PART I

ITEM 1: BUSINESS

Background

We are a franchisor of four value-oriented retail store concepts that buy, sell, trade and consign merchandise. Each of our retail store brands emphasizes consumer value by offering high-quality used merchandise at substantial savings from the price of new merchandise and by purchasing customers' used goods that have been outgrown or are no longer used. The retail brands also offer new merchandise to customers. We also franchise a concept that provides leasing and financing services to small businesses.

We also operate a middle-market equipment leasing business through our wholly owned subsidiary Winmark Capital Corporation. Our middle-market leasing business serves large and medium-sized businesses and focuses on technology-based assets which generally cost of more than \$250,000. The businesses we target generally have annual revenue of \$25,000,000 or more. We generate middle-market equipment leases primarily through business alliances, equipment vendors and directly from customers.

We also operate a small-ticket financing business through our wholly owned subsidiary Wirth Business Credit, Inc. (formerly known as Winmark Business Solutions, Inc.). Our small-ticket financing business serves small businesses and focuses on assets which generally have a cost of \$5,000 to \$250,000. We primarily generate financing business through our Wirth Business Credit® franchisees.

Our significant assets are located within the United States, and we generate all revenues from United States operations other than franchising revenues from Canadian operations of approximately \$2.0 million, \$1.8 million and \$1.7 million for 2007, 2006 and 2005, respectively. For additional financial information, please see Item 6 Selected Financial Data and Item 8 Financial Statements and Supplementary Data. We were incorporated in Minnesota in 1988.

Franchise Operations

Our four retail brands with their fiscal year 2007 system-wide sales, defined as estimated revenues generated by all franchise owned locations, are summarized as follows:

Play It Again Sports® - \$250 million.

Edgar Filing: WINMARK CORP - Form 10-K

We began franchising the Play It Again Sports® brand in 1988. Play It Again Sports® franchises sell, buy, trade and consign used and new sporting goods, equipment and accessories for a variety of athletic activities including hockey, wheeled sports (in-line skating, skateboards, etc.), fitness, ski/snowboard, golf and baseball/softball. The franchises offer a flexible mix of merchandise that is adjusted to adapt to seasonal and regional differences. Play It Again Sports® is known for providing the highest value to the customer by offering a mix of used and new sporting goods. For the years ended 2007, 2006 and 2005, Play It Again Sports® contributed royalties and franchise fees of \$10.4 million, \$10.4 million and \$10.2 million, respectively. As a percentage of consolidated revenues for 2007, 2006 and 2005, these amounts equaled 33.3%, 38.1% and 38.4%, respectively.

Once Upon A Child® - \$125 million.

We began franchising the Once Upon A Child® brand in 1993. Once Upon A Child® franchises sell and buy used and new children's clothing, toys, furniture, equipment and accessories. This brand primarily targets cost-conscious parents of children ages infant to 10 years with emphasis on children ages seven years old and under. These customers have the opportunity to sell their used children's items to a Once Upon A Child® franchise when outgrown and to purchase quality used children's clothing, toys, furniture and equipment at prices lower than new merchandise. New merchandise is offered to supplement the used merchandise. For the years ended 2007, 2006 and 2005, Once Upon A Child® contributed royalties and franchise fees of \$5.4 million, \$4.9 million and \$4.3 million, respectively. As a percentage of consolidated revenues for 2007, 2006 and 2005, these amounts equaled 17.3%, 17.7% and 16.2%, respectively.

Plato's Closet® - \$126 million.

We began franchising the Plato's Closet® brand in 1999. Plato's Closet® franchises sell and buy used clothing and accessories geared toward the teenage and young adult market. Customers have the opportunity to sell their used items to a Plato's Closet® franchise when gently-used or outgrown and to purchase quality used clothing and accessories at prices lower than new merchandise. For the years ended 2007, 2006 and 2005, Plato's Closet® contributed royalties and franchise fees of \$5.4 million, \$4.2 million and \$3.5 million, respectively. As a percentage of consolidated revenues for 2007, 2006 and 2005, these amounts equaled 17.2%, 15.2% and 13.3%, respectively.

Music Go Round® - \$25 million.

We began franchising the Music Go Round® brand in 1994. Music Go Round® franchises sell, buy, trade and consign used and new musical instruments, speakers, amplifiers, music-related electronics and related accessories for parents of children who play musical instruments, as well as professional and amateur musicians. For the years ended 2007, 2006 and 2005, Music Go Round® contributed royalties and franchise fees of \$0.8 million, \$0.8 million and \$0.9 million, respectively. As a percentage of consolidated revenues for 2007, 2006 and 2005, these amounts equaled 2.4%, 2.8% and 3.3%, respectively.

Wirth Business Credit®

We began franchising the Wirth Business Credit® business in 2006. The Wirth Business Credit® brand franchises leasing and financing services businesses that provide franchisees an array of small-ticket equipment leasing and financing options funded through Winmark or its affiliates to offer to customers for business essential equipment and assets. Wirth Business Credit® franchisees are paid a transaction fee for each leasing or financing transaction funded through Winmark or its affiliates, and as such Winmark Corporation does not receive royalties from Wirth Business Credit® franchisees.

The following table presents a summary of our franchising activity for the fiscal year ended December 29, 2007:

	TOTAL 12/30/06	OPENED	CLOSED	TOTAL 12/29/07	AVAILABLE FOR RENEWAL	COMPLETED RENEWALS	% RENEWED

Retail Brands Franchising Overview

We use franchising as a business method of distributing goods and services through our retail brands to consumers. We also use franchising as a method to originate small-ticket leasing transactions with our Wirth Business Credit® franchises. We discuss our Wirth Business Credit® franchise system in the Wirth Business Credit® Franchise System Subsection of this Business Section. We, as franchisor, own a retail business brand, represented by a service mark or similar right, and an operating system for the franchised business. We then enter into franchise agreements with franchisees and grant the franchisee the right to use our business brand, service marks and operating system to manage a retail business. Franchisees are required to operate their retail businesses according to the systems, specifications, standards and formats we develop for the business brand. We train the franchisees how to operate the franchised business. We also provide continuing support and service to our franchisees.

We have developed value-oriented retail brands based on a mix of used and new merchandise. We franchise rights to franchisees who open franchised locations under such brands. The key elements of our franchise strategy include:

- franchising the rights to operate retail stores offering value-oriented merchandise;
- attracting new, qualified franchisees; and
- providing initial and continuing support to franchisees.

We have and we intend to reinvest operating cash flow generated from our business into:

- supporting the current franchise systems;
- making investments in infrastructure to support our corporate needs;
- supporting Wirth Business Credit, Inc. and Winmark Capital Corporation; and
- pursuing new business opportunities.

Offering Value-Oriented Merchandise

Our retail brands provide value to consumers by purchasing and reselling used merchandise that consumers have outgrown or no longer use at substantial savings from the price of new merchandise. We also offer value-priced new merchandise. By offering a combination of high-quality used and value-priced new merchandise, we benefit from consumer demand for value-oriented retailing. In addition, we believe that among national retail operations our retail store brands provide a unique source of value to consumers by purchasing used merchandise. We also believe that the strategy of buying used merchandise increases consumer awareness of our retail brands.

Attracting Franchisees

Our franchise marketing program for retail brands seeks to attract prospective franchisees with experience in management and operations and an interest in being the owner and operator of their own business. We seek franchisees who:

- have a sufficient net worth,
- have prior business experience, and
- intend to be integrally involved with the management of the business.

At December 29, 2007, we had 53 signed retail franchise agreements that are expected to open in 2008.

We began franchising in Canada in 1991 and, as of December 29, 2007, had 63 franchised retail stores open in Canada. The Canadian retail stores are operated by franchisees under agreements substantially similar to those used in the United States.

Retail Brand Franchise Support

As a franchisor, our success depends upon our ability to develop and support competitive and successful franchise brands. We emphasize the following areas of franchise support and assistance.

Training

Each franchisee must attend our training program regardless of prior experience. Soon after signing a franchise agreement, the franchisee of one of our retail brands is required to attend new owner orientation training. This course covers basic management issues, such as preparing a business plan, lease evaluation, evaluating insurance needs and obtaining financing. Our training staff assists each franchisee in developing a business plan for their retail store with financial and cash flow projections. The second training session is centered on store operations. It covers, among other things, point-of-sale computer training, inventory selection and acquisition, sales, marketing and other topics. We provide the franchisee with operations manuals that we periodically update.

Field Support

We provide operations personnel to assist the franchisee in the opening of a new business. We also have an ongoing field support program designed to assist franchisees in operating their retail stores. Our franchise support personnel visit each retail store periodically and, in most cases, a business assessment is made to determine whether the franchisee is operating in accordance with our standards. The visit is also designed to assist franchisees with operational issues.

Purchasing

During training each franchisee is taught how to evaluate, purchase and price used goods. In addition to purchasing used products from customers who bring merchandise to the store, the franchisee is also encouraged to develop sources for purchasing used merchandise in the community. Franchisees typically do not repair or recondition used products, but rather, purchase quality used merchandise that may be put directly on display for resale on an *as is* basis. We have developed specialized computer point-of-sale systems for Once Upon A Child® and Plato's Closet® stores that provide the franchisee with standardized pricing information to assist in the purchasing of used items. Play It Again Sports®, Once Upon A Child® and Music Go Round® also use buying guides and the point-of-sale system to assist franchisees in pricing used items.

We provide centralized buying services including credit and billing for the Play It Again Sports® franchisees. Upon credit approval, Play It Again Sports® franchisees may order through the buying group, in which case, product is shipped directly to the store by the vendor. We are invoiced by the vendor, and in turn, we invoice the franchisee adding a 4% service fee to cover our costs of operating the buying group. Our

Edgar Filing: WINMARK CORP - Form 10-K

Play It Again Sports® franchise system uses several major vendors including Keys Fitness, Horizon Fitness, Nautilus, Easton Sporting Goods, The Hockey Company and Nike Bauer Hockey. The loss of any of the above vendors would change the vendor mix, but not significantly change our products offered.

To provide the franchisees of our Once Upon A Child® and Music Go Round® systems a source of affordable new product, we have developed relationships with our significant vendors and negotiated prices for our franchisees to take advantage of the buying power a franchise system brings.

Our typical Once Upon A Child® franchised store purchases approximately 30% of its new product from Graco, Million Dollar Baby and Dorel Juvenile Group. While we believe that there are several other vendors that could adequately replace the loss of any of these three major vendors, it would alter the selection of product offered.

There are no significant vendors to our typical Plato's Closet® franchised store.

Retail Advertising and Marketing

We encourage our franchisees to implement a marketing program that includes one or more of the following: television, radio, direct mail, point-of-purchase materials, in store signage and local store marketing programs. Through these mediums, we advertise that we buy, sell and trade used and new items. Franchisees of the respective retail brands are required to spend the following minimum percentage of their gross sales on approved advertising and marketing: Play It Again Sports® - 5%, Once Upon A Child® - 5%, Plato's Closet® - 5% and Music Go Round® - 3%. Beginning in March 2008, the percentage for new and renewing Music Go Round® stores will increase to 5%. In addition, Play It Again Sports®, Once Upon A Child®, Plato's Closet® and Music Go Round® are required to pay us an annual marketing fee. Franchisees may be required to participate in regional cooperative advertising groups.

Computerized Point-Of-Sale Systems

We require our retail brand franchisees to use a retail information management computer system in each store, which has evolved with the development of new technology. This computerized point-of-sale system is designed specifically for use in our franchise retail stores. The current system includes our proprietary Data Recycling System software, a dedicated server, two or more work station registers, a receipt printer, a report printer and a bar code scanner, together with software modules for inventory management, cash management and customer information management. We require franchisees to purchase their computer hardware from us. We charge a fee of approximately 4% for handling and configuration of systems sold through us. The Data Recycling System software is designed to accommodate buying and consigning of used merchandise. This system provides franchisees with an important management tool that reduces errors, increases efficiencies and enhances inventory control. We provide both computer software and hardware support for the system through our Computer Support Center located at our Company headquarters.

Winmark Business Solutions

We established Winmark Business Solutions to provide business support services to franchisees and other small businesses. We provide a web site that:

- aggregates the purchasing power of small businesses, including our franchisees, which allows us to more effectively negotiate arrangements for products and services critical to most small businesses;

Edgar Filing: WINMARK CORP - Form 10-K

- provides an easy point of contact between vendors and small businesses;
- provides small business owners information and tools that will help them be successful at every stage of their small business;
- provides equipment leasing options for small businesses; and
- provides advertising and promotional opportunities for small businesses.

We have established preferred provider relationships with high quality vendors that provide small businesses a host of critical services. Included in the array of services available through the web site are accounting, tax and payroll services, copying and printing services, purchase of office supplies, credit card processing, loss prevention, business insurance, computer/POS equipment, and more. A small business becomes a member of Winmark Business Solutions by registration, which is free.

Other Support Services

We assist each new franchisee with retail store site location by providing demographic data and general site selection information. Third party vendors provide design layouts and opening materials including pricing materials, stationary, signage, fixtures, slat wall and carpeting. Additional communication with retail brand franchisees is made through periodic updates, emails, broadcast faxes, extranet and semi-annual or annual conferences which generally include trade shows.

The Retail Franchise Agreement

We enter into franchise agreements with our franchisees. The following is a summary of certain key provisions of our current standard retail brand franchise agreement. Except as noted, the franchise agreements used for each of our retail brands are generally the same. The Franchise Agreement signed by Wirth Business Credit® franchisees is described in the Wirth Business Credit® Franchise System subsection of this Business Section.

Each franchisee must execute our franchise agreement and pay an initial franchise fee. At December 29, 2007, the franchise fee for all brands was \$20,000 for an initial store in the U.S. and \$23,300CAD for an initial store in Canada. Once a franchisee opens its initial store, it can open additional stores, in any brand, by paying a \$15,000 franchise fee for a store in the U.S. and \$17,500CAD for a store in Canada, provided an acceptable territory is available and the franchisee meets the brand's additional store standards. The franchise fees for our initial retail store and additional retail store in Canada is based upon the exchange rate applied to the United States fee on the last business day of the preceding fiscal year. The franchise fee in 2008 for an initial retail store will be \$20,000CAD, and an additional retail store \$15,000CAD. Typically, the franchisee's initial store is open for business within 270 days from the date the franchise agreement is signed. The franchise agreement has an initial term of 10 years, with subsequent 10-year renewal periods, and grants the franchisee an exclusive geographic area, which will vary in size depending upon population, demographics and other factors. A renewal fee equal to \$5,000 is payable to us as part of any franchise renewal. As an incentive, we generally refund the renewal fee if a franchisee modernizes its store to meet our standards. Under current franchise agreements, franchisees of the respective brands are required to pay us weekly continuing fees (royalties) equal to the percentage of gross sales outlined in their Franchise Agreements, generally ranging from 4% to 5% for Play It Again Sports® and Once Upon A Child® and 3% for Music Go Round®. Beginning in March 2008, the royalty rate for new Plato's Closet franchisees will increase from 4% to 5%, and beginning in March 2009 the royalty rate for additional Plato's Closet® stores for all franchisees will increase from 4% to 5%. Also beginning in March 2009, the royalty rate for Play It Again Sports® franchisees opening their second or additional store will increase from 4% to 5%.

