Solicitation of Proxies

We pay the cost of printing and mailing all proxy and voting materials and all solicitation expenses associated with this proxy statement. The Board of Directors of Ciber is soliciting the proxy accompanying this proxy statement. Proxies may be solicited by Ciber's officers, directors, and employees, none of whom will receive any additional compensation for such activity. In addition, MacKenzie Partners, Inc. may solicit proxies on our behalf. We anticipate that the cost of MacKenzie's services will not exceed \$15,000. These solicitations may be made personally or by telephone, mail, email, or the Internet. We will reimburse brokerage firms, banks, and other fiduciaries for the expense of forwarding solicitation materials to their principals.

your new proxy, but the new proxy must be received by Broadridge before the deadline for mail, telephone, or Internet voting.

Attend the virtual Annual Meeting and submit your vote prior to the close of the polls. Attending the virtual Annual Meeting will not, absent specific instructions from you, revoke or alter your proxy.

Other Matters Related to Voting

Householding. Under a procedure called "householding," we hope to reduce the environmental impact and cost of the proxy process by sending a single copy of this proxy statement and all related materials when multiple shareholders share an address. Any shareholder at such an address may ask to receive a separate copy of this proxy statement and all related materials. If you wish to receive a separate copy, contact us and we will promptly mail a complete set to you: Ciber, Inc., Attention: Corporate Secretary Annual Meeting Document Request, 6363 South Fiddler's Green Circle, Suite 1400, Greenwood Village, Colorado 80111.

If you are receiving multiple copies of our proxy statement or related materials at your address, you may request householding in the future. Registered shareholders may send that request to our transfer agent while beneficial shareholders will need to contact each broker or bank where you hold Ciber common stock.

Quorum. Our bylaws provide that the holders of not less than a majority of the shares of common stock entitled to vote at the Annual Meeting must participate in order to constitute a quorum and conduct business at the Annual Meeting. We count on your participation by proxy or at the Annual Meeting to help us achieve a quorum. So we may verify that we have a quorum in advance of the Annual Meeting, please complete your proxy (by mail or electronically) and return it promptly.

Effect of Abstentions on Quorum. The shares of a shareholder whose proxy card is marked to "abstain" with respect to any proposal will be included in the number of shares present at the Annual Meeting to determine whether a quorum is present.

Brokers. If your shares are held in the name of a bank or broker, voting by mail, telephone or Internet will depend on the processes of the bank or broker, and you should follow the voting instructions on the form you receive from your bank or broker. If you wish to vote the shares you own beneficially at our Annual Meeting, you must first request and obtain a "legal proxy" from your broker or other custodian. If you choose not to provide instructions or a legal proxy, your shares are referred to as "uninstructed shares." Whether your broker or custodian has the discretion to vote these shares on your behalf depends on the ballot item. See the full description of each proposal, below, for a complete description of how uninstructed shares impact the vote on a given proposal.

Online Availability of Information. The proxy statement and 2013 Annual Report on Form 10-K are available at www.ciber.com under "Investor Relations."

PROPOSAL 1
Election of Directors

We ask you to elect three individuals to serve as Class II Directors for the ensuing three-year term to expire in 2017, or until a successor is elected and qualified. The Nominating/Corporate Governance Committee, with the approval of the non-incumbent members of the Board, has nominated the following individuals for re-election as Class II Directors (see "Directors and Executive Officers Class II Directors"):

Name	Age	Director Since
Michael Boustridge	50	2012
Stephen S. Kurtz	63	2007
Kurt J. Lauk	67	2010

If any of the individuals nominated as a Class II Director becomes unavailable or unwilling to serve as a director, persons named in the proxy intend to cast votes for which they hold proxies in favor of the election of such other person as the Board may designate. The Board knows of no reason why any of the individuals nominated as a Class II Director would be unable or unwilling to serve on the Board.

Directors are elected by a plurality of shares of common stock of the Company present in person or by proxy and entitled to vote at the Annual Meeting. Cumulative voting is not permitted. This means that the Directors receiving the highest number of votes will be elected. Brokers and other custodians are not entitled to vote uninstructed shares on this proposal and such shares will not be counted in evaluating the results. Unless otherwise indicated on the proxy card, proxies will be voted FOR the election of all of the Director Nominees.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" ALL NOMINEES

PROPOSAL 2
Advisory Vote to Approve the Compensation of our Named Executive Officers

We believe that it is beneficial to seek the vote of our shareholders on the design and effectiveness of our executive compensation program on an annual basis. Accordingly, we are asking for your non-binding advisory vote to approve the compensation of the Company's named executive officers as disclosed in this proxy statement (which disclosure includes the "Compensation Discussion and Analysis," the compensation tables, and the narrative disclosures that accompany the compensation tables below).

As an advisory vote, this proposal is not binding on the Company or the Board of Directors. However, the Compensation Committee, which is responsible for designing and administering our executive compensation program, values the opinions of our shareholders and considers the outcome of the prior shareholder votes in making compensation decisions. The Compensation Committee, as well as the Board of Directors, intends to continue taking into account the outcome of future shareholder votes in its deliberations on executive compensation matters.

Table of Contents

Approval of this proposal requires the affirmative vote of a majority of the shares of common stock of the Company present in person or by proxy at the Annual Meeting and entitled to vote on the proposal. Brokers and other custodians are not entitled to vote uninstructed shares on this proposal and such shares will not be counted in evaluating the results. Unless otherwise indicated on the proxy card, proxies will be voted FOR approval of the compensation of named executive officers.

**THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR"
ADVISORY APPROVAL OF THE COMPENSATION OF NAMED EXECUTIVE OFFICERS**

PROPOSAL 3

Ratification of Appointment of Independent Registered Public Accounting Firm

The Audit Committee of the Board has appointed Ernst & Young LLP ("E&Y") as our independent registered public accounting firm for the fiscal year ending December 31, 2014. Services provided to Ciber, Inc. and its subsidiaries by E&Y in fiscal year 2013 are described below (*see* "Independent Registered Public Accounting Firm Auditor Fees and Services").

E&Y audited our consolidated financial statements for the fiscal year ended December 31, 2013.

We are asking our shareholders to ratify the selection of E&Y as our independent registered public accounting firm. Although shareholder ratification is not required by our bylaws or otherwise, the Board believes that submitting the selection of E&Y to the shareholders for ratification is advisable as a matter of good corporate practice. If the shareholders fail to ratify the appointment of E&Y, the Audit Committee will consider whether or not to retain E&Y; however, the Audit Committee may select E&Y notwithstanding the failure of the shareholders to ratify this appointment. If the appointment of E&Y is ratified, the Audit Committee in its discretion may select a different independent registered public accounting firm at any time during the year if it determines that such a change would be in the best interest of Ciber and its shareholders.

Representatives of E&Y will be present at the Annual Meeting to respond to appropriate questions and make any statements if they desire to do so.

Approval of this proposal requires the affirmative vote of a majority of the shares of common stock of the Company present in person or by proxy at the Annual Meeting and entitled to vote on the proposal. Brokers and other custodians are entitled to vote uninstructed shares on this proposal and such votes will be counted in evaluating the results. Please contact your broker or other custodian for information on their voting policy with respect to uninstructed shares. Unless otherwise indicated on the proxy card, proxies will be voted FOR the ratification of the appointment of Ernst & Young LLP.

**THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE RATIFICATION OF
THE APPOINTMENT OF ERNST & YOUNG LLP AS THE COMPANY'S INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM FOR THE FISCAL YEAR ENDING DECEMBER 31, 2014**

A director elected to fill a vacancy, including a vacancy created by an increase in the size of the Board, serves for the remainder of the full term of the new directorship or of the class of directors in which the vacancy occurred. If the number of directors is changed, any increase or decrease will be apportioned among the classes so as to maintain the number of directors in each class as nearly equal as possible, but in no case will a decrease in the number of directors shorten the term of any incumbent director.

As we previously announced, on April 11, 2014, we entered into a settlement agreement with Lone Star Value Management, LLC (together with its affiliates, "Lone Star Value") that addressed, among other things, certain proposed changes to our Board composition. Pursuant to the settlement agreement, Mr. McGill resigned from the Board, and the Board appointed Mr. Richard K. Coleman, Jr. as a Class III Director to fill the vacancy created by Mr. McGill's resignation. In addition, the Board has commenced a search to identify an additional director and will use its reasonable efforts, consistent with the Board's fiduciary duties, to increase the size of the Board from nine to ten members and appoint an additional director to the Board no later than September 30, 2014.

Under the terms of the settlement agreement, If Mr. Coleman is unable to serve as a director, resigns as a director or is removed as a director prior to the expiration of his term, then Lone Star Value will have the ability to recommend a substitute person as a director nominee to the Nominating / Corporate Governance Committee of the Board. Also under the terms of settlement agreement, Lone Star Value has agreed to cause all shares of our common stock beneficially owned by it and its affiliates to vote in favor of the election of each of the Board's nominees for election as a director and each other matter presented at our 2014 Annual Meeting of Stockholders in accordance with the recommendation of the Board, and has agreed to observe normal and customary standstill provisions during the period beginning on the date of the settlement agreement until the date that is 30 days prior to the expiration of the Company's advance notice period for the nomination of directors at the 2015 Annual Meeting.

