NOTES TO CONDENSED CONSOLIDATED FINANCIAL  
 STATEMENTS (UNAUDITED) (Amounts in thousands,  
 except per share data)

## Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-Q

### 1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three months and six months period ended June 30, 2001, are not necessarily indicative of the results that may be expected for the year ending December 31, 2001.

The balance sheet at December 31, 2000 has been derived from the audited financial statements at that date but does not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company's annual report on Form 10-K for the year ended December 31, 2000.

### 2. ACQUISITION AND DISPOSITION OF ASSETS

On April 30, 2001, the Company's wholly-owned subsidiary, Billion Luck, through its nominees, acquired a 39% equity interest in its 61%-owned subsidiary, HARC, from the Farming Bureau, for a total consideration of RMB129,405 (US\$15,629) (the "Purchase Consideration"). Following the acquisition, HARC has become an indirect wholly-owned subsidiary of the Company. Concurrent with the acquisition, HARC entered into several agreements with the Farming Bureau to dispose of certain assets, including 24,877,008 shares of Hainan Sundiro Motorcycle Co. Ltd., a 13% equity interest in Xilian Timber Mill and a 58% equity interest in Hainan Weilin Timber Limited Liability Company ("Hainan Weilin"), valued in the aggregate at RMB78,800 (US\$9,517). The Company has ceased the timber processing operations following the disposition of its 58% interest in Hainan Weilin.

Net sales of the timber processing operations included in discontinued operations totaled RMB1,282 (US\$155) and nil for the six months ended June 30, 2000 and 2001, respectively. Loss from discontinued operations of timber processing operations of RMB695 (US\$84) and RMB41 (US\$5) for the six months ended June 30, 2000 and 2001, respectively, is reported without set-off of any income tax expenses.

The natural rubber segment's assets decreased by more than RMB55 million at June 30, 2001 as compared to the amount at December 31, 2000 because the natural rubber segment exchanged certain of its assets as part of the consideration for the additional 39% interest in HARC in the second quarter of 2001 (see Note 2).

The processed timber segment which was reported in the Company's annual report on Form 10-K for the year ended December 31, 2000 was discontinued in the second quarter of 2001, as a result of the disposal of Hainan Weilin as detailed in Note 2.

8. IMPACT OF RECENTLY ISSUED ACCOUNTING STANDARDS

In June 2001, the Financial Accounting Standards Board issued Statements of Financial Accounting Standards No. 141, Business Combinations, and No. 142, Goodwill and Other Intangible Assets, effective for fiscal years beginning after December 15, 2001. Under the new rules, goodwill and intangible assets deemed to have indefinite lives will no longer be amortized but will be subject to annual impairment tests in accordance with the Statements. Other intangible assets will continue to be amortized over their useful lives.

The Company will apply the new rules on accounting for goodwill and other intangible assets beginning in the first quarter of 2002. Application of the nonamortization provisions of the Statement is expected to result in an increase in net income of RMB3.4 million (RMB4.10 per share) per year. During 2002, the Company will perform the first of the required impairment tests of goodwill and indefinite lived intangible assets as of January 1, 2002 and has not yet determined what the effect of these tests will have on the earnings and financial position of the Company.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITIONS AND RESULTS OF OPERATIONS

RESULTS OF OPERATIONS

The following table shows the selected unaudited condensed consolidated income statement data of the Company and its subsidiaries for the three months and six months ended June 30, 2001 and 2000. The data should be read in conjunction with the unaudited Condensed Consolidated Financial Statements of the Company and related notes thereto.

The discussions below are presented in the Company's primary operating currency, which is the Renminbi Yuan ("RMB"). For information purposes only, the amounts may be translated into U.S. dollars at an exchange rate of \$1.00 = RMB8.28, which represents the approximate single rate of exchange as quoted by the People's Bank of China on June 30, 2001. No representation is made that RMB amounts could have been, or could be, converted into U.S. dollars at that rate or any other rate.

