INFORMATION STATEMENT
JANUARY 11, 2005

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

This information statement ("Information Statement") contains information related to certain corporate actions of Altrimega Health Corporation, a Nevada Corporation (the "Company"), and is expected to be mailed to shareholders on or about January 28, 2005.

ABOUT THE INFORMATION STATEMENT

WHAT IS THE PURPOSE OF THE INFORMATION STATEMENT?

This Information Statement is being provided pursuant to Section 14 of the Securities Exchange Act of 1934 to notify the Company's shareholders as of the close of business on January 12, 2005 (the "Record Date") of corporate action expected to be taken pursuant to the written consents of principal shareholders. Shareholders holding a majority of the Company's outstanding common stock are expected to act upon certain corporate matters outlined in this information statement, which action is expected to take place on February 22, 2005, consisting of the approval of an amendment to the Company's Articles of Incorporation to change the name of the Company to Top Gun Sports & Entertainment, Inc., to authorize a 1-for-1000 reverse split of the Company's outstanding common stock, and to elect (3) directors of the Company. These actions relate to the acquisition through a share exchange agreement of Top Gun Sports of Entertainment, Inc. ("Top Gun Sports").

WHO IS ENTITLED TO NOTICE?

Each holder of an outstanding share of common stock as of record on the close of business on the Record Date will be entitled to notice of each matter to be voted upon pursuant to written consents. Shareholders as of the close of business on the Record Date that hold in excess of fifty percent (50%) of the Company's 49,139,950 issued and outstanding shares of common stock have indicated that they will vote in favor of the Proposals. Under Nevada corporate law, all the activities requiring shareholder approval may be taken by obtaining the written consent and approval of more than 50% of the holders of voting stock in lieu of a meeting of the shareholders. No action by the minority shareholders in connection with the Proposals is required.

WHAT CORPORATE MATTERS WILL THE PRINCIPAL SHAREHOLDERS VOTE FOR AND HOW WILL THEY VOTE?

Shareholders holding a majority of the outstanding common stock required to vote on each matter have indicated that they will vote for the following Proposals:

- o FOR the APPROVAL of an amendment to the Company's Articles of Incorporation to change the name of the Company to Top Gun Sports & ENTERTAINMENT, Inc. (see page 54).
- o FOR the APPROVAL to authorize a 1-for-1000 reverse split of the Company's outstanding common stock. (see page 55).
- o FOR the election of three (3) directors of the Company (see page 57).

1

WHAT ARE THE BOARD OF DIRECTORS' RECOMMENDATIONS?

The Board of Directors' recommendations are set forth together with the

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

description of each item in this Information Statement. In summary, the Board recommends a vote:

- o FOR the approval of an amendment to the Company's Articles of Incorporation to change the name of the Company from Altrimega Health Corporation to Top Gun Sports & Entertainment, Inc. (see page 54).
- o FOR the approval of 1-for-1000 reverse split of the Company's outstanding common stock. (see page 56).
- o FOR the election of three (3) directors of the Company (see page 57).

WHAT VOTE IS REQUIRED TO APPROVE EACH PROPOSAL?

As of the Record Date, the Company had 49,139,950 shares of issued and outstanding shares of common stock.

CORPORATE NAME CHANGE. For the Proposal to change the name of the Company to Top Gun Sports & Entertainment, Inc., a vote of a majority of the common stock is required for approval of the Proposal. As a result, the vote of at least 24,569,976 outstanding shares of common stock are required to approve the Proposal.

REVERSE SPLIT. For the Proposal to authorize a 1-for-1000 reverse split of the outstanding shares of common stock, a vote of a majority of the common stock is required for approval of the Proposal. As a result, the vote of at least 24,569,976 outstanding shares of common stock are required to approve the Proposal.

ELECTION OF DIRECTORS. For the Proposal to elect the (3) directors, a plurality of the shares of common stock is required for the approval of the Proposal. Because a majority of the outstanding shares of common stock have indicated that they will vote in favor of this proposed slate of directors, this Proposal should be approved.

The shareholders that have indicated an intention to vote in favor of the Proposals and the number of shares of common stock within their voting control as of the new Record Date (January 12, 2005) are described below. These shareholders have 50.0517% of the shares of common stock. Accordingly, these shareholders have sufficient shares to approve all of the Proposals.

WHAT IS THE PURPOSE OF THE PROPOSALS?

The purpose of the Proposals is to consummate the change the name of the Company and effect a reverse stock split as a condition of its pending share exchange with Top Gun Sports & Entertainment, Inc. of Nevada.

WHY HAS THE COMPANY ABANDONED ITS DECISION TO INCREASE THE AUTHORIZED SHARES OF COMMON STOCK FOR THE CONVERSION OF THE OUTSTANDING SHARES OF SERIES A PREFERRED STOCK?

During the end of December 2004 and the beginning of January 2005, each holder of Series A Preferred Stock ("the Preferred Stock") agreed to the cancellation of their shares of Preferred Stock. As a result, the Company no longer needs to increase its authorized shares, or issue shares of common stock, relating to the Preferred Stock.

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

ALTRIMEGA HEALTH CORPORATION AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2004
(UNAUDITED)

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with Securities and Exchange Commission requirements for interim financial statements. Therefore, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. The financial statements should be read in conjunction with the Form 10-KSB for the year ended December 31, 2003 of Altrimega Health Corporation and Subsidiary (the "Company").

The interim financial statements present the condensed balance sheet, statements of operations, and cash flows of Altrimega Health Corporation and Subsidiary. The financial statements have been prepared in accordance with accounting principles generally accepted in the United States.

The interim financial information is unaudited. In the opinion of management, all adjustments necessary to present fairly financial position of the company as of September 30, 2004 and the results of operations and cash flows presented herein have been included in the financial statements. Interim results are not necessarily indicative of results of operations for the full year.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The accounting for the AHC Transaction is identical to that resulting from a reverse acquisition, except goodwill or other intangible assets will not be recorded.

During November 2002, the Company acquired 80% of Sea Garden Funding, LLC by the assumption of certain liabilities. Sea Garden Funding, LLC was organized in the state of South Carolina on November 13, 2002 for the purpose of the development and sale of residential real estate. (See Note 2)

Going concern - The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company incurred a net loss of approximately \$133,000 for the year ended December 31, 2003, with an accumulated loss from inception of approximately \$799,000. The Company's current liabilities exceed its current assets by approximately \$475,000 as of December 31, 2003. The Company had a net loss of approximately \$17,000 for the nine months ended September 30, 2004 and an accumulated deficit of \$816,000 at September 30, 2004. The Company's current liabilities exceeded its current assets by approximately \$480,000 at September 30, 2004.

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS SEPTEMBER 30, 2004 (UNAUDITED)

1. BASIS OF PRESENTATION (CONTINUED)

These conditions give rise to substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include adjustments relating to the recoverability and classification of reported asset amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to obtain additional financing or sale of its common stock as may be required and ultimately to attain profitability.

Management's plan, in this regard, is to develop and sell real estate in order to provide additional working capital for its future planned activity and to service its debt, which will enable the Company to operate for the coming year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reclassification-Certain prior year balances have been reclassified to conform to the current year presentation, which have no effect on the loss.

Principles of consolidation - The consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany balances and transactions have been eliminated.

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Advertising and marketing costs - The Company recognizes advertising and marketing costs in accordance with Statement of Position 93-7 "Reporting on Advertising Costs." Accordingly, the Company expenses the costs of producing advertisements at the time production occurs, and expenses the costs of communication advertising in the period in which the advertising space or airtime is used. Advertising costs are charged to expense as incurred. Advertising expenses was \$6,790 and \$- for the year ended December 31, 2003. Advertising expenses for the three months ended June 30, 2004 was \$-0-.

