Notes to Condensed Consolidated Financial Statements

(Tabular dollar amounts in thousands, except per share data)

(unaudited)

(1) Basis of Presentation

The accompanying unaudited condensed consolidated financial statements include the accounts of Texas Roadhouse, Inc. (the Company, we and/or our), our wholly-owned subsidiaries and subsidiaries in which we own more than 50 percent interest, as of and for the 13 weeks ended March 30, 2010 and March 31, 2009. Our wholly-owned subsidiaries include: Texas Roadhouse Holdings LLC (Holdings), Texas Roadhouse Development Corporation (TRDC) and Texas Roadhouse Management Corp. (Management Corp). We and our subsidiaries operate Texas Roadhouse restaurants. Holdings also provides supervisory and administrative services for certain other franchise and license restaurants. TRDC sells franchise rights and collects the franchise royalties and fees. Management Corp. provides management services to the Company, Holdings and certain other license and franchise restaurants. All material balances and transactions between the consolidated entities have been eliminated.

As of March 30, 2010 and March 31, 2009, we owned 5.0% to 10.0% equity interest in 21 franchise restaurants. While we exercise significant control over these franchise restaurants, we do not consolidate their financial position, results of operations or cash flows as it is immaterial to our consolidated financial position, results of operations and/or cash flows. Our investment in these unconsolidated affiliates is included in Other assets in our condensed consolidated balance sheets and we record our percentage share of net income earned by these unconsolidated affiliates on our condensed consolidated statements of income under Equity income from investments in unconsolidated affiliates.

We have made a number of estimates and assumptions relating to the reporting of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reporting of revenue and expenses during the period to prepare these condensed consolidated financial statements in conformity with U.S. generally accepted accounting principles (GAAP). Significant items subject to such estimates and assumptions include the carrying amount of property and equipment, goodwill, obligations related to insurance reserves, income taxes and share-based compensation expense. Actual results could differ from those estimates.

In the opinion of management, the accompanying unaudited financial statements reflect all adjustments, consisting only of normal recurring adjustments, necessary to present fairly our financial position, results of operations and cash flows for the periods presented. The financial statements have been prepared in accordance with GAAP, except that certain information and footnotes have been condensed or omitted pursuant to rules and regulations of the Securities and Exchange Commission (SEC). Operating results for the 13 weeks ended March 30, 2010 are not necessarily indicative of the results that may be expected for the year ending December 28, 2010. The financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 29, 2009.

Our significant interim accounting policies include the recognition of income taxes using an estimated annual effective tax rate.

(2) Share-based Compensation

We may grant incentive and non-qualified stock options to purchase shares of common stock, stock bonus awards (restricted stock unit awards (RSUs)) and restricted stock awards under the Texas Roadhouse, Inc. 2004 Equity Incentive Plan (the Plan). Beginning in 2008, we changed the method by which we provide share-based compensation to our employees by eliminating stock option grants and, instead, granting RSUs as a form of share-based compensation. An RSU is the conditional right to receive one share of common stock upon satisfaction of the vesting requirement.

The following table summarizes the share-based compensation recorded in the accompanying condensed consolidated statements of income:

	13 Weeks Ended	
	March 30, 2010	March 31, 2009
Labor expense	\$ 761	\$ 727
General and administrative expense	1,069	1,234
Total share-based compensation expense	\$ 1,830	\$ 1,961

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

Table of Contents

A summary of share-based compensation activity by type of grant as of March 30, 2010 and changes during the period then ended is presented below.

Summary Details for Plan Share Options

	Shares	Weighted-Average Exercise Price	Weighted-Average Remaining Contractual Term (years)	Aggregate Intrinsic Value
Outstanding at December 29, 2009	5,439,030	\$ 10.86		
Granted				
Forfeited	(10,099)	13.59		
Exercised	(669,857)	6.64		
Outstanding at March 30, 2010	4,759,074	\$ 11.45	5.22	\$ 15,568
Exercisable at March 30, 2010	4,472,213	\$ 11.31	5.11	\$ 15,254

No stock options were granted during the 13 weeks ended March 30, 2010.

The total intrinsic value of options exercised during the 13 weeks ended March 30, 2010 and March 31, 2009 was \$4.6 million and \$0.2 million, respectively. As of March 30, 2010, with respect to unvested stock options, there was an immaterial amount of unrecognized compensation cost that is expected to be recognized over a weighted-average period of less than a year. The total grant date fair value of stock options vested for the 13 week periods ended March 30, 2010 and March 31, 2009 was \$0.7 million and \$0.6 million, respectively.

Summary Details for RSUs

	Shares	Weighted-Average Grant Date Fair Value
Outstanding at December 29, 2009	1,362,427	\$ 9.90
Granted	150,969	13.64
Forfeited	(4,386)	9.92
Vested	(326,003)	9.37
Outstanding at March 30, 2010	1,183,007	\$ 10.49

As of March 30, 2010, with respect to unvested RSUs, there was \$8.2 million of unrecognized compensation cost that is expected to be recognized over a weighted-average period of 1.6 years. The vesting terms of the RSUs range from approximately 1.0 to 5.0 years. The total grant date fair value of RSUs vested for the 13 week periods ended March 30, 2010 and March 31, 2009 was \$3.0 million and \$2.6 million, respectively.

(3) Long-term Debt and Obligations Under Capital Leases

Long-term debt and obligations under capital leases consisted of the following:

	March 30, 2010	December 29, 2009
Installment loans, due 2010 - 2020	\$ 1,990	\$ 2,030
Obligations under capital leases	376	396
Revolver	87,000	99,000
	89,366	101,426
Less current maturities	253	247
	\$ 89,113	\$ 101,179

The weighted-average interest rate for installment loans outstanding at March 30, 2010 and December 29, 2009 was 10.58%. The debt is secured by certain land and buildings.

We have a \$250.0 million five-year revolving credit facility with a syndicate of commercial lenders led by Bank of America, N.A., Banc of America Securities LLC and PNC Bank. The facility expires on May 31, 2012. The terms of the facility require us to

Table of Contents

pay interest on outstanding borrowings at LIBOR plus a margin of 0.50% to 0.875%, depending on its leverage ratio, or the Base Rate, which is the higher of the issuing bank's prime lending rate or the Federal Funds rate plus 0.50%. We are also required to pay a commitment fee of 0.10% to 0.175% per year on any unused portion of the facility, depending on our leverage ratio. The weighted-average interest rate for the revolver at March 30, 2010 and December 29, 2009 was 2.50% and 2.36%, respectively, including interest rate swaps. At March 30, 2010, we had \$87.0 million outstanding under the credit facility and \$159.3 million of availability, net of \$3.7 million of outstanding letters of credit.

