Form 10-Q
July 28, 2017

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED JUNE 30, 2017

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM TO
COMMISSION FILE NUMBER: 1-4825

WEYERHAEUSER COMPANY

Washington (State or other jurisdiction of incorporation or organization)	91-0470860 (I.R.S. Employer Identification Number)
---	--

220 Occidental Avenue South Seattle, Washington (Address of principal executive offices) (206) 539-3000 (Registrant's telephone number, including area code)	98104-7800 (Zip Code)
--	--------------------------

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer

Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Edgar Filing: WEYERHAEUSER CO - Form 10-Q

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of July 24, 2017, 752,940,643 shares of the registrant's common stock (\$1.25 par value) were outstanding.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)
FOR THE QUARTERS AND YEARS-TO-DATE ENDED JUNE 30, 2017 AND 2016

NOTE 1: BASIS OF PRESENTATION

We are a corporation that has elected to be taxed as a real estate investment trust (REIT). We expect to derive most of our REIT income from investments in timberlands, including the sale of standing timber. As a REIT, we generally are not subject to federal corporate level income taxes on REIT taxable income that is distributed to shareholders. We are required to pay corporate income taxes on earnings of our taxable REIT subsidiaries (TRSs), which includes our Wood Products segment and portions of our Timberlands and Real Estate, Energy and Natural Resources (Real Estate & ENR) segments.

Our consolidated financial statements provide an overall view of our results and financial condition. They include our accounts and the accounts of entities we control, including:

- majority-owned domestic and foreign subsidiaries and
- variable interest entities in which we are the primary beneficiary.

They do not include our intercompany transactions and accounts, which are eliminated.

We account for investments in and advances to unconsolidated equity affiliates using the equity method, with taxes provided on undistributed earnings. This means that we record earnings and accrue taxes in the period earnings are recognized by our unconsolidated equity affiliates.

Throughout these Notes to Consolidated Financial Statements, unless specified otherwise, references to “Weyerhaeuser,” “we,” “the company” and “our” refer to the consolidated company.

The accompanying unaudited Consolidated Financial Statements reflect all adjustments that are, in the opinion of management, necessary for a fair presentation of our financial position, results of operations and cash flows for the interim periods presented. Except as otherwise disclosed in these Notes to Consolidated Financial Statements, such adjustments are of a normal, recurring nature. The Consolidated Financial Statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission pertaining to interim financial statements. Certain information and footnote disclosures normally included in our annual Consolidated Financial Statements have been condensed or omitted. These quarterly Consolidated Financial Statements should be read in conjunction with the Consolidated Financial Statements and Management’s Discussion and Analysis of Financial Condition and Results of Operations included in our Annual Report on Form 10-K for the year ended December 31, 2016. Results of operations for interim periods should not necessarily be regarded as indicative of the results that may be expected for the full year.

RECLASSIFICATIONS

We have reclassified certain balances and results from the prior year to be consistent with our 2017 reporting. This makes year-to-year comparisons easier. Our reclassifications had no effect on consolidated net earnings or equity. Our reclassifications present the adoption of new accounting pronouncements on our Consolidated Statement of Operations and in the related footnotes. Refer to discussion of new accounting pronouncements below.

NEW ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2014-09, a comprehensive new revenue recognition model that requires an entity to recognize revenue to depict the

transfer of goods or services to customers at an amount that reflects the consideration it expects to receive in exchange for those goods or services. In August 2015, FASB issued ASU 2015-14, which deferred the effective date for an additional year. In March 2016, FASB issued ASU 2016-08, which does not change the core principle of the guidance; however, it does clarify the implementation guidance on principal versus agent considerations. In April 2016, FASB issued ASU 2016-10, which clarifies two aspects of ASU 2014-09: identifying performance obligations and the licensing implementation guidance. In May 2016, FASB issued ASU 2016-12, which amends ASU 2014-09 to provide improvements and practical expedients to the new revenue recognition model. In December 2016, the FASB issued ASU 2016-20, which amends ASU 2014-09 for technical corrections and to correct for unintended application of the guidance. In February 2017, FASB issued ASU 2017-05, which clarifies the scope of ASC 610-20 and impacts accounting for partial sales of nonfinancial assets.

The company expects to adopt and implement the new revenue recognition guidance effective January 1, 2018. The new standard is required to be applied retrospectively to each prior reporting period presented (full retrospective transition method) or retrospectively with the cumulative effect of initially applying it recognized at the date of initial application (cumulative effect method). We expect to adopt using the cumulative effect method. We expect that the adoption of the new revenue recognition guidance will not materially impact our operating results, balance sheet, or cash flows. We expect an impact to our financial reporting from adding expanded disclosures.

In July 2015, FASB issued ASU 2015-11, which simplifies the measurement of inventories valued under most methods, including our inventories valued under FIFO – the first-in, first-out – and moving average cost methods. Inventories valued under LIFO – the last-in, first-out method – are excluded. Under this new guidance, inventories valued under these methods would be valued at the lower of cost or net realizable value, with net realizable value defined as the estimated selling price less reasonable costs to sell the inventory. We adopted on January 1, 2017, and determined this pronouncement does not have a material impact on our consolidated financial statements and related disclosures.

In February 2016, FASB issued ASU 2016-02, which requires lessees to recognize assets and liabilities for the rights and obligations created by those leases and requires both capital and operating leases to be recognized on the balance sheet. The new guidance is effective for fiscal years beginning after December 15, 2018, and early adoption is permitted. We expect to adopt on January 1, 2019, and are evaluating the impact on our consolidated financial statements and related disclosures.

In October 2016, FASB issued ASU 2016-16, which requires immediate recognition of the income tax consequences upon intra-entity transfers of assets other than inventory. The new guidance is effective for annual periods beginning after December 15, 2017, and early adoption is permitted. We adopted this accounting standard on January 1, 2017. As a result of this adoption, our opening balance sheet was adjusted through "Retained earnings" to include a deferred tax asset of \$22 million for prior period intra-entity transfers. Adoption of this standard did not have a material impact on our Consolidated Statement of Cash Flows or Consolidated Statement of Operations.

In March 2017, FASB issued ASU 2017-07, which requires that an employer report the service cost component of pension and other postretirement benefit costs in the Consolidated Statement of Operations in the same line item or items as other compensation costs arising from services rendered by the pertinent employees. This requirement is consistent with how we have historically presented our pension service costs. The other requirement of this ASU is to present the remaining components of pension and other postretirement benefit costs (i.e., interest, expected return on plan assets, amortization of actuarial gains or losses, and amortization of prior service credits or costs) in the Consolidated Statement of Operations separately from the service cost component and outside a subtotal of income from operations. The new guidance is effective for annual periods beginning after December 15, 2017, and early adoption is permitted. We adopted this accounting standard as of January 1, 2017. As a result, we reclassified amounts related to other components of pension and other post retirement benefit costs from their prior financial statements captions ("Costs of products sold," "General and administrative expenses," and "Other operating costs (income), net") into a new financial statement caption titled "Non-operating pension and other postretirement benefit (costs) credits" in our Consolidated Statement of Operations. The adoption of this ASU did not impact "Net earnings," nor did it impact our Consolidated Balance Sheet.

NOTE 2: BUSINESS SEGMENTS

Reportable business segments are determined based on the company's management approach. The management approach, as defined by FASB ASC 280, "Segment Reporting," is based on the way the chief operating decision maker organizes the segments within a company for making decisions about resources to be allocated and assessing their performance.

We are principally engaged in growing and harvesting timber; manufacturing, distributing, and selling products made from trees; maximizing the value of every acre we own through the sale of higher and better use (HBU) properties; and monetizing reserves of minerals, oil, gas, coal, and other natural resources on our timberlands. The following is a brief description of each of our reportable business segments and activities:

- Timberlands – which includes logs, timber and leased recreational access;
- Real Estate & ENR – which includes sales of timberlands; rights to explore for and extract hard minerals, oil and gas production and coal; and equity interests in our Real Estate Development Ventures (as defined and described in Note 7: Related Parties); and
- Wood Products – which includes softwood lumber, engineered wood products, structural panels, medium density fiberboard and building materials distribution.

An analysis and reconciliation of our business segment information to the respective information in the Consolidated Statements of Operations is as follows:

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 2017	JUNE 2016	JUNE 2017	JUNE 2016
Sales to unaffiliated customers:

Dividends on preference shares	—	(11)	—	(22)
Net earnings attributable to Weyerhaeuser common shareholders	\$ 24	\$ 157	\$ 181	\$ 227

Net contribution to earnings for the Timberlands segment includes a noncash pretax impairment charge of \$147 million, recorded during second quarter 2017. This impairment is a result of our agreement to sell our Uruguayan operations, as announced during June 2017. Refer to Note 3: Held for Sale and Discontinued Operations for more information regarding this transaction.

The Real Estate & ENR segment includes the equity earnings from, investments in and advances to our Real Estate Development Ventures (as defined and described in Note 7: Related Parties), which are accounted for under the equity method.

Net contribution to earnings for the Wood Products segment includes a pretax \$50 million charge to accrue for estimated costs to remediate an issue with certain I-joists coated with our Flak Jacket® Protection product. Refer to Note 12: Legal Proceedings, Commitments and Contingencies for additional details.

Unallocated items are gains or charges not related to, or allocated to, an individual operating segment. They include a portion of items such as: share-based compensation, pension and postretirement costs, foreign exchange transaction gains and losses associated with financing, and the elimination of intersegment profit in inventory and the LIFO reserve. Additionally, amounts shown for 2016 include equity earnings from our former Timberland Venture. As of August 31, 2016, the Timberland Venture became a fully consolidated, wholly-owned subsidiary

and therefore eliminated our equity method investment at that time.

Discontinued operations as presented herein consist of the operations of our former Cellulose Fibers segment.

(5) Refer to Note 3: Held for Sale and Discontinued Operations for more information regarding our discontinued operations.

NOTE 3: HELD FOR SALE AND DISCONTINUED OPERATIONS

OPERATIONS HELD FOR SALE

On October 12, 2016, we announced the exploration of strategic alternatives for our Uruguay timberlands and manufacturing operations, which is part of our Timberlands business segment. On June 2, 2017, the Weyerhaeuser Board of Directors approved an equity purchase agreement with a consortium led by BTG Pactual's Timberland Investment Group (TIG), including other long-term investors, pursuant to which the Company has agreed to sell, in exchange for \$403 million in cash, all of its equity interest in subsidiaries that collectively own and operate its Uruguayan timberlands and manufacturing business. The transaction is subject to customary purchase price adjustments, including adjustments relating to working capital, harvest limitations and timber inventory amounts, as well as standard operating covenants, casualty loss provisions, indemnities and closing conditions, including regulatory review. The sale is expected to close in the second half of 2017.

