NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Basis of Presentation

The unaudited Condensed Consolidated Financial Statements of TE Connectivity Ltd. ("TE Connectivity" or the "Company," which may be referred to as "we," "us," or "our") have been prepared in United States ("U.S.") dollars, in accordance with accounting principles generally accepted in the U.S. ("GAAP") and the instructions to Form 10-Q under the Securities Exchange Act of 1934, as amended. In management's opinion, the unaudited Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary for a fair presentation of interim results. The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire fiscal year or any subsequent interim period.

The year-end balance sheet data was derived from audited financial statements, but does not include all of the information and disclosures required by GAAP. These financial statements should be read in conjunction with our audited Consolidated Financial Statements contained in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015.

Unless otherwise indicated, references in the Condensed Consolidated Financial Statements to fiscal 2016 and fiscal 2015 are to our fiscal years ending September 30, 2016 and September 25, 2015, respectively.

2. Accounting Pronouncements

Recently Adopted Accounting Pronouncements

In April 2015, the Financial Accounting Standards Board ("FASB") issued an update to Accounting Standards Codification ("ASC") 835, *Interest*, requiring that debt issuance costs related to a recognized debt liability be presented on the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. This update is required to be applied on a retrospective basis and is effective for us in the first quarter of fiscal 2017. We elected to early adopt this update during the first quarter of fiscal 2016. Adoption did not have a material impact on the Condensed Consolidated Financial Statements.

In November 2015, the FASB issued an update to ASC 740, *Income Taxes*, requiring that deferred tax assets and liabilities be classified as non-current in a classified statement of financial position. This update is effective for us in the first quarter of fiscal 2018; however, we elected to early adopt this update on a prospective basis during the first quarter of fiscal 2016. Prior period amounts were not retrospectively adjusted. The impact of adoption was a \$345 million decrease in deferred income taxes (current asset), a \$313 million increase in deferred income taxes (non-current asset), a \$33 million decrease in accrued and other current liabilities, and a \$1 million increase in deferred income taxes (non-current liability) on the Condensed Consolidated Balance Sheet at December 25, 2015.

3. Restructuring and Other Charges, Net (Continued)

Fiscal 2016 Actions

During fiscal 2016, we initiated a restructuring program associated with headcount reductions and product line closures impacting all segments. In connection with this program, during the quarter ended December 25, 2015, we recorded restructuring charges of \$32 million. We expect to complete all restructuring actions commenced in the first quarter of fiscal 2016 by the end of fiscal 2019 and to incur total charges of approximately \$65 million.

The following table summarizes expected, incurred, and remaining charges for the fiscal 2016 program by type:

	Total Expected Charges	Charges Incurred For the Quarter Ended December 25, 2015 (in millions)	Remaining Expected Charges
Employee severance	\$ 55	\$ 30	\$ 25
Facility and other exit costs	6	1	5
Property, plant, and equipment	4	1	3
Total	\$ 65	\$ 32	\$ 33

The following table summarizes expected, incurred, and remaining charges for the fiscal 2016 program by segment:

	Total Expected Charges	Charges Incurred For the Quarter Ended December 25, 2015 (in millions)	Remaining Expected Charges
Transportation Solutions	\$ 21	\$ 14	\$ 7
Industrial Solutions	11	8	3
Communications Solutions	33	10	23
Total	\$ 65	\$ 32	\$ 33

Fiscal 2015 Actions

During fiscal 2015, we initiated a restructuring program associated with headcount reductions and product line closures, primarily impacting the Communications Solutions and Industrial Solutions segments. In connection with this program, during the quarters ended December 25, 2015 and December 26, 2014, we recorded restructuring charges of \$1 million and \$25 million, respectively. We do not expect to incur any additional charges related to fiscal 2015 actions.

Pre-Fiscal 2015 Actions

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

During fiscal 2014, we initiated a restructuring program associated primarily with headcount reductions and manufacturing site and product line closures in the Communications Solutions segment.

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****3. Restructuring and Other Charges, Net (Continued)**

During fiscal 2013, we initiated a restructuring program associated with headcount reductions and manufacturing site closures impacting all segments. During the quarter ended December 25, 2015, we recorded restructuring charges of \$2 million related to pre-fiscal 2015 actions. We do not expect to incur any additional charges related to pre-fiscal 2015 actions.

Total Restructuring Reserves

Restructuring reserves included on the Condensed Consolidated Balance Sheets were as follows:

	December 25, 2015	September 25, 2015
	(in millions)	
Accrued and other current liabilities	\$ 69	\$ 60
Other liabilities	26	24
Restructuring reserves	\$ 95	\$ 84

4. Discontinued Operations and Divestiture***Discontinued Operations***

During the fourth quarter of fiscal 2015, we sold our Broadband Network Solutions ("BNS") business for \$3.0 billion in cash and recognized a pre-tax gain of \$1,105 million on the transaction. In the first quarter of fiscal 2016, we recognized an additional pre-tax gain of \$38 million on the divestiture, related primarily to pension and net working capital adjustments. The BNS business met the discontinued operations criteria and was reported as such in all periods presented on the Condensed Consolidated Financial Statements. Prior to reclassification to discontinued operations, the BNS business was included in the former Network Solutions segment.

The following table presents certain components of income from discontinued operations related to BNS and prior divestitures:

	For the Quarters Ended	
	December 25, 2015	December 26, 2014
	(in millions)	
Net sales from discontinued operations	\$	\$ 417
Pre-tax income (loss) from discontinued operations	\$ (2)	\$ 51
Pre-tax gain on sale of discontinued operations	38	
Income tax expense	(7)	(14)
Income from discontinued operations, net of income taxes	\$ 29	\$ 37

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****4. Discontinued Operations and Divestiture (Continued)***Planned Divestiture*

On November 7, 2015, we entered into a definitive agreement to sell our Circuit Protection Devices ("CPD") business for \$350 million in cash, subject to a final working capital adjustment. The transaction is expected to close during the second quarter of fiscal 2016 pending customary closing conditions and regulatory approvals. The net assets of the CPD business were approximately \$200 million at December 25, 2015. The CPD business is currently reported in our Communications Solutions segment.

5. Acquisition

On October 9, 2014, we acquired 100% of the outstanding shares of Measurement Specialties, Inc. ("Measurement Specialties"). The following unaudited pro forma financial information reflects our consolidated results of operations had the Measurement Specialties acquisition occurred at the beginning of fiscal 2014:

	Pro Forma for the Quarter Ended December 26, 2014 (in millions, except per share data)	
Net sales	\$	3,068
Net income.		493
Diluted earnings per share	\$	1.19

The pro forma financial information is based on our final allocation of the purchase price. The significant pro forma adjustments, which are described below, are net of income tax expense (benefit) at the statutory rate.

Pro forma results for the quarter ended December 26, 2014 were adjusted to exclude \$16 million of acquisition costs, \$15 million of share-based compensation expense incurred by Measurement Specialties as a result of the change in control of Measurement Specialties, \$11 million of charges related to the fair value adjustment to acquisition-date inventories, \$8 million of income tax expense based on the estimated impact of combining Measurement Specialties into our global tax position, and \$5 million of charges related to acquired customer order backlog. Pro forma results for the quarter ended December 26, 2014 were also adjusted to include \$1 million of interest expense based on pro forma changes in our capital structure.

