Corporate Office Properties Trust and Subsidiaries

Notes to Consolidated Financial Statements

(Dollars in thousands, except per share data)

(unaudited)

1. Organization

Corporate Office Properties Trust (COPT) and subsidiaries (collectively, the Company , we or us) is a specialty office real estate investment trust (REIT) that focuses on strategic customer relationships and specialized tenant requirements in the United States Government, defense information technology and data sectors. We acquire, develop, manage and lease properties that are typically concentrated in large office parks primarily located adjacent to government demand drivers and/or in demographically strong markets possessing growth opportunities. As of June 30, 2008, our investments in real estate included the following:

- 234 wholly owned operating properties totaling 18.2 million square feet;
- 18 wholly owned properties under construction or development that we estimate will total approximately 1.8 million square feet upon completion;
- wholly owned land parcels totaling 1,457 acres that we believe are potentially developable into approximately 12.1 million square feet; and
- partial ownership interests in a number of other real estate projects in operation or under development or redevelopment.

We conduct almost all of our operations through our operating partnership, Corporate Office Properties, L.P. (the Operating Partnership), for which we are the managing general partner. The Operating Partnership owns real estate both directly and through subsidiary partnerships and limited liability companies (LLCs). A summary of our Operating Partnership 's forms of ownership and the percentage of those securities owned by COPT as of June 30, 2008 follows:

Common Units	85%
Series G Preferred Units	100%
Series H Preferred Units	100%
Series I Preferred Units	0%
Series J Preferred Units	100%
Series K Preferred Units	100%

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Three of our trustees also controlled at that date, either directly or through ownership by other entities or family members, 13% of the Operating Partnership's common units.

In addition to owning interests in real estate, the Operating Partnership also owns 100% of Corporate Office Management, Inc. (COMI) and owns, either directly or through COMI, 100% of the consolidated subsidiaries that are set forth below (collectively defined as the Service Companies):

Entity Name	Type of Service Business
COPT Property Management Services, LLC (CPM)	Real Estate Management
COPT Development & Construction Services, LLC (CDC)	Construction and Development
Corporate Development Services, LLC (CDS)	Construction and Development
COPT Environmental Systems, LLC (CES)	Heating and Air Conditioning

Most of the services that CPM provides are for us. CDC, CDS and CES provide services to us and to third parties.

Table of Contents

2. Basis of Presentation

The accompanying unaudited interim Consolidated Financial Statements have been prepared in accordance with the rules and regulations for reporting on Form 10-Q. Accordingly, certain information and disclosures required by accounting principles generally accepted in the United States for complete Consolidated Financial Statements are not included herein. These interim financial statements should be read together with the financial statements and notes thereto included in our 2007 Annual Report on Form 10-K. The interim financial statements reflect all adjustments that we believe are necessary for the fair statement of our financial position and results of operations for the interim periods presented. These adjustments are of a normal recurring nature. The results of operations for such interim periods are not necessarily indicative of the results for a full year.

We reclassified certain amounts from the prior period to conform to the current period presentation of our Consolidated Financial Statements. These reclassifications did not affect previously reported consolidated net income or shareholders' equity.

3. Earnings Per Share (EPS)

We present both basic and diluted EPS. We compute basic EPS by dividing net income available to common shareholders by the weighted average number of common shares of beneficial interest (common shares) outstanding during the period. Our computation of diluted EPS is similar except that:

- the denominator is increased to include: (1) the weighted average number of potential additional common shares that would have been outstanding if securities that are convertible into our common shares were converted; and (2) the effect of dilutive potential common shares outstanding during the period attributable to share-based compensation using the treasury stock method; and
- the numerator is adjusted to add back any changes in income or loss that would result from the assumed conversion into common shares that we added to the denominator.

Our computation of diluted EPS does not assume conversion of securities into our common shares if conversion of those securities would increase our diluted EPS in a given period. A summary of the numerator and denominator for purposes of basic and diluted EPS calculations is set forth below (dollars and shares in thousands, except per share data):

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Table of Contents

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2008	2007	2008	2007
Numerator:				
Income from continuing operations	\$ 11,707	\$ 8,112	\$ 21,228	\$ 13,523
Add: Gain on sales of real estate, net	31	161	833	161
Less: Preferred share dividends	(4,026)	(4,025)	(8,051)	(8,018)
Numerator for basic and diluted EPS from continuing operations	7,712	4,248	14,010	5,666
Income (loss) from discontinued operations, net	1,115	(396)	2,187	(260)
Numerator for basic and diluted EPS on net income available to common shareholders	\$ 8,827	\$ 3,852	\$ 16,197	\$ 5,406
Denominator (all weighted averages):				
Denominator for basic EPS (common shares)	47,110	46,686	47,055	46,185
Dilutive effect of share-based compensation awards	888	1,105	797	1,305
Denominator for diluted EPS	47,998	47,791	47,852	47,490
Basic EPS:				
Income from continuing operations	\$ 0.16	\$ 0.09	\$ 0.30	\$ 0.12
Income (loss) from discontinued operations	0.03	(0.01)	0.04	
Net income available to common shareholders	\$ 0.19	\$ 0.08	\$ 0.34	\$ 0.12
Diluted EPS:				
Income from continuing operations	\$ 0.16	\$ 0.09	\$ 0.29	\$ 0.12
Income (loss) from discontinued operations	0.02	(0.01)	0.05	(0.01)
Net income available to common shareholders	\$ 0.18	\$ 0.08	\$ 0.34	\$ 0.11

Our diluted EPS computations do not include the effects of the following securities since the conversions of such securities would increase diluted EPS for the respective periods:

	Weighted Average Shares in Denominator			
	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2008	2007	2008	2007
Conversion of weighted average common units	8,151	8,313	8,153	8,361
Conversion of weighted average convertible preferred shares	434	434	434	415
Conversion of weighted average convertible preferred units	176	176	176	176

The 3.5% Exchangeable Senior Notes did not affect our diluted EPS reported above since the weighted average closing price of our common shares during each of the periods was less than the exchange price per common share applicable for such periods.

4. Recent Accounting Pronouncements

SFAS 157

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

In September 2006, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 157, Fair Value Measurements (SFAS 157). SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. The Statement does not require or permit any new fair value measurements but does apply under other accounting pronouncements that require or permit fair value measurements. The changes to current practice resulting from the Statement relate to the definition of fair value, the methods used to measure fair value and the expanded disclosures about fair value measurements. With respect to SFAS 157, the FASB also issued FASB Staff Position SFAS 157-1, Application of FASB Statement No. 157 to FASB Statement No. 13 and Other Accounting Pronouncements That Address Fair Value Measurements for Purposes of Lease Classification or Measurement under Statement 13 (FSP FAS 157-1) and FASB Staff Position SFAS 157-2, Effective Date of FASB Statement No. 157 (FSP FAS 157-2). FSP FAS 157-1 amends SFAS 157 to exclude from the scope of SFAS 157 certain leasing transactions accounted for under Statement of Financial

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Table of Contents

Accounting Standards No. 13, Accounting for Leases. FSP FAS 157-2 amends SFAS 157 to defer the effective date of SFAS 157 for all non-financial assets and non-financial liabilities except those that are recognized or disclosed at fair value in the financial statements on a recurring basis to fiscal years beginning after November 15, 2008. Effective January 1, 2008, we adopted, on a prospective basis, the portions of SFAS 157 not deferred by FSP FAS 157-2; this adoption did not have a material effect on our financial position, results of operations or cash flows. We are evaluating the impact that SFAS 157 will have on our non-financial assets and non-financial liabilities since the application of SFAS 157 for such items for us was deferred to January 1, 2009.

Under SFAS 157, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date. SFAS 157 also establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the most observable inputs be used when available. Observable inputs are inputs market participants would use in valuing the asset or liability developed based on market data obtained from sources independent of us. Unobservable inputs are inputs that reflect our assumptions about the factors market participants would use in valuing the asset or liability developed based upon the best information available in the circumstances. The hierarchy of these inputs is broken down into three levels: Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities; Level 2 inputs include (1) quoted prices for similar assets or liabilities in active markets, (2) quoted prices for identical or similar assets or liabilities in markets that are not active and (3) inputs (other than quoted prices) that are observable for the asset or liability, either directly or indirectly; and Level 3 inputs are unobservable inputs for the asset or liability. Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The assets held in connection with our non-qualified elective deferred compensation plan and the corresponding liability to the participants are measured at fair value on a recurring basis on our consolidated balance sheet using quoted market prices. The assets are treated as trading securities for accounting purposes and included in restricted cash on our consolidated balance sheet. The offsetting liability is adjusted to fair value at the end of each accounting period based on the fair value of the plan assets and reported in other liabilities in our consolidated balance sheet. The assets and corresponding liability of our non-qualified elective deferred compensation plan are classified in Level 1 of the fair value hierarchy.

The valuation of our derivatives is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate market data and implied volatilities in such interest rates. While we determined that the majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy under SFAS 157, the credit valuation adjustments associated with our derivatives also utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default. However, as of June 30, 2008, we assessed the significance of the impact of the credit valuation adjustments on the overall valuation of our derivatives and determined that these adjustments are not significant to the overall valuation of our derivatives. As a result, we determined that our derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy.

The table below sets forth our financial assets and liabilities that are accounted for at fair value on a recurring basis as of June 30, 2008:

Description	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Assets:				
Deferred compensation plan assets (1)	\$ 6,331	\$	\$	\$ 6,331
Liabilities:				

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Deferred compensation plan liability (2)	\$	6,331	\$	\$	6,331
Interest rate swap contracts (2)				2,648	2,648
Liabilities	\$	6,331	\$	2,648	\$ 8,979

(1) Included in the line entitled restricted cash on our Consolidated Balance Sheet.

(2) Included in the line entitled other liabilities on our Consolidated Balance Sheet.

