NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements include the accounts of AptarGroup, Inc. and its subsidiaries. The terms AptarGroup or Company as used herein refer to AptarGroup, Inc. and its subsidiaries. All significant intercompany accounts and transactions have been eliminated.

In the opinion of management, the unaudited condensed consolidated financial statements include all adjustments, consisting of only normal recurring adjustments, necessary for a fair statement of consolidated financial position, results of operations, changes in equity and cash flows for the interim periods presented. The accompanying unaudited condensed consolidated financial statements have been prepared by the Company, pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and footnote disclosure normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted pursuant to such rules and regulations, although the Company believes that the disclosures made are adequate to make the information presented not misleading. Accordingly, these unaudited condensed consolidated financial statements and related notes should be read in conjunction with the consolidated financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the year ended December 31, 2010. The results of operations of any interim period are not necessarily indicative of the results that may be expected for the year.

As previously discussed in the AptarGroup Form 10-Q for the quarterly period ended March 31, 2011, the Company revised certain foreign currency cash flow effects that should not have been reported within cash flows from operating activities on the Condensed Consolidated Statements of Cash Flows. Accordingly, the Company changed the classification of these foreign currency effects to appropriately reflect such amounts within effect of exchange rate changes on cash within the Condensed Consolidated Statements of Cash Flows and has revised our Statement of Cash Flows for the nine months ended September 30, 2010 presented herein.

Effective at the beginning of fiscal year 2011, AptarGroup s new organizational structure consists of three market-focused lines of business which are Beauty + Home, Pharma and Food + Beverage. This new structure is a strategic step to become more closely aligned with our customers and the markets in which they operate. Prior period information has been conformed to the new reporting structure.

ADOPTION OF RECENT ACCOUNTING PRONOUNCEMENTS

Changes to GAAP are established by the Financial Accounting Standards Board (FASB) in the form of accounting standards updates to the FASB s Accounting Standards Codification.

In October 2009, the FASB issued an update to existing guidance on revenue recognition for arrangements with multiple deliverables. This update allowed companies to allocate consideration received for qualified separate deliverables using estimated selling price for both delivered and undelivered items when vendor-specific objective evidence or third-party evidence is unavailable. Additional disclosures discussing the nature of multiple element arrangements, the types of deliverables under the arrangements, the general timing of their delivery, and significant factors and estimates used to determine estimated selling prices are required. The standard is effective for fiscal years beginning on or after June 15, 2010. The adoption of this standard had no impact on the Consolidated Financial Statements.

INCOME TAXES

The Company computes taxes on income in accordance with the tax rules and regulations of the many taxing authorities where the income is earned. The income tax rates imposed by these taxing authorities may vary substantially. Taxable income may differ from pretax income for financial accounting purposes. To the extent that these differences create differences between the tax basis of an asset or liability and its reported amount in the financial statements, an appropriate provision for deferred income taxes is made.

In its determination of which foreign earnings are permanently reinvested in foreign operations, the Company considers numerous factors, including the financial requirements of the U.S. parent company and those of its foreign subsidiaries, the U.S. funding needs for dividend payments and stock repurchases, and the tax consequences of remitting earnings to the U.S. From this analysis, current year repatriation decisions are made in an attempt to provide a proper mix of debt and shareholder capital both within the U.S. and for non-U.S. operations. The Company's policy is to permanently reinvest its accumulated foreign earnings and only will make a distribution out of current year earnings to meet the cash needs at the parent company. As such, the Company does not provide for taxes on earnings that are deemed to be permanently reinvested. The effective tax rate for 2011 includes the estimated tax cost of repatriating \$82 million of current year earnings, which was repatriated in the second quarter of 2011.

The Company provides a liability for the amount of tax benefits realized from uncertain tax positions. This liability is provided whenever the Company determines that a tax benefit will not meet a more-likely-than-not threshold for recognition. See Note 12 for more information.

NOTE 2 - INVENTORIES

At September 30, 2011 and December 31, 2010, approximately 19% and 20%, respectively, of the total inventories are accounted for by using the LIFO method. Inventories, by component and net of reserves, consisted of:

EMPLOYER CONTRIBUTIONS

In order to meet or exceed minimum funding levels required by U.S. law, the Company has contributed \$12.2 million, as of September 30, 2011, to its domestic defined benefit plans and does not anticipate any further contribution during 2011. The Company also expects to contribute approximately \$2.1 million to its foreign defined benefit plans in 2011, and as of September 30, 2011, has contributed approximately \$0.7 million.

NOTE 5 DERIVATIVE INSTRUMENTS AND HEDGING ACTIVITIES

The Company maintains a foreign exchange risk management policy designed to establish a framework to protect the value of the Company's non-functional denominated transactions from adverse changes in exchange rates. Sales of the Company's products can be denominated in a currency different from the currency in which the related costs to produce the product are denominated. Changes in exchange rates on such inter-country sales or intercompany loans can impact the Company's results of operations. The Company's policy is not to engage in speculative foreign currency hedging activities, but to minimize its net foreign currency transaction exposure defined as firm commitments and transactions recorded and denominated in currencies other than the functional currency. The Company may use foreign currency forward exchange contracts, options and cross currency swaps to economically hedge these risks.

The Company maintains an interest rate risk management strategy to minimize significant, unanticipated earnings fluctuations that may arise from volatility in interest rates.