Pro forma results do not include any anticipated synergies or other anticipated benefits of the acquisition. Accordingly, the unaudited pro forma financial information is not necessarily indicative of either future results of operations or results that might have been achieved had the Measurement Specialties acquisition occurred at the beginning of fiscal 2014.

9. Debt

Tyco Electronics Group S.A. ("TEGSA"), our 100%-owned subsidiary, has a five-year unsecured senior revolving credit facility ("Credit Facility") with total commitments of \$1,500 million. The Credit Facility was amended in December 2015 primarily to extend the maturity date from August 2018 to December 2020. TEGSA had no borrowings under the Credit Facility at December 25, 2015 and September 25, 2015.

Borrowings under the Credit Facility bear interest at a rate per annum equal to, at the option of TEGSA, (1) London interbank offered rate ("LIBOR") plus an applicable margin based upon the senior, unsecured, long-term debt rating of TEGSA, or (2) an alternate base rate equal to the highest of (i) Bank of America, N.A.'s base rate, (ii) the federal funds effective rate plus $\frac{1}{2}$ of 1%, and (iii) one-month LIBOR plus 1%, plus, in each case, an applicable margin based upon the senior, unsecured, long-term debt rating of TEGSA. TEGSA is required to pay an annual facility fee ranging from 5.0 to 12.5 basis points based upon the amount of the lenders' commitments under the Credit Facility and the applicable credit ratings of TEGSA.

The fair value of our debt, based on indicative valuations, was approximately \$4,067 million and \$4,115 million at December 25, 2015 and September 25, 2015, respectively.

10. Guarantees***Tax Sharing Agreement***

Effective June 29, 2007, we became the parent company of the former electronics businesses of Tyco International plc ("Tyco International"). On June 29, 2007, Tyco International distributed all of our shares, as well as its shares of its former healthcare businesses ("Covidien"), to its common shareholders (the "separation"). On January 26, 2015, Covidien was acquired and now operates as a subsidiary of Medtronic plc.

Upon separation, we entered into a Tax Sharing Agreement, under which we share responsibility for certain of our, Tyco International's, and Covidien's income tax liabilities based on a sharing formula for periods prior to and including June 29, 2007. We, Tyco International, and Covidien share 31%, 27%, and 42%, respectively, of U.S. income tax liabilities that arise from adjustments made by tax

authorities to our, Tyco International's, and Covidien's U.S. income tax returns. The effect of the Tax Sharing Agreement is to indemnify us for 69% of certain liabilities settled in cash by us with respect to unresolved pre-separation tax matters. Pursuant to that indemnification, we have made similar indemnifications to Tyco International and Covidien with respect to 31% of certain liabilities settled in cash by the companies relating to unresolved pre-separation tax matters. If any of the companies responsible for all or a portion of such liabilities were to default in its payment of costs or expenses related to any such liability, we would be responsible for a portion of the defaulting party or parties' obligation. Our indemnification created under the Tax Sharing Agreement qualifies as a guarantee of a third party entity's debt under ASC 460, *Guarantees*. At December 25, 2015 and September 25, 2015, we had a liability of \$17 million representing the indemnifications made to Tyco International and Covidien pursuant to the Tax Sharing Agreement.

Other Matters

In disposing of assets or businesses, we often provide representations, warranties, and/or indemnities to cover various risks including unknown damage to assets, environmental risks involved in the sale of real estate, liability for investigation and remediation of environmental contamination at waste disposal sites and manufacturing facilities, and unidentified tax liabilities and legal fees related to periods prior to disposition. We do not expect that these uncertainties will have a material adverse effect on our results of operations, financial position, or cash flows.

At December 25, 2015, we had outstanding letters of credit, letters of guarantee, and surety and appeal bonds in the amount of \$504 million.

In the normal course of business, we are liable for contract completion and product performance. In the opinion of management, such obligations will not significantly affect our results of operations, financial position, or cash flows.

We generally record estimated product warranty costs when contract revenues are recognized under the percentage-of-completion method for construction related contracts; other warranty reserves are not significant. The estimation is based primarily on historical experience and actual warranty claims. Amounts accrued for warranty claims were \$39 million and \$35 million at December 25, 2015 and September 25, 2015, respectively.

11. Commitments and Contingencies

Legal Proceedings

In the normal course of business, we are subject to various legal proceedings and claims, including patent infringement claims, product liability matters, employment disputes, disputes on agreements, other commercial disputes, environmental matters, antitrust claims, and tax matters, including non-income tax matters such as value added tax, sales and use tax, real estate tax, and transfer tax. Although it is not feasible to predict the outcome of these proceedings, based upon our experience, current information, and applicable law, we do not expect that the outcome of these proceedings, either individually or in the aggregate, will have a material effect on our results of operations, financial position, or cash flows. However, the proceedings discussed below in "Income Tax Matters" could have a material effect on our results of operations, financial position, or cash flows.

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****11. Commitments and Contingencies (Continued)**

As previously reported, we had a contingent purchase price commitment of \$80 million related to our fiscal 2001 acquisition of Com-Net. This represented the maximum amount payable to the former shareholders of Com-Net only after the construction and installation of a communications system was completed for and approved by the State of Florida in accordance with guidelines set forth in the contract. Under the terms of the purchase and sale agreement, we did not believe we had any obligation to the sellers. However, the sellers contested our position and initiated a lawsuit in June 2006 in the Court of Common Pleas in Allegheny County, Pennsylvania. Trial began in March 2015 and culminated in the entry of final judgment on October 8, 2015, in favor of the sellers and against us for \$127 million plus costs. The judgment represents the \$80 million contingent purchase price plus pre-judgment interest, which will continue to accrue until the judgment is paid in full. We are appropriately reserved for this matter and are proceeding with an appeal.

Income Tax Matters

The Tax Sharing Agreement generally governs our, Tyco International's, and Covidien's respective rights, responsibilities, and obligations with respect to taxes for periods prior to and including June 29, 2007. Pursuant to the Tax Sharing Agreement, we entered into certain guarantee commitments and indemnifications with Tyco International and Covidien. See Note 10 for additional information regarding the Tax Sharing Agreement.

In October 2012, the Internal Revenue Service ("IRS") issued special agreement Forms 870-AD, effectively settling its audit of all tax matters for the years 1997 through 2000, excluding one issue that remains in dispute involving the tax treatment of certain intercompany debt transactions. The IRS field examination asserted that certain intercompany loans originated during the years 1997 through 2000 did not constitute debt for U.S. federal income tax purposes and disallowed approximately \$2.7 billion of related interest deductions recognized during the period on Tyco International's U.S. income tax returns. In addition, if the IRS is ultimately successful in asserting its claim, it is likely to disallow an additional \$6.6 billion of interest deductions reflected on U.S. income tax returns in years subsequent to fiscal 2000. Tyco International contends that the intercompany financing qualified as debt for U.S. income tax purposes and that the interest deductions reflected on the income tax returns were appropriate. The IRS and Tyco International were unable to resolve this matter through the IRS appeals process. On June 20, 2013, Tyco International advised us that it had received Notices of Deficiency from the IRS for certain former U.S. subsidiaries of Tyco International increasing taxable income by approximately \$2.9 billion in connection with the audit of Tyco International's fiscal years 1997 through 2000. The Notices of Deficiency assert that Tyco International owes additional taxes totaling \$778 million, associated penalties of \$154 million, and withholding taxes of \$105 million. In addition, Tyco International received Final Partnership Administrative Adjustments for certain U.S. partnerships owned by former U.S. subsidiaries with respect to which Tyco International estimates an additional tax deficiency of approximately \$30 million will be asserted. The amounts asserted by the IRS exclude any applicable deficiency interest, and do not reflect any impact to subsequent period tax liabilities in the event that the IRS were to prevail on some or all of its assertions. We understand that Tyco International strongly disagrees with the IRS position and has filed petitions in the U.S. Tax Court contesting the IRS's proposed adjustments. Tyco International has advised us that it believes there are meritorious defenses for the tax filings in question and that the IRS position with regard to this matter is inconsistent with the applicable tax laws and existing U.S. Treasury regulations.

