Petrobras issue US\$ 750 million 8.375% Global Notes

(Rio de Janeiro, December 10, 2003). PETRÓLEO BRASILEIRO S/A - PETROBRAS, [Bovespa: PETR3/PETR4, NYSE: PBR/PBRA, Latibex: XPBR/XPBRA], a Brazilian international energy company, announces that, its subsidiary Petrobras International Finance Company ("PIFCo") issued on Wednesday, December 3, 2003, US\$750 million 8.375% global notes due 2018 in the international capital markets. The Company intends to use the proceeds of the offering for general corporate purposes. This milestone transaction in US dollars was successful in achieving several strategic goals set out by PETROBRAS.

- Reduction of costs This transaction carries the lowest coupon of any currently outstanding PIFCo or unsecured Petrobras bond;
- Lengthening of maturity The 15 year maturity makes this the longest outstanding unsecured non-sovereign issue out of Brazil, extends the Company's debt profile and lengthens its liability curve.

The global participation across high grade, high yield and traditional emerging markets investors spread over three continents reflects the broad recognition of the strength of the PETROBRAS credit in the international capital markets, and the success of the investor relations program that PETROBRAS has undertaken.

Credit Suisse First Boston and Lehman Brothers served as joint bookrunners on this offering.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
