Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)****1. Basis of Presentation and Accounting Pronouncements***Basis of Presentation*

The unaudited Condensed Consolidated Financial Statements of TE Connectivity Ltd. ("TE Connectivity" or the "Company," which may be referred to as "we," "us," or "our") have been prepared in United States ("U.S.") dollars, in accordance with accounting principles generally accepted in the U.S. ("GAAP") and the instructions to Form 10-Q under the Securities Exchange Act of 1934, as amended. In management's opinion, the unaudited Condensed Consolidated Financial Statements contain all normal recurring adjustments necessary for a fair presentation of interim results. The results of operations reported for interim periods are not necessarily indicative of the results of operations for the entire fiscal year or any subsequent interim period.

The year-end balance sheet data was derived from audited financial statements, but does not include all of the information and disclosures required by GAAP. These financial statements should be read in conjunction with our audited Consolidated Financial Statements contained in our Annual Report on Form 10-K for the fiscal year ended September 30, 2016.

Unless otherwise indicated, references in the Condensed Consolidated Financial Statements to fiscal 2017 and fiscal 2016 are to our fiscal years ending September 29, 2017 and September 30, 2016, respectively.

*Recently Adopted Accounting Pronouncement*

In March 2016, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2016-09, an update to Accounting Standards Codification 718, *Compensation - Stock Compensation*, to simplify various aspects of accounting for share-based payments to employees. We elected to early adopt this update in the first quarter of fiscal 2017. The provisions of the update addressing the accounting for excess tax benefits and deficiencies were adopted using a modified retrospective transition approach, with a cumulative-effect adjustment to beginning accumulated earnings and a corresponding increase in deferred tax assets of \$165 million. The provision of the update addressing the presentation on the statement of cash flows of employee taxes paid via the withholding of shares was applied retrospectively and did not have a material impact on our Condensed Consolidated Financial Statements. Adoption of other provisions, which were applied prospectively, also did not have a material impact on our Condensed Consolidated Financial Statements.

## Edgar Filing: TE Connectivity Ltd. - Form 10-Q

During fiscal 2017, we initiated a restructuring program associated with headcount reductions impacting all segments and product line closures primarily impacting the Transportation Solutions and Industrial Solutions segments. In connection with this program, during the quarter ended December 30, 2016, we recorded restructuring charges of \$46 million. We expect to complete all restructuring actions commenced during the quarter ended December 30, 2016 by the end of fiscal 2018 and to incur total charges of approximately \$52 million.

**2. Restructuring and Other Charges, Net (Continued)***Fiscal 2016 Actions*

During fiscal 2016, we initiated a restructuring program associated with headcount reductions impacting all segments and product line closures in the Communications Solutions segment. In connection with this program, during the quarters ended December 30, 2016 and December 25, 2015, we recorded restructuring charges of \$3 million and \$32 million, respectively. We expect to complete all restructuring actions commenced during fiscal 2016 by the end of fiscal 2019 and to incur total charges of approximately \$168 million with remaining charges related primarily to employee severance.

The following table summarizes expected, incurred, and remaining charges for the fiscal 2016 program by segment:

	Total Expected Charges	Cumulative Charges Incurred	Remaining Expected Charges
	(in millions)		
Transportation Solutions	\$ 45	\$ 38	\$ 7
Industrial Solutions	30	28	2
Communications Solutions	93	67	26
Total	\$ 168	\$ 133	\$ 35

*Pre-Fiscal 2016 Actions*

Prior to fiscal 2016, we initiated a restructuring program associated with headcount reductions and product line closures, primarily impacting the Communications Solutions and Industrial Solutions segments. During the quarters ended December 30, 2016 and December 25, 2015, we recorded restructuring credits of \$3 million and charges of \$3 million, respectively, related to pre-fiscal 2016 actions. We do not expect to incur any additional charges related to pre-fiscal 2016 actions.

*Total Restructuring Reserves*

Restructuring reserves included on the Condensed Consolidated Balance Sheets were as follows:

	December 30, 2016	September 30, 2016

Income from discontinued operations, net of income taxes	\$ 3	\$ 29

During fiscal 2015, we sold our Broadband Network Solutions ("BNS") business for \$3.0 billion in cash and recognized a pre-tax gain of \$1.1 billion on the transaction. During the quarter ended December 25, 2015, we recognized an additional pre-tax gain of \$38 million on the divestiture, related primarily to pension and net working capital adjustments. The BNS business met the discontinued operations criteria and was reported as such in all periods presented on the Condensed Consolidated Financial Statements. Prior to reclassification to discontinued operations, the BNS business was included in the former Network Solutions segment.

**7. Debt**

During the quarter ended December 30, 2016, we reclassified \$708 million of 6.55% senior notes due 2017 from long-term debt to short-term debt on the Condensed Consolidated Balance Sheet.

As of December 30, 2016, Tyco Electronics Group S.A. ("TEGSA"), our 100%-owned subsidiary, had \$340 million of commercial paper outstanding at a weighted-average interest rate of 0.98%. TEGSA had \$330 million of commercial paper outstanding at a weighted-average interest rate of 0.69% at September 30, 2016.