Fair value of financial instruments - The carrying amounts and estimated fair values of the Company's financial instruments approximate their fair value due to the short-term nature.

Earnings (loss) per share - Basic earnings (loss) per share excludes any dilutive effects of options, warrants and convertible securities. Basic earnings (loss) per share is computed using the weighted-average number of outstanding common shares during the applicable period. Diluted earnings per share is computed using the weighted average number of common and common stock equivalent shares outstanding during the period. Common stock equivalent shares are excluded from the computation if their effect is antidilutive.

Income taxes - The Company accounts for its income taxes in accordance with Statement of Financial Accounting Standards No. 109, which requires recognition of deferred tax assets and liabilities for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax credit

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

ALTRIMEGA HEALTH CORPORATION AND SUBSIDIARY
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2004
(UNAUDITED)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

As of December 31 2003, the Company has available net operating loss carryovers of approximately \$800,000 that will expire in various periods through 2023. Such losses may not be fully deductible due to the significant amounts of non-cash service costs. The Company has established a valuation allowance for the full tax benefit of the operating loss carryovers due to the uncertainty regarding realization.

Accounting methods - The Company recognizes income and expenses based on the accrual method of accounting.

Sales of property - Gains from sales of operating properties and revenues from land sales are recognized using the full accrual method provided that various criteria relating to the terms of the transactions and any subsequent involvement by the Company with the properties sold are met. Gains or revenues relating to transactions which do not meet the established criteria are deferred and recognized when the criteria are met or using the installment or cost recovery methods, as appropriate in the circumstances. For land sale transactions under terms in which the Company is required to perform additional services and incur significant costs after title has passed, revenues and costs of sales are recognized proportionately on a percentage of completion basis. Deposits received prior to closing are recorded as a liability until the consummation of the sale at which time such amounts are generally applied toward the purchase price.

Cost of land sales is generally determined as a specific percentage of land sales revenues recognized for each land development project. The cost percentages used are based on estimates of development costs and sales revenues to completion of each project and are revised periodically for changes in estimates or development plans. The specific identification method is used to determine cost of sales of certain parcels of land.

Properties - Properties under development are carried at cost reduced for impairment losses, where appropriate. Properties held for sale are carried at cost reduced for valuation allowances, where appropriate. Acquisition, development and construction costs of properties in development and land development projects are capitalized including, where applicable, salaries and related costs, real estate taxes, interest and preconstruction costs. The pre-construction development (or an expansion of an existing property) includes efforts and related costs to secure land control and zoning, evaluate feasibility, and complete other initial tasks, which are essential to development. Provisions are made for potentially unsuccessful preconstruction efforts by charges to operations.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
SEPTEMBER 30, 2004

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Properties held for sale are carried at the lower of their carrying values (i.e., cost less accumulated depreciation and any impairment loss recognized, where applicable) or estimated fair values less costs to sell. Generally, revenues and expenses related to property interests acquired with the intention to resell are not recognized.

Dividend policy - The Company has not adopted a policy regarding payment of dividends.

Comprehensive loss - The Company has no components of other comprehensive loss. Accordingly, net loss equals comprehensive loss for all periods.

Segment information - The Company discloses segment information in accordance with SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, which uses the Management approach to determine reportable segments. The Company operates under one segment.

Stock-based compensation - The Company applies Accounting Principles Board ("APB") Opinion No. 25, Accounting for Stock Issued to Employees, and Related Interpretations, in accounting for stock options issued to employees. Under APB No. 25, employee compensation cost is recognized when estimated fair value of the underlying stock on date of the grant exceeds exercise price of the stock option. For stock options and warrants issued to non-employees, the Company applies SFAS No. 123, Accounting for Stock-Based Compensation, which requires the recognition of compensation cost based upon the fair value of stock options at the grant date using the Black-Scholes option pricing model.

In December 2002, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure. SFAS No. 148 amends the transition and disclosure provisions of SFAS No. 123. The Company is currently evaluating SFAS No. 148 to determine if it will adopt SFAS No. 123 to account for employee stock options using the fair value method and, if so, when to begin transition to that method.

Net loss per common share - The Company computes net loss per share in accordance with SFAS No. 128, Earnings per Share and SEC Staff Accounting Bulletin No. 98. Under the provisions of SFAS 128 and SAB 98, basic net loss per share is computed by dividing the net loss available to common stockholders for the period by the weighted average number of shares of common stock outstanding during the period. The calculation of diluted net loss per share gives effect to common stock equivalents, however, potential common shares are excluded if their effect is antidilutive. For the three months ended March 31, 2004, for the year ended December 31, 2003 and the period from July 3, 2002 (Inception) through December 31, 2003, no shares were excluded from the computation of diluted earnings per share because their effect would be antidilutive.

New accounting pronouncements - In July 2001, the FASB issued SFAS No. 143, Accounting for Obligations Associated with the Retirement of Long-Lived Assets. SFAS No. 143 establishes accounting standards for the recognition and measurement of an asset retirement obligation and its associated asset cost. Its retirement also provides accounting guidance for legal obligations associated with the retirement of tangible long-lived assets. SFAS No. 143 is effective in fiscal years beginning after June 15, 2002, with early adoption permitted. The

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

adoption of SFAS No. 143 did not have a material impact on the Company's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In August 2001, the FASB issued SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets. SFAS 144 establishes a single accounting model for the impairment or disposal of long-lived assets, including discontinued operations. SFAS 144 superseded Statement of Financial Accounting Standards No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of, and APB Opinion No. 30, Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions. The provisions of SFAS No. 144 are effective in fiscal years beginning after December 15, 2001, with early adoption permitted, and in general are to be applied prospectively. The adoption of SFAS No. 144 did not have a material impact on the Company's financial statements for the three months ended June 30, 2004 or the years ended December 31, 2003 and 2002.

In July 2002, the FASB issued Statement No. 146, Accounting for Costs Associated with Exit or Disposal Activities. SFAS No. 146 addresses financial accounting and reporting for costs associated with exit or disposal activities, such as restructurings, involuntarily terminating employees, and consolidating facilities initiated after December 31, 2002. The implementation of SFAS No. 146 did not have a material effect on the Company's financial statements for the three months ended June 30, 2004 or the years ended December 31, 2003 and 2002.

In April 2003, the FASB issued SFAS No. 149, Amendment of SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 149 amends SFAS No. 133 for decisions made (1) as part of the Derivatives Implementation Group process that effectively required amendments to SFAS No. 133, (2) in connection with other Board projects dealing with financial instruments, and (3) in connection with implementation issues raised in relation to the application of the definition of a derivative. The Statement clarifies under what circumstances a contract with an initial net investment meets the characteristics of a derivative discussed in paragraph 6(b) of SFAS No. 133, clarifies when a derivative contains a financing component, amends the definition of underlying to conform it to language used in FASB Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, and amends certain other existing pronouncements. Those changes will result in more consistent reporting of contracts as either derivatives or hybrid instruments. This statement is effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003. The implementation of SFAS No. 149 did not have a material on the Company's financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In May 2003, the FASB issued SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity. SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. In addition, the Statement requires an issuer to classify certain instruments with specific characteristics described in it as liabilities. This Statement is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. The implementation of SFAS No. 150 is not expected to have a material effect on the Company's financial statements.

3. BUSINESS COMBINATIONS AND ACQUISITIONS

Sea Garden Funding, LLC - In November 2001, the Company acquired 80% of Sea Garden Funding, LLC (a South Carolina Limited Liability Company) in exchange for the assumption of certain liabilities. The Company will account for its 80% ownership interest in Sea Garden Funding, LLC using the purchase method of accounting under APB No. 16. The results of operations for the acquired company have been included in the consolidated financial results of the Company from the date of such transaction forward. The Company acquired the project from Sea Garden, LLC on October 21, 2002 for the payment of \$210,000 and the assumption of \$1,071,344.66 in mortgages on the real property held by Horry County State Bank. The remaining 20% interest in Sea Garden Funding, LLC, is owned by an unaffiliated party, Tom Roe, an individual, of Myrtle Beach, South Carolina. The acquisition was made by exercising an option that Creative Holdings, Inc., held on the parcel. The option was not valued as no consideration was given by Creative Holdings to hold the option. The real property held by Sea Garden, LLC was acquired prior to Creative's acquisition of Sea Garden Funding, LLC.