Each franchisee is required to pay us an annual marketing fee of \$500 (\$1,000 for each new Plato's Closet® franchisee). Beginning in March 2008, Play It Again Sports®, Once Upon A Child® and Music Go Round® marketing fees for new and renewing stores will increase to \$1,000. Each Play It Again Sports® and Once Upon A Child® franchisee is required to spend 5% of its gross sales for advertising and promoting its franchised store. We have the option to increase the minimum advertising expenditure requirement for these franchises to 6% of the franchisee's gross sales, of which up to 2% would be paid to us as an advertising fee for deposit in an advertising fund. This fund, if initiated, would be managed by us and would be used for advertising and promotion of the franchise system. Beginning in March 2008, new and renewing Music Go Round® franchisees will have the same advertising and promoting requirements as Play It Again Sports® and Once Upon A Child® franchisees. In 2007, Plato's Closet® adopted the advertising and promotional requirements of Play It Again Sports® and Once Upon A Child® for new and renewing franchisees. Existing Music Go Round® franchisees are currently required to spend 3% of their gross sales for advertising and promoting their franchised stores, and Winmark has the option to increase the minimum advertising expenditure requirement for these franchisees to 4% of the franchisee's gross sales, 1 ½% of which would be paid to us as an advertising fee for deposit in an advertising fund. Existing Plato's Closet® franchisees prior to 2007 are required to spend at least 4% of gross sales for approved advertising, and Winmark has the same option to increase minimum advertising expenditures to 6% of the franchisee's gross sales described above.

During the term of a franchise agreement, franchisees agree not to operate directly or indirectly any competitive business. In addition, franchisees agree that after the end of the term or termination of the franchise agreement, franchisees will not operate any competitive business for a period of one year and within a reasonable geographic area. We will pursue enforcement of our noncompetition clause vigorously; however, these noncompetition clauses are not enforceable in certain states or in all circumstances.

Although our franchise agreements contain provisions designed to assure the quality of a franchisee's operations, we have less control over a franchisee's operations than we would if we owned and operated a retail store. Under the franchise agreement, we have a right of first refusal on the sale of any franchised store, but we are not obligated to repurchase any franchise.

Renewal of the Franchise Relationship

At the end of the 10-year term of each franchise agreement, each franchisee has the option to renew the franchise relationship by signing a new 10-year franchise agreement. If a franchisee chooses not to sign a new franchise agreement, a franchisee must comply with all post termination obligations including the franchisee's noncompetition clause discussed above. This noncompetition clause may not be enforceable in certain states or in all circumstances. We may choose not to renew the franchise relationship only when permitted by the franchise agreement and applicable state law.

In 2007, 20 Play It Again Sports® franchise agreements expired. Of those franchise relationships, 20 were renewed with the signing of a new 10-year franchise agreement. In 2008, 2009 and 2010, 9, 15 and 29 Play It Again Sports® franchise agreements will expire, respectively.

In 2007, 13 Once Upon A Child® franchise agreements expired. Of those franchise relationships, 13 were renewed with the signing of a new 10-year franchise agreement. In 2008, 2009 and 2010, 8, 24 and 22 Once Upon A Child® franchise agreements will expire, respectively.

In 2007, 7 Music Go Round® franchise agreements expired. Of those franchise agreements, 7 were renewed with the signing of a new 10-year franchise agreement. In 2008, 2009 and 2010, 4, 4, and 1 Music Go Round® franchise agreements will expire, respectively.

None of our Plato's Closet® franchise agreements will expire in 2008. In 2009 and 2010, 11 and 22 Plato's Closet® franchise agreements will expire, respectively.

None of our Wirth Business Credit® franchise agreements will expire in 2008, 2009 or 2010.

We believe that renewing a significant number of these franchise relationships is important to the success of the Company.

Retail Franchising Competition

Retailing, including the sale of sporting goods, children's and teenage apparel, and musical instruments, is highly competitive. Many retailers have substantially greater financial and other resources than we do. Our franchisees compete with established, locally owned retail stores, discount chains and traditional retail stores for sales of new merchandise. Full line retailers generally carry little or no used merchandise. Resale, thrift and consignment shops and garage and rummage sales offer some competition to our franchisees for the sale of used merchandise. Also, our franchisees increasingly compete with online used and new goods retailers such as eBay, Harmony Central and many others. We are aware of, and compete with, one franchisor of stores which sells new and used sporting equipment, two franchisors of stores which sell used and new children's clothing, toys and accessories and one franchisor of teen apparel stores.

Our Play It Again Sports® franchisees compete with large retailers such as Dick's Sporting Goods, The Sports Authority® as well as regional and local sporting goods stores. We also compete with Target® and Wal-Mart®.

Our Once Upon A Child® franchisees compete primarily with large retailers such as Babies R Us®, Wal-Mart®, Target® Stores and various specialty children's retail stores such as Gap® Kids. We compete with one other franchisor in the specialty children's retail market.

Our Plato's Closet® franchise stores primarily compete with specialty apparel stores such as Gap®, Abercrombie & Fitch®, Old Navy®, Banana Republic® and The Limited®. We compete with one other franchisor in the teenage clothing retail market.

Our Music Go Round® franchise stores compete with large musical instrument retailers such as Guitar Center® and Sam Ash Music®. We do not believe we compete with any other franchisor directly in the used and new musical instrument market.

Our retail franchises may face additional competition in the future. This could include additional competitors that may enter the used merchandise market. We believe that our franchisees will continue to be able to compete with other retailers based on the strength of our value-oriented brands and the name recognition associated with our service marks.

Edgar Filing: WINMARK CORP - Form 10-K

We also face competition in connection with the sale of franchises. Our prospective franchisees frequently evaluate other franchise opportunities before purchasing a franchise from us. We compete with other franchise companies for franchisees based on the following factors, among others: amount of initial investment, franchise fee, royalty rate, profitability, franchisor services and industry. We believe that our franchise brands are competitive with other franchises based on the fees we charge, our franchise support services and the performance of our existing franchise brands.

Wirth Business Credit® Franchise System

We franchise the right to operate a small business equipment leasing and finance business under the brand Wirth Business Credit®. Franchisees in the Wirth Business Credit® franchise system market and sell small business equipment leasing and financing services offered by us.

Attracting Franchisees

Our franchise marketing program for Wirth Business Credit® seeks to attract prospective franchisees with a desire to operate their own sales and marketing business who:

- have a sufficient net worth;
- have prior sales or small business experience; and
- intend to be integrally involved in the operation of the franchise.

Franchise Support

As a franchisor of Wirth Business Credit®, our lease originations volume depends heavily on our ability to support competitive and successful Wirth Business Credit® franchisees. We emphasize the following areas of franchise support and assistance in our Wirth Business Credit® franchise system:

- Training;
- Marketing; and
- Ongoing Support.

Training

Each franchisee, along with any hired salespersons, must attend our training program prior to commencing operations. Soon after signing the franchise agreement, a Wirth Business Credit® franchisee is required to participate in our training program. We begin with pre-training. At pre-training, we cover, among other topics, sales basics, owning your own business and valuation. Our franchisees next come to our headquarters for a week-long training session. This week-long training session covers the basics of leasing, market orientation, lead generation, selling to vendors, owning your own business, business planning, credit basics, marketing, computer and software training and the nature of our franchise relationship.

After the initial week of training, we continue to support our Wirth Business Credit® franchisees. We provide sales support to our franchisees through our territory managers in Minneapolis. Franchisees have the ability to regularly interact with our territory managers. Our territory managers provide the opportunity to each franchisee to work together on monthly sales planning and analysis. In addition, we deliver new tools and programs to our franchisees periodically.

We have an annual conference for our franchise system. At the conference, our franchisees have the opportunity to learn from each other and from us new information about how to operate more effectively.

Marketing

We encourage our franchisees to implement a marketing program that includes one or more of the following: direct mail, direct email, advertising in approved industry and business publications, joining networking groups and telemarketing. Franchisees are required to spend 4% of their compensation on developing new customers in their local Market Area. In addition, franchisees are required to pay us an annual marketing fee of \$500. Franchisees may be required to participate in regional cooperative advertising groups.

Ongoing Support

In addition to receiving support from their territory manager, operations managers support franchisees by expediting the lease transaction process. An operations manager ensures credit applications are complete, interfaces with the credit department, manages vendor relations and documents transactions a Wirth Business Credit® franchisee submits. We also provide any changes to the franchise system to our franchisees as they are available. We provide all updates to our Operations Manual to franchisees. We continue to develop marketing materials to assist franchisees in the generation of financing transactions.

Computer and Software

We require our franchisees to use our Tri-Link Lease Management computer system. This computer system allows our franchisees to submit and track leasing transactions. It also allows us to manage the lease transaction process.

The Franchise Agreement

We enter into 10-year franchise agreements with our franchisees. The following is a summary of certain key provisions of our current standard franchise agreement.

Each franchisee must execute our franchise agreement and pay an initial franchise fee. The Initial Franchise Fee for our standard market area is \$35,000. However, beginning in March 2008, we have amended our Pioneer Program, which offers a reduced initial franchise fee to prospective franchisees for their first territory and second territory. The Pioneer Program reduces the initial franchise fee to \$22,500 for the first territory. In addition, \$10,000 of the \$22,500 fee is eligible for reimbursement from us if a franchisee spends amounts on qualified marketing expenditures within 12 months of signing the Franchise Agreement. For their second territory, the Initial Franchise Fee is \$10,000, \$5,000 of which is eligible for reimbursement from us if the franchisee spends amounts on qualified marketing expenditures with 12 months of signing the Franchise Agreement. Wirth may, at its discretion, award more than two territories at one time using the Pioneer Program.

Our franchisees pay no continuing fees in the form of royalty payments like the retail brand franchisees. Instead, a Wirth Business Credit® franchisee's compensation primarily depends on the profit a franchisee adds to a transaction. Franchisees are paid monthly.

Our franchisees can only fund their transactions through us. During the term of a franchise agreement, franchisees agree not to operate any competitive business directly or indirectly. In addition, franchisees agree that after the end of the term or termination of the franchise agreement, franchisees will not operate any competitive business for 18 months within a reasonable geographic area. We will pursue enforcement of our non-competition clause vigorously; however, these non-competition clauses are not enforceable in certain states or all circumstances.

At the end of the term of each 10-year term of each Wirth Business Credit® franchise agreement, each franchisee has the option to renew the franchise relationship by signing a new 10-year franchise agreement. If a franchisee chooses not to sign a new franchise agreement, a franchisee must comply with all post termination obligations including the franchisee's non-competition clause. None of our Wirth Business Credit® franchise agreements will expire in 2008, 2009 or 2010.

The small-ticket leasing industry is very competitive. Our franchisees compete directly with multiple financial institutions, many of which have greater financial resources than us. We compete with various other franchise opportunities for franchisees. We are not aware of any other companies offering similar franchising opportunities in the small-ticket financing industry.

Equipment Leasing Operations

We are engaged in the business of providing non-cancelable leases for high-technology and business-essential assets to both larger organizations and smaller, growing companies. We started our equipment leasing operations in April of 2004, and we are currently in the early stages of this portion of our business.

We operate our middle-market leasing operation through Winmark Capital Corporation, a wholly owned subsidiary. We operate our small-ticket financing operation through Wirth Business Credit, Inc., a wholly owned subsidiary (formerly known as Winmark Business Solutions, Inc.). We incorporated both of the corporations on April 2, 2004. To differentiate ourselves from our competitors in the leasing industry, we offer innovative lease and financing products and concentrate on building long-term, relationship-based associations with our customers and business alliances.

Winmark Capital Corporation

Winmark Capital Corporation focuses on middle-market transactions that generally have terms from two to five years and are with large organizations. We target businesses with annual revenue of \$25,000,000 or more. Such transactions are generally larger than \$250,000 and include high-technology equipment and/or business essential equipment, including computers, telecommunications equipment, point-of-sale systems and other business-essential equipment. The leases are retained in our portfolio to accommodate equipment additions and upgrades to meet customers' changing needs.

Industry

The high-technology equipment industry has been characterized by rapid and continuous advancements permitting broadened user applications and reductions in processing costs. The introduction of new equipment generally does not cause existing equipment to become obsolete but usually does cause the market value of existing equipment to decrease to reflect the improved performance per dollar cost of the new equipment. Users frequently replace equipment as their existing equipment becomes inappropriate for their needs or as increased data processing capacity is required, creating a secondary market in used equipment.

Edgar Filing: WINMARK CORP - Form 10-K

Generally, high-technology equipment, such as data processing equipment, does not suffer from material physical deterioration if properly maintained. Our leased equipment is kept under continual maintenance, in accordance with the manufacturer's specifications, most often provided by the manufacturer. The economic life and residual value of data processing equipment is subject to, among other things, the development of technological improvements and changes in sale and maintenance terms initiated by the manufacturer.

Business Strategy

Our business strategy allows us to differentiate ourselves from our competitors in the leasing industry. Key elements of this strategy include:

- **Relationship Focus.** We maintain a focused, long-term, customer-service approach to our business.
- **Full Service.** We can service the equipment leasing needs of large organizations through our middle-market operations and small organizations through our small-ticket operations. Our enterprise-wide capabilities allow us to service the needs of a large company and its many small business affiliates.
- **Asset Ownership.** We typically retain ownership of our leases and the underlying equipment.

Leasing and Sales Activities

Our middle-market lease products are marketed nationally through our principal office in Golden Valley, Minnesota and our satellite offices in Boulder, Colorado and Santa Barbara, California.

We market our leasing services directly to end-users and indirectly through business alliances, and through vendors of equipment, software, value-added services and consulting services. Our sales representatives attend trade shows and directly market to customers and prospects by telephone canvassing. We may also advertise in magazines or other periodicals in targeted industries.

We generally lease high-technology and other business-essential equipment for terms ranging from two to five years. Our standard lease agreements, entered into with each customer, are noncancelable net leases which contain hell-or-high water provisions under which the customer, upon acceptance of the equipment, must make all lease payments regardless of any defects or performance of the equipment, and which require the customer to maintain and service the equipment, insure the equipment against casualty loss and pay all property, sales and other taxes related to the equipment. We typically retain ownership of the equipment we lease and, in the event of default by the customer, we or the financial institution to whom the lease payment has been assigned may declare the customer in default, accelerate all lease payments due under the lease and pursue other available remedies, including repossession of the equipment. Upon expiration of the initial term or extended lease term, depending on the structure of the lease, the customer may:

- return the equipment to us;
- renew the lease for an additional term; or

- purchase the equipment.

If the equipment is returned to us, it will be either re-leased to another customer or sold into the secondary-user marketplace.

Additionally, we may lease operating system and application software to our customers, but typically only with a hardware lease.

Wirth Business Credit, Inc.

Our small-ticket financing operation serves the needs of small businesses. Small-ticket financing transactions are typically between \$5,000 and \$250,000, have terms of between two and five years and cover business essential assets, including computers, printing equipment, security systems, telecommunications equipment, car wash equipment, production equipment and other assets. Small-ticket financing products are marketed under the trade name Wirth Business Credit® through our network of Wirth Business Credit® franchisees or directly through our employed sales representatives.