Table of Contents

Other Recent Accounting Pronouncements

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities (SFAS 159). SFAS 159 permits entities to choose to measure many financial assets and financial liabilities at fair value. Unrealized gains and losses on items for which the fair value option has been elected are reported in earnings. We adopted SFAS 159 on a prospective basis effective January 1, 2008. Our adoption of SFAS 159 did not have a material effect on our financial position, results of operations or cash flows since we did not elect to apply the fair value option for any of our eligible financial instruments or other items on the January 1, 2008 effective date.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 141(R), Business Combinations (SFAS 141(R)). SFAS 141(R) requires the acquiring entity in a business combination to recognize all (and only) the assets acquired and liabilities assumed in the transactions; establishes the acquisition-date fair value as the measurement objective for all assets acquired and liabilities assumed; and requires the acquirer to disclose to investors and other users all of the information they need to evaluate and understand the nature and financial effect of the business combination. SFAS 141(R) is effective for fiscal years beginning after December 15, 2008. While we are currently assessing the impact of SFAS 141(R) on our consolidated financial position and results of operations, SFAS 141(R) will require us to expense transaction costs associated with property acquisitions occurring subsequent to the pronouncement's effective date, which is a significant change since our current practice is to capitalize such costs into the cost of the acquisitions.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, Noncontrolling Interests in Consolidated Financial Statements (SFAS 160). SFAS 160 requires all entities to report noncontrolling (minority) interests in subsidiaries as equity in the consolidated financial statements. SFAS 160 is effective for fiscal years beginning after December 15, 2008. We are currently assessing the impact of SFAS 160 on our consolidated financial position and results of operations.

In March 2008, the FASB issued Statement of Financial Accounting Standards No. 161 Disclosures about Derivative Instruments and Hedging Activities (SFAS 161). This new standard expands the disclosure requirements for derivative instruments and for hedging activities in order to provide users of financial statements with an enhanced understanding of: (1) how and why an entity uses derivative instruments; (2) how derivative instruments and related hedged items are accounted for under Statement of Financial Accounting Standards No. 133, Accounting for Derivative Instruments and Hedging Activities and its related interpretations; and (3) how derivative instruments and related hedged items affect an entity's financial position, financial performance, and cash flows. SFAS 161 is to be applied prospectively for the first annual reporting period beginning on or after November 15, 2008. We are evaluating the impact that SFAS 161 will have on our reporting for derivatives.

In May 2008, the FASB issued FASB Staff Position No. APB 14-1, Accounting for Convertible Debt Instruments That May Be Settled in Cash upon Conversion (Including Partial Cash Settlement) (FSP APB-14-1). FSP APB-14-1 requires that the initial proceeds from convertible debt instruments that may be settled in cash, including partial cash settlements, be allocated between a liability component and an equity component associated with the embedded conversion option. This pronouncement's objective is to require the liability and equity components of convertible debt to be separately accounted for in order to enable interest expense to be recorded at a rate that would reflect the issuer's conventional debt borrowing rate (previously, interest expense on such debt was recorded based on the contractual rate of interest under the debt). Under this pronouncement, the liability component is recorded at its fair value, as calculated based on the present value of its cash flows discounted using the issuer's conventional debt borrowing rate. The equity component is recorded based on the difference between the debt proceeds and the fair value of the liability. The difference between the liability's principal amount and fair value is reported as a debt discount and amortized as interest expense over the debt's expected life using the effective interest method. The provisions of FSP APB 14-1 will be effective beginning January 1, 2009 and are to be applied retrospectively to all periods presented. While we are in the process of evaluating FSP APB 14-1, we currently believe that this pronouncement will affect the accounting for our 3.5% Exchangeable Senior Notes by resulting in our recognition of additional annual interest expense of approximately \$3,000 to \$4,000 over the five-year expected life of the debt, beginning on the debt's

September 18, 2006 origination date.

Table of Contents**5. Commercial Real Estate Properties**

Operating properties consisted of the following:

	June 30, 2008	December 31, 2007
Land	\$ 420,182	\$ 413,779
Buildings and improvements	2,145,700	2,064,960
	2,565,882	2,478,739
Less: accumulated depreciation	(320,879)	(285,800)
	\$ 2,245,003	\$ 2,192,939

As of December 31, 2007, 429 Ridge Road, an office property located in Dayton, New Jersey that we were under contract to sell for \$17,000, was classified as held for sale (Dayton, New Jersey is located in the Northern/Central New Jersey Region). We completed the sale of this property on January 31, 2008. The components associated with 429 Ridge Road as of December 31, 2007 included the following:

	December 31, 2007
Land	\$ 2,932
Buildings and improvements	15,003
	17,935
Less: accumulated depreciation	(2,947)
	\$ 14,988

Projects we had under construction or development consisted of the following:

	June 30, 2008	December 31, 2007
Land	\$ 208,742	\$ 214,696
Construction in progress	247,422	181,316
	\$ 456,164	\$ 396,012

2008 Acquisitions

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

We acquired the following office properties during the six months ended June 30, 2008:

Project Name	Location	Date of Acquisition	Number of Buildings	Total Rentable Square Feet	Acquisition Cost
3535 Northrop Grumman Point	Colorado Springs, CO	6/10/2008	1	124,305	\$ 23,240
1560 Cable Ranch Road (Buildings A and B)	San Antonio, TX	6/19/2008	2	122,975	17,317
			3	247,280	\$ 40,557

The table below sets forth the allocation of the acquisition costs of the three properties:

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

	3535 Northrop Grumman Point	1560 Cable Ranch Road	Total
Land, operating properties	\$	\$	\$ 3,396
Building and improvements	22,163	10,315	32,478
Intangible assets on real estate acquisitions	3,423	4,208	7,631
Total assets	25,586	17,919	43,505
Deferred revenue associated with acquired operating leases	(2,346)	(602)	(2,948)
Total acquisition cost	\$ 23,240	\$ 17,317	\$ 40,557

Table of Contents

Intangible assets recorded in connection with the above acquisitions included the following:

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

			Weighted Average Amortization Period (in Years)
Lease-up value	\$	4,558	10
Tenant relationship value		1,537	12
Lease cost portion of deemed cost avoidance		1,536	11
	\$	7,631	11

2008 Construction, Development and Redevelopment Activities

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

During the six months ended June 30, 2008, we had five properties totaling 437,064 square feet become fully operational (89,497 of these square feet were placed into service in 2007). Three of these properties are located in Colorado Springs, Colorado (Colorado Springs) and two in the Baltimore/Washington Corridor.

As of June 30, 2008, we had construction underway on four new properties in the Baltimore/Washington Corridor (including one through a joint venture), four in Colorado Springs, two in San Antonio, Texas (San Antonio) and one in the Suburban Maryland region through a joint venture. We also had development activities underway on three new properties in Suburban Baltimore, two each in the Baltimore/Washington Corridor, San Antonio and Suburban Maryland (including one through a joint venture) and one in King George County, Virginia. In addition, we had redevelopment underway on two properties owned by a joint venture (one located in the Baltimore/Washington Corridor and the other in Northern Virginia).

2008 Dispositions

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

We sold the following operating properties during the six months ended June 30, 2008:

Project Name	Location	Date of Sale	Number of Buildings	Total Rentable Square Feet	Sale Price	Gain on Sale
429 Ridge Road	Dayton, New Jersey	1/31/2008	1	142,385	\$ 17,000	\$ 1,365
7253 Ambassador Road	Woodlawn, Maryland	6/2/2008	1	38,930	5,100	1,278
47 Commerce Road	Cranbury, New Jersey	4/1/2008	1	41,398	3,150	
			3	222,713	\$ 25,250	\$ 2,643

During the six months ended June 30, 2008, we also completed the sale of six recently constructed office condominiums located in Herndon Virginia (located in the Northern Virginia region) for sale prices totaling \$8,388 in the aggregate. We recognized an aggregate gain before minority interests and taxes of \$1,368 on these sales.

The table below sets forth the components of the line on our Consolidated Statements of Operations entitled "gain on sales of real estate" for the three and six months ended June 30, 2008:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2008	2007	2008	2007
Gain on sales of real estate	\$ 46	\$ 194	\$ 1,678	\$ 194
Income taxes	(5)	(3)	(578)	(3)
Minority interests				
Common units in the Operating Partnership	(8)	(30)	(151)	(30)
Other consolidated entities	(2)		(116)	
Gain on sale of real estate, net	\$ 31	\$ 161	\$ 833	\$ 161

Table of Contents**6. Real Estate Joint Ventures**

During the six months ended June 30, 2008, we had an investment in one unconsolidated real estate joint venture accounted for using the equity method of accounting. Information pertaining to this joint venture investment is set forth below.

	Investment Balance at		Date Acquired	Ownership	Nature of Activity	Total Assets at 6/30/2008	Maximum Exposure to Loss (1)
	June 30, 2008	December 31, 2007					
Harrisburg Corporate Gateway Partners, L.P.	\$ (4,506)(2)	\$ (4,246)(2)	9/29/2005	20%	Operates 16 buildings (3)	\$ 71,261	\$

(1) Derived from the sum of our investment balance and maximum additional unilateral capital contributions or loans required from us. Not reported above are additional amounts that we and our partner are required to fund when needed by this joint venture; these funding requirements are proportional to our respective ownership percentages. Also not reported above are additional unilateral contributions or loans from us, the amounts of which are uncertain, which we would be required to make if certain contingent events occur.

(2) The carrying amount of our investment in this joint venture was lower than our share of the equity in the joint venture by \$5,196 at June 30, 2008 and December 31, 2007 due to our deferral of gain on the contribution by us of real estate into the joint venture upon its formation. A difference will continue to exist to the extent the nature of our continuing involvement in the joint venture remains the same.

(3) This joint venture's properties are located in Greater Harrisburg, Pennsylvania.

The following table sets forth condensed balance sheets for Harrisburg Corporate Gateway Partners, L.P.:

	June 30, 2008	December 31, 2007
Commercial real estate property	\$ 62,961	\$ 63,773
Other assets	8,300	9,051
Total assets	\$ 71,261	\$ 72,824
Liabilities	\$ 67,799	\$ 67,991
Owners' equity	3,462	4,833
Total liabilities and owners' equity	\$ 71,261	\$ 72,824

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

The following table sets forth condensed statements of operations for Harrisburg Corporate Gateway Partners, L.P.:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2008	2007	2008	2007
Revenues	\$ 2,413	\$ 2,426	\$ 4,796	\$ 4,870
Property operating expenses	(876)	(876)	(1,701)	(1,836)
Interest expense	(980)	(980)	(1,960)	(2,118)
Depreciation and amortization expense	(830)	(855)	(1,660)	(1,722)
Net loss	\$ (273)	\$ (285)	\$ (525)	\$ (806)

On January 29, 2008, we completed the formation of M Square Associates, LLC (M Square), a consolidated joint venture in which we hold a 50% equity interest through Enterprise Campus Developer, LLC, another consolidated joint venture in which we own a 90% interest. M Square was formed to develop and own office properties, approved for up to approximately 750,000 square feet, located in M Square Research Park in College Park, Maryland (located in the Suburban Maryland region).

