TOOTSIE ROLL INDUSTRIES, INC. AND SUBSIDIARIES

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

APRIL 2, 2011

(in thousands except per share amounts) (UNAUDITED)

Note 1 Significant Accounting Policies

General Information

Foregoing data has been prepared from the unaudited financial records of Tootsie Roll Industries, Inc. and Subsidiaries (the Company) and in the opinion of management all adjustments necessary for a fair statement of the results for the interim period have been reflected. All adjustments were of a normal and recurring nature. Certain reclassifications have been made to the prior year financial statements to conform to the current year presentation. These consolidated financial statements should be read in conjunction with the consolidated financial statements and the related notes included in the Company's 2010 Annual Report on Form 10-K.

Results of operations for the period ended April 2, 2011 are not necessarily indicative of results to be expected for the year to end December 31, 2011 because of the seasonal nature of the Company's operations. Historically, the third quarter has been the Company's largest sales quarter due to Halloween sales.

Revision

During 2010, the Company identified certain liabilities for uncertain tax positions that should not have been recorded based on a reevaluation of the related facts. Management has concluded that the effects of the correcting adjustments were not material to the Company's previously issued quarterly and annual financial statements. The Company has revised the previously issued financial statements in this quarterly report and will do so in future filings. The revised financial statements reflect an increase in retained earnings at the beginning of the year 2010 of \$2,654. The revised financial statements also reflect a change to the provision for income tax expense which resulted in an increase in net earnings of \$119 in the first quarter 2010.

Accounting Pronouncements

There were no accounting standards issued during the quarter that the Company believes would have a material impact on the financial statements.

Note 2 Average Shares Outstanding

Average shares outstanding for the period ended April 2, 2011 reflect stock purchases of 75 shares for \$2,163 and a 3% stock dividend distributed on April 7, 2011. Average shares outstanding for the period ended April 3, 2010 reflect stock purchases of 26 shares for \$712 and a 3% stock dividend distributed on April 8, 2010.

Note 3 Income Taxes

The consolidated effective tax rates were 33.9% and 34.5% in first quarter 2011 and 2010, respectively. The decrease in the effective tax rate in first quarter 2011 principally relates to lower uncertain tax positions.

The Company is subject to taxation in the U.S. and various state and foreign jurisdictions. The Company remains subject to examination by U.S. federal and state authorities for the years 2007 through 2010. Certain foreign jurisdictions are subject to examinations for the years 2004 through 2010.

Table of Contents

## Note 4 Fair Value Measurements

Current accounting guidance defines fair value as the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Guidance requires disclosure of the extent to which fair value is used to measure financial assets and liabilities, the inputs utilized in calculating valuation measurements, and the effect of the measurement of significant unobservable inputs on earnings, or changes in net assets, as of the measurement date. Guidance establishes a three-level valuation hierarchy based upon the transparency of inputs utilized in the measurement and valuation of financial assets or liabilities as of the measurement date. Level 1 inputs include quoted prices for identical instruments and are the most observable. Level 2 inputs include quoted prices for similar assets and observable inputs such as interest rates, foreign currency exchange rates, commodity rates and yield curves. Level 3 inputs are not observable in the market and include management's own judgments about the assumptions market participants would use in pricing the asset or liability. The use of observable and unobservable inputs is reflected in the hierarchy assessment disclosed in the table below.

As of April 2, 2011, December 31, 2010 and April 3, 2010, the Company held certain financial assets that are required to be measured at fair value on a recurring basis. These included derivative hedging instruments related to the purchase of certain raw materials, investments in trading securities and available for sale securities, including auction rate securities (ARS). The Company's available for sale and trading securities principally consist of municipal bonds and mutual funds that are publicly traded.

