Power management prepared two financial forecasts for CPILP, referred to as Case 1 and Case 2, which incorporated the results of due diligence that were performed by Atlantic Power on CPILP. Morgan Stanley also performed an EBITDA multiple analysis on Atlantic Power common shares in the combined company post-transaction, using projections for both Atlantic Power and CPILP provided by the management of Atlantic Power, which incorporated synergies related to the elimination of certain public company costs identified by Atlantic Power management. Applying representative ranges of multiples that were derived from the selected companies analysis, Morgan Stanley calculated a range of implied per share equity reference ranges for Atlantic Power common shares in the combined company post-transaction with respect to the following metrics:

aggregate value to 2011 estimated EBITDA; and

aggregate value to 2012 estimated EBITDA.

Based on this analysis, Morgan Stanley derived an implied per share equity reference range for Atlantic Power common shares in the combined company post-transaction of C\$10.83 to C\$20.89.

No company utilized in the selected companies analysis is identical to Atlantic Power or CPILP. Accordingly, an analysis of the results of the foregoing necessarily involves complex considerations and judgments concerning differences in financial and operating characteristics of Atlantic Power and CPILP and other factors that could affect the public trading value of the companies to which they are being compared. In evaluating the selected companies, Morgan Stanley made judgments and assumptions with regard to industry performance, general business, economic, market and financial conditions and other matters, many of which are beyond the control of Atlantic Power and CPILP, such as the impact of competition on the businesses of Atlantic Power or CPILP and the industry generally, industry growth and the absence of any adverse material change in the financial conditions and prospects of Atlantic Power or CPILP or the industry or in the financial markets in general. Mathematical analysis, such as determining the mean, median or average, is not in itself a meaningful method of using selected company data.

**Discounted Cash Flow Analyses.** Morgan Stanley performed a discounted cash flow analysis (DCF) on Atlantic Power and CPILP using projections provided by Atlantic Power management. A discounted cash flow analysis is designed to provide insight into the value of a company as a function of its future cash flows and terminal value. Morgan Stanley's DCF analysis of Atlantic Power and CPILP involved discounting to a present value the projected levered after tax free cash flows from January 1, 2012 until December 31, 2024 for each of Atlantic Power and CPILP, plus terminal values determined as at December 31, 2024, utilizing a range of costs of equity which were chosen by Morgan Stanley based upon an analysis of market discount rates applicable to selected companies.

**Atlantic Power.** Morgan Stanley calculated indications of net present value of levered after tax free cash flows for Atlantic Power for the years 2012 through 2024 using discount rates ranging from 8.0% to 9.0%, reflecting estimates of Atlantic Power's cost of equity. Morgan Stanley then calculated an implied terminal value for Atlantic Power by applying a perpetual growth rate of 0% to an illustrative terminal year levered after tax free cash flow, which is the cash flow assumed to continue into perpetuity following the initial projection period that ends in the year 2024. This illustrative terminal value was then discounted to calculate indications of present value using an illustrative terminal discount rate ranging from 8.0% to 9.0%. From this analysis, Morgan Stanley calculated an implied per share equity reference range for Atlantic Power common shares of C\$8.24 to C\$8.93.

**CPILP.** Morgan Stanley calculated indications of net present value of levered after tax free cash flows for CPILP for the years 2012 through 2024 using discount rates ranging from 8.0% to 9.0%, reflecting estimates of CPILP's cost of equity. Morgan Stanley then calculated an implied terminal value for CPILP by applying a perpetual growth rate of 0% to an illustrative terminal year levered after tax free cash flow, which is the cash flow assumed to continue into perpetuity following the initial

Table of Contents

projection period that ends in the year 2024. This illustrative terminal value was then discounted to calculate indications of present value using an illustrative terminal discount rate ranging from 8.0% to 9.0%. Morgan Stanley performed these analyses utilizing Cases 1 and 2, the two financial forecasts prepared for CPILP by Atlantic Power management. From this analysis, Morgan Stanley calculated an implied per share equity reference range for CPILP units of C\$14.52 to C\$18.85.

*Pro Forma Analysis.* Morgan Stanley calculated indications of net present value of levered after tax free cash flows for Atlantic Power on a pro forma basis for the transaction for the years 2012 through 2024 using discount rates ranging from 8.0% to 9.0%, reflecting estimates of Atlantic Power's pro forma cost of equity. Morgan Stanley then calculated an implied terminal value for Atlantic Power on a pro forma basis by applying a perpetual growth rate of 0% to an illustrative terminal year levered after tax free cash flow, which is the cash flow assumed to continue into perpetuity following the initial projection period that ends in the year 2024. This illustrative terminal value was then discounted to calculate indications of present value using an illustrative terminal discount rate ranging from 8.0% to 9.0%. Morgan Stanley performed these pro forma analyses utilizing Cases 1 and 2, the two financial forecasts prepared for CPILP by Atlantic Power management. Included in this pro forma analysis were synergies related to the elimination of certain public company costs identified by Atlantic Power management. From this analysis, Morgan Stanley calculated an implied per share equity reference range for Atlantic Power common shares pro forma for the transaction of C\$9.51 to C\$11.69.

Morgan Stanley noted that the implied offer value per CPILP unit as of June 17, 2011 was C\$19.42, based on the closing price of Atlantic Power common shares on June 17, 2011 of \$14.96.

*Distributable Cash Flow Accretion Analysis.* Morgan Stanley performed distributable cash flow accretion analysis, which compares projected cash flows available for distribution to common shareholders of Atlantic Power on a standalone basis and pro forma for the transaction, using forecasts prepared by Atlantic Power management. For purposes of this analysis, cash flow available for distribution is cash from operations less maintenance capital expenditures and mandatory debt principal or amortization payments.

<b>Distributable Cash Per Share</b>	<b>2012 - 2016 Average</b>
Atlantic Power Standalone	C\$0.96
Pro Forma Atlantic Power Management Case 1	C\$1.23
Pro Forma Atlantic Power Management Case 2	C\$1.29

*Analysis of Selected Precedent Transactions.* Morgan Stanley also performed an analysis of selected precedent transactions, which attempted to provide an implied value for CPILP by comparing it to

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

other companies involved in business combinations. Using publicly available information, Morgan Stanley considered the following set of transactions:

Announcement Date	Acquiror	Target
May 2010	Borex Inc.	Borex Power Income Fund
February 2010	Innergex Power Income Fund	Innergex Renewable Energy Inc.
April 2009	Northland Power Income Fund	Northland Power Inc.
April 2008	FPL Energy, LLC	Creststreet Power & Income Fund LP
October 2007	Cheung Kong Infrastructure Holdings Ltd.	TransAlta Power, LP
June 2007	Fort Chicago Energy Partners LP	Countryside Power Income Fund
April 2007	Macquarie Power & Infrastructure Income Fund	Clean Power Income Fund
January 2007	Harbinger Capital Partners	Calpine Power Income Fund
May 2005	EPCOR Utilities Inc.	TransCanada Power L.P. (30.6% interest of public units and control of the GP)

Morgan Stanley compared certain financial and market statistics of the selected precedent transactions. Based on an assessment of the selected precedent transactions, Morgan Stanley applied a representative range of multiples that were derived from the selected precedent transaction analysis and calculated an implied per share equity reference range for CPILP units with respect to aggregate value to 2011 estimated EBITDA.

Based on this analysis, Morgan Stanley derived an implied per share equity reference range for CPILP units of C\$14.30 to C\$21.32.

Morgan Stanley noted that the implied offer value per CPILP unit as of June 17, 2011 was C\$19.42, based on the closing price of Atlantic Power common shares on June 17, 2011 of \$14.96.

No company or transaction utilized as a comparison in the analysis of selected precedent transactions is identical to CPILP, Atlantic Power, or the transaction in business mix, timing and size. Accordingly, an analysis of the results of the foregoing necessarily involves complex considerations and judgments concerning differences in financial and operating characteristics of CPILP and Atlantic Power and other factors that would affect the value of the companies to which they are being compared. In evaluating the precedent transactions, Morgan Stanley made judgments and assumptions with regard to industry performance, global business, economic, market and financial conditions and other matters, many of which are beyond the control of CPILP and Atlantic Power, such as the impact of competition on CPILP and Atlantic Power and the industry generally, industry growth and the absence of any adverse material change in the financial conditions and prospects of CPILP, Atlantic Power, or the industry or the financial markets in general. Mathematical analysis, such as determining the mean or median, is not in itself a meaningful method of using precedent transactions data.

#### *General*

In connection with the review of the transaction by Atlantic Power's board of directors, Morgan Stanley performed a variety of financial and comparative analyses for purposes of rendering its opinion. The preparation of a fairness opinion is a complex process and is not susceptible to partial analysis or summary description. In arriving at its opinion, Morgan Stanley considered the results of all of its

Table of Contents

analyses as a whole and did not attribute any particular weight to any analysis or factor considered. Furthermore, Morgan Stanley believes that the summary provided and the analyses described above must be considered as a whole and that selecting any portion of the analyses, without considering all of them, would create an incomplete view of the process underlying Morgan Stanley's analyses and opinion. In addition, Morgan Stanley may have given various analyses and factors more or less weight than other analyses and factors, and may have deemed various assumptions more or less probable than other assumptions. As a result, the ranges of valuations resulting from any particular analysis or combination of analyses described above should not be taken to be the view of Morgan Stanley with respect to the actual value of CPILP units or Atlantic Power common shares.

In performing its analyses, Morgan Stanley made numerous assumptions with respect to industry performance, general business and economic conditions and other matters, many of which are beyond the control of CPILP or Atlantic Power. Many of these assumptions are beyond the control of CPILP and Atlantic Power. Any estimates contained in Morgan Stanley's analyses are not necessarily indicative of future results or actual values, which may be significantly more or less favorable than those suggested by the estimates. The analyses were performed solely as part of Morgan Stanley's analysis of the fairness from a financial point of view of the consideration to be paid by Atlantic Power pursuant to the Arrangement Agreement and were conducted in connection with the delivery of Morgan Stanley's opinion dated June 19, 2011 to the Atlantic Power board of directors. The analyses do not purport to be appraisals or to reflect the prices at which CPILP units or Atlantic Power common shares might actually trade. The consideration under the Arrangement Agreement and other terms of the Arrangement Agreement were determined through arm's length negotiations between CPILP and Atlantic Power and approved by the Atlantic Power board of directors. Morgan Stanley provided advice to Atlantic Power during these negotiations, but did not, however, recommend any specific purchase price or transaction consideration to Atlantic Power, or that any specific purchase price or transaction consideration constituted the only appropriate purchase price or transaction consideration for the transaction. The opinion of Morgan Stanley was one of a number of factors taken into consideration by Atlantic Power's board of directors in making its decision to approve the Arrangement Agreement and the transactions contemplated by the Arrangement Agreement. Consequently, Morgan Stanley's analyses described above should not be viewed as determinative of the opinion of Atlantic Power's board of directors with respect to the value of CPILP or Atlantic Power, or the consideration, or of whether the Atlantic Power board of directors would have been willing to agree to a different purchase price or transaction consideration. See the section entitled "The Arrangement Agreement and Plan of Arrangement Atlantic Power's Reasons for the Arrangement Agreement; Recommendations of Atlantic Power's Board of Directors" beginning on page 55. Morgan Stanley's opinion was approved by a committee of Morgan Stanley investment banking and other professionals in accordance with its customary practice.

Morgan Stanley, as part of its investment banking businesses, is continually engaged in the valuation of businesses and their securities in connection with mergers and acquisitions, negotiated underwritings, competitive biddings, secondary distributions of listed and unlisted securities, private placements and valuations for estate, corporate and other purposes. Atlantic Power selected Morgan Stanley as its financial advisor based upon the firm's qualifications, experience and expertise and because it is an internationally recognized investment banking firm with substantial experience in transactions similar to the transaction. In the ordinary course of its trading and brokerage activities, Morgan Stanley and its affiliates may at any time hold long or short positions, trade or otherwise effect transactions, for their own accounts or for the accounts of customers, in the equity or debt securities or senior loans of CPILP or Atlantic Power or any currency or commodity related to CPILP or Atlantic Power.

Table of Contents

Pursuant to the terms of its engagement, Atlantic Power has agreed to pay Morgan Stanley a customary fee, a portion of which became payable upon announcement of the execution of the Arrangement Agreement and a significant portion of which is contingent upon the consummation of the transaction. In addition, Morgan Stanley or one or more of its affiliates may provide to Atlantic Power a portion of the financing required in connection with the transaction, for which Morgan Stanley would receive additional fees from Atlantic Power. Atlantic Power has also agreed to reimburse Morgan Stanley for its expenses incurred in performing its services. In addition, Atlantic Power has agreed to indemnify Morgan Stanley and its affiliates, their respective directors, officers, agents and employees and each person, if any, controlling Morgan Stanley or any of its affiliates against certain liabilities and expenses, including certain liabilities under the federal securities laws, related to or arising out of Morgan Stanley's engagement and any related transactions. Morgan Stanley may in the future seek to provide financial advisory or financing services to Atlantic Power and may receive fees for such services.

**Interests of Atlantic Power Directors and Officers in the Plan of Arrangement**

No current Atlantic Power directors or officers own CPILP units. Current Atlantic Power directors and officers will continue to hold their positions at the Combined Company after the Plan of Arrangement.

**Certain Atlantic Power Prospective Financial Information**

Atlantic Power does not as a matter of course make public long-term forecasts as to future performance or other prospective financial information beyond the current fiscal year, and Atlantic Power is especially wary of making forecasts or projections for extended periods due to the unpredictability of the underlying assumptions and estimates. However, as part of the due diligence review of Atlantic Power in connection with the Arrangement Agreement, Atlantic Power's management prepared and provided to CPILP, as well as to TD Securities, Morgan Stanley, CIBC and Greenhill in connection with their respective evaluation of the fairness of the Arrangement Agreement consideration, non-public, internal financial forecasts regarding Atlantic Power's projected future operations for the 2011 through 2015 fiscal years. Atlantic Power has included below a summary of these forecasts for the purpose of providing shareholders and investors access to certain non-public information that was furnished to third parties and such information may not be appropriate for other purposes. These forecasts were also considered by the Atlantic Power board of directors for purposes of evaluating the Plan of Arrangement. The Atlantic Power board of directors also considered non-public, financial forecasts prepared by CPILP regarding CPILP's anticipated future operations for the 2011 through 2015 fiscal years for purposes of evaluating CPILP and the Plan of Arrangement. See "The Arrangement Agreement and Plan of Arrangement Certain CPILP Prospective Financial Information" beginning on page 82 for more information about the forecasts prepared by CPILP.

**The Atlantic Power internal financial forecasts are not guidance and were not prepared with a view toward public disclosure, nor were they prepared with a view toward compliance with published guidelines of the SEC, the guidelines established by the American Institute of Certified Public Accountants for preparation and presentation of financial forecasts, the guidelines established by the Canadian Institute of Chartered Accountants Handbook, rules relating to future oriented financial information under Canadian securities laws or generally accepted accounting principles in the United States or Canada.** KPMG LLP has not examined, compiled or performed any procedures with respect to the accompanying prospective financial information and, accordingly, KPMG LLP does not express an opinion or any other form of assurance with respect thereto. The KPMG LLP reports incorporated by reference in this joint proxy statement relate only to Atlantic Power's historical financial information. They do not extend to the prospective financial information and should not be read to do so. The summary of these internal financial forecasts included below is not being included to influence

Table of Contents

your decision whether to vote for the Arrangement and the transactions contemplated in connection with the Arrangement, but because these internal financial forecasts were provided by Atlantic Power to CPILP and TD Securities, Morgan Stanley, CIBC and Greenhill.

The inclusion of a summary of these internal financial forecasts in this joint proxy statement should not be regarded as an indication that any of Atlantic Power, CPILP or their respective affiliates, advisors or representatives considered these internal financial forecasts to be predictive of actual future events, and these internal financial forecasts should not be relied upon as such nor should the information contained in these internal financial forecasts be considered appropriate for purposes of making investment decisions in relation to Atlantic Power securities or for any other purposes. None of Atlantic Power, CPILP or their respective affiliates, advisors, officers, directors, partners or representatives can give you any assurance that actual results will not differ materially from these internal financial forecasts, and none of them undertakes any obligation to update or otherwise revise or reconcile these internal financial forecasts to reflect circumstances existing after the date these internal financial forecasts were generated or to reflect the occurrence of future events, even in the event that any or all of the assumptions underlying these forecasts are shown to be in error. Since the forecasts cover multiple years, such information by its nature becomes less meaningful and predictive with each successive year. Atlantic Power does not intend to make publicly available any update or other revision to these internal financial forecasts. None of Atlantic Power or its affiliates, advisors, officers, directors, partners or representatives has made or makes any representation to any shareholder or other person regarding Atlantic Power's ultimate performance compared to the information contained in these internal financial forecasts or that the forecasted results will be achieved. Atlantic Power has made no representation to CPILP, in the Arrangement Agreement or otherwise, concerning these internal financial forecasts. The below forecasts do not give effect to the Plan of Arrangement. Atlantic Power urges all shareholders to review Atlantic Power's most recent SEC filings for a description of Atlantic Power's reported financial results.

	Fiscal Year				
	2011	2012	2013	2014	2015
	(US\$ in millions)				
<b>EBITDA</b>	\$ 139.7	\$ 154.0	\$ 158.8	\$ 116.7	\$ 127.4
<b>Distributable Cash Flow</b>	\$ 62.4	\$ 82.1	\$ 76.1	\$ 42.5	\$ 56.9

Atlantic Power's internal financial forecasts above reflect numerous judgments, estimates and assumptions with respect to industry performance, general business, economic, regulatory, market and financial conditions and other future events, as well as matters specific to Atlantic Power's business all of which are difficult to predict and many of which are beyond control. Atlantic Power's internal financial forecasts are subjective in many respects and thus are susceptible to multiple interpretations and periodic revisions based on actual experience and business developments. **As such, internal financial forecasts constitute forward-looking information and are subject to risks and uncertainties that could cause actual results to differ materially from the results forecasted in such projections, including the various risks described under the heading "Risk Factors" in this joint proxy statement and in Atlantic Power's Annual Report on Form 10-K for the year ended December 31, 2010, as updated by Atlantic Power's subsequent Quarterly Reports on Form 10-Q, all of which are filed with the SEC and incorporated by reference into this joint proxy statement. See also "Cautionary Note Regarding Forward-Looking Statements" beginning on page 30 of this joint proxy statement.** There can be no assurance that the forecasted results will be realized or that actual results will not be significantly higher or lower than forecasted. Atlantic Power's internal financial forecasts cannot be considered a reliable predictor of future results and should not be relied upon as such. Atlantic Power's internal financial forecasts cover multiple years and such information by its nature becomes less reliable with each successive year.

Table of Contents

**ATLANTIC POWER DOES NOT INTEND TO UPDATE OR OTHERWISE REVISE THE ABOVE INFORMATION TO REFLECT CIRCUMSTANCES EXISTING AFTER THE DATE WHEN MADE OR TO REFLECT THE OCCURRENCE OF FUTURE EVENTS, EVEN IN THE EVENT THAT ANY OR ALL OF THE ASSUMPTIONS UNDERLYING SUCH INFORMATION ARE NO LONGER APPROPRIATE, EXCEPT AS MAY BE REQUIRED BY APPLICABLE LAW.**

**CPILP's Reasons for the Plan of Arrangement; Recommendations of the Board of Directors of CPILP's General Partner**

At a meeting held on June 19, 2011, after considering, among other things, the oral opinions of CIBC and Greenhill, subsequently confirmed in writing, the full text of which are attached as Annexes D and E, respectively, of this joint proxy statement, the members of the board of directors of the General Partner entitled to vote, being the independent directors, determined unanimously that the Arrangement is in the best interests of CPILP and is fair to the CPILP unitholders and resolved unanimously to recommend to the CPILP unitholders that they vote in favor of the Arrangement. The members of the board of directors of the General Partner entitled to vote also unanimously approved the Arrangement and the execution and performance of the Arrangement Agreement. **Accordingly, the board of directors of the General Partner unanimously recommends that the CPILP unitholders vote "FOR" the approval of the Arrangement Resolution.**

In considering the proposed business combination with Atlantic Power and in making its determination that the Arrangement is advisable and in the best interests of CPILP and its unitholders, the board of directors of the General Partner consulted with its management and financial, legal and other advisors, and considered a variety of factors weighing in favor of or relevant to the Plan of Arrangement, including the factors discussed below.

*Strategic Benefits of the Plan of Arrangement.* The board of directors of the General Partner believes that the combination of Atlantic Power and CPILP should result in significant strategic benefits to the Combined Company, which would benefit CPILP and its unitholders to the extent they receive Atlantic Power common shares of the Combined Company. These strategic benefits include the following:

the creation of a more diversified, larger combined power company than CPILP currently is alone;

the enhancement to Atlantic Power's proven management team by combining it with CPILP's highly qualified operations and other personnel;

the advantages presented by the larger scale and expanded scope of the Combined Company in meeting the challenges facing the power industry in light of current and potential future changes in regulatory, financial and economic conditions affecting the industry;

the benefit of allowing the business of CPILP to grow independently of the Manager, which has its own power generation business, and the additional growth opportunities of the Combined Company;

the complementary nature of the respective products and geographic markets of Atlantic Power and CPILP, and the opportunity created by the transaction to enhance the capabilities of both entities to operate more effectively and efficiently;

the additional growth opportunities presented by the expanded operating platform of the Combined Company and strong and stable cash flows from existing Atlantic Power and CPILP facilities that are expected to support future growth; and

Table of Contents

the expected market capitalization, free cash flow, liquidity and capital structure of the Combined Company relative to CPILP on a stand-alone basis, including the potential for the Combined Company to participate in strategic opportunities that otherwise might not be available to CPILP.

*Financial Benefits of the Plan of Arrangement.* The board of directors of the General Partner believes that the combination of Atlantic Power and CPILP should result in significant financial benefits to CPILP's unitholders and the Combined Company. These financial benefits include the following:

the fact that CPILP unitholders may receive as consideration for their units the Combined Company's common shares, which would allow CPILP unitholders to share in value-creation opportunities of the Combined Company;

the belief that, after completion of the Plan of Arrangement, the Combined Company will have a strong cash generation profile; and

the business operations and prospects of the Combined Company and each of Atlantic Power and CPILP, and the then-current financial market conditions and historical market prices, volatility and trading information with respect to Atlantic Power shares and CPILP units.

*Other Factors Considered.* During the course of its deliberations relating to the Arrangement Agreement, the board of directors of the General Partner considered the following factors in addition to the benefits described above:

the inherent constraints associated with CPILP's current growth structure and the belief that the Combined Company will be well positioned and structured to generate and exploit future growth opportunities;

the prospect of finding it necessary to develop or otherwise replace the management, employee work force and administrative functions performed by the Manager, given that Capital Power had advised CPILP that was considering divesting itself of all of its CPILP interests in order to focus on its own core business;

its analysis and understanding of the business, operations, financial performance, financial condition, earnings, strategy and future prospects of CPILP on a stand-alone basis, and the assessment, based on such analysis and understanding, that the Plan of Arrangement would be more favorable to CPILP and its unitholders in the long-term in light of the potential rewards, risks and uncertainties associated with CPILP continuing to operate as a stand-alone entity;

the reduction of the proposed per share dividend of the Combined Company relative to the per unit distributions of CPILP and the increased sustainability of the Combined Company's dividend over time;

the alternatives available to CPILP if it continued on a stand-alone basis;

the financial analyses reviewed and discussed with the board of directors of the General Partner by representatives of CIBC, as well as the opinion rendered by CIBC to the effect that, as of June 19, 2011 and based upon and subject to the various limitations, qualifications and assumptions set forth in its opinion, the consideration of C\$19.40 per unit in cash or 1.3 Atlantic Power common shares per unit to be received by holders of CPILP pursuant to the Arrangement Agreement was fair from a financial point of view, to such holders units (other than Capital Power and its affiliates);

the financial analyses reviewed and discussed with the board of directors of the General Partner by representatives of Greenhill, as well as the written opinion rendered by Greenhill to the effect that, on June 19, 2011 and based upon and

subject to the various limitations,

Table of Contents

qualifications and assumptions set forth in its written opinion, the purchase price of C\$19.40 per unit in cash or 1.3 Atlantic Power common shares per unit to be paid to holders of CPILP units (other than the General Partner, CPI Investments and Atlantic Power) pursuant to the Arrangement Agreement was fair, from a financial point of view, to such holders;

the fact that the respective shareholders of Atlantic Power and unitholders of CPILP would vote on approval of the transaction, including the fact that the required vote of CPILP unitholders for the adoption of the Arrangement Agreement is (i) at least two-thirds of the votes cast by the unitholders of CPILP, and (ii) a majority of the votes cast by CPILP's unitholders (excluding the General Partner and CPI Investments and their respective associates and affiliates), at a special meeting of CPILP unitholders;

the results of the due diligence investigations of Atlantic Power by CPILP's management and financial, legal and other advisors;

the structure of the Plan of Arrangement and terms and conditions of the Arrangement Agreement, including the commitment by Atlantic Power and CPILP to take all actions to complete the Plan of Arrangement as soon as reasonably possible (see "Summary of the Arrangement Agreement" beginning on page 93); and

the fact that the Arrangement Agreement does not preclude a third party from making a proposal for an acquisition of or business combination with CPILP and that, under certain circumstances more fully described in the sections "Summary of the Arrangement Agreement Covenants Non-Solicitation" on page 100 and "Summary of the Arrangement Agreement Termination of the Arrangement Agreement" on page 102 of this joint proxy statement, CPILP may provide information to and negotiate with such a third party and the board of directors of the General Partner may change its recommendation to CPILP unitholders regarding the transaction with Atlantic Power.

The board of directors of the General Partner weighed these factors against a number of uncertainties, risks and potentially negative factors relevant to the Arrangement Agreement, including:

the challenges inherent in the combination of entities of the size and geographic scope of Atlantic Power and CPILP, the risk of not capturing all of the anticipated synergies and the risk that other anticipated benefits might not be fully realized or may take longer than expected to achieve;

the risk that integration of the two businesses, including the transaction expenses associated with the Plan of Arrangement, may be more costly, and may divert management attention for a greater period of time, than anticipated and that it may be difficult to retain key employees;

the possibility that the efficiencies inherent in Atlantic Power's corporate structure cannot be fully realized for the Combined Company or may take longer to realize than expected;

the risk of not maintaining Atlantic Power's and CPILP's revenues given the challenges facing the power industry in light of changes in regulatory, financial and economic conditions affecting the industry, including possible industry consolidation;

the restrictions on the conduct of CPILP's business during the period between execution of the Arrangement Agreement and the completion of the Plan of Arrangement;

the risk that regulatory agencies may not approve the proposed Plan of Arrangement or may impose terms and conditions on their approvals that adversely affect the business and financial results of the Combined Company;

Table of Contents

the risk that the Plan of Arrangement may not be completed despite the parties' efforts or that completion may be unduly delayed, even if the requisite approval is obtained from Atlantic Power's shareholders and CPILP's unitholders;

the fact that certain provisions of the Arrangement Agreement, although reciprocal, may have the effect of discouraging alternative acquisition transactions involving CPILP, including: (1) the restrictions on CPILP's ability to solicit proposals for alternative transactions; and (2) the requirement that CPILP pay a termination fee of C\$35.0 million to Atlantic Power in certain circumstances following the termination of the Arrangement Agreement;

the increased leverage of the Combined Company which, while believed to be appropriate for a company with the expected earnings profile of the Combined Company, could negatively affect the Combined Company's credit ratings, limit access to credit markets or make such access more expensive and reduce operational and strategic flexibility; and

the other risks described in the sections entitled "Risk Factors" beginning on page 22 and "Cautionary Note Regarding Forward-Looking Statements" beginning on page 30.

The board of directors of the General Partner concluded that the uncertainties, risks and potentially negative factors relevant to the Plan of Arrangement were outweighed by the potential benefits that it expected CPILP and CPILP unitholders would achieve as a result of the Plan of Arrangement.

This discussion of the information and factors considered by the board of directors of the General Partner includes the principal positive and negative factors considered by the board of directors, but is not intended to be exhaustive and may not include all of the factors considered. The board of directors of the General Partner did not quantify or assign any relative or specific weights to the various factors that it considered in reaching its determination that the Arrangement Agreement and the Arrangement is in the best interests of CPILP and is fair to the CPILP unitholders. Rather, the board of directors of the General Partner viewed its position and recommendation as being based on the totality of the information presented to it and the factors it considered. In addition, individual members of the board of directors of the General Partner may have given differing weights to different factors. It should be noted that this explanation of the reasoning of the board of directors of the General Partner and certain information presented in this section is forward-looking in nature and, therefore, that information should be read in light of the factors discussed in the section entitled "Cautionary Note Regarding Forward-Looking Statements" in this joint proxy statement, beginning on page 30.

**Opinions of CPILP's Financial Advisors**

*Opinion of CIBC World Markets Inc.*

CIBC rendered its opinion to the board of directors of the General Partner that, as of June 19, 2011 and based upon and subject to the assumptions, limitations and qualifications set forth therein, the consideration to be received by holders of CPILP units, pursuant to the Arrangement Agreement was fair from a financial point of view to such holders (other than Capital Power and its affiliates).

**The full text of the written opinion of CIBC, dated June 19, 2011, which sets forth assumptions made, procedures followed, matters considered and limitations on the review undertaken in connection with the opinion, is attached as Annex D to this joint proxy statement. CIBC provided its opinion for the information and assistance of the board of directors of CPILP's general partner in connection with its consideration of the Plan of Arrangement and was one of a number of factors taken into consideration by the board of directors of the General Partner in making its unanimous determination that the offer is in the best interests of CPILP and is fair to the unitholders and to recommend that CPILP unitholders vote in favor of the Arrangement. The CIBC opinion does not constitute a**

Table of Contents

**recommendation as to how any CPILP unitholder should vote with respect to the Plan of Arrangement or any other matter.**

***Opinion of Greenhill & Co. Canada Ltd.***

The board of directors of the General Partner retained Greenhill to act as a financial advisor to the board of directors of the General Partner in connection with the Plan of Arrangement and to render to the board of directors of the General Partner an opinion as to the fairness to the holders of CPILP units (other than the General Partner, CPI Investments and Atlantic Power) of the purchase price pursuant to the Arrangement Agreement to be paid to such holders. At the meeting of the board of directors of CPILP's general partner on June 19, 2011, Greenhill rendered its opinion to the board of directors of CPILP's general partner to the effect that, as of that date and based upon and subject to various limitations, qualifications and assumptions set forth in its written opinion, the purchase price pursuant to the Arrangement Agreement to be paid to the holders of CPILP units (other than the General Partner, CPI Investments and Atlantic Power), was fair, from a financial point of view, to such holders.

**The full text of the written opinion of Greenhill, dated as of June 19, 2011, is attached as Annex E to this joint proxy statement. Greenhill's opinion sets forth, among other things, the assumptions made, procedures followed, matters considered and limitations and qualifications on the scope of the review undertaken by Greenhill in rendering its opinion. CPILP encourages its unitholders to read the opinion carefully and in its entirety. Greenhill's opinion was directed to the board of directors of CPILP's general partner and addresses only the fairness from a financial point of view of the purchase price to the CPILP unitholders (other than the General Partner, CPI Investments and Atlantic Power), as of the date of the opinion. It does not address any other aspects of the Plan of Arrangement and does not constitute a recommendation as to how any holder of CPILP unit should vote on the Arrangement or any matter related thereto.**

**Interests of CPILP Directors and Officers in the Plan of Arrangement**

Certain of the directors and officers of the general partner of CPILP are also officers and/or directors of Capital Power and its affiliates and are not considered to be independent of CPILP within the meaning of applicable Canadian securities laws. Capital Power and its affiliates have interests in the Plan of Arrangement and certain other transactions to be completed in connection with the Plan of Arrangement that are different from, or in addition to, the interests of the other CPILP unitholders. See "Canadian Securities Law Matters" beginning on page 85.

The board of directors of the General Partner was aware of and considered these interests, among other matters, in evaluating the Plan of Arrangement, and in recommending that CPILP unitholders vote in favor of the Arrangement Resolution. The members of the board of directors of the General Partner who are officers and/or directors of Capital Power and its affiliates did not participate in the vote to approve the Arrangement, as a result of the potential conflict of interest presented by their positions with Capital Power and its affiliates.

The following table indicates, as of the date hereof, the number of CPILP units beneficially owned, directly or indirectly, or over which control or direction is exercised, by: (i) each director and officer of CPILP; (ii) each associate or affiliate of an insider of CPILP; (iii) each associate or affiliate of CPILP; (iv) each insider of CPILP (other than a director or officer of CPILP); and (v) each person acting

Table of Contents

jointly or in concert with CPILP, and the maximum amount of potential cash consideration payable to each pursuant to the Plan of Arrangement:

Name	Position with CPILP	CPILP Units	Maximum Amount of Potential Cash Consideration

Yale Loh	Vice President, Treasurer		n/a
Capital Power Corporation(1)	Unitholder	16,513,504	\$ 320,361,978

- (1) Capital Power indirectly owns 49% of the voting interests and all of the economic interests in CPI Investments. EPCOR owns the remaining 51% voting interest in CPI Investments. CPI Investments owns 16,513,504 CPILP units. Under the Plan of Arrangement, Atlantic Power will acquire all of the outstanding shares of CPI Investments on effectively the same basis as the acquisition of CPILP units under the Plan of Arrangement.

The current directors and officers of the General Partner will resign their positions in connection with the Plan of Arrangement.

#### Certain CPILP Prospective Financial Information

CPILP does not as a matter of course make public long-term forecasts as to future performance or other prospective financial information beyond the current fiscal year, and CPILP is especially wary of making forecasts or projections for extended periods due to the unpredictability of the underlying assumptions and estimates. However, as part of the due diligence review of CPILP in connection with the Plan of Arrangement, CPILP's management prepared and provided to Atlantic Power, as well as to TD Securities, Morgan Stanley, CIBC and Greenhill in connection with their respective evaluation of the fairness of the Arrangement Agreement consideration, non-public, internal financial forecasts regarding CPILP's projected future operations for the 2011 through 2015 fiscal years. CPILP has included below a summary of these forecasts for the purpose of providing unitholders and investors access to certain non-public information that was furnished to third parties and such information may not be appropriate for other purposes. These forecasts were also considered by the CPILP's general partner's board of directors for purposes of evaluating the Plan of Arrangement. The CPILP's general partner's board of directors also considered non-public, financial forecasts prepared by Atlantic Power regarding Atlantic Power's anticipated future operations for the 2011 through 2015 fiscal years for purposes of evaluating Atlantic Power and the Plan of Arrangement. See "The Arrangement Agreement and Plan of Arrangement Certain Atlantic Power Prospective Financial Information" beginning on page 75 for more information about the forecasts prepared by Atlantic Power.

**The CPILP internal financial forecasts are not guidance and were not prepared with a view toward public disclosure, nor were they prepared with a view toward compliance with published guidelines of the SEC, the guidelines established by the American Institute of Certified Public**

Table of Contents

**Accountants for preparation and presentation of financial forecasts, the guidelines established by the Canadian Institute of Chartered Accountants Handbook, rules relating to future oriented financial information under Canadian securities laws or generally accepted accounting principles in the United States or Canada.** KPMG has not examined, compiled or performed any procedures with respect to the accompanying prospective financial information and, accordingly, KPMG does not express an opinion or any other form of assurance with respect thereto. The KPMG reports incorporated by reference in this joint proxy statement relate to CPILP's historical financial information. They do not extend to the prospective financial information and should not be read to do so. The summary of these internal financial forecasts included below is not being included to influence your decision whether to vote for the Arrangement and the transactions contemplated in connection with the Arrangement, but because these internal financial forecasts were provided by CPILP to Atlantic Power and TD Securities, Morgan Stanley, CIBC and Greenhill.

The inclusion of a summary of these internal financial forecasts in this joint proxy statement should not be regarded as an indication that any of CPILP, Atlantic Power or their respective affiliates, advisors or representatives considered these internal financial forecasts to be predictive of actual future events, and these internal financial forecasts should not be relied upon as such nor should the information contained in these internal financial forecasts be considered appropriate for purposes of making investments decisions in relation to CPILP units or for any other purposes. None of Atlantic Power, CPILP or their respective affiliates, advisors, officers, directors, partners or representatives can give you any assurance that actual results will not differ materially from these internal financial forecasts, and none of them undertakes any obligation to update or otherwise revise or reconcile these internal financial forecasts to reflect circumstances existing after the date these internal financial forecasts were generated or to reflect the occurrence of future events, even in the event that any or all of the assumptions underlying these forecasts are shown to be in error. Since the forecasts cover multiple years, such information by its nature becomes less meaningful and predictive with each successive year. CPILP does not intend to make publicly available any update or other revision to these internal financial forecasts. None of CPILP or its affiliates, advisors, officers, directors, partners or representatives has made or makes any representation to any shareholder or other person regarding CPILP's ultimate performance compared to the information contained in these internal financial forecasts or that the forecasted results will be achieved. CPILP has made no representation to Atlantic Power, in the Arrangement Agreement or otherwise, concerning these internal financial forecasts. The below forecasts do not give effect to the Plan of Arrangement. CPILP urges all unitholders to review CPILP's financial statements included elsewhere in this joint proxy statement in Schedules IV and V.

	Fiscal Year				
	2011	2012	2013	2014	2015

<b>EBITDA</b>	\$ 205.2	\$ 215.2	\$ 219.7	\$ 219.7	\$ 234.3
<b>Cash available for distribution</b>	\$ 122.3	\$ 136.3	\$ 130.7	\$ 135.3	\$ 134.1

CPILP's internal financial forecasts above reflect numerous judgments, estimates and assumptions with respect to industry performance, general business, economic, regulatory, market and financial conditions and other future events, as well as matters specific to CPILP's business as set out in CPILP's "Forward Looking Statements" contained in Schedule II to this joint proxy statement, which schedule is incorporated by reference into this joint proxy statement. All of these assumptions and estimates are difficult to predict and many of which are beyond control. CPILP's internal financial forecasts are subjective in many respects and thus are susceptible to multiple interpretations and periodic revisions based on actual experience and business developments. **As such, internal financial forecasts constitute forward-looking information and are subject to risks and uncertainties that could cause actual results to differ materially from the results forecasted in such projections, including the various risks and uncertainties described under the heading "Risk Factors" beginning on**

Table of Contents

**Schedule I-26 and "Business Risks" beginning on Schedule II-34, as well as the risk factors set forth elsewhere in this joint proxy statement and also under the heading "Cautionary Note Regarding Forward-Looking Statements" beginning on page 30 of this joint proxy statement and CPILP's "Forward-Looking Information" contained in Schedule II of this joint proxy statement, which is incorporated herein by reference.** There can be no assurance that the forecasted results will be realized or that actual results will not be significantly higher or lower than forecasted. CPILP's internal financial forecasts cannot be considered a reliable predictor of future results and should not be relied upon as such. CPILP's internal financial forecasts cover multiple years and such information by its nature becomes less reliable with each successive year.

