CALCULATION OF REGISTRATION FEE

Title of Securities to be Registered	Amount to Be Registered		nProposed Maximum Aggregate Offering	
Common Stock, \$0.01 par value per share	100,000,000 shares	\$ 10.00	\$ 1,000,000,000	\$55,800.00
Common Stock, \$0.01 par value per share	10,000,000 shares ⁽¹⁾	\$ 9.50	\$ 95,000,000	\$5,580.00

Represents shares to be issued pursuant to distribution reinvestment program. The offering price per share issuable (1)pursuant to the distribution reinvestment program is estimated for purposes of calculating the registration fee at \$9.50 per share.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933 or until the Registration Statement shall become effective on such date as the Commission, acting pursuant to said Section 8(a), may determine.

The information in this prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. The prospectus is not an offer to sell the securities and it is not soliciting an offer to buy these securities in any state where the offer or sale is not permitted.

PRELIMINARY PROSPECTUS DATED JUNE 19, 2009 SUBJECT TO COMPLETION

250,000 shares of common stock minimum offering 110,000,000 shares of common stock maximum offering

EMPIRE AMERICAN REALTY TRUST, INC.

\$10.00 PER SHARE Minimum Initial Purchase 200 Shares

Empire American Realty Trust, Inc. is a newly formed Maryland corporation incorporated on March 26, 2009 and sponsored by Empire American Holdings, LLC, one of the largest private property holders in the United States. We are offering up to 100,000,000 shares of common stock to investors who meet our suitability standards and up to 10,000,000 shares of common stock to participants in our distribution reinvestment program. The dealer manager of the offering, Empire American Realty, LLC, has applied for membership as a member firm of the Financial Industry Regulatory Authority. Our dealer manager is not required to sell a specific number or dollar amount of shares but will use its best efforts to sell 100,000,000 of our shares and may engage third party soliciting dealers in connection with this offering.

Investing in us involves a high degree of risk. See Risk Factors beginning on page 14 for a discussion of the risks which should be considered in connection with your investment in our common stock. Some of these risks include:

We are a blind pool offering because we do not currently own any properties, we have not identified any properties to acquire with the offering proceeds and we have no operating history or established financing sources;

No public market currently exists for our shares of common stock, no public market for such shares may ever exist and our shares are illiquid;

There are substantial conflicts between the interests of our investors, our interests and the interests of our advisor, sponsor and our respective affiliates regarding affiliate compensation, investment opportunities and management resources;

We may maintain a level of leverage as high as 75% of the aggregate fair market value of our properties;

As long as we maintain our status as a real estate investment trust for U.S. federal income tax purposes (a

REIT), five or fewer individuals are generally prohibited from beneficially owning more than 50% of our outstanding shares during the last half of each taxable year;

Our investment objectives and strategies may be changed without stockholder consent; We are obligated to pay substantial fees to our advisor and its affiliates, including fees payable upon the sale of properties, and our incentive fee structure may result in our advisor recommending riskier or more speculative investments;

Although our distribution policy is not to use the proceeds of this offering to make distributions, our organizational documents permit us to pay distributions from any source, including offering proceeds. Until the proceeds from this offering are fully invested and from time to time during our operational stage, we may use proceeds from this offering and financings to fund distributions in anticipation of cash flow to be received in later periods;

We are not yet a REIT and may be unable to qualify as a REIT; and The current economic downturn and disruption in the financial markets could have an adverse impact on our tenant s ability to make rental payments and the demand for rental space.

This offering will end no later than , 2011 unless we elect to extend it to a date no later than , 2012 in states that permit us to make this one-year extension. We will deposit subscription payments in an escrow account held by the escrow agent, , in trust for the subscriber s benefit, pending release to us. A minimum of 250,000 shares of common stock must be sold within one year following this offering or we will terminate this offering and promptly return your subscription payments with your pro rata share of the interest earned on such funds in accordance with the provisions of the escrow agreement. Subscription payments held in escrow will be placed in short term, low risk, highly liquid,

interest bearing investments prior to our investments in real estate related assets. If a refund is made because of a failure to achieve the minimum offering, our sponsor will pay any escrow fees and no amounts will be deducted from the escrow funds. If we do achieve the minimum offering, we will return all interest earned on proceeds in the escrow account prior to achieving the minimum offering and completing our initial issuance of shares to subscribers.

