PART I

ITEM 1. DESCRIPTION OF BUSINESS

Overview

Great American Family Parks is in the business of acquiring, developing and operating local and regional theme parks and attractions in the U.S. and internationally. We plan to build a family of parks primarily through acquisitions of small local regional privately owned existing parks. Our goal is to develop a series of compatible but distinct entertainment and amusement products, including themed amusement parks, associated products, food and beverage, and multimedia offerings. The implementation of this strategy has begun with themed amusement parks and attractions. Our business plan is to acquire existing properties.

Great American Family Parks, Inc. is the parent corporation of the following wholly-owned subsidiaries:

(1) GFAM Management Corporation, an Idaho corporation. GFAM Management Corporation is responsible for overall management of our subsidiary operating company Wild Animal Safari, Inc., and any additional theme parks or other operating units we may acquire. GFAM Management Corporation does not generate any revenues at present;

(2) Wild Animal Safari, Inc., a Georgia corporation that operates and owns the Wild Animal Safari theme park in Pine Mountain, Georgia.

Corporate History

Great American Family Parks, Inc. was originally incorporated on July 30, 1954 as Painted Desert Uranium & Oil Co., Inc. in Washington State. On October 1, 2002, Painted Desert Uranium & Oil Co., Inc. changed its name to Royal Pacific Resources, Inc. and its corporate domicile to the State of Nevada.

On December 19, 2003, Royal Pacific Resources, Inc. acquired the assets of Great Western Parks LLC, including the Crossroads Convenience Center LLC., pursuant to a Share Exchange Agreement that resulted in our current management assuming control and changing the corporate name to Great American Family Parks, Inc. The acquisition was accounted for as a reverse acquisition in which Great Western Parks was considered to be the acquirer of Royal Pacific Resources for reporting purposes. Our common stock outstanding increased from 2,533,000 to 29,600,000 as a result of the acquisition.

Disposition of Crossroads Convenience Center

On October 31, 2006, Crossroads Convenience Center LLC (Crossroads or Seller), a wholly-owned subsidiary of Great American Family Parks, Inc. (Great American or the Company), entered into an asset purchase agreement (the Agreement) with Idaho Center Chevron, Inc. (Idaho Center or Buyer) pursuant to which Idaho Center purchased the business and assets of the convenience center business owned by Crossroads, other than real estate. Such assets consist of the fuel and retail facility located next to The Idaho Center, a regional entertainment complex in the Boise, Idaho metropolitan area, as well as all of the property owned or leased by the Company that is used in connection with the business.

The purchase price for the assets is \$600,000, consisting of \$300,000 in cash and a secured conditional promissory note in the amount of \$300,000 (the Note). The Note has a term of five years and bears interest at the rate of eight percent per annum. The Note is issued jointly by the Buyer and Richard Swensen and is secured by 300,000 shares of common stock of the Company owned by Mr. Swensen, 270,000 shares of which were delivered at closing and an additional 30,000 shares were delivered within two weeks of closing. Seller may sell the stock at any time to cover the Note.

The Agreement also included an option to purchase the real property owned by Crossroads located at 5950 East Franklin Road in Nampa, Canyon County, Idaho for a purchase price of approximately \$2,400,000. On January 5, 2007, the Company completed the sale of the real property, receiving net proceeds of \$1,348,186.41.

Wild Animal Safari Theme Park

Our Wild Animal Safari Inc. subsidiary owns and operates the Wild Animal Safari theme park, which is located on 200 acres of a 500-acre plot, and includes a drive-through animal viewing area that opened in 1991. It is home to more than 1,800 animals from every continent (except Antarctica.) Most animals roam wild throughout a natural habitat of more than 200 acres; the total area utilized will be increased as further venues are added. In addition to availing themselves of the amenities described below, visitors to Wild Animal Safari are able to observe, photograph, and feed the animals from their own cars as they drive along the more than three miles of paved roads that run throughout the habitat area. Some animals are contained in special fenced areas or pens within natural habitat, and others are located in a more traditional zoo-like atmosphere.

Wild Animal Safari Inc. s revenues are primarily derived from sales of the following items at the Wild Animal Safari Park: (1) admission fees (2) food and beverage and related items; and, (3) gift store and specialty items.

In addition to the animal environments, the theme park contains a gift shop (recently expanded and redesigned), a new restaurant that includes the Noble Roman's Pizza and Tuscano's Italian Subs franchises which were purchased by our Wild Animal Safari, Inc. subsidiary on June 21, 2005, and an ice cream parlor, an arcade, a picnic and group recreation area, lakes, a pavilion and concessions. Our Georgia Wildlife Museum, located next to our petting zoo, features wildlife specimen native to Georgia recreated in natural-like settings. Visitors to the Park have increased every year, and during calendar year 2006 totaled approximately 125,000 people. The pre-existing operating management of Safari has been supplemented by corporate management for the new entities being brought to the enterprise by GFAM. The former principal owner of Pine Mountain Wild Animal Park continues to be available on a consulting basis.

Wild Animal Safari's growth plans are predicated upon: prior operating results; the experience and expertise of GFAM's management team; and, the development of unused acreage surrounding the park. We have developed a master plan for the entire 500 acre property, and are currently in the process of having that plan approved for implementation with local governmental authorities. This master plan will guide the design, financial commitment, and timetable for the development of the entire property.

Additionally, the U.S. Department of Defense Base Realignment and Closure Commission recommendations that were approved by Congress, has resulted in adding a significant number of new families to Fort Benning, Georgia, which is located approximately 30 miles from the Wild Animal Safari Park. Wild Animal Safari is the closest entertainment facility of its kind to Fort Benning, and we are aggressively promoting Wild Animal Safari to the families living at Fort Benning, or who are arriving there as new residents.