For derivative instruments designated as hedges, the Company formally documents the nature and relationships between the hedging instruments and the hedged items, as well as the risk management objectives, strategies for undertaking the various hedge transactions, and the method of assessing hedge effectiveness. Additionally, in order to designate any derivative instrument as a hedge of an anticipated transaction, the significant characteristics and expected terms of any anticipated transaction must be specifically identified, and it must be probable that the anticipated transaction will occur.

FAIR VALUE HEDGES

During 2011, the Company maintained an interest rate swap to convert a portion of its fixed-rate debt into variable-rate debt. Under the interest rate swap contract, the Company exchanged, at specified intervals, the difference between fixed-rate and floating-rate amounts, which was calculated based on an agreed upon notional amount. On May 31, 2011, this interest rate swap contract matured and was not renewed. No gain or loss was recorded in the income statement in 2010 or nine months ended September 30, 2011 as any hedge ineffectiveness for the period was immaterial.

CASH FLOW HEDGES

As of September 30, 2011, the Company had one foreign currency cash flow hedge. A French subsidiary of AptarGroup, AptarGroup Holding SAS, has hedged the risk of variability in Euro equivalent associated with the cash flows of an intercompany loan granted in Brazilian Real. The forward contracts utilized were designated as a hedge of the changes in the cash flows relating to the changes in foreign currency rates relating to the loan and related forecasted interest. The notional amount of the foreign currency forward contracts utilized to hedge cash flow exposure was 1.3 million Brazilian Real (\$0.7 million) as of September 30, 2011. The notional amount of the foreign currency forward contracts utilized to hedge cash flow exposure was 2.7 million Brazilian Real (\$1.6 million) as of September 30, 2010.

During the three and nine months ended September 30, 2011, the Company did not recognize any net gain (loss) as any hedge ineffectiveness for the period was immaterial, and the Company did not recognize any net gain (loss) related to the portion of the hedging instrument excluded from the assessment of hedge effectiveness. The Company's foreign currency forward contracts hedge forecasted transactions for approximately six months (March 2012).

HEDGE OF NET INVESTMENTS IN FOREIGN OPERATIONS

A significant number of the Company's operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of the financial condition and results of operations of the Company's foreign entities. A weakening U.S. dollar relative to foreign currencies has an additive translation effect on the Company's financial condition and results of operations. Conversely, a strengthening U.S. dollar has a dilutive effect. The

Company in some cases maintains debt in these subsidiaries to offset the net asset exposure. The Company does not otherwise actively manage this risk using derivative financial instruments. In the event the Company plans on a full or partial liquidation of any of its foreign subsidiaries where the Company's net investment is likely to be monetized, the Company will consider hedging the currency exposure associated with such a transaction.

OTHER

As of September 30, 2011, the Company has recorded the fair value of foreign currency forward exchange contracts of \$0.9 million in prepaid and other, \$2.4 million in accounts payable and accrued liabilities, and \$1.9 million in deferred and other non-current liabilities in the balance sheet. All forward exchange contracts outstanding as of September 30, 2011 had an aggregate contract amount of \$182.9 million.

NOTE 6 COMMITMENTS AND CONTINGENCIES

The Company, in the normal course of business, is subject to a number of lawsuits and claims both actual and potential in nature including the proceeding noted below. While management believes the resolution of these claims and lawsuits will not have a material adverse effect on the Company's financial position or results of operations or cash flows, claims and legal proceedings are subject to inherent uncertainties, and unfavorable outcomes could occur that could include amounts in excess of any accruals which management has established. Were such unfavorable final outcomes to occur, it is possible that they could have a material adverse effect on our financial position, results of operations and cash flows.

A competitor has filed a lawsuit against AptarGroup, Inc. alleging that certain processes utilized by AptarGroup, Inc. in the manufacture of a specific type of diptube infringe patents owned by the counterparty. This lawsuit seeks an exclusion order barring the manufacture of this specific diptube. The Company believes it has meritorious defenses against the suit and any unfavorable outcome is not expected to have a material impact on the Company's financial condition or results of operations. Therefore, no accrual has been recorded related to this matter.

Under its Certificate of Incorporation, the Company has agreed to indemnify its officers and directors for certain events or occurrences while the officer or director is, or was serving, at its request in such capacity. The maximum potential amount of future payments the Company could be required to make under these indemnification agreements is unlimited; however, the Company has a directors' and officers' liability insurance policy that covers a portion of its exposure. As a result of its insurance policy coverage, the Company believes the estimated fair value of these indemnification agreements is minimal. The Company had no liabilities recorded for these agreements as of September 30, 2011.

NOTE 7 STOCK REPURCHASE PROGRAM

On July 19, 2011, the Company's Board of Directors authorized the Company to repurchase an additional four million shares of its outstanding common stock. There is no expiration date for this repurchase program.

During the three and nine months ended September 30, 2011, the Company repurchased approximately 800 thousand and 1.6 million shares for aggregate amounts of \$38.8 million and \$79.6 million, respectively. As of September 30, 2011, the Company had a remaining authorization to repurchase 4.1 million additional shares. The timing of and total amount expended for the share repurchase depends upon market conditions.