11. Commitments and Contingencies (Continued)

The previously set U.S. Tax Court trial date of February 29, 2016 has been delayed at the request of the IRS, and trial is currently scheduled to commence during October 2016. The parties remain engaged in discovery. In accordance with the Tax Sharing Agreement, we, Tyco International, and Covidien would share 31%, 27%, and 42%, respectively, of any payments made in connection with this matter.

If the IRS were to prevail on its assertions, our share of the assessed tax, deficiency interest, and applicable withholding taxes and penalties could have a material adverse impact on our results of operations, financial position, and cash flows. We have reviewed the Notices of Deficiency, the relevant facts surrounding the intercompany debt transactions, relevant tax regulations, and applicable case law, and we continue to believe that we are appropriately reserved for this matter.

In the first quarter of fiscal 2015, the IRS issued general agreement Forms 870, effectively settling its audits of tax matters for the years 2001 through 2007, excluding the disputed issue discussed above. As a result of these developments, in the first quarter of fiscal 2015, we recognized an income tax benefit of \$189 million, representing a reduction in tax reserves for the matters that were effectively settled, and other expense of \$83 million, representing a reduction of associated indemnification receivables, pursuant to the Tax Sharing Agreement with Tyco International and Covidien.

Also during fiscal 2015, the IRS issued general agreement Forms 870, effectively settling its audits of tax matters for the years 2008 through 2010, excluding the disputed issue discussed above.

During the first quarters of fiscal 2016 and 2015, we made net payments of \$1 million and \$4 million, respectively, related to pre-separation U.S. tax matters.

At December 25, 2015 and September 25, 2015, we have reflected \$20 million and \$17 million, respectively, of income tax liabilities related to the audits of Tyco International's and our income tax returns in accrued and other current liabilities as certain of these matters could be resolved within the next twelve months.

We believe that the amounts recorded on the Condensed Consolidated Financial Statements relating to the matters discussed above are appropriate. However, the ultimate resolution is uncertain and could result in a material impact to our results of operations, financial position, or cash flows.

See Note 20 for additional information on developments subsequent to December 25, 2015 regarding income tax matters, including the disputed issue.

Environmental Matters

We are involved in various stages of investigation and cleanup related to environmental remediation matters at a number of sites. The ultimate cost of site cleanup is difficult to predict given the uncertainties regarding the extent of the required cleanup, the interpretation of applicable laws and regulations, and alternative cleanup methods. As of December 25, 2015, we concluded that it was probable that we would incur remedial costs in the range of \$16 million to \$44 million, and that the best estimate within this range was \$19 million. We believe that any potential payment of such estimated amounts will not have a material adverse effect on our results of operations, financial position, or cash flows.

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****12. Financial Instruments***Hedges of Net Investment*

We hedge our net investment in certain foreign operations using intercompany non-derivative financial instruments denominated in the same currencies. The aggregate notional value of these hedges was \$3,853 million and \$3,880 million at December 25, 2015 and September 25, 2015, respectively. Foreign exchange gains of \$55 million and \$130 million in the quarters ended December 25, 2015 and December 26, 2014, respectively, were recorded as currency translation, a component of accumulated other comprehensive income (loss), offsetting foreign exchange losses attributable to the translation of the net investment.

13. Retirement Plans

The net periodic pension benefit cost for all U.S. and non-U.S. defined benefit pension plans was as follows:

	U.S. Plans		Non-U.S. Plans	
	For the Quarters Ended December 25, 2015	December 26, 2014	For the Quarters Ended December 25, 2015	December 26, 2014

Amortization of net actuarial loss	10	7	9	9
Amortization of prior service credit			(1)	(1)
Net periodic pension benefit cost	\$ 10	\$ 4	\$ 15	\$ 16

During the quarter ended December 25, 2015, we contributed \$27 million to our non-U.S. pension plans.

14. Income Taxes

We recorded an income tax provision of \$58 million and an income tax benefit of \$109 million for the quarters ended December 25, 2015 and December 26, 2014, respectively. The tax provision for the quarter ended December 25, 2015 includes a \$28 million income tax benefit related to deferred tax assets recognized in connection with the anticipated sale of the CPD business. The tax benefit for the quarter ended December 26, 2014 includes a \$189 million income tax benefit related to the effective settlement of undisputed tax matters for the years 2001 through 2007, and a \$22 million income tax benefit related to the impacts of certain non-U.S. tax law changes and the associated reduction in the valuation allowance for tax loss carryforwards.

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****14. Income Taxes (Continued)**

We record accrued interest as well as penalties related to uncertain tax positions as part of the provision for income taxes. As of December 25, 2015 and September 25, 2015, we had recorded \$1,097 million and \$1,076 million, respectively, of accrued interest and penalties related to uncertain tax positions on the Condensed Consolidated Balance Sheets, recorded primarily in income taxes. During the quarter ended December 25, 2015, we recognized a \$21 million income tax provision related to interest and penalties on the Condensed Consolidated Statement of Operations.

Although it is difficult to predict the timing or results of our worldwide examinations, we estimate that up to approximately \$65 million of unrecognized income tax benefits, excluding the impact relating to accrued interest and penalties, could be resolved within the next twelve months. See Notes 11 and 20 for additional information regarding the status of IRS examinations, including developments subsequent to December 25, 2015.

We are not aware of any other matters that would result in significant changes to the amount of unrecognized income tax benefits reflected on the Condensed Consolidated Balance Sheet as of December 25, 2015.

15. Other Income (Expense), Net

During the quarters ended December 25, 2015 and December 26, 2014, we recorded net other income of \$8 million and net other expense of \$70 million, respectively, primarily pursuant to the Tax Sharing Agreement with Tyco International and Covidien. See Note 10 for further information regarding the Tax Sharing Agreement.

The net other expense for the quarter ended December 26, 2014 included \$83 million related to the effective settlement of undisputed tax matters for the years 2001 through 2007. See Note 11 for additional information.

16. Earnings Per Share

The weighted-average number of shares outstanding used in the computations of basic and diluted earnings per share were as follows:

	For the Quarters Ended	
	December 25, 2015	December 26, 2014
	(in millions)	
Basic	385	407
Dilutive impact of share-based compensation arrangements	5	6
Diluted	390	413

There were two million share options that were not included in the computation of diluted earnings per share for the first quarters of fiscal 2016 and 2015 because the instruments' underlying exercise prices were greater than the average market prices of our common shares and inclusion would be antidilutive.

17. Equity

Dividends

We paid a cash dividend of \$0.33 per share to shareholders out of contributed surplus in the first quarter of fiscal 2016.

