OUTSTANDING SHARES AND VOTING RIGHTS

As of the Record Date, our authorized capitalization consisted of 100,000,000 shares of common stock (the “Common Stock”), of which 78,897,114 shares were issued and outstanding.

Each share of Common Stock entitles its holder to one vote on each matter submitted to the shareholders. However, because shareholders holding at least a majority of the voting rights of all outstanding shares of capital stock at the Record Date (the “Majority Shareholder”) have voted in favor of the foregoing proposals by resolution dated April 21, 2009 and having sufficient voting power to approve such proposals through their ownership of capital stock, no other shareholder consents will be solicited in connection with this Information Statement.

Pursuant to Rule 14c-2 under the Securities Exchange Act of 1934, as amended, the proposals will not be adopted until a date at least 20 days after the date on which this Information Statement has been mailed to the shareholders of the Company as of the Record Date. We anticipate that the actions contemplated herein will be effected on or about June 3, 2009.

We have asked brokers and other custodians, nominees and fiduciaries to forward this Information Statement to the beneficial owners of the Common Stock held of record by such persons and will reimburse such persons for out-of-pocket expenses incurred in forwarding such material.

Distributions and Costs

We will pay all costs associated with the distribution of this Information Statement, including the costs of printing and mailing. We will only deliver one Information Statement to multiple shareholders sharing an address, unless we have received contrary instructions from one or more of the shareholders. Also, we will promptly deliver a separate copy of this Information Statement and future shareholder communication documents to any shareholder at a shared address to which a single copy of this Information Statement was delivered, or deliver a single copy of this Information Statement and future shareholder communication documents to any shareholder or shareholders sharing an address to which multiple copies are now delivered, upon written request to us at our address noted above.

Shareholders may also address future requests regarding delivery of information statements and annual reports by contacting us at our address above.

No Dissenters’ Rights

The Nevada Revised Statutes do not provide for dissenter's rights in connection with any of the actions described in this Information Statement, and we will not provide shareholders with any such right independently.

AMENDMENTS TO THE ARTICLES OF INCORPORATION

NAME CHANGE

We intend to file a Certificate of Amendment to our Articles of Incorporation effectuating the name change with the Secretary of State of Nevada (the “Name Change”). This amendment to our Articles of Incorporation will become effective at the close of business on the date the amendment to the Articles of Incorporation is accepted for filing by the Secretary of State of Nevada. It is presently contemplated that such filing will be made on or about June 3, 2009, twenty days (20) after this Information Statement is first mailed to our shareholders.

Reasons for the Name Change

The Company’s Board of Directors, as well as the Majority Shareholder believes that the Name Change is in the Company’s best interest and is intended to more accurately reflect the Company’s operations and interests. At present, the Company is no longer engaged in the technology business but in the sports and entertainment industry. The proposed name is intended to stand for “excellence in entertainment” and is intended to better reflect the future operations of the Company.

You are not required to exchange your certificate(s) of Siena Technologies, Inc. for new stock certificates reflecting our new name of XnE, Inc., although you may do so if you wish.

THE REVERSE STOCK SPLIT OF COMMON STOCK

Our Board of Directors and the Majority Shareholder have also approved an amendment to our Articles of Incorporation to effect a Five Hundred-to-One reverse stock split of our Common Stock (the “Stock Split”).

Background

We currently have 100,000,000 shares of Common Stock authorized, and approximately 78,897,114 shares of Common Stock are outstanding as of the Record Date. Our Board of Directors and Majority Shareholder believe that the price of our Common Stock is too low to attract investors to buy the stock. In order to proportionally raise the per share price of our Common Stock, our Board of Directors and the Majority Shareholder believe that it is in our best interest to implement the Stock Split by reducing the number of shares of Common Stock outstanding. In addition, our Board of Directors and the Majority Shareholder believe that the share price of the Common Stock is a factor in whether the Common Stock meets investing guidelines for certain institutional investors and investment funds. Finally, our Board of Directors and Majority Shareholder believe that we will benefit from relatively lower trading costs for a higher priced stock. The combination of lower transaction costs and increased interest from institutional investors and investment funds may ultimately improve the trading liquidity of our Common Stock. Our Board of Directors and Majority Shareholder are not implementing the reverse stock split in anticipation of any future transaction or series of transactions, including any “going private” transaction. However, the Company may issue shares of its common stock to certain private investors who may provide additional working capital to the Company. The Company is in discussions with several potential investors, however, as of the date of this information statement, no definitive agreement has been entered into between such potential investors and the Company.