**CPILP DOES NOT INTEND TO UPDATE OR OTHERWISE REVISE THE ABOVE INFORMATION TO REFLECT CIRCUMSTANCES EXISTING AFTER THE DATE WHEN MADE OR TO REFLECT THE OCCURRENCE OF FUTURE EVENTS, EVEN IN THE EVENT THAT ANY OR ALL OF THE ASSUMPTIONS UNDERLYING SUCH INFORMATION ARE NO LONGER APPROPRIATE, EXCEPT AS MAY BE REQUIRED BY APPLICABLE LAW.**

**Accounting Treatment of the Arrangement**

Atlantic Power will account for the acquisition using the acquisition method of accounting, as prescribed in Accounting Standards Codification 805, "Business Combinations," under US generally accepted accounting principles.

**Court Approval Required for the Plan of Arrangement**

*Interim Order*

On \_\_\_\_\_, 2011, the Court of Queen's Bench of Alberta (the "**Court**") granted the Interim Order facilitating the calling of the CPILP special meeting and prescribing the conduct of the CPILP special meeting and other matters. The Interim Order is attached hereto as Annex H to this joint proxy statement.

*Final Order*

The CBCA provides that an arrangement requires court approval. Subject to the terms of the Arrangement Agreement, and if the Arrangement Resolution is approved by CPILP unitholders at the CPILP special meeting in the manner required by the Interim Order, CPILP and the General Partner, as general partner of CPILP, will make an application to the Court for a final order (the "**Final Order**").

The application for the Final Order approving the Arrangement is scheduled for \_\_\_\_\_, 2011 at \_\_\_\_\_ (Calgary time), at Calgary, Alberta, or as soon thereafter as counsel may be heard in Calgary, Alberta. The notice of application in respect of the Final Order is attached hereto as Annex I. At the hearing, the Court will consider, among other things, the fairness and reasonableness of the terms of the Arrangement, including the fairness of the Arrangement to CPILP unitholders. At the hearing, any CPILP unitholder and any other interested party who wishes to participate or to be represented or to present evidence or argument may do so, subject to filing with the Court and serving upon CPILP and Atlantic Power a notice of intention to appear together with any evidence or materials which such party intends to present to the Court on or before \_\_\_\_\_, 2011. **Service of such notice will be effected by service upon the General Partner's legal counsel, Fraser Milner Casgrain LLP, Bankers Court, 15<sup>th</sup> Floor, 850-2<sup>nd</sup> Street SW, Calgary, Alberta T2P 0R8, Attention: Brian Foster with a copy to Atlantic Power's legal counsel, Goodmans LLP, 333 Bay Street, Suite 3400, Toronto, Ontario M5H 2S7, Attention: Tom Friedland and Jason Wadden.**

Table of Contents

The Court has broad discretion under the CBCA when making orders with respect to the Arrangement and that the Court will consider, among other things, the fairness and reasonableness of the Arrangement, both from a substantive and a procedural point of view. The Court may approve the Arrangement, either as proposed or as amended, in any manner the Court may direct, subject to compliance with such terms and conditions, if any, as the Court thinks fit. Depending upon the nature of any required amendments, CPILP, the General Partner, CPI Investments and Atlantic Power may determine not to proceed with the Arrangement.

If made, the Final Order will constitute the basis for an exemption, under Section 3(a)(10) of the Securities Act, from the registration requirements of the Securities Act with respect to the Plan of Arrangement and the Court will be so advised in advance.

**Canadian Securities Law Matters**

*Ongoing Canadian Reporting Obligations*

CPILP is a reporting issuer (or the equivalent) in all of the provinces and territories of Canada. CPILP units currently trade on the TSX. After the Plan of Arrangement, Atlantic Power intends to delist the CPILP units from the TSX. The preferred shares of CPI Preferred Equity Ltd. will remain outstanding and listed on the TSX.

*Special Transaction Rules*

The Ontario and Quebec securities commissions have adopted Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions* ("**MI 61-101**"), which governs transactions that raise the potential for conflicts of interest, including issuer bids, insider bids, related party transactions and business combinations.

For the reasons set out in the following paragraph, the Plan of Arrangement will constitute a "business combination" under MI 61-101 and the Arrangement Resolution will require "minority approval" in accordance with MI 61-101. The Arrangement Resolution will have to be approved by a simple majority of the votes cast by the CPILP unitholders, excluding those votes required to be excluded pursuant to the minority approval provisions of MI 61-101, being the votes of "interested parties" and their related parties and joint actors, which include CPI Investments and the General Partner. This approval is in addition to the requirement that the Arrangement Resolution must be approved by not less than 66<sup>2</sup>/<sub>3</sub>% of the votes cast by the unitholders of CPILP that vote in person or by proxy at the CPILP special meeting.

As part of the Plan of Arrangement, an affiliate of Capital Power will acquire CPILP's Southport and Roxboro facilities in North Carolina. In addition, certain management and operations agreements between Capital Power and its subsidiaries and CPILP and its subsidiaries will be terminated and/or assigned in consideration for the payment by CPILP and its subsidiaries of C\$10.0 million. See "Summary of the Arrangement Agreement Summaries of Other Agreements Relating to the Arrangement Management Agreements Termination Agreement and Management Agreement Assignment Agreement" beginning on page 106. Capital Power and its subsidiaries are "related parties" of CPILP within the meaning of MI 61-101 and the sale of the North Carolina facilities and the termination and/or assignment of the management and operations agreements would constitute "connected transactions" (collectively, the "**Connected Transactions**") within the meaning of MI 61-101. Accordingly, the Plan of Arrangement will constitute a "business combination" for CPILP under MI 61-101.

As a result of the foregoing, the votes attaching to CPILP units beneficially owned, or over which control or direction is exercised, by CPI Investments and the General Partner, representing approximately 29.18% of the outstanding CPILP units, will be excluded in determining whether minority approval of the Arrangement Resolution has been obtained.

Table of Contents

The Plan of Arrangement is exempt from the formal valuation requirements of MI 61-101 for certain "business combinations" on the basis that at the time the Connected Transactions were agreed to, neither the fair market value of the subject matter of, nor the fair market value of the consideration for, the Connected Transactions, exceeded 25% of CPILP's market capitalization.

The foregoing was reviewed by the independent directors of the General Partner in connection with their review and approval process for the Plan of Arrangement. See "The Arrangement Agreement and Plan of Arrangement CPILP's Reasons for the Plan of Arrangement; Recommendations of the Board of Directors of CPILP's General Partner" beginning on page 77.

To the knowledge of CPILP and Atlantic Power, there have been no prior valuations of CPILP or Atlantic Power, the CPILP units or the Atlantic Power common shares, or the material assets of CPILP or Atlantic Power in the 24 months prior to the date of this joint proxy statement.

*Judicial Developments*

The Plan of Arrangement will be implemented pursuant to section 192 of the CBCA, which provides that, where it is not practicable for a corporation to effect a fundamental change in the nature of an arrangement under any other provisions of the CBCA, a corporation may apply to a court for an order approving the Plan of Arrangement proposed by such corporation. Pursuant to this section of the CBCA, such an application will be made by CPILP and the General Partner for approval of the Plan of Arrangement. See above under the heading " Court Approval Required for the Plan of Arrangement." Although there have been a number of judicial decisions considering this section of the CBCA and applications to various arrangements, there have not been, to the knowledge of CPILP or Atlantic Power, any recent significant decisions which would apply in this instance. **CPILP unitholders should consult their legal advisors with respect to the legal rights available to them in relation to the Plan of Arrangement.**

*Restrictions on Sales of Shares (Canada)*

The Atlantic Power common shares to be issued in exchange for CPILP units pursuant to the Plan of Arrangement will be issued in reliance upon exemptions from the prospectus requirements of securities legislation in each province and territory of Canada. Subject to customary restrictions applicable to distributions of shares that constitute "control distributions," Atlantic Power common shares issued pursuant to the Plan of Arrangement may be freely resold in each province and territory in Canada, subject to the conditions that: (i) no unusual effort has been made to prepare the market or create a demand for the common shares, (ii) no extraordinary commission or consideration is paid to a person or company in respect of the trade and (iii) if the selling securityholder is an insider or officer of Atlantic Power, the selling securityholder has no reasonable grounds to believe that Atlantic Power is in default of securities legislation.

**United States Securities Law Matters**

The Atlantic Power common shares to be issued pursuant to the Plan of Arrangement will not be registered under the Securities Act or the securities laws of any state of the United States and will be issued in reliance upon the exemption from registration set forth in Section 3(a)(10) of the Securities Act. Section 3(a)(10) of the Securities Act exempts from registration the distribution of a security that is issued in exchange for outstanding securities where the terms and conditions of such issuance and exchange are approved, after a hearing on the fairness of such terms and conditions at which all persons to whom it is proposed to issue securities in such exchange have the right to appear, by a court or by a governmental authority expressly authorized by law to grant such approval. Accordingly, Atlantic Power expects the Final Order of the Court will, if granted, constitute a basis for the

Table of Contents

exemption from the registration requirements of the Securities Act with respect to the Atlantic Power common shares issued in connection with the Plan of Arrangement.

The Atlantic Power common shares received by persons who will be an "affiliate" of Atlantic Power after the Plan of Arrangement will be subject to certain restrictions on resale in the U.S. imposed by the Securities Act. As defined in Rule 144 under the Securities Act, an "affiliate" of an issuer is a person that, directly or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with, the issuer and may include certain officers and directors of such issuer as well as principal shareholders of such issuer. Persons who are not affiliates after the Plan of Arrangement may resell the Atlantic Power common shares that they receive in connection with the Plan of Arrangement in the United States without restriction under the Securities Act.

Persons who are affiliates of Atlantic Power after the Plan of Arrangement may not sell their Atlantic Power common shares that they receive in connection with the Plan of Arrangement in the absence of registration under the Securities Act, unless an exemption from registration is available, such as the exemptions contained in Rule 144 or Rule 904 of Regulation S under the Securities Act, as described below.

*Affiliates Rule 144.* In general, under Rule 144, persons who are affiliates of Atlantic Power after the Plan of Arrangement will be entitled to sell in the United States, during any three-month period, a portion of the Atlantic Power common shares that they receive in connection with the Plan of Arrangement, provided that the sale meets certain requirements. The number of such securities sold during such period may not exceed the greater of one percent of the then-outstanding securities of such class or, if such securities are listed on a United States securities exchange, the average weekly trading volume of such securities during the four-week period preceding the date of sale. The seller also must have held the Atlantic Power common shares for at least one year. In addition, the sale is subject to specified restrictions on manner of sale, notice requirements, aggregation rules and the availability of current public information about Atlantic Power. Persons who are affiliates of Atlantic Power after the Plan of Arrangement will continue to be subject to the resale restrictions described in this paragraph for so long as they continue to be affiliates of Atlantic Power.

*Affiliates Regulation S.* In general, under Regulation S, persons who are affiliates of Atlantic Power solely by virtue of their status as an officer or director of Atlantic Power may sell their Atlantic Power common shares outside the United States in an "offshore transaction" (which would include a sale through the TSX, if applicable) if neither the seller nor any person acting on its behalf engages in "directed selling efforts" in the United States. In the case of a sale of Atlantic Power common shares received in connection with the Plan of Arrangement by an officer or director who is an affiliate of Atlantic Power solely by virtue of holding such position, there is also a requirement that no selling commission, fee or other remuneration is paid in connection with such sale other than a usual and customary broker's commission. For purposes of Regulation S, "directed selling efforts" means "any activity undertaken for the purpose of, or that could reasonably be expected to have the effect of, conditioning the market in the United States for any of the securities being offered" in the sale transaction. Certain additional restrictions are applicable to a holder of Atlantic Power common shares received in connection with the Plan of Arrangement, who is an affiliate of Atlantic Power after the Plan of Arrangement other than by virtue of his or her status as an officer or director of Atlantic Power.

This document does not cover any resales of shares of Atlantic Power's common shares received in the Plan of Arrangement by any person who may be deemed an affiliate of Atlantic Power following completion of the Plan of Arrangement.

Table of Contents

**Stock Exchange Approvals**

Atlantic Power common shares currently trade on the TSX and NYSE. Atlantic Power will also apply to list Atlantic Power common shares issuable under the Plan of Arrangement on the NYSE and the TSX, and it is a condition to the completion of the Plan of Arrangement that Atlantic Power shall have obtained approval for these listings.

**Regulatory Approvals Required for the Plan of Arrangement and Other Regulatory Matters**

Atlantic Power and CPILP have agreed to use their reasonable best efforts to obtain all governmental and regulatory approvals required to complete the transactions contemplated by the Arrangement Agreement.

***Investment Canada Act (Canada)***

Subject to certain limited exceptions, the direct acquisition of control of a Canadian business by a non-Canadian that exceeds a financial threshold prescribed under Part IV of the *Investment Canada Act* (a "**Reviewable Transaction**") cannot be implemented unless the transaction has been reviewed by the Minister responsible for the *Investment Canada Act* (the "**Minister**") and the Minister is satisfied or is deemed to be satisfied that the transaction is likely to be of net benefit to Canada (the "**net benefit ruling**"). Accordingly, in the case of a Reviewable Transaction, a non-Canadian purchaser must submit an application to the Minister (an "**Application for Review**") seeking approval of the Reviewable Transaction and cannot complete the transaction until it receives a net benefit ruling. The submission of the Application for Review triggers an initial review period of up to 45 days. If the Minister has not completed the review by that date, the Minister may unilaterally extend the review period for up to a further 30 days. If necessary, the Minister and the purchaser may agree to further extensions of the review period.

In determining whether to issue a net benefit ruling, the Minister is required to consider, among other things, the Application for Review and any written undertakings offered by the purchaser to Her Majesty in right of Canada. The prescribed factors that the Minister must consider when determining whether to issue a net benefit ruling include, among other things, the effect of the investment on the economic activity in Canada (including the effect on employment, resource processing, utilization of Canadian products and services and exports), the participation by Canadians in the acquired business, the effect of the investment on productivity, industrial, efficiency, technological development, product innovation, product variety and competition in Canada, the compatibility of the investment with national and provincial industrial, economic and cultural policies, and the contribution of the investment to Canada's ability to compete in world markets.

If, following his review during the initial review period or the extension(s) described above, the Minister is not satisfied or deemed to be satisfied that the Reviewable Transaction is likely to be of net benefit to Canada, the Minister is required to send a notice to that effect to the purchaser, advising the purchaser of its right to make further representations and submit (additional) undertakings within 30 days from the date of such notice or any further period that may be agreed to by the purchaser and the Minister.

At any time, and in any event within a reasonable time after the expiry of the last-mentioned period for making representations and submitting undertakings described above, the Minister shall send a notice to the purchaser that either the Minister is satisfied that the investment is likely to be of net benefit to Canada (i.e., a net benefit ruling) or confirmation that the Minister is not satisfied that the investment is likely to be of net benefit to Canada. In the latter case, the Reviewable Transaction may not be implemented.

Table of Contents

The Plan of Arrangement is a Reviewable Transaction. An Application for Review under the *Investment Canada Act* was filed by Atlantic Power in due course.

***Competition Act (Canada)***

Part IX of the *Competition Act* (Canada) (the "**Competition Act**") requires that, subject to certain limited exceptions, the Commissioner of Competition ("**Commissioner**") be notified of certain classes of transactions that exceed the thresholds set out in Sections 109 and 110 of the Competition Act ("**Notifiable Transactions**") by the parties to the transaction.

The parties to a Notifiable Transaction cannot complete the transaction until they have submitted the information prescribed pursuant to subsection 114(1) of the Competition Act to the Commissioner and the applicable waiting period has expired or been terminated or waived by the Commissioner, provided that there is no order in effect prohibiting completion at the relevant time.

Atlantic Power filed with the Commissioner a request for an advance ruling certificate, pursuant to subsection 102(1) of the Competition Act, or in the alternative a no-action letter and a waiver from merger notification on \_\_\_\_\_, 2011. On \_\_\_\_\_, 2011, the Commissioner issued an advance ruling certificate or a "no-action" letter and waiver from merger notification in respect of the Plan of Arrangement, providing that, as at such date, the Commissioner does not intend to challenge the transaction by making an application under Section 92 of the Competition Act. The "no-action" letter acknowledges that the Commissioner reserves the right to challenge the Plan of Arrangement up to one year after it has been substantially completed.

***HSR Act***

Under the *Hart-Scott-Rodino Antitrust Improvements Act of 1976*, as amended (the "**HSR Act**"), certain transactions may not be completed until each party has filed a Notification and Report Form with the Antitrust Division of the US Department of Justice (the "**DOJ**") and with the US Federal Trade Commission (the "**FTC**") and the HSR Act's waiting period has expired or early termination of the waiting period has been granted. The transactions contemplated by the Plan of Arrangement are subject to the HSR Act.

Atlantic Power and CPILP filed the requisite Notification and Report Forms on \_\_\_\_\_, 2011. The waiting period expired on \_\_\_\_\_, 2011. The expiration or early termination of the waiting period does not bar the FTC or the DOJ from subsequently challenging the Plan of Arrangement.

At any time before or after the Plan of Arrangement is completed, the DOJ, the FTC, or others (including states and private parties) could attempt to take action under the antitrust laws, including seeking to prevent the Plan of Arrangement, to rescind the Plan of Arrangement, or to conditionally approve the completion of the Plan of Arrangement upon the divestiture of assets of Atlantic Power and CPILP. There can be no assurance that a challenge to the transactions contemplated by the Plan of Arrangement on antitrust grounds will not be made or, if a challenge is made, that it would not be successful.

***Federal Power Act***

Atlantic Power and CPILP each have public utility subsidiaries subject to the jurisdiction of the Federal Energy Regulatory Commission ("**FERC**"), under the *Federal Power Act* ("**FPA**"). Section 203 of the FPA provides that no holding company in a holding company system that includes a transmitting utility or an electric utility may purchase, acquire, merge or consolidate with a transmitting utility, an electric utility company or a holding company in a holding company system that includes a transmitting utility or electric utility company without prior FERC authorization. Further, Section 203 requires prior authorization from the FERC for certain transactions resulting in the direct or indirect change of

Table of Contents

control over a FERC jurisdictional public utility. Consequently, the FERC's approval of the Plan of Arrangement under Section 203 of the FPA is required.

The FERC must authorize the Plan of Arrangement if it finds that the Plan of Arrangement is consistent with the public interest. The FERC has stated that, in analyzing a merger or transaction under Section 203 of the FPA, it will evaluate the impact of the Plan of Arrangement on:

competition in electric power markets;

the applicants' wholesale rates; and

state and federal regulation of the applicants.

In addition, in accordance with the *Energy Policy Act of 2005*, the FERC also must find that the Plan of Arrangement will not result in the cross-subsidization by utilities of their non-utility affiliates or the improper encumbrance or pledge of utility assets. If such cross-subsidization or encumbrances were to occur as a result of the Plan of Arrangement, the FERC then must find that such cross-subsidization or encumbrances are consistent with the public interest.

The FERC will review these factors to determine whether the Plan of Arrangement is consistent with the public interest. If the FERC finds that a transaction would adversely affect competition in wholesale electric power markets, rates for transmission or the wholesale sale of electric energy, or regulation, or that the transaction would result in cross-subsidies or improper encumbrances that are not consistent with the public interest, it may, pursuant to the FPA, impose upon the proposed transaction remedial conditions intended to mitigate such effects or it may decline to authorize the transaction. The FERC is required to rule on a completed Section 203 application not later than 180 days from the date on which the completed application is filed. The FERC may, however, for good cause, issue an order extending the time for consideration of the Section 203 application by an additional 180 days. If the FERC does not issue an order within the statutory deadline, then the transaction is deemed to be approved. Atlantic Power and CPILP expect that the FERC will approve the Plan of Arrangement within the initial 180-day review period. However, there is no guarantee that the FERC will not extend the time period for its review or not impose conditions on its approval that are unacceptable to Atlantic Power or CPILP.

Atlantic Power and CPILP and their respective public utility subsidiaries filed their application under Section 203 on \_\_\_\_\_, 2011.

**General**

In connection with obtaining the approval of all necessary governmental authorities to complete the Plan of Arrangement, including but not limited to the governmental authorities specified above, there can be no assurance that:

governmental authorities will not impose any conditions on the granting of their approval and, if such conditions are imposed, that CPILP or Atlantic Power will be able to satisfy or comply with such conditions;

compliance or non-compliance will not have adverse consequences on the Combined Company after completion of the Plan of Arrangement; or

the required regulatory approvals will be obtained within the time frame contemplated by Atlantic Power and CPILP or on terms that will be satisfactory to Atlantic Power and CPILP.

Atlantic Power and CPILP cannot assure you that a regulatory challenge to the Plan of Arrangement will not be made or that, if a challenge is made, it will not prevail.

Table of Contents

In the event that a governmental approval imposes conditions on, or requires divestitures relating to, the operations or assets of Atlantic Power or CPILP, each party has agreed that the other party would not be required, or permitted without prior written consent, to take any actions with respect to such conditions or divestitures if such actions would, or would reasonably be expected to, result (after giving effect to any reasonably expected proceeds of any divestiture or sale of assets) in a Material Adverse Effect on the Combined Company. See "Summary of the Arrangement Agreement Conditions Precedent to the Plan of Arrangement" on page 94.

**Listing of Atlantic Power Shares**

Following the completion of the Plan of Arrangement, Atlantic Power intends to maintain its listings on the NYSE and TSX under the symbols "AT" and "ATP," respectively, and the preferred shares of CPI Preferred Equity Ltd. will remain outstanding and listed on the TSX.

**Appraisal/Dissent Rights**

The holders of Atlantic Power common shares are not entitled to dissent rights in connection with the Share Issuance Resolution.

The unitholders of CPILP are not entitled to dissent rights in connection with the Arrangement Resolution.

**Litigation Related to the Plan of Arrangement**

None.

**Effect of the Plan of Arrangement on CPILP's Other Securities**

*Preferred Shares of CPI Preferred Equity Ltd.*

CPI Preferred Equity Ltd., a subsidiary of CPILP, is authorized to issue an unlimited number of preferred shares issuable in series, of which up to 5,750,000 Cumulative Redeemable Preferred Shares, Series 1 (the "**Series 1 Shares**"), 4,000,000 Cumulative Rate Reset Preferred Shares, Series 2 (the "**Series 2 Shares**") and 4,000,000 Cumulative Floating Rate Preferred Shares, Series 3 (the "**Series 3 Shares**") have been authorized for issuance.

As of the date hereof, CPI Preferred Equity Ltd. has issued 5,000,000 Series 1 Shares, 4,000,000 Series 2 Shares and no Series 3 Shares. The Series 1 Shares trade on the TSX under the symbol CZP.PR.A and the Series 2 Shares trade on the TSX under the symbol CZP.PR.B. CPILP has agreed to fully and unconditionally guarantee the Series 1 Shares, Series 2 Shares and Series 3 Shares on a subordinated basis as to: (i) payment of dividends, as and when declared; (ii) payment of amounts due on redemption; and (iii) payment of amounts due on liquidation, dissolution or winding up of CPI Preferred Equity Ltd. If, and for so long as, the declaration or payment of dividends on the Series 1 Shares, Series 2 Shares or Series 3 Shares is in arrears, CPILP will not make any distributions on the CPILP units. See "Capital Structure Preferred Shares of CPEL" beginning on Schedule I-37.

The Series 1 Shares and Series 2 Shares will remain outstanding following completion of the Plan of Arrangement in accordance with their terms. CPILP will continue to guarantee the Series 1 Shares, Series 2 Shares and Series 3 Shares on the same terms and conditions as described above and Atlantic Power will provide substantially similar guarantees in the forms attached as Schedule J to the Arrangement Agreement.

Table of Contents

*Medium Term Notes of CPILP*

CPILP has issued C\$210.0 million of 5.95% unsecured medium term notes due June 23, 2036 under a note indenture dated June 15, 2006. See "Capital Structure Debt Financing" beginning on Schedule I-38. The medium term notes will remain outstanding following completion of the Plan of Arrangement in accordance with their terms and the terms of the note indenture.

*Senior Notes of CPI Power (US) GP*

CPI Power (US) GP, a subsidiary of CPILP, has issued an aggregate of \$150.0 million principal amount of 5.87% Senior Notes due August 15, 2017 and an aggregate of \$75.0 million principal amount of 5.97% Senior Notes due August 15, 2019, each guaranteed by CPILP. See "Capital Structure Debt Financing" beginning on Schedule I-38. The senior notes will remain outstanding following completion of the Plan of Arrangement in accordance with their terms and will continue to be guaranteed by CPILP.

*Curtis Palmer Notes*

Curtis Palmer LLC, a subsidiary of CPILP, has issued \$190.0 million principal amount of 5.9% Senior Notes due July 15, 2014 pursuant to an indenture dated June 28, 2004 among CPILP, Curtis Palmer LLC and Deutsche Bank Trust Company Americas. See "Material Contracts" beginning on Schedule I-80. The notes will remain outstanding following completion of the Plan of Arrangement in accordance with their terms and the terms of the indenture.

Table of Contents

**SUMMARY OF THE ARRANGEMENT AGREEMENT**

*The transaction will be carried out pursuant to the Arrangement Agreement and the Plan of Arrangement. The following is a summary of the principal terms of the Arrangement Agreement and Plan of Arrangement. This summary does not purport to be complete and is qualified in its entirety by reference to the Arrangement Agreement, which is attached as Annex A to this joint proxy statement, and the Plan of Arrangement, which is attached as Schedule A to the Arrangement Agreement. Capitalized terms used in this section and not otherwise defined in this joint proxy statement have the meaning ascribed to them in the Arrangement Agreement.*

On June 20, 2011, Atlantic Power, the General Partner, CPI Investments and CPILP entered into the Arrangement Agreement, pursuant to which the parties agreed that, subject to the terms and conditions set forth in the Arrangement Agreement, Atlantic Power will acquire all of the issued and outstanding CPILP units (directly, or indirectly through the acquisition of all of the outstanding shares of CPI Investment). Upon completion of the Plan of Arrangement, for each CPILP unit held, CPILP unitholders will receive at their election either C\$19.40 in cash or 1.3 Atlantic Power common shares, subject to proration. The terms of the Arrangement Agreement are the result of arm's length negotiation between the parties and their respective advisors. Effective July 19, 2011, the Arrangement Agreement was amended to account for the entering into of the Tranche B Facility commitment letter, the termination of a commitment regarding certain bridge loans that Atlantic Power had entered into at the time of entering into the Arrangement Agreement and the correction of certain other references.

**Representations and Warranties**

The Arrangement Agreement contains representations and warranties made by the Partnership Entities (the General Partner and CPILP being referred to herein as the "**Partnership Entities**") to Atlantic Power, by CPI Investments to Atlantic Power and by Atlantic Power to CPILP and CPI Investments. Those representations and warranties were made solely for the purposes of the Arrangement Agreement and are subject to important qualifications and limitations agreed to by the parties in connection with negotiating its terms. Moreover, some of the representations and warranties contained in the Arrangement Agreement are subject to a contractual standard of materiality (including a Material Adverse Effect) that is different from that generally applicable to the public disclosure of Atlantic Power or CPILP, or those standards used for the purpose of allocating risk between parties to an agreement. For the foregoing reasons, you should not rely on the representations and warranties contained in the Arrangement Agreement as statements of factual information at the time they were made or otherwise.

The representations and warranties provided by the Partnership Entities in favor of Atlantic Power relate to, among other things: (a) board approval, (b) organization, standing and power, (c) authority and absence of conflict, (d) regulatory approvals, (e) interest of the General Partner in CPILP, (f) capital structure of CPILP, (g) subsidiaries of CPILP, (h) existing commitments to issue securities, (i) compliance with laws, (j) permits and licenses, (k) compliance with securities laws and exchange requirements, (l) accuracy of public documents, (m) CPILP financial statements, (n) the financial statements of the General Partner, (o) absence of certain changes, (p) records, (q) assets and undertakings, (r) operation of facilities, (s) material contracts, (t) litigation, (u) environmental matters, (v) benefit plans, (w) intellectual property, (x) tax matters, (y) fees, (z) regulatory status, (aa) internal controls and financial reporting, (bb) no undisclosed liabilities, (cc) related party transactions, (dd) registration rights, (ee) insurance, and (ff) Primary Energy Recycling Holdings LLC.

The representations and warranties provided by CPI Investments in favor of Atlantic Power relate to, among other things: (a) organization, standing and power, (b) authority and absence of conflict, (c) regulatory approvals, (d) capital structure of CPI Investments, (e) CPILP units, (f) subsidiaries, (g) existing commitments to issue securities, (h) compliance with laws, (i) permits and licenses,

Table of Contents

(j) CPI Investments financial statements, (k) absence of certain changes, (l) records, (m) assets, (n) operation of facilities, (o) material contracts, (p) litigation, (q) benefit plans, (r) intellectual property, (s) tax matters, (t) fees, (u) no undisclosed liabilities, (v) related party transactions, (w) registration rights, (x) insurance, and (y) shareholder and similar agreements.

The representations and warranties provided by Atlantic Power in favor of CPILP and CPI Investments relate to, among other things: (a) organization, standing and power, (b) authority and absence of conflict, (c) regulatory approvals, (d) capital structure of Atlantic Power, (e) subsidiaries of Atlantic Power, (f) compliance with laws, (g) permits and licenses, (h) compliance with securities laws and exchange requirements, (i) accuracy of public documents, (j) Atlantic Power financial statements, (k) absence of certain changes, (l) records, (m) assets and undertakings, (n) operation of facilities, (o) material contracts, (p) litigation, (q) environmental matters, (r) employee matters, (s) benefit plans, (t) intellectual property, (u) tax matters, (v) fees, (w) commitment letter, (x) funds available, (y) internal controls and financial reporting, (z) related party transactions, (aa) registration rights, (bb) insurance, (cc) board approval and (dd) Registered Retirement Savings Plan eligibility.

**Conditions Precedent to the Plan of Arrangement**

***Mutual Conditions***

The obligations of the parties to complete the transactions contemplated by the Arrangement Agreement are subject to the fulfillment, on or before the Effective Time, of each of the following conditions precedent:

the requisite unitholder approvals shall have been obtained at the CPILP special meeting in accordance with the Interim Order;

the shareholders of Atlantic Power shall have approved the issuance of the Atlantic Power common shares that form part of the purchase consideration;

the Interim Order and the Final Order shall each have been obtained on terms consistent with the Arrangement Agreement, and shall not have been set aside or modified in a manner unacceptable to the parties, each acting reasonably, on appeal or otherwise;

no person shall have filed any notice of appeal of the Final Order, and no person shall have communicated to CPILP, the General Partner or Atlantic Power any intention to appeal the Final Order which would, in the judgment of the parties, acting reasonably, make it inadvisable to proceed with the implementation of the Plan of Arrangement;

all regulatory approvals shall have been obtained or satisfied as applicable;

the additional listing of Atlantic Power common shares issuable pursuant to the Plan of Arrangement shall have been conditionally approved by the TSX and NYSE, subject only to the satisfaction by Atlantic Power of customary post-closing conditions imposed by the TSX and NYSE in similar circumstances;

the articles of arrangement to be filed with the Director in accordance with the Plan of Arrangement shall be in form and substance satisfactory to each of the parties, each acting reasonably;

the actions and transactions contemplated by the Employee Hiring Agreement dated June 20, 2011 among Capital Power, the Manager and Atlantic Power to be completed at or before the Effective Time shall have been completed, and such agreement shall not have been terminated;

Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

the actions and transactions contemplated by the Pension Transfer Agreement dated June 20, 2011 among Capital Power, the Manager and Atlantic Power to be completed at or before the Effective Time shall have been completed, and such agreement shall not have been terminated;

### Table of Contents

the transactions contemplated by the Management Agreements Termination Agreements and the Management Agreement Assignment Agreement to be completed at or before the Effective Time shall have been completed, all conditions precedent to the obligations of the parties thereto shall have been satisfied or waived, and such agreements shall not have been terminated in accordance with their terms;

the ROFL Termination Agreement between Capital Power and CPILP shall have been duly executed by the parties thereto;

the CPC Agreements set forth in Schedule E of the Arrangement Agreement shall have been terminated;

this joint proxy statement shall have been cleared for filing in definitive form by the SEC under the Exchange Act;

the transactions contemplated by the NC Purchase Agreement dated June 20, 2011 between CPI USA Holdings LLC, CPI Power Holdings Inc. and Capital Power Investments LLC to be completed at or before the Effective Time shall have been completed, all conditions precedent to the obligations of the parties thereto shall have been satisfied or waived, and such agreements shall not have been terminated;

the Distribution Agreement between CPI Power Holdings Inc., CPI Preferred Equity Ltd., CPILP, Atlantic Power and a new limited liability company to be formed by CPI Power Holdings Inc. shall have been duly executed by the parties thereto and shall not have been terminated;

the Transitional Services Agreement CP Regional Power Services Limited Partnership, Capital Power Operations (USA) Inc. and CPILP shall have been finalized and duly executed by the parties thereto and shall not have been terminated;

no law shall have been enacted, issued, promulgated, enforced, made, entered, issued or applied and no action or proceeding shall otherwise have been taken under any laws by any Governmental Entity (whether temporary, preliminary or permanent):

that makes the Plan of Arrangement illegal or otherwise directly or indirectly cease trades, enjoins, restrains or otherwise prohibits consummation of the Plan of Arrangement or the transactions contemplated in the Arrangement Agreement; or

which results, or could reasonably be expected to result, in any judgment or assessment of damages, directly or indirectly, relating to the Plan of Arrangement or the transactions contemplated by the Arrangement Agreement which would have a Material Adverse Effect in respect of either (A) the Partnership Entities and CPI Investments taken as a whole or, (B) Atlantic Power;

there shall be no proceeding of a judicial or administrative nature or otherwise in progress or threatened that relates to or results from the transactions contemplated by the Arrangement Agreement that would, if successful, result in an order or ruling that would reasonably be expected to cease trade, enjoin, prohibit or impose material limitations or conditions on the completion of the transactions contemplated by the Arrangement Agreement or the Plan of Arrangement in accordance with its terms; and

the Arrangement Agreement shall not have been terminated in accordance with its terms.

The foregoing conditions are for the mutual benefit of the parties and may be waived, in whole or in part, jointly by such parties at any time.

Table of Contents

*Additional Conditions in Favor of the Partnership Entities*

The obligation of the Partnership Entities to complete the transactions contemplated by the Arrangement Agreement is also subject to the fulfillment of each of the following conditions precedent:

all covenants of Atlantic Power under the Arrangement Agreement to be performed on or before the Effective Time shall have been duly performed by Atlantic Power in all material respects, and the Partnership Entities shall have received a certificate of Atlantic Power addressed to the Partnership Entities and dated the Effective Date, signed on behalf of Atlantic Power by two senior executive officers of Atlantic Power (on Atlantic Power's behalf and without personal liability), confirming the same as at the Effective Time;

the representations and warranties of Atlantic Power set forth in the Arrangement Agreement shall be true and correct as of the Effective Time, as though made on and as of the Effective Time (other than representations and warranties made as of a specified date, the accuracy of which shall be determined as of that specified date) except where the failure or failures of all such representations and warranties to be so true and correct would not reasonably be expected to have a Material Adverse Effect in respect of Atlantic Power (it being understood that, for purposes of determining the accuracy of such representations and warranties, all "Material Adverse Effect" qualifications and other materiality qualifications contained in such representations and warranties shall be disregarded), and the Partnership Entities shall have received a certificate of Atlantic Power addressed to the Partnership Entities and dated the Effective Date, signed on behalf of Atlantic Power by two senior executive officers of Atlantic Power (on Atlantic Power's behalf and without personal liability), confirming the same as at the Effective Time;

no Material Adverse Effect in respect of Atlantic Power shall have occurred after the date of the Arrangement Agreement and prior to the Effective Date;

the guarantees of Atlantic Power in respect of the preferred share obligations of CPI Preferred Equity Ltd. shall have been duly executed;

Atlantic Power shall have furnished the Partnership Entities with:

certified copies of the resolutions duly passed by the board of director of Atlantic Power approving the Arrangement Agreement and the consummation of the transactions contemplated by the Arrangement Agreement including issuance of Atlantic Power common shares that form part of the consideration, and

certified copies of the resolution of shareholders approving the issuance of Atlantic Power common shares duly passed at the Atlantic Power special meeting;

Atlantic Power shall have paid the merger consideration;

executed releases shall have been received from Atlantic Power, the Partnership Entities and certain CPILP subsidiaries by each director and officer of such entities in a form mutually acceptable to the parties thereto, each acting reasonably;

arrangements satisfactory to the Partnership Entities, acting reasonably, shall have been entered into in respect of the insurance and indemnification obligations contemplated by the Arrangement Agreement; and

Atlantic Power shall not have reduced the annual dividend from the stated amount.

The conditions above are for the exclusive benefit of the Partnership Entities and may be asserted by the Partnership Entities regardless of the circumstances or may be waived by the Partnership

Table of Contents

Entities in their sole discretion, in whole or in part, at any time and from time to time without prejudice to any other rights which the Partnership Entities may have.