The assets and liabilities of our Uruguayan timberlands and manufacturing business now meet the criteria under generally accepted accounting principles to be classified as held for sale. This designation causes us to show the related assets and liabilities of the Uruguayan business separately on the current period Consolidated Balance Sheet, but does not affect prior period balance sheet classifications. Additionally, the designation as held for sale requires us to record the related net assets at the lower of their current cost basis or fair value, less an amount of estimated selling costs, and thus we recognized a noncash pretax impairment charge. The related impairment charge of \$147 million was recorded during second quarter 2017 (refer to Note 15: Charges for Integration and Restructuring, Closures and Asset Impairments). Other than the impairment charge and the cessation of certain costs associated with held for sale classification, this classification does not affect the presentation in the Consolidated Statement of Operations.

As of June 30, 2017, "Assets held for sale" had a balance of \$411 million, which consisted of \$41 million related to Inventories and other assets as well as \$370 million related to Timberlands and Property and equipment, net, after an impairment of \$147 million. The related "Liabilities held for sale" of \$19 million consisted of Accounts payable and other liabilities.

The sale of our Uruguayan operations is not considered a strategic shift that has or will have a major effect on our operations or financial results and therefore does not meet the requirements for presentation as discontinued operations.

DISCONTINUED OPERATIONS

During 2016, we entered into three separate transactions to sell our Cellulose Fibers business. As a result of these transactions, the company recognized a pretax gain on disposition of \$789 million and total cash proceeds of \$2.5 billion in the second half of 2016. These transactions consisted of:

- sale of our Cellulose Fibers liquid packaging board business to Nippon Paper Industries Co., Ltd, which closed on August 31, 2016;
- sale of our Cellulose Fibers printing papers joint venture to One Rock Capital Partners, LLC, which closed on November 1, 2016; and
- sale of our Cellulose Fibers pulp business to International Paper, which closed on December 1, 2016.

The results of operations for our pulp and liquid packaging board businesses, along with our interest in our printing papers joint venture, were reclassified to discontinued operations during our 2016 reporting year. These results have been summarized in "Earnings from discontinued operations, net of income taxes" on our Consolidated Statement of Operations for each period presented. We did not reclassify our Consolidated Statement of Cash Flows to reflect

discontinued operations.

The following table presents net earnings from discontinued operations. As all discontinued operations were sold in 2016, no assets or liabilities remain as of June 30, 2017, or December 31, 2016.

DOLLAR AMOUNTS IN MILLIONS	QUARTER YEAR-TO-DATE	
	ENDED	ENDED
	JUNE 2016	JUNE 2016
Total net sales	\$ 456	\$ 886
Costs of products sold	374	760
Gross margin	82	126
Selling expenses	3	7
General and administrative expenses	8	17
Research and development expenses	2	3
Charges for integration and restructuring, closures and asset impairments ⁽¹⁾	25	31
Other operating income, net	(10)	(19)
Operating income	54	87
Equity loss from joint venture	(1)	(3)
Interest expense, net of capitalized interest	(1)	(3)
Earnings from discontinued operations before income taxes	52	81
Income taxes	(14)	(23)
Net earnings from discontinued operations	\$ 38	58

(1) Charges relate to our strategic evaluation of the Cellulose Fibers businesses and transaction-related costs.

Cash flows from discontinued operations for the three and six months ended June 30, 2016, are as follows:

DOLLAR AMOUNTS IN MILLIONS	QUARTER YEAR-TO-DATE	
	ENDED	ENDED
	JUNE 2016	JUNE 2016
Net cash provided by (used in) operating activities	\$ 68	\$ 134
Net cash provided by (used in) investing activities	\$ (12)	\$ (34)

NOTE 4: MERGER WITH PLUM CREEK

On February 19, 2016, we merged with Plum Creek Timber Company, Inc. (Plum Creek). Plum Creek was a REIT that primarily owned and managed timberlands in the United States. Plum Creek also produced wood products, developed opportunities for mineral and other natural resource extraction, and sold real estate properties.

The acquisition of total assets of \$10.0 billion was a noncash investing and financing activity comprised of \$6.4 billion in equity consideration transferred and \$3.6 billion of liabilities assumed.

Summarized unaudited pro forma information that presents combined amounts as if this merger occurred at the beginning of 2016 is as follows:

DOLLAR AMOUNTS IN MILLIONS, EXCEPT PER-SHARE FIGURES	QUARTER YEAR-TO-DATE	
	ENDED	ENDED
	JUNE 2016	JUNE 2016
Net sales	\$ 1,655	\$ 3,216
Net earnings from continuing operations attributable to Weyerhaeuser common shareholders	\$ 122	\$ 266
Earnings from continuing operations per share attributable to Weyerhaeuser common shareholders, basic and diluted	\$ 0.16	\$ 0.35

Pro forma "Net earnings from continuing operations attributable to Weyerhaeuser common shareholders" excludes \$3 million and \$134 million non-recurring merger-related costs (net of tax) incurred in the quarter and year-to-date ended June 30, 2016, respectively. Pro forma data may not be indicative of the results that would have been obtained had these events occurred at the beginning of the periods presented, nor is it intended to be a projection of future results.

NOTE 5: NET EARNINGS PER SHARE

Our basic and diluted earnings per share attributable to Weyerhaeuser shareholders were: \$0.03 during second quarter 2017 and \$0.24 during year-to-date 2017; and \$0.21 during second quarter 2016 and \$0.33 during year-to-date 2016.

Basic earnings per share is net earnings available to common shareholders divided by the weighted average number of our outstanding common shares, including stock equivalent units where there is no circumstance under which those shares would not be issued.

Diluted earnings per share is net earnings available to common shareholders divided by the sum of the weighted average number of our outstanding common shares and the effect of our outstanding dilutive potential common shares:

SHARES IN THOUSANDS	QUARTER		YEAR-TO-DATE	
	ENDED		ENDED	
	JUNE	JUNE	JUNE	JUNE
	2017	2016	2017	2016
Weighted average number of outstanding common shares – basic	752,630	743,140	751,674	687,572
Dilutive potential common shares:				
Stock options	2,845	3,061	2,913	2,398
Restricted stock units	488	1,075	518	678
Performance share units	488	425	520	412
Total effect of outstanding dilutive potential common shares	3,821	4,561	3,951	3,488
Weighted average number of outstanding common shares – dilutive	756,451	747,701	755,625	691,060

We use the treasury stock method to calculate the dilutive effect of our outstanding stock options, restricted stock units and performance share units. Share-based payment awards that are contingently issuable upon the achievement of specified performance or market conditions are included in our diluted earnings per share calculation in the period in which the conditions are satisfied.

Potential Shares Not Included in the Computation of Diluted Earnings per Share

The following shares were not included in the computation of diluted earnings per share because they were either antidilutive or the required performance or market conditions were not met. Some or all of these shares may be dilutive potential common shares in future periods.

SHARES IN THOUSANDS	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 2017	JUNE 2016	JUNE 2017	JUNE 2016
	Stock options	1,408	1,916	1,408
Performance share units	450	471	450	471
Preference shares	—	25,273	—	25,273

We issued 13.8 million 6.375 percent Mandatory Convertible Preference Shares, Series A on June 24, 2013, the majority of which remained outstanding through June 30, 2016. Preference Shares outstanding during the quarter ended June 30, 2016, were considered antidilutive and were not considered participating. On July 1, 2016, all outstanding 6.375 percent Mandatory Convertible Preference Shares, Series A (Preference Shares) converted into Weyerhaeuser common shares at a rate of 1.6929 Weyerhaeuser common shares per Preference Share. There were no preference shares outstanding as of June 30, 2017.

NOTE 6: INVENTORIES

Inventories include raw materials, work-in-process and finished goods.

DOLLAR AMOUNTS IN MILLIONS	JUNE 30, 2017	DECEMBER 31, 2016
LIFO Inventories:		
Logs	\$ 5	\$ 18
Lumber, plywood and panels	52	51
Medium density fiberboard	9	10
Other products	21	10
FIFO or moving average cost inventories:		
Logs	18	21
Lumber, plywood, panels and engineered wood products	81	71
Other products	80	92
Materials and supplies	83	85
Total	\$ 349	\$ 358

LIFO – the last-in, first-out method – applies to major inventory products held at our U.S. domestic locations. The FIFO – the first-in, first-out method – or moving average cost methods apply to the balance of our domestic raw material and product inventories as well as for all material and supply inventories and all foreign inventories. If we used FIFO for all LIFO inventories, our stated inventories would have been higher by \$70 million as of June 30, 2017, and \$71 million as of December 31, 2016.

NOTE 7: RELATED PARTIES

This note provides details about our transactions with related parties. Our related parties consist of: our Real Estate Development Ventures, which are accounted for using the equity method and

our Twin Creeks Venture.

Real Estate Development Ventures

WestRock-Charleston Land Partners, LLC (WR-CLP) is a limited liability company which holds residential and commercial real estate development properties, currently under development (Class A Properties) and higher-value timber and development lands (Class B Properties) (referred to collectively as the Real Estate Development Ventures). Our share of the equity earnings are included in the net contribution to earnings of our Real Estate & ENR segment.

The carrying amount of our investment in WR-CLP is \$33 million at June 30, 2017, and \$56 million at December 31, 2016. The change in our investment in WR-CLP during 2017 is due to a \$23 million cash return of investment received during second quarter 2017. We record our share of net earnings within "Equity earnings from joint ventures" in our Consolidated Statement of Operations in the period which earnings are recorded by the affiliates. We did not have any equity earnings from joint ventures during second quarter or year-to-date 2017.

Twin Creeks Venture

On April 1, 2016, we contributed approximately 260,000 acres of our southern timberlands with an agreed-upon value of approximately \$560 million to Twin Creeks Timber, LLC (Twin Creeks Venture), in exchange for cash of approximately \$440 million and a 21 percent ownership interest.

In conjunction with contributing to the venture, we entered into a separate agreement to manage the timberlands owned by the Twin Creeks Venture, including harvesting activities, marketing and log sales activities, and replanting and silviculture activities. This management agreement guarantees the Twin Creeks Venture an annual return equal to 3 percent of the contributed value of the managed timberlands in the form of minimum quarterly payments from Weyerhaeuser. We are also required to annually distribute 75 percent of any profits earned by us in excess of the minimum quarterly payments. The management agreement is cancellable at any time by Twin Creeks Timber, LLC, and otherwise will expire on April 1, 2019.