In accordance with APB No. 16, all identifiable assets were assigned a portion of the cost of the acquired company (purchase price) on the basis of their respective fair values. Intangible assets were identified and valued by considering the Company's intended use of the acquired assets and analysis of data concerning products, technologies, markets, historical performance, and underlying assumptions of future performance. The economic environments in which the Company and the acquired company operate were also considered in the valuation analysis.

REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

To the Board of Directors and Stockholders
Altrimega Health Corporation and Subsidiary
Myrtle Beach, South Carolina

We have audited the accompanying consolidated balance sheet of Altrimega Health Corporation and Subsidiary as of December 31, 2003, and the related consolidated statements of operations, stockholders' deficit, and cash flows for the year then ended, for the period from July 3, 2002 (Date of Inception) through December 31, 2002 (restated). These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Altrimega Health Corporation and Subsidiary as of December 31, 2003, and the results of its activities and cash flows for the year then ended, for the period from July 3, 2002 (Date of Inception) through December 31, 2002 (restated) in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has suffered losses from operations and current liabilities exceed current assets, all of which raise substantial doubt about its ability to continue as a going concern. Management's plans in regards to these matters are also described in Note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

As more fully described in Note 5, subsequent to the issuance of the Company's December 31, 2002 financial statements and audited report thereon dated May 20, 2003, the Company became aware that those financial statements did not reflect account balances properly. In the original report, the auditor expressed an unqualified opinion on the December 31, 2002 financial statements, and our opinion on the revised statements, as expressed herein, remains unqualified.

ALTRIMEGA HEALTH CORPORATION AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF BUSINESS, HISTORY, AND SUMMARY OF SIGNIFICANT POLICIES

Description of business - Altrimega Health Corporation (hereinafter referred to as the "Company") was incorporated on July 3, 2002 under the laws of the state of South Carolina. The business purpose of the Company is the development and sale of residential real estate by the acquisition of a real estate development company.

History - Altrimega Health Corporation (AHC) was incorporated under the state of Nevada on September 8, 1998 with the name of Mega International Health Corporation with authorized common stock of 50,000,000 shares with a par value of \$0.001 and preferred stock of 10,000,000 shares with a par value of \$0.001. The terms of the preferred includes conversion rights, at the option of the stockholder of 300 shares of common stock for each share of preferred stock. On June 23, 1999 the name was changed to Altrimega Health Corporation. AHC was organized for the purpose of marketing nutritional products and during the year 2000 became inactive.

On August 15, 2002, AHC consummated an agreement to acquire all of the outstanding capital stock of Creative Holdings, Inc., in exchange for 20,000,000 shares of the Company's common stock and 1,000,000 shares of the Company's preferred stock ("AHC Transaction"). Prior to the AHC Transaction, AHC was a non-operating public shell company with no operations, nominal assets and 22,020,000 shares of common stock issued and outstanding; and Creative Holdings, Inc. was a real estate development company. The AHC Transaction is considered to be a capital transaction in substance, rather than a business combination. Inasmuch, the AHC Transaction is equivalent to the issuance of stock by Creative Holdings, Inc. for the net monetary assets of a non-operational public shell company (AHC), accompanied by a recapitalization. AHC issued 18,499,700 shares of its common stock for all of the issued and outstanding common stock of Creative Holdings, Inc. and another 1,500,300 shares will be issued subsequent to an increase in the authorized common stock pursuant to an amendment to the certificate of incorporation. A recipient of approximately 5,000,000 shares of the common stock returned 4,879,750 shares to the Company, which were cancelled accordingly.

The accounting for the AHC Transaction is identical to that resulting from a reverse acquisition, except goodwill or other intangible assets will not be recorded.

During November 2002, the Company acquired 80% of Sea Garden Funding, LLC by the assumption of certain liabilities. Sea Garden Funding, LLC was organized in the state of South Carolina on November 13, 2002 for the purpose of the development and sale of residential real estate. (See Note 2)

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

Going concern - The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. The Company incurred a net loss of approximately \$133,000 for the year ended December 31, 2003, with an accumulated loss from inception of approximately \$799,000. The Company's current liabilities exceed its current assets by approximately \$475,000 as of December 31, 2003.

These conditions give rise to substantial doubt about the Company's ability to continue as a going concern. These financial statements do not include adjustments relating to the recoverability and classification of reported asset amounts or the amount and classification of liabilities that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to obtain additional financing or sale of its common stock as may be required and ultimately to attain profitability.

Management's plan, in this regard, is to develop and sale real estate in order to provide additional working capital for its future planned activity and to service its debt, which will enable the Company to operate for the coming year.

Principles of consolidation - The consolidated financial statements include the accounts of the Company and its subsidiaries. All significant intercompany balances and transactions have been eliminated.

22

ALTRIMEGA HEALTH CORPORATION AND SUBSIDIARY NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. DESCRIPTION OF BUSINESS, HISTORY, AND SUMMARY OF SIGNIFICANT POLICIES (CONTINUED)

Use of estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Advertising and marketing costs - The Company recognizes advertising and marketing costs in accordance with Statement of Position 93-7 "Reporting on Advertising Costs." Accordingly, the Company expenses the costs of producing advertisements at the time production occurs, and expenses the costs of communication advertising in the period in which the advertising space or airtime is used. Advertising costs are charged to expense as incurred. Advertising expenses was \$6,790 and \$- for the year ended December 31, 2003 and for the period from July 3, 2002 (Date of Inception) through December 31, 2002, respectively.

Fair value of financial instruments - The carrying amounts and estimated fair values of the Company's financial instruments approximate their fair value due to the short-term nature.

Earnings (loss) per share - Basic earnings (loss) per share excludes any dilutive effects of options, warrants and convertible securities. Basic earnings (loss) per share is computed using the weighted-average number of outstanding common shares during the applicable period. Diluted earnings per share is

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

computed using the weighted average number of common and common stock equivalent shares outstanding during the period. Common stock equivalent shares are excluded from the computation if their effect is antidilutive.

Income taxes - The Company accounts for its income taxes in accordance with Statement of Financial Accounting Standards No. 109, which requires recognition of deferred tax assets and liabilities for future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases and tax credit carryforwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

As of December 31 2003, the Company has available net operating loss carryovers of approximately \$800,000 that will expire in various periods through 2023. Such losses may not be fully deductible due to the significant amounts of non-cash service costs. The Company has established a valuation allowance for the full tax benefit of the operating loss carryovers due to the uncertainty regarding realization.

Accounting methods - The Company recognizes income and expenses based on the accrual method of accounting.

Sales of property - Gains from sales of operating properties and revenues from land sales are recognized using the full accrual method provided that various criteria relating to the terms of the transactions and any subsequent involvement by the Company with the properties sold are met. Gains or revenues relating to transactions which do not meet the established criteria are deferred and recognized when the criteria are met or using the installment or cost recovery methods, as appropriate in the circumstances. For land sale transactions under terms in which the Company is required to perform additional services and incur significant costs after title has passed, revenues and costs of sales are recognized proportionately on a percentage of completion basis. Deposits received prior to closing are recorded as a liability until the consummation of the sale at which time such amounts are generally applied toward the purchase price.

