Notes to Consolidated Financial Statements

(Unaudited)

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The consolidated financial statements are presented in accordance with accounting principles generally accepted in the United States. These statements include the accounts of AdCare Health Systems, Inc. and its controlled subsidiaries (collectively, AdCare, the Company or we). Controlled subsidiaries include AdCare's majority owned subsidiaries and variable interest entities in which AdCare has control as primary beneficiary. The Company delivers skilled nursing, assisted living and home health services through wholly owned separate operating subsidiaries. All inter-company accounts and transactions were eliminated in the consolidation. The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Rule 8-03 of Regulation S-X. Accordingly, they do not include all of the information and notes required for complete annual financial statements and should be read in conjunction with the Company's audited consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011 (the Annual Report). In the opinion of the Company's management, all adjustments considered for a fair presentation are included and are of a normal recurring nature. Operating results for the three months ended March 31, 2012 are not necessarily indicative of the results that may be expected for the year ending December 31, 2012. Certain prior year amounts have been reclassified to conform to the current year presentation.

As described in the Explanatory Note to this Form 10-Q/A and in Note 2, the interim consolidated financial statements for 2012 presented herein have been restated from those previously issued.

Earnings per Share

Basic earnings per share is computed by dividing net income or loss by the weighted-average number of common shares outstanding during the period. Diluted earnings per share is similar to basic earnings per share except net income or loss is adjusted by the impact of the assumed issuance of common shares upon conversion of convertible securities and the weighted-average number of common shares outstanding includes potentially dilutive securities, such as options, warrants, non-vested shares, and additional shares issuable under convertible notes outstanding during the period when such potentially dilutive securities are not anti-dilutive. Potentially dilutive securities from options, warrants and non-vested shares are calculated in accordance with the treasury stock method, which assumes that proceeds from the exercise of all options and warrants with exercise prices exceeding the average market value are used to repurchase common stock at market value. The incremental shares remaining after the proceeds are exhausted represent the potentially dilutive effect of the securities. Potentially dilutive securities from convertible debt are calculated based on the assumed issuance at the beginning of the period, as well as any adjustment to income that would result from their assumed issuance.

Edgar Filing: ADCARE HEALTH SYSTEMS, INC - Form 10-Q/A

For the three months ended March 31, 2012 and 2011, due to the net loss for both periods, no potentially dilutive securities were included in the diluted earnings per share calculation because to do so would be anti-dilutive.

Intangible Assets and Goodwill

There have been no impairment adjustments to intangible assets and goodwill during the three months ended March 31, 2012 and 2011.

Table of Contents

Intangible assets consist of the following:

NOTE 2. RESTATEMENT OF PREVIOUSLY ISSUED CONSOLIDATED FINANCIAL STATEMENTS

In this Amendment No.1 on Form 10-Q/A to the Company's Quarterly Report on Form 10-Q for the three months ended March 31, 2012, we are restating the consolidated financial statements for the first quarter of 2012. Concurrent with the filing of this Form 10-Q/A, we are also filing amended quarterly reports on Form 10-Q/A for each of the second and third quarters of 2012 to restate our consolidated financial statements therein. The effects of these restatements, to the extent applicable, are reflected in the items revised herein. The restatements relate to the following:

- Correction in the application of the Company's accounting for certain variable interest entities further described as follows:

As further discussed in Note 19, *Variable Interest Entities*, and Note 21, *Related Party Transactions*, found in the Company's audited consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011 (the Annual Report), effective August 1, 2011 entities (the Oklahoma Owners) controlled by Christopher Brogdon and his spouse, Connie Brogdon (related parties to the Company) acquired five skilled nursing facilities located in Oklahoma (the Oklahoma Facilities). The Company entered

into a Management Agreement with the Oklahoma Owners pursuant to which a wholly-owned subsidiary of the Company supervises the management of the Oklahoma Facilities for a monthly fee equal to 5% of the monthly gross revenues of the Oklahoma Facilities. Upon acquisition, the Company concluded it was the primary beneficiary of the Oklahoma Owners and pursuant to Financial Accounting Standards Board Accounting Standards Codification Topic 810-10, *Consolidation-Overall*, consolidated the Oklahoma Owners in its 2011 consolidated financial statements.

During the process of finalizing the 2012 consolidated financial statements, the Company re-assessed its prior conclusion that it should consolidate the Oklahoma Owners. In the reassessment process, the Company concluded that it should not have consolidated the Oklahoma Owners. In the accompanying consolidated financial statements, the Company has deconsolidated the Oklahoma Owners effective January 1, 2012 and the balance sheet, operations and cash flows of the Oklahoma Owners are not included in the Company's first quarter 2012 consolidated financial statements. The Company further concluded that including the Oklahoma Owners in its 2011 consolidated financial statements was not material to such consolidated financial statements and therefore no adjustments have been made to the previously issued quarterly and annual 2011 consolidated financial statements.

