TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

1. Organization and Basis of Presentation

On November 13, 2007, The Orchard Enterprises, Inc. (formerly known as Digital Music Group, Inc. (DMGI), a Delaware corporation formed in April 2005, and hereinafter referred to as the Company) consummated a business combination with Orchard Enterprises NY, Inc. (formerly known as The Orchard Enterprises Inc., a New York corporation formed in September 2000) (Orchard NY) through a merger of a wholly-owned subsidiary of the Company with and into Orchard NY pursuant to the terms of the Second Amended and Restated Merger Agreement dated October 5, 2007, as amended on November 7, 2007 (the Merger). Pursuant to the terms of the Merger, all of the outstanding common and preferred stock of Orchard NY was cancelled and the former stockholders of Orchard NY received an aggregate of 2,862,910 shares of the Company s common stock (after giving effect to a one-for-three reverse stock split of the Company s common stock that took effect on November 14, 2007) and 446,918 shares of the Company s Series A convertible preferred stock (the Series A Preferred Stock). In addition, the Company assumed the obligations of Orchard NY under its outstanding deferred common and preferred stock awards, which, pursuant to the terms of the Merger, now represent the right to receive 157,683 shares of the Company s common stock (on a post-split basis) and 1,915 shares of Series A Preferred Stock. In connection with the Merger, Orchard NY became a wholly-owned subsidiary of the Company, with the former stockholders of Orchard NY collectively owning shares of the Company s common and preferred stock representing approximately 60% of the voting power of the Company s outstanding capital stock.

For accounting purposes, the Merger was treated as a reverse acquisition with Orchard NY being the accounting acquirer. Accordingly, the historical financial results prior to the Merger are those of Orchard NY and its consolidated subsidiaries. The results of operations for DMGI and its pre-Merger consolidated subsidiaries are included in the Company s consolidated financial results beginning on November 13, 2007.

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 8 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2009 are not necessarily indicative of the results that may be expected for the year ending December 31, 2009.

The consolidated balance sheet at December 31, 2008 has been derived from the audited financial statements at that date but does not include all of the information and notes required by U.S. GAAP for complete financial statements.

For further information, refer to the audited consolidated financial statements and accompanying notes included in the Company s Annual Report on Form 10-K for the year ended December 31, 2008, filed with the Securities and

2. Liquidity and Capital Resources

The Company has incurred losses from operations since its inception and requires significant resources to fund its operations. The Company incurred net losses of \$15,380,155 and \$17,526,634 for the three and nine months ended September 30, 2009, respectively. Management believes cash balances on-hand and cash flow generated from operations will be sufficient to fund the Company's net cash requirements for the next twelve months. In addition, on February 5, 2009, the Company entered into a secured revolving credit facility with Peninsula Bank Business Funding, a division of the Private Bank of the Peninsula. Under the terms of the agreement, the Company can borrow an amount that does not exceed 80% of its eligible accounts up to a maximum of \$3 million, secured by accounts receivable and inventory. The term of the facility is for one year.

THE ORCHARD ENTERPRISES, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

2. Liquidity and Capital Resources (continued)

For additional information relating to the secured revolving credit facility, see Note 10. Should additional resources be required, management may seek to raise funds through additional financing or the issuance of debt or equity securities.

3. Significant Accounting Policies

Loss per Share Basic earnings per share is computed by dividing net income (loss) available to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share is determined in the same manner as basic earnings per share, except that the number of shares is increased to include potentially dilutive securities using the treasury stock method. Because the Company incurred a net loss in all periods presented, all potentially dilutive securities were excluded from the computation of diluted loss per share because the effect of including them is anti-dilutive.

The following table summarizes the number of common shares outstanding attributable to potentially dilutive securities.

	September 30,	
	2009	2008
Series A Preferred Stock	1,494,194	1,494,614
Stock options	575,172	568,380
Warrants	91,000	91,000
Non-vested Restricted Stock Awards	161,012	216,773
Total	2,321,378	2,370,767

Convertible Instruments The Company evaluates and accounts for conversion options embedded in its convertible instruments in accordance with derivatives and hedging accounting standards, which generally provides three criteria that, if met, require companies to bifurcate conversion options from their host instruments and account for them as free standing derivative financial instruments. These three criteria include circumstances in which (a) the economic characteristics and risks of the embedded derivative instrument are not clearly and closely related to the economic characteristics and risks of the host contract, (b) the hybrid instrument that embodies both the embedded derivative instrument and the host contract is not remeasured at fair value under otherwise applicable GAAP with changes in fair value reported in earnings as they occur and (c) a separate instrument with the same terms as the embedded derivative instrument would be considered a derivative instrument subject to the requirements as described in the above standards, which also provides an exception to this rule when the host instrument is deemed to be conventional.

The Company accounts for convertible instruments (when it has determined that the embedded conversion options should not be bifurcated from their host instruments) in accordance with accounting standards for debt. Accordingly, the Company records, when necessary, discounts to convertible notes for the intrinsic value of conversion options embedded in debt instruments based upon the differences between the fair value of underlying common stock at the commitment date of the note transaction and the effective conversion price embedded in the note. Debt discounts under these arrangements are amortized over the term of the related debt to their earliest date of redemption. The Company also records, when necessary, deemed dividends for the intrinsic value of conversion options embedded in preferred stock based upon the differences between the fair value of the underlying common stock at the commitment date of the preferred stock transaction and the effective conversion price embedded in the preferred stock.

Preferred Stock The Company applies accounting standards relating to distinguishing liabilities from equity when determining the classification and measurement of its preferred stock. Preferred stock subject to mandatory redemption (if any) is classified as liability instruments and is measured at fair value in accordance with the accounting standards. The accounting standards also describe the classification and measurement

TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS
(Unaudited)**

3. Significant Accounting Policies (continued)

treatment for all other issuances of preferred stock. Accordingly, the Company classifies conditionally redeemable preferred stock (if any), which includes preferred stock that features redemption rights that are either within the control of the holder or subject to redemption upon the occurrence of uncertain events not solely within the Company's control, as temporary equity. At all other times, the Company classifies its preferred stock as a component of stockholders' equity.

Fair Value of Financial Instruments

The Company's financial instruments are cash, accounts receivable and accounts payable. The recorded values of cash, accounts receivable and accounts payable approximate their fair values based on their short-term nature.

