**PART I**

*Some statements in, or incorporated by reference into, this Annual Report on Form 10-K (this Report) of Citi Trends, Inc. ( we , us , or the Company ) may constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended (the Exchange Act ). All statements other than historical facts contained in this Report, including statements regarding our future financial position, business policy and plans and objectives and expectations of management for future operations, are forward-looking statements. The words believe, may, could, estimate, continue, anticipate, intend, expect, plan, project and similar expressions, as they relate to us, are intended to identify forward-looking statements, although not all forward-looking statements contain such language. We have based these forward-looking statements largely on our current expectations and projections about future events, including, among other things: our ability to anticipate and respond to fashion trends, competition in our markets, consumer spending patterns, actions of our competitors or anchor tenants in the strip shopping centers where our stores are located, and anticipated fluctuations in our operating results.*

*These forward-looking statements are subject to a number of risks, uncertainties and assumptions, including those described in Item 1A. Risk Factors and elsewhere in this Report and the other documents we file with the Securities and Exchange Commission ( SEC ), including our reports on Form 8-K and Form 10-Q, and any amendments thereto. Because forward-looking statements are inherently subject to risks and uncertainties, some of which cannot be predicted or quantified, you should not rely upon forward-looking statements as predictions of future events. The events and circumstances reflected in the forward-looking statements may not be achieved or occur and actual results could differ materially from those projected in the forward-looking statements. These forward-looking statements speak only as of the date of such statements. Except as required by applicable law, including the securities laws of the United States and the rules and regulations of the SEC, we do not plan to publicly update or revise any forward-looking statements contained in this Report, whether as a result of any new information, future events or otherwise.*

*Information is provided herein with respect to our operations related to our fiscal years ended on January 31, 2015 ( fiscal 2014 ), February 1, 2014 ( fiscal 2013 ) and February 2, 2013 ( fiscal 2012 ).*

**ITEM 1. BUSINESS**

**Overview and History**

We are a value-priced retailer of urban fashion apparel and accessories for the entire family. Our merchandise offerings are designed to appeal to the fashion preferences of value-conscious consumers, particularly African-Americans. We believe that we provide merchandise at compelling values. Our goal is to provide nationally recognized branded and non-branded merchandise at discounts to department and specialty stores regular prices of 20% to 70%. Our stores average approximately 10,800 square feet of selling space and are typically located in neighborhood shopping centers that are convenient to low and moderate income customers. As of January 31, 2015, we operated 511 stores in both urban and rural markets in 29 states.

Our predecessor, Allied Department Stores, was founded in 1946 and grew into a chain of family apparel stores operating in the Southeast. In 1999, the Company, then consisting of 85 stores, was acquired by a private equity firm. Following this acquisition, management implemented

## Edgar Filing: Citi Trends Inc - Form 10-K

several strategies to focus on the growing urban market and improve our operating and financial performance. After the successful implementation of these strategies and the successful growth of our chain from 85 stores to 212 stores, we completed an initial public offering of our common stock on May 18, 2005.

Our executive offices are located at 104 Coleman Boulevard, Savannah, Georgia 31408 and our telephone number is (912) 236-1561. Our Internet address is <http://www.cititrends.com>. The reference to our web site address in this Report does not constitute the incorporation by reference of the information contained at the web site in this Report. We make available, free of charge through publication on our web site, copies of our Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, and amendments to those reports, as soon as reasonably practicable after we have filed such materials with, or furnished such materials to, the SEC. In addition, you may read and copy any materials we file with the SEC at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 or on the SEC's web site at <http://www.sec.gov>, and you may obtain information on the operation of the Public Reference Room by calling the SEC at 1-800-SEC-0330.

### **Company Strengths and Strategies**

Our goal is to be the leading value-priced retailer of urban fashion apparel and accessories. We believe the following business strengths differentiate us from our competitors and are important to our success:

*Focus on Urban Fashion Mix.* We focus our merchandise on urban fashions, which we believe appeal to our core customers. We do not attempt to dictate trends, but rather devote considerable effort to identifying emerging trends and ensuring that our apparel assortment is considered timely and fashionable in the urban market. Our merchandising staff tests new emerging merchandise trends

Table of Contents

before reordering and actively manages the mix of fashion and branded products in the stores to keep our offering fresh and minimize markdowns.