The table below sets forth information pertaining to our investments in consolidated joint ventures at June 30, 2008:

Table of Contents

	Date Acquired	Ownership % at 6/30/2008	Nature of Activity	Total Assets at 6/30/2008	Collateralized Assets at 6/30/2008
COPT Opportunity Invest I, LLC	12/20/2005	92.5%	Redeveloping two properties(1)	\$ 43,252	\$
Arundel Preserve #5, LLC	7/2/2007	50.0%	Developing land parcel(2)	26,113	
Enterprise Campus Developer, LLC	6/26/2007	90.0%	Developing land parcels(3)	24,317	
COPT-FD Indian Head, LLC	10/23/2006	75.0%	Developing land parcel(4)	4,772	
MOR Forbes 2 LLC	12/24/2002	50.0%	Operates one building(5)	4,409	
13849 Park Center Road, LLC	10/2/2007	92.5%	Redeveloping one property(6)	542	
				\$ 103,405	\$

(1) This joint venture owns one property in the Northern Virginia region and one in the Baltimore/Washington Corridor region.

(2) This joint venture is developing a land parcel located in Hanover, Maryland (located in the Baltimore/Washington Corridor).

(3) This joint venture is developing land parcels located in College Park, Maryland through the M Square joint venture.

(4) This joint venture's property is located in Charles County, Maryland (located in our other business segment).

(5) This joint venture's property is located in Lanham, Maryland (located in the Suburban Maryland region).

(6) This joint venture is redeveloping a property in the Northern Virginia region.

Our commitments and contingencies pertaining to our real estate joint ventures are disclosed in Note 20.

7. Intangible Assets on Real Estate Acquisitions

Intangible assets on real estate acquisitions consisted of the following:

	June 30, 2008		December 31, 2007			
	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount	Gross Carrying Amount	Accumulated Amortization	Net Carrying Amount
Lease-up value	\$ 129,613	\$ 65,322	\$ 64,291	\$ 125,338	\$ 58,435	\$ 66,903
Tenant relationship value	36,514	10,623	25,891	35,189	7,892	27,297
Lease cost portion of deemed cost avoidance	18,587	9,828	8,759	17,133	8,697	8,436
Lease to market value	14,428	10,369	4,059	14,428	9,555	4,873
Market concentration premium	1,333	197	1,136	1,333	181	1,152
	\$ 200,475	\$ 96,339	\$ 104,136	\$ 193,421	\$ 84,760	\$ 108,661

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Amortization of the intangible asset categories set forth above totaled \$11,724 in the six months ended June 30, 2008 and \$16,678 in the six months ended June 30, 2007. The approximate weighted average amortization periods of the categories set forth above follow: lease-up value: nine years; tenant relationship value: seven years; lease cost portion of deemed cost avoidance: six years; lease to market value: four years; and market concentration premium: 34 years. The approximate weighted average amortization period for all of the categories combined is nine years. Estimated amortization expense associated with the intangible asset categories set forth above is \$10,500 for the six months ending December 31, 2008, \$19,100 for 2009, \$14,900 for 2010, \$12,100 for 2011, \$9,800 for 2012 and \$7,300 for 2013.

8. Deferred Charges

Deferred charges consisted of the following:

	June 30, 2008	December 31, 2007
Deferred leasing costs	\$ 64,946	\$ 63,052
Deferred financing costs	34,874	32,617
Goodwill	1,853	1,853
Deferred other	155	155
	101,828	97,677
Accumulated amortization	(53,208)	(48,626)
Deferred charges, net	\$ 48,620	\$ 49,051

Table of Contents**9. Accounts Receivable**

Our accounts receivable are reported net of an allowance for bad debts of \$1,249 at June 30, 2008 and \$798 at December 31, 2007.

10. Prepaid Expenses and Other Assets

Prepaid and other assets consisted of the following:

	June 30, 2008	December 31, 2007
Furniture, fixtures and equipment	\$ 11,807	\$ 11,410
Prepaid expenses	8,834	13,907
Construction contract costs incurred in excess of billings	8,031	19,425
Other assets	9,262	7,239
Prepaid expenses and other assets	\$ 37,934	\$ 51,981

11. Debt

Our debt consisted of the following:

	Maximum Principal Amount Under Debt at June 30, 2008	Carrying Value at		Stated Interest Rates at June 30, 2008	Scheduled Maturity Dates at June 30, 2008
		June 30, 2008	December 31, 2007		
Mortgage and other loans payable:					
Revolving Credit Facility	\$ 600,000	\$ 465,000	\$ 361,000	LIBOR + 0.75% to 1.25%	September 30, 2011 (1)
Mortgage and Other Secured Loans					
Fixed rate mortgage loans (2)	N/A	1,063,596	1,124,551	5.20% - 8.63 (3)%	2008 - 2034 (4)
Revolving Construction Facility (5)	225,000	35,432		LIBOR + 1.60% to 2.00%	May 2, 2011 (1)
Other construction loan facilities	111,500	104,089	104,089	LIBOR + 1.40% to 1.50%	2008-2009
Other variable-rate secured loans	N/A	34,500	34,500	LIBOR + 1.20% to 1.50%	2008
Total mortgage and other secured loans		1,237,617	1,263,140		
Note payable					
Unsecured seller notes	N/A	1,734	1,702	0% - 5.95%	2008-2016
Total mortgage and other loans payable		1,704,351	1,625,842		
3.5% Exchangeable Senior Notes	N/A	200,000	200,000	3.50%	September 2026 (6)

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Total debt \$ 1,904,351 \$ 1,825,842

- (1) These facilities may be extended for a one-year period at our option, subject to certain conditions.
- (2) Several of the fixed rate mortgages carry interest rates that were above or below market rates upon assumption and therefore are recorded at their fair value based on applicable effective interest rates. The carrying values of these loans reflect net premiums totaling \$556 at June 30, 2008 and \$605 at December 31, 2007.
- (3) The weighted average interest rate on these loans was 5.82% at June 30, 2008.
- (4) A loan with a balance of \$4,781 at June 30, 2008 that matures in 2034 may be repaid in March 2014, subject to certain conditions.
- (5) This loan is described in further detail below.
- (6) Refer to our 2007 Annual Report on Form 10-K for descriptions of provisions for early redemption and repurchase of these notes.

On May 2, 2008, we entered into a construction loan agreement with a group of lenders for which KeyBanc Capital Markets, Inc. acted as arranger, KeyBank National Association acted as administrative agent, Bank of America, N.A. acted as syndication agent and Manufacturers and Traders Trust Company acted as documentation agent; this loan is referred to in the table above as the Revolving Construction Facility. The construction loan agreement provides for an aggregate commitment by the lenders of \$225,000, with a right for us to further increase the lenders aggregate commitment during the term to a maximum of \$325,000, subject to certain conditions. Ownership interests in the properties for which construction costs are being financed through loans under the

Table of Contents

agreement are pledged as collateral. Borrowings are generally available for properties included in this construction loan agreement based on 85% of the total budgeted costs of construction of the applicable improvements for such properties as set forth in the properties' construction budgets, subject to certain other loan-to-value and debt coverage requirements. As loans for properties under the construction loan agreement are repaid in full and the ownership interests in such properties are no longer pledged as collateral, capacity under the construction loan agreement's aggregate commitment will be restored, giving us the ability to obtain new loans for other construction properties in which we pledge the ownership interests as collateral. The construction loan agreement matures on May 2, 2011, and may be extended by one year at our option, subject to certain conditions. The variable interest rate on each loan is based on one of the following, to be selected by us: (1) subject to certain conditions, the LIBOR rate for the interest period designated by us (customarily the 30-day rate) plus 1.6% to 2.0%, as determined by our leverage levels at different points in time; or (2) the greater of (a) the prime rate of the lender then acting as agent or (b) the Federal Funds Rate, as defined in the construction loan agreement, plus 0.50%. Interest is payable at the end of each interest period (as defined in the agreement), and principal outstanding under each loan under the agreement is payable on the maturity date. The construction loan agreement also carries a quarterly fee that is based on the unused amount of the commitment multiplied by a per annum rate of 0.125% to 0.20%.

We capitalized interest costs of \$8,957 in the six months ended June 30, 2008 and \$8,906 in the six months ended June 30, 2007.

12. Derivatives

The following table sets forth our interest rate swap contracts in place during the six months ended June 30, 2008 and their respective fair values:

Notional Amount	One-Month LIBOR Base	Effective Date	Expiration Date	Fair Value at	
				June 30, 2008	December 31, 2007
\$ 50,000	4.3300%	10/23/2007	10/23/2009	\$ (836)	\$ (596)
50,000	5.0360%	3/28/2006	3/30/2009	(826)	(765)
25,000	5.2320%	5/1/2006	5/1/2009	(493)	(486)
25,000	5.2320%	5/1/2006	5/1/2009	(493)	(486)
				\$ (2,648)	\$ (2,333)

These amounts are included on our Consolidated Balance Sheets as other liabilities.

We designated these derivatives as cash flow hedges. These contracts hedge the risk of changes in interest rates on certain of our one-month LIBOR-based variable rate borrowings until their respective maturities.

The table below sets forth our accounting application of changes in derivative fair values:

**For the Three Months
Ended June 30,**

**For the Six Months
Ended June 30,**

Dividends/distribution payable	\$ 22,548	\$ 20,754
Decrease in minority interests and increase in shareholders' equity in connection with the conversion of common units into common shares	\$ 420	\$ 18,958

Table of Contents**16. Information by Business Segment**

As of June 30, 2008, we had nine primary office property segments: Baltimore/Washington Corridor; Northern Virginia; Suburban Baltimore; Colorado Springs; Suburban Maryland; Greater Philadelphia; St. Mary's and King George Counties; San Antonio; and Northern/Central New Jersey.

The table below reports segment financial information. Our segment entitled "Other" includes assets and operations not specifically associated with the other defined segments, including corporate assets and investments in unconsolidated entities. We measure the performance of our segments based on total revenues less property operating expenses, a measure we define as net operating income ("NOI"). We believe that NOI is an important supplemental measure of operating performance for a REIT's operating real estate because it provides a measure of the core operations that is unaffected by depreciation, amortization, financing and general and administrative expenses; this measure is particularly useful in our opinion in evaluating the performance of geographic segments, same-office property groupings and individual properties.

	Baltimore/ Washington Corridor	Northern Virginia	Suburban Baltimore	Colorado Springs	Suburban Maryland	Greater Philadelphia	St. Mary's & King George Counties	San Antonio	Northern/ Central New Jersey	Other	Intersegment Elimination	Total

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

The accounting policies of the segments are the same as those previously disclosed for Corporate Office Properties Trust and subsidiaries, where applicable. We did not allocate interest expense,

Table of Contents

amortization of deferred financing costs and depreciation and other amortization to segments since they are not included in the measure of segment profit reviewed by management. We also did not allocate construction contract revenues, other service operations revenues, construction contract expenses, other service operations expenses, equity in loss of unconsolidated entities, general and administrative expense, gain on sale of non-real estate investment, income taxes and minority interests because these items represent general corporate items not attributable to segments.

