Kratos Reports Fourth Quarter and Fiscal Year 2011 Results

Kratos Affirms Previously Issued Fiscal 2012 Adjusted Free Cash Flow Guidance and Provides 2012 Revenue Guidance of \$950 Million to \$1 Billion

Financial Highlights Include:

- · Fiscal 2011 Revenues of \$723.1 Million Increase 77 Percent Over 2010
- · Fiscal 2011 Adjusted EBITDA Margins Increase 300 Basis Points to 12.7 Percent
- · Second Half Fiscal 2011 Adjusted Cash Flow from Operations of \$27.2 Million
- · Fourth Quarter Revenues of \$218.2 Million Increase 81 Percent Over Fourth Quarter 2010
  - · Fourth Quarter Adjusted EBITDA of \$27.0 Million, or 12.4 Percent
- · Fourth Quarter Book-To-Bill Ratio 1.2 to 1.0, Total Backlog of \$1.1 Billion, Bid & Proposal Pipeline \$3.7 Billion
  - · Previous 2012 Adjusted Free Cash Flow Guidance of Approximately \$50 Million To \$65 Million Reaffirmed
  - · 2012 Revenue Guidance of \$950 Million to \$1 Billion, Adjusted EBITDA of \$120 Million to \$130 Million

SAN DIEGO, CA, March 7, 2012 – Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS), a leading National Security Solutions provider, today reported fiscal year 2011 revenues and Adjusted EBITDA of \$723.1 million and \$91.8 million, increases of 77 percent and 131 percent, respectively, over fiscal year 2010. For the fourth quarter of fiscal 2011, Kratos reported revenues of \$218.2 million, an 81 percent increase over the fourth quarter of fiscal 2010. For the second half of fiscal 2011, Kratos generated Adjusted Cash Flow from Operations of \$27.2 million. For fiscal year 2011, Kratos reported Adjusted EBITDA of \$91.8 million, or 12.7 percent of revenue, an increase of 300 basis points over fiscal year 2010. For the fourth quarter of fiscal 2011, Kratos reported Adjusted EBITDA of \$27.0 million, or 12.4 percent of revenue, an increase of 170 basis points over the fourth quarter of 2010.

Pro forma EPS for the fourth quarter and fiscal year ended December 25, 2011 was \$0.17 and \$0.91, respectively. Pro forma EPS excludes the amortization of purchased intangibles and other costs related to Kratos' strategic acquisitions and reflects the actual cash to be paid for income taxes, reflecting the significant benefit from Kratos' approximate \$260 million Net Operating Loss carry forwards. Kratos' book-to-bill ratio in the fourth quarter was 1.2 to 1.0, with backlog of \$1.1 billion and a qualified bid and proposal pipeline of \$3.7 billion at the fiscal year ended December 25, 2011.

Kratos President & CEO, Eric DeMarco, said, "Other than an anticipated fourth quarter \$11.5 million dollar high margin product delivery that was delayed by an unexpected competitor protest which has just recently been denied, Kratos' results were substantially in line with our expectations in an obviously challenging government contracting environment. Very importantly, in the fourth quarter and for the second half of 2011, Kratos exceeded its previously stated cash flow objectives reflecting the continued successful integration of the acquired businesses, quality of

Kratos' earnings and the very high operating performance achieved by our management team." Mr. DeMarco continued, "Today, the vast majority of Kratos' business is focused on unmanned systems and intelligence, surveillance and reconnaissance programs, satellite communications, electronic warfare and cyber security, all clearly current United States National Security priority areas. Additionally, Kratos' critical infrastructure and strategic asset security business, which is primarily commercial and non-DoD customer based, organically grew approximately 12 percent in 2011 and we believe is very well positioned to generate solid growth in 2012 based on the current threat environment we and our customers are addressing."

Kratos is providing fiscal 2012 revenue guidance of approximately \$950 million to \$1 billion and fiscal 2012 Adjusted EBITDA guidance of approximately \$120 million to \$130 million. Additionally, Kratos is affirming its previously communicated 2012 Adjusted Free Cash Flow guidance of approximately \$50 million to \$65 million.

Mr. DeMarco concluded, "With a Federal 2012 defense budget just recently approved in January, a \$1.1 billion backlog, and a fourth quarter book to bill ratio of 1.2X, we are providing 2012 revenue guidance of \$950 million to \$1 billion, with first quarter revenues approximating or being slightly above the fourth quarter we just reported, with smooth sequential quarterly increases of five to nine percent thereafter throughout the year, driven primarily by our specialty products business and currently planned product delivery schedules. Additionally, Kratos' second half 2011 Adjusted Cash Flow From Operations of \$27.2 million provides us confidence in affirming our full year 2012 Adjusted Free Cash Flow guidance of \$50 million to \$65 million, with an estimated outstanding share count of 32.4 million."

Management will discuss the financial results in a conference call beginning at 1:30 p.m. Pacific (4:30 p.m. Eastern) today. Analysts and institutional investors may participate in the conference call by dialing 866-393-0674, referencing the call by ID number 49878801. The general public may access the conference call by dialing (877) 344-3935 or on the day of the event by visiting www.kratosdefense.com for a simultaneous webcast. A replay of the webcast will be available on the Kratos web site approximately two hours after the conclusion of the conference call.