- Accounting errors and certain accounting estimates that were identified in the process of finalizing our consolidated financial statements for the year ended December 31, 2012. These matters include the following:

Table of Contents

- *Patient care revenues and Accounts receivable, net* Adjustments totaling \$276,000 related primarily to the following items:

The timing of certain revenue recognition adjustments to ensure proper recognition in the appropriate interim reporting period within the 2012 year. Adjustments totaling \$276,000 related to the overstatement of \$140,000 in managed care revenue due to billing errors and a \$136,000 reclassification to reduce managed care revenue due to the improper recognition of bad debt expense subsequently identified by the Company.

- *Costs of services* Adjustments totaling \$1,617,000 related primarily to the following items:

The timing of expense recognition related to direct care compensation obligations incurred for the facilities located in Arkansas to reflect proper recognition in the appropriate interim reporting period within the 2012 year totaling approximately \$918,000. The related expense and obligation was being recognized over the period until the respective payment date. However, the obligations should have been expensed immediately in the period incurred as the obligation related to prior services rendered.

The timing of recognition of certain payroll related operating expenses and other necessary adjustments to related accrued liabilities to ensure proper recognition in the appropriate interim reporting period within the 2012 year. The issues primarily relate to insufficient processes related to accounting for accrued vacation of \$162,000 and the untimely identification and recognition of expenses associated with certain unemployment tax accrual adjustments of \$42,000.

The timing of certain adjustments to the provision for bad debts in the appropriate interim reporting period within the 2012 year. The issues primarily related to required adjustments resulting from the timing of recognition for state recoupments for Medicaid overpayments for certain facilities totaling \$403,000 and the delays in collection efforts and lack of timely follow-up on open patient accounts in 2012 for certain facilities totaling \$67,000 offset by the improper recognition of bad debt expense relating to managed care revenue discussed above in the amount of \$136,000.

Additional adjustment of \$161,000 related to the reversal of the eliminated management fee expense associated with the correction in the application of the Company's accounting for certain variable interest entities which also has been recorded in costs of services.

- *General and administrative* - Adjustments totaling \$62,000 resulted primarily from \$25,000 of expense recognition related to an adjustment to the fair value of warrants granted to non-employees, \$22,000 of expense inadvertently capitalized on the balance sheet that should have been expensed in the interim reporting period in which the costs were incurred during the 2012 period, and \$15,000 due to the insufficient processes related to accounting for accrued vacation.

- *Depreciation and amortization* The impairment of an office building of \$389,000 acquired through a 2011 acquisition that was vacated and abandoned in first quarter of 2012 to market value less cost to sell was offset by \$68,000 resulting from a decrease in amortization of certain intangibles related to adjustments that decreased the underlying intangible asset values and increased the related goodwill

resulting from the respective acquisitions.

- *Property and equipment, net* Adjustments of \$343,000 related primarily to the \$389,000 impairment of an office building acquired in 2011 acquisition offset by \$68,000 resulting from a decrease in amortization of certain intangibles related to adjustments that decreased the underlying intangible asset values and increased the related goodwill resulting from the respective acquisitions and \$22,000 of expense inadvertently capitalized on the balance sheet that should have been expensed in the interim reporting period in which the costs were incurred during the 2012 period.
- *Goodwill and Intangible assets bed licenses* - Adjustment of \$88,000 related to an acquisition reclassification to goodwill from the capitalized intangible assets bed licenses during the 2012 period.

Table of Contents

- *Deferred loan costs, net* Adjustment of \$85,000 related to an adjustment to the fair value of warrants granted to non-employees which related to the costs incurred in connection with loan costs.
- *Statement of cash flows* Adjustments to the statement of cash flows result primarily from the adjustments related to the Oklahoma Owners as discussed above; changes in net loss and the related adjustments to the various working capital related balance sheet accounts resulting from the other adjustments described above; and adjustments to show \$4.7 million of debt incurred in conjunction with certain acquisitions as cash provided by financing activities and cash used in investing activities.

NOTE 3. LIQUIDITY AND PROFITABILITY

The Company had a net loss of approximately \$2,413,000 for the three months ended March 31, 2012, and had negative working capital of approximately \$8,119,000 at March 31, 2012. The Company's ability to achieve sustained profitable operations is dependent on continued growth in revenue and controlling costs.

Management's plans for increasing liquidity and profitability in future years encompass the following:

- refinancing debt where possible to obtain more favorable terms;
- increasing facility occupancy and improving the occupancy mix by increasing Medicare patients;
- acquiring additional long term care facilities with existing cash flowing operations to expand our operations; and
- adding additional management contracts.

Management believes that the foregoing actions, if taken by the Company, should provide the opportunity for the Company to improve liquidity and achieve profitability; however, there is no assurance that such actions will occur. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTE 4. DISCONTINUED OPERATIONS

As part of the Company's strategy to focus on the growth of its skilled nursing segment, the Company decided in the fourth quarter of 2011 to exit the home health segment of the business. This segment represented less than 2% of total revenues for the Company over the past year.