Director Selection Process

We believe that our directors must bring the skill mix and experience necessary to perform the Board of Directors' oversight function effectively. Prospective Board members are identified by a combination of methods, including use of search firms, studying other boards, word-of-mouth in industry circles, inquiries of outside professionals, and recommendations made to us. Although, we do not have a formal policy with regard to the consideration of diversity when considering candidates for director, our Nominating/Corporate Governance Committee looks at the entirety of our Board and seeks to add skills and experience that complement other members of the Board, rather than director nominees who may represent a particular constituency. We value, encourage, and draw upon diverse viewpoints, believing that they add perspective and creativity to our discussion of business issues and challenges. The Committee considers a number of factors including, but not limited to, the following:

- experience in marketing and sales;
- experience as a chief executive, chief operating or chief financial officer;
- knowledge of our industry;
- experience with finance, accounting, internal audit and other financial matters;
- respect for the fiduciary responsibilities of directors to shareholders;
- leadership skills;
- demonstration of sound business judgment;
- global perspective and experience;
- interpersonal effectiveness;
- personal integrity;
- experience with acquisitions; and
- the number of other boards and committees on which a candidate serves.

When the Nominating/Corporate Governance Committee is recruiting Board members to serve on a designated committee, the Committee also takes into account skills and experience specific to that committee. For example, our objective is to recruit Audit Committee members who are financial experts or financially literate.

Director Compensation

Our Board of Directors periodically reviews and establishes the compensation of our non-employee directors based on recommendations from the Compensation Committee. Part 5 Corporate Governance Practices

Director Independence

Eight of our nine Directors are independent within the meaning of the listing standards of the New York Stock Exchange ("NYSE") and our Corporate Governance Principles (provided on our website at www.ciber.com under "Corporate Governance"). After reviewing such standards, principles and additional relevant facts and circumstances, including any related party transactions, the Board has determined that each of the following directors is independent and has or had no material relationship with the Company that would impair his independence: Messrs. Boustridge, Coleman, Heitz, Jacobs, Kurtz, Spira and Stevenson and Dr. Lauk.

Board Leadership Structure

The positions of Chief Executive Officer and Chairman of the Board of Directors are separated at Ciber. In our Board's opinion, such separation allows for the objective evaluation of our management's performance and strong, independent oversight by the Board.

Role of the Board in Risk Oversight

While our entire Board is accountable for and involved in risk oversight, our directors have elected to assign primary responsibility for risk oversight to the Audit Committee. The Audit Committee periodically reviews the risk management processes designed and implemented by the Company and receives reports from Company management to ensure that their approach is consistent with our corporate strategies and that there is an appropriate culture of risk awareness and assessment in decision making. At the same time, the Audit Committee recognizes that other Board committees, such as our Compensation Committee, have expertise in areas of risk oversight specific to their duties and responsibilities and therefore the Audit Committee delegates specific aspects of risk oversight to the other committees. Each committee periodically reports key risk oversight findings back to the full Board, so that the risk oversight activities are coordinated and consistent with our overall risk management processes. The full Board can then monitor risk taking across the organization and ensure that appropriate risk taking is aligned with and incorporated into our strategic planning process.

Meetings of Independent Directors

Our non-management directors meet regularly in executive session without management. The executive sessions are chaired by our Chairman of the Board. The executive sessions of our non-management directors are held in conjunction with each regularly scheduled Board meeting.

Board Meetings

The Board met 8 times in 2013 in regularly scheduled quarterly and special meetings. Each director participated either in person or by telephone conference in at least 75% of all 2013 Board meetings and committee meetings (of which such director was a member). Each director attended the Annual Meeting of Shareholders in 2013 and each director is expected to attend the Annual Meeting this year.

The Code of Business Conduct and Ethics contains procedures for reporting suspected violations of the Code of Business Conduct and Ethics and references the Audit Committee procedure for the reporting of questionable accounting and auditing matters or other concerns about accounting and auditing matters.

If the Board grants a waiver from the Code of Business Conduct and Ethics for any executive officer or Director, the nature of the waiver will be disclosed on our website, in a media release, or in a current report on Form 8-K.

Certain Relationships and Related Person Transactions

Our Board has adopted a written policy that requires the Audit Committee to review any financial transactions, arrangements, or relationships that exceed \$120,000 in which Ciber is a participant and a related party (as defined in Rule 404(b) of Regulation S-K under the Securities Exchange Act) has a direct or indirect interest. Audit Committee approval of any related party transaction will depend upon whether or not the transaction is fair and beneficial to Ciber and its shareholders. Our Related Party Transaction Policy and the conflict of interest provision contained in our Code of Business Conduct and Ethics further describe our policies relating to relationships and related party transactions. The Audit Committee was not presented with any proposed related party transactions during 2013.

Part 6 Executive Compensation

Compensation Discussion and Analysis

Executive Summary

2013 Highlights. During 2013, we continued our ongoing intensive strategic transformation. Our 2013 results demonstrate significant progress by all financial measures, giving us confidence that the Company is on a clear path to revenue growth and continued margin expansion. Highlights from our full year 2013 financial results include:

Revenue of \$877.3 million, a 1% increase, flat in constant currency;

Operating income of \$17.4 million, before \$16.9 million in restructuring charges, representing an operating income margin of 2.0%;

Operating cash flow from continuing operations of \$25.2 million; and

Net income from continuing operations of \$6.9 million before restructuring charges, or \$0.09 per share (resulting in a net loss from continuing operations of \$7.6 million after restructuring charges).

These results show that the strategic transformation launched in 2012 is beginning to generate positive, tangible improvements in the Company's results of continuing operations and financial condition. In addition, these results evidence several significant, positive trends we are experiencing in our business that we expect to continue through 2014. These trends include:

Operating margins improved sequentially, reflecting the efficacy of the restructuring initiatives we launched in 2012 and 2013;

We have a healthy and strong balance sheet, having ended 2013 with zero debt. This improves our financial flexibility, giving us the opportunity to secure debt with more favorable terms and enabling us to invest when and where we want with lower costs of capital. Our reduced debt also resulted in significantly reduced interest expense in 2013 compared to 2012, and we expect our interest expense to remain at this reduced level well into 2014; and

We saw improved revenue trends, with overall 2013 revenue of \$877.3 million, a 1% increase over 2012 and flat in constant currency. In our International division, revenue was \$456.4 million in 2013, which was up 5% compared to 2012, and up 3% in constant currency, indicating that the Company has weathered the worst of the global recession and is well positioned for future growth as economies begin to improve.

Business Strategy and Results. During 2013, we continued the strategic transformation that we initiated in 2012, which was focused primarily on our US domestic operations, management structure and improvement of operating efficiencies. In addition, during 2013 we initiated restructuring of our international operations with the goals of improving utilization of our existing consultants and other resources, strategically engaging our lower-cost off-shore and near-shore resources, and centralizing management of administrative functions in key

Table of Contents

markets to leverage shared services functions. In particular, our 2013 strategy focused on the following initiatives and achieved the following results:

We focused our restructuring and business development efforts on the three core pillars of our business, which allow us to harmonize our service offerings across both our International and North America segment and provide consistent quality services to our global clients:

our **Application Development and Maintenance (ADM)** business, which provides analysis, design, development, testing, implementation, and maintenance of our client's business applications;

our **Independent Software Vendor relationships (ISVs)**, which allows us to partner with SAP, Oracle, Infor and others to solve our clients' most challenging strategic issues, including cloud, mobility analytics and social media; and

our **Ciber Managed Services (CMS)**, which allow us to provide full-lifecycle support for our clients' information technology needs.

We reduced corporate overhead and flattened our leadership structure by:

not replacing the Chief Operating Officer position following the departure of Mr. Genovese and instead pushing down operational responsibility and leadership closer to our marketplaces; and

hiring our new Chief Financial Officer from within our Company and not replacing the vacated Senior Vice President, Corporate Finance position.

We furthered our strategy to move into higher growth, higher value markets and drive revenue growth and profitability through the alignment of our resources with the most promising opportunities, both on a geographic and service offering basis.

We developed new customer relationships and grew existing customer relationships.

We completed the restructuring activities commenced in the fourth quarter of 2012 which related primarily to the consolidation of our geographic footprint, as well as organizational changes designed to simplify business processes, move decision-making closer to the marketplace, and create operating efficiencies measured in cost savings as well as scalability.

A majority of our international restructuring activities that were initiated during 2013 have been completed, and we expect this will result in annualized pre-tax net savings of approximately \$12 million starting in the second half of 2014 and each year thereafter.

We implemented shared services in finance, legal, human resources and information technology in a manner that will enable us to scale our core business with minimal incremental cost; however, we expect to see most of the benefit from these changes beginning in 2015.

Despite having incurred significant restructuring costs in 2013, most of our financial measures remained relatively flat or showed improvement, indicating that our restructuring is having the intended positive impact.