The following table presents information about the Company's financial assets and liabilities measured at fair value as of April 2, 2011, December 31, 2010 and April 3, 2010, and indicates the fair value hierarchy of the valuation techniques utilized by the Company to determine such fair value:

	Total Fair Value	Estimated Fair Value April 2, 2011		
		Level 1	Input Levels Used Level 2	Level 3
Cash and equivalents	\$ 84,908	\$ 84,908		
ARS	6,775			6,775

# Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

## Table of Contents

As of April 2, 2011, the Company's long term investments included an ARS, Jefferson County Alabama Sewer Revenue Refunding Warrants, reported at a fair value of \$6,775, after reflecting a \$5,140 other-than-temporary impairment and a \$1,635 temporary decline in market value against its \$13,550 par value. In 2008, this ARS was determined to be other than temporarily impaired due to the duration and severity of the decline in fair value. The Company estimated the fair value of this ARS utilizing a valuation model with Level 3 inputs. This valuation model considered, among other items, a limited number of market trades, the credit risk of the collateral underlying the ARS, the credit risk of the bond insurer, interest rates and the amount and timing of expected future cash flows including the Company's assumption about the market expectation of the next successful auction. See Management's Discussion and Analysis of Financial Condition and Results of Operations regarding Jefferson County ARS. The Company classified this ARS as non-current and has included it in long term investments on the Condensed Consolidated Statements of Financial Position at April 2, 2011, December 31, 2010 and April 3, 2010, because the Company believes that the current condition of the ARS market may take more than twelve months to improve.

The following table presents additional information about the Company's financial instruments (all ARS) measured at fair value on a recurring basis using significant unobservable inputs (Level 3) at April 2, 2011 and April 3, 2010:

	<b>2011</b>		<b>2010</b>	
Balance at January 1	\$	6,775	\$	7,710
Unrealized gain (loss) in other comprehensive loss				300
Balance at Apr. 2 and Apr. 3, respectively	\$	6,775	\$	8,010

The \$7,500 carrying amount of the Company's industrial revenue development bonds at April 2, 2011 and April 3, 2010 approximates its estimated fair value as the bonds have a floating interest rate.

## Note 5 Derivative Instruments and Hedging Activities

From time to time, the Company uses derivative instruments, including foreign currency forward contracts, commodity futures contracts and commodity option contracts, to manage its exposures to foreign exchange and commodity prices. Commodity futures contracts and most commodity option contracts are intended and effective as hedges of market price risks associated with the anticipated purchase of certain raw materials (primarily sugar). Foreign currency forward contracts are intended and effective as hedges of the Company's exposure to the variability of cash flows, primarily related to the foreign exchange rate changes of products manufactured in Canada and sold in the United States, and periodic equipment purchases from foreign suppliers denominated in a foreign currency. The Company does not engage in trading or other speculative use of derivative instruments.

The Company recognizes all derivative instruments as either assets or liabilities at fair value in the Condensed Consolidated Statement of Financial Position. Derivative assets are recorded in other receivables and derivative liabilities are recorded in accrued liabilities. The Company uses either hedge accounting or mark-to-market accounting for its derivative instruments. Derivatives that qualify for hedge accounting are designated as cash flow hedges by formally documenting the hedge relationships, including identification of the hedging instruments, the hedged items and other critical terms, as well as the Company's risk management objectives and strategies for undertaking the hedge transaction.

Changes in the fair value of the Company's cash flow hedges are recorded in accumulated other comprehensive loss, net of tax, and are reclassified to earnings in the periods in which earnings are affected by the hedged item. Substantially all amounts reported in accumulated other comprehensive loss for commodity derivatives are expected to be reclassified to cost of goods sold. Substantially all amounts reported in

accumulated other comprehensive loss for foreign currency derivatives are expected to be reclassified to other income, net.

# Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

## Table of Contents

The following table summarizes the Company's outstanding derivative contracts and their effects on its Condensed Consolidated Statements of Financial Position at April 2, 2011, December 31, 2010 and April 3, 2010:

April 2, 2011

Derivatives designated as hedging instruments:			
Foreign currency forward contracts	\$ 12,255	\$ 3,039	\$
Commodity futures contracts	5,931		(1,202)
Commodity option contracts	12,344	673	(1,790)
Total derivatives designated as hedges		3,712	(2,992)
Derivatives not designated as hedging instruments:			
Commodity option contracts	7,496	4	(1,072)
Total derivatives not designated as hedges		4	(1,072)
Total derivatives		\$ 3,716	\$ (4,064)

The effects of derivative instruments on the Company's Condensed Consolidated Statement of Earnings, Comprehensive Earnings and Retained Earnings for the quarters ended April 2, 2011 and April 3, 2010 are as follows:

For Quarter Ended April 2, 2011

	Gain(Loss) Recognized in OCI	Gain (Loss) Reclassified from Accumulated OCI into Earnings	Gain (Loss) on Amount Excluded from Effectiveness Testing Recognized in Earnings
Foreign currency forward contracts	\$ 108	\$ 451	\$
Commodity futures contracts	2,242	4,178	
Commodity option contracts	(3,209)	(235)	
Total	\$ (859)	\$ 4,394	\$

Table of Contents

	For Quarter Ended April 3, 2010		
	Gain (Loss) Recognized in OCI	Gain (Loss) Reclassified from Accumulated OCI into Earnings	Gain (Loss) on Amount Excluded from Effectiveness Testing Recognized in Earnings
Foreign currency forward contracts	\$ 611	\$ 1,247	\$
Commodity futures contracts	(139)	1,063	
Commodity option contracts	(1,444)		
Total	\$ (972)	\$ 2,310	\$

For the quarters ended April 2, 2011 and April 3, 2010, the Company recognized gains of \$120 and losses of \$2,522 in earnings, respectively, related to mark-to-market accounting for certain commodity option contracts.

Table of Contents

ITEM 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF  
FINANCIAL CONDITION AND RESULTS OF OPERATIONS  
(in thousands except per share amounts)

This financial review discusses the Company's financial condition, results of operations, liquidity and capital resources, new accounting pronouncements, and other matters. It should be read in conjunction with the accompanying Condensed Consolidated Financial Statements and related footnotes.

Net product sales were \$108,323 in first quarter 2011 compared to \$103,244 in first quarter 2010, an increase of \$5,079 or 4.9%. First quarter 2011 net product sales benefited from effective marketing and sales programs and principally reflects organic growth in volume, including product line extensions.

Product cost of goods sold were \$74,041 in first quarter 2011 compared to \$68,123 in first quarter 2010. Product cost of goods sold includes \$335 and \$280 of deferred compensation expense in first quarter 2011 and 2010, respectively, an increase of \$55. Changes in deferred compensation expense principally result from the increase or decrease in the market value of investments in trading securities relating to compensation deferred in previous year and are not reflective of current operating results. Adjusting for the aforementioned deferred compensation expense, product cost of goods sold increased from \$67,843 in first quarter 2010 to \$73,706 in first quarter 2011, an increase of \$5,863 or 8.6%. As a percentage of net product sales, this adjusted product cost of goods sold amount increased from 65.7% in first quarter 2010 to 68.0% in first quarter 2011, an increase of 2.3% as a percent of net product sales. This unfavorable increase principally reflects higher ingredient unit costs. The Company expects its ingredient costs to continue to be significantly higher throughout the balance of 2011 compared to 2010.

Selling, marketing and administrative expenses were \$25,964 in first quarter 2011 compared to \$25,326 in first quarter 2010. Selling, marketing and administrative expenses includes \$1,152 and \$1,006 of deferred compensation expense in first quarter 2011 and 2010, respectively, an increase of \$146. As discussed above, these deferred compensation expenses are not reflective of current operating results. Adjusting for the aforementioned deferred compensation expenses, selling, marketing and administrative expenses increased from \$24,320 in first quarter 2010 to \$24,812 in first quarter 2011, an increase of \$492 or 2.0%. Selling marketing and administrative expenses for the first quarter 2011 period reflects higher freight and delivery expenses, including higher freight fuel surcharges. As a percentage of net product sales, adjusted selling, marketing and administrative expenses favorably decreased from 23.6% in first quarter 2010 to 22.9% in first quarter 2011, a decrease of 0.7% as a percent of net product sales.

Earnings from operations were \$9,120 in first quarter 2011 compared to \$10,629 in first quarter 2010. Earnings from operations include deferred compensation expenses relating to corresponding changes in the market value of trading securities that hedge these liabilities as discussed above. Adjusting for the aforementioned, operating earnings were \$10,607 and \$11,915 in first quarter 2011 and 2010, respectively, a decrease of \$1,308 or 11.0%. As a percentage of net product sales, these adjusted operating earnings were 9.8% and 11.5% in first quarter 2011 and 2010, respectively, a decrease of 1.7% as a percentage of net product sales. The above discussed decreases in operating earnings principally reflect the adverse impact of higher ingredient costs, as well as higher freight and delivery expenses as discussed above. Management believes that the discussion and presentation above in this and in the preceding two paragraphs of amounts and percentages adjusted for deferred compensation expense provide additional insight of the underlying operations of the Company for the comparative first quarter 2011 and 2010 periods.