As a result of the decision to exit the home health business, the assets and liabilities that are expected to be sold are reflected as assets and liabilities held for sale and are comprised of the following:

NOTE 5. SEGMENTS

The Company reports its operations in three segments: Skilled Nursing Facility (SNF), Assisted Living Facility (ALF), and Corporate & Other. The SNF and ALF segments provide services to individuals needing long-term care in a nursing home or assisted living setting and management of those facilities. The Corporate & Other segment engages in the management of facilities and accounting and IT services. We evaluate financial performance and allocate resources primarily based upon segment operating income (loss). Segment operating results exclude interest expense and other non-operating income and expenses. The table below contains our segment information for the three months ended March 31, 2012 and 2011.

In 2012, a reclassification adjustment was made to the December 31, 2011 balance sheet to recognize \$2.7 million of goodwill acquired in acquisitions that was previously reported as bed licenses included in property and equipment. The Company does not amortize goodwill or indefinite lived intangibles.

During the quarter ended March 31, 2012, the Company recognized a \$389,000 impairment charge to write down the carrying value of an office building located in Rogers, Arkansas. The office building was acquired in a 2011 acquisition. The purchase price allocation for that acquisition was deemed to be final as of December 31, 2011. Subsequent to December 31, 2011, it was determined that the acquired office building would not be utilized and the building was not in use as of March 31, 2012. The impairment charge represents a change in fair value from value recognized in the purchase price allocation. The impairment charge is classified as depreciation expense in the consolidated statement of operations and is included in the Company's Skilled Nursing Facility segment.

In March 2012, the Company granted incentive stock options to certain members of management pursuant to the 2011 Plan. A total of 429,200 options were granted with an exercise price per share of \$4.13. The options vest ratably on the day before each of the three subsequent anniversaries. The options are exercisable until the term expires in March, 2017. The fair value of the options was estimated at \$1.34 per share and is being recognized as share-based compensation expense over the requisite service period of the awards.

Nonemployee Common Stock Warrants

On March 29, 2012, in connection with the issuance of the \$3,500,000 promissory note to Cantone Asset Management LLC, the Company granted to Cantone Asset Management LLC a warrant to purchase 300,000 shares of common stock at an exercise price per share of \$4.00. The warrant is exercisable until the term expires in March, 2015. The fair value of the warrant was estimated at \$0.64 per share and is included in deferred loan costs and will be amortized as interest expense over the life of the promissory note. During the restatement process (Note 2), the fair value of the warrants was reviewed, and the Company determined that the warrants should be revalued using an estimated life correlating to the legal term of the warrant. The revised fair value was estimated to be \$0.92; the additional expense is included in deferred loan costs and is being amortized as interest expense over the life of the promissory note.

NOTE 13. VARIABLE INTEREST ENTITIES

As further described in Note 19 to the consolidated financial statements in the Annual Report, the Company has certain variable interest entities that are required to be consolidated. In connection with the restatement process (Note 2), the Company has determined that certain entities which the Company had previously recognized as variable interest entities and consolidated their results with the results of the Company during the first three quarters of 2012 as well as the third and fourth quarter of 2011, should not have been consolidated. These entities are the five skilled nursing facilities located in Oklahoma which are managed by the Company (known as the Oklahoma Owners). As a result of the restatements described in Note 2, the Company's consolidated financial statements for the first quarter of 2012 do not include the results of the Oklahoma Owners. The Company concluded that including the Oklahoma Owners in its 2011 consolidated financial statements was not material to such consolidated financial statements and therefore no adjustments have been made to the previously issued quarterly and annual 2011 consolidated financial statements. The following summarizes the assets and liabilities of the variable interest entities included in the consolidated balance sheets at March 31, 2012 and December 31, 2011:

NOTE 15. COMMITMENTS AND CONTINGENCIES

Legal Matters

The skilled nursing business involves a significant risk of liability given the age and health of the Company's patients and residents and the services the Company provides. The Company and others in the industry are subject to an increasing number of claims and lawsuits, including professional liability claims, which may allege that services have resulted in personal injury, elder abuse, wrongful death or other related claims. The defense of these lawsuits may result in significant legal costs, regardless of the outcome, and can result in large settlement amounts or damage awards.

In addition to the potential lawsuits and claims described above, the Company is also subject to potential lawsuits under the Federal False Claims Act and comparable state laws alleging submission of fraudulent claims for services to any healthcare program (such as Medicare) or payor. A violation may provide the basis for exclusion from federally-funded healthcare programs. As of March 31, 2012, the Company does not have any material loss contingencies recorded or requiring disclosure based on management's evaluation of the probability of loss from known claims.

