EXPLANATORY NOTE

Unless otherwise indicated or the context otherwise requires, all references in this Quarterly Report on Form 10-Q to “we,” “us,” “our,” “Jones,” “Jones Soda,” and the “Company” are to Jones Soda Co., a Washington corporation, and our wholly-owned subsidiaries, Jones Soda Co. (USA) Inc. and Jones Soda (Canada) Inc.

In addition, unless otherwise indicated or the context otherwise requires, all references in this Quarterly Report to “Jones Soda” refer to our premium soda, including Jones® Soda, Jones Zilch® and Jones Stripped™ sold under the trademarked brand name “Jones Soda Co.®”

CAUTIONARY NOTICE REGARDING FORWARD LOOKING STATEMENTS

We desire to take advantage of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. This Quarterly Report on Form 10-Q (this “Report”) contains a number of forward-looking statements that reflect management’s current views and expectations with respect to our business, strategies, products, future results and events, and financial performance. All statements made in this Report other than statements of historical fact, including statements that address operating performance, the economy, events or developments that management expects or anticipates will or may occur in the future, including statements related to case sales, revenues, profitability, distributor channels, new products, adequacy of funds from operations, cash flows and financing, our ability to continue as a going concern, potential strategic transactions, statements regarding future operating results and non-historical information, are forward-looking statements. In particular, the words such as “believe,” “expect,” “intend,” “anticipate,” “estimate,” “may,” “will,” “can,” “plan,” “predict,” “could,” “future,” “continue,” variations of such words and similar expressions identify forward-looking statements, but are not the exclusive means of identifying such statements and their absence does not mean that the statement is not forward-looking.

Readers should not place undue reliance on these forward-looking statements, which are based on management’s current expectations and projections about future events, are not guarantees of future performance, are subject to risks, uncertainties and assumptions and apply only as of the date of this Report. Our actual results, performance or achievements could differ materially from historical results as well as from the results expressed in, anticipated or implied by these forward-looking statements. Except as required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

In particular, our business, including our financial condition and results of operations and our ability to continue as a going concern may be impacted by a number of factors, including, but not limited to, the following:

- Our ability to successfully execute on our growth strategy and our operating plan;
- Our ability to establish, maintain and expand distribution arrangements with independent distributors, retailers, brokers and national retail accounts, most of whom sell and distribute competing products, and whom we rely upon to employ sufficient efforts in managing and selling our products, including re-stocking the retail shelves with our products, on which our business plan and future growth are dependent in part;
 - Our ability to respond to any changes in, and to maintain, our private label relationship with 7-Eleven;
- Consumer response to and market acceptance of 7-Select®, our cobranding product with 7-Eleven, and our new product, Lemoncocco;
- The timing and amount of reorders for 7-Select®, including the impact on our inventory, revenue and cash flow;
- Our ability to effectively manage and grow international distribution and sales;
- Competition in the fountain business, particularly from Coke and Pepsi;
- Entrance into and increased focus on the craft beverage segment from Coke and Pepsi;
- Our ability to successfully develop and launch new products that match consumer beverage trends;

Edgar Filing: JONES SODA CO - Form 10-Q

- Our ability to increase revenues and achieve case sales goals;
- Our ability to manage our operating expenses and generate cash flow from operations;
- Our ability to secure additional financing, including on terms acceptable to us, if and when needed;
- Our ability to respond to changes in the consumer beverage marketplace, including potential reduced consumer demand due to health concerns (including obesity) and legislative initiatives against sweetened beverages;
- Changes in pricing and SKUs of our products;
- Our ability to manage our inventory levels and to predict the timing and amount of our sales;