Upon shareholders' approval of a dividend payment, we record a liability with a corresponding charge to contributed surplus. At December 25, 2015 and September 25, 2015, the unpaid portion of the dividends recorded in accrued and other current liabilities on the Condensed Consolidated Balance Sheets totaled \$124 million and \$260 million, respectively.

Share Repurchase Program

Common shares repurchased under the share repurchase program were as follows:

	For the Quarters Ended	
	December 25, 2015	December 26, 2014
	(in millions)	
Number of common shares repurchased	20	2
Amount repurchased	\$ 1,318	\$ 141

At December 25, 2015, we had \$1.4 billion of availability remaining under our share repurchase authorization.

18. Share Plans

Total share-based compensation expense, which was included primarily in selling, general, and administrative expenses on the Condensed Consolidated Statements of Operations, was as follows:

	For the Quarters Ended	
	December 25, 2015	December 26, 2014
	(in millions)	
Share-based compensation expense	\$ 22	\$ 23

As of December 25, 2015, there was \$195 million of unrecognized compensation expense related to share-based awards, which is expected to be recognized over a weighted-average period of 2.2 years.

During the first quarter of fiscal 2016, we granted the following equity awards as part of our annual incentive plan grant:

	Shares	Weighted- Average Grant-Date Fair Value
	(in millions)	
Share options	1.8	\$ 14.37
Restricted share awards	0.7	65.95
Performance share awards	0.3	65.95

As of December 25, 2015, we had 16 million shares available for issuance under our stock and incentive plans, of which the TE Connectivity Ltd. 2007 Stock and Incentive Plan, as amended and restated, was the primary plan.

Share-Based Compensation Assumptions

The weighted-average assumptions we used in the Black-Scholes-Merton option pricing model for the options granted as part of our annual incentive plan grant were as follows:

Expected share price volatility	26%
Risk free interest rate	2.01%
Expected annual dividend per share	\$ 1.32
Expected life of options (in years)	5.7

19. Segment Data

Net sales and operating income by segment were as follows:

(1) Intersegment sales were not material and were recorded at selling prices that approximated market prices.

20. Subsequent Event***Income Tax Matters***

On January 15, 2016, Tyco International entered into Stipulations of Settled Issues (the "Stipulations") with the IRS intended to resolve all disputes related to the intercompany debt matters for the 1997 through 2000 audit cycle currently before the U.S. Tax Court. The Stipulations are contingent upon the IRS Appeals Division applying the same settlement or framework to all intercompany debt issues on appeal for subsequent audit cycles (years 2001 through 2007) and, if applicable, the review by the U.S. Congress Joint Committee on Taxation.

If finalized, this would resolve all aspects of the intercompany debt dispute relating to the 1997 through 2000 audit cycle before the U.S. Tax Court and subsequent audit cycles (years 2001 through 2007) before the Appeals Division of the IRS. In addition, we expect the terms of the resolution will be consistently applied by the IRS to all of our U.S. income tax returns filed subsequent to fiscal 2007. The settlement is expected to result in a total cash payment to the IRS between \$475 million and

\$525 million, including all interest and penalties. In accordance with the Tax Sharing Agreement, our payment obligation is expected to be between \$147 million and \$163 million.

We do not expect to recognize any additional charges if the settlement becomes effective, as we previously recorded sufficient reserves with respect to this dispute and our obligations under the Tax Sharing Agreement. We expect payment to be made to the IRS, and among the parties to the Tax Sharing Agreement, within the next six months.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our Condensed Consolidated Financial Statements and the accompanying notes included elsewhere in this Quarterly Report. The following discussion may contain forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in these forward-looking statements as a result of many factors, including but not limited to those under the heading "Forward-Looking Information" and "Part II. Item 1A. Risk Factors."

Our Condensed Consolidated Financial Statements have been prepared in United States ("U.S.") dollars, in accordance with accounting principles generally accepted in the U.S. ("GAAP").

The following discussion includes organic net sales growth and free cash flow which are non-GAAP financial measures. We believe these non-GAAP financial measures, together with GAAP financial measures, provide useful information to investors because they reflect the financial measures that management uses in evaluating the underlying results of our operations. See "Non-GAAP Financial Measures" for more information about these non-GAAP financial measures, including our reasons for including the measures and material limitations with respect to the usefulness of the measures.

Overview

TE Connectivity Ltd. ("TE Connectivity" or the "Company," which may be referred to as "we," "us," or "our") is a global technology leader. We design and manufacture connectivity and sensor solutions that are essential in today's increasingly connected world. We help our customers solve the need for intelligent, efficient, and high-performing products and solutions.

Highlights for the first quarter of fiscal 2016 include the following:

Our net sales decreased 7.1% in the first quarter of fiscal 2016 as compared to the first quarter of fiscal 2015 with sales declines in all segments. The decrease resulted primarily from the negative impact of foreign currency translation due to the weakening of certain currencies.

On an organic basis, net sales decreased 1.8% in the first quarter of fiscal 2016 as compared to the first quarter of fiscal 2015. Our organic net sales by segment were as follows:

Transportation Solutions Our organic net sales increased 0.9% in the first quarter of fiscal 2016 as increased sales in the sensors and automotive end markets were partially offset by declines in the commercial transportation end market.

Industrial Solutions Our organic net sales decreased 6.3% during the first quarter of fiscal 2016 due primarily to decreased sales in the aerospace, defense, oil, and gas and industrial equipment end markets.

Communications Solutions Our organic net sales decreased 3.0% in the first quarter of fiscal 2016 with sales declines in the data and devices and appliances end markets, partially offset by sales increases in the subsea communications end market.

Net cash provided by continuing operating activities increased \$162 million to \$367 million in the first quarter of fiscal 2016 from \$205 million in the same period of fiscal 2015. Free cash flow increased to \$237 million in the first quarter of fiscal 2016 as compared to \$79 million in the same period of fiscal 2015.

During November 2015, we entered into a definitive agreement to sell our Circuit Protection Devices ("CPD") business.

Table of Contents

Outlook

In the second quarter of fiscal 2016, we expect net sales to be between \$2.88 billion and \$3.08 billion. This primarily reflects sales declines in the Communications Solutions and Industrial Solutions segments in the second quarter of fiscal 2016 relative to the second quarter of fiscal 2015. Additional information regarding expectations for our reportable segments for the second quarter of fiscal 2016 is as follows:

Transportation Solutions We expect our sales growth in the automotive end market to exceed an anticipated 1% growth in global automotive production in the second quarter of fiscal 2016 as compared to the same period of fiscal 2015.

Industrial Solutions We expect our sales to decrease during the second quarter of 2016 as compared to the same period of fiscal 2015 as a result of the slowdown in China, inventory reductions in the supply chain, and continued weakness in the oil and gas market.

Communications Solutions We expect our sales to decline in the data and devices and appliances end markets in the second quarter of fiscal 2016 as compared to the second quarter of fiscal 2015 due to continued weakness in China, inventory reductions in the supply chain, and the exit of certain product lines. These declines are expected to be partially offset by sales growth in the subsea communications end market.

We expect diluted earnings per share to be in the range of \$0.78 to \$0.86 per share in the second quarter of fiscal 2016. This outlook reflects continued market weakness in China and inventory reductions in the supply chain. Also, it reflects the negative impact of foreign currency exchange rates on net sales and earnings per share of approximately \$73 million and \$0.03 per share, respectively, in the second quarter of fiscal 2016 as compared to the second quarter of fiscal 2015.