Table of ContentsNOTE 9 SEGMENT INFORMATION

The Company operates in the packaging components industry, which includes the development, manufacture and sale of consumer product dispensing systems. The Company is organized into three reporting segments. Operations that sell dispensing systems primarily to the personal care, fragrance/cosmetic and household markets form the Beauty + Home segment. Operations that sell dispensing systems to the pharmaceutical market form the Pharma segment. Operations that sell dispensing systems primarily to the food and beverage markets form the Food + Beverage segment.

The accounting policies of the segments are the same as those described in Note 1, Summary of Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2010. The Company evaluates performance of its business segments and allocates resources based upon segment income. Segment income is defined as earnings before interest expense in excess of interest income, certain corporate expenses and income taxes. Beginning in 2011, the Company changed the segment income measure to include stock option and certain information technology costs that were historically maintained within Corporate & Other. Prior period information has been conformed to incorporate this change.

NOTE 10 ACQUISITIONS

In March 2010, the Company acquired certain equipment, inventory and intellectual property rights for approximately \$3.0 million in cash. No debt was assumed in the transaction. The purchase price approximated the fair value of the assets acquired and therefore no goodwill was recorded. The results of operations subsequent to the acquisition are included in the statement of income. The assets acquired are included in the Food + Beverage reporting segment.

This acquisition did not have a material impact on the results of operations in 2011 or 2010 and therefore no proforma information is required.

NOTE 11 STOCK-BASED COMPENSATION

Table of Contents

The Company issues stock options and restricted stock units to employees under Stock Awards Plans approved by shareholders. Stock options are issued to non-employee directors for their services as directors under Director Stock Option Plans approved by shareholders. Options are awarded with the exercise price equal to the market price on the date of grant and generally become exercisable over three years and expire 10 years after grant. Restricted stock units generally vest over three years.

Compensation expense recorded attributable to stock options for the first nine months of 2011 was approximately \$12.1 million (\$8.5 million after tax), or \$0.13 per basic share and \$0.12 per diluted share. The income tax benefit related to this compensation expense was approximately \$3.6 million. Approximately \$11.2 million of the compensation expense was recorded in selling, research & development and administrative expenses and the balance was recorded in cost of sales. Compensation expense recorded attributable to stock options for the first nine months of 2010 was approximately \$9.8 million (\$7.0 million after tax), or \$0.10 per share (basic and diluted). The income tax benefit related to this compensation expense was approximately \$2.9 million. Approximately \$8.8 million of the compensation expense was recorded in selling, research & development and administrative expenses and the balance was recorded in cost of sales.

The Company uses historical data to estimate expected life and volatility. The weighted-average fair value of stock options granted under the Stock Awards Plans was \$11.36 and \$9.18 per share in 2011 and 2010, respectively. These values were estimated on the respective dates of grant using the Black-Scholes option-pricing model with the following weighted-average assumptions:

Stock Awards Plans:

Nine months ended September 30,	2011	2010
Dividend Yield	1.7%	1.8%
Expected Stock Price Volatility	23.3%	22.7%

Compensation expense recorded attributable to restricted stock unit grants for the first nine months of 2011 and 2010 was approximately \$247 and \$452 thousand, respectively. The fair value of units vested during the nine months ended September 30, 2011 and 2010 was \$346 and \$298 thousand, respectively. The intrinsic value of units vested during the nine months ended September 30, 2011 and 2010 was \$492 and \$330 thousand, respectively. As of September 30, 2011 there was \$125 thousand of total unrecognized compensation cost relating to restricted stock unit awards which is expected to be recognized over a weighted average period of 1.4 years.

NOTE 12 INCOME TAX UNCERTAINTIES

The Company had approximately \$10.0 and \$10.9 million recorded for income tax uncertainties as of September 30, 2011 and December 31, 2010, respectively. The \$0.9 million change in income tax uncertainties reflects the settlement of a tax examination. The amount, if recognized, that would impact the effective tax rate is \$9.2 and \$10.1 million, respectively. The Company estimates that it is reasonably possible that the liability for uncertain tax positions will decrease between \$1 and \$6 million in the next twelve months from the resolution of various uncertain positions as a result of the completion of tax audits, litigation and the expiration of the statute of limitations in various jurisdictions.

NOTE 13 FAIR VALUE

Authoritative guidelines require the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.
- Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

NOTE 16 SUBSEQUENT EVENT

In October 2011, the Company acquired TKH Plastics Pvt Ltd (TKH), a leading provider of injection molded dispensing closures in India. The Company acquired 100% of the outstanding common stock of TKH for approximately \$17 million in cash and approximately \$1 million in assumed debt. The acquisition was approved by the Board of Directors and will allow the Company to expand its geographical presence in India. The purchase was funded using cash flows from operations. The assets acquired will be included in the Beauty + Home reporting segment. This acquisition will not have a material impact on the results of operations in 2011 and therefore no proforma information will be required.

NET SALES

Net sales for the quarter and nine months ended September 30, 2011 were \$601.2 million and \$1.8 billion, respectively, representing an increase of 16% for both periods over the same periods a year ago. The average U.S. dollar exchange rate weakened compared to the Euro and other foreign currencies, such as the Brazilian Real and Swiss Franc, in the third quarter of 2011 compared to 2010. As a result, changes in exchange rates positively impacted sales by approximately 6% for the quarter and for the full year. The remaining 10% of sales increases for the three and nine months ended September 30, 2011, were due primarily to higher product and custom tooling sales to our customers.