Industry

The small ticket finance industry is highly fragmented and competitive. Small business owners typically finance their businesses through one of many possible sources including banks, vendor captive finance companies, leasing brokers, credit card companies and independent leasing companies. These sources of funding typically limit their focus to certain types of transactions and may base their decision on credit quality, geography, size of transaction, type of asset or other criteria. The small-ticket finance industry is very competitive, however, small business owners do not generally receive the same level of customer service as larger businesses do. Small business owners desire products that are convenient, easy to understand, competitive and come from a trusted source.

Business Strategy

Key elements of our small-ticket business strategy include:

- **Local Presence.** Through a network of franchisees, Wirth Business Credit® maintains a local presence in its markets.
- **Relationship Focus.** We maintain a focused, long-term, customer-service approach to our business. In our small-ticket segment, we establish relationships with companies that control or have influence over multiple smaller businesses such as franchisors, equipment vendors and associations.
- **Customer Service.** We understand that small business owners desire a convenient, flexible financing solution. We provide fast credit decisions, flexible terms and an easy to understand process.

Leasing and Sales Activities

Edgar Filing: WINMARK CORP - Form 10-K

We originate financing transactions through our Wirth Business Credit® franchisees and territory managers employed by Wirth Business Credit, Inc. We focus our sales efforts on establishing relationships with organizations with influence over many small businesses such as vendors, franchisors and trade associations.

As described above, we franchise the right to operate small businesses under the name Wirth Business Credit®. Our franchisees in our Wirth Business Credit® franchise system are dedicated to originating equipment lease and financing transactions. Our franchisees build business relationships at the local level and also have the support and infrastructure of a national leasing company.

We generally finance business-essential assets for terms ranging from two to five years. Our financing transactions are generally full pay out transactions, which means, after paying all required payments under the financing agreement, the customer owns the asset.

Financing

Our ability to arrange financing is important to our middle-market leasing and our small-ticket financing businesses.

Winmark Capital Corporation will from time to time arrange permanent financing of leases through non-recourse discounting of lease rentals with various financial institutions at fixed interest rates. The proceeds from the assignment of the lease rentals will be generally equal to the present value of the remaining lease payments due under the lease, discounted at the interest rate charged by the financial institution. Interest rates obtained under this type of financing will be negotiated on a transaction-by-transaction basis and reflect the financial strength of the customer, the term of the lease and the prevailing interest rates. For leases discounted on a non-recourse basis, the financial institution will have no recourse against us unless we are in default of the terms of the agreement under which the lease and the leased equipment will be assigned to the institution as collateral. The institution may, however, take title to the collateral in the event the customer fails to make lease payments or certain other defaults by the customer occur under the terms of the lease.

To date, we have funded the vast majority of our leases internally using our available cash or bank debt. Leases are funded internally for a variety of reasons, including:

- we may have a sufficient amount of cash on hand;
- lease amounts are too small to be attractive to financial institutions;
- the credit strength of the customer is acceptable only for recourse funding; or
- when we intend to discount a lease but the discounting process has not been completed.

We will rely on recourse bank facilities to fund both our middle-market and small-ticket portfolios. We currently have a \$25 million line of credit with LaSalle Bank, N.A. with the ability to increase the line of credit to \$50 million if certain conditions are met. We may also use the proceeds from our offering of \$50 million in principal of unsecured subordinated debt of varying interest rates and maturity dates filed on Form S-1 to fund both our middle-market and small-ticket portfolios. As of December 29, 2007, we have \$21.0 million outstanding in unsecured subordinated notes.

Equipment Leasing Competition

Edgar Filing: WINMARK CORP - Form 10-K

We compete with a variety of equipment financing sources that are available to businesses, including: national, regional and local finance companies that provide lease and loan products; financing through captive finance and leasing companies affiliated with major equipment manufacturers; credit card companies; and commercial banks, savings and loans, and credit unions. Many of these companies are substantially larger than we are and have considerably greater financial, technical and marketing resources than we do.

Some of our competitors have a lower cost of funds and access to funding sources that are not available to us. A lower cost of funds could enable a competitor to offer leases with yields that are much less than the yields that we use to price our leases, which might force us to lower our yields or lose lease origination volume. In addition, certain of our competitors may have higher risk tolerances or different risk assessments, which could enable them to establish more origination sources and end user customer relationships and increase their market share. We have and will continue to encounter significant competition.

Government Regulation

Fourteen states, the Federal Trade Commission and three Canadian Provinces impose pre-sale franchise registration and/or disclosure requirements on franchisors. In addition, a number of states have statutes which regulate substantive aspects of the franchisor-franchisee relationship such as termination, nonrenewal, transfer, discrimination among franchisees and competition with franchisees.

Additional legislation, both at the federal and state levels, could expand pre-sale disclosure requirements, further regulate substantive aspects of the franchise relationship and require us to file our Franchise Disclosure Documents with additional states. We cannot predict the effect of future franchise legislation, but do not believe there is any imminent legislation currently under consideration which would have a material adverse impact on our operations.

Although most states do not directly regulate the commercial equipment lease financing business, certain states require licensing of lenders and finance companies, and impose limitations on interest rates and other charges, and a disclosure of certain contract terms and constrain collection practices. We believe that we are currently in compliance with all material statutes and regulations that are applicable to our business.

Trademarks and Service Marks

Play It Again Sports®, Once Upon A Child®, Plato's Closet®, Music Go Round®, Winmark®, Winmark Business Solutions®, Wirth Business Credit®, Winmark Capital® and LeaseManager®, among others, are our registered service marks. These marks are of considerable value to our business. We intend to protect our service marks by appropriate legal action where and when necessary. Each service mark registration must be renewed every 10 years. We have taken, and intend to continue to take all steps necessary to renew the registration of all our material service marks.

Seasonality

Our Play It Again Sports® and Music Go Round® franchise brands have experienced higher than average sales volumes during the holiday shopping season. Our Once Upon A Child® and Plato's Closet® franchise brands have experienced higher than average sales volumes during the spring months and, along with our Music Go Round® brand, also during the back to school season. Overall, the different seasonal trends of our brands partially offset each other and do not result in significant seasonality trends on a Company-wide basis. Our equipment leasing business is not seasonal; however, quarter to quarter results may vary significantly.

Employees

As of December 29, 2007, we employed 102 full-time and three part-time employees, of which 12 were salespersons, 59 were support personnel and 34 were administrative.

ITEM 1A: RISK FACTORS

We are dependent on franchise renewals.

Each of our franchise agreements is 10 years long. At the end of the term of each franchise agreement, each franchisee has the option to renew the franchise relationship by signing a new 10-year franchise agreement. In 2007, of the 20 franchisees that had their Play It Again Sports® franchise agreement expire, 20 signed new 10-year franchise agreements. In 2008, 2009 and 2010, 9, 15 and 29 Play It Again Sports® franchise agreements will expire, respectively. In 2007, of the 13 franchisees that had their Once Upon A Child® franchise agreement expire, 13 signed new 10-year franchise agreements. In 2008, 2009 and 2010, 8, 24 and 22 Once Upon A Child® franchise agreements will expire, respectively. In 2007, of the 7 franchisees that had Music Go Round® franchise agreement expire, 7 signed new 10-year franchise agreements. In 2008, 2009 and 2010, 4, 4 and 1 Music Go Round® franchise agreements will expire, respectively. In 2007, none of our Plato's Closet® franchise agreements expired. None of our Plato's Closet® franchise agreements will expire in 2008 and 11 and 22 Plato's Closet® franchise agreements will expire in 2009 and 2010, respectively. We believe that renewing a significant number of these franchise relationships is extremely important to our continued success. If a significant number of franchise relationships are not renewed our financial performance would be materially and adversely affected.

We have suffered declines in the number of Play It Again Sports® franchises.

The number of our Play It Again Sports® franchises has continued to decline. In 1999, Play It Again Sports® closed 58 stores and opened 12 stores, a net loss of 46 stores. In 2000, Play It Again Sports® closed 64 stores and opened 15 stores, a net loss of 49 stores. In 2001, Play It Again Sports® closed 59 stores and opened 10 stores, a net loss of 49 stores. In 2002, Play It Again Sports® closed 35 stores and opened 7 stores, a net loss of 28 stores. In 2003, Play It Again Sports® closed 37 stores and opened 10 stores, a net loss of 27 stores. In 2004, Play It Again Sports® closed 27 stores and opened 12 stores, a net loss of 15 stores. In 2005, Play It Again Sports® closed 26 stores and opened 10 stores, a net loss of 16 stores. In 2006, Play It Again Sports® closed 22 stores and opened 14 stores, a net loss of 8 stores. In 2007, Play It Again Sports® closed 28 stores and opened 14 stores for a net loss of 14 stores. It is extremely important to our future success that the net loss of Play It Again Sports® stores be slowed and ultimately reversed. We believe that a certain number of stores will close each year. Our objective is to minimize store closings by continuing our investment in franchisee support services such as franchisee training, Winmark Business Solutions and the Winmark computer support center, by investing capital to improve Winmark's proprietary point-of-sale software system and continuing to train our field operations personnel to better serve franchisee needs. There can be no assurance that we will be successful in reducing or reversing the decline in Play It Again Sports® franchises. If we are not successful, it would have a material adverse effect on our financial condition and results of operation.

We are dependent on new franchisees.

Our ability to generate increased revenue and achieve higher levels of profitability depends in part on increasing the number of franchises open. We believe that many larger and smaller markets will continue to provide significant opportunities for sales of franchises and that we can sustain approximately our current annual level of openings. However, there can be no assurance that we will sustain this level of franchise openings.

We are dependent upon our chief executive officer.

Edgar Filing: WINMARK CORP - Form 10-K

Our success depends greatly on the efforts and abilities of our key executive John L. Morgan, our chairman of the board and chief executive officer. The loss of the services of Mr. Morgan could materially harm our business. Such a loss would also divert management attention away from operational issues.

We may sell franchises for a territory, but the franchisee may not open.

We believe that a substantial majority of franchises sold but not opened will open within the time period permitted by the applicable franchise agreement or we will be able to resell the territories for most of the terminated or expired franchises. However, there can be no assurance that substantially all of the currently sold but unopened franchises will open and commence paying royalties to us. At December 29, 2007, we had 53 franchise agreements expected to open in 2008.

We are dependent on supply of used merchandise.

Our retail brands are based on offering customers a mix of used and new merchandise. As a result, obtaining continuing supplies of high quality used merchandise is important to the success of our brands. Supply of used merchandise comes from the general public and is not regular or highly reliable. There can be no assurance that we will avoid supply problems with respect to used merchandise.

We may be unable to collect accounts receivable from franchisees.

In the event that our ability to collect accounts receivable significantly declines from current rates, we may incur additional charges that would affect earnings. If we are unable to collect payments due from our franchisees, it would materially adversely affect our results of operation and financial condition.

We operate in extremely competitive industries.

Retailing, including the sale of sporting goods, childrens and teenage apparel and musical instruments, is highly competitive. Many retailers have significantly greater financial and other resources than us and our franchisees. Individual franchisees face competition in their markets from retailers of new merchandise and, in certain instances, resale, thrift and other stores that sell used merchandise. To date, our franchisees have not faced a high degree of competition in the sale of used merchandise, but do so in connection with the sale of new merchandise. However, we may face additional competition as our franchise systems expand and if additional competitors enter the used merchandise market.

Our equipment leasing businesses compete with a variety of equipment financing sources that are available to businesses, including: national, regional, and local finance companies that provide leases and loan products; financing through captive finance and leasing companies affiliated with major equipment manufacturers; and commercial banks, savings and loans, credit unions and credit cards. Many of these companies are substantially larger than we are and have considerably greater financial, technical and marketing resources than we do. There can be no assurances that we will be able to successfully compete with these larger competitors.

We are in the early stages of our equipment leasing operations and there can be no assurance that we will be successful.

Edgar Filing: WINMARK CORP - Form 10-K

We began our equipment leasing operations in April of 2004. We began franchising Wirth Business Credit® in 2006. As a result, there can be no assurance that any of our planned future leasing activities will be successful. An inability to successfully launch and operate our equipment leasing business will have a material negative affect on our financial results.

We are subject to credit risk from nonpayment or slow payments in our lease portfolio.

In our leasing business, if we inaccurately assess the creditworthiness of our customers, we may experience a higher number of lease defaults than expected, which would reduce our earnings. For our smaller customers, there is typically only limited publicly available financial and other information about their businesses and they often do not have audited financial statements. Accordingly, in making credit decisions, we rely upon the accuracy of information from the small business owner and/or third party sources, such as credit reporting agencies. If the information we obtain from small business owners and/or third party sources is incorrect, our ability to make appropriate credit decisions will be impaired.

If losses from leases exceed our allowance for credit losses, our operating income will be reduced. In connection with our leases, we record an allowance for credit losses to provide for estimated losses. Determining the appropriate level of the allowance is an inherently uncertain process and therefore our determination of this allowance may prove to be inadequate to cover losses in connection with our portfolio of leases. Losses in excess of our allowance for credit losses would cause us to increase our provision for credit losses, reducing or eliminating our operating income.

Deteriorated economic or business conditions may negatively impact our leasing business.

In an economic slowdown or recession, our equipment leasing businesses may face an increase in delinquent payments, lease defaults and credit losses. The volume of leasing business for our new and existing customers may decline, as well as the credit quality of our customers. Because we extend credit primarily to small businesses through our subsidiary Wirth Business Credit, Inc., and to many emerging companies through our subsidiary Winmark Capital Corporation, our customers may be particularly susceptible to economic slowdowns or recessions. Any protracted economic slowdowns or recessions may make it difficult for us to maintain the volume of lease originations for new and existing customers, and may deteriorate the credit quality of new leases. Any of these events may slow the growth of our leasing portfolio and impact the profitability of our leasing operations.

We must control our selling, general and administrative expense to be successful.

Our ability to control the amount, and rate of growth in, selling, general and administrative expenses and the impact of unusual items resulting from our ongoing evaluation of our business strategies, asset valuations and organizational structures is important to our financial success. We expect to incur significant additional expenses in connection with the expansion of Wirth Business Credit, Inc. and Winmark Capital Corporation. In the near term, our leasing income will not exceed our expenses. We cannot assure any investor that we will be able to control such items of expense.

We have made minority investments outside of our franchise and leasing businesses and have suffered losses in these investments.

We currently have investments in two private companies.

Edgar Filing: WINMARK CORP - Form 10-K

We have purchased 18.3% of the common stock of Tomsten, Inc., a privately held corporation (d/b/a Archiver's). Archiver's is a retail concept created to help people preserve and enjoy their photographs. Archiver's stores feature a wide variety of photo-safe products, including photo albums, scrapbooks and scrapbook supplies, frames, rubber stamps, and photo storage and organization products.

Since the inception of our investment in 2002, Archiver's has lost over \$11.0 million in pre-tax income. Our pro rata share of Archiver's losses has equaled \$2.0 million. As of December 29, 2007, the carrying value of our \$7.5 million investment equaled \$5.5 million. If Archiver's continues to sustain losses, it may need to seek external financing in the form of equity and/or debt. Archiver's continued losses, inability to find capital, or ability to find capital on unattractive terms may result in an impairment to the carrying value of our investment and a reduction in our book value.