The fair value of our debt, based on indicative valuations, was approximately \$4,246 million and \$4,424 million at December 30, 2016 and September 30, 2016, respectively.

**8. Commitments and Contingencies**

*Legal Proceedings*

In the normal course of business, we are subject to various legal proceedings and claims, including patent infringement claims, product liability matters, employment disputes, disputes on agreements, other commercial disputes, environmental matters, antitrust claims, and tax matters, including non-income tax matters such as value added tax, sales and use tax, real estate tax, and transfer tax. Although it is not feasible to predict the outcome of these proceedings, based upon our experience, current information, and applicable law, we do not expect that the outcome of these proceedings, either individually or in the aggregate, will have a material effect on our results of operations, financial position, or cash flows.

*Environmental Matters*

We are involved in various stages of investigation and cleanup related to environmental remediation matters at a number of sites. The ultimate cost of site cleanup is difficult to predict given the uncertainties regarding the extent of the required cleanup, the interpretation of applicable laws and regulations, and alternative cleanup methods. As of December 30, 2016, we concluded that it was probable that we would incur remedial costs in the range of \$17 million to \$42 million, and that the best estimate within this range was \$20 million. We believe that any potential payment of such estimated amounts will not have a material adverse effect on our results of operations, financial position, or cash flows.

*Guarantees*

In disposing of assets or businesses, we often provide representations, warranties, and/or indemnities to cover various risks including unknown damage to assets, environmental risks involved in the sale of real estate, liability for investigation and remediation of environmental contamination at waste disposal sites and manufacturing facilities, and unidentified tax liabilities and legal fees related to periods prior to disposition. We do not expect that these uncertainties will have a material adverse effect on our results of operations, financial position, or cash flows.

At December 30, 2016, we had outstanding letters of credit, letters of guarantee, and surety bonds of \$265 million.

Table of Contents

**TE CONNECTIVITY LTD.**

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)**

**8. Commitments and Contingencies (Continued)**

In the normal course of business, we are liable for contract completion and product performance. In the opinion of management, such obligations will not materially affect our results of operations, financial position, or cash flows.

We generally record estimated product warranty costs when contract revenues are recognized under the percentage-of-completion method for construction related contracts; other warranty reserves are not significant. The estimation is based primarily on historical experience and actual warranty claims. Amounts accrued for warranty claims were \$45 million and \$48 million at December 30, 2016 and September 30, 2016, respectively.

***Tax Sharing Agreement***

In fiscal 2007, we became an independent, publicly traded company owning the former electronics businesses of Tyco International plc ("Tyco International"). On June 29, 2007, Tyco International distributed all of our shares, as well as its shares of its former healthcare businesses ("Covidien"), to its common shareholders (the "separation"). As a result of subsequent transactions, Tyco International and Covidien now operate as part of Johnson Controls International plc and Medtronic plc, respectively.

Upon separation, we entered into a Tax Sharing Agreement, under which we share responsibility for certain of our, Tyco International's, and Covidien's income tax liabilities based on a sharing formula for periods prior to and including June 29, 2007. We, Tyco International, and Covidien share 31%, 27%, and 42%, respectively, of income tax liabilities that arise from adjustments made by tax authorities to our, Tyco International's, and Covidien's income tax returns. Pursuant to the Tax Sharing Agreement, we entered into certain guarantee commitments and indemnifications with Tyco International and Covidien. We have substantially settled all pre-separation U.S. federal income tax matters with the Internal Revenue Service. Certain shared U.S. state and non-U.S. income tax matters remain open. We do not expect these matters will have a material effect on our results of operations, financial position, or cash flows.

**9. Financial Instruments**

We hedge our net investment in certain foreign operations using intercompany non-derivative financial instruments denominated in the same currencies. The aggregate notional value of these hedges was \$3,267 million and \$3,480 million at December 30, 2016 and September 30, 2016, respectively. Foreign exchange gains of \$222 million and \$55 million in the quarters ended December 30, 2016 and December 25, 2015, respectively, were recorded as currency translation, a component of accumulated other comprehensive loss, offsetting foreign exchange losses attributable to the translation of the net investment.

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****10. Retirement Plans**

The net periodic pension benefit cost for all U.S. and non-U.S. defined benefit pension plans was as follows:

	U.S. Plans For the Quarters Ended		Non-U.S. Plans For the Quarters Ended	
	December 30, 2016	December 25, 2015	December 30, 2016	December 25, 2015

Interest cost	11	13	9	13
Expected return on plan assets	(13)	(15)	(18)	(18)
Amortization of net actuarial loss	10	10	11	9
Amortization of prior service credit			(2)	(1)
Net periodic pension benefit cost	\$ 11	\$ 10	\$ 13	\$ 15

**11. Income Taxes**

We recorded income tax expense of \$54 million and \$58 million for the quarters ended December 30, 2016 and December 25, 2015, respectively. The income tax expense for the quarter ended December 30, 2016 included a \$30 million income tax benefit associated with the tax impacts of certain intercompany restructurings and the corresponding reduction in the valuation allowance for U.S. tax loss carryforwards. The income tax expense for the quarter ended December 25, 2015 included a \$28 million income tax benefit related to deferred tax assets recognized in connection with the anticipated sale of the Circuit Protection Devices business, which closed during the second quarter of fiscal 2016.