You can identify forward-looking statements by terminology such as may, will, should, expects, intends, plans, anticipates, estimates, predicts, potential, continues, or the negative of these terms or other comparable terminology. Change in Accounting for Variable Interest Entities

As further discussed in Note 19, *Variable Interest Entities*, and Note 21, *Related Party Transactions*, found in the Company's audited consolidated financial statements and notes included in the Company's Annual Report, effective August 1, 2011 entities (the Oklahoma Owners) controlled by Christopher Brogdon and his spouse, Connie Brogdon (related parties to the Company), acquired five skilled nursing facilities located in Oklahoma (the Oklahoma Facilities). The Company entered into a Management Agreement with the Oklahoma Owners pursuant to which a wholly-owned subsidiary of the Company supervises the management of the Oklahoma Facilities for a monthly fee equal to 5% of the monthly gross revenues of the Oklahoma Facilities. Upon acquisition, the Company concluded it was the primary beneficiary of the Oklahoma Owners and pursuant to Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic 810-10, *Consolidation - Overall*, consolidated the Oklahoma Owners in its 2011 consolidated financial statements.

During the process of finalizing the 2012 consolidated financial statements, the Company re-assessed its prior conclusion that it should consolidate the Oklahoma Owners. In the reassessment process, the Company concluded that it should not have consolidated the Oklahoma Owners. In the accompanying consolidated financial statements the Company has deconsolidated the Oklahoma Owners effective January 1, 2012 and the balance sheet, operations and cash flows of the Oklahoma Owners are not included in the Company's first quarter 2012 consolidated financial statements. The Company further concluded that including the Oklahoma Owners in its 2011 consolidated financial statements was not material to such consolidated financial statements and therefore no adjustments have been made to the previously issued quarterly and annual 2011 consolidated financial statements.

For information regarding purchase and sale agreements of facilities that have been entered into subsequent to March 31, 2012, see Note 16 in the Notes to Consolidated Financial Statements section of Part I, Item 1 of this Quarterly Report.

We are currently evaluating potential acquisition opportunities in addition to those described above and we continue to seek new opportunities to further our growth strategy. No assurance is made that any of these potential acquisition opportunities will be determined to be appropriate for us or that we will complete any of such acquisitions on terms acceptable to us, or at all.

Segments

The Company reports its operations in three segments: Skilled Nursing Facilities (SNF), Assisted Living Facilities (ALF), and Corporate & Other. The Company delivers services through wholly owned separate operating subsidiaries. The SNF and ALF segments provide services to individuals needing long-term care in a nursing home or assisted living setting and management of those facilities. The Corporate & Other segment engages in the management of facilities and accounting and IT services. We evaluate financial performance and allocate resources primarily based on segment operating income (loss). Segment operating results exclude interest expense and other non-operating income and expenses. See Note 5 in the Notes to Consolidated Financial Statements section of Part I, Item 1 of this Quarterly Report.

Table of Contents

Skilled Nursing Facilities

We focus on two primary indicators in evaluating the financial performance in this segment. Those indicators are facility occupancy and patient mix. Facility occupancy is important as higher occupancy generally leads to higher revenues. In addition, concentrating on increasing the number of Medicare covered admissions (the patient mix) helps in increasing revenues. We include commercial insurance covered admissions that are reimbursed at the same level as those covered by Medicare in our Medicare utilization percentages and analysis.

For the three months ended March 31, 2012, revenue in our skilled nursing segment increased by approximately \$14,853,000 compared to March 31, 2011, as a result of acquisitions during the year. This segment had income from operations of \$850,000 as a result of improved quality mix as well as expense control. We expect to continue to implement and refine strategies designed to sustain these goals. Total assets increased by \$4,869,000 due to acquisitions made since March 31, 2011.

Same Facilities results represent those owned and leased facilities we began to operate prior to January 1, 2011.

Recently Acquired Facilities results represents those owned and leased facilities we began to operate subsequent to January 1, 2011.

Assisted Living Facilities

For the three months ended March 31, 2012, revenue in our ALF segment increased by approximately \$922,000 compared to March 31, 2011 as a result of increased revenue from acquisitions, an annual increase in rates charged to privately paying residents and increasing occupancy. This segment had income from operations of \$684,000. Total assets increased by approximately \$5,061,000 primarily due to acquisitions since March 31, 2011 and other building improvements made during the last 12 months.

	Average Occupancy Three Months Ended March 31,	
	2012	2011
Total	81.4%	74.5%

Residents of our assisted living facilities rely on their personal investments and wealth to pay for their stay. Although many of the risks still remain, such as declines in market values of investments, depressed market for the sale of private homes, and adult children caring for their elderly at home, we have seen an increase in census.

Corporate & Other

We manage eight skilled nursing facilities and one independent living campus for third party owners under management agreements that either are for a fixed monthly fee or for a percentage of revenue generated by the managed facility. Depending on the type of management agreement, our revenues increase annually according to inflationary adjustments stipulated in our management agreements or they increase as the facility's revenue increases for the management agreements that are based on a percentage of revenue. This segment includes our corporate overhead expenses, which are made up of salaries of our senior management team members and various other corporate expenses, including, but not limited to, corporate office operating expenses, audit fees, legal fees and board activities. Additionally, non-cash charges for compensation expense related to warrants, restricted stock and stock options are included in corporate overhead. We do not allocate these expenses to the divisions or separate them from management and development business for management review purposes.