***Additional Conditions in Favor of CPI Investments***

The obligation of CPI Investments to complete the transactions contemplated by the Arrangement Agreement shall also be subject to the fulfillment of each of the following conditions precedent:

all covenants of Atlantic Power under the Arrangement Agreement to be performed on or before the Effective Time shall have been duly performed by Atlantic Power in all material respects, and CPI Investments shall have received a certificate of Atlantic Power addressed to CPI Investments and dated the Effective Date, signed on behalf of Atlantic Power by two senior executive officers of Atlantic Power (on Atlantic Power's behalf and without personal liability), confirming the same as at the Effective Time;

the representations and warranties of Atlantic Power set forth in the Arrangement Agreement shall be true and correct as of the Effective Time, as though made on and as of the Effective Time (other than representations and warranties made as of a specified date, the accuracy of which shall be determined as of that specified date), except where the failure or failures of all such representations and warranties to be so true and correct would not reasonably be expected to have a Material Adverse Effect in respect of Atlantic Power (it being understood that, for purposes of determining the accuracy of such representations and warranties, all "Material Adverse Effect" qualifications and other materiality qualifications contained in such representations and warranties shall be disregarded), and CPI Investments shall have received a certificate of Atlantic Power addressed to CPI Investments and dated the Effective Date, signed on behalf of Atlantic Power by two senior executive officers of Atlantic Power (on Atlantic Power's behalf and without personal liability), confirming the same as at the Effective Time;

no Material Adverse Effect in respect of Atlantic Power shall have occurred after the date of the Arrangement Agreement and prior to the Effective Date;

Atlantic Power shall have furnished CPI Investments with:

certified copies of the resolutions duly passed by the board of directors of Atlantic Power approving the Arrangement Agreement and the consummation of the transactions contemplated by the Arrangement Agreement including issuance of Atlantic Power common shares that form part of the consideration, and

certified copies of the resolution of shareholders approving the issuance of Atlantic Power common shares that form part of the consideration duly passed at the Atlantic Power special meeting;

Atlantic Power shall have paid the merger consideration;

executed releases shall have been received from Atlantic Power and CPI Investments by each director and officer of CPI Investments in a form mutually acceptable to the parties thereto, each acting reasonably; and

Atlantic Power shall not have reduced the annual dividend from the stated amount.

The conditions above are for the exclusive benefit of CPI Investments and may be asserted by CPI Investments regardless of the circumstances or may be waived by CPI Investments in its sole discretion, in whole or in part, at any time and from time to time without prejudice to any other rights which CPI Investments may have.

Investments (on CPI Investments' behalf and without personal liability), confirming the same as at the Effective Time;

no Material Adverse Effect in respect of the Partnership Entities and CPI Investments taken as a whole shall have occurred after the date of the Arrangement Agreement and prior to the Effective Date;

Atlantic Power shall have received the funds in the amount contemplated by TLB Commitment Letter or shall have successfully completed the proposed public and/or private offerings by Atlantic Power of approximately C\$425 million of debt and approximately C\$200 million of equity to enable Atlantic Power to pay the cash consideration payable to CPILP unitholders and CPI Investments shareholders pursuant to the Plan of Arrangement;

the Partnership Entities shall have furnished Atlantic Power with:

certified copies of the resolutions duly passed by the board of directors of the General Partner approving the Arrangement Agreement and the consummation of the transactions contemplated by the Arrangement Agreement (for both itself and on behalf of CPILP); and

certified copies of the resolution of the unitholders of CPILP, duly passed at the CPILP special meeting, approving the Arrangement Resolution;

CPI Investments shall have furnished Atlantic Power with:

certified copies of the resolutions duly passed by the board of CPI Investments approving the Arrangement Agreement and the consummation of the transactions contemplated by the Arrangement Agreement; and

certified copies of the resolutions of shareholders of CPI Investments, duly passed, approving the Plan of Arrangement;

no party to the support agreements dated June 20, 2011 between Atlantic Power and each of EPCOR, Capital Power LP and Capital Power shall have breached its obligations or covenants under such agreement in any material respect; and

the wind-up of certain partnership subsidiaries of CPILP shall have been completed to the satisfaction of Atlantic Power, acting reasonably.

The conditions above are for the exclusive benefit of Atlantic Power and may be asserted by Atlantic Power regardless of the circumstances or may be waived by Atlantic Power in its sole discretion, in whole or in any part, at any time and from time to time without prejudice to any other rights which Atlantic Power may have.

### **Covenants**

#### ***General***

In the Arrangement Agreement, each of the Partnership Entities, CPI Investments and Atlantic Power has agreed to certain covenants, including customary affirmative and negative covenants relating to the operation of their respective businesses, and using commercially reasonable efforts to satisfy the conditions precedent to their respective obligations under the Arrangement Agreement.

#### ***Atlantic Power Financing***

Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

Atlantic Power has represented in the Arrangement Agreement that the Tranche B Facility, when funded in accordance with the TLB Commitment Letter, and the available cash of Atlantic Power will provide Atlantic Power with cash proceeds sufficient to pay the cash consideration payable pursuant to the Plan of Arrangement and the fees and expenses of Atlantic Power.

Table of Contents

Atlantic Power has agreed to use commercially reasonable efforts to fulfill and comply with all of its obligations under the TLB Commitment Letter and to satisfy or cause the satisfaction of all of the conditions precedent to the funding of the Tranche B Facility on or before the Effective Date (or such earlier date required by the TLB Commitment Letter).

***Non-Solicitation***

Pursuant to the Arrangement Agreement, the Partnership Entities shall not, directly or indirectly, through any officer, director, employee, representative, agent, subsidiary or otherwise:

knowingly make, solicit, assist, initiate, encourage or otherwise facilitate any inquiries, proposals or offers regarding any Partnership Acquisition Proposal;

engage in any discussions or negotiations regarding, or provide any information with respect to, or otherwise co-operate in any way with, or assist or participate in, facilitate or knowingly encourage, any effort or attempt by any other person to make or complete any Partnership Acquisition Proposal (provided that, for greater certainty, the Partnership Entities may advise any person making an unsolicited Partnership Acquisition Proposal that such Partnership Acquisition Proposal does not constitute a Superior Proposal when the board of directors of the General Partner has so determined);

withdraw, modify or qualify (or publicly propose to or publicly state that it intends to withdraw, modify or qualify) in any manner adverse to Atlantic Power the approval or recommendation of the board of directors of the General Partner (or any committee thereof) of the Arrangement Agreement or the Plan of Arrangement;

approve, recommend or remain neutral with respect to, or propose publicly to approve, recommend or remain neutral with respect to, any Partnership Acquisition Proposal; or

accept or enter into, or publicly propose to accept or enter into, any letter of intent, agreement in principle, agreement, understanding, arrangement or undertaking related to any Partnership Acquisition Proposal (other than a confidentiality agreement in certain limited circumstances).

The Partnership Entities shall be permitted to engage in discussions or negotiations, provide information and otherwise cooperate with and assist a person making an unsolicited Partnership Acquisition Proposal prior to the CPILP unitholder meeting upon certain conditions, including that the board of directors of the General Partner has determined in good faith, after consultation with its outside legal and financial advisors, that such Partnership Acquisition Proposal constitutes, or would reasonably be expected to lead to, a Superior Proposal and that, based on the advice of outside counsel, the failure to take such action would be inconsistent with its fiduciary duties under applicable laws and the CPILP partnership agreement.

The Partnership Entities are required, as soon as reasonably practicable (and in any event, within 24 hours) to notify Atlantic Power, at first orally and then in writing, of any proposal, inquiry, offer, expression of interest or request relating to or constituting a Partnership Acquisition Proposal, any request for discussions or negotiations, and any request for non-public information relating to the Partnership Entities received by the Partnership Entities' directors, officers, representatives or agents, or any material amendments to the foregoing.

The Partnership Entities may not accept, approve or enter into any agreement (a "**Proposed Agreement**"), other than a confidentiality and standstill agreement under certain conditions, providing for or to facilitate any Partnership Acquisition Proposal unless:

the CPILP special meeting has not occurred;

Table of Contents

the board of directors of the General Partner determines in good faith, after consultation with its outside legal and financial advisors, that such Partnership Acquisition Proposal constitutes a Superior Proposal and that the failure to take such action would be inconsistent with its fiduciary duties under applicable laws and the CPILP partnership agreement;

the Partnership Entities have complied with their non-solicitation restrictions in the Arrangement Agreement;

the Partnership Entities have provided Atlantic Power with a written notice that there is a Superior Proposal together with all documentation related to and detailing the Superior Proposal, including a copy of any Proposed Agreement relating to such Superior Proposal, and a written notice from the board of directors of the General Partner regarding the value in financial terms that the board of directors of the General Partner has in consultation with its financial advisors determined should be ascribed to any non-cash consideration offered under the Superior Proposal, such documents to be so provided to Atlantic Power not less than five Business Days prior to the proposed acceptance, approval, recommendation or execution of the Proposed Agreement by Partnership Entities;

five business days shall have elapsed from the date Atlantic Power received the notice and documentation under the Arrangement Agreement and, if Atlantic Power has proposed to amend the terms of the Plan of Arrangement, the board of directors of the General Partner shall have determined, in good faith, after consultation with its financial advisors and outside legal counsel, that the Partnership Acquisition Proposal continues to be a Superior Proposal compared to the proposed amendment to the terms of the Plan of Arrangement by Atlantic Power;

the Partnership Entities concurrently terminate the Arrangement Agreement; and

CPILP has previously, or concurrently will have, paid to Atlantic Power the Atlantic Power Termination Fee (defined below).

During the five business day period described above or such longer period as the Partnership Entities may approve, Atlantic Power shall have the opportunity, but not the obligation, to propose to amend the terms of the Arrangement Agreement and the Plan of Arrangement and the Partnership Entities shall co-operate with Atlantic Power with respect thereto, including negotiating in good faith with Atlantic Power to enable Atlantic Power to make such adjustments to the terms and conditions of the Arrangement Agreement and the Plan of Arrangement as Atlantic Power deems appropriate and as would enable Atlantic Power to proceed with the Plan of Arrangement and any related transactions on such adjusted terms. The board of directors of the General Partner will review any written definitive proposal made by Atlantic Power in good faith to amend the terms of the Plan of Arrangement in order to determine, in good faith in the exercise of its fiduciary duties, whether Atlantic Power's proposal to amend the Plan of Arrangement would result in the Partnership Acquisition Proposal not being a Superior Proposal compared to the proposed amendment to the terms of the Plan of Arrangement. If the board of directors of the General Partner determines that a Partnership Acquisition Proposal is not a Superior Proposal as compared to the proposed amendment to the terms of the Plan of Arrangement, it will promptly enter into the proposed amendment to the Plan of Arrangement.

The Arrangement Agreement also includes non-solicitation covenants of CPI Investments and Atlantic Power.

Table of Contents

**Termination of the Arrangement Agreement**

The Arrangement Agreement may be terminated at any time prior to the Effective Time:

by mutual written agreement of the parties;

by CPILP, the General Partner, CPI Investments or Atlantic Power: (i) if the Effective Time has not occurred on or prior to the Outside Date, except that the right to terminate shall not be available to a party whose failure to fulfill any of its obligations under the Arrangement Agreement has been the cause of, or resulted in, the failure of the Effective Time to occur by such Outside Date; (ii) if the CPILP special meeting is held and the Arrangement Resolution fails to receive the requisite approval in accordance with the Interim Order; (iii) if the Atlantic Power meeting is held and the Atlantic Power Share Issuance Resolution fails to receive the requisite approval; or (iv) if any law makes the consummation of the Plan of Arrangement or the transactions contemplated by the Arrangement Agreement illegal or otherwise prohibited, and such law has become final and non-appealable.

by Atlantic Power:

if the board of directors of the General Partner shall have failed to recommend or shall have withdrawn, modified or changed in a manner adverse to Atlantic Power its approval or recommendation of the Arrangement Agreement or the Plan of Arrangement, or (B) the board of directors of the General Partner shall have approved or recommended any Partnership Acquisition Proposal or (C) any of the Partnership Entities shall have breached, in any material respect, its non-solicitation covenants;

if Atlantic Power is not in material breach of its obligations under the Arrangement Agreement and (A) there has been a breach on the part of CPILP, the General Partner or CPI Investments of any of their covenants or agreements that would cause certain conditions not to be satisfied, and such conditions are incapable of being satisfied by the Outside Date, or (B) there has been a breach of any of the representations and warranties in respect of CPILP, the General Partner or CPI Investments that would cause certain conditions set out in not to be satisfied, and such conditions are incapable of being satisfied by the Outside Date; or

if CPI Investments shall have breached, in any material respect, its covenants regarding non-solicitation.

by the Partnership Entities:

if (A) the board of directors of Atlantic Power shall have failed to recommend or shall have withdrawn, modified or changed in a manner adverse to CPILP its approval or recommendation of the issuance of Atlantic Power common shares, or (B) the board of directors of Atlantic Power shall have approved or recommended any Purchaser Acquisition Proposal;

if the Partnership Entities are not in material breach of their obligations under the Arrangement Agreement and (A) there has been a breach on the part of Atlantic Power of any of its covenants or agreements that would cause certain conditions not to be satisfied, and such conditions are incapable of being satisfied by the Outside Date, or (B) there has been a breach of any of the representations and warranties in respect of Atlantic Power that would cause certain conditions not to be satisfied, and such conditions are incapable of being satisfied by the Outside Date; or

Table of Contents

in order to enter into a definitive agreement with respect to a Superior Proposal in accordance with the non-solicitation provisions, subject to the prior payment by CPILP of the Atlantic Power Termination Fee.

***Termination Payment***

The Arrangement Agreement provides that CPILP will pay to Atlantic Power C\$35.0 million (the "**Atlantic Power Termination Fee**") if:

Atlantic Power shall have terminated the Arrangement Agreement where (A) the board of directors of the General Partner shall have failed to recommend or shall have withdrawn, modified or changed in a manner adverse to Atlantic Power its approval or recommendation of the Arrangement Agreement or the Plan of Arrangement, or (B) the board of directors of the General Partner shall have approved or recommended any Partnership Acquisition Proposal or (C) any of the Partnership Entities shall have breached, in any material respect, its non-solicitation covenants;

prior to the earlier of (A) the termination of the Arrangement Agreement, and (B) the CPILP special meeting, (i) a bona fide Partnership Acquisition Proposal shall have been made or proposed to CPILP or otherwise made or publicly announced, (ii) the requisite unitholder approvals for the Arrangement are not obtained at the CPILP special meeting, and (iii) within 12 months after the date of the termination of the Arrangement Agreement such Partnership Acquisition Proposal is consummated or a definitive agreement in respect thereof has been entered into, in which case payment shall be made on the date on which the transaction contemplated by such Partnership Acquisition Proposal is consummated; or

CPILP shall have terminated the Arrangement Agreement in order to enter into a definitive agreement with respect to a Superior Proposal in accordance with the non-solicitation provisions.

The Arrangement Agreement provides that Atlantic Power will pay to CPILP C\$35.0 million (the "**CPILP Termination Fee**") if:

CPILP shall have terminated the Arrangement Agreement where (A) the board of directors of Atlantic Power shall have failed to recommend or shall have withdrawn, modified or changed in a manner adverse to CPILP its approval or recommendation of the issuance of Atlantic Power common shares, or (B) the board of directors of Atlantic Power shall have approved or recommended any Purchaser Acquisition Proposal;

after the date hereof and prior to the earlier of (A) the termination of the Arrangement Agreement, and (B) the Atlantic Power meeting, a bona fide Purchaser Acquisition Proposal shall have been made or proposed to Atlantic Power or otherwise made or publicly announced, (ii) the requisite Atlantic Power shareholder approvals for the issuance of the Atlantic Power common shares are not obtained at the Atlantic Power meeting; and (iii) within 12 months after the date of the termination of the Arrangement Agreement such Purchaser Acquisition Proposal is consummated or a definitive agreement in respect thereof has been entered into, in which case payment shall be made on the date on which the transaction contemplated by such Purchaser Acquisition Proposal is consummated; or

the Arrangement Agreement is terminated where the Effective Time has not occurred on or prior to the Outside Date and where all of the conditions set forth for the benefit of Atlantic Power have been satisfied or waived other than the financing condition.

Table of Contents

***Expense Payment***

In certain circumstances, if the Arrangement Agreement is terminated (A) CPILP shall be required to pay to Atlantic Power its reasonably incurred out-of-pocket fees; or (B) Atlantic Power shall be required to pay CPILP its reasonably incurred out-of-pocket fees, in each case, up to a maximum of C\$8.0 million.

**Governing Law**

The Arrangement Agreement shall be governed, including as to validity, interpretation and effect, by the laws of the Province of Alberta and the federal laws of Canada applicable therein, and shall be construed and treated in all respects as an Alberta contract.

**Summaries of Other Agreements Relating to the Arrangement**

***Support Agreements***

As part of the Plan of Arrangement, Atlantic Power will acquire all of the outstanding shares of CPI Investments (an entity indirectly owned by Capital Power and EPCOR), the direct and indirect holder of 16,513,504 CPILP units, on effectively the same basis as the acquisition of CPILP units under the Plan of Arrangement. Accordingly, Atlantic Power's willingness to enter into the Arrangement Agreement was subject to, among other things, each of EPCOR, Capital Power and Capital Power LP, the entity through which Capital Power holds its shares of CPI Investments, entering into a support agreement, pursuant to which each shareholder of CPI Investments confirmed its commitment to support the Plan of Arrangement. Contemporaneously with the entering into of the Arrangement Agreement on June 20, 2011, Atlantic Power entered into two support agreements, one with EPCOR and the other with Capital Power LP and Capital Power.

Among other things, each of Capital Power LP and EPCOR agreed in its respective support agreement to:

vote or cause to be voted all of its CPI Investments shares in favor of any resolution, vote, consent or other approval (including by written resolution) by shareholders of CPI Investments of the Plan of Arrangement and any ancillary matters to give legal effect thereto;

vote or cause to be voted all voting rights attached to its CPI Investments shares against (i) certain acquisition proposals regarding CPI Investments; and (ii) any proposal, transaction or other proposed action that might reasonably be expected to impede, frustrate, delay or prevent the Plan of Arrangement or transactions contemplated by any transaction resolutions and/or reduce the likelihood of the Plan of Arrangement being approved under CPI Investments transaction approvals;

exchange its CPI Investments shares for the consideration available to it under the Plan of Arrangement;

not sell, transfer, pledge or assign any of its subject securities or enter into any voting arrangement in relation to such securities;

not exercise any securityholder rights or remedies available to it to impede, frustrate, delay or prevent the Plan of Arrangement or transactions contemplated by the transaction resolutions; and

certain non-solicitation covenants in respect of CPILP and CPI Investments.

Table of Contents

Given the more active role of Capital Power in the business of Capital Power LP and CPI Investments, the material terms of the support agreement among Atlantic Power, Capital Power LP and Capital Power also include the following:

Capital Power agrees, among other things, to cause Capital Power LP to fulfill its obligations under the support agreement and not to make certain acquisition proposals in respect of CPILP or CPI Investments.

Atlantic agrees that, within the later of 30 days following the termination of the transitional services agreement or 180 days following the Effective Date, it will use commercially reasonable efforts to cause each of CPILP, its general partner and subsidiaries to change its name to a name that does not include "Capital Power," "CPI" or "CP" and certain other actions related to the change of name.

In addition to customary representations and warranties from Capital Power LP, the support agreement includes certain additional representations specific to the Plan of Arrangement, including with respect to the representations and warranties made by CPI Investments in the Arrangement Agreement and equipment and personal property owned by Capital Power LP and/or Capital Power and used in the operations of the CPILP or any of the CPILP's facilities.

For a period of 90 days commencing on the Effective Date, Capital Power LP will not, without the prior consent of Atlantic, offer, sell, pledge, grant any option to purchase, hedge, transfer, assign, make any short sale or otherwise dispose of any Atlantic shares received pursuant to the Plan of Arrangement (or agree to, or announce, any intention to do so) with certain limited customary exceptions.

Upon and after the effective time for the Plan of Arrangement, Capital Power LP will indemnify Atlantic and CPI Investments and their respective, shareholders, officers, directors, employees, agents, successors and assigns against any claims in respect of:

any failure of any representations, warranties or covenants by Capital Power LP or Capital Power;

any liabilities, debts or obligations of CPI Investments arising prior to the effective time of the Plan of Arrangement; and

any taxes payable by CPI Investments in respect of any taxation year or period ending on or before the Effective Date or the portion of any taxes payable by CPI Investments, as the case may be, for any taxation year or period ending after the Effective Date that is attributable to the portion of such year or period ending on the Effective Date.

The survival period for claims in respect of certain provisions under the support agreement is as follows:

for claims with respect to certain more fundamental representations and warranties, the maximum period of time permitted by law;

for claims with respect to representations and warranties relating to tax matters, within 90 days after the expiration of all periods allowed for objecting and appealing the determination of any proceedings relating to any assessment or reassessment of taxes by any governmental authority in respect of any taxation period ending on or prior to the effective time for the Plan of Arrangement or in which the effective time occurs;

for claims with respect to any other representation and warranties, within a period of 18 months following the effective time for the Plan of Arrangement; and

Table of Contents

for claims with respect to covenants of Capital Power LP and Capital Power, the completion of the Plan of Arrangement, the effective time and the date of any expiration or termination of each of the support agreement and the Arrangement Agreement, subject only to applicable limitation periods imposed by applicable law.

Each support agreement terminates on the earlier of (i) the effective time for the Plan of Arrangement and (ii) the termination of the Arrangement Agreement.

*Management Agreements Termination Agreement and Management Agreement Assignment Agreement*

On June 20, 2011, certain subsidiaries of Capital Power entered into an agreement (the "**Management Agreements Termination Agreement**") with CPILP and certain of its subsidiaries pursuant to which the parties agreed to terminate each of the management and operations agreements between them, other than the Frederickson Agreement (as defined below), effective immediately upon completion of the Plan of Arrangement. In consideration for the termination of the management and operations agreements, CPILP and its subsidiaries agreed to pay to the subsidiaries of Capital Power an aggregate of C\$8.5 million.

On June 20, 2011, a subsidiary of Capital Power entered into an agreement with Atlantic Power and Frederickson Power L.P., a subsidiary of CPILP, pursuant to which the subsidiary of Capital Power agreed to assign its right, benefit, interest and obligation in, to and under the operations and maintenance agreement in respect of CPILP's Frederickson facility (the "**Frederickson Agreement**") to Atlantic Power. The assignment will be effective immediately upon completion of the Plan of Arrangement. In consideration for the assignment, Atlantic Power has agreed to pay to the subsidiary of Capital Power an aggregate of C\$1.5 million. The assignment is conditional on, among other things, receipt of the consent of Puget Sound Energy, Inc. to the assignment.

*North Carolina Purchase and Sale Agreement*

On June 20, 2011, a subsidiary of Capital Power entered into a purchase and sale agreement with certain subsidiaries of CPILP, pursuant to which the subsidiary of Capital Power agreed to purchase and the subsidiaries of CPILP agreed to sell all of the membership interests in the limited liability company that owns CPILP's Roxboro and Southport power plants in North Carolina. The purchase price for the membership interests is C\$121,405,211. Closing of the purchase and sale will take place on the Effective Date. Closing of the purchase and sale will be conditional on, among other things, receipt of all necessary regulatory approvals and consents, including, without limitation, expiration or early termination of the applicable waiting periods under the *Hart-Scott Rodino Antitrust Improvements Act of 1976* and prior authorization from FERC under Section 203 of the *United States Federal Power Act*.

*Employee Hiring and Lease Assignment Agreement*

On June 20, 2011, Atlantic Power, Capital Power and CPO USA entered into an employee hiring and lease assignment agreement pursuant to which Atlantic Power agreed to assume the employment of certain designated employees who perform functions related to CPILP's business. This agreement was necessitated by the fact that neither CPILP nor the General Partner has any employees. Persons performing the functions of employees of CPILP are currently employed by Capital Power and CPO USA rather than directly by CPILP. For further details regarding CPILP employees, see "Business of the Partnership Employees of the Partnership" beginning on Schedule I-25.

Pursuant to the agreement, Atlantic Power will (i) be bound by the collective agreements currently in place for Capital Power's unionized employees and, (ii) for certain individuals whose employment is not governed by the collective agreements, Atlantic Power will make offers of employment on substantially the same (or better) terms and conditions of employment, in the aggregate, as are in effect on the date of the offer. Existing employee benefits provided by Capital Power will vest on

Table of Contents

closing of the Plan of Arrangement and be paid out by Capital Power. The agreement also contemplates the negotiation of the assignment of office leases for Capital Power's offices located in the cities of Richmond, B.C., Toronto, Ontario and Chicago, Illinois.

*Canadian Pension Transfer Agreement*

On June 20, 2011, Atlantic Power and Capital Power entered into a Canadian pension transfer agreement, pursuant to which Atlantic Power agreed to assume the pension plan assets and obligations from Capital Power related to the employees that it assumes pursuant to the employee hiring and lease assignment agreement described above.

The agreement primarily relates to the Capital Power Pension Plan (which is a Canadian registered pension plan with both a defined benefit and defined contribution component). For further details regarding Capital Power's pension plan assets and obligations, see "Compensation Discussion and Analysis Pension Programs" beginning on Schedule I-65. The agreement provides that the assets associated with the pension plan obligations of the employees being transferred to Atlantic Power will be carved out of the Capital Power Pension Plan and transferred to a new plan to be established by Atlantic Power. The new pension plan for Atlantic Power will have equivalent terms to the Capital Power Pension Plan.

If there is a deficiency in the Capital Power Pension Plan on a going concern basis at the time of closing of the Plan of Arrangement, Capital Power is required to pay Atlantic Power the amount of the deficiency related to the assumed employees (and if there is a surplus, Atlantic Power is required to make a payment to Capital Power). Currently, it is estimated that there is a deficiency of approximately C\$2.0 million. Atlantic Power is required to establish savings plans that are substantially the same as certain group RRSPs provided by Capital Power. Capital Power and Atlantic Power will take all commercially reasonable steps to permit transferring employees with balances in Capital Power's Group RRSPs to transfer their assets to Atlantic Power's Group RRSPs.

Table of Contents

**MATERIAL CANADIAN FEDERAL INCOME TAX CONSIDERATIONS**

In the opinion of Fraser Milner Casgrain LLP, Canadian counsel to the General Partner, the following is a general summary of the principal Canadian federal income tax considerations generally applicable to a CPILP unitholder that disposes of CPILP units pursuant to the Plan of Arrangement and that, for purposes of the application of the Tax Act and at all relevant times (i) holds CPILP units and will hold any Atlantic Power common shares received pursuant to the Plan of Arrangement as capital property, (ii) deals at arm's length with and is not affiliated with CPILP or Atlantic Power, and (iii) is or is deemed to be resident in Canada (a "**Holder**" or "**Holders**"). CPILP units and Atlantic Power common shares will generally constitute capital property to a Holder provided the Holder does not hold such shares in the course of carrying on a business or as part of an adventure in the nature of trade.

This summary is based on the current provisions of the Tax Act and the regulations thereunder (the "**Regulations**"), and counsel's understanding of the current administrative policies and assessing practices of the Canada Revenue Agency ("**CRA**") published in writing prior to the date hereof. This summary takes into account all specific proposals to amend the Tax Act and the Regulations publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof (the "**Proposed Amendments**"), and assumes that all Proposed Amendments will be enacted in the form proposed. However, no assurances can be given that the Proposed Amendments will be enacted as proposed, or at all. This summary does not otherwise take into account or anticipate any changes in law or administrative policy or assessing practice whether by legislative, administrative or judicial action nor does it take into account tax legislation or considerations of any province, territory or foreign jurisdiction (unless specifically provided for herein), which may differ from those discussed herein.

This summary is not applicable to a Holder: (i) that is a "specified financial institution," (ii) an interest in which is a "tax shelter investment," (iii) that is a "financial institution" for purposes of certain rules referred to as the mark-to-market rules, (iv) that is exempt from tax under Part I of the Tax Act, or (v) to which the "functional currency" reporting rules apply, each as defined in the Tax Act. Such Holders should consult their own tax advisors with respect to their own particular circumstances.

**This summary is of a general nature only and is not, and is not intended to be, legal or tax advice to any particular Holder. This summary is not exhaustive of all Canadian federal income tax considerations. Accordingly, Holders should consult their own tax advisors having regard to their own particular circumstances.**

Where a Holder jointly makes an election with Atlantic Power under section 85 of the Tax Act (a "**Section 85 Election**") in respect of its CPILP units as described below, the Atlantic Power common shares received in exchange for such CPILP units will not be "Canadian securities," as defined under subsection 39(6) of the Tax Act, to such Holder and therefore cannot be deemed to be capital property by making an election under subsection 39(4) of the Tax Act. Holders whose CPILP units might not otherwise be considered to be capital property or whose Atlantic Power common shares may not be considered to be capital property should consult their own tax advisors concerning this election.

**Disposition of CPILP Units Pursuant to the Plan of Arrangement**

***Tax-Deferred Rollover Under the Tax Act***

A Holder that exchanges CPILP units for Atlantic Power common shares or a combination of cash and Atlantic Power common shares and is either (i) a resident of Canada for purposes of the Tax Act (other than a person that is exempt from tax under Part I of the Tax Act or that holds its CPILP units in an Exempt Plan, defined below), or (ii) a partnership any member of which is a resident of Canada for purposes of the Tax Act and is not exempt from tax under Part I of the Tax Act (collectively referred to herein as an "**Eligible Unitholder**"), may make a Section 85 Election with Atlantic Power under subsection 85(1) of the Tax Act, or where the Eligible Unitholder is a partnership, subsection 85(2) of the Tax Act, (and in each case, the corresponding provisions of any applicable

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

provincial or territorial tax legislation), and may thereby obtain a full or partial tax-deferred "rollover" for Canadian income tax purposes in respect of its disposition of its CPILP units, depending on the Elected Amount (as defined below) and the adjusted cost base to the Eligible Unitholder of its CPILP units at the time of the exchange, provided the Eligible Unitholder has properly completed and delivered to Atlantic Power the required election forms in the manner and within the time set out below and has properly and timely filed such election forms.

So long as the adjusted cost base to an Eligible Unitholder of the Eligible Unitholder's CPILP units at the time of the exchange, together with any reasonable costs of disposition, is not less than the Elected Amount, the Eligible Unitholder will not realize a capital gain for purposes of the Tax Act as a result of the exchange. The "Elected Amount" means the amount selected by an Eligible Unitholder in a Section 85 Election to be treated as the proceeds of disposition of its CPILP units, subject to the limitations described below.

Atlantic Power has agreed to make the Section 85 Election pursuant to subsection 85(1) or 85(2) of the Tax Act (and any similar provision of any provincial legislation) with an Eligible Unitholder at the Elected Amount determined by such Eligible Unitholder, subject to the limitations set out in subsection 85(1) or 85(2) of the Tax Act (or any applicable provincial legislation).

In general, the Elected Amount may not be:

less than the amount of cash received by the Eligible Unitholder on the exchange,

less than the lesser of (i) the Eligible Unitholder's adjusted cost base of the CPILP units and (ii) the fair market value of the CPILP units, in each case determined at the time of the exchange, or

greater than the fair market value of the CPILP units at the time of the exchange.

The tax treatment to an Eligible Unitholder that makes a valid Section 85 Election jointly with Atlantic Power generally will be as follows:

the Eligible Unitholder will be deemed to have disposed of the CPILP units held by such Eligible Unitholder for proceeds of disposition equal to the Elected Amount;

the Eligible Unitholder will not realize any capital gain or capital loss if the Elected Amount equals the aggregate of the Eligible Unitholder's adjusted cost base of the CPILP units determined immediately before the exchange and any reasonable costs of disposition;

the Eligible Unitholder will realize a capital gain (or a capital loss) to the extent that the Elected Amount exceeds (or is less than) the aggregate of the Eligible Unitholder's adjusted cost base of the CPILP units and any reasonable costs of disposition; and

the aggregate cost to the Eligible Unitholder of the Atlantic Power common shares acquired on the exchange will equal the Elected Amount and for the purpose of determining the Eligible Unitholder's adjusted cost base of those shares, such cost will be averaged with the Eligible Unitholder's adjusted cost base of any other Atlantic Power common shares held by the Eligible Unitholder as capital property at that time.

The income tax consequences described below under "Material Canadian Federal Income Tax Considerations Taxation of Capital Gains and Capital Losses" will generally apply to a Holder that realizes a capital gain or capital loss from the disposition of CPILP units.

A tax instruction letter providing certain instructions on how to complete the Section 85 Election may be obtained from the Depositary by checking the appropriate box on the Letter of Transmittal and Election Form and by submitting the Letter of Transmittal to the Depositary on or before the Election Deadline, complying with the procedures set out in section 2.5 of the Plan of Arrangement.

**Eligible Holders that wish to make a Section 85 Election must check the appropriate box on their duly completed and submitted Letter of Transmittal and Election Form. Eligible Holders should note**

Table of Contents

**that, because of the potential proration of cash and share consideration described above under the heading "The Arrangement Agreement and Plan of Arrangement Effects of the Plan of Arrangement", they may receive a combination of cash and Atlantic Power common shares in exchange for their CPILP units even if they elect to receive only cash consideration. Eligible Holders that would wish to make a Section 85 Election in such circumstances should check the appropriate box on the duly completed and submitted Letter of Transmittal and Election Form even if they elect to receive cash consideration.**

The signed and properly completed Section 85 Election form of an Eligible Unitholder must be received by Atlantic Power no later than 90 days after the Effective Date. Any Eligible Unitholder that does not ensure that Atlantic Power has received the relevant election form(s) by such date may not be able to benefit from a Section 85 Election. Accordingly, all Eligible Unitholders that wish to make a Section 85 Election with Atlantic Power should give their immediate attention to this matter. With the exception of execution of a Section 85 Election form by Atlantic Power, compliance with the requirements for a valid election will be the sole responsibility of the Eligible Unitholder making the election. Accordingly, none of Atlantic Power, CPILP nor the Depositary will be responsible or liable for taxes, interest, penalties, damages or expenses resulting from the failure by anyone to deliver any election in accordance with the procedures set out in the tax instruction letter, to properly complete any Section 85 Election form(s) or to properly file such forms within the time prescribed and in the form prescribed under the Tax Act (or the corresponding provisions of any applicable provincial or territorial tax legislation).

**An Eligible Unitholder that does not make a valid Section 85 Election (or the corresponding election under any applicable provincial or territorial tax legislation) may realize a taxable capital gain. The comments herein with respect to such elections are provided for general assistance only. Eligible Unitholders wishing to make the Section 85 Election should consult their own tax advisors.**

*Exchange of CPILP Units Without a Tax-Deferred Rollover*

A Holder that exchanges its CPILP units and that does not make a valid Section 85 Election jointly with Atlantic Power with respect to the exchange will be considered to have disposed of such CPILP units for proceeds of disposition equal to the aggregate of the cash (if any) received on the exchange and the fair market value, at the time of the exchange, of the Atlantic Power common shares (if any) received on the exchange. As a result, the Holder will generally realize a capital gain (or capital loss) to the extent that such proceeds of disposition, net of any reasonable costs of disposition, exceed (or are less than) the adjusted cost base of the Holder's CPILP units immediately before the exchange. Holders will be entitled to increase the adjusted cost base of their CPILP units by the amount of CPILP income allocated by CPILP to such Holders for the 2011 taxation year.

**Holding and Disposing of Atlantic Power common shares**

*Dividends on Atlantic Power common shares*

In the case of a Holder that is an individual, including certain trusts, dividends received or deemed to be received on Atlantic Power common shares will be included in computing the Holder's income and, subject to certain exceptions that apply to trusts, will be subject to the gross-up and dividend tax credit rules applicable to dividends paid by taxable Canadian corporations under the Tax Act, including the enhanced gross-up and dividend tax credit applicable to any dividend designated as an "eligible dividend" in accordance with the provisions of the Tax Act.

A Holder that is a corporation will be required to include in its income any dividend received or deemed to be received on Atlantic Power common shares, and generally will be entitled to deduct an equivalent amount in computing its taxable income. A Holder that is a "private corporation" (as defined in the Tax Act) or any other corporation controlled, whether because of a beneficial interest in one or more trusts or otherwise, by or for the benefit of an individual (other than a trust) or a related

Table of Contents

group of individuals (other than trusts), will generally be liable to pay a refundable tax of 33<sup>1</sup>/<sub>3</sub>% under Part IV of the Tax Act on dividends received (or deemed to be received) on the Atlantic Power common shares to the extent such dividends are deductible in computing taxable income for the year.

*Disposition of Atlantic Power common shares*

Generally, a Holder that disposes of or is deemed to dispose of an Atlantic Power common share in a taxation year will be subject to the rules described below under "Material Canadian Federal Income Tax Considerations Taxation of Capital Gains and Capital Losses".

**Taxation of Capital Gains and Capital Losses**

Generally, a Holder is required to include in computing its income for a taxation year the amount of any taxable capital gain, which is one-half of the amount of any capital gain realized in the year. Subject to and in accordance with the provisions of the Tax Act, a Holder is permitted to deduct the allowable capital loss, which is one-half of the amount of any capital loss realized in a taxation year, from taxable capital gains realized in the year by such Holder. Allowable capital losses in excess of taxable capital gains may be carried back and deducted in any of the three preceding years or carried forward and deducted in any following year against net taxable capital gains realized in such year to the extent and under the circumstances described in the Tax Act.

A Holder that is throughout the year a "Canadian controlled private corporation" (as defined in the Tax Act) may be liable to pay, in addition to tax otherwise payable under the Tax Act, a refundable tax on certain investment income including taxable capital gains.

**Alternative Minimum Tax**

Taxable capital gains realized and dividends received by a Holder that is an individual or a trust, other than certain specified trusts, may give rise to alternative minimum tax under the Tax Act and such Holders should contact their own tax advisors in this regard.

**Eligibility for Investment**

In the opinion of Fraser Milner Casgrain LLP, the Atlantic Power common shares, if issued on the date of this joint proxy statement, would be qualified investments under the Tax Act and the Regulations for a trust governed by a registered retirement savings plan (an "RRSP"), a registered retirement income funds (an "RRIF"), a deferred profit sharing plan, a registered education savings plan, a registered disability savings plan or a tax-free savings account (a "TFSA"), each as defined in the Tax Act ("**Exempt Plans**").

Notwithstanding that the Atlantic Power common shares may, at a particular time, be qualified investments for a trust governed by a TFSA, the holder of a TFSA will be subject to a penalty tax with respect to the Atlantic Power common shares held in a TFSA if such shares are "prohibited investments" for the TFSA for the purposes of the Tax Act. Provided that the holder of a TFSA deals at arm's length with Atlantic Power and does not hold a "significant interest" (as defined in the Tax Act) in Atlantic Power or in a corporation, partnership or trust with which Atlantic Power does not deal at arm's length for the purposes of the Tax Act, the Atlantic Power common shares will not be "prohibited investments" for a trust governed by a TFSA.