PENNSYLVANIA AND MASSACHUSETTS INVESTORS: The minimum closing amount is \$2,500,000. Because the minimum closing amount is less than \$50,000,000, you are cautioned to carefully evaluate the program s ability to fully accomplish its stated objectives and inquire as to the current dollar volume of the program subscriptions. We will not release any Pennsylvania or Massachusetts proceeds for subscriptions from escrow until we have \$50,000,000 in subscriptions.

These are speculative securities and this investment involves a high degree of risk. You should purchase these securities only if you can afford a complete loss of your investment.

The use of forecasts in this offering is prohibited. Any representation to the contrary and any predictions, written or oral, as to the amount or certainty of any present or future cash benefit or tax consequence which may flow from an investment in us is not permitted.

(1) We reserve the right to reallocate shares of common stock being offered between the primary offering and our distribution reinvestment plan.

(2) Proceeds are calculated before reimbursing our advisor for organization and offering expenses. Neither the Securities and Exchange Commission, the Attorney General of the State of New York nor any other state securities regulator has approved or disapproved of our common stock, determined if this prospectus is truthful or complete or passed on or endorsed the merits of this offering. Any representation to the contrary is a criminal offense.

INVESTOR SUITABILITY STANDARDS

An investment in our common stock is suitable only for persons who have adequate financial means and desire a relatively long-term investment. We have established suitability standards for investors who purchase our common stock. These suitability standards are intended to help ensure, given the high degree of risk inherent in, the long-term nature of an investment in, and the relative illiquidity of, our shares, that shares of our common stock are an appropriate investment for those of you who become investors. In addition, residents of some states must meet higher suitability standards under state law. These standards require you to meet the applicable criteria below. In determining your net worth, do not include your home, home furnishings or your automobile. Notwithstanding these investor suitability standards, potential investors should note that investing in shares of our common stock involves a high degree of risk and should consider all of the information contained in this prospectus, including the Risk Factors section contained herein, in determining whether an investment in our common stock is appropriate.

The minimum purchase is 200 shares (\$2,000), except in certain states. The minimum purchase for New York residents is 250 shares (\$2,500), except for IRAs which must purchase a minimum of 100 shares (\$1,000). Following an initial subscription for at least the required minimum investment, any investor may make additional purchases in increments of at least 100 shares (\$1,000), except for purchases made by residents of states with a different requirement, whose additional investments must meet their state's minimum investment amount, and purchases of shares pursuant to our distribution reinvestment plan, which may be in lesser amounts.

General Standards for all Investors. Investors must have either (a) a net worth of at least \$250,000 or (b) an annual gross income of \$70,000 and a minimum net worth of \$70,000.

Kentucky. Investors must have either (a) a net worth of at least \$250,000 or (b) an annual gross income of at least \$70,000 and a minimum net worth of at least \$70,000, with the amount invested in this offering not to exceed 10% of the Kentucky investor s liquid net worth.

Arkansas and Iowa. Investors must have either (a) a net worth of at least \$350,000 or (b) an annual gross income of at least \$70,000 and a minimum net worth of at least \$100,000. In addition, shares will only be sold to Arkansas and Iowa residents that represent that they have a combined liquid net worth of at least 10 times the amount of their investment in this real estate investment program and other similar programs.

Massachusetts, Michigan, Ohio, Oregon, Pennsylvania and Washington. Investors must have either (a) a net worth of at least \$250,000 or (b) an annual gross income of at least \$70,000 and a minimum net worth of at least \$70,000. The investor s maximum investment in the issuer and its affiliates cannot exceed 10% of the Massachusetts, Michigan, Ohio, Oregon, Pennsylvania or Washington investor s net worth.

Kansas, Missouri and California. In addition to the general suitability standards described above, it is recommended that investors should invest no more than 10% of their liquid net worth in our shares and securities of other REITs. Liquid net worth is defined as that portion of net worth (total assets minus total liabilities) that is comprised of cash, cash equivalents and readily marketable securities.

Alabama. In addition to the general suitability standards above, shares will only be sold to Alabama residents that represent that they have a liquid net worth of at least 10 times the amount of their investment in this real estate investment program and other similar programs.

Tennessee. In addition to the general suitability standards described above, the Tennessee resident s maximum investment in the issuer and its affiliates must not exceed 10% of their liquid net worth.

Because the minimum offering of our common stock is less than \$50,000,000, Pennsylvania and Massachusetts investors are cautioned to carefully evaluate our ability to fully accomplish our stated objectives and to inquire as to the current dollar volume of our subscription proceeds. Further, the minimum aggregate closing amount for Pennsylvania and Massachusetts investors is \$50,000,000.