17. Share-Based Compensation

During the six months ended June 30, 2008, we granted 40,000 options to purchase common shares (options) to members of our Board of Trustees. The exercise price of these option grants was \$37.81 per share. These options vest on the first anniversary of the grant date provided that the Trustees remain in their positions. These option grants expire ten years after the grant date. We computed share-based compensation expense for these options under the fair value method using the Black-Scholes option-pricing model; the assumptions we used in that model are set forth below:

Fair value of grants on grant date	\$	8.00
Risk-free interest rate		3.62%
Expected life (in years)		6.52
Expected volatility		24.22%
Expected annual dividend yield		3.07%

During the six months ended June 30, 2008, 90,209 options were exercised. The weighted average exercise price of these options was \$15.12 per share, and the total intrinsic value of options exercised was \$1,986.

During the six months ended June 30, 2008, certain employees were granted a total of 286,094 restricted shares with a weighted average grant date fair value of \$32.19 per share. These shares are subject to forfeiture restrictions that lapse in equal increments annually over a three-year period (for most of the grants) or a five-year period, in each case beginning on the first anniversary of the grant date provided that the employees remain employed by us. During the six months ended June 30, 2008, forfeiture restrictions lapsed on 134,145 common shares previously issued to employees. These shares had a weighted average grant date fair value of \$34.82 per share, and the total fair value of the shares on the vesting dates was \$4,259.

We realized a windfall tax benefit of \$1,053 in the six months ended June 30, 2008 on options exercised and vesting restricted shares in connection with employees of our subsidiaries that are subject to income tax. We did not realize a windfall tax benefit in the six months ended June 30, 2007 because COMI had a net operating loss carryforward for tax purposes; had COMI not had a net operating loss carryforward during the six months ended June 30, 2007, we would have recognized a windfall tax benefit of \$1,687 in that period.

Expenses from share-based compensation are reflected in our Consolidated Statements of Operations as follows:

For the Three Months

For the Six Months

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

	Ended June 30,		Ended June 30,	
	2008	2007	2008	2007
Increase in general and administrative expenses	\$ 1,572	\$ 1,196	\$ 3,103	\$ 2,075
Increase in construction contract and other service operations expenses	583	509	1,098	863
Share-based compensation expense	2,155	1,705	4,201	2,938
Income tax benefit (expense)	10	(66)	(29)	(101)
Minority interests	(329)	(256)	(635)	(449)
Net share-based compensation expense	\$ 1,836	\$ 1,383	\$ 3,537	\$ 2,388

Table of Contents**18. Income Taxes**

The table below sets forth COMI's provision for income tax benefit (expense) and its presentation on our Consolidated Statements of Operations:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2008	2007	2008	2007
Deferred				
Federal	\$ 53	\$ (148)	\$ (303)	\$ (234)
State	8	(33)	(71)	(52)
	61	(181)	(374)	(286)
Current				
Federal	34		(171)	
State	7		(38)	
	41		(209)	
Total income tax benefit (expense)	\$ 102	\$ (181)	\$ (583)	\$ (286)
Reported on line entitled income tax benefit (expense)	\$ 107	\$ (178)	\$ (5)	\$ (283)
Reported on line entitled gain on sales of real estate, net	(5)	(3)	(578)	(3)
Total income tax benefit (expense)	\$ 102	\$ (181)	\$ (583)	\$ (286)

Items contributing to temporary differences that lead to deferred taxes include net operating losses that are not deductible until future periods, depreciation and amortization, certain accrued compensation and compensation paid in the form of contributions to a nonqualified deferred compensation plan.

COMI's combined Federal and state effective tax rate was 39% for the three and six months ended June 30, 2008 and 2007.

19. Discontinued Operations

Income from discontinued operations primarily includes revenues and expenses associated with the following:

- 2 and 8 Centre Drive properties that were sold on September 7, 2007;
- 7321 Parkway property that was sold on September 7, 2007;
- 429 Ridge Road property that was sold on January 31, 2008;

- 47 Commerce Drive property that was sold on April 1, 2008; and
- 7253 Ambassador Road property that was sold on June 2, 2008.

Table of Contents

The table below sets forth the components of income from discontinued operations:

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2008	2007	2008	2007
Revenue from real estate operations	\$ 85	\$ 796	\$ 355	\$ 2,323
Expenses from real estate operations:				
Property operating expenses	11	363	198	891
Depreciation and amortization		253	52	601
Interest expense	10	637	51	1,125
Expenses from real estate operations	21	1,253	301	2,617
Income (loss) from discontinued operations before gain on sales of real estate and minority interests	64	(457)	54	(294)
Gain (loss) on sales of real estate	1,250	(11)	2,526	(11)
Minority interests in discontinued operations	(199)	72	(393)	45
Income (loss) from discontinued operations, net of minority interests	\$ 1,115	\$ (396)	\$ 2,187	\$ (260)

20. Commitments and Contingencies

In the normal course of business, we are involved in legal actions arising from our ownership and administration of properties. Management does not anticipate that any liabilities that may result will have a materially adverse effect on our financial position, operations or liquidity. We are subject to various Federal, state and local environmental regulations related to our property ownership and operation. We have performed environmental assessments of our properties, the results of which have not revealed any environmental liability that we believe would have a materially adverse effect on our financial position, operations or liquidity.

Acquisitions

As of June 30, 2008, we were under contract to acquire a parcel of land in San Antonio for a purchase price of \$8,102, on which we had paid a deposit of \$1,000; we completed this acquisition on July 16, 2008. We were also under contract to acquire a parcel of land in Frederick, Maryland for a purchase price of \$8,000, on which we had paid a deposit of \$355.

Joint Ventures

As part of our obligations under the partnership agreement of Harrisburg Corporate Gateway Partners, LP, we agreed to indemnify the partnership's lender for 80% of losses under standard nonrecourse loan guarantees (environmental indemnifications and guarantees against fraud and misrepresentation) during the period of time in which we manage the partnership's properties; we do not expect to incur any losses under these loan guarantees.

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

We are party to a contribution agreement that formed a joint venture relationship with a limited partnership to develop up to 1.8 million square feet of office space on 63 acres of land located in Hanover, Maryland. Under the contribution agreement, we agreed to fund up to \$2,200 in pre-construction costs associated with the property. As we and the joint venture partner agree to proceed with the construction of buildings in the future, our joint venture partner would contribute land into newly-formed entities and we would make additional cash capital contributions into such entities to fund development and construction activities for which financing is not obtained. We owned a 50% interest in one such joint venture as of June 30, 2008.

Table of Contents

We may be required to make our pro rata share of additional investments in our real estate joint ventures (generally based on our percentage ownership) in the event that additional funds are needed. In the event that the other members of these joint ventures do not pay their share of investments when additional funds are needed, we may then deem it appropriate to make even larger investments in these joint ventures.

In one of the consolidated joint ventures that we owned as of June 30, 2008, we would be obligated to acquire the other member's 50% interest in the joint venture if defined events were to occur. The amount we would need to pay for that membership interest is computed based on the amount that the owner of the interest would receive under the joint venture agreement in the event that the office property owned by the joint venture was sold for a capitalized fair value (as defined in the agreement) on a defined date. We estimate the aggregate amount we would need to pay for the other member's membership interest in this joint venture to be \$718; however, since the determination of this amount is dependent on the operations of the office property, which is not both completed and sufficiently occupied, this estimate is preliminary and could be materially different from the actual obligation.

Office Space Operating Leases

We are obligated as lessee under five operating leases for office space. Future minimum rental payments due under the terms of these leases as of June 30, 2008 follow:

Six months ended December 31, 2008	\$	127
2009		178
2010		135
2011		57
	\$	497

Other Operating Leases

We are obligated under various leases for vehicles and office equipment. Future minimum rental payments due under the terms of these leases as of June 30, 2008 follow:

Six months ended December 31, 2008	\$	244
2009		367
2010		179
2011		43
	\$	833

Environmental Indemnity Agreement

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

We agreed to provide certain environmental indemnifications in connection with a lease of three properties in our New Jersey region. The prior owner of the properties, a Fortune 100 company which is responsible for groundwater contamination at such properties, previously agreed to indemnify us for (1) direct losses incurred in connection with the contamination and (2) its failure to perform remediation activities required by the State of New Jersey, up to the point that the state declares the remediation to be complete. Under the lease agreement, we agreed to the following:

- to indemnify the tenant against losses covered under the prior owner's indemnity agreement if the prior owner fails to indemnify the tenant for such losses. This indemnification is capped at \$5,000 in perpetuity after the State of New Jersey declares the remediation to be complete;
- to indemnify the tenant for consequential damages (e.g., business interruption) at one of the buildings in perpetuity and another of the buildings for 15 years after the tenant's acquisition of the property from us. This indemnification is capped at \$12,500; and
- to pay 50% of additional costs related to construction and environmental regulatory activities incurred by the tenant as a result of the indemnified environmental condition of the properties. This indemnification is capped at \$300 annually and \$1,500 in the aggregate.

Table of Contents

21. Subsequent Event

On July 18, 2008, we borrowed \$221,400 under a mortgage loan requiring interest only payments for the term at a variable rate of LIBOR plus 225 basis points. This loan facility has a four-year term with an option to extend by an additional year.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

Corporate Office Properties Trust (COPT) and subsidiaries (collectively, the Company , we or us) is a specialty office real estate investment trust (REIT) that focuses on strategic customer relationships and specialized tenant requirements in the United States Government, defense information technology and data sectors. We acquire, develop, manage and lease properties that are typically concentrated in large office parks primarily located adjacent to government demand drivers and/or in demographically strong markets possessing growth opportunities. As of June 30, 2008, our investments in real estate included the following:

- 234 wholly owned operating properties totaling 18.2 million square feet;
- 18 wholly owned properties under construction or development that we estimate will total approximately 1.8 million square feet upon completion;
- wholly owned land parcels totaling 1,457 acres that we believe are potentially developable into approximately 12.1 million square feet; and
- partial ownership interests in a number of other real estate projects in operation or under development or redevelopment.