Foreign Currency and Hedging

All balance sheet accounts of foreign operations are translated into U.S. dollars at the period-end rate of exchange and statements of operations items are translated at the weighted average exchange rates for the period. The resulting translation adjustments are made directly to accumulated other comprehensive income in stockholders' equity. Gains and losses from foreign currency transactions, such as those resulting from the settlement of foreign receivables or payables, are included in the consolidated statements of operations.

From time to time, the Company enters into forward exchange contracts in anticipation of future movements in certain foreign exchange rates and to hedge against foreign currency fluctuations. Realized and unrealized gains and losses on these contracts are included in the consolidated statements of operations. As of September 30, 2009, the Company had no open currency hedge contracts.

Subsequent Events

Management has evaluated subsequent events or transactions occurring through November 13, 2009, the date the financial statements were issued.

Recent Accounting Pronouncements

In April 2008, the Financial Accounting Standards Board (FASB) issued new provisions on the determination of the useful life of intangible assets, as described in FASB Accounting Standards Codification (FASB ASC) 350, Goodwill

and Other Intangible Assets (formerly FASB Staff Position FAS 142-3, *Determination of the Useful Life of Intangible Assets*). The provisions amend the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset. The objective of the provisions is to improve the consistency between the useful life of a recognized intangible asset and the period of expected cash flows used to measure the fair value of the asset under U.S. GAAP. The new provisions are effective for fiscal years beginning after December 15, 2008. The Company adopted the provisions effective January 1, 2009 and the adoption of the provisions did not have a material impact on the Company's consolidated financial statements.

Effective January 1, 2009, the Company adopted new provisions of FASB ASC 815-40, Contracts in Entity's own Equity (formerly FASB Staff Position Emerging Issues Task Force Issue No. 07-05, *Determining Whether an Instrument (or Embedded Feature) is Indexed to an Entity's Own Stock*) which applies to any freestanding financial instruments or embedded features that have the characteristics of a derivative and to any freestanding financial instruments that are potentially settled in an entity's own common stock. The adoption of the provisions did not have any impact on the Company's consolidated financial position, results of operations and cash flows as the Company does not have any financial instruments with characteristics which meet the definition of a derivative instrument in accordance with these provisions.

In April 2009, the FASB issued new provisions of FASB ASC 825, Financial Instruments (formerly FASB Staff Position FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial*

TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS
(Unaudited)**

3. Significant Accounting Policies (continued)

Instruments) requiring entities to provide disclosures about the fair value of financial instruments in interim financial information. The provisions require an entity to disclose in the body or in the accompanying notes of its summarized financial information for interim reporting periods and in its financial statements for annual reporting periods the fair value of all financial instruments for which it is practicable to estimate that value, whether recognized or not recognized in the statement of financial position. The Company adopted the provisions for the quarter ended June 30, 2009 and the adoption of the provisions did not have a material impact on the Company's consolidated financial statements.

In April 2009, the FASB issued new provisions for other than temporary impairments in FASB ASC 320, Investments—Debt and Equity Securities (formerly FASB Staff Position FAS 115-2 and FAS 124-2, *Recognition and Presentation of Other-Than-Temporary Impairments*). The provisions change existing guidance for determining whether an impairment to debt securities is other than temporary; replace the existing requirement that management assert it has both the intent and ability to hold an impaired security until recovery with a requirement that management assert, (a) it does not have the intent to sell the security and (b) it is more likely than not that it will not have to sell the security before recovery of its cost basis; require that an entity recognize noncredit losses on held-to-maturity debt securities in other comprehensive income and amortize that amount over the remaining life of the security in a prospective manner by offsetting the recorded value of the asset unless the security is subsequently sold or there are additional credit losses; and require entities to present the total other-than-temporary impairment in the statement of earnings with an offset for the amount recognized in other comprehensive income. When adopting the provisions, entities are required to record a cumulative-effect adjustment as of the beginning of the period of adoption to reclassify the noncredit component of a previously recognized other-than-temporary impairment from retained earnings to accumulated other comprehensive income if the entity does not intend to sell the security and it is not more likely than not that the entity will be required to sell the security before recovery. The Company adopted the provisions for the quarter ended June 30, 2009 and the adoption of the provisions did not have a material impact on the Company's consolidated financial statements.

In October 2008, the FASB issued new provisions of FASB ASC 820, Fair Value Measurement and Disclosures (formerly FASB Staff Position FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active*). The new provisions clarify the application of preexisting provisions in a market that is not active and provides an example to illustrate key considerations in determining the fair value of a financial asset when the market for that financial asset is not active. The provisions became effective immediately upon issuance and its adoption did not have an effect on the Company's consolidated financial statements. The Company currently determines the fair value of its property and equipment when assessing long-lived asset impairments and the fair value measurement provisions were effective for these fair value assessments as of January 1, 2009. In April 2009, the FASB issued further clarification on the fair value accounting guidance as described in FASB ASC 820, Fair Value

Measurement and Disclosures (formerly FASB Staff Position FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*). This new provision affirms that the objective of fair value when the market for an asset is not active is the price that would be received upon selling the asset in an orderly transaction, clarifies and includes additional factors for determining whether there has been a significant decrease in market activity for an asset when the market for that asset is not active and eliminates the proposed presumption that all transactions are distressed (not orderly) unless proven otherwise. The provisions instead require an entity to base its conclusion about whether a transaction was not orderly on the weight of the evidence. The Company adopted the provisions for the quarter ended June 30, 2009 and the adoption of the provisions did not have a material impact on the Company's consolidated financial statements.

In May 2009, the FASB issued a new provision as described in FASB ASC 855, Subsequent Events (formerly SFAS No. 165, *Subsequent Events*), which provides guidance on events that occur after the balance

7

TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

3. Significant Accounting Policies (continued)

sheet date but prior to the issuance of the financial statements. The provisions distinguish events requiring recognition in the financial statements and those that may require disclosure in the financial statements and requires disclosure of the date through which subsequent events were evaluated. The provisions are effective for interim and annual periods ending after June 15, 2009. The adoption of the provisions did not have any impact on the Company's consolidated financial statements.