The foregoing suitability standards must be met by the investor who purchases the shares. In the case of sales to fiduciary accounts, these minimum standards must be met by the beneficiary, the fiduciary account or by the donor or grantor who directly or indirectly supplies the funds to purchase the common stock if the donor or the

i

grantor is the fiduciary. Investors with investment discretion over assets of an employee benefit plan covered by ERISA should carefully review the information in the ERISA Considerations section of this prospectus.

In the case of gifts to minors, the suitability standards must be met by the custodian of the account or by the donor.

In order to ensure adherence to the suitability standards described above, requisite criteria must be met, as set forth in the subscription agreement in the form attached hereto as Appendix C. In addition, our sponsor, our dealer manager and the soliciting dealers, as our agents, must make every reasonable effort to determine that the purchase of our shares is a suitable and appropriate investment for an investor. In making this determination, the soliciting dealers will rely on relevant information provided by the investor in the investor s subscription agreement, including information regarding the investor s age, investment objectives, investment experience, income, net worth, financial situation, other investments, and any other pertinent information. Executed subscription agreements will be maintained in our records for 6 years.

RESTRICTIONS IMPOSED BY THE USA PATRIOT ACT AND RELATED ACTS

In accordance with the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001, as amended (the USA PATRIOT Act), the units offered hereby may not be offered, sold, transferred or delivered, directly or indirectly, to any Prohibited Shareholder, which means anyone who is:

a designated national, specially designated national, specially designated terrorist, specially designated global terrorist, foreign terrorist organization, or blocked person within the definitions set forth in the Foreign Assets Control Regulations of the U.S. Treasury Department;

acting on behalf of, or an entity owned or controlled by, any government against whom the U.S. maintains economic sanctions or embargoes under the Regulations of the U.S. Treasury Department;

within the scope of Executive Order 13224 Blocking Property and Prohibiting Transactions with Persons who Commit, Threaten to Commit, or Support Terrorism, effective September 24, 2001;

subject to additional restrictions imposed by the following statutes or regulations, and executive orders issued thereunder: the Trading with the Enemy Act, the Iraq Sanctions Act, the National Emergencies Act, the Antiterrorism and Effective Death Penalty Act of 1996, the International Emergency Economic Powers Act, the United Nations Participation Act, the International Security and Development Cooperation Act, the Nuclear Proliferation Prevention Act of 1994, the Foreign Narcotics Kingpin Designation Act, the Iran and Libya Sanctions Act of 1996, the Cuban Democracy Act, the Cuban Liberty and Democratic Solidarity Act and the Foreign Operations, Export Financing and Related Programs Appropriation Act or any other law of similar import as to any non-U.S. country, as each such act or law has been or may be amended, adjusted, modified or reviewed from time to time; or

designated or blocked, associated or involved in terrorism, or subject to restrictions under laws, regulations, or executive orders as may apply in the future similar to those set forth above.

ii

QUESTIONS AND ANSWERS ABOUT THIS OFFERING

Below are some of the more frequently asked questions and answers relating to an offering of this type. Please see the remainder of this prospectus for more detailed information about this offering.

Q:

What is a REIT?

A: REIT stands for an entity electing to be treated as a real estate investment trust for U.S. federal income tax purposes. In general, a REIT is a company that:

pools the capital of many investors to acquire or provide financing for real estate properties; allows individual investors to invest in a diversified real estate portfolio managed by a professional management team;

is required to pay distributions to investors of at least 90% of its taxable income (excluding net capital gain) each year; and

avoids the U.S. federal double income taxation treatment of income that results from investments in a corporation because a REIT is generally not subject to U.S. federal corporate income tax and excise tax on its net income, so long as it complies with certain tax requirements.

Q:

What is an UPREIT?

UPREIT stands for Umbrella Partnership Real Estate Investment Trust. An UPREIT is a REIT that holds substantially all of its properties through a partnership in which the REIT (directly or indirectly) holds an interest as a general partner and/or a limited partner, approximately equal to the value of capital raised by the REIT through sales of its capital stock. Using an UPREIT structure may give us an advantage in acquiring properties from parsons who may not otherwise call their properties heavance of capital unfavorable U.S. foderal income tax

A: persons who may not otherwise sell their properties because of certain unfavorable U.S. federal income tax consequences. Generally, a sale of property directly to a REIT is a taxable sale to the selling property owner. In an UPREIT structure, a seller of a property who desires to defer taxable gain on the sale of his property may in some cases transfer the property to the UPREIT in exchange for limited partnership units in the partnership and defer taxation of gain until the seller later exchanges his limited partnership units on a one-for-one basis for REIT shares or for cash pursuant to the terms of the limited partnership agreement.