We record accrued interest as well as penalties related to uncertain tax positions as part of income tax expense. As of December 30, 2016 and September 30, 2016, we had \$58 million and \$54 million, respectively, of accrued interest and penalties related to uncertain tax positions on the Condensed Consolidated Balance Sheets, recorded primarily in income taxes. During the quarter ended December 30, 2016, we recognized \$3 million of income tax expense related to interest and penalties on the Condensed Consolidated Statement of Operations.

Although it is difficult to predict the timing or results of our worldwide examinations, we estimate that up to approximately \$90 million of unrecognized income tax benefits, excluding the impact relating to accrued interest and penalties, could be resolved within the next twelve months.

We are not aware of any other matters that would result in significant changes to the amount of unrecognized income tax benefits reflected on the Condensed Consolidated Balance Sheet as of December 30, 2016.

Table of Contents**TE CONNECTIVITY LTD.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED) (Continued)****12. Earnings Per Share**

The weighted-average number of shares outstanding used in the computations of basic and diluted earnings per share were as follows:

	For the Quarters Ended	
	December 30, 2016	December 25, 2015
	(in millions)	
Basic	356	385
Dilutive impact of share-based compensation arrangements	3	5
Diluted	359	390

There were two million share options that were not included in the computation of diluted earnings per share for the quarters ended December 30, 2016 and December 25, 2015, because the instruments' underlying exercise prices were greater than the average market prices of our common shares and inclusion would be antidilutive.

**13. Equity***Dividends*

We paid a cash dividend of \$0.37 per share to shareholders out of contributed surplus during the quarter ended December 30, 2016.

Upon shareholders' approval of the annual dividend payment during fiscal year 2016, we recorded a liability with a corresponding charge to contributed surplus. At December 30, 2016 and September 30, 2016, the unpaid portion of the dividends recorded in accrued and other current liabilities on the Condensed Consolidated Balance Sheets totaled \$132 million and \$263 million, respectively.

*Share Repurchase Program*

Common shares repurchased under the share repurchase program were as follows:

	For the Quarters Ended	
	December 30, 2016	December 25, 2015
	(in millions)	
Number of common shares repurchased	2	20
Amount repurchased	\$ 102	\$ 1,318

At December 30, 2016, we had \$1.0 billion of availability remaining under our share repurchase authorization.

Total share-based compensation expense, which was included primarily in selling, general, and administrative expenses on the Condensed Consolidated Statements of Operations, was as follows:

	For the Quarters Ended	
	December 30, 2016	December 25, 2015
(in millions)		
Share-based compensation expense	\$ 24	\$ 22

As of December 30, 2016, there was \$192 million of unrecognized compensation expense related to share-based awards, which is expected to be recognized over a weighted-average period of 2.5 years.

During the quarter ended December 30, 2016, we granted the following share-based awards as part of our annual incentive plan grant:

	Shares (in millions)	Weighted-Average Grant-Date Fair Value	
		\$	
Share options	2.1	\$ 12.79	
Restricted share awards	0.7	66.74	
Performance share awards	0.3	66.74	

As of December 30, 2016, we had 13 million shares available for issuance under our stock and incentive plans, of which the TE Connectivity Ltd. 2007 Stock and Incentive Plan, as amended and restated, was the primary plan.

***Share-Based Compensation Assumptions***

The weighted-average assumptions we used in the Black-Scholes-Merton option pricing model for the options granted as part of our annual incentive plan grant were as follows:

Expected share price volatility	24%
Risk free interest rate	1.9%
Expected annual dividend per share	\$ 1.48
Expected life of options (in years)	5.6

**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our Condensed Consolidated Financial Statements and the accompanying notes included elsewhere in this Quarterly Report on Form 10-Q. The following discussion may contain forward-looking statements that reflect our plans, estimates, and beliefs. Our actual results could differ materially from those discussed in these forward-looking statements as a result of many factors, including but not limited to those under the heading "Forward-Looking Information" and "Part II. Item 1A. Risk Factors."

Our Condensed Consolidated Financial Statements have been prepared in United States ("U.S.") dollars, in accordance with accounting principles generally accepted in the U.S. ("GAAP").

The following discussion includes organic net sales growth which is a non-GAAP financial measure. We believe this non-GAAP financial measure, together with GAAP financial measures, provides useful information to investors because it is one of the financial measures that management uses in evaluating the underlying results of our operations. See "Non-GAAP Financial Measure" for more information about this non-GAAP financial measure, including our reasons for including the measure and material limitations with respect to the usefulness of the measure.

**Overview**

TE Connectivity Ltd. ("TE Connectivity" or the "Company," which may be referred to as "we," "us," or "our") is a global technology leader. We design and manufacture connectivity and sensor solutions that are essential in today's increasingly connected world. We help our customers solve the need for intelligent, efficient, and high-performing products and solutions.