For further discussion on net sales by reporting segment, please refer to the segment analysis of net sales and segment income on the following pages.

COST OF SALES (EXCLUSIVE OF DEPRECIATION SHOWN BELOW)

Our cost of sales as a percent of net sales increased to 67.7% in the third quarter of 2011 compared to 66.2% in the third quarter of 2010.

The following factors negatively impacted our cost of sales percentage in the third quarter of 2011:

Lower Utilization of Overhead Costs in Certain Operations. Several of our business operations saw decreases in unit volumes produced and sold. As a result of these lower production levels, overhead costs were not utilized as well as in the prior year, thus negatively impacting cost of goods sold as a percentage of net sales.

Increased Sales of Custom Tooling. Sales of custom tooling increased \$7.1 million in the third quarter of 2011 compared to the prior year third quarter. Traditionally, sales of custom tooling generate lower margins than our regular product sales and thus, an increase in sales of custom tooling negatively impacted cost of sales as a percentage of sales.

Weakening of the U.S. Dollar. We are a net importer from Europe into the U.S. of products produced in Europe with costs denominated in Euros. As a result, when the U.S. dollar or other currencies weaken against the Euro, products produced in

Table of Contents

Europe (with costs denominated in Euros) and sold in currencies that are weaker compared to the Euro, have a negative impact on cost of sales as a percentage of net sales.

The following factors positively impacted our cost of sales percentage in the third quarter of 2011:

Mix of Products Sold. Compared to the prior year, our Pharma and Food + Beverage segment sales represented a higher percentage of our overall sales. This positively impacts our cost of sales percentage as margins on our pharmaceutical, food and beverage products typically are higher than the overall company average.

Decreasing Raw Material Costs. Raw material costs, in particular plastic resin, decreased in the third quarter of 2011 compared to the third quarter of 2010. While the majority of these cost decreases are passed along to our customers in our selling prices, we experienced the usual lag in the timing of passing on these cost decreases.

Our cost of sales as a percent of net sales increased to 66.9% in the first nine months of 2011 compared to 65.9% in the first nine months of 2010. The increase is primarily due to the same factors mentioned above.

SELLING, RESEARCH & DEVELOPMENT AND ADMINISTRATIVE

Our Selling, Research & Development and Administrative expenses (SG&A) increased by approximately \$15.6 million in the third quarter of 2011 compared to the same period a year ago. On a constant currency basis, the increase would have been approximately \$10.2 million in the quarter. The majority of the increase is due to higher professional fees and personnel costs (particularly in the Food + Beverage segment). SG&A as a percentage of net sales also increased to 14.4% compared to 13.7% in the same period of the prior year due to the increases noted above.

SG&A increased by approximately \$46.5 million for the nine months ended September 30, 2011 compared to the same period a year ago. On a constant currency basis, the increase would have been approximately \$34.0 million for the nine month period. The increase is due primarily to the reason mentioned above as well as higher stock option expense in the first nine months of 2011 versus the prior year. For the nine months ended September 30, 2011, the percentage increased to 14.9% compared to 14.3% of net sales in the same period of the prior year.

DEPRECIATION AND AMORTIZATION

Reported depreciation and amortization expenses increased approximately \$1.1 million in the third quarter of 2011 to \$33.5 million compared to \$32.4 million in the third quarter of 2010. However, on a constant currency basis, the 2011 reported expense would have slightly decreased by approximately \$1.0 million in the quarter. Due to the increase in sales, depreciation and amortization as a percentage of net sales decreased to 5.6% in the third quarter of 2011 compared to 6.3% for the same period a year ago.

Depreciation and amortization expenses increased approximately \$3.1 million in the first nine months of 2011 to \$102.0 million compared to \$98.9 million for the first nine months of 2010. On a constant currency basis, the expense would have decreased by approximately \$2.0 million for the nine month period. Depreciation and amortization as a percentage of net sales decreased to 5.7% for the nine months ended September 30, 2011 compared to 6.4% in the same period of the prior year.

FACILITIES CONSOLIDATION AND SEVERANCE

Facilities consolidation and severance expenses were \$381 thousand in the third quarter of 2010. The amount represents the recognition of expenses related to the Company's previously announced plan to consolidate several facilities and reduce headcount and changes in estimates. The cumulative total amount since the program was initiated during the second quarter of 2009 is \$7.7 million.

OPERATING INCOME

Operating income increased approximately \$3.1 million in the third quarter of 2011 to \$74.2 million compared to \$71.1 million in the same period in the prior year. Strong increases in sales volumes at each segment were able to offset lower capacity utilization, especially in certain of our Beauty + Home segment locations, contributing to the rise in operating income. Operating income as a percentage of net sales decreased to 12.3% in the third quarter of 2011 compared to 13.7% for the same period in the prior year mainly due to the higher percentage of cost of sales and SG&A cost compared to prior year as discussed above.

Operating income increased approximately \$17.4 million in the first nine months of 2011 to \$224.2 million compared to \$206.8 million in the same period in the prior year. Operating income as a percentage of sales decreased to 12.5% in the first nine months of 2011 compared to 13.4% for the same period in the prior year. These changes are primarily due to the same reasons mentioned for the third quarter results.