In June 2009, the FASB issued the accounting codification provisions (the Codification) as described in FASB ASC 105, Generally Accepted Accounting Principles (formerly SFAS No. 168, *The FASB Accounting Codification and the Hierarchy of Generally Accepted Accounting Principles*). Released on July 1, 2009, the Codification became the source of authoritative non-governmental U.S. GAAP. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. On the effective date of these provisions, the Codification superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification became non-authoritative. The Codification is effective for the Company's quarterly reporting period ended September 30, 2009. The adoption of the provisions did not have any impact on the Company's consolidated financial statements other than changes in referencing to authoritative accounting pronouncements.

In August 2009, the FASB issued Accounting Standards Update 2009-04, Accounting for Redeemable Equity Instruments—Amendment to Section 480-10-S99 (Update 2009-04). Update 2009-04 represents an update to Topic 480-10-S99, Distinguishing Liabilities from Equity, based on Emerging Issues Task Force (EITF) Topic D-98, Classification and Measurement of Redeemable Securities. The Company adopted Update 2009-04 for the quarter ended September 30, 2009 and the adoption of Update 2009-04 did not have a material impact on the Company's consolidated financial statements.

In August 2009, the FASB issued Accounting Standard Update 2009-05, Fair Value Measurement and Disclosures—Measuring Liabilities at Fair Value (Update 2009-05) which includes amendments to Subtopic 820-10, Fair Value Measurement and Disclosures—Overall of the FASB ASC. Update 2009-05 provides clarification that in circumstances in which a quoted price in an active market for the identical liability is not available, a reporting entity is required to measure fair value of such liability using one or more of the techniques prescribed by the update. The Company adopted Update 2009-05 for the quarter ended September 30, 2009. Management has determined that the adoption of Update 2009-05 did not have a material impact on the Company's consolidated financial statements.

In September 2009, the FASB issued Accounting Standards Update 2009-08, Earnings Per Share—Amendments to Section 260-10-S99 (Update 2009-08). Update 2009-08 represents technical corrections to Topic 260-10-S99, Earnings per Share, based on EITF Topic D-53, Computation of Earnings Per Share for a Period that Includes a

Redemption or an Induced Conversion of a Portion of a Class of Preferred Stock and EITF Topic D-42, The Effect of the Calculation of Earnings per Share for the Redemption or Induced Conversion of Preferred Stock. The Company adopted Update 2009-08 for the quarter ended September 30, 2009 and the adoption of Update 2009-08 did not have material impact on the Company's consolidated financial statements.

4. Business Combination

On July 3, 2008, the Company acquired substantially all of the assets of TeeVee Toons, Inc. and/or its affiliates (TVT Records) record label business operations, including but not limited to, master recordings, artists' agreements, certain inventory, accounts receivable and a real property lease (the Assets) and assumed certain liabilities of TVT Records related to the Assets that the Company elected to acquire (the Acquisition). The aggregate purchase price for the Assets was \$5,050,000 (subject to reduction).

TABLE OF CONTENTS**THE ORCHARD ENTERPRISES, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)****4. Business Combination (continued)**

The Acquisition has been accounted for as a business acquisition using the purchase method of accounting as required by accounting standards for business combinations. Under the purchase method of accounting, the total purchase price is allocated to the acquired tangible and intangible assets and assumed liabilities of TVT Records based on their estimated fair values as of the closing date of the Acquisition. The excess of the purchase price over the fair value of assets acquired and liabilities assumed is allocated to goodwill.

The composition of the purchase price consideration is as follows:

Fair value of the net assets of TVT Records	\$ 5,050,000
Direct acquisition-related costs	1,017,268
Total purchase price consideration	\$ 6,067,268

The allocation of the purchase price to the cash consideration of the net assets acquired is as follows:

Accounts receivable	\$1,000,000
Royalty advances	1,319,000
Inventory	145,000
Assumed lease	700,000
Digital distribution agreements	2,262,500
Master recordings	82,500
Goodwill	1,317,268
Intangible assets - corporate trade names	266,000
Cure liabilities payable	(1,025,000)
Total net assets acquired	\$6,067,268

Unaudited pro forma combined financial information is presented below as if the Acquisition occurred as of January 1, 2008. The results have been adjusted to account for the depreciation and amortization of assumed lease, digital distribution agreements, master recordings and intangible assets. The pro forma financial information presented below does not purport to present what actual results would have been if the Acquisition had occurred at such date, nor does the information project results for any future period.

The unaudited pro forma combined financial information for the nine months ended September 30, 2008 is as follows:

Revenues	\$44,616,349
----------	--------------

Edgar Filing: Orchard Enterprises, Inc. - Form 10-Q

Net loss	\$(3,880,433)
Loss per share basic and diluted	\$(0.62)
Weighted average shares outstanding basic and diluted	6,262,004

Management believes that the above pro forma combined financial information may not provide meaningful comparative information, given that the Company only acquired certain assets and liabilities of TVT Records and, in addition, TVT Records filed for bankruptcy on February 13, 2008.

9

TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

5. Inventory

Inventory consists of cassettes, CDs, vinyl, finished CDs and component parts totaling \$102,393 and \$133,404 at September 30, 2009 and December 31, 2008, respectively.

6. Royalty Advances

The Company has the exclusive right to distribute certain music and video content in certain geographic areas pursuant to short-term and long-term agreements with the content owners. These distribution agreements primarily have initial terms ranging from three to ten years and, in certain cases, grant the Company the right to extend the agreement for an additional term. Pursuant to certain of these agreements, generally those with longer or more favorable terms, the Company has paid royalty advances that are to be recouped from the content owners' share of future revenues. Royalty advances that management estimates are reasonably likely to be recouped through revenues over the next 12 months are classified as a current asset in the accompanying balance sheets.

Royalty advances consist of the following:

	September 30, 2009	December 31, 2008
Balance, beginning of period	\$4,872,288	\$4,766,220
Royalty advances paid to content owners	7,793,825	5,464,292
Purchased from TVT Records		1,319,000
Less: recoupment of royalty advances	(5,791,149)	(6,677,224)
Balance, end of period	6,874,964	4,872,288
Less: current portion of royalty advances	5,419,544	2,720,119
Long-term portion of royalty advances	\$1,455,420	\$2,152,169

7. Music and Audio Content

Music and audio content consists of the following:

Amortization expense was \$778,873 and \$649,832 for the nine months ended September 30, 2009 and 2008, respectively, and \$259,625 and \$259,624 for the three months ended September 30, 2009 and 2008, respectively.