Safari's main product is the opportunity to interact with our 1,800 animals from across the globe. However, we also sell food and beverages in our restaurant, and gift items from the gift shop to include shirts and hats, specialty items, educational books and toys about animals of the world, other toys, authentic gifts from various continents (ostrich eggs, hides and skins) and other children's things.

Safari purchases animals throughout the United States, and only seldom requests a permit to import animals. Auctions and sales of animals across the U.S. occur often, and we participate depending on which animals we believe will enhance our offerings. Most animals are born on the property itself. Food and beverages are purchased locally, although the main products and ingredients for the Noble Roman's Pizza and Tuscano's Subs are purchased from the national franchisor company.

Noble Roman's Pizza and Tuscano's Italian Subs Franchises

On June 21, 2005 our Wild Animal Safari, Inc. subsidiary entered into an agreement with Noble Romans, Inc. to purchase franchise rights to own and operate a Noble Roman's Pizza and Tuscano's Italian Subs food franchise operation at our Wild Animal Safari theme park. The two franchise agreements, which are identical except for the franchise name, contain the following significant terms:

-

Each Agreement is for a term of five years, with automatic extensions of five years assuming the franchisee is not delinquent in fulfilling the terms of the Agreements at the time of renewal;

-

There are no territorial rights;

-

All costs and expenses related to construction and implementation are the franchisee's responsibility;

-

The initial franchise fee was \$5,000 for each franchise. An additional \$10,000 per franchise was paid for equipment and signage;

-

The Franchisor receives 7.0% of gross sales proceeds.

Research and Development

No research and development occurs in our Wild Animal Safari businesses except for normal product testing.

Government Regulation

Our Wild Animal Safari facility operates under various licenses and approvals from government at various levels. Wild Animal Safari has received its own operating license from the USDA. The licenses under which our businesses operate are crucial to our ongoing operations. Should any changes occur in the licensing requirements for either business, this could have an adverse effect on revenues, profits and attendance. There are inspections at Safari, but the nature of the business makes it unlikely for there to be environmental concerns.

Competition

The theme park industry is highly competitive, highly fragmented, rapidly evolving, and subject to technological change and intense marketing by providers with similar products. One of our competitors for general recreation consumer spending, Callaway Gardens, is located within five miles of our Wild Animal Safari park. Many of the Company's current competitors are significantly larger and have substantially greater market presence as well as greater financial, technical, operational, marketing and other resources and experience than the Company has. In the event that such a competitor expends significant sales and marketing resources in one or several markets the Company may not be able to compete successfully in such markets. The Company believes that competition will continue to increase, placing downward pressure on prices. Such pressure could adversely affect the Company's gross margins if the Company is not able to reduce costs commensurate with such price reductions. In addition, the pace of technological change makes it impossible for the Company to predict whether it will face new competitors using different technologies to provide the same or similar products offered or proposed to be offered by the Company. If the Company's competitors were to provide better and more cost effective products, the Company's business initiatives could be materially and adversely affected.

In addition to competing with other themed and amusement parks, our venues compete with other types of recreational venues and entertainment alternatives, including but not limited to movies, sports attractions, vacation travel and video games. There can be no assurance that our Company will successfully differentiate itself from these entertainment alternatives or that consumers will consider our entertainment offerings to be more appealing than those of our competitors.

Employees

As of April, 2007 Great American Family Parks has approximately 2 full-time employees and 3 part-time employees. Our Wild Animal Safari subsidiary has approximately 15 full-time employees. During Wild Animal Safari's prime attendance season, which runs from March through August, we typically engage up to approximately 20 additional part-time employees. We also engage consultants from time to time. We have no collective bargaining agreements with our employees and believe our relations with our employees are good.

ITEM 2. DESCRIPTION OF PROPERTY

Our major real property holding is located in Pine Mountain, Georgia. Wild Animal Safari, Inc. is a 200-acre wild animal park as part of a 500-acre parcel owned by GFAM to be developed in totality. The land has an appraised value of approximately \$3.4 million.

ITEM 3. LEGAL PROCEEDINGS

We are not a party to any pending legal proceedings, other than routine litigation deemed incidental to our business. There are no legal, administrative, arbitral, governmental or other proceedings, actions or governmental investigations of any nature pending or, to the best knowledge of the Company, threatened, against the Company, which could result in a material loss to the Company. The Company is not subject to any order, judgment, injunction, rule or decree that has or could result in a material loss to the Company.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION

The following discussion should be read in conjunction with our consolidated financial statements for the year ended December 31, 2006 provided in this annual report on Form 10-KSB. Certain statements contained herein may constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These statements involve a number of risks, uncertainties and other factors that could cause actual results to differ materially, as discussed more fully herein.

The forward-looking information set forth in this annual report is as of the date of this filing, and we undertake no duty to update this information. More information about potential factors that could affect our business and financial results is included in the section entitled "Risk Factors" of this annual report.

Overview

Great American Family Parks is in the business of acquiring, developing and operating local and regional theme parks and attractions both in the U.S. and internationally. We are in the process of building a family of parks primarily through acquisitions of small local or regional privately owned parks. Our goal is to develop a series of compatible, but distinct entertainment and amusement products including themed amusement parks, associated products, food and beverage, and multimedia offerings. The implementation of this strategy has begun with themed amusement parks and attractions. Our business plan is to acquire existing properties with three criteria in mind:

-

Properties that have an operating history and are profitable;

-

Properties where our management team believes the potential exists to increase profits and operating efficiencies; and

-

Properties where there is additional, underutilized land upon which to expand operations.

It also is our belief that acquisitions should not unnecessarily encumber the Company with debt that cannot be justified by current operations. By using a combination of equity, debt and other non-traditional financing options, we intend to carefully monitor shareholder value in conjunction with our pursuit of growth.

