Notes to Schedule of Investments (unaudited)

1. Organization and Significant Accounting Policies

The Salomon Brothers High Income Fund II Inc. (the Fund) was incorporated in Maryland and is registered as a diversified, closed-end management investment company under the Investment Company Act of 1940, as amended, (the 1940 Act). The Fund seeks to maximize current income by investing at least 80% of its net assets plus any borrowings for investment purposes in high yield debt securities (as defined in the Fund's prospectus). As a secondary objective, the Fund seeks capital appreciation to the extent consistent with its objective of seeking to maximize current income.

The following are significant accounting policies consistently followed by the Fund and are in conformity with U.S. generally accepted accounting principles (GAAP).

(a) Investment Valuation. Debt securities are valued at the mean between the bid and asked prices provided by an independent pricing service that are based on transactions in debt obligations, quotations from bond dealers, market transactions in comparable securities and various other relationships between securities. Equity securities for which market quotations are available are valued at the last sale price or official closing price on the primary market or exchange on which they trade. Publicly traded foreign government debt securities are typically traded internationally in the over-the-counter market, and are valued at the mean between the bid and asked prices as of the close business of the market. When prices are not readily available, or are determined not to reflect fair value, such as when the value of a security has been significantly affected by events after the close of the exchange or market on which the security is principally traded, but before the Fund calculates its net asset value, the Fund may value these investments at fair value as determined in accordance with the procedures approved by the Fund's Board of Directors. Short-term obligations with maturities of 60 days or less are valued at amortized cost, which approximates market value.

(b) Repurchase Agreements. When entering into repurchase agreements, it is the Fund's policy that its custodian or a third party custodian take possession of the underlying collateral securities, the market value of which at least equals the principal amount of the repurchase transaction, including accrued interest. To the extent that any repurchase transaction exceeds one business day, the value of the collateral is marked-to-market to ensure the adequacy of the collateral. If the seller defaults, and the market value of the collateral declines or if bankruptcy proceedings are commenced with respect to the seller of the security, realization of the collateral by the Fund may be delayed or limited.

(c) Lending of Portfolio Securities. The Fund has an agreement with its custodian whereby the custodian may lend securities owned by the Fund to brokers, dealers and other financial organizations. In exchange for lending securities under the terms of the agreement with its custodian, the Fund receives a lender's fee. Fees earned by the Fund on securities lending are recorded as securities lending income. Loans of securities by the Fund are collateralized by cash, U.S. government securities or high quality money market instruments that are maintained at all times in an amount at least equal to the current market value of the loaned securities, plus a margin which varies depending on the type of

securities loaned. The custodian establishes and maintains the collateral in a segregated account. The Fund has the right under the lending agreement to recover the securities from the borrower on demand.

The Fund maintains the risk of any loss on the securities on loan as well as the potential loss on investments purchased with cash collateral received from securities lending.

(d) Foreign Currency Translation. Investment securities and other assets and liabilities denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the date of valuation. Purchases and sales of investment securities and income and expense items denominated in foreign currencies are translated into U.S. dollar amounts based upon prevailing exchange rates on the respective dates of such transactions.

Foreign security and currency transactions may involve certain considerations and risks not typically associated with those of U.S. dollar denominated transactions as a result of, among other factors, the possibility of lower levels of governmental supervision and regulation of foreign securities markets and the possibility of political or economic instability.

(e) Credit and Market Risk. The Fund invests in high yield and emerging market instruments that are subject to certain credit and market risks. The yields of high yield and emerging market debt obligations reflect, among other things, perceived credit and market risks. The Fund's investment in securities rated below investment grade typically involve risks not associated with higher rated securities including, among others, greater risk related to timely and

Notes to Schedule of Investments (continued)

ultimate payment of interest and principal, greater market price volatility and less liquid secondary market trading. The consequences of political, social, economic or diplomatic changes may have disruptive effects on the market prices of investments held by the Fund. The Fund's investment in non-dollar denominated securities may also result in foreign currency losses caused by devaluations and exchange rate fluctuations.

(f) Security Transactions. Security transactions are accounted for on a trade date basis.

2. Investments

At July 31, 2006, the aggregate gross unrealized appreciation and depreciation of investments for federal income tax purposes were substantially as follows:

Gross unrealized appreciation	\$	35,063,862
Gross unrealized depreciation		(47,503,058)
Net unrealized depreciation	\$	(12,439,196)

At July 31, 2006, the Fund loaned securities having a market value of \$2,877,955. The Fund received cash collateral amounting to \$2,960,331 which was invested into the State Street Navigator Securities Lending Trust Prime Portfolio, a Rule 2a-7 money market fund, registered under the 1940 Act.

3. Loan

At July 31, 2006, the Fund had a \$125,000,000 loan pursuant to a revolving credit and security agreement with Crown Point Capital Company LLC and Citicorp North America, Inc. ("CNA"). In addition, CNA acts as administrative agent of the credit facility. The loan generally bear interest at a variable rate based on the weighted average interest rates of the underlying commercial paper or LIBOR plus any applicable margin. Securities held by the Fund are subject to a lien, granted to the lenders, to the extent of the borrowings outstanding and any additional expenses.