*Superior Value Proposition.* As a value-priced retailer, we seek to offer top quality, fashionable merchandise at compelling prices in relation to department and specialty stores. We also offer products under our proprietary brands such as Citi Steps, Red Ape, Vintage Harlem, and Lil Ms Hollywood. These private brands enable us to expand our product selection, offer fashion merchandise at lower prices and enhance our product offerings.

*Merchandise Mix that Appeals to the Entire Family.* We merchandise our stores to create a destination environment capable of meeting the fashion needs of the entire value-conscious family. Each store offers a wide variety of products for men and women, as well as children. Our stores feature sportswear, dresses, outerwear, footwear, intimate apparel, accessories, scrubs, beauty and home. We believe that the breadth of our merchandise distinguishes our stores from many competitors that offer urban apparel primarily for women, and reduces our exposure to fashion trends and demand cycles in any single category.

*Strong and Flexible Sourcing Relationships.* We maintain strong sourcing relationships with a large group of suppliers. We have purchased merchandise from over 1,600 vendors in the past 12 months. Purchasing is controlled by a 40-plus member buying team located in one of our three buying offices - New York, New York; Los Angeles, California; and our Savannah, Georgia headquarters. We purchase merchandise through planned programs with vendors at reduced prices and opportunistically through close-outs, with the majority of our merchandise purchased for the current season and a lesser quantity held for sale in future seasons. To foster vendor relationships, we pay vendors promptly and do not ask for typical retail concessions, such as promotional and markdown allowances.

*Attractive Fashion Presentation and Store Environment.* We seek to provide a fashion-focused shopping environment that is similar to a specialty apparel retailer, rather than a typical off-price store. Products from nationally recognized brands are prominently displayed by brand, rather than by size, on dedicated, four-way fixtures featuring multiple sizes and styles. The remaining merchandise is arranged on hanging racks. The stores are carpeted and well-lit, with most featuring a sound system that plays urban adult and urban contemporary music throughout the store. Nearly all of our stores have either been opened or remodeled in the past ten years.

*Cost-Effective Store Locations.* We locate stores in high traffic strip shopping centers that are convenient to low and moderate income neighborhoods. We generally utilize previously occupied store sites which enables us to obtain attractive rents. Similarly, advertising expenses are low as we do not rely on promotion-driven sales but rather seek to build our reputation for value through everyday low prices. At the same time, from an investment perspective, we seek to design stores that are inviting and easy to shop, while limiting startup and fixturing costs.

**Product Merchandising and Pricing**

*Products.* Our merchandising strategy is to offer high quality urban apparel and accessories at attractive prices for the entire value-conscious family. We seek to maintain a diverse assortment of first quality, in-season merchandise that appeals to the distinctive tastes and preferences of our core customers. Approximately 26% of our net sales in fiscal 2014 were represented by nationally recognized brands. We also offer a wide variety of products from less recognized brands and a lesser amount representing private label products under our proprietary brands. Our private brand products enable us to expand product selection, offer merchandise at lower prices and enhance our product offerings.

## Edgar Filing: Citi Trends Inc - Form 10-K

Our merchandise includes apparel, accessories and home. Within apparel, we offer fashion sportswear for men, women and children, including offerings for newborns, infants, toddlers, boys and girls. Accessories include handbags, jewelry, footwear, belts, intimate apparel, scrubs and sleepwear. Home includes decorative home product, functional home product, beauty, books, toys and electronic accessories.

The following table sets forth the merchandise assortment by classification as a percentage of net sales for fiscal 2014, 2013, and 2012.

	Percentage of Net Sales		
	2014	2013	2012
Accessories	29%	26%	23%
Children s	26%	27%	27%
Ladies	24%	26%	29%
Men s	17%	18%	18%
Home	4%	3%	3%

## Table of Contents

*Pricing.* We purchase our merchandise at attractive prices and mark prices up less than department or specialty stores. We seek to provide nationally recognized brands at prices that are 20% to 70% below regular retail prices available in department stores and specialty stores. Further, we also consider the price-to-value relationships of our non-branded products to be exceptionally strong. Both branded and non-branded offerings validate our value and fashion positioning to our customers. The discount from the suggested retail price is reflected on the price tag. We review each department in our stores at least monthly for possible markdowns based on sales rates and fashion seasons to promote faster turnover of inventory and to accelerate the flow of current merchandise.