On June 6, 2011, the Minister of Finance (Canada) reintroduced certain proposed amendments to the Tax Act that were originally tabled on March 22, 2011 which would extend the application of the rules governing "prohibited investments" and the penalty tax for holding "prohibited investments" to the annuitant of an RRSP or RRIF. No assurance can be given that these proposed amendments to the Tax Act will be enacted as proposed.  **Holders that intend to hold the Atlantic Power common shares in their TFSA, RRSP or RRIF should consult with their own tax advisors regarding the application of the foregoing prohibited investment rules in their particular circumstances.**

Table of Contents

**CERTAIN U.S. FEDERAL INCOME TAX CONSIDERATIONS**

CPILP does not permit non-residents of Canada (as determined for purposes of the Income Tax Act) to hold CPILP units. Accordingly, the following summary does not address the U.S. federal income tax consequences to CPILP unitholders that are U.S. residents or who are otherwise subject to US tax on their worldwide income as a result of their personal circumstances (each, a "**US Holder**"). Persons who are not US Holders will not be subject to U.S. federal income tax with respect to their CPILP units or Atlantic Power common shares received in exchange therefor unless (1) their income with respect thereto is effectively connected with the conduct of a trade or business in the United States, or (2) such person is an individual who is present in the United States for 183 days or more during the taxable year and has a "tax home" in the United States. Even if a non-US Holder is subject to US federal income tax under either test in the preceding sentence, such person may be eligible for relief from (or reduction to) any US income tax under a tax treaty.

**Persons who may be subject to U.S. federal income tax, including US Holders, should consult their own tax advisors regarding the consequences of the disposition of their CPILP units and the ownership and disposition of Atlantic Power common shares.**

Table of Contents

**ATLANTIC POWER FINANCING**

Atlantic Power intends to finance the cash portion of the purchase price to complete the Plan of Arrangement by issuing up to approximately C\$200.0 million of equity and up to approximately C\$425.0 million of debt through public and private offerings. However, in the event that such financing is not available on terms satisfactory to Atlantic Power, Atlantic Power has also delivered to CPILP a copy of an executed letter evidencing the commitment of a Canadian chartered bank and another financial institution to structure, arrange, underwrite and syndicate a senior secured term loan facility in the amount of \$625 million (the "**Tranche B Facility**") subject to the terms and conditions set forth therein. Advances under the Tranche B Facility may be made by way of Base Rate-based loans and LIBOR-based loans. Conditions precedent to funding under the Tranche B Facility include, without limitation, that there shall not have occurred a Material Adverse Effect (as defined in the Arrangement Agreement) in respect of Atlantic Power, CPILP, the General Partner and CPI Investments Inc. taken as a whole.

Interest for any Base Rate-based loans will be charged at the Base Rate plus a spread and for any LIBOR-based loans, interest will be charged at a rate equal to LIBOR for the corresponding deposits of U.S. dollars plus a spread. The Tranche B Facility will mature on the seventh anniversary following the closing date of the Tranche B Facility. The lenders will be provided with certain collateral, including a first priority security interest in respect of 100% of the units of CPILP and 100% of the shares of the General Partner and any intercompany indebtedness owing by CPILP to Atlantic Power or the General Partner.

Table of Contents

**INFORMATION REGARDING ATLANTIC POWER**

**General**

Atlantic Power is an independent power producer, with power projects located in major markets in the United States. Its current portfolio consists of interests in 12 operational power generation projects across eight states, one wind project under construction in Idaho, a 500 kilovolt 84-mile electric transmission line located in California, and six development projects in five states. Atlantic Power's power generation projects in operation have an aggregate gross electric generation capacity of approximately 1,948 megawatts (or "MW") in which our ownership interest is approximately 871 MW. Atlantic Power's corporate strategy is to generate stable cash flows from Atlantic Power's existing assets and to make accretive acquisitions to sustain Atlantic Power's dividend payout to shareholders, which is currently paid monthly at an annual rate of C\$1.094 per share. Atlantic Power's current portfolio consists of interests in 12 operational power generation projects across nine states, one 53 MW biomass project under construction in Georgia, and an 84-mile, 500 kilovolt electric transmission line located in California. Atlantic Power also owns a majority interest in Rollcast Energy, a biomass power plant developer with several projects under development.

Atlantic Power sells the capacity and power from its projects under PPAs with a variety of utilities and other parties. Under the PPAs, which have expiration dates ranging from 2010 to 2037, Atlantic Power receives payments for electric energy sold to its customers (known as energy payments), in addition to payments for electric generation capacity (known as capacity payments). Atlantic Power also sells steam from a number of its projects under steam sales agreements to industrial purchasers. The transmission system rights owned by Atlantic Power in its power transmission project entitle it to payments indirectly from the utilities that make use of the transmission line.

Atlantic Power's projects generally operate pursuant to long-term supply agreements, typically accompanied by fuel transportation arrangements. In most cases, the fuel supply and transportation arrangements correspond to the term of the relevant PPAs and most of the PPAs and steam sales agreements provide for the pass-through or indexing of fuel costs to Atlantic Power's customers.

Atlantic Power partners with recognized leaders in the independent power business to operate and maintain its projects, including Caithness Energy LLC, Power Plant Management Services and the Western Area Power Administration. Under these operation, maintenance and management agreements, the operator is typically responsible for operations, maintenance and repair services.

Atlantic Power completed its initial public offering on the TSX in November 2004. At the time of Atlantic Power's initial public offering, its publicly traded security was an income participating security, or an "IPS", each of which was comprised of one common share and C\$5.767 principal amount of 11% subordinated notes due 2016. On November 27, 2009, Atlantic Power converted from the IPS structure to a traditional common share structure. In connection with the conversion, each IPS was exchanged for one new common share. Atlantic Power's common shares trade on the TSX under the symbol "ATP" and began trading on the NYSE under the symbol "AT" on July 23, 2010.

**Trading Price and Volume**

The Atlantic Power common shares began trading on the TSX on December 2, 2009, under the trading symbol "ATP" and on the NYSE on July 23, 2010 under the trading symbol "AT". The following tables show the monthly range of high and low prices per Atlantic Power common share and the total volume of Atlantic Power common shares traded on the TSX and NYSE during the 12 month period before the date of this joint proxy statement. #### **Prior Sales**

During the 12 month period before the date of this joint proxy statement, Atlantic Power issued 8,129,585 common shares (including all common shares issued under compensation plans and all securities convertible into common shares).

#### **Description of Common Shares**

The following summary description sets forth some of the general terms and provisions of the Atlantic Power common shares. Because this is a summary description, it does not contain all of the

Table of Contents

information that may be important to you. For a more detailed description of the Atlantic Power common shares, please refer to the provisions of Atlantic Power's articles.

Atlantic Power's articles authorize an unlimited number of common shares. At the close of business on \_\_\_\_\_, 2011, \_\_\_\_\_ Atlantic Power common shares were issued and outstanding. the Atlantic Power common shares are listed on the TSX under the symbol "ATP" and began trading on the NYSE under the symbol "AT" on July 23, 2010. Holders of Atlantic Power common shares are entitled to receive dividends as and when declared by Atlantic Power's board of directors and are entitled to one vote per Atlantic Power common share on all matters to be voted on at meetings of shareholders. Atlantic Power is limited in its ability to pay dividends on its common shares by restrictions under the BCBCA, relating to Atlantic Power's solvency before and after the payment of a dividend. Holders of Atlantic Power common shares have no pre-emptive, conversion or redemption rights and are not subject to further assessment by Atlantic Power.

Upon Atlantic Power's voluntary or involuntary liquidation, dissolution or winding up, the holders of Atlantic Power common shares are entitled to share ratably in the remaining assets available for distribution, after payment of liabilities.

Holders of Atlantic Power common shares will have one vote for each common share held at meetings of common shareholders.

Pursuant to Atlantic Power's articles and the provisions of the BCBCA, certain actions that may be proposed by Atlantic Power require the approval of its shareholders. Atlantic Power may, by special resolution and subject to its articles, increase its authorized capital by such means as creating shares with or without par value or increasing the number of shares with or without par value. Atlantic Power may, by special resolution, alter its articles to subdivide, consolidate, change from shares with par value to shares without par value or from shares without par value to shares with par value or change the designation of all or any of its shares. Atlantic Power may also, by special resolution, alter its articles to create, define, attach, vary, or abrogate special rights or restrictions to any shares. Under the BCBCA and Atlantic Power's articles, a special resolution is a resolution passed at a duly-convened meeting of shareholders by not less than two-thirds of the votes cast in person or by proxy at the meeting, or a written resolution consented to by all shareholders who would have been entitled to vote at the meeting of shareholders.

**Security Ownership of Certain Beneficial Owners and Management**

The following table sets forth information regarding the beneficial ownership of Atlantic Power common shares of the Corporation as of July 19, 2011 with respect to:

each person (including any "group" of persons as that term is used in Section 13(d)(3) of the Exchange Act) who is known to Atlantic Power to be the beneficial owner of more than 5% of the outstanding Common Shares (none as of July 19, 2011);

each of the Directors of Atlantic Power;

each of the named executive officers of Atlantic Power; and

all of the Directors and the named executive officers of Atlantic Power as a group.

The address of each beneficial owner listed in the following table is c/o Atlantic Power Corporation, 200 Clarendon Street, Floor 25, Boston, MA 02116.

Except as otherwise indicated in the footnotes to the following table, Atlantic Power believes, based on the information provided to it, that the persons named in the following table have sole voting

Table of Contents

and investment power with respect to the shares they beneficially own, subject to applicable community property laws.

Owner	Number of Common Shares beneficially owned	Percentage of Common Shares beneficially owned(1)
<b>Directors and named executive officers</b>		
Irving R. Gerstein	10,400	*
Kenneth M. Hartwick	57,485(2)	*

John J. Hulburt	6,143	*
All directors and named executive officers as a group (9 persons)	363,365	.01

Notes:

\*

Less than 1%.

(1)

The applicable percentage ownership is based on 68,639,654 common shares issued and outstanding as of June 30, 2011.

(2)

Common Shares beneficially owned include units held in the Corporation's Deferred Share Unit Plan of 55,485 for Ken Hartwick and 2,550 for Holli Nichols.

(3)

Joined Board in June 2010.

**Risk Factors**

The business and operations of Atlantic Power are subject to risks. In addition to considering the other information in this joint proxy statement, CPILP unitholders should consider carefully the factors set forth in the Annual Report on Form 10-K of Atlantic Power for the fiscal year ended December 31, 2010, which is incorporated by reference herein.

Table of Contents

**INFORMATION REGARDING CPILP**

The information concerning CPILP contained in this joint proxy statement has been provided by CPILP. Although Atlantic Power has no knowledge that would indicate that any of such information is untrue or incomplete, Atlantic Power does not assume any responsibility for the accuracy or completeness of such information or the failure by CPILP to disclose events which may have occurred or may affect the completeness or accuracy of such information but which are unknown to Atlantic Power.

**Presentation of Information**

The information contained herein provides material information about the business, operations and capital of CPILP. Any reference to CPILP means Capital Power Income L.P. and its subsidiaries on a consolidated basis, except where otherwise noted or where the context otherwise dictates. All financial information with respect to CPILP is presented in Canadian dollars unless otherwise stated.

**General**

CPILP (formerly known as EPCOR Power L.P. and prior thereto, TransCanada Power, L.P.) was formed pursuant to a limited partnership agreement dated as of March 27, 1997 and as amended and restated June 6, 1997 and as amended September 29, 1998, March 26, 2004, April 29, 2004 and August 31, 2005 and as amended and restated July 1, 2009, October 1, 2009 and November 4, 2009 among the general partner of CPILP (CPI Income Services Ltd., formerly known as TransCanada Power Services Ltd.), the initial limited partner and each person who is admitted to CPILP as a limited partner in accordance with the terms of the limited partnership agreement. On March 27, 1997, CPILP was registered as a limited partnership under the laws of the Province of Ontario and was registered or extra-provincially registered, as the case may be, in all other provinces of Canada. The head office of CPILP is located at 10065 Jasper Avenue, Edmonton, Alberta, T5J 3B1. The registered office of CPILP is 200 University Avenue, Toronto, Ontario, M5H 3C6.

CPILP is only permitted to carry on activities that are directly or indirectly related to the energy supply industry and to hold investments in other entities which are primarily engaged in such industry. CPILP's portfolio consists of 19 wholly-owned power generation assets located in both Canada (in the provinces of British Columbia and Ontario) and in the United States (in the states of California, Colorado, Illinois, New Jersey, New York and North Carolina), a 50.15% interest in a power generation asset in Washington State (collectively the power plants), and a 14.3% common equity interest in Primary Energy Recycling Holdings LLC.

The general partner of CPILP is responsible for the management of CPILP. The General Partner has engaged the Managers, both subsidiaries of Capital Power, to perform management and administrative services for CPILP and to operate and maintain the power plants pursuant to certain management and operations agreements.

For further information regarding CPILP, its subsidiaries and their respective business activities, including CPILP's inter-corporate relationships and organizational structure, see "Additional Information Regarding CPILP" beginning on Schedule I-81.

**Recent Developments**

*Termination of Dividend Reinvestment Plan*

CPILP terminated its Premium Distribution and Distribution Reinvestment Plan effective June 30, 2011.

Table of Contents

*Power Purchase Agreements Finalized for the North Carolina Plants*

In June 2011, CPILP executed final power purchase agreements with Progress Energy for CPILP's Southport and Roxboro facilities. The final power purchase agreements, which expire in 2021, replace the interim power purchase agreements that were effective April 1, 2011 and contain terms that are generally consistent with the interim power purchase agreements.

*Power Purchase Agreement Amendment for the Calstock Plant*

The power purchase agreement for CPILP's Calstock facility was amended effective May 1, 2011 to increase the price for power delivered during peak power demand periods and to reduce the power the power purchase agreement counterparty is required to purchase during periods of low power demand.

**Additional Information Relating to CPILP**

The following documents, which have been filed by CPILP with the Canadian Securities Administrators, are specifically attached as schedules to and form an integral part of this joint proxy statement:

the annual information form of CPILP dated March 11, 2011 and attached as Schedule I;

the management's discussion and analysis of CPILP for the year ended December 31, 2010 and attached as Schedule II;

the management's discussion and analysis of CPILP for the three months ended March 31, 2011 and attached as Schedule III;

the audited consolidated financial statements of CPILP as at and for the years ended December 31, 2010, 2009 and 2008, together with the notes thereto and the auditors' report thereon and attached as Schedule IV; and

the unaudited condensed interim financial statements of CPILP as at and for the three month period ended March 31, 2011, together with the notes thereto and attached as Schedule V.

Table of Contents**Price Range and Trading Volume of CPILP Units**

The CPILP units are listed and trade on the TSX under the trading symbol "CPA.UN". The following table sets forth the price range and trading volume of the CPILP units as reported by the TSX for the periods indicated.

Month	High (\$)	Low (\$)	Close (\$)	Volume Traded
<b>2010</b>				
June	16.59	15.38	16.30	1,834,995
July	17.90	16.03	17.68	1,470,997
August	18.01	16.96	18.01	1,275,618
September	18.85	17.65	18.75	1,433,610
October	19.02	17.81	18.33	1,395,389
November	18.54	17.75	17.91	1,497,626
December	18.10	17.11	17.95	1,566,002
<b>2011</b>				
January	19.83	17.65	19.60	1,495,356
February	20.70	19.15	20.17	1,453,180
March	21.22	17.87	20.90	2,092,101
April	20.49	19.25	19.26	1,295,173
May	19.80	18.28	19.80	1,458,674
June	19.77	18.63	19.00	4,174,124
July (to July 19)	19.50	18.94	19.47	1,586,822

On June 17, 2011, the last trading day on which the CPILP units traded prior to the announcement of entering into the Arrangement Agreement, the closing price of the CPILP units on the TSX was \$18.63. On \_\_\_\_\_, 2011, the last trading day on which the CPILP units traded prior to mailing this joint proxy statement, the closing price of the CPILP units on the TSX was \$ \_\_\_\_\_.

**Dividend History***Distributions of CPILP*

The following table sets forth the cash distributions declared (on a per unit basis) in respect of the CPILP units during the prior two years:

	2011 (to July 19)	2010	2009
Cash distributions per CPILP unit	\$ 1.0266	\$ 1.76	\$ 1.95

Prior to October 1, 2009, CPILP distributed cash to its limited partners on a quarterly basis. Commencing after September 30, 2009, CPILP distributes cash to its limited partners on a monthly basis in accordance with the requirements of the limited partnership agreement and subject to the approval of the board of directors of the general partner of CPILP. Cash distributions are determined after considering cash amounts required for the operations of CPILP and the power plants, including maintenance capital expenditures, debt repayments, and financing charges, and any cash retained at the discretion of the general partner of CPILP to satisfy anticipated obligations or to normalize monthly distributions.

Table of Contents**Dividends of Subsidiary (CPI Preferred Equity Ltd.)**

Dividends are also declared in respect of preferred shares issued by CPI Preferred Equity Ltd., which is a wholly-owned subsidiary of CPILP. Cash dividends per share declared by CPI Preferred Equity Ltd. in respect of its Cumulative Redeemable Preferred Shares, Series 1, and its Cumulative Rate Reset Preferred Shares, Series 2 during the prior two years are set forth in the following table:

	2011 (to July 19)	2010	2009
Cash distributions per Series 1 Preferred Share	\$ 0.60625	\$ 1.2125	\$ 1.2125
Cash distributions per Series 2 Preferred Share	\$ 0.875	\$ 1.75	\$ 0.28288(1)

Note:

- (1) Represents the period from November 2, 2009 to December 31, 2009.

**Voting Securities and Principal Holders of Voting Securities**

The authorized capital of CPILP consists of an unlimited number of CPILP units and an unlimited number of subscription receipts exchangeable into CPILP units. As at the date hereof, CPILP had outstanding 56,597,899 CPILP Units, each of which carries the right to one vote on all matters that may come before the CPILP special meeting. To the knowledge of the directors and executive officers of the general partner of CPILP, the only persons or companies beneficially owning, directly or indirectly, or controlling or directing securities carrying 10% or more of the voting rights attached to any class of outstanding voting securities of CPILP is set forth in the following table:

Shareholder	Type of Ownership	Number of Shares	(%)
CPI Investments Inc.(1)	Direct & Indirect	16,513,504	29.18%

Note:

- (1) CPI Investments holds 16,511,104 CPILP units and all of the issued and outstanding shares of the General Partner, which holds 2,400 CPILP units. Capital Power, indirectly through Capital Power L.P., holds a 49% voting interest and 100% economic interest in CPI Investments and EPCOR holds the remaining 51% voting interest in CPI Investments.

**Ownership of CPILP Securities by Directors, Officers and Insiders**

To the knowledge of CPILP, after reasonable inquiry, the following table indicates, as of the date hereof, the number of CPILP units beneficially owned, directly or indirectly, or over which control or direction is exercised, by: (i) each director and officer of CPILP; (ii) each associate or affiliate of an

Table of Contents

insider of CPILP; (iii) each associate or affiliate of CPILP; (iv) each insider of CPILP (other than a director or officer of CPILP; and (v) each person acting jointly or in concert with CPILP:

Name	Position with CPILP	CPILP Units	Maximum Amount of Potential Cash Consideration
Graham L. Brown	Director		n/a
Brian A. Felesky	Director (Independent)	5,640	\$ 109,416
Allen R. Hagerman	Director (Independent)	17,702	\$ 343,419

Brian T. Vaasjo	Chairman and Director	7,400	\$ 143,560
Rodney D. Wimer	Director (Independent)		n/a
James Oosterbaan	Director		n/a
Stuart A. Lee	Director and President	3,536	\$ 68,598
	General Counsel and Corporate		
B. Kathryn Chisholm	Secretary	915	\$ 17,751
Peter D. Johanson	Controller	400	\$ 7,760
Leah M. Fitzgerald	Assistant Corporate Secretary		n/a
Anthony Scozzafava	Chief Financial Officer	2,050	\$ 39,770
Yale Loh	Vice President, Treasurer		n/a
Capital Power Corporation(1)	Unitholder	16,513,504	\$ 320,361,978

(1)

Capital Power indirectly owns 49% of the voting interests and all of the economic interests in CPI Investments. EPCOR owns the remaining 51% voting interest in CPI Investments. CPI Investments owns 16,513,504 CPILP units. Under the Plan of Arrangement, Atlantic Power will acquire all of the outstanding shares of CPI Investments on effectively the same basis as the acquisition of CPILP units under the Plan of Arrangement.

#### Indebtedness of Directors and Executive Officers

No executive officers, directors, employees or former executive officers, directors or employees of CPILP or any of its subsidiaries, nor any associate of any one of them, is currently or will be indebted to CPILP, the general partner of CPILP or any of its subsidiaries upon completion of the Plan of Arrangement.

#### Risk Factors

An investment in CPILP units or other securities of CPILP is subject to certain risks. The transactions contemplated by the Arrangement Agreement and the Plan of Arrangement are also subject to certain risks. Investors should carefully consider the risk factors described under the heading "Risk Factors" beginning on Schedule I-26 and "Business Risks" beginning on Schedule II-34, as well as the risk factors set forth elsewhere in this joint proxy statement.

Table of Contents**Auditors, Transfer Agent and Registrar**

The auditors of CPILP are KPMG LLP, Independent Registered Chartered Accountants, Calgary, Alberta. CPILP's transfer agent and registrar is Computershare Trust Company of Canada at its principal offices in Calgary and Toronto.

**Selected Historical Consolidated Financial Data of CPILP**

The following table presents selected consolidated financial information for CPILP. The selected historical financial data as of, and for the years ended, December 31, 2010, 2009 and 2008 has been derived from CPILP's audited consolidated financial statements for those periods appearing elsewhere in this joint proxy statement. The selected historical financial data as of, and for the years ended, December 31, 2007 and 2006 has been derived from the audited consolidated financial statements of CPILP not appearing in this joint proxy statement. The selected historical financial data as of, and for the periods ended, March 31, 2011 and 2010 are derived from CPILP's unaudited consolidated financial statements for those periods appearing elsewhere in this joint proxy statement.

Data for all periods presented below have been prepared under Canadian generally accepted accounting principles and are reported in Canadian dollars. You should read the following selected consolidated financial data together with CPILP's consolidated financial statements and the notes thereto and the discussion under "Management's Discussion and Analysis of Financial Condition and Results of Operations" for CPILP included elsewhere in this joint proxy statement.

Table of Contents

**INFORMATION REGARDING THE COMBINED COMPANY**

**General**

On completion of the Plan of Arrangement, Atlantic Power will continue to be a corporation governed by the laws of the Province of British Columbia and CPILP will continue to be a limited partnership governed by the laws of the Province of Ontario. After the Effective Date, Atlantic Power will directly or indirectly own all of the outstanding CPILP units.

Upon completion of the Plan of Arrangement, CPILP's operations will be managed and operated as a subsidiary of Atlantic Power.

**Directors and Executive Officers of the Combined Company**

Following completion of Plan of Arrangement, it is anticipated that the senior management and the board of directors of the Combined Company will initially be comprised of the existing senior management and board of directors of Atlantic Power.

Table of Contents

**ATLANTIC POWER AND CPILP UNAUDITED PRO FORMA CONDENSED COMBINED CONSOLIDATED FINANCIAL STATEMENTS**

The unaudited pro forma condensed combined statements of income (which we refer to as the pro forma financial statements) combine the historical consolidated financial statements of Atlantic Power and CPILP to illustrate the effect of the Plan of Arrangement. The pro forma financial statements were based on and should be read in conjunction with the:

accompanying notes to the Unaudited Pro Forma Condensed Combined Consolidated Financial Statements;

consolidated financial statements of Atlantic Power for the year ended December 31, 2010 and for the three months ended March 31, 2011 and the notes relating thereto, incorporated herein by reference; and

consolidated financial statements of CPILP for the year ended December 31, 2010 and for the three months ended March 31, 2011 and the notes relating thereto, elsewhere in this joint proxy statement.

The historical consolidated financial statements have been adjusted in the pro forma financial statements to give effect to pro forma events that are (1) directly attributable to Plan of Arrangement, (2) factually supportable and (3) with respect to the unaudited pro forma condensed combined consolidated statement of operations (which we refer to as the pro forma statement of operations), expected to have a continuing impact on the combined results. The pro forma statements of operations for the year ended December 31, 2010 and for the three months ended March 31, 2011, give effect to the Plan of Arrangement as if it occurred on January 1, 2010. The Unaudited Pro Forma Condensed Combined Consolidated Balance Sheet (which we refer to as the pro forma balance sheet) as of March 31, 2011, gives effect to the Plan of Arrangement as if it occurred on March 31, 2011.

As described in the accompanying notes, the pro forma financial statements have been prepared using the acquisition method of accounting under existing United States generally accepted accounting principles, or GAAP, and the regulations of the SEC. Atlantic Power has been treated as the acquirer in the transaction for accounting purposes. The acquisition accounting is dependent upon certain valuations and other studies that have yet to commence or progress to a stage where there is sufficient information for a definitive measurement. Accordingly, the pro forma financial statements are preliminary and have been made solely for the purpose of providing unaudited pro forma condensed combined consolidated financial information. Differences between these preliminary estimates and the final acquisition accounting will occur and these differences could have a material impact on the accompanying pro forma financial statements and the combined company's future results of operations and financial position.

The pro forma financial statements have been presented for informational purposes only and are not necessarily indicative of what the combined company's results of operations and financial position would have been had the transaction been completed on the dates indicated. In addition, the pro forma financial statements do not purport to project the future results of operations or financial position of the combined company.

Table of Contents

**ATLANTIC POWER CORPORATION AND CAPITAL POWER INCOME L.P.**

**NOTES TO THE UNAUDITED PRO FORMA CONDENSED**

**COMBINED CONSOLIDATED FINANCIAL STATEMENTS**

**Note 1. Description of the Transaction**

On June 20, 2011, Atlantic Power, CPILP, the General Partner and CPI Investments entered into the Arrangement Agreement, which provides that Atlantic Power will acquire, directly or indirectly, all of the issued and outstanding CPILP units pursuant to a court-approved statutory Plan of Arrangement under the *CBCA*. Under the terms of the Plan of Arrangement, CPILP unitholders will be permitted to exchange each of their CPILP units for, at their election, C\$19.40 in cash or 1.3 Atlantic Power common shares. All cash elections will be subject to proration if total cash elections exceed approximately C\$506.5 million and all share elections will be subject to proration if total share elections exceed approximately 31.5 million Atlantic Power common shares.

Pursuant to the Plan of Arrangement, CPILP will sell its Roxboro and Southport facilities located in North Carolina to an affiliate of Capital Power, for approximately C\$121.0 million. Additionally, in connection with the Plan of Arrangement, the management agreements between certain subsidiaries of Capital Power and CPILP and certain subsidiaries of CPILP will be terminated (or assigned to Atlantic Power) in consideration of a payment of C\$10 million. Atlantic Power will assume the management of CPILP and enter into a transitional services agreement with Capital Power for a term of up to 12 months following closing, which will facilitate the integration of CPILP into Atlantic Power.

**Note 2. Basis of Pro Forma Presentation**

The pro forma financial statements were derived from historical consolidated financial statements of Atlantic Power and CPILP. Certain reclassifications have been made to the historical financial statements of CPILP to conform with Atlantic Power's presentation. This resulted in income statement adjustments to operating revenues, operating expenses, other income and deductions and balance sheet adjustments to current assets, long term assets, current liabilities and other long term liabilities.

The historical consolidated financial statements have been adjusted in the pro forma financial statements to give effect to pro forma events that are (1) directly attributable to the transaction, (2) factually supportable, and (3) with respect to the pro forma statement of operations, expected to have a continuing impact on the combined results. The following matters have not been reflected in the pro forma financial statements as they do not meet the aforementioned criteria.

Cost savings (or associated costs to achieve such savings) from operating efficiencies, synergies or other restructuring that could result from the transaction with CPILP. The timing and effect of actions associated with integration are currently uncertain.

A fair value adjustment for CPILP's pension and other postretirement benefit obligations. Atlantic Power management believes the actuarial assumptions and methods used to measure CPILP's obligations and costs for financial accounting purposes for 2010 and 2011 are appropriate in the circumstances. The final fair value determination of the pension and postretirement benefit obligations may differ materially, largely due to potential changes in discount rates, return on plan assets up to the date of completion of the transaction and the conforming of certain Atlantic Power and CPILP assumptions surrounding the determination of these obligations.

The pro forma financial statements were prepared using the acquisition method of accounting under GAAP and the regulations of the SEC. Atlantic Power has been treated as the acquirer in the transaction for accounting purposes. Acquisition accounting requires, among other things, that most assets acquired and liabilities assumed be recognized at fair value as of the acquisition date. In

Table of Contents

## ATLANTIC POWER CORPORATION AND CAPITAL POWER INCOME L.P.

## NOTES TO THE UNAUDITED PRO FORMA CONDENSED

## COMBINED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

**Note 2. Basis of Pro Forma Presentation (Continued)**

addition, acquisition accounting establishes that the consideration transferred be measured at the closing date of the transaction at the then-current market price. Since acquisition accounting is dependent upon certain valuations and other studies that have yet to commence or progress to a stage where there is sufficient information for a definitive measurement, the pro forma financial statements are preliminary and have been prepared solely for the purpose of providing unaudited pro forma condensed combined consolidated financial information. Differences between these preliminary estimates and the final acquisition accounting will occur and these differences could have a material impact on the accompanying pro forma financial statements and the combined company's future results of operations and financial position.

**Note 3. Significant Accounting Policies**

Based upon Atlantic Power's initial review of CPILP's summary of significant accounting policies, as disclosed in the CPILP consolidated historical financial statements elsewhere in this joint proxy statement, as well as on preliminary discussions with CPILP's management, the pro forma combined consolidated financial statements assume there will be significant adjustments necessary to conform CPILP's accounting policies under International Financial Reporting Standards ("IFRS") to Atlantic Power's accounting policies under US GAAP. Upon completion of the transaction and a more comprehensive comparison and assessment, differences may be identified that would necessitate changes to CPILP's future accounting policies and such changes could result in material differences in future reported results of operations and financial position for CPILP as compared to historically reported amounts.

**Note 4. Estimated Purchase Price and Preliminary Purchase Price Allocation**

Atlantic Power is proposing to acquire all of the outstanding units of CPILP for a combination of either C\$19.40 in cash or 1.3 Atlantic Power shares per CPILP unit. The purchase price for the business combination is estimated as follows (in thousands except conversion ratio and share price):

Fair value of consideration transferred:	
Cash	\$ 521,632
Equity	483,718
Total estimated purchase price	1,005,350
Preliminary purchase price allocation	
Working capital	\$ (4,320)
Property, plant and equipment	967,174
Intangibles	628,718
Other long-term assets	135,689
Long-term debt	(684,624)
Other long-term liabilities	(110,147)
Deferred tax liability	(173,089)
Noncontrolling interest	(219,560)
Total identifiable net assets	539,841
Goodwill	465,509
Total estimated purchase price	1,005,350

Table of Contents

**ATLANTIC POWER CORPORATION AND CAPITAL POWER INCOME L.P.**

**NOTES TO THE UNAUDITED PRO FORMA CONDENSED**

**COMBINED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**Note 4. Estimated Purchase Price and Preliminary Purchase Price Allocation (Continued)**

The preliminary purchase price was computed using CPILP's outstanding units as of June 30, 2011, adjusted for the exchange ratio. The preliminary purchase price reflects the market value of Atlantic Power's common stock to be issued in connection with the transaction based on the closing price of Atlantic Power's common stock on June 30, 2011.

The allocation of the preliminary purchase price to the fair values of assets acquired and liabilities assumed includes pro forma adjustments to reflect the fair values of CPILP's assets and liabilities at the time of the completion of the transaction. The final allocation of the purchase price could differ materially from the preliminary allocation used for the Unaudited Pro Forma Condensed Combined Consolidated Balance Sheet primarily because power market prices, interest rates and other valuation variables will fluctuate over time and be different at the time of completion of the transaction compared to the amounts assumed in the pro forma adjustments.

**Note 5. Pro Forma Adjustments to Financial Statements**

The pro forma adjustments included in the pro forma financial statements are as follows:

- (a) *Atlantic Power and CPILP historical presentation* Based on the amounts reported in the consolidated statements of operations and balance sheets of Atlantic Power and CPILP for the year ended December 31, 2010 and for the three months ended and as of March 31, 2011. Certain financial statement line items included in CPILP's historical presentation have been reclassified to corresponding line items included in Atlantic Power's historical presentation. These reclassifications had no impact on the historical operating income, net income from continuing operations or partners' equity reported by CPILP. The adjustments to total assets and liabilities were not material to CPILP's balance sheet.
- (b) *CPILP conversion to US dollars* Based on the amounts reported in the historical consolidated statements of operations of CPILP for the year ended December 31, 2010 and for the three months ended March 31, 2011, the amounts have been converted from Canadian dollars to US dollars using average exchange rates for the applicable periods. For the historical consolidated balance sheet as of March 31, 2011, the amounts have been converted from Canadian dollars to US dollars using ending exchange rates for that period. The adjustments to total assets, total liabilities, revenues and expenses were not material to CPILP's consolidated balance sheet and income statements.
- (c) *CPILP conversion to US GAAP* Based on the amounts reported in the consolidated statements of operations and balance sheets of CPILP for the year ended December 31, 2010 and for the three months ended and as of March 31, 2011. Certain financial statement line items included in CPILP's historical presentation have been reclassified or adjusted to conform to US GAAP presentation. For the three months ended March 31, 2011, the CPILP statements conform to the IFRS and for the year ended December 31, 2010 the CPILP statements conform to Canadian GAAP. The adjustments to total assets, total liabilities, revenues and expenses were not material to CPILP's consolidated balance sheet and income statements.
- (d) *CPILP exclusion of the North Carolina Plants* CPILP will sell its Roxboro and Southport facilities located in North Carolina to an affiliate of Capital Power. Based on the amounts

<b>Equity</b>	
Retained earnings	102,895
Total liabilities and equity	\$ 114,128

(e)

*Power Purchase Agreements and Plants* The pro forma balance sheet includes pro forma adjustments to reflect the fair value of CPILP's power contracts (including those designated as "normal purchases normal sales") recorded to intangible assets and additional fair value of plants in the amounts of \$343.0 million and \$68.3 million, respectively. The pro forma

Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

statements of operations include pro forma adjustments to reflect the increase in expense resulting from the amortization of the valuation adjustment related to CPILP's intangibles and

**ATLANTIC POWER CORPORATION AND CAPITAL POWER INCOME L.P.**

**NOTES TO THE UNAUDITED PRO FORMA CONDENSED**

**COMBINED CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

**Note 5. Pro Forma Adjustments to Financial Statements (Continued)**

the depreciation of the plants of \$10.1 million and \$40.4 million for the three months ended March 31, 2011 and the year ended December 31, 2010, respectively. The pro forma estimated annual amortization for the power contracts is \$38.1 million based on the timing and fair value of the underlying contracts. This estimate is preliminary, subject to change and could vary materially from the actual adjustments at the time the transaction is completed, driven by various factors including changes in energy commodity prices and fuel prices.

(f)

*Debt and Equity issuance* The pro forma balance sheet includes a pro forma adjustment of \$425.0 million to reflect Atlantic Power's proceeds from third-party debt and proceeds of \$200.0 million from the issuance of 13.1 million common shares. The assumptions for the \$425.0 million debt facility would include a term of 5 years at 6.00% per annum. The proceeds from the debt and equity offering will be used to pay the CPILP unitholders the cash portion of the purchase price. The debt and equity amounts are offset by \$11.7 million and \$10.1 million of transaction costs classified as deferred financing costs and a reduction of common stock, respectively. The pro forma statements of operations include pro forma adjustments to reflect the net incremental interest expense resulting from the new debt and amortization of deferred financing costs of \$7.0 million and \$27.8 million for the three months ended March 31, 2011 and the year ended December 31, 2010, respectively.

(g)

*Transaction Costs* The pro forma balance sheet includes a pro forma adjustment to accounts payable and accrued liabilities to reflect estimated transaction costs of \$25.7 million. The transaction costs have been excluded from the pro forma statements of operations as they reflect non-recurring charges not expected to have a continuing impact on the combined results.

(h)

*Goodwill* The pro forma balance sheet includes a preliminary estimate of the allocation of the excess of the purchase price paid over the fair value of CPILP's identifiable assets acquired and liabilities assumed. The estimated purchase price of the transaction, based on the closing price of Atlantic Power's common stock on the NYSE on June 30, 2011, is \$1,005.0 million, and the excess purchase price over the fair value of the identifiable net assets acquired is \$465.5 million.

(i)

*Deferred Tax Assets and Liabilities:* The pro forma balance sheet includes a preliminary estimated deferred tax asset impact of \$40.6 million to deferred tax liabilities. This adjustment reflect the estimated deferred tax impacts of the acquisition on the balance sheet, primarily related to the reversal of the Atlantic Power's valuation allowance associated with its Canadian accumulated net operating losses as of June 30, 2011. For purposes of the unaudited pro forma condensed combined consolidated financial statements, deferred taxes are provided at the Canadian enacted statutory rate of 25%. This rate does not reflect Atlantic Power's effective tax rate, which includes other tax items, such as non-deductible items, as well as other tax charges or benefits, and does not take into account any historical or possible future tax events that may impact the combined company. When the transaction is completed and additional information becomes available, it is likely the applicable income tax rate will change.

Table of Contents

## ATLANTIC POWER CORPORATION AND CAPITAL POWER INCOME L.P.

## NOTES TO THE UNAUDITED PRO FORMA CONDENSED

## COMBINED CONSOLIDATED FINANCIAL STATEMENTS (Continued)

## Note 5. Pro Forma Adjustments to Financial Statements (Continued)

The \$125,159 deferred tax liability adjustment reflects the estimated deferred tax liability impact of the acquisition on the balance sheet, primarily related to estimated fair value adjustments for acquired tangible and intangible assets. For purposes of the unaudited pro forma condensed combined consolidated financial information, deferred taxes are provided at Atlantic Power's deferred tax rate of 33%, which includes the U.S. federal statutory income tax rate plus the Canadian statutory income tax rate. This rate does not reflect Atlantic Power's effective tax rate, which includes other tax items, such as state taxes, as well as other tax charges or benefits and does not take into account any historical or possible future tax events that may impact the combined company. When the transaction is completed and additional information becomes available, it is likely the applicable income tax rate will change.

(j)

*Common Stock Shares outstanding* Reflects the elimination of the CPILP units offset by issuance of 31.5 million shares of Atlantic Power common stock as part of purchase price and the issuance of 13.1 million shares of Atlantic Power common stock in new equity . The pro forma weighted average number of basic shares outstanding is calculated by adding these additional share issuances to Atlantic Power's weighted average number of basic shares of common stock outstanding for the three months ended March 31, 2011 or the year ended December 31, 2010. The following table illustrates these computations (in thousands):

	Three months ended March 31, 2011	Year ended December 31, 2010
Atlantic Power's basic shares outstanding	67,654	61,706
Additional shares issued to CPILP unit holders	31,500	31,500
Additional shares on new equity issuance	13,141	13,141
Basic shares outstanding	112,295	106,347
Dilutive potential shares		
Convertible debentures	14,809	12,339
LTIP notional units	517	542
Potentially dilutive shares	127,621	119,228

Potentially dilutive shares from convertible debentures have been excluded from fully dilutive shares for the three months ended March 31, 2011 and for the year ended December 31, 2010 because their impact would be anti-dilutive.