Q:

0:

What is the experience of your management?

Our advisor, Empire American Advisors, LLC, is responsible for managing our day-to-day affairs and for identifying and making acquisitions and investments on our behalf. Our advisor s current team of senior

A: management averages approximately 20 years of industry experience among them. Our advisor will select investments for us based on specific investment objectives and criteria and subject to the direction, oversight and approval of our board of directors.

What is your investment strategy?

Our investment strategy is to acquire a diverse portfolio of multifamily properties located in the United States. We plan to diversify our portfolio by size, property location and risk with the goal of attaining a portfolio of multifamily properties and real estate-related debt and securities that will generate attractive returns for our

A: investors, with the potential for capital appreciation. We expect that we will target mostly value-added properties, and to a lesser extent opportunistic properties, in various phases of development, redevelopment or in need of repositioning, as well as existing properties that are already well positioned and producing rental income. We will focus on responsibly reducing the operating costs of our properties while still maintaining high standards of repair and capital improvements.

Q:

Will you invest in anything other than real property?

We may originate or invest in real estate-related securities and other real estate-related debt and investments that we believe present the potential for high current income or total return, including but not limited to mortgage,

A: we believe present the potential for high cartent internet of the equity securities of other real estate companies, and may invest in entities that make similar investments. Although our charter does not

limit the portion of our assets that may be invested in real estate-related securities and other investments, we do not expect such investments to constitute more than 15% of our portfolio by asset value.

Q: If I buy shares of your common stock, will I receive distributions, and if so, how often?

To maintain our qualification as a REIT, we are required to make annual aggregate distributions to our stockholders of at least 90% of our taxable income (excluding net capital gain). We are taxed on any undistributed income,

including on any net capital gain. Subject to the approval of our board of directors and applicable law, we intend to A: make distributions to our stockholders on a quarterly basis after we achieve the minimum offering, and we intend to make distributions sufficient to meet the annual distribution requirements in order to maintain our qualification as a REIT and to avoid U.S. federal income and excise taxes on our earnings; however, it may not always be possible to do so.

Q: Can I reinvest my distributions in additional shares of common stock?
 Yes, you may elect to participate in our distribution reinvestment program by checking the appropriate box on the subscription agreement, or by filling out an enrollment form which we will provide you at your request. The purchase price for shares purchased pursuant to the distribution reinvestment program will be \$9.50 per share for the duration of this offering and 95% of our net asset value thereafter.

Q: Will the distributions I receive be taxable as ordinary income? Distributions that you receive (not designated as capital gain dividends), including distributions reinvested pursuant to our distribution reinvestment program, will be taxed as ordinary income to the extent that they are paid from our earnings and profits (as determined for U.S. federal income tax purposes). However, distributions that we designate as capital gain dividends will generally be taxable as long-term capital gain to the extent they do not exceed our actual net capital gain for the taxable year. Some portion of your distributions may not be subject to tax in the year in which they are received

A: because depreciation expense reduces the amount of taxable income but does not reduce cash available for distribution. The portion of your distribution which is not designated as a capital gain dividend and is in excess of our current and accumulated earnings and profits is considered a return of capital for tax purposes and will reduce the tax basis of your investment, deferring such portion of your tax until your investment is sold or our company is liquidated, at which time you will be taxed at capital gains rates. Please note that each investor s tax considerations are different, therefore, we suggest that you consult with your tax advisor prior to making an investment in our shares.

Q. Will I receive a stock certificate? No. You will not receive a stock certificate unless expressly authorized by our board of directors. We anticipate that all shares of A. our common stock will be issued in book-entry form only. The use of book-entry registration protects against loss, theft or destruction of stock certivwide Alternative Loan Trust

- (1) If the Fund is a seller of protection and a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash, securities or other deliverable obligations equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
- ⁽²⁾ The maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
- (3) The prices and resulting values for credit default swap agreements on credit indices serve as an indicator of the current status of the payment/performance risk and represent the likelihood of an expected liability (or profit) for the credit derivative should the notional amount of the swap agreement be closed/sold as of the period end. Increasing market values, in absolute terms when compared to the notional amount of the swap, represent a deterioration of the referenced indices credit soundness and a greater likelihood or risk of default or other credit event occurring as defined under the terms of the agreement.
- (m) Securities with an aggregate market value of \$1,723 have been pledged as collateral for financial derivative instruments as governed by International Swaps and Derivatives Association, Inc. master agreements as of September 30, 2016.