## **Sourcing and Allocation**

The merchandising department oversees the sourcing, planning and allocation of merchandise to our stores, which allows us to utilize volume purchase discounts and maintain control over our inventory. We source our merchandise from over 1,600 vendors, consisting of domestic manufacturers and importers. Our Chief Merchandising Officer supervises a planning and allocation team consisting of over 20 associates, as well as a buying team, which is comprised of over 40 merchants.

The buyers on our buying team have, on average, more than 15 years of experience in the retail business and have developed long-standing relationships with many of our vendors, including those controlling the distribution of branded apparel. Our buyers, who are based in New York, Los Angeles and Savannah, travel regularly to the major United States apparel markets, visiting major manufacturers and attending national and regional apparel trade shows, including urban-focused trade shows.

Our buyers purchase merchandise in styles, sizes and quantities to meet inventory levels developed by the planning staff. The buying staff utilizes several purchasing techniques that enable us to offer to customers branded and non-branded fashion merchandise at everyday low prices. The majority of the nationally recognized branded products we sell are purchased in-season, and we generally purchase later in the merchandising buying cycle than department and specialty stores. This allows us to take advantage of imbalances between retailers' demands for specific merchandise and manufacturers' supply of that merchandise. We also purchase merchandise from some vendors in advance of the selling season at reduced prices and purchase merchandise on an opportunistic basis near the end of the selling season, which we then store in our distribution centers for sale three to nine months later. Where possible, we seek to purchase items based on style or color in limited quantities on a test basis with the right to reorder as needed. Finally, we purchase private brand merchandise that we source to our specifications.

We allocate merchandise across our store base according to sales and merchandise plans that are created by our planning and allocation teams. The merchandising staff utilizes a centralized management system to monitor merchandise purchasing, planning and allocation in order to maximize inventory turnover, identify and respond to changing product demands and determine the timing of markdowns to our merchandise. The buyers also regularly review the age and condition of the merchandise and manage both the reordering and clearance processes. In addition, the merchandising team communicates with regional, district and store managers to ascertain regional and store-level conditions and to better ensure that our product mix meets our consumers' demands in terms of quality, fashion, price and overall value.

We accept payment from our customers for merchandise at time of sale. Payments are made to us by cash, check, Visa, MasterCard or Discover. We do not extend credit terms to our customers; however, we do offer a layaway service.

## **Seasonality**

The nature of our business is seasonal. Historically, sales in the first and fourth quarters have been higher than sales achieved in the second and third quarters of the fiscal year. Expenses and, to a greater extent, operating income, vary by quarter. Results of a period shorter than a full year may not be indicative of results expected for the entire year. Furthermore, the seasonal nature of our business may affect comparisons between periods.

### **Store Operations**

*Store Format.* The average selling space of our existing 511 stores is approximately 10,800 square feet, which allows us the space and flexibility to departmentalize our stores and provide directed traffic patterns. We arrange most of our stores in a racetrack format with ladies sportswear in the center of each store and complementary categories adjacent to those items. Men's and boy's apparel and footwear are displayed on one side of the store, while dresses, ladies footwear and accessories are displayed on the other side. Merchandise for infants, toddlers and girls, as well as home goods, are displayed along the back of the store. Impulse items, such as jewelry and sunglasses, are featured near the checkout area. Products from nationally recognized brands are prominently displayed on four-way racks at the front of each department. The remaining merchandise is displayed on hanging racks and occasionally on table displays. Large hanging signs identify each category location. The unobstructed floor plan allows the customer to see virtually all of the different product areas from the store entrance and provides us the flexibility to easily expand and contract departments in response to customer demand, seasonality and merchandise availability. Virtually all of our inventory is displayed on the selling floor. Prices are clearly marked and often have the comparative retail-selling price noted on the price tag.