For fiscal 2016, which will be 53 weeks in length, we expect net sales to be between \$11.9 billion and \$12.7 billion, primarily reflecting sales increases in the Transportation Solutions segment offset by sales declines in the Communications Solutions segment from fiscal 2015 levels. Additional information regarding expectations for our reportable segments for fiscal 2016 is as follows:

Transportation Solutions During fiscal 2016, we expect our sales growth in the automotive end market to outpace an anticipated 2% growth in global automotive production as compared to fiscal 2015. Also, we expect our sales to increase in the sensors end market in fiscal 2016.

Industrial Solutions Although we expect our sales to decline in the oil and gas market due to continued market weakness in fiscal 2016, we expect the Industrial Solutions segment's sales to be consistent with fiscal 2015 levels.

Communications Solutions In fiscal 2016, we expect our sales to decline in the data and devices end market as a result of the divestiture of the CPD business and the exit of certain product lines as compared to fiscal 2015. This decline is expected to be partially offset by sales growth in the subsea communications and appliances end markets.

We expect diluted earnings per share to be in the range of \$3.66 to \$4.06 per share in fiscal 2016. This outlook includes approximately \$200 million in net sales and \$0.05 earnings per share resulting from an additional week in fiscal 2016. Also, this outlook reflects the negative impact of foreign currency exchange rates on net sales and earnings per share of approximately \$344 million and \$0.13 per share, respectively, in fiscal 2016 as compared to fiscal 2015.

The above outlook is based on foreign exchange rates and commodity prices that are consistent with current levels.

We are monitoring the current macroeconomic environment, including the uncertain market conditions in China, and its potential effects on our customers and the end markets we serve. We

continue to closely manage our costs in line with economic conditions. Additionally, we are managing our capital resources and monitoring capital availability to ensure that we have sufficient resources to fund future capital needs. See further discussion in "Liquidity and Capital Resources."

Planned Divestiture

On November 7, 2015, we entered into a definitive agreement to sell our CPD business for \$350 million in cash, subject to a final working capital adjustment. The transaction is expected to close during the second quarter of fiscal 2016 pending customary closing conditions and regulatory approvals. The net assets of the CPD business were approximately \$200 million at December 25, 2015. The CPD business is currently reported as part of the Data and Devices business within our Communications Solutions segment.

The following table provides an analysis of the change in our net sales by segment:

	Change in Net Sales for the Quarter Ended December 25, 2015 versus Net Sales for the Quarter Ended December 26, 2014						
	Organic		Translation		Acquisitions		Total
	(\$ in millions)

Total	\$ (54)	(1.8)%	\$ (183)	\$ 21	\$ (216)	(7.1)%	

Net sales decreased \$216 million, or 7.1%, in the first quarter of fiscal 2016 as compared to the first quarter of fiscal 2015. The decrease in net sales resulted primarily from the negative impact of foreign currency translation of 6.0% and organic net sales declines of 1.8%

On an organic basis, net sales decreased \$54 million, or 1.8%, in the first quarter of fiscal 2016 from the first quarter of fiscal 2015 due primarily to sales declines in the Industrial Solutions and Communications Solutions segments. Price erosion adversely affected organic sales by \$53 million in the first quarter of fiscal 2016.

See further discussion of net sales below under "Segment Results."

Net Sales by Geographic Region. Approximately 53% of our net sales were invoiced in currencies other than the U.S. dollar in the first quarter of fiscal 2016. Our results of operations are influenced by changes in foreign currency exchange rates. Increases or decreases in the value

of the U.S. dollar,

compared to other currencies, will directly affect our reported results as we translate those currencies into U.S. dollars at the end of each fiscal period.

The following table sets forth our net sales and the percentage of total net sales by geographic region⁽¹⁾:

	For the Quarters Ended			
	December 25, 2015		December 26, 2014

(1) Net sales to external customers are attributed to individual countries based on the legal entity that records the sale.

(2) The Americas includes our subsea communications business.

The following table provides an analysis of the change in our net sales by geographic region:

Cost of Sales and Gross Margin

The following table presents cost of sales and gross margin in dollars and as a percentage of net sales, as well as the changes from the first quarter of fiscal 2015:

	For the Quarters Ended				
	December 25, 2015		December 26, 2014		Increase (Decrease)
	(\$ in millions)				
Cost of sales	\$ 1,888	\$ 2,029	\$ (141)		
As a percentage of net sales	66.6%	66.5%	0.1%		
Gross margin	\$ 945	\$ 1,020	\$ (75)		
As a percentage of net sales	33.4%	33.5%	(0.1)%		

Gross margin decreased \$75 million in the first quarter of fiscal 2016 as compared to the first quarter of fiscal 2015. In the first quarter of fiscal 2015, gross margin included charges of \$27 million from the amortization of acquisition-related fair value adjustments to acquired inventories and customer order backlog primarily associated with Measurement Specialties, Inc. ("Measurement Specialties"). Excluding this

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

item, gross margin decreased due primarily to the negative impact of changes in foreign currency exchange rates, lower volume, and price erosion, partially offset by lower material costs and improved manufacturing productivity.

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

Table of Contents

Cost of sales and gross margin are subject to variability in raw material prices, and the price of many of our raw materials continues to fluctuate. We expect to purchase approximately 160 million pounds of copper, 121,000 troy ounces of gold, and 2.5 million troy ounces of silver in fiscal 2016. The following table sets forth the average prices incurred related to copper, gold, and silver:

	Measure	For the Quarters Ended			
		December 25, 2015		December 26, 2014	
Copper	Lb.	\$	2.73	\$	3.15
Gold	Troy oz.		1,207		1,282
Silver	Troy oz.		16.27		19.14

Operating Expenses

The following table presents operating expenses in dollars and selling, general, and administrative expenses as a percentage of net sales, as well as the changes from the first quarter of fiscal 2015:

	For the Quarters Ended			Increase (Decrease)
	December 25, 2015	December 26, 2014		
	(\$ in millions)			
Selling, general, and administrative expenses	\$ 340	\$ 386	\$	(46)
As a percentage of net sales	12.0%	12.7%		(0.7)%
Research, development, and engineering expenses	\$ 162	\$ 160	\$	2
Acquisition and integration costs	\$ 5	\$ 24	\$	(19)
Restructuring and other charges, net	\$ 40	\$ 25	\$	15

Selling, General, and Administrative Expenses. Selling, general, and administrative expenses decreased \$46 million in the first quarter of fiscal 2016 from the first quarter of fiscal 2015. The decrease resulted primarily from cost control measures.

Acquisition and Integration Costs. In the first quarter of fiscal 2016, we incurred acquisition and integration costs of \$5 million related primarily to the acquisition of Measurement Specialties. During the first quarter of fiscal 2015, we incurred acquisition and integration costs of \$24 million, including \$15 million related to the acquisition of Measurement Specialties.

Restructuring and Other Charges, Net. We are committed to continuous productivity improvements and consistently evaluate opportunities to simplify our global manufacturing footprint, migrate facilities to lower-cost regions, reduce fixed costs, and eliminate excess capacity. These initiatives are designed to help us maintain our competitiveness in the industry, improve our operating leverage, and position us for future growth. In the first quarter of fiscal 2016, we initiated a restructuring program associated with headcount reductions and product line closures impacting all segments. During fiscal 2015, we initiated a restructuring program associated with headcount reductions and product line closures, primarily impacting the Communications Solutions and Industrial Solutions segments.