Table of Contents**COMPARATIVE PER SHARE/UNIT MARKET PRICE DATA AND DIVIDEND INFORMATION****Selected Comparative Per Share/Unit Market Price and Dividend Information**

Atlantic Power common shares are listed and traded on the NYSE under the symbol "AT" and on the TSX under the symbol "ATP". CPILP units are listed and traded on the TSX under the symbol "CPA.UN". The following table sets forth, for the quarters indicated, the high and low sales price per share of Atlantic Power common shares as reported on both the NYSE and the TSX and the high and low sales price per unit of CPILP units as reported on the TSX. In addition, the table also sets forth the monthly cash dividends per share declared by Atlantic Power with respect to its common shares and monthly cash distributions per unit declared by CPILP with respect to its limited partnership units. On the Atlantic Power record date ( , 2011), there were approximately common shares of Atlantic Power outstanding. On the CPILP record date ( , 2011), there were 56,597,899 CPILP units outstanding.

Table of Contents**CERTAIN HISTORICAL AND PRO FORMA PER SHARE/UNIT DATA**

The following tables set forth certain historical, pro forma and pro forma equivalent per share financial information for Atlantic Power common shares and per unit financial information for CPILP units. The pro forma and pro forma equivalent per share/unit information gives effect to the Plan of Arrangement as if the Plan of Arrangement had occurred on March 31, 2011 in the case of book value per share data and as of January 1, 2010 in the case of net income per share/unit data.

The pro forma per share balance sheet information combines CPILP's March 31, 2011 unaudited consolidated balance sheet with Atlantic Power's March 31, 2011 unaudited consolidated balance sheet. The pro forma per share income statement information for the fiscal year ended December 31, 2010, combines CPILP's audited consolidated statement of income for the fiscal year ended December 31, 2010, with Atlantic Power's audited consolidated statement of operations for the fiscal year ended December 31, 2010. The pro forma per share income statement information for the three months ended March 31, 2011, combines CPILP's unaudited consolidated statement of income for the three months ended March 31, 2011, with Atlantic Power's unaudited consolidated statement of operations for the three months ended March 31, 2011. The CPILP pro forma equivalent per share financial information is calculated by multiplying the unaudited Atlantic Power pro forma combined per share amounts by 1.3 (being the exchange ratio under the Plan of Arrangement). The balance sheet of CPILP as of March 31, 2011 has been translated using a C\$/\\$ exchange rate of C\$0.9718 to \$1.00.

The per share data for the Combined Company on a pro forma basis presented below is not necessarily indicative of the financial condition of the Combined Company had the Plan of Arrangement been completed on March 31, 2011 and the operating results that would have been achieved by the Combined Company had the Plan of Arrangement been completed as of the beginning of the period presented, and should not be construed as representative of the Combined Company's future financial condition or operating results. The per share data for the Combined Company on a pro forma basis presented below has been derived from the unaudited pro forma condensed combined consolidated financial data of the Combined Company included in this joint proxy statement. In addition, the unaudited pro forma information does not purport to indicate balance sheet data or results of operations data as of any future date or for any future period.

**COMPARISON OF RIGHTS OF ATLANTIC POWER  
SHAREHOLDERS AND CPILP UNITHOLDERS**

If the Plan of Arrangement is completed, unitholders of CPILP may become shareholders of Atlantic Power. The rights of Atlantic Power shareholders are currently governed by the BCBCA and the articles of Atlantic Power. The rights of CPILP unitholders are currently governed by the *Limited Partnerships Act* (Ontario) ("**LPA**") and CPILP's partnership agreement.

This section of the joint proxy statement describes the material differences between the rights of Atlantic Power shareholders and CPILP unitholders. This section does not include a complete description of all differences among the rights of Atlantic Power shareholders and CPILP unitholders, nor does it include a complete description of the specific rights of these persons.

**THE FOLLOWING SUMMARY IS QUALIFIED IN ITS ENTIRETY BY REFERENCE TO, AND YOU ARE URGED TO READ CAREFULLY, THE RELEVANT PROVISIONS OF THE BCBCA, THE LPA AND THE ARTICLES OF ATLANTIC POWER AND THE LIMITED PARTNERSHIP AGREEMENT OF CPILP. THIS SUMMARY DOES NOT REFLECT ANY OF THE RULES OF THE NYSE OR TSX THAT MAY APPLY TO ATLANTIC POWER OR CPILP IN CONNECTION WITH THE PLAN OF ARRANGEMENT. A COPY OF THE ARTICLES OF ATLANTIC POWER IS FILED AS AN EXHIBIT TO THE REPORTS OF ATLANTIC POWER INCORPORATED BY REFERENCE IN THIS JOINT PROXY STATEMENT. SEE "WHERE YOU CAN FIND MORE INFORMATION" BEGINNING ON PAGE 149.**

	<b>Atlantic Power</b>	<b>CPILP</b>
<b>Outstanding Capital Stock:</b>	As of _____, 2011 there were common shares outstanding.	As of _____, 2011, CPILP had 56,597,899 issued and outstanding units.
<b>Authorized Capital Stock:</b>	Atlantic Power is authorized to issue an unlimited number of common shares.	CPILP is authorized to issue an unlimited number of units and an unlimited number of subscription receipts exchangeable into units. Any limited partner who holds units must not be a non-resident of Canada for purposes of the Tax Act. There are restrictions in the CPILP partnership agreement on unit ownership by non-residents of Canada.
<b>Voting Rights:</b>	On a poll, one vote per common share on all matters to be voted on at all meetings of shareholders. On a show of hands, one vote per person present.	Each limited partner is entitled to one vote per unit at all meetings of limited partners.

Table of Contents

	<b>Atlantic Power</b>	<b>CPILP</b>
<b>Dividend Rights:</b>	<p>Holders of common shares are entitled to receive dividends as and when declared by the board of directors of Atlantic Power.</p>	<p>CPILP distributes cash to its limited partners on a monthly basis in accordance with the requirements of the CPILP partnership agreement and subject to the approval of the board of directors of the General Partner. Cash distributions are determined in consideration of cash amounts required for the operations of CPILP and the power plants including maintenance capital expenditures, debt repayments, and financing charges, and any cash retained at the discretion of the board of directors of the General Partner to satisfy anticipated obligations or to normalize monthly distributions. The cash distributions are made in respect of each calendar month to unitholders of record on the last day of each month commencing. Payments are made on or before the 30th day after each record date. The limited partners have covenanted not to transfer their units to any person, including corporations or other entities, which has not represented, warranted and covenanted under the CPILP partnership agreement that it is not a non-resident of Canada for purposes of the Tax Act or, if a partnership, is a "Canadian Partnership" under the Tax Act.</p>
<b>Restrictions on share transfers:</b>	<p>Transfers are governed by the <i>Securities Transfer Act</i>.</p>	<p>The board of directors of the general partner currently has eight members.</p>
<b>Size of the Board of Directors:</b>	<p>The board of directors currently has six members. The BCBCA requires a public corporation to have at least three directors. Atlantic Power's articles provide for a minimum of three directors if the company is public, and no maximum of directors.</p>	

Table of Contents

	<b>Atlantic Power</b>	<b>CPILP</b>
<b>Residency of Directors:</b>	No residency requirement for directors.	Pursuant to the CBCA, at least 25% of the directors of the General Partner must be resident Canadians.
<b>Election of Directors:</b>	Election of directors may be made by shareholders at a shareholders' meeting where an existing director is removed, or otherwise by the shareholders or remaining directors in certain circumstances.	Unitholders do not have the right to elect directors of the general partner. CPI Investments elects the directors of the general partner. The CPILP partnership agreement requires that at least three directors be independent of Capital Power or its affiliates and EPCOR or its affiliates provided that combined such entities own at least 30% of the issued and outstanding Units. Should Capital Power and its affiliates and EPCOR and its affiliates not maintain a 30% ownership holding in CPILP (or such lower percentage, being not less than 20%, resulting from the issuance of Units other than to Capital Power and its affiliates or EPCOR and its affiliates), not less than four directors must be independent. CPILP unitholders do not have the right to remove directors of the General Partner. CPI Investments, as the sole shareholder of the General Partner, may remove directors. See "Election of Directors".
<b>Removal of Directors:</b>	A director may be removed by a resolution passed by a majority of the shareholders or may resign.	
<b>Filling of Vacancies on the Board of Directors:</b>	The vacancy created by the removal of a director may be filled at the shareholder meeting at which he or she was removed. A vacancy not so filled at a shareholder meeting, or created by the resignation of a director, may be filled by a resolution of the remaining directors.	

Table of Contents

	<b>Atlantic Power</b>	<b>CPILP</b>
<b>Ability to call Special Meeting of Shareholders/Unitholders:</b>	A requisition may be made by shareholders who, at the date on which the requisition is received by Atlantic Power, hold in the aggregate at least $\frac{1}{20}$ of the issued shares of Atlantic that carry the right to vote at general meetings.	The general partner or limited partners holding not less than 10% of the outstanding units may request a meeting which shall be convened within 60 days of receipt of notice of the meeting. A quorum will consist of one or more limited partners present in person or by proxy holding at least 10% of the outstanding CPILP units.
<b>Place of meetings:</b>	The BCBCA provides that meetings may be held outside British Columbia if provided for in the articles or approved by shareholders or a resolution of directors.	All meetings are to be held in Calgary, Alberta or at other such place as the general partner or limited partners who have requested a meeting in accordance with the CPILP partnership agreement may designate.
<b>Notice of Annual and Special Meetings of Shareholders/Unitholders:</b>	Atlantic Power must send notice of the general meeting of the company at least 21 days but not more than two months before the meeting.	Notice of any meeting of limited partners is to be provided to each limited partner not less than 21 days prior to a meeting.
<b>Shareholders/Unitholders Action by Written Consent:</b>	A unanimous consent resolution of shareholders is deemed to be as valid and effective as if it had been passed at a meeting of shareholders.	Not specified.
<b>Ability to set necessary levels of shareholder consent:</b>	Articles can set levels for various shareholder approvals (other than those prescribed by the statute). The default threshold is a special resolution. The percentage of votes required for a special resolution can be specified in the articles, no less than $\frac{2}{3}$ and no more than $\frac{3}{4}$ of votes cast. Atlantic's articles provide that $\frac{2}{3}$ of the votes cast on a given resolution will constitute a "special majority".	Not specified.

Table of Contents

	<b>Atlantic Power</b>		<b>CPILP</b>
<b>Advance Notice Requirements for Proposals by Shareholders/Unitholders:</b>	<p>The proposal must be received at the registered office of Atlantic Power at least three months before the anniversary of the previous year's annual reference date. The text of the proposal, the names and mailing addresses of the submitter and the supporters, and the text of the statement, if any, accompanying the proposal must be sent to all of the persons who are entitled to notice of the annual general meeting in relation to which the proposal is made in, or within the time set for the sending of, the notice of the applicable annual general meeting or) in Atlantic's information circular or equivalent, if any, sent in respect of the applicable annual general meeting.</p>	Not specified.	

Table of Contents

	<b>Atlantic Power</b>	<b>CPILP</b>
<b>Directors' and Officers' Liability and Indemnification:</b>	<p>The BCBCA includes detailed provisions for permitted and prohibited indemnification of directors or officers. Gives discretion to the court to order payment or make any other order it considers appropriate.</p> <p>Directors are not liable if they rely in good faith on financial statements, auditors' reports, professional reports, a statement of fact from an officer, or on other documents the court considers provide reasonable grounds for the directors' actions.</p> <p>Atlantic Power has obtained a policy of insurance for the directors of Atlantic Power. Under the policy, Atlantic Power has reimbursement coverage to the extent that it has indemnified the directors. The policy includes securities claims coverage, insuring against any legal obligation to pay on account of any securities claims brought against the directors of Atlantic Power.</p> <p>Atlantic Power has provided for indemnification of its directors from and against liability and costs in respect of any action or suit brought against them in connection with the execution of their duties of office, subject to certain limitations. The scope of potential claimants includes shareholders, beneficial owners of shares and any other person considered appropriate by the court. Claims may be based on conduct of the corporation that is oppressive or unfairly prejudicial.</p>	<p>The LPA provides that where a corporation contravenes the act, any director or officer of such corporation, and where the corporation is an extra-provincial corporation, every person acting as its representative in Ontario, who authorized, permitted or acquiesced in such an offence is also guilty of an offence and on conviction is liable to a fine of not more than \$2,000.</p>
<b>Oppression remedy:</b>		<p>No statutory right to bring oppression action.</p>

Table of Contents

	<b>Atlantic Power</b>	<b>CPILP</b>
<b>Derivative actions:</b>	A shareholder, beneficial owner, director and any other person considered appropriate by the court may, with leave of the court, bring action in the name of the company or defend an action against the company. Shareholder approval of action is not determinative but will be taken into account.	No statutory right to bring derivative action.
<b>Sale of all or substantially all the assets or undertaking of business:</b>	The sale by a corporation of all or substantially all its undertaking, outside of the ordinary course of business, is permitted only if authorized by special resolution. Any such sale gives rise to dissent rights. The BCBCA exempts certain transactions with affiliates.	Extraordinary resolutions of the unitholders are required to approve the sale, exchange or other disposition of all or substantially all of the property of the Partnership, and the waiving of any default on the part of the general partner.

Table of Contents

**LEGAL MATTERS**

Certain Canadian legal matters relating to the Plan of Arrangement will be passed upon by Goodmans LLP on behalf of Atlantic Power. Certain United States legal matters relating to matters described in this joint proxy statement will be passed upon by Goodwin Procter LLP on behalf of Atlantic Power. Certain Canadian legal matters relating to the Plan of Arrangement are to be passed upon by Fraser Milner Casgrain LLP on behalf of CPI Investments and the General Partner, as general partner of CPILP, and by Norton Rose OR LLP on behalf of CPILP. Certain United States legal matters related to the Plan of Arrangement are to be passed by K&L Gates LLP on behalf of CPI Investments and the General Partner, as general partner of CPILP. As at the date hereof, the partners and associates of Fraser Milner Casgrain LLP beneficially owned, directly or indirectly, less than 1% of the outstanding CPILP units and less than 1% of the outstanding Atlantic Power common shares. As at the date hereof, the partners and associates of Norton Rose OR LLP beneficially owned, directly or indirectly, less than 1% of the outstanding CPILP units and less than 1% of the outstanding Atlantic Power common shares.

**EXPERTS**

The consolidated financial statements and financial statement schedule of Atlantic Power Corporation as of December 31, 2010 and 2009 and for each of the years in the three-year period ended December 31, 2010 appearing in Atlantic Power's Annual Report on Form 10-K (including the schedule appearing therein) have been incorporated by reference herein in reliance upon the reports of the United States and Canadian firms of KPMG LLP, independent registered public accounting firms, incorporated by reference herein, and upon the authority of said firms as experts in accounting and auditing.

The consolidated financial statements of CPILP as of December 31, 2010, 2009 and 2008 and for each of the years in the three year period ended December 31, 2010 have been included in this joint proxy statement in reliance on the report of the Canadian firm of KPMG LLP, independent registered public accounting firm, and upon the authority of said firm as experts in auditing and accounting.

Table of Contents

**SHAREHOLDER PROPOSALS**

**Atlantic Power**

Atlantic Power shareholder proposals intended to be presented at the next annual meeting of Atlantic Power shareholders and which are to be considered for inclusion in Atlantic Power's information circular and proxy statement and form of proxy for that meeting, must be received by Atlantic Power on or before January 18, 2012. These proposals must also comply with the rules of the SEC governing the form and content of proposals in order to be included in Atlantic Power's information circular and proxy statement and form of proxy. Any such proposals should be mailed to the Corporate Secretary at Atlantic Power Corporation, 200 Clarendon St., Floor 25, Boston, Massachusetts 02116.

An Atlantic Power shareholder who wishes to present a proposal at the next annual meeting, other than a proposal to be considered for inclusion in Atlantic Power's information circular and proxy statement described above, must provide written notice of such proposal and appropriate supporting documentation to Atlantic Power no later than April 2, 2012. Proxies solicited by the Atlantic Power's board of directors will confer discretionary voting authority with respect to these proposals, subject to SEC rules governing the exercise of this authority. Any such proposal should be mailed the Corporate Secretary at Atlantic Power Corporation, 200 Clarendon St., Floor 25, Boston, Massachusetts 02116.

**HOUSEHOLDING**

**Householding Information**

Atlantic Power has adopted a procedure approved by the SEC called "householding." Under this procedure, shareholders of record who have the same address and last name will receive only one copy of this proxy statement unless one or more of these shareholders notifies Atlantic Power that they wish to continue receiving individual copies. This procedure reduces Atlantic Power's printing costs and postage fees.

Shareholders who participate in householding will continue to receive separate proxy cards. Also, householding will not in any way affect dividend check mailings.

If you are eligible for householding, but you and other shareholders of record with whom you share an address currently receive multiple copies of our mailings and you wish to receive only a single copy of each of these documents for your household, please contact

**WHERE YOU CAN FIND MORE INFORMATION**

Atlantic Power files annual, quarterly and current reports, proxy statements and other information with the SEC under the *Exchange Act*, and Atlantic Power also files these documents with the securities regulatory authorities in each of the provinces and territories of Canada. You may read and copy any of this information at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549. Please call the SEC at 1-800-SEC-0330 for further information on the Public Reference Room. The SEC also maintains an Internet website that contains reports, proxy and information statements, and other information regarding issuers, including Atlantic Power, who files electronically with the SEC. The address of that site is [www.sec.gov](http://www.sec.gov). Atlantic Power also files its continuous and timely disclosure reports and other information on SEDAR at [www.sedar.com](http://www.sedar.com). CPILP files its continuous and timely disclosure reports and other information on SEDAR.

Investors may also consult Atlantic Power's and CPILP's website for more information about Atlantic Power or CPILP, respectively. Atlantic Power's website is [www.atlanticpower.com](http://www.atlanticpower.com). CPILP's website is [www.capitalpowerincome.ca](http://www.capitalpowerincome.ca). Except as specifically incorporated by reference in this joint proxy statement, the information included on these websites is not incorporated by reference into this joint proxy statement.

This joint proxy statement incorporates by reference the documents listed below that Atlantic Power has previously filed or will file with the SEC and with the Canadian securities regulators. These documents contain important information about Atlantic Power, its financial condition or other matters.

Annual Report on Form 10-K for the fiscal year ended December 31, 2010.

Proxy Statement on Schedule 14A, filed May 2, 2011.

Quarterly Reports on Form 10-Q for the quarterly period ended March 31, 2011.

Current Reports on Form 8-K.

In addition, Atlantic Power incorporates by reference any future filings it makes with the SEC under Section 13(a), 13(c), 14 or 15(d) of the *Exchange Act* and on SEDAR under National Instrument 51-102 after the date of this joint proxy statement and prior to the date of the Atlantic Power special meeting. These documents include periodic reports, such as Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K, as well as proxy statements. Such documents are considered to be a part of this joint proxy statement, effective as of the date such documents are filed. To the extent that any information contained in any such Current Report on Form 8-K, or any exhibit thereto, is furnished, rather than filed, with the SEC or the Canadian securities regulators, such information or exhibit is specifically not incorporated by reference into this joint proxy statement.

You can obtain any of these documents from the SEC, through the SEC's website at [www.sec.gov](http://www.sec.gov) or on SEDAR at [www.sedar.com](http://www.sedar.com), or Atlantic Power will provide you with copies of these documents, without charge, upon written or oral request to: Atlantic Power Corporation, 200 Clarendon Street, Floor 25, Boston, Massachusetts 02116, telephone number (617) 977-2400.

In the event of conflicting information in this joint proxy statement in comparison to any document incorporated by reference into this joint proxy statement, or among documents incorporated by reference, the information in the latest filed document controls.

You should rely only on the information contained or incorporated by reference into this joint proxy statement. No one has been authorized to provide you with information that is different from that contained in, or incorporated by reference into, this joint proxy statement. This joint proxy statement is dated \_\_\_\_\_, 2011. You should not assume that the information contained in this joint proxy statement is accurate as of any date other than that date. You should not assume that the information incorporated by reference into this joint proxy statement is accurate as of any date other than the date of such incorporated document. Neither the mailing of this joint proxy statement to Atlantic Power shareholders or CPILP unitholders nor the issuance by Atlantic Power of common shares in connection with the Plan of Arrangement will create any implication to the contrary.

**PRESENTATION OF INFORMATION**

Unless otherwise noted, the information contained in this Annual Information Form (AIF) is given at or for the year ended December 31, 2010. Amounts are expressed in Canadian dollars unless otherwise indicated. Financial information is presented in accordance with Canadian generally accepted accounting principles (GAAP).

This AIF provides material information about the business and operations of Capital Power Income L.P. (the Partnership). Any reference to the Partnership, means Capital Power Income L.P. and its subsidiaries on a consolidated basis, except where otherwise noted or the context otherwise dictates.

The "Business Risks" section of the Partnership's Management's Discussion and Analysis dated March 2, 2011 (MD&A), for the year ended December 31, 2010 is incorporated by reference into this AIF and can be found on SEDAR at [www.sedar.com](http://www.sedar.com).

All financial information presented in millions of Canadian dollars is rounded to the nearest million unless otherwise stated.

**FORWARD-LOOKING INFORMATION**

Certain information in this AIF is forward-looking and related to anticipated financial performance, events and strategies. When used in this context, words such as "will", "anticipate", "believe", "plan", "intend", "target" and "expect" or similar words suggest future outcomes. By their nature, such statements are subject to significant risks, assumptions and uncertainties, which could cause the Partnership's actual results and experience to be materially different than the anticipated results.

In particular, forward-looking information and statements include: (i) the sustainability of distributions; (ii) planned capital expenditures at Southport in 2011 and the anticipated total cost of the North Carolina enhancement project, including capacity levels; (iii) anticipated completion of the Southport facility modifications and the impact of the Southport and Roxboro facility modifications on the operation and economic performance of the facilities and their emissions; (iv) expectations regarding the time at which the Partnership will make material cash income tax payments; (v) expectations on the throughput on the TransCanada Canadian Mainline and related expectations regarding waste heat availability at the Ontario facilities; (vi) expectations in respect of new power purchase agreements at the North Carolina facilities, including timing for their being finalized, and expectations with respect to the Partnership's long-term outlook for the North Carolina plants; (vii) expectations regarding the introduction of new emissions and other environmental regulations, when such regulations will come into force, and the costs to comply with, and other impacts of, current and anticipated emissions and other environmental regulations; (viii) the expected impact of transition to International Financial Reporting Standards; (ix) expectations of the timing of the process to review strategic alternatives and expectations that the Partnership will seek growth opportunities that fit the Partnership's strategy and deliver on business plan priorities; (x) the monthly distributions of the Partnership while the strategic review process is underway; (xi) expectations regarding the final capital cost of the Oxnard natural gas turbine replacement, and reductions in forced outage costs at Oxnard in comparison to the previous turbine; (xii) expectations regarding the quantity and duration of new wood waste supply for Calstock; (xiii) expectations regarding Ontario Power Authority as a counterparty for replacement power purchase agreements; (xiv) expectations regarding demand growth for power in Canada and the U.S., and the need for new power development; and (xv) expectations regarding the Colorado Public Utilities Commission decision in December 2010, and the filing by parties of Requests for Rehearing and Reconsideration Applications in relation thereto.

These statements are based on certain assumptions and analysis made by the Partnership in light of its experience and perception of historical trends, current conditions and expected future

Schedule I-4

---

Table of Contents

developments and other factors it believes are appropriate. The material factors and assumptions used to develop these forward-looking statements include, but are not limited to: (i) the Partnership's operations, financial position, available credit facilities and access to capital markets; (ii) the Partnership's assessment of commodity, currency and power markets; (iii) the markets and regulatory environment in which the Partnership's facilities operate; (iv) the state of capital markets; (v) management's analysis of applicable tax legislation; (vi) the assumption that the currently applicable and proposed tax laws will not change and will be implemented; (vii) the assumption that counterparties to fuel supply, power purchase agreements will continue to perform their obligations under the agreements taking account of the matters described herein; (viii) that current expectations regarding throughput on the TransCanada Canadian Mainline will continue; (ix) the level of plant availability and dispatch; (x) the performance of contractors and suppliers; (xi) the renewal or replacement of power purchase and other agreements including the terms and timing of power purchase agreements at the North Carolina facilities; (xii) the ability of the Partnership to successfully realize the benefits of its capital projects; (xiii) the ability of the Partnership to implement its strategic initiatives and whether such initiatives will yield the expected benefits; (xiv) expected water flows; (xv) the ability of the Partnership to adequately source alternative sources of supply of wood waste; (xvi) currently applicable and proposed environmental regulation will be implemented; (xvii) the ability to manage the transition to IFRS; and (xviii) the Partnership's assessment of the strategic alternatives that may be available to it.

Whether actual results, performance or achievements will conform to the Partnership's expectations and predictions is subject to a number of known and unknown risks and uncertainties which could cause actual results to differ materially from the Partnership's expectations. Such risks and uncertainties include, but are not limited to risks relating to (i) the operation of the Partnership's facilities; (ii) plant availability and performance; (iii) the availability and price of energy commodities including natural gas and wood waste; (iv) the performance of counterparties in meeting their obligations under fuel supply, power purchase and other agreements; (v) competitive factors in the power industry; (vi) economic conditions, including in the markets served by the Partnership's facilities; (vii) changing demand for natural gas transportation on the TransCanada Canadian Mainline; (viii) ongoing compliance by the Partnership with its current debt covenants; (ix) developments within the North American capital markets; (x) the availability and cost of permanent long term financing in respect of acquisitions and investments; (xi) unanticipated maintenance and other expenditures; (xii) the Partnership's ability to successfully realize the benefits of its capital projects; (xiii) changes in regulatory and government decisions including changes to emission regulations; (xiv) waste heat availability and water flows; (xv) changes in existing and proposed tax and other legislation in Canada and the U.S. and including changes in the Canada-U.S. tax treaty; (xvi) the tax attributes of and implications of any acquisitions; (xvii) the availability and cost of equipment; (xviii) the ability of the Partnership to adequately source alternative sources of supply of wood waste; (xix) the ability of the Partnership to obtain power purchase agreements for the North Carolina facilities with satisfactory financial terms; and (xx) the strategic review process could take more or less time than anticipated. See "Business Risks" in the Partnership's MD&A.

Readers are cautioned not to place undue reliance on forward-looking statements as actual results could differ materially from the plans, expectations, estimates or intentions expressed in the forward-looking statements. Forward-looking statements are provided for the purpose of presenting information about management's current expectations and plans relating to the future and readers are cautioned that such statements may not be appropriate for other purposes. Except as required by law, the Partnership disclaims any intention and assumes no obligation to update any forward-looking statement.

**DEFINITION OF CERTAIN TERMS**

Certain terms used in this AIF are defined below:

"BC Hydro" means British Columbia Hydro and Power Authority

"Board" or "Board of Directors" means the board of directors of CPI Income Services Ltd., the General Partner

"Btu" means British thermal units

"Capital Power" means Capital Power Corporation together with its subsidiaries and its investment in Capital Power L.P. on a consolidated basis except where otherwise noted or the context otherwise dictates

"CHP" means combined heat and power

"CoA" means Certificate of Approval

"Common Shares" means common shares of Capital Power Corporation

"Capital Power CGCN Committee" means the Corporate Governance, Compensation & Nomination Committee of Capital Power Board of Directors

"CPEL" means CPI Preferred Equity Ltd.

"CPI Investments" means CPI Investments Inc.

"CPUC" means California Public Utility Commission

"CPUSGP" means CPI Power (US) GP

"DB" means defined benefit

"DBRS" means DBRS Limited

"DC" means defined contribution

"EBIT" means Earnings Before Interest & Taxes

"EPA" means Electricity Purchase Agreement

"EPCOR" means EPCOR Utilities Inc. collectively with its subsidiaries

"Equistar" means Equistar Chemicals, LP

"ESA" means Energy Supply Agreement

"EWG" means Exempt Wholesale Generator

"FERC" means Federal Energy Regulatory Commission

"FPA" means Fuel Purchase Agreement

"General Partner" means CPI Income Services Ltd., the general partner of the Partnership

Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

"GWh" means gigawatt hours

"HRSG" means heat recovery steam generator

"IFRS" means International Financial Reporting Standards issued by the International Accounting Standards Board

"kWh" means kilowatt hours

"LAPP" means Local Authorities Pension Plan

"U.S." means United States of America

"Ventures" means CPI USA Ventures LLC

**THE PARTNERSHIP**

The Partnership (formerly known as EPCOR Power L.P. and prior thereto, TransCanada Power, L.P.) was formed pursuant to a limited partnership agreement (the Partnership Agreement) dated as of March 27, 1997 and as amended and restated June 6, 1997 and as amended September 29, 1998, March 26, 2004, April 29, 2004 and August 31, 2005 and as amended and restated July 1, 2009, October 1, 2009 and November 4, 2009 among CPI Income Services Ltd. hereinafter referred to as the General Partner (formerly known as TransCanada Power Services Ltd.), the initial limited partner and each person who is admitted to the Partnership as a limited partner in accordance with the terms of the Partnership Agreement. On March 27, 1997, the Partnership was registered as a limited partnership under the laws of the Province of Ontario and was registered or extra-provincially registered, as the case may be, in all other provinces of Canada. The head office of the Partnership is located at 10065 Jasper Avenue, Edmonton, Alberta, T5J 3B1. The registered office of the Partnership is 200 University Avenue, Toronto, Ontario, M5H 3C6.

The Partnership is only permitted to carry on activities that are directly or indirectly related to the energy supply industry and to hold investments in other entities which are primarily engaged in such industry. As at December 31, 2010, the Partnership's portfolio consisted of 19 wholly-owned power generation assets located in both Canada (in the provinces of British Columbia and Ontario) and in the United States (in the states of California, Colorado, Illinois, New Jersey, New York, and North Carolina), a 50.15% interest in a power generation asset in Washington State (collectively the power plants), and a 14.3% common equity interest in Primary Energy Recycling Holdings LLC (PERH). See "General Development of the Business".

The General Partner is responsible for the management of the Partnership. The General Partner has engaged CP Regional Power Services Limited Partnership and Capital Power Operations (USA) Inc., both subsidiaries of Capital Power Corporation (Capital Power), to perform management and administrative services for the Partnership and to operate and maintain the power plants pursuant to the Management and Operations Agreements. See "Management of the Partnership" and "Interests of Management and Others in Material Transactions".

**Corporate Structure**

The Partnership's corporate structure is shown on Schedule A of this AIF.

Schedule I-8

---

Table of Contents

**GENERAL DEVELOPMENT OF THE BUSINESS**

**Relationship with Capital Power**

As part of the sale by EPCOR Utilities Inc. (EUI, and collectively with its subsidiaries, EPCOR) of a 27.8% interest in its power generation business to Capital Power: (i) in June 2009, CPI Investments Inc. (CPI Investments) acquired 16,511,104 limited partnership units (Units) in the capital of the Partnership and all of the common shares of the General Partner of the Partnership, which entity directly owns 2,400 Units in the capital of the Partnership, representing collectively 30.6% of the then total outstanding units of the Partnership (the Acquisition), and (ii) in July 2009, Capital Power acquired 100% ownership of the entities that provide management and operations services to the Partnership and its subsidiaries pursuant to the Management and Operations Agreements. EPCOR owns 51 voting, non-participating shares of CPI Investments and Capital Power indirectly owns 49 voting, participating shares of CPI Investments. Pursuant to the Shareholder Agreement in respect of CPI Investments, Capital Power L.P. and EPCOR agreed that: (i) the board of directors of CPI Investments shall consist of three directors; and (ii) EPCOR is entitled to nominate one person for election to the board of directors of CPI Investments.

In connection with the Acquisition, the Partnership, Capital Power and EUI entered into a Memorandum of Agreement dated June 7, 2009, pursuant to which the parties agreed on certain matters, including: (i) an approach by which Capital Power and the Partnership will work together early in the process to review Capital Power development opportunities in which the Partnership might have an interest in participating and acquisitions under the Partnership's right of first look applicable to operating power generation acquisitions (including brownfield development opportunities tied to such assets) on which Capital Power plans to bid (including through joint venture opportunities); (ii) the Partnership will have a right of first look on the sale of Capital Power generation assets so it may become the acquiring vehicle at not less than the fair market value for such assets; (iii) amendments to the incentive fee pursuant to which the Manager is compensated by the Partnership, and (iv) the basis on which the Partnership would in the future provide relief to Capital Power with respect to maintaining its minimum 30% interest in the Partnership. See "Interests of Management and Others in Material Transactions" and "Material Contracts". In addition, the Partnership and each of EPCOR and Capital Power entered into standstill agreements pursuant to which Capital Power and EPCOR agreed not to increase their ownership in the Partnership without the consent of the Independent Directors of the Partnership until July 1, 2010.

As a result of the Premium Distribution<sup>TM</sup> and Distribution Reinvestment Plan (the DRIP), as of December 31, 2010, CPI Investments, through its direct ownership of Units and 100% ownership of the General Partner, indirectly owned 29.6% of the outstanding Units.

---

<sup>TM</sup>

Denotes a trademark of Canaccord Capital Corporation

As at December 31, 2010, the Partnership's assets, excluding its interests in PERH, had a total net generating capacity of 1,400 MW and more than four million pounds per hour of thermal energy.

**Amendments to Limited Partnership Agreement**

In connection with the sale by EPCOR of its power generation business to Capital Power, effective July 1, 2009, the Limited Partnership Agreement governing the Partnership was amended and restated to reflect the acquisition by Capital Power from EPCOR of the ownership interests in the Partnership. In connection with the launch of the DRIP, effective October 1, 2009 the Limited Partnership Agreement was amended and restated to provide for distributions to limited partners on a monthly basis, and, as contemplated in the Memorandum of Agreement dated June 7, 2009, to provide relief to Capital Power with respect to maintaining its minimum 30% interest in the Partnership. See

Schedule I-9

---

Table of Contents

"Distributions of the Partnership". Effective November 4, 2009, the Limited Partnership Agreement was amended and restated to change the name of the Partnership to Capital Power Income L.P.

**Three Year History**

The general development of the Partnership's business during the last three financial years, and the significant acquisitions and events or conditions which have had an influence on such development, are described below.

**2010**

In November 2010, the Partnership completed the final phase of the enhancement project on the North Carolina facilities designed to reduce environmental emissions and improve economic performance by increasing the use of tire-derived fuel and wood waste in the fuel mix and significantly reducing the nitrogen oxide (NO<sub>x</sub>) and sulphur dioxide (SO<sub>2</sub>) emissions. Project costs incurred to December 31, 2010, including costs incurred prior to 2010, were US\$82 million with an additional US\$5 million to be spent in 2011 on access roads and final testing.

On October 5, 2010, the Partnership and Capital Power announced that the Partnership had initiated a process to review its strategic alternatives. This decision was the result of separate strategic review processes undertaken by the Special Committee of the independent directors of the Board to maximize value for the Partnership's Unitholders and by Capital Power to maximize value for Capital Power's shareholders. The initiation of the strategic review was not in response to any proposed transaction for the Partnership and there is no assurance that it will lead to a transaction. During the process to review strategic alternatives it is anticipated that the Partnership will continue to provide the same amount of monthly distributions to its Unitholders, maintain the same investor proposition supported by its high quality portfolio of contracted power assets and deliver on business plan priorities.

In July 2010, the Partnership filed a renewal of its Short Form Base Shelf Prospectus in each of the provinces and territories of Canada qualifying the issuance by the Partnership from time to time over a period of 25 months of up to \$600 million in securities consisting of Units, debt securities and/or subscription receipts.

In May 2010, the Partnership completed the replacement of the existing GE LM5000 natural gas turbine with a more efficient and reliable GE LM6000 at Oxnard at a cost of US\$19.2 million. The final capital cost could potentially be lower if the sale of the used General Electric LM5000 turbine is successful. The repowering project was completed on May 21, 2010, in time for the summer peak demand season in Southern California.

**2009:**

To December 31, 2009, the Partnership incurred a total of US\$70.7 million on the enhancement project designed to reduce environmental emissions and improve the economic performance of the Southport and Roxboro facilities. Enhancements to the Roxboro facility and to one of the two units at the Southport facility were completed in December 2009.

On November 2, 2009, CPI Preferred Equity Ltd. (CPEL), a subsidiary of the Partnership, issued 4,000,000 Cumulative Rate Reset Preferred Shares, Series 2 (Series 2 Shares) for gross proceeds of \$100 million. The net proceeds were used to repay outstanding bank indebtedness. The Series 2 Shares are fully and unconditionally guaranteed by the Partnership on a subordinated basis as to: (i) the payment of dividends, as and when declared; (ii) the payment of amounts due on a redemption for cash; and (iii) the payment of amounts due on the liquidation, dissolution or winding up of CPEL. If, and for so long as, the declaration or payment of dividends on the Series 2 Shares is in arrears, the

Table of Contents

Partnership will not make any distributions on the Units. See "Dividends of Subsidiary (CPEL)" and "Capital Structure Preferred Shares of CPEL" in this AIF and "Business Risks Preferred Share guarantee unit distribution risk" in the Partnership's MD&A.

In August 2009, the Partnership converted all of its common and preferred interests in PERH to a 14.3% common equity interest in connection with a recapitalization of PERH, pursuant to which all previously outstanding common and preferred interests in PERH, including those held by the Partnership, were converted to new common equity interests. Primary Energy Recycling Corporation (PERC) completed its previously announced US\$50 million rights offering in November 2009 and, concurrently with PERC's subscription for new common membership interests in PERH, the Partnership exercised its pre-emptive right to subscribe for additional common membership interests to maintain its current pro-rata interest (14.3%) in PERH at an aggregate subscription price of US\$8.3 million. Concurrently with the PERH recapitalization, certain changes were made to the long-term management agreement pursuant to which a subsidiary of the Partnership provides certain management and administrative services to PERH, certain subsidiaries of PERH and PERC (PERC Management Agreement). See "Business of the Partnership PERC Management Arrangements" and "Material Contracts".

On May 26, 2009, the Partnership completed the sale of its 64 MW combined-cycle, natural gas and oil-fired Castleton power plant for approximately US\$10.7 million.

On May 1, 2009, the Partnership completed the repowering project for its North Island facility, which involved the replacement of its GE LM5000 natural gas turbine with a more efficient GE LM6000 unit at a cost of approximately US\$17.0 million.

