PART I

ITEM 1. DESCRIPTION OF BUSINESS

Gulf Onshore, Inc. ("We" or "the Company"), was incorporated under the laws of the State of Colorado, on February 29, 1996, as Patriot Holdings, Inc. On August 26, 1999, the Company changed its name to National Healthcare Technology, Inc., and commenced a business plan to develop Magkelate, a patented intravenous drug developed to re-establish normal electrolyte balance in ischemic tissue and certain other patents for medical instruments and medical instrument technology. On January 14, 2000, the Company filed its Form 10SB12G. In 2002, the Company ceased its medical technology business following the death of Magkelate's inventor. The Company conducted no substantial business until 2005.

In July 2005, the Company acquired Es3, Inc., a Nevada Corporation ("Es3"), pursuant to the terms of an Exchange Agreement (the "Exchange Agreement") by and among the Company, Crown Partners, Inc., a Nevada corporation ("Crown Partners"), Es3, and certain stockholders of Es3 (the "Es3 Stockholders"). Under the terms of the Exchange Agreement, the Company acquired all of the outstanding capital stock of Es3 in exchange for the issuance of 191,828 shares of the Company's common stock (adjusted for splits) to the Es3 Stockholders, Crown Partners and certain consultants. The transactions effected by the Exchange Agreement were accounted for as a reverse merger, and recapitalization. In addition, the Company changed its accounting year-end from September 30 to December 31, which was Es3's accounting year-end. The Company then commenced business manufacturing and marketing products under the name Special Stone Surfaces. The Company sold its shares in Es3 in October 2005, and thereafter conducted no substantial business until 2006.

In April 2006, the Company acquired oil and gas leases in Oklahoma from Summit Oil & Gas, Inc. in exchange for issuance of common stock, and commenced the business of oil and gas exploration and production, mineral lease purchasing and all activities associated with acquiring, operating and maintaining the assets of such operations. In June 2007, the Company changed its name to Brighton Oil & Gas, Inc., and converted to a Nevada corporation. In October 2007, the Company acquired oil and gas leases in Texas from K & D Equity Investments, Inc. ("K & D"), a Texas corporation, in a transaction that resulted in K & D acquiring a majority stake in the Company. The Company also entered into a Line of Credit Agreement with South Beach Live, Inc., a Florida corporation, to provide it with working capital of up to \$100,000 on a revolving credit line. The Agreement permitted South Beach the right to repayment on demand, or to convert amounts owed for shares.

On March 25, 2008 the Company changed its name to Gulf Onshore, Inc. On June 6, 2008, the Company entered into an Asset Acquisition Agreement with K & D to acquire additional oil and gas leases and a Stock Purchase Agreement ("SPA") with South Beach Live, Inc., a Florida corporation, to purchase 100% of the common shares of Curado Energy Resources, Inc., a Texas corporation ("Curado"). Curado is registered with the Texas Railroad Commission as an oil and gas well operator, and is the operator for the Leases. The Company acquired the Leases into Curado, in exchange for 10,000,000 shares issued to K & D and a promissory note for \$250,000, payable in one year at 10% interest payable to South Beach. The Company consolidated the operations of Curado Energy Resources, Inc.

Throughout 3Q and into the beginning of 4Q 2008, declining oil prices and increased operating costs made continued oil and gas operations unprofitable, and the Company was continually drawing down on its Line of Credit Agreement with South Beach. In exchange for concessions from South Beach regarding further cash advances and future stock conversions, in August 2008, the Company agreed to grant South Beach a security interest in its Curado shares.

On October 6, 2008, in the face of further oil price declines and general economic conditions, the Company and South Beach entered into an Accord and Satisfaction Agreement under which the Company surrendered its interest in the Putnam "M" oil and gas lease in Throckmorton Co., Texas in exchange for a complete release on the Promissory Note

and Line of Credit. In addition, the Company waived any claim on the shares of Curado common stock that secured the Promissory Note or the assets of Curado. As a result, the Company's 4Q 2008, financial statements reflect the disposition of Curado and its assets, and furthermore that the Company has, once again, become a Development Stage Company seeking a new business partner or acquisition. A Form 8-K reflecting this transaction was timely filed.

The Company is in the development stage as defined in Statement of Financial Accounting Standards No. 7.

