**Item 4.02. Non-Reliance on Previously Issued Financial Statements or a Related Audit Report or Completed Interim Review.**

(a)

On August 8, 2005, management concluded and the Audit Committee of Coherent's Board of Directors agreed that Coherent's previously issued financial statements for the first and second quarters of fiscal 2005 should be restated to correct the pro forma amounts reported for stock based compensation determined under the fair value based method for the three month period ended January 1, 2005 and the three and six month periods ended April 2, 2005, and, accordingly, such financial statements should no longer be relied upon.

**Subsequent to the issuance of Coherent's condensed consolidated financial statements for the first two quarters of fiscal 2005, which ended on January 1, 2005 and April 2, 2005, respectively, Coherent determined that the tax effect on stock-based compensation determined under the fair value method reflected in the footnotes to the financial statements had been calculated incorrectly for the three month period ended January 1, 2005 and the three and six month periods ended April 2, 2005. Accordingly, Coherent decided to restate such pro forma amounts presented in the footnotes to the financial statements contained in Coherent's Quarterly Reports on Form 10-Q for those periods and accordingly, Coherent expects to promptly file amendments to (i) the Quarterly Report on Form 10-Q for the quarterly period ended April 2, 2005, which was originally filed with the Securities and Exchange Commission (SEC) on May 17, 2005 and (ii) the Quarterly Report on Form 10-Q for the quarterly period ended January 1, 2005, which was originally filed with the SEC on February 9, 2005, as amended by Amendment No. 1 to that Quarterly Report on Form 10-Q, which was previously filed on May 17, 2005.**

For the three month periods ended January 1, 2005 and April 2, 2005, the effect of these corrections was to increase pro forma stock-based compensation expense, net of tax, by \$1.6 million and \$0.8 million, respectively, with a corresponding decrease to pro forma net income in the same amount for each period. For the six month period ended April 2, 2005, the effect of the correction was to increase pro forma stock-based compensation expense, net of tax by \$2.4 million with a corresponding decrease to pro forma net income in the same amount. As a result of these corrections, basic and diluted pro forma earnings per share each decreased by \$0.05 for the three months ended January 1, 2005, by \$0.03 for the three months ended April 2, 2005 and by \$0.08 for the six month period ended April 2, 2005. These corrections had no impact on Coherent's consolidated balance sheet, results of operations or cash flows for any of the periods covered by the Quarterly Reports on Form 10-Q that will be amended.

The Audit Committee has discussed the matters disclosed in this Item 4.02(a) with management and the Company's independent registered public accounting firm.