Great American Family Parks, Inc. is the parent corporation of the following wholly owned subsidiaries:

(1) GFAM Management Corporation, an Idaho corporation. GFAM Management Corporation is responsible for overall management of all operating entities, which includes our Wild Animal Safari theme park and any additional theme parks we may acquire. GFAM Management Corporation does not generate any revenues separate from the operating units at present;

(2) Wild Animal Safari, Inc., a Georgia corporation that operates and owns the Wild Animal Safari theme park in Pine Mountain, Georgia.

RESULTS OF OPERATIONS

YEAR ENDED DECEMBER 31, 2006 COMPARED TO YEAR ENDED DECEMBER 31, 2005

Revenues

Revenues increased \$2,351,218 to \$9,329,284 for the year ended December 31, 2006, as compared to revenues of \$6,978,066 for the year ended December 31, 2005. The increase in revenues was attributable to full year of operation and increase admissions of park and ten months operation of the convenience store.

Cost of revenues increased \$1,457,976 to \$7,098,801 for the year ended December 31, 2006, as compared to cost of revenues of \$5,640,825 for the year ended December 31, 2005. The change in cost of revenues is attributable to increased volume and increased sales at convenience store.

Gross margins increased \$893,241 to \$2,230,482 for the year ended December 31, 2006, as compared to \$1,337,441 for the year ended December 31, 2005. The change in gross margins is attributable to profitability of the park and improved margins.

Expenses

General, administrative and selling expenses increased \$1,378,016 to \$3,228,525 for the year ended December 31, 2006, as compared to \$1,850,509 for the year ended December 31, 2005. The change in general, administrative and selling expenses was due to one time bonus to corporate officers and key employees and expanded one time legal fees.

Depreciation and Amortization

Our depreciation and amortization expense increased \$160,749 to \$267,266 for the year ended December 31, 2006, as compared to \$106,517 for the year ended December 31, 2005.

Net Income/Loss

We posted a net profit of \$431,599 and a net loss from operations of \$1,265,309 for the year ended December 31, 2006. The net profit represents an increase of \$1,259,216 as compared to a net loss of \$827,617 for the year ended December 31, 2005. The decrease in net loss and increase in net loss from operations is attributable to the successful sale of the convenience operation and the one time costs outlined above.

Liquidity and Capital Resources

Our total current assets at December 31, 2006 were \$1,482,967, including \$1,335,143 in cash, as compared with \$230,399 in total current assets at December 31, 2005, which included cash of \$63,213. Additionally, we had shareholder equity in the amount of \$3,996,566 at December 31, 2006, as compared to shareholder equity of \$2,508,167 at December 31, 2005. This change was a result of \$1,488,399.

Our cash on hand increased \$1,271,930 to \$1,335,143 as of December 31, 2006, as compared to cash on hand of in the amount of \$63,213 for the year ended December 31, 2005. During the second quarter of 2005, we obtained funding needed to complete the purchase of Wild Animal Safari through a private placement of approximately 11,128,000

shares of our common stock and 11,128,000 warrants resulting in gross proceeds of approximately \$3,338,400. We will require additional debt and/or equity funding in order to pursue our strategy of acquiring additional theme parks, which is our intended business plan. However, we will be able to support our operations over the next 12 months from our revenues even if the funding necessary to complete further potential acquisitions does not materialize.

On June 13, 2005, we completed our acquisition of the assets of Ron Snider & Associates, Inc. also known as Pine Mountain Wild Animal Park, located in Pine Mountain, Georgia. At closing, we paid \$350,000 in cash and a promissory note for \$350,000. The promissory note bears interest at 7.5% per annum and is payable in eighty-three monthly payments of principal and interest of \$5,368. We also entered into a Real Estate Purchase agreement for the underlying land and all buildings, improvements and fixtures of the park for \$4,000,000. We paid \$2,000,000 in cash at closing and issued a promissory note for \$2,000,000. The note bore interest at 7.5% per annum and was payable in eighty-three monthly payments of principal and interest of \$30,676. Both notes were secured by a first priority Security Agreement on the operating assets and a first Security Deed on the real estate. An agreement extension payment of \$50,000 for extension of closing was also paid in addition to 50,000 shares of Company stock.

On November 17, 2005, our wholly owned subsidiary, Wild Animal Safari, Inc., completed the refinancing of the debt we incurred on June 13, 2005 in connection the acquisition of the Wild Animal Safari theme park from Ron Snider & Associates, Inc. and related entities. A new loan in the principal amount of \$2,300,210.09 was obtained from Commercial Bank & Trust Company of Troup County in LaGrange, Georgia. As a result of this refinancing, the promissory notes in the aggregate principal amount of \$2,350,000 that were issued to Ron Snider & Associates, Inc. and its affiliated entities were paid in full and the liens which were held by those entities against the Wild Animal Safari theme park assets were released. The new loan is secured by a first priority security agreement and a first priority security deed on the Wild Animal Safari theme park assets.

In addition, on November 17, 2005, our Wild Animal Safari, Inc. subsidiary obtained a line of credit loan from Commercial Bank & Trust Company of Troup County for working capital purposes in the principal amount of \$200,000.00. This line of credit loan is renewable annually, subject to the satisfactory performance by Wild Animal Safari, Inc. under the terms of the line of credit. It is also secured by a lien on the Wild Animal Safari theme park assets.

We believe that we have sufficient cash, other current assets and operating cash flow to sustain foreseeable organic growth throughout the next fiscal year. Management intends to seek additional needed funds through financings or other avenues such as loans, the sale and issuance of additional debt and/or equity securities, or other financing arrangements for acquisitions and expansions. Any future capital raised by our company is likely to result in substantial dilution to existing stockholders.

Our principal source of income is from cash sales, which are expected to provide sufficient cash flow to service our current debt.