Changes in our "Deposit from contribution of timberlands to related party" balance during 2017 were as follows:

DOLLAR AMOUNTS IN MILLIONS

Balance at December 31, 2016	\$426
Lease payments to Twin Creeks Venture (9)	
Distributions from Twin Creeks Venture 2	
Balance at June 30, 2017	\$419

NOTE 8: PENSION AND OTHER POSTRETIREMENT BENEFIT PLANS

The components of net periodic benefit costs (credits) are:

DOLLAR AMOUNTS IN MILLIONS	PENSION QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 2017	JUNE 2016	JUNE 2017	JUNE 2016
Service cost ⁽¹⁾	\$ 7	\$ 11	\$ 17	\$ 24
Interest cost	66	69	132	137
Expected return on plan assets	(103)	(123)	(205)	(246)
Amortization of actuarial loss	42	40	97	78
Amortization of prior service cost	1	1	2	2
Accelerated pension costs included in Plum Creek merger-related costs (Note 15)	—	—	—	5
Total net periodic benefit cost (credit) - pension	\$ 13	\$ (2)	\$ 43	\$ —

Service cost includes \$3 million and \$7 million for the quarter and year-to-date ended June 30, 2016, respectively, (1) for employees that were part of our Cellulose Fibers divestitures. These charges are included in our results of discontinued operations.

DOLLAR AMOUNTS IN MILLIONS	OTHER POSTRETIREMENT BENEFITS			
	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 2017	JUNE 2016	JUNE 2017	JUNE 2016
	Interest cost	\$ 2	\$ 3	\$ 4
Amortization of actuarial loss	2	2	4	4
Amortization of prior service credit	(2)	(2)	(4)	(4)
Total net periodic benefit cost - other postretirement benefits	\$ 2	\$ 3	\$ 4	\$ 5

On January 1, 2017, we adopted ASU 2017-07, which affects where components of pension and other postretirement costs are presented on the Consolidated Statement of Operations. Refer to Note 1: Basis of Presentation for further information.

FAIR VALUE OF PENSION PLAN ASSETS AND OBLIGATION

We estimate the fair value of pension plan assets based upon the information available during the year-end reporting process. In some cases, primarily private equity funds, the information available consists of net asset values as of an interim date, cash flows between the interim date and the end of the year and market events. We update the year-end estimated fair value of pension plan assets to incorporate year-end net asset values reflected in financial statements received after we have filed our Annual Report on Form 10-K. During second quarter 2017, we recorded an increase in the fair value of the pension assets of \$17 million, or less than 1 percent. We also updated our census data that is used to estimate our projected benefit obligation for our pension plans. As a result of that update, during second quarter 2017, we recorded a

decrease to the projected benefit obligation of \$10 million, or less than 1 percent. The net effect was a \$27 million improvement in the funded status compared to December 31, 2016.

EXPECTED CONTRIBUTIONS AND BENEFIT PAYMENTS

In 2017 we expect to:

- be required to contribute approximately \$23 million for our Canadian registered plan;
- be required to contribute or make benefit payments for our Canadian nonregistered plans of \$3 million;
- make benefit payments of \$26 million for our U.S. nonqualified pension plans; and
- make benefit payments of \$21 million for our U.S. and Canadian other postretirement plans.

We do not anticipate making a contribution to our U.S. qualified pension plans for 2017.

NOTE 9: ACCRUED LIABILITIES

Accrued liabilities were comprised of the following:

DOLLAR AMOUNTS IN MILLIONS	JUNE 30, DECEMBER 31,	
	2017	2016
Wages, salaries and severance pay	\$ 118	\$ 178
Pension and other postretirement benefits	48	49
Vacation pay	35	33
Taxes – Social Security and real and personal property	31	20
Interest	118	120
Customer rebates and volume discounts	39	39
Deferred income	64	40
Accrued income taxes	12	139
Product remediation accrual ⁽¹⁾	50	—
Other	70	74
Total	\$ 585	\$ 692

In the second quarter of 2017, we recorded a \$50 million accrual for estimated costs to remediate an issue with (1)certain I-joists coated with our Flak Jacket® Protection product. Refer to Note 12: Legal Proceedings, Commitments and Contingencies for additional details.

NOTE 10: LONG-TERM DEBT AND LINES OF CREDIT

During March 2017, we entered into a new \$1.5 billion five-year senior unsecured revolving credit facility that expires in March 2022. This replaced a \$1 billion senior unsecured revolving credit facility that was set to expire September 2018. The entire amount is available to Weyerhaeuser Company. Borrowings are at LIBOR plus a spread or at other interest rates mutually agreed upon between the borrower and the lending banks. There were no borrowings or repayments under our revolving credit facility during year-to-date June 30, 2017.

Subsequent to our quarter ended June 30, 2017, but prior to the issuance of these financial statements, we prepaid a \$550 million variable-rate term loan originally set to mature in 2020 (2020 term loan). The 2020 term loan was prepaid using available cash as well as borrowing proceeds from a new \$225 million variable-rate term loan set to mature in 2026 (2026 term loan). Due to the use of available cash to settle a portion of the 2020 term loan, we have reclassified the related portion (\$325 million) of the 2020 term loan outstanding at June 30, 2017, from "Long-term debt" to "Current maturities of long-term debt" on our current period Consolidated Balance Sheet.

NOTE 11: FAIR VALUE OF FINANCIAL INSTRUMENTS

The estimated fair values and carrying values of our long-term debt consisted of the following:

DOLLAR AMOUNTS IN MILLIONS	JUNE 30, 2017		DECEMBER 31, 2016	
	CARRYING VALUE (LEVEL 2)	FAIR VALUE (LEVEL 2)	CARRYING VALUE (LEVEL 2)	FAIR VALUE (LEVEL 2)
Long-term debt (including current maturities):				
Fixed rate	\$6,054	\$ 7,142	\$6,061	\$ 6,925
Variable rate	550	550	549	550
Total Debt	\$6,604	\$ 7,692	\$6,610	\$ 7,475

To estimate the fair value of fixed rate long-term debt, we used the following valuation approaches:

- market approach – based on quoted market prices we received for the same types and issues of our debt; or
- income approach – based on the discounted value of the future cash flows using market yields for the same type and comparable issues of debt.

We believe that our variable rate long-term debt instruments have net carrying values that approximate their fair values with only insignificant differences.

The inputs to these valuations are based on market data obtained from independent sources or information derived principally from observable market data. The difference between the fair value and the carrying value represents the theoretical net premium or discount we would pay or receive to retire all debt at the measurement date.

FAIR VALUE OF OTHER FINANCIAL INSTRUMENTS

We believe that our other financial instruments, including cash and cash equivalents, short-term investments, mutual fund investments held in grantor trusts, receivables, and payables, have net carrying values that approximate their fair values with only insignificant differences. This is primarily due to the short-term nature of these instruments and the allowance for doubtful accounts.

NOTE 12: LEGAL PROCEEDINGS, COMMITMENTS AND CONTINGENCIES

LEGAL PROCEEDINGS

We are party to various legal proceedings arising in the ordinary course of business. We are not currently a party to any legal proceeding that management believes could have a material adverse effect on our long-term consolidated financial position, results of operations or cash flows. See Note 17: Income Taxes for a discussion of a tax proceeding involving Plum Creek REIT's 2008 U.S. federal income tax return.

ENVIRONMENTAL MATTERS

Site Remediation

Under the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) – commonly known as the Superfund – and similar state laws, we:

- are a party to various proceedings related to the cleanup of hazardous waste sites and
- have been notified that we may be a potentially responsible party related to the cleanup of other hazardous waste sites for which proceedings have not yet been initiated.

We have received notification from the Environmental Protection Agency (the EPA) and have acknowledged that we are a potentially responsible party in a portion of the Kalamazoo River Superfund site in southwest Michigan. Our involvement in the remediation site is based on our former ownership of the Plainwell, Michigan mill located within the remediation site. Several other companies also operated upstream pulp mills within the remediation site. We are currently cooperating with the other parties to jointly implement an administrative order issued by the EPA on April 14, 2016, with respect to a portion of the site comprising a stretch of the river approximately 1.7 miles long referred to as the Otsego Township Dam Area. We do not expect to incur material losses related to the implementation of this administrative order; however, we may incur additional costs, as yet not specified, in connection with remediation tasks resulting from other areas of the site. The company, along with others, was named as a defendant by Georgia-Pacific Consumer Products LP, Fort James Corporation and Georgia-Pacific LLC in an action seeking

contribution under CERCLA for remediation costs relating to the site. The trial has been concluded but a decision on cost contribution and allocation has not yet been rendered by the Court.

As of June 30, 2017, our total accrual for future estimated remediation costs on the active Superfund sites and other sites for which we are responsible was approximately \$47 million. These reserves are recorded in "Accrued liabilities" (current) and "Other liabilities" (noncurrent) on our Consolidated Balance Sheet.

Asset Retirement Obligations

We have obligations associated with the retirement of tangible long-lived assets consisting primarily of reforestation obligations related to forest management licenses in Canada and obligations to close and cap landfills. As of June 30, 2017, our accrued balance for these obligations was \$31 million. These obligations are recorded in "Accrued liabilities" (current) and "Other liabilities" (noncurrent) on our Consolidated Balance Sheet. The accruals have not changed materially since the end of 2016.

Some of our sites have materials containing asbestos. We have met our current legal obligation to identify and manage these materials. In situations where we cannot reasonably determine when materials containing asbestos might be removed from the sites, we have not recorded an accrual because the fair value of the obligation cannot be reasonably estimated.

PRODUCT REMEDIATION CONTINGENCY

In July 2017, the company announced it is implementing a solution to address concerns regarding our TJI® Joists with Flak Jacket® Protection product. The company has determined that an odor in certain newly constructed homes is related to a recent formula change to the Flak Jacket coating that included formaldehyde-based resin. This issue is isolated to Flak Jacket product manufactured after December 1, 2016, and does not affect any of the company's other products. The company also announced it will cover the cost to either remediate or replace affected joists. The estimated range of costs to remediate or replace is \$50 million to \$60 million. As of June 30, 2017, we have recorded a \$50 million reserve for remediation costs. The charge is attributable to our Wood Products segment and was recorded in "Other operating costs (income), net," on the Consolidated Statement of Operations. The related accrual was recorded in "Accrued liabilities" on the Consolidated Balance Sheet.

NOTE 13: CUMULATIVE OTHER COMPREHENSIVE INCOME (LOSS)

Changes in amounts included in our cumulative other comprehensive income (loss) by component are:

DOLLAR AMOUNTS IN MILLIONS	PENSION			OTHER POSTRETIREMENT BENEFITS			Unrealized gains on available-for-sale securities	Total
	Foreign currency translation adjustments	Actuarial losses	Prior service costs	Actuarial losses	Prior service credits			
Beginning balance as of December 31, 2016	\$ 232	\$(1,651)	\$(9)	\$(67)	\$ 29	\$ 7	\$(1,459)	
Other comprehensive income (loss) before reclassifications	11	21	(3)	—	—	1	30	
Income taxes	—	(15)	1	—	—	—	(14)	
Net other comprehensive income (loss) before reclassifications	11	6	(2)	—	—	1	16	
Amounts reclassified from cumulative other comprehensive income (loss) ⁽¹⁾	—	97	2	4	(4)	—	99	
Income taxes	—	(33)	(1)	(2)	1	—	(35)	
Net amounts reclassified from cumulative other comprehensive income (loss)	—	64	1	2	(3)	—	64	
Total other comprehensive income (loss)	11	70	(1)	2	(3)	1	80	
Ending balance as of June 30, 2017	\$ 243	\$(1,581)	\$(10)	\$(65)	\$ 26	\$ 8	\$(1,379)	

(1) Actuarial losses and prior service credits (cost) are components of net periodic benefit costs (credits). See Note 8: Pension and Other Postretirement Benefit Plans.