Comparison for the three months ended March 31, 2012 and 2011

Patient Care Revenues - For the periods presented, total patient care revenues increased by \$15.8 million, or 51%.

Revenue in our SNF segment increased approximately \$14,853,000 when compared to the three months ended March 31, 2011, primarily as a result of additional facilities acquired since March, 2011. In addition, quality mix improved at existing facilities. This segment had income from operations of \$850,000 which is \$345,000 higher compared to the three months ended March 31, 2011 as a result of higher revenue due to acquisitions and improved reimbursement rates. We are seeking to increase facility occupancy and to increase the number of patients covered by Medicare. We seek to continue to implement and refine strategies designed to achieve these goals.

Revenue in our ALF segment increased by approximately \$922,000 when compared to the three months ended March 31, 2011, as a result of increased census and levels of care as well as the addition of one new facility in 2012 and one new facility in the fourth quarter of 2011. This segment had income from operations of \$684,000 which is \$480,000 more than the same period in 2011 from increased occupancy and an annual increase in rates charged to residents of the facilities.

Management Revenue - For the periods presented, management revenues (net of eliminations) increased \$26,000, or 5%.

Cost of Services - For the periods presented, cost of services was approximately \$38,807,000 compared to \$25,175,000 for the same period a year ago. This is the result of numerous acquisitions over the past 12 months.

General and Administrative - For the periods presented, general and administrative costs have increased by \$1,069,000 due to additional management staff necessary to direct the growth and maximize the results of the newly acquired facilities.

Infrastructure Costs - Company management separately identifies certain costs, which the Company has incurred that we believe are directly related to the growth of the Company. These infrastructure costs include, but are not limited to, additional management and staff necessary to support our operational teams in our newly acquired facilities, including those in states that we have not previously operated in. These costs are included in the consolidated statement of operations (included elsewhere in this Quarterly Report) under General and Administrative Expenses. Infrastructure costs were approximately \$159,000 and \$117,000 for the three months ended March 31, 2012 and 2011, respectively.

Facility Rent Expense - For the periods presented, lease expenses increased by \$162,000 due to annual increases in rental rates and the addition of the one new leased facility in the fourth quarter of 2011.

(Amounts in 000 s)	Three Months Ended March 31	
	2012	2011
Lease Expense	\$ 2,065	\$ 1,903

Depreciation and Amortization - For the periods presented, depreciation and amortization increased by \$1,063,000. The depreciation increase is directly related to acquisition activity that was not included in the 2011 results as it occurred in later periods and a \$389,000 impairment charge recognized by the Company on an office building located in Rogers, Arkansas.

Interest Expense, net - For the periods presented, interest expense, net increased by \$1,242,000, or 86%. We have entered into numerous debt instruments in relation to our growth strategy for the acquisition of the facilities which began in the third quarter of 2010. In addition, several of the arrangements are short term in nature resulting in higher interest rates than previously experienced and an increase in the amortization of deferred loan costs associated with the new debt agreements.

Table of Contents

Acquisition Costs, net of Gains - For the period ended March 31, 2012, acquisition costs, net of gains was an expense of \$293,000, compared to a net gain of \$979,000 for the comparative period. For the period ended March 31, 2012, the total acquisition costs were legal fees directly related to the acquisition of the two Ohio facilities and other costs incurred on potential future acquisitions. For the period ended March 31, 2011, the amount was the result of gains recognized on the acquisition of the Sylva, North Carolina facility during the first quarter of 2011.

Derivative Gain/Loss - For the period ended March 31, 2012, the derivative gain was \$410,000, compared to a loss of \$1,350,000 for the same period in 2011. The derivative is a product of a convertible debt instrument entered into during the third quarter of 2010. The expense associated with the derivative increases as the stock price climbs, and conversely decreases as the stock price declines. The price of the common stock of the Company declined during the three-month period ended March 31, 2012.

Other Income/(Expense) - For the periods presented, other income decreased by \$620,000. There was a recovery of receivables recorded in the prior year which did not occur in the three months ended March 31, 2012.

Critical Accounting Policies and Use of Estimates

Except for the re-assessment of our application of FASB ASC Topic 810, *Consolidation - Overall*, related to the Oklahoma Owners, there have been no significant changes during the three months ended March 31, 2012 to the items that we disclosed as our critical accounting policies and use of estimates in our discussion and analysis of financial condition and results of operation contained in the Annual Report.

