SALEM COMMUNICATIONS ANNOUNCES FOURTH QUARTER AND FULL YEAR 2005 RESULTS

Fourth Quarter Net Broadcasting Revenue and Station Operating Income

Increase 5.1%

CAMARILLO, CA March 8, 2005 Salem Communications (Nasdaq: SALM), a leading U.S. radio broadcaster, Internet content provider and magazine publisher targeting audiences interested in Christian and family themes, today announced results for the three month and twelve month periods ended December 31, 2005.

Commenting on the company's results, Edward G. Atsinger III, president and CEO said, "The fourth quarter was a challenging quarter for the radio broadcast industry, including Salem. While the radio industry experienced a 3% decline in revenue for the quarter, we posted same station revenue growth of 1% and same station operating income growth of 3%. Our results reflect the absence of almost \$1.0 million of political revenue in the fourth quarter of 2005 that we had in the fourth quarter of 2004. Positives for the quarter include the performance of our News Talk stations, which posted 16% same station revenue growth, and our consistent local and national block programming business, which grew revenue by 8% over last year on a same station basis.

Atsinger continued, "The challenging environment for radio at the end of 2005 has continued into the first quarter of 2006 and is reflected in our first quarter guidance; looking further into 2006 and longer term, we are optimistic. Nearly half of our radio stations are in a start-up or early development stage and we are focused on developing these stations to maturity. We successfully finished our national block programming renewal process with a 5% increase in programming rates. Additionally, we continue to build and solidify our position as the leader in Christian content on the Internet.

Fourth Quarter 2005 Results

For the quarter ended December 31, 2005 compared to the quarter ended December 31, 2004:

 - Net income decreased 10.8% to \$3.3 million, or \$0.13 net income per diluted share, from net income of \$3.7 million, or \$0.14 net income per diluted share;
 - Station operating income (SOI) increased 5.1% to \$19.8 million from \$18.8 million;

Regulation G

Station operating income, EBITDA and Adjusted EBITDA are financial measures not prepared in accordance with generally accepted accounting principles (GAAP). Station operating income is defined as net broadcasting revenues minus broadcasting operating expenses. EBITDA is defined as net income before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA before loss on early redemption of long-term debt, discontinued operations (net of tax), litigation costs and gain or loss on the disposal of assets. In addition, Salem has provided supplemental information as an attachment to this press release, reconciling these non-GAAP financial measures to the most directly comparable financial measures prepared in accordance with GAAP. The company believes these non-GAAP financial measures, when considered in conjunction with the most directly comparable GAAP financial measures, provide useful measures of the company's operating performance.

Station operating income, EBITDA and Adjusted EBITDA are generally recognized by the broadcasting industry as important measures of performance and are used by investors as well as analysts who report on the industry to provide meaningful comparisons between broadcasting. Station operating income, EBITDA and Adjusted EBITDA are not a measure of liquidity or of performance in accordance with GAAP, and should be viewed as a supplement to and not a substitute for, or superior to, the company's results of operations presented on a GAAP basis such as operating income and net income. In addition, Salem's definitions of station operating income, EBITDA and Adjusted EBITDA are not necessarily comparable to similarly titled measures reported by other companies.