Table of Contents

*Store Management.* Store operations are managed by our Senior Vice President of Store Operations, four regional vice presidents and 49 district managers, each of whom manages five to seventeen stores. The typical store is staffed with a store manager, two or three assistant managers and seven to eight part-time sales associates, all of whom rotate work days on a shift basis. Store managers and assistant store managers participate in a bonus program based on achieving predetermined levels of sales and inventory shrinkage. District managers participate in bonus programs based on achieving targeted levels of sales, profits, inventory shrinkage and payroll costs. Regional Vice Presidents participate in a bonus program based partly on a roll-up of the district managers' bonuses and partly on the Company's profit performance in relation to budget. Sales associates are compensated on an hourly basis with incentives. Moreover, we recognize individual performance through internal promotions and provide opportunities for advancement.

We place significant emphasis on loss prevention in order to control inventory shrinkage. Initiatives include electronic tags on many of our products, training and education of store personnel on loss prevention issues, digital video camera systems, alarm systems and motion detectors in the stores. In certain stores, we use an outside service to visually monitor the stores throughout the day using sophisticated camera systems. We also capture extensive point-of-sale data and maintain systems that monitor returns, voids and employee sales, and produce trend and exception reports to assist in identifying shrinkage issues. We have a centralized loss prevention team that focuses exclusively on implementation of these initiatives and specifically on stores that have experienced above average levels of shrinkage. We also maintain an independent, third party administered, toll-free line for reporting shrinkage concerns and any other employee concerns.

*Employee Training.* Our employees are critical to achieving our goals, and we strive to hire employees with high energy levels and motivation. We have well-established store operating policies and procedures and an extensive 90-day in-store training program for new store managers and assistant managers. Sales associates also participate in a 30-day customer service and store procedures training program, which is designed to enable them to assist customers in a friendly, helpful manner.

*Layaway Program.* We offer a layaway program that allows customers to purchase merchandise by initially paying a 20% deposit and a \$2 service charge, although at various times, we have reduced the deposit requirement to 10% and waived the service charge in connection with promotional events. The customer then makes additional payments every two weeks and has 60 days within which to complete the purchase. If the purchase is not completed, the customer receives a merchandise credit for amounts paid less a re-stocking and layaway service fee.

*Site Selection.* Cost-effective store locations are an important part of our store profitability model. Accordingly, we look for second and third use store locations that offer attractive rents, but also meet our demographic and economic criteria. We have a dedicated real estate management team responsible for new store site selection. In selecting a location, we target both urban and rural markets. Demographic criteria used in site selection include concentrations of our core consumers. In addition, we require convenient site accessibility, as well as strong co-tenants, such as food stores, dollar stores and rent-to-own stores.

Shortly after we sign a new store lease and complete the necessary leasehold improvements to the building, we prepare the store over a three to four week period by installing fixtures, signs, dressing rooms, checkout counters and cash register systems and merchandising the initial inventory.

**Advertising and Marketing**

## Edgar Filing: Citi Trends Inc - Form 10-K

Our marketing goals are to build the Citi Trends brand, promote customers association of the Citi Trends brand with value, quality, fashion and everyday low prices, and drive traffic into our stores. We generally focus our advertising efforts during the first quarter (Spring/Easter), back-to-school and Christmas through the use of hip-hop radio stations, both local and syndicated. We also utilize social media as a way to engage our customers. In 2011, we started a Facebook page which has grown to over 410,000 fans. Recently, we began to use Instagram and a relatively small amount of mobile and digital advertising. In 2014, we launched an on-line store with a limited offering in order to test customer interest. To date, sales from the on-line store have been immaterial in relation to our consolidated sales. In addition, we promote new seasons and events in our window signage and through in-store announcements on our Muzak system.

### **Distribution**

All merchandise sold in our stores is shipped directly from our distribution centers in Darlington, South Carolina and Roland, Oklahoma, utilizing various express package distributors. Our stores receive multiple shipments of merchandise from our distribution centers each week. The Darlington distribution center has 550,000 square feet of space, while the Roland distribution center has 460,000 square feet.

### **Information Technology and Systems**

We have information systems in place to support our core business functions, using an IBM iSeries as the computer platform, with enterprise software from Island Pacific, a software provider to the retail industry. This software supports purchase order management,

## Table of Contents

price and markdown management, merchandise allocation, general ledger, accounts payable and sales audit functions. Our distribution centers are supported by software from Manhattan Associates.