In connection with these initiatives, we incurred restructuring charges of \$35 million during the first quarter of fiscal 2016. We expect to incur net restructuring charges of approximately \$85 million during fiscal 2016. Cash spending related to restructuring was \$21 million during the first quarter of fiscal 2016, and we expect total spending, which will be funded with cash from operations, to be approximately \$95 million in fiscal 2016. Annualized cost savings related to these actions are expected to be approximately \$35 million and are expected to be realized by the end of fiscal 2017. Cost savings will be reflected primarily in cost of sales and selling, general, and administrative expenses.

Income from discontinued operations, net of income taxes	\$ 29	\$ 37	\$ (8)

Other Income (Expense), Net. During the quarters ended December 25, 2015 and December 26, 2014, we recorded net other income (expense) primarily pursuant to the Tax Sharing Agreement with Tyco International plc ("Tyco International") and Covidien plc ("Covidien"). See Note 10 to the Condensed Consolidated Financial Statements for further information regarding the Tax Sharing Agreement.

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

Table of Contents

The net other expense for the quarter ended December 26, 2014 included \$83 million related to the effective settlement of undisputed tax matters for the years 2001 through 2007. See Note 11 to the Condensed Consolidated Financial Statements for additional information.

Income Taxes. The tax provision for the quarter ended December 25, 2015 includes a \$28 million income tax benefit related to deferred tax assets recognized in connection with the anticipated sale of the CPD business. The tax benefit for the quarter ended December 26, 2014 includes a \$189 million income tax benefit related to the effective settlement of undisputed tax matters for the years 2001 through 2007, and a \$22 million income tax benefit related to the impacts of certain non-U.S. tax law changes and the associated reduction in the valuation allowance for tax loss carryforwards.

Discontinued Operations. During the fourth quarter of fiscal 2015, we sold our Broadband Network Solutions ("BNS") business for \$3.0 billion in cash and recognized a pre-tax gain of \$1,105 million on the transaction. In the first quarter of fiscal 2016, we recognized an additional pre-tax gain of \$38 million on the divestiture, related primarily to pension and net working capital adjustments. The BNS business met the discontinued operations criteria and was reported as such in all periods presented on the Condensed Consolidated Financial Statements. Prior to reclassification to discontinued operations, the BNS business was included in the former Network Solutions segment. See Note 4 to the Condensed Consolidated Financial Statements for additional information regarding discontinued operations.

Table of Contents

Net sales in the Transportation Solutions segment decreased \$105 million, or 6.5%, in the first quarter of fiscal 2016 from the first quarter of fiscal 2015 primarily as a result of the negative impact of foreign currency translation of 7.4%. Our organic net sales by primary industry end market were as follows:

Automotive Our organic net sales increased 0.8% in the first quarter of fiscal 2016 with growth of 6.4% in the EMEA region and 2.0% in the Americas region, partially offset by a decrease of 4.5% in the Asia Pacific region. Growth in the EMEA region outpaced vehicle production due to electrification and new model launches. In the Americas region, general market improvement in North America was partially offset by continued market weakness in South America. Weakness in the Asia Pacific region was driven by lower demand in China and Japan due to macroeconomic conditions in the region.

Commercial transportation Our organic net sales decreased 5.2% in the first quarter of fiscal 2016 due to declines in the heavy truck market in North America and continued weakness in the construction and agriculture markets across all regions.

Sensors Our organic net sales increased 9.1% in the first quarter of fiscal 2016 due to increased sales in the commercial transportation, industrial equipment, and data and devices markets.

Operating Income. The following table presents the Transportation Solutions segment's operating income and operating margin, as well as the changes from the first quarter of fiscal 2015:

	For the Quarters Ended		
	December 25, 2015	December 26, 2014	Increase (Decrease)
	(\$ in millions)		
Operating income	\$ 261	\$ 295	\$ (34)
Operating margin	17.3%	18.3%	(1.0)%

The Transportation Solutions segment's operating income included the following special items:

	For the Quarters Ended	
	December 25, 2015	December 26, 2014
	(in millions)	
Acquisition related charges:

Charges associated with the amortization of acquisition-related fair value adjustments		26
	3	41
Restructuring and other charges, net	16	1
Total	\$ 19	\$ 42

In the first quarter of fiscal 2016, operating income in the Transportation Solutions segment decreased \$34 million as compared to the first quarter of fiscal 2015. Excluding the charges presented in the table above, operating income decreased in the first quarter of fiscal 2016 due primarily to the negative impact of price erosion and changes in foreign currency exchange rates, partially offset by lower material costs.

Net sales in the Industrial Solutions segment decreased \$75 million, or 9.6%, in the first quarter of fiscal 2016 from the first quarter of fiscal 2015 as a result of organic net sales declines of 6.3% and the negative impact of foreign currency translation of 6.0%, partially offset by sales contributions from acquisitions of 2.7%. Our organic net sales by primary industry end market were as follows:

Industrial equipment Our organic net sales decreased 7.1% in the first quarter of fiscal 2016 due to weak market conditions in the Americas and Asia Pacific regions, especially China and Japan, partially offset by growth in the EMEA region.

Aerospace, defense, oil, and gas Our organic net sales decreased 11.2% in the first quarter of fiscal 2016 due primarily to further weakness in the oil and gas market as oversupply continued to drive down the price of oil.

Energy Our organic net sales increased 3.5% in the first quarter of fiscal 2016 as a result of growth in the EMEA region sustained by the power distribution business and growth in the Americas region, partially offset by market weakness in China and Australia.

Table of Contents

In the first quarter of fiscal 2016, net sales in the Communications Solutions segment decreased \$36 million, or 5.5%, from the first quarter of fiscal 2015 as a result of organic net sales declines of 3.0% and the negative impact of foreign currency translation of 2.5%. Our organic net sales by primary industry end market were as follows:

Data and devices Our organic net sales decreased 24.6% in the first quarter of fiscal 2016 due to weak demand in the data center and smartphone businesses, high inventory levels at distributors, and the exit of certain low margin product lines.

Subsea communications Our organic net sales increased 65.7% in the first quarter of fiscal 2016 as a result of increased levels of project activity.

Appliances Our organic net sales decreased 13.4% in the first quarter of fiscal 2016 due primarily to weak demand in the Asia Pacific region and high inventory levels at distributors in both the U.S. and China markets.

Our ability to fund our future capital needs will be affected by our ability to continue to generate cash from operations and may be affected by our ability to access the capital markets, money markets, or other sources of funding, as well as the capacity and terms of our financing arrangements. We believe that cash generated from operations and, to the extent necessary, these other sources of potential funding will be sufficient to meet our anticipated capital needs for the foreseeable future, including the payment of \$500 million of senior floating rate notes due on January 29, 2016 and tax payments related to pre-separation U.S. tax matters. See Notes 11 and 20 to the Condensed Consolidated Financial Statements for additional information regarding pre-separation tax matters, including developments subsequent to December 25, 2015. We may use excess cash to reduce our outstanding debt, including through the possible repurchase of our debt in accordance with applicable law; to purchase a portion of our common shares pursuant to our authorized share repurchase program; to pay distributions or dividends on our common shares; or to acquire strategic businesses or product lines. The cost or availability of future funding may be impacted by financial market conditions. We will continue to monitor financial markets and respond as necessary to changing conditions.