NET OTHER EXPENSE

Net other expenses remained consistent at \$3.0 million in the third quarter of 2011 compared to the same period in the prior year. A small increase in interest expense was offset by a similar increase in interest income.

Table of Contents

Net other expenses for the nine months ended September 30, 2011 decreased slightly to \$9.8 million from \$10.9 million in the same period in the prior year due primarily to lower foreign currency losses.

EFFECTIVE TAX RATE

The reported effective tax rate remained relatively constant at 30.9% and 32.4% for the three and nine months ended September 30, 2011, respectively, compared to 31.0% and 32.2% for the same periods ended September 30, 2010. During the third quarter of 2011, the tax rate was favorably impacted by a reduction in the amount of current year earnings that were planned to be repatriated from foreign operations in 2011. The tax rate for the third quarter of 2010 was favorably impacted by certain tax benefits that were recognized in Brazil.

NET INCOME ATTRIBUTABLE TO APTARGROUP, INC.

We reported net income attributable to AptarGroup, Inc. of \$49.3 million and \$145.1 million in the third quarter and nine months ended September 30, 2011, respectively, compared to \$47.0 million and \$132.7 million for the same periods in the prior year.

BEAUTY + HOME SEGMENT

Beginning with the first quarter of 2011, we are reporting new business segments that reflect our realigned internal financial reporting structure. Prior period information has been conformed to the current presentation.

Operations that sell dispensing systems primarily to the personal care, fragrance/cosmetic and household markets form the Beauty + Home segment.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2011	2010	2011	2010
Net Sales	\$ 387,501	\$ 346,108	\$ 1,166,501	\$ 1,029,351
Segment Income (1)	32,025	34,324	104,555	101,316
Segment Income as a percentage of Net Sales	8.3%	9.9%	9.0%	9.8%

(1) The Company evaluates performance of its business segments and allocates resources based upon segment income. Segment income is defined as earnings before interest expense in excess of interest income, certain corporate expenses and income taxes. Beginning in 2011, the Company changed the segment income measure to include stock option and certain information technology costs that were historically maintained within Corporate & Other. Prior period information has been conformed to incorporate this change.

Edgar Filing: APTARGROUP INC - Form 10-Q

Net sales for the quarter ended September 30, 2011 increased 12% to \$387.5 million compared to \$346.1 million in the third quarter of the prior year. The weakening of the U.S. dollar compared to the Euro positively impacted sales and represented approximately 6% of the 12% increase in sales. Excluding changes in exchange rates, sales increased 6% in the third quarter of 2011 compared to the same quarter of the prior year.

Sales, excluding foreign currency changes, to the fragrance/cosmetics were up 5% while personal care markets increased approximately 8% in the third quarter of 2011 compared to the same period in the prior year. Increases in customer tooling sales of \$8.5 million account for the remaining sales growth.

Net sales increased 13% in the first nine months of 2011 to \$1.2 billion compared to \$1.0 billion in the first nine months of the prior year. The weakening of the U.S. dollar compared to the Euro positively impacted sales and represented approximately 5% of the 13% increase in sales. Excluding changes in exchange rates, sales increased 8% for the first nine months of 2011 compared to the same period of the prior year. Sales of our products, excluding foreign currency changes, to the fragrance/cosmetic and personal care markets increased approximately 12% and 5%, respectively, in the first nine months of 2011 compared to the first nine months of 2010 primarily due to increased demand for our fragrance and cosmetic and personal care dispensing systems.

Segment income for the third quarter of 2011 decreased approximately 7% to \$32.0 million from \$34.3 million reported in the same period in the prior year. Profitability decreased primarily due to underutilized capacity, increased legal fees and higher tooling sales, which typically carry lower margins than normal product sales.

Segment income for the first nine months of 2011 increased approximately 3% to \$104.6 million compared to \$101.3 million reported in the same period in the prior year. The profitability increase for the first nine months of 2011 is primarily due to the strength of fragrance/cosmetic sales in the first nine months as mentioned above.

PHARMA SEGMENT

Operations that sell dispensing systems to the pharmaceutical market form the Pharma segment.

Table of Contents

	Three Months Ended September 30,		Nine Months Ended September 30,					
Net Sales	\$	146,445	\$	117,520	\$	417,152	\$	348,785
Segment Income		44,801		35,091		124,058		98,510
Segment Income as a percentage of Net Sales		30.6%		29.9%		29.7%		28.2%

Net sales for the Pharma segment increased by 25% in the third quarter of 2011 to \$146.4 million compared to \$117.5 million in the third quarter of 2010. The weakening of the U.S. dollar compared to the Euro positively impacted sales and represented approximately 10% of the 25% increase in sales. Sales excluding foreign currency changes to the prescription market increased 8% while sales to the consumer health care market increased 32%.

Net sales for the first nine months of 2011 increased approximately 20% to \$417.2 million compared to \$348.8 million in the first nine months of the prior year. The weakening of the U.S. dollar compared to the Euro positively impacted sales and represented approximately 9% of the 20% increase in sales. Sales, excluding foreign currency changes, to the prescription and consumer health care markets increased approximately 5% and 26%, respectively, in the first nine months of 2011 compared to the same period in the prior year.

Segment income in the third quarter of 2011 increased approximately 28% to \$44.8 million compared to \$35.1 million reported in the same period in the prior year. This increase is mainly attributed to higher sales and leveraging of our cost structure from increased unit volumes.