In accordance with the accounting standards for intangible assets under U.S. GAAP, the Company reviews music and audio content for impairment whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable. Recoverability of these assets is measured by comparing their carrying amount to future undiscounted cash flows the assets are expected to generate. If music and audio content are considered to be impaired, the impairment to be recognized equals the amount by which the carrying value of the assets exceeds their fair market value. The Company did not record any impairment to music and audio content during the three and nine months ended September 30, 2009 or 2008.

TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS
(Unaudited)**

7. Music and Audio Content (continued)

The impairment analysis of music and audio content is based upon estimates and assumptions relating to the Company's future revenue, cash flows, operating expenses, costs of capital and capital purchases. These estimates and assumptions are complex and subject to a significant degree of judgment with respect to certain factors including, but not limited to, the cash flows of our long-term operating plans, market and interest rate risk, and risk-commensurate discount rates and cost of capital. Significant or sustained declines in future revenue or cash flows, or adverse changes in the Company's business climate, among other factors, and their resulting impact on the estimates and assumptions relating to the value of the Company's music and audio content could result in the need to perform an impairment analysis under the accounting standards for intangible assets in future periods which could result in a significant impairment.

8. Assumed Intangible Assets

Intangible assets consist of the following:

Amortization expense was \$87,791 and \$29,264 for the nine months ended September 30, 2009 and 2008, respectively, and \$29,263 and \$29,264 for the three months ended September 30, 2009 and 2008, respectively.

In accordance with the accounting standards for intangible assets under U.S. GAAP, the Company reviews intangible assets for impairment whenever events or changes in circumstances indicate the carrying amount of such assets may not be recoverable. Recoverability of these assets is measured by comparing their carrying amount to future undiscounted cash flows the assets are expected to generate. If intangible assets are considered to be impaired, the impairment to be recognized equals the amount by which the carrying value of the assets exceeds their fair market value. The Company did not record any impairment to intangible assets during the three and nine months ended September 30, 2009 or 2008.

The impairment analysis of intangible assets is based upon estimates and assumptions relating to the Company's future revenue, cash flows, operating expenses, costs of capital and capital purchases. These estimates and assumptions are complex and subject to a significant degree of judgment with respect to certain factors including, but not limited to, the cash flows of our long-term operating plans, market and interest rate risk, and risk-commensurate discount rates and cost of capital. Significant or sustained declines in future revenue or cash flows, or adverse changes in the Company's business climate, among other factors, and their resulting impact on the estimates and assumptions relating to the value of the Company's intangible assets could result in the need to perform an impairment analysis under the accounting standards for intangible assets in future periods which could result in a significant impairment.

9. Goodwill

Changes in goodwill are as follows:

Balance, December 31, 2008	\$26,463,900
Impairment of goodwill	(14,113,522)
Balance, September 30, 2009	\$ 12,350,378

11

TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS
(Unaudited)**

9. Goodwill (continued)

In connection with the Company's acquisitions of DMGI and TVT (as described in Note 1), the Company acquired intangible assets of \$33,877,457 which includes goodwill in the amount of \$26,463,900.

Goodwill represents the excess of the purchase price over the fair value of net assets acquired in a business combination. Goodwill is required to be tested for impairment at the reporting unit level on an annual basis and between annual tests when circumstances indicate that the recoverability of the carrying amount of such goodwill may be impaired. Application of the goodwill impairment test requires exercise of judgment, including the estimation of future cash flows, determination of appropriate discount rates and other important assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value and/or goodwill impairment for each reporting unit.

A two-step process is used to test for goodwill impairment. The first step is to determine if there is an indication of impairment by comparing the estimated fair value of the reporting unit to its carrying value including existing goodwill. Goodwill is considered impaired if the carrying value exceeds the estimated fair value. Upon an indication of impairment from step one, a second step is performed to determine the amount of the impairment. This involves calculating the implied fair value of goodwill by allocating the fair value to all assets and liabilities other than goodwill and comparing this value to the carrying amount of goodwill.

During 2008 and 2009, the global economy has weakened, which, among other factors, has contributed to the Company's weaker than expected performance and a decline in the Company's overall market value. The price per share of the Company's common stock continues to negatively diverge from the broader market in 2009. In addition, the digital media industry growth has slowed significantly during 2009 and there has been a continued illiquidity in the overall credit market. As a result, the Company concluded that, due to a reduction of the Company's market capitalization for a sustained period of time, declining digital media industry growth during 2009, and the continued macroeconomic instability, an interim impairment analysis of goodwill as of September 30, 2009 was necessary.

To estimate the fair value of the business, the Company utilized a combination of income and market approaches. The income approach, specifically a discounted cash flow methodology, included assumptions and estimates for, among other things, forecasted revenues, gross profit margins, operating profit margins, growth rates and long-term discount rates, all of which require significant judgments by management. The market approach derives fair values by benchmarking metrics and transactions of companies that are comparable to the Company.

Accordingly, based on the analysis performed related to goodwill, the Company recorded an impairment charge of \$14,113,522 during the quarter ended September 30, 2009 related to goodwill, to reduce the carrying value to an amount that is expected to be recoverable.

10. Restructuring

During the third quarter of 2009, the Company announced a restructuring action to further reduce expenses. The restructuring was comprised of a staff reduction initiative which resulted in an elimination of approximately 20% of the Company's pre-reduction headcount. This reduction, among other cost savings initiatives taken throughout the year, is to take advantage of technology and to align costs with a slower than expected digital music market growth rate.

All affected personnel were notified prior to September 30, 2009. The Company recorded charge of \$312,008 attributable to this initiative in the third quarter related to severance and related severance benefits. This charge resulted in \$69,820 of cash expenditures in the third quarter of 2009 and the remaining of \$242,188 has been accrued at September 30, 2009 and will be paid in the fourth quarter of 2009 and in 2010.

TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS (Unaudited)

11. Secured Revolving Credit Facility

On February 5, 2009, the Company together with certain of its subsidiaries entered into a \$3 million secured revolving credit facility with Peninsula Bank Business Funding, a division of the Private Bank of the Peninsula (the Bank). The amount of such revolving credit arrangement is subject to increase to \$4 million under certain circumstances. Under the terms of the agreement, the Company may borrow, repay and reborrow, at any time, an aggregate amount that does not exceed 80% of its eligible accounts receivable. Outstanding advances made under the facility bear interest at a rate of prime plus 4% per annum, provided the minimum amount of interest shall not be less than 8% per annum and the maximum amount of interest shall not be greater than 10% per annum. The Company is required to pay a minimum quarterly interest of \$20,000 whether or not there are any outstanding borrowings. As of September 30, 2009, the Company did not have any outstanding borrowings and therefore incurred \$47,555 of interest expense for the nine months then ended. The Company's line of credit is collateralized by its accounts receivable and inventory and requires the Company to comply with customary affirmative and negative covenants principally relating to use and disposition of assets and to the satisfaction of financial covenants (which include meeting quarterly net income/loss projections and monthly cash projections). In addition, the credit arrangement contains customary events of default. Upon the occurrence of an uncured event of default, among other things, the Bank may declare that all amounts owing under the credit arrangement are due and payable. The revolving credit facility expires on February 4, 2010. Each of the Company's direct and indirect subsidiaries that is not a borrower with the Company under this revolving credit arrangement has guaranteed the obligations of the Company under that arrangement. The Company was in default under the credit agreement as a result of its failure to comply with the covenant to achieve certain quarterly net income/loss projections in respect of the quarters ended March 31, 2009, June 30, 2009, and September 30, 2009. The Company has obtained waivers from the Bank of such defaults in respect of the quarters ended March 31, 2009, June 30, 2009, and September 30, 2009. In the event that the Company is unable to meet its quarterly income/loss projections for future quarters, the Company will need to obtain additional waivers from the Bank. There can be no assurance that the Bank will grant future waivers to the Company.

12. Redeemable Preferred Stock

Series A Convertible Preferred Stock The Company has designated 448,833 shares of its preferred stock as Series A Convertible Preferred Stock (Series A Preferred Stock) of which 448,707 shares were issued and outstanding as of September 30, 2009. The Series A Preferred Stock is: (a) the Company's most senior class or series of securities, (b) convertible into common stock at the option of the holder at any time at a rate of 3.33 common shares for each preferred share subject to adjustments for stock splits, combinations and distributions, and (c) redeemable at the option of the board of directors anytime after the fifth anniversary of original issuance date, at the sole discretion of the board, provided that the common shares are trading at \$30.00 per share or higher for thirty consecutive days and subject to certain other limitations, at a price per share of \$55.70 (equivalent to \$16.72 per share of common stock at the conversion rate of 3.33 to 1) plus unpaid accrued dividends. The Series A Preferred Stock has no set dividend

rights, but is entitled to participate in any dividends declared by the Company on its common stock on an as converted basis.

The Series A Preferred Stock is also entitled to a liquidation preference upon the voluntary or involuntary liquidation, dissolution, or winding up of the Company at an amount equivalent to the greater of: (a) \$55.70 (equivalent to \$16.72 per share of common stock at the conversion rate of 3.33 to 1) per share plus any unpaid accrued dividends and (b) the per share amount that would be payable if the Series A Preferred Stock had been converted into common stock immediately prior to the liquidation event plus unpaid accrued dividends. The holders of Series A Preferred Stock are entitled to vote on an as converted basis with the holders of common stock on general matters subject to stockholder vote. However, certain actions require the approval of the majority of the Series A Preferred Stock, voting as a single class. These actions include: (a) amendments to the articles of incorporation or bylaws of the Company, (b) changes in the authorized number of shares of Series A Preferred Stock, (c) authorization or designation of any new class of Series A Preferred

TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS
(Unaudited)**

12. Redeemable Preferred Stock (continued)

Stock ranking superior to or on parity with the Series A Preferred Stock with respect to voting powers, preferences, dividends or other special rights, privileges, qualifications, or restrictions, (d) any reorganization, recapitalization, or reclassification of the Company's capital stock, and (e) any redemption or repurchase of any securities of the Company.

In accordance with the accounting standards relating to distinguishing liabilities from equity, the Company has classified the Series A Preferred Stock outside of permanent equity because the securities contain contingent redemption features that are not solely within the control of the Company. The securities are carried at their face value (representing fair value) because the contingency has not been met and it is not probable. If the redemption were considered likely to occur, the carrying value would be adjusted to its liquidation value.

13. Stockholders Equity

Blank Check Preferred The Company is authorized to issue shares of preferred stock with such designations, rights and preferences as may be determined from time to time by the Company's board of directors. Accordingly, the board of directors is authorized, without stockholder approval, to issue preferred stock with dividend, liquidation conversion, voting or other rights that could adversely affect the voting power or other rights of the holders of the common stock.

In the event of issuance, the preferred stock could be utilized, under certain circumstances, as a method of discouraging, delaying or preventing a change in control. The Company is authorized to issue a total of 1,000,000 shares of preferred stock of which 448,833 shares have been designated as the Company's Series A Preferred Stock and 551,167 preferred shares remain undesignated and authorized for issuance.

Common Stock The common stock (a) is the Company's most junior class of stock, (b) has no liquidation preference, (c) has no set dividend rights, and (d) is not convertible. As of September 30, 2009, there are 2,160,366 shares of common stock reserved for issuance upon exercise of stock options and warrants and the conversion of the Series A Preferred Stock.

Warrants The Company has outstanding warrants that entitle the holder to purchase up to a total of 91,000 shares of common stock at an exercise price of \$36.56 per share. These warrants, which were issued in connection with DMGI's initial public offering in February 2006, are fully vested as of February 2, 2007 and expire on February 2, 2011.

Stock Plan On June 4, 2008, the stockholders of the Company approved the adoption of the Company's 2008 Stock Plan (the Plan), which amended and restated the Company's 2005 Stock Plan. The Plan was further amended and approved by the stockholders on June 2, 2009. The amended plan provides for the grant of incentive stock options, within the meaning of Section 422 of the Internal Revenue Code, to employees and for the grant of non-statutory

stock options, stock appreciation rights, restricted stock, restricted stock units and cash incentive payments to employees, directors, and consultants and enables the payment of performance-based stock awards and performance-based cash incentive awards to certain executives that qualify as deductible for federal income tax purposes under Internal Revenue Code Section 162(m). The Compensation Committee of the Company's board of directors administers the Plan and has the authority to make awards under the Plan and establish vesting and other terms, but cannot grant stock options at less than the fair value of the Company's common stock on the date of grant or re-price stock options previously granted. The employee stock options granted under the Plan generally vest ratably over three to four years of service and expire seven to ten years from the date of grant (or ninety days after the termination of employment). Prior to the adoption of the Plan, the 2005 Stock Plan provided for annual stock option grants to non-employee directors pursuant to a formula defined within the plan which established the number and terms of such grants. The Plan, as adopted by the stockholders on June 4, 2008, does not provide for annual grants to non-employee directors. As of September 30, 2009, there were 783,684 shares of common stock that have been issued or are reserved for issuance under the Plan.