As further discussed in Note 19, *Variable Interest Entities*, and Note 21, *Related Party Transactions*, found in the Company's audited consolidated financial statements and notes included in the Company's Annual Report, effective August 1, 2011 entities (the Oklahoma Owners) controlled by Christopher Brogdon and his spouse, Connie Brogdon (related parties to the Company), acquired five skilled nursing facilities located in Oklahoma (the Oklahoma Facilities). The Company entered into a Management Agreement with the Oklahoma Owners pursuant to which a wholly-owned subsidiary of the Company supervises the management of the Oklahoma Facilities for a monthly fee equal to 5% of the monthly gross revenues of the Oklahoma Facilities. Upon acquisition, the Company concluded it was the primary beneficiary of the Oklahoma Owners and pursuant to FASB ASC Topic 810, *Consolidation - Overall*, consolidated the Oklahoma Owners in its 2011 consolidated financial statements.

During the process of finalizing the 2012 consolidated financial statements, the Company re-assessed its prior conclusion that it should consolidate the Oklahoma Owners. In the reassessment process, the Company concluded that it should not have consolidated the Oklahoma Owners. In the accompanying consolidated financial statements the Company has deconsolidated the Oklahoma Owners effective January 1, 2012 and the balance sheet, operations and cash flows of the Oklahoma Owners are not included in the Company's first quarter 2012 consolidated financial statements. The Company further concluded that including the Oklahoma Owners in its 2011 consolidated financial statements was not material to such consolidated financial statements and therefore no adjustments have been made to the previously issued quarterly and annual 2011 consolidated financial statements.

Liquidity and Capital Resources

Overview

Liquidity is the measure of the Company's ability to have adequate cash or access to cash at all times in order to meet financial obligations when due, as well as to fund corporate expansion and other activities. Historically, the Company has met its liquidity requirements through a combination of net cash flow from operations, debt from third party lenders and issuances of other debt and equity securities.

We have negative working capital of approximately \$8,119,000 at March 31, 2012. Our ability to sustain profitable operations is dependent on continued growth in revenue and controlling costs.

During the next twelve months, the Company believes it will require additional financing to satisfy its financial obligations and implement its expansion strategy. The Company is currently exploring several financing alternatives and may seek to raise additional capital through the sale of additional debt or equity securities, although there is no assurance that the Company will be able to raise additional capital through the issuance of debt or equity securities on terms acceptable to it, or at all. If the Company is unable to secure such additional financing, then the Company may be required to restructure its outstanding indebtedness and delay or modify its expansion plans.

Eaglewood Facilities Financing

On January 1, 2012, Woodland Holdings, LLC, our wholly owned subsidiary, entered into a loan agreement with The PrivateBank and Trust Company in an aggregate principal amount of \$4,800,000. The loan was used to fund the acquisition of the Woodland Manor facility located in Springfield, Ohio.

The loan matures on December 30, 2016. Interest on the loan accrues on the principal balance thereof at an annual rate of the greater of (i) 6.0% per annum or (ii) the LIBOR rate plus 4.0% per annum, and payments for the interest and a portion of the principal balance are payable monthly, commencing on February 1, 2012 and ending on December 1, 2016. The entire outstanding principal balance of the loan, together with all accrued but unpaid interest thereon, is payable on December 30, 2016. The loan is secured by a first mortgage on the real property and improvements constituting the Woodland Manor facility and guaranteed by AdCare.

In addition, on January 1, 2012, Eaglewood Holdings, LLC and Eaglewood Village, LLC, our wholly owned subsidiaries, jointly and severally issued two promissory notes to Eaglewood Villa, Ltd. in the amount of \$4,500,000 and \$500,000. Proceeds from the notes were used to fund the acquisition of the Eaglewood Village facility located in Springfield, Ohio.

Edgar Filing: ADCARE HEALTH SYSTEMS, INC - Form 10-Q/A

The \$500,000 note matures on December 30, 2016 and the \$4,500,000 note matures on June 30, 2012. Interest on the \$500,000 note accrues at a rate of 6.5% per annum and interest on the \$4,500,000 Eaglewood Loan accrues at a rate of (i) 6.5% per annum from January 1, 2012 to February 29, 2012; (ii) 8.5% per annum from March 1, 2012 to April 30, 2012; and (iii) 10.5% per annum from May 1, 2012 to June 30, 2012. Principal and interest payments under the notes shall be due and payable monthly, beginning on February 1, 2012. The notes are secured by a mortgage on the real property and improvements constituting the Eaglewood Village facility.

HUD Financing

On January 31, 2012, we refinanced the mortgage on our Home & Hearth of Vandalia facility to obtain a term note guaranteed by HUD. The HUD mortgage note requires monthly principal and interest payments with an annual fixed interest rate of 3.74%. The note matures in 2041. The note has a prepayment penalty of 8% for any prepayment made prior to March 1, 2014, which penalty is reduced by 1% each year thereafter until the eighth anniversary of such date, after which there is no prepayment penalty.