During the six months ended June 30, 2008, we:

- experienced significant growth in revenues from real estate operations and property operating expenses due primarily to the addition of properties through construction activities and acquisitions;
- finished the period with occupancy of our wholly owned portfolio of properties at 93.4%;
- acquired three office properties totaling 247,280 square feet (one located in Colorado Springs and two in San Antonio) for \$40.6 million;
- had five newly-constructed properties totaling 437,064 square feet (three located in Colorado Springs and two in the Baltimore/Washington Corridor) become fully operational. We also had 41,500 square feet placed into service in one partially operational property;
- sold three operating properties for a total of \$25.3 million, resulting in recognized gains before minority interests of \$2.6 million;

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

- sold six recently constructed office condominiums located in Northern Virginia for sale prices totaling \$8.4 million in the aggregate, resulting in a recognized gain before minority interests and taxes of \$1.4 million; and
- entered into a construction loan agreement with a group of lenders that provides for an aggregate commitment by the lenders of \$225.0 million, with a right for us to further increase the aggregate commitment during the term to a maximum of \$325.0 million, subject to certain conditions. The construction loan agreement matures on May 2, 2011, and may be extended by one year at our option, subject to certain conditions.

On July 18, 2008, we borrowed \$221.4 million under a mortgage loan requiring interest only payments for the term at a variable rate of LIBOR plus 225 basis points. This loan facility has a four-year term with an option to extend by an additional year.

In this section, we discuss our financial condition and results of operations as of and for the three and six months ended June 30, 2008. This section includes discussions on, among other things:

- our results of operations and why various components of our Consolidated Statements of Operations changed for the three and six months ended June 30, 2008 compared to the same periods in 2007;
- how we raised cash for acquisitions and other capital expenditures during the six months ended June 30, 2008;
- changes in our cash flows for the six months ended June 30, 2008 and 2007;
- how we expect to generate cash for short and long-term capital needs;
- our commitments and contingencies at June 30, 2008; and

Table of Contents

- the computation of our Funds from Operations for the three and six months ended June 30, 2008 and 2007.

You should refer to our Consolidated Financial Statements as you read this section.

This section contains forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995, that are based on our current expectations, estimates and projections about future events and financial trends affecting the financial condition and operations of our business. Forward-looking statements can be identified by the use of words such as may, will, should, expect, estimate or other comparable terminology. Forward-looking statements are inherently subject to risks and uncertainties, many of which we cannot predict with accuracy and some of which we might not even anticipate. Although we believe that the expectations, estimates and projections reflected in such forward-looking statements are based on reasonable assumptions at the time made, we can give no assurance that these expectations, estimates and projections will be achieved. Future events and actual results may differ materially from those discussed in the forward-looking statements. Important factors that may affect these expectations, estimates and projections include, but are not limited to:

- our ability to borrow on favorable terms;
- general economic and business conditions, which will, among other things, affect office property demand and rents, tenant creditworthiness, interest rates and financing availability;
- adverse changes in the real estate markets, including, among other things, increased competition with other companies;
- risks of real estate acquisition and development activities, including, among other things, risks that development projects may not be completed on schedule, that tenants may not take occupancy or pay rent or that development and operating costs may be greater than anticipated;
- risks of investing through joint venture structures, including risks that our joint venture partners may not fulfill their financial obligations as investors or may take actions that are inconsistent with our objectives;
- our ability to satisfy and operate effectively under Federal income tax rules relating to real estate investment trusts and partnerships;
- governmental actions and initiatives; and
- environmental requirements.

We undertake no obligation to update or supplement forward-looking statements.

Table of Contents**Results of Operations**

While reviewing this section, you should refer to the Operating Data Variance Analysis table set forth on the preceding page, as it reflects the computation of the variances described in this section.

Occupancy and Leasing

The table below sets forth leasing information pertaining to our portfolio of wholly owned operating properties:

	June 30, 2008	December 31, 2007
Occupancy rates		
Total	93.4%	92.6%
Baltimore/Washington Corridor	92.5%	92.6%
Northern Virginia	99.3%	98.6%
Suburban Baltimore	85.5%	84.8%
Suburban Maryland	97.6%	97.8%
Colorado Springs, Colorado	94.9%	96.7%
St. Mary's and King George Counties	93.0%	91.6%
Greater Philadelphia	100.0%	100.0%
San Antonio, Texas	100.0%	100.0%
Northern/Central New Jersey	100.0%	70.8%
Other	100.0%	100.0%
Average contractual annual rental rate per square foot at period end (1)	\$ 21.92	\$ 21.36

(1) Includes estimated expense reimbursements.

The large increase in the occupancy rate of our Northern/Central New Jersey region reflected above was attributable to our sale of the 429 Ridge Road property, which was the only property in that region that was not fully occupied.

We renewed 76.1% of the square footage scheduled to expire in the six months ended June 30, 2008 (including the effects of early renewals and early lease terminations). This renewal rate was positively impacted by the effect of a high number of early renewals during the period.

As we stated in the section entitled Management's Discussion and Analysis of Financial Condition and Results of Operations in our 2007 Annual Report on Form 10-K, we believe that there is a fair amount of uncertainty surrounding the outlook for leasing activity for our overall portfolio in 2008 and 2009, and possibly beyond. Despite this uncertainty, we believe that we are somewhat protected in the short run from a slow down in leasing activity since the weighted average lease term for our wholly owned properties at June 30, 2008 was 4.8 years.

Table of Contents

The table below sets forth occupancy information pertaining to operating properties in which we have a partial ownership interest:

Geographic Region	Ownership Interest	Occupancy Rates at	
		June 30, 2008	December 31, 2007
Greater Harrisburg (1)	20.0%	89.9%	90.5%
Suburban Maryland (2)	(2)	86.3%	76.2%
Northern Virginia (3)	92.5%	100.0%	100.0%

-
- (1) Includes 16 properties totaling 671,759 operational square feet.
- (2) Includes two properties with 97,366 operational square feet at June 30, 2008 (we had a 50% ownership interest in 55,866 square feet and a 45% ownership interest in 41,500 square feet). Includes one property with 55,866 operational square feet at December 31, 2007 in which we had a 50% ownership interest.
- (3) Includes one property with 78,171 operational square feet.

Revenues from real estate operations and property operating expenses

We view our changes in revenues from real estate operations and property operating expenses as being comprised of the following main components:

- Changes attributable to the operations of properties owned and 100% operational throughout the two periods being compared. We define these as changes from Same-Office Properties. For example, when comparing the six months ended June 30, 2007 and 2008, Same-Office Properties would be properties owned and 100% operational from January 1, 2007 through June 30, 2008.
- Changes attributable to operating properties acquired during the two periods being compared and newly-constructed properties that were placed into service and not 100% operational throughout the two periods being compared. We define these as changes from Property Additions.

The tables below set forth the components of our changes in revenues from real estate operations and property operating expenses (dollars in thousands). The tables and the discussion that follows in this section pertain to properties included in continuing operations:

Table of Contents

Changes From the Three Months Ended June 30, 2007 to 2008

	Property Additions Dollar Change (1)	Same-Office Properties Dollar Change	Percentage Change	Other Dollar Change (2)	Total Dollar Change
Revenues from real estate operations					
Rental revenue	\$ 4,062	\$ 871	1.1%	\$ (116)	\$ 4,817
Tenant recoveries and other real estate operations revenue	719	2,850	25.9%	(649)	2,920

	\$ 115	\$ (196)	N/A	\$	\$ (81)
Number of operating properties included in component category					
	73	164	N/A		237

(1) Includes 57 acquired properties, 14 construction/development properties and two redevelopment properties placed into service.

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

(2) Includes, among other things, the effects of amounts eliminated in consolidation. Certain amounts eliminated in consolidation are attributable to the Property Additions and Same-Office Properties.

With regard to changes in the Property Additions revenues from real estate operations, the increase attributable to construction, development and redevelopment properties placed into service totaled \$4.5 million for the three month periods and \$9.1 million for the six month periods; the remainder of the increase was attributable to acquisitions. With regard to changes in the Property Additions property

Table of Contents

operating expenses, the increase attributable to construction, development and redevelopment properties placed into service totaled \$1.0 million for the three month periods and \$2.0 million for the six month periods; the remainder of the increase was attributable to acquisitions.

The increase in rental revenue from real estate operations for the Same-Office Properties for the three month periods included the following:

- an increase of \$1.5 million, or 2.0%, in rental revenue from the Same-Office Properties attributable primarily to changes in rental rates and occupancy between the two periods; and
- a decrease of \$671,000, or 95.8%, in net revenue from the early termination of leases. To explain further the term net revenue from the early termination of leases, when tenants terminate their lease obligations prior to the end of the agreed lease terms, they typically pay fees to break these obligations. We recognize such fees as revenue and write off against such revenue any (1) deferred rents receivable and (2) deferred revenue and deferred assets that are amortizable into rental revenue associated with the leases; the resulting net amount is the net revenue from the early termination of the leases.

The increase in rental revenue from real estate operations for the Same-Office Properties for the six month periods included the following:

- an increase of \$3.7 million, or 2.8%, in rental revenue from the Same-Office Properties attributable primarily to changes in rental rates and occupancy between the two periods; and
- a decrease of \$1.6 million, or 96.5%, in net revenue from the early termination of leases.

Tenant recoveries and other revenue from the Same-Office Properties increased for the three month and six month periods due primarily to the increase in property operating expenses described below.

The increase in operating expenses for the Same-Office Properties for the three month periods included the following:

- an increase of \$822,000 attributable to miscellaneous direct reimbursable expenses;

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

- an increase of \$750,000, or 13.5%, in real estate taxes, of which \$246,000 was attributable to our Colorado Springs portfolio which had a number of properties with significantly higher assessed values;
- an increase of \$587,000, or 42.3%, in heating and air conditioning repairs and maintenance due to an increase in general repair activity and the commencement of new service arrangements at certain properties;
- an increase of \$278,000, or 11.6%, in management fees attributable primarily to an increase in revenue billed by the properties (management fees are generally computed based on a percentage of revenue billed by properties). The increase also was attributable in part to a change in the basis for computing management fees for a number of properties in the portfolio from being based on a percentage of property operating expenses to being based on a percentage of revenue;
- an increase of \$181,000, or 33.8%, in corporate overhead allocated to property operating expense due in large part to increased costs for corporate employees supporting the property operations, much of which is attributable to compensation costs for such employees;
- an increase of \$161,000, or 2.4%, in electric utilities expense which included the effects of: (1) increased usage at certain properties due to increased occupancy; (2) our assumption of responsibility for payment of utilities at certain properties due to changes in lease structures; and (3) rate increases that we believe are the result of (a) increased oil prices and (b) energy deregulation in Maryland; and
- an increase of \$150,000, or 215.8%, in bad debt expense due to additional reserves on tenant receivables.