**2008:**

On October 31, 2008, the Partnership, through an indirect wholly-owned subsidiary, acquired a 100% interest in Morris Cogeneration, LLC, which owns a 177 MW natural gas-fired cogeneration facility for total cash consideration of US\$73.4 million.

In July 2008, the Partnership filed a Short Form Base Shelf Prospectus in each of the provinces and territories of Canada qualifying the issuance by the Partnership from time to time over a period of 25 months of up to \$1 billion in securities consisting of Units, debt securities and/or subscription receipts. Concurrent with the prospectus filing, a Prospectus Supplement was filed, establishing a Medium Term Notes program of up to \$600 million as part of the overall prospectus limit.

**BUSINESS OF THE PARTNERSHIP**

The Partnership's primary business is the ownership and operation of power plants in Canada and the United States, which generate electricity and steam, from which it derives its earnings and cash flows. The power plants generate electricity and steam from a combination of natural gas, waste heat, wood waste, water flow, coal and tire-derived fuel.

**Power Plant Summary**

The Partnership's Canadian operations consist of:

four natural gas-fired plants with a combined generating capacity of 163 MW;

two biomass, wood waste plants with a combined generating capacity of 101 MW; and

two hydroelectric facilities with a combined generating capacity of 56 MW.

The Partnership's United States operations consist of:

two natural gas-fired plants with a combined generating capacity of 425 MW;

Schedule I-11

---

Table of Contents

seven natural gas-fired CHP plants, three of which can also use distillate fuel, with a combined generating capacity of 440 MW and steam generating capacity of 2,537 mlbs/hr;

two wood waste, tire-derived fuel and coal CHP plants with a maximum combined generating capacity of 155 MW and steam generating capacity of 1,620 mlbs/hr; and

a hydroelectric plant with a total generating capacity of 60 MW.

The following two pages summarize each of the Partnership's 20 power plants and their operating characteristics.

**Notes:**

- (1) Electric capacity is shown as net generation.
- (2) The Curtis Palmer facility was repowered in 1986.
- (3) Steam is sold to Schering under the PPA.
- (4) Gas is purchased from a local gas distribution company and Sempra Energy Trading Corporation.
- (5) Maximum capacity utilizing 100% coal for fuel supply.
- (6) Enhancements to the Roxboro facility and to one of the two units at Southport facility were completed in December 2009. Enhancements to the second unit were completed in November 2010. The Roxboro and Southport facilities originally commenced operations in 1987.
- (7) Approximately 25-30% of the Southport and 20-24% of the Roxboro facilities' fuel requirements are satisfied with coal, with the balance from tire-derived fuel and wood waste. The anticipated coal requirements for each facility are sourced with regional coal suppliers.

AAARP = Anhydrous ammonia absorption refrigeration plant

HRSG = Heat recovery steam generator

CHP = Combined Heat and Power

Table of Contents

**Power Purchase Agreements**

Canada

Ontario

The Ontario Electricity Financial Corporation (OEFC) is the sole purchaser of power from the Partnership's five Ontario power plants. The power is purchased under long-term Power Purchase Agreements (PPAs). The earliest expiry date of these agreements is at the Nipigon plant where the initial term of the PPA expires in 2012 and the longest expiry date is at the Calstock plant where the PPA expires in 2020. See "Power Plant Summary". The Partnership reached an agreement with the OEFC to amend the Tunis PPA effective January 16, 2010 that allows the Partnership to flow-through natural gas and transportation costs in excess of benchmark amounts to OEFC and extends OEFC the right to curtail the plant during summer off-peak periods through the remaining term of the PPA in 2014.

Williams Lake

The Williams Lake power plant sells power to the British Columbia Hydro and Power Authority (BC Hydro) under a 25-year PPA with the initial term expiring in 2018. BC Hydro has an option to extend the agreement by up to 10 years, on the basis of two five-year term extensions.

The Williams Lake Electricity Purchase Agreement (EPA) contains two pricing tranches: a firm energy tranche, representing approximately 82% of total energy produced; and a surplus energy tranche, representing approximately 18% of total energy produced. The firm energy tranche price consists of a fixed energy component, an operations and maintenance component (adjusted annually for average weekly earnings in British Columbia), and a reimbursable cost component. The surplus energy tranche price is adjusted annually for changes in the Dow Jones California Oregon Border index. The year end surplus energy tranche price would have been set at \$30/MWh for 2010, compared to \$58/MWh for 2009. However the Partnership sold the surplus energy to a third party at a higher price. The surplus energy price for 2011 was set through negotiations with BC Hydro and is attractive.

Mamquam

The Mamquam hydroelectric facility sells all of its electricity generated to BC Hydro under a long-term contract (Mamquam EPA) which will expire in October 2027. BC Hydro has an option, exercisable in 2021 and every five years thereafter, to either purchase the Mamquam facility or extend the Mamquam EPA.

Energy rates payable under the Mamquam EPA consist of a fixed energy component, an operations and maintenance component (adjusted annually for inflation), and a reimbursable cost component which covers costs such as property taxes, water and land use fees as well as comprehensive liability insurance costs.

Moresby Lake

The Moresby Lake hydroelectric facility sells substantially all its electricity to BC Hydro under a long-term contract (Moresby Lake PPA) which will expire in 2022. The balance, approximately 1% of its power generation, is sold to NAV Canada and the Department of Fisheries and Oceans (Canada) under long-term PPAs.

The energy rate payable by BC Hydro under the Moresby Lake PPA consists of a fixed energy component adjusted annually for inflation.

Table of Contents

**United States**

**Frederickson**

The Partnership's portion (50.15% or approximately 125 MW) of the Frederickson facility's base 249 MW generating capacity has been sold under PPAs to three Washington State Public Utility Districts (PUDs) for a term of 20 years ending in 2022. Under the PPAs, the Partnership provides generating capacity and associated energy to each PUD, and the PUDs pay the Partnership a capacity charge, a fixed operations and maintenance charge, a variable operations and maintenance charge and a fuel charge. The PUDs must supply their proportionate share of natural gas to the Partnership at Huntingdon, British Columbia. The Partnership is responsible for contracting firm transportation for natural gas from Huntingdon to the Frederickson facility. The Partnership is responsible for any fixed and variable cost increases above those recoverable under the PPAs, other than costs that result from the effects of material changes to environmental and tax laws.

**Manchief**

The Manchief power plant operates under an Energy Supply Arrangement (ESA) with the Public Service Company of Colorado (PSCo) that expires in 2022 pursuant to a 10-year extension agreed to in 2006. PSCo is an electricity and natural gas distribution company that primarily serves northern Colorado. Under the ESA, PSCo purchases: (i) the electricity capacity consisting of 301.8 MW of net generating capacity per hour, or the actual net generating capacity that is available in any given hour, whichever is less; and (ii) the electrical energy which is actually dispatched by PSCo and associated with such capacity, and Manchief is paid capacity and energy payments. Capacity payments are typically stable and are made on a monthly basis, regardless of whether the plant is actually dispatched by PSCo. Energy payments are also made on a monthly basis and are comprised of tolling fees, start-up fees, heat rate adjustment payments (payable either to or by Manchief) and natural gas transportation charges. Starting in May 2012, the capacity payments will be reduced by approximately 15% under the tolling arrangement.

Manchief obtains operations and maintenance services for its generating facility from Colorado Energy Management, LLC pursuant to the terms of a plant operating and maintenance agreement.

The Partnership and PSCo have also signed an Option Agreement under which PSCo has the right, during the latter part of the ESA extension term, to acquire the Manchief power plant. If PSCo exercises the purchase option, the Partnership would receive a fixed purchase price, as specified in the Option Agreement, which management believes will maintain the economic value of the 10-year ESA extension and compensate the Partnership for the power plant's expected residual value.

**Greeley**

The Greeley facility provides all of its electrical output to PSCo under an on-system PPA which expires in August 2013. PSCo pays the Greeley facility a monthly capacity payment and energy payment pursuant to the PPA. The Partnership entered into a three-year forward natural gas swap contract expiring in October 2011 that covers most of the anticipated supply requirements for the Greeley facility during this period. Extension of the forward swap to cover the expiry of the PPA is being evaluated by management.

Under a development agreement between Ventures and KN/Thermo LLC, KN/Thermo LLC is currently entitled to up to 33.5% of the Pre-Tax Cash Flow from the Greeley facility. Pre-Tax Cash Flow is defined in the development agreement to include the net proceeds realized by the Partnership from the sale of the Greeley facility under certain circumstances, and cash proceeds received from operation of the Greeley facility (including from sales of electric power and hot water), as reduced by the reasonable operating costs of the facility.

Table of Contents

California Facilities

The Partnership's California facilities are comprised of three facilities located on U.S. naval bases (the Naval Facilities) and the Oxnard facility.

The Naval facilities are comprised of Naval Station, North Island and Naval Training Center. Except for the 4 MW steam turbine at the North Island facility, each of the Naval Facilities provides all of its electrical output to San Diego Gas and Electric Company (SDG&E) under the terms of the Long Run Standard Offer No. 4 for Power Purchase and Interconnection agreements from Qualifying Facilities, each of which expire in 2019. SDG&E is an electricity and natural gas distribution company primarily serving the San Diego area. Each of the Naval Facilities is required to operate throughout the term of the applicable PPA as a Qualifying Facility (QF) in accordance with the cogeneration facility requirements established by the Federal Energy Regulatory Commission (FERC).

In 2009, the Partnership completed an upgrade to its gas turbine at the North Island facility in southern California from a GE LM5000 to a GE LM6000 unit for an approximate cost of US\$17.0 million. The repowering project was completed in time for the summer peak demand season in Southern California. The project improved the operating efficiency of the facility reducing the gas turbine gross heat rate by approximately 1,127 Btu/kWh. The replaced LM5000 unit will be available as a spare gas turbine for the Partnership's other LM5000 turbines. The energy produced by the 4 MW steam turbine at the North Island facility is sold to the U.S. Navy (the Navy) at a discount to SDG&E's retail rates. The energy produced by the 2.5 MW steam turbine at the Naval Training Center is sold to SDG&E under a Standard Offer No. 1 for Power Purchase and Interconnection from Qualifying Facilities (SO1). The energy rates under the SO1 are the SDG&E short run avoided cost (SRAC) rates. Capacity payments are paid on an as-available basis under rates that are reviewed by the California Public Utility Commission (CPUC) periodically.

The Navy has the right to terminate the Naval Facility Negotiated Utility Service Contracts (NUSCs) for convenience on one year's notice. Termination costs incurred under the PPA would be reimbursed under the NUSC in the event of termination for convenience. See "Thermal Supply Agreements".

The Oxnard facility provides all of its natural gas turbine electrical output to Southern California Edison Company (SCE) under a contract (Oxnard PPA) that expires in 2020. SCE is an electricity and natural gas distribution company primarily serving areas of southern California outside Los Angeles and San Diego. The Oxnard facility is required to operate throughout the term of the Oxnard PPA meeting QF efficiency standards in accordance with the cogeneration facility requirements established by the FERC. The Oxnard facility is qualified as both a QF and an Exempt Wholesale Generator (EWG).

In May 2010, the Partnership completed the replacement of the existing GE LM5000 natural gas turbine with a more efficient and reliable GE LM6000 at Oxnard at a cost of US\$19.2 million. The final capital cost could potentially be lower if the sale of the used General Electric LM5000 turbine is successful. The repowering project was completed in time for the summer peak demand season in Southern California. While the project improved the Oxnard facility heat rate by 3%, the primary economic driver of the project is an expected reduction in forced outage costs relative to the GE LM5000.

The price paid under the Naval Facilities' PPAs includes a capacity payment and an energy payment based on SDG&E's SRAC. The price paid under the Oxnard PPA includes a capacity payment and an energy payment based on SCE's SRAC. Capacity payments are based on achieving availability performance targets. These performance requirements require that forced outage rates for the facility are to be less than 20% during specified on-peak hours during the summer peak demand months. An additional performance bonus is applied when on-peak forced outage rates are less than 15%. Each of

Table of Contents

the Naval Facilities and the Oxnard facility has historically achieved its firm capacity revenue and near maximization of capacity bonus revenues.

On September 20, 2007, the CPUC accepted an alternative decision regarding revisions to the SRAC formulae that became effective August 1, 2009. The essence of the decision was to provide a 50/50 split between market and administratively determined heat rates for the calculation of the overall heat rate used in the energy price calculation; provide an escalating operating and maintenance fee adder; and use a 12-month forward-looking market heat rate rather than the historical pricing. The SRAC change impacts the steam payment component of the Naval Facilities PPAs and the Partnership is currently in discussions with the Navy regarding implications of future steam pricing. See "Regulation California".

SRAC energy prices are published monthly in accordance with the above mentioned decision. As such, this pricing provision recovers the month-to-month natural gas costs related to electricity production and substantially passes through the fuel cost to SDG&E and SCE in the variable energy charge. Time of use factors are applied to the SRAC energy rate to value the electricity delivered during on-peak hours relative to electricity delivered during off-peak hours. The Oxnard facility typically operates during on-peak hours in order to take advantage of higher electricity prices provided from on-peak time of use rates. Changes in natural gas prices have a nominal impact on the Oxnard facility's operating margin.

Curtis Palmer

The Curtis Palmer hydroelectric facility sells all power generated to Niagara Mohawk Power Corporation (Niagara) under a long-term contract (Curtis Palmer PPA). The Curtis Palmer PPA ends after the earlier of 2027 and the delivery to Niagara of a cumulative 10,000 GWh of electricity.

The Curtis Palmer PPA sets out 11 different prices for electricity sold to Niagara, with the applicable price to be paid at any given time being dependent upon the cumulative GWh of electricity which have been delivered to Niagara. In December 2008, the pricing increased by 18% as the plant moved into the sixth pricing block. Over the remaining term of the PPA, the price increases by US\$10/MWh with each additional 1,000 GWh of electricity delivered. The plant requires approximately three years to move through each 1,000 GWh block, depending upon river flow.

Under certain circumstances, Niagara has the ability to relocate, rearrange, retire or abandon its transmission system which would potentially give rise to material future capital cost outlays by Curtis Palmer to maintain its interconnection.

Morris

The Morris facility sells electrical energy to Equistar Chemicals, LP (Equistar), a wholly-owned subsidiary of LyondellBasell AF S.C.A. (LyondellBasell), under an ESA that expires in 2023. Pursuant to the Morris ESA, Equistar pays a tiered energy rate based on the amount of energy consumed to a maximum of 77 MW. Equistar also pays capacity fees, comprised of both a non-escalating fixed fee that expires in 2013 and a variable fee that escalates with materials and labour indices and expires in 2023. The non-escalating capacity payment is fixed at US\$8.3 million per year. In addition, the Morris facility earns energy payments based on electricity and steam delivered that is adjusted monthly for natural gas prices. Based on the energy payment formula, there is a small portion of energy costs that are not recovered through the energy payments, and this non-recoverable amount fluctuates with the price of natural gas. Most of this natural gas price exposure has been hedged through 2011. Equistar has a right to purchase the Morris facility at fair market value at the end of 2013, 2018 and 2023. The Morris facility is certified as a QF.

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

Subordinate to the needs of Equistar, the Morris facility has a PPA with Exelon Generation Company, LLC (Exelon) covering 100 MW of electrical capacity that expires in April 2011. Exelon pays a capacity charge that varies based on the time of year together with an energy charge based on amount of energy dispatched. The annual capacity revenue earned under the PPA with Exelon has averaged just over US\$6 million per year, including bonus payments for peak availability that exceeds 98%.

Excess capacity and energy above the needs of Equistar and Exelon can be sold into the Pennsylvania, New Jersey, and Maryland (PJM) market. The 100 MW of electrical capacity that is currently serving the Exelon PPA has been sold through the PJM market from May 2011 to April 2014 at auction prices that are lower than the Exelon contract resulting in slightly lower capacity revenue.

On January 6, 2009, Equistar, along with LyondellBasell's other North American operating entities, filed a voluntary petition for reorganization under Chapter 11 of the U.S. Bankruptcy Code. Since that date, Equistar made all post-petition payments required under the ESA. On April 23, 2010 the plan of reorganization for LyondellBasell's U.S. subsidiaries, including Equistar, under Chapter 11 of the U.S. Bankruptcy Code was approved. Pursuant to the plan of reorganization, Equistar assumed the Morris ESA, and as a result, the Partnership received a US\$12.4 million payment for pre-petition services under the ESA along with interest.

### Kenilworth

The Kenilworth facility sells electrical energy to Schering-Plough Corporation (Schering), a subsidiary of Merck & Co., Inc., under an amended and extended ESA that expires in July 2012. Pursuant to the Kenilworth ESA, Schering pays an energy rate that escalates annually. The Kenilworth ESA imposes a minimum take or pay obligation on Schering of 125,000 MWh per year. Load growth at Schering's facility over the years has caused certain seasonal loads to match more closely with the capacity of the Kenilworth facility. Excess generation above the Schering loads are sold to Public Service Enterprise Group Incorporated under a contract entered into in 2009.

### North Carolina Facilities

The Roxboro and Southport facilities provide all of their electrical output under PPAs to Carolina Power & Light Company (CP&L), which is a regulated utility servicing North Carolina and South Carolina, and is a subsidiary of Progress Energy Inc. (Progress). The electric output from the facilities is sold to Progress pursuant to PPAs which expired on December 31, 2009, but which have been extended pending resolution of arbitration before the North Carolina Utilities Commission (NCUC). The Partnership filed for arbitration with the NCUC and is seeking long term PPAs with pricing terms consistent with Progress's actual avoided costs. The NCUC has ordered that Progress continue to pay for the output of the North Carolina facilities pursuant to the terms of the PPAs that expired December 31, 2009 until the arbitration is finalized. On this interim basis, the price paid includes a capacity payment, an energy payment that reflects the price paid for coal, and a cycling charge. If this pricing does not result in a dispatch order for the facility, the Partnership has the right, but not the obligation, to bid an alternate price based upon its own pricing strategies to obtain a dispatch order. See "Business Risks Power Purchase Contract Expiry Risk" in the MD&A. On January 27, 2011, the NCUC issued an Order on Arbitration which provided direction on four fundamental issues: (i) that a legally enforceable obligation was created in July 2008 and that, accordingly, it is appropriate to use Progress' June 2008 fuel forecasts as the basis for determining the avoided cost fixed energy rates for the new PPAs; (ii) that the facilities are entitled to receive full capacity payments in respect of the full term of the PPAs; (iii) that Progress' avoided capacity costs should be calculated based on the average unit cost to construct four combustion turbines at a single site; and (iv) that a 10-year term would be fair and appropriate for the new PPAs with the term starting from the time when the new PPAs are signed. The Order on Arbitration did not set a deadline for the completion of negotiations but requires

Table of Contents

the Partnership and Progress to report on the status of negotiations within 30 days, if no agreement is reached sooner. On February 25, 2011, a joint report on the status of negotiations was filed in which the parties state that they have reached agreement on the majority of key commercial terms and will begin drafting final PPAs, with the goal of having an April 1, 2011 effective date.

The North Carolina facilities burn a mix of wood waste, tire-derived fuel and coal. Both facilities have undergone substantial capital improvements designed to significantly reduce their NO<sub>x</sub> and SO<sub>2</sub> emissions. These changes will additionally reduce the facilities' fuel costs via increased use of wood waste and tire-derived fuel accommodated via modified equipment design. In the fourth quarter of 2010, the Partnership completed the final phase of the enhancement project designed to reduce environmental emissions and improve the economic performance of the Southport and Roxboro facilities by increasing the use of tire-derived fuel and wood waste in the fuel mix. Project costs incurred to December 31, 2010 were US\$82 million with an additional US\$5 million to be spent in 2011 on access roads and final testing. The Partnership had anticipated a reduction in the capacity of Southport and Roxboro to approximately 88 megawatts (MW) and 46 MW respectively as a result of the increased use of wood waste and tire-derived fuel. The reduction in the capacity levels as a result of the change to a greater level of wood waste and tire-derived fuel in the fuel mix may be greater than previously expected. Recent testing indicates the plants may only be able to achieve capacities of 84-87 MW at Southport and 42-44 MW at Roxboro based on the targeted fuel mix. Management is assessing whether a shortfall in capacity can be practically resolved.

As QFs under the FERC rules, both Roxboro and Southport can sell to CP&L under a special avoided cost rate determined every two years, and can supplement this revenue stream with sales of Renewable Energy Credits (REC) to satisfy North Carolina's Renewable Energy Portfolio Standard. As part of the capital investment, both plants dramatically increased their wood fuel percentage and thus achieved certification as REC providers. To reclaim its QF status, Roxboro increased its minimum non-coal fuel percentage to 75%, thus qualifying as a Small Power Producer on January 1, 2010. The Southport facility has been QF certified since initial operations in 1987.

### **Thermal Supply Agreements**

The Greeley facility sells hot water to the University of Northern Colorado (UNC) pursuant to a Thermal Supply Agreement (TSA) which expires in August 2013. Under the Greeley TSA, the Greeley facility is obligated to deliver for sale to UNC only such heat energy as is generated during the production of electrical capacity and energy for sale to PSCo. The charge per million Btu of thermal energy is calculated in a manner that gives UNC a discount when compared to UNC avoided natural gas-fired boiler costs.

The Naval Facilities sell steam to the Navy pursuant to NUSCs, each of which expires in February 2018. The Naval Facility NUSCs give the Navy a right to purchase electrical energy from the Naval Facilities at prices comparable to those under the Naval Facility PPAs. Under the Naval Facility NUSCs, the Navy has an obligation to consume enough thermal energy for the Naval Facilities to maintain their QF status. The Navy has the right to terminate the SPAs for convenience on one year's notice. The Navy is obligated to pay a termination payment if it breaches an agreement or causes any loss of a Naval Facility's QF status.

The contracted steam for the Naval Facilities is based on a take or pay formula using a specified volume at each facility. Additional steam can be taken above these specified volumes and such steam is priced at avoided package boiler costs. The monthly price payable by the Navy for steam under the Naval Facility NUSCs includes: (i) a steam commodity charge; (ii) fixed service charge for plant capital and operations and maintenance avoidance; and (iii) water cost pass-through provisions, a feed water charge and a credit for condensate return.

Table of Contents

Steam pricing is linked to the cost of natural gas and SDG&E's SRAC by an energy sharing formula. This formula provides the Naval Facilities with reduced price volatility as the SRAC price of electricity primarily increases or decreases as a result of changes to the price of natural gas. Changes in natural gas prices have a nominal impact on the Naval Facilities' cash provided by operating activities. On September 20, 2007, the CPUC accepted an alternative decision regarding revisions to the SRAC formulae that became effective on August 1, 2009. See "Regulation California".

The Oxnard facility supplies steam to its anhydrous ammonia absorption refrigeration plant, which then provides refrigeration services to Boskovich Farms at no charge; thereby maintaining the Oxnard facility's QF status.

The Morris facility sells steam to Equistar to a maximum of 720 million lbs/hr under the Morris ESA through 2023. Ten year average usage is approximately 320 million lbs/hr. The Morris ESA charge for steam is calculated on the basis of a tiered pricing schedule ranging from US\$2.60/mlbs of steam to US\$3.18/mlbs of steam depending on quantity of average monthly steam demand. The agreement provides for the option to renegotiate pricing if steam demand falls outside a set range for a stipulated period of time. See "Power Purchase Agreements United States Morris" in this AIF, and "Business Risks Qualifying Facility Status Risk" in the MD&A.

The Kenilworth facility sells steam to Schering under an amended and extended Kenilworth ESA that expires in July 2012. The Kenilworth ESA provides for a contract minimum of 160,000 million Btu per year. The average annual heat content of steam sales directly from the Kenilworth facility under the terms of the Kenilworth ESA has been higher (740,000 million Btu per year average) than the contract minimum. The Kenilworth ESA charge per million Btu of steam is calculated as a function of the delivered cost of fuel to Schering's auxiliary boilers. Schering is able to request long term purchase strategies to minimize the monthly volatility of natural gas prices.

The Partnership filed for market-based rate authority with the FERC, which was granted effective January 1, 2008, in endeavoring to ensure that the Roxboro facility would have the requisite authority in place to sell power under the Roxboro PPA in the event the facility does not have a steam host. Currently, the facility does not have a steam host and the Partnership does not expect one to emerge. The Southport facility sells steam pursuant to a Steam Purchase Contract which expires in December 2014 to Archer Daniels Midland Company (ADM). ADM has committed to purchase a minimum quantity of steam equivalent to 5% of the total energy output of the Southport facility. The Southport facility is required to make all reasonable efforts to provide a continuous supply of steam. However, the Southport facility is not responsible for any loss or damage resulting from a failure to maintain continuous steam service. Southport operates the boilers to provide steam continuously, even when the plant is not dispatched.

**Fuel Purchase Agreements**

The largest of the Partnership's expenses is the cost of fuel used in the generation of electricity. Fuel costs include the natural gas commodity price, natural gas transportation charges, waste heat optimization costs and wood waste costs at the Calstock and Williams Lake plants and wood waste, tire-derived and coal fuel prices and transportation costs at the Roxboro and Southport facilities. Wood waste costs include the cost of wood waste, the transportation of wood waste, fuel and management costs and the disposal of wood ash. Although wood waste and the related transportation services have been purchased under contract for the majority of the fuel requirements at the Calstock and Williams Lake facilities, the suppliers have no obligation to provide in the event they scale back or shut down operations.

The Partnership purchases fuel gas and/or waste heat for each of the Ontario power plants except Tunis, under long-term natural gas and waste heat supply agreements. The Partnership reached an agreement with the OEFC to amend the Tunis PPA effective January 16, 2010 that allows the

Table of Contents

Partnership to flow-through natural gas and transportation costs in excess of benchmark amounts to OEFC and extends OEFC the right to curtail the plant during summer off-peak periods through the remaining term of the PPA in 2014. Firm capacity for the transportation of fuel gas to the Ontario power plants has been contracted for on the TransCanada natural gas transmission system under long-term transportation agreements, the earliest of which expires in 2011. See "Business Risks Energy Supply Risk" in the MD&A.

In late 2008, the Partnership completed a new supply agreement with a nearby wood waste landfill site for Calstock. The landfill site is estimated by management to have equivalent to one million green metric tons of supply, which is equal to three years of supply for the plant. Pursuant to a Certificate of Approval (CoA) from the Ministry of Environment, Calstock successfully completed a rail ties test burn in November 2009. The Partnership has applied for a permanent CoA amendment from the Ministry of Environment. If approved, the rail ties could provide up to 20% of the Calstock facility's fuel requirement.

Wood waste supply to the Williams Lake facility was sufficient in 2010. Traditional suppliers returned to near normal production levels with the exception of one supplier who continues to idle one of their sawmills. The Partnership has identified other sources of supply to replace volume lost from the curtailed sawmill. These sources are more expensive; however, approximately 82% of the fuel cost is borne by BC Hydro under the PPA. The facility is well positioned to withstand potential fuel shortages largely due to an agreement with Pioneer Biomass Inc. to supply processed forest based residuals, on an as needed basis, to the Williams Lake facility. Fuel inventory levels were reduced significantly in 2010 to bring back to normal operating levels. The expanded wood waste storage capacity continues to provide flexibility in managing available lower cost wood waste supplies. At December 31, 2010, the plant had sufficient wood waste inventory for the plant to produce its maximum output of 66 megawatts (MW) for 35 days at full output.

Natural gas supply purchased for the Greeley facility is financially fixed under an agreement with Shell Energy North America and CP Energy Marketing (US) Inc. which expires in October 2011. Natural gas for the Naval Facilities and Oxnard is purchased through natural gas contracts with RBS Sempra Energy Trading Corporation (Sempra) at monthly index prices similar to those used in the utility SRAC calculations. Kenilworth natural gas is also purchased from Sempra with that price used directly in the steam pricing under the ESA. The Morris facility obtains the majority of its required natural gas through a Purchase and Sale Agreement with DCP Midstream Marketing LP and Tenaska Power Services Co. (Tenaska) which expires in 2016 at a price indexed to the Chicago City Gate market. Under the agreement, Tenaska also provides power market trading services through a year-to-year agreement that may be cancelled on 60 days notice. Additionally, the Morris facility contracts gas storage facility as a seasonal hedge and to maximize operational flexibility.

Approximately 25-30% of the Southport and 20-24% of the Roxboro facilities' fuel requirements are satisfied with coal, with the balance from tire-derived fuel and waste wood. The anticipated coal requirements for 2011 for each facility are sourced with regional coal suppliers. Tire-derived fuel and waste wood are sourced from multiple local suppliers. Tire-derived fuel is procured under fixed-price contracts, and waste wood is procured at fixed prices indexed to the transport distance from the facility and subject to a fuel surcharge.

**Partnership Waste Heat Agreements**

Pursuant to long-term waste heat agreements, TransCanada provides the Ontario power plants with all waste heat generated by the natural gas turbine compressors located at the compressor stations adjacent to the Ontario power plants on an as available basis. Each agreement continues in effect for as long as the Partnership delivers electrical energy from the particular plant. The waste heat agreements provide that TransCanada will be obligated to supply waste heat to the Ontario power

Table of Contents

plants only when such waste heat is available from the compressor stations. In the event waste heat output is reduced at a compressor station as a result of reduced natural gas turbine output arising from any cause, TransCanada's obligation to deliver waste heat is reduced accordingly. See "Business Risks Energy Supply Risk" in the MD&A.

In 2003, the Partnership entered into an agreement with TransCanada to optimize the waste heat availability at certain of the Partnership's Ontario plants. Under the agreement, the Partnership pays for incremental natural gas used in the compressor station turbines to optimize the quantities of waste heat which can be available to the Partnership's adjacent power plant. Any incremental maintenance or repair costs as a result of the increased use of TransCanada's turbines are also charged to the Partnership.

### **PERC Management Arrangements**

Pursuant to the PERC Management Agreement, the Partnership, through Ventures, provides management and administrative services to PERH and its subsidiaries and, if and to the extent requested by PERC, provides certain administrative services to PERC. The initial term of the PERC Management Agreement expires in 2025. In consideration for providing the management and administrative services, the Partnership receives a base annual management fee.

Concurrently with the PERH recapitalization in August 2009, certain changes were made to the PERC Management Agreement. The changes include: (i) PERH has assumed responsibility for certain management functions, (ii) the parties agreed that PERH can terminate the management agreement for a specified price, declining over time, if the Partnership agrees to sell its interest in PERH, and (iii) the allocation agreement among the Partnership, PERC and certain other parties, together with the rights of first offer in respect of certain projects of the Partnership granted to PERC and to PERH under the PERC Management Agreement and the allocation agreement, have been terminated. See "General Development of the Business Three Year History".

PERC, through PERH and its subsidiaries, competes with the Partnership. The PERC Management Agreement does not prohibit the Partnership or its affiliates from competing with PERC or PERH or from acquiring, investing in, or providing administrative or managerial services to a competitor of PERC. Pursuant to the PERC Management Agreement, PERC, PERH and its subsidiaries acknowledge and agree that the Partnership and its affiliates may engage in activities similar to and competitive with those of PERC, PERH and its subsidiaries.

### **Employees of the Partnership**

Neither the Partnership nor the General Partner has any employees. All day-to-day operations at the Canadian and U.S. power generation facilities are undertaken by employees of Capital Power with the exception of the Manchief facility. Operations and maintenance services for the Manchief facility are supplied by a contracted service provider, Colorado Energy Management, LLC.

All senior officers of the Partnership are employed by, and obtain all of their compensation from, Capital Power, and compensation for their services to the Partnership is paid by Capital Power. The directors and officers of the Partnership who are officers or employees of Capital Power do not receive any compensation directly from the Partnership for such services. See "Compensation Discussion and Analysis".

The Canadian operations have approximately 23 non-unionized employees at North Bay, Mamquam and Moresby Lake. The facility operations at Nipigon, Kapuskasing, Tunis and Calstock unionized in the spring of 2006. The Power Workers' Union of Ontario is the certified bargaining agent for approximately 46 employees at these facilities and has a collective agreement with Capital Power which expires in December 2013. At the Williams Lake facility, there are approximately 23 unionized

Table of Contents

employees whose United Steel Workers local has a collective agreement with Capital Power which expires in December 2011. The United States operations have approximately 167 non-unionized employees.

**Expansion, Enhancement and Acquisition Opportunities**

Where opportunities arise, the Partnership will seek to grow its asset base by expanding capacity and implementing enhancements at existing plants and by pursuing acquisition or development opportunities that meet the Partnership's investment criteria and are accretive to cash flows. These criteria include generation assets that have relatively stable and predictable cash flows; risk profiles similar to the assets already owned by the Partnership; and with predictable capital expenditures and long operating lives.

The Ontario PPAs contain provisions that, under certain circumstances and subject to the consent of OEFC, allow for the sale of additional electricity to the extent that the plants subject to the agreements are physically expanded. Expansions could be achieved in a number of ways; however, at present there is no agreement with OEFC to expand the Ontario plants.

**RISK FACTORS**

The Partnership has direct ownership interests in a portfolio of 20 power generation assets that operate using six different fuel types in two countries, and also a 14.3% equity ownership interest in another organization that owns 5 plants, and is therefore subject to a number of business and operational risks.

A detailed discussion of risk factors is included in the section on "Business Risks" in the Partnership's MD&A dated March 2, 2011 and filed on SEDAR.

**REGULATION**

Set forth below is an overview of the principal electrical power regulatory regimes to which the Partnership's operations are subject. Environmental regulations affecting the Partnership's operations are discussed under "Environmental Regulation".

The Partnership's operations are subject to extensive regulation by governmental agencies. In addition to environmental regulation, the Partnership's facilities and operations are subject to laws and regulations that govern, among other things, transactions by and with purchasers of power, including utility companies, the development and construction of generation facilities, the ownership and operations of generation facilities, access to transmission, and the geographical location, zoning, land use and operation of a facility.

**Ontario**

The OEFC is one of five corporations established by the *Electricity Act, 1998*. OEFC is the purchaser of 100% of the power produced by the Partnership's operations in Ontario. This relationship has remained stable despite numerous regulatory and policy changes over the intervening years. The formation of the Ontario Power Authority (OPA) in 2004, while having no impact on the existing contracts, is helpful in that it will provide a creditworthy counterparty with whom to negotiate replacement PPAs as the existing agreements expire.

On September 20, 2010, the Ontario Minister of Energy announced a revised process regarding the development of the Integrated Power System Plan (IPSP). On November 23, 2010, the Ontario Ministry of Energy issued its "Long-Term Energy Plan" (LTEP) and a proposed new supply mix directive. Subject to a 45 day posting of the proposed supply mix directive on the Environmental Registry, the OPA will prepare a detailed IPSP, hold consultations, and submit a revised IPSP to the Ontario Energy

Table of Contents

Board (OEB) by mid 2011 with review by the OEB to take place between 2011 and 2012. Once reviewed and approved by the OEB, the IPSP will be updated every three years as required by regulation.

On October 7, 2010, the Ontario government announced that the 900 MW Oakville Generating Station selected by the OPA for the southwest Greater Toronto Area was no longer required and would be cancelled. The LTEP issued on November 23, 2010 referenced this cancellation but noted that natural gas would continue to play a strategic role in Ontario's supply mix by complementing intermittent supply from renewable energy projects, meeting local and system requirements, and ensuring that adequate capacity is available as nuclear plants are modernized, and that the OPA will continue to plan on natural gas usage for those strategic purposes. The LTEP specifically noted that the procurement of a natural gas-fired plant in the Kitchener-Waterloo-Cambridge area, as was originally envisaged in the original IPSP submitted to the OEB in 2007, is still necessary to ensure adequate regional electricity supply.

**British Columbia**

BC Hydro is the principal purchaser and distributor of electricity in the Province of British Columbia. BC Hydro is owned by the Province of British Columbia and is regulated by the British Columbia Utilities Commission (BCUC). The British Columbia Government Energy Plan (BC Energy Plan) and direction to BC Hydro have the effect of making hydroelectric, wind and wood waste electricity generation more favourable than natural gas and coal fired electricity generation.

On August 27, 2009, the Government of British Columbia affirmed that development of clean and renewable energy sources will continue to be aggressively promoted and pursued in conjunction with energy self-sufficiency both to support achievement of British Columbia's climate action plan goals and to position British Columbia as a "clean energy powerhouse" as per the BC Energy Plan.

On April 28, 2010, the Government of British Columbia introduced a new Clean Energy Act that aims to aggressively accelerate and expand development of clean and renewable energy sources within the Province of British Columbia to achieve energy self-sufficiency, job creation and greenhouse gas reduction objectives. The Clean Energy Act also re-integrates British Columbia Transmission Corporation (BCTC) into BC Hydro and provides a new role for BC Hydro to actively market and expand sales of BC clean power in export markets. The Clean Energy Act received Royal Assent on June 3, 2010, and BCTC was re-integrated into BC Hydro effective July 5, 2010.

The Clean Energy Act requires BC Hydro to submit an Integrated Resource Plan (IRP) by November 2011. The long-term electricity planning framework and expanded opportunities for contracted power development for both BC domestic use and BC Hydro export purposes established through the Clean Energy Act, and addressed through the forthcoming IRP, could provide opportunities for the Partnership. The Clean Energy Act would also streamline regulatory approval processes for future projects qualifying for contracts with BC Hydro.

**U.S. Energy Industry Regulatory Matters**

*Federal Energy Regulatory Commission (FERC) Jurisdiction*

Unless otherwise exempt, any person that owns or operates facilities used for the wholesale sale or transmission of electric energy in interstate commerce is a public utility subject to FERC's jurisdiction. FERC has extensive ratemaking jurisdiction and other authority with respect to interstate wholesale sales and transmission of electric energy under the Federal Power Act (FPA) and with respect to certain interstate sales, transportation and storage of natural gas under the U.S. Natural Gas Act of 1938 (NGA), as amended and the U.S. Natural Gas Policy Act of 1978 (NGPA), as amended. FERC also maintains certain reporting requirements for public utilities and regulates, among other things, the

Table of Contents

disposition and acquisition of certain assets and securities, the holding of certain interlocking directorate positions, and the issuance of securities by public utilities.

*Transmission Service*

Issued in 1996, FERC Order No. 888 mandated the unbundling of utilities' transmission and generation services and required such utilities to offer eligible entities open access to utility transmission facilities on a basis comparable to the utilities' own use of the facilities. FERC Order No. 888 required public utility transmission owners to file open access transmission tariffs containing the terms and conditions under which they would offer transmission service, enabling independent generators and marketers to schedule and reserve capacity on those transmission facilities. In 2007, FERC Order No. 890 made a number of changes to open access implementation, including requiring an open, transparent and coordinated transmission planning process on both a local and regional basis.