Edgar Filing: CIBER INC - Form DEF 14A

While we believe management made significant strides in 2013 to focus the business on our three pillars and implement significant restructuring plans across the Company, we realize that these important achievements have not yet been fully reflected in our financial performance measures.

Compensation Highlights. Our compensation actions and decisions in 2013 reflect that we are currently engaged in significant restructuring for the future and our intention to incentivize our management team to

2014 Proxy Statement 29

Table of Contents

successfully complete the implementation of the restructuring plan. Accordingly, we took the following actions with respect to the compensation of our executive officers in 2013:

Compensation Program focused on Restructuring Objectives. Our 2013 compensation program was created and implemented in the context of our ongoing restructuring efforts, and was specifically designed to complement those efforts. The program focused on both acknowledging the progress our executive officers have made thus far in implementing the restructuring and providing meaningful incentives to continue improving the short- and long-term financial performance of the Company by completing the restructuring program as quickly and successfully as possible.

Base Salaries Remained Flat. We did not increase the base salaries of our executives between 2012 and 2013, with the exception of a \$30,000 increase in Mr. Douglas's salary.

Performance-based Cash Bonus Paid-out at 48% of Target. Our annual performance-based cash award plan (which was designed to reward our executive officers based on their ability to execute on our annual operating plan) paid out at approximately 48% of the target award opportunities.

Equity Compensation Focused on Incentivizing Long-term Performance. Our 2013 equity compensation program was designed to incentivize our management team to focus on long-term growth and improvement of shareholder value by granting time-vested equity awards in the form of RSUs that vest over a three year period to our CEO and other executive officers. The 2013 equity compensation program included a grant of RSUs to our CEO, which was the first grant of equity to our CEO in two years.

Adopted a Stock Ownership Policy for Executives. We adopted a stock ownership policy applicable to certain executive officers, including our CEO.

The graph below illustrates the difference between Chief Executive Officer's reported compensation in each year between 2011 and 2013 (as disclosed in the Summary Compensation Table included in our Proxy Statement for each year) and the compensation that he actually realized in each of those years. We believe this supplemental information is instructive regarding our executive compensation philosophy, as the majority of his reported compensation is either (i) annual cash incentive compensation that is realizable only if the Company meets or exceeds the applicable performance measures (i.e., the annual performance-based cash award), or (ii) long-term equity compensation designed to align our CEO's interests with those of our shareholders and encourage his long-term commitment to the Company. As illustrated, the value of the compensation our CEO actually realized

Table of Contents

over the last three years is significantly less than the total compensation amounts shown in the Summary Compensation Table.

(1) We did not grant any equity awards to our CEO in 2012, resulting in lower Reported Compensation.

2014 Compensation Changes. While our 2013 compensation reflected a company in a restructuring and transformative stage, we expect our compensation in 2014 to reflect our entering into a more predictable growth phase. We intend to have our compensation evolve in step with the stabilization, focus on core pillars and growth of our business.

Executive Compensation Policies. We endeavor to maintain sound governance standards consistent with our executive compensation policies and practices. The Compensation Committee evaluates our executive compensation program on an ongoing basis to ensure that it is consistent with the Company's short-term and long-term goals given the dynamic nature of our business and the market in which we compete for executive

talent. Consistent with our commitment to best practices in executive compensation, during 2013 we continued to maintain the following compensation policies and practices:

Independent Compensation Committee. The Compensation Committee is comprised solely of independent directors who have established effective means for communicating with stockholders regarding their executive compensation ideas and concerns;

Independent Compensation Committee Advisors. The Compensation Committee engaged its own compensation consultant to assist with its fiscal 2013 compensation reviews. This consultant performed no consulting or other services for the Company;

Annual Executive Compensation Review. The Compensation Committee conducts an annual review and approval of our compensation strategy, including a review of our compensation peer group used for comparative purposes and a review of our compensation-related risk profile to ensure that our compensation-related risks are not reasonably likely to have a material adverse effect on the Company;

Flexible NEO Employment Agreements. We have "at will" employment agreements with our NEOs, which provide for annual reviews of base salary and include both short-term and long-term incentive components;

"Double-Trigger" Change-in-Control Arrangements. All change-in-control payments and benefits are based on a "double-trigger" arrangement (that is, they require both a change-in-control of the Company plus a qualifying termination of employment before payments and benefits are paid);

Performance-Based Incentives. Our annual performance-based cash award opportunities are based primarily on the Company's achievement of key financial performance targets established by the Compensation Committee, with no more than 20% of the award opportunities based on subjective individual performance;

Multi-Year Vesting Requirements. All equity awards we grant to our NEOs are subject to time-based vesting over a three-year service period, which incentivizes our NEOs to remain with the Company and aligns the interests of our NEOs with those of our shareholders;

No Tax Reimbursements. We do not provide tax gross-ups or other tax payments to the NEOs;

No Change-in-Control Tax Reimbursements. We do not provide excise tax gross-ups or other tax reimbursement payments in connection with change-in-control payments and benefits;

No Retirement Plans. Aside from participation in our 401(k) program, which is available to all full-time, salaried employees, we do not currently offer, nor do we have plans to provide, pension arrangements, retirement plans or nonqualified deferred compensation plans or arrangements to our executive officers;

No Special Health or Welfare Benefits. Our executive officers participate in broad-based company-sponsored health and welfare benefits programs on the same basis as our other full-time, salaried employees;

Hedging Prohibited. We prohibit our employees from hedging any Company securities; and

Succession Planning. We review the risks associated with key executive officer positions to ensure adequate succession plans are in place.

Named Executive Officers The following discussion provides information regarding the compensation program for our principal executive officer, each person who served as our principal financial officer at any time during the year and three executive officers who were employed by us during fiscal 2013 and who were the most

highly-compensated executive officers of the Company (other than our principal executive officer and principal financial officer). For 2013, the Company's Named Executive Officers (the "NEOs") were:

Name	Position
David C. Peterschmidt	President and Chief Executive Officer (our "CEO")
Claude J. Pumilia*	(former) Executive Vice President, Chief Financial Officer, and Treasurer
Michael Lehman*	Interim Chief Financial Officer
Richard Genovese*	Executive Vice President and Chief Operating Officer (our "COO")
Anthony Fogel	Senior Vice President and Chief Human Resources Officer
Robert Bruce Douglas	Senior Vice President and General Manager, North America

* *Management Changes during 2013.* Mr. Pumilia resigned in September 2013 and Mr. Lehman served as interim Chief Financial Officer until February 2014, when Christian Mezger was appointed to serve as Chief Financial Officer. Mr. Mezger previously served as our Senior Vice President of Corporate Finance. In keeping with our goal of optimizing our management structure and reducing related corporate overhead, we have decided not to replace the position vacated by Mr. Mezger upon his promotion. In addition, Mr. Genovese resigned in January 2014. Following his departure, we chose not to replace the Chief Operating Officer position and instead pushed down operational responsibility and leadership closer to our marketplaces.

This Compensation Discussion and Analysis describes the material elements of our executive compensation program. It also provides an overview of our executive compensation philosophy, including our principal compensation policies and practices given the goals and objectives of our executive leadership, our strategic plan, and the feedback we received from shareholders at and following our 2013 Annual Meeting of Shareholders regarding executive compensation. The following section also analyzes how and why the Compensation Committee of our Board of Directors (the "Compensation Committee") arrived at the specific compensation decisions for our executive officers in 2013 and discusses the key factors that the Compensation Committee considered in determining their compensation.

Executive Compensation Philosophy and Objectives

We compete with many other companies to attract and retain a skilled leadership team. To meet this challenge, we have employed and continue to employ a compensation philosophy of offering our executive officers competitive compensation and benefits packages that are focused on long-term value creation and that reward them for achieving our long-term financial and strategic objectives.

In making decisions about the design and operation of our executive compensation program, the Compensation Committee continues to be guided by a philosophy with several critical elements:

we seek to provide total compensation opportunities that enable us to recruit and retain executive officers with the experience, skills and motivation to effectively improve our operating results and lead us to the next stage of development;

we use compensation vehicles that are designed to establish a clear alignment between the interests of our executive officers and the interests of our shareholders;

we seek to reinforce a culture of ownership, excellence, and responsiveness; and

we seek to offer competitive and fair compensation opportunities to our executive officers.

Consistent with this overarching philosophy, the Compensation Committee seeks to achieve the following objectives in formulating our compensation policies and making compensation decisions:

create a direct and meaningful link between our business results, individual performance, and rewards;

2014 Proxy Statement 33

Table of Contents

calibrate compensation opportunities to appropriately reward executives depending on the Company's financial and operational performance;

provide strong incentives to create a sense of urgency to promote our profitability and growth to create shareholder value and reward exceptional performance;

ensure that all executive officers have the opportunity to share in the success we create;

provide equity awards that reflect potential contributions as measured by position and expertise;

ensure that compensation plans and arrangements are simple to communicate and understandable; and

ensure that compensation plans and arrangements are flexible enough to adjust to changing economic circumstances.

