CF INDUSTRIES REMAINS COMMITTED TO COMBINATION WITH TERRA INDUSTRIES

DEERFIELD, IL, January 28, 2009 CF Industries Holdings, Inc. (NYSE: CF) today announced that it remains committed to its proposal to create a leader in the global fertilizer industry through an acquisition of all outstanding common shares of Terra Industries Inc. (NYSE: TRA). Under CF Industries' proposal, each common share of Terra would be entitled to receive 0.4235 shares of CF Industries. At the time of the announcement on January 15, 2009, the proposal represented a premium of 34% based on the 30-day volume weighted average prices for the shares of the two companies, and a 29% premium based on the 10-day volume weighted average.

We are confident that our proposal is a full and fair offer and continue to believe that a combination of the two companies would provide significant benefits to both CF Industries and Terra shareholders, employees and customers, said Stephen R. Wilson, chairman, president and chief executive officer of CF Industries. With annual cost synergies expected to exceed \$100 million and the combined talent and scale to compete better globally, we believe the combination is in the best interests of all CF Industries and Terra constituents. Our offer, which is not subject to any financing condition, has been very positively received by the market.

While it remains CF Industries' strong preference to enter into a negotiated transaction with Terra, the company is committed to a combination and will consider its options.