NOTE 14: SHARE-BASED COMPENSATION

Share-based compensation activity during year-to-date 2017 included the following:

SHARES IN THOUSANDS	Granted	Vested
Restricted Stock Units (RSUs)	763	710
Performance Share Units (PSUs)	348	160

A total of 4.2 million shares of common stock were issued as a result of RSU vesting, PSU vesting and stock option exercises.

RESTRICTED STOCK UNITS

The weighted average fair value of the RSUs granted in 2017 was \$32.79. The vesting provisions for RSUs granted in 2017 were as follows:

- vest ratably over four years;
- immediately vest in the event of death while employed or disability;
- continue to vest upon retirement at an age of at least 62, but a portion of the grant forfeits if retirement occurs before the one year anniversary of the grant;
- continue vesting for one year in the event of involuntary termination when the retirement criteria has not been met;
- and
- will forfeit upon termination of employment in all other situations including early retirement prior to age 62.

PERFORMANCE SHARE UNITS

The weighted average grant date fair value of PSUs granted in 2017 was \$37.93.

The final number of shares granted in 2017 will range from 0 percent to 150 percent of each grant's target, depending upon actual company performance.

The ultimate number of PSUs earned is based on two measures:

- our relative total shareholder return (TSR) ranking measured against the S&P 500 over a three year period and
- our relative TSR ranking measured against an industry peer group of companies over a three year period.

The vesting provisions for PSUs granted in 2017 were as follows:

- vest 100 percent on the third anniversary of the grant date as long as the individual remains employed by the company;
- fully vest in the event the participant dies or becomes disabled while employed;
- continue to vest upon retirement at an age of at least 62, but a portion of the grant forfeits if retirement occurs before the one year anniversary of the grant;
- continue vesting for one year in the event of involuntary termination when the retirement criteria has not been met and the employee has met the second anniversary of the grant date; and
- will forfeit upon termination of employment in all other situations including early retirement prior to age 62.

Weighted Average Assumptions Used in Estimating the Value of Performance Share Units Granted in 2017

	Performance Share Units 1/1/2017 - 12/31/2019
Performance period	
Valuation date average stock price ⁽¹⁾	\$32.79
Expected dividends	3.74 %
Risk-free rate	0.68155 %
Expected volatility	27.14.07 %

(1) Calculated as an average of the high and low prices on grant date.

STOCK OPTIONS AND STOCK APPRECIATION RIGHTS

We have not granted any stock options or stock appreciation rights during 2017, nor do we expect any grants to occur during the remainder of 2017.

VALUE MANAGEMENT AWARDS

Value Management Awards (VMAs) are relative performance equity incentive awards granted to certain former employees of Plum Creek and assumed by the company in connection with the Plum Creek merger. In accordance with the terms of the merger, all VMAs outstanding on December 31, 2017, will vest at “target” level performance of \$100 per unit and will be paid in the first quarter of 2018. The VMAs are classified and accounted for as liabilities, as they will be settled in cash upon vesting. The expense recognized over the remaining performance period will equal the cash value of an award as of the last day of the performance period multiplied by the number of awards that are earned. Expense for VMAs will continue to be recognized over the remaining service period unless a qualifying termination occurs. A qualifying termination of any holder of a VMA award before December 31, 2017, will accelerate vesting and expense recognition in the period that the qualifying termination occurs.

NOTE 15: CHARGES FOR INTEGRATION AND RESTRUCTURING, CLOSURES AND ASSET IMPAIRMENTS

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 2017	JUNE 2016	JUNE 2017	JUNE 2016
Integration and restructuring charges related to our merger with Plum Creek:				
Termination benefits	\$ —	\$ 3	\$ 6	\$ 48
Acceleration of share-based compensation and pension related benefits related to qualifying terminations	—	2	—	26
Professional services	2	—	5	39
Other integration and restructuring costs	—	3	3	5
Total integration and restructuring charges related to our merger with Plum Creek	2	8	14	118
Charges related to closures and other restructuring activities:				
Termination benefits	1	3	2	3
Other closures and restructuring costs	1	1	1	2
Total charges related to closures and other restructuring activities	2	4	3	5
Impairments of long-lived assets	147	2	147	2
Total charges for integration and restructuring, closures and impairments	\$ 151	\$ 14	\$ 164	\$ 125

INTEGRATION, RESTRUCTURING AND CLOSURES

During 2017, we incurred and accrued for termination benefits (primarily severance) and non-recurring professional services costs directly attributable to our merger with Plum Creek.

During 2016, we incurred and accrued for termination benefits (primarily severance), accelerated share-based payment costs, and accelerated pension benefits based upon actual and expected qualifying terminations of certain employees as a result of restructuring decisions made subsequent to the merger. We also incurred non-recurring professional services costs for investment banking, legal and consulting, and certain other fees directly attributable to our merger with Plum Creek.

Changes in accrued severance related to restructuring during the year-to-date period ended June 30, 2017, were as follows:

DOLLAR AMOUNTS IN MILLIONS	
Accrued severance as of December 31, 2016	\$ 26
Charges	8
Payments	(19)
Accrued severance as of June 30, 2017	\$ 15

Accrued severance is recorded within the "Wages, salaries and severance pay" component of "Accrued liabilities" on our Consolidated Balance Sheet as detailed in Note 9: Accrued Liabilities. The majority of the accrued severance balance as of June 30, 2017, is expected to be paid within one year.

IMPAIRMENTS OF LONG-LIVED ASSETS

The impairment of long-lived assets charge recognized in second quarter 2017, related to the impairment of our Uruguayan timberlands and manufacturing business. On June 2, 2017, our Board of Directors approved an agreement to sell all of the Company's equity in the Uruguayan business to a consortium led by BTG Pactual's Timberland Investment Group (TIG.) As a result of this agreement, the related assets met the criteria to be classified as held for

sale. This designation required us to record the related assets at fair value, less an amount of estimated selling costs, and thus recognize a \$147 million noncash pretax impairment charge. This amount was recorded in the Timberlands segment. The fair value of the related assets was primarily based on the agreed upon cash purchase price of \$403 million. Refer to Note 3: Held for Sale and Discontinued Operations for further details of the related purchase agreement.

NOTE 16: OTHER OPERATING COSTS (INCOME), NET

Other operating costs (income), net:

includes both recurring and occasional income and expense items and can fluctuate from year to year.

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		YEAR-TO-DATE ENDED	
	JUNE 2017	JUNE 2016	JUNE 2017	JUNE 2016
Gain on disposition of nonstrategic assets ⁽¹⁾	\$ (2)	\$ (10)	\$ (9)	\$ (46)
Foreign exchange losses (gains), net ⁽²⁾	—	1	3	(12)
Litigation expense, net	3	18	6	21
Product remediation ⁽³⁾	50	—	50	—
Other, net	11	(7)	14	(16)
Total other operating costs (income), net	\$ 62	\$ 2	\$ 64	\$ (53)

Gain on disposition of nonstrategic assets included a \$36 million pretax gain recognized in the first quarter of 2016 (1) on the sale of our Federal Way, Washington headquarters campus. The remaining gains on disposition of nonstrategic assets includes sales such as redundant offices and nurseries.

(2) Foreign exchange losses (gains) result from changes in exchange rates, primarily related to our Canadian operations.

In the second quarter of 2017, we recorded a \$50 million charge to accrue for estimated costs to remediate an issue (3) with certain I-joists coated with our Flak Jacket® Protection product. Refer to Note 12: Legal Proceedings, Commitments and Contingencies for additional details.

NOTE 17: INCOME TAXES

As a REIT, we generally are not subject to federal corporate level income taxes on REIT taxable income that is distributed to shareholders. We are required to pay corporate income taxes on earnings of our wholly-owned TRSs, which includes our Wood Products segment and portions of our Timberlands and Real Estate & ENR segments' earnings.

The quarterly provision for income taxes is based on the current estimate of the annual effective tax rate. Our 2017 estimated annual effective tax rate for our TRSs is approximately 33 percent, which is lower than the U.S. domestic statutory federal tax rate primarily due to lower foreign tax rates applicable to foreign earnings.

ONGOING IRS MATTER

In connection with the merger with Plum Creek, we acquired equity interests in Southern Diversified Timber, LLC, a timberland joint venture (Timberland Venture) with an affiliate of Campbell Global LLC (TCG Member). On August 31, 2016, the Timberland Venture redeemed TCG Member's interest and became a fully consolidated, wholly-owned subsidiary of Weyerhaeuser.

We received a Notice of Final Partnership Administrative Adjustment (FPAA), dated July 20, 2016, from the Internal Revenue Service (IRS) in regard to Plum Creek's 2008 U.S. federal income tax treatment of the transaction forming the Timberland Venture. The IRS is asserting that the transfer of the timberlands to the Timberland Venture was a taxable transaction to Plum Creek at the time of the transfer rather than a nontaxable capital contribution. We have

filed a petition in the U.S. Tax Court and will vigorously contest this adjustment.

In the event that we are unsuccessful in this tax litigation, we could be required to recognize and distribute gain to shareholders of approximately \$600 million and pay built-in gains tax of approximately \$100 million. We would also be required to pay interest on both of those amounts, which would be substantial. We expect that as much as 80 percent of any such gain distribution could be made with our common stock, and shareholders would be subject to tax on the distribution at the applicable capital gains tax rate. Alternatively, we could elect to retain the gain and pay corporate-level tax to minimize interest costs to the company.