Cantone Promissory Note March 2012

On March 29, 2012, we issued a promissory note in favor of Cantone Asset Management LLC for an aggregate principal amount of \$3,500,000. The note matures on the earlier of: (i) October 1, 2012; or (ii) the date on which we shall receive proceeds, in an amount not less than \$6,000,000, from a public offering or private placement of our common stock. Interest on the note accrues on the principal balance thereof at an annual rate of 10%; provided, however, if the entire principal amount of the note is not paid by July 1, 2012, the interest rate shall increase by 1% for each month or part thereof during which any principal amount of the note shall remain

unpaid. We may prepay the note in whole or in part, at any time, without notice or penalty; provided, however, if the note is prepaid prior to October 1, 2012, then we shall continue to pay interest on the note through such date.

In connection with the issuance of the note, Cantone Research, Inc. has agreed to provide us with certain consulting services for a monthly fee if the Company and Cantone Asset Management LLC (or an affiliated entity) do not agree to the terms of an additional financing arrangement pursuant to which it (or affiliated entity) would loan to us at least \$4,000,000 for a four-year term.

2012 Public Stock Offering

In March 2012, we completed a firm commitment underwritten public offering of 1,100,000 shares of our common stock at a public offering price of \$3.75 per share. We received net proceeds of approximately \$3.6 million after deducting underwriting discounts, and other offering-related expenses of approximately \$0.5 million. We intend to use the net proceeds from this offering for working capital and other general corporate purposes.

The Company has also granted the underwriters in the offering an option for 45 days to purchase an additional 165,000 shares of common stock to cover over-allotments, if any. This over-allotment option expires on May 11, 2012.

Three months ended March 31, 2012

Net cash provided by operating activities for the three months ended March 31, 2012, was approximately \$1,502,000 consisting primarily of our net loss and changes in working capital, offset by noncash charges (primarily depreciation and amortization, share-based compensation, difference between straight-line rent and rent paid, and amortization of debt discounts and related deferred financing costs); all primarily the result of routine operating activity.

Net cash used in investing activities for the three months ended March 31, 2012, was approximately \$7,813,000. This is primarily the result of funding our acquisitions, including making escrow deposits and purchase of property and equipment.

Net cash provided by financing activities was approximately \$10,127,000 for the three months ended March 31, 2012. This is primarily the result of cash proceeds received from warrant exercises, the public stock offering, and proceeds from debt financings to fund our acquisitions, partially offset by repayments of existing debt obligations.

Three months ended March 31, 2011

Net cash used in operating activities for the three months ended March 31, 2011 was approximately \$783,000 consisting primarily of our net loss from operations and changes in working capital partially offset by noncash charges, all primarily the result of routine operating activity.

Edgar Filing: ADCARE HEALTH SYSTEMS, INC - Form 10-Q/A

Net cash used in investing activities for the three months ended March 31, 2011 was approximately \$5,490,000. This is primarily the result of deposits for acquisitions and the purchase of additional equipment offset partially by reductions in restricted cash and investments.

Net cash provided by financing activities was approximately \$10,500,000 for the three months ended March 31, 2011. This is primarily the result of proceeds from the convertible debt issuance net of issuance costs on March 31, 2011, and increases in borrowings on the line of credit partially offset by repayments of existing debt obligations.

Debt Covenant Compliance

As of March 31, 2012, the Company (including its consolidated variable interest entity) had 26 different credit facilities (credit facilities, mortgage notes, bonds and other credit obligations) outstanding that include various financial and administrative covenant requirements. Covenant requirements include, but are not limited to, fixed charge coverage ratios, debt service coverage ratios, minimum EBITDA or EBITDAR, current ratios and tangible net worth requirements. Certain financial covenant requirements are based on consolidated financial measurements whereas others are based on subsidiary level (i.e., facility, multiple facilities or a combination of subsidiaries comprising less than the Company's consolidated financial measurements). Some covenants are based on annual financial metric measurements whereas others are based on monthly or quarterly financial metric measurements. The Company routinely tracks and monitors its compliance with its covenant requirements. In recent periods, including as of March 31, 2012, the Company has not been in compliance with certain financial and administrative covenants. For each instance of such non-compliance, the Company has obtained waivers or amendments to such requirements, including, as necessary, modifications to future covenant requirements or the elimination of certain requirements in future periods.

The following table includes financial covenant requirements as of the last measurement date as of or prior to March 31, 2012 where the Company was not in compliance with the financial covenant or it achieved compliance with the covenant requirement by a margin of 10% or less. The table also identifies the related credit facility, outstanding balance at March 31, 2012 and the next applicable future financial covenant requirement inclusive of adjustments to covenant requirements resulting from amendments executed subsequent to March 31, 2012.

Item 4. Controls and Procedures

As previously disclosed, the Audit Committee, in consultation with management, concluded in March 2013 that: (i) the Company's previously issued financial statements for the quarters ended March 31, 2012, June 30, 2012 and September 30, 2012 (the Relevant Financial Statements) should no longer be relied upon due to errors in the Relevant Financial Statements identified in connection with the audit of the Company's consolidated financial statements for the year ended December 31, 2012; and (ii) the Company would restate the Relevant Financial Statements.