The lenders' obligation to extend credit under the facility depends on us maintaining certain financial covenants, including a minimum consolidated fixed charge coverage ratio of 2.00 to 1.00 and a maximum consolidated leverage ratio of 3.00 to 1.00. The credit facility permits us to incur additional secured or unsecured indebtedness outside the facility, except for the incurrence of secured indebtedness that in the aggregate exceeds 20% of our consolidated tangible net worth or circumstances where the incurrence of secured or unsecured indebtedness would prevent us from complying with our financial covenants. We were in compliance with all covenants as of March 30, 2010.

(4) Derivative and Hedging Activities

We enter into derivative instruments for risk management purposes only, including derivatives designated as hedging instruments under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 815, *Derivatives and Hedging* (ASC 815). We use interest rate-related derivative instruments to manage our exposure to fluctuations of interest rates. By using these instruments, we expose ourselves, from time to time, to credit risk and market risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. When the fair value of a derivative contract is positive, the counterparty owes us, which creates credit risk for us. We minimize the credit risk by entering into transactions with high-quality counterparties whose credit rating is evaluated on a quarterly basis. Our counterparty in the interest rate swaps is J.P. Morgan Chase, N.A. Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates, commodity prices or the market price of the our common stock. We minimize market risk by establishing and monitoring parameters that limit the types and degree of market risk that may be taken.

Interest Rate Swaps

On October 22, 2008, we entered into an interest rate swap, starting on November 7, 2008, with a notional amount of \$25.0 million to hedge a portion of the cash flows of our variable rate credit facility. We have designated the interest rate swap as a cash flow hedge of our exposure to variability in future cash flows attributable to interest payments on a \$25.0 million tranche of floating rate debt borrowed under our revolving credit facility. Under the terms of the swap, we pay a fixed rate of 3.83% on the \$25.0 million notional amount and receive payments from the counterparty based on the 1-month LIBOR rate for a term ending on November 7, 2015, effectively resulting in a fixed rate LIBOR component of the \$25.0 million notional amount.

On January 7, 2009, we entered into an interest rate swap, starting on February 7, 2009, with a notional amount of \$25.0 million to hedge a portion of the cash flows of our variable rate credit facility. We have designated the interest rate swap as a cash flow hedge of our exposure to variability in future cash flows attributable to interest payments on a \$25.0 million tranche of floating rate debt borrowed under our revolving credit facility. Under the terms of the swap, we pay a fixed rate of 2.34% on the \$25.0 million notional amount and receive payments from the counterparty based on the 1-month LIBOR rate for a term ending on January 7, 2016, effectively resulting in a fixed rate LIBOR component of the \$25.0 million notional amount.

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

We entered into the above interest rate swaps with the objective of eliminating the variability of our interest expense that arises because of changes in the variable interest rate for the designated interest payments. Changes in the fair value of the interest rate swap will be reported as a component of accumulated other comprehensive income. We will reclassify any gain or loss from accumulated other comprehensive income, net of tax, on our consolidated balance sheet to interest expense on the our consolidated statement of income when the interest rate swap expires or at the time we choose to terminate the swap. See note 10 for fair value discussion of these interest rate swaps.

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

Table of Contents

The following table summarizes the fair value and presentation in the condensed consolidated balance sheets for derivatives designated as hedging instruments under FASB ASC 815:

	Balance Sheet Location	Derivative Assets		Derivative Liabilities	
		March 30, 2010	December 29, 2009	March 30, 2010	December 29, 2009
Derivative Contracts Designated as Hedging Instruments under ASC 815	(1)				
Interest rate swaps		\$	\$ 31	\$ 712	\$
Total Derivative Contracts		\$	\$ 31	\$ 712	\$

(1) Derivative assets and liabilities are included in fair value of derivative financial instruments on the condensed consolidated balance sheets.

The following table summarizes the effect of derivative instruments on the condensed consolidated statements of income for the 13 weeks ended March 30, 2010 and March 31, 2009:

	Amount of Loss Recognized in AOCI (effective portion)		Location of Loss Reclassified from AOCI Income	Amount of Loss Reclassified from AOCI to Income (effective portion)		Location of Loss Recognized in Income (ineffective portion)	Amount of Loss Recognized in Income (ineffective portion)	
	2010	2009		2010	2009		2010	2009
Interest rate swaps	\$ (457)	\$ (1,404)						

(5) Recent Accounting Pronouncements

Fair Value Measures and Disclosures

(Accounting Standards Update (ASU) 2010-06)

In January 2010, the FASB issued ASU 2010-06 which amends Accounting Standards Codification (ASC) topic 820, *Fair Value Measures and Disclosures*. ASU No. 2010-06 amends the ASC to require disclosure of transfer into and out of Level 1 and Level 2 fair value measurements, and also requires more detailed disclosure about the activity within Level 3 fair value measurements. The changes as a result of this update are effective for annual and interim reporting periods beginning after December 15, 2009 (our 2010 fiscal year), except for requirements related to Level 3 disclosures, which are effective for annual and interim reporting periods beginning after December 15, 2010 (our 2011 fiscal year). This guidance requires new disclosures only, and will have no impact on our consolidated financial position, results of operations or cash flows.

Consolidation of Variable Interest Entities Amended

(To be included in ASC 810, Consolidation, previously SFAS 167, Amendments to FASB Interpretation No. 46(R))

ASC 810 provides guidance for determining the primary beneficiary of a variable interest entity. In addition, ASC 810 requires ongoing assessments of whether an enterprise is the primary beneficiary of a variable interest entity. ASC 810 is effective for the first annual and interim reporting periods that begin after November 15, 2009 (our fiscal year 2010). The adoption of ASC 810 had no impact on our consolidated financial position, results of operations and cash flows.

(6) Commitments and Contingencies

The estimated cost of completing capital project commitments at March 30, 2010 and December 29, 2009 was approximately \$26.5 million and \$18.5 million, respectively.

We entered into real estate lease agreements for franchise restaurants located in Everett, MA, Longmont, CO, Montgomeryville, PA, Fargo, ND and Logan, UT before granting franchise rights for those restaurants. We have subsequently assigned the leases to the franchisees, but remain contingently liable if a franchisee defaults under the terms of a lease. The Longmont lease was assigned in October 2003 and expires in May 2014, the Everett lease was assigned in September 2002 and expires in February 2018, the Montgomeryville lease was assigned in October 2004 and expires in June 2021, the Fargo lease was assigned in February 2006 and expires in July 2016 and the Logan lease was assigned in January 2009 and expires in August 2019. As the fair value of the guarantees is not considered significant, no liability has been recorded. As discussed in note 7, the Everett, MA, Longmont, CO, and Fargo, ND restaurants are owned, in whole or part, by certain of our officers, directors or 5% shareholders.

