(b) Basis of consolidation:

(b.1) The current Interim Condensed Consolidated Financial Statements for the nine-months period ended September 30, 2012 are presented based on the same accounting principles described in the Bank s audited Consolidated Financial Statements at December 31, 2011 and for the year then ended (audited financial statements), and have been prepared according to the Compendium of Accounting Standards, Chapter C-2 issued by the Superintendency of Banks and Financial Institutions and the International Financial Reporting Standard N°34 (NIC 34) Intermediate Financial Information .

According to NIC 34, the intermediate financial information is prepared solely with the intention of updating the content of the last annual Consolidated Financial Statements, putting emphasis on the new activities, events and circumstances occurred during the nine-month period after period end and not duplicating the previous published information in the last Consolidated Financial Statements. Consequently, the Interim Consolidated Financial Statements do not include all the complete information and notes required for the complete Consolidated Financial statements according to the International Accounting Standards and International Financial Information issued by the IASB, reason by which for a suitable understanding of the information that is included in these Interim Condensed Consolidated Financial Statements, they must be read along with the annual Consolidated Financial statements of Banco de Chile, corresponding to the year ended December 31, 2011. However, in the opinion of the Bank s management, all the adjustments (consisting of normal recurring provisions) that were considered necessary for a reasonable presentation have been included. The results of operations for the nine-month periods ended September 30, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012.

(b.2) The following table details the entities in which the Bank directly or indirectly owns a controlling interest and that are therefore consolidated in these financial statements:

(c) Use of estimates and judgment

Preparing financial statements requires management to make judgments, estimations and assumptions that affect the application of accounting policies and the valuation of assets, liabilities, income and expenses presented. Real results could differ from these estimated amounts. Details on the use of estimates and judgment and their effect on the amounts recognized in the Interim Condensed Consolidated Financial Statement are included in the following notes:

- 1. Goodwill valuation (Note 15);
- 2. Useful lives of property and equipment and intangible assets (Notes 15 y 16);
- 3. Income taxes and deferred taxes (Note 17);
- 4. Provisions (Note 24);
- 5. Commitments and contingencies (Note 26);
- 6. Provision for loan losses (Note 32);
- 7. Impairment of other financial assets (Note 35);
- 8. Fair value of financial assets and liabilities (Note 39).

During the nine month period ended September 30, 2012 there have been no significant changes to estimations made when preparing the Bank s 2011 Annual Consolidated Financial Statements, other than those indicated in these Interim Condensed Consolidated Financial Statements.

(d) Reclassification:

For comparative purposes, certain line items of the September 30, 2011 Interim Condensed Consolidated Financial Statements have been reclassified.

(e) Comparison of the Information:

The information contained in these financial statements corresponding to year 2011 is presented, unique and exclusively, to compare with the information regarding the period of nine month ended September 30, 2012.

(f) Seasonality or Cyclical Character of the Transactions of the Intermediate Period:

Due to the nature of its business, the Bank and its subsidiaries activities do not have a cyclical or seasonal character. Accordingly, no specific details have been included on the notes to this Interim Condensed Consolidated Financial Statements.

(g) Relative Importance:

When determining the information to present on the different items from the financial statements or other subjects, in accordance with NIC 34, the Bank has considered the relative importance in relation to the Interim Condensed Consolidated financial statements of the period.

3. New Accounting Pronouncements:

The following is a summary of new standards, interpretations and improvements to the International Financial Reporting Standards issued by the International Accounting Standards Board (IASB) but which have not come into effect as of September 30, 2012, as per the following detail:

IAS 1 Presentation of Financial Statements

The annual improvements to IFRS, issued in May 2012, provide amendments to IAS 1 in order to clarify the requirements to provide comparative information for:

a) The requirements comparative of the opening statement of financial position when an entity applies an accounting policy retrospectively, or makes a retrospective restatement or reclassification, according to IAS 8 Accounting policies, changes in accounting estimates and Errors.

b) The requirement to provide comparative information when an entity provides additional comparative information beyond the minimum comparative information requirements.

The amendment is applicable for annual periods beginning January 1, 2013 and earlier application is permitted. The amendment is applied retrospectively for any change accordance with the description in a) and b), for which currently has no impact for the Bank of Chile and its subsidiaries in their consolidated financial statements.