See Accompanying Notes

Notes to Financial Statements

1. INVESTMENT VALUATION AND FAIR VALUE MEASUREMENTS

(a) Investment Valuation Policies The net asset value (NAV) of the Fund s shares is determined by dividing the total value of portfolio investments and other assets, less any liabilities attributable to that Fund, by the total number of shares outstanding of that Fund.

On each day that the New York Stock Exchange (NYSE) is open, Fund shares are ordinarily valued as of the close of regular trading (NYSE Close). Information that becomes known to the Fund or its agents after the time as of which NAV has been calculated on a particular day will not generally be used to retroactively adjust the price of a security or the NAV determined earlier that day. The Fund reserves the right to change the time as of which its respective NAV is calculated if the Fund closes earlier, or as permitted by the U.S. Securities and Exchange Commission (the SEC).

For purposes of calculating NAV, portfolio securities and other assets for which market quotes are readily available are valued at market value. Market value is generally determined on the basis of official closing prices or the last reported sales prices, or if no sales are reported, based on quotes obtained from established market makers or prices (including evaluated prices) supplied by the Fund s approved pricing services, quotation reporting systems and other third-party sources (together, Pricing Services). The Fund will normally use pricing data for domestic equity securities received shortly after the NYSE Close and do not normally take into account trading, clearances or settlements that take place after the NYSE Close. A foreign (non-U.S.) equity security traded on a foreign exchange or on more than one exchange is typically valued using pricing information from the exchange considered by Pacific Investment Management Company LLC (PIMCO or the Manager) to be the primary exchange. A foreign (non-U.S.) equity security will be valued as of the close of trading on the foreign exchange, or the NYSE Close, if the NYSE Close occurs before the end of trading on the foreign exchange. Domestic and foreign (non-U.S.) fixed income securities, non-exchange traded derivatives, and equity options are normally valued on the basis of quotes obtained from brokers and dealers or Pricing Services using data reflecting the earlier closing of the principal markets for those securities. Prices obtained from Pricing Services may be based on, among other things, information provided by market makers or estimates of market values obtained from yield data relating to investments or securities with similar characteristics. Certain fixed income securities purchased on a delayed-delivery basis are marked to market daily until settlement at the forward settlement date. Exchange-traded options, except equity options, futures and options on futures are valued at the settlement price determined by the relevant exchange. Swap agreements are valued on the basis of bid quotes obtained from brokers and dealers or market-based prices supplied by Pricing Services or other pricing sources. The Fund s investments in open-end management investment companies, other than exchange-traded funds (ETFs), are valued at the NAVs of such investments.

If a foreign (non-U.S.) equity security s value has materially changed after the close of the security s primary exchange or principal market but before the NYSE Close, the security may be valued at fair value based on procedures established and approved by the Board of Trustees (the Board). Foreign (non-U.S.) equity securities that do not trade when the NYSE is open are also valued at fair value. With respect to foreign (non-U.S.) equity securities, the Fund may determine the fair value of investments based on information provided by Pricing Services and other third-party vendors, which may recommend fair value or adjustments with reference to other securities, indices or assets. In considering whether fair valuation is required and in determining fair values, the Fund may, among other things, consider significant events (which may be considered to include changes in the value of U.S. securities or securities indices) that occur after the close of the relevant market and before the NYSE Close. The Fund may utilize modeling tools provided by third-party vendors to determine fair values of non-U.S. securities. Foreign exchanges may permit trading in foreign (non-U.S.) equity securities on days when the Trust is not open for business, which may result in the Fund s portfolio investments being affected when shareholders are unable to buy or sell shares.

QUESTIONS AND ANSWERS ABOUT THIS OFFERING

Senior secured floating rate loans for which an active secondary market exists to a reliable degree will be valued at the mean of the last available bid/ask prices in the market for such loans, as provided by a Pricing Service. Senior secured floating rate loans for which an active secondary market does not exist to a reliable degree will be valued at fair value, which is intended to approximate market value. In valuing a senior secured floating rate loan at fair value, the factors considered may include, but are not limited to, the following: (a) the creditworthiness of the borrower and any intermediate participants, (b) the terms of the loan, (c) recent prices in the market for similar loans, if any, and (d) recent prices in the market for instruments of similar quality, rate, period until next interest rate reset and maturity.