Table of Contents

Material Effects of the Reverse Stock Split

The Stock Split will be affected simultaneously for all Common Stock, and the ratio will be the same for all shareholders of Common Stock. The Stock Split will effect all of our shareholders uniformly and will not effect any shareholder's percentage ownership interests, except to the extent that the reverse stock split results in fractional share ownership.

The principal effect of the reverse stock split will be to reduce the number of shares of Common Stock issued and outstanding from approximately 78,897,114 shares as of May 5, 2009 to approximately 157,794 shares.

In addition, the Stock Split may increase the number of shareholders who own odd lots (less than 100 shares). Shareholders who hold odd lots may experience an increase in the cost of selling their shares and may have greater difficulty in affecting sales.

Effect on Fractional Shareholders

Shareholders will not receive fractional post-reverse stock split shares in connection with the Stock Split and we will not be paying any cash to shareholders for any fractional shares from the reverse split. Instead, any resulting fractional shares shall be rounded up to the nearest whole number.

Effect on Registered and Beneficial Shareholders

Upon the Stock Split, we intend to treat shareholders holding Common Stock in "street name," through a bank, broker or other nominee, in the same manner as registered shareholders whose shares are registered in their names. Banks, brokers or other nominees will be instructed to affect the reverse stock split for their beneficial holders holding of Common Stock in "street name." However, such banks, brokers or other nominees may have different procedures than registered shareholders for processing the reverse stock split. Shareholders who hold their shares of Common Stock with such a bank, broker or other nominee and who have any questions in this regard are encouraged to contact their nominees.

Effect on Registered Certificated Shares

Shareholders whose shares are held in certificate form will receive a transmittal letter from our transfer agent, Standard Registrar & Transfer Co., as soon as practicable after the effective date of the Stock Split. The letter of transmittal will contain instructions on how to surrender certificate(s) representing pre-reverse stock split shares to the transfer agent. No new shares will be issued until outstanding certificate(s) are surrendered, together with a properly completed and executed letter of transmittal, to the transfer agent. Shareholders should not submit any certificate(s) until requested to do so.

Procedure for Affecting Reverse Stock Split

The Stock Split will become effective on the date we file Amended Articles of Incorporation with the State of Nevada, which is referred to as the "Effective Date." Beginning on the Effective Date, each certificate representing pre-reverse stock split shares will be deemed for all corporate purposes to evidence ownership of post-reverse stock split shares. The text of the Amended Articles of Incorporation is subject to modification to include such changes as may be required by the office of the Secretary of State of the State of Nevada and as the Board of Directors deems necessary and advisable to affect the reverse stock split.

Table of Contents

Certain Risk Factors Associated with the Reverse Stock Split

Implementation of the Stock Split entails various risks and uncertainties, including but not limited to the following:

- There can be no assurance that the market price per share of Common Stock after the Stock Split will remain unchanged or increase in proportion to the reduction in the number of shares of Common Stock outstanding before the Stock Split. Accordingly, our total market capitalization after the Stock Split may be lower than the total market capitalization before the Stock Split.
- After the Stock Split is affected, if the market price of our Common Stock declines, the percentage decline may be greater than would occur in the absence of a reverse stock split.
- There can be no assurance that the Stock Split will result in a per share price that will attract institutional investors or investment funds or that such share price will satisfy the investing guidelines of institutional investors or investment funds. As a result, the trading liquidity of the Common Stock may not necessarily improve.
- The reduced number of shares that would be outstanding after the Stock Split could adversely affect the liquidity of the Common Stock.

Authorized Shares

The Stock Split will affect all issued and outstanding shares of Common Stock and outstanding rights to acquire Common Stock. Upon the effectiveness of the Stock Split, the number of authorized shares of Common Stock that are now issued or outstanding would increase due to the reduction in the number of shares of Common Stock issued and outstanding.