3

Table of Contents

- Our reliance on third-party contract manufacturers of our products and the geographic locations of their facilities, which could make management of our distribution efforts inefficient or unprofitable;
- Our ability to secure a continuous supply and availability of raw materials, as well as other factors affecting our supply chain including increases in raw material costs and shortages of glass in the supply chain;
- High or rising fuel and freight costs may have an adverse impact on our results of operations;
- Fluctuations in currency exchange rates, particularly between the U.S. and Canadian dollars, can adversely impact our results of operations;
- Our ability to source our flavors on acceptable terms from our key flavor suppliers;
- Our ability to attract and retain key personnel, including retaining the services of our CEO, which would directly affect our efficiency and operations and could materially impair our ability to execute our growth strategy;
- Our inability to protect our trademarks and trade secrets, which may prevent us from successfully marketing our products and competing effectively;
- Our ability to create and maintain brand name recognition and acceptance of our products, which is critical to our success in our competitive, brand-conscious industry;
- Our ability to maintain brand image and product quality and avoid risks from other product issues such as product recalls;
- Our ability to compete successfully against much larger, well-funded, established companies currently operating in the beverage industry;
- Litigation or legal proceedings, which could expose us to significant liabilities and damage our reputation;
- Our ability to maintain effective disclosure controls and procedures and internal control over financial reporting;
- Our ability to maintain an effective information technology infrastructure;
- Dilutive and other adverse effects on our existing shareholders and our stock price arising from future securities issuances;
- Our ability to access the capital markets for any future equity financing, and any actual or perceived limitations to our common stock by being traded on the OTCQB Marketplace, including the level of trading activity, volatility or market liquidity;
- Regional, national or global economic conditions that may adversely impact our business and results of operations; and
- Our ability to comply with the many regulations to which our business is subject.

For a discussion of some of the factors that may affect our business, results and prospects, see “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2015 filed with the Securities and Exchange Commission on March 24, 2016. Readers are also urged to carefully review and consider the various disclosures made by us in this Report and in our other reports we file with the Securities and Exchange Commission, including our periodic reports on Forms 10-Q and current reports on Form 8-K, and those described from time to time in our press releases and other communications, which attempt to advise interested parties of the risks and factors that may affect our business, prospects and results of operations.

JONES SODA CO.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Nature of Operations and Summary of Significant Accounting Policies

Jones Soda Co. develops, produces, markets and distributes premium beverages which it sells and distributes primarily in United States and Canada through its network of independent distributors and directly to its national and regional retail accounts.

We are a Washington corporation and have two operating subsidiaries, Jones Soda Co. (USA) Inc. and Jones Soda (Canada) Inc. (“Subsidiaries”).

Basis of presentation and consolidation

The accompanying condensed consolidated balance sheet as of December 31, 2015, which has been derived from our audited consolidated financial statements, and unaudited interim condensed consolidated financial statements as of June 30, 2016, has been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and the Securities and Exchange Commission (SEC) rules and regulations applicable to interim financial reporting. The condensed consolidated financial statements include our accounts and accounts of our wholly owned subsidiaries. All intercompany transactions between us and our subsidiaries have been eliminated in consolidation.

In the opinion of management, the accompanying unaudited condensed consolidated financial statements contain all material adjustments, consisting only of those of a normal recurring nature, considered necessary for a fair presentation of our financial position, results of operations and cash flows at the dates and for the periods presented. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year. These financial statements should be read in conjunction with the audited financial statements and notes thereto included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015.

Liquidity

As of June 30, 2016, we had cash and cash-equivalents of approximately \$584,000 and working capital of \$1.9 million. Cash used in operations during the six months ended June 30, 2016 totaled \$462,000 compared to \$984,000 for the same period a year ago. The decrease in cash used in operations compared to the same period a year ago is primarily due to an increase in sales volume. We reported a net loss of \$65,000 for the three months ended June 30, 2016.

As of the date of this Report, we believe that our current cash and cash equivalents, combined with our Loan Facility and anticipated cash from operations, will be sufficient to meet our anticipated cash needs through June 30, 2017.