Investments valued in currencies other than the U.S. dollar are converted to the U.S. dollar using exchange rates obtained from Pricing Services. As a result, the value of such investments and, in turn, the NAV of the Fund s shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of investments traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the Fund is not open for business. As a result, to the extent that the Fund holds foreign (non-U.S.) investments, the value of those investments may change at times when shareholders are unable to buy or sell shares and the value of such investments will be reflected in the Fund s next calculated NAV.

Investments for which market quotes or market based valuations are not readily available are valued at fair value as determined in good faith by the Board or persons acting at their direction. The Board has adopted methods for valuing securities and other assets in circumstances where market quotes are not readily available, and has delegated to PIMCO the responsibility for applying the fair valuation methods. In the event that market quotes or market based valuations are not readily available, and the security or asset cannot be valued pursuant to a Board approved valuation method, the value of the security or asset will be determined in good faith by the Valuation Oversight Committee of the Board (Valuation Oversight Committee), generally based on recommendations provided by the Manager. Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information, bid/ask information, indicative market quotations (Broker Quotes), Pricing Services prices), including where events occur after the close of the relevant market, but prior to the NYSE Close, that materially affect the values of the Fund s securities or assets. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, the exchanges or markets on which the securities trade do not open for trading for the entire day and no other market prices are available. The Board has delegated to the Manager the responsibility for monitoring significant events that may materially affect the values of the Fund s securities or assets and for determining whether the value of the applicable securities or assets should be reevaluated in light of such significant events.

When the Fund uses fair valuation to determine the value of a portfolio security or other asset for purposes of calculating its NAV, such investments will not be priced on the basis of quotes from the primary market in which they are traded, but rather may be priced by another method that the Board or persons acting at their direction believe reflects fair value. Fair valuation may require subjective determinations about the value of a security. While the Fund s policy is intended to result in a calculation of the Fund s NAV that fairly reflects security values as of the time of pricing, the Fund cannot ensure that fair values determined by the Board or persons acting at their direction would accurately reflect the price that the Fund could obtain for a security if it were to dispose of that security as of the time of pricing (for instance, in a forced or distressed sale). The prices used by the Fund may differ from the value that would be realized if the securities were sold.

(b) Fair Value Hierarchy U.S. GAAP describes fair value as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. It establishes a fair value hierarchy that prioritizes inputs to valuation methods and requires disclosure of the fair value hierarchy, separately for each major category of assets and liabilities, that segregates fair value measurements into levels (Level

1, 2, or 3). The inputs or methodology used for valuing securities are not necessarily an indication of the risks associated with investing in those securities. Levels 1, 2, and 3 of the fair value hierarchy are defined as follows:

Level 1 Quoted prices in active markets or exchanges for identical assets and liabilities.

Level 2 Significant other observable inputs, which may include, but are not limited to, quoted prices for similar assets or liabilities in markets that are active, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the assets or liabilities (such as interest rates, yield curves, volatilities, prepayment speeds, loss severities, credit risks and default rates) or other market corroborated inputs.

Level 3 Significant unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available, which may include assumptions made by the Board or persons acting at their direction that are used in determining the fair value of investments.

Assets or liabilities categorized as Level 2 or 3 as of period end have been transferred between Levels 2 and 3 since the prior period due to changes in the method utilized in valuing the investments. Transfers from Level 3 to Level 2 are a result of the availability of current and reliable market-based data provided by Pricing Services or other valuation techniques which utilize significant observable inputs. In accordance with the requirements of U.S. GAAP, the amounts of transfers between Levels 1 and 2 and transfers into and out of Level 3, if material, are disclosed in the Notes to Schedule of Investments for the Fund.

For fair valuations using significant unobservable inputs, U.S. GAAP requires a reconciliation of the beginning to ending balances for reported fair values that presents changes attributable to realized gain (loss), unrealized appreciation (depreciation), purchases and sales, accrued discounts (premiums), and transfers into and out of the Level 3 category during the period. The end of period value is used for the transfers between Levels of the Fund s assets and liabilities. Additionally, U.S. GAAP requires quantitative information regarding the significant unobservable inputs used in the determination of fair value of assets or liabilities categorized as Level 3 in the fair value hierarchy. In accordance with the requirements of U.S. GAAP, a fair value hierarchy, and if material, a Level 3 reconciliation and details of significant unobservable inputs, have been included in the Notes to Schedule of Investments for the Fund.