Compensation Program Design

As approved by the Compensation Committee, in 2013 the compensation of our executive officers consisted of four primary components, each as described in greater detail below: (1) base salary, (2) annual performance-based cash awards, (3) long-term equity incentive compensation in

Edgar Filing: CIBER INC - Form DEF 14A

the form of time-vested RSU awards, and (4) retirement, health and welfare benefits. Through the combination of performance-based cash award opportunities and long-term equity compensation opportunities that may increase or decrease in value depending on the Company's results, our 2013 executive compensation program focused on rewarding our executive officers based on the performance of the Company over both the short and long-term. This is consistent with our current restructuring and growth focus.

2014 Proxy Statement 34

Table of Contents

The cash compensation program approved by our Compensation Committee for 2013 allocated approximately 55% - 65% of potential cash earnings to base salary and approximately 35% - 45% to compensation in the form of annual performance-based cash award opportunities, assuming the Company achieved the target performance levels established by the Compensation Committee. However, as shown by the following chart, in 2013 our CEO earned only a portion of his potential 2013 performance-based cash awards. As a result of not receiving a portion of his target cash bonus awards, base salary made up a larger portion of our CEO's total cash compensation in 2013 (approximately 61%) than it otherwise would have.

Our long-term equity incentive compensation program is designed to incent and reward our executive officers for long-term corporate performance based on the value of our common stock and, thereby, align the interests of our executive officers with those of our shareholders, while also encouraging retention through time-based vesting requirement. During 2013, we granted our NEOs RSU awards covering shares of our common stock that vest over a three-year period as our primary vehicle for providing long-term incentive compensation. Because the value of these time-based vesting RSUs is determined at the time the awards ultimately vest, which may be up to three years from the grant date, we believe they encourage our executive officers to focus on driving sustainable, long-term growth in the Company's operating performance and financial results.

The actual mix of base salary, annual performance-based cash award, and equity awards with respect to each NEO for 2013 was subject to the nature of the specific business for which each NEO was responsible and the judgment of the Compensation Committee in consultation with our CEO. We believe this mix supported our compensation philosophy and was appropriate to provide each executive officer with (i) a competitive base

salary, (ii) sufficient "at-risk" compensation to drive performance against objectives, without creating undue risk for the Company as a whole, and (iii) time-vested equity compensation to encourage long-term retention and commitment to the Company and alignment with shareholder interests. The following charts show the allocation of base salary, annual cash incentives and long-term equity compensation for our CEO and our other NEOs not including our CEO.

Compensation Setting Process

Role of Compensation Committee. The Compensation Committee is responsible for formulating, determining, reviewing, and modifying the compensation of our executive officers as well as the development and oversight of our compensation philosophy. The Compensation Committee is authorized to retain the services of one or more executive compensation advisors from time to time, as it determines in its discretion, in connection with the discharge of its responsibilities.

The Compensation Committee:

evaluates the performance of our CEO and other executive officers in light of our corporate goals and objectives and, based on such evaluation, reviews and approves the annual base salary, annual performance-based cash award opportunities and awards, long-term incentive compensation (including stock options and RSU awards) and, as necessary, post-employment compensation arrangements and health and welfare benefits;

reviews, approves, and reports to our Board of Directors with respect to our annual performance-based cash awards and equity-based plans and grants of awards thereunder;

reviews and approves all equity compensation plans and awards pursuant to our shareholder-approved plans; and

reviews succession planning for our CEO and other executive officers.

Role of Management. In determining the performance criteria and compensation of our executive officers, the Compensation Committee takes into account the recommendations of our CEO (except with respect to his own compensation). Typically, our CEO will make these recommendations for our executive officers based on his assessment of each executive officer's individual performance as well as his knowledge of each executive officer's job responsibilities, seniority, expected future contributions, and his evaluation of competitive market data.

Our CEO also attends meetings of our Board of Directors and the Compensation Committee at which executive compensation matters are addressed, except with respect to discussions involving his own compensation. Decisions with respect to our CEO's compensation are made by the Compensation Committee, all of the members of which are also independent members of our Board of Directors.

Role of Compensation Consultant. During 2013, the Compensation Committee retained the services of Compensia, Inc., a national compensation consulting firm, as its compensation consultant. Compensia serves at the discretion of the Compensation Committee. Compensia was engaged to provide advice and information relating to executive officer and director compensation. In 2013, Compensia also assisted the Compensation Committee in (i) reviewing our Peer Group, (ii) analyzing executive officer compensation, (iii) reviewing and analyzing market data related to our executive officers' base salaries, annual performance-based cash incentives, and long-term equity incentive compensation levels, (iv) evaluating equity plan design and structures, and (v) evaluating non-employee director compensation.

Compensia reports directly to the Compensation Committee and did not provide any services to the Company or its management in 2013 other than those provided to the Compensation Committee described above. The Compensation Committee has considered the independence of Compensia in light of the new listing standards of the NYSE on compensation committee advisor independence and the rules of the SEC and has concluded that the work performed by Compensia did not raise any conflict of interest.

Compensation-Related Risks.

To avoid encouraging unnecessary or excessive risk taking in our compensation practices, we use:

a mix of fixed (annual base salary) and variable performance-based cash compensation;

equity awards that vest over a significant period of time, thus tying an executive officer's equity compensation to the executives' retention by the Company and the Company's long-term financial success; and

2014 Proxy Statement 37

above-target incentive compensation that, if earned, is paid based on the completion of full-year performance for achieving or exceeding our financial goals.

Competitive Market Analysis

The Compensation Committee selected its competitive market reference group to comprise a group of companies with median revenues of approximately 0.5 to 2.0 times our revenue and market capitalizations of approximately 0.2 to 5.0 times our market capitalization, with business models reasonably similar to ours and which represented both business and labor market competitors (our "Peer Group"). The compensation practices of our Peer Group were the primary guide used by the Compensation Committee to compare the competitiveness of each compensation component and overall compensation levels (base salary, target annual performance-based cash award opportunity, and long-term incentive compensation). During 2013, the following companies comprised our Peer Group:

Axiom, Inc. (NASDAQ: ACXM)	iGATE Corporation (NASDAQ: IGTE)
CBIZ, Inc. (NYSE: CBZ)	ManTech International (NASDAQ: MANT)
CDI (NYSE: CDI)	MAXIMUS, Inc. (NYSE: MMS)
Computer Task Group (NASDAQ: CTGX)	NCI, Inc. (NASDAQ: NCIT)
Convergys (NYSE: CVG)	Perficient, Inc.
Exlservice Holdings, Inc. (NASDAQ: EXLS)	Sapient Corporation (NASDAQ: SAPE)
The Hackett Group, Inc. (NASDAQ: HCKT)	Syntel, Inc. (NASDAQ: SYNT)

The Compensation Committee intends to use this same Peer Group in 2014, but also intends to regularly review our Peer Group to ensure that the companies are appropriate comparators and also will review, on at least an annual basis, the executive compensation practices of our Peer Group.

In 2013, the Compensation Committee also was provided with and used as a reference source competitive compensation data from the 2013 Radford Global Technology survey. The Radford Global Technology survey provides deeper and more precise competitive compensation data than is available solely from the public filings of the Company's Peer Group, including access to proprietary market compensation information from both public private companies through a searchable database.

Results of 2013 Shareholder Advisory Vote on Executive Compensation

At our 2013 Annual Meeting of Shareholders, our shareholders expressed their continued support of our executive compensation program by voting to approve, on an advisory (non-binding) basis, the compensation of our NEOs. More than 73% of the votes cast supported our executive compensation policies and practices. The Compensation Committee, which is responsible for designing and administering our executive compensation program, values the opinions of our shareholders and considered the outcome of the advisory vote at the 2012 Annual Meeting of Shareholders in making compensation decisions for 2013, as reflected in this Proxy Statement. The Compensation Committee believes that our executive compensation program is designed to support our Company and our business strategies, in concert with our compensation philosophy and guiding principles. That belief is supported by past advisory votes of our shareholders as well as the feedback from interactions between our management team and various shareholders. The Compensation Committee will continue to take into account the outcome of future shareholder advisory votes in its future deliberations on executive compensation matters. Our Board and management team generally put a high priority on proactive shareholder engagement, and our CEO and CFO spend significant amounts of time each year meeting with individual investors, attending investor conferences and responding to questions and concerns of our shareholders. In addition, every meeting of the Board includes a briefing from management regarding shareholder engagement activities and concerns.

Compensation Program Components

The following describes each component of our executive compensation program, the rationale for each component, and how compensation amounts are determined.

Table of Contents

Base Salary

The Compensation Committee conducts an annual review of each executive officer's base salary, with input from our CEO (except with respect to his own base salary), and makes adjustments as it determines to be reasonable and necessary to reflect the scope of an executive officer's performance, individual contributions and responsibilities, position in the case of a promotion, competitive market conditions, and retention objectives. While the Compensation Committee believes that the base salaries of our executive officers should generally approximate the 50th percentile of the competitive market for comparable positions at the companies in our Peer Group, it makes decisions on individual adjustments to base salaries in its sole discretion based on its evaluation of the foregoing factors.