ITEM 7. MANAGERMENTS DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

This report contains forward looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. When used in this Form 10-K, the words "anticipate", "estimate", "expect", "project" and similar expressions are intended to identify forward-looking statements. Such statements are subject to certain risks, uncertainties and assumptions including the possibility that the Company's proposed plan of operation will fail to generate projected revenues. Should one or more of these risks or uncertainties materialize, or should underlying assumptions prove incorrect, actual results may vary materially from those anticipated, estimated or projected. The Company's actual results could differ materially from those set forth on the forward looking statements as a result of the risks set forth in the Company's filings with the Securities and Exchange Commission, general economic conditions, and changes in the assumptions used in making such forward looking statements.

General

The Company has been engaged in the business of oil and gas exploration and production, mineral lease purchasing and all activities associated with acquiring, operating and maintaining the assets of such operations since April. 2006. The Company's activities in the oil and gas business prior to 3Q 2007, however, when it undertook a change of management, were desultory, at best; the Company generated no revenues and recorded a complete impairment of all oil and gas related assets, effective December 31, 2007. On June 6, 2008, the Company acquired leases in Throckmorton and Shackelford Co. Texas, and an operating company, Curado Energy Resources, Inc.. Nearly all of its revenues during 2008 were generated from its operation of these leases. Declining oil and gas prices and an inability to obtain funding for its Re-Work Development Program and additional acquisitions in 3Q and 4Q 2008 rendered its oil and gas business unprofitable. The Company divested itself of its oil and gas properties in 4Q 2008 and is exploring other business opportunities.

Results for the years ended December 31, 2008 and 2007

Revenue: For the year ended December 31, 2008, the Company had revenue of \$447,412, vs. revenue of \$12,239 during the year ended December 31, 2007. The increase in revenue is directly related to the oil and gas lease acquisitions in June through their former operating company, Curado Energy Resources (CERI). CERI contributed 81% or \$361,405 of the Company's 2008 revenues in the four months the Company owned CERI. During the fourth quarter of 2008, the Company had \$0 revenues as it no longer has any properties vs. revenues during the same period of 2007 of \$12,239.

Expenses: Expenses for the year ended December 31, 2008 were -\$3,571,943 vs. \$13,952,699 for the year ended December 31, 2007. 2008 expenses include a one-time non-recurring gain of \$6,285,651 due to the voiding of former Director contracts (see Note 9). In 2008 we incurred an impairment of \$2,400,000 related to acquired oil properties due to writing down to predecessor cost. Adjusted expenses, not including depreciation expense of \$2,338, were \$311,470. Expenses for the year ended December 31, 2007 include impairment costs of \$5,030,000 and related party professional fee contracts entered into by former Directors of \$8,644,000, therefore, adjusted expenses, not including depreciation of \$33, were \$278,666. The adjusted net increase of (\$32,804) is mainly related to increased audit fees of \$32,000 due to the acquisition of Curado Energy Resources.

Operating Profit (Loss): For the year ended December 31, 2008, the Company had a net operating profit of \$3,789,191 vs. a net operating loss of \$13,940,460 for the year ended December 31, 2007. Please see the explanations in Expenses above.

Net Income (Loss): The net income for the year ended December 31, 2008 was \$3,559,617 vs. a net loss of \$15,007,117 for the year ended December 31, 2007, and a net loss of \$49,511,884 for the period January 27, 2005 to

December 31, 2008. The increase in the profit is related to the items listed above (volume and expenses). Adjusting for the one time gain and write-off the Company would have lost \$323,796 during this period.

Plan of Operation

In September 2007, the Company appointed new officers and directors who have significant experience in oil and gas development activities. On October 19, 2007, the Company issued 50,000,000 shares of restricted stock to K&D Investments for oil properties in Throckmorton County, Texas (Walker-Buckler Trust 380-381). The Company recorded the transaction at fair market value of \$5,000,000 and on December 31, 2007, recorded impairment expense related to the property of \$5,000,000 resulting in a net capitalized amount of \$0.

On October 29, 2007, the Company paid \$30,000 to an individual for oil properties in Throckmorton County, Texas (Putnam M Well). The Company recorded the transaction at fair market value of \$30,000 and on December 31, 2007, recorded impairment expense related to the property of \$30,000 resulting in a net capitalized amount of \$0.

In Q4 2007 and Q1 2008, the Company effected two separate 1:10 reverse share split, reducing our total issued and outstanding shares of common stock to 1,328,198 (and reducing K & D's ownership to 500,000 shares). At that time, we also changed our name to Gulf Onshore, Inc.; our shares now trade on the Over-the-Counter Bulletin Board under the symbol GFON. Shortly thereafter, we moved into larger offices at 4310 Wiley Post Blvd., Ste. 201, Addison, Texas.

Effective June 1, 2008, the Company acquired all of the common stock of Curado Energy, Inc. from South Beach Live, Inc. ("SBL") in exchange for a \$250,000 note. Contemporaneously, we acquired, through Curado, additional oil and gas leases in Throckmorton Co. and Shackelford Co., Texas from K & D in exchange for the issuance of an additional 10,000,000 shares of common stock. As a result of the transaction, K & D became the owner of approximately 87% of the Company's outstanding shares. The Company generated \$92,583 in revenues from these leases in June 2008, comprising a significant portion of its Q2 2008 revenues.

Also in Q2 2008, the Company contracted to acquire oil and gas leases in Anderson Co., Texas from Roboco Oil, Inc. These leases cover approximately 1,000 acres, and hold two producing wells. The transaction was scheduled to close on September 1, 2008. Under the terms of the contract, the Company was to pay \$700,000 for these leases, comprised of 20,000 shares of common stock and \$680,000 cash. Ultimately, on October 25, 2008 the Company informed ROBOCO that we would not be going forward with this arrangement due to the declining oil and gas prices and its inability to arrange suitable financing and the 20,000 shares, valued at \$22,500 were written-off to consulting expenses.

All of these transactions were covered in timely filed Forms 8-K, and, in accordance with the representations made therein, SEC-qualified reserve reports the Throckmorton Co. and Shackelford Co. properties were filed, along with pro-forma consolidated financial information.

During Q3 2008, the Company continued to implement its Re-Work/Development Plan on its West Texas properties. In July 2008, the Company entered into a Consulting Agreement with Parabolic, LLC; the Company paid Parabolic 80,000 shares of common stock (restricted) to provide investor relations and financial public relations services. In August, 2008, the Company and Roboco extended the closing date for the Anderson Co., Texas lease acquisition to October 18, 2008, to permit the Company to further review the status of certain of the leases; the Company paid Roboco 10,000 shares of common stock (restricted) for the extension. Also in August 2008, SBL exercised its rights under its Line of Credit Agreement with the Company, requiring the issuance of 490,000 shares of common stock in partial satisfaction of amounts owed to SBL. Subsequently, the Company renegotiated its promissory note agreement with SBL granting it a security interest in the Curado shares owned by the Company and consented to SBL's separate Guarantee Agreement with Curado, secured by Curado's assets. In exchange, the Company obtained SBL's agreement that it wouldn't request any further debt conversions at prices less than \$.25 per share until either an Event of Default or Maturity. All of these transactions were covered in timely filed Forms 8-K.

Effective October 31, 2008, the Company and SBL entered into an Accord and Satisfaction Agreement. Under the terms of the Agreement, South Beach released the Company from any further obligation under the parties' \$250,000 Promissory Note in exchange for an assignment of the Company's interest in a (currently) non-producing oil well, the Putnam M, located in Throckmorton Co., Texas, and a surrender of any claim to shares of Curado Energy Resources, Inc., the Company's wholly-owned subsidiary, currently held by South Beach under a Security Agreement. The Company is advised that South Beach has exercised its rights to these shares and requested re-registration thereof.

The Company has two subsidiaries, GOI Exploration Technologies, Inc., and Shale Oil, Inc. subsidiary, both of which have had no transactions since creation, and therefore have no impact on the financial statements.

We anticipate that we will have to raise additional capital to fund operations over the next 12 months. To the extent that we are required to raise additional funds to acquire properties, and to cover costs of operations, we intend to do so through additional public or private offerings of debt or equity securities.

We currently have no full-time employees.

The weighted-average assumptions used in estimating the fair value of warrants granted during the year ended December 31, 2008, and the period ended December 31, 2007 along with the weighted-average grant date fair values,

were as follows.

	2008	2007

As of December 31, 2008, our executive officers and directors, in the aggregate, beneficially own approximately 3.4% of our outstanding common stock. K&D Equity Investments is our single largest shareholder owning 77.6% of our common stock. This concentration of ownership may have the effect of delaying, deferring or preventing a change in control of the Company, impede a merger, consolidation, takeover or other business combination involving the Company or discourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of the Company, which in turn could have an adverse effect on the market price of our common stock.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

There were no disagreements with accountants on accounting and financial disclosure during the relevant period.

ITEM 9A. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

We carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of December 31, 2008. This evaluation was accomplished under the supervision and with the participation of our chief executive officer / principal executive officer, and chief financial officer / principal financial officer who concluded that our disclosure controls and procedures are not effective to ensure that all material information required to be filed in the annual report on Form 10-KSB has been made known to them.

Disclosure, controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by in our reports filed under the Securities Exchange Act of 1934, as amended (the "Act") is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Based upon an evaluation conducted for the period ended December 31, 2008, our Chief Executive and Chief Financial Officer as of December 31, 2008 and as of the date of this Report, has concluded that as of the end of the periods covered by this report, we have identified the following material weakness of our internal controls:

- Reliance upon independent financial reporting consultants for review of critical accounting areas and disclosures and material non-standard transactions.
- Lack of sufficient accounting staff which results in a lack of segregation of duties necessary for a good system of internal control.

In order to remedy our existing internal control deficiencies, as our finances allow, we will hire additional accounting staff.

Management's Annual Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act. Our internal control system was designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes, in accordance with generally accepted accounting principles in the United States of America. Our internal control over financial reporting includes those policies and procedures that (i) pertain to the

maintenance records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management of the Company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Because of inherent limitations, a system of internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate due to change in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Our management conducted an evaluation of the effectiveness of our internal control over financial reporting using the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control—Integrated Framework at December 31, 2008. Based on its evaluation, our management concluded that, as of December 31, 2008, our internal control over financial reporting was not effective because of limited staff and a need for a full-time chief financial officer. A material weakness is a deficiency, or a combination of control deficiencies, in internal control over financial reporting such that there is a reasonable possibility that a material misstatement of the Company's annual or interim financial statements will not be prevented or detected on a timely basis.

This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to the attestation by the Company's registered public accounting firm pursuant to temporary rules of the SEC that permit the Company to provide only management's report in this annual report.

Changes in Internal Controls over Financial Reporting

We have not yet made any changes in our internal controls over financial reporting that occurred during the period covered by this report on Form 10-K that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Gulf Onshore, Inc.

We have audited the accompanying consolidated balance sheet of Gulf Onshore, Inc. (a Development Stage Company) (the Company) as of December 31, 2008, and the related consolidated statements of operations, shareholders' equity (deficit) and cash flows for the year ended December 31, 2008 and for the period from January 25, 2005 (inception) to December 31, 2008. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of the Company as of December 31, 2008, and the consolidated results of its operations and its cash flows for the year ended December 31, 2008 and for the period from January 25, 2005 (inception) to December 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company had an accumulated deficit of \$49,511,884 and negative working capital at December 31, 2008. These factors raise substantial doubt about its ability to continue as a going concern. Management's plans concerning these matters are also described in Note 2. The accompanying consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

DECEMBER 31, 2008

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization and General Description of Business

Gulf Onshore, Inc. ("We" or "the Company"), was incorporated under the laws of the State of Colorado, on February 29, 1996, as Patriot Holdings, Inc.. On August 26, 1999, the Company changed its name to National Healthcare Technology, Inc., and commenced a business plan to develop Magkelate, a patented intravenous drug developed to re-establish normal electrolyte balance in ischemic tissue and certain other patents for medical instruments and medical instrument technology. On January 14, 2000, the Company filed its Form 10SB12G. In 2002, the Company ceased its medical technology business following the death of Magkelate's inventor. The Company conducted no substantial business until 2005.

In July 2005, the Company acquired Es3, Inc., a Nevada Corporation ("Es3"), pursuant to the terms of an Exchange Agreement (the "Exchange Agreement") by and among the Company, Crown Partners, Inc., a Nevada corporation ("Crown Partners"), Es3, and certain stockholders of Es3 (the "Es3 Stockholders"). Under the terms of the Exchange Agreement, the Company acquired all of the outstanding capital stock of Es3 in exchange for the issuance of 191,828 shares of the Company's common stock (adjusted for splits) to the Es3 Stockholders, Crown Partners and certain consultants. The transactions effected by the Exchange Agreement were accounted for as a reverse merger, and recapitalization. In addition, the Company changed its accounting year-end from September 30 to December 31, which was Es3's accounting year-end. The Company then commenced business manufacturing and marketing products under the name Special Stone Surfaces. The Company sold its shares in Es3 in October 2005, and thereafter conducted no substantial business until 2006,

On April 3, 2006, the Company acquired a group of oil and gas leases in Oklahoma in exchange for issuance of common stock and commenced the business of oil and gas exploration and production, mineral lease purchasing and all activities associated with acquiring, operating and maintaining the assets of such operations. On June 6, 2007, the Company changed its name from National Healthcare Technology, Inc., to Gulf Oil & Gas, Inc., and converted to a Nevada corporation. The Company acquired additional oil and gas leases during 2007, all for issuance of common stock; in October 2007, the Company acquired leases from K & D Equity Investments, Inc., a Texas corporation in a transaction that effected a change of control, with K & D acquiring a majority stake in the Company. The Company also entered into a Line of Credit Agreement with South Beach Live, Inc., a Florida corporation, to provide it with working capital of up to \$100,000 on a revolving credit line. The Agreement permitted South Beach the right to repayment on demand, or to convert amounts owed for shares.

On March 25, 2008 the Company changed its name to Gulf Onshore, Inc. On June 6, 2008, the Company entered into an Asset Acquisition Agreement with K & D to acquire additional leases (the "Leases") in exchange for common stock and a Stock Purchase Agreement ("SPA") with South Beach Live, Inc., a Florida corporation, to purchase 100% of the common shares of Curado Energy Resources, Inc., a Texas corporation ("Curado"). Curado is registered with the Texas Railroad Commission as an oil and gas well operator, and is the operator for the Leases. The Company acquired the Leases into Curado, in exchange for shares issued to K & D. The Company issued South Beach a promissory note for \$250,000, payable in 1 year at 10% interest. The Company consolidated the operations of Curado Energy Resources, Inc.

Throughout 3Q 2008, declining oil prices and increased operating costs made continued oil and gas operations on the Leases unprofitable, and the Company was continually drawing down on its Line of Credit Agreement with South Beach. In exchange for concessions from South Beach regarding further cash advances and future stock conversions, in August 2008, the Company agreed to grant South Beach a security interest in its South Beach shares.

On October 6, 2008, in the face of further oil price declines and general economic conditions, the Company and South Beach entered into an Accord and Satisfaction Agreement under which the Company surrendered its interest in the Putnam "M" oil and gas lease in Throckmorton Co., Texas in exchange for a complete release on the Promissory Note and Line of Credit. In addition, the Company waived any claim on the shares of Curado common stock that secured the Promissory Note or the assets of Curado. As a result, the Company's 4Q 2007, financial statements will reflect the disposition of Curado and its assets, and furthermore that the Company has, once again, become a Development Stage Company seeking a new business partner or acquisition. A Form 8-K reflecting this transaction was timely filed.

B. Basis of Presentation

The Company prepares its financial statements on the accrual basis of accounting. All intercompany balances and transactions are eliminated. Investments in subsidiaries are reported using the equity method. The financial statements include the accounts of Curado Energy Resources Inc., a former operating subsidiary, Inc., for the period from June 2008 through September 2008.

Gulf Onshore, Inc., up until the June 30, 2008 filing has filed as a Development Stage Company, as defined by SFAS 7, "Accounting and Reporting by Development Stage Enterprises". The Company no longer is devoting substantially all of its efforts to establish a new business and has begun principal operations. Also, the Company has begun to generate significant revenues, particularly through its former subsidiary, Curado Energy Resources, Inc

C. Stock Splits

On March 6, 2008 the Directors of Gulf Onshore, Inc. (the "Company") announced a one for ten (1:10) stock split (the "Reverse Split") and a contemporaneous one for ten (1:10) reduction in the number of the Company's authorized shares of common stock, par value \$0.001 (the "Common Stock"), in accordance with the procedure authorized by N.R.S. §78.207. The Directors determined that it would be in the Company's best interest to effect the Reverse Split and approved this corporate action by unanimous written consent. The Reverse Split did not require shareholder approval. All shares referenced, except where otherwise noted, are net of the Reverse Split.

D. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Estimates and assumptions are reviewed periodically and the effects of revisions are reflected in the financial statements in the period they are determined.

E. Cash and Cash Equivalents

Cash and cash equivalents include cash in hand and cash in time deposits, certificates of deposit and all highly liquid debt instruments with original maturities of three months or less.

F. Long-Lived Assets & Impairment on oil lease investments

Effective January 1, 2002, the Company adopted Statement of Financial Accounting Standards No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets" ("SFAS 144"), which addresses financial accounting and reporting for the impairment or disposal of long-lived assets and supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed Of," and the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations for a Disposal of a Segment of a Business." The Company periodically evaluates the carrying value of long-lived assets to be held and used in accordance with SFAS 144. SFAS 144 requires impairment losses to be recorded on long-lived assets used in operations when indicators of impairment are present and the undiscounted cash flows estimated to be generated by those assets are less than the assets' carrying amounts. In that event, a loss is recognized based on the amount by which the carrying amount exceeds the fair market value of the long-lived assets. Loss on long-lived assets to be disposed of is determined in a similar manner, except that fair market values are reduced for the cost of disposal.

During the year ended December 31, 2007, the Company had acquired two oil & gas leases in two separate transactions. One lease was acquired for cash consideration of \$30,000 and the other lease was acquired in exchange of 50,000,000 (pre reverse split of March 1, 2008) shares. The lease was valued at the fair market value of the shares which was \$5,000,000

As of December 31, 2007, the Company estimated the future cash flows expected to result from the use and eventual disposition of the two oil & well gas leases. Based on its review, the Company determined that the carrying value of

the assets is not recoverable and hence the leases were determined to be impaired as of December 31, 2007. The Company recorded an impairment loss of \$5,030,000 for the year ended December 31, 2007.

In June 2008 the Company acquired eleven oil well leases in a related party transaction with the majority shareholder, K&D Investments, for 10,000,000 shares. The value of the stock at the time of the transaction was \$2,500,000 and the predecessor cost was \$100,000. Therefore, an impairment of \$2,400,000 was recorded related to the transaction and the net cost recorded on the Company's balance sheet is \$100,000. The Leases were acquired into Curado Energy Resources, Inc., the operator of the Leases, which the Company acquired from South Beach Live, Inc., its most significant creditor.

Throughout 3Q 2007, declining oil prices and increased operating costs made continued oil and gas operations on the Leases unprofitable, and the Company was continually drawing down on its Line of Credit Agreement with South Beach. In exchange for concessions from South Beach regarding further cash advances and future stock conversions, in August 2007, the Company agreed to grant South Beach a security interest in its South Beach shares.

On October 6, 2008, in the face of further oil price declines and general economic conditions, the Company and South Beach entered into an Accord and Satisfaction Agreement under which the Company surrendered its interest in the Putnam "M" oil and gas lease in Throckmorton Co., Texas in exchange for a complete release on the Promissory Note and Line of Credit. In addition, the Company waived any claim on the shares of Curado common stock that secured the Promissory Note or the assets of Curado. As a result, the Company's 4Q 2007, financial statements will reflect the disposition of Curado and its assets, and furthermore that the Company has, once again, become a Development Stage Company seeking a new business partner or acquisition. A Form 8-K reflecting this transaction was timely filed.

G. Fair Value of Financial Instruments

Statement of Financial Accounting Standard No. 107, Disclosures About Fair Value of Financial Instruments, requires that the Company disclose estimated fair values of financial instruments. The carrying amounts reported in the balance sheet qualifying as financial instruments are a reasonable estimate of fair value.

H. Technology License and Royalties

The Company's former principal business activity focused on oil and gas exploration. We have divested ourselves of all oil and gas properties and are investigating other business opportunities. We have no technology licenses or rights to any royalties.

I. Stock-Based Compensation

In December 2004, the FASB issued SFAS No. 123 (revised 2004), "Share-Based Payment" ("SFAS 123R"), which requires the measurement of all employee share-based payments to employees, including grants of employee stock options, using a fair-value-based method and the recording of such expense in the consolidated statements of operations. In March 2005, the SEC issued Staff Accounting Bulletin No. 107 ("SAB 107") regarding the SEC's interpretation of SFAS 123R and the valuation of share-based payments for public companies. The Company has adopted SFAS 123R and related FASB Staff Positions ("FSPs") as of January 01, 2006 and will recognize stock-based compensation expense using the modified prospective method.

J. Income Taxes

The Company accounts for income taxes using the Financial Accounting Standards Board Statements of Financial Accounting Standards No. 109, "Accounting for Income Taxes," which requires the establishment of a deferred tax asset or liability for the recognition of future deductible or taxable amounts and operating loss and tax credit carry forwards. Deferred tax expense or benefit is recognized as a result of timing differences between the recognition of assets and liabilities for book and tax purposes during the year.

Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Deferred tax assets are recognized for deductible temporary differences and operating loss, and tax credit carry forwards. A valuation allowance is established to reduce that deferred tax asset if it is "more likely than not" that the related tax benefits will not be realized.

K. Basic and Diluted Net Earnings (loss) per Share

The Company adopted the provisions of SFAS No. 128, "Earnings Per Share" ("EPS"). SFAS No. 128 provides for the calculation of basic and diluted earnings per share. Basic EPS includes no dilution and is computed by dividing income or loss available to common shareholders by the weighted average number of common shares outstanding for the period. Diluted EPS reflects the potential dilution of securities that could share in the earnings or losses of the entity. For the periods January 1, 2008 to December 31, 2008 and from inception through December 31, 2008, basic and diluted loss per share are the same since the calculation of diluted per share amounts would result in an anti-dilutive calculation.

L. Development Stage Enterprise

The Company is a development stage enterprise, as defined in Financial Accounting Standards Board No.7. The Company did commence significant operations in the fiscal second quarter of 2008 and generated a total of \$447,412 of revenue in the following four month period. In October 2008, the Company divested itself of its operating company, Curado Energy Resources, Inc., (see note xx) and no longer has significant operations. Beginning with the fiscal fourth quarter of 2008 the Company again became a development stage company.

M. Recent Accounting Pronouncements

In June 2003, the Securities and Exchange Commission ("SEC") adopted final rules under Section 404 of the Sarbanes-Oxley Act of 2002 ("Section 404 (b)"), as amended by SEC Release No. 33-8760 on December 15, 2006. Commencing with the Company's Annual Report for the year ending December 31, 2008, the Company is required to include a report of management on the Company's internal control over financial reporting. The internal control report must include a statement of management's responsibility for establishing and maintaining adequate internal control over financial reporting for the Company; of management's assessment of the effectiveness of the Company's internal control over financial reporting as of its year-end and of the framework used by management to evaluate the effectiveness of the Company's internal control over financial reporting.

In June 2008, the SEC approved a one year extension of the compliance data for smaller public companies to meet the Section 404 (b) auditor attestation requirement of the Sarbanes-Oxley Act regarding the Company's internal control over financial reporting on whether it believes that the Company has maintained, in all material respects, effective internal control over financial reporting.

In 2007, the FASB issued the following:

- SFAS No. 141: (Revised 2007), "Business Combinations"
- SFAS No. 159: "The Fair Value Option for Financial Assets and Financial Liabilities"
- SFAS No. 160: "Noncontrolling Interest in Consolidated Financial Statements"

In 2008, the FASB issued the following:

- SFAS No. 161: "Disclosures about Derivative Instruments and Hedging Activities"
- SFAS No. 162: "The Hierarchy of Generally Accepted Accounting Principles"
- SFAS No. 163: "Accounting for Financial Guarantee Insurance Contracts"

Management has reviewed these new standards and believes that they have no material impact on the financial statements of the Company.

N. Reclassifications

For comparative purposes, certain prior period consolidated financial statements have been reclassified to conform with report classifications of the current year.

2. GOING CONCERN

The accompanying consolidated financial statements have been prepared in conformity with generally accepted accounting principles, which contemplate the continuation of the Company as a going concern. The Company reported an accumulated deficit of \$49,511,884 and had a stockholder's deficit of \$1,358,504 at December 31, 2008.

In view of the matters described, there is substantial doubt as to the Company's ability to continue as a going concern without a significant infusion of capital. At December 31, 2008, the Company had no operations. In view of the matters described, there is substantial doubt as to the Company's ability to continue as a going concern without a significant infusion of capital. There can be no assurance that management will be successful in implementing its plans. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

We anticipate that we will have to raise additional capital to fund operations over the next 12 months. To the extent that we are required to raise additional funds to acquire properties, and to cover costs of operations, we intend to do so through additional public or private offerings of debt or equity securities. There are no commitments or arrangements for other offerings in place, no guaranties that any such financings would be forthcoming, or as to the terms of any such financings. Any future financing may involve substantial dilution to existing investors. We had been relying on our common stock to pay third parties for services which has resulted substantial dilution to existing investors.

3. INCOME TAXES

Deferred income taxes are reported using the liability method. Deferred tax assets are recognized for deductible temporary differences and deferred tax liabilities are recognized for taxable temporary differences. Temporary differences are the differences between the reported amounts of assets and liabilities and their tax bases. Deferred tax assets are reduced by a valuation allowance when, in the opinion of management, it is more likely than not that some portion or all of the deferred tax assets will not be realized. Deferred tax assets and liabilities are adjusted for the effects of changes in tax laws and rates on the date of enactment. Current year and accumulated deferred tax benefit at the effective Federal income tax rate of 34% is \$17,329,131, and \$17,650,659 respectively and a valuation allowance has been set up for the full amount because of the unlikelihood that the accumulated deferred tax benefit will be realized in the future.

At December 31, 2008, the Company had available federal and state net operating loss carryforwards amounting to approximately \$49,511,884 that are available to offset future federal and state taxable income and that expire in various periods through 2028 for federal tax purposes and 2015 for state tax purposes. No benefit has been recorded for the loss carryforwards, and utilization in future years may be limited under Sections 382 and 383 of the Internal Revenue Code if significant ownership changes have occurred or from future tax legislation changes

The following table sets forth the significant components of the net deferred tax assets for operation in the US as of December 31, 2008 and 2007.

	2008	2007
Net operation loss carry forward	\$ 49,511,884	\$ 53,071,501

Less: valuation allowance	(16,440,389)	(17,650,659)
Net deferred tax assets	\$ -	\$ -

The provision for income taxes on income consists of the following for the years ended December 31, 2008 and 2007:

	2008	2007
US Current Income Tax Expense (Benefit)	\$ 1,210,270	\$ (5,102,420)

	December 31 2008	December 31 2007
Tax expense (credit) at statutory rate-federal	(34%)	(34%)
State tax expense net of federal tax	(6)	(6)
Valuation allowance	40	40

The professional fees in 2008 are related to normal operations (auditors, outside consultants and attorneys) except for the exception noted below. C. Liabilities

The Company had a collection notice for \$87,183 related to legal billings in 2006 that had not been booked. The amount was recorded in the third quarter of 2007. The billings were related to acquisition work that was never completed. The Company contends that the agreement was not with Gulf Onshore, Inc. but with a potential acquirer and therefore believes that the accrual is not necessary. .

On December 19, 2006, Empire Relations Group Inc. (“Empire”) filed an arbitration claim against the Company in connection with a consulting agreement entered into by and between the Company and Empire on September 28,

2006. An arbitration award in the amount of \$13,000 was issued against the Company on March 9, 2007, which also provided for interest at the rate of nine percent per annum, commencing 30 days after the date of the award and continuing until paid in full. Included in "Accounts payable" on the consolidated balance sheet at December 31, 2008, the Company has payables totaling \$250,000 to two former directors and one attorney, that were incurred in 2006 and 2005, respectively.

- The attorney represented a former related party when it was in negotiations to acquire the Company in 2005. The Company's position is that this is not its liability as it did not contract the attorney and will pursue a legal opinion in 2009 to reverse the liability.
- The former directors were awarded severance agreements in June 2006 shortly before resigning from the Company. The severance and other fees totaled \$81,250 for each director for a total of \$162,500. The severance was not immediately paid and there has been no correspondence concerning payment since they resigned. The states statute of limitations expires in June 2010 and the Company, at that time, will accordingly adjust the liabilities to \$0 if no demand is received.

Included in "Accounts payable" on the consolidated balance sheet at December 31, 2008, the Company also has payables totaling \$70,000 to various vendors incurred in 2005 through 2007.

- There is \$30,000 balance to a former related party that has not been resolved. - There is \$12,175 to a former consultant that is unresolved. This liability was incurred in 2005 and there has been no correspondence with the vendor since the liability was incurred. In the event the vendor does not contact the Company, we will accordingly adjust the liability to \$0 in compliance with the state statutes of limitations of four years, in December of 2009.
- There is approximately \$28,000 of other smaller and aged payables that the Company will also write-off in future periods using the applicable statute of limitations as a guide.

The Company is periodically involved in legal actions and claims that arise as a result of events that occur in the normal course of operations. NOTE 9 – EXTINGUISHMENT OF DEBT

On March 21, 2008 the Board of Directors determined that it was in the best interest of the Company and its shareholders to void the contracts of two former directors and extinguish the associated liability and related accrued payroll taxes. During 2006 a liability for \$5,000,000 and \$1,285,651 of related accrued payroll taxes was recorded. Accordingly, during the twelve months ended December 31, 2008, management has recorded a nonrecurring gain in the amount of \$6,285,651.

NOTE 10 – FAIR VALUE OF FINANCIAL INSTRUMENTS

In September 2006, the FASB issued SFAS 157, Fair Value Measurement. SFAS 157 defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. SFAS 157 was effective for our financial assets and liabilities on January 1, 2008. The FASB delayed the effective date of SFAS 157 for all non-financial assets and non-financial liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually) to fiscal years beginning after November 15, 2008.

SFAS 157's valuation techniques are based on observable and unobservable inputs. Observable inputs reflect readily obtainable data from independent sources, while unobservable inputs reflect our market assumptions. The Standard classifies these inputs into the following hierarchy:

Level 1 Inputs – Quoted prices for identical instruments in active markets.

Level 2 Inputs – Quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in markets that are not active; and model-derived valuations whose inputs are observable or whose significant value drivers are observable.

Level 3 Inputs – Instruments with primarily unobservable value drivers.

As of December 31, 2008, the Company did not have any instruments subject to valuation under SFAS 157.