TABLE OF CONTENTS**THE ORCHARD ENTERPRISES, INC.****NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)****13. Stockholders Equity (continued)**

Effective upon the adoption of the Plan on June 4, 2008 by the stockholders, the Board of Directors of the Company adopted a revised Non-Executive Director's Compensation Program, which, among other things, granted an annual restricted stock award and stock option award under the Plan to non-employee directors in consideration of their service on the board of directors. Effective June 2, 2009, the stock option component was eliminated.

The Company uses the Trinomial Lattice Model to estimate the fair value of stock option grants. This method incorporates calculations for expected volatility, risk-free interest rates, employee exercise patterns and post-vesting employee termination behavior and these factors affect the estimate of the fair value of the Company's stock options. The following weighted-average assumptions were used in estimating the fair value of stock option awards for the nine months ended September 30, 2009:

	September 30, 2009
Risk-free rate of return	1.87%
Expected volatility	69.53%
Expected life	4.49 years
Expected dividend yield	0.00%
Exit rate post-vesting	19.9%
Exit rate pre-vesting	15.9%

The Company calculates the expected volatility for stock-based awards using comparable industry data because sufficient historical trading data does not exist for the Company's stock. The Company estimates the forfeiture rate for stock-based awards based on historical data. The risk-free rate for stock options granted during the period is determined by using a zero-coupon U.S. Treasury rate for the period that coincides with the expected option terms.

A summary of stock option activity under the Plan during 2009 is as follows:

Stock Options	Number of Stock Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (In Years)
Outstanding as of January 1, 2009	565,465	\$ 6.11	8.12

Edgar Filing: Orchard Enterprises, Inc. - Form 10-Q

Granted	30,000	2.47	6.58
Exercised			
Forfeited or expired	(20,293)	5.41	5.63
Outstanding as of September 30, 2009	575,172	\$ 5.94	7.39
Exercisable as of September 30, 2009	316,078	\$ 6.45	7.60

A summary of the status of the non-vested restricted stock granted under the Plan is as follows:

Restricted Stock Awards	Number of Shares of Restricted Stock	Weighted Average Grant Date Price
Non-vested restricted stock as of January 1, 2009	188,034	\$ 6.60
Granted	124,512	2.57
Vested	(149,034)	4.83
Forfeited or expired	(2,500)	7.44
Non-vested restricted stock as of September 30, 2009	161,012	\$ 5.11

15

TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS
(Unaudited)**

13. Stockholders Equity (continued)

The fair value of restricted stock issued under the Plan is determined based on the closing price of the Company's common stock on the grant date.

As of September 30, 2009, the Company has \$894,184 in unrecognized compensation cost related to stock options and restricted stock granted under the Plan. This cost is expected to be recognized over a weighted-average period of 1.57 years. The Company recognized compensation expense of \$772,748 and \$661,506 for the nine months ended September 30, 2009 and 2008, respectively, related to the issuance of stock options and restricted stock under the Plan.

For fiscal 2010, the shares available under the Plan will be increased by 400,000 shares. On the first day of each fiscal year thereafter, the shares available under the Plan will be increased by the lesser of (i) 250,000 shares, (ii) 5% of the outstanding shares of common stock on such date, or (iii) an amount determined by the Company's board of directors. As of September 30, 2009, a total of 458,709 shares remained available for grant under the Plan.

14. Related Party Transactions

Distribution Services With eMusic eMusic provides digital music distribution services to the Company under a Digital Music Wholesale Agreement, dated January 1, 2004, as amended on March 12, 2007. The Company entered into a new agreement with eMusic dated January 1, 2009. eMusic is an entity controlled by Dimensional. The agreement grants eMusic worldwide rights, on a non-exclusive basis, to exploit the Company's master recordings digitally and via the Internet through September 30, 2010. Pursuant to the agreement, the Company is entitled to better royalty terms if eMusic allows any other independent record label such better terms during the term of the agreement (a Most Favored Nation clause). Amounts included in revenues in connection with these services were \$731,613 and \$1,100,784 for the three months and \$2,680,879 and \$3,450,972 for the nine months ended September 30, 2009 and 2008, respectively. Amounts included in accounts receivable in connection with these services were \$716,410 and \$1,012,658 at September 30, 2009 and December 31, 2008, respectively.

Revenue Sharing Agreement With CGH Ventures, Inc. During 2003, Orchard Management, Inc., a wholly-owned subsidiary of the Company, entered into a revenue sharing agreement with CGH Ventures, Inc., an entity owned by two of the former stockholders of Orchard NY. Pursuant to this agreement, the Company is obligated to pay CGH Ventures, Inc. 80% of the net revenues earned by Orchard Management, Inc. Orchard Management, Inc. provides management services to a recording group. The Company recorded \$36,034 and \$1,225 for the three months ended September 30, 2009 and 2008, respectively, and \$36,034 and \$31,933 for the nine months ended September 30, 2009 and 2008, respectively, as commission expense for CGH's share of the net revenue earned under the management agreement. The commission expense was included in cost of revenues in the accompanying condensed consolidated

statements of operations.

15. Commitments and Contingencies

The Company is a party to litigation matters and claims from time to time in the ordinary course of its operations, including copyright infringement litigation for which it is entitled to indemnification by content providers. While the results of such litigation and claims cannot be predicted with certainty, the Company believes that the final outcome of such matters will not have a material adverse impact on its financial position, cash flows, or results of operations.

On April 16, 2007, Gloryvision, Ltd. brought an action against Media Right Productions, Inc., one of the Company's labels, the Company and others in the U.S. District Court for the Southern District of New York alleging, among other things, breach of contract and copyright infringement relating to two CDs provided to the Company by Media Right in 2000. Gloryvision sought compensatory damages in the amount of \$1 million, punitive damages in the amount of \$1 million, interest, attorneys' fees, costs and injunctive relief. The

16

TABLE OF CONTENTS

THE ORCHARD ENTERPRISES, INC.

