McCreedy West Mine Officially Opened Today

TORONTO, Ontario - September 16, 2004 - The Sudbury Joint Venture (**FNX Mining Company Inc. (FNX-TSX/AMEX)** and Dynatec Corporation (DY-TSX)) report that the Honourable Rick Bartolucci, Ontario Minister of Northern Development and Mines, Terry MacGibbon, President and CEO of FNX and Bob Dengler, President and CEO of Dynatec officially opened the Sudbury Joint Venture's McCreedy West Mine, Sudbury Ontario in a formal ceremony in the town of Levack today.

The Sudbury Joint Venture (75% FNX and 25% Dynatec) acquired the McCreedy Mine property and four other former producing Sudbury mining properties in 2003. The McCreedy West Mine was a former producing mine that has been idle since its closing in 1999. The initial phase (Phase 1) of a two phased mining plan at McCreedy West achieved commercial production in November 2003 and reached its production target of 1,000 tons per day in April 2004. The Phase 1 ore deposits have sufficient audited reserves and resources to support the present mining rate for at least eight years. A feasibility study is currently underway to determine the economic viability of initiating Phase 2 mining of the McCreedy West copper and precious metal-rich PM Deposit at 1,000 to 1,500 tons of ore per day in 2005.

"Today is a landmark occasion - a great day for the Greater Sudbury area and for mining in Ontario. The re-opening of the McCreedy West mine is an indicator of the Sudbury Joint Venture's support and confidence in the mining sector in Northern Ontario" said Minister of Northern Development and Mines, Rick Bartolucci.

Terry MacGibbon, President and CEO of FNX Mining Company, stated that, "the successful opening of our first mining operation ever is a huge accomplishment for FNX Mining and meets our objective of making the very difficult transition from a junior resource company to a producing mining company in less than two years. The fact that our mining operations have been profitable from its first operating quarter is rewarding to all FNX stakeholders, however it is the future potential production growth from our three on-going feasibility studies at the PM Deposit, Levack Mine and Norman Property which makes this first step at McCreedy West so exciting".

Sudbury Joint Venture Honours Terry Podolsky

TORONTO, Ontario - September 16, 2004 - **FNX Mining Company Inc. (FNX-TSX/AMEX)** announces that the Sudbury Joint Venture (75% FNX and 25% Dynatec Corporation) has renamed the Norman property the Podolsky property in honour of Terrence Podolsky, distinguished Canadian geologist, senior mining executive and a long time director of FNX.

Terry graduated from Queen's University in 1950 with a Master of Science degree in geology. From 1950 to 1954 he worked with various federal and provincial geological surveys and lectured at Queen's. Terry joined Inco Limited in 1954 and from 1954 to 1975 assumed positions of increasing responsibility in Sudbury, Manitoba and globally. From 1975 until 1990, he held the position of Vice President, Exploration and Mineral Resource Development at Inco and

led Inco's exploration activity in 14 countries on six continents.

After retiring from Inco in 1990, Terry founded his own private consulting company, Podolsky & Associates. He completed many assignments throughout the world, including studies for the United Nations (UNDP) in Burma and Mongolia.

The recently announced \$30 million advanced underground exploration program on the Podolsky property has been initiated. Collar site preparation has been completed for the vertical shaft on the Podolsky 2000 deposit (formerly the Norman 2000 deposit) and also on the ramp into the Podolsky North deposit (formerly the Norman North deposit).

In announcing the renaming today in Sudbury during the McCreedy West Mine opening, Terry MacGibbon, President and CEO of FNX Mining Company, stated that, "Terry Podolsky has had a long and distinguished career as a geologist and senior mining executive. He has also made a tremendous contribution to FNX since its formation in 1984. FNX and the Sudbury Joint Venture are pleased to be able to recognize and honour Terry Podolsky - the man and his accomplishments - in this way".