Off Balance Sheet Arrangements

We do not have any off balance sheet arrangements that are reasonably likely to have a current or future effect on our financial condition, revenues, results of operations, liquidity or capital expenditures.

Critical Accounting Policies

Our discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of any contingent assets and liabilities. On an on-going basis, we evaluate our estimates. We base our estimates on various assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions.

An infinite number of variables can be posited that could have an effect on valuation of assets and liabilities. For example, it is assumed that:

-

Revenue and profit growth at Wild Animal Safari subsidiary will continue;

-

The infrastructure will accommodate the additional customers;

-

Cost of improvements and operations will remain a relatively stable budgeted allocation;

-

Per capita spending by the customers will continue to rise in relation to the rise in capital expenditures;

If any one of these assumptions, or combination of assumptions, proves incorrect, then the values assigned to real estate, per capita revenues, attendance and other variables that have remained consistent over the past two years may not be realized. The same would be true if higher than expected revenue streams occurred.

RISK FACTORS

YOU SHOULD READ THE FOLLOWING DISCUSSION AND ANALYSIS TOGETHER WITH OUR CONSOLIDATED FINANCIAL STATEMENTS AND RELATED NOTES INCLUDED ELSEWHERE IN THIS ANNUAL REPORT. SOME OF THE INFORMATION CONTAINED IN THIS DISCUSSION AND ANALYSIS OR SET FORTH ELSEWHERE IN THIS ANNUAL REPORT, INCLUDING INFORMATION WITH RESPECT TO OUR PLANS AND STRATEGIES FOR OUR BUSINESS, INCLUDES FORWARD-LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES. YOU SHOULD REVIEW THE "RISK FACTORS" SECTION OF THIS REPORT FOR A DISCUSSION OF IMPORTANT FACTORS THAT COULD CAUSE ACTUAL RESULTS TO DIFFER MATERIALLY FROM THE RESULTS DESCRIBED IN OR IMPLIED BY THE FORWARD-LOOKING STATEMENTS CONTAINED IN THIS REPORT. IF ANY OF THE FOLLOWING RISKS ACTUALLY OCCUR, OUR BUSINESS, FINANCIAL CONDITION AND RESULTS OF OPERATIONS COULD SUFFER.

Risk Factors Relating to Our Business:

We Have A Limited Operating History

We have a limited operating history and our financial health will be subject to all the risks inherent in the establishment of a new business enterprise. We have been officially operating under our current business plan of acquiring theme parks since 2003, when we reached a preliminary agreement to purchase Wild Animal Safari. Subsequently in 2003, our current management gained control of Royal Pacific Resources and changed its name to Great American Family Parks. Our purchase of Wild Animal Safari was not completed until June of 2005. The likelihood of our success must be considered in the light of the problems, expenses, difficulties, complications, and delays frequently encountered in connection with the startup and growth of a new business, and the competitive environment in which we will operate. Our success is dependent upon the successful financing and development of our business plan. No assurance of success is offered. Unanticipated problems, expenses, and delays are frequently encountered in establishing a new business and marketing and developing products. These include, but are not limited to, competition, the need to develop customers and market expertise, market conditions, sales, marketing and governmental regulation. Our failure to meet any of these conditions would have a materially adverse effect upon us and may force us to reduce or curtail our operations.

We May Not Identify or Complete Acquisitions in a Timely, Cost-Effective Manner, If At All.

Our business plan is predicated upon the acquisition of additional local or regional theme parks and attractions; and, the approval and expansion of our current facilities and offerings at Wild Animal Safari. However, there can be no assurance that we will be successful in acquiring and operating additional local or regional theme parks and attractions. Competition for acquisition opportunities in the theme park industry is intense as there is a limited number of parks within the United States and Canada that could reasonably qualify as acquisition targets for us. Our acquisition strategy is dependent upon, among other things, our ability to: identify acquisition opportunities; obtain debt and equity financing; and obtain necessary regulatory approvals. Our ability to pursue our acquisition strategy may be hindered if we are not able to successfully identify acquisition targets or obtain the necessary financing or regulatory approvals, including but not limited to those arising under federal and state antitrust and environmental laws.

We May Be Unable To Effectively Manage Our Growth or Implement Our Expansion Strategy.

Our acquisition strategy is subject to related risks, including pressure on our management and on our internal systems and controls. Our planned growth will require us to invest in new, and improve our existing, operational, technological and financial systems and to expand, train and retain our employee base. Our failure to effectively manage our growth could have a material adverse effect on our future financial condition.

Significant Amounts of Additional Financing May Be Necessary For the Implementation of Our Business Plan.

Great American Family Parks may require additional debt and equity financing to pursue its acquisition strategy. Given its limited operating history, there can be no assurance that we will be successful in obtaining additional financing. Lack of additional funding could force us to curtail substantially our expansion plans. Furthermore, the issuance by us of any additional securities and the exercise of Warrants which might arise under any future fundraising activities undertaken by us would dilute the ownership of existing shareholders and may reduce the price of our common stock.

A Downturn In Economic Conditions Could Adversely Affect Our Business.

The theme park industry typically relies upon the expenditure of consumer discretionary income. A significant downturn in the United States or global economy or any other uncertainties regarding future economic prospects could affect consumer-spending habits, which would have a material adverse impact on our operations and financial results. Some of the factors that may have an adverse impact on our theme park operations include an increase in the price of fuel, an increase in the price of admission to our theme park, an increase security costs, and a decrease in the distance families are willing to travel for entertainment.

A Variety of Factors Beyond Our Control Could Adversely Impact Attendance at Our Venues and Thus Our Operating Results.