The increase in operating expenses for the Same-Office Properties for the six month periods included the following:

- an increase of \$1.7 million attributable to miscellaneous direct reimbursable expenses;

Table of Contents

- an increase of \$1.1 million, or 11.6%, in real estate taxes, of which \$447,000 was attributable to our Colorado Springs portfolio which had a number of properties with significantly higher assessed values;
- an increase of \$611,000, or 24.3%, in heating and air conditioning repairs and maintenance due primarily to the reasons discussed above for the variance in the three month periods;
- an increase of \$527,000, or 4.3%, in electric utilities expense due primarily to the reasons discussed above for the variance in the three month periods;
- an increase of \$458,000, or 10.8%, in management fees due primarily to the reasons discussed above for the variance in the three month periods;
- an increase of \$340,000, or 32.4%, in corporate overhead allocated to property operating expense due in large part to increased costs for corporate employees supporting the property operations, much of which is attributable to compensation costs for such employees;
- an increase of \$243,000, or 315.4%, in bad debt expense due to additional reserves on tenant receivables; and
- a decrease of \$1.1 million, or 54.2%, in snow removal due to decreased snow and ice in most of our regions.

Other service revenues and expenses

The table below sets forth changes in our construction contract and other service revenues and expenses (dollars in thousands):

	Changes Between the Three Month Periods Ended June 30, 2008 and 2007			Changes Between the Six Month Periods Ended June 30, 2008 and 2007		
	Construction Contract Dollar Change	Other Service Operations Dollar Change	Total Dollar Change	Construction Contract Dollar Change	Other Service Operations Dollar Change	Total Dollar Change
Service operations						

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Revenues	\$	3,999	\$	(548)	\$	3,451	\$	3,822	\$	(1,456)	\$	2,366
Expenses		4,056		(672)		3,384		3,856		(1,475)		2,381
Income from service operations	\$	(57)	\$	124	\$	67	\$	(34)	\$	19	\$	(15)

The gross revenues and costs associated with these services generally bear little relationship to the level of activity from these operations since a substantial portion of the costs are subcontracted costs that are reimbursed to us by the customer at no mark up. As a result, the operating margins from these operations are small relative to the revenue. We use the net of service operations revenues and expenses to evaluate performance. We do not believe that the changes in the net amounts reflected above were significant.

Depreciation and amortization

When we acquire operating properties, a portion of the acquisition value of such properties is generally allocated to assets with depreciable lives that are based on the lives of the underlying leases. The decreases in depreciation and other amortization expense for the three month and six month periods were attributable primarily to a number of these shorter lived assets becoming fully amortized during or prior to the current periods. The effect of these decreases more than offset additional depreciation and amortization associated with new assets placed into service.

General and administrative expenses

The increase in general and administrative expense for the three month periods included the following:

Table of Contents

- a \$1.1 million, or 24.9%, increase in compensation expense due in large part to: (1) the increased number of employees in response to the continued growth of the Company; (2) increased salaries and bonuses for existing employees; and (3) a \$376,000, or 31.4%, increase in expense associated with share-based compensation due primarily to the effects of awards issued in 2007 and 2008; and
- a \$1.2 million, or 71.4%, decrease attributable to increased allocation of corporate overhead primarily to our service companies. Although our overall general and administrative expenses increased, this \$1.2 million decrease in general and administrative expenses was caused by the combined effect of: (1) the increase in allocable general and administrative expenses; and (2) a larger percentage of general and administrative expenses being allocated to the service companies due in large part to the increased number of employees in the service companies.

The increase in general and administrative expense for the six month periods included the following:

- a \$3.2 million, or 36.8%, increase in compensation expense due in large part to: (1) the increased number of employees in response to the continued growth of the Company; (2) increased salaries and bonuses for existing employees; and (3) a \$1.0 million, or 49.5%, increase in expense associated with share-based compensation due primarily to the effects of awards issued in 2007 and 2008; and
- a \$2.0 million, or 51.7%, decrease attributable to increased allocation of corporate overhead primarily to our service companies due in large part to the reasons discussed above for the variance in the three month periods.

Interest expense and amortization of deferred financing costs

The decreases in interest expense and amortization of deferred financing costs included in continuing operations included the effects of the following:

- a decrease in the weighted average interest rates of our debt from 5.9% to 5.1% for the three month periods and from 5.9% to 5.3% for the six month periods; partially offset by
- an increase in our average outstanding debt balance by 7.0% for the three month periods and by 8.1% for the six month periods due primarily to our 2007 and 2008 construction activities.

Gain on sale of non-real estate investment

Included as income for the three and six months ended June 30, 2007 was a \$1.0 million gain recognized on the disposition of most of our investment in TractManager, Inc., an investment that we account for using the cost method of accounting. TractManager, Inc. is an entity that developed an Internet-based contract imaging system for sale to real estate owners and healthcare providers.

Minority interests

Interests in our Operating Partnership are in the form of preferred and common units. The line entitled minority interests in income from continuing operations includes primarily income from continuing operations allocated to preferred and common units not owned by us. Income is allocated to minority interest preferred unitholders in an amount equal to the priority return from the Operating Partnership to which they are entitled. Income is allocated to minority interest common unitholders based on the income earned by the Operating Partnership, after allocation to preferred unitholders, multiplied by the percentage of the common units in the Operating Partnership owned by those common unitholders.

As of June 30, 2008, we owned 84.8% of the outstanding common units and 95.8% of the outstanding preferred units. The percentage of the Operating Partnership owned by minority interests during the last year decreased in the aggregate due primarily to the effect of the following transactions:

- the issuance of additional units to us as we issued new preferred shares and common shares during 2007 and 2008 due to the fact that we receive preferred units and common units in the Operating Partnership each time we issue preferred shares and common shares; and

Table of Contents

- the exchange of common units for our common shares by certain minority interest holders of common units; offset in part by
- our issuance of common units to third parties totaling 262,165 in 2007 in connection with an acquisition.

Our income from continuing operations allocated to minority interests increased due primarily to: (1) an increase in the income available to allocate to minority interests holders of common units attributable primarily to the reasons set forth above for changes in revenue and expense items; offset in part by the effect of (2) our increasing ownership of common units.

Income from discontinued operations, net of minority interests

Our income from discontinued operations increased for the three month and six month periods due primarily to sales of properties included in discontinued operations in the current periods. See Note 19 to the Consolidated Financial Statements for a summary of the components of income from discontinued operations.

Gain on sales of real estate, net of minority interests

Our gain on sales of real estate increased due primarily to a gain recognized on the sale of six recently constructed office condominiums located in Northern Virginia.

Diluted earnings per common share

Diluted earnings per common share on net income available to common shareholders increased for the three month and six month periods due primarily to increases in net income available to common shareholders attributable primarily to the reasons set forth above, the effect of which was offset in part by a larger number of common shares outstanding due to share issuances since January 1, 2007.

Liquidity and Capital Resources

Cash and cash equivalents

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Our cash and cash equivalents balance totaled \$12.9 million as of June 30, 2008, a 47.8% decrease from the balance at December 31, 2007. The cash and cash equivalents balances that we carry as of a point in time can vary significantly due in part to the inherent variability of the cash needs of our acquisition and development activities. We maintain sufficient cash and cash equivalents to meet our operating cash requirements and short term investing and financing cash requirements. When we determine that the amount of cash and cash equivalents on hand is more than we need to meet such requirements, we may pay down our Revolving Credit Facility or forgo borrowing under construction loan credit facilities to fund construction activities.

Operating Activities

We generated most of our cash from the operations of our properties. Most of the amount by which our revenues from real estate operations exceeded property operating expenses was cash flow; we applied most of this cash flow towards interest expense, scheduled principal amortization of debt, dividends to our shareholders, distributions to minority interest holders of preferred and common units in the Operating Partnership, capital improvements and leasing costs for our operating properties and general and administrative expenses.

Our cash flow from operations increased \$18.7 million, or 28.8%, when comparing the six months ended June 30, 2008 and 2007; this increase is attributable in large part to: (1) the additional cash flow from operations generated by our property additions; and (2) the positive effect of a decrease in unbilled third-party construction costs in the current period. We expect to continue to use cash flow provided by operations to meet our short-term capital needs, including all property operating expenses, general and

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Table of Contents

administrative expenses, interest expense, scheduled principal amortization on debt, dividends to our shareholders, distributions to our minority interest holders of preferred and common units in the Operating Partnership and capital improvements and leasing costs. We do not anticipate borrowing to meet these requirements.

Investing and Financing Activities During the Six Months Ended June 30, 2008

During the six months ended June 30, 2008, we acquired three office properties totaling 247,280 square feet (one located in Colorado Springs and two in San Antonio) for \$40.6 million. These acquisitions were financed using primarily borrowings from our Revolving Credit Facility.

We had five newly-constructed properties totaling 437,064 square feet (three located in Colorado Springs and two in the Baltimore/Washington Corridor) become fully operational during the six months ended June 30, 2008 (89,497 of these square feet were placed into service in 2007). These properties were 73.7% leased or committed as of June 30, 2008. Costs incurred on these properties through June 30, 2008 totaled \$78.4 million, \$7.3 million of which was incurred in the six months ended June 30, 2008. We financed the 2008 costs using primarily borrowings from our Revolving Credit Facility.

At June 30, 2008, we had construction activities underway on 11 office properties totaling 1.1 million square feet that were 26.8% leased, or considered committed to lease. Two of these properties are owned through consolidated joint ventures. Costs incurred on these properties through June 30, 2008 totaled approximately \$131.6 million, of which approximately \$78.9 million was incurred in the six months ended June 30, 2008. The costs incurred in the six months ended June 30, 2008 were funded using primarily borrowings from our Revolving Credit Facility and cash reserves.

On January 29, 2008, we completed the formation of M Square Associates, LLC (M Square), a consolidated joint venture in which we hold a 50% equity interest through Enterprise Campus Developer, LLC, another consolidated joint venture in which we own a 90% interest. M Square was formed to develop and own office properties, approved for up to approximately 750,000 square feet, located in M Square Research Park in College Park, Maryland.

The table below sets forth the major components of our additions to the line entitled Total Commercial Real Estate Properties on our Consolidated Balance Sheet for the six months ended June 30, 2008 (in thousands):

Construction, development and redevelopment	\$	113,331
Acquisitions		35,874
Tenant improvements on operating properties		8,578(1)
Capital improvements on operating properties		3,648
	\$	161,431

(1) Tenant improvement costs incurred on newly-constructed properties are classified in this table as construction, development and redevelopment.