**NOTES TO CONDENSED CONSOLIDATED FINANCIAL
STATEMENTS
(Unaudited)**

15. Commitments and Contingencies (continued)

plaintiffs also sought statutory damages in the amount of \$20,000 for each unintentional copyright infringement and \$100,000 for each intentional copyright infringement. Pursuant to the license agreement between Media Right and the Company, Media Right is obligated to indemnify the Company for damages, including legal fees, incurred by the Company for any claims regarding content provided to and distributed by the Company thereunder. On April 15, 2009, the court ruled in Gloryvision's favor. Pursuant to the court's finding, the Company was obligated to pay Gloryvision four hundred dollars. On June 17, 2009, Gloryvision filed a notice of appeal, which they subsequently amended on July 24, 2009, appealing the court's May 18, 2009 order denying Gloryvision's request to alter the April 15, 2009 final judgment.

On March 11, 2008, the Company initiated suit in the U.S. District Court for the Eastern District of California against TufAmerica, Inc. The complaint alleges fraud, breach of contract and various other wrongs in connection with a contract dispute with TufAmerica, Inc. concerning the number, nature and technical quality of master recordings the label was required to deliver to the Company under the contract. The Company requested various forms of relief from the court, including the return of approximately \$2.4 million in fees and advances already paid under the contract. On April 23, 2008, TufAmerica answered the Company's complaint denying the causes of action asserted against it and asserting its own counterclaims against the Company for breach of contract. Although the counterclaim did not specify an exact amount of damages sought, during the course of the dispute TufAmerica, Inc. had sent a letter to the Company claiming damages in the amount of approximately \$1.2 million. On March 25, 2009, this lawsuit was settled, subject to court approval. Subsequently, the court approved the settlement. On September 21, 2009, TufAmerica has brought an action in the Superior Court of California in Sacramento against the Company asserting breach of contract. Management believes that TufAmerica's claim was settled on March 25, 2009 and plans to vigorously defend the action against the Company.

16. Subsequent Events

On October 15, 2009, the Company received a letter from Dimensional in which Dimensional proposed entering into non-binding discussions with the Company regarding a potential transaction through which Dimensional would acquire all of the outstanding shares of common stock of the Company that are not currently owned by Dimensional at a price of \$1.68 per share. The Board of Directors formed a Special Committee comprised of independent and disinterested directors to review and evaluate Dimensional's proposal. After preliminary discussions with representatives of the Special Committee, Dimensional revised its initial proposed price to \$1.84 per share. The Special Committee is reviewing and evaluating the revised proposal. The Special Committee has engaged independent legal counsel and an independent financial advisor to assist in its review and evaluation.

There can be no assurance that any agreement on financial or other terms satisfactory to the Special Committee will be reached with Dimensional or that any transaction will be approved or consummated. Furthermore, there can be no assurance regarding the timing of or whether the Special Committee will elect to pursue any alternative transactions, or that any such alternative transaction will be approved or consummated and there is no certainty that any transaction with Dimensional or any alternative transaction will result in the Company's stockholders receiving a share price equal to or above the current trading price of the Company's common stock or equal to the prices per share proposed by Dimensional.

On November 12, 2009, the Company received a letter from The Nasdaq Stock Market stating that Company failed to comply with the minimum market value of publicly held shares (MVPHS) requirement for continued listing on The Nasdaq Global Market under Listing Rule 5450(b)(1)(C). The Company's common stock will continue to trade on The Nasdaq Global Market under the symbol ORCD as the deficiency letter has no effect at this time on the Company's listing on The Nasdaq Global Market. The Company has 90 calendar days, or until February 10, 2010, to regain compliance with the MVPHS continued listing requirement. To regain compliance with the MVPHS continued listing requirement, the MVPHS of the

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis should be read in conjunction with our unaudited condensed consolidated financial statements and notes thereto included in this Quarterly Report on Form 10-Q and our audited consolidated financial statements and notes thereto included in our Annual Report on Form 10-K for the year ended December 31, 2008 filed with the SEC on March 30, 2009.

Forward-Looking Statements

This quarterly report on Form 10-Q contains forward-looking statements within the meaning of the federal securities laws. These statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from those expressed or implied by the forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as may, likely, will, should, expect, plan, anticipate, believe, estimate, predict, potential, continue or the negative of these terms or other comparable terminology. These forward-looking statements are subject to a number of risks that could cause them to differ from our expectations. These include, but are not limited to, risks relating to:

Our financial condition and results of operations, including expectations and projections relating to our future performance and ability to achieve profitability;

Our ability to capitalize on our business strategy, including shifting our revenue to a more diversified revenue mix;

Our ability to take advantage of opportunities for revenue expansion, including through acquisitions, delivery of video content, organic growth in distribution and revenue growth from higher margin owned and controlled content;

Ongoing growth in our industry, particularly gaining market share in the growing digital music and mobile distribution markets, as well as the developing market for digital delivery of video;

Our ability to continue to acquire digital rights and market our value-added services to content owners;

Complexities involved in the payment and collection of royalties for digital distribution of copyrighted material and risks associated with availability of indemnities to protect us from liability for copyright infringement;

Distribution of our music and video content;

Evolving digital entertainment services which offer variable pricing which may reduce the cost per download per track;

Music and video piracy;

Rapidly evolving and changing competitive and industry conditions in the digital media industry, including potentially significant additional competition for digital distribution;

The impact of general economic recession and other market and economic challenges on our business;

The outcome of, expenses associated with, or developments concerning, Dimensional's proposal to acquire all of our outstanding common stock not already owned by it or any litigation related to the proposal;

Our ability to maintain the listing of our common stock on The Nasdaq Stock Market; and

The uncertainty for our employees, customers, and other business partners resulting from Dimensional's proposal, which could adversely affect our business and financial results.

TABLE OF CONTENTS

You should not place undue reliance on these forward-looking statements, which are based on our current views and assumptions. In evaluating these statements, you should specifically consider various factors, including the foregoing risks and those outlined under "Risk Factors" in our Annual Report on Form 10-K as filed with the SEC on March 30, 2009. Many of these factors are beyond our control. Our forward-looking statements represent estimates and assumptions only as of the date of this quarterly report on Form 10-Q. Except as required by law, we undertake no obligation to update any forward-looking statement to reflect events or circumstances occurring after the date of this quarterly report on Form 10-Q.