Other income, net, was \$2,992 in first quarter 2011 compared to \$3,416 in first quarter 2010, a decrease of \$424. The first quarter decrease principally reflects a \$201 favorable net increase in the fair value of trading securities investments used to hedge deferred compensation

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

liabilities, a \$230 favorable increase in an equity method investment and a \$900 decrease in net foreign exchange gains over the comparative periods. The income on such trading securities was \$1,487 and \$1,286 in first quarter 2011 and 2010, respectively. This income was substantially offset by a like amount of expense in aggregate product cost of goods sold and selling, marketing, and administrative expenses in the respective periods as discussed above. The first quarter 2011 and 2010 income relating to trading securities principally reflects market appreciation in the equity markets in the respective periods.

The consolidated effective tax rate was 33.9% and 34.5% in first quarter 2011 and 2010, respectively. The decrease in the effective tax rate in first quarter 2011 principally relates to lower uncertain tax positions.

For the aforementioned reasons, principally higher costs of goods sold, net earnings were \$8,000 in first quarter 2011 compared to \$9,204 in first quarter 2010, and earnings per share were \$0.14 and \$0.16 in first quarter 2011 and first quarter 2010, respectively, a decrease of \$.02 or 12.5%. Earnings per share for first quarter 2011 did benefit from the reduction in average shares outstanding resulting from Common Stock purchases in the open market by the Company. Average shares outstanding decreased from 59,000 in first quarter 2010 to 58,083 in first quarter 2011.

Table of Contents

Goodwill and intangibles are assessed annually as of December 31 or whenever events or circumstances indicate that the carrying values may not be recoverable from future cash flows. The Company has not ascertained any triggering events, as defined, or other adverse information that would indicate a material impairment of its goodwill or intangibles in first quarter 2011.

LIQUIDITY AND CAPITAL RESOURCES

Net cash flows provided by operating activities were \$3,724 and \$891 in first quarter 2011 and 2010, respectively. The \$2,833 increase in cash flows provided by operating activities from first quarter 2010 to first quarter 2011 principally reflect changes in other receivables, inventories, and income taxes payable and deferred.

Net cash used in investing activities was \$23,589 in first quarter 2011 compared to \$5,816 in first quarter 2010. Cash flows from investing activities reflect \$17,718 and \$347 relating to the purchase of available for sales securities during first quarter 2011 and 2010, respectively. First quarter 2011 and first quarter 2010 also includes capital expenditures of \$3,382 and \$3,400, respectively. These capital additions include \$521 and \$468, respectively, relating to computer systems and related implementation. Capital expenditures for the 2011 year are anticipated to be generally in line with historical annualized spending, and are to be funded from the Company's cash flow from operations and internal sources.

The Company had no bank borrowing or repayments in first quarter 2011 or 2010, and had no outstanding bank borrowings as of the end of first quarter 2011 or first quarter 2010.

Financing activities include Company Common Stock purchases and retirements of \$2,163 and \$712 in first quarter 2011 and 2010, respectively. Cash dividends of \$9,040 and \$8,909 were paid in first quarter 2011 and 2010, respectively. The increase in cash dividends each year reflects the effects of additional outstanding shares as a result of the annual 3% stock dividend issued in each of these years less the effects of Company Common Stock purchases and retirements.

The Company's current ratio (current assets divided by current liabilities) was 3.9 to 1 as of the end of first quarter 2011 as compared to 4.1 to 1 as of the end of fourth quarter 2010 and 3.6 to 1 as of the end of first quarter 2010. Net working capital was \$160,167 as of the end of first quarter 2011 as compared to \$179,086 and \$157,373 as of the end of fourth quarter 2010 and first quarter 2010, respectively. The aforementioned net working capital amounts are principally reflected in aggregate cash and cash equivalents and short-term investments which totaled \$94,463 as of the end of first quarter 2011 compared to \$123,972 and \$85,052 as of the end of fourth quarter 2010 and first quarter 2010, respectively.