We have a revolving secured credit facility (the “Loan Facility”) with CapitalSource Business Finance Group. The Loan Facility allows us to borrow a maximum aggregate amount of up to \$3.2 million based on eligible accounts receivable and inventory. As of June 30, 2016, our accounts receivable and inventory eligible borrowing base was approximately \$1.9 million, of which we had drawn down \$1.2 million. See Note 3 for further information.

We may require additional financing to support our working capital needs in the future. The amount of additional capital we may require, the timing of our capital needs and the availability of financing to fund those needs will depend on a number of factors, including our strategic initiatives and operating plans, the performance of our business and the market conditions for debt or equity financing. Additionally, the amount of capital required will depend on our ability to meet our case sales goals and otherwise successfully execute our operating plan. We believe it is imperative to meet these sales objectives in order to lessen our reliance on external financing in the future. We intend to continually monitor and adjust our business plan as necessary to respond to developments in our business, our markets and the broader economy. Although we believe various debt and equity financing alternatives will be available to us to support our working capital needs, financing arrangements on acceptable terms may not be available to us when needed. Additionally, these alternatives may require significant cash payments for interest and other costs or could be highly dilutive to our existing shareholders. Any such financing alternatives may not provide us with sufficient funds to meet our long-term capital requirements. If necessary, we may explore strategic transactions that we consider to be in the best interest of the Company and our shareholders, which may include, without limitation, public or private offerings of debt or equity securities, a rights offering, and other strategic alternatives; however, these options may not ultimately be available or feasible.

The uncertainties relating to our ability to successfully execute on our business plan and finance our operations continue to raise substantial doubt about our ability to continue as a going concern. Our financial statements for the periods presented were prepared assuming we would continue as a going concern, which contemplates that we will continue in operation for the foreseeable future and will be able to realize assets and settle liabilities and commitments in the normal course of business. These financial statements do not include any adjustments to reflect the possible future effects on the recoverability and

Table of Contents

classification of assets or the amounts and classifications of liabilities that could result should we be unable to continue as a going concern.

Seasonality and other fluctuations

Our sales are seasonal and we experience fluctuations in quarterly results as a result of many factors. We historically have generated a greater percentage of our revenues during the warm weather months of April through September. Sales may fluctuate materially on a quarter to quarter basis or an annual basis when we launch a new product or fill the “pipeline” of a new distribution partner or a large retail partner such as 7-Eleven. Sales results may also fluctuate based on the number of SKUs selected or removed by our distributors and retail partners through the normal course of serving consumers in the dynamic, trend-oriented beverage industry. As a result, management believes that period-to-period comparisons of results of operations are not necessarily meaningful and should not be relied upon as any indication of future performance or results expected for the fiscal year.

Use of estimates

The preparation of the condensed consolidated financial statements requires management to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Significant items subject to such estimates and assumptions include, but are not limited to, inventory valuation, depreciable lives and valuation of capital assets, valuation allowances for receivables, trade promotion liabilities, stock-based compensation expense, valuation allowance for deferred income tax assets, contingencies, and forecasts supporting the going concern assumption and related disclosures. Actual results could differ from those estimates.

Recent accounting pronouncements

In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standard Update (“ASU”) 2014-09, Revenue from Contracts with Customers (Topic 606), which supersedes the revenue recognition requirements in ASC 605, Revenue Recognition. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The ASU is effective for public entities for annual periods beginning after December 15, 2017. In June 2015, the FASB deferred for one year the effective date of the new revenue standard, with an option that would permit companies to adopt the standard as early as the original effective date. Early adoption prior to the original effective date is not permitted. We are evaluating the impact this standard may have on our revenue recognition, but do not expect that the adoption will have a material impact on our consolidated financial statements.