On October 13, 2004, we made a commitment to lend \$2 million to BridgeFunds Limited at an annual rate of 12% pursuant to several senior subordinated promissory notes. Each note has a maturity of five years. BridgeFunds advances funds to claimants involved in civil litigation to cover litigation expenses. We have funded our \$2 million commitment. In addition, we own a warrant to purchase 8.8% of the equity of BridgeFunds on a fully diluted basis. On August 23, 2007, in connection with raising capital, BridgeFunds Limited completed a restructuring where all assets and liabilities, including the warrant, were assigned to and assumed by BridgeFunds, LLC (BridgeFunds). BridgeFunds' success depends upon its ability to continue to raise capital. There can be no assurance that BridgeFunds will be able to raise capital to fund its operations.

Each of our minority investments is either in a relatively new or unproven business. Any of these businesses may not succeed and ultimately be forced to cease operations. Also, there is not a market for the equity of Tomsten, Inc. or BridgeFunds, and as a result our shares of stock in Tomsten and our BridgeFunds warrant may be of no value. Our ability to receive our investment back and realize a cash return on our investment in these companies will depend on the development of a market for such companies' equity or the sale of such companies. In addition, BridgeFunds may not have the ability to pay interest on amounts owed to us or to repay principal amounts owed to us.

The loss of our entire investment in any one or all of our minority investments would have a material negative impact on our financial results.

We are subject to government regulation.

As a franchisor, we are subject to various federal and state franchise laws and regulations. Fourteen states, the Federal Trade Commission and three Canadian Provinces impose pre-sale franchise registration and/or disclosure requirements on franchisors. In addition, a number of states have statutes which regulate substantive aspects of the franchisor-franchisee relationship such as termination, nonrenewal, transfer, discrimination among franchisees and competition with franchisees.

Additional legislation, both at the federal and state levels, could expand pre-sale disclosure requirements, further regulate substantive aspects of the franchise relationship and require us to file our franchise offering circulars with additional states. Future franchise legislation could impose costs or other burdens on us that could have a material adverse impact on our operations.

Although most states do not directly regulate the commercial equipment lease financing business, certain states require licensing of lenders and finance companies, and impose limitations on interest rates and other charges, and a disclosure of certain contract terms and constrain collection practices. Laws or regulations may be adopted with respect to our equipment leases or the equipment leasing industry, and collection processes. Any new legislation or regulation, or changes in the interpretation of existing laws, which affect the equipment leasing industry could increase our costs of compliance.

ITEM 1B: UNRESOLVED STAFF COMMENTS

None.

ITEM 2: PROPERTIES

We lease 34,184 square feet at our headquarters facility in Golden Valley, Minnesota. Our base rent is \$218,980 per year. We have an option at anytime during the remaining term of the lease to rent the entire remaining balance of the building. We are obligated to pay the common area maintenance and other additional rent relating to the entire 34,184 square feet. In 2007, we paid an annual base rent of \$218,980 plus common area maintenance charges of approximately \$295,100. The lease, as amended, expires in August 2009. Our facilities are sufficient to meet our current needs and our immediate future needs.

ITEM 3: LEGAL PROCEEDINGS

We are not a party to any material litigation and are not aware of any threatened litigation that would have a material adverse effect on our business.

ITEM 4: SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

No matters were submitted to a vote of security holders during the fourth quarter of fiscal year 2007.

PART II

ITEM 5: MARKET FOR THE REGISTRANT'S COMMON EQUITY, RELATED SHAREHOLDER MATTERS, AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information, Holders, Dividends

Effective December 2, 2003, the trading of our common stock moved from the Nasdaq SmallCap Market, now known as the Nasdaq Capital Market, to the Nasdaq National Market, now known as the Nasdaq Global Market, under the symbol WINA. The table below sets forth the high and low bid prices of our common stock as reported by Nasdaq for the periods indicated:

FY 2007:	First	Second	Third	Fourth	FY 2006:	First	Second	Third	Fourth
High	19.90	19.70	21.30	23.11	High	24.09	27.48	27.13	24.27
Low	16.00	16.24	16.24	19.00	Low	20.00	21.30	21.46	18.09

The above quotations reflect inter-dealer prices, without retail mark-up, mark-down or commission, and may not necessarily represent actual transactions. At March 12, 2008, there were 5,543,823 shares of common stock outstanding held by approximately 122 shareholders of record. We have not paid any cash dividends on our common stock and do not anticipate paying cash dividends in the foreseeable future.

Purchases of Equity Securities by the Issuer and Affiliated Purchasers

	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of a Publicly Announced Plan(1)	Maximum Number of Shares that may yet be Purchased Under the Plan

Edgar Filing: WINMARK CORP - Form 10-K

The Board of Directors' authorization for the repurchase of shares of the Company's common stock was originally approved in 1995 with no expiration date. The total shares approved for repurchase has been increased by additional Board of Directors' approvals and is currently limited to 4,000,000 shares, of which 184,754 may still be repurchased.

ITEM 6: SELECTED FINANCIAL DATA

The following table sets forth selected financial information for the periods indicated. The information should be read in conjunction with the consolidated financial statements and related notes discussed in Item 8 and 15, and Management's Discussion and Analysis of Financial Condition and Results of Operations discussed in Item 7.

	Fiscal Year Ended				
	(in thousands except per share data)				
	December 29, 2007	December 30, 2006(3)	December 31, 2005(1)(3)	December 25, 2004(3)	December 27, 2003(3)

- (1) Included in gain (loss) from equity investments is a \$937,600 impairment charge for the write off of the Company's investment in eFrame, LLC in 2005.
- (2) Included in gain (loss) from equity investment are charges of \$359,600, \$133,400, \$249,600, \$810,200 and \$390,100 for the years 2007, 2006, 2005, 2004 and 2003, respectively, due to the Company's investment in Tomsten, Inc.
- (3) In accordance with GAAP, prior periods are presented assuming the Company had used the equity method of accounting since the inception of the Company's investment. (See Note 3).

**ITEM 7:
OF OPERATION****MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS****Overview**

As of December 29, 2007, we had 892 franchises operating under the following brands: Play it Again Sports®, Once Upon a Child®, Plato's Closet®, Music Go Round® and Wirth Business Credit®. Management tracks closely the following criteria to evaluate current business operations and future prospects: royalties, franchise fees, leasing activity, selling, general and administrative expenses, franchise openings and closings and franchise renewals.

Our most profitable sources of franchising revenue are royalties earned from our franchise partners and franchise fees for new openings and transfers.

During 2007, our royalties increased \$1,234,700 or 6.4% compared to 2006. Franchise fees increased \$478,400 or 38.4% compared to last year and primarily reflect consistent new openings in established brands and the addition of the new Wirth Business Credit® franchise system. During 2007, revenue generated from the Company's leasing activities was \$4,416,200 compared to \$1,852,700 in the same period last year. (See Note 13 Segment Reporting.) The Company's leasing portfolio was \$41.9 million at December 29, 2007. (Net investment in leases current plus net investment in leases long-term.)

Management monitors several nonfinancial factors in evaluating the current business operations and future prospects including franchise openings and closings and franchise renewals. The following is a summary of our franchising activity for the fiscal year ended December 29, 2007:

	TOTAL 12/30/06	OPENED	CLOSED	TOTAL 12/29/07	AVAILABLE FOR RENEWAL	COMPLETED RENEWALS	% RENEWED
<u>Play It Again Sports®</u>							
Franchises - US and Canada	388	14	(28)	374	20	20	100%
<u>Once Upon A Child®</u>							
Franchises - US and Canada	214	15	(1)	228	13	13	100%
<u>Plato's Closet®</u>							
Franchises - US and Canada	181	32	(2)	211			N/A
<u>Music Go Round®</u>							
Franchises - US	41	1	(4)	38	7	7	100%

Total Franchises/Territories	844	83	(35)	892	40	40	100%

Edgar Filing: WINMARK CORP - Form 10-K

Renewal activity is a key focus area for management. Our franchisees sign 10-year agreements with us. The renewal of existing franchise agreements as they approach their expiration is an indicator that management monitors to determine the health of our business and the preservation of future royalties. In 2007, the Company renewed 100% of franchise agreements up for renewal. This percentage of renewal has ranged between 93% and 100% during the last three years.

Edgar Filing: WINMARK CORP - Form 10-K

Management continually monitors the level and timing of selling, general and administrative expenses. The major components of selling, general and administrative expenses include salaries, wages and benefits, advertising, travel, occupancy, legal and professional fees. During 2007, selling, general and administrative expense increased primarily due to salaries, outside services, development advertising and amortization of initial direct costs and are as follows:

	2007	2006
Selling, general and administrative expenses	\$ 19,267,400	\$ 17,157,900

Our ability to grow our profits is dependent on our ability to: (i) effectively support our franchise partners so that they produce higher revenues, (ii) open new franchises, (iii) increase lease originations and minimize write-offs in our leasing portfolios, and (iv) control our selling, general and administrative expenses. A detailed description of the risks to our business along with other risk factors can be found in Item 1A Risk Factors .

Results of Operations

The following table sets forth selected information from the Company's Consolidated Statements of Operations expressed as a percentage of total revenue and the percentage change in the dollar amounts from the prior period:

	Fiscal Year Ended December 29, 2007	December 30, 2006	Fiscal 2007 over (under) 2006
Revenue:			
Royalties	65.6%	70.2%	6.4%

Net income	(6.7)	(8.3)	(7.7)
	9.8%	12.2%	(8.8)%

Revenue

Royalties and Franchise Fees

Revenues for the year ended December 29, 2007 totaled \$31.2 million compared to \$27.4 million for the comparable period in 2006.

Royalties increased to \$20.4 million for 2007 from \$19.2 million for the same period in 2006, a 6.4% increase. The increase was due to higher Plato's Closet® and Once Upon A Child® royalties of \$1,039,600 and \$349,100, respectively. The increase in Plato's Closet® and Once Upon A Child® royalties is primarily due to having 30 additional Plato's Closet® and 14 additional Once Upon A Child® franchise stores in 2007 compared to the same period last year and higher franchisee retail sales in both brands.

Franchise fees include initial franchise fees from the sale of new franchises and transfer fees related to the transfer of existing franchises. Franchise fee revenue is recognized when the franchise opens or when the franchise agreement is assigned to a buyer of a franchise. Franchisees of the retail brands are required to pay an initial franchise fee of \$20,000 for each initial franchise (\$23,300CAD in Canada) and \$15,000 for each additional franchise (\$17,500CAD in Canada). The franchise fees for Wirth Business Credit® are \$35,000, but are reduced by the Pioneer Program as described in the Franchising subsection of the Business Section. Franchise fees increased to \$1,724,100 for 2007 compared to \$1,245,700 for 2006. Eighty-three franchise territories were opened in 2007 compared to 70 franchise territories opened during 2006.

Leasing Income

Leasing income increased to \$4,416,200 in 2007 compared to \$1,852,700 for the same period in 2006. The increase is due to a larger lease portfolio in 2007 compared to 2006.

Merchandise Sales

Merchandise sales include the sale of product to franchisees either through the Play It Again Sports® buying group or through our Computer Support Center (Direct Franchisee Sales). For the previous two years ended, merchandise sales were as follows:

	2007	2006
Direct Franchisee Sales	\$ 3,999,500	\$ 4,469,300

Direct Franchisee Sales revenues decreased \$469,800, or 10.5%, for the year ended December 29, 2007 compared to the same period last year. This is a result of management's strategic decision to have more franchisees purchase merchandise directly from vendors and having 14 fewer Play It Again Sports® stores open than one year ago.

Cost of Merchandise Sold

Cost of merchandise sold decreased \$446,100 or 10.4% in 2007 compared to the same period last year. The decrease was primarily due to a decrease in Direct Franchisee Sales discussed in the revenue section.

Edgar Filing: WINMARK CORP - Form 10-K

Cost of merchandise sold includes in-bound freight and the cost of merchandise sold to franchisees either through the Play It Again Sports® buying group, or through our Computer Support Center (Direct Franchisee Sales). The cost of merchandise sold as a percentage of Direct Franchisee Sales for 2007 and 2006 were as follows:

	2007	2006
Direct Franchisee Sales	95.9%	95.8%

Leasing Expense

Leasing expense increased to \$1,031,000 in 2007 compared to \$227,100 in 2006. The increase is due to interest on increased borrowing in connection with the growth of the Company's lease portfolio.

Selling, General and Administrative Expenses

The \$2,109,500, or 12.3%, increase in selling, general and administrative expenses in 2007 compared to the same period in 2006 is primarily due to increases in salaries, outside services, amortization of initial direct costs and development advertising of \$845,000, \$369,000, \$297,000 and \$144,000, respectively. The increase in salaries includes \$619,200 of additional expenses related to the departure of leasing sales staff.

Gain (Loss) from Equity Investments

During 2007, the Company recorded a loss of \$359,600 from our investment in Tomsten. During 2006, the Company sold its investment in eFrame, LLC (eFrame) resulting in a gain of \$250,000 and recorded a loss of \$133,400 from our investment in Tomsten. This represents our pro rata share of Tomsten losses for the periods. See the section in this Form 10-K entitled Risk Factors . (See Note 3.)

Interest Expense

Interest expense increased to \$1,456,800 in 2007 compared to \$728,700 in 2006. The increase is due to interest on borrowings on the line of credit and renewable subordinated notes.

Interest and Other Income

During 2007, the Company had interest and other income of \$539,100 compared to \$867,300 of interest and other income in 2006. The decrease is primarily due to the \$360,000 transaction fee recognized in 2006 on the Commercial Credit Group redemption and investment agreement. (See Note 3.)

Income Taxes

The provision for income taxes was calculated at an effective rate of 40.9% and 40.6% for 2007 and 2006, respectively.

Segment Comparison of the Year Ended December 29, 2007 to**Year Ended December 30, 2006**

The Company currently has two reportable business segments, franchising and leasing. The franchising segment franchises value-oriented retail store concepts that buy, sell, trade and consign merchandise and Wirth Business Credit, Inc., the Company's small-ticket leasing franchise. The leasing segment, which commenced operations in 2004, includes (i) Winmark Capital Corporation, a middle-market equipment leasing business and (ii) Wirth Business Credit, Inc., a small-ticket financing business. Segment reporting is intended to give financial statement users a better view of the Company. The Company's internal management reporting is the basis for the information disclosed for its business segments. The following tables summarize financial information by segment and provide a reconciliation of segment contribution to operating income:

	Year Ended	
	December 29, 2007	December 30, 2006
Revenue:		
Franchising	\$ 26,749,000	\$ 25,517,800
Leasing	4,416,200	1,852,700
Total revenue	\$ 31,165,200	\$ 27,370,500
Reconciliation to operating income:		
Franchising segment operating income	\$ 9,137,700	\$ 8,627,600
Leasing segment operating loss	(2,711,800)	(3,266,100)
Total operating income	\$ 6,425,900	\$ 5,361,500

Franchising segment operating income

The franchising segment's 2007 operating income increased by \$510,100 or 5.9% to \$9.1 million from \$8.6 million for 2006. The increase in segment contribution was primarily due to higher royalty and franchise fee income of \$1,234,700 or 6.4% and \$478,400 or 38.4%, respectively, partially offset by increases in corporate allocations and selling, general and administrative expenses. The increase in royalties was primarily due to higher Plato's Closet® and Once Upon A Child® royalties of \$1,039,600 and \$349,100, respectively, partially offset by lower Play It Again Sports® royalties of \$125,200. The increase in Plato's Closet® and Once Upon A Child® royalties is primarily due to having 30 additional Plato's Closet® and 14 additional Once Upon A Child® franchise stores open in 2007 compared to the same period last year and higher franchisee retail sales in both brands.