The success of our Wild Animal Safari theme park is dependent upon attracting large numbers of visitors on a continual basis. A variety of actual or projected events could reduce the number of visitors at our venues and harm our operating results, including but not limited to the following:

- Inclement weather and forecasts thereof;
- Natural disasters and forecasts thereof;
- Human or animal borne disease and threats thereof;
- Terrorist attacks and threats thereof;
- Accidents occurring or almost occurring at our venues or at competing venues;
- Actual or attempted security breaches at our venues or at competing venues;
- An economic downturn and projections thereof;
- Fuel price increases and projections thereof;
- Airline ticket price increases and forecasts thereof;
- Disruptions in air travel and threats thereof;
- Competition from numerous theme park and entertainment alternatives.

The Theme Park Industry is Highly Competitive and We May Be Unable to Compete Effectively.

The theme park industry is highly competitive, highly fragmented, rapidly evolving, and subject to technological change and intense marketing by providers with similar products. One of our competitors for attracting general recreation dollars, Callaway Gardens, is located within five miles of our Wild Animal Safari Park. Many of our current competitors are significantly larger and have substantially greater market presence as well as greater financial, technical, operational, marketing and other resources and experience than we have. In the event that such a competitor expends significant sales and marketing resources in one or several markets we may not be able to compete successfully in such markets. Great American Family Parks believes that competition will continue to increase, placing downward pressure on prices. Such pressure could adversely affect our gross margins if we are not able to reduce costs commensurate with such price reductions. In addition, the pace of technological change makes it impossible for us to predict whether we will face new competitors using different technologies to provide the same or similar products offered or proposed to be offered by us. If our competitors were to provide better and more cost effective products, our business could be materially and adversely affected.

We Face Strong Competition From Numerous Entertainment Alternatives.

In addition to competing with other themed and amusement parks, our venues compete with other types of recreational venues and entertainment alternatives, including but not limited to movies, sports attractions, vacation travel and video games. There can be no assurance that we will successfully differentiate ourselves from these entertainment alternatives or that consumers will consider our entertainment offerings to be more appealing than those of our competitors. The development of technology-based entertainment has provided families with a wider selection of entertainment alternatives close to or in their homes, including home entertainment units, online gaming, and video game parlors. In addition, traditional theme parks have been able to reduce the cost and increase the variety of their attractions by implementing technologies that cannot be readily incorporated by a wild animal park such as Wild Animal Safari.

Our Insurance Coverage May Not Be Adequate To Cover All Possible Losses That We Could Suffer, and Our Insurance Costs May Increase.

Companies engaged in the theme park business may be sued for substantial damages in the event of an actual or alleged accident. An accident occurring at our parks or at competing parks may reduce attendance, increase insurance premiums, and negatively impact our operating results. Wild Animal Safari contains a drive-through, safari style animal park, and there are inherent risks associated with allowing the public to interact with animals. Although we carry liability insurance to cover this risk, there can be no assurance that our coverage will be adequate to cover liabilities, or that we will be able to afford or obtain adequate coverage should a catastrophic incident occur.

Great American Family Parks currently has \$6,000,000 of liability insurance through its Wild Animal Safari, Inc. subsidiary. We will continue to use reasonable commercial efforts to maintain policies of liability, fire and casualty insurance sufficient to provide reasonable coverage for risks arising from accidents, fire, weather, other acts of God, and other potential casualties. There can be no assurance that we will be able to obtain adequate levels of insurance to protect against suits and judgments in connection with accidents or other disasters that may occur in our theme parks.

Our Ownership of Real Property Subjects Us to Environmental Regulation, Which Creates Uncertainty Regarding Future Environmental Expenditures and Liabilities.

We may be required to incur costs to comply with environmental requirements, such as those relating to discharges to air, water and land; the handling and disposal of solid and hazardous waste; and the cleanup of properties affected by hazardous substances. Under these and other environmental requirements we may be required to investigate and clean up hazardous or toxic substances or chemical releases at one of our properties. As an owner or operator, we could also be held responsible to a governmental entity or third party for property damage, personal injury and investigation and cleanup costs incurred by them in connection with any contamination. Environmental laws typically impose cleanup responsibility and liability without regard to whether the owner or operator knew of or caused the presence of the contaminants. The liability under those laws has been interpreted to be joint and several unless the harm is divisible and there is a reasonable basis for allocation of the responsibility. The costs of investigation, remediation or removal of those substances may be substantial, and the presence of those substances, or the failure to remediate a property properly, may impair our ability to use our property. We are not currently aware of any material environmental risks regarding our properties. However, we may be required to incur costs to remediate potential environmental hazards or to mitigate environmental risks in the future.

The Suspension or Termination of Any of our Business Licenses May Have A Negative Impact On Our Business

We maintain a variety of standard business licenses issued by federal, state and city government agencies that are renewable on a periodic basis. We cannot guarantee that we will be successful in renewing all of our licenses on a periodic basis. The suspension, termination or expiration of one or more of these licenses could have a significant adverse affect on our revenues and profits. In addition, any changes to the licensing requirements for any of our licenses could affect our ability to maintain the licenses.

We Are Dependent Upon the Services of Our CEO and other Key Personnel and Consultants.

Great American Family Parks success is heavily dependent on the continued active participation of our current executive officers listed under Management. Loss of the services of one or more of these officers could have a material adverse effect upon our business, financial condition or results of operations. In particular, we place substantial reliance upon the efforts and abilities of Dr. Larry Eastland, our chief executive officer. The loss of Dr.

Eastland's services could have a serious adverse effect on our business, operations, revenues or prospects. We currently maintain key man insurance on Dr. Eastland's life, with a death benefit payout of \$1,000,000 to Great American Family Parks as beneficiary of the policy.

Further, our success and achievement of our growth plans depend on our ability to recruit, hire, train and retain other highly qualified technical and managerial personnel. Competition for qualified employees among companies in the theme park industry is intense, and the loss of any such persons, or an inability to attract, retain and motivate any additional highly skilled employees required for the expansion of the Company's activities, could have a materially adverse effect on the Company. The inability of the Company to attract and retain the necessary personnel and consultants and advisors could have a material adverse effect on the Company's business, financial condition or results of operations.