For 2013, the Compensation Committee sought to balance (i) the need to reward our management team for its successful efforts in achieving our business and restructuring objectives and incentivize the team to continue to build off the newly restructured business platform, against (ii) the fact that the effects of restructuring are not yet fully reflected in our financial performance. As a result, the Compensation Committee determined not to increase the base salaries of our NEOs from 2012 to 2013 (with the exception of Mr. Douglas), and to emphasize long-term and performance-based compensation. The base salaries of our NEOs for 2013 are set forth in the table describing our annual performance-based cash award program and the 2013 Summary Compensation Table below.

Annual Performance-Based Cash Awards

We use performance-based cash awards to motivate our executive officers to achieve the short-term financial and strategic objectives that further our annual operating plan. In February 2013, the Compensation Committee approved our 2013 performance-based cash award program, pursuant to which our executive officers, including the NEOs, had the opportunity to earn cash awards each fiscal quarter based on the performance of the Company during that quarter as measured against pre-established corporate performance objectives established by the Compensation Committee and each executive officer's personal contributions to the Company's performance (the "2013 Incentive Awards"). The 2013 Incentive Awards were structured to be earned on a quarterly basis to create a sense of urgency and discourage thinking that any unearned incentive award amounts could be earned later in the year. Consequently, if there was no payment with respect to the 2013 Incentive Awards for a fiscal quarter (because the threshold performance level for a corporate performance objective was not achieved for that quarter), then the portion of the award attributable to that fiscal quarter was forfeited.

Target Award Opportunities

The Compensation Committee sets the target annual performance-based cash award opportunities (which are expressed as a percentage of base salary) based on its review of each executive officer's performance, individual contributions and responsibilities, competitive market conditions, and retention objectives. We believe in providing our executive officers with target total cash compensation opportunities that fall at approximately the median of the competitive market. For 2013, however, we increased the target annual performance-based cash award opportunity for certain key executive officers, including Mr. Peterschmidt, Mr. Genovese and Mr. Douglas, to approximately the 75th percentile of our Peer Group to emphasize performance-based compensation over

Table of Contents

base salary in the mix of target total cash compensation for 2013. Target 2013 Incentive Award opportunities for the NEOs were as follows:

Named Executive Officer	2013 Base Salary (\$)	Target 2013 Performance-based Award Opportunity	Target 2013 Performance-based Award Opportunity
		(as a Percentage of Base Salary)	(\$)
David C. Peterschmidt	675,000	135%	911,250
Claude J. Pumilia	420,000	90%	378,000
Michael Lehman	416,000 (1)	(1)	(1)
Richard Genovese	480,000	115%	552,000
Anthony Fogel	330,000	75%	247,500
Bruce Douglas	350,000	90%	315,000

(1)

Mr. Lehman served as the Company's interim Chief Financial Officer from September 24, 2013 through the end of 2013. The Base Salary number presented is annualized, meaning it represents the amount of Base Salary Mr. Lehman would have earned had he been employed for all of 2013. Mr. Lehman was not eligible to participate in the Company's 2013 Cash Incentive Award Program.

Corporate Performance Objectives

The 2013 Incentive awards were directly linked to corporate and business unit performance measures as selected by the Compensation Committee with associated target levels for each such measure, based on the recommendations of our CEO (other than with respect to his own annual performance-based cash award opportunity). For our CEO and NEOs other than Mr. Douglas, corporate performance objectives were established by the Compensation Committee based on its assessment of the key drivers for our annual operating plan. In the case of Mr. Douglas, his awards were based on similar measures that related to the performance of the corporate functions and business unit that he manages.

For purposes of the 2013 Incentive Awards for all our executive officers except Mr. Douglas, half of the award opportunity determined by corporate performance was based on quarterly achievement of our target revenue levels for the year (40% of the total cash award target opportunity) and half of the award opportunity was based on quarterly achievement of our target EBITA levels for the year (40% of the total target award opportunity). As discussed below, the remaining 20% of the total annual target award opportunity of each executive officer except for Mr. Douglas was based on an evaluation of his or her individual performance against specific, non-financial criteria established by the Compensation Committee (Mr. Douglas's 2013 Incentive Awards did not contain an individual performance component). The Compensation Committee selected these measures because revenue is a direct indicator of our ability to successfully execute on our annual operating plan, while EBITA is an effective measure of our profitability. EBITA stands for Earnings Before Interest, Tax, and Amortization expenses. In our case, EBITA is determined by deducting the cost of consulting services, cost of other revenue, and selling, general and administrative expenses for a given period (all as reported in our financial statements) from the total revenue reported in our financial statements for such period.

Pursuant to their terms, the 2013 Incentive Awards were to be paid if the fiscal quarter's results on an annualized basis met the specified threshold levels. Further, to earn any portion of the 2013 Incentive Awards subject to the corporate performance objectives, a specified minimum performance threshold had to be achieved for each specific measure:

In the case of the revenue measure, the threshold performance level was 65% of the EBITA target level for the fiscal quarter and 85% of the revenue target level for the fiscal quarter (the "revenue threshold"); and

In the case of the EBITA measure, the threshold performance level was 85% of the EBITA target level for the fiscal quarter (the "EBITA threshold").

For purposes of the 2013 Incentive Awards, the revenue and EBITA performance objectives were treated as independent performance objectives; that is, our executive officers were eligible to receive an award payment for exceeding the threshold performance level for one

objective even if the threshold performance level for the other objective was not met; provided, however, that no award payment would be made for a fiscal quarter if the

2014 Proxy Statement 40

Table of Contents

Company as a whole or any business unit of the Company failed to achieve at least 65% of the EBITA target level for that fiscal quarter.

In the case of our CEO, COO, Mr. Pumilia and Mr. Fogel, if the revenue threshold and EBITA threshold were met or exceeded in a given fiscal quarter, the amount of the award to be paid for that quarter ranged from a minimum of 55% (for threshold performance) to a maximum of 100% (for target performance or above) of the target award opportunity for that NEO (as reflected in the table above) attributable to the corporate performance objectives (80% of their target award opportunity), depending on the actual performance level achieved. For example, if the Company achieved only the revenue threshold and the EBITA threshold for a given quarter, then our CEO, COO, Mr. Pumilia and Mr. Fogel would receive one quarter of 80% of their respective target awards at a 55% payment level factor. Alternatively, if the Company achieved 100% of the target levels for the revenue and EBITA objectives in a given quarter, then they would receive one quarter of 80% of their target award at 100% payment level.

In the event that the Company exceeded the target performance levels for one or both of the corporate performance objectives, payments with respect to such "over-performance" were to be paid only after the end of the fiscal year, and any such payments were capped at 200% of the NEO's target award opportunity for performance equal to 150% of the target level. For example, if the Company achieved 150% of the revenue and EBITA target levels for the entire year, then our CEO, COO, Mr. Pumilia and Mr. Fogel would have received, in aggregate (i.e., including both the quarterly payments and end of year over-performance payment), 80% of their respective target awards at a 200% payment level (that is, at an amount that was twice their target award opportunity).

Revenue and EBITA Performance Level / Award Payment Factor	Company Revenue Target (\$)	Company EBITA Target (\$)	North America Revenue Target (\$)	North America EBITA Target (\$)	International Revenue Target (\$)	International EBITA Target (\$)
150% Maximum / 200% Payment	1,352,209,500	44,305,500	695,400,000	55,950,000	690,259,500	51,655,500
100% Target / 100% Payment	901,473,000	29,537,000	463,600,000	37,300,000	460,173,000	34,437,000
Threshold 85% / 55% Payment	766,252,050	25,106,450	394,060,000	31,705,000	391,147,050	29,271,450

Individual Performance

The remaining 20% of our executive officers' target annual awards (except for Mr. Douglas's award) were based on a subjective assessment of each executive officer's individual performance. These assessments were conducted by the Compensation Committee at the end of June and again at the end of the year, and any resulting awards were paid bi-annually, 50% after the end of the second fiscal quarter and 50% after the end of the fourth fiscal quarter. For purposes of the 2013 Incentive Awards, the Compensation Committee exercised its subjective judgment to evaluate each NEO's (other than Mr. Douglas) individual performance, taking into consideration such criteria as professional effectiveness, leadership, strategic and operational execution and creativity.

Actual Award Decisions for 2013

With respect to the corporate performance measures applicable to the 2013 Incentive Awards of our CEO, COO, Mr. Pumilia and Mr. Fogel, we achieved revenue of \$219 million for the first fiscal quarter, \$220 million for the second fiscal quarter, \$215 million for the third quarter, and \$222 million for the fourth fiscal quarter, which resulted in payment of a revenue award at the threshold level (55%) in each quarter except the third quarter (in the third quarter, the Company did not achieve the 65% EBITA minimum, and therefore no awards were paid on either performance measure). In addition, we achieved EBITA levels in each quarter that resulted in payment of the EBITA portion of each executive officer's award at the threshold level (55%) in each quarter except the third quarter.