Leasing segment operating loss

The leasing segment's 2007 operating loss decreased \$554,300 or 17.0% to (\$2.7 million) compared to a loss of (\$3.3 million) during 2006. This improvement was primarily due to a \$2.6 million increase in leasing income partially offset by a \$2.0 million increase in direct costs, including corporate allocations, associated with the leasing segment.

Liquidity and Capital Resources

The Company's primary sources of liquidity have historically been cash flow from operations and borrowings. The components of the income statement that affect our liquidity include non-cash items for depreciation and compensation expense related to stock options. The most significant component of the balance sheet that affects liquidity is long-term investments. Long-term investments includes \$7.5 million of illiquid investments in two private companies: Tomsten, Inc. and BridgeFunds, LLC.

Edgar Filing: WINMARK CORP - Form 10-K

The Company ended 2007 with \$1.3 million in cash and cash equivalents and a current ratio (current assets divided by current liabilities) of .90 to 1.0 compared to \$1.0 million in cash and cash equivalents and a current ratio of 1.25 to 1.0 at the end of 2006.

Operating activities provided cash of \$6.3 million for 2007 compared to \$5.1 million for the same period last year. Cash provided by operating assets and liabilities include a \$1,529,500 increase in advance and security deposits due to increased lease originations. The change in income tax receivable provided cash of \$646,400 due to utilizing prior year-end tax overpayments. The change in prepaid expenses provided cash of \$330,200 primarily due to the reduction in prepaid commissions due to the departure of leasing sales staff. Cash utilized by operating assets and liabilities include a \$194,000 decrease in accounts payable due to a decrease in buying group activity.

Investing activities used \$22.1 million of cash during 2007 compared to \$12.2 million during the same period of 2006, primarily due to the purchase of equipment for lease contracts, partially offset by collections on lease receivables and proceeds on sales of long-term investments.

Financing activities provided \$16.1 million of cash during 2007 compared to \$5.2 million during 2006. The increase in 2007 was primarily due to \$29.2 million provided by proceeds from borrowings, partially offset by \$5.6 million used to repurchase 310,704 shares of our common stock and \$7.9 million used to repay matured debt.

The Company has future operating lease commitments for our corporate headquarters and has remained a guarantor on Company-owned retail stores that have been previously sold or closed at December 29, 2007. See Note 6 and Note 12 to the consolidated financial statements.

As of December 29, 2007, the Company's off balance sheet obligations were limited to the obligations under the lease for the Company's corporate headquarters. The term of the lease expires in August 2009.

As of December 29, 2007, the Company had no other material outstanding commitments.

On March 31, 2006, the Company entered into a Second Amendment (the "Second Amendment") to our \$15,000,000 line of credit with LaSalle Bank National Association (as amended, the "Credit Facility"). The Credit Facility allows us various interest rate options, including fixed rate, LIBOR plus 2% and the bank's base rate plus 200 basis points. The Second Amendment, among other things, extends the term of the Credit Facility to March 31, 2010, and allows us to increase our obligations under the Credit Facility over time up to \$25,000,000 provided that certain conditions are met. As a result of the Second Amendment, certain financial covenants in the Credit Facility have changed, including (i) minimum tangible net worth; (ii) minimum interest coverage ratio; and (iii) maximum senior leverage ratio.

On May 19, 2006, the Company entered into a Third Amendment (the "Third Amendment") to our Credit Facility. The Third Amendment, among other things, affirms the Lender's consent to the repurchase of Rush River's 420,000 shares of Winmark common stock ("Repurchase"). The Third Amendment also amends the definition of minimum tangible net worth in the Credit Facility to add into the Company's minimum tangible net worth the amount paid by us for the Repurchase, \$9.891 million, until December 31, 2006.

Edgar Filing: WINMARK CORP - Form 10-K

On August 15, 2007, the Company entered into a Fourth Amendment to our Credit Facility that, among other things, extends the term of the Credit Facility from March 31, 2010 to March 31, 2012 and allows the Company to increase its obligations under the Credit Facility to \$25,000,000.

On November 12, 2007, the Company entered into a Fifth Amendment to our Credit Facility, that among other things, allows the Company to increase the commitment under the Credit Facility from the initial amount of \$25,000,000 to an amount that does not exceed \$50,000,000, provided that certain conditions are met. Any increase from the initial commitment must be in minimum integral amounts of \$5,000,000, and no single increase can exceed \$25,000,000.

The Credit Facility has a borrowing base that is equal to two times the Earnings before Interest, Taxes, Depreciation and Amortization (EBITDA) of the franchising and corporate segments plus 90% of the amount of eligible leased assets. The line of credit will be used for growing our leasing business, stock repurchases and general corporate purposes. The Credit Facility is secured by a lien against substantially all of our assets.

On April 19, 2006, we announced the filing of a shelf registration on Form S-1 registration statement with the Securities and Exchange Commission for the sale of up to \$50 million of renewable subordinated unsecured notes with maturities from three months to ten years. In June 2006, the Form S-1 registration became effective. In March 2007, the Company filed Post-Effective Amendment Number 2 to the public offering that was declared effective March 30, 2007. In November 2007, the Company filed Post-Effective Amendment Number 3 to the public Offering that was declared effective November 29, 2007. We intend to use the net proceeds from the offering to pay down our credit facility, expand our leasing portfolio, to make acquisitions, to repurchase common stock and for other general corporate purposes. As of December 29, 2007, \$24.0 million of the renewable subordinated notes have been sold.

We believe that the combination of our cash on hand, the cash generated from our franchising business, cash generated from discounting sources, our bank line of credit as well as our renewable subordinated unsecured notes, will be adequate to fund our planned operations, including leasing activity, for 2008.

Critical Accounting Policies

The Company prepares the consolidated financial statements of Winmark Corporation and Subsidiaries in conformity with accounting principles generally accepted in the United States of America. As such, we are required to make certain estimates, judgments and assumptions that we believe are reasonable based on information available. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the periods presented. There can be no assurance that actual results will not differ from these estimates. Critical accounting policies that we believe are most important to aid in fully understanding and evaluating our reported financial results include the following:

Revenue Recognition Royalty Revenue and Franchise Fees

The Company collects royalties from each retail franchise based on a percentage of retail store gross sales. The Company recognizes royalties as revenue when earned. At the end of each accounting period, estimates of royalty amounts due are made based on applying historical weekly sales information to the number of weeks of unreported franchisee sales. If there are significant changes in the actual performances of franchisees versus our estimates, our royalty revenue would be impacted. During 2007, we collected \$169,000 more than our estimate at December 30, 2006. As of December 29, 2007, our royalty receivable was \$1,360,500.

The Company collects initial franchise fees when franchise agreements are signed and recognizes the initial franchise fees as revenue when the franchise is opened, which is when the Company has performed substantially all initial services required by the franchise agreement. Franchise fees collected from franchisees but not yet recognized as income are recorded as deferred revenue in the liability section of our consolidated balance sheet. As of December 29, 2007, our deferred franchise fees were \$984,500.

Stock-Based Compensation

We currently use the Black-Scholes option pricing model to determine the fair value of stock options. The determination of the fair value of the awards on the date of grant using an option-pricing model is affected by stock price as well as assumptions regarding a number of complex and subjective variables. These variables include implied volatility over the term of the awards, actual and projected employee stock option exercise behaviors, risk-free interest rate and expected dividends.

We estimate the fair value of options granted using the Black-Scholes option valuation model. We estimate the volatility of our common stock at the date of grant based on our historical volatility rate, consistent with SFAS No. 123(R) and Securities and Exchange Commission Staff Accounting Bulletin No. 107 (SAB 107). Our decision to use historical volatility was based upon the lack of actively traded options on our common stock. We estimate the expected term based upon historical option exercises. The risk-free interest rate assumption is based on observed interest rates for the volatility period. We use historical data to estimate pre-vesting option forfeitures and record share-based compensation expense only for those awards that are expected to vest. For options granted, we amortize the fair value on a straight-line basis. All options are amortized over the vesting periods.

We evaluate the assumptions used to value awards on an annual basis. If factors change and we employ different assumptions for estimating stock-based compensation expense in future periods or if we decide to use a different valuation model, the future periods may differ significantly from what we recorded in the current period and could materially affect operating income, net income and earnings per share.

Impairment of Long-term Investments

On an annual basis, the Company evaluates its long-term investments for impairment. The impairment, if any, is measured by the difference between the assets' carrying amount and their fair value, based on the best information available, including market prices, discounted cash flow analysis or other financial metrics that management utilizes to help determine fair value. Judgments made by management related to the fair value of its long-term investments are affected by factors such as the ongoing financial performance of the Investees, additional capital raised by the Investees as well as general changes in the economy.

Leasing Income Recognition

Leasing income is recognized under the effective interest method. The effective interest method of income recognition applies a constant rate of interest equal to the internal rate of return on the lease. Generally, when a lease is 90 days or more delinquent, the lease is classified as being on non-accrual and the Company stops recognizing leasing income on that date.

Allowance for Credit Losses

The Company maintains an allowance for credit losses at an amount that it believes to be sufficient to absorb losses inherent in our existing lease portfolio as of the reporting dates. A provision is charged against earnings to maintain the allowance for credit losses at the appropriate level. If the actual results are different from the Company's estimates, our results could be different. The Company policy is to charge-off against the allowance the estimated unrecoverable portion of accounts once they reach 121 days delinquent.

New Accounting Pronouncements

The Company adopted the provisions of FASB Interpretation 48, *Accounting for Uncertainty in Income Taxes* (Interpretation 48), on January 1, 2007. Previously, the Company had accounted for tax contingencies in accordance with Statement of Financial Accounting Standards 5, *Accounting for Contingencies*. As required by Interpretation 48, which clarifies Statement 109, *Accounting for Income Taxes*, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At the adoption date, the Company applied Interpretation 48 to all tax positions for which the statute of limitations remained open. The implementation of Interpretation 48 did not have a material impact on the financial statements.

The amount of unrecognized tax benefits as of December 29, 2007 and December 30, 2006, was \$257,400 and \$258,500, respectively, primarily for potential foreign and state taxes.

The Company recognizes interest accrued related to unrecognized tax benefits and penalties as income tax expense for all periods presented. The Company had accrued approximately \$25,100 and \$23,000 for the payment of interest and penalties at December 29, 2007 and December 30, 2006, respectively.

The Company is subject to income taxes in the U.S. federal jurisdiction, and various states and foreign jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for the years before 2004.

In September 2006, the FASB issued FAS No. 157, *Fair Value Measurements* (FAS 157), which establishes a framework for reporting fair value and expands disclosure about fair value measurements. FAS 157 is effective for our 2008 fiscal year. The Company does not believe that this standard will have a material adverse effect.

In February 2007, FASB issued FAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* (FAS 159). FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. FAS 159 is effective for our 2008 fiscal year. The Company does not believe that the adoption of this standard will have a material adverse effect.

Outlook

Forward Looking Statements

The statements contained in the letter from the CEO, Item 1 Business, Item 1A Risk Factors, in this Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations, and in Item 8 Financial Statements and Supplemental Data that are not strictly historical fact, including without limitation, our statements relating to growth opportunities, prospects for Wirth Business Credit and Winmark Capital Corporation, contribution of the leasing business to financial results, anticipated operations of our leasing businesses, our ability to open new franchises, our ability to manage costs in the future, the number of franchises we believe will open, our future cash requirements, allowance for credit losses, possible losses related to our investments and our belief that we will have adequate capital and reserves to meet our current and contingent obligations and operating needs are forward looking statements made under the safe harbor provision of the Private Securities Litigation Reform Act. Such statements are based on management's current expectations as of the date of this report but involve risks, uncertainties and other factors which may cause actual results to differ materially from those contemplated by such forward looking statements. Investors are cautioned to consider these forward looking statements in light of important factors which may result in variations from results contemplated by such forward looking statements including, but not limited to the risk factors discussed in Section 1A of this report. You should not place undue reliance on these forward-looking statements, which speak only as of the date they were made. We undertake no obligation to revise or update publicly any forward-looking statement for any reason.

ITEM 7A: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company incurs financial markets risk in the form of interest rate risk. The Company currently has available a \$50.0 million line of credit with LaSalle Bank National Association. The Company had \$16.2 million of debt outstanding at December 29, 2007 under this line of credit of which \$3.2 million is subject to daily changes in the bank's base rate or LIBOR. The interest rate applicable to this agreement is based on either the bank's base rate or LIBOR. The Company's earnings would be affected by changes in these short-term interest rates. Risk can be quantified by measuring the financial impact of a near-term adverse increase in short-term interest rates. At the Company's current level of borrowings, a one percent increase in our applicable rate would reduce annual pretax earnings by \$32,000. The Company had no interest rate derivatives in place at December 29, 2007 to mitigate this risk.

Approximately \$103,700 of our cash and cash equivalents at December 29, 2007 were invested in money market mutual funds, which are subject to the effects of market fluctuations in interest rates.

Although we conduct business in foreign countries, international operations are not material to our consolidated financial position, results of operations or cash flows. Additionally, foreign currency transaction gains and losses were not material to our results of operations for the year ended December 29, 2007. Accordingly, we are not currently subject to material foreign currency exchange rate risks from the effects that exchange rate movements of foreign currencies would have on our future costs or on future cash flows we would receive from our foreign activity. To date, we have not entered into any foreign currency forward exchange contracts or other derivative financial instruments to hedge the effects of adverse fluctuations in foreign currency exchange rates.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

1. Organization and Business:

Winmark Corporation and subsidiaries (the Company) offers licenses to operate franchises using the service marks Play It Again Sports®, Once Upon A Child®, Plato's Closet®, Music Go Round® and Wirth Business Credit®. In addition, the Company sells inventory to its Play It Again Sports® franchisees through its Buying Group. The Company also operates both small-ticket and middle market equipment leasing businesses under the Wirth Business Credit® and Winmark Capital® marks. The Company has a 52/53-week fiscal year that ends on the last Saturday in December. Fiscal years 2007 and 2006 were 52-week fiscal years.

Following is a summary of our franchising and corporate store activity for the fiscal year ended December 29, 2007:

	TOTAL 12/30/06	(Unaudited)		TOTAL 12/29/07
		OPENED	CLOSED	
<u>Play It Again Sports®</u>				
Franchises - US and Canada	388	14	(28)	374
<u>Once Upon A Child®</u>				
Franchises - US and Canada	214	15	(1)	228
<u>Plato's Closet®</u>				
Franchises - US and Canada	181	32	(2)	211
<u>Music Go Round®</u>				
Franchises - US	41	1	(4)	38
Total Franchised Stores	824	62	(35)	851
<u>Wirth Business Credit®</u>				
Territories - US	20	21	0	41
Total Franchises/Territories	844	83	(35)	892

2. Significant Accounting Policies:*Principles of Consolidation*

Edgar Filing: WINMARK CORP - Form 10-K

The consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Wirth Business Credit, Inc., Winmark Capital Corporation and Grow Biz Games, Inc., as well as its investment in and share of net earnings or losses for its investment in Tomsten, Inc. (Tomsten) which are recorded on the equity method of accounting. All material inter-company transactions have been eliminated in consolidation.