Although the outcome of this process cannot be predicted with certainty, we are confident in our position based on U.S. tax law and believe we will be successful in defending it. Accordingly, no reserve has been recorded related to this matter.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS (MD&A)

NOTE ABOUT FORWARD-LOOKING STATEMENTS

This report contains statements concerning our future results and performance that are forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements may appear throughout this report. These forward-looking statements generally are identified by words such as “believe,” “project,” “expect,” “anticipate,” “estimate,” “intend,” “strategy,” “future,” “opportunity,” “plan,” “may,” “should,” “will,” “would,” and expressions such as “may be,” “will continue,” “will likely result,” and similar words and expressions. Forward-looking statements are based on our current expectations and assumptions and are not guarantees of future performance. The realization of our expectations and the accuracy of our assumptions are subject to a number of risks and uncertainties that could cause actual results to differ materially from those described in the forward-looking statements. These risks and uncertainties include, but are not limited to:

- the effect of general economic conditions, including employment rates, interest rate levels, housing starts, general availability of financing for home mortgages and the relative strength of the U.S. dollar;
- market demand for the company's products, including market demand for our timberland properties with higher and better uses, which is related to, among other factors, the strength of the various U.S. business segments and U.S. and international economic conditions;
- changes in currency exchange rates and restrictions on international trade;
- performance of our manufacturing operations, including maintenance and capital requirements;
- potential disruptions in our manufacturing operations;
- the level of competition from domestic and foreign producers;
- our ability to successfully realize the expected benefits from the merger with Plum Creek;
- the successful execution of our internal plans and strategic initiatives, including restructuring and cost reduction initiatives;
- the successful and timely execution and integration of our strategic acquisitions, including our ability to realize expected benefits and synergies, and the successful and timely execution of our strategic divestitures, each of which is subject to a number of risks and conditions beyond our control including, but not limited to, timing and required regulatory approvals;
- raw material availability and prices;
- the effect of weather;
- the risk of loss from fires, floods, windstorms, hurricanes, pest infestation and other natural disasters;
- energy prices;
- transportation and labor availability and costs;
- federal tax policies;
- the effect of forestry, land use, environmental and other governmental regulations;
- legal proceedings;
- performance of pension fund investments and related derivatives;
- the effect of timing of retirements and changes in the market price of our common stock on charges for share-based compensation;
- changes in accounting principles; and

other risks and uncertainties identified in our 2016 Annual Report on Form 10-K, which are incorporated herein by reference, as well as those set forth from time to time in our other public statements and other reports and filings with the SEC.

Forward-looking statements speak only as of the date they are made, and we undertake no obligation to publicly update or revise any forward-looking statements, whether because of new information, future events, or otherwise.

RESULTS OF OPERATIONS

In reviewing our results of operations, it is important to understand these terms:

Sales realizations for Timberlands and Wood Products refer to net selling prices – this includes selling price plus freight, minus normal sales deductions. Real Estate transactions are presented at the contract sales price before commissions and closing costs, net of any credits.

Net contribution to earnings does not include interest expense and income taxes.

In the following discussion, unless otherwise noted, references to increases or decreases in income and expense items, sales realizations, shipment volumes, and net contributions to earnings are based on the quarter and year-to-date period ended June 30, 2017, compared to the quarter and year-to-date period ended June 30, 2016.

ECONOMIC AND MARKET CONDITIONS AFFECTING OUR OPERATIONS

The demand for logs within our Timberlands segment is directly affected by production levels of domestic wood-based building products. The strength of the U.S. housing market strongly affects demand in our Wood Products segment, as does repair and remodeling activity. Our Timberlands segment, specifically the Western region, is also affected by export demand. Japanese housing starts are a key driver of export log demand in Japan.

As published by the U.S. Census Bureau, total housing starts for 2016 were 1.17 million units. In the first half of 2017, housing starts averaged 1.2 million total units on a seasonally adjusted annual basis according to the U.S. Census Bureau. Single family units accounted for 69 percent of total housing starts in the first half of 2017. We continue to expect improving U.S. housing starts and anticipate a level of approximately 1.25 million units in 2017, a 7 percent increase compared to 2016. We attribute this continued improvement primarily to employment growth, improving consumer confidence and historically low mortgage rates.

According to the Joint Center for Housing of Harvard University, the Leading Indicator of Remodeling Activity (LIRA), has increased by 6.9 percent in first half of 2017 and is expected to average just under 6.7 percent year over year for 2017.

U.S. wood product markets advanced in the second quarter of 2017, consistent with growth in homebuilding and remodeling segments, as described above. According to Forest Economic Advisors, LLC (FEA), North American lumber consumption is expected to grow at a 4 to 5 percent rate in 2017. Consistent with this expectation, demand for logs increased with wood products production within our Western region. This coupled with slightly higher market prices in second quarter 2017 drove higher realizations within this region. In the South, log supplies kept pace with increased demand, leaving prices relatively flat year-to-date.

Log inventories in Chinese ports decreased during second quarter 2017 but remained in a reasonable range for the period. Log demand within these ports has strengthened versus previous year levels due to stronger construction activity. In Japan, housing starts for January through May 2017 are up 2.2 percent from the same period last year. We expect demand from China and Japan in 2017 to be similar to modestly improved from demand experienced in 2016.

Our Real Estate, Energy and Natural Resources segment is affected by the health of the U.S. economy and especially the U.S. housing sector of the economy. According to the Realtors Land Institute of the National Association of Realtors, prices and volumes of rural timber properties sold in 2016 grew 5 percent over 2015 sales. Additionally, sales of these types of properties are expected to grow 3 percent in 2017 when compared to 2016.

SOFTWOOD LUMBER AGREEMENT

We operate a total of 19 softwood lumber mills with a total capacity of 4.9 billion board feet. Three of these mills are located in Canada, produce approximately 900 million board feet annually, and sell products in Canada, Asia, and the U.S.

On April 24, 2017, the U.S. Department of Commerce announced a preliminary determination that it would implement countervailing duties on Canadian softwood lumber shipments to the U.S. The rate applicable to Weyerhaeuser is 19.88 percent and became effective as of April 28, 2017. The U.S. Department of Commerce also announced that retroactive deposits at the 19.88 percent rate will be collected from certain Canadian lumber producers, including Weyerhaeuser, for softwood lumber shipments from Canada to the U.S. during the 90-day period prior to April 28, 2017.

The preliminary countervailing duties are expected to be suspended on August 28, four months after they became effective. The suspension of the countervailing duties will last until the US International Trade Commission reaches its final determination of injury, which is expected to be in December of this year.

On June 26, 2017, the U.S. Department of Commerce announced a preliminary determination that it would implement anti-dumping duties on Canadian softwood lumber shipments to the U.S. The rate applicable to Weyerhaeuser is 6.87 percent and became effective as of June 30, 2017. The U.S. Department of Commerce also announced that retroactive deposits at the 6.87 percent rate will be collected from certain Canadian lumber producers, including Weyerhaeuser, for softwood lumber shipments from Canada to the U.S. during the 90-day period prior to June 30, 2017.

In second quarter 2017, we recorded an expense of approximately \$8 million in our Wood Products segment related to the retroactive countervailing and antidumping duties. We also began expensing the prospective duties as incurred, which as of June 30, 2017 totaled \$3 million.

CONSOLIDATED RESULTS

How We Did Second Quarter 2017 and Year-to-Date 2017

DOLLAR AMOUNTS IN MILLIONS, EXCEPT PER-SHARE FIGURES	QUARTER ENDED		AMOUNT OF CHANGE	YEAR-TO-DATE ENDED		AMOUNT OF CHANGE
	JUNE 2017	JUNE 2016	2017 VS. 2016	JUNE 2017	JUNE 2016	2017 VS. 2016
Net sales	\$1,808	\$1,655	\$ 153	\$ 3,501	\$ 3,060	\$ 441

Net earnings attributable to Weyerhaeuser common shareholders	24	157	(133)	181	227	(46)
Earnings per share attributable to Weyerhaeuser shareholders, basic and diluted	\$0.03	\$0.21	\$ (0.18)	\$0.24	\$0.33	\$ (0.09)

Comparing Second Quarter 2017 with Second Quarter 2016

Net sales

Net sales increased \$153 million – 9 percent – primarily attributable to the following factors:

Wood Products sales to unaffiliated customers increased \$147 million – 13 percent – primarily due to increased average sales realizations within our oriented strand board and structural lumber product lines, as well as, increased sales volumes within our engineered solid section and engineered I-joists product lines. Additionally, upon completion of the sales of our former Cellulose Fibers businesses, chips previously sold to Cellulose Fibers are now sales to unaffiliated customers.

Real Estate & ENR sales to unaffiliated buyers increased \$8 million – 21 percent – primarily attributable to a \$7 million increase in ENR sales.

These increases were partially offset by decreased Timberlands sales to unaffiliated customers, which decreased by \$2 million – less than 1 percent – primarily due to a decrease in delivered log sales volumes and decreases in Southern and Northern average sales realizations for delivered logs. These decreases in Timberlands were partially offset by an increase in Western Timberlands average sales realizations for delivered logs.

Costs of products sold

Costs of products sold increased \$65 million – 5 percent – primarily attributable to the following:

Wood Products segment costs of products sold increased \$45 million – 5 percent – primarily due to increased sales volumes in several product lines.

Intercompany eliminations of costs of products sold decreased \$52 million, therefore increasing consolidated cost of products. This reduction in intercompany costs of products sold is primarily due to the completion of the sales of our former Cellulose Fibers businesses. Chips and logs previously sold to Cellulose Fibers are now sales to unaffiliated customers and therefore have related cost of products sold.

These increases to costs of products sold were offset by decreased Timberlands segment costs of products sold, which decreased \$33 million –6 percent – primarily due to a 3 percent decrease in sales volumes.

Operating income

Operating income decreased \$91 million – 37 percent – primarily attributable to the \$147 million noncash impairment charge recognized in relation to the company agreeing to sell its Uruguayan operations, as well as additional other operating costs associated with product remediation (\$50 million) and countervailing/antidumping costs (\$11 million). Refer to Note 15: Charges for Integration and Restructuring, Closures and Asset Impairments, Softwood Lumber Agreement, and Note 16: Other Operating Costs (Income), Net for further information on these respective topics. Excluding these charges, operating income increased \$117 million which is primarily due to increased gross margin, as explained above.

Net earnings attributable to Weyerhaeuser common shareholders

Our net earnings attributable to Weyerhaeuser common shareholders decreased \$133 million – 85 percent. Excluding 2016 "Earnings from discontinued operations, net of tax," net earnings attributable to Weyerhaeuser common shareholders decreased \$95 million, primarily attributable to decreased operating income, as described above, as well as an increase in "Non-operating pension and other postretirement benefit (costs) credits". These increased costs were partially offset by increased gross margins, as discussed above, as well as reduced "General and administrative expenses."

"Earnings from discontinued operations, net of tax," decreased \$38 million as all discontinued operations were sold in 2016.

Comparing Year-to-Date 2017 with Year-to-Date 2016

Net sales

Net sales increased \$441 million – 14 percent – primarily attributable to the following factors:

Wood Products sales to unaffiliated customers increased \$322 million – 15 percent – primarily due to increased average sales realizations within our oriented strand board and structural lumber product lines. Additionally, upon completion of the sales of our former Cellulose Fibers businesses, chips previously sold to Cellulose Fibers are now sales to unaffiliated customers.