IAS 16 Property, Plant and Equipment

The annual improvements to IFRS, issued in May 2012, provide amendments to IAS 16, to clarify the accounting of spare parts, stand-by equipment and servicing equipment. The definition of property, plant and equipment in IAS 16 is now considered in determining whether these items should be accounted for under that standard. The amendment proposes to delete if the spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

The amendments must be applied retrospectively and are effective for annual periods beginning on or after January 1, 2013, with early application permitted. In Management s opinion, the application of this standard will not have a significant effect on the consolidated financial statements of Banco de Chile and its subsidiaries.

3.

New Accounting Pronouncements, continued:

IAS 19 Employee Benefits

The amendments to IAS 19 published by the IASB in June, 2011 eliminated the option to defer recognition of gains and losses (the corridor method), streamline the presentation of changes in assets and liabilities arising from defined benefit plans and enhance the disclosure requirements for defined benefit plans. Entities are required to apply amendments in the annual periods beginning on or after *January 1, 2013*, or earlier. To date, Banco de Chile and its subsidiaries are evaluating the possible impact that the adoption of this standard will have on its consolidated financial statements.

IAS 27 Separate Financial Statements

This standard amended in May 2011, and supersedes IAS 27 (2008). The scope of this standard is restricted only for separate financial statements, as the concept related to the definition of control and consolidation were removed and included in IFRS 10. Entities are required to apply amendments in the annual periods beginning on or after *January 1, 2013*, and early adoption is permitted in conjunction with IFRS 10, IFRS 11 and IFRS 12 and the amendment to IAS 28. According to the assessment carried out this policy change has no impact on the consolidated financial statements of Banco de Chile and its subsidiaries.

IAS 28 Investments in Associates and Joint Venture

This standard was reissued in May 2011, regulates the accounting treatment of application of the equity method to investments in joint ventures. Entities are required to apply amendments in the annual periods beginning on or after *January 1, 2013*, and early adoption is permitted in conjunction with IFRS 10, IFRS 11 and IFRS 12 and the amendment to IAS 27. To date, Banco de Chile and its subsidiaries are evaluating the possible impact that the adoption of this standard will have on its consolidated financial statements.

IAS 32 Financial Instruments: Presentation

The amendments issued in December 2011, clarify the meaning of currently has a legally enforceable right to set-off. The amendments also clarify the application of the IAS 32 offsetting criteria to settlement systems (such as central clearing house systems) which apply gross settlement mechanisms that are not simultaneous. The standard is effective for annual periods beginning on or after *January 1, 2014* and early

adoption is permitted.

In May 2012, the amendments removes a perceived inconsistency between IAS 32 and IAS 12 and indicating that the income tax relating to distributions to holders of an equity instrument and to transaction costs of an equity transaction should be accounted for in accordance with IAS 12 Income Taxes .

This amendment shall apply retroactively for annual periods beginning on or after January 1, 2013. Earlier application is permitted.

According to current rules about netting force in Chile, this rule has no impact on the consolidated financial statements of Banco de Chile and its subsidiaries.

New Accounting Pronouncements, continued:

IAS 34 Interim Financial Reporting

The annual improvements to IFRS, issued in May 2012, incorporates amendments to IAS 34, in which it is established that requires disclosure of assets and total liabilities for a particular segment, if:

a) The total assets and total liabilities for a particular reportable segment would be separately disclosed in interim financial reporting only when the amounts are regularly provided to the chief operating decision-maker.

b) There has been a material change from the amounts disclosed in the last annual financial statements for that reportable segment.

This amendment shall apply retroactively for annual periods beginning on or after January 1, 2013. Earlier application is permitted.

According to the assessment carried out this policy change has no impact on the consolidated financial statements of Banco de Chile and its subsidiaries.

IFRS 7 Financial Instruments: Disclosures

In December 2011, amended the required disclosures to include information that will enable users of an entity s financial statements to evaluate the effect or potential effect of netting arrangements, including rights of set-off associated with the entity s recognized financial assets and recognized financial liabilities, on the entity s financial position. An entity shall apply those amendments for annual periods beginning on or after *January 1, 2013*. To date, Banco de Chile and its subsidiaries are working in its disclosures for give compliance to this rule.