In addition, long term investments, principally debt securities comprising municipal bonds and trading securities, were \$84,239 (including \$6,775 of Jefferson County Auction Rate Securities (ARS) discussed below) as of the end of first quarter 2011, as compared to \$64,461 and \$62,020 as of the end of fourth quarter 2010 and first quarter 2010, respectively. Aggregate cash and cash equivalents and short and long-term investments were \$178,702, \$188,433, \$147,072, for first quarter 2011, fourth quarter 2010 and first quarter 2010, respectively. These investments include \$42,536, \$38,504, and \$35,698 of trading securities relating to the Company's economic hedge of its deferred compensation liabilities. Investments in municipal bonds and other debt securities that matured during first quarters 2011 and 2010 were generally used to purchase the Company's Common Stock or were replaced with debt securities of similar maturities.

During 2008, the Company contributed \$16,050 to a VEBA trust to fund the estimated future costs of certain employee health, welfare and other benefits. The Company used the funds, as well as investment income in this VEBA trust, to pay the actual cost of such benefits during 2010 and 2011 and will continue to do so through 2012. As of the end of first quarter 2011, the VEBA trust holds \$9,275 of aggregate cash, cash equivalents and investments; this asset value is included in prepaid expenses in the Company's current and other assets.

As of the end of first quarter 2011 and 2010, the Company's long-term investments include \$6,775 and \$8,010 (\$13,550 original cost), respectively, of Jefferson County Alabama Sewer Revenue Refunding Warrants, originally purchased with an insurance-backed AAA rating. This is an ARS that is classified as an available for sale security. Due to adverse events related to Jefferson County and its bond insurance carrier, Financial Guaranty Insurance Company (FGIC), as well as events in the credit markets, the auctions for this ARS have failed since 2008. As such, the Company continues to estimate the fair value of this ARS utilizing a valuation model with Level 3 inputs, as defined by guidance. This valuation model considered, among others items, a limited number of market trades, the credit risk of the collateral underlying the ARS, the credit risk of the bond insurer, interest rates, and the amount and timing of expected future cash flows including assumptions about the market expectation of the next successful auction or possible negotiated settlement between the County and debt holders.

As of the end of fourth quarter 2010, the Company evaluated its Jefferson County ARS investment and concluded that a temporary decline had occurred and recorded a \$935 decrease in the market value as a charge to accumulated other comprehensive loss.

Table of Contents

Evaluation at the end of first quarter 2011 concluded no further change in the market value of this ARS. The Company continues to receive all contractual interest payments on its ARS on a timely basis, there has been no default, it is insured by FGIC and the Company has the intent and ability to hold this ARS until recovery of its adjusted cost basis.

ACCOUNTING PRONOUNCEMENTS

There were no accounting standards issued during the quarter that the Company believes would have a material impact on the financial statements.

RISK FACTORS

The Company's operations and financial results are subject to a number of risks and uncertainties that could adversely affect the Company's operating results and financial condition. Significant risk factors, without limitations that could impact the Company are the following: (i) significant competitive activity, including advertising, promotional and price competition, and changes in consumer demand for the Company's products; (ii) fluctuations in the cost and availability of commodities and related ingredients, and packaging materials, and the ability to recover cost increases through product sales price increases; (iii) inherent risks in the marketplace, including uncertainties about trade and consumer acceptance of price increases and seasonal events such as Halloween; (iv) the effect of acquisitions on the Company's results of operations and financial condition; (v) the effect of changes in foreign currencies on the Company's foreign subsidiaries operating results, and the effect of the fluctuation of the Canadian dollar on products manufactured in Canada and marketed and sold in the United States in U.S. dollars; (vi) the Company's reliance on third party vendors for various goods and services, including commodities used for ingredients that are primarily grown or sourced from foreign locations; (vii) the Company's ability to successfully implement new production processes and lines, and new computer software systems; (viii) the effect of changes in assumptions, including discount rates, sales growth and profit margins and the capability to pass along higher ingredient and other input costs through price increases, relating to the Company's impairment testing and analysis of its goodwill and trademarks; (ix) changes in the confectionery marketplace including actions taken by major retailers and customers; (x) customer, consumer and competitor response to marketing programs and price and product weight adjustments, and new products; (xi) dependence on significant customers, including the volume and timing of their purchases, and availability of shelf space; (xii) increases in energy costs, including freight and delivery, that cannot be passed along to customers through increased prices due to competitive reasons; (xiii) any significant labor stoppages, strikes or production interruptions; (xiv) changes in governmental laws and regulations including taxes and tariffs; (xv) the adverse effects should the Company either voluntarily or involuntarily recall its product(s) from the marketplace, (xvi) the risk that the market value of Company's investments could decline including being classified as other-than-temporary as defined; and (xvii) the potential effects of current and future macroeconomic conditions.