In 1999, FERC issued Order No. 2000, which set out standards for Independent System Operators (ISOs) and Regional Transmission Organizations (RTOs). These organizations are operated by an entity that is independent of market participants, and planning, operations, and transmission services are performed on a regional instead of utility specific basis. In addition, most ISOs and RTOs administer liquid day-ahead and real-time spot markets. Examples are PJM Interconnection, ISO New England, New York ISO, Midwest Independent Transmission System Operator and California ISO. In 2008, FERC Order No. 719 made incremental reforms to such markets, including requiring scarcity pricing to encourage demand response and other new resources.

*Market-Based Rate Authority*

Under the FPA and FERC's regulations (subject to certain exceptions for entities such as municipal utilities that are not public utilities under the FPA), an entity seeking to make wholesale sales of power at market-based or cost-based rates must obtain authorization from FERC. FERC grants market-based rate authorization if it finds that the seller and its affiliates lack market power in generation and transmission, that the seller and its affiliates cannot erect other barriers to market entry and the seller and its affiliates comply with certain affiliate restrictions. All of the Partnership's affiliates that own power plants in the U.S. (except for those power plants that are QFs, as well as the Partnership's power marketer affiliates, are currently authorized by FERC to make wholesale sales of power at market-based rates. This authorization is subject to revocation by FERC if such companies fail to continue to satisfy FERC's current or future criteria for market-based rate authority or to modification if FERC restricts the ability of wholesale sellers of power to make sales at market-based rates.

*Mergers and Acquisitions*

FERC has FPA jurisdiction over certain sales, mergers, consolidations and acquisitions of public utility assets or securities, and over certain mergers and acquisitions involving holding companies and transmitting utilities or electric utility companies. In reviewing such matters, FERC reviews the effect of the transaction on competition, rates and regulation and ensures that there is no unlawful cross subsidization of affiliates by entities with captive customers.

*Independent System Operators (ISOs) and Regional Transmission Organizations (RTOs)*

ISOs grew out of Orders Nos. 888/889 where the Commission suggested the concept of an ISO as one way for existing tight power pools to satisfy the requirement of providing non-discriminatory access to transmission. Subsequently, in Order No. 2000, the Commission encouraged the voluntary formation of RTOs to administer the transmission grid on a regional basis throughout North America. With the exception of the southeast and northwest, most wholesale power markets in the lower 48 states of the

Table of Contents

United States are controlled by RTOs operating under FERC jurisdiction. The organized markets under each of these RTOs have developed differently, each with their own variation of markets. The northeast region (PJM, NYISO and ISO-NE) is considered the more developed of the RTOs but each region has its own uniqueness of history, market participants, resources and state involvement. Market rules continue to evolve. The non-organized market regions of the northwest and southeast typically represent the old model of vertically integrated utilities and opportunities there are limited to bilateral contracts.

*Reliability Standards*

Pursuant to the U.S. Energy Policy Act of 2005, FERC finalized in February 2006 new rules regarding the certification of an Electric Reliability Organization and the procedures for the establishment, approval and enforcement of mandatory electric reliability standards. In July 2006, FERC certified North American Electric Reliability Corporation (NERC) as the Electric Reliability Organization to establish and enforce reliability standards applicable to all owners, operators and users of the bulk power system. NERC relies on regional reliability entities to enforce FERC and NERC standards with bulk power system owners, operators, and users through approved delegation agreements. Such regional entities are responsible for monitoring compliance of the registered entities within their regional boundaries, assuring mitigation of all violations of approved reliability standards and assessing penalties and sanctions for failure to comply.

*FERC Enforcement Authority*

FERC has the authority to enforce the statutes it is responsible for implementing and the regulations it issues under those statutes. The U.S. Energy Policy Act of 2005 conferred substantial enforcement authority on FERC, allowing it to impose civil penalties of up to U.S. \$1 million per day per violation for violations of the NGA, NGPA and Part II of the FPA. This expanded penalty authority also applies to any entity that manipulates wholesale natural gas or electric markets by engaging in fraud or deceit in connection with jurisdictional transactions. In addition, these laws allow for the assessment of criminal fines and imprisonment for violations.

*The Public Utility Regulatory Policies Act of 1978*

The Public Utility Regulatory Policies Act of 1978, as amended (PURPA) and FERC's regulations under PURPA provide certain incentives for the development of combined heat and power facilities and small power production facilities using alternative or renewable fuels, in part by establishing certain exemptions from the FPA and the U.S. Public Utility Holding Company Act of 2005 for owners of QFs.

PURPA provides two primary benefits to QFs. First, all cogeneration facilities, geothermal and biomass small power production facilities, and small power production facilities 30 MW or smaller that are QFs are exempt from certain provisions of the FPA, the regulations of FERC thereunder and the U.S. Public Utility Holding Company Act of 2005. Second, the FERC regulations promulgated under PURPA require that electric utilities purchase electricity generated by QFs that are directly, or under certain circumstances indirectly, connected to such electric utilities at a price based on the purchasing utilities avoided cost and that such utilities sell back up power to such QFs on a non-discriminatory basis. An electric utility may be entitled to relief from these mandatory purchase and sale obligations if, in the case of the mandatory purchase obligation, the utility can show that the QF has non-discriminatory access to a market that meets certain competitive conditions and, in the case of the mandatory sale obligation, if the utility can show that there are competing retail electric suppliers willing and able to sell and deliver electricity to the QF and there is no obligation under state law for the utility to make such power sales. The provisions for relief from the mandatory purchase and sale obligations do not affect contracts entered into or pending approval on or before August 8, 2005.

Table of Contents

Under FERC's regulations, QFs are subject to FERC's rate making authority under the FPA and are required to obtain market-based rate authority in order to sell power at market-based rates, except for sales of energy or capacity: (i) made by QFs that have a generating capacity of 20 MW or less; (ii) made pursuant to a contract executed on or before March 17, 2006; or (iii) made pursuant to state-approved avoided cost rates.

PURPA establishes certain thermal use and efficiency requirements for QFs. Loss of a steam host or changes in operations at the facility or at the steam host may result in non-compliance with such requirements. The Partnership endeavours to monitor regulatory compliance by its QF facilities in a manner that minimizes the risks of losing these facilities' QF status. If any of the QF facilities in which the Partnership has an interest were to lose its status as a qualifying cogeneration facility, that facility would no longer be entitled to the QF-related exemptions and could become subject to rate regulation under the USFPA and additional state regulation. Loss of QF status could also trigger defaults under covenants to maintain QF status in the facilities' PPAs, SPAs and financing agreements and result in termination, penalties or acceleration of indebtedness under such agreements. Loss of QF status on a retroactive basis could lead to, among other things, fines and penalties, or claims by a utility customer for the refund of payments previously made. If the obligation to purchase from some or all of the Partnership's QFs is terminated, the Partnership will seek alternative purchasers for the output of such QFs or enter into negotiated rate contracts with existing counterparties once their current contracts expire. Such sales will be at prevailing market rates, which may not be as favourable as the terms of the PURPA sales arrangements under existing contracts and thus may diminish the value of the Partnership's QFs.

In November 2007, FERC granted a limited request for waiver of FERC's QF operating and efficiency standards for the Roxboro facility due to an inability to find a replacement steam host. On January 1, 2010 Roxboro was recertified as a QF under the requirement for a Small Power Producer due to its ability to utilize renewable fuel.

*Public Utility Holding Company Act of 2005*

In August 2005, the passage of U.S. Energy Policy Act of 2005 repealed the Public Utility Holding Company Act of 1935 and enacted the U.S. Public Utility Holding Company Act of 2005, effective February 2006, which primarily addresses FERC's access to the books and records of holding companies. Any entity that is a holding company solely with respect to QFs, exempt wholesale generators or foreign utility companies, such as the Partnership, is exempt from FERC's books and records requirements and any accounting, record-retention and reporting requirements contained in the U.S. Public Utility Holding Company Act of 2005 and FERC's regulations promulgated thereunder.

**California**

The Naval Facilities in San Diego and the Oxnard facility in Oxnard sell energy to SDG&E and SCE respectively on the basis of each utility's SRAC formula.

On September 20, 2007, the CPUC accepted an alternative decision regarding revisions to the SRAC cost formulae that were implemented in 2009. The essence of the decision is to provide a 50/50 split between market and administrative heat rates for the calculation of the overall heat rate used in the compensation calculation. This increases the amount of variable operating cost included in the determination of SRAC amount. The SRAC change impacts the steam payment component of the PPAs described above and the Partnership is currently in discussion with the Navy on implications of future steam pricing.

Table of Contents

**Colorado**

On April 19, 2010, the Colorado Legislature enacted House Bill 10-1365 (HB1365) which entitled the "Clean Air-Clean Jobs Act" (CACJA). CACJA requires PSCo to submit a plan to the Colorado Public Utilities Commission (CoPUC) to achieve 70 - 80% reductions in NOx emissions from a minimum of 900 MW of its existing coal generating facilities by December 31, 2017 with a CoPUC decision accepting, modifying or rejecting the plan required by December 15, 2010.

The specific replacement options that will ultimately be approved for PSCo could have implications for future commercial contracting opportunities for the Partnership's Greeley facility. The existing Greeley PPA with PSCo expires in August 2013.

The CoPUC issued a decision on December 15, 2010. The CoPUC did not select any of the packaged portfolios that were extensively modeled in the docket, but instead generated its own unique plan that incorporates elements of various plans. The decision directs PSCo to retire 551 MW of existing coal generation, add emissions controls to 742 MW of existing coal capacity, fuel-switch 463 MW of coal-capacity to natural gas, and construct a new 2x1 natural gas combined cycle facility with 569 MW capacity. The CoPUC did acknowledge other options, including gas turbines, IPP generation, and transmission, may be more effective long-term solutions than fuel-switching coal-to-natural gas units, and in this respect directed PSCo to present alternatives to fuel-switching coal-to-natural gas in its upcoming ERP due in late 2011.

The decision preserves an option for the Partnership and other existing IPP facilities to bid into the next RFP. On January 4, 2011, seven parties, including PSCo and CIEA (on behalf of the Partnership and SWG), filed "Requests for Rehearing, Reargument or Reconsideration" (RRR Request) regarding various aspects of the decision. See "Legal Proceedings".

**ENVIRONMENTAL MATTERS**

The Partnership has obtained all environmental licenses, permits, approvals and other authorizations required for the operation of its power plants. Except as outlined below, the Partnership is satisfied that its operating practices are in material compliance with applicable environmental laws and regulatory requirements. The power plants are operated in an environmentally sound manner and the environmental management systems are aligned with the corporate policies and procedures of Capital Power, which are binding upon the General Partner and the Manager.

At the Calstock plant, opacity remains a concern while burning the landfill waste wood alone. A blend of fuel supply is utilized to mitigate opacity and particulate issues. However, Calstock is not meeting two other conditions in its Certificate of Approval (CoA): (i) attaining the minimum combustion gas temperature and residence time, and (ii) the maximum carbon monoxide concentration in the stack. The Partnership has submitted an application to the Ontario Ministry of Environment to amend the Certificate of Approval to more accurately reflect the operating conditions of the plant.

**Environmental Regulation**

Many of the Partnership's operations are subject to extensive environmental laws, regulations and guidelines relating to the generation and transmission of electricity, pollution and protection of the environment, health and safety, greenhouse gas (GHG) and other air emissions, water usage, wastewater discharges, hazardous material handling, storage, treatment and disposal of waste and other materials and remediation of sites and land-use responsibility. These regulations can impose liability for compliance costs and costs to investigate and remediate contamination.

The Partnership business is a significant emitter of carbon dioxide (CO<sub>2</sub>), NOx, sulphur dioxide (SO<sub>2</sub>), mercury and particulate matter (PM), and is required to comply with all licenses and permits and federal, provincial and state requirements, including programs to reduce or offset GHG emissions.

Table of Contents

Compliance with new regulatory requirements may require the Partnership to incur significant capital expenditures or additional operating expenses, and failure to comply with such regulations could result in fines, penalties or the curtailment of operations. To the extent that proposed regulations are described below, until detailed regulations are enacted there is insufficient information to assess the impact on the Partnership, although as additional regulations are passed it is likely the Partnership will incur increased costs.

*Canadian Federal Government GHG Emissions Regulations*

On June 23, 2010, the Canadian Environment Minister announced the Government of Canada's plan for new GHG emission regulation for coal-fired electricity generation units. The proposed plan will apply a new GHG emissions performance standard to new coal-fired electricity generation units and facilitate phasing out conventional coal-fired electricity generation in an orderly manner. The regulations are anticipated to be effective July 1, 2015 and units that have commercial operation dates prior to July 1, 2015 are expected to be exempt from the regulation until they reach the end of their economic useful life. Because the proposed regulations address coal-fired generation assets they are not expected to have any negative impact on the Partnership's facilities.

*Canadian Federal Government Air Emission Regulations*

The Canadian government is considering regulations which may place stricter limits on NO<sub>x</sub>, SO<sub>2</sub>, mercury and PM emissions from fossil fuel-fired generating stations in Canada. The Canadian Department of Environment has been working with the provincial governments and industry to develop a regulatory framework to minimize local emissions under a Comprehensive Air Management System (CAMS) and the regulations are expected to be implemented in 2013.

*Ontario*

The Ontario government aims to harmonize its cap and trade program with the Western Climate Initiative (WCI), which is represented by four provinces (B.C., Ontario, Quebec and Manitoba) and seven states (Arizona, California, Montana, New Mexico, Oregon, Utah and Washington). The WCI requires a 15% reduction in GHG emission levels by 2020, from those of 2005. The cap and trade system applicable to industrial facilities including electricity generation is expected to be implemented in 2012. However, the Ontario Government has not yet provided the industry specific GHG reduction targets or other program details.

*British Columbia*

*The Greenhouse Gas Reduction Targets Act* and the *Greenhouse Gas Reduction (Cap and Trade) Cap and Trade Act* which were enacted in 2008, provide the statutory basis for establishing a market-based framework to reduce GHG emissions from large emitters. The BC Government aims to harmonize its cap and trade program with the WCI, similar to Ontario. The cap and trade system applicable to industrial facilities including electricity generation is expected to start in 2012 and will replace the current fuel tax. However, the BC Government has not yet provided the industry specific GHG reduction targets or other program details.

*U.S. Greenhouse Gas Regulation*

The U.S. Environmental Protection Agency (USEPA) and the state of California have implemented mandatory GHG reporting requirements, which are expected to be met by the Partnership on their respective due dates in 2011.

The USEPA is expected to regulate GHGs under the *Clean Air Act* (CAA) with requirements for best available control technology for new GHG sources and major modifications of existing sources.

Table of Contents

They also plan to control GHG emissions for existing and new sources through new source performance standards.

The WCI, as described above under Ontario, may affect the operation of the Partnership's four facilities in California and the Frederickson facility in Washington.

California's proposed Cap and Trade program to control GHGs aims to cut the state's GHG emissions to 1990 levels by 2020 with further reductions each year thereafter. The initial phase of the program will apply to electric generation and large industrial units and is expected to be effective in January 2012, but the proposal's GHG emission allocation methodology has not yet been established. On November 2, 2010, a proposition (Proposition 23) to effectively repeal the program was rejected by California voters.

There is currently insufficient information to determine the impact of the proposed regulations on the Partnership, however if additional regulations are passed it is likely that the Partnership will incur increased costs.

*U.S. Air Emission Regulations*

In July, 2010, USEPA proposed the *Clean Air Transport Rule (CATR)* to replace the Clean Air Interstate Rule. CATR proposes to reduce the amount of Nitrogen Oxide (NO<sub>x</sub>) and Sulphur Dioxide (SO<sub>2</sub>) emissions from electric generating units that are transported in the air to down-wind states. CATR proposes emission reductions sufficient to contribute to reducing NO<sub>x</sub> and SO<sub>2</sub> measures below the ambient air quality standards in those down-wind states. The CATR proposals are also expected to significantly limit emissions trading.

CATR only applies to units of generating facilities with a capacity of 25 MW or more, although it may be extended to other facilities when it is re-evaluated in 2014. Cogeneration facilities and units not providing electricity for sale on the electricity grid are also exempt. The Partnership units that may be impacted are Roxboro, Southport, and Morris, however, there is insufficient information to understand the implications of the proposed regulations.

There is currently insufficient information to determine the impact of these air emission proposed regulations on the Partnership, however if additional regulations are passed it is likely that the Partnership will incur increased costs.

In 2010, the USEPA proposed new air toxics standards, including standards for mercury, for industrial boilers (Boiler MACT) and for coal and oil-fired electric generating units. However, the state of North Carolina issued a maximum available control technology permit to the Partnership under the CAA, which precludes the application of these proposed new standards to its North Carolina facilities. In addition, based on the fuel mix and newly installed controls at the Partnership's North Carolina facilities, the Partnership does not anticipate the need for further mercury or other hazardous emissions controls at these facilities.

*U.S. Comprehensive Environmental Response, Compensation and Liability Act (CERCLA)*

CERCLA, also referred to as Superfund, requires investigation and remediation of sites where there has been a release or threatened release of hazardous substances. It also authorizes the USEPA to take response actions at Superfund sites, including ordering parties who are potentially responsible for the release to pay for their actions. Many states have similar laws. CERCLA defines potentially responsible broadly to include past and present owners and operators, as well as generators, of wastes sent to a site. The Partnership is currently not subject to any material liability for any Superfund matters. However, the Partnership generates certain wastes, including hazardous wastes, and sends certain of its wastes to third party waste disposal sites. As a result, there can be no assurance that the Partnership will not incur a liability under CERCLA in the future.

Table of Contents

**COMPETITION**

During the terms of the PPAs, the obligations to purchase power generated by the power plants are firm up to the contract quantities and are not significantly affected by a competitive market for power in the jurisdictions and markets in which the power plants are located or the markets to which their power is sold. At the Williams Lake plant, any excess energy, approximately 20% of the total energy produced, is priced by reference to a power index. In 2009, the year end excess energy price (\$58/MWh) was higher than the year end prices received for such excess energy in 2008 (\$49/MWh). Except in that limited instance, (e.g. Williams Lake excess energy), the potential presence of lower or higher priced power in any of the electricity markets supplied by the power plants does not (subject to certain curtailment rights in the applicable PPAs), allow for a change either in the quantity of power required to be purchased under such agreements or the price payable for such power. During the term of a SPA, the obligations to purchase steam and other forms of thermal energy generated by the CHP facilities are fixed by the contract. While some areas may offer ready access to an alternate steam or thermal energy source, most would require the construction of new facilities and infrastructure by the customer or another third party to offer a competing supply. It is a competitive advantage to the CHP facilities to have their facilities and infrastructure in place and available to the customer.

Ongoing research and development activities improve upon power technologies and reduce the cost of alternative methods of power generation. As the PPAs and SPAs expire the Partnership must re-contract plant capacity which may also involve capacity re-powering or upgrades in order to compete with more efficient plants utilizing newer technologies.

Competition in the North American power generation market is comprised of numerous fully and partially-regulated utilities and independent power producers. However, with operational experience in four types of energy supply, a broad geographic footprint and good access to capital markets, the Partnership is well-positioned to compete for contracted generation assets.

**Canada**

In its 2009 outlook of Canada's energy supply, the National Energy Board of Canada forecasts Canadian electricity production to grow at a compound average annual rate of over 1% between 2011 and 2020. The combined effect of demand growth and facility retirements is expected to result in a need for new generation in the coming years. The British Columbia and Ontario markets remain price regulated, and provincial regulatory bodies have continued to issue RFP's or other procurements for the development of new generation.

**United States**

The U.S. Energy Information Administration in its 2010 Annual Energy Outlook forecasts U.S. electricity demand to grow at a compound average annual rate of over 1% between 2011 and 2020. In combination with limited near-term capacity development and anticipated retirements (particularly of aging coal plants), demand growth in the U.S. is expected to compress reserve margins and necessitate renewed development activity. Regional power markets within the U.S. exhibit a high level of diversity, due in part to differing regulatory regimes, transmission constraints, supply and demand characteristics and environmental policies. The U.S. market has solid growth potential for the Partnership due to its size relative to the Canadian market and because of its historical reliance on fossil fuel-based power generation which is an area of expertise for the Partnership.

Table of Contents**DISTRIBUTIONS OF THE PARTNERSHIP**

Cash distributions per Unit declared by the Partnership per year during the past three years are as follows:

	2010	2009	2008
Cash distributions per Unit declared per year	\$ 1.76	\$ 1.95	\$ 2.52

Prior to October 1, 2009, the Partnership distributed cash to its limited partners on a quarterly basis. Commencing after September 30, 2009 the Partnership distributes cash to its limited partners on a monthly basis in accordance with the requirements of the Partnership Agreement and subject to the approval of the Board of Directors of the General Partner. Cash distributions are determined in consideration of cash amounts required for the operations of the Partnership and the power plants including maintenance capital expenditures, debt repayments, and financing charges, and any cash retained at the discretion of the Board of Directors of the General Partner to satisfy anticipated obligations or to normalize monthly distributions. The cash distributions are made in respect of each calendar month to Unitholders of record on the last day of each month commencing after September 30, 2009. Payments are made on or before the 30th day after each record date. See "General Development of the Business". In connection with the signing of the Memorandum of Agreement, the Partnership announced a reduction in distributions on Units from \$0.63 per Unit per quarter to \$0.44 per Unit per quarter effective with the June 2009 distribution. Distributions are prohibited by certain covenants under the Partnership's credit facilities, and pursuant to guarantees entered into in connection with the issue of preferred shares by CPEL, if an uncured default exists. See "Business Risks Preferred Share guarantee unit distribution risk" in the MD&A.

In October 2009, the Partnership announced the launch of a Premium Distribution<sup>TM</sup> and Distribution Reinvestment Plan (the Plan) that provides eligible Unitholders with two alternatives to receiving the monthly cash distributions, including the option to accumulate additional Units in the Partnership by reinvesting cash distributions in additional Units issued at a 5% discount to the Average Market Price of such Units (as defined by the Plan) on the applicable distribution payment date. Under the Premium Distribution<sup>TM</sup> component of the Plan, eligible Unitholders may elect to exchange these additional Units for a cash payment equal to 102% of the regular cash distribution on the applicable distribution payment date. See "General Development of Business".

TM

Denotes a trademark of Canaccord Capital Corporation

Additional information with respect to the Plan is available on the Partnership's website at [www.capitalpowerincome.ca](http://www.capitalpowerincome.ca).

**DIVIDENDS OF SUBSIDIARY (CPEL)***Series 1 Shares*

Cash dividends per share declared by CPEL per year with respect to the Series 1 Shares during the past three years are as follows:

	2010	2009	2008
Cash dividends per share declared per year	1.2125	\$ 1.2125	\$ 1.2125

Series 1 Shares pay cumulative dividends of \$1.2125 per share per annum payable quarterly on the last business day of March, June, September and December of each year, as and when declared by the Board of Directors of CPEL.

Schedule I-35

Table of Contents

*Series 2 Shares and Series 3 Shares*

CPEL paid an initial dividend of \$0.28288 per share on December 31, 2009 on its Series 2 Shares for the period from November 2, 2009 to December 31, 2009. CPEL paid a fixed dividend of \$1.75 per share per annum, payable quarterly, for the period from January 1, 2010 to December 31, 2010.

Series 2 Shares pay fixed cumulative dividends of \$1.75 per share per annum payable quarterly on the last business day of March, June, September and December of each year, as and when declared by the Board of Directors of CPEL, for an initial five-year period ending December 31, 2014. The dividend rate will reset on December 31, 2014 and every five years thereafter at a rate equal to the sum of the then five-year Government of Canada bond yield and 4.18%. The holders of Series 2 Shares will have the right to convert their shares into Series 3 Shares of CPEL, subject to certain conditions, on December 31, 2014 and on December 31 of every fifth year thereafter. The holders of Series 3 Shares will be entitled to receive quarterly floating rate cumulative dividends, as and when declared by the Board of Directors of CPEL, at a rate equal to the sum of the then 90-day Government of Canada Treasury bill rate and 4.18%.

CPEL confirms that the dividends for Series 1 Shares and Series 2 Shares are 100% eligible dividends as defined by the *Income Tax Act* (Canada) (Tax Act). Under this legislation, individuals resident in Canada may be entitled to enhanced dividend tax credits that reduce the income tax otherwise payable.

## CAPITAL STRUCTURE

The Partnership is authorized to issue an unlimited number of Units and an unlimited number of subscription receipts exchangeable into Units. Any limited partner who holds Units has represented, warranted and covenanted under the Partnership Agreement that they are not a non-resident of Canada for purposes of the Tax Act or, if a partnership, is a Canadian Partnership under the Tax Act. The Partnership Agreement itself contains restrictions on Unit ownership outside of Canada. The limited partners have further covenanted not to transfer their Units to any person including corporate or other entities which are not able to give these representations, warranties or covenants. Compliance with these covenants is monitored by regular review of a registered Unitholder list provided by the Partnership's transfer agent. Distributions will be withheld from non-residents.

### Nature of Units

Unitholders do not have the right to elect directors of the General Partner or to appoint auditors of the Partnership. In addition, Unitholders do not have the statutory rights normally associated with ownership of shares of a corporation including, for example, the right to bring oppression or derivative actions.

### Votes of the Limited Partners

Generally there are no meetings of the limited partners as the Partnership Agreement requires Unitholder votes in only limited circumstances. CPI Investments, as the owner of all of the shares of the General Partner, elects the directors of the General Partner. However, under the Partnership Agreement, the General Partner or limited partners holding not less than 10% of the outstanding Units may request a meeting which shall be convened within 60 days of receipt of notice of the meeting. A quorum will consist of one or more limited partners present in person or by proxy holding at least 10% of the outstanding Units.

Extraordinary Resolutions (as defined in the Partnership Agreement) will be decided by a poll allowing one vote for each Unit held by the person present as shown on the record as a limited partner at the record date and for each Unit in respect of which the person is the proxy holder. Extraordinary

Table of Contents

resolutions of the Unitholders are required to approve certain matters, including certain amendments to the Partnership Agreement, in certain circumstances the removal or voluntary withdrawal of the General Partner as general partner, the dissolution of the Partnership, the sale, exchange or other disposition of all or substantially all of the property of the Partnership, and the waiving of any default on the part of the General Partner.

Ordinary resolutions will be decided by a show of hands unless otherwise required by the Partnership Agreement or a poll is demanded by a limited partner. Ordinary resolutions of the Unitholders are required to approve certain matters, including in certain circumstances the removal of the General Partner as general partner.

Securities laws in Canada and the rules of the TSX also provide Unitholders with the right to vote in certain circumstances, such as on the approval of "related party transactions", and on certain significant private placement and acquisition transactions.

**Dissolution**

In the event of dissolution, the General Partner (or, in specified circumstances, such other person as may be appointed by ordinary resolution) shall act as receiver and liquidator of the assets of the Partnership and shall provide for the payment of all liabilities of the Partnership and distribute the balance of assets remaining after payment of creditors to Unitholders proportionate to the number of Units held by them.

**Preferred Shares of CPEL**

CPEL is authorized to issue an unlimited number of Preferred Shares issuable in series, of which up to 5,750,000 Series 1 Shares, 4,000,000 Series 2 Shares and 4,000,000 Series 3 Shares have been authorized for issuance.

Except as required by law or in the conditions attaching to the Preferred Shares as a class, the holders of Series 1 Shares, Series 2 Shares and Series 3 Shares are not entitled to vote at any meeting of shareholders of CPEL, unless and until CPEL has failed to pay eight quarterly dividends and for as long as any such dividends remain in arrears.

On May 25, 2007, CPEL issued 5,000,000 Series 1 Shares for gross proceeds of \$125 million. Pursuant to a guarantee indenture dated May 25, 2007 among the Partnership, CPEL and CIBC Mellon Trust Company, the Partnership agreed to fully and unconditionally guarantee the Series 1 Shares on a subordinated basis as to: (i) payment of dividends, as and when declared; (ii) payment of amounts due on redemption of the Series 1 Shares; and (iii) payment of amounts due on liquidation, dissolution or winding up of CPEL.

On November 2, 2009, CPEL issued 4,000,000 Series 2 Shares for gross proceeds of \$100 million. The holders of Series 2 Shares will have the right to convert their shares into Series 3 Shares of CPEL, subject to certain conditions, on December 31, 2014 and on December 31 of every fifth year thereafter. Pursuant to guarantee indentures each dated November 2, 2009 among the Partnership, CPEL and Computershare Trust Company of Canada, the Partnership agreed to fully and unconditionally guarantee the Series 2 Shares and Series 3 Shares on a subordinated basis as to: (i) the payment of the dividends, as and when declared; (ii) the amounts payable on a redemption of Series 2 Shares or Series 3 Shares for cash; and (iii) the amounts payable in the event of the liquidation, dissolution and winding up of CPEL.

The guarantee indentures for the Series 1 Shares, Series 2 Shares and Series 3 Shares provide that if, and for so long as, the declaration or payment of dividends on the Series 1 Shares, Series 2 Shares or Series 3 Shares is in arrears, the Partnership will not make any distributions on the Units. See "Business Risks Preferred Share guarantee unit distribution risk" in the MD&A.

Table of Contents

**Debt Financing**

*Credit Facilities*

The Partnership currently has in place approximately \$365 million in total credit facilities consisting of three revolving credit facilities totalling \$325 million with three Canadian chartered banks, a \$20 million demand credit facility with a Canadian chartered bank and a US\$20 million demand credit facility with a US tier 1 bank. Each of the revolving credit facilities is unsecured, bears interest at market rates and has two-year terms maturing in June 2012, September 2012 and October 2012, subject to extension. As at December 31, 2010, the combined Canadian dollar equivalent of \$86.1 million was utilized under these facilities. Under the revolving credit facilities, the Partnership must maintain a debt-to-capitalization ratio of not more than 65% as at the end of each quarter. In addition, in the event the Partnership is assigned a rating of less than BBB+ by Standard & Poor's (S&P) and less than BBB (high) by DBRS Limited (DBRS), the Partnership must also maintain a ratio of EBITDA (earnings before interest, income taxes, depreciation and amortization as defined in the respective credit facilities) to interest expense of not less than 2.5 to 1.0, measured quarterly. If an event of default has occurred and is continuing under such facilities, the Partnership may not declare, make or pay distributions (subject to certain limited exceptions). As at December 31, 2010, the Partnership was in compliance with its financial covenants and was not in default under its revolving credit facilities. There are no similar financial covenants in the demand facilities. The demand credit facilities are unsecured and bear interest at floating rates plus a spread.

*Medium Term Notes Program*

On June 23, 2006, the Partnership issued \$210 million of unsecured medium term notes (MTNs) under a note indenture (the Note Indenture) dated June 15, 2006. The \$210 million principal amount of MTNs outstanding is due June 23, 2036 and bears interest at 5.95% per annum. The Note Indenture does not limit the aggregate principal amount of MTNs that may be issued thereunder. Additional MTNs maturing at varying dates and bearing interest at different rates, in each case as determined by the Partnership, may be issued under the Note Indenture. Under the Note Indenture, the Partnership must maintain a debt-to-capitalization ratio of not more than 65%.

*Senior Notes*

On August 15, 2007, CPUSGP, issued an aggregate of US\$150 million principal amount of 5.87% Senior Notes due August 15, 2017 and an aggregate of US\$75 million principal amount of 5.97% Senior Notes due August 15, 2019, each guaranteed by the Partnership. Under the terms of the Senior Notes, the Partnership must maintain a debt-to-capitalization ratio of not more than 65%.

**RATINGS**

**Debt Ratings**

The Partnership has been assigned a debt rating for the Partnership's Senior Notes by S&P and DBRS.

S&P has assigned the Partnership a credit rating of BBB (stable). The "BBB" rating is the fourth highest rating out of 10 rating categories for S&P's long-term issuer credit ratings. According to S&P, an obligor rated "BBB" has adequate capacity to meet its financial commitments. However adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments. The stable outlook reflects S&P's view that the Partnership will continue to generate relatively stable revenue and cash flow from its diversified portfolio of generating assets supported by PPAs largely with investment-grade off-takers and well-spread expiries.

Table of Contents

DBRS has assigned the Partnership's long-term debt a credit rating of BBB (high). This rating is DBRS's fourth highest of 10 categories. Long-term debt rated "BBB" by DBRS is of adequate credit quality. According to DBRS, protection of interest and principal is considered acceptable, but the entity is fairly susceptible to adverse changes in financial and economic conditions, or there may be other adverse conditions present which reduce the strength of the entity and its rated securities. The assignment of a "high" or "low" modifier indicates the relative standing within the rating category. As a result of the announcement of the strategic review process, DBRS placed this rating under review with negative implications.

**Stability Rating**

The Partnership has also been assigned a Stability Rating by DBRS.

DBRS has assigned the Partnership a stability rating of STA-2 (low). STA-2 is the second highest of seven categories in DBRS's rating system for income fund stability. DBRS further subcategorizes each rating category by the designation high, middle and low to indicate where an entity falls within the rating category. According to DBRS, income funds rated STA-2 have very good distributions per unit stability and sustainability, exhibit performance that is only slightly below the STA-1 category, typically show above-average strength in areas of consideration, and possess levels of distributable income per unit that are not likely to be significantly negatively affected by foreseeable events. According to DBRS, income funds rated STA-2 are above average in many, if not most, areas of consideration.

**Preferred Shares Ratings**

The preferred shares issued by CPEL have been assigned Preferred Share Ratings by S&P and DBRS.

S&P has assigned the Series 1 Shares and Series 2 Shares a rating of P-3 (high). Such P-3 (high) rating is the ninth highest of twenty ratings used by S&P in its preferred share rating scale. According to S&P, a P-3 (high) rating indicates that, although the obligation has some quality and protective characteristics, the obligor faces major ongoing uncertainties, and exposure to adverse business, financial, or economic conditions, which could lead to the obligor's inadequate capacity to meet its financial commitments.

DBRS has assigned the Series 1 Shares and Series 2 Shares a rating of Pfd-3 with a negative trend. The Pfd-3 rating is the third highest of six rating categories used by DBRS for preferred shares. According to DBRS, preferred shares rated Pfd-3 are of adequate credit quality and, while protection of dividends and principal is still considered acceptable for such preferred shares, the issuing entity of preferred shares with a Pfd-3 rating is considered to be more susceptible to adverse changes in financial and economic conditions, and there may be other adverse conditions present which detract from debt protection. DBRS further subcategorizes each rating by the designation of "high" and "low" to indicate where an entity falls within the rating category. The absence of either a "high" or "low" designation indicates the rating is in the middle of the category. The rating trend indicates the direction in which DBRS considers the rating is headed should present tendencies continue, or in some cases, unless challenges are addressed.

**Ratings Summary**

Ratings are intended to provide investors with an independent assessment of the credit quality of an issue or an issuer of securities and such ratings do not address the suitability of a particular security for a particular investor. The ratings assigned to a security may not reflect the potential impact of all risks on the value of a security. The above ratings are not a recommendation to buy, sell or hold securities of the Partnership and may be subject to revision or withdrawal at any time by the applicable rating organization.

**MANAGEMENT OF THE PARTNERSHIP****General**

The business and affairs of the Partnership are managed by the General Partner pursuant to the Partnership Agreement. Management services are provided by the Manager, and its affiliates, for and on behalf of the General Partner and the Partnership's subsidiaries, pursuant to the Management and Operations Agreements, pursuant to which the Manager is to provide, perform, or cause to be provided and performed, management and administrative services for the Partnership and operations and maintenance services for the power plants. Such services include, without limitation, advice and consultation regarding the affairs of the Partnership, its business planning, support, guidance and policy making, general management services and the management and operation of the power plants. The Manager relies on its resources and those of its affiliates in providing services to the Partnership under the Management and Operations Agreements. See "Interests of Management and Others in Material Transactions".

Certain of the officers and directors of the Manager are also officers or directors of Capital Power, and/or the General Partner. The Management and Operations Agreements are generally long term and are reviewed by the Partnership's Independent Directors Committee from time to time. See "Interests of Management and Others in Material Transactions".

The Partnership Agreement sets out the rights and duties of the limited partners as well as the General Partner. Under its terms, the business of the Partnership is restricted to direct or indirect participation in the energy supply industry.

The Partnership Agreement contains other provisions important to Unitholders. A copy is available on the Partnership's website at [www.capitalpowerincome.ca](http://www.capitalpowerincome.ca) or upon request to the Corporate Secretary of the General Partner or under the Partnership's profile on SEDAR at [www.sedar.com](http://www.sedar.com).

**The General Partner**

The General Partner was incorporated on February 13, 1997 under the *Canada Business Corporations Act*. The General Partner is a wholly-owned subsidiary of CPI Investments. EPCOR owns all of the 51 voting non-participating shares of CPI Investments and Capital Power owns all of the 49 voting, participating shares of CPI Investments. Pursuant to the Shareholder Agreement in respect of

Table of Contents

CPI Investments, Capital Power L.P. and EPCOR agreed that: (i) the board of directors of CPI Investments shall consist of three directors; and (ii) EPCOR is entitled to nominate one person for election to the board of directors of CPI Investments. Under the Partnership Agreement, the General Partner is prohibited from undertaking any business activity other than acting as General Partner of the Partnership.

**BOARD OF DIRECTORS AND EXECUTIVE OFFICERS**

The Board of Directors of the General Partner has plenary power and is responsible for the stewardship of the Partnership. The Board of Directors' Terms of Reference provide that its primary responsibility is to foster the long-term success of the Partnership consistent with the requirements set out in the Partnership Agreement and the Board's fiduciary responsibility to the Unitholders. As part of its mandate, the Board has the responsibility to seek to ensure that management has identified the principal risks of the Partnership's business and has implemented appropriate systems and strategies to manage these risks.

The Partnership Agreement does not entitle Unitholders to elect directors of the General Partner but rather requires that at least three directors be independent of Capital Power or its affiliates and EPCOR or its affiliates provided Capital Power and its affiliates and EPCOR and its affiliates together own at least 30% of the issued and outstanding Units. Should Capital Power and its affiliates and EPCOR and its affiliates not maintain a 30% ownership holding in the Partnership (or such lower percentage, being not less than 20%, resulting from the issuance of Units other than to Capital Power and its affiliates or EPCOR and its affiliates), not less than four directors must be independent. Capital Power's (including its Affiliates) ownership is approximately 29.6% as a result of the issuance of Units to other Unitholders under the Partnership's distribution reinvestment plan, and so the board of directors of the General Partner must have at least three directors who are independent. The Board has determined that, notwithstanding the Partnership Agreement, it is appropriate and in the interests of Unitholders and good governance that an additional independent director, as defined under Canadian securities laws, be appointed to the General Partner's Board. The Board of Directors now consists of four independent directors, as defined under Canadian securities laws, three directors who are senior officers of Capital Power, and one director who is a former senior officer of Capital Power.