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

During the six months ended June 30, 2008, we sold three operating properties totaling 222,713 square feet for \$25.3 million, resulting in a gain of \$2.6 million. The net proceeds from these sales after transaction costs totaled approximately \$25.0 million. Our approximate application of the proceeds from these sales follows: \$16.9 million to pay down borrowings under our Revolving Credit Facility; \$5.1 million to fund an escrow that will be used to fund a future acquisition; and \$3.0 million to fund cash reserves.

During the six months ended June 30, 2008, we also completed the sale of six recently constructed office condominiums located in Northern Virginia for sale prices totaling \$8.4 million in the aggregate, resulting in net proceeds of \$7.8 million, which was primarily applied to our cash reserves.

Table of Contents

On May 2, 2008, we entered into a construction loan agreement with a group of lenders for which KeyBanc Capital Markets, Inc. acted as arranger, KeyBank National Association acted as administrative agent, Bank of America, N.A. acted as syndication agent and Manufacturers and Traders Trust Company acted as documentation agent. The construction loan agreement provides for an aggregate commitment by the lenders of \$225.0 million, with a right for us to further increase the lenders' aggregate commitment during the term to a maximum of \$325.0 million, subject to certain conditions. Ownership interests in the properties for which construction costs are being financed through loans under the agreement are pledged as collateral. Borrowings are generally available for properties included in this construction loan agreement based on 85% of the total budgeted costs of construction of the applicable improvements for such properties as set forth in the properties' construction budgets, subject to certain other loan-to-value and debt coverage requirements. As loans for properties under the construction loan agreement are repaid in full and the ownership interests in such properties are no longer pledged as collateral, capacity under the construction loan agreement's aggregate commitment will be restored, giving us the ability to obtain new loans for other construction properties in which we pledge the ownership interests as collateral. The construction loan agreement matures on May 2, 2011, and may be extended by one year at our option, subject to certain conditions. The variable interest rate on each loan is based on one of the following, to be selected by us: (1) subject to certain conditions, the LIBOR rate for the interest period designated by us (customarily the 30-day rate) plus 1.6% to 2.0%, as determined by our leverage levels at different points in time; or (2) the greater of (a) the prime rate of the lender then acting as agent or (b) the Federal Funds Rate, as defined in the construction loan agreement, plus 0.50%. Interest is payable at the end of each interest period (as defined in the agreement), and principal outstanding under each loan under the agreement is payable on the maturity date. The construction loan agreement also carries a quarterly fee that is based on the unused amount of the commitment multiplied by a per annum rate of 0.125% to 0.20%. As of July 31, 2008, the maximum amount of borrowing capacity under this agreement totaled \$65.0 million, and we expect to further increase this capacity level during the remainder of 2008 and 2009 by obtaining loans under the agreement for additional construction properties. As of July 31, 2008, \$23.6 million had been borrowed under this agreement, the proceeds of which were used to pay down borrowings under our Revolving Credit Facility.

Certain of our mortgage loans require that we comply with a number of restrictive financial covenants, including leverage ratio, minimum net worth, minimum fixed charge coverage, minimum debt service and maximum secured indebtedness. As of June 30, 2008, we were in compliance with these financial covenants.

Analysis of Cash Flow Associated with Investing and Financing Activities

Our net cash flow used in investing activities decreased \$110.2 million, or 46.7%, when comparing the six months ended June 30, 2008 and 2007. This decrease was due primarily to the following:

- a \$94.6 million, or 38.8%, decrease in purchases of and additions to commercial real estate due primarily to the completion of a series of transactions on January 9 and 10, 2007 that resulted in the acquisition of 56 operating properties totaling 2.4 million square feet and land parcels totaling 187 acres (a transaction that we refer to collectively as the Nottingham Acquisition); and
- a \$28.3 million increase in proceeds from sales of properties.

Our cash flow provided by financing activities decreased \$147.9 million, or 82.9%, due primarily to the additional financing activity required during the six months ended June 30, 2007 to complete the Nottingham Acquisition.

Off-Balance Sheet Arrangements

We had no significant changes in our off-balance sheet arrangements from those described in the section entitled "Off-Balance Sheet Arrangements" in our 2007 Annual Report on Form 10-K.

Table of Contents

Investing and Financing Activities Subsequent to June 30, 2008

On July 18, 2008, we borrowed \$221.4 million under a mortgage loan requiring interest only payments for the term at a variable rate of LIBOR plus 225 basis points. This loan facility has a four-year term with an option to extend by an additional year. We used \$63.5 million of the proceeds from this loan to repay construction loan facilities that were due to mature in 2008, \$11.8 million to repay borrowings under an additional construction loan facility and most of the balance to repay borrowings under our Revolving Credit Facility.

Other Future Cash Requirements for Investing and Financing Activities

As previously discussed, as of June 30, 2008, we had construction activities underway on 11 office properties totaling 1.1 million square feet that were 26.8% pre-leased, or considered committed to lease (including two properties owned through joint ventures). We estimate remaining costs to be incurred will total approximately \$110.0 million upon completion of these properties; we expect to incur these costs through 2010. We expect to fund these costs using borrowings from construction loan facilities and our Revolving Credit Facility.

As of June 30, 2008, we had development activities underway on ten new office properties estimated to total 1.0 million square feet (including one property owned through a joint venture). We estimate that costs for these properties will total approximately \$206.1 million. As of June 30, 2008, costs incurred on these properties totaled \$20.4 million and the balance is expected to be incurred from 2008 through 2011. We expect to fund most of these costs using borrowings from construction loan facilities.

As of June 30, 2008, we had redevelopment activities underway on two properties totaling 493,000 square feet (these properties are owned through a consolidated joint venture in which we own a 92.5% interest). We estimate that the remaining costs of the redevelopment activities will total approximately \$13.5 million. We expect to fund most of these costs using borrowings from new construction loan facilities and our Revolving Credit Facility.

In September 2007, the City of Colorado Springs announced that it had selected us to be the master developer for the 286-acre site located in the Colorado Springs Airport Business Park, known as Cresterra, which is located at the entrance of the Colorado Springs Airport and adjacent to Peterson Air Force Base. We are currently in the process of negotiating the long-term ground lease and development agreement with the City of Colorado Springs regarding the details of this arrangement; we expect that the terms of these agreements will be finalized in 2008. We expect that this business park can support potential development of approximately 3.5 million square feet, including office, retail, industrial and flex space. We anticipate that this project could cost approximately \$800.0 million, which we expect to be funded over the next 10 to 20 years. For this project, we expect to oversee development, construction, leasing and management and have a leasehold interest in buildings.

During the remainder of 2008 and beyond, we could complete other acquisitions of properties and commence construction and development activities in addition to the ones previously described. We expect to finance these activities as we have in the past, using mostly a combination of borrowings from new debt, borrowings under our Revolving Credit Facility and construction loan facilities, proceeds from sales of existing properties and additional equity issuances of common and/or preferred shares or units.

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

As of July 31, 2008, the maximum principal amount on our Revolving Credit Facility was \$600.0 million, with a right to further increase the maximum principal amount in the future to \$800.0 million, subject to certain conditions. As of July 31, 2008, the borrowing capacity under the Revolving Credit Facility was \$600.0 million, of which \$215.5 million was available.

Funds From Operations

Funds from operations (FFO) is defined as net income computed using GAAP, excluding gains (or losses) from sales of real estate, plus real estate-related depreciation and amortization, and after

Table of Contents

adjustments for unconsolidated partnerships and joint ventures. Gains from sales of newly-developed properties less accumulated depreciation, if any, required under GAAP are included in FFO on the basis that development services are the primary revenue generating activity; we believe that inclusion of these development gains is in accordance with the National Association of Real Estate Investment Trusts (NAREIT) definition of FFO, although others may interpret the definition differently.

Accounting for real estate assets using historical cost accounting under GAAP assumes that the value of real estate assets diminishes predictably over time. NAREIT stated in its April 2002 White Paper on Funds from Operations that since real estate asset values have historically risen or fallen with market conditions, many industry investors have considered presentations of operating results for real estate companies that use historical cost accounting to be insufficient by themselves. As a result, the concept of FFO was created by NAREIT for the REIT industry to address this problem. We agree with the concept of FFO and believe that FFO is useful to management and investors as a supplemental measure of operating performance because, by excluding gains and losses related to sales of previously depreciated operating real estate properties and excluding real estate-related depreciation and amortization, FFO can help one compare our operating performance between periods. In addition, since most equity REITs provide FFO information to the investment community, we believe that FFO is useful to investors as a supplemental measure for comparing our results to those of other equity REITs. We believe that net income is the most directly comparable GAAP measure to FFO.

Since FFO excludes certain items includable in net income, reliance on the measure has limitations; management compensates for these limitations by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non GAAP measures. FFO is not necessarily an indication of our cash flow available to fund cash needs. Additionally, it should not be used as an alternative to net income when evaluating our financial performance or to cash flow from operating, investing and financing activities when evaluating our liquidity or ability to make cash distributions or pay debt service. The FFO we present may not be comparable to the FFO presented by other REITs since they may interpret the current NAREIT definition of FFO differently or they may not use the current NAREIT definition of FFO.

Basic funds from operations (Basic FFO) is FFO adjusted to (1) subtract preferred share dividends and (2) add back GAAP net income allocated to common units in the Operating Partnership not owned by us. With these adjustments, Basic FFO represents FFO available to common shareholders and common unitholders. Common units in the Operating Partnership are substantially similar to our common shares and are exchangeable into common shares, subject to certain conditions. We believe that Basic FFO is useful to investors due to the close correlation of common units to common shares. We believe that net income is the most directly comparable GAAP measure to Basic FFO. Basic FFO has essentially the same limitations as FFO; management compensates for these limitations in essentially the same manner as described above for FFO.

Diluted funds from operations (Diluted FFO) is Basic FFO adjusted to add back any changes in Basic FFO that would result from the assumed conversion of securities that are convertible or exchangeable into common shares. However, the computation of Diluted FFO does not assume conversion of securities other than common units in the Operating Partnership that are convertible into common shares if the conversion of those securities would increase Diluted FFO per share in a given period. We believe that Diluted FFO is useful to investors because it is the numerator used to compute Diluted FFO per share, discussed below. In addition, since most equity REITs provide Diluted FFO information to the investment community, we believe Diluted FFO is a useful supplemental measure for comparing us to other equity REITs. We believe that the numerator for diluted EPS is the most directly comparable GAAP measure to Diluted FFO. Since Diluted FFO excludes certain items includable in the numerator to diluted EPS, reliance on the measure has limitations; management compensates for these limitations by using the measure simply as a supplemental measure that is weighed in the balance with other GAAP and non-GAAP measures. Diluted FFO is not necessarily an indication of our cash flow available to fund cash needs. Additionally, it should not be used as an alternative to net income when evaluating our financial performance or to cash flow from operating, investing and financing activities when evaluating our liquidity or ability to make cash distributions or pay debt service. The Diluted FFO that we present may not be comparable to the Diluted FFO presented by other REITs.