### NET SALES AND GROSS PROFIT

Supermarket operations were established by the Company in the fourth quarter of 1999. Net sales from supermarket operations increased by 16.9% from RMB2.4 million (US\$294,000) for the first half of 2000 to RMB2.8 million (US\$343,000) for the first half of 2001. For the first half of 2001, supermarket operations had gross profit and gross profit margin of RMB675,000 (US\$82,000) and 23.8%, respectively. For the first half of 2000, supermarket operations had gross profit and gross profit margin of RMB420,000 (US\$51,000) and 17.3%, respectively.

Net sales from supermarket operations increased by 17.1% from RMB1.3 million (US\$155,000) for the second quarter of 2000 to RMB1.5 million (US\$181,000) for the second quarter of 2001. For the second quarter of 2001, supermarket operations had gross profit and gross profit margin of RMB350,000 (US\$42,000) and 23.4%, respectively. For the second quarter of 2000, supermarket operations had gross profit and gross profit margin of RMB224,000 (US\$27,000) and 17.5%, respectively. The increase in net sales and gross profit margin were due to increased sales volume resulting from the successful marketing efforts of the Company and its ability to source less expensive and better quality products from suppliers.

12

Notwithstanding the cessation of natural rubber operations in early 2000, the Company engages in trading of natural rubber occasionally when a profit is anticipated. During the first quarter of 2001, the Company had sales of RMB3.2 million (US\$385,000), gross profit of RMB4,000 (US\$483) and gross profit margin of 0.1%. The natural rubber market remained relatively stable in 2000 and 2001 and management anticipates that natural rubber prices will continue to remain stable for the foreseeable future. Therefore, the Company has decided to trade natural rubber again in the first quarter of 2001.

### SELLING, GENERAL AND ADMINISTRATIVE EXPENSES

The selling, general and administrative expenses for the first half of 2001 is comparable to that for the first half of 2000. The increase in legal and professional fees and traveling expenses in relation to the exploring of investment opportunities for the first half of 2001 was offset by a bad debt recovery of RMB297,000 (US\$36,000) in the first half of 2001 and the decrease in professional and registration expenses for establishing new subsidiaries for its supermarket and timber operations in the first quarter of 2000.

Selling, general and administrative expenses for the second quarter of 2001 increased by 12.4% to RMB4.2 million (US\$504,000) from RMB3.7 million (US\$448,000) for the first half of 2000. The increase was mainly due to the increase in legal and professional fees and traveling expenses in relation to the exploring of investment opportunities, net of bad debt recovery of RMB297,000 (US\$36,000).

### AMORTIZATION

Expenses for the first half of 2001 represented amortization of acquired website technology on June 30, 2000 on the straight-line basis over two years and amortization of goodwill arising from the acquisition of the 39%

## Edgar Filing: CHINA RESOURCES DEVELOPMENT INC - Form 10-Q

equity interest in HARC from the Farming Bureau on April 30, 2001 on the straight-line basis over five years.

### FINANCIAL INCOME, NET

Net financial income for the first half of 2000 was RMB3.7 million (US\$448,000), which was comprised of interest income of RMB4.6 million (US\$556,000) and exchange loss of RMB866,000 (US\$105,000). Net financial income for the first half of 2001 was RMB548,000 (US\$66,000), which was comprised of interest income of RMB777,000 (US\$94,000) and interest expenses of RMB229,000 (US\$28,000). The decrease in financial income was mainly attributable to the interest received in the second quarter of 2000 on a RMB45.0 million (US\$5.4 million) short-term loan to an unaffiliated third party, which amounted to RMB4.2 million (US\$507,000). The exchange loss incurred in the first half of 2000 arose from the conversion of RMB to Hong Kong dollars. The financial expenses incurred in the first half of 2001 arose from a margin loan which was repaid in the first quarter of 2001.