The four independent members of the Board of Directors are not members of management of Capital Power and are independent, as that term is defined in National Instrument 58-101 *Disclosure of Corporate Governance Practices* (NI 58-101). Under NI 58-101, a director is independent if he or she would be independent within the meaning of independence under Section 1.4 of National Instrument 52-110 *Audit Committees* (NI 52-110). Under NI 52-110, a director is independent if he or she has no direct or indirect material relationship with the Partnership. A material relationship is a relationship which could, in the view of the Board, be reasonably expected to interfere with the exercise of a director's independent judgment. The Board has determined that each of the four independent directors is independent for the purpose of NI 58-101 on the basis that he does not have any relationship with the Partnership which could reasonably be expected to interfere with the exercise of his independent judgement. The Board has determined that each of the other directors is not independent for the purpose of NI 58-101 on the basis that each is a member of senior management of Capital Power.

**Directors and Officers**

The following tables set out the full name, province/state and country of residence, date of birth and office for each individual that was a director or officer of the Partnership as at December 31, 2010, as well as their principal occupations during the past five years.

- (7) Mr. Lee was appointed as Director effective February 22, 2010.
- (8) Mr. Brown retired effective January 4, 2011 from his position as Senior Vice President, Operations of Capital Power Corporation.
- (9) Mr. Oosterbaan was appointed Senior Vice President, Operations & Commodity Portfolio Management of Capital Power Corporation on January 4, 2011.
- (10) Member of the Special Committee.
- (11) Member of the Strategic Review Sub-Committee.

Additional biographical information regarding the current directors of the General Partner is set forth below.

#### *Brian T. Vaasjo*

Brian Vaasjo has been President and Chief Executive Officer of Capital Power Corporation since July, 2009. Mr. Vaasjo was Executive Vice President of EPCOR Utilities Inc. until July, 2009, and was President of EPCOR's Energy Division from July, 2001 to April, 2005. Mr. Vaasjo was chiefly responsible for regional power generation and water operations. One of his primary responsibilities was advancing the company's competitive power and water businesses across North America including the clean coal initiatives. Mr. Vaasjo was also President of the Partnership from September 2005 until July 2009. Mr. Vaasjo is currently the Chair and a director of the General Partner.

Mr. Vaasjo joined EPCOR in 1998 as Executive Vice President and Chief Financial Officer. Mr. Vaasjo led EPCOR's initial public offering of debentures and preferred shares. After joining EPCOR, Mr. Vaasjo was responsible for EPCOR's development and acquisition activity for most of his tenure with EPCOR, including the Genesee 3 project and the UE Waterheater Income Fund spin-off. Before joining EPCOR, Mr. Vaasjo spent 19 years with the Enbridge Group of Companies. At Enbridge, Mr. Vaasjo led or played a substantial role in the Consumers Gas acquisition, development of the Alliance and Vector Natural Gas Pipelines and the initial public offering of the Lakehead Pipeline Partners LP among other initiatives.

Mr. Vaasjo holds a Master of Business Administration from the University of Alberta where he also received his undergraduate degree. Mr. Vaasjo is a Fellow of the Society of Management Accountants. Mr. Vaasjo also attended the University of Western Ontario Executive Program. In addition, he is a past Chairman of the board of the United Way, Alberta Capital Region, and a member of the Financial Executives Institute of Canada and is a board member for the Alberta Shock Trauma Air Rescue Society.

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

#### *Graham L. Brown*

Mr. Brown was Senior Vice President, Operations of Capital Power Corporation until his retirement on January 4, 2011. Prior to becoming Senior Vice President, Operations of Capital Power Corporation, Mr. Brown joined what is now CP Regional Power Services Limited Partnership as Director of Eastern Operations in 2005 where his chief role included maximizing plant revenues while improving efficiency, safety and environmental compliance. In November 2006, the Partnership purchased Ventures where his experience in managing hydro, solid fuel, natural gas turbine and renewable energy plants proved highly valuable as he assumed the role of Vice President of Operations for Ventures in January 2007.

Mr. Brown began his career at GEC Gas Turbines Ltd. in Leicester, England in 1975 where he spent seven years building, operating and maintaining natural gas turbine power plants and gas pumping stations in the United Kingdom, Europe and the U.S. In 1982, he immigrated to Canada to join Ontario Hydro (subsequently Ontario Power Generation) and was involved in power operations for the next 23 years.

Mr. Brown is from Manchester, England, and is a graduate of Mechanical Engineering from Leicester Polytechnic, Leicester, England as well as a Certified Professional Engineer since 1988 and a member of the Institute of Corporate Directors since 2009.

#### *Brian A. Felesky*

Mr. Felesky is counsel at the law firm of Felesky Flynn LLP in Calgary, Alberta. He is a senior tax practitioner involved in structuring company reorganizations, acquisitions and spin-offs. He is also a member of the board of Precision Drilling Corporation, RS Technologies Inc., Cequence Energy Ltd. and various private corporations. He is a member of the audit committee of RS Technologies Inc. and chair of the audit committee of Cequence Energy Ltd. Mr. Felesky is actively involved in not-for-profit and charitable organizations. He is the co-chair of Homefront on Domestic Violence, a member of the senate of Athol Murray College of Notre Dame, board member of the Calgary Stampede Foundation, a Council member of the Alberta Order of Excellence, and a member of the Calgary Executive of the Institute of Corporate Directors.

Mr. Felesky is a Queen's Counsel and Member of the Order of Canada. He is a recipient of an honorary doctorate of Laws from the University of Calgary. He is a graduate of and holds the ICD.D certification from the Institute of Corporate Directors (ICD).

#### *Allen R. Hagerman, FCA*

Mr. Hagerman is currently Executive Vice President of Canadian Oil Sands Limited and prior to 2007 was Chief Financial Officer of Canadian Oil Sands Limited. Mr. Hagerman is a Director of Precision Drilling Corporation and the Calgary Exhibition and Stampede.

Mr. Hagerman received a Bachelor of Commerce degree from the University of Alberta, a Masters of Business Administration from the Harvard Business School and is a chartered accountant with a corporate finance qualification with the Canadian Institute of Chartered Accountants. He is a graduate of and holds the ICD.D certification from the ICD.

Mr. Hagerman is a Fellow of the Alberta Institute of Chartered Accountants, past Chair of the Alberta Children's Hospital Foundation and past President of the Financial Executives Institute, Calgary Chapter.

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

#### *Francois L. Poirier*

Mr. Poirier had a 20 year career in management consulting and financial services, most recently as Managing Director and Group Head of Power Investment Banking for JP Morgan Securities in New York. He has advised on mergers and acquisitions, for both buyers and sellers; led leveraged buyouts; structured project financing; and issued common stock and convertible securities for companies in the energy sector. Mr. Poirier has also lectured on private equity at the Schulich School of Business, York University.

Mr. Poirier received a Bachelor of Operations Research from the University of Ottawa and a Masters of Business Administration from the Schulich School of Business at York University.

Mr. Poirier currently serves as Vice Chairman on the board of one not-for-profit entity, The North York Harvest Food Bank. He is a graduate of and holds the ICD.D certification from the ICD.

#### *Rodney D. Wimer*

Mr. Wimer is Managing Director of Mazama Capital Partners LLC (a private investment firm) and a limited partner of Fulcrum Power Services L.P (energy) since October 2002. Mr. Wimer was general partner of Fulcrum Energy LLC from October 2002 to September 2009 and director from October 2002 to December 2010. Prior thereto, he was President of the Commercial Power Division of Dynegy, Inc. from March 2001 until his retirement in January 2002.

Mr. Wimer is a graduate of the Stanford University Executive Program and attended the Advanced Management Program of Phillips Petroleum Company. He has an undergraduate degree in Earth Sciences from Eastern Washington University and completed post-graduate work in geography and earth sciences at Portland State University.

#### *James Oosterbaan*

Mr. Oosterbaan was Senior Vice President, Commercial Services of Capital Power Corporation until January 4, 2011, when he was appointed Senior Vice President, Operations & Commodity Portfolio Management of Capital Power Corporation. Prior thereto, he was Senior Vice President at EPCOR, responsible for the competitive power and water businesses in Alberta. Mr. Oosterbaan joined EPCOR in 2001. His areas of focus were business development, major project construction, commodity trading, water and power plant operations, and sales to end use customers. During his time at EPCOR, Mr. Oosterbaan was successful in guiding and further developing EPCOR's competitive water and power and commodity trading businesses through the deregulation of the Alberta electricity markets.

Prior to joining EPCOR, Mr. Oosterbaan was a consultant in the energy and information technology sectors, and employed with the Westcoast Energy Group of Companies. While at Westcoast, he had management responsibilities in the areas of marketing, business development, forecasting, natural gas supply portfolio management, and regulatory affairs.

Mr. Oosterbaan is a graduate of Stanford University's Executive Management Program. He holds a Master of Business Administration from the Ivey School of Business and a Bachelor of Business Administration (Honours) from Wilfred Laurier University.

#### *Stuart A. Lee*

Mr. Lee is Senior Vice President and Chief Financial Officer of Capital Power Corporation. He has led several equity and debt offerings to finance the Partnership's acquisitions. He joined EPCOR in 2003 as Vice President and Corporate Controller.

Mr. Lee is a chartered accountant who articulated with one of the large international accounting firms. Prior to joining EPCOR, Mr. Lee worked for five years for Celanese Canada Inc., a large

Table of Contents

petrochemical manufacturer, as Vice-President and Controller where he was responsible for the reporting, treasury, tax, IT and supply chain functions for the Canadian operations. Mr. Lee has more than 23 years of relevant financial and reporting experience.

- 
- (1) Stuart Lee, who is President of the Partnership, is included in the Directors table. Brian Vaasjo and Graham Brown are also included in the Directors table. Each of Messrs. Vaasjo, Lee and Brown performs a role as or similar to an executive officer of the Partnership.
  - (2) Represents as of December 31, 2010, the number of Units of the Partnership beneficially owned, or controlled or directed, directly or indirectly, by such persons.
  - (3) Mr. Hermanson performs a role as or similar to an executive officer of the Partnership.

As at December 31, 2010, the directors of the General Partner who are not also executive officers of the General Partner, as a group, beneficially owned, or controlled or directed, directly or indirectly, 27,373 Units (\$17.95 per Unit as at the close of trading on December 31, 2010 for a value of \$491,345) which is less than 1% of the issued and outstanding Units.

As at December 31, 2010, the directors and executive officers of the General Partner, as a group, beneficially owned, or controlled or directed, directly or indirectly, 37,335 Units (\$17.95 per unit as at the close of trading on December 31, 2010 for a value of \$670,163) which is less than 1% of the issued and outstanding Units.

**Committees of the Board**

**Board of Directors / Governance Committee / Audit Committee / Independent Directors Committee**

The governance of the Partnership is the responsibility of the Board and the rights, authority and limitations on the General Partner are described in the Partnership Agreement.

The Partnership is structured such that the role of the Chair and President of the General Partner are split between two individuals. The Chair, who is the President and Chief Executive Officer of Capital Power, has a casting vote or second vote in case of a tie vote at any meeting of the Board. In addition, the Board has appointed a Lead Director who is an independent director.

The Chair's prime responsibility is seeking to ensure the effective operation of the Board of Directors by managing Board and Unitholder meetings, monitoring and overseeing the strategic agenda of the Partnership, and providing leadership and advice respecting the General Partner's business planning processes and the Partnership's corporate governance.

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

The President of the General Partner provides day-to-day leadership and management to the General Partner and represents Management on the Board. The President's primary duties and objectives include: leading the General Partner; managing the Partnership's relationship with limited partners and the investment community; formulating strategies and plans and presenting them to the Board for approval; seeking to ensure that information management processes support the early identification of issues appropriately addressed by the Board; keeping the Board fully informed of the Partnership's progress toward achievement of its goals, objectives and policies in a timely and candid manner by managing the supporting material provided to the Board; leading the delivery of all functions provided for in the Management and Operations Agreements; leading the search for accretive

Schedule I-48

---

Table of Contents

transactions for presentation to the Board; and creating and maintaining the appropriate "tone at the top" to ensure that a "culture of integrity" applies to Capital Power's performance of functions pursuant to the Management and Operations Agreements.

The primary responsibilities of the Board's Lead Director are to seek to ensure that appropriate structures are in place so the Board can function independently of management, to lead the process by which the Independent Directors Committee seeks to ensure that the Board represents and protects the interests of all Unitholders, and to act as Chair of the Board when non-independent directors (including the Chair) are conflicted, such as when the Board is discussing or determining issues related to the Manager's compensation and when non-arm's length issues are negotiated between Capital Power and the Partnership. The Lead Director is required to be independent as such term is defined under applicable Canadian securities law. The Lead Director position is filled by Mr. Allen Hagerman.

The Board currently has four committees and one sub-committee:

The Corporate Governance Committee (with a sub-committee comprising a Nominating Committee when required);

The Independent Directors Committee;

The Audit Committee;

The Special Committee; and

The Strategic Review Sub-Committee.

There is no executive committee or compensation committee (see "Compensation Discussion & Analysis").

Written position descriptions for the Chairman of the Board, the Chair of each Board committee, the Lead Director and President of the General Partner, are contained in the various Terms of Reference attached to this AIF.

The Terms of Reference for the Board of the General Partner are attached as Schedule B to this AIF.

### **Corporate Governance Committee**

The Corporate Governance Committee (GC) is currently composed of Allen Hagerman, Brian Vaasjo and Rod Wimer (Chair). Both Mr. Hagerman and Mr. Wimer are independent as such term is defined under applicable Canadian securities law and mandated by the GC's terms of reference. See "Board of Directors and Executive Officers".

The GC operates under the Corporate Governance Committee Terms of Reference attached as Schedule C to this AIF.

In general, the GC is tasked to assist the Board in developing the Partnership's approach to corporate governance issues, including, the response to applicable corporate governance guidelines and standards set by regulators or stock exchanges on which the Partnership's Units are listed. The GC is also responsible for assessing the effectiveness of the Partnership's system of corporate governance and, where necessary, making recommendations for improvement of the Partnership's system of corporate governance to ensure high standards of governance are achieved and maintained. The mandate of the GC includes: (i) monitoring and assessing the relationship between the Board and management, defining limits of management's responsibilities and seeking to ensure that there is a process in place to enable the Board to function independently of management; (ii) developing terms of reference or position descriptions for the Board, the Lead Director, President and any senior officers of the Partnership where necessary; (iii) reviewing potential conflicts for directors; (iv) seeking to ensure the

Table of Contents

ongoing adequacy, integrity and implementation of the strategic planning process; (v) reviewing and recommending to the Board rules and guidelines governing and regulating the affairs of the Board such as indemnification and compensation of directors; (vi) reviewing with the Manager its relevant succession plans, training programs, compensation policies and officer appointments; (vii) preparing and reviewing results and reporting to the Board on an annual assessment of Board and committee performance, including an evaluation of the competencies and skills that the Board as a whole should possess, and the basis of the evaluation and making recommendations to improve Board and Committee effectiveness; and (viii) reviewing periodically the performance and contribution of individual Board members.

In addition, when required, the GC forms a sub-committee, composed entirely of Independent Directors, to serve as a Nominating Committee for the Board to assess potential candidates new for appointment as Independent Directors and make recommendations in respect thereof to the Board. Potential Independent Director candidates are assessed with a view to the critical skills they can bring to the Board and their alignment to the strategic plan of the Partnership. The GC, and ultimately the Board, undertakes a regular review of the current skills set of the Board as a whole to identify potential areas where a gap may exist and to anticipate new skills that may be required as the Partnership pursues its strategy. Subsequent to the Nominating Committee's recommendation of potential new candidates, the Board approves the slate of nominees for election which are presented for election annually by the shareholder of the General Partner.

The GC is also tasked with the preparation of and review of results and subsequent reporting to the Board on the annual assessment of Board and committee performance, including an evaluation of the competencies and skills that the Board as a whole should possess, and the basis of the evaluation and including a periodic review of the performance and contribution of individual Board members. To assist in this review, questionnaires relating to Board and committee assessments are provided to each director for completion and these are reviewed by the GC. The GC uses the information in this evaluation to report to the Board.

The GC also makes recommendations to improve Board and committee effectiveness. The GC undertakes a Board (including a peer review of individual members) and committee evaluation on an annual basis.

**Audit Committee**

The Audit Committee (AC) is currently composed of Brian Felesky (Chair), Allen Hagerman (Vice Chair) and Francois Poirier. The Board has determined that all members of the AC are independent and financially literate as such terms are defined under applicable Canadian securities law and mandated under the AC's terms of reference. See "Board of Directors and Executive Officers". The Board based these determinations regarding financial literacy on the education and breadth and depth of experience of each AC member. See "Board of Directors Directors" for a description of each member's relevant education and experience.

The AC is directly responsible for overseeing the work of the external auditor engaged for the purpose of reviewing or attesting services, including the resolution of disagreements between management and the external auditor regarding financial reporting.

The AC is responsible for assisting the Board in overseeing the integrity of the Partnership's financial statements, compliance with legal and regulatory requirements and ensuring the independence and performance of the Partnership's internal audit function and external auditors. The AC's Terms of Reference, are attached as Schedule D to this AIF.

Table of Contents

**Independent Directors Committee**

The Independent Directors Committee (IDC) is currently composed of Allen Hagerman (Chair/Lead Director), Brian Felesky, Francois Poirier and Rod Wimer. All IDC members are independent as such term is defined under applicable Canadian securities law and mandated under the IDC's terms of reference. See "Board of Directors and Executive Officers".

The IDC operates under the Independent Directors Committee Terms of Reference, attached as Schedule E to this AIF. The IDC is responsible for carrying out the obligations assigned to it by the Partnership Agreement, including reviewing, and, if thought appropriate, recommending for approval by the Board, all material transactions or agreements between the Partnership and Capital Power and its associates or affiliates.

The IDC meets whenever deemed appropriate and necessary by the Independent Directors, without the presence of non-independent directors or management and generally at the end of all regular meetings of the Board. The IDC met 10 times in 2010 in connection with these regular meetings.

Apart from their respective roles as directors of the General Partner, a description of the education and experience of Allen Hagerman (Chair/Lead Director), Brian Felesky, Francois Poirier and Rod Wimer, the members of the Independent Directors Committee, that is relevant to the performance of their responsibilities as independent directors and members of the Partnership's committees is found under "Board of Directors Directors".

**Other Committees**

The Partnership established two additional committees during 2010, the Special Committee and the Strategic Review Sub-Committee.

The Special Committee of the Independent Directors of the Partnership, consisting of Allen Hagerman, Brian Felesky, Francois Poirier (as chair) and Rod Wimer, was formed to review and consider on behalf of the Partnership potential alternatives for the restructuring of the relationship between Capital Power and the Partnership. The Special Committee met 20 times in 2010.

The Strategic Review Sub-Committee, consisting of Independent Director Francois Poirier and Stuart Lee, President of the General Partner and a senior officer of Capital Power, was created to act in an administrative capacity to the Board of Directors of the General Partner in the context of its strategic review process, and for that purpose, to lead the investigation of available strategic alternatives in the best interests of the Partnership.

The Special Committee and the Strategic Review Sub-Committee both have written Terms of Reference, which due to the ongoing, sensitive nature of the strategic review have not been included as schedules.

**Director Orientation and Continuing Education**

All Directors are provided with an orientation to the duties and obligations of directors and the business of the Partnership. Opportunities for meetings and discussions with senior management and other directors are also available and the details of the orientation of each new director are tailored to that Director's individual needs and areas of interest. In addition, a Corporate Governance Reference Manual (the CGR Manual) is provided to new Directors which helps familiarize new Directors with the Partnership (which is also updated, as appropriate and as necessary, for all existing Directors). The current CGR Manual covers a wide range of topics including: background information on the Partnership; information on Board structure; certain details on orientation and education; and key governance documents, policies, guidelines, codes and procedures. All Directors have participated with

Table of Contents

senior management at offsite strategic planning sessions at which all significant aspects of the Partnership's operations, opportunities and strategies are discussed. In addition the Board and the AC have attended a training session on International Financial Reporting Standards (IFRS) and the AC receives regular updates on the IFRS conversion projects.

In 2010, as part of their continuing education, the Directors were given an in-depth presentation on IFRS on November 22, 2010.

Management also periodically provides Directors with articles, papers and other materials relating to or addressing issues relevant to the Partnership, its business, and the various regulatory and legal regimes within which it operates, including on corporate governance matters. Directors are responsible for reviewing the materials provided and for generally keeping their knowledge of issues relevant to the Partnership current through the media and other public sources of information. The Partnership reimburses Directors for fifty percent of the cost of attending pre-approved educational conferences, industry symposia and other seminars (including direct out-of-pocket expenses related to travel) when in the Board's opinion, the Partnership will benefit from the Director's attendance at the seminar.

The Partnership provides Directors with the opportunity to tour each of the various types of facilities and plants owned by the Partnership on a periodic basis.

**Ethics Policy**

On April 27, 2010, the Partnership adopted a new Ethics Policy. Certification by all employees on the Ethics Policy was obtained in 2010. A copy of the Partnership's Ethics Policy can be obtained from the Partnership's website at [www.capitalpowerincome.ca](http://www.capitalpowerincome.ca) or under the Partnership's SEDAR profile at [www.sedar.com](http://www.sedar.com). The Ethics Policy contemplates certification of all new personnel and periodic certification of existing personnel of the Manager and of the Independent Directors. The Manager has appointed an employee who is responsible for monitoring compliance with the Ethics Policy. Members of management are instructed to monitor compliance with the Ethics Policy and to report any compliance issues. The AC is mandated, to the extent it deems necessary or appropriate, to review and recommend to the Board for approval policy changes and program initiatives with respect to the implementation of the Ethics Policy and to obtain reports and report to the Board on the status and adequacy of the Partnership's efforts in seeking to ensure its businesses are conducted and its facilities are operated in an ethical, legally compliant and socially responsible manner, in accordance with the Ethics Policy.

**External Auditor Service Fees**

The table below sets out amounts billed by KPMG LLP in its capacity as the Partnership's external auditor. KPMG LLP did not provide or bill for any tax services or other services outside its audit and audit related services in 2010 and 2009.

Fee Category (\$000's)	2010	2009(1)	Description of Fee Category
Audit Fees	\$ 826	\$ 694	Aggregate fees billed for audit services.
Audit Related Fees(1)	\$ Nil	\$ 57	Aggregate Partnership's fees billed by external auditor for the assurance and related services that are reasonably related to performance of the audit or review of the Partnership's financial statements and are not reported as Audit Fees.
All Other Fees(2)	\$ Nil	\$ Nil	
<b>Total</b>	<b>\$ 826</b>	<b>\$ 751</b>	

(1) 2009 figures have been restated to reflect fees on an accrual basis. Previously they were disclosed on a cash basis.

Table of Contents

- (2) Audit Related Fees are for services provided on financial instruments and due diligence comfort provided in respect of the Partnership's annual and certain interim management's discussion and analysis in connection with a prospectus filing.
- (3) All Other Fees are for services provided in respect of internal control over financial reporting and disclosure controls and procedures advisory matters.

**Pre-Approval Policies and Procedures**

The AC's Terms of Reference provides that all non-audit services to be provided by the external auditor for the Partnership or its subsidiaries require pre-approval by the AC. The AC can delegate this pre-approval function to one or more members of the AC, provided that any exercise of the delegated pre-approval function must be reported to the AC at the next committee meeting following the pre-approval.

**COMPENSATION DISCUSSION AND ANALYSIS**

The Partnership does not directly employ its executive officers. The General Partner has contracted for management and administrative services of the Partnership to be provided by the Manager. Accordingly, all of the executive officers of the General Partner serve in that capacity as nominees of the Manager in accordance with the Management and Operations Agreements and are therefore not compensated directly by the Partnership. The Manager, or its affiliates, employs substantially all of the staff carrying out the duties for the Partnership, including the Partnership's executive officers, in return for the payment of a fixed fee by the Partnership (the details of which are more particularly described herein under "Management of the Partnership" and "Interests of Management and Others in Material Transactions"). In addition, the Partnership pays incentive and other fees to the Manager that are based on the performance of the Partnership. See "Management of the Partnership" and "Interests of Management and Others in Material Transactions". The compensation paid to the General Partner's executive officers has no direct link to the fees paid to the Manager.

The performance of the Partnership is an important element of Capital Power's overall corporate financial performance. Approximately 30% of the Partnership's Funds From Operations (FFO) is included in determining Capital Power's overall corporate financial performance for purposes of the performance measures applied under Capital Power's corporate short-term incentive plan (STIP) for the period December 31, 2010. The Total Recordable Injury Frequency Rate performance measure includes all reportable incidents and exposure hours of the 18 facilities that Capital Power employees operate on behalf of the Partnership.

The General Partner is a direct wholly-owned subsidiary of CPI Investments. EPCOR owns all of the 51 voting, non-participating shares of CPI Investments and Capital Power owns all of the 49 voting, participating shares of CPI Investments. The Manager is controlled by Capital Power. Consequently, decisions relating to the compensation of the Partnership's executive officers are based on their respective roles, responsibilities and services within Capital Power as a whole and on Capital Power's overall performance relative to goals and targets established for Capital Power as a whole. Prior to July 2009, decisions relating to the compensation of the Partnership's executive officers were similarly based on their respective roles, responsibilities and services within EPCOR as a whole and on EPCOR's overall performance relative to goals and targets established for EPCOR as a whole.

Executive compensation disclosure in this AIF is provided in respect of the Named Executive Officers (NEOs) of the Partnership (as such term is defined in Form 51-102F6 Statement of Executive Compensation of the Canadian Securities Administrators, each of whom is employed and compensated by Capital Power). In accordance with Form 51-102F6, the NEOs include the President of the General Partner (as Chief Executive Officer), the Chief Financial Officer of the General Partner and each of the three most highly compensated other executive officers of the General Partner, or individuals acting

Table of Contents

in a similar capacity. The three most highly compensated executive officers of the General Partner, other than the President and the Chief Financial Officer, have been determined by multiplying the amount of each of Capital Power's executive officer's total compensation from Capital Power by the proportion of their respective time generally spent on matters pertaining directly to the Partnership. On this basis, the NEOs of the Partnership for 2010 were:

Stuart Anthony Lee, President of the General Partner;

Anthony Scozzafava, Chief Financial Officer of the General Partner;

Brian Tellef Vaasjo, Chairman of the General Partner;

Graham Lloyd Brown, Senior Vice President, Operations of Capital Power; and

David Hermanson, Vice President, US Operations of Capital Power.

The NEOs' remuneration reported in the Summary Compensation Table and other tabular disclosure in this AIF represents the entire compensation paid to the Partnership's NEOs by Capital Power, (all compensation including salary, short-term and long-term incentives, pension and other benefits) based on their respective roles, responsibilities and services within Capital Power, as applicable, as a whole.

**Capital Power Corporate Governance, Compensation & Nominating Committee**

*Composition*

The Corporate Governance, Compensation & Nominating Committee (the Capital Power CGC&N Committee) of the Capital Power Board of Directors approves, or recommends for approval, all remuneration to be awarded through Capital Power's executive compensation program to the Partnership's NEOs who are executives of Capital Power, including annual base salary, short-term and long-term incentive and executive allowances. Remuneration for the Partnership's NEOs who are not executives of Capital Power is determined under Capital Power's management compensation programs over which the Capital Power CGC&N Committee has oversight.

The Capital Power CGC&N Committee is a committee of the Capital Power Board of Directors, composed of five members, each of whom, other than Mr. Cruickshank, is independent from Capital Power within the meaning of applicable Canadian securities laws. The members of the Capital Power CGC&N Committee are: Albrecht W.A. Bellstedt (Chair), Richard Cruickshank, Brian F. MacNeill, Robert Lawrence Phillips and Janice Rennie. As Chair of the Board, Don Lowry also attends Capital Power CGC&N Committee meetings in an ex-officio, non-voting capacity.

*Mandate*

With respect to executive compensation, the Capital Power CGC&N Committee assists the Capital Power Board of Directors in fulfilling its responsibilities relating to the compensation, evaluation and succession of directors and employees of Capital Power, including the Partnership's NEOs and provides oversight of the Company's corporate governance and identifying conditions for Board nomination. The role of the Capital Power CGC&N Committee with respect to compensation is to:

Oversee, review and recommend for approval by the Capital Power Board of Directors, executive compensation policies including all forms of compensation for each member of the Capital Power's executive team, including the Partnership's NEOs;

Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

Oversee the general compensation policies and plans for Capital Power; and

Review and approve the annual performance measures for incentive plans.

Schedule I-54

---

## Edgar Filing: ATLANTIC POWER CORP - Form PREM14A

### Table of Contents

The Capital Power CGC&N Committee has written Terms of Reference that establish its purpose, responsibilities, and membership.

The Capital Power CGC&N Committee follows an objective process for determining compensation by holding "in camera" sessions at the end of each committee meeting, without management present.

In November of 2010, the Capital Power CGC&N Committee engaged Hugessen Consulting to provide them with independent advice in respect of Capital Power directors' and executives' compensation and to advise the Capital Power CGC&N Committee, on a go-forward basis, on levels of compensation in the competitive market in which Capital Power operates and on other compensation matters.

In its role as independent compensation consultant to the Capital Power CGC&N Committee, Hugessen Consulting will:

Keep the Committee members abreast of issues arising in the area of executive compensation;

Provide comment on Capital Power compensation policy & strategy (including peer group utilized, pay mix, and positioning); and

Represent the Capital Power Board of Directors/CGC&N Committee in interactions with major institutional shareholders regarding executive compensation issues and advise the Capital Power Board of Directors / CGC&N Committee on institutional shareholder issues, their associations and proxy advisors.

The Partnership does not engage Hugessen Consulting as an executive compensation consultant and therefore no amounts were paid by the Partnership to Hugessen Consulting for executive compensation advice.

Prior to that, Towers Watson acted as advisor to both Management and the Capital Power CGC&N Committee. The Partnership does not engage Towers Watson as an executive compensation consultant and therefore no amounts were paid by the Partnership to Towers Watson for executive compensation advice. Towers Watson continues to act as Management's consultant and will provide consulting advice and administrative support to Capital Power on compensation, pension and benefits matters.

### **Compensation Approval Process**

In accordance with its Terms of Reference the Capital Power CGC&N Committee carries out its responsibilities on an on-going basis throughout the year and has established a review process which includes the following matters:

An annual review of compensation strategy and design, to ensure that they continue to meet the needs of the business of Capital Power. The Capital Power CGC&N Committee also reviews on an annual basis the total compensation of Capital Power executives including the Partnership's NEOs against market compensation data and recommends the approval of any changes to compensation levels to the Capital Power Board of Directors; In instances where the NEO is not also an executive of Capital Power, changes to compensation levels are subject to Capital Power's annual salary review process and approved by Capital Power's Chief Executive Officer;

The Capital Power CGC&N Committee approves the overall salary budget of Capital Power for the year, and the annual incentive-plan design;

The Capital Power CGC&N Committee presented for informational purposes with the Chief Executive Officer of Capital Power's evaluation of the individual performance of the other executives of Capital Power including the Partnership's NEOs;

Table of Contents

The Capital Power CGC&N Committee reviews and recommends to the Capital Power Board of Directors for approval the payout amounts for executives of Capital Power (including the Partnership's NEOs) under the Capital Power corporate short-term incentive plan and reviews and approves the aggregate payout amount of the Capital Power corporate short-term incentive plan to all employees of Capital Power; and

The Capital Power CGC&N Committee reviews and approves the long-term incentive measures in place to ensure that they reinforce the key priorities of the business of Capital Power.

**Compensation Philosophy and Objectives**

The Partnership's NEOs participate in the same direct compensation (salary, short and long term incentives), pension and benefit programs of Capital Power as other similarly positioned Capital Power Executives and management. The compensation of Capital Power's executives including the Partnership's NEOs, is influenced by a number of factors, including business strategy, organizational performance and governance. Capital Power's compensation philosophy aims to achieve the following objectives:

Attract and retain high performing employees through market competitive compensation and a performance culture that rewards superior performance;

Link compensation with Capital Power's business strategy and objectives; and

Align total compensation with the interests of shareholders.

These objectives have guided the development of a compensation model that includes base salary, short-term and long-term incentives. The compensation programs are designed to be market competitive with organizations in the Canadian energy and utility industries that are of a similar size and scope of operations to those of Capital Power. For executives, the primary focus is on performance related compensation (short-term and long-term incentives). For the Partnership's NEOs that are not executives of Capital Power, base salary may be more important. Capital Power's short-term incentive plan (STIP) is designed to reward executives for achievement of corporate and individual goals that have a one-year time horizon. Capital Power's long-term incentive plan (LTIP) is designed to align longer-term executive and stakeholder interests by focusing executives on Capital Power's longer-term strategic objectives and sustained value creation.

In March 2011, the Capital Power CGC&N Committee approved a revised compensation philosophy, for executive positions where base salaries and short-term and long-term incentive opportunities will be targeted at the median of the market. The aggregate of base salary, short-term and long-term incentives will produce median compensation in the event of target performance of Capital Power and/or the individual, above median compensation in the event of superior performance of Capital Power and/or individual and below median compensation if performance falls short of expectations. This approach will better align Capital Power's executive compensation practices with those of their comparator companies. The performance of the Partnership is an important element of Capital Power's overall financial performance.

Prior to this, Capital Power was targeting base salaries at below the median and short and long-term incentive opportunities at above the median of this market in order to encourage an entrepreneurial spirit on start-up.

*Comparator Group*

For 2010 Capital Power's executive comparator group consisted of companies that met the following criteria:

Autonomous, publicly-traded Canadian companies;

Table of Contents

Primarily Alberta-based companies;

Classified in the Energy and Utilities industries; and

Revenue between \$1 billion and \$30 billion.

As the 2010 comparator group was comprised of companies within a wide revenue range and included significantly larger organizations the data used to assess the competitiveness of executive compensation was size-adjusted to Capital Power's revenue using single-regression analysis.

In 2010, the executive compensation comparator group comprised the following companies:

ATCO Ltd.	Nexen Inc.
Canadian Natural Resources Ltd.	Spectra Energy Corp.
Emera Inc.	Suncor Energy Inc.
Enbridge Inc.	Talisman Energy Inc.
Ensign Energy Services Inc.	TransAlta Corp.
Fortis Inc.	TransCanada Corp.
Husky Energy Inc.	

For 2011 the comparator group selection criteria will be refined by narrowing the revenue scope to companies with revenues between \$750 million and \$10 billion. Raw percentile statistics for compensation data will be used, as opposed to regressed market data. Similar compensation levels are observed when market data from the 2010 comparator group is regressed to the market median revenue of the 2011 comparator group. Further refinements will be considered for 2012.

For 2011 the executive compensation comparator group will comprise the following companies, with which Capital Power competes for talent and which the Capital Power CGC&N Committee believes to be an appropriate comparator group:

ATCO Ltd.	Pengrowth Energy Corp.
ARC Resources Ltd.	Penn West Energy Corp.
Emera Inc.	ShawCor Ltd.
Fortis Inc.	Talisman Energy Inc.
Nexen Inc.	TransAlta Corp.
Pembina Pipeline Corp.	TransCanada Corp.

Third party compensation surveys are used to compare base salary, short-term incentive and long-term incentive levels of Capital Power's executives to those of its comparators. Based on the analysis, compensation recommendations are formulated and brought forth to the Capital Power CGC&N Committee.

A broader comparator group is used to benchmark senior management and professional positions.

It should be noted that since the Partnership's NEOs' compensation is set based on their roles and responsibilities within Capital Power, the comparator group companies represent peers of Capital Power and are not chosen based on a comparison to the Partnership itself.

Table of Contents**Total Compensation Elements and Objectives**

The following table outlines the key elements of Capital Power's compensation program, including the objective and rationale for each compensation element and what each compensation element is intended to reward.

<b>Compensation Element</b>	<b>Objective and Rationale</b>	<b>What the Element Rewards</b>
Base salary	To provide a competitive base level of fixed compensation based on responsibilities, scope and market data.	Experience, expertise, knowledge and scope of responsibilities.
Short-term incentive program	To provide a component of compensation that is conditional on performance and rewards the achievement of annual targets that support Capital Power's strategic direction.	Achievement of short-term company objectives and/or individual performance goals.
Long-term incentive program	To provide a component of compensation that is conditional on sustained mid-term to long-term performance and aligns the interests of the executive officer with the interests of the shareholder through holdings of significant equity interests and to aid in long-term retention of executive officers.	Achievement of mid-term to long-term performance results resulting in share price increases.
Other compensation arrangements (and perquisites)	To provide a competitive total compensation package.	Scope of responsibilities.
Pension and other retirement benefits	To provide a competitive total compensation package that includes market competitive health benefits and retirement savings vehicles. Facilitates long-term financial security for executive officers and aids in retention.	Tenure.

**Overview of Compensation Mix for NEOs in 2010**

The table below outlines the mix of base salary and compensation-at-risk for each of the Partnership's NEOs. The percentages shown for short and long-term incentive compensation assume achievement of target Capital Power performance levels. While variable compensation represents the greatest proportion of total compensation for several of the partnership's NEOs, the actual mix varies

Table of Contents

according to the NEO's role and level in Capital Power, their relative ability to influence short and long-term business results of Capital Power and market practices for comparable positions.

<b>Executive</b>	<b>Base Salary</b>	<b>Short-Term Incentive Compensation</b>	<b>Long-Term Incentive Compensation</b>
Stuart Anthony Lee	45%	23%	32%
Anthony Scozzafava	66%	17%	17%
Brian Tellef Vaasjo	33%	25%	42%
Graham Lloyd Brown	47%	24%	29%
David Hermanson	65%	19%	16%

**Base Salary**

The Partnership does not have an annual base salary program for executive officers. The Partnership's NEOs are compensated under the Capital Power base salary program. Salaries are determined based on the responsibilities of each position, the executive's experience, expertise and knowledge when compared with market, individual performance and internal comparability and will generally align at a point below the median of the comparator group for executive positions with similar responsibilities to those of Capital Power. Base salaries for non-executive positions with Capital Power are targeted at the median of the comparator group for positions with similar responsibilities to those of Capital Power.

**Short-Term Incentive Compensation**

The Partnership does not have a short-term incentive program (STIP) for executive officers. The Partnership's NEOs are compensated under Capital Power's corporate STIP.

*The Corporate Short-Term Incentive Plan*

Capital Power believes that the corporate STIP should provide competitive bonuses that reflect corporate and individual performance. Corporate measures focus on corporate results and create joint accountability among the executives. Individ