Highlights for the first quarter of fiscal 2017 include the following:

Our net sales increased 8.1% in the first quarter of fiscal 2017 as compared to the first quarter of fiscal 2016 with sales growth in the Transportation Solutions and Industrial Solutions segments, partially offset by sales declines in the Communications Solutions segment. Foreign currency exchange rates negatively impacted net sales by \$25 million in the first quarter of fiscal 2017 as compared to the same period of fiscal 2016. On an organic basis, our net sales increased 6.6% during the first quarter of fiscal 2017 as compared to the first quarter of fiscal 2016.

Our net sales by segment were as follows:

*Transportation Solutions* Our net sales increased 11.1% in the first quarter of fiscal 2017 as a result of sales increases in all end markets.

*Industrial Solutions* Our net sales increased 12.1% during the first quarter of fiscal 2017 due primarily to increased sales in the industrial equipment end market where we benefitted from sales contributions from recent acquisitions.

*Communications Solutions* Our net sales decreased 3.9% in the first quarter of fiscal 2017 with sales declines in the data and devices end market resulting from the divestiture of our Circuit Protection Devices ("CPD") business in fiscal 2016 and sales decreases in the subsea communications end market, partially offset by sales increases in the appliances end market.

Net cash provided by continuing operating activities was \$404 million in the first quarter of fiscal 2017.

Table of Contents

**Outlook**

In the second quarter of fiscal 2017, we expect net sales to be between \$3.025 billion and \$3.125 billion. This reflects sales growth in the Industrial Solutions and, to a lesser degree, the Transportation Solutions segments, partially offset by sales declines in the Communications Solutions segment relative to the second quarter of fiscal 2016. Additional information regarding expectations for our reportable segments for the second quarter of fiscal 2017 as compared to the same period of fiscal 2016 is as follows:

*Transportation Solutions* We expect our net sales to increase in the automotive end market due primarily to growth in the Asia Pacific and Europe/Middle East/Africa ("EMEA") regions. We expect global automotive production to increase approximately 2%. We also expect our net sales to increase in the sensors and commercial transportation end markets.

*Industrial Solutions* We expect our net sales to increase in the industrial equipment end market due primarily to recent acquisitions and continued recovery in the factory automation and process controls systems market. Also, we expect our net sales to increase in the aerospace and defense market.

*Communications Solutions* We expect our net sales to decline in the data and devices end market primarily as a result of the divestiture of our CPD business. This decline is expected to be partially offset by sales growth in the appliances and subsea communications end markets.

We expect diluted earnings per share from continuing operations to be in the range of \$0.97 to \$1.01 per share in the second quarter of fiscal 2017. This outlook reflects the negative impact of foreign currency exchange rates on net sales and earnings per share of approximately \$63 million and \$0.03 per share, respectively, in the second quarter of fiscal 2017 as compared to the second quarter of fiscal 2016.

For fiscal 2017, we expect net sales to be between \$12.2 billion and \$12.6 billion as compared to \$12.2 billion in fiscal 2016 which included an additional week. This increase is attributable primarily to sales growth in the Industrial Solutions segment, partially offset by sales declines in the Communications Solutions segment. Additional information regarding expectations for our reportable segments for fiscal 2017 compared to fiscal 2016 is as follows:

*Transportation Solutions* We expect our net sales in the automotive end market to be consistent with prior year levels with the benefits of increased content per vehicle and market share gains offset by the impact of the additional week in fiscal 2016. We expect growth of approximately 2% in global automotive production. We expect our net sales to increase in the sensors and commercial transportation end markets.

*Industrial Solutions* We expect our net sales to increase in the industrial equipment end market due primarily to recent acquisitions. We expect our net sales to decline in the energy end market, with this decrease partially offset by expected net sales growth in the aerospace and defense market.

*Communications Solutions* We expect our net sales growth in the subsea communications and appliances end markets to be more than offset by sales declines in the data and devices end market due primarily to the divestiture of our CPD business.

We expect diluted earnings per share from continuing operations to be in the range of \$4.04 to \$4.24 per share in fiscal 2017. This outlook reflects the negative impact of foreign currency exchange rates on net sales and earnings per share of approximately \$300 million and \$0.14 per share, respectively, in fiscal 2017 as compared to fiscal 2016.

The above outlook is based on foreign currency exchange rates and commodity prices that are consistent with current levels.

We are monitoring the current macroeconomic environment, including the expected exit of the United Kingdom from the European Union, and its potential effects on our customers and the end markets we serve. We continue to closely manage our costs in line with economic conditions. Additionally, we are managing our capital resources and monitoring capital availability to ensure that we have sufficient resources to fund future capital needs. #### Net Sales

The following table presents our net sales and the percentage of total net sales by segment:

	For the Quarters Ended			
	December 30, 2016		December 25, 2015	
	(\$ in millions)			
Transportation Solutions	\$ 1,675	55%	\$ 1,507	53%

<b>Total</b>	<b>\$ 3,063</b>	<b>100%</b>	<b>\$ 2,833</b>	<b>100%</b>

The following table provides an analysis of the change in our net sales by segment:

	Change in Net Sales for the Quarter Ended December 30, 2016 versus Net Sales for the Quarter Ended December 25, 2015

<b>Total</b>	<b>\$ 230</b>	<b>8.1%</b>	<b>\$ (25)</b>	<b>\$ 69</b>	<b>\$ 186</b>	<b>6.6%</b>		

Net sales increased \$230 million, or 8.1%, in the first quarter of fiscal 2017 as compared to the first quarter of fiscal 2016. The increase in net sales resulted from organic net sales growth of 6.6% and net sales contributions from acquisitions and a divestiture of 2.4%, partially offset by the negative impact of foreign currency translation of 0.9%. Price erosion adversely affected organic net sales by \$51 million in the first quarter of fiscal 2017.