In addition, the Compensation Committee assessed the individual performance of these NEOs at the end of June 2013 and then again at the end of 2013 and determined that our CEO should receive \$91,125 with respect to the first half of the year and \$91,125 with respect to the second half of the year, our COO should receive \$55,200

2014 Proxy Statement 41

Table of Contents

with respect to the first half of the year and no bonus with respect to the second half of the year, Mr. Pumilia should receive \$37,800 with respect to the first half of the year and no bonus with respect to the second half of the year, and Mr. Fogel should receive \$24,750 with respect to the first half of the year and \$24,750 with respect to the second half of the year.

With respect to the corporate performance measures applicable to the 2013 Incentive Award of Mr. Douglas, we achieved North American revenue and global revenue for each quarter that, in the aggregate, resulted in a 60% payment with respect to that measure for the year. In addition, we achieved North American EBITA and global EBITA for each quarter that, in the aggregate, resulted in a 38% payment with respect to that measure for the year.

The actual 2013 Incentive Award payments made to the NEOs for 2013 are set forth in the following table:

Named Executive Officer	Target 2013	Actual 2013	Actual 2013
	Performance-based Award at 100% Achievement	Performance-based Award	Performance-based Award as a Percentage of Target
	(\$)	(\$)	(%)
Mr. Peterschmidt	911,250	436,488	48%
Mr. Pumilia (1)	378,000	111,132 (1)	29%
Mr. Lehman	(2)	(2)	(2)
Mr. Genovese	552,000	162,288	29%
Mr. Fogel	247,500	118,553	48%
Mr. Douglas	315,000	154,508	49%

(1)

Mr. Pumilia resigned from the Company in September of 2013, and was therefore only eligible to participate in the Cash Incentive Award Program for the first three fiscal quarters of 2013 .

Mr. Pumilia's total cash incentive award for the first and second fiscal quarters of 2013 was \$111,132, and no cash incentive awards were made for the third quarter of 2013 because the Company did not achieve the necessary financial performance.

(2)

Mr. Lehman served as the Company's interim Chief Financial Officer from September 2013 through the end of 2013, and was not eligible to participate in the Company's 2013 Cash Incentive Award Program.

The actual 2013 Incentive Award payments to the NEOs for 2013 are also included in the "Summary Compensation Table" below.

Long-Term Incentive Compensation

We use equity awards to incent and reward our executive officers, including the NEOs, for long-term corporate performance based on the value of our common stock and, thereby, align the interests of our executive officers with those of our shareholders. We do not apply a rigid formula in determining the value of equity awards to be granted to our executive officers upon their initial employment. Instead, these awards are established through arms-length negotiation at the time the individual executive officer is hired. Thereafter, as part of its annual review of our executive compensation program, the Compensation Committee determines the value of any additional equity award at levels it considers appropriate. At the discretion of the Compensation Committee, the NEOs may also receive discretionary stock options or RSU awards for exceptional performance. During 2013, the Compensation Committee determined, after considering a competitive market analysis prepared by Compensia, to grant equity awards in the form of RSU awards covering shares of our common stock, subject to a three-year time-based vesting requirement.

The 2013 RSU awards will vest over a three year period, with the initial vest date occurring six months after the date of grant and quarterly thereafter. The Compensation Committee set the aggregate grant date fair value of these equity awards at a level intended to create a meaningful opportunity for reward predicated on the creation of long-term shareholder value. In particular, each executive's award value was based on, among other things, the competitive compensation for such executive officer's position, the critical nature of his or her role, retention objectives, internal pay equity, outstanding equity awards, constraints on the size of the pool of shares available. In 2013, our RSU awards reflected our

restructuring phase and the target total direct compensation opportunities of our executive officers were consistent with the 75% percentile of the competitive market for executive officers

2014 Proxy Statement 42

Table of Contents

with key operational roles, including the CEO, COO, and Mr. Douglas, and the 50th percentile for our other executive officers. We anticipate that as we enter more stable growth, our RSU and other long-term awards will be adjusted accordingly.

In 2013, the Compensation Committee granted our CEO an RSU award covering 976,000 shares of our common stock. The purpose of this grant was to return our CEO's overall compensation opportunities to approximately the 75th percentile of the competitive market. Our CEO did not receive an equity award in 2012, and his aggregate compensation had therefore dropped considerably below the 75th percentile target. In addition, the Compensation Committee continues to believe that RSU awards are helpful retention tools that align CEO and other NEO performance with long-term shareholder returns. The equity awards granted to the NEOs in 2013 were as follows:

Named Executive Officer	Aggregate Grant Date	Stock Option	RSU Award
	Fair Value	(Number of Shares)	(Number of Shares)
Mr. Peterschmidt	\$4,089,440		976,000
Mr. Pumilia (1)	\$1,073,234	952,107	238,182
Mr. Lehman (2)			
Mr. Genovese (3)	\$2,327,557	135,492	519,456
Mr. Fogel	\$419,000		100,000
Mr. Douglas (4)	\$838,000		200,000

(1)

The amounts reported for Mr. Pumilia include the effects of the accelerated equity awards that vested in 2013 pursuant to Mr. Pumilia's severance agreement. A portion of the Grant Date Fair Value amount represents the incremental fair value of the RSU awards and stock options that were accelerated, and the number of shares underlying the Stock Option and RSU Award grants include the additional shares from prior-year awards that were accelerated and became vested in 2013 pursuant to Mr. Pumilia's severance agreement (because these options and RSUs would not have vested but for the terms of the severance agreement, they are considered a new grant in 2013).

(2)

Mr. Lehman served as our interim Chief Financial Officer from September 2013 through the end of 2013 and did not receive any equity awards in connection with his service.

(3)

The amounts reported for Mr. Genovese include the effects of the accelerated equity awards that vested in 2013 pursuant to Mr. Genovese's severance agreement. A portion of the Grant Date Fair Value amount represents the incremental fair value of the RSU awards and stock options that were accelerated, and the number of shares underlying the Stock Option and RSU Award grants include the additional shares from prior-year awards that were accelerated and became vested in 2013 pursuant to Mr. Genovese's severance agreement (because these options and RSUs would not have vested but for the terms of the severance agreement, they are considered a new grant in 2013).

(4)

During 2013, Mr. Douglas reported directly to Mr. Genovese, and therefore Mr. Genovese provided input with respect to the equity awards granted to Mr. Douglas. In 2014, Mr. Douglas will report directly to our CEO along with our other executive officers.

The equity awards granted to the NEOs during 2013 are set forth in the 2013 Summary Compensation Table and the 2013 Grants of Plan-Based Awards Table below.

Welfare and Health Benefits

Edgar Filing: CIBER INC - Form DEF 14A

We have established a tax-qualified Section 401(k) retirement savings plan available on the same terms and conditions to all of our full-time employees, including the NEOs. Under this plan, participants may elect to make pre-tax contributions of up to 75% of their compensation, with the exception of employees who meet the Internal Revenue Service discrimination testing definition of "highly-compensated employees," who may contribute a maximum of 9%. Contributions made may not exceed the statutory income tax limitation, which was \$17,500 in 2013. In addition, in 2013 employees 50 years old or older were eligible to make an annual "catch-up" contribution of up to \$5,500. For the 2013 plan year, we matched up to 33% of the first 6% of compensation contributed to the plan, based on length of service with the Company, with a limit of \$2,000 per calendar year. We intend for the plan to qualify under Section 401(a) of the Internal Revenue Code so that contributions by participants to the plan, and income earned on plan contributions, are not taxable to participants until withdrawn from the plan.

Additional benefits received by our executive officers, including the NEOs, include medical, dental, and vision benefits, medical and dependent care flexible spending accounts, short-term and long-term disability insurance,

Table of Contents

accidental death and dismemberment insurance, basic life insurance coverage, and long-term care coverage. These benefits are provided to our executive officers on the same basis as to all of our full-time employees.

We design our employee benefits programs to be affordable and competitive in relation to the market, as well as compliant with applicable laws and practices. We adjust our employee benefits programs as needed based upon regular monitoring of applicable laws and practices and the competitive market.

Perquisites and Other Personal Benefits

We do not view perquisites or other personal benefits as a significant component of our executive compensation program. From time to time, we have provided limited perquisites to certain executive officers, such as reimbursement of relocation expenses, commuting and travel expenses for executives who live and work remotely, spousal travel and meals, or access to sporting and event tickets. In 2013, we provided Mr. Genovese with perquisites in connection with his regular commute from his home in Dallas to our offices in Colorado, including the use of a leased car and condo in Denver, Colorado and reimbursement of airfare and other travel expenses. Aside from these perquisites to Mr. Genovese, which are further described in the "Summary Compensation Table" below, we did provide any perquisites or other personal benefits to our other NEOs in 2013.

In the future, we may provide perquisites or other personal benefits in limited circumstances, such as where we believe it is appropriate to assist an individual executive officer in the performance of his or her duties, to make our executive officers more efficient and effective, and for recruitment, motivation, or retention purposes. All future practices with respect to perquisites or other personal benefits will be approved and subject to periodic review by the Compensation Committee.