Table of Contents

We are involved in various claims and legal actions arising in the normal course of business. In the opinion of management, the ultimate disposition of these matters will not have a material effect on our consolidated financial position, results of operations or cash flows.

We currently buy most of our beef from two to four suppliers. Although there are a limited number of beef suppliers, management believes that other suppliers could provide a similar product on comparable terms. A change in suppliers, however, could cause supply shortages and a possible loss of sales, which would affect operating results adversely. We have no material minimum purchase commitments with our vendors that extend beyond a year.

(7) Related Party Transactions

The Longview, Texas restaurant, which was acquired by us in connection with the completion of our initial public offering, leases the land and restaurant building from an entity controlled by Steven L. Ortiz, our Chief Operating Officer. The lease term is 15 years and will terminate in November 2014. The lease can be renewed for two additional terms of five years each. Rent is approximately \$19,000 per month. The lease can be terminated if the tenant fails to pay the rent on a timely basis, fails to maintain the insurance specified in the lease, fails to maintain the building or property or becomes insolvent. Total rent payments were approximately \$55,000 for the 13 week period ended March 30, 2010 and approximately \$50,000 for the thirteen week period ended March 31, 2009.

The Bossier City, Louisiana restaurant, of which Steven L. Ortiz owns 65.0% and we own 5.0%, leases the land and building from an entity owned by Mr. Ortiz. The lease term is 15 years and will terminate on March 31, 2020. The lease can be renewed for three additional terms of five years each. Rent is approximately \$15,100 per month and escalates 10% each five year period during the term. The next rent escalation is in Q2 2010. After the escalation, rent will be approximately \$16,600 per month. The lease can be terminated if the tenant fails to pay rent on a timely basis, fails to maintain insurance, abandons the property or becomes insolvent. Total rent payments were approximately \$45,000 for each of the 13 week periods ended March 30, 2010 and March 31, 2009.

We have 14 franchise and license restaurants owned, in whole or part, by certain of our officers, directors or 5% shareholders at March 30, 2010 and March 31, 2009. These entities paid us fees of approximately \$0.5 million during each of the 13 week periods ended March 30, 2010 and March 31, 2009, respectively. As disclosed in note 6, we are contingently liable on leases which are related to three of these restaurants.

(8) Earnings Per Share

The share and net income per share data for all periods presented are based on the historical weighted-average shares outstanding. The diluted earnings per share calculations show the effect of the weighted-average stock options, RSUs and restricted stock awards outstanding from our equity incentive plan as discussed in note 2. For the 13 weeks ended March 30, 2010 and March 31, 2009, options to purchase 2,207,141 and 4,520,566 shares of common stock, respectively, were outstanding, but not included in the computation of diluted earnings per share because their inclusion would have had an anti-dilutive effect. For the 13 weeks ended March 30, 2010 and March 31, 2009, 18,281 and 356,273 shares of nonvested stock, respectively, were outstanding but not included in the computation of diluted net income per share because their inclusion would have had an anti-dilutive effect.

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

Table of Contents

The following table sets forth the calculation of weighted-average shares outstanding (in thousands) as presented in the accompanying condensed consolidated statements of income:

	13 Weeks Ended	
	March 30, 2010	March 31, 2009
Net income attributable to Texas Roadhouse, Inc. and subsidiaries	\$ 19,241	\$ 14,334
Basic EPS:		
Weighted-average common shares outstanding	70,690	69,426
Basic EPS	\$ 0.27	\$ 0.21
Diluted EPS:		
Weighted-average common shares outstanding	70,690	69,426
Dilutive effect of stock options and restricted stock	1,536	1,080
Shares diluted	72,226	70,506
Diluted EPS	\$ 0.27	\$ 0.20

(9) Acquisitions

During the fourth quarter of 2009, we terminated our franchise agreement with a franchisee which operated one restaurant. Pursuant to the terms of the franchise agreement, we acquired the restaurant from the franchisee for an immaterial amount. As a result, there was no purchase price allocation or subsequent goodwill associated with this acquisition. We now operate the restaurant as a company restaurant.

(10) Fair Value Measurement

The following table presents the fair values for our financial assets and liabilities measured on a recurring basis as of March 30, 2010:

	Total	Fair Value Measurements		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Interest rate swaps	\$ (712)	\$	\$ (712)	\$
Deferred compensation plan assets	3,940	3,940		
	(3,918)	(3,918)		

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

Deferred compensation plan -
liabilities

Total	\$	(690)	\$	22	\$	(712)	\$
-------	----	-------	----	----	----	-------	----

The fair value of our interest rate swaps were determined based on the present value of expected future cash flows considering the risks involved, including nonperformance risk, and using discount rates appropriate for the duration. See note 4 for discussion of our interest rate swaps.

The Second Amended and Restated Deferred Compensation Plan of Texas Roadhouse Management Corp., as amended, (the Deferred Compensation Plan) is a nonqualified deferred compensation plan which allows highly compensated employees to defer receipt of a portion of their compensation and contribute such amounts to one or more investment funds held in a rabbi trust. We report the accounts of the rabbi trust in our condensed consolidated financial statements. These investments are considered trading securities and are reported at fair value based on third-party broker statements. The realized and unrealized holding gains and losses related to these investments, as well as the offsetting compensation expense, are recorded in general and administrative expense on the condensed consolidated statements of income.

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

Table of Contents

The following table presents the fair values for our financial assets and liabilities measured on a nonrecurring basis as of March 30, 2010:

	Total	Fair Value Measurements			Total losses
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Long-lived assets held for sale	\$ 1,598	\$	\$ 1,598	\$	\$
Long-lived assets held for use	1,230		1,230		
Goodwill	651			651	
Total	\$ 3,479	\$	\$ 2,828	\$ 651	\$

Long-lived assets held for sale include land and building and are valued using Level 2 inputs, primarily an independent third party appraisal. These assets are included in Property and equipment in the Company's condensed consolidated balance sheets as we do not expect to sell these assets in the next 12 months. Costs to market and/or sell the assets are factored into the estimates of fair value. The long-lived assets related to this restaurant are currently classified as held for sale.

Long-lived assets held for use include building, equipment and furniture and fixtures and are valued using Level 2 inputs, primarily independent third party appraisal. These assets are included in Property and equipment in our condensed consolidated balance sheets.

Goodwill in the table above relates to two underperforming restaurants in which the carrying value of the associated goodwill was reduced to fair value, based on their historical results and anticipated future trends of operations.