See further discussion of net sales below under "Segment Results."

**Net Sales by Geographic Region.** Our business operates in three geographic regions—the Americas, EMEA, and Asia Pacific—and our results of operations are influenced by changes in foreign currency exchange rates. Increases or decreases in the value of the U.S. dollar, compared to other currencies, will directly affect our reported results as we translate those currencies into U.S. dollars at the end of each fiscal period.

Approximately 56% of our net sales were invoiced in currencies other than the U.S. dollar in the first quarter of fiscal 2017.

### **Cost of Sales and Gross Margin**

The following table presents cost of sales and gross margin information:

	For the Quarters Ended

Gross margin	\$ 1,065	\$ 945	\$ 120
As a percentage of net sales	34.8%	33.4%	1.4%

Gross margin increased \$120 million in the first quarter of fiscal 2017 as compared to the first quarter of fiscal 2016. The increase in gross margin was due primarily to higher volume and lower material costs, partially offset by the negative impact of price erosion.

Cost of sales and gross margin are subject to variability in raw material prices which continue to fluctuate for many of our raw materials. We expect to purchase approximately 183 million pounds of

Research, development, and engineering expenses	\$ 158	\$ 162	\$ (4)
Acquisition and integration costs	2	5	(3)
Restructuring and other charges, net	47	40	7

**Selling, General, and Administrative Expenses.** Selling, general, and administrative expenses increased \$32 million in the first quarter of fiscal 2017 from the first quarter of fiscal 2016. The increase resulted primarily from increased selling expenses to support higher sales levels, increased incentive compensation costs, and additional expenses associated with fiscal 2016 acquisitions, partially offset by cost savings attributable to restructuring actions.

**Restructuring and Other Charges, Net.** We are committed to continuous productivity improvements and consistently evaluate opportunities to simplify our global manufacturing footprint, migrate facilities to lower-cost regions, reduce fixed costs, and eliminate excess capacity. These initiatives are designed to help us maintain our competitiveness in the industry, improve our operating leverage, and position us for future growth.

During fiscal 2017, we initiated a restructuring program associated with headcount reductions impacting all segments and product line closures primarily impacting the Transportation Solutions and Industrial Solutions segments. During fiscal 2016, we initiated a restructuring program associated with headcount reductions impacting all segments and product line closures in the Communications Solutions segment.

In connection with these initiatives, we incurred restructuring charges of \$46 million during the first quarter of fiscal 2017. Annualized cost savings related to these actions are expected to be approximately \$60 million and are expected to be realized by the end of fiscal 2018. Cost savings will be reflected primarily in cost of sales and selling, general, and administrative expenses. During fiscal 2017, we expect to incur net restructuring charges of approximately \$150 million. We expect total spending, which will be funded with cash from operations, to be approximately \$110 million in fiscal 2017.

**Income Taxes.** See Note 11 to the Condensed Consolidated Financial Statements for information regarding items impacting income tax expense for the first quarters of fiscal 2017 and 2016.

**Discontinued Operations.** During fiscal 2015, we sold our Broadband Network Solutions business for \$3.0 billion in cash and recognized a pre-tax gain of \$1.1 billion on the transaction. In the first quarter of fiscal 2016, we recognized an additional pre-tax gain of \$38 million on the divestiture, related primarily to pension and net working capital adjustments. See Note 3 to the Condensed Consolidated Financial Statements for additional information regarding discontinued operations.

Net sales in the Transportation Solutions segment increased \$168 million, or 11.1%, in the first quarter of fiscal 2017 from the first quarter of fiscal 2016 due primarily to organic net sales growth of 11.4%. Our organic net sales by primary industry end market were as follows:

*Automotive* Our organic net sales increased 12.7% in the first quarter of fiscal 2017 with growth of 28.2% in the Asia Pacific region and 4.0% in the EMEA region, partially offset by a decrease of 3.6% in the Americas region. Our growth in the Asia Pacific region was driven by increased demand in China resulting from a tax incentive program, market share gain, and increased electrification. In the EMEA region, our organic net sales increased due to electrification and new model launches. In the Americas region, our organic net sales decreased as a result of declines in North America, partially offset by market growth in South America.

*Commercial transportation* Our organic net sales increased 15.7% in the first quarter of fiscal 2017 due to content gains and growth in the heavy truck market in China.

## Edgar Filing: TE Connectivity Ltd. - Form 10-Q

*Sensors* Our organic net sales decreased 1.1% in the first quarter of fiscal 2017 due to weakness in the data and devices and commercial transportation markets, partially offset by growth in the automotive and industrial equipment markets.

