**Summary of Significant Accounting Policies**

**a. Security Valuation:**

The Fund values its securities at current market value or fair value, consistent with regulatory requirements. Fair value is defined in the Fund's valuation and liquidity procedures as the price that could be received to sell an asset or paid to transfer a liability in an orderly transaction between willing market participants without a compulsion to contract at the measurement date.

Equity securities that are traded on an exchange are valued at the last quoted sale price on the principal exchange on which the security is traded at the Valuation Time subject to application, when appropriate, of the valuation factors described in the paragraph below. The Valuation Time is as of the close of regular trading on the New York Stock Exchange (usually 4:00 p.m. Eastern Time). In the absence of a sale price, the security is valued at the mean of the bid/ask price quoted at the close on the principal exchange on which the security is traded. Securities traded on NASDAQ are valued at the NASDAQ official closing price. Closed-end funds and exchange-traded funds ( ETFs ) are valued at the market price of the security at the Valuation Time. A security using any of these pricing methodologies is determined to be a Level 1 investment.

Foreign equity securities that are traded on foreign exchanges that close prior to the Valuation Time are valued by applying valuation factors to the last sale price or the mean price as noted above. Valuation factors are provided by an independent pricing service provider. These valuation factors are used when pricing the Fund's portfolio holdings to estimate market movements between the time foreign markets close and the time the Fund values such foreign securities. These valuation factors are based on inputs such as depositary receipts, indices, futures, sector indices/ETFs, exchange rates, and local exchange opening and closing prices of each security. When prices with the application of valuation factors are utilized, the value assigned to the foreign securities may not be the same as quoted or published prices of the securities on their primary markets. A security that applies a valuation factor is determined to be a Level 2 investment because the exchange-traded price has been adjusted. Valuation factors are not utilized if the independent pricing service provider is unable to provide a valuation factor or if the valuation factor falls below a predetermined threshold; in such case, the security is determined to be a Level 1 investment.

In the event that a security's market quotations are not readily available or are deemed unreliable (for reasons other than because the foreign exchange on which it trades closes before the Valuation Time), the security is valued at fair value as determined by the Fund's Pricing Committee, taking into account the relevant factors and surrounding circumstances using valuation policies and procedures approved and established by the Board of Directors of the Fund (the Board ). A security that has been fair valued by the Pricing Committee may be classified as Level 2 or 3 depending on the nature of the inputs.

The Fund also invests in private equity private placement securities, which represented 1.8% of the net assets of the Fund as of July 31, 2015. The private equity private placement securities are deemed to be restricted securities. In the absence of readily ascertainable market values, these securities are valued at fair value as determined in good faith by, or under the direction of the Board, pursuant to valuation policies and procedures established by the Board. The Fund's estimate of fair value assumes a willing buyer and a willing seller neither of whom are acting under the compulsion to buy or sell. Although these securities may be resold in privately negotiated transactions, the prices realized on such sales could differ from the prices originally paid by the Fund or the current carrying values, and the difference could be material. These securities are categorized as Level 3 investments. Level 3 investments have significant unobservable inputs, as they trade infrequently. In determining the fair value of these investments, management uses the market approach which includes as the primary input the capital balance reported; however, adjustments to the reported capital balance may be made based on various factors, including, but not limited to, the attributes of the interest held, including the rights and obligations, and any restrictions or illiquidity of such interests, and the fair value of these private equity investments.

In accordance with the authoritative guidance on fair value measurements and disclosures under accounting principles generally accepted in the United States of America ( GAAP ), the Fund discloses the fair value of its investments using a three-level hierarchy that classifies the inputs to valuation techniques used to measure the fair value. The hierarchy assigns Level 1 measurements to valuations based upon unadjusted quoted prices in active markets for identical assets, Level 2 measurements to valuations based upon other significant observable inputs, including adjusted quoted prices in active markets for identical assets, and Level 3 measurements to valuations based upon unobservable inputs that are

July 31, 2015

significant to the valuation. Observable inputs are inputs that reflect the assumptions market participants would use in pricing the asset or liability, which are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. A financial instrument's level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. The three-level hierarchy of inputs is summarized below:

Level 1 quoted prices in active markets for identical investments;

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, and credit risk); or

Level 3 significant unobservable inputs (including the Fund's own assumptions in determining the fair value of investments).

