The matters discussed in this report on Form 8-K, when not historical matters, are forward-looking statements that involve a number of risks and uncertainties that could cause actual results to differ materially from projected results. Such factors include, among others set forth in the Company's prospectus and reports filed with the SEC, the results of its continuing exploration program, the decisions of third parties over which the Company has no control, commodity prices, environmental and government regulations, availability of financing, judicial proceedings, *force majeure* events, and other risk factors as described from time to time in the Company's filings with the SEC. Many of these factors are beyond the Company's ability to control or predict. The Company disclaims any intent or obligation to update its forward-looking statements, whether as a result of receiving new information, the occurrence of future events, or otherwise.