(c) Valuation Techniques and the Fair Value Hierarchy

Level 1 and Level 2 trading assets and trading liabilities, at fair value The valuation methods (or techniques) and significant inputs used in determining the fair values of portfolio securities or other assets and liabilities categorized as Level 1 and Level 2 of the fair value hierarchy are as follows:

Fixed income securities including corporate, convertible and municipal bonds and notes, U.S. government agencies, U.S. treasury obligations, sovereign issues, bank loans, convertible preferred securities and non-U.S. bonds are normally valued on the basis of quotes obtained from brokers and dealers or Pricing Services that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. The Pricing Services internal models use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Securities that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy.

Fixed income securities purchased on a delayed-delivery basis or as a repurchase commitment in a sale-buyback transaction are marked to market daily until settlement at the forward settlement date and are categorized as Level 2 of the fair value hierarchy.

Mortgage-related and asset-backed securities are usually issued as separate tranches, or classes, of securities within each deal. These securities are also normally valued by Pricing Services that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. The pricing models for these securities usually consider tranche-level attributes, current market data, estimated cash flows and market-based yield spreads for each tranche, and incorporate deal collateral performance, as available. Mortgage-related and asset-backed securities that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy.

Common stocks, ETFs, exchange-traded notes and financial derivative instruments, such as futures contracts, rights and warrants, or options on futures that are traded on a national securities exchange, are stated at the last reported sale or settlement price on the day of valuation. To the extent these securities are actively traded and valuation adjustments are not applied, they are categorized as Level 1 of the fair value hierarchy.

Investments valued (denominated) in currencies other than the U.S. dollar are converted to the U.S. dollar using exchange rates (currency spot and forward rates) obtained from Pricing Services. As a result, the NAV of the Fund s shares may be affected by changes in the value of currencies in relation to the U.S. dollar. The value of securities traded in markets outside the United States or denominated in currencies other than the U.S. dollar may be affected significantly on a day that the Fund is not open for business. Valuation adjustments may be applied to certain securities that are solely traded on a foreign exchange to account for the market movement between the close of the foreign market and the NYSE Close. These securities are valued using Pricing Services that consider the correlation of the trading patterns of the foreign security to the intraday trading in the U.S. markets for investments. Securities using these valuation adjustments are categorized as Level 2 of the fair value hierarchy. Preferred securities and other equities traded on inactive markets or valued by reference to similar instruments are also categorized as Level 2 of the fair value hierarchy.

Investments in registered open-end investment companies (other than ETFs) will be valued based upon the NAVs of such investments and are categorized as Level 1 of the fair value hierarchy. Investments in unregistered open-end investment companies will be calculated based upon the NAVs of such investments and are considered Level 1 provided that the NAVs are observable, calculated daily and are the value at which both purchases and sales will be conducted. Investments in privately held investment funds with significant restrictions on redemption where the inputs to the NAVs are observable will be valued based upon the NAVs of such investments and are categorized as Level 2 of the fair value hierarchy.

Short-term debt instruments (such as commercial paper) having a remaining maturity of 60 days or less may be valued at amortized cost, so long as the amortized cost of such short-term debt instrument is approximately the same as the fair value of the instrument as determined without the use of amortized cost valuation.

Equity exchange-traded options and over the counter financial derivative instruments, such as forward foreign currency contracts, options contracts, or swap agreements, derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. Other than swap agreements, which are valued using a broker-dealer bid quotation or on market-based prices provided by Pricing Services or other pricing sources, these contracts are normally valued on the basis of quotes obtained from a quotation reporting system, established market makers or Pricing Services (normally determined as of the NYSE Close). Depending on the product and the terms of the transaction, financial derivative instruments can be valued by Pricing Services using a series of techniques, including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as quoted prices, issuer details, indices, bid/ask spreads, interest rates, implied volatilities, yield curves, dividends and exchange rates. Financial derivative instruments that use similar valuation techniques and inputs as described above are categorized as Level 2 of the fair value hierarchy.

Centrally cleared swaps listed or traded on a multilateral or trade facility platform, such as a registered exchange, are valued at the daily settlement price determined by the respective exchange (if available). For centrally cleared credit default swaps the clearing facility requires its members to provide actionable price levels across complete term structures. These levels, along with external third-party prices are used to produce daily settlement prices. These securities are categorized as Level 2 of the fair value hierarchy.