At March 30, 2010 and December 29, 2009, the fair value of cash and cash equivalents, accounts receivable and accounts payable approximated their carrying value based on the short-term nature of these instruments. The fair value of our long-term debt is estimated based on the current rates offered to us for instruments of similar terms and maturities. The carrying amounts and related estimated fair values for our debt are as follows:

	March 30, 2010		December 29, 2009	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Installment loans	\$ 1,990	\$ 2,526	\$ 2,030	\$ 2,592
Revolver	87,000	87,000	99,000	99,000

(11) Stock Repurchase Program

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

On February 14, 2008, our Board of Directors approved a stock repurchase program under which it authorized us to repurchase up to \$25.0 million of our common stock. On July 8, 2008, our Board of Directors approved a \$50.0 million increase in our stock repurchase program. Our total stock repurchase authorization increased to \$75.0 million. Under this program, we were authorized to repurchase outstanding shares of our common stock from time to time in open market transactions through February 14, 2010. On November 19, 2009, the Board of Directors extended the expiration date on the stock repurchase program to February 14, 2011. The timing and the amount of any repurchases will be determined by management under parameters established by our Board of Directors, based on its evaluation of the Company's stock price, market conditions and other corporate considerations.

For the 13 weeks ended March 30, 2010 and March 31, 2009, we did not repurchase any shares of our common stock. The approximate dollar value of shares that may yet be purchased under the plan is \$18.2 million.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Texas Roadhouse is a growing, moderately priced, full-service restaurant chain. Our founder and chairman, W. Kent Taylor, started the business in 1993. Our mission statement is "Legendary Food, Legendary Service®". Our operating strategy is designed to position each of our restaurants as the local hometown destination for a broad segment of consumers seeking high quality, affordable meals served with friendly, attentive service. As of March 30, 2010, there were 334 restaurants operating in 46 states, including:

- 264 company restaurants, of which 254 were wholly-owned and 10 were majority-owned. The results of operations of company restaurants are included in our condensed consolidated statements of income. The portion of income attributable to minority interests in company restaurants that are not wholly-owned is reflected in the line item entitled "Net income attributable to noncontrolling interests" in our condensed consolidated statements of income.
- 70 franchise restaurants, of which 67 were franchise restaurants and three were license restaurants. We have a 5.0% to 10.0% ownership interest in 21 franchise restaurants. The income derived from our minority interests in these franchise restaurants is reported in the line item entitled "Equity income from investments in unconsolidated affiliates" in our condensed consolidated statements of income. Additionally, we provide various management services to these franchise restaurants, as well as five additional franchise restaurants in which we have no ownership interest.

We have contractual arrangements which grant us the right to acquire at pre-determined valuation formulas (i) the remaining equity interests in eight of the 10 majority-owned company restaurants, and (ii) 64 of the franchise restaurants.

Presentation of Financial and Operating Data

Throughout this report, the 13 weeks ended March 30, 2010 and March 31, 2009 are referred to as Q1 2010 and Q1 2009.

Long-term Strategies to Grow Earnings Per Share

Our long-term strategies with respect to increasing net income and earnings per share include the following:

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

Expanding Our Restaurant Base. We will continue to evaluate opportunities to develop Texas Roadhouse restaurants in existing and new domestic and international markets. We will remain focused primarily on mid-sized markets where we believe a significant demand for our restaurants exists because of population size, income levels, the presence of shopping and entertainment centers and a significant employment base. Our ability to expand our restaurant base is influenced by factors beyond our control and therefore we may not be able to achieve our anticipated growth. Due, in part, to increasing restaurant development costs, we moderated our restaurant development plans for 2009 and 2010. For 2010, we expect our average capital investment for developing our prototype restaurant to decrease by \$0.2 million to \$0.4 million from our \$4.0 million average in 2009. These increases are a result of building design modifications and lower site work costs, as landlords are becoming more responsible for a higher portion of certain of these costs. We continue to focus on driving sales and decreasing restaurant development costs in order to increase our restaurant development in the future.

We may, at our discretion, add franchise restaurants, domestically and/or internationally, primarily with franchisees who have demonstrated prior success with the Texas Roadhouse or other restaurant concepts and in markets in which the franchisee demonstrates superior knowledge of the demographics and restaurant operating conditions. In conjunction with this strategy, we signed our first international franchise agreement on April 26, 2010 for the development of Texas Roadhouse restaurants in eight countries over the next ten years, the first of which is expected to open in early 2011. We may also look to acquire franchise restaurants under terms favorable to us and our stockholders. Additionally, from time to time, we may evaluate potential mergers, acquisitions, joint ventures or other strategic initiatives to acquire or develop additional concepts. Of the 264 restaurants we owned and operated at March 30, 2010, 263 operated as Texas Roadhouse restaurants, while one operated under the name of Aspen Creek. The majority of our restaurant growth in 2010 will be Texas Roadhouse restaurants; however, we plan to open two additional Aspen Creek restaurants as we continue testing the viability of the concept.

Maintaining and/or Improving Restaurant Level Profitability. We plan to maintain, or possibly increase, restaurant level profitability through a combination of increased comparable restaurant sales and operating cost management.

Leveraging Our Scalable Infrastructure. Over the past several years, we have made significant investments in our infrastructure, including information systems, real estate, human resources, legal, marketing and operations. Historically, general and administrative costs have increased at a slower growth rate than our revenue. Whether we are able to continue leveraging our infrastructure will depend, in part, on our new restaurant and comparable restaurant sale growth rates going forward.

Table of Contents

Stock Repurchase Program. We continue to look at opportunities to repurchase our common stock at favorable market prices under our stock repurchase program. Currently, our Board of Directors has authorized us to repurchase up to \$75.0 million of our common stock. As of March 30, 2010, \$18.2 million worth of common stock remains authorized for repurchase. We made no purchases of our common stock during the 13 weeks ended March 30, 2010.

Key Measures We Use to Evaluate Our Company

Key measures we use to evaluate and assess our business include the following:

Number of Restaurant Openings. Number of restaurant openings reflects the number of restaurants opened during a particular fiscal period. For company restaurant openings we incur pre-opening costs, which are defined below, before the restaurant opens. Typically new restaurants open with an initial start-up period of higher than normalized sales volumes, which decrease to a steady level approximately three to six months after opening. However, although sales volumes are generally higher, so are initial costs, resulting in restaurant operating margins that are generally lower during the start-up period of operation and increase to a steady level approximately three to six months after opening.