Cost of land sales is generally determined as a specific percentage of land sales revenues recognized for each land development project. The cost percentages used are based on estimates of development costs and sales revenues to completion of each project and are revised periodically for changes in estimates or development plans. The specific identification method is used to determine cost of sales of certain parcels of land.

1. DESCRIPTION OF BUSINESS, HISTORY, AND SUMMARY OF SIGNIFICANT POLICIES (CONTINUED)

Properties - Properties under development are carried at cost reduced for impairment losses, where appropriate. Properties held for sale are carried at cost reduced for valuation allowances, where appropriate. Acquisition, development and construction costs of properties in development and land development projects are capitalized including, where applicable, salaries and related costs, real estate taxes, interest and preconstruction costs. The

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

pre-construction development (or an expansion of an existing property) includes efforts and related costs to secure land control and zoning, evaluate feasibility, and complete other initial tasks, which are essential to development. Provisions are made for potentially unsuccessful preconstruction efforts by charges to operations.

Properties held for sale are carried at the lower of their carrying values (i.e., cost less accumulated depreciation and any impairment loss recognized, where applicable) or estimated fair values less costs to sell. Generally, revenues and expenses related to property interests acquired with the intention to resell are not recognized.

Dividend policy - The Company has not adopted a policy regarding payment of dividends.

Comprehensive loss - The Company has no components of other comprehensive loss. Accordingly, net loss equals comprehensive loss for all periods.

Segment information - The Company discloses segment information in accordance with SFAS No. 131, Disclosures about Segments of an Enterprise and Related Information, which uses the Management approach to determine reportable segments. The Company operates under one segment.

Stock-based compensation - The Company applies Accounting Principles Board ("APB") Opinion No. 25, Accounting for Stock Issued to Employees, and Related Interpretations, in accounting for stock options issued to employees. Under APB No. 25, employee compensation cost is recognized when estimated fair value of the underlying stock on date of the grant exceeds exercise price of the stock option. For stock options and warrants issued to non-employees, the Company applies SFAS No. 123, Accounting for Stock-Based Compensation, which requires the recognition of compensation cost based upon the fair value of stock options at the grant date using the Black-Scholes option pricing model.

In December 2002, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure. SFAS No. 148 amends the transition and disclosure provisions of SFAS No. 123. The Company is currently evaluating SFAS No. 148 to determine if it will adopt SFAS No. 123 to account for employee stock options using the fair value method and, if so, when to begin transition to that method.

Net loss per common share - The Company computes net loss per share in accordance with SFAS No. 128, Earnings per Share and SEC Staff Accounting Bulletin No. 98. Under the provisions of SFAS 128 and SAB 98, basic net loss per share is computed by dividing the net loss available to common stockholders for the period by the weighted average number of shares of common stock outstanding during the period. The calculation of diluted net loss per share gives effect to common stock equivalents, however, potential common shares are excluded if their effect is antidilutive. For the year ended December 31, 2003 and the period from July 3, 2002 (Inception) through December 31, 2003, no shares were excluded from the computation of diluted earnings per share because their effect would be antidilutive.

New accounting pronouncements - In July 2001, the FASB issued SFAS No. 143, Accounting for Obligations Associated with the Retirement of Long-Lived Assets. SFAS No. 143 establishes accounting standards for the recognition and measurement of an asset retirement obligation and its associated asset retirement cost. It also provides accounting guidance for legal obligations associated with the retirement of tangible long-lived assets. SFAS No. 143 is effective in fiscal years beginning after June 15, 2002, with early adoption permitted. The adoption of SFAS No. 143 did not have a material impact on the Company's financial statements.

SFAS 144 superseded Statement of Financial Accounting Standards No. 121, Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to Be Disposed Of, and APB Opinion No. 30, Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business, and Extraordinary, Unusual and Infrequently Occurring Events and Transactions. In April 2003, the FASB issued SFAS No. 149, Amendment of SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 149 amends SFAS No. 133 for decisions made (1) as part of the Derivatives Implementation Group process that effectively required amendments to SFAS No. 133, (2) in connection with other Board projects dealing with financial instruments, and (3) in connection with implementation issues raised in relation to the application of the definition of a derivative. The Statement clarifies under what circumstances a contract with an initial net investment meets the characteristics of a derivative discussed in paragraph 6(b) of SFAS No. 133, clarifies when a derivative contains a financing component, amends the definition of underlying to conform it to language used in FASB Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, and amends certain other existing pronouncements. Those changes will result in more consistent reporting of contracts as either derivatives or hybrid instruments. The implementation of SFAS No. 149 did not have a material on the Company's financial statements.

SFAS No. 150 establishes standards for how an issuer classifies and measures certain financial instruments with characteristics of both liabilities and equity. In accordance with APB No. 16, all identifiable assets were assigned a portion of the cost of the acquired company (purchase price) on the basis of their respective fair values. Intangible assets were identified and valued by considering the Company's intended use of the acquired assets and analysis of data concerning products, technologies, markets, historical performance, and underlying assumptions of future performance. The economic environments in which the Company and the acquired company operate were also considered in the valuation analysis.

6. RESTATED FINANCIAL STATEMENTS

Subsequent to the issuance of the Company's financial statements, management became aware that those financial statements did not reflect account balances properly for the period from July 3, 2002 (date of inception) through December 31, 2002. Properly accounting of these items in the revised financial statements has the following effect:

The owner of the unit agreed to a three-month extension of the lease for \$2,400. The Company will then have a unit in one of its other buildings currently under construction for use as a model.

MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

PLAN OF OPERATION

GENERAL

The following discussion and analysis should be read in conjunction with the Condensed Consolidated Financial Statements, and the Notes thereto included herein. The information contained below includes statements of the Company's or management's beliefs, expectations, hopes, goals and plans that, if not historical, are forward-looking statements subject to certain risks and uncertainties that could cause actual results to differ materially from those anticipated in the forward-looking statements. For a discussion on forward-looking statements, see the information set forth in the Introductory Note to this Annual Report under the caption "Forward Looking Statements", which information is incorporated herein by reference.

GOING CONCERN

As reflected in the Company's financial statements for the three months ended September 30, 2004, the Company's accumulated deficit of \$816,044 and its working capital deficiency of \$480,095 raise substantial doubt about its ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on Altrimega's ability to raise additional debt or capital. The financial statements for September 30, 2004 do not include any adjustments that might be necessary if Altrimega is unable to continue as a going concern.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Management's discussion and analysis of our financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires that we make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. At each balance sheet date, management evaluates its estimates. We base our estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. The estimates and critical

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

accounting policies that are most important in fully understanding and evaluating our financial condition and results of operations include those listed below.

REVENUE RECOGNITION

Gains from sales of operating properties and revenues from land sales are recognized using the full accrual method provided that various criteria relating to the terms of the transactions and any subsequent involvement by the Company with the properties sold are met. Gains or revenues relating to transactions which do not meet the established criteria are deferred and recognized when the criteria are met or using the installment or cost recovery methods, as appropriate in the circumstances. For land sale transactions under terms in which the Company is required to perform additional services and incur significant costs after title has passed, revenues and costs of sales are recognized proportionately on a percentage of completion basis. Deposits received prior to closing are recorded as a liability until the consummation of the sale at which time such amounts are generally applied toward the purchase price.

Cost of land sales is generally determined as a specific percentage of land sales revenues recognized for each land development project. The cost percentages used are based on estimates of development costs and sales revenues to completion of each project and are revised periodically for changes in estimates or development plans. The specific identification method is used to determine cost of sales of certain parcels of land.

PROPERTIES

Properties under development are carried at cost reduced for impairment losses, where appropriate. Properties held for sale are carried at cost reduced for valuation allowances, where appropriate. Acquisition, development and construction costs of properties in development and land development projects are capitalized including, where applicable, salaries and related costs, real estate taxes, interest and preconstruction costs. The pre-construction development (or an expansion of an existing property) includes efforts and related costs to secure land control and zoning, evaluate feasibility, and

28

complete other initial tasks, which are essential to development. Provisions are made for potentially unsuccessful preconstruction efforts by charges to operations.