Timberlands sales to unaffiliated customers increased \$97 million – 11 percent – primarily due to an increase in delivered log sales volumes in our Southern and Northern regions, as well as an increase in average sales realizations for delivered logs in our Western region. The increased delivered log sales volumes within the Southern and Northern regions is primarily related to the additional production on lands acquired in our merger with Plum Creek. In addition to the increased sales volumes, Timberlands net sales also increased due to increased recreational lease revenue. This was partially offset by a decrease in Southern and Northern region average sales realizations for delivered logs.

Real Estate & ENR sales to unaffiliated buyers increased \$22 million – 29 percent – primarily due to increased net energy and natural resources sales attributable to the operations acquired in our merger with Plum Creek.

Additionally, our net real estate sales have increased due to higher average price realized per acre.

Costs of products sold

Costs of products sold increased \$234 million – 10 percent – primarily attributable to the following:

Wood Products segment costs of products sold increased \$109 million primarily due to increased sales volumes in most product lines.

Intercompany eliminations of costs of products sold decreased \$93 million, therefore increasing consolidated cost of products. This reduction in intercompany costs of products sold is primarily due to the completion of the sales of our former Cellulose Fibers businesses. Chips and logs previously sold to Cellulose Fibers are now sales to unaffiliated customers and therefore have related cost of products sold.

Timberlands segment costs of products sold increased \$27 million, primarily due to the increase in sales volumes, as described above.

Operating income

Operating income increased \$63 million – 16 percent – primarily attributable to the increased gross margin, as described above. This increase in gross margin was partially offset by the \$147 million noncash impairment charge recognized in relation to the company agreeing to sell its Uruguayan operations as well as additional other operating costs associated with product remediation (\$50 million) and countervailing/antidumping costs (\$11 million). Refer to Note 15: Charges for Integration and Restructuring, Closures and Asset Impairments, Softwood Lumber Agreement, and Note 16: Other Operating Costs (Income), Net for further information on these respective topics.

Net earnings attributable to Weyerhaeuser common shareholders

Our net earnings attributable to Weyerhaeuser common shareholders decreased \$46 million – 20 percent. Excluding 2016 "Earnings from discontinued operations, net of tax," net earnings attributable to Weyerhaeuser common shareholders increased \$12 million, primarily attributable to increased gross margins, as described above. These increases were partially offset by the non-recurring charges that occurred during second quarter 2017, as described above. Additionally, we have experienced an increase in "Non-operating pension and other postretirement benefit (costs) credits" and a reduction in "Equity earnings from joint ventures."

"Earnings from discontinued operations, net of tax," decreased \$58 million as all discontinued operations were sold in 2016.

TIMBERLANDS

How We Did Second Quarter 2017 and Year-to-Date 2017

The West region includes Washington and Oregon. The South region includes Virginia, North Carolina, South Carolina, Florida, Georgia, Alabama, Mississippi, Louisiana, Arkansas, Texas and Oklahoma. The North region includes West Virginia, Maine, New Hampshire, Vermont, Michigan, Wisconsin and Montana. Other includes our Canadian operations and the timberlands of the Twin Creeks Venture that we manage.

Includes logs, plywood and hardwood lumber harvested or produced by our international operations in Uruguay. On June 2, 2017, we agreed to sell all of our equity interest in the subsidiaries that collectively own and operate our Uruguayan timberlands and manufacturing business. The held for sale designation of the assets and liabilities of the Uruguayan business caused us to record a \$147 million impairment within the Timberlands business segment during second quarter 2017. Refer to Note 2: Business Segments as well as Note 3: Held for Sale and Discontinued Operations for further information.

Comparing Second Quarter 2017 with Second Quarter 2016

Net sales – unaffiliated customers

Net sales to unaffiliated customers decreased \$2 million – less than 1 percent – primarily due to:

a \$6 million decrease in Southern log sales as a result of a 3 percent decrease in average sales realizations for delivered logs and a 1 percent decrease in delivered logs sales volumes.

- a \$5 million decrease in Western log sales, primarily attributable to a 9 percent decrease in delivered logs sales volumes. This decrease was partially offset by a 8 percent increase in average sales realizations for delivered logs. The increase in realizations is primarily due to the mix of delivered logs sold.

a \$3 million decrease in Northern log sales, primarily attributable to a 13 percent decrease in delivered logs sales volumes and a 3 percent decrease in average sales realizations for delivered logs.

These decreases were partially offset by:

a \$4 million increase in Other delivered logs, primarily attributable to increases in delivered logs sales volumes offset by decreases in average sales realizations.

an \$8 million increase, primarily attributable to a \$14 million increase in recreational lease revenue and other products revenue, offset by a \$6 million decrease in stumpage and pay-as-cut revenue.

Intersegment sales

Intersegment sales decreased \$30 million – 16 percent – due to a decrease in chip and log intersegment sales, which were previously sold to our Cellulose Fibers business segment.

Costs of products sold

Costs of products sold decreased \$33 million – 6 percent – primarily due to a 3 percent decrease in sales volumes.

Operating income and Net contribution to earnings

Operating income and Net contribution to earnings decreased \$137 million – 110 percent – primarily attributable to the \$147 million noncash pretax impairment charge recognized in relation to the Uruguayan sale agreement (refer to Note 3: Held for Sale and Discontinued Operations). This was partially offset by a \$9 million decrease in "General and administrative expenses."

Comparing Year-to-Date 2017 with Year-to-Date 2016

Net sales - unaffiliated customers

Net sales to unaffiliated customers increased \$97 million – 11 percent – primarily due to:

- a \$41 million increase in Southern log sales, attributable to a 20 percent increase in delivered logs sales volumes offset by a 4 percent decrease in average sales realizations. The change in Southern log sales is primarily related to additional production from legacy Plum Creek operations. Results for year-to-date 2016 included only four months of legacy Plum Creek sales, as opposed to a full six months of operations included in year-to-date 2017.
- an \$11 million increase in Northern log sales, attributable to a 41 percent increase in delivered logs sales volumes offset by a 3 percent decrease in average sales realizations. The change in Northern log sales is primarily due to production in regions in which timberlands were acquired during the Plum Creek merger. Results for year-to-date 2016 included only four months of production from these timberlands, as opposed to a full six months of operations included in year-to-date 2017.
- a \$5 million increase in Western log sales, attributable to a 6 percent increase in average sales realizations on delivered logs, offset by a 4 percent decrease in delivered logs volumes. The increase in realizations is primarily due to the mix of delivered logs sold.
 - a \$17 million increase in Other delivered logs, primarily attributable to increases in delivered logs sales volumes offset by decreases in average sales realizations on delivered logs.
- a \$23 million increase in other net sales, primarily attributable to a \$15 million increase in recreational lease revenue and a \$14 million increase in other products revenue, offset by a \$9 million decrease in stumpage and pay-as-cut revenue.

Intersegment sales

Intersegment sales decreased \$50 million – 12 percent – due to a decrease in chip and log intersegment sales, which were previously sold to our Cellulose Fibers business segment.

Costs of products sold

Costs of products sold increased \$27 million – 3 percent – primarily due to the increase in sales volumes, as described above.

Operating income and Net contribution to earnings

Operating income and Net contribution to earnings decreased \$118 million – 46 percent – primarily attributable to the \$147 million noncash pretax impairment charge recognized in relation to the Uruguayan sale agreement (refer to Note 3: Held for Sale and Discontinued Operations). The impairment charge was partially offset by the changes in net sales and costs of products sold as explained above.

THIRD-PARTY LOG SALES VOLUMES AND FEE HARVEST VOLUMES

VOLUMES IN THOUSANDS ⁽¹⁾⁽²⁾	QUARTER ENDED		AMOUNT OF	YEAR-TO-DATE		AMOUNT
	JUNE	JUNE	CHANGE	ENDED	ENDED	OF

The West region includes Washington and Oregon. The South region includes Virginia, North Carolina, South Carolina, Florida, Georgia, Alabama, Mississippi, Louisiana, Arkansas, Texas and Oklahoma. The North region includes West Virginia, Maine, New Hampshire, Vermont, Michigan, Wisconsin, and Montana. Other includes our Canadian operations and the timberlands of the Twin Creeks Venture that we manage.

(1) Western logs are primarily transacted in thousand board feet (MBF) but are converted to ton equivalents for external reporting purposes.

REAL ESTATE, ENERGY AND NATURAL RESOURCES

How We Did Second Quarter 2017 and Year-to-Date 2017

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		AMOUNT OF	YEAR-TO-DATE		AMOUNT
	JUNE	JUNE	CHANGE	ENDED	ENDED	OF
	2017	2016	2017 VS.	JUNE	JUNE	CHANGE
			2016	2017	2016	2016
Net sales to unaffiliated buyers:						
Real estate	\$ 27	\$ 26	\$ 1	64	56	8
Energy and natural resources	19	12	7	35	21	14
Total	\$ 46	\$ 38	\$ 8	\$ 99	\$ 77	\$ 22
Costs of products sold	\$ 16	\$ 19	\$ (3)	\$ 36	\$ 39	\$ (3)
Operating income and Net contribution to earnings	\$ 23	\$ 12	\$ 11	\$ 49	\$ 27	\$ 22

The timing of real estate sales is a function of many factors, including the general state of the economy, demand in local real estate markets, the ability to obtain entitlements, the ability of buyers to obtain financing, the number of competing properties listed for sale, the seasonal nature of sales (particularly in the northern states), the plans of adjacent landowners, our expectation of future price appreciation, the timing of harvesting activities, and the availability of government and not-for-profit funding (especially for conservation sales). In any period the average

sales price per acre will vary based on the location and physical characteristics of parcels sold.

Comparing Second Quarter 2017 with Second Quarter 2016

Net sales - Unaffiliated buyers

Net sales to unaffiliated buyers increased \$8 million – 21 percent – primarily attributable to a \$7 million increase in net energy and natural resources sales.

25

Costs of products sold

Costs of products sold decreased \$3 million – 16 percent – attributable to lower basis of real estate sold, which is attributable to the mix of properties sold.

Operating income and Net contribution to earnings

Operating income and Net contribution to earnings for the quarter increased \$11 million – 92 percent – primarily attributable to increased gross margin as explained above.

Comparing Year-to-Date 2017 with Year-to-Date 2016

Net sales - Unaffiliated buyers

Net sales to unaffiliated buyers increased \$22 million – 29 percent – attributable to:

• Net energy and natural resources sales increased \$14 million – 67 percent – due primarily to increases in sales volumes attributable to the operations acquired in our merger with Plum Creek.

• Net real estate sales increased \$8 million – 14 percent – attributable to an increase in average price realized per acre due to mix of properties sold. This increase was partially offset by decreases in volume of acres sold.

Costs of products sold

Costs of products sold decreased \$3 million – 8 percent – attributable to lower basis of real estate sold, which is attributable to the mix of properties sold. This decrease was partially offset by increased costs of products sold in Energy and natural resources, attributable to increased ENR sales volumes.