Comparable Restaurant Sales Growth. Comparable restaurant sales growth reflects the change in year-over-year sales for all company restaurants for the comparable restaurant base. We define the comparable restaurant base to include those restaurants open for a full 18 months before the beginning of the current interim period excluding restaurants closed during the period. Comparable restaurant sales growth can be impacted by changes in guest traffic counts or by changes in the per person average check amount. Menu price changes and the mix of menu items sold can affect the per person average check amount.

Average Unit Volume. Average unit volume represents the average annual restaurant sales for all company restaurants open for a full six months before the beginning of the period measured. Average unit volume excludes sales on restaurants closed during the period. Growth in average unit volumes in excess of comparable restaurant sales growth is generally an indication that newer restaurants are operating with sales levels in excess of the company average. Conversely, growth in average unit volumes less than growth in comparable restaurant sales growth is generally an indication that newer restaurants are operating with sales levels lower than the company average.

Store Weeks. Store weeks represent the number of weeks that our company restaurants were open during the reporting period.

Other Key Definitions

Restaurant Sales. Restaurant sales include gross food and beverage sales, net of promotions and discounts. Sales taxes collected from customers and remitted to governmental authorities are accounted for on a net basis and therefore are excluded from restaurant sales in the consolidated statements of income.

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

Franchise Royalties and Fees. Domestic franchisees typically pay a \$40,000 initial franchise fee for each new restaurant and a franchise renewal fee equal to the greater of 30% of the then-current initial franchise fee or \$10,000 to \$15,000. Franchise royalties consist of royalties in an amount up to 4.0% of gross sales, as defined in our franchise agreement, paid to us by our domestic franchisees.

Restaurant Cost of Sales. Restaurant cost of sales consists of food and beverage costs.

Restaurant Labor Expenses. Restaurant labor expenses include all direct and indirect labor costs incurred in operations except for profit sharing incentive compensation expenses earned by our managing partners. These profit sharing expenses are reflected in restaurant other operating expenses. Restaurant labor expenses also include share-based compensation expense related to restaurant-level employees.

Restaurant Rent Expense. Restaurant rent expense includes all rent associated with the leasing of real estate and includes base, percentage and straight-line rent expense.

Restaurant Other Operating Expenses. Restaurant other operating expenses consist of all other restaurant-level operating costs, the major components of which are utilities, supplies, advertising, repair and maintenance, property taxes, credit card fees and general liability insurance. Profit sharing allocations to managing partners and market partners are also included in restaurant other operating expenses.

Pre-opening Expenses. Pre-opening expenses, which are charged to operations as incurred, consist of expenses incurred before the opening of a new restaurant and are comprised principally of opening team and training salaries, travel expenses, rent, and food, beverage and other initial supplies and expenses.

Depreciation and Amortization Expenses. Depreciation and amortization expenses (D&A) includes the depreciation of fixed assets and amortization of intangibles with definite lives.

Table of Contents

Impairment and closure costs. Impairment and closure costs include any impairment of long-lived assets associated with restaurants where the carrying amount of the asset is not recoverable and exceeds the fair value of the asset and expenses associated with the closure of a restaurant. Closure costs also include any gains or losses associated with the sale of a closed restaurant and/or assets held for sale.

General and Administrative Expenses. General and administrative expenses (G&A) are comprised of expenses associated with corporate and administrative functions that support development and restaurant operations and provide an infrastructure to support future growth. Supervision and accounting fees received from certain franchise restaurants and license restaurants are offset against G&A. G&A also includes share-based compensation expense related to executive officers, support center employees and market partners.

Interest Expense, Net. Interest expense includes the cost of our debt obligations including the amortization of loan fees, reduced by interest income and capitalized interest. Interest income includes earnings on cash and cash equivalents.

Equity Income from Unconsolidated Affiliates. As of March 30, 2010 and March 31, 2009, we owned a 5.0% to 10.0% equity interest in 21 franchise restaurants and 19 franchise restaurants, respectively. Equity income from unconsolidated affiliates represents our percentage share of net income earned by these unconsolidated affiliates.

Net Income Attributable to Noncontrolling Interests. Net income attributable to noncontrolling interests represents the portion of income attributable to the other owners of the majority-owned or controlled restaurants. Our consolidated subsidiaries at March 30, 2010 and March 31, 2009 included ten majority-owned restaurants, all of which were open.

Balance at March 30, 2010	264	70	334

Q1 2010 (13 weeks) Compared to Q1 2009 (13 weeks)

Restaurant Sales. Restaurant sales increased by 5.4% in Q1 2010 as compared to Q1 2009. This increase was attributable to the opening of new restaurants and an increase in comparable restaurant sales and average unit volumes.

The following table summarizes certain key drivers and/or attributes of restaurant sales at company restaurants for the periods.

	Q1 2010	Q1 2009
Store weeks	3,412	3,249
Comparable restaurant sales growth/(decline)	0.4%	(1.3)%
Average unit volume (in thousands)	\$ 974	\$ 972

We have implemented certain menu pricing increases to partially offset impacts from higher operating costs and other inflationary pressures. The following table summarizes our menu pricing actions for the periods shown.

	Increased Menu Pricing
April 2009	1.4%
May/June 2008	1.5%
January/February 2008	1.1%

While we have implemented certain menu price increases, average guest check has remained fairly constant. This is due to some guests purchasing fewer alcoholic beverages and/or shifting their selections to lower priced menu items. We will continue to evaluate the need for and test further menu price increases as we assess the current inflationary and competitive environment.

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

In 2010, we plan to open 14 to 15 company restaurants, three of which opened during Q1 2010. We have either begun construction or have sites currently under contract for purchase or lease for 10 of the remaining restaurants. In addition, we will continue to evaluate opportunities for international development and acquiring additional franchise restaurants in 2010.

Franchise Royalties and Fees. Franchise royalties and fees increased by \$0.3 million, or by 15.1%, in Q1 2010 from Q1 2009. The increase in Q1 2010 was primarily attributable to the opening of new restaurants in 2009, increasing royalty rates in conjunction with the renewal of certain franchise agreements and an increase in average unit volumes. Franchise comparable restaurant sales increased 0.9% in Q1 2010. Franchise restaurant count activity is shown in the restaurant unit activity table above.

Restaurant Cost of Sales. Restaurant cost of sales, as a percentage of restaurant sales, decreased to 32.2% in Q1 2010 from 34.0% in Q1 2009. This decrease was primarily attributable to the benefit of lower beef costs, lower food costs on items such as wheat and oil-based ingredients, lower produce costs and the menu price increases discussed above. For 2010, we have fixed price contracts for 65-70% of our overall food costs with the remainder subject to fluctuating market prices. While commodity cost deflation was higher in Q1 2010 due to the way we purchased certain proteins, we continue to expect commodity cost deflation of approximately 2.5-3.0% in 2010.