In July 2015, the FASB issued ASU 2015-11, Simplifying the Measurement of Inventory (Topic 330), to amend Topic 330, Inventory. Topic 330 currently requires an entity to measure inventory at the lower of cost or market. Market could be replacement cost, net realizable value, or net realizable value less an approximately normal profit margin. ASU 2015-11 requires that inventory measured using either the first-in, first-out (FIFO) or average cost method be measured at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonably predictable costs of completion, disposal and transportation. Adoption of ASU 2015-11 is required for fiscal reporting periods beginning after December 15, 2016, including interim reporting periods within those fiscal years. We do not expect adoption of ASU 2015-11 to have a material impact on our consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The ASU is intended to provide more transparent and economically neutral information about the assets and liabilities that arise from leases than previous guidance. The ASU is effective for public entities for annual periods beginning on or after December 15, 2018. Early adoption is permitted, and adoption must be applied on a modified retrospective basis. We are evaluating the impact of this standard but do not expect that the adoption will have a material impact on our consolidated financial statements.

In March 2016, the FASB issued ASU 2016-09, Improvements to Employee Share-Based Payment Accounting which amends ASC 718, Compensation — Stock Compensation. The ASU includes provisions intended to simplify various provisions related to how share-based payments are accounted for and presented in the financial statements. The ASU is effective for public entities for annual periods beginning on or after December 15, 2016 and interim periods within that reporting period. Early adoption is permitted in any interim or annual period. We are evaluating the impact of this standard but do not expect that the adoption will have a material impact on our financial statements.

Table of Contents

2. Inventory

Inventory consisted of the following (in thousands):

	June 30, 2016	December 31, 2015
Finished goods	\$ 1,519	\$ 1,842
Raw materials	995	727
	\$ 2,514	\$ 2,569

Finished goods primarily include product ready for shipment, as well as promotional merchandise held for sale. Raw materials primarily include ingredients, concentrate and packaging.

3. Line of Credit

We have a revolving secured Loan Facility with CapitalSource Business Finance Group (“CapitalSource”), pursuant to which we, through our Subsidiaries, may borrow a maximum aggregate amount of up to \$3.2 million, subject to satisfaction of certain conditions. We originally entered into this Loan Facility on December 27, 2013, and amended and renewed it for an additional year as of December 18, 2015 and January 7, 2016.

Under this Loan Facility, we may periodically request advances equal to the lesser of: (a) \$3.2 million, or (b) the Borrowing Base which is, in the following priority, the sum of: (i) 85% of eligible U.S. accounts receivable, plus (ii) 35% of finished goods inventory not to exceed \$475,000, plus (iii) 50% of eligible Canadian accounts receivable not to exceed \$300,000, subject to any reserve amount established by CapitalSource. As of June 30, 2016, our accounts receivable and inventory eligible borrowing base was approximately \$1.9 million, of which we had drawn down \$1.2 million. Advances under the Loan Facility as amended in January 2016, bear interest at the prime rate plus 1%, and a loan fee of 0.15% on the daily loan balance is payable to CapitalSource on a monthly basis with a minimum annual interest requirement of \$30,000. The Loan Facility has a term of one year which automatically extends for successive one year terms unless either party gives at least 30 days' prior written notice of its intent to terminate the Loan Facility at the end of the then current term. The Company pays an annual fee of 0.75% of the total commitment.

CapitalSource has the right to terminate the Loan Facility at any time upon 120 days' prior written notice. All present and future obligations of the Subsidiaries arising under the Loan Facility are guaranteed by us and are secured by a first priority security interest in all of our assets. The Loan Facility contains customary representations and warranties as well as affirmative and negative covenants. As of June 30, 2016, we were in compliance with all covenants under the Loan Facility. The draws on the Loan Facility were used to fulfill working capital needs. We will continue to utilize the Loan Facility, as needed, for working capital needs in the future.

4. Warrants

In February 2012 as part of our registered offering, we sold and issued warrants for the purchase of up to 3,207,500 shares of common stock. Each warrant has an exercise price of \$0.70 per share, for total potential proceeds to us of up to \$2,245,250 if all of the warrants are exercised in full for cash. The warrants are exercisable for cash or, solely in the