Operating income and Net contribution to earnings

Operating income and Net contribution to earnings increased \$22 million – 81 percent – primarily attributable to increased gross margin as explained above.

Comparing Second Quarter 2017 with Second Quarter 2016

Net sales

Net sales increased \$147 million – 13 percent – primarily due to:

- a \$43 million increase in oriented strand board sales, attributable to a 23 percent increase in average sales realizations.
- a \$40 million increase in lumber sales, attributable to a 11 percent increase in average sales realizations, partially offset by a 2 percent decrease in sales volumes.
- a \$26 million increase in other products produced, primarily attributable to increased chip sales, which were previously sold to our former Cellulose Fibers segment and were intersegment sales during second quarter 2016. Upon completion of the sales of our former Cellulose Fibers businesses, chips previously sold to Cellulose Fibers are sales to unaffiliated customers.
- a \$15 million increase in engineered solid section, attributable to a 10 percent increase in sales volumes and a 3 percent increase in average sales realizations.
- a \$12 million increase in engineered I-joists, attributable to a 14 percent increase in sales volumes and a 3 percent increase in average sales realizations.

Costs of products sold

Costs of products sold increased \$45 million – 5 percent – primarily due to increased sales volumes in several product lines, as explained above.

Operating income and Net contribution to earnings

Operating income and Net contribution to earnings increased \$21 million – 13 percent – primarily attributable to increased gross margin, as explained above. This increase is partially offset by increased Other operating costs, net related to retroactive and prospective countervailing and antidumping duties and product remediation costs. Refer to Softwood Lumber Agreement and Note 16: Other Operating Costs (Income), Net for further information on these respective topics.

Comparing Year-to-Date 2017 with Year-to-Date 2016

Net sales

Net sales increased \$322 million – 15 percent – primarily due to:

- a \$99 million increase in lumber sales, attributable to a 12 percent increase in average sales realizations, partially offset by a 1 percent decrease in sales volumes.
- a \$83 million increase in oriented strand board sales, attributable to a 23 percent increase in average sales realizations.
- a \$47 million increase in other products produced, primarily attributable to increased chip sales, which were previously sold to our former Cellulose Fibers segment and were intersegment sales during year-to-date 2016. Upon completion of the sales of our former Cellulose Fibers businesses, chips previously sold to Cellulose Fibers are sales to unaffiliated customers.
- a \$34 million increase in medium density fiberboard sales, attributable to a full year-to-date of legacy Plum Creek operations in 2017 versus a partial year-to-date in 2016 and a 7 percent increase in average sales realizations.

Costs of products sold

Costs of products sold increased \$109 million – 6 percent – primarily due to increased sales volumes in most product lines, as explained above.

Operating income and Net contribution to earnings

Operating income and Net contribution to earnings increased \$106 million – 44 percent – primarily attributable to increased gross margin, as explained above. This increase is partially offset by increased Other operating costs, attributable to retroactive and prospective countervailing and antidumping duties and product remediation costs. Refer to Softwood Lumber Agreement and Note 16: Other Operating Costs (Income), Net for further information on these respective topics.

THIRD-PARTY SALES VOLUMES

(1) Sales volumes include sales of internally produced products and products purchased for resale primarily through our distribution business.

PRODUCTION AND OUTSIDE PURCHASE VOLUMES

Outside purchase volumes are primarily purchased for resale through our distribution business. Production volumes are produced for sale through our own sales organizations and through our distribution business. Production of oriented strand board and engineered solid section are also used to manufacture engineered I-joists.

VOLUMES IN MILLIONS	QUARTER ENDED		AMOUNT OF	YEAR-TO-DATE		AMOUNT

UNALLOCATED ITEMS

Unallocated items are gains or charges from continuing operations not related or allocated to an individual operating segment. They include a portion of items such as: share-based compensation, pension and postretirement costs, foreign exchange transaction gains and losses associated with financing, the elimination of intersegment profit in inventory and the LIFO reserve. As a result of reclassifying our former Cellulose Fibers segment as discontinued operations, unallocated items also includes retained indirect corporate overhead costs previously allocated to the former segment.

NET CONTRIBUTION TO EARNINGS – UNALLOCATED ITEMS

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		AMOUNT OF CHANGE	YEAR-TO-DATE ENDED		AMOUNT OF CHANGE
	JUNE 2017	JUNE 2016	2017 VS. 2016	JUNE 2017	JUNE 2016	2017 VS. 2016

(1) The quarter and year-to-date period ended 2016 includes equity earnings from our Timberland Venture, which effective August 31, 2016, is consolidated as a wholly-owned subsidiary.

During first quarter 2017 we adopted ASU 2017-07, which requires us to show components of pension and other postretirement benefit costs (interest, expected return on plan assets, amortization of actuarial gains or losses, and amortization of prior service credits or costs) on the Consolidated Statement of Operations as a line item outside of operating income. We reclassified these components for all periods shown above. Refer to Note 1: Basis of Presentation for further details.

Comparing Second Quarter 2017 with Second Quarter 2016

Changes in Unallocated Items were primarily related to:

charges related to our merger with Plum Creek decreased \$6 million. Refer to Note 15: Charges for Integration and Restructuring, Closures and Asset Impairments.

an \$18 million increase in expense related to "Non-operating pension and other postretirement benefit (costs) credits" due to a decrease in the expected return on our plan assets and an increase in the amortization of actuarial losses.

Comparing Year-to-Date 2017 with Year-to-Date 2016

Changes in Unallocated Items were primarily related to:

charges related to our merger with Plum Creek decreased \$104 million. Refer to Note 15: Charges for Integration and Restructuring, Closures and Asset Impairments.

an increase in expense related to "Non-operating pension and other postretirement benefit (costs) credits" due to a decrease in the expected return on our plan assets and an increase in the amortization of actuarial losses – \$54 million. a pretax gain recognized in first quarter 2016 related to the sale of our Federal Way, Washington headquarters campus, which is recorded in "Other operating costs (income), net" in our Consolidated Statement of Operations – \$36 million.

a change from a gain year-to-date 2016 to a loss year-to-date 2017 on foreign exchange primarily related to debt held by our Canadian entity – \$17 million.

a decrease in equity earnings from our joint venture – \$12 million. As of August 31, 2016, the Timberland Venture became a fully consolidated, wholly owned subsidiary and therefore eliminated our equity method investment at that time. Refer to Note 17: Income Taxes for further information.

INTEREST EXPENSE

Our interest expense, net of capitalized interest incurred was:
\$100 million for the second quarter 2017 and \$199 million for year-to-date 2017; and
\$114 million for the second quarter 2016 and \$209 million for year-to-date 2016.

Interest expense decreased \$14 million compared to second quarter 2016 and \$10 million compared to year-to-date 2016 primarily due to the decreased average outstanding debt in 2017 versus 2016. During first quarter 2016, we entered into two term loans totaling \$2.5 billion, both of which were paid in full and terminated in fourth quarter 2016. As such, only the results for 2016 included interest incurred on these loans.

INCOME TAXES

Our provision for income taxes for our continuing operations was:
\$34 million for the second quarter 2017 and \$58 million year-to-date 2017; and
\$31 million for the second quarter 2016 and \$42 million year-to-date 2016.

Our provision for income taxes is primarily driven by earnings generated by our taxable REIT subsidiaries. Overall performance results for our business segments can be found in [Consolidated Results](#).

Refer to [Note 17: Income Taxes](#) for additional information.

LIQUIDITY AND CAPITAL RESOURCES

We are committed to maintaining an appropriate capital structure that enables us to:
protect the interests of our shareholders and lenders; and
maintain access to all major financial markets.

CASH FROM OPERATIONS

Consolidated net cash provided by our operations was:
\$524 million for year-to-date 2017; and
\$539 million for year-to-date 2016.

Comparing Year-to-Date 2017 with Year-to-Date 2016

Net cash provided by our operations decreased \$15 million, primarily due to:
decreased operating cash flows from discontinued operations of \$134 million and
an increase in cash paid for income taxes of \$131 million.

These decreases were partially offset by increased cash flows from our business segments of \$238 million. See [Performance Measures](#) for our Adjusted EBITDA by segment.

CASH FROM INVESTING ACTIVITIES

Consolidated net cash provided by (used in) investing activities was:
(\$106 million) for year-to-date 2017; and

\$374 million for year-to-date 2016.

Comparing Year-to-Date 2017 with Year-to-Date 2016

Net cash from investing activities decreased \$480 million, primarily due to the following non-recurring cash inflows that occurred in 2016:

\$440 million of proceeds from contribution of timberlands to the Twin Creeks Venture; and
\$70 million of proceeds from the sale of our Federal Way, Washington headquarters campus.
These decreases were partially offset by a \$12 million decrease in capital expenditures.

30

Summary of Capital Spending by Business Segment

DOLLAR AMOUNTS IN MILLIONS	YEAR-TO-DATE	
	ENDED	
	JUNE 2017	JUNE 2016
Timberlands	\$ 55	\$ 51
Real Estate & ENR	1	1
Wood Products	105	81
Unallocated Items	1	7
Discontinued operations	—	34
Total	\$ 162	\$ 174

We expect our net capital expenditures for 2017 to be \$435 million, which is comparable to 2016 capital spending for continuing operations. The amount we spend on capital expenditures could change due to:

- capital allocation priorities,
- future economic conditions,
- environmental regulations,
- changes in the composition of our business,
- weather and
- timing of equipment purchases.

CASH FROM FINANCING ACTIVITIES

Consolidated net cash used in financing activities was:

\$393 million for year-to-date 2017; and

\$1,433 million for year-to-date 2016.

Comparing Year-to-Date 2017 with Year-to-Date 2016

Net cash used in financing activities decreased \$1,040 million primarily due to the following:

- a \$1.6 billion decrease in cash paid to repurchase common shares;
- repayment of Plum Creek's line of credit and term loan outstanding at the merger date in 2016 in the amount of \$720 million; and
- an \$11 million decrease in cash dividends paid on preference shares.

These were offset by \$1.4 billion of cash proceeds from term loan credit facility borrowings subsequent to the merger date during first quarter 2016 and an increase of \$69 million in cash proceeds from exercise of stock options.

Lines of Credit

During March 2017, we entered into a new \$1.5 billion five-year senior unsecured revolving credit facility that expires in March 2022. This replaces a \$1 billion senior unsecured revolving credit facility that was set to expire September 2018. Refer to Note 10: Long-Term Debt and Lines of Credit for further information.

Debt Covenants

As of June 30, 2017, Weyerhaeuser Company was in compliance with its debt covenants. There have been no significant changes during second quarter 2017 to the debt covenants presented in our 2016 Annual Report on Form 10-K for our existing long-term debt instruments.