Net financial income for the second quarter of 2000 was RMB3.7 million (US\$447,000), which was comprised of financial income of RMB4.5 million (US\$543,000) and exchange loss of RMB866,000 (US\$105,000). Financial income for the second quarter of 2001 was RMB618,000 (US\$75,000). The decrease in financial income was mainly attributable to the interest received in the second quarter of 2000 on a RMB45 million (US\$5.4 million) short-term loan to an unaffiliated third party, which amounted to RMB4.2 million (US\$507,000).

### OTHER INCOME/(EXPENSES), NET

Other income for the first half of 2000 represented a net gain on trading of marketable securities. Other income for the first half of 2001 represented a net gain on trading of marketable securities of RMB7.3 million (US\$882,000) and a premium earned on written call options of RMB3.2 million (US\$386,000)

Other expenses for the second quarter of 2000 represented a net loss on trading of marketable securities. Other income for the second quarter of 2001 represented a net gain on trading of marketable securities of RMB90,000 (US\$11,000).

### INCOME TAXES

It is management's intention to reinvest all the income attributable to the Company earned by its operations outside the US. Accordingly, no US federal and state income taxes have been provided in these consolidated financial statements.

Income taxes consist of PRC federal income tax computed at 15% on assessable income for foreign investment enterprises operating in Hainan.

### DISCONTINUED OPERATIONS

Discontinued operations represent the operating loss from the operations of the discontinued processed timber business resulting from the exchange of the Company's 58% interest in Hainan Weilin Timber Limited Liability Company as partial consideration for the minority interest of HARC.

### LIQUIDITY AND CAPITAL RESOURCES

The Company's primary liquidity needs are to fund inventories, trade

receivables and operating expenses, and to expand business operations. The Company has financed its working capital requirements primarily through internally generated cash.

The Company had a working capital surplus of approximately RMB29.7 million (US\$3.6 million) as of June 30, 2001, compared to that of approximately RMB79.6 million (US\$9.6 million) as of December 31, 2000. The decrease was mainly attributable to the Company paying approximately RMB36 million cash and foregoing approximately RMB14 million amount due from the Farming Bureau as partial consideration for the minority interest of HARC. Net cash used by operating activities for the six months ended June 30, 2001 was approximately RMB27.6 million (US\$3.3 million), as compared to net cash provided by operating activities of RMB71.5 million (US\$8.6 million) for the corresponding period in 2000. Net cash inflows/outflows from the Company's operating activities are attributable to the Company's net loss and changes in operating assets and liabilities. Net cash provided by investing activities for the six months ended June 30, 2001 was mainly attributable to the cash proceeds from the disposal of marketable securities, net of the cash consideration paid for the minority interest of HARC as stated above.

Except as disclosed above, there has been no other significant change in financial condition and liquidity since the fiscal year ended December 31, 2000. The Company believes that internally generated funds will be sufficient to satisfy its anticipated working capital needs for at least the next twelve months.

### MARKET RISK AND RISK MANAGEMENT POLICIES

All of the Company's sales and purchases are made domestically and are denominated in RMB. Accordingly, the Company and its subsidiaries do not have material market risk with respect to currency fluctuation. As the reporting currency of the Company's consolidated financial statements is also RMB, there is no significant translation difference arising on consolidation. However, the Company may suffer exchange loss when it converts RMB to other currencies, such as Hong Kong Dollar or United States Dollar.

The Company's interest income is most sensitive to changes in the general level of RMB interest rates. In this regard, changes in RMB interest rates affect the interest earned on the Company's cash equivalents. As at June 30, 2001, the Company's cash equivalents are mainly RMB, Hong Kong Dollar and United States Dollar deposits with financial institutions, bearing market interest rates without fixed term.

As at June 30, 2001, the Company had short-term investments in marketable securities in the Hong Kong stock market with a total market value of RMB959,000 (US\$116,000). These investments expose the Company to market risks that may cause the future value of these investments to be lower than the original cost of such investments.