Properties held for sale are carried at the lower of their carrying values (i.e., cost less accumulated depreciation and any impairment loss recognized, where applicable) or estimated fair values less costs to sell. Generally, revenues and expenses related to property interests acquired with the intention to resell are not recognized.

Stock-based compensation - The Company applies Accounting Principles Board ("APB") Opinion No. 25, Accounting for Stock Issued to Employees, and Related Interpretations, in accounting for stock options issued to employees. Under APB No. 25, employee compensation cost is recognized when estimated fair value of the underlying stock on date of the grant exceeds exercise price of the stock option. For stock options and warrants issued to non-employees, the Company applies SFAS No. 123, Accounting for Stock-Based Compensation, which requires the recognition of compensation cost based upon the fair value of stock options at the grant date using the Black-Scholes option pricing model.

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

In December 2002, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure. SFAS No. 148 amends the transition and disclosure provisions of SFAS No. 123. The Company is currently evaluating SFAS No. 148 to determine if it will adopt SFAS No. 123 to account for employee stock options using the fair value method and, if so, when to begin transition to that method.

PRINCIPLES OF CONSOLIDATION

The consolidated financial statements shown in this report excludes the historical operating information of the parent before September 30, 2002, and includes the operating information of the subsidiary, Creative Holdings, Inc., from July 3, 2002 (date of inception of the subsidiary), and the operating information of Sea Garden Funding, LLC from November 2002 (the date of the purchase of 80% of the LLC) to December 31, 2002.

All intercompany transactions have been eliminated.

RESTATEMENT OF FINANCIAL STATEMENTS FOR THE FISCAL YEAR ENDED DECEMBER 31, 2002

Subsequent to the issuance of the Company's financial statements, management became aware that those financial statements did not reflect account balances properly for the period from July 3, 2002 (date of inception) through December 31, 2002. Properly accounting of these items in the revised financial statements has the following effect:

For the period from July 3, 2002 (date of inception) through December 31, 2002, the change in the statement of operations primarily related to the accounting for the share exchange agreement between the Company and Creative Holdings, Inc., which was not properly reported as a transaction identical to that resulting from a reverse acquisition, except goodwill or other intangible assets are not recorded. The net change of \$171,756 increased the net loss from \$494,507 (\$0.01 per weighted average common share outstanding) to \$666,263 (\$0.06 per weighted average common share outstanding) for the period from July 3, 2002 (date of inception) through December 31, 2002. The Company has filed an amendment to its Form 10-KSB for fiscal year ended December 31, 2002, as well as amendments to its quarterly reports for fiscal year 2003.

LIQUIDITY AND CAPITAL RESOURCES

The Company's financial statements have been prepared on a going concern basis that contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company realized net income of \$48,964 and incurred a net loss of \$(11,121) for the periods ended September 30, 2004 and September 30, 2003, respectively, and has an accumulated deficit of \$816,044 at September 30, 2004. As of September 30, 2004, we had total assets of \$1,645,916 and total liabilities of \$2,031,451, a

31

difference of \$385,535. Additionally, our current assets were \$1,551,356 and our current liabilities were \$2,031,451, creating a working capital deficit of \$480,095. The majority of the assets, \$1,500,577 consist of building sites contained within the Sea Garden town home community.

Consequently, the majority of our liabilities, \$1,539,7885 are mortgage loans on the Sea Garden assets. Accounts payable to related parties equal to \$263,688 are also included in our liabilities. Management recognizes that the Company must generate or obtain additional capital to enable it to continue operations. Management is planning to obtain additional capital principally through the sale of equity securities. The realization of assets and satisfaction of liabilities in the normal course of business is dependent upon the Company obtaining additional equity capital and ultimately obtaining profitable operations. However, no assurances can be given that Altrimega will be successful in these activities. Should any of these events not occur, the accompanying consolidated financial statements will be materially affected.

We had limited operations and revenues during the period ended September 30, 2004. Our shortfall in working capital has been met through advances from our president, John Gandy, and other shareholders who have advanced funds to pay expenses incurred by the Company from time to time. At no time during the period did these short term loans exceed \$50,000.

For the nine months ended September 30, 2004, the Company provided net cash in operations of \$353,037, no cash for investing activities and had \$398,143 in cash provided by financing activities.

Cash provided by operating activities was \$549,342 for the year ended December 31, 2003, compared to cash used of \$1,394,603 for 2002. The decrease in cash used was due primarily to the sale of properties at the Sea Garden project and the decreased loss from continuing operations.

Cash used by financing activities was \$594,656 during fiscal year 2003, compared to cash provided by financing activities of \$1,441,656 during the same

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

period in 2002. This difference was mainly due to payments on notes payable of \$594,656 in 2003 and proceeds from notes payable of \$1,493,656 in 2002.

We anticipate that we will require significant capital to maintain our corporate viability and execute our plan to develop real estate projects. We anticipate necessary funds will most likely be provided by our existing shareholders, our officers and directors, and outside investors. We will require significant loan guarantees to acquire properties for development and to complete construction on any additional construction projects. We may be required to pledge equity in the Company to induce individuals, officers or directors or other shareholders to guarantee our loans when necessary.

The Company is at present meeting its current obligations from its monthly cash flows, which during 2003, and to date in 2004 has included cash from operations, investor capital, and loans from related parties. However, due to insufficient cash generated from operations, The Company currently does not have internally generated cash sufficient to pay all of its incurred expenses and other liabilities. As a result, the Company is dependent on investor capital and loans to meet its expenses and obligations. Although related party loans have allowed the Company to meet its obligations in the recent past, there can be no assurances that the Company's present methods of generating cash flow will be sufficient to meet future obligations. There can be no assurances that the Company will be able to raise sufficient additional capital in the future.

We have incurred losses since inception. Management believes that it will require approximately \$150,000 in additional capital to fund overall Company operations for the next twelve months. This amount does not include monies necessary to construct new townhouse units at Sea Garden. The Company currently has approximately \$44,640 in cash and cash equivalents as of September 30, 2004.

Plan Of Operation For 2004

As of September 30, 2004, the Company currently derives its revenue from the sale of developed or undeveloped real estate parcels. At present, the Company has one project generating revenues, Sea Garden Town Homes, located in North Myrtle Beach, South Carolina. These Town Homes sell in the \$95,000 to \$105,000 range per Town Home unit. Fifteen units have been completed year to date and eleven of these units have been sold. Thirty-three additional units are under construction and are scheduled for completion by the end of the first quarter of 2005. The Company anticipates based on current sales, deposits and demand for new units that all units will be sold by the end of the first quarter of 2005.

It is important for the Company to raise capital funds through the sale of its common stock in order to provide funding for additional projects. The projected revenues and subsequent net earnings from the Sea Garden project are not adequate to cover the Company's annual operating costs on an ongoing basis.

The Company's current intentions are to locate, evaluate and proceed to finance and develop multiple projects located primarily in the Myrtle Beach, South Carolina area and the Carolinas area of the United States. Management believes that these areas provide the population growth necessary to achieve profits from new construction projects. For the last three years, Horry County, South Carolina has been one of the top three fastest growing counties in the United States. In 1997, Horry County showed a population of only 180,000. Based on current projections and the 2000 census data, the county will have a

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

permanent population of 500,000. The principal industries of the area are tourism related. Myrtle Beach is considered a drive-in market, where tourists will drive their cars rather than fly to the destination. The tourism industry in Myrtle Beach has developed three seasons, spring golf, summer beach vacations and fall golf. The spring and fall golf seasons bring approximately 150,000 visitors per week to play on the areas over 100 golf courses. The summer vacation season brings in approximately 400,000 visitors per week. The average tourist stay is one week.