The Audit Committee initiated a further review of, and inquiry with respect to, the accounting and financial issues related to these and other potential errors and engaged counsel to assist the Audit Committee with such matters. The Audit Committee completed its

Table of Contents

inquiry and, in connection therewith, assisted in the correction of certain errors relating to accounting and financial matters and identified certain material weaknesses in the Company's internal control over financial reporting, including weakness in the Company's ability to appropriately account for complex or non-routine transactions and in the quality and sufficiency of the Company's finance and accounting resources.

On July 8, 2013, the Company restated the Relevant Financial Statements by filing with the SEC amendments to its Quarterly Reports on Form 10-Q for the quarters ended March 31, 2012, June 30, 2012 and September 30, 2012.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed pursuant to the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

Our Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of our disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) as of the end of the period covered by this Quarterly Report (the Evaluation Date). Based on such evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, as of the Evaluation Date, our disclosure controls and procedures were not effective.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act). Our internal control over financial reporting is designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. Our internal control over financial reporting includes policies and procedures that are intended to:

- (1) maintain records that in reasonable detail accurately and fairly reflect the transactions and dispositions of our assets;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with U.S. GAAP, and that our receipts and expenditures are being made only in accordance with the authorization of our management and directors; and

Edgar Filing: ADCARE HEALTH SYSTEMS, INC - Form 10-Q/A

(3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate due to changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate. A control system, no matter how well designed and operated, can provide only reasonable, but not absolute, assurance that the control system's objectives will be met. The design of a control system must reflect the fact that there are resource constraints, and the benefit of controls must be considered relative to their costs.

Management evaluated the effectiveness of our internal control over financial reporting as of December 31, 2012. In making this evaluation, management used the framework and criteria set forth in the report entitled *Internal Control - Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The COSO framework summarizes each of the components of a company's internal control system, including: (i) the control environment, (ii) risk assessment, (iii) control activities, (iv) information and communication and (v) monitoring.

Consistent with the results of the Audit Committee's review and inquiry, management identified material weaknesses in the Company's ability to appropriately account for complex or non-routine transactions and the quality and sufficiency of the Company's finance and accounting resources in relation to the increasing complexity and growth of the Company's operations.

Table of Contents

As a result of the material weaknesses described above, management has concluded that our internal control over financial reporting was not effective at December 31, 2012 based on the guidelines established in Internal Control – Integrated Framework issued by COSO.

Changes in Internal Control over Financial Reporting and Remediation

In response to the material weaknesses in the Company's internal control over financial reporting, and based in part on recommendations made by the Audit Committee to the Board of Directors following the completion of the Audit Committee's review and inquiry, we have implemented, or plan to implement, the changes to our internal control over financial reporting discussed below.

- We hired Ronald W. Fleming to serve as Chief Financial Officer of the Company effective May 15, 2013. Mr. Fleming has relevant industry experience as well as experience with generally accepted accounting principles and SEC reporting and compliance.
- We have empowered Mr. Fleming to hire additional accounting and finance staff to ensure adequate internal control over financial reporting and operations.
- We are seeking to hire a permanent Chief Accounting Officer, as further discussed below.
- We have expanded the scope of our annual internal audit plan to include quarterly internal audit procedures with emphasis on the review of journal entries and non-recurring transactions.

In April 2013, we engaged an Interim Chief Accounting Officer on a contract basis. We are currently discussing with our Interim Chief Accounting regarding the terms of her employment as the Company's Chief Accounting Officer and believe that we will reach agreement on such terms in the near term.

Since January 2013, the Company has hired eight new finance and accounting personnel, including a Vice President of Facility Accounting Operations. Our new finance and accounting leadership continue to evaluate the qualifications and sufficiency of our accounting and finance department. The expanded internal audit scope has commenced and will be completed prior to the Company filing its Quarterly Reports on Form 10-Q for each of the 2013 quarterly periods.

Due to the short time period since we commenced our efforts to remediate our material weaknesses, and because we have not fully completed our financial reporting process for the quarter ended March 31, 2013, we have not yet been able to fully evaluate the effectiveness of such efforts. We have incurred, and will continue to incur, additional incremental costs associated with our remediation efforts, primarily due to hiring new finance and accounting personnel and external consultants and the implementation and validation of improved accounting and financial reporting procedures. If we are not successful in remediating our material weaknesses, or if we determine in future fiscal periods that

Edgar Filing: ADCARE HEALTH SYSTEMS, INC - Form 10-Q/A

we have additional material weaknesses in our internal control over financial reporting, then the reliability of our financial reports may be adversely impacted, we may be unable to file our reports with the SEC in a timely fashion and we could be required to restate our financial results. This could cause our investors to lose confidence in our financial reporting, which could adversely affect the trading price of our stock.

Other than the remediation efforts discussed above, which occurred in 2013 and have included the involvement of our new finance and accounting leadership in the preparation, review, and approval of the consolidated financial statements included in this Quarterly Report, there have not been any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) since January 1, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

In addition, there were not any changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the first quarter of 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