Our stores use point-of-sale software from MICROS Systems, Inc. (MICROS), a subsidiary of Oracle Corporation, to run the stores' cash registers. The system uses bar code scanners at checkout to capture item sales and is supplemented by external pin pad devices for the processing of charge card transactions. It also supports end-of-day processing and automatically transmits sales and transaction data to the corporate office soon after the close of business. Additionally, the software supports store time clock functions. To facilitate the marking down and re-ticketing of merchandise, employees in the stores use hand-held scanners that read UPC barcodes and prepare new price tickets for merchandise. The MICROS software also enables us to sort, review and analyze store transaction data to assist with loss prevention activities. Software services from Workday are utilized to process our payroll and to facilitate various human capital management processes.

We believe that our information systems, with upgrades and updates over time, are adequate to support our operations for the foreseeable future.

## **Growth Strategy**

After opening eight new stores in fiscal 2014, we plan to open ten to fifteen in fiscal 2015. We will continue to evaluate our growth strategy as we monitor operating results in fiscal 2015.

## **Competition**

The markets we serve are highly competitive. The principal methods of competition in the retail business are fashion, assortment, pricing and presentation. We believe we have a competitive advantage in our offering of fashionable merchandise at everyday low prices. We compete against a diverse group of retailers, including national off-price retailers, mass merchants, smaller specialty retailers and dollar stores. The off-price retail companies with which we compete include TJX Companies, Inc. (TJX Companies), Ross Stores, Inc. (Ross Stores), The Cato Corporation (Cato), and Burlington Stores, Inc. (Burlington). In particular, Ross Stores' dd's DISCOUNTS stores, and Cato's It's Fashion More stores target lower and moderate income consumers. We believe our strategy of appealing to African-American consumers and offering urban apparel products allows us to compete successfully with these retailers. We also believe we offer a more inviting store format than the traditional off-price retailers, including our use of carpeted floors and more prominently displayed brands. In addition, we compete with a group of smaller specialty retailers that sell only women's products, such as Rainbow, It's Fashion! and Simply Fashions. Our mass merchant competitors include Wal-Mart, Target and Kmart. These chains do not focus on fashion apparel and, within their apparel offering, lack the urban focus that we believe differentiates our offering and appeals to our core customers. Similarly, while some of the dollar store chains offer apparel, they typically offer a more limited selection focused on basic apparel needs. As a result, we believe there is significant demand for a value retailer that addresses the market of low and moderate income consumers generally and, particularly, African-American and other consumers who seek value-priced, urban fashion apparel and accessories. See Item 1A. Risk Factors in this Report for additional information.

## **Intellectual Property**

## Edgar Filing: Citi Trends Inc - Form 10-K

We regard our trademarks and service marks as having significant value and as being important to our marketing efforts. We have registered Citi Trends as a trademark with the U.S. Patent and Trademark Office on the Principal Register for retail department store services. We have also registered the following trademarks with the U.S. Patent and Trademark Office on the Principal Register for various apparel: Citi Steps, Citi Trends Fashion for Less, Lil Ms Hollywood, Red Ape, and Vintage Harlem. Our policy is to pursue registration of our marks and to oppose vigorously infringement of our marks.

### **Employees**

As of January 31, 2015, we had approximately 2,400 full-time and approximately 2,800 part-time employees. Of these employees, approximately 4,500 are employed in our stores and the remainder are employed in our distribution centers and corporate office. We are not a party to any collective bargaining agreements, and none of our employees are represented by a labor union.

Table of Contents

**ITEM 1A. RISK FACTORS**

*You should carefully consider the following risk factors, together with the other information contained or incorporated by reference into this Report. The risks and uncertainties described below are not the only ones we face. Additional risks and uncertainties not presently known to us or that we deem to be currently immaterial also may impair our business operations. The occurrence of any of the following risks could have a material adverse effect on our business, financial condition and results of operations.*

**Our success depends on our ability to anticipate, identify and respond rapidly to changes in consumers' fashion tastes, and our failure to adequately evaluate fashion trends could have an adverse effect on our business, financial condition and results of operations.**

The apparel industry in general and our core customer market in particular are subject to rapidly evolving fashion trends and shifting consumer demands. Accordingly, our success is heavily dependent on our ability to anticipate, identify and capitalize on emerging fashion trends, including products, styles and materials that will appeal to our target consumers. A failure on our part to anticipate, identify or react appropriately and timely to changes in styles, trends, brand preferences or desired image preferences is likely to lead to lower demand for our merchandise, which could cause, among other things, sales declines, excess inventories and higher markdowns.