Restaurant Labor Expenses. Restaurant labor expenses, as a percentage of restaurant sales, decreased to 29.1% in Q1 2010 from 29.3% in Q1 2009. This decrease was primarily attributable to an increase in average unit volumes and the menu price increases discussed above combined with lower turnover, partially offset by higher average wage rates. For Q1 2010, our turnover rate for hourly employees at restaurants open 12 months or more was below 80% compared to slightly under 90% in Q1 2009. Higher average hourly wage rates resulted from several state-mandated increases in minimum and tip wage rates throughout 2009, including increases in federal minimum wage rate in July 2009. We anticipate our labor costs will continue to be pressured by inflation, which

Table of Contents

is primarily caused by federal and state-mandated increases in minimum and tip wage rates. However, we expect that this pressure will not be as much as it has been in the past. These increases may or may not be offset by additional menu price adjustments.

Restaurant Rent Expense. Restaurant rent expense, as a percentage of restaurant sales, remained the same in Q1 2010 compared to Q1 2009 at 2.0%. The benefit from an increase in average unit volumes was offset by the impact of leasing more land and buildings than we have in the past.

Restaurant Other Operating Expenses. Restaurant other operating expenses, as a percentage of restaurant sales, decreased slightly to 16.6% in Q1 2010 from 16.7% in Q1 2009. This decrease was primarily attributable to lower costs for utilities and supplies, as a percentage of restaurant sales, combined with an increase in average unit volumes, partially offset by higher costs for managing partner and market partner bonuses, as a percentage of restaurant sales. We continue to work with various suppliers to lock in lower natural gas and electric rates where possible. Managing partner and market partner bonus expense was higher in Q1 2010 as a result of improved restaurant sales and margins.

Restaurant Pre-opening Expenses. Pre-opening expenses decreased to \$1.1 million in Q1 2010 from \$2.3 million in Q1 2009. This decrease was primarily attributable to fewer restaurant openings in Q1 2010 compared to Q1 2009. In 2010, we plan to open 14 to 15 company restaurants, three of which opened in Q1 2010. In 2009, we opened 17 company restaurants, nine of which opened in Q1 2009. Pre-opening costs will fluctuate from period to period based on the number and timing of restaurant openings and the number and timing of restaurant managers hired.

Depreciation and Amortization Expense. D&A, as a percentage of total revenue, decreased to 4.0% in Q1 2010 from 4.3% in Q1 2009. This decrease was primarily attributable to an increase in average unit volumes and lower depreciation expense on older restaurants, partially offset by higher construction costs and other capital spending on new restaurants.

Impairment and Closure Expenses. Impairment and closure expenses increased to \$0.2 million in Q1 2010 compared to (\$0.1) million in Q1 2009. In Q1 2010, we recorded an impairment charge of \$0.1 million related to the write-down of equipment associated with one restaurant, which was subsequently closed in the second quarter of 2010. We also recorded closure costs of \$0.1 million in Q1 2010 relating to various restaurant closures that took place in fiscal 2009. The \$0.1 million credit in Q1 2009 was a result of settling the lease reserve for a restaurant that was closed in fiscal year 2008.

General and Administrative Expenses. G&A, as a percentage of total revenue, increased to 4.8% in Q1 2010 from 4.4% in Q1 2009. This increase was primarily attributable to higher performance-based bonus expense as a result of higher profitability, combined with higher costs related to international development. We anticipate that our G&A expense in the second quarter of 2010 will be higher as the costs related to our 2010 managing partner conference will be \$1.0 to \$1.2 million higher than last year.

Interest Expense, Net. Interest expense decreased to \$0.7 million in Q1 2010 from \$0.9 million in Q1 2009. This decrease was primarily attributable to lower interest rates, partially offset by lower capitalized interest. Lower capitalized interest was primarily due to slower restaurant development in Q1 2010 compared to Q1 2009.

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

Income Tax Expense. We account for income taxes in accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 740, *Income Taxes (ASC 740)*. Our effective tax rate increased to 33.3% in Q1 2010 from 31.9% in Q1 2009. This increase was primarily attributable to higher profitability, which led to lower federal tax credits, such as FICA tip credit and Work Opportunity Tax credits, as a percentage of net income before tax, and an increase in the non-deductibility of officers' compensation and was partially offset by lower non-deductible stock compensation expense. We expect the effective tax rate to be approximately 33.0% for fiscal 2010.

Liquidity and Capital Resources

The following table presents a summary of our net cash provided by (used in) operating, investing and financing activities:

	13 Weeks Ended	
	March 30, 2010	March 31, 2009
Net cash provided by operating activities	\$ 22,684	\$ 20,178
Net cash used in investing activities	(7,801)	(13,350)
Net cash used in financing activities	(7,998)	(4,333)
Net increase in cash and cash equivalents	\$ 6,885	\$ 2,495

Net cash provided by operating activities was \$22.7 million in Q1 2010 compared to \$20.2 million in Q1 2009. This increase was primarily due to higher net income, partially offset by other changes in working capital. Net income was \$5.0 million higher as a result of having more restaurants open and higher restaurants sales and margins.

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

Table of Contents

Our operations have not required significant working capital and, like many restaurant companies, we have been able to operate with negative working capital. Sales are primarily for cash, and restaurant operations do not require significant inventories or receivables. In addition, we receive trade credit for the purchase of food, beverages and supplies, thereby reducing the need for incremental working capital to support growth.

Net cash used in investing activities was \$7.8 million in Q1 2010 compared to \$13.4 million in Q1 2009. This decrease was primarily due to lower spending on capital expenditures as a result of the timing of openings in Q1 2010, in which we opened three company restaurants, compared to Q1 2009, in which we opened nine company restaurants.

We require capital principally for the development of new company restaurants and the refurbishment of existing restaurants. We either lease our restaurant site locations under operating leases for periods of five to 30 years (including renewal periods) or purchase the land where it is cost effective. As of March 30, 2010, 117 of the 264 company restaurants had been developed on land which we owned.

Our future capital requirements will primarily depend on the number of new restaurants we open and the timing of those openings and the restaurant prototype developed in a given fiscal year. These requirements will include costs directly related to opening new restaurants and may also include costs necessary to ensure that our infrastructure is able to support a larger restaurant base. In fiscal 2010, we expect our capital expenditures to be approximately \$50.0 million, the majority of which will relate to planned restaurant openings. This amount excludes any cash used for franchise acquisitions. We intend to satisfy our capital requirements over the next 12 months with cash on hand, net cash provided by operating activities and, if needed, funds available under our credit facility. For 2010, we anticipate net cash provided by operating activities will exceed capital expenditures, which we currently plan to use to repay borrowings under our credit facility and/or increase our cash balance. Currently, our intent is to retain our future earnings, if any, primarily to finance the future development and operation of our business.