In addition, the Company's results may be affected by other general factors, such as financial and securities market factors, political developments, currency exchange rates, interest and inflation rates, accounting standards, taxes, and laws and regulations affecting the Company in markets where it competes and those factors described in Part 1, Item 1A Risk Factors and elsewhere in the Company's Annual Report on Form 10-K and in other Company filings, including quarterly reports on Form 10-Q, with the Securities and Exchange Commission.

FORWARD-LOOKING STATEMENTS

## Edgar Filing: TOOTSIE ROLL INDUSTRIES INC - Form 10-Q

This discussion and certain other sections contain forward-looking statements that are based largely on the Company's current expectations and are made pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995. Forward-looking statements can be identified by the use of words such as anticipated, believe, expect, intend, estimate, project, and other words of similar meaning in connection with a discussion of future operating or financial performance and are subject to certain factors, risks, trends and uncertainties that could cause actual results and achievements to differ materially from those expressed in the forward-looking statements. Such factors, risks, trends and uncertainties, which in some instances are beyond the Company's control, include the overall competitive environment in the Company's industry, changes in assumptions and judgments discussed above under the heading Significant Accounting Policies and Estimates, and factors identified and referred to above under the heading Risk Factors.

The risk factors identified and referred to above are believed to be significant factors, but not necessarily all of the significant factors that could cause actual results to differ from those expressed in any forward-looking statement. Readers are cautioned not to place undue reliance on such forward-looking statements, which are made only as of the date of this report. The Company undertakes no obligation to update such forward-looking statements.

Table of Contents

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

The Company is exposed to various market risks, including fluctuations in sugar, corn syrup, edible oils, including soybean oil, cocoa, dextrose, milk and whey, gum-base input ingredients, packaging materials and fuel costs principally relating to freight and delivery fuel surcharges. The Company is exposed to exchange rate fluctuations in the Canadian dollar which is the currency used for a portion of the raw material and packaging material costs and operating expenses at its Canadian plants. The Company invests in securities with maturities or auction dates of up to three years, the majority of which are held to maturity, which limits the Company's exposure to interest rate fluctuations. There has been no material change in the Company's market risks that would significantly affect the disclosures made in the Form 10-K for the year ended December 31, 2010.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of management, the Chief Executive Officer and Chief Financial Officer of the Company have evaluated the effectiveness of the design and operation of the Company's disclosure controls and procedures as of April 2, 2011 and, based on their evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that these controls and procedures are effective. Disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures are also designed to ensure that information is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

There has been no change in the Company's internal control over financial reporting that occurred during the Company's fiscal quarter ended April 2, 2011 that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II OTHER INFORMATION

TOOTSIE ROLL INDUSTRIES, INC.

AND SUBSIDIARIES

ITEM 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table summarizes purchases of the Company's Common Stock during the quarter ended April 2, 2011:

Period	(a) Total Number of Shares Purchased	(b) Average Price Paid per Share	Shares Purchased as Part of Publicly Announced Plans Or Programs	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plans or Programs
JAN 1 TO JAN 29	60,000	\$ 29.23	NOT APPLICABLE	NOT APPLICABLE
JAN 30 TO FEB 26			NOT APPLICABLE	NOT APPLICABLE
FEB 27 TO APR 2	14,967	27.13	NOT APPLICABLE	NOT APPLICABLE
TOTAL	74,967	\$ 28.81	NOT APPLICABLE	NOT APPLICABLE

While the Company does not have a formal or publicly announced stock purchase program, the Company's board of directors periodically authorizes a dollar amount for share purchases. The treasurer executes share purchase transactions according to these guidelines.