**If we are unsuccessful in competing with our retail apparel competitors, our market share could decline or our growth could be impaired and, as a result, our financial results could suffer.**

The retail apparel market is highly competitive with few barriers to entry. We compete against a diverse group of retailers, including national off-price apparel chains such as TJX Companies, Ross Stores, Cato, and Burlington; mass merchants such as Wal-Mart, Target and Kmart; smaller discount retail chains that sell only women's products, such as Rainbow, It's Fashion!, and Simply Fashions; and general merchandise discount stores and dollar stores, which offer a variety of products, including apparel, for the value-conscious consumer. We also compete against local off-price and specialty retail stores, regional retail chains, traditional department stores, web-based retail stores and other direct retailers.

The level of competition we face from these retailers varies depending on the product segment, as many of our competitors do not offer apparel for the entire family. Our greatest competition is generally in women's apparel. Many of our competitors are larger than we are and have substantially greater resources than we do and, as a result, may be able to adapt better to changing market conditions, exploit new opportunities and exert greater pricing pressures on suppliers than we can. Many of these retailers have better name recognition among consumers than we do and purchase significantly more merchandise from vendors. These retailers may be able to purchase merchandise with better pricing concessions than we can. Our local and regional competitors have extensive knowledge of the consumer base and may be able to garner more loyalty from customers than we can. If the consumer base we serve is satisfied with the selection, quality and price of our competitors' products, consumers may decide not to shop in our stores. Additionally, if our existing competitors or other retailers decide to focus more on our core customers, particularly African-American consumers, we may have greater difficulty in competing effectively, our business and results of operations could be adversely affected, and the market price of our common stock could suffer.

**Our ability to attract consumers to our stores depends on the success of the strip shopping centers where our stores are located.**

We locate our stores primarily in strip shopping centers where we believe our consumers and potential consumers shop. The success of an individual store can depend on favorable placement within a given strip shopping center. We cannot control the development of alternative shopping destinations near our existing stores or the availability or cost of real estate within existing or new shopping destinations. If our store locations fail to attract sufficient consumer traffic or we are unable to locate replacement locations on terms acceptable to us, our business could suffer. If one or more of the anchor tenants located in the strip shopping centers where our stores are located close or leave, or if there is significant deterioration of the surrounding areas in which our stores are located, our business may be adversely affected.

**We could experience a reduction in sales if we are unable to fulfill our current and future merchandising needs.**

We depend on our suppliers for the continued availability and satisfactory quality of our merchandise. Most of our suppliers could discontinue selling to us at any time. Additionally, if the manufacturers or other owners of brands or trademarks terminate the license agreements under which some of our suppliers sell our products, we may be unable to obtain replacement merchandise of comparable fashion appeal or quality, in the same quantities or at the same prices. In addition, a number of our suppliers are smaller, less capitalized companies and are more likely to be impacted by unfavorable general economic and market conditions than larger and better capitalized companies. These smaller suppliers may not have sufficient liquidity during economic downturns to properly fund their businesses, and their ability to supply their products to us could be negatively impacted. If we lose the services of one or more of

Table of Contents

our significant suppliers or one or more of them fail to meet our merchandising needs, we may be unable to obtain replacement merchandise in a timely manner, which could negatively impact our sales and results of operations.

**Our sales could decline as a result of general economic and other factors outside of our control, such as changes in consumer spending patterns and declines in employment levels.**

Downturns, or the expectation of a downturn, in general economic conditions, including the effects of unemployment levels, interest rates, levels of consumer debt, inflation in food and energy prices, taxation, government stimulus, consumer confidence, and other macroeconomic factors, could adversely affect consumer spending patterns, our sales and our results of operations. Consumer confidence may also be affected by domestic and international political unrest, acts of war or terrorism, natural disasters or other significant events outside of our control, any of which could lead to a decrease in spending by consumers. Because apparel generally is a discretionary purchase, declines in consumer spending patterns may have a more negative effect on apparel retailers than some other retailers. In addition, since many of our stores are located in the southeastern United States, our operations are more susceptible to regional factors than the operations of our more geographically diversified competitors. Therefore, any adverse economic conditions that have a disproportionate effect on the southeastern United States could have a greater negative effect on our sales and results of operations than on retailers with a more geographically diversified store base.