Table of Contents

Diluted funds from operations per share (Diluted FFO per share) is (1) Diluted FFO divided by (2) the sum of the (a) weighted average common shares outstanding during a period, (b) weighted average common units outstanding during a period and (c) weighted average number of potential additional common shares that would have been outstanding during a period if other securities that are convertible or exchangeable into common shares were converted or exchanged. However, the computation of Diluted FFO per share does not assume conversion of securities other than common units in the Operating Partnership that are convertible into common shares if the conversion of those securities would increase Diluted FFO per share in a given period. We believe that Diluted FFO per share is useful to investors because it provides investors with a further context for evaluating our FFO results in the same manner that investors use earnings per share (EPS) in evaluating net income available to common shareholders. In addition, since most equity REITs provide Diluted FFO per share information to the investment community, we believe Diluted FFO per share is a useful supplemental measure for comparing us to other equity REITs. We believe that diluted EPS is the most directly comparable GAAP measure to Diluted FFO per share. Diluted FFO per share has most of the same limitations as Diluted FFO (described above); management compensates for these limitations in essentially the same manner as described above for Diluted FFO.

Our Basic FFO, Diluted FFO and Diluted FFO per share for the three and six months ended June 30, 2008 and 2007 and reconciliations of (1) net income to FFO, (2) the numerator for diluted EPS to diluted FFO and (3) the denominator for diluted EPS to the denominator for diluted FFO per share are set forth in the following table (dollars and shares in thousands, except per share data):

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Table of Contents

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2008	2007	2008	2007
Net income	\$ 12,853	\$ 7,877	\$ 24,248	\$ 13,424
Add: Real estate-related depreciation and amortization	24,955	27,087	49,899	53,387
Add: Depreciation and amortization on unconsolidated real estate entities	163	169	327	337
Less: Depreciation and amortization allocable to minority interests in other consolidated entities	(75)	(47)	(124)	(89)
(Gain) loss on sales of real estate, excluding development portion (1)	(1,250)	11	(2,630)	11
Funds from operations (FFO)	36,646	35,097	71,720	67,070
Add: Minority interests-common units in the Operating Partnership	1,585	765	2,909	1,073
Less: Preferred share dividends	(4,026)	(4,025)	(8,051)	(8,018)
Funds from Operations - basic and diluted (Basic and Diluted FFO)	\$ 34,205	\$ 31,837	\$ 66,578	\$ 60,125
Weighted average common shares	47,110	46,686	47,055	46,185
Conversion of weighted average common units	8,151	8,313	8,153	8,361
Weighted average common shares/units - Basic FFO	55,261	54,999	55,208	54,546
Dilutive effect of share-based compensation awards	888	1,105	797	1,305
Weighted average common shares/units - Diluted FFO	56,149	56,104	56,005	55,851
Diluted FFO per common share	\$ 0.61	\$ 0.57	\$ 1.19	\$ 1.08
Numerator for diluted EPS	\$ 8,827	\$ 3,852	\$ 16,197	\$ 5,406
Add: Minority interests-common units in the Operating Partnership	1,585	765	2,909	1,073
Add: Real estate-related depreciation and amortization	24,955	27,087	49,899	53,387
Add: Depreciation and amortization on unconsolidated real estate entities	163	169	327	337
Less: Depreciation and amortization allocable to minority interests in other consolidated entities	(75)	(47)	(124)	(89)
Less: (Gain) loss on sales of real estate, excluding development portion (1)	(1,250)	11	(2,630)	11
Diluted FFO	\$ 34,205	\$ 31,837	\$ 66,578	\$ 60,125
Denominator for diluted EPS	47,998	47,791	47,852	47,490
Weighted average common units	8,151	8,313	8,153	8,361
Denominator for Diluted FFO per share	56,149	56,104	56,005	55,851

(1) Gains from the sale of real estate that are attributable to sales of non-operating properties are included in FFO. Gains from newly-developed or re-developed properties less accumulated depreciation, if any, required under GAAP are also included in FFO on the basis that development services are the primary revenue generating activity; we believe that inclusion of these development gains is in compliance with the NAREIT definition of FFO, although others may interpret the definition differently.

Inflation

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Most of our tenants are obligated to pay their share of a building's operating expenses to the extent such expenses exceed amounts established in their leases, based on historical expense levels. Some of our tenants are obligated to pay their full share of a building's operating expenses. These arrangements somewhat reduce our exposure to increases in such costs resulting from inflation. In addition, since our average lease life is approximately five years, we generally expect to be able to compensate for increased operating expenses through increased rental rates upon lease renewal or expiration.

Our costs associated with constructing buildings and completing renovation and tenant improvement work increased due to higher cost of materials. We expect to recover a portion of these costs through higher tenant rents and reimbursements for tenant improvements. The additional costs that we do not recover increase depreciation expense as projects are completed and placed into service.

Table of Contents**Item 3. Quantitative and Qualitative Disclosures about Market Risk**

We are exposed to certain market risks, the most predominant of which is change in interest rates. Increases in interest rates can result in increased interest expense under our Revolving Credit Facility and our other debt carrying variable interest rate terms. Increases in interest rates can also result in increased interest expense when our debt carrying fixed interest rate terms mature and need to be refinanced. Our debt strategy favors long-term, fixed-rate, secured debt over variable-rate debt to minimize the risk of short-term increases in interest rates. As of June 30, 2008, 87.3% of our fixed-rate debt was scheduled to mature after 2009. As of June 30, 2008, 25.7% of our total debt had variable interest rates, including the effect of interest rate swaps. As of June 30, 2008, the percentage of variable-rate debt, including the effect of interest rate swaps, relative to total assets was 16.2%.

The following table sets forth as of June 30, 2008 our long-term debt obligations and weighted average interest rates for fixed rate debt by expected maturity date (dollars in thousands):

	For the Periods Ended December 31,							Total
	2008 (2)	2009	2010	2011	2012	Thereafter		
Long term debt:								
Fixed rate (1)	\$ 97,658	\$ 62,643	\$ 74,033	\$ 309,814	\$ 42,200	\$ 678,426	\$ 1,264,774	
Weighted average interest rate	6.78%	6.90%	5.98%	4.21%	6.32%	5.58%	5.45%	
Variable rate (3)	\$ 98,000	\$ 40,589	\$ 500,432	\$ 639,021				

- (1) Represents scheduled principal maturities only and therefore excludes a net premium of \$556,000.
- (2) Our loans maturing in 2008 as of June 30, 2008 include loans totaling \$63.5 million that were paid off subsequent to June 30, 2008, and we expect to pay off the remaining loans that mature in 2008 with proceeds from new loans.
- (3) The interest rates on our variable-rate debt primarily were indexed to LIBOR plus spreads of 0.75% to 2.00% at June 30, 2008.

The fair market value of our debt was \$1.91 billion at June 30, 2008. If interest rates on our fixed-rate debt had been 1% lower, the fair value of this debt would have increased by \$54.1 million at June 30, 2008.

The following table sets forth information pertaining to interest rate swap contracts in place as of June 30, 2008, and their respective fair values (dollars in thousands):

Notional	One-Month	Effective	Expiration	Fair Value at June 30,
----------	-----------	-----------	------------	------------------------

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Amount	LIBOR base	Date	Date	2008
\$ 50,000	4.3300%	10/23/2007	10/23/2009	\$ (836)
50,000	5.0360%	3/28/2006	3/30/2009	(826)
25,000	5.2320%	5/1/2006	5/1/2009	(493)
25,000	5.2320%	5/1/2006	5/1/2009	(493)
				\$ (2,648)

Based on our variable-rate debt balances, our interest expense would have increased by \$2.0 million in the six months ended June 30, 2008 if short-term interest rates were 1% higher.

Item 4. Controls and Procedures

- (a) Evaluation of Disclosure Controls and Procedures

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) under the Exchange Act) as of June 30, 2008. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures as of June 30, 2008 were

Table of Contents

functioning effectively to provide reasonable assurance that the information required to be disclosed by us in reports filed or submitted under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to our management, including our principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

- (b) Change in Internal Control over Financial Reporting

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

During the first quarter of 2008, we commenced the implementation of an Enterprise Resource Planning (ERP) suite of integrated operational and financial modules (the ERP System) that supports our current and future operational needs and enhances our internal control over financial reporting. The implementation of this ERP System has affected our internal controls over financial reporting by, among other things, improving user access security and automating a number of accounting, back office, and reporting processes and activities. Other than the implementation of the ERP System, there have been no changes in internal control over financial reporting during the most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II

Item 1. Legal Proceedings

We are not aware of any material developments during the most recent fiscal quarter regarding the litigation described in our 2007 Annual Report on Form 10-K and our Quarterly Report on Form 10-Q for the quarter ended March 31, 2008. We are not currently involved in any other material litigation nor, to our knowledge, is any material litigation currently threatened against the Company (other than routine litigation arising in the ordinary course of business, substantially all of which is expected to be covered by liability insurance).

Table of Contents

Item 4. Submission of Matters to a Vote of Security Holders

On May 22, 2008, we held our annual meeting of shareholders. At the annual meeting, the shareholders voted on the following: the election of two trustees, each for a three-year term; the elimination of the classification of our Board of Trustees; the adoption of the 2008 Omnibus Equity and Incentive Plan; and the ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for the current fiscal year. The voting results at the annual meeting were as follows:

Edgar Filing: CORPORATE OFFICE PROPERTIES TRUST - Form 10-Q

	Name of Nominee	Votes Received	Votes Withheld
Proposal 1:	Robert L. Denton	41,365,857	864,664
	Randall M. Griffin	41,241,863	988,658

The terms of Jay H. Shidler, Clay W. Hamlin, III, Thomas F. Brady, Douglas M. Firstenberg, Steven D. Kesler, Kenneth S. Sweet, Jr. and Kenneth D. Wethe as trustees continued after the annual meeting.

		Votes Cast			Broker Non-votes
		For	Against	Abstain	
Proposal 2:	Elimination of the Classification of Our Board of Trustees	41,828,226	236,009	166,286	
Proposal 3:	Adoption of the 2008 Omnibus Equity and Incentive Plan	34,989,554	2,090,616	177,575	4,972,775
Proposal 4:	Ratification of the Appointment of PricewaterhouseCoopers LLP as Our Independent Registered Public Accounting Firm for the Current Fiscal Year	41,714,264	377,743	138,514