### Table of Contents

The following table provides an analysis of the change in the Industrial Solutions segment's net sales by primary industry end market:

<b>Change in Net Sales for the Quarter Ended December 30, 2016 versus Net Sales for the Quarter Ended December 25, 2015</b>

<b>Total</b>	<b>\$ 86</b>	<b>12.1%</b>	<b>\$ (7)</b>	<b>\$ 94</b>	<b>\$ (1)</b>	<b>(0.2)%</b>		

Net sales in the Industrial Solutions segment increased \$86 million, or 12.1%, in the first quarter of fiscal 2017 from the first quarter of fiscal 2016 primarily as a result of net sales contributions from acquisitions of 13.3%. Our organic net sales by primary industry end market were as follows:

*Industrial equipment* Our organic net sales increased 0.7% in the first quarter of fiscal 2017 due primarily to growth in the medical market and the factory automation and process controls systems market, partially offset by declines in the solar market.

*Aerospace, defense, oil, and gas* Our organic net sales increased 0.8% in the first quarter of fiscal 2017 due primarily to growth in the aerospace and defense market, partially offset by continued weakness in the oil and gas market.

*Energy* Our organic net sales decreased 3.0% in the first quarter of fiscal 2017 as a result of market weakness in the EMEA region, partially offset by growth in the Americas region.

**Operating Income.** The following table presents the Industrial Solutions segment's operating income and operating margin information:

<b>Total</b>	<b>\$ (24)</b>	<b>(3.9)%</b>	<b>\$ (3)</b>	<b>\$ (36) \$ 15 2.5%</b>

In the first quarter of fiscal 2017, net sales in the Communications Solutions segment decreased \$24 million, or 3.9%, from the first quarter of fiscal 2016 due primarily to sales declines resulting from a divestiture of 5.8%, partially offset by organic net sales growth of 2.5%. Our organic net sales by primary industry end market were as follows:

*Data and devices* Our organic net sales increased 1.7% in the first quarter of fiscal 2017 due to portfolio stabilization in North America, partially offset by market weakness in the EMEA region.

*Subsea communications* Our organic net sales decreased 3.6% in the first quarter of fiscal 2017 as a result of lower project volume.

Edgar Filing: TE Connectivity Ltd. - Form 10-Q

*Appliances* Our organic net sales increased 14.4% in the first quarter of fiscal 2017 due primarily to strong growth in the Asia Pacific region resulting from market share gains.

**Operating Income.** The following table presents the Communications Solutions segment's operating income and operating margin information:

	For the Quarters Ended		
	December 30, 2016	December 25, 2015	Increase (Decrease)
	(\$ in millions)		
Operating income	\$ 76	\$ 71	\$ 5
Operating margin	12.8%	11.5%	1.3%

Operating income in the Communications Solutions segment increased \$5 million in the first quarter of fiscal 2017 as compared to the first quarter of fiscal 2016. The Communications Solutions segment's operating income included the following:

	For the Quarters Ended	
	December 30, 2016	December 25, 2015
	(in millions)	
Restructuring and other charges, net	\$ 2	\$ 15

Excluding these items, operating income decreased in the first quarter of fiscal 2017 as the benefits of lower material costs were more than offset by the impacts of project timing in our Subsea Communications business, where we experienced strong operating income performance in the first quarter of fiscal 2016 resulting from the early completion of a project.

### Liquidity and Capital Resources

Our ability to fund our future capital needs will be affected by our ability to continue to generate cash from operations and may be affected by our ability to access the capital markets, money markets, or other sources of funding, as well as the capacity and terms of our financing arrangements. We believe that cash generated from operations and, to the extent necessary, these other sources of potential funding will be sufficient to meet our anticipated capital needs for the foreseeable future, including the payment of \$708 million of 6.55% senior notes due in October 2017. We may use excess cash to purchase a portion of our common shares pursuant to our authorized share repurchase program; to acquire strategic businesses or product lines; to pay distributions or dividends on our common shares; or to reduce our outstanding debt, including through the possible repurchase of our debt in accordance with applicable law. The cost or availability of future funding may be impacted by financial market conditions. We will continue to monitor financial markets and respond as necessary to changing conditions.

### Cash Flows from Operating Activities

In the first quarter of fiscal 2017, net cash provided by continuing operating activities increased \$13 million to \$404 million from \$391 million in the first quarter of fiscal 2016. The increase resulted primarily from higher income and accounts payables levels, as well as cash received as collateral against our cross-currency swap contracts, partially offset by the unfavorable effects of changes in accounts receivable levels.

The amount of income taxes paid, net of refunds, during the first quarters of fiscal 2017 and 2016 was \$96 million and \$88 million, respectively.

Table of Contents

**Cash Flows from Investing Activities**

Capital spending was \$130 million and \$139 million in the first quarters of fiscal 2017 and 2016, respectively. We expect fiscal 2017 capital spending levels to be approximately 5% of net sales. We believe our capital funding levels are adequate to support new programs, and we continue to invest in our manufacturing infrastructure to further enhance productivity and manufacturing capabilities.