The Company's business strategy includes a focus on interval ownership properties, also known as time-share properties, that cater to this major tourism industry. As well, the Company intends to develop projects in the medium price ranges for the areas permanent service industry population.

Management intends to attempt to seek out low-risk projects that do not require large financing commitments. In addition, we will continue to evaluate projects throughout the Carolinas in high growth areas.

At present, the Company has no other real estate projects.

Our continuation as a going concern is dependent on our ability to meet our obligations and obtain additional debt or equity financing required until we generate sufficient earnings. Until such time as these projects are generating earnings, we have taken the following steps to revise our operating and financial requirements in an effort to enable us to continue in existence:

- o We have reduced administrative expenses to a minimum by consolidating management responsibilities to our president and chief executive officer.
- o We intend to seek either equity or further debt funding.
- o We intend to attempt to obtain the professional services of third-parties through favorable financing arrangements or payment by the issuance of our common stock.

We believe that the foregoing plan should enable us to generate sufficient funds to continue its operations for the next twelve months.

Management has implemented this plan to attempt to overcome the Company's serious going concern conditions. The first step is to reduce operating costs. To this end the Company's President and Chief Executive Officer, John Gandy, has assumed almost all of the Company's functions from sales and marketing, locating and evaluating new real estate projects, most accounting functions, shareholder relations and general administrative functions. Mr. Gandy has foregone any compensation for the last half of 2003, and has committed to continue with no compensation through at least the first six months of 2004. The Company's Chief Financial Officer is receiving no compensation. The Company anticipates reduced consulting expense in the next fiscal year. Only one consultant is on hand for additional help in evaluating projects and working with the accounting and reporting functions of the Company. Administrative expenses, including mostly legal and accounting charges, will constitute the largest expense items for the year. The Company has made arrangements with these outside professionals to work more efficiently with them to help reduce the overall costs associated with these services.

In addition, the Company has located some potential sources of equity financing that could contribute to the Company's financial requirements in the upcoming fiscal year. This element is especially critical to the Company's going concern situation. Before these sources can be fully explored, the Company must complete the approval of the Proposals.

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

The Company plans to continue operating with small administrative and consulting fees in the next fiscal year in order to continue operations. Continuing to work with its accounting and legal professionals more efficiently, the Company plans to reduce its fees for such services. In addition, the Company plans to utilize only one consultant for accounting services.

The Company's future capital requirements will depend on many factors, including an increase in the Company's real estate projects, and other factors including the results of future operations.

33

From time to time, Altrimega may evaluate potential acquisitions involving complementary businesses, content, products or technologies. As of September 30, 2004, Altrimega had no agreements or understanding with respect to any such acquisition. Altrimega's future capital requirements will depend on many factors, including an increase in Altrimega's real estate projects, and other factors including the results of future operations. However, on December 17, 2004, Altrimega Health Corporation, d/b/a Creative Holdings & Marketing Corporation signed a definitive Share Exchange Agreement to acquire all of the outstanding shares of common stock of Top Gun Sports & Entertainment, Inc., in exchange for the issuance of 15,750,000 shares of the Altrimega Health Corporation common stock to the current shareholders of Top Gun Sports & Entertainment, Inc. The closing of the transaction is conditioned upon Altrimega's shareholders approving a change of the Company's name to Top Gun Sports & Entertainment, Inc., a 1-for-1,000 reverse stock split, and Top Gun Sports receiving a minimum of \$750,000 through a private placement of convertible debt.

For the next 12 months we anticipate that we will need \$750,000 to continue to fund basic operations and to develop the Top Gun Sports operations.

The financial statements and information concerning Top Gun Sports and pro forma financial statements are included in this Information Statement under "Business Combination".

The Statement clarifies under what circumstances a contract with an initial net investment meets the characteristics of a derivative discussed in paragraph 6(b) of SFAS No. 133, clarifies when a derivative contains a financing component, amends the definition of underlying to conform it to language used in FASB Interpretation No. 45, Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, and amends certain other existing pronouncements. Those changes will result in more consistent reporting of contracts as either derivatives or hybrid instruments. This statement is effective for contracts entered into or modified after June 30, 2003 and for hedging relationships designated after June 30, 2003. The implementation of SFAS No. 149 did not have a material on the Company's financial statements.

TOP GUN SPORTS & ENTERTAINMENT INC.
 (A DEVELOPMENT STAGE COMPANY)
 NOTES TO THE FINANCIAL STATEMENTS
 FROM INCEPTION, MARCH 30, 2004 TO SEPTEMBER 26, 2004

NOTE 1. ORGANIZATION OF THE COMPANY AND SIGNIFICANT ACCOUNTING PRINCIPLES

Top Gun Sports & Entertainment Inc. (the "Company") is a privately held corporation formed in March 2004 in the state of Delaware. The Company is currently headquartered in Bohemia, New York.

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

The Company has no business operations to date.

USE OF ESTIMATES - The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make reasonable estimates and assumptions that affect the reported amounts of the assets and liabilities and disclosure of contingent assets and liabilities and the reported amounts of revenues and expenses at the date of the financial statements and for the period they include. Actual results may differ from these estimates.

Cash and interest bearing deposits- For the purpose of calculating changes in cash flows, cash includes all cash balances and highly liquid short-term investments with an original maturity of three months or less.

LONG LIVED ASSETS - The Company reviews for the impairment of long-lived assets whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An impairment loss would be recognized when estimated future cash flows expected to result from the use of the asset and its eventual disposition is less than its carrying amount.

INCOME TAXES - The Company accounts for income taxes in accordance with the Statement of Accounting Standards No. 109 (SFAS No. 109), "Accounting for Income Taxes". SFAS No. 109 requires an asset and liability approach to financial accounting and reporting for income taxes. Deferred income tax assets and liabilities are computed annually for differences between financial statement and income tax bases of assets and liabilities that will result in taxable income or deductible expenses in the future based on enacted tax laws and rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets and liabilities to the amount expected to be realized. Income tax expense is the tax payable or refundable for the period adjusted for the change during the period in deferred tax assets and liabilities.

DEVELOPMENT STAGE COMPANY - the Company has had no operations or revenues since its inception and therefore qualifies for treatment as a development stage company as per Statement of Financial Accounting Standards (SFAS) No. 7. As per SFAS No.7, financial transactions are accounted for as per generally accepted accounting principles. Costs incurred during the development stage are accumulated in "losses accumulated during the development stage" and are reported in the Stockholders' Equity section of the balance sheet.

RECENT ACCOUNTING PRONOUNCEMENTS:

In October 2002, the FASB issued SFAS No. 147, "Acquisitions of Certain Financial Institutions"(SFAS 146). The statement provides guidance on the accounting for the acquisition of a financial institution where the excess of the fair value of liabilities assumed over the fair value of tangible and intangible assets acquired represents goodwill. Management has concluded that the adoption of SFAS 147 would not have had a material impact on the Company's financial position or results of operations.

In December 2002, The FASB issued FAS No. 148, "Accounting for Stock-Based Compensation Transition and Disclosure, an amendment of FASB Statement No. 123". This statement expands the disclosure requirements with respect to stock-based compensation. The transition guidance and annual disclosure provisions of SFAS No. 148 are effective for fiscal years ending after December 15, 2002. The adoption of SFAS No. 148 did not impact the Company's financial position or results of operations.

TOP GUN SPORTS & ENTERTAINMENT INC.
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE FINANCIAL STATEMENTS
FROM INCEPTION, MARCH 30, 2004 TO SEPTEMBER 26, 2004

NOTE 2. GOING CONCERN CONSIDERATIONS

The accompanying financial statements have been presented in accordance with generally accepted accounting principals, which assume the continuity of the Company as a going concern. However, during the period from the Company's inception on March 30, 2004 through September 26, 2004, the Company has experienced, and continues to experience, certain going concern issues related to profitability.