Segment income in the first nine months of 2011 increased approximately 26% to \$124.1 million compared to \$98.5 million reported in the same period of the prior year. This increase in segment income is due primarily to the same reasons mentioned above for the third quarter results.

FOOD + BEVERAGE SEGMENT

Operations that sell dispensing systems primarily to the food and beverage markets form the Food + Beverage segment.

	Three Months Ended September 30,		Nine Months Ended September 30,					
Net Sales	\$	67,250	\$	53,908	\$	208,990	\$	167,792
Segment Income		6,891		6,443		23,076		24,758
Segment Income as a percentage of Net Sales		10.2%		12.0%		11.0%		14.8%

Net sales for the quarter ended September 30, 2011 increased approximately 25% to \$67.3 million compared to \$53.9 million in the third quarter of the prior year. The weakening of the U.S. dollar compared to the Euro positively impacted sales and represented approximately 4% of the 25% increase in sales. Approximately 3% of the product sales increase is tooling sales while the pass through of higher resin costs on sales of closures represented 7% of the increase over the prior year. Excluding foreign currency changes, sales to the food market increased 13% while the beverage market increased approximately 42% mainly due to volume growth in our Asian region.

Net sales for the first nine months of 2011 increased approximately 25% to \$209.0 million compared to \$167.8 million in the first nine months of the prior year. The weakening of the U.S. dollar compared to the Euro positively impacted sales and represented approximately 4% of the 25% increase in sales. Sales excluding foreign currency changes to the food market increased 11% while the beverage markets increased approximately 44%. Consistent with the third quarter, these increases are mainly due to higher custom tooling sales and stronger demand across all regions and markets.

Edgar Filing: APTARGROUP INC - Form 10-Q

Segment income in the third quarter of 2011 increased approximately 7% to \$6.9 million compared to \$6.4 million during the same period in the prior year. Although we showed strong sales growth, start-up costs for our new U.S. facility and higher structure costs due to the implementation of this new segment combined to partially offset this sales growth.

Segment income in the first nine months of 2011 decreased approximately 7% to \$23.1 million compared to \$24.8 million reported in the same period of the prior year. Although we showed strong sales growth, a large percentage of this growth was tooling related which carries lower margins than normal product sales. Also, resin price increases and higher structure costs due to the implementation of this new segment combined to more than offset the increase in income resulting from the increase in sales.

FOREIGN CURRENCY

A significant number of our operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of the financial statements of our foreign entities. Our primary foreign exchange exposure is to the Euro, but we have foreign exchange exposure to the Brazilian Real, British Pound, Swiss Franc and South American and Asian currencies, among others. We manage our exposures to foreign exchange principally with forward exchange contracts to hedge certain transactions and firm purchase and sales commitments denominated in foreign currencies. A weakening U.S. dollar relative to foreign currencies has an additive translation effect on our financial condition and results of operations. Conversely, a strengthening U.S. dollar has a dilutive effect. In some cases, we sell products denominated in a currency different from the currency in which the related costs are incurred. Changes in exchange rates on such inter-country sales could materially impact our results of operations.

Table of Contents

QUARTERLY TRENDS

Our results of operations in the last quarter of the year typically are negatively impacted by plant shutdowns in December. In the future, our results of operations in a quarterly period could be impacted by factors such as changes in product mix, changes in material costs, changes in growth rates in the industries to which our products are sold, recognition of equity based compensation expense for retirement eligible employees in the period of grant and changes in general economic conditions in any of the countries in which we do business.

We generally incur higher stock option expense in the first quarter compared with the rest of the fiscal year. Our estimated stock option expense on a pre-tax basis (in \$ millions) for the year 2011 compared to 2010 is as follows:

	2011		2010	
First Quarter	\$	7.7	\$	6.0
Second Quarter		1.7		2.2
Third Quarter		2.8		1.6
Fourth Quarter (estimated)		1.6		1.4
	\$	13.8	\$	11.2

LIQUIDITY AND CAPITAL RESOURCES

Our primary sources of liquidity are cash flow from operations and our revolving credit facility. Cash and equivalents decreased to \$371.4 million at September 30, 2011 from \$376.4 million at December 31, 2010. Total short and long-term interest bearing debt increased in the first nine months of 2011 to \$401.6 million from \$354.3 million at December 31, 2010. The ratio of our Net Debt (interest bearing debt less cash and cash equivalents) to Net Capital (stockholder's equity plus Net Debt) was 2.2% at the end of September 2011 compared to a negative 1.8% at December 31, 2010.

In the first nine months of 2011, our operations provided approximately \$184.8 million in cash flow compared to \$186.5 million for the same period a year ago. In both periods, cash flow from operations was primarily derived from earnings before depreciation and amortization. During the first nine months of 2011, we utilized the majority of our operating cash flows to finance capital expenditures and share repurchases.

We used \$124.9 million in cash for investing activities during the first nine months of 2011, compared to \$89.1 million during the same period a year ago. The increase in cash used for investing activities is mainly due to \$39.7 million more spent on capital expenditures in the first nine months of 2011 compared to the first nine months of 2010 which is primarily related to the investment in our new Food + Beverage facility and increases in custom projects. Cash outlays for capital expenditures for 2011 are estimated to be approximately \$170 million but could vary due to changes in exchange rates as well as the timing of capital projects.