Risk Factors Relating to Our Common Stock:

The Market Price Of Our Common Stock May Decline Because There Are Warrants That May Be Available For Future Sale And The Sale Of These Shares May Depress The Market Price.

The market price of our common stock may decline because there are a large number of warrants that may be available for future sale, and the sale of these shares may depress the market price. As of April 11, 2007, we had approximately 51,886,537 shares of common stock issued and outstanding and outstanding warrants to purchase up to 14,300,000 shares of common stock. The warrants represent approximately 28% of our common stock issued and outstanding. All of the shares included in this prospectus may be sold without restriction. The sale of these shares may adversely affect the market price of our common stock.

Our Directors and Executive Officers Beneficially Own Approximately 29% of Our Common Stock; Their Interests Could Conflict with Yours; Significant Sales of Stock Held by Them Could Have a Negative Effect on Our Stock Price; Stockholders May be Unable to Exercise Control.

As of April, 2007, our executive officers, directors and affiliated persons beneficially owned approximately 29% of our common stock. As a result, our executive officers, directors and affiliated persons will have significant influence to:

- elect or defeat the election of our directors;
- amend or prevent amendment of our articles of incorporation or bylaws;
- effect or prevent a merger, sale of assets or other corporate transaction; and
- control the outcome of any other matter submitted to the stockholders for vote.

As a result of their ownership and positions, our directors and executive officers collectively are able to significantly influence all matters requiring stockholder approval, including the election of directors and approval of significant corporate transactions. In addition, sales of significant amounts of shares held by our directors and executive officers, or the prospect of these sales, could adversely affect the market price of our common stock. Management's stock ownership may discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us, which in turn could reduce our stock price or prevent our stockholders from realizing a premium over our stock price.

Our Common Stock is Subject to the Penny Stock Rules of the SEC and the Trading Market in Our Securities is Limited, Which Makes Transactions In Our Stock Cumbersome and May Reduce the Value of an Investment in Our Stock.

The Securities and Exchange Commission has adopted Rule 15g-9 which establishes the definition of a "penny stock," for the purposes relevant to us, as any equity security that has a market price of less than \$5.00 per share or with an exercise price of less than \$5.00 per share, subject to certain exceptions. For any transaction involving a penny stock, unless exempt, the rules require:

- * that a broker or dealer approve a person's account for transactions in penny stocks; and
- * the broker or dealer receive from the investor a written agreement to the transaction, setting forth the identity and quantity of the penny stock to be purchased.

In order to approve a person's account for transactions in penny stocks, the broker or dealer must:

- * obtain financial information and investment experience objectives of the person; and
- * make a reasonable determination that the transactions in penny stocks are suitable for that person and the person has sufficient knowledge and experience in financial matters to be capable of evaluating the risks of transactions in penny stocks.

The broker or dealer must also deliver, prior to any transaction in a penny stock, a disclosure schedule prescribed by the Commission relating to the penny stock market, which, in highlight form:

- * sets forth the basis on which the broker or dealer made the suitability determination; and
- * that the broker or dealer received a signed, written agreement from the investor prior to the transaction.

Generally, brokers may be less willing to execute transactions in securities subject to the "penny stock" rules. This may make it more difficult for investors to dispose of our common stock and cause a decline in the market value of our stock.

Disclosure also has to be made about the risks of investing in penny stocks in both public offerings and in secondary trading and about the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and the rights and remedies available to an investor in cases of fraud in penny stock transactions. Finally, monthly statements have to be sent disclosing recent price information for the penny stock held in the account and information on the limited market in penny stocks.

We Do Not Expect to Pay Dividends for Some Time, if At All.

No cash dividends have been paid on our common stock. We expect that any income received from operations will be devoted to our future operations and growth. We do not expect to pay cash dividends in the near future. Payment of dividends would depend upon our profitability at the time, cash available for those dividends, and other factors.

Future Capital Needs Could Result in Dilution to Investors; Additional Financing Could be Unavailable or Have Unfavorable Terms.

Our future capital requirements will depend on many factors, including cash flow from operations, progress in our present operations, competing market developments, and our ability to market our products successfully. It may be necessary to raise additional funds through equity or debt financings. Any equity financings could result in dilution to our then-existing stockholders. Sources of debt financing may result in higher interest expense. Any financing, if available, may be on terms unfavorable to us. We anticipate that our existing capital resources will be adequate to satisfy our operating expenses and capital requirements for at least the next 6 months. However, such estimates may prove to be inaccurate.

GREAT AMERICAN FAMILY PARKS, INC. and SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

December 31, 2006

1.

ORGANIZATION

Great American Family Parks, Inc. (GAFP) (formally Royal Pacific Resources, Inc.) is a Nevada corporation formed during 2002 for the purpose of merging with Painted Desert Uranium and Oil Company, Inc., a Washington corporation, incorporated in 1954, with the merger being completed on July 25, 2002.

On December 23, 2003 GAFP completed the acquisition of all member interests in Crossroads Convenience Center, LLC (CCC) from Great Western Parks LLC by the issuance of 27,067,000 shares of its common capital stock, representing 91.4% of the outstanding stock after the acquisition, which was accounted for as a reverse acquisition, in which Great Western Parks LLC was considered to be the acquirer of Royal Pacific Resources Inc. for reporting purposes. The outstanding stock of GAFP before the acquisition was 2,533,000 and after 29,600,000. The continuing operations of the business are those of CCC including its prior historical financial statements and the operations of GAFP from December 23, 2003. The financial statements show a retroactive restatement of CCC's historical members' equity to reflect the equivalent number of shares of common stock issued in the acquisition.