The following is a summary of the inputs used as of July 31, 2015 in valuing the Fund's investments at fair value. The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Please refer to the Portfolio of Investments for a detailed breakout of the security types:

For movements between the Levels within the fair value hierarchy, the Fund has adopted a policy of recognizing transfers at the end of each period. The utilization of valuation factors may result in transfers between Level 1 and Level 2. For the period ended July 31, 2015, the securities issued by Aeon Co. (M) Bhd, Clicks Group Ltd., Godrej Consumer Products Ltd. and Ramco Cements Ltd. in the amounts of \$2,726,903, \$3,058,631, \$4,375,632 and \$2,447,417, respectively, transferred from Level 1 to Level 2 because there was a valuation factor applied at July 31, 2015. The securities issued by Cafe de Coral Holdings Ltd., Cimsa Cimento Sanayi VE Ticaret A.S., Container Corp. of India, Giordano International Ltd., Guinness Nigeria PLC, MphasiS Ltd., O Key Group SA, GDR, Texwinca Holdings Ltd. and United Plantations Bhd in the amounts of \$1,543,800, \$2,860,558, \$2,796,476, \$1,375,721, \$1,334,525, \$1,728,575, \$903,588, \$1,318,860 and \$1,725,716, respectively, transferred from Level 2 to Level 1 because there was not a valuation factor applied at July 31, 2015.

The significant unobservable inputs used in the fair value measurement of the Fund's private equity holdings are audited financial statements, interim financial statements, capital calls, distributions, and discussions with investment companies. These unobservable inputs are used by taking the most recent quarterly valuation statements and adjusting the value

**b. Repurchase Agreements:**

The Fund may enter into repurchase agreements under the terms of a Master Repurchase Agreement. It is the Fund's policy that its custodian/counterparty segregate the underlying collateral securities, the value of which exceeds the principal amount of the repurchase transaction, including accrued interest. The repurchase price generally equals the price paid by the Fund plus interest negotiated on the basis of current short-term rates. To the extent that any repurchase transaction exceeds one business day, the collateral is valued on a daily basis to determine its adequacy. Under the Master Repurchase Agreement, if the counterparty defaults and the value of the collateral declines, or if bankruptcy proceedings are commenced with respect to the counterparty of the security, realization of the collateral by the Fund may be delayed or limited. Repurchase agreements are subject to contractual netting arrangements with the counterparty, Fixed Income Clearing Corp. For additional information on individual repurchase agreements, see the Portfolio of Investments. The Fund held a repurchase agreement of \$3,619,000 as of July 31, 2015. The value of the related collateral exceeded the value of the repurchase agreement at July 31, 2015.

**c. Restricted Securities:**

Certain of the Fund's investments, listed in the chart below, are restricted as to resale and are valued at fair value as determined in good faith by, or under the direction of, the Board under procedures established by the Board in the absence of readily ascertainable market values.

Notes to Portfolio of Investments (unaudited) (concluded)

July 31, 2015

---

Amounts listed as are \$0 or round to \$0.

(1) Neurone Ventures II, L.P., Telesoft Partners II QP, L.P. and Vidyo, Inc. Trust are still considered active investments by the Fund's Adviser. BPA Israel Ventures, LLC, Concord Fund I Liquidating Main Trust, Giza GE Venture Fund III, L.P., Emerging Markets Ventures I, L.P. and Technology Crossover Ventures IV, L.P. are in liquidation.

(2) Vidyo, Inc. Trust was a spinoff from SVE Star Ventures IX. SVE Star Ventures IX reached the end of its term in 2012 and, accordingly, its entire portfolio was sold in a secondary transaction which closed on December 24, 2012. During the secondary transaction, the Fund's pro rata holdings in Vidyo (and its affiliate Delta Vidyo) were excluded from the transaction, placed in trust and considered as a distribution-in-kind.

(3) The open commitments are unlikely to be called.

**d. Rights Issues and Warrants:**

Rights issues give existing shareholders the right to buy a proportional number of additional securities at a given price (generally at a discount) within a fixed period (generally on a short term period) and are offered at the company's discretion. Warrants are securities that give the holder the right to buy common stock at a specified price for a specified period of time. Warrants are speculative and have no value if they are not exercised before the expiration date. Rights issues and warrants are valued at the last sale price on the exchange on which they are traded.

**e. Federal Income Taxes:**

The U.S. federal income tax basis of the Fund's investments and the net unrealized depreciation as of July 31, 2015 were as follows:

Cost	Appreciation	Depreciation	Net Unrealized Depreciation
\$ 167,435,510	\$ 20,031,107	\$ (48,374,247)	\$ (28,343,140)

**f. Ticker Change:**

The Fund's ticker symbol changed from ETF to ABE effective at the close of trading on July 31, 2015.