Employment Agreements and Post-Employment Compensation

Starting in 2011, the Compensation Committee initiated a program to enter into standardized "at will" employment agreements with all of our senior executive officers, including the NEOs, replacing the then-existing employment agreements, offer letters and change in control agreements to which the NEOs were parties. By implementing a standardized form of executive employment agreement, the Compensation Committee standardized the severance and change in control terms and conditions applicable to all our current and future executive officers, including terms and other conditions concerning the circumstances under which severance occurs and payments of post-employment benefits and compensation. In making these changes, the Compensation Committee recognized our ongoing need to maintain competitive compensation packages to retain qualified personnel and to attract qualified candidates to fill our most critical positions. These competitive compensation packages should contain a financial inducement sufficient to retain critical personnel and to motivate candidates to accept our employment offer over any competing offers. At the same time, the Compensation Committee was sensitive to the need to integrate existing and new executive officers into the executive compensation structure that we have been seeking to develop, balancing both competitive and internal pay equity considerations.

The Compensation Committee evaluated and determined the payments and benefits to be provided pursuant to these executive employment agreements based, in part, upon an analysis prepared by its compensation consultant regarding the practices of our Peer Group and other employment market-related data.

In addition to standard provisions relating to compensation payments and benefits, confidentiality, non-competition and non-solicitation of clients and employees, the employment agreements also provide these executive officers, including the NEOs, with certain protection in the event of termination of their employment under specified circumstances, including following a change in control of the Company. We believe that entering into these agreements helps these executive officers maintain continued focus and dedication to their assigned duties to maximize shareholder value when faced with a potential transaction that could involve a change in control of the Company. The terms and conditions of these agreements were determined after review by our Compensation Committee of our retention goals for each executive officer, as well as an analysis of competitive market data.

For a summary of the material terms and conditions of the post-employment compensation arrangements for the NEOs, see "Potential Payments upon Termination or Change in Control."

(1) Amounts represent the potential cash incentive payments if the threshold or target performance levels are achieved under the Company's 2013 Incentive Award Program for the complete 2013 performance period (i.e., achievement of the same award level in each quarter). See the "Summary Compensation Table" for the actual Cash Incentive Award payments made to each NEO during 2013. The Compensation Committee approved 2013 target incentives for the NEOs on February 20, 2013.

(2) Amounts shown in the threshold column are based on the assumption that the Company achieves the minimum threshold performance levels described in "Compensation Discussion and Analysis Annual

Performance-based Cash Awards" section above, in which case each NEO would have earned 55% of the target cash incentive award established by the Compensation Committee.

- (3) Under the Company's Annual Cash Incentive Award Program for NEOs, there is the possibility of receiving additional payouts in the event that business plan targets for revenue and EBITA are exceeded. Refer to "Compensation Discussion and Analysis- 2013 Annual Cash Incentive Award Targets" for details of the additional potential payouts for each individual NEO.

The grant date fair value of these awards represents the incremental fair value of the RSU awards and stock options that were accelerated and would not have otherwise vested in 2013.

Potential Payments Upon Termination or Change in Control

Employment Agreement with Mr. Peterschmidt

The Company entered into a revised employment agreement with Mr. Peterschmidt on March 25, 2014, which provides for certain benefits and payments upon a termination or change in control. Such benefits vary depending on the nature of the termination. Upon either Mr. Peterschmidt's termination of employment by the Company without cause, or by him for good reason (each term as defined in the employment agreement), in addition to already earned salary and any earned but unpaid incentive compensation for the prior year, Mr. Peterschmidt is entitled to receive certain payments and benefits, subject to his executing a separation and release agreement. Such payments and benefits include:

a prorated performance-based cash bonus (provided that performance targets are met) for the portion of the year in which the termination occurs;

immediate vesting of all outstanding and unvested equity awards, if any (subject to achievement of performance criteria);

immediate vesting of the remaining unvested portion of the inducement equity award that was granted in connection with hiring Mr. Peterschmidt, if any;

health and dental benefits for a period of 24 months following termination for Mr. Peterschmidt and his spouse;

reimbursement of reasonable expenses incurred in connection with selling Mr. Peterschmidt's home in Colorado and relocating his family to California; and

a two year continuation of Mr. Peterschmidt's United Airlines Global Services membership.

Mr. Peterschmidt's employment agreement also provides for Change in Control payments and benefits that are structured with a "double trigger," which means they are contingent upon both a Change in Control (as that term is defined in the agreement) and an actual termination of employment by the Company without cause or a termination for good reason by Mr. Peterschmidt within 24 months after the occurrence of the Change of Control. In the event of a Change in Control followed by a termination meeting these conditions, in addition to already earned but unpaid salary and vacation pay and reimbursement of incurred expenses, Mr. Peterschmidt is entitled to receive the following severance payments and benefits:

a prorated performance-based cash bonus (provided that performance targets are met) for the portion of the year in which the termination occurs;

a severance payment equal to 2.0 times his then current base salary and annual performance-based cash bonus at the target level in effect on the day of termination;

full vesting of all outstanding and unvested equity awards and the remaining unvested portion of the inducement equity award that was granted in connection with his hiring; and

health and dental benefits for a period of 18 months following termination for him and his spouse.

Mr. Peterschmidt's employment agreement also provides for certain benefits in the event of his termination as a result of death or long-term disability. In the event of such a termination, Mr. Peterschmidt (or his estate or beneficiaries, as applicable), would be entitled to receive:

already earned salary and any earned but unpaid incentive compensation for the prior year;

a prorated performance-based cash bonus (provided that performance targets are met) for the portion of the year in which the termination occurs;

immediate vesting of all outstanding and unvested equity awards, if any (subject to achievement of performance criteria);

immediate vesting of the remaining unvested portion of the inducement equity award that was granted in connection with hiring Mr. Peterschmidt, if any; and

Standard Employment Agreement for EVPs, SVPs and Key VPs:

During 2011 and 2012, the Compensation Committee implemented a program to standardize the employment agreements for the Company's executive vice presidents, senior vice presidents, and key vice presidents. As of December 31, 2013, Messrs. Douglas and Fogel were each party to an employment agreement that reflects our standard terms. The termination provisions included in the standard agreement provide that upon a termination of employment by the Company without cause (as defined in the employment agreement), in addition to already earned but unpaid salary and vacation pay and reimbursement of incurred expenses, the executive officer is entitled to receive the following payments and benefits:

a cash severance payment equal to either nine or 12 months' of the executive officer's then current base salary and annual incentive at the target level in effect on the day of termination (depending on factors such as seniority of the executive officer);

immediate and full vesting of all outstanding and unvested equity awards that are scheduled to vest within six months following the day of termination; and

reimbursement of the cost of continuing health insurance coverage for the executive officer and his family under the Company's health insurance plan for a period of 12 months following termination.

Under the standard employment agreement, Change in Control payments and benefits are structured with a "double trigger," which means they are contingent upon both a Change in Control (as that term is defined in the agreement) and an actual termination of employment by the Company without cause or a termination for good reason by the executive officer within 12 months after the occurrence of the Change of Control. In the event of a Change in Control followed by a termination of employment meeting these conditions, in addition to already earned but unpaid salary and vacation pay and reimbursement of incurred expenses, the executive officer is entitled to receive the following severance payments and benefits:

a prorated portion of his annual incentive for the year in which the termination occurs, provided that performance targets related to the award are achieved (which is paid at the same time as the annual awards are normally paid for the year);

a severance payment equal to 1.25 times his then current base salary for one year and one year of his annual incentive at the target level as in effect on the day of termination;

Edgar Filing: CIBER INC - Form DEF 14A

immediate and full vesting of all outstanding and unvested equity awards held by him on the day of termination; and

reimbursement of the cost of continuing health insurance coverage for the executive officer and his family under the Company's health insurance plan for a period of 12 months following termination.

All severance or Change in Control payments and benefits are subject to compliance with these provisions, as well as the receipt of a signed legal release from the executive officer. Upon a termination of employment for cause (as defined in the standard agreement), the executive officer is not entitled to any severance payments or benefits.

The Compensation Committee determined the payment provisions based, in part, on an analysis by the Compensation Committee's compensation consultant of similar provisions at companies in the Peer Group and other employment market-related data.

Employment Agreement with Mr. Lehman

Mr. Lehman served as the Company's interim chief financial officer pursuant to an Interim Executive Employment and Confidentiality Agreement with the Company dated September 24, 2013. The agreement includes terms and provisions to protect the Company's business and confidential information in the event of termination of his employment, including standard non-compete, non-solicitation of clients, and no-hire obligations during the term of employment and for 12 months after termination of employment. Mr. Lehman's employment agreement did not provide for any severance payment or other benefits upon a termination of employment in connection with a Change in Control other than payment of earned and unpaid salary through the date of separation, accrued, unpaid vacation pay through the date of separation and reimbursement of expenses incurred prior to separation.