**Cash Flows from Financing Activities and Capitalization**

Total debt at December 30, 2016 and September 30, 2016 was \$4,028 million and \$4,070 million, respectively. See Note 7 to the Condensed Consolidated Financial Statements for additional information regarding debt.

Tyco Electronics Group S.A. ("TEGSA"), our 100%-owned subsidiary, has a five-year unsecured senior revolving credit facility ("Credit Facility") with total commitments of \$1,500 million. The Credit Facility expires in December 2020. TEGSA had no borrowings under the Credit Facility at December 30, 2016 and September 30, 2016.

The Credit Facility contains a financial ratio covenant providing that if, as of the last day of each fiscal quarter, our ratio of Consolidated Total Debt to Consolidated EBITDA (as defined in the Credit Facility) for the then most recently concluded period of four consecutive fiscal quarters exceeds 3.75 to 1.0, an Event of Default (as defined in the Credit Facility) is triggered. The Credit Facility and our other debt agreements contain other customary covenants. None of our covenants are presently considered restrictive to our operations. As of December 30, 2016, we were in compliance with all of our debt covenants and believe that we will continue to be in compliance with our existing covenants for the foreseeable future.

In addition to the Credit Facility, TEGSA is the borrower under our senior notes and commercial paper. TEGSA's payment obligations under its senior notes, commercial paper, and Credit Facility are fully and unconditionally guaranteed by its parent, TE Connectivity Ltd.

Payments of common share dividends to shareholders were \$132 million and \$127 million in the first quarters of fiscal 2017 and 2016, respectively.

We repurchased approximately 2 million of our common shares for \$102 million and approximately 20 million of our common shares for \$1,318 million under our share repurchase authorization during the first quarters of fiscal 2017 and 2016, respectively. At December 30, 2016, we had \$1.0 billion of availability remaining under our share repurchase authorization.

**Commitments and Contingencies**

**Legal Proceedings**

In the normal course of business, we are subject to various legal proceedings and claims, including patent infringement claims, product liability matters, employment disputes, disputes on agreements, other commercial disputes, environmental matters, antitrust claims, and tax matters, including non-income tax matters such as value added tax, sales and use tax, real estate tax, and transfer tax. Although it is not feasible to predict the outcome of these proceedings, based upon our experience, current information, and applicable law, we do not expect that the outcome of these proceedings, either individually or in the aggregate, will have a material effect on our results of operations, financial position, or cash flows.

**Guarantees**

In certain instances, we have guaranteed the performance of third parties and provided financial guarantees for uncompleted work and financial commitments. The terms of these guarantees vary with

Table of Contents

end dates ranging from fiscal 2017 through the completion of such transactions. The guarantees would be triggered in the event of nonperformance, and the potential exposure for nonperformance under the guarantees would not have a material effect on our results of operations, financial position, or cash flows.

In disposing of assets or businesses, we often provide representations, warranties, and/or indemnities to cover various risks including unknown damage to assets, environmental risks involved in the sale of real estate, liability for investigation and remediation of environmental contamination at waste disposal sites and manufacturing facilities, and unidentified tax liabilities and legal fees related to periods prior to disposition. We do not expect that these uncertainties will have a material adverse effect on our results of operations, financial position, or cash flows.

At December 30, 2016, we had outstanding letters of credit, letters of guarantee, and surety bonds of \$265 million.

In the normal course of business, we are liable for contract completion and product performance. In the opinion of management, such obligations will not materially affect our results of operations, financial position, or cash flows.

**Tax Sharing Agreement**

In connection with the separation from Tyco International plc in 2007, we entered into a Tax Sharing Agreement that generally governs our, Tyco International plc's, and Covidien plc's respective rights, responsibilities, and obligations with respect to taxes for periods prior to and including June 29, 2007. See Note 8 to the Condensed Consolidated Financial Statements for additional information regarding the Tax Sharing Agreement.

**Critical Accounting Policies and Estimates**

The preparation of the Condensed Consolidated Financial Statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of revenue and expenses.

Our accounting policies for revenue recognition, goodwill and other intangible assets, income taxes, and pension benefits are based on, among other things, judgments and assumptions made by management. For additional information regarding these policies and the underlying accounting assumptions and estimates used in these policies, refer to the Consolidated Financial Statements and accompanying notes contained in our Annual Report on Form 10-K for the fiscal year ended September 30, 2016. There were no significant changes to this information during the first quarter of fiscal 2017.

**Accounting Pronouncements**

See Note 1 to the Condensed Consolidated Financial Statements for information regarding recently adopted accounting pronouncements.

**Non-GAAP Financial Measure**

**Organic Net Sales Growth**

Organic net sales growth is a non-GAAP financial measure and should not be considered a replacement for results in accordance with GAAP. This non-GAAP financial measure may not be comparable to similarly-titled measures reported by other companies. The primary limitation of this measure is that it excludes the financial impact of items that would otherwise either increase or

decrease our reported results. This limitation is best addressed by using organic net sales growth in combination with net sales growth, the most directly comparable GAAP financial measure, in order to better understand the amounts, character, and impact of any increase or decrease in reported amounts.