Net cash used in financing activities was \$8.0 million in Q1 2010 as compared to \$4.3 million in Q1 2009. This increase was primarily due to paying down more on borrowings under our credit facility.

On February 14, 2008, our Board of Directors approved a stock repurchase program to repurchase up to \$25.0 million of common stock. On July 8, 2008, our Board of Directors approved a \$50.0 million increase in the Company's stock repurchase program, thereby increasing the Company's total stock repurchase authorization to \$75.0 million. Under this program, we were authorized to repurchase outstanding shares from time to time in open market transactions through February 14, 2010. On November 19, 2009, our Board of Directors approved the extension of this date to February 14, 2011. No repurchases were made during Q1 2010 or Q1 2009. The timing and the amount of any repurchases will be determined by our management under parameters established by our Board of Directors, based on its evaluation of our stock price, market conditions and other corporate considerations. The approximate dollar value of shares that may yet be purchased under the plan is \$18.2 million.

In Q1 2010, we paid distributions of \$0.6 million to equity holders of ten of our majority-owned company restaurants. In Q1 2009, we paid distributions of \$0.6 million to equity holders of nine of our majority-owned company restaurants.

We have a \$250.0 million five-year revolving credit facility with a syndicate of commercial lenders led by Bank of America, N.A., Banc of America Securities LLC and National City Bank which, in December 2008, was acquired by PNC Bank. The facility expires on May 31, 2012. The terms of the facility require us to pay interest on outstanding borrowings at LIBOR plus a margin of 0.50% to 0.875% and to pay a

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

commitment fee of 0.10% to 0.175% per year on any unused portion of the facility, in both cases depending on our leverage ratio. The weighted-average interest rate for the revolver at March 30, 2010 and December 29, 2009 was 2.50% and 2.36%, respectively, including interest rate swaps. The lenders' obligation to extend credit under the facility depends on us maintaining certain financial covenants, including a minimum consolidated fixed charge coverage ratio of 2.00 to 1.00 and a maximum consolidated leverage ratio of 3.00 to 1.00. The credit facility permits us to incur additional secured or unsecured indebtedness outside the facility, except for the incurrence of secured indebtedness that in the aggregate exceeds 20% of our consolidated tangible net worth or circumstances where the incurrence of secured or unsecured indebtedness would prevent us from complying with our financial covenants. We were in compliance with all covenants as of March 30, 2010.

At March 30, 2010, we had \$87.0 million of outstanding borrowings under our credit facility and \$159.3 million of availability net of \$3.7 million of outstanding letters of credit. In addition, we had various other notes payable totaling \$2.0 million with interest rates ranging from 10.46% to 10.80%. Each of these notes related to the financing of specific restaurants. Our total weighted-average effective interest rate at March 30, 2010 was 2.68%, including interest rate swaps.

Table of Contents

On October 22, 2008, we entered into an interest rate swap, starting on November 7, 2008, with a notional amount of \$25.0 million to hedge a portion of the cash flows of our variable rate credit facility. We have designated the interest rate swap as a cash flow hedge of our exposure to variability in future cash flows attributable to interest payments on a \$25.0 million tranche of floating rate debt borrowed under our revolving credit facility. Under the terms of the swap, we pay a fixed rate of 3.83% on the \$25.0 million notional amount and receive payments from the counterparty based on the 1-month LIBOR rate for a term ending on November 7, 2015, effectively resulting in a fixed rate LIBOR component of the \$25.0 million notional amount. Our counterparty in this interest rate swap is J.P. Morgan Chase, N.A.

On January 7, 2009, we entered into another interest rate swap, starting on February 7, 2009, with a notional amount of \$25.0 million to hedge a portion of the cash flows of our variable rate credit facility. We have designated the interest rate swap as a cash flow hedge of our exposure to variability in future cash flows attributable to interest payments on a \$25.0 million tranche of floating rate debt borrowed under our revolving credit facility. Under the terms of the swap, we pay a fixed rate of 2.34% on the \$25.0 million notional amount and receive payments from the counterparty based on the 1-month LIBOR rate for a term ending on January 7, 2016, effectively resulting in a fixed rate LIBOR component of the \$25.0 million notional amount. Our counterparty in this interest rate swap is J.P. Morgan Chase, N.A.

Contractual Obligations

The following table summarizes the amount of payments due under specified contractual obligations as of March 30, 2010:

	Payments Due by Period				
	Total	Less than 1 year	1-3 Years (in thousands)	3-5 Years	More than 5 years
Long-term debt obligations	\$ 88,990	\$ 171	\$ 87,401	\$ 496	\$ 922
Capital lease obligations	376	82	192	102	
Interest (1)	1,109	238	388	256	227
Operating lease obligations	203,869	20,151	39,946	38,266	105,506
Capital obligations	26,464	26,464			
Total contractual obligations (2)	\$ 320,808	\$ 47,106	\$ 127,927	\$ 39,120	\$ 106,655

(1) Assumes constant rate until maturity for our fixed and variable rate debt and capital lease obligations.

Uses interest rates as of March 30, 2010 for our variable rate debt. Interest payments on our variable-rate revolving credit facility have been excluded from the amounts shown above, primarily because the balance outstanding under our revolving credit facility, described further in note 3 of the condensed consolidated financial statements, can fluctuate daily.

(2) This amount excludes \$0.1 million of unrecognized tax benefits under FASB ASC 740, *Income Taxes*.

Edgar Filing: Texas Roadhouse, Inc. - Form 10-Q

The Company has no material minimum purchase commitments with its vendors that extend beyond a year. See note 6 to the condensed consolidated financial statements for details of contractual obligations.

Off-Balance Sheet Arrangements

Except for operating leases (primarily restaurant leases), we do not have any off-balance sheet arrangements.

Guarantees

We entered into real estate lease agreements for franchise restaurants located in Everett, MA, Longmont, CO, Montgomeryville, PA, Fargo, ND and Logan, UT prior to our granting franchise rights for those restaurants. We have subsequently assigned the leases to the franchisees, but we remain contingently liable if a franchisee defaults under the terms of a lease. The Longmont lease expires in May 2014, the Everett lease expires in February 2018, the Montgomeryville lease expires in June 2021, the Fargo lease expires in July 2016 and the Logan lease expires in August 2019. As the fair value of these guarantees is not considered significant, no liability value has been recorded.