Cash Flows from Operating Activities

In the first quarter of fiscal 2016, net cash provided by continuing operating activities increased \$162 million to \$367 million from \$205 million in the first quarter of fiscal 2015. The increase resulted primarily from collections of accounts receivable.

The amount of income taxes paid, net of refunds, during the first quarters of fiscal 2016 and 2015 was \$88 million and \$85 million, respectively. In the first quarters of fiscal 2016 and 2015, these payments included \$1 million and \$4 million, respectively, for tax deficiencies related to pre-separation tax matters.

In addition to net cash provided by operating activities, we use free cash flow, a non-GAAP financial measure, as a useful measure of our ability to generate cash. Free cash flow was \$237 million in the first quarter of fiscal 2016 as compared to \$79 million in the first quarter of fiscal 2015. The increase in free cash flow was driven primarily by the changes in net cash provided by continuing operating activities discussed above.

The following table sets forth a reconciliation of net cash provided by continuing operating activities, the most comparable GAAP financial measure, to free cash flow.

	For the Quarters Ended	
	December 25, 2015	December 26, 2014

Cash Flows from Investing Activities

Capital spending was \$139 million and \$135 million in the first quarters of fiscal 2016 and 2015, respectively. We expect fiscal 2016 capital spending levels to be approximately 5% of net sales. We

Table of Contents

believe our capital funding levels are adequate to support new programs, and we continue to invest in our manufacturing infrastructure to further enhance productivity and manufacturing capabilities.

In the first quarter of fiscal 2015, we acquired Measurement Specialties. The total value paid for the transaction was approximately \$1.7 billion, net of cash acquired, and included \$225 million for the repayment of Measurement Specialties' debt and accrued interest.

Cash Flows from Financing Activities and Capitalization

Total debt at December 25, 2015 and September 25, 2015 was \$3,870 million and \$3,884 million, respectively. See Note 9 to the Condensed Consolidated Financial Statements for additional information regarding debt.

Tyco Electronics Group S.A. ("TEGSA"), our 100%-owned subsidiary, has a five-year unsecured senior revolving credit facility ("Credit Facility") with total commitments of \$1,500 million. The Credit Facility was amended in December 2015 primarily to extend the maturity date from August 2018 to December 2020. TEGSA had no borrowings under the Credit Facility at December 25, 2015 and September 25, 2015.

The Credit Facility contains a financial ratio covenant providing that if, as of the last day of each fiscal quarter, our ratio of Consolidated Total Debt to Consolidated EBITDA (as defined in the Credit Facility) for the then most recently concluded period of four consecutive fiscal quarters exceeds 3.75 to 1.0, an Event of Default (as defined in the Credit Facility) is triggered. The Credit Facility and our other debt agreements contain other customary covenants. None of our covenants are presently considered restrictive to our operations. As of December 25, 2015, we were in compliance with all of our debt covenants and believe that we will continue to be in compliance with our existing covenants for the foreseeable future.

In addition to the Credit Facility, TEGSA is the borrower under our senior notes and commercial paper. TEGSA's payment obligations under its senior notes, commercial paper, and Credit Facility are fully and unconditionally guaranteed by its parent, TE Connectivity Ltd.

Payments of common share dividends to shareholders were \$127 million and \$118 million in the first quarters of fiscal 2016 and 2015, respectively. See Note 17 to the Condensed Consolidated Financial Statements for additional information regarding dividends on our common shares.

We repurchased approximately 20 million of our common shares for \$1,318 million and approximately two million of our common shares for \$141 million under our share repurchase authorization during the first quarters of fiscal 2016 and 2015, respectively. At December 25, 2015, we had \$1.4 billion of availability remaining under our share repurchase authorization.

Commitments and Contingencies

Legal Proceedings

In the normal course of business, we are subject to various legal proceedings and claims, including patent infringement claims, product liability matters, employment disputes, disputes on agreements, other commercial disputes, environmental matters, antitrust claims, and tax matters, including non-income tax matters such as value added tax, sales and use tax, real estate tax, and transfer tax. Although it is not feasible to predict the outcome of these proceedings, based upon our experience, current information, and applicable law, we do not expect that the outcome of these proceedings, either individually or in the aggregate, will have a material effect on our results of operations, financial position, or cash flows. However, the proceedings discussed below in "Income Tax Matters" could have a material effect on our results of operations, financial position, or cash flows.

Table of Contents

As previously reported, we had a contingent purchase price commitment of \$80 million related to our fiscal 2001 acquisition of Com-Net. This represented the maximum amount payable to the former shareholders of Com-Net only after the construction and installation of a communications system was completed for and approved by the State of Florida in accordance with guidelines set forth in the contract. Under the terms of the purchase and sale agreement, we did not believe we had any obligation to the sellers. However, the sellers contested our position and initiated a lawsuit in June 2006 in the Court of Common Pleas in Allegheny County, Pennsylvania. Trial began in March 2015 and culminated in the entry of final judgment on October 8, 2015, in favor of the sellers and against us for \$127 million plus costs. The judgment represents the \$80 million contingent purchase price plus pre-judgment interest, which will continue to accrue until the judgment is paid in full. We are appropriately reserved for this matter and are proceeding with an appeal.

Income Tax Matters

In connection with the separation from Tyco International in 2007, we entered into a Tax Sharing Agreement that generally governs our, Tyco International's, and Covidien's respective rights, responsibilities, and obligations with respect to taxes for periods prior to and including June 29, 2007. See Note 10 to the Condensed Consolidated Financial Statements for additional information regarding the Tax Sharing Agreement. Pursuant to the Tax Sharing Agreement, we entered into certain guarantee commitments and indemnifications with Tyco International and Covidien. See "Income Tax Matters" in Notes 11 and 20 to the Condensed Consolidated Financial Statements for further information regarding income tax matters, including the disputed issue related to the tax treatment of certain intercompany debt transactions and developments subsequent to December 25, 2015.

Off-Balance Sheet Arrangements

In certain instances, we have guaranteed the performance of third parties and provided financial guarantees for uncompleted work and financial commitments. The terms of these guarantees vary with end dates ranging from fiscal 2016 through the completion of such transactions. The guarantees would be triggered in the event of nonperformance, and the potential exposure for nonperformance under the guarantees would not have a material effect on our results of operations, financial position, or cash flows.

In disposing of assets or businesses, we often provide representations, warranties, and/or indemnities to cover various risks including unknown damage to assets, environmental risks involved in the sale of real estate, liability for investigation and remediation of environmental contamination at waste disposal sites and manufacturing facilities, and unidentified tax liabilities and legal fees related to periods prior to disposition. We do not expect that these uncertainties will have a material adverse effect on our results of operations, financial position, or cash flows.

At December 25, 2015, we had outstanding letters of credit, letters of guarantee, and surety and appeal bonds in the amount of \$504 million.

In the normal course of business, we are liable for contract completion and product performance. In the opinion of management, such obligations will not significantly affect our results of operations, financial position, or cash flows.

Critical Accounting Policies and Estimates

The preparation of the Condensed Consolidated Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenue and expenses.