Severance Agreement with Mr. Pumilia

In connection with Mr. Pumilia's resignation from the Company, he entered into a separation agreement with the Company, which superseded his employment agreement and provided for separation terms that the Company determined to be in the best interests of the Company and its shareholders, taking into account Mr. Pumilia's prior service as the Company's Chief Financial Officer and the value of securing certain releases and covenants from Mr. Pumilia upon his departure from the Company. Accordingly, the Company agreed to pay Mr. Pumilia a lump-sum severance payment of \$798,000 that includes one year of his base salary, one year of his annual incentive at the target level, and a pro-rata portion of his annual incentive for the current year calculated at the target level. In addition, the Company agreed to accelerate the vesting of any outstanding and unvested stock options and RSU awards scheduled to vest on or before March 9, 2015. In exchange, Mr. Pumilia agreed to release the Company from any claims as well as standard covenants regarding the Company's confidential information and intellectual property.

Release Agreement with Mr. Genovese

During 2013, Mr. Genovese was party to the Company's standard executive officer employment agreement containing the severance and change-in-control terms and provisions summarized above. However, in connection with his resignation as the Company's vice president and chief operating officer, Mr. Genovese and the Company entered into a mutual release agreement effective January 16, 2014, that superseded Mr. Genovese's standard executive employment agreement. The release agreement provides for severance terms that the Company determined to be in the best interests of the Company and its shareholders, taking into account Mr. Genovese's prior service as a the chief operating officer of the Company and the value of securing certain releases and covenants from Mr. Genovese upon his departure. Accordingly, the Company agreed to accelerate the vesting of all of Mr. Genovese's outstanding and unvested stock options and RSU awards scheduled to vest on or before

Other Compensation Policies

Officer Stock Ownership Policy. On January 1, 2014 we expanded our stock ownership policy to apply not only to our directors but also to certain of our executive officers, specifically our CEO, CFO and, when applicable, our COO. Each of these executive officers is required to hold equity in the Company equal to three times that officer's annual salary. The total value of an executive officer's equity holdings includes all shares of common stock owned by the executive officer, plus 50% of the value of all unvested equity awards held by the executive officer. Our current CEO and CFO have five years from January 1, 2014 to meet this threshold, and any newly appointed CEO, CFO or COO will have five years from the date of his or her initial appointment to meet this stock ownership requirement.

Equity Grant Policy

We do not have an established formal policy with respect to the timing of equity awards in coordination with the release of material nonpublic information. As a matter of practice and informal policy, however, the Compensation Committee generally grants equity awards during periods considered to be our "open trading windows" (that is, the periods beginning 24 hours following our earnings release and ending one month 14 calendar days prior to the end of the fiscal quarter). In addition, any options to purchase shares of our common stock are required to be granted with an exercise price at least equal to the closing price of our common stock for the most recent trading day prior to the date of grant.

Compensation Recovery Policy

Currently, we have not implemented a policy regarding retroactive adjustments to any cash or equity-based incentive compensation paid to our executive officers and other employees where the payments were predicated on the achievement of financial results that were subsequently the subject of a financial restatement. Under the oversight and approval of our Compensation Committee, we intend to adopt a general compensation recovery ("clawback") policy once the SEC adopts final rules implementing such requirements under the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Policy Against Hedging and Pledging

Our Insider Trading Policy includes an express prohibition against trading derivatives based on our securities, hedging any investment in our equity securities, or pledging our equity securities by members of our Board of Directors, executive officers, or other employees designated as "insiders." We believe this policy is another means of preserving the ongoing alignment between our business leaders and our shareholders.

Tax and Accounting Considerations

The Compensation Committee takes certain tax and accounting requirements into consideration in designing and administering our executive compensation program.

Deductibility of Executive Compensation

Generally, Section 162(m) of the Internal Revenue Code disallows a tax deduction to a publicly-traded corporation for any remuneration in excess of \$1 million paid in any taxable year to its chief executive officer and each of its three other most highly-compensated executive officers (other than its chief financial officer). Remuneration in excess of \$1 million may be deducted if, among other things, it qualifies as "performance-based compensation" within the meaning of the Internal Revenue Code. For example, the compensation income realized upon the exercise of an option to purchase shares of our common stock granted under a shareholder-approved stock option plan generally will be deductible so long as the option was granted by a committee whose members are outside directors and certain other conditions are satisfied.

To the extent consistent with our overall compensation philosophy and practices, we intend to seek to qualify the variable compensation paid to our executive officers for the "performance-based compensation" exemption from the deduction limit. As such, in approving the amount and form of compensation for our executive officers, the Compensation Committee considers all elements of the cost to us of providing such compensation, including

the potential impact of the Section 162(m) deduction limit. The Compensation Committee may, in its judgment, authorize compensation payments that do not comply with an exemption from the deduction limit when it believes that such payments are appropriate to attract and retain executive talent.

Taxation of Nonqualified Deferred Compensation

Section 409A of the Internal Revenue Code requires that amounts that qualify as "non-qualified deferred compensation" satisfy certain requirements with respect to the timing of deferral elections, timing of payments, and certain other matters. Generally, the Compensation Committee intends to administer our executive compensation program and design individual compensation components, as well as the compensation plans and arrangements for our employees generally, so that they are either exempt from, or satisfy the requirements of, Section 409A. From time to time, we may be required to amend some of our compensation plans and arrangements to ensure that they are either exempt from, or compliant with, Section 409A.

Taxation of "Parachute" Payments

Sections 280G and 4999 of the Internal Revenue Code provide that certain executive officers and directors who hold significant equity interests and certain other service providers may be subject to an excise tax if they receive payments or benefits in connection with a change in control of the Company that exceeds prescribed limits, and that the Company, or a successor, may forfeit a deduction on the amounts subject to this additional tax. The employment agreements with our executive officers provide that, if the payments to the executive officer would cause him or her to become subject to the excise tax imposed under Section 4999 (or any similar federal, state, or local tax), we will reduce the change in control payments or benefits to the extent necessary to avoid the application of the excise tax if, as a result of such reduction, the net benefit payable to the executive officer as so reduced (after payment of applicable income taxes) exceeds the net benefit to him or her of the change in control payment or benefits without such reduction (after payment of applicable income taxes and excise taxes).

Accounting for Stock-Based Compensation

The Compensation Committee considers accounting requirements in designing compensation plans and arrangements for our executive officers and other employees. Chief among these is Financial Accounting Standards Board Accounting Standards Codification Topic 718 ("ASC Topic 718"), the standard which governs the accounting treatment of certain stock-based compensation. Among other things, ASC Topic 718 requires us to record compensation expense in our income statement for all equity awards granted to our executive officers and other employees. This compensation expense is based on the grant date fair value of the equity award and, in most cases, will be recognized ratably over the award's requisite service period, which generally will correspond to the award's vesting schedule. The full grant date fair value of equity awards is reported in the compensation tables below, even though recipients may never realize any value from their equity awards.

Compensation Risk Assessment

The Company monitors the compensation-related risks associated with its compensation programs on an ongoing basis. We believe that these programs, as well as our compensation policies and practices, are not reasonably likely to present material risk to the Company.

Compensation Committee Interlocks and Insider Participation

During 2013, none of the members of our Compensation Committee served, or has at any time served, as an officer or employee of our company or any of our subsidiaries. In addition, none of our executive officers has served as a member of a board of directors or a compensation committee, or other committee serving an equivalent function, of any other entity, one of whose executive officers served as a member of the Board or the Compensation Committee. Accordingly, our Compensation Committee members have no interlocking relationships required to be disclosed under SEC rules and regulations.

The Audit Committee of the Board assists the Board in fulfilling its responsibilities for financial reporting compliance by reviewing the audited financial statements, reviewing the system of internal controls that management and the Board of Directors have established, and reviewing the overall audit process. The Audit Committee, in its capacity as a committee of the Board, is directly responsible for the appointment, compensation, and oversight of the independent registered public accounting firm and has:

reviewed and discussed the 2013 audited financial statements separately and jointly with management and with Ernst & Young LLP, our independent registered public accounting firm;

provided oversight and advice to management with respect to the documentation, testing, and evaluation of our system of internal control over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act of 2002 and related regulations, received periodic updates provided by management and E&Y, and reviewed a report on the effectiveness of our internal control over financial reporting;

discussed with E&Y the matters required by the Statement on Auditing Standards No. 16, "Communications with Audit Committees," as modified or supplemented by the Auditing Standards Board of the American Institute of Certified Public Accountants or the Public Company Accounting Oversight Board ("PCAOB");

received the written disclosures and the letter from E&Y required by applicable requirements of the PCAOB for independent auditor communications with the Audit Committee, as the same may be modified or supplemented, and has discussed with E&Y its independence; and

considered whether the auditor's provision of non-audit services is compatible with independence and concluded that the services rendered by E&Y are compatible with maintaining the principal accountant's independence.

Based upon this review and the discussions referred to above, the Audit Committee has recommended to the Board that the audited financial statements be included in our 2013 Annual Report on Form 10-K and that this report be included in the proxy statement for our 2014 Annual Meeting of Shareholders.