Recently Issued Accounting Standards

Fair Value Measures and Disclosures

(Accounting Standards Update (ASU) 2010-06)

In January 2010, the FASB issued ASU 2010-06 which amends Accounting Standards Codification (ASC) topic 820, *Fair Value Measures and Disclosures*. ASU No. 2010-06 amends the ASC to require disclosure of transfer into and out of Level 1 and Level 2 fair value measurements, and also require more detailed disclosure about the activity within Level 3 fair value measurements. The changes as a result of this update are effective for annual and interim reporting periods beginning after December 15, 2009 (our 2010 fiscal year), except for requirements related to Level 3 disclosures, which are effective for annual and interim reporting periods

Table of Contents

beginning after December 15, 2010 (our 2011 fiscal year). This guidance requires new disclosures only, and will have no impact on our consolidated financial position, results of operations or cash flows.

Consolidation of Variable Interest Entities Amended

(To be included in ASC 810, Consolidation, previously SFAS 167, Amendments to FASB Interpretation No. 46(R))

ASC 810 provides guidance for determining the primary beneficiary of a variable interest entity. In addition, ASC 810 requires ongoing assessments of whether an enterprise is the primary beneficiary of a variable interest entity. ASC 810 is effective for the first annual and interim reporting periods that begin after November 15, 2009 (our fiscal year 2010). The adoption of ASC 810 had no impact on our consolidated financial position, results of operations and cash flows.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are exposed to market risk from changes in interest rates on debt and changes in commodity prices. Our exposure to interest rate fluctuations is limited to our outstanding bank debt and dependent on the interest rate option we choose to utilize under our revolving line of credit. Our options for the rate are the Base Rate, which is the higher of the issuing bank's prime lending rate or the Federal Funds rate plus 0.50%, or the London Interbank Offered Rate (LIBOR) plus an applicable margin. At March 30, 2010 there was \$87.0 million outstanding under our revolving line of credit which bears interest at approximately 50 to 87.5 basis points (depending on our leverage ratios) over LIBOR. Our various other notes payable totaled \$2.0 million at March 30, 2010 and had fixed rates ranging from 10.46% to 10.80%. Should interest rates on our variable rate borrowings increase by one percentage point, our estimated annual interest expense would increase by \$1.0 million.

On October 22, 2008, we entered into an interest rate swap, starting on November 7, 2008, with a notional amount of \$25.0 million to hedge a portion of the cash flows of our variable rate borrowings. We have designated the interest rate swap as a cash flow hedge of our exposure to variability in future cash flows attributable to interest payments on a \$25.0 million tranche of floating rate debt borrowed under our revolving credit facility. Under the terms of the swap, we pay a fixed rate of 3.83% on the \$25.0 million notional amount and receive payments from the counterparty based on the 1-month LIBOR rate for a term ending on November 7, 2015, effectively resulting in a fixed rate on the LIBOR component of the \$25.0 million notional amount.

On January 7, 2009, we entered into another interest rate swap, starting February 7, 2009, with a notional amount of \$25.0 million to hedge a portion of the cash flows of our variable rate credit facility. We have designated the interest rate swap as a cash flow hedge of our exposure to variability in future cash flows attributable to interest payments on a \$25.0 million tranche of floating rate debt borrowed under our revolving credit facility. Under the terms of the swap, we pay a fixed rate of 2.34% on the \$25.0 million notional amount and receive payments from the counterparty based on the 1-month LIBOR rate for a term ending on January 7, 2016, effectively resulting in a fixed rate LIBOR component of the \$25.0 million notional amount.

By using derivative instruments to hedge exposures to changes in interest rates, we expose ourselves to credit risk. Credit risk is the failure of the counterparty to perform under the terms of the derivative contract. We minimize the credit risk by entering into transactions with high-quality counterparties whose credit rating is evaluated on a quarterly basis. Our counterparty in the interest rate swaps is J.P. Morgan Chase, N.A.

Many of the ingredients used in the products sold in our restaurants are commodities that are subject to unpredictable price volatility. Currently, we do not utilize fixed price contracts for certain commodities such as produce and cheese, therefore, we are subject to prevailing market conditions when purchasing those types of commodities. For other commodities, we employ various purchasing and pricing contract techniques in an effort to minimize volatility, including fixed price contracts for terms of generally one year or less and negotiating prices with vendors with reference to fluctuating market prices. We currently do not use financial instruments to hedge commodity prices, but we will continue to evaluate their effectiveness. Extreme and/or long term increases in commodity prices could adversely affect our future results, especially if we are unable, primarily due to competitive reasons, to increase menu prices. Additionally, if there is a time lag between the increasing commodity prices and our ability to increase menu prices or if we believe the commodity price increase to be short in duration and we choose not to pass on the cost increases, our short-term financial results could be negatively affected.

We are subject to business risk as our beef supply is highly dependent upon two to four vendors. If these vendors were unable to fulfill their obligations under their contracts, we may encounter supply shortages and incur higher costs to secure adequate supplies, any of which would harm our business.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of disclosure controls and procedures

We have evaluated the effectiveness of the design and operation of our disclosure controls and procedures pursuant to, and as defined in Exchange Act Rules 13a-15(e) and 15d-15(e) as of the end of the period covered by this report. Based on the evaluation, performed under the supervision and with the participation of our management, including the Chief Executive Officer (the CEO) and the Chief Financial Officer (the CFO), our management, including the CEO and CFO, concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report.

Changes in internal control

During the period covered by this report, there were no changes with respect to our internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Occasionally, we are a defendant in litigation arising in the ordinary course of our business, including slip and fall accidents, employment related claims and claims from guests or employees alleging illness, injury or food quality, health or operational concerns. None of these types of litigation, most of which are covered by insurance, has had a material effect on us and, as of the date of this report, we are not party to any litigation that we believe would have a material adverse effect on our business.

ITEM 1A. RISK FACTORS

Information regarding risk factors appears in our Annual Report on Form 10-K for the year ended December 29, 2009, under the heading Special Note Regarding Forward-looking Statements and in the Form 10-K Part I, Item 1A, Risk Factors. There have been no material changes from the risk factors previously disclosed in our Form 10-K.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

On February 14, 2008, our Board of Directors approved a stock repurchase program under which it authorized us to repurchase up to \$25.0 million of our common stock through February 14, 2010. On July 8, 2008, our Board of Directors approved a \$50.0 million increase in our stock repurchase program. On November 19, 2009, our Board of Directors extended the expiration date on the stock repurchase program to February 14, 2011. We made no repurchases of common stock during the 13 weeks ended March 30, 2010. The approximate dollar value of shares that may yet be purchased under the plan is \$18.2 million.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. (Removed and Reserved)

None.

ITEM 5. OTHER INFORMATION.

None.