Certain adjustments to previously reported amounts have been made to conform to the current year presentation. As a result of the change in accounting treatment for our investment in Tomsten from the cost basis to the equity method of accounting in 2007, the Company retroactively adjusted the historical financial statements to reflect the portion of Tomsten s operating losses attributable to the Company s ownership from the date of its original investment until the change in accounting treatment.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

Cash Equivalents

Cash equivalents consist of highly liquid investments with an original maturity of three months or less. Cash equivalents are stated at cost, which approximates fair value. As of December 29, 2007 and December 30, 2006, the Company had approximately \$107,500 and \$74,600 of cash located in Canadian banks.

Accounts Receivable

The Company provides an allowance for doubtful accounts on accounts receivable. The allowance for doubtful accounts was approximately \$58,000 and \$74,000 at December 29, 2007 and December 30, 2006, respectively. If accounts receivable in excess of the provided allowance are determined uncollectible, they are charged to expense in the year the determination is made. Accounts receivable are written off when they become uncollectible, and payments subsequently received on such receivable are credited to the allowance for doubtful accounts. Accounts receivable balances written off have not exceeded allowances provided.

Long-term Investments

Long-term investments consist of investments in Tomsten, Inc. and BridgeFunds, LLC. (See Note 3.)

Investment in Leasing Operations

The Company uses the direct finance method of accounting to record income from direct financing leases. At the inception of a lease, the Company records the minimum future lease payments receivable, the estimated residual value of the leased equipment and the unearned lease income. Initial direct costs related to lease originations are deferred as part of the investment and amortized over the lease term. Unearned lease income is the amount by which the total lease receivable plus the estimated residual value exceeds the cost of the equipment.

Leasing Income Recognition

Edgar Filing: WINMARK CORP - Form 10-K

Leasing income is recognized under the effective interest method. The effective interest method of income recognition applies a constant rate of interest equal to the internal rate of return on the lease. Generally, when a lease is 90 days or more delinquent, the lease is classified as being on non-accrual and the Company stops recognizing leasing income on that date.

Initial Direct Costs

The Company defers initial direct costs incurred to originate its leases in accordance with SFAS No. 91, *Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases*. The initial direct costs deferred are part of the investment in leasing operations and are amortized to leasing income using the effective interest method.

Lease Residual Values

Residual values reflect the estimated amounts to be received at lease termination from lease extensions, sales or other dispositions of leased equipment. The lease residual values are based on the Company's best estimate.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

Allowance for Credit Losses

The Company maintains an allowance for credit losses at an amount that it believes to be sufficient to absorb losses inherent in the existing lease portfolio as of the reporting dates. A provision is charged against earnings to maintain the allowance for credit losses at the appropriate level. The Company policy is to charge-off against the allowance the estimated unrecoverable portion of accounts once they reach 121 days delinquent.

Rents Received in Advance

Rents received in advance represent advance payments from customers that will be applied to future payments. For example, if the Company is holding one advance payment, it will be applied to the customer's last payment. If the Company is holding two advance payments, they will be applied to the customer's last two payments.

Impairment of Long-lived Assets

The Company reviews long-lived assets annually to determine if the carrying value of these assets may not be recoverable. If such assets are considered impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets.

Goodwill

On an annual basis, the Company considers whether there has been a permanent impairment in the value of its goodwill. Goodwill is included in other assets in the consolidated balance sheet.

Inventories

Edgar Filing: WINMARK CORP - Form 10-K

The Company values its inventories at the lower of cost, as determined by the average weighted cost method, or market. Inventory consists of computer hardware and related accessories and store sign packages.

Property and Equipment

Property and equipment is stated at cost. Depreciation and amortization for financial reporting purposes is provided on the straight-line method. Estimated useful lives used in calculating depreciation and amortization are: three years for computer and peripheral equipment, five years for furniture and equipment and the shorter of the lease term or useful life for leasehold improvements. Major repairs, refurbishments and improvements which significantly extend the useful lives of the related assets are capitalized. Maintenance and repairs, supplies and accessories are charged to expense as incurred.

Use of Estimates

The preparation of financial statements in conformity with generally accepted U.S. accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. The ultimate results could differ from those estimates.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

Advertising

Advertising costs are charged to operating expenses as incurred. Advertising costs were \$982,300 and \$810,100, for fiscal years 2007 and 2006, respectively.

Accounting for Stock-Based Compensation

Financial Accounting Standards Board (FASB) Statement No. 123, *Share-Based Payment* (revised 2004) requires the cost of all share-based payments to employees, including grants of employee stock options, to be recognized in the consolidated financial statements based on the grant date fair value of those awards. In accordance with Statement No. 123R, this cost is recognized over the period for which an employee is required to provide service in exchange for the award. Statement No. 123R requires that the benefits associated with tax deductions in excess of recognized compensation expense be reported as a financing cash flow rather than as an operating cash flow. The Company uses the straight-line method of expensing graded vesting awards. Compensation expense of \$688,500 and \$788,600 relating to the vested portion of the fair value of stock options granted was expensed to Selling, General and Administration Expenses in 2007 and 2006, respectively.

We estimate the fair value of options granted using the Black-Scholes option valuation model. We estimate the volatility of our common stock at the date of grant based on our historical volatility rate, consistent with SFAS No. 123(R) and Securities and Exchange Commission Staff Accounting Bulletin No. 107 (SAB 107). Our decision to use historical volatility was based upon the lack of actively traded options on our common stock. We estimate the expected term based upon historical option exercises. The risk-free interest rate assumption is based on observed interest rates for the volatility period. We use historical data to estimate pre-vesting option forfeitures and record share-based compensation expense only for those awards that are expected to vest. For options granted, we amortize the fair value on a straight-line basis. All options are amortized over the vesting periods.

In accordance with SFAS 123R, the fair value of each option granted in 2007 and 2006 was estimated on the date of the grant using the Black-Scholes option pricing model with the following assumptions:

Year Granted	Option Fair Value	Risk Free Interest Rate	Expected Life (Years)	Implied Volatility	Dividend Yield
2007	\$5.76 / \$6.16 / \$6.93	4.55% / 3.54% / 3.67%	5 / 5 / 6	27.2% / 25.3% / 25.4%	none
2006	\$6.56 / \$10.25	4.58%	5 / 7	26.3% / 41.0%	none

Revenue Recognition

Outlook

The Company collects royalties from each retail franchise based on a percentage of retail store gross sales. The Company recognizes royalties as revenue when earned. The Company collects initial franchise fees when franchise agreements are signed and recognizes the initial franchise fees as revenue when the franchise is opened, which is when the Company has performed substantially all initial services required by the franchise agreement. The Company had deferred franchise fee revenue of \$1,048,500 and \$1,053,300 at December 29, 2007 and December 30, 2006, respectively. The Company recognizes deferred software license fees over the 10-year life of the initial franchise agreement. The Company had deferred software license fees of \$639,800 and \$504,100 at December 29, 2007 and December 30, 2006, respectively. Merchandise sales through the buying group are recognized when the product has been invoiced by the vendor.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

Discounted Lease Rentals

The Company may utilize its lease rentals receivable and underlying equipment as collateral to borrow from financial institutions at fixed rates on a non-recourse basis. In the event of a default by a customer in non-recourse financing, the financial institution has a first lien on the underlying leased equipment, with no further recourse against the Company. Proceeds from discounting are recorded on the balance sheet as discounted lease rentals. As customers make payments to financial institutions, lease income and interest expense are recorded and discounted lease rentals are reduced by the effective interest method.

Earnings Per Share

The Company calculates earnings per share in accordance with SFAS No. 128 by dividing net income by the weighted average number of shares of common stock outstanding to arrive at the Earnings Per Share Basic. The Company calculates Earnings Per Share Diluted by dividing net income by the weighted average number of shares of common stock and dilutive stock equivalents from the exercise of stock options and warrants using the treasury stock method. The weighted average diluted outstanding shares is computed by adding the weighted average basic shares outstanding with the dilutive effect of 119,067 and 215,466 stock options and warrants for the years ended December 29, 2007 and December 30, 2006, respectively.

Options totaling 168,166 and 91,729 shares for the year ended December 29, 2007 and December 30, 2006, respectively, were outstanding but were not included in the calculation of Earnings Per Share Diluted because their exercise prices were greater than the average market price of the common shares and, therefore, including the options in the denominator would be anti-dilutive.

New Accounting Pronouncements

The Company adopted the provisions of FASB Interpretation 48, *Accounting for Uncertainty in Income Taxes* (Interpretation 48), on January 1, 2007. Previously, the Company had accounted for tax contingencies in accordance with Statement of Financial Accounting Standards 5, *Accounting for Contingencies*. As required by Interpretation 48, which clarifies Statement 109, *Accounting for Income Taxes*, the Company recognizes the financial statement benefit of a tax position only after determining that the relevant tax authority would more likely than not sustain the position following an audit. For tax positions meeting the more-likely-than-not threshold, the amount recognized in the financial statements is the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement with the relevant tax authority. At the adoption date, the Company applied Interpretation 48 to all tax positions for which the statute of limitations remained open. The implementation of Interpretation 48 did not have a material impact on the financial statements.

Edgar Filing: WINMARK CORP - Form 10-K

The amount of unrecognized tax benefits as of December 29, 2007 and December 30, 2006, was \$257,400 and \$258,500, respectively, primarily for potential foreign and state taxes.

The Company recognizes interest accrued related to unrecognized tax benefits and penalties as income tax expense for all periods presented. The Company had accrued approximately \$25,100 and \$23,000 for the payment of interest and penalties at December 29, 2007 and December 30, 2006, respectively.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

The Company is subject to income taxes in the U.S. federal jurisdiction, and various states and foreign jurisdictions. Tax regulations within each jurisdiction are subject to the interpretation of the related tax laws and regulations and require significant judgment to apply. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for the years before 2004.

In September 2006, the FASB issued FAS No. 157, *Fair Value Measurements* (FAS 157), which establishes a framework for reporting fair value and expands disclosure about fair value measurements. FAS 157 is effective for our 2008 fiscal year. The Company does not believe that this standard will have a material adverse effect.

In February 2007, FASB issued FAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115* (FAS 159). FAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value. FAS 159 is effective for our 2008 fiscal year. The Company does not believe that the adoption of this standard will have a material adverse effect.

Reclassifications

Certain reclassifications of previously reported amounts have been made to conform to the current year presentation.

Change in Accounting

As a result of the change in accounting treatment for our investment in Tomsten from the cost basis to the equity method of accounting in 2007 (See Note 3), the Company retroactively adjusted the accompanying 2006 historical financial statements to reflect the portion of Tomsten's operating losses attributable to the Company's ownership from the date of its original investment until the change in accounting treatment. The table below reflects the effect of the change in accounting method on the December 30, 2006 financial statements.

	December 30, 2006 as previously reported	Adjustments	December 30, 2006 as adjusted
<u>Balance Sheet</u>			

Edgar Filing: WINMARK CORP - Form 10-K

	\$	7,496,500	\$	9,856,100

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

On an annual basis the Company considers whether there has been a permanent impairment in the value of our other long-term investments. The fair value of the cost method investments are not estimated if there are no identified events or changes in circumstances that may have a significant adverse affect on the fair value of the investment and an estimate of the fair value is not practicable.

The Company has an investment in Tomsten, the parent company of Archiver's retail chain. Archiver's is a retail concept created to help people preserve and enjoy their photographs. The Company has invested a total of \$7.5 million in the purchase of common stock of Tomsten. The Company's investment currently represents 18.3% of the outstanding common stock of Tomsten. The Company's investment was accounted for using the cost method based upon an analysis that included the fact that no officers or directors of the Company served as officers or directors of Tomsten, and the existence of a voting agreement between the Company and Tomsten, appointing officers of Tomsten as the Company's proxy with the right to vote the Tomsten shares held by the Company.

On October 2, 2007, the Company changed its relationship with Tomsten, primarily by (i) John Morgan our Chairman and Chief Executive Officer joining Tomsten's board of directors and (ii) Tomsten and Winmark eliminating the voting agreement between the parties. Primarily due to these factors, the Company determined that it was necessary to change the accounting treatment for its investment in Tomsten from the cost method (which had been in place since the date of the Company's first investment in August 2002) to the equity method of accounting. At the date of the change in accounting treatment, the Company's historical financial statements were adjusted retroactively to reflect the portion of Tomsten's operating losses attributable to the Company's ownership from the date of the original investment. These amounts totaled approximately \$0.1 million in 2006 and \$1.5 million for all periods prior to 2006. In 2007 the Company recorded \$0.4 million of its pro-rata share of Tomsten's losses in the income statement on the line item captioned Gain (loss) from Equity Investments. As of December 29, 2007, \$3.1 million of the Company's \$5.5 million investment is attributable to goodwill. The amount of goodwill was determined by calculating the difference between the Company's net investment in Tomsten at the time of the accounting change less its pro rata share of Tomsten's net worth.

On October 8, 2004, the Company agreed to make a \$2.0 million preferred stock investment in Commercial Credit Group, Inc. (CCG), a newly formed equipment leasing company specializing in construction, transportation and waste management equipment. On February 15, 2006, the Company entered into two separate transactions with CCG whereby CCG (i) redeemed its 20,000 shares of Series A-1 preferred stock at face value of \$100 per share held by the Company and, (ii) issued \$2,000,000 of five-year senior subordinated notes that carry an interest rate of 14.75%, which is compounded quarterly. In connection with the redemption, a \$360,000 transaction fee was received by the Company. The Company recorded the \$360,000 fee as additional consideration for the redemption for its preferred stock which, when combined with the \$2,000,000 redemption proceeds, resulted in a gain of \$360,000 on the transaction. The gain is included in interest and other income for the year ended December 30, 2006.

On August 29, 2007, the Company agreed to assign and sell all of the \$2.0 million five-year senior subordinated notes that carry an interest rate of 14.75% issued by CCG (the Notes) to Allied Capital Corporation for a total purchase price of approximately \$2.1 million, effective August 31, 2007. In connection with the assignment and sale, Allied also assumed the Company's rights and obligations pursuant to an Investment Agreement between the Company, Allied, and CCG.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

On October 13, 2004, the Company made a commitment to lend \$2.0 million to BridgeFunds Limited at an annual rate of 12% pursuant to several senior subordinated promissory notes. BridgeFunds Limited advances funds to claimants involved in civil litigation to cover litigation expenses. On October 13, 2004, February 9, 2005, May 24, 2005 and May 15, 2006, the Company funded \$500,000, \$500,000, \$500,000 and \$500,000, respectively, of such \$2.0 million commitment. In addition, the Company has received a warrant to purchase approximately 257,000 shares of BridgeFunds which currently represents 8.8% of the equity of BridgeFunds on a fully diluted basis. On August 23, 2007, in connection with raising capital, BridgeFunds Limited completed a restructuring where all assets and liabilities, including the warrant, were assigned to and assumed by BridgeFunds, LLC. BridgeFunds is currently in the process of raising capital which, if successful, will reduce the Company's fully diluted ownership.