Term Loan Prepayment and Replacement

Subsequent to our quarter ended June 30, 2017, but prior to the issuance of these financial statements, we have prepaid a \$550 million variable-rate term loan originally set to mature in 2020 (2020 term loan). The 2020 term loan was prepaid using available cash as well as borrowing proceeds from a new \$225 million variable-rate term loan set to mature in 2026 (2026 term loan). Due to the use of available cash to settle a portion of the 2020 term loan, we have reclassified the related portion (\$325 million) of the 2020 term loan outstanding at June 30, 2017, from "Long-term debt" to "Current maturities of long-term debt" on our current period Consolidated Balance Sheet. For more information about the new term loan, see Other Information.

Option Exercises

We received cash proceeds from the exercise of stock options of:

\$81 million in 2017; and

\$12 million in 2016.

Our average stock price was \$33.10 and \$28.78 for year-to-date 2017 and 2016, respectively.

Paying Dividends and Repurchasing Stock

We paid cash dividends on common shares of:

\$466 million in 2017; and

\$469 million in 2016.

The decrease in dividends paid is due to decreased common shares outstanding at the dividend record dates.

The 2016 Share Repurchase Authorization was approved in November 2015 by our Board of Directors and authorized management to repurchase up to \$2.5 billion of outstanding shares. During second quarter 2017, we did not repurchase any shares. As of June 30, 2017, we had remaining authorization of \$500 million for future stock repurchases.

We record share repurchases upon trade date as opposed to the settlement date when cash is disbursed. We record a liability to account for repurchases that have not been cash settled. There were no unsettled repurchases as of June 30, 2017.

PERFORMANCE MEASURES

We use Adjusted Earnings before Interest, Taxes, Depreciation, Depletion and Amortization (Adjusted EBITDA) as a key performance measure to evaluate the performance of the consolidated company and our business segments. This measure should not be considered in isolation from and is not intended to represent an alternative to our results reported in accordance with U.S. generally accepted accounting principles (U.S. GAAP). However, we believe Adjusted EBITDA provides meaningful supplemental information for investors about our operating performance, better facilitates period to period comparisons, and is widely used by analysts, lenders, rating agencies and other interested parties.

Our definition of Adjusted EBITDA may be different from similarly titled measures reported by other companies. Adjusted EBITDA, as we define it, is operating income from continuing operations adjusted for depreciation, depletion, amortization, basis of real estate sold, unallocated pension service costs and special items. Adjusted EBITDA excludes results from joint ventures.

ADJUSTED EBITDA BY SEGMENT

DOLLAR AMOUNTS IN MILLIONS	QUARTER ENDED		AMOUNT OF CHANGE 2017 VS. 2016	YEAR-TO-DATE ENDED		AMOUNT OF CHANGE 2017 VS. 2016
	JUNE 2017	JUNE 2016		JUNE 2017	JUNE 2016	
Adjusted EBITDA by Segment:

(1) Special items include: \$118 million of Plum Creek merger-related costs, \$36 million gain on sale of non-strategic assets, and \$11 million of legal expense.

CRITICAL ACCOUNTING POLICIES

There have been no significant changes during second quarter 2017 to our critical accounting policies presented in our 2016 Annual Report on Form 10-K.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

LONG-TERM INDEBTEDNESS OBLIGATIONS

The following summary of our long-term indebtedness obligations includes:

- scheduled principal repayments for the next five years and after;
- weighted average interest rates for debt maturing in each of the next five years and after; and
- estimated fair values of outstanding obligations.

We estimate the fair value of our debt instruments using quoted market prices we received for the same types and issues of our debt or on the discounted value of the future cash flows using market yields for the same type and comparable issues of debt. Changes in market rates of interest affect the fair value of our fixed-rate debt.

SUMMARY OF LONG-TERM INDEBTEDNESS PRINCIPAL OBLIGATIONS AS OF JUNE 30, 2017 DOLLAR AMOUNTS IN MILLIONS

	2017	2018	2019	2020	2021	THEREAFTER	TOTAL	FAIR VALUE
Fixed-rate debt ⁽¹⁾	\$281	\$62	\$500	\$—	\$719	\$ 4,450	\$6,012	\$ 7,142
Average interest rate	6.95 %	7.00 %	7.38 %	— %	5.60 %	6.39 %	5.74 %	N/A
Variable-rate debt ^{(1) (2)}	\$—	\$—	\$—	\$550	\$—	\$ —	\$550	\$ 550
Average interest rate	— %	— %	— %	2.84 %	— %	— %	2.84 %	N/A

(1) Excludes \$42 million of unamortized discounts, capitalized debt expense and fair value step-up (related to Plum Creek merger).

(2) Variable-rate debt matures in 2020. However, as noted in Note 10: Long-Term Debt and Lines of Credit, a portion of the \$550 million has been reclassified to "Current maturities of long-term debt" as of June 30, 2017 due to prepayment of this term loan in July 2017. Refer to Note 10: Long-term Debt and Lines of Credit for further details of this prepayment.

CONTROLS AND PROCEDURES

EVALUATION OF DISCLOSURE CONTROLS AND PROCEDURES

Disclosure controls are controls and other procedures that are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Act is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, to allow timely decisions regarding required disclosure. The company's principal executive officer and principal financial officer have concluded that the company's disclosure controls and procedures were effective as of June 30, 2017, based on an evaluation of the company's disclosure controls and procedures as of that date.

CHANGES IN INTERNAL CONTROLS

During 2017, we integrated the acquired Plum Creek operations into our overall internal controls over financial reporting.

Except as described above, no changes occurred in the company's internal control over financial reporting during second quarter 2017 that have materially affected, or are reasonably likely to materially affect, the company's internal control over financial reporting.

LEGAL PROCEEDINGS

Refer to "Notes to Consolidated Financial Statements – Note 12: Legal Proceedings, Commitments and Contingencies."

RISK FACTORS

There have been no material changes with respect to the risk factors disclosed in our 2016 Annual Report on Form 10-K.

UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There have been no share repurchases during the second quarter and year-to-date 2017. Refer to "Notes to Consolidated Financial Statements – Note 5: Net Earnings Per Share" for further information regarding our Share Repurchase Authorization.

DEFAULTS UPON SENIOR SECURITIES

None.

MINE SAFETY DISCLOSURES

Not applicable.

OTHER INFORMATION

The disclosure set forth below is provided pursuant to Items 1.01 and 2.03 of Form 8-K.

Term Loan Agreement

On July 24, 2017, Weyerhaeuser Company (Company or Weyerhaeuser) entered into a Term Loan Agreement (New Term Loan Agreement) with Northwest Farm Credit Services, PCA, as Administrative Agent, and the lenders party thereto, which provides for a \$225 million senior unsecured term loan that will mature in July 2026. Along with cash on hand of the Company, the funds borrowed under the New Term Loan Agreement were used to prepay the Company's existing \$550 million term loan under the credit agreement dated as of September 13, 2013, by and among Weyerhaeuser, CoBank, ACB, as Administrative Agent, and the lenders party thereto (2013 Term Credit Agreement). The borrowing under the New Term Loan Agreement will bear interest, at Weyerhaeuser's option, at a floating rate based on LIBOR or a Base Rate (as defined in the New Term Loan Agreement) plus a spread that will vary depending upon the credit rating assigned to Weyerhaeuser's long-term senior unsecured debt from time to time.

Weyerhaeuser Covenants

Under the New Term Loan Agreement, key covenants relating to Weyerhaeuser include requirements to maintain:

- a minimum defined total adjusted shareholders' equity of \$3.0 billion, and
- a funded debt ratio (defined total funded indebtedness divided by defined total adjusted shareholders' equity plus defined total funded indebtedness) of not more than 65%.

The New Term Loan Agreement contains other covenants customary for a borrower with Weyerhaeuser's credit rating. These include covenants that place limitations on Weyerhaeuser's ability to incur secured debt, enter into certain sale and leaseback transactions, merge or sell all or substantially all of its assets or fundamentally change its business.

Amendment to Installment Note

Reference is made to that certain Assumption and Amendment Agreement dated as of April 28, 2016, by and among Plum Creek Timberlands, L.P., Weyerhaeuser and MeadWestvaco Timber Note Holding Company II, L.L.C., including the Amended and Restated Installment Note dated December 16, 2013, as amended as of April 28, 2016, that is attached as Annex A thereto (Installment Note). Pursuant to Sections 2.01 and 3.01 of Appendix A to the Installment Note, the affirmative and negative covenants set forth in the 2013 Term Credit Agreement or, as applicable, any Replacement Credit Agreement (as defined in the Installment Note) are incorporated by reference into the Installment Note. The New Term Loan Agreement is a Replacement Credit Agreement; therefore, effective upon the execution of the New Term Loan Agreement, the affirmative and negative covenants set forth in the New Term Loan Agreement replaced such provisions from the 2013 Term Credit Agreement and became incorporated by reference into the Installment Note.

Claim Agreement

In connection with the New Term Loan Agreement, Weyerhaeuser NR Company (WNR), a wholly owned subsidiary of Weyerhaeuser, and Weyerhaeuser entered into a claim agreement pursuant to which the lenders under the New Term Loan Agreement will have claims enforceable against WNR for payment of obligations under the New Term Loan Agreement to the same extent that holders of certain debt securities issued by Weyerhaeuser have successfully asserted claims, if any, enforceable against WNR for the payment of such debt securities by reason of any assumption agreement entered into between WNR and Weyerhaeuser pursuant to which WNR assumed the performance of payment obligations of Weyerhaeuser in respect of such debt securities.

The foregoing description of the New Term Loan Agreement and the related matters, including the effect of the New Term Loan Agreement on the Installment Note, is a general description only, does not purport to be complete and is qualified in its entirety by reference to the New Term Loan Agreement and the Installment Note, which are filed with this quarterly report as Exhibit 10.1 and 4.1, respectively and are incorporated into this quarterly report by reference. The New Term Loan Agreement contains representations and warranties that Weyerhaeuser made to the lenders that are party to the New Term Loan Agreement as of a specific date. The assertions embodied in those representations and warranties were made solely for purposes of the contractual agreements between the parties to the New Term Loan Agreement and may be subject to important qualifications and limitations to which the parties agreed in connection with negotiating the New Term Loan Agreement. Moreover, some of those representations and warranties may not be accurate or complete as of any specified date, may be subject to a contractual standard of materiality different from those generally applicable to investors, or may have been used for the purpose of allocating risk between the parties rather than establishing matters as fact. For the foregoing reasons, investors should not rely on the representations and warranties contained in the New Term Loan Agreement as statements or representations of factual information.

Certain of the lenders and their respective affiliates have, from time to time, performed, and may in the future perform, various commercial banking and general financing services for the Company for which they received or will receive customary fees and reimbursement for related expenses.

EXHIBITS

- 4.1 Assumption and Amendment Agreement and Installment Note dated as of April 28, 2016 by and among Plum Creek Timberlands, L.P., Weyerhaeuser Company and MeadWestvaco Timber Note Holding Company II, L.L.C.