We used approximately \$48.7 million of cash on financing activities in the first nine months of 2011 compared to \$81.1 million in cash used in the first nine months of the prior year. The decrease in cash used by financing activities is due primarily to the increase in short-term borrowings to fund higher amounts of repayments of long-term obligations and share repurchases in 2011.

Our revolving credit facility and certain long-term obligations require us to satisfy certain financial and other covenants including:

	<u>Requirement</u>	<u>Level at September 30, 2011</u>
Debt to total capital ratio	Maximum of 55%	23.1%

Based upon the above debt to total capital ratio covenant we had the ability to borrow approximately an additional \$1.2 billion at September 30, 2011 before the 55% requirement would be exceeded.

Edgar Filing: APTARGROUP INC - Form 10-Q

Our foreign operations have historically met cash requirements with the use of internally generated cash or borrowings. These foreign subsidiaries have financing arrangements with several foreign banks to fund operations located outside the U.S., but all these lines are uncommitted. Cash generated by foreign operations has generally been reinvested locally. The majority of our \$371.4 million in cash and equivalents is located outside of the U.S.

We believe we are in a strong financial position and have the financial resources to meet business requirements in the foreseeable future. We have historically used cash flow from operations as our primary source of liquidity. In the event that customer demand would decrease significantly for a prolonged period of time and negatively impact cash flow from operations, we would have the ability to restrict and significantly reduce capital expenditure levels, which historically have been the most significant use of cash for us. A prolonged and significant reduction in capital expenditure levels could increase future repairs and maintenance costs as well as have a negative impact on operating margins if we were unable to invest in new innovative products.

On October 19, 2011, the Board of Directors declared a quarterly dividend of \$0.22 per share payable on November 30, 2011 to stockholders of record as of November 9, 2011.

OFF-BALANCE SHEET ARRANGEMENTS

We lease certain warehouse, plant and office facilities as well as certain equipment under noncancelable operating leases expiring at various dates through the year 2029. Most of the operating leases contain renewal options and certain equipment leases include options to purchase during or at the end of the lease term. Other than operating lease obligations, we do not have any off-balance sheet arrangements.

RECENTLY ISSUED ACCOUNTING STANDARDS

In May 2011, the FASB amended the guidance on fair value measurement and disclosure requirements. The amended guidance results in a consistent definition of fair value and common requirements for measurement of and disclosure about fair value between U.S. GAAP and International Financial Reporting Standards (IFRS). This guidance will be effective for the Company's fiscal year ending December 31, 2012. The Company does not believe that this new guidance will have a material impact on its consolidated financial statements.

In June 2011, the FASB amended the guidance for the presentation of comprehensive income. The amended guidance eliminates certain options for presenting comprehensive income but does not change which components of comprehensive income are recognized in net income or other comprehensive income. The amended guidance is intended to enhance comparability between entities that report under generally accepted accounting principles and those that report under international financial reporting standards. This guidance will be effective for the Company's fiscal year ending December 31, 2012. The Company does not believe that this new guidance will have a material impact on its consolidated financial statements.

In September 2011, the FASB amended the guidance on the annual testing of goodwill for impairment. The amended guidance will allow companies to assess qualitative factors to determine if it is more-likely-than-not that goodwill might be impaired and whether it is necessary to perform the two-step goodwill impairment test required under current accounting standards. This guidance will be effective for the Company's fiscal year ending December 31, 2012, with early adoption permitted. The Company does not believe that this new guidance will have a material impact on its consolidated financial statements.

Other accounting standards that have been issued by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on our consolidated financial statements upon adoption.

OUTLOOK

As we look to the fourth quarter, we are seeing some caution on the part of certain customers as we head into the end of the year, primarily due to global economic uncertainties. We believe this situation is temporary and that customers are assessing inventory levels after a relatively active past 12 months. Some customers are also intensifying price pressures in light of an unstable economic outlook, particularly in the U.S. and Europe. When we look at the variety of project activity, the strength and focus of our realigned organization, our broad geographic presence, and our strong balance sheet, we are encouraged as we look ahead to 2012. Currently, we expect fourth quarter diluted earnings per share to be in the range of \$.57 to \$.62 per share compared to our record fourth quarter \$.59 per share in the prior year.

FORWARD-LOOKING STATEMENTS

This Management's Discussion and Analysis and certain other sections of this Form 10-Q contain forward-looking statements that involve a number of risks and uncertainties. Words such as expects, anticipates, believes, estimates, and other similar expressions or future or conditional verbs such as will, should, would and could are intended to identify such forward-looking statements. ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

A significant number of our operations are located outside of the United States. Because of this, movements in exchange rates may have a significant impact on the translation of the financial condition and results of operations of our entities. Our primary foreign exchange exposure is to the Euro, but we also have foreign exchange exposure to the Brazilian Real, British Pound, Swiss Franc and South American and Asian currencies, among others. A weakening U.S. dollar relative to foreign currencies has an additive translation effect on our financial condition and results of operations. Conversely, a strengthening U.S. dollar has a dilutive effect.

Additionally, in some cases, we sell products denominated in a currency different from the currency in which the related costs are incurred. Any changes in exchange rates on such inter-country sales may impact our results of operations.