IFRS 9 Financial Instruments: Financial liabilities

In October, 2010, the IASB published the requirements for classifying and measuring financial liabilities were added to IFRS 9. Most of the added requirements were carried forward unchanged from IAS 39. However, the requirements related to the fair value option for financial liabilities were changed to address the issue of own credit risk in response to consistent feedback from users of financial statements and others that the effects of changes in a liability s credit risk ought not to affect profit or loss unless the liability is held for trading.

The mandatory effective date to annual periods beginning on or after January 1, 2015.

New Accounting Pronouncements, continued:

IFRS 9 Financial Instruments: Recognition and Measurement

In November 2009, the IASB issued IFRS 9, Financial Instruments, the first step in its project to replace IAS 39, Financial Instruments: Recognition and Measurement . IFRS 9 introduces new requirements for classifying and measuring financial assets that are in the scope of the application of IAS 39. This new regulation requires that all financial assets be classified in function of the entity s business model for the management of financial assets and of the characteristics of the contractual cash flows of financial assets. A financial asset shall be measured at amortized cost if two criteria are fulfilled: (a) the objective of the business model is to maintain a financial asset to receive contractual cash flows, and (b) contractual cash flows represent principal and interest payments. Should a financial asset not comply with the aforementioned conditions, it will be measured at fair value. In addition, this standard allows a financial asset that fulfills the criteria to be valued at amortized cost to be designated at fair value with changes in income under the fair value option, as long as this significantly reduces or eliminates an accounting asymmetry. Likewise, IFRS 9 eliminates the requirement of separating embedded derivatives from the host financial assets. Therefore, it requires that a hybrid contract be classified entirely in amortized cost or fair value.

IFRS 9 is effective for annual periods commencing as of *January 1, 2015*, and allows adoption prior to that date. IFRS 9 must be applied retroactively, however if it is adopted before January 1, 2012, there is no need to reformulate comparative periods.

Banco de Chile and its subsidiaries are assessing the possible impact of adoption of these changes on the consolidated financial statements, however, that impact will depend on the assets maintained by the institution as of the adoption date. It is not practicable to quantify the effect on the issuance of these consolidated financial statements. To date, neither of these standards has been approved by the Superintendency of Banks, event that is required for their application.

IFRS 10 Consolidated Financial Statement

In May 2011 the IASB issued IFRS 10 establishes a new definition of control applies to all entities including special purpose entities or structured entities as they are now referred to in the new standards. The changes introduced by IFRS 10 will require management to exercise significant judgment to determine which entities are controlled, and therefore are required to be consolidated by a parent.

These new standard is effective for annual periods beginning on or after *January 1, 2013*. To date, Banco de Chile and its subsidiaries are evaluating the possible impact that the adoption of this standard will have on its consolidated financial statements.

New Accounting Pronouncements, continued:

IFRS 11 Joint Arrangements

In May 2011, the IASB issued IFRS 11 which replaces IAS 31 Interest in Joint Ventures and SIC-13 Jointly-Controlled Entities- Non-monetary Contributions by Ventures .

IFRS 11 eliminated the option to record the value of investment in a joint venture using proportionate consolidation or recognize its assets and liabilities its relative shares of those items, if any. The new standards require using the equity method.

These new standard is effective for annual periods beginning on or after *January 1, 2013*. To date, Banco de Chile and its subsidiaries are evaluating the possible impact that the adoption of this standard will have on its consolidated financial statements.

IFRS 12 Disclosure of Interests in Other Entities

In May 2011, the IASB issued IFRS 12 which replaces the disclosure requirements previously included in IAS 27, IAS 31 and IAS 28. This new standard is aimed at concentrating on a single regulatory body disclosure of subsidiaries, joint agreements, associates and structured entities. One of the most significant changes introduced by IFRS 12 is required for the parent to disclose the judgment that management has made to determine that it has control to consolidate or not different entities. The new disclosures will help users of its financial statement evaluate the nature and risks associated with interests in other entities and the effects of those interests on its financial statements.

These new standard is effective for annual periods beginning on or after *January 1, 2013*. To date, Banco de Chile and its subsidiaries are evaluating the potential impact that its adoption will have on its consolidated financial statements.

IFRS 13 Fair Value Measurement

In May 2011, the IASB issued IFRS 13 Fair Value Measurement. This new standard establishes a new definition of Fair Value. This new standard does not change when an entity must or may use fair value, but changes the way how to measure the fair value of financial assets and liabilities and non-financial.