4. Investment in Leasing Operations:

Investment in leasing operations consists of the following:

	December 29, 2007	December 30, 2006
Minimum lease payments receivable	\$ 38,948,800	\$ 19,945,500
Estimated residual value of equipment	1,472,800	802,000
Unearned lease income net of initial direct costs deferred	(7,583,800)	(3,422,400)
Security deposits	(1,299,300)	(676,400)
Allowance for credit losses	(613,800)	(433,700)
Equipment installed on leases not yet commenced	10,961,800	2,036,400
Total net investment in leases	41,886,500	18,251,400
Less: net investment in leases - current	(10,554,900)	(5,777,400)
Net investment in leases - long-term	\$ 31,331,600	\$ 12,474,000

The Company had \$437,100 and \$10,100 of write-offs related to the lease portfolio during the 2007 and 2006, respectively.

As of December 29, 2007, leased assets with one customer approximated 13% of the Company's total assets. As of December 30, 2006, no customer accounted for more than 10% of the Company's total assets.

Minimum lease payments receivable under lease contracts and the amortization of unearned lease income, net of initial direct costs and fees deferred is as follows as of December 29, 2007:

Edgar Filing: WINMARK CORP - Form 10-K

Fiscal Year	Minimum Lease Payments Receivable		Income Amortization	
2008	\$	14,789,500	\$	4,029,000
2009		12,218,800		2,185,000
2010		6,727,500		919,100
2011		3,471,300		380,300
2012		1,729,900		70,400
Thereafter		11,800		
	\$	38,948,800	\$	7,583,800

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

The activity in the allowance for credit losses for leasing operations is as follows:

	December 29, 2007	December 30, 2006
Balance at beginning of year	\$ 433,700	\$ 103,200
Provisions charged to expense	604,200	340,600
Recoveries	13,000	
Deductions for amounts written-off	(437,100)	(10,100)
Balance at end of year	\$ 613,800	\$ 433,700

5. Receivables:

The Company's current receivables consisted of the following:

	December 29, 2007	December 30, 2006
Trade	\$ 620,600	\$ 907,600
Royalty	1,360,500	1,137,500
Notes receivable	93,100	93,200
Other	297,800	139,000
	2,372,000	2,277,300
Less: long-term notes receivable	(59,700)	(73,800)
Current Receivables	\$ 2,312,300	\$ 2,203,500

The activity in the allowance for doubtful accounts for accounts and note receivables is as follows:

	December 29, 2007	December 30, 2006
Balance at beginning of year	\$ 74,000	\$ 197,800
Provisions charged to expense	(15,600)	(111,400)
Deductions for amounts written-off	(400)	(12,400)
Balance at end of year	\$ 58,000	\$ 74,000

As part of its normal operating procedures, the Company requires Standby Letters of Credit as collateral for a portion of its trade receivables.

Included in December 29, 2007 accounts receivable above are three notes receivable bearing interest at 12%, 10% and 12%, payable in monthly principal and interest installments and maturing in 2008, 2010 and 2012, respectively.

Included in December 30, 2006 accounts receivable above are two notes receivable from the sale of Company-owned retail stores bearing interest at 10.0%, payable in monthly principal and interest installments and maturing in 2010.

6. Acquisitions and Dispositions:

In 1999, the Company made the decision to dispose of the It's About Games brand. Accordingly, a restructuring charge and charge for asset impairment of \$11,345,500 was recorded. In 1999, the Company completed the sale of the assets of the Company's It's About Games brand.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

As of December 29, 2007 and December 30, 2006, the Company had an accrual related to this disposal of \$170,000 for lease guarantees on various store sites (See Note 9). No guarantees expired in 2007 or 2006.

7. Shareholders Equity:

Repurchase of Common Stock

Under the board of directors authorization, the Company has the ability to repurchase up to 4,000,000 shares of its common stock, of which all but 184,754 shares have been repurchased. Repurchases may be made from time to time at prevailing prices, subject to certain restrictions on volume, pricing and timing. Since inception of stock repurchase activities in November 1995 through December 29, 2007, the Company has repurchased 3,815,246 shares of its stock at an average price of \$14.07 per share. In 2007, the Company repurchased 310,704 shares for an aggregate purchase price of \$5,564,000 or \$17.91 per share. In 2006, the Company repurchased 524,000 shares for an aggregate purchase price of \$12,275,900 or \$23.43 per share.

Dilutive Securities

As of December 29, 2007, the Company had options and warrants outstanding to purchase a total of 618,300 shares of its common stock with an average exercise price of \$15.57 per share. Of these, 365,222 were exercisable as of December 29, 2007.

Stock Option Plans

The Company has authorized up to 750,000 shares of common stock to be reserved for granting either nonqualified or incentive stock options to officers and key employees under the Company's 2001 Stock Option Plan (the 2001 Plan).

Grants under the 2001 Plan are made by the Board of Directors or a Board-designated committee at a price of not less than 100% of the fair market value on the date of grant. If an incentive stock option is granted to an individual who owns more than 10% of the voting rights of the Company's common stock, the option exercise price may not be less than 110% of the fair market value on the date of grant. The term of the options may not exceed 10 years, except in the case of nonqualified stock options, whereby the terms are established by the Board of Directors

Edgar Filing: WINMARK CORP - Form 10-K

or a Board-designated committee. Options may be exercisable in whole or in installments, as determined by the Board of Directors or a Board-designated committee.

The Company also sponsors a Stock Option Plan for Nonemployee Directors (the Nonemployee Directors Plan) and has reserved a total of 300,000 shares for issuance to directors of the Company who are not employees. Each option granted under the Nonemployee Directors Plan vests and becomes exercisable in five equal increments, beginning one year after the date of grant. The options expire six years from the date of grant.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

Stock options granted, exercised and outstanding under the 2001 Plan and Non-employee Directors Plan as of December 29, 2007 were as follows:

	Number of Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Life (years)	Intrinsic Value
Outstanding at December 31, 2005	582,000	\$ 14.56	7.79	
Granted	110,000	20.32		
Exercised	(134,000)	6.18		
Outstanding at December 30, 2006	558,000	17.75	7.43	
Granted	127,000	20.28		
Exercised	(112,200)	10.15		
Forfeited	(129,500)	21.35		
Outstanding at December 29, 2007	443,300	\$ 19.35	7.67	\$ 731,800
Exercisable at December 29, 2007	190,222	\$ 17.59	6.22	\$ 648,400

Options outstanding as of December 29, 2007 are exercisable as follows:

Range of Exercise Price	Number Outstanding	Options Outstanding		Options Exercisable	
		Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Number Exercisable	Weighted Average Exercise Price
\$ 7.20 - \$ 10.52	63,800	4.72	\$ 10.10	63,800	\$ 10.10
17.53 - 20.32	145,500	8.10	19.41	52,122	19.13
20.46 - 26.05	234,000	8.21	21.83	74,300	22.95
	443,300	7.67	\$ 19.35	190,222	\$ 17.59

The total intrinsic value of options exercised during 2007 and 2006 was \$867,400 and \$2,297,200, respectively. The total fair value of shares vested during 2007 and 2006 was \$1,291,200 and \$1,694,500, respectively.

All unexercised options at December 29, 2007 have an exercise price equal to the fair market value on the date of the grant.

Edgar Filing: WINMARK CORP - Form 10-K

As of December 29, 2007, the Company had \$2,091,400 of total unrecognized compensation expense related to stock options that is expected to be recognized over the remaining weighted average vesting period of approximately 3.4 years.

Other Options

On March 22, 2000, Sheldon Fleck, a former consultant to the Company, was granted a warrant to purchase 200,000 shares of common stock at an exercise price of \$6 per share. This option is fully vested and will expire on March 22, 2008 if unexercised. On October 4, 2007, Mr. Fleck exercised 25,000 warrant shares.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

8. Long-term Debt:

On March 31, 2006, the Company entered into a Second Amendment (the "Second Amendment") to its \$15,000,000 line of credit with LaSalle Bank National Association (as amended, the "Credit Facility"). The Credit Facility allows the Company various interest rate options, including fixed rate, LIBOR plus 2% and the bank's base rate plus 200 basis points. The Second Amendment, among other things, extends the term of the Credit Facility until March 31, 2010, and allows the Company to increase its obligations under the Credit Facility over time to up to \$25,000,000 provided that certain conditions are met. As a result of the Second Amendment, certain financial covenants in the Credit Facility have changed, including (i) minimum tangible net worth; (ii) minimum interest coverage ratio; and (iii) maximum senior leverage ratio.

On May 19, 2006, the Company entered into a Third Amendment (the "Third Amendment") to the Credit Facility. The Third Amendment, among other things, affirms the Lender's consent to the repurchase of Rush River's 420,000 shares of the Company's common stock ("Repurchase"). The Third Amendment also amends the definition of minimum tangible net worth in the Credit Facility to add into the Company's minimum tangible net worth the amount paid by the Company for the Repurchase, \$9.891 million, until December 31, 2006.

On August 15, 2007, the Company and its subsidiaries entered into the Fourth Amendment ("Amendment") to its Credit Facility. The Amendment, among other things, extends the term of its Credit Facility from March 31, 2010 to March 31, 2012 and allows the Company to increase its obligations under the Credit Facility to \$25,000,000.

On November 12, 2007, the Company entered into the Fifth Amendment to its Credit Facility that, among other things, allows the Company to increase the Commitment under the Credit Facility from the initial amount of \$25,000,000 to an amount that does not exceed \$50,000,000, provided that certain conditions are met. Any increase from the initial Commitment must be in minimum integral amounts of \$5,000,000, and no single increase can exceed \$25,000,000.

The Credit Facility has a borrowing base that is equal to two times the Earnings Before Interest, Taxes, Depreciation and Amortization ("EBITDA") of the Company's franchising and corporate overhead plus 90% of the amount of eligible leased assets. The line of credit will be used for growing the Company's leasing business, stock repurchases and general corporate purposes. The Credit Facility is secured by a lien against substantially all of the Company's assets.

As of December 29, 2007, the Company had \$16.2 million amount outstanding on its Credit Facility bearing interest between 6.34% and 7.43%, and had \$8.8 million currently available.

Edgar Filing: WINMARK CORP - Form 10-K

Future maturities of line of credit debt as of December 29, 2007 are as follows:

2008	\$	7,553,600
2009		4,353,600
2010		2,790,800
2011		1,366,100
2012		174,500
Thereafter		
Total	\$	16,238,600

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

Renewable Unsecured Subordinated Notes

In April 2006, the Company filed a public offering of up to \$50 million of Renewable Unsecured Subordinated Notes that was declared effective in June 2006. In March 2007, the Company filed Post-Effective Amendment Number 2 to the public offering that was declared effective March 30, 2007. In November 2007, the Company filed Post-Effect Amendment Number 3 for the public offering that was declared effective November 29, 2007. As of December 29, 2007, the Company has \$21,021,900 outstanding in renewable unsecured subordinated notes. The table below presents the Company's outstanding notes payable as of December 29, 2007:

	Original Term	Principal Amount	Weighted Average Interest Rate
Renewable unsecured subordinated notes	3 months	\$ 4,100	5.25%
	6 months	884,900	6.58%
	1 year	1,202,800	7.83%
	2 years	4,043,100	8.77%
	3 years	7,401,000	9.67%
	4 years	1,755,500	9.83%
	5 years	5,543,000	10.10%
	10 years	187,500	10.22%
Total		\$ 21,021,900	9.39%

The Company made interest payments of \$1,316,200 and \$565,700 on the renewable unsecured subordinated notes during 2007 and 2006, respectively. The weighted average term of the outstanding renewable unsecured subordinated notes at December 29, 2007 is 39 months.

The Company incurred costs related to the issuance of the Renewable Unsecured Subordinated Notes in the amount of \$231,800. The costs can be broken into three distinct categories (i) Offering Costs (ii) On Going Costs (iii) Annual Costs. These costs have been capitalized and are being amortized as a component of interest expense. The offering and on going costs associated with the debt offering are being amortized over the weighted-average term of the debt. In connection with the debt offering, the Company will incur certain annual costs that are being amortized over a 12-month period.

Future maturities of renewable unsecured subordinated notes as of December 29, 2007 are as follows:

2008	\$ 3,535,900
2009	6,479,500
2010	4,683,000

Edgar Filing: WINMARK CORP - Form 10-K

2011		6,136,000

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

9. Accrued Liabilities

Accrued liabilities at December 29, 2007 and December 30, 2006 are as follows:

	December 29, 2007		December 30, 2006	
Accrued salaries, wages, commissions and bonuses	\$	936,500	\$	959,600
Accrued advertising		198,900		196,000
Accrued vacation		160,500		167,700
Accrued restructuring liability		170,000		170,000
Accrued lease reserves		81,000		105,000
Accrued interest		166,000		73,500
Other		789,000		357,900
	\$	2,501,900	\$	2,029,700

10. Discounted Lease Rentals

The Company utilized certain lease rentals receivable and underlying equipment as collateral to borrow from a financial institution at 6.945% at December 29, 2007 on a non-recourse basis. In the event of a default by a customer in non-recourse financing, the financial institution has a first lien on the underlying leased equipment, with no further recourse against the Company. As of December 29, 2007, the entire \$27,400 balance is current.

11. Income Taxes:

A reconciliation of the expected federal income tax expense based on the federal statutory tax rate to the actual income tax expense is provided below:

	Year Ended	
	December 29, 2007	December 30, 2006
Federal income tax expense at statutory rate (34%)	\$ 1,750,500	\$ 1,909,700
Increase in income taxes resulting from:		
State and local income taxes, net of federal benefit	235,000	230,000
Nondeductible items, including stock option expenses	114,000	136,900

Edgar Filing: WINMARK CORP - Form 10-K

Other, net		4,300		1,900
Actual Income tax expense	\$	2,103,800	\$	2,278,500

Components of the provision (benefit) for income taxes are as follows:

	Year Ended	
	December 29, 2007	December 30, 2006
Current:		
Federal	\$ 1,727,700	\$ 1,769,000
State	379,400	336,900
Foreign	152,000	94,600
Current provision	2,259,100	2,200,500
Deferred:		
Federal	(131,900)	66,400
State	(23,400)	11,600
Deferred provision	(155,300)	78,000
Total provision for income taxes	\$ 2,103,800	\$ 2,278,500

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

The tax effects of temporary differences that give rise to the net deferred income tax assets are presented below:

	December 29, 2007	December 30, 2006
Deferred tax assets:		
Accounts receivable and lease reserves	\$ 254,800	\$ 191,400
Depreciation and amortization	23,300	52,700
Accrued restructuring charge	64,500	64,100
Non-qualified stock option expense	384,400	454,600
Deferred franchise and software license fees	302,500	204,100
Trademarks	138,300	119,400
Impairment of long-term investment		72,200
Lease deposits	492,800	255,000
Loss from affiliates	756,500	619,800
Capital loss carry forward	102,700	
Valuation allowance	(569,500)	(569,500)
Other	121,000	89,700
Total deferred tax assets	2,071,300	1,553,500
Deferred tax liabilities:		
Lease revenue and initial direct costs	(841,900)	(479,400)
Total deferred tax liabilities	(841,900)	(479,400)
Total net deferred tax assets	\$ 1,229,400	\$ 1,074,100

During the years ended December 29, 2007 and December 30, 2006, \$233,400 and \$752,000, respectively, was directly credited to stockholders equity to account for excess tax benefits related to employee stock option exercises.

The Company has assessed its taxable earnings history and prospective future taxable income. Based upon this assessment, the Company has determined that it is more likely than not that its deferred tax assets will be realized in future periods and no valuation allowance is necessary, except for deferred tax assets related to loss from affiliates. A valuation allowance of \$569,500 as of December 29, 2007 and December 30, 2006 has been recorded for these losses.

The amount of unrecognized tax benefits as of December 29, 2007 and December 30, 2006, was \$257,400 and \$258,500, respectively, primarily for potential foreign and state taxes.

Edgar Filing: WINMARK CORP - Form 10-K

The Company recognizes interest accrued related to unrecognized tax benefits and penalties as income tax expense for all periods presented. The Company had accrued approximately \$25,100 and \$23,000 for the payment of interest and penalties at December 29, 2007 and December 30, 2006, respectively.

The following table summarizes the activity related to the Company's unrecognized tax benefits:

	Total
Balance at December 31, 2006	\$ 258,500
Increases related to current year tax positions	76,400
Expiration of the statute of limitations for the assessment of taxes	(77,500)
Balance at December 29, 2007	\$ 257,400

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

12. Commitments and Contingencies:*Employee Benefit Plan*

The Company provides a 401(k) Savings Incentive Plan which covers substantially all employees. The plan provides for matching contributions and optional profit-sharing contributions at the discretion of the Board of Directors. Employee contributions are fully vested; matching and profit sharing contributions are subject to a five-year service vesting schedule. Company contributions to the plan for 2007 and 2006 were \$273,600 and \$237,200, respectively.

Operating Leases

The Company rents its corporate headquarters in a leased facility with a lease that expires in 2009. This lease requires the Company to pay maintenance, insurance, taxes and other expenses in addition to minimum annual rent. Total rent expense under these operating leases was \$503,400 in 2007 and \$471,300 in 2006. As of December 29, 2007, minimum rental commitments under noncancelable operating leases are as follows:

Year Ending December	Amount
2008	\$ 224,400
2009	146,000

In addition to the operating leases obligations disclosed above, the Company has remained a guarantor on Company-owned retail stores that have been either sold or closed. At December 29, 2007 and December 30, 2006, \$81,000 and \$105,000, respectively, is included in accrued liabilities relating to these guarantees. These leases have various expiration dates through 2008. The Company believes it has adequate accruals for any future liability.

Litigation

The Company is exposed to a number of asserted and unasserted legal claims encountered in the normal course of business. Management believes that the ultimate resolution of these matters will not have a material adverse effect on the consolidated financial position or results of

operations of the Company.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

13. Segment Reporting

The Company currently has two reportable business segments, franchising and leasing. The franchising segment franchises value-oriented retail store concepts that buy, sell, trade and consign merchandise. The leasing segment includes (i) Winmark Capital Corporation, a middle-market equipment leasing business and (ii) Wirth Business Credit, Inc., a small-ticket financing business. Segment reporting is intended to give financial statement users a better view of the how the Company manages and evaluates its businesses. The Company's internal management reporting is the basis for the information disclosed for its business segments. Segment assets are those that are directly used in or identified with segment operations, including cash, accounts receivable, prepaids, inventory, property and equipment and investment in leasing operations. Unallocated assets include corporate cash and cash equivalents, long-term investments, deferred tax amounts and other corporate assets. Inter-segment balances and transactions have been eliminated. The following tables summarize financial information by segment and provide a reconciliation of segment contribution to operating income:

	Year Ended	
	December 29, 2007	December 30, 2006
Revenue:		
Franchising	\$ 26,749,000	\$ 25,517,800
Leasing	4,416,200	1,852,700
Total revenue	\$ 31,165,200	\$ 27,370,500
Reconciliation to operating income (loss):		
Franchising segment contribution	\$ 9,137,700	\$ 8,627,600
Leasing segment contribution	(2,711,800)	(3,266,100)
Total operating income	\$ 6,425,900	\$ 5,361,500
Depreciation and amortization:		
Leasing	\$ 72,400	\$ 42,500
Unallocated	236,400	160,200
Total depreciation and amortization	\$ 308,800	\$ 202,700

	As of	
	December 29, 2007	December 30, 2006
Identifiable assets:		
Franchising	\$ 3,690,700	\$ 4,543,900
Leasing	43,565,300	19,861,300
Unallocated	9,690,800	11,607,300
Total	\$ 56,946,800	\$ 36,012,500

Notes: In prior years operating income included other contribution that represented unallocated shared-service costs such as corporate executive management, occupancy, management information services, account services, telephone expense and human resources. Other contribution is now allocated to the two segments based upon estimated revenues. December 30, 2006 amounts have been reclassified to conform with the December 29, 2007 presentation.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

14. Related Party Transactions:

On May 16, 2006, in connection with the Company's existing stock repurchase plan, Winmark repurchased 420,000 shares of common stock from Rush River Group, LLC (Rush River) for aggregate consideration of \$9.891 million, or \$23.55 per share, pursuant to a stock purchase agreement. The purchase price was based upon a 5% discount to the 30-day average closing price of Winmark's common stock as reported on Nasdaq, set on May 11, 2006. The 420,000 shares represent 100% of the shares of Winmark common stock held by Rush River, an entity owned and controlled by Winmark's Chairman and Chief Executive Officer, John L. Morgan, Vice-Chairman of the Board of Directors, Kirk A. MacKenzie, and Jack A. Norqual. The repurchase from Rush River was approved by Winmark's Audit Committee and the independent directors of the Board of Directors.

On June 6, 2006, in connection with the Company's existing stock repurchase plan, the Company repurchased 44,000 shares of common stock from K. Jeffrey Dahlberg, a greater than 5% shareholder, for aggregate consideration of \$1.0362 million, or \$23.55 per share.

On June 29, 2006, John L. Morgan, purchased approximately \$1.5 million in unsecured subordinated notes of various maturities (\$250,000 of two year maturity, \$500,000 of three year maturity, \$500,000 of four year maturity, and \$250,000 of five year maturity notes, all on a monthly interest payment schedule at the rates described in the Interest Rate Supplement filed with the Securities and Exchange Commission on June 16, 2006 (Interest Rate Supplement)) offered by Winmark pursuant to a prospectus and related documents declared effective on June 14, 2006 (Prospectus). In connection with his investment, Mr. Morgan agreed that his notes would be voted consistent with the majority of the remaining note holders in an event of default.

On July 14, 2006, Rush River subscribed for and purchased approximately \$10 million in unsecured subordinated notes of various maturities (\$2 million of six month maturity, \$1 million of one year maturity, \$1 million of two year maturity, \$2 million of three year maturity and \$4 million of five year maturity notes) all on a monthly interest payment schedule at the rates described in the Interest Rate Supplement offered by Winmark pursuant to the Prospectus. In connection with their investment, Rush River agreed that their notes would be voted consistent with the majority of the remaining note holders in an event of default.

In addition, Kirk A. MacKenzie, subscribed for and purchased \$500,000 of three year maturity unsecured subordinated notes, on a monthly interest payment schedule at the rates described in the Interest Rate Supplement, offered by Winmark pursuant to the Prospectus. In connection with his investment, Mr. MacKenzie agreed that his notes would be voted consistent with the majority of the remaining note holders in an event of default.

On February 12, 2007, in connection with Winmark Corporation's (Winmark) existing stock repurchase plan, the Company agreed to repurchase 50,000 shares of common stock from K. Jeffrey Dahlberg for aggregate consideration of \$900,000, or \$18.00 per share.

On February 27, 2007, John L. Morgan, chief executive officer and chairman of Winmark, subscribed for and purchased \$500,000 of two year maturity unsecured subordinated notes on a monthly interest payment schedule as described in the Interest Rate Supplement offered by Winmark pursuant to the Prospectus. In connection with their investment, Mr. Morgan agreed that his notes would be voted consistent with the majority of the remaining note holders in an event of default.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

On April 5, 2007, John L. Morgan, chief executive officer and chairman of Winmark, subscribed for and purchased \$400,000 of four year maturity unsecured subordinated notes on a monthly interest payment schedule at the rates described in the Interest Rate Supplement filed on Form 424B2 with the Securities and Exchange Commission on April 3, 2007 (April Interest Rate Supplement) offered by Winmark pursuant to a prospectus and related documents declared effective on March 30, 2007 (March Prospectus). In connection with his investment, Mr. Morgan agreed that his notes would be voted consistent with the majority of the remaining note holders in an event of default.

On May 15, 2007, in connection with the Company's existing stock repurchase plan, the Company agreed to repurchase 50,000 shares of common stock from K. Jeffrey Dahlberg for aggregate consideration of \$850,000, or \$17.00 per share.

On June 28, 2007, John L. Morgan purchased \$1 million of three year maturity unsecured subordinated notes on a monthly interest payment schedule as described in the April Interest Rate Supplement offered by Winmark pursuant to the March Prospectus. In connection with this investment, Mr. Morgan agreed that his notes would be voted consistent with the majority of the remaining note holders in an event of default.

On September 18, 2007, in connection with the Company's existing stock repurchase plan, the Company agreed to purchase 41,138 shares of common stock from Mark T. Hooley, a former executive officer and son-in-law of John L. Morgan, for aggregate consideration of \$771,700 or \$18.76 per share.

On October 4, 2007, John L. Morgan subscribed for and purchased \$800,000 of unsecured subordinated notes of various maturities (\$200,000 of six month maturity, \$200,000 of one year maturity, \$200,000 of two year maturity and \$200,000 of three year maturity) all on a monthly interest payment schedule at the rates described in the Interest Rate Supplement filed on Form 424B2 with the Securities and Exchange Commission on August 23, 2007 offered by Winmark pursuant to the March Prospectus. In connection with his investment, Mr. Morgan agreed that his notes would be voted consistent with the majority of the remaining note holders in an event of default.

On November 6, 2007, Sheila Morgan, spouse of John L. Morgan, subscribed for and purchased \$2,000,000 of unsecured subordinated notes of various maturities (\$500,000 of one year maturity, \$500,000 of two year maturity and \$1,000,000 of three year maturity) all on a monthly interest payment schedule at the rates described in the Interest Rate Supplement filed on Form 424B2 with the Securities and Exchange Commission on October 12, 2007 offered by Winmark pursuant to the March Prospectus. In connection with her investment, Mrs. Morgan agreed that her notes would be voted consistent with the majority of the remaining note holders in an event of default.

WINMARK CORPORATION AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

December 29, 2007 and December 30, 2006

15. Subsequent Events

On January 29, 2008, Sheldon Fleck completed a cashless exercise of the remaining 175,000 options to purchase shares of the Company's Common Stock pursuant to the Warrant he received from the Company on March 22, 2000.

16. Quarterly Financial Data (Unaudited):

The Company's unaudited quarterly results for the years ended December 29, 2007 and December 30, 2006 were as follows:

	First Quarter	Second Quarter	Third Quarter	Fourth Quarter	Total
2007					
Total Revenue	\$ 7,626,900	\$ 7,562,600	\$ 7,951,800	\$ 8,023,900	\$ 31,165,200
Income from Operations	1,290,200	1,128,300	2,189,200	1,818,200	6,425,900
Net Income	629,800	430,500	1,131,500	853,000	3,044,800
Net Income Per Common Share - Basic	\$.11	\$.08	\$.21	\$.16	\$.56
Net Income Per Common Share - Diluted	\$.11	\$.08	\$.20	\$.15	\$.54
2006					
Total Revenue	\$ 6,973,300	\$ 6,273,300	\$ 7,239,600	\$ 6,884,300	\$ 27,370,500
Income from Operations	1,409,000	1,065,900	1,566,900	1,319,700	5,361,500
Net Income	1,152,900	605,400	762,100	817,800	3,338,200
Net Income Per Common Share - Basic	\$.19	\$.10	\$.14	\$.14	\$.58
Net Income Per Common Share - Diluted	\$.18	\$.10	\$.13	\$.14	\$.56

The total of basic and diluted earnings per common share by quarter may not equal the totals for the year as there are changes in the weighted average number of common shares outstanding each quarter and basic and diluted earnings per common share are calculated independently for each quarter.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

Board of Directors and Shareholders

Winmark Corporation and Subsidiaries

We have audited the accompanying consolidated balance sheets of Winmark Corporation and subsidiaries (collectively, the Company) as of December 29, 2007 and December 30, 2006, and the related consolidated statements of earnings, changes in shareholders' equity and comprehensive income, and cash flows for the years ended December 29, 2007 and December 30, 2006. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Winmark Corporation and subsidiaries as of December 29, 2007 and December 30, 2006, and the results of their operations and their cash flows for the years ended then ended in conformity with accounting principles generally accepted in the United States of America.

/s/ Grant Thornton, LLP

Minneapolis, MN

March 17, 2008

ITEM 9: CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A: CONTROLS AND PROCEDURES

Under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)). Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports we file or submit under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified in the applicable rule and forms. During the period covered by this Annual Report on Form 10-K, there was no change in our internal control over financial reporting (as defined in Rule 13a-15(f) under the Exchange Act that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15(f). Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our internal control over financial reporting based on the framework in Internal Control – Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission. Based on our evaluation under the framework in Internal Control – Integrated Framework, our management concluded that our internal control over financial reporting was effective as of December 29, 2007.

Due to its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate due to changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

This annual report does not include an attestation report of the company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the company to provide only management's report in this annual report.

ITEM 9B: OTHER INFORMATION

All information required to be reported in a report on Form 8-K during the fourth quarter covered by this Form 10-K has been reported.

PART III

ITEM 10: DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The sections entitled Election of Directors, Executive Officers, Audit Committee, Majority of Independent Directors; Committees of Independent Directors, Section 16(a) Beneficial Ownership Reporting Compliance, and Code of Ethics and Business Conduct, appearing in our proxy statement for the annual meeting of stockholders to be held on April 30, 2008 are incorporated herein by reference.

ITEM 11: EXECUTIVE COMPENSATION

The sections entitled Executive Compensation and Director Compensation appearing in our proxy statement for the annual meeting of stockholders to be held on April 30, 2008 are incorporated herein by reference.

ITEM 12: SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT, AND RELATED STOCKHOLDER MATTERS

The sections entitled Security Ownership of Certain Beneficial Owners, Directors and Executive Officers and Securities Authorized for Issuance Under Equity Compensation Plans appearing in our proxy statement for the annual meeting of stockholders to be held on April 30, 2008 are incorporated herein by reference.

ITEM 13: CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE

The sections entitled Transactions with Related Persons, Promoters and Certain Control Persons and Majority of Independent Directors; Committees of Independent Directors appearing in our proxy statement for the annual meeting of stockholders to be held on April 30, 2008 is incorporated herein by reference.

ITEM 14: PRINCIPAL ACCOUNTANT FEES AND SERVICES

The section entitled Principal Accountant Fees and Services appearing in our proxy statement for the annual meeting of stockholders to be held April 30, 2008 is incorporated herein by reference.

PART IV

ITEM 15: EXHIBITS AND FINANCIAL STATEMENT SCHEDULES

The following documents are filed as a part of this Report:

1. **Financial Statements**
The financial statements filed as part of this report are listed on the Index to Consolidated Financial Statements on page 33.
2. **Financial Statement Schedules**
All schedules for which provision is made in the applicable accounting regulations of the SEC have been omitted as not required or not applicable, or the information required has been included elsewhere by reference in the consolidated financial statements and related items.
3. **Exhibits**
See Exhibit Index immediately following the signature page.