Table of Contents

Our accounting policies for revenue recognition, goodwill and other intangible assets, income taxes, and pension and postretirement benefits are based on, among other things, judgments and assumptions made by management. For additional information regarding these policies and the underlying accounting assumptions and estimates used in these policies, refer to the Consolidated Financial Statements and accompanying notes contained in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015. There were no significant changes to this information during the quarter ended December 25, 2015.

Accounting Pronouncements

See Note 2 to the Condensed Consolidated Financial Statements for information regarding recently adopted accounting pronouncements.

Non-GAAP Financial Measures

Organic net sales growth and free cash flow are non-GAAP measures and should not be considered replacements for results in accordance with GAAP. These non-GAAP measures may not be comparable to similarly-titled measures reported by other companies. The primary limitation of these measures is that they exclude the financial impact of items that would otherwise either increase or decrease our reported results. This limitation is best addressed by using these non-GAAP measures in combination with the most directly comparable GAAP measures in order to better understand the amounts, character, and impact of any increase or decrease in reported amounts. The following provides additional information regarding these non-GAAP measures.

Organic Net Sales Growth

Organic net sales growth is a useful measure of our underlying results and trends in the business. It is also a significant component in our incentive compensation plans. The difference between reported net sales growth (the most comparable GAAP measure) and organic net sales growth consists of the impact from foreign currency exchange rates, and acquisitions and divestitures, if any. Organic net sales growth is a useful measure of our performance because it excludes items that are not completely under management's control, such as the impact of changes in foreign currency exchange rates, and items that do not reflect the underlying growth of the company, such as acquisition and divestiture activity. Management uses organic net sales growth to monitor and evaluate performance. Also, management uses organic net sales growth together with GAAP measures such as net sales growth and operating income in its decision making processes related to the operations of our reportable segments and our overall company. We believe that investors benefit from having access to the same financial measures that management uses in evaluating operations. The tables presented in "Results of Operations" and "Segment Results" above provide reconciliations of organic net sales growth to net sales growth calculated under GAAP.

Free Cash Flow

Free cash flow is a useful measure of our ability to generate cash. The difference between net cash provided by continuing operating activities (the most comparable GAAP measure) and free cash flow consists mainly of significant cash outflows and inflows that we believe are useful to identify. We believe free cash flow provides useful information to investors as it provides insight into the primary cash flow metric used by management to monitor and evaluate cash flows generated from our operations.

Free cash flow is defined as net cash provided by continuing operating activities excluding voluntary pension contributions and the cash impact of special items, if any, minus net capital expenditures. Net capital expenditures consist of capital expenditures less proceeds from the sale of

Table of Contents

property, plant, and equipment. These items are subtracted because they represent long-term commitments. Voluntary pension contributions are excluded because this activity is driven by economic financing decisions rather than operating activity. Certain special items, including net payments related to pre-separation tax matters, are also considered by management in evaluating free cash flow. We believe investors also should consider these items in evaluating our free cash flow.

Free cash flow subtracts certain cash items that are ultimately within management's and the board of directors' discretion to direct and may imply that there is less or more cash available for our programs than the most comparable GAAP measure indicates. It should not be inferred that the entire free cash flow amount is available for future discretionary expenditures, as our definition of free cash flow does not consider certain non-discretionary expenditures, such as debt payments. In addition, we may have other discretionary expenditures, such as discretionary dividends, share repurchases, and business acquisitions, that are not considered in the calculation of free cash flow.

The tables presented in "Liquidity and Capital Resources" above provide reconciliations of free cash flow to cash flows from continuing operating activities calculated under GAAP.

Forward-Looking Information

Certain statements in this quarterly report on Form 10-Q are "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These statements are based on our management's beliefs and assumptions and on information currently available to our management. Forward-looking statements include, among others, the information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, potential growth opportunities, potential operating performance improvements, acquisitions, divestitures, the effects of competition, the terms of our proposed settlement with the Internal Revenue Service ("IRS") relating to our intercompany debt dispute tax litigation, and the effects of future legislation or regulations. Forward-looking statements include all statements that are not historical facts and can be identified by the use of forward-looking terminology such as the words "believe," "expect," "plan," "intend," "anticipate," "estimate," "predict," "potential," "continue," "may," "should," or the negative of these terms or similar expressions.

Forward-looking statements involve risks, uncertainties, and assumptions. Actual results may differ materially from those expressed in these forward-looking statements. You should not put undue reliance on any forward-looking statements. We do not have any intention or obligation to update forward-looking statements after we file this report except as required by law.

The following and other risks, which are described in greater detail in "Part I. Item 1A. Risk Factors," in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015, could cause our results to differ materially from those expressed in forward-looking statements:

conditions in the global or regional economies and global capital markets, and cyclical industry conditions;

conditions affecting demand for products in the industries we serve, particularly the automotive industry;

competition and pricing pressure;

market acceptance of new product introductions and product innovations and product life cycles;

raw material availability, quality, and cost;

fluctuations in foreign currency exchange rates;

financial condition and consolidation of customers and vendors;

Table of Contents

reliance on third-party suppliers;

risks associated with current and future acquisitions and divestitures;

global risks of business interruptions such as natural disasters and political, economic, and military instability;

risks associated with security breaches and other disruptions to our information technology infrastructure;

risks related to compliance with current and future environmental and other laws and regulations;

our ability to protect our intellectual property rights;

risks of litigation;

our ability to operate within the limitations imposed by our debt instruments;

risks relating to our separation on June 29, 2007 from Tyco International;

the possible effects on us of various U.S. and non-U.S. legislative proposals and other initiatives that, if adopted, could materially increase our worldwide corporate effective tax rate and negatively impact our U.S. government contracts business;

the risk that the conditions precedent to our settlement with the IRS are never met and the intercompany debt dispute is not settled with the IRS, the risk that a party to the Tax Sharing Agreement defaults under its payment obligations pursuant to the Tax Sharing Agreement, and the risk that the IRS may not consistently apply the terms of the settlement to all of our U.S. income tax returns filed subsequent to fiscal 2000;

various risks associated with being a Swiss corporation;

the impact of fluctuations in the market price of our shares; and

the impact of certain provisions of our articles of association on unsolicited takeover proposals.

There may be other risks and uncertainties that we are unable to predict at this time or that we currently do not expect to have a material adverse effect on our business.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no significant changes in our exposures to market risk during the first quarter of fiscal 2016. For further discussion of our exposures to market risk, refer to "Part II. Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended), as of December 25, 2015. Based on that evaluation, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures were effective as of December 25, 2015.

Changes in Internal Control Over Financial Reporting

During the quarter ended December 25, 2015, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

There have been material developments in our legal proceedings since we filed our Annual Report on Form 10-K for the fiscal year ended September 25, 2015 as described under "Income Tax Matters" in Note 20 to the Condensed Consolidated Financial Statements in this report. For a description of our previously reported legal proceedings, refer to "Part I. Item 3. Legal Proceedings" in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015.

ITEM 1A. RISK FACTORS

There have been no material changes in our risk factors from those disclosed in "Part I. Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended September 25, 2015. The risk factors described in our Annual Report on Form 10-K, in addition to other information set forth in this report, could materially affect our business operations, financial condition, or liquidity. Additional risks and uncertainties not currently known to us or that we currently believe are immaterial may also impair our business operations, financial condition, and liquidity.