The Company incurred a net loss of \$142,909 since its inception and has no business operations from inception on March 30, 2004 through September 26, 2004.

Management's plans with regard to this matter are as follows:

- o To complete a purchase or a merger with a publicly held company
- o Raise \$1,500,000 by issuing additional convertible promissory notes.
- o Continue to explore opportunities in the sports entertainment market

NOTE 3. FAIR VALUES OF FINANCIAL INSTRUMENTS

The value of cash and accounts payables is estimated to approximate fair market value at September 26, 2004.

NOTE 4. NET LOSS PER SHARE

The Company applies SFAS No. 128, "Earnings per Share" to calculate loss per share. In accordance with SFAS No. 128, basic net loss per share has been computed based on the weighted average of common shares outstanding during the years. Fully diluted loss per share includes the dilutive effects of outstanding common stock equivalents. The effects of the instruments convertible into common stock (see Note 6) at September 26, 2004 were not included in calculating loss per share since their inclusion would be ant-dilutive.

The weighted average of common shares outstanding has been computed as follows:

Shares issued and outstanding	20,100,000
	=====
Weighted average shares outstanding	9,951,233
	=====

NOTE 5. CONCENTRATION OF CREDIT RISK

The Company relies on the financial support of its creditors and majority shareholder. A withdrawal of this support would have a material adverse affect on the Company's financial position and its ability to continue to operate as a going concern.

NOTE 6. ISSUANCE OF CONVERTIBLE DEBENTURES

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

As a result of the transaction, the Company allocated \$840 to a beneficial conversion feature. The beneficial conversion feature is being amortized to interest expense in the statement of operations.

The debentures also have detachable warrants that entitle the holder to purchase 35,000 shares of common stock at an exercise price of \$1.50. The warrants expire in September 2006. As a result of the transaction, the Company allocated \$1,260 of the proceeds to the detachable warrants.

Top Gun Sports & Entertainment Inc.
(a Development Stage Company)

We have examined the pro-forma adjustments reflecting the reverse acquisition of Altrimega Health Corporation described in Note 1 and the application of those adjustments to the historical amounts in the accompanying pro-forma consolidated balance sheet as of November 30, 2004 and the pro-forma consolidated statement of operations, the pro-forma changes in consolidated cash flows and consolidated shareholders' equity from inception, March 30, 2004 through November 30, 2004. The historical financial statements are derived from the historical financial statements of Top Gun Sports & Entertainment Inc., which were audited by us, and of Altrimega Health Corporation, which were reviewed by other accountants, appearing elsewhere herein. Such pro-forma adjustments are based on management's assumptions described in Note 2. Our examination was made in accordance with standards established by the American Institute of Certified Public Accountants and, accordingly, included such procedures as we considered necessary in the circumstances.

The objective of the pro-forma financial information is to show the significant effects of the historical financial information might have been had the acquisition occurred at an earlier date. However the pro-forma consolidated financial statements are not necessarily indicative of the results of operations or related effects on the financial position that would have been attained had the above mentioned acquisition actually occurred earlier.

In our opinion, management's assumptions provide a reasonable basis for presenting the significant effects directly attributable to the acquisition of Altrimega Health Corporation described in Note 1, the related pro-forma adjustments give appropriate effect to those assumptions, and the proper application of those adjustments to the historical financial statements amounts in the pro-forma consolidated balance sheet as of November 30, 2004, and the pro-forma consolidated statement of operations, and pro-forma consolidated statement of cash flows and changes in shareholders' equity from inception, March 30, 2004 through November 30, 2004.

TOP GUN SPORTS & ENTERTAINMENT INC.
 (A DEVELOPMENT STAGE COMPANY)
 NOTES TO THE (UNAUDITED) PRO-FORMA CONSOLIDATED FINANCIAL STATEMENTS
 FROM INCEPTION, MARCH 30, 2004 TO NOVEMBER 30, 2004

NOTE 1. ORGANIZATION OF THE COMPANY AND BASIS OF PRESENTATION

The pro-forma financial statements presented assumes the successful acquisition of Top Gun Sports & Entertainment Inc. by Altrimega Health Corporation detailed in the Form 8-K filed by Altrimega Health Corporation with the Securities and Exchange Commission dated October 13, 2004. The pro-forma financial information presented is not necessarily indicative of what would have occurred had the transaction taken place at a different date.

The pro-forma financial information should be read in conjunction with the historical financial statements of both Top Gun Sports & Entertainment Inc. and Altrimega Health Corporation presented herein.

Top Gun Sports is a privately held corporation formed in March 2004 in the state of Delaware. The Company is currently headquartered in Bohemia, New York.

The Company has no business operations to date.

On October 13, 2004, Top Gun Sports signed a letter of intent to be purchased by Altrimega Health Corp. (AHC) for 26 million shares of AHC. The transaction will be accounted for as a reverse acquisition with TGS deemed to be the accounting acquirer and will ultimately be for 15,000,000 shares of AHC common stock.

Upon the acquisition, Top Gun Sports recognized \$3,096,577 of goodwill, which management deemed impaired since future discounted cash flows from the asset purchased could not be reasonably assured. Consequently, the pro-forma consolidated statement of operations recognizes an impairment charge of \$3,96,577.

NOTE 2. ASSUMPTIONS USED BY MANAGEMENT IN CONSTRUCTING THE PRO-FORMA FINANCIAL STATEMENTS.

(a) AHC will effect a 1,000 for 1 share reverse split of its common stock prior to acquisition reducing its current issued outstanding shares

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

from 49,139,950 shares to 49,140 shares.

(b) Top Gun Sports and AHC will be successful in negotiating with the vendors and related parties of AHC currently owed \$491,663 to accept 5 million shares of common stock of Top Gun Sports after the acquisition.

(c) Top Gun Sports will be successful in raising \$750,000 by issuing 2-year, 9% convertible notes with \$750,000 detachable common stock purchase warrants exercisable at \$1.50 per share prior to acquisition. The acquisition is contingent upon the success of this offering.

(d) Top Gun Sports will be able to successfully effect the acquisition for \$50,000 in legal and accounting fees.

PROPOSAL 1 -

AMENDMENT TO THE ARTICLES OF INCORPORATION TO CHANGE THE COMPANY'S NAME TO TOP GUN SPORTS & ENTERTAINMENT, INC.

Our Company's Board of Directors proposed an amendment to our Company's Articles of Incorporation to change our Company's name from Altrimega Health Corporation to Top Gun Sports & Entertainment, Inc.

The amendment to our Company's Articles of Incorporation shall be filed with the Nevada Secretary of State so that the first paragraph of Article I of the Articles of Incorporation shall be as follows:

"The name of the corporation is Top Gun Sports & Entertainment, Inc."

Our Company's Board of Directors believes that it is desirable to have the Company change its name in light of our share exchange agreement with Top Gun Sports and change in our business focus to the sports & entertainment industry. Moreover, the Company is no longer in the health care industry.

On December 17, 2004, the Company, Top Gun Sports, and the shareholders of Top Gun Sports entered into a Share Exchange Agreement relating to a share exchange transaction. Pursuant to the Share Exchange Agreement, the Company shall receive 100% of the outstanding common stock of Top Gun Sports, and the shareholders of Top Gun Sports shall receive 15,750,000 post reverse split shares of the Company's common stock. The closing of the transaction is contingent on the Company completing the 1-for-1000 reverse stock-split that is subject of this Information Statement.