**Adverse trade restrictions may disrupt our supply of merchandise. We also face various risks because much of our merchandise is imported from abroad.**

We purchase the products we sell directly from approximately 1,600 vendors, and a substantial portion of this merchandise is manufactured outside of the United States and imported by our vendors from countries such as China and other areas of the Far East. The countries in which our merchandise currently is manufactured or may be manufactured in the future could become subject to new trade restrictions imposed by the United States or other foreign governments. Trade restrictions, including increased customs restrictions and tariffs or quotas against apparel items, as well as United States or foreign labor strikes, work stoppages or boycotts, could increase the cost or reduce the supply or impede the timely delivery of apparel available to us and have an adverse effect on our business. In addition, our merchandise supply could be impacted if our vendors' imports become subject to existing or future duties and quotas, or if our vendors face increased competition from other companies for production facilities, import quota capacity and shipping capacity.

We also face a variety of other risks generally associated with relying on vendors that do business in foreign markets and import merchandise from abroad, such as:

- political instability, natural disasters, or the threat of terrorism, in particular in countries where our vendors source merchandise;
- increases in merchandise costs due to raw material price inflation or changes in purchasing power caused by fluctuations in currency exchange rates;

## Edgar Filing: Citi Trends Inc - Form 10-K

- enhanced security measures at United States and foreign ports, which could delay delivery of imports;
- imposition of new or supplemental duties, taxes, and other charges on imports;
- delayed receipt or non-delivery of goods due to the failure of foreign-source suppliers to comply with import regulations, organized labor strikes or congestion at United States ports; and
- local business practice and political issues, including issues relating to compliance with domestic or international labor standards.

**As an apparel retailer, we rely on numerous third parties in the supply chain to produce and deliver the products that we sell, and our business may be negatively impacted by their failure to comply with applicable law.**

We rely on numerous third parties to supply the products that we sell. Violations of law by our importers, manufacturers or distributors could result in delays in shipments and receipt of goods or damage our reputation, thus causing our sales to decline. In addition, merchandise we sell in our stores is subject to regulatory standards set by various governmental authorities with respect to quality and safety. Regulations in this area may change from time to time. Issues with the quality and safety of merchandise we sell in our stores, regardless of our fault, or customer concerns about such issues, could result in damage to our reputation, lost sales, uninsured product liability claims or losses, merchandise recalls and increased costs. Further, we are susceptible to the receipt of counterfeit brands or unlicensed goods. We could incur liability with manufacturers or other owners of the brands or trademarked products if we inadvertently receive and sell counterfeit brands or unlicensed goods and, therefore, it is important that we establish relationships with reputable vendors to prevent the possibility that we inadvertently receive counterfeit brands or unlicensed goods.

Table of Contents

Although we have a quality assurance team to check merchandise in an effort to assure that we purchase only authentic brands and licensed goods and are careful in selecting our vendors, we may receive products that we are prohibited from selling or incur liability for selling counterfeit brands or unlicensed goods, which could adversely impact our results of operations.

**A significant disruption to our distribution process or southeastern retail locations could have an adverse effect on our business, financial condition and results of operations.**

Our ability to distribute our merchandise to our store locations in a timely manner is essential to the efficient and profitable operation of our business. We have distribution centers located in Darlington, South Carolina and Roland, Oklahoma. Any natural disaster or other disruption to the operation of either of these facilities due to fire, accidents, weather conditions or any other cause could damage a significant portion of our inventory and impair our ability to stock our stores adequately.

In addition, the southeastern United States, where the Darlington distribution center and many of our stores are located, is vulnerable to significant damage or destruction from hurricanes and tropical storms. Although we maintain insurance on our stores and other facilities, the economic effects of a natural disaster that affects our distribution centers and/or a significant number of our stores could increase our operating expenses, impair our cash flows and reduce our sales.

**If we fail to protect our trademarks, there could be a negative effect on our brand image and limitations on our ability to penetrate new markets.**
