MERIDIAN HOLDINGS FILES THIRD QUARTER 10-Q

LEARN MORE ABOUT THE INTERCARE CLINICAL EXPLORER SOFTWARE SOLUTION FOR
HEALTHCARE ENTERPRISE MANAGEMENT AT WWW.INTERCARE.COM.

LOS ANGELES, CALIF.-Anthony C. Dike, Chairman and CEO of Meridian Holdings, Inc. (OTC Bulletin Board: MEHO), announced today the timely filing of the company's quarterly report to the Securities and Exchange Commission for the period ended September 30, 2002, on Form 10-QSB. Full text of the report may be viewed on the SEC's EDGAR database at www.sec.gov.

The company reported net income of \$34,156 on revenue from operations of \$765,776 during three-month period ended September 30, 2002 and net income of \$48,254 on revenue from operations of \$1.9 million for the first nine months of the year. Adjusted for extraordinary items, net income for the most recent three-month period was \$26,156.

Medical services (capitation) revenue increased by 51.5% from \$324,485 for the three months ended September 30, 2001 to \$492,033 for the three months ended September 30, 2002; and by 32.5% from \$999,129 for the nine months ended September 30, 2001 to \$1,323,347 for the nine months ended September 30, 2002. The increase in revenue is attributable to increased membership enrollment in the Capnet IPA physician network. No revenue was generated from software sales during the most recent nine-month periods compared to revenue of \$149,600 for the comparable period of last year.

During the nine months ended September 30, 2002, the Company recorded non-cash fixed assets of \$350,000, representing the purchase price of ICE (InterCare Clinical Explorer) software source-code from InterCare.com-Dx, Inc., an affiliated company. The source-code as well as the prototype application having

Edgar Filing: MERIDIAN HOLDINGS INC - Form 8-K

been developed serves as the basis for further development of a technological solution intended to replace the now abandoned Medmaster software.

"While the issues forcing the company's abandonment of the Medmaster software were a significant near-term setback, the Company's ICE technology is proving far superior in terms of scalability, flexibility and adaptability to a variety of medical environments," said Anthony C. Dike, Chairman and CEO of Meridian Holdings. "We are very enthusiastic about its many practical applications and its long-term revenue-generating potential," he said.

ICE is a scalable healthcare software solution integrating every aspect of the healthcare enterprise. Through documentation, information tracking, error reduction, it is designed to support patient safety and greater efficiency among healthcare providers. The program features intuitive order entry, "tapering" orders, a clinical knowledge base, digital video enhanced patient education module, real-time electro-physiological data capture and display, voice command, voice recognition, digital dictation module and numerous other capabilities, including unlimited free-text notes, to complement and document the diagnostic and treatment processes.

ABOUT MERIDIAN HOLDINGS AND INTERCARE.COM-DX

Meridian Holdings, Inc. is an acquisition-oriented business enterprise focused on building, operating and managing a portfolio of business-to-business companies. Meridian seeks to acquire majority or controlling interests in companies engaged in e-commerce, e-communication, and e-business services, which will allow the holding company to actively participate in management, operations and finances. Meridian's network of affiliated companies is designed to

3

encourage maximum leverage of information technology, operational excellence, industry expertise and synergistic business opportunity. Meridian is committed to building shareholder value by positioning affiliated companies as independent business entities in which Meridian shareholders enjoy equity participation. The company's InterCare.com-Dx subsidiary is a U.S. FDA-registered, biomedical software development and publishing company. For additional information, visit Meridian's web site at www.meho.com, and InterCare's web site at

www.intercare.com, where the ICE software is described in greater detail