Organic net sales growth is a useful measure of our underlying results and trends in the business. It is also a significant component in our incentive compensation plans. The difference between reported net sales growth (the most comparable GAAP financial measure) and organic net sales growth consists of the impact from foreign currency exchange rates, and acquisitions and divestitures, if any. Organic net sales growth is a useful measure of our performance because it excludes items that are not completely under management's control, such as the impact of changes in foreign currency exchange rates, and items that do not reflect the underlying growth of the company, such as acquisition and divestiture activity. Management uses organic net sales growth to monitor and evaluate performance. Also, management uses organic net sales growth together with GAAP financial measures such as net sales growth and operating income in its decision making processes related to the operations of our reportable segments and our overall company. We believe that investors benefit from having access to the same financial measures that management uses in evaluating operations. The tables presented in "Results of Operations" and "Segment Results" provide reconciliations of organic net sales growth to net sales growth calculated in accordance with GAAP.

**Forward-Looking Information**

Certain statements in this Quarterly Report on Form 10-Q are "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995. These statements are based on our management's beliefs and assumptions and on information currently available to our management. Forward-looking statements include, among others, the information concerning our possible or assumed future results of operations, business strategies, financing plans, competitive position, potential growth opportunities, potential operating performance improvements, acquisitions, divestitures, the effects of competition, and the effects of future legislation or regulations. Forward-looking statements include all statements that are not historical facts and can be identified by the use of forward-looking terminology such as the words "believe," "expect," "plan," "intend," "anticipate," "estimate," "predict," "potential," "continue," "may," "should," or the negative of these terms or similar expressions.

Forward-looking statements involve risks, uncertainties, and assumptions. Actual results may differ materially from those expressed in these forward-looking statements. You should not put undue reliance on any forward-looking statements. We do not have any intention or obligation to update forward-looking statements after we file this report except as required by law.

The following and other risks, which are described in greater detail in "Part I. Item 1A. Risk Factors," in our Annual Report on Form 10-K for the fiscal year ended September 30, 2016, could cause our results to differ materially from those expressed in forward-looking statements:

conditions in the global or regional economies and global capital markets, and cyclical industry conditions (including as a result of the impact of the expected exit of the United Kingdom from the European Union);

conditions affecting demand for products in the industries we serve, particularly the automotive industry;

competition and pricing pressure;

market acceptance of our new product introductions and product innovations and product life cycles;

raw material availability, quality, and cost;

Table of Contents

fluctuations in foreign currency exchange rates;

financial condition and consolidation of customers and vendors;

reliance on third-party suppliers;

risks associated with current and future acquisitions and divestitures;

global risks of business interruptions such as natural disasters and political, economic, and military instability;

risks associated with security breaches and other disruptions to our information technology infrastructure;

risks related to compliance with current and future environmental and other laws and regulations;

our ability to protect our intellectual property rights;

risks of litigation;

our ability to operate within the limitations imposed by our debt instruments;

the possible effects on us of various U.S. and non-U.S. legislative proposals and other initiatives that, if adopted, could materially increase our worldwide corporate effective tax rate and negatively impact our U.S. government contracts business;

various risks associated with being a Swiss corporation;

the impact of fluctuations in the market price of our shares; and

the impact of certain provisions of our articles of association on unsolicited takeover proposals.

There may be other risks and uncertainties that we are unable to predict at this time or that we currently do not expect to have a material adverse effect on our business.

**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

There have been no significant changes in our exposures to market risk during the first quarter of fiscal 2017. For further discussion of our exposures to market risk, refer to "Part II. Item 7A. Quantitative and Qualitative Disclosures About Market Risk" in our Annual Report on Form 10-K for the fiscal year ended September 30, 2016.

**ITEM 4. CONTROLS AND PROCEDURES**

**Evaluation of Disclosure Controls and Procedures**

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934, as amended), as of December 30, 2016. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective as of December 30, 2016.

**Changes in Internal Control Over Financial Reporting**

During the quarter ended December 30, 2016, there were no changes in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

There have been no material developments in our legal proceedings since we filed our Annual Report on Form 10-K for the fiscal year ended September 30, 2016 except as set forth below. Refer to "Part I. Item 3. Legal Proceedings" in our Annual Report on Form 10-K for the fiscal year ended September 30, 2016 for additional information regarding legal proceedings.

During the quarter ended December 30, 2016, we determined that one of our manufacturing sites in France had discharged wastewater exceeding the limits in the site's discharge permits. The site ceased the discharges and voluntarily disclosed the matter to the applicable French authorities at the préfecture and the Grand Evreux inter-municipal body in January 2017. We will fully cooperate with the authorities to ensure a satisfactory resolution of the matter. We may face monetary sanctions and requirements for remediation although we do not anticipate such claims will have a material adverse effect on our results of operations, financial position, or cash flows.

**ITEM 1A. RISK FACTORS**

There have been no material changes in our risk factors from those disclosed in "Part I. Item 1A. Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended September 30, 2016. The risk factors described in our Annual Report on Form 10-K, in addition to other information in this report, could materially affect our business operations, financial condition, or liquidity. Additional risks and uncertainties not currently known to us or that we currently believe are immaterial may also impair our business operations, financial condition, and liquidity.