#### About Kratos Defense & Security Solutions

Kratos Defense & Security Solutions, Inc. (Nasdaq:KTOS) is a specialized National Security technology business providing mission critical products, services and solutions for United States National Security priorities. Kratos' core capabilities are sophisticated engineering, manufacturing and system integration offerings for National Security platforms and programs. Kratos' areas of expertise include Command, Control, Communications, Computing, Combat Systems, Intelligence, Surveillance and Reconnaissance (C5ISR), satellite communication systems, unmanned systems, cyber warfare, cyber security, information assurance, critical infrastructure security and weapons systems sustainment. Kratos has primarily an engineering and technical oriented work force of approximately 4,000, many of whom hold an active National Security clearance, including Secret, Top Secret and higher. The vast majority of Kratos' work is performed on a military base, in a secure facility or at a critical infrastructure location. Kratos' primary end customers are United States Federal Government agencies, including the Department of Defense, classified agencies, intelligence agencies and Homeland Security related agencies. News and information are available at www.KratosDefense.com.

#### Notice Regarding Forward-Looking Statements

This news release and filing contains certain forward-looking statements that involve risks and uncertainties, including, without limitation, express or implied statements concerning the Company's expectations regarding its future financial performance, bid and proposal pipeline, demand for its products and services, performance of key contracts, and market and industry developments. Such statements are only predictions, and the Company's actual results may differ materially. Investors are cautioned not to place undue reliance on any such forward-looking statements. All such forward-looking statements speak only as of the date they are made, and the Company undertakes no obligation to update or revise these statements, whether as a result of new information, future events or otherwise. Factors that may cause the Company's results to differ include, but are not limited to: risks of adverse regulatory action

or litigation; risks associated with debt leverage; risks that our cost cutting initiatives will not provide the anticipated benefits; risks that changes, cutbacks or delays in spending by the U.S. Department of Defense may occur, which could cause delays or cancellations of key government contracts; risks that changes may occur in Federal government (or other applicable) procurement laws, regulations, policies and budgets; risks of the availability of government funding for the Company's products and services due to performance, cost growth, or other factors, changes in government and customer priorities and requirements (including cost-cutting initiatives, the potential deferral of awards, terminations or reduction of expenditures to respond to the priorities of Congress and the Administration, or budgetary cuts resulting from Congressional committee recommendations or automatic sequestration under the Budget Control Act of 2011), risks of increases in the Federal government initiatives related to in-sourcing; risks related to security breaches, including cyber security attacks and threats or other significant disruptions of our information systems, facilities and infrastructures; risks related to our compliance with applicable contracting and procurement laws, regulations and standards; risks relating to contract performance; risks of our subcontractors or suppliers failure to perform their contractual obligations, including the appearance of counterfeit parts in our products; changes in the competitive environment (including as a result of bid protests); failure to successfully consummate acquisitions or integrate acquired operations and competition in the marketplace which could reduce revenues and profit margins; risks that potential future goodwill impairments will adversely affect our operating results; risks that anticipated tax benefits will not be realized in accordance with our expectations; risks that a change in ownership of our stock could cause further limitation to the future utilization of our net operating losses; and risks that the current economic environment will adversely impact our business. These and other risk factors are more fully discussed in the Company's Annual Report on Form 10-K for the period ended December 25, 2011, and in subsequent reports on Forms 10-Q and 8-K and in other filings made with the Securities and Exchange Commission by the Company.

#### Note Regarding Use of Non-GAAP Financial Measures

Adjusted Cash Flow From Operations is computed as Cash provided by operating activities from continuing operations excluding the payment of acquisition related items and Adjusted Free Cash Flow is computed as Cash provided by operating activities from continuing operations excluding the payment of acquisition related items less payments for capital expenditures. Certain of the information set forth herein, including Adjusted EBITDA, excluding losses from discontinued operations, transaction and other acquisition costs, recovery of legal fees in connection with litigation, stock compensation expense and income from SWAP instruments, and the associated margin rates, are considered non-GAAP financial measures. Kratos believes this information is useful to investors because it provides a basis for measuring the Company's available capital resources, the operating performance of the Company's business and the Company's cash flows from operations, excluding non-operational items and non-cash items such as acquisition related items, that would normally be included in the most directly comparable measures calculated and presented in accordance with GAAP. The Company's management uses these non-GAAP financial measures along with the most directly comparable GAAP financial measures in evaluating the Company's operating performance and capital resources and cash flow. Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-financial measures as reported by the Company may not be comparable to similarly titled amounts reported by other companies.

Adjusted EBITDA (1)	\$ 27.0	\$	12.9	\$ 91.8	\$	39.7

Note: (1) Adjusted EBITDA is a non-GAAP measure defined as GAAP net income (loss) plus (income) loss from discontinued

operations, interest expense, net, other (income) related to SWAP instruments, income taxes, depreciation and amortization,

stock compensation, amortization of intangible assets, and acquisition related expenses less recovery of legal fees in connection with litigation.

Adjusted EBITDA as calculated by us may be calculated differently than EBITDA for other companies. We have provided Adjusted

EBITDA because we believe it is a commonly used measure of financial performance in comparable companies and is provided to help

investors evaluate companies on a consistent basis, as well as to enhance an understanding of our operating results. Adjusted

EBITDA should not be construed as either an alternative to net income or as an indicator of our operating performance or an alternative

to cash flows as a measure of liquidity. Please refer to the following table that reconciles GAAP net income to Adjusted EBITDA:

Reconciliation of Net income (loss) to Adjusted EBITDA is as follows:

	Three Months Ended					Twelve Months Ended		
	December 25, December 26, 2011 2010		December 25, 2011		December 26 2010