We currently have 100,000,000 shares of authorized Common Stock and 78,897,114 shares of Common Stock issued and outstanding as of May 5, 2009. Authorized but unissued shares of Common Stock will be available for issuance, and we may issue such shares in the future. However, we have no current plans to issue any additional shares of Common Stock. If we issues additional shares of Common Stock, the ownership interest of holders of the Common Stock will be diluted.

The following table sets forth information regarding the Company's current and anticipated number of authorized shares and issued and outstanding shares of the Common Stock following implementation of the reverse stock split.

	Number of Shares of Common Authorized	Number of Shares of Common Stock Issued and Outstanding	Number of Shares of Common Stock Reserved for Issuance	Number of Shares of Common Stock Available for Issuance
As of May 5, 2009	100,000,000	78,897,114	0	21,102,886
After 500 for 1 reverse stock split	100,000,000	157,794	0	99,842,206

Accounting Matters

The Stock Split will not affect the par value of the Common Stock. As a result, as of the effective time of the Stock Split, the stated capital attributable to the Common Stock on our balance sheet will be reduced proportionately based on the reverse stock split ratio of Five Hundred-for-One, and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. The per-share net income or loss and net book value of the Common Stock will be restated because there will be fewer shares of the Common Stock outstanding.

Table of Contents

Potential Anti-Takeover Effect

Although the increased proportion of un-issued authorized shares to issued shares could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of the Board of Directors or contemplating a tender offer or other transaction for the combination of the Company with another company), the Stock Split proposal is not being undertaken in response to any effort of which the Board of Directors is aware to accumulate shares of the Common Stock or obtain control of our Company. Other than the Stock Split, the Board of Directors does not currently contemplate the adoption of any other amendments to the Articles of Incorporation that could be construed to affect the ability of third parties to take over or change the control of our Company.

No Appraisal Rights

The Nevada Revised Statutes do not provide for dissenter's rights in connection with any of the actions described in this Information Statement and the Company will not provide shareholder with any such right independently.

Federal Income Tax Consequences of the Stock Split

The following is a summary of the material federal income tax consequences of the proposed Stock Split. This discussion is based on the Internal Revenue Code, the Treasury Regulations promulgated thereunder, judicial opinions, published positions of the Internal Revenue Service, and all other applicable authorities as of the date of this document, all of which are subject to change (possibly with retroactive effect). This discussion does not describe all of the tax consequences that may be relevant to a holder in light of his particular circumstances or to holders subject to special rules (such as dealers in securities, financial institutions, insurance companies, tax-exempt organizations, foreign individuals and entities, and persons who acquired their Common Stock as compensation). In addition, this summary is limited to shareholders that hold their Common Stock as capital assets. This discussion also does not address any tax consequences arising under the laws of any state, local or foreign jurisdiction.

ACCORDINGLY, EACH SHAREHOLDER IS STRONGLY URGED TO CONSULT WITH A TAX ADVISER TO DETERMINE THE PARTICULAR FEDERAL, STATE, LOCAL OR FOREIGN INCOME OR OTHER TAX CONSEQUENCES TO SUCH SHAREHOLDER OF THE STOCK SPLIT.

No gain or loss should be recognized by a shareholder upon such shareholder's exchange of pre-reverse stock split shares for post-reverse stock split shares pursuant to the Stock Split. The aggregate tax basis of the post-reverse stock split shares received in the Stock Split will be the same as the shareholder's aggregate tax basis in the pre-reverse stock split shares exchanged therefore. The shareholder's holding period for the post-reverse stock split shares will include the period during which the shareholder held the pre-reverse stock split shares surrendered in the Stock Split.

The tax treatment of each shareholder may vary depending upon the particular facts and circumstances of such shareholder. Each shareholder is urged to consult with such shareholder's own tax advisor with respect to the tax consequences of the Stock Split. Each shareholder should consult with his or her own tax advisor with respect to all of the potential tax consequences to him or her of the Stock Split.

Table of Contents

Effective Date of the Amendments

The Name Change and the Stock Split will become effective upon our filing of the Certificate of Amendment with the Nevada Secretary of State. Pursuant to Rule 14c-2 under the Exchange Act, the foregoing proposals may not become effective until a date at least 20 days after the date on which this Information Statement has been mailed to the shareholders. We anticipate filing the Certificate of Amendment on or about the close of business on June 3, 2009.