Crossroads Convenience Center, LLC (CCC) was organized under the laws of the State of Idaho on June 18, 1998. CCC's primary business activity is operating a retail convenience center, which includes a Chevron gasoline station, and a convenience store in Nampa, Idaho. The assets and business activity of CCC was sold in October and November 2006.

On June 13, 2005 the Company acquired the theme park outlined in note 3.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Methods

The Company recognizes income and expenses based on the accrual method of accounting.

Dividend Policy

The Company has not yet adopted a policy regarding payment of dividends.

Basic and Diluted Net Income (Loss) Per Share

Basic net income (loss) per share amounts are computed based on the weighted average number of shares actually outstanding. Diluted net income (loss) per share amounts are computed using the weighted average number of common shares and common equivalent shares outstanding as if shares had been issued on the exercise any common share rights unless the exercise becomes antidilutive and then only the basic per share amounts are shown in the report.

Revenue Recognition

The major source of income is received in the form of cash sales from a convenience center and gas station, and a theme park. Revenue is recognized upon receipt of the cash from the sale of a product or service.

NOTES TO FINANCIAL STATEMENTS (Continued)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Advertising and Market Development

The company expenses advertising and market development costs as incurred.

Income Taxes

The Company utilizes the liability method of accounting for income taxes. Under the liability method deferred tax assets and liabilities are determined based on the differences between financial reporting and the tax bases of the assets and liabilities and are measured using the enacted tax rates and laws that will be in effect, when the differences are expected to reverse. An allowance against deferred tax assets is recorded, when it is more likely than not, that such tax benefits will not be realized.

CCC is a limited liability company with all tax attributes passing through to its members. Before the acquisition date of December 23, 2003, the income of CCC passed through to the former members. Accordingly, there is no provision for income taxes in the accompanying financial statements associated with the income of CCC prior to acquisition.

After the acquisition by GAFP the income or loss of CCC passes through to GAFP, the sole member of CCC. On December 31, 2006, the Company and its subsidiaries had a net operating loss available for carry forward of \$687,427. The tax benefit of approximately \$206,000 from the loss carry forward has been fully offset by a valuation reserve because the use of the future tax benefit is doubtful since the Company is unable to project a reliable future net income. The loss carryforward expires beginning in the 2024.

Principles of Consolidation

The accompanying consolidated financial statements includes the accounts of GAFP, (parent) and its subsidiaries CCC, and Wild Animal Safari, Inc. Revenues and expenses of GAFP are included for the period subsequent to December 23, 2003 and includes the accounts of CCC and Wild Animal Safari, Inc. from their inceptions. All material intercompany accounts and transactions have been eliminated.

Financial and Concentrations Risk

The Company does not have any concentration or related financial credit risks except for the accounts receivable and a note receivable, however, the Company considers the accounts to be fully collectable .

Estimates and Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of the assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing these financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - continued

Property and equipment

Property and equipment are stated at cost. Depreciation is computed on the straight-line method over the estimated useful lives of the assets, which range from five to thirty nine years. A summary is included below.

Land	\$	1,762,005
Buildings and improvements		2,365,794
Equipment		416,911
Animals		403,698
Less accumulated depreciation		(254,982)
Net	\$	4,693,426

Inventory

Inventory consists of park supplies, and convenience store items, and are stated at the lower of cost or market. Cost is determined on the first-in, first-out method.

Impairment of Long-Lived Assets

The Company reviews its major assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If an asset is considered to be impaired, the impairment will be recognized in an amount determined by the excess of the carrying amount of the asset over its fair value.

Financial Instruments

The carrying amounts of financial instruments are considered by management to be their estimated fair values due to their short term maturities.

Stock-based Compensation

Prior to October 1, 2006, we accounted for stock-based compensation under the recognition and measurement principles of SFAS No. 123 and as permitted under APB Opinion No. 25, and related interpretations. Effective October 1, 2006, we adopted FAS 123R using the modified prospective method recognizing compensation costs on a straight-line basis over the requisite service period of the award. SFAS No. 123R requires that cash flows resulting from tax deductions in excess of the cumulative compensation cost recognized for options exercised be classified as cash inflows from financing activities and cash outflows from operating activities. We also apply SFAS No. 123R and the EITF No 96-18 stock based compensation to non-employees.

Other Recent Accounting Pronouncements

The Company does not expect that the adoption of other recent accounting pronouncements will have a material impact on its financial statements.

3. MORTGAGE PAYABLE - THEME PARK

On November 8, 2004, the Company entered into an Asset Purchase Agreement with Ron Snider & Associates, Inc. to purchase animals and other park property for a theme park in Pine Mountain Georgia for \$700,000, with an extended closing date of June 13, 2005. At closing the Company paid \$350,000 and a promissory note for the balance. The promissory note includes interest at 7.5% per annum and will be payable in eighty-three monthly installments of principle and interest of \$5,368. The Company also entered into a Real Estate Purchase Agreement with individuals and a partnership for the acquisition of the land underlying the theme park site, including the improvements, buildings, and fixtures for \$4,000,000. The Company paid \$2,000,000 and a promissory note for \$2,000,000 for the balance at closing. The note for the purchase of the real property will bear interest at 7.5% per annum and will be payable in eighty-three monthly installments of principal and interest of \$30,676. Both notes are secured by a first priority Security Agreement on the assets and a first Security Deed on the real estate.

On November 17, 2005 Wild Animal Safari, Inc. (subsidiary) completed the refinancing of the debt incurred on June 13, 2005, above, in the acquisition of the Wild Animal Safari theme park from Ron Snider & Associates, Inc. and related entities. As a result of this refinancing, Ron Snider & Associates, Inc. and its affiliated entities were paid in full and the liens which were held by those entities against the Wild Animal Safari theme park assets were released. In place of the original seven year financing, which was provided by the Snider entities, there is now a loan due by Wild Animal Safari, Inc. to Commercial Bank & Trust.