These new standard is effective for annual periods beginning on or after *January 1, 2013*. According the assessment, this policy change has no impact on the consolidated financial statements of Banco de Chile and its subsidiaries, however the Bank is working in its disclosures for comply with the further information requests of this rule. This rule will be applicable if Superintendency of Banks and Financial Institutions allow its adoption.

6. Segment Reporting, continued:

The financial information used to measure the performance of the Bank s business segments is not necessarily comparable with similar information from other financial institutions because it is based on internal reporting policies. The accounting policies used to prepare the Bank s operating segment information are similar as those described in Summary of Significant Accounting Principles . The Bank obtains the majority of its income from: interest, revaluations and fees, discounted the credit cost and expenses. Management is mainly based on these concepts in its evaluation of segment performance and decision-making regarding goals, allocation of resources for each unit individually. Although the results of the segments reconcile with those of the Bank at total level, it is not thus necessarily concerning the different concepts, since the management is measured and controls in individual form and additionally applies the following criteria:

• The net interest margin of loans and deposits is measured on an individual transaction and individual client basis, stemming from the difference between the effective customer rate and the related Bank s fund transfer price in terms of maturity, re-pricing and currency.

• The internal performance profitability system considers capital allocation in each segment in accordance to the Basel guidelines.

• Operating expenses are distributed at each area level. The Bank allocates all of its indirect operating costs to each business segment by utilizing a different cost driver in order to allocate such costs to the specific segment.

The Bank did not enter into transactions with a particular customer or third party that exceed 10% or more of its total income during the nine-month period ended September 30, 2012 and 2011.

Transfer pricing between operating segments are on an arm s length basis in a manner similar to transactions with third parties.

Taxes are managed at a corporate level and are not allocated to business segments.

(b) Fair value Hedges:

The Bank uses cross-currency swaps and interest rate swaps to hedge its exposure to changes in the fair value of the hedged elements attributable to interest rates. The aforementioned hedge instruments change the effective cost of long-term issuances from a fixed interest rate to a variable interest rate, decreasing the duration and modifying the sensitivity to the shortest segments of the curve.

Below is a detail of the hedged elements and hedge instruments under fair value hedges as of September 30, 2012 and 2011:

10. Derivative Instruments and Accounting Hedges, continued:

(c) Cash flow Hedges:

(c.1) From the year 2011, the Bank uses cross currency swaps to hedge the risk from variability of cash flows attributable to changes in the interest rates of bonds and foreign exchange of bonds issued abroad in Mexican pesos to rate TIIE (Interbank Interest Rate Balance) plus 0.6 percentage points and Hong Kong dollars to fix rate. The cash flows of the cross currency swaps equal the cash flows of the hedged items, which modify uncertain cash flows to known cash flows derived from a fixed interest rate.

Additionally, these cross currency swap contracts used to hedge the risk from variability of the Unidad de Fomento (CLF) in assets flows denominated in CLF until a nominal amount equal to the portion notional of the hedging instrument CLF, whose readjustment daily impact the item interest revenue of the financial statements.

(c.2) Below is an estimate of the periods in which the estimated cash flows, that includes the interest and the capital amount, of the hedged item(s) are expected to be generated:

Instruments issued by the Chilean Government and Central Bank include instruments with agreements to repurchase sold to clients and financial institutions, totaling MCh\$11,597 as of September 30, 2012 (MCh\$19,238 in 2011). The agreements to repurchase have an average maturity of 4 days as of September 30, 2012 (5 days in 2011).

In instruments issued abroad are included mainly bank bonds and shares.

As of September 30, 2012, the portfolio of financial assets available-for-sale includes a net unrealized gain of MCh\$17,022 (net unrealized gain of MCh\$725 in 2011), recorded in other comprehensive income within equity.

During 2012 and 2011, there is no evidence of impairment of financial assets available-for-sale.

Realized gains and losses are calculated as the proceeds from sales less the cost (specific identification method) of the investments identified as available-for-sale. In addition, any unrealized gain or loss previously recognized in equity for these investments is reversed and recorded in the Consolidated Statements of Comprehensive Income.

Gross profits and losses realized on the sale of available-for-sale investments as of September 30, 2012 and 2011 are shown in Note 30 Net Financial Operating Income .

Gross profits and losses realized and unrealized on the sale of available-for-sale investments for the nine-month period ended September 30, 2012 and 2011, and the year ended December 31, 2011 are as follows:
