NEWS RELEASE

Enbridge increases interest in Alliance

CALGARY, Alberta, April 1, 2003 Enbridge Inc. today announced that it has closed the acquisition of Duke Energy's 11.8% interest in the Alliance Pipeline except for a small portion (1.1%) of the U.S. pipeline component that will be deferred until the fourth quarter. Enbridge paid Duke Energy approximately Cdn\$195 million for all of that company's 11.8% interest in the Canadian portion of the Alliance Pipeline and 10.7% of its interest in the U.S. portion of the Alliance Pipeline and will pay approximately Cdn\$8.1 million for the remaining 1.1% of the U.S. portion in the fourth quarter. Enbridge also received a net payment from Duke of approximately Cdn\$19 million for acquiring Duke's interest in Aux Sable and assuming Duke's support obligation for AC Marketing.

On March 24, Enbridge also completed the acquisition of the final 1.1% interest of El Paso in both the Canadian and the U.S. portions of the Alliance Pipeline, having acquired a 6.1% interest from El Paso in November 2002.

Upon completion of the transaction with Duke Energy later this year, Enbridge will have increased its interest in the Alliance Pipeline to approximately 50% and will have increased its interest in the Aux Sable NGL plant and AC Marketing to approximately 43%, each of which will be equal to that of the other largest owner, Fort Chicago Energy Partners.

The Alliance Pipeline is a 36-inch diameter pipeline with a capacity of 1,550 million cubic feet per day of natural gas. It extends 3000 kilometres from Fort St. John in British Columbia to Chicago, Illinois. It employs a high pressure dense phase technology to create higher transmission efficiency than traditional conventional gas transmission systems. Alliance commenced operations in late 2000. Enbridge was the first pipeline company to invest in Alliance and, in conjunction with a number of natural gas producers, seek to develop alternatives for accessing U.S. markets.

Enbridge Inc. is a leader in energy transportation and distribution in North America and internationally. As a transporter of energy, Enbridge operates, in Canada and the U.S., the world's longest crude oil and liquids transportation system. The Company also has international operations and a growing involvement in the natural gas transmission and midstream businesses. As a distributor of energy, Enbridge owns and operates Canada's largest natural gas distribution company, which provides distribution services in Ontario, Quebec and New York State; and is developing a gas distribution system for the Province of New Brunswick. Enbridge employs approximately 4,000 people, primarily in Canada, the U.S. and South America. Enbridge's common shares trade on the Toronto Stock Exchange in Canada and on the New York Stock Exchange in the U.S. under the symbol ENB. Information about Enbridge is available on the Company's web site at www.enbridge.com.