This new loan will be repaid in monthly installments based on a twenty year amortization schedule. The interest rate on the new loan is 7.75% for the first five years. The interest rate will be renegotiated at the end of the initial five years of the payment term on November 17, 2010, but as part of the refinancing the bank has agreed to extend the payment term for an additional fifteen years after November 17, 2010, subject to no default. The new loan is secured by a first priority security agreement and a first priority security deed on the Wild Animal Safari theme park assets. The old loan had a monthly payment of \$30,767 and the new loan a monthly payment of \$18,883.

In addition, on November 17, 2005, Wild Animal Safari, Inc. (subsidiary) obtained a line of credit loan from Commercial Bank & Trust Company of Troup County for working capital purposes in the principal amount of \$200,000. This line of credit loan is renewable annually, subject to the satisfactory performance by Wild Animal Safari, Inc. under the terms of the line of credit. It is also secured by a lien on the Wild Animal Safari theme park assets.

We do not pay directors cash compensation for their service as directors. Our officers and directors elected to forego compensation until such time as we achieved the acquisition and commenced the operation of our first theme park.

Upon the closing the acquisition of our first theme park, existing employment contracts for officers and directors were implemented. These agreements, described below, provide for compensation and certain corporate benefits for certain employees and board members.

Each of our directors has received an annual grant of 25,000 shares of our common stock.

In April 2006, the Board of Directors approved, and the Company issued, 5,000,000 shares of common stock to Larry Eastland, our Chairman, President, and Chief Executive Officer for the following reasons: (i) managing our day to day operations prior to our acquisition of the Wild Animal Safari theme park, during which time Mr. Eastland did not receive a salary, (ii) introducing us to fundraising opportunities, (iii) evaluating potential acquisition candidates, including arranging the acquisition of Wild Animal Safari, and (iii) advancing an aggregate of \$250,000 to the Company to sustain its operations. We believe that these transactions were on terms as favorable as could have been obtained from unaffiliated third parties.

Employment Agreements

On February 1, 2005, we entered into separate employment agreements with Larry Eastland, our President and CEO; with Dale Van Voorhis, who was our CFO at that time and who currently serves as the president of our GFAM Management Corp. subsidiary; with James Meikle, the President of our Wild Animal Safari, Inc. subsidiary; and with Jack Klosterman, our Corporate Secretary and Treasurer. These agreements provide for base annual salaries of \$120,000; \$40,000; \$60,000; and \$40,000 respectively, as compensation for the part-time employment of the aforementioned officers until a second theme park is acquired. Further, each agreement has a base term of three (3) years effective retroactively as of February 1, 2005. The agreements are thereafter renewable for additional periods of two (2) years, unless we give notice to the contrary. Upon our acquisition of a second theme park, said salaries will increase, respectively, to the following amounts: \$170,000; \$60,000; \$100,000; \$60,000. Upon the acquisition of additional theme parks, salaries will be reviewed with consideration given to resulting increased work and responsibility. Mr. Klosterman's employment agreement was mutually terminated on June 12, 2006, and he was paid 250,000 shares of common stock as compensation.

In addition, Dr. Eastland is entitled to receive an annual cash bonus based upon a percentage of our pre-tax income (as defined therein) for each fiscal year covered by the employment agreement at a percentage of 2%. No bonus is payable unless and until the Company earns pre-tax income in excess of \$500,000. Each of the employment agreements also provide for the payment of additional severance compensation, in amounts based on a formula of not less than three (3) times the executive's then current base salary, at any time during the term thereof when either of the following occurs: (i) the agreement is terminated by us without cause (as defined therein), or (ii) terminated by the executive due to a change in control (as defined therein). These agreements also entitle the officers to participate in the Stock Option Plans. Upon hiring additional marketing personnel, we may enter into additional employment agreements, which we anticipate may contain similar terms to our existing employment agreements.

We also entered into separate employment agreements with Jason Hutcherson and Philip Michael Miller in connection with our acquisition of the assets of Ron Snider & Associates, Inc. dba Wild Animal Safari, Inc.

Stock Option And Award Plan

A Stock Option and Award Plan (the Plan) providing for incentive stock options and performance bonus awards for executives, employees, and directors was approved by our Board of Directors on February 1, 2005, and will be presented to the shareholders for approval. The Plan sets aside five million (5,000,000) shares for award of stock options, including qualified incentive stock options and performance stock bonuses. To date, no grants or awards have been made pursuant to the Plan.

(1) Under Rule 13d-3 under the Exchange Act, certain shares may be deemed to be beneficially owned by more than one person (if, for example, persons share the power to vote or the power to dispose of the shares). In addition, shares are deemed to be beneficially owned by a person if the person has the right to acquire the shares (for example, upon exercise of an option) within 60 days of the date as of which the information is provided. In computing the percentage ownership of any person, the amount of shares outstanding is deemed to include the amount of shares beneficially owned by that person (and only that person) by reason of these acquisition rights. As a result, the percentage of outstanding shares of any person as shown in this table does not necessarily reflect the person's actual ownership with respect to the number of shares of our common stock actually outstanding at April, 2007.

(2) Based upon 51,886,537 shares of common stock issued and outstanding as of April 11, 2007 except that shares of common stock underlying options or warrants exercisable within 60 days of the date hereof are deemed to be outstanding for purposes of calculating the beneficial ownership of securities of the holder of such options or warrants.

(3) Larry Eastland is a general partner of EDLA FLP.

(4) Represents 10,020,000 shares of common stock owned by EDLA FLP, of which Mr. Eastland is the general partner.

The information as to shares beneficially owned has been individually furnished by our respective directors, named executive officers and other stockholders, or taken from documents filed with the SEC.