While Top Gun Sports has no operating history, it intends to build and operate a professional, state-of-the-art multi-venue motorsports and entertainment facilities. Top Gun Sports also intends to pursue acquisitions of motorsports and entertainment facilities and companies across the U.S. Top Gun Sports' first location is slated to be on county-owned land in Yaphank-Suffolk County, Long Island. Top Gun Sports intends to enter into a public/private joint venture with Suffolk County on approximately 376 acres of land in the area west of Yaphank Avenue in the Town of Brookhaven, adjacent to the Grucci Fireworks plant, the Firematic training facility and the county prison farm. Top Gun Sports intends to build the facility in a multi-phased process by which major revenue can be generated by operating venues as they are completed. The family-friendly facility will provide reasonable, affordable sports, recreation and entertainment to all. The construction will be done with the utmost importance and respect given to preserving, sustaining and protecting the

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

environment of the facility and neighboring communities. The Top Gun Sports project will fulfill the need Top Gun Sports believes exists for a major legal motorsport destination on Long Island.

As a condition precedent to the Company closing the share exchange agreement with Top Gun Sports, Top Gun Sports must complete a private placement raising a minimum of \$750,000 and a maximum of \$1,500,000 through the sale of 2-year, 9% convertible notes. The fixed conversion price of the convertible notes is \$0.50 per share of common stock. Top Gun Sports shall issue a warrant to purchase 1 share of stock at an exercise price of \$1.50 per share for each \$1.00 of convertible notes purchased.

Accordingly, the Company believes "Top Gun Sports & Entertainment, Inc." is an appropriate name for the Company.

RECOMMENDATION OF THE BOARD OF DIRECTORS

Our Board of Directors unanimously recommended a vote "FOR" the approval of an amendment to our Company's Articles of Incorporation to change the company name from Altrimega Health Corporation to Top Gun Sports & Entertainment, Inc.

54

PROPOSAL 2 -

AMENDMENT TO THE ARTICLES OF INCORPORATION TO APPROVE A 1-FOR-1000 STOCK SPLIT

Our Company's Board of Directors proposed to approve a 1-for-1000 reverse stock split of the Company's outstanding shares of common stock, par value \$0.001 per share, from 49,139,950 shares outstanding to 49,140 shares and have the authorized shares remain the same at 50,000,000 shares authorized.

The proposal to approve the reverse split would make available 49,950,860 additional shares of our Company's common stock for issuance. Currently, 49,139,950 shares of our Company's common stock are issued and outstanding of the 50,000,000 authorized shares of common stock. None of the current authorized and unissued shares of common stock are reserved for specific purposes, except the Company intends to issue 15,750,000 shares to the current shareholders of Top Gun Sports if the share exchange agreement is consummated and possibly use 5,000,000 shares for the satisfaction of the Company's accounts payable.

PURPOSE OF COMMON STOCK

On December 17, 2004, the Company, Top Gun Sports, and the shareholders of Top Gun Sports entered into a Share Exchange Agreement relating to a share exchange transaction. Pursuant to the Share Exchange Agreement, the Company shall receive 100% of the outstanding common stock of Top Gun Sports, and the shareholders of Top Gun Sports shall receive 15,750,000 post reverse split shares of the Company's common stock. The closing of the transaction is contingent on the Company completing the 1-for-1000 reverse stock-split that is subject of this Information Statement, and Top Gun Sports completing a private placement raising a minimum of \$750,000 and a maximum of \$1,500,000 through the sale of 2-year, 9% convertible notes. The fixed conversion price of the convertible notes is \$0.50 per share of common stock. Top Gun Sports shall issue a warrant to purchase 1 share of stock at an exercise price of \$1.50 per share for each \$1.00 of convertible notes purchased.

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

While Top Gun Sports has no operating history, it intends to build and operate a professional, state-of-the-art multi-venue motorsports and entertainment facilities. Top Gun Sports also intends to pursue acquisitions of motorsports and entertainment facilities and companies across the U.S. Top Gun Sports' first location is slated to be on county-owned land in Yaphank-Suffolk County, Long Island. Top Gun Sports intends to enter into a public/private joint venture with Suffolk County on approximately 376 acres of land in the area west of Yaphank Avenue in the Town of Brookhaven, adjacent to the Grucci Fireworks plant, the Firematic training facility and the county prison farm. Top Gun Sports intends to build the facility in a multi-phased process by which major revenue can be generated by operating venues as they are completed. The construction will be done with the utmost importance and respect given to preserving, sustaining and protecting the environment of the facility and neighboring communities. The Top Gun Sports project will fulfill the need for a major legal motorsport destination on Long Island.

The proposal to approve a reverse split to the Company's common stock that would reduce the issued and outstanding shares from 49,139,950 shares outstanding to 49,140 shares and leave the authorized at 50,000,000 shares.

There are certain advantages and disadvantages of voting for an reverse split in the Company's outstanding common stock. The advantages include:

- o The ability of the Company to satisfy the obligations pursuant to the Share Exchange Agreement with Top Gun Sports.
- o The ability to raise capital by issuing capital stock under financing transactions, if any.
- o To have shares of common stock available to pursue business expansion opportunities, if any.

The disadvantages include:

- o Dilution to the existing shareholders, including a decrease in our net income per share in future periods. This could cause the market price of our stock to decline.

55

Other than as described in this Information Statement, the Company does not have any current plans to issue the remaining authorized shares of common stock for any acquisitions, financings or otherwise.

The issuance of authorized but unissued stock could be used to deter a potential takeover of the Company that may otherwise be beneficial to shareholders by diluting the shares held by a potential suitor or issuing shares to a shareholder that will vote in accordance with the desires of the Company's Board of Directors, at that time. A takeover may be beneficial to independent shareholders because, among other reasons, a potential suitor may offer such shareholders a premium for their shares of stock compared to the then-existing market price. The Company does not have any plans or proposals to adopt provisions or enter into agreements that may have material anti-takeover consequences.

RECOMMENDATION OF THE BOARD OF DIRECTORS

Edgar Filing: ALTRIMEGA HEALTH CORP - Form PRE 14C

Our Board of Directors unanimously recommended the approval of an 1-for-1000 reverse stock split that would keep the authorized shares at 50,000,000 and reduce the issued and outstanding shares from 49,139,950 shares outstanding to 49,140 shares.

As of January 12, 2005, we had 49,139,950 shares of our common stock outstanding. The following description is a summary of the capital stock of our Company and contains the material terms of our capital stock. Additional information can be found in our Articles of Incorporation and our Bylaws.

COMMON STOCK

Each share of our common stock entitles the holder to one vote on each matter submitted to a vote of our shareholders, including the election of directors. There is no cumulative voting. The holders of our common stock are entitled to receive ratably such dividends, if any, as may be declared from time to time by our Board of Directors out of funds legally available therefor.

ANTI-TAKEOVER EFFECTS OF PROVISIONS OF THE ARTICLES OF INCORPORATION, BYLAWS AND FLORIDA LAW

AUTHORIZED BUT UNISSUED STOCK. Authorized but unissued shares of common stock and preferred stock would be available for future issuance without our shareholders' approval. These additional shares may be utilized for a variety of corporate purposes including, but not limited to, future public or direct offerings to raise additional capital, corporate acquisitions and employee incentive plans. The issuance of such shares may also be used to deter a potential takeover of the Company that may otherwise be beneficial to shareholders by diluting the shares held by a potential suitor or issuing shares to a shareholder that will vote in accordance with the Company's Board of Directors' desires. A takeover may be beneficial to shareholders because, among other reasons, a potential suitor may offer shareholders a premium for their shares of stock compared to the then-existing market price.

The existence of authorized but unissued and unreserved shares of preferred stock may enable the Board of Directors to issue shares to persons friendly to current management, which would render more difficult or discourage an attempt to obtain control of the Company by means of a proxy contest, tender offer, merger or otherwise, and thereby protect the continuity of the Company's management.

DIVIDENDS

The Company has not declared or paid cash dividends on its common stock since its inception and does not anticipate paying such dividends in the foreseeable future.