We manage our exposures to foreign exchange principally with forward exchange contracts to hedge certain firm purchase and sales commitments and intercompany cash transactions denominated in foreign currencies.

The table below provides information as of September 30, 2011 about our forward currency exchange contracts. The majority of the contracts expire before the end of the fourth quarter of 2011 with the exception of a few contracts that expire in the third quarter of 2013.

Buy/Sell		Contract Amount (in thousands)	Average Contractual Exchange Rate	Min / Max Notional Volumes
Euro/U.S. Dollar	\$	104,962	1.3517	8,320-104,962
Swiss Franc/Euro		32,065	0.8282	32,065-44,994
British Pound/Euro		11,589	1.1461	11,121-17,910
Euro/Mexican Peso		10,795	17.7707	4,430-10,795
Czech Koruna/Euro		9,804	0.0407	9,377-9,839
Euro/Brazilian Real		4,202	4.3378	4,202-4,202
Euro/Argentinian Peso		2,679	6.1900	2,679-2,679
Chinese Yuan/U.S. Dollar		1,200	0.1553	1,200-2,400
Euro/Chinese Yuan		1,005	8.7369	764-1,005
Other		4,555		
Total	\$	182,856		

As of September 30, 2011, we have recorded the fair value of foreign currency forward exchange contracts of \$0.9 million in prepaid and other, \$2.4 million in accounts payable and accrued liabilities and \$1.9 million in deferred and other non-current liabilities in the balance sheet.

During 2011, the Company maintained an interest rate swap to convert a portion of its fixed-rate debt into variable-rate debt. Under the interest rate swap contract, the Company exchanged, at specified intervals, the difference between fixed-rate and floating-rate amounts, which was calculated based on an agreed upon notional amount. As of May 31, 2011, this interest rate swap contract matured and was not renewed. No gain or loss was recorded in the income statement in 2010 or the nine months ended September 30, 2011 as any hedge ineffectiveness for the period was immaterial.

As of September 30, 2011, the Company had one foreign currency cash flow hedge. A French subsidiary of AptarGroup, AptarGroup Holding SAS, has hedged the risk of variability in Euro equivalent associated with the cash flows of an intercompany loan granted in Brazilian Real. The forward contracts utilized were designated as a hedge of the changes in the cash flows relating to the changes in foreign currency rates relating to the loan and related forecasted interest. The notional amount of the foreign currency forward contracts utilized to hedge cash flow exposure was 1.3 million Brazilian Real (\$0.7 million) as of September 30, 2011. The notional amount of the foreign currency forward contracts utilized to hedge cash flow exposure was 2.7 million Brazilian Real (\$1.6 million) as of September 30, 2010. During the three and nine months ended September 30, 2011, the Company did not recognize any net gain (loss) as any hedge ineffectiveness for the period was immaterial, and the Company did not recognize any net gain (loss) related to the portion of the hedging instrument excluded from the assessment of hedge effectiveness. These foreign currency forward contracts hedge forecasted transactions for approximately six months (March 2012).

ITEM 4. CONTROLS AND PROCEDURES

DISCLOSURE CONTROLS AND PROCEDURES

The Company's management has evaluated, with the participation of the chief executive officer and chief financial officer of the Company, the effectiveness of the Company's disclosure controls and procedures (as that term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) as of September 30, 2011. Based on that evaluation, the chief executive officer and chief financial officer have concluded that these controls and procedures were effective as of such date.

CHANGES IN INTERNAL CONTROL OVER FINANCIAL REPORTING

No change in the Company's internal control over financial reporting (as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934) occurred during the Company's fiscal quarter ended September 30, 2011 that materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

RECENT SALES OF UNREGISTERED SECURITIES

The employees of AptarGroup S.A.S. and Valois S.A.S., our subsidiaries, are eligible to participate in the FCP Aptar Savings Plan (the Plan). All eligible participants are located outside of the United States. An independent agent purchases shares of our Common Stock available under the Plan for cash on the open market and we do not issue shares. We do not receive any proceeds from the purchase of shares of our Common Stock under the Plan. The agent under the Plan is Banque Nationale de Paris Paribas Fund Services. No underwriters are used under the Plan. All shares are sold in reliance upon the exemption from registration under the Securities Act of 1933 provided by Regulation S promulgated under that Act. ITEM 5. OTHER INFORMATION

Edgar Filing: APTARGROUP INC - Form 10-Q

On November 2, 2011, in connection with the previously announced retirement of President and Chief Executive Officer Peter Pfeiffer that will be effective December 31, 2011, AptarGroup entered into a two-year Consulting Agreement with Mr. Pfeiffer, to become effective January 1, 2012 (Consulting Agreement). The Consulting Agreement may be terminated by Mr. Pfeiffer at any time upon 30 days written notice. Compensation for the consulting services to be provided by Mr. Pfeiffer will be \$450,000 per year and will be paid in equal monthly installments. Pursuant to the Consulting Agreement, Mr. Pfeiffer will be an independent contractor, rather than an employee, of AptarGroup. In addition, the Consulting Agreement contains restrictive covenants prohibiting Mr. Pfeiffer from competing with AptarGroup or soliciting its employees during the term of the Consulting Agreement.

The foregoing description of the Consulting Agreement is qualified in its entirety by reference to the full text of the Consulting Agreement, a copy of which is attached hereto as Exhibit 10.1 and incorporated herein by reference.