Centrally cleared interest rate swaps are valued using a pricing model that references the underlying rates including the overnight index swap rate and London Interbank Offered Rate (LIBOR) forward rate to produce the daily settlement price. These securities are categorized as Level 2 of the fair value hierarchy.

Level 3 trading assets and trading liabilities, at fair value When a fair valuation method is applied by PIMCO that uses significant unobservable inputs, investments will be priced by a method that the Board or persons acting at their direction believe reflects fair value and are categorized as Level 3 of the fair value hierarchy. The valuation techniques and significant inputs used in determining the fair values of portfolio assets and liabilities categorized as Level 3 of the fair value hierarchy are as follows:

Proxy pricing procedures set the base price of a fixed income security and subsequently adjust the price proportionally to market value changes of a pre-determined security deemed to be comparable in duration, generally a U.S. Treasury or sovereign note based on country of issuance. The base price may be a broker-dealer quote, transaction price, or an internal value as derived by analysis of market data. The base price of the security may be reset on a periodic basis based on the availability of market data and procedures approved by the Valuation Oversight Committee. Significant changes in the unobservable inputs of the proxy pricing process (the base price) would result in direct and proportional changes in the fair value of the security. These securities are categorized as Level 3 of the fair value hierarchy.

Reference instrument valuation estimates fair value by utilizing the correlation of the security to one or more broad-based securities, market indices, and/or other financial instruments, whose pricing information is readily available. Unobservable inputs may include those used in algorithm formulas based on percentage change in the reference instruments and/or weights of each reference instrument. Significant changes in the unobservable inputs would result in direct and proportional changes in the fair value of the security. These securities are categorized as Level 3 of the fair value hierarchy.

The validity of the fair value is reviewed by the Manager on a periodic basis and may be amended in accordance with the Fund s valuation procedures.

2. FEDERAL INCOME TAX MATTERS

The Fund intends to qualify as a regulated investment company under Subchapter M of the Internal Revenue Code (the Code) and distribute all of its taxable income and net realized gains, if applicable, to shareholders. Accordingly, no provision for Federal income taxes has been made.

The Fund may be subject to local withholding taxes, including those imposed on realized capital gains. Any applicable foreign capital gains tax is accrued daily based upon net unrealized gains, and may be payable following the sale of any applicable investments.

In accordance with U.S. GAAP, the Manager has reviewed the Fund s tax positions for all open tax years. As of September 30, 2016, the Fund has recorded no liability for net unrecognized tax benefits relating to uncertain income tax positions they have taken or expect to take in future tax returns.

The Fund files U.S. tax returns. While the statute of limitations remains open to examine the Fund s U.S. tax returns filed for the fiscal years from 2013-2015, no examinations are in progress or anticipated at this time. The Fund is not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will significantly change in the next twelve months.

As of September 30, 2016, the aggregate cost and the net unrealized appreciation (depreciation) of investments for Federal income tax purposes are as follows (amounts in thousands):

Federal Tax	Aggregate Gross Unrealized		Aggregate Gross Unrealized (Depreciation)		Net Unrealized Appreciation (Depreciation) (1)	
Cost	Appreciation					
\$ 199,200	\$	14,205	\$	(11,543)	\$	2,662

⁽¹⁾ *Primary differences, if any, between book and tax net unrealized appreciation (depreciation) are attributable to wash sale loss deferrals for federal income tax purposes.*

Item 2. Controls and Procedures

(a) The principal executive officer and principal financial & accounting officer have concluded that the registrant s disclosure controls and procedures (as defined in Rule 30a-3(c) under the Act (17 CFR 270.30a-3(c))), are effective based on their evaluation of these controls and procedures as of a date within 90 days of the filing date of this document.

(b) There were no significant changes in the registrant s internal control over financial reporting (as defined in Rule 30a-3(d) under the Act (17 CFR 270.30a-3(d))) that occurred during the registrant s last fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant s internal control over financial reporting.

Item 3. Exhibits

A separate certification for each principal executive officer and principal financial & accounting officer of the registrant as required by Rule 30a-2 under the 1940 Act is attached as Exhibit 99.CERT.

Signatures

Pursuant to the requirements of the Securities Exchange Act of 1934 and the Investment Company Act of 1940, the registrant has duly caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.

PCM Fund Inc.