Business Overview

Background and Basis of Presentation

On November 13, 2007, The Orchard Enterprises, Inc. (formerly known as Digital Music Group, Inc. or "DMGI") consummated a business combination with Orchard Enterprises NY, Inc. (formerly known as The Orchard Enterprises Inc., which we refer to as "Orchard NY") through a merger of a subsidiary of DMGI with and into Orchard NY pursuant to the terms of the Second Amended and Restated Merger Agreement dated October 5, 2007, as amended on November 7, 2007 (the "Merger"). Pursuant to the terms of the Merger, all of the outstanding common and preferred stock of Orchard NY was cancelled and the former stockholders of Orchard NY received an aggregate of 2,862,910 shares of our common stock (after giving effect to a one-for-three reverse stock split of our common stock that took effect on November 14, 2007) and 446,918 shares of our Series A convertible preferred stock ("Series A Preferred Stock"). In addition, DMGI assumed the obligations of Orchard NY under its outstanding deferred common and preferred stock awards and reserved 157,683 shares of our common stock (on a post-split basis) and 1,915 shares of our Series A Preferred Stock for issuance pursuant to such awards. In connection with the Merger, Orchard NY became our wholly-owned subsidiary, with the former stockholders of Orchard NY collectively owning shares of our common and preferred stock representing approximately 60% of the voting power of our outstanding capital stock.

The Orchard Enterprises, Inc. and its subsidiaries are referred to collectively as "we", "us", and the "Company".

For accounting purposes, the Merger was treated as a reverse acquisition with Orchard NY being the accounting acquirer. Accordingly, the historical financial results prior to the Merger are those of Orchard NY and its consolidated subsidiaries and replace the historical financial results of DMGI as it existed prior to the Merger. The results of operations for DMGI and its pre-Merger consolidated subsidiaries are included in our consolidated financial results beginning on November 13, 2007.

Orchard NY was incorporated in New York in September 2000. On April 28, 2003, Dimensional Associates, LLC, or Dimensional, an entity formed by a group of private investors, invested in and acquired operating control of Orchard NY through the purchase of a convertible debt instrument followed by subsequent periodic funding events under similar conditions as the original convertible debt instrument. These debt instruments were redeemed or converted prior to completion of the Merger.

We are a global leader in digital media services, currently controlling and distributing approximately 1,700,000 music and audio recordings, or tracks, and over 4,000 titles of video programming and other materials through hundreds of digital stores (e.g. Amazon, eMusic (which is controlled by our majority stockholder, Dimensional), Hulu, iTunes, Rhapsody, YouTube) and mobile carriers (e.g. China Mobile, Orange, Telefonica, Verizon, 3) worldwide. We generate income for our label, retailer, brand and agency clients by making these music and audio recordings and videos available for purchase at online stores and through innovative marketing and promotional campaigns, branded entertainment programs, film, advertising, gaming and television licensing and other related services.

Edgar Filing: Orchard Enterprises, Inc. - Form 10-Q

On November 12, 2009, the Company received a letter from The Nasdaq Stock Market stating that Company failed to comply with the minimum market value of publicly held shares (MVPHS) requirement for continued listing on The Nasdaq Global Market under Listing Rule 5450(b)(1)(C). The Company s common stock will continue to trade on The Nasdaq Global Market under the symbol ORCD as the deficiency letter has no effect at this time on the Company s listing on The Nasdaq Global Market. The Company has 90 calendar days, or until February 10, 2010, to regain compliance with the MVPHS continued listing requirement. To regain compliance with the MVPHS continued listing requirement, the MVPHS of the Company s common stock must be \$5,000,000 or more for a minimum of 10 consecutive trading days at any

20

TABLE OF CONTENTS

time before February 10, 2010. The Company intends to maintain its listing on Nasdaq and will actively monitor the market value of its common stock between now and February 10, 2010 and will consider available options.

Significant Customers

Since inception through September 30, 2009, our revenue has been derived primarily from the distribution of digital music content. Two customers, iTunes and eMusic, account for a significant portion of our total revenue and related accounts receivable. For the nine months ended September 30, 2009 and 2008, iTunes represented 61% and 55% of total revenues and eMusic represented 6% and 8% of total revenues, respectively. Accounts receivable from iTunes were 25% and 26% of total accounts receivable at September 30, 2009 and December 31, 2008, respectively. Accounts receivable from eMusic were 7% and 8% of total accounts receivable at September 30, 2009 and December 31, 2008, respectively.

Sources of Revenues

Our revenues are derived from the following sources:

Permanent Downloads. In aggregate terms, our permanent download revenue is driven by the number of music recordings we have available for downloading at digital music retailers, multiplied by the average number of times our music recordings are downloaded, multiplied by the average fee paid to us by each retailer. The download rates for our music recordings are driven primarily by the overall size and growth of the digital music market, the popularity and demand for the recordings we make available, the number and nature of the digital music services through which we make the recordings available to consumers, and our territorial distribution rights. We negotiate the fee we receive per download in advance at the time we enter into an agreement with a digital music retailer.

Subscription Download Services on the Internet. We also generate revenues from services that offer consumers the ability to download up to a certain number of recordings each month for a fixed subscription fee. In such models, we typically receive a percentage of the total revenue pool generated by the service, after contractually specified costs and deductions, based on our share of total downloads in the service during the billing period.

Subscription Streaming Fees. Some digital music retailers distribute our music recordings via streaming on a subscription basis. Our subscription revenue is a percentage of each retailer's total subscription revenue (after contractually specified costs and deductions) based on the number of times our music recordings are listened to by subscribers as compared to the total for all music recordings listened to during the relevant time period, although the exact formulations by which our revenue is derived vary among services. Following the termination of their subscription, consumers are not able to play our music recordings.

Mobile Services. Our revenue from mobile services is derived primarily from downloads of full-length music recordings and mastertones. Most mobile services generally make available to consumers a limited selection of ringtones due to the limited space on mobile handset screens and higher per track processing costs related to the many formats that are required for various mobile handset makes and models, although this is changing.

Other. Our other revenue is comprised mainly from licensing fees also referred to as music services, administrative and consulting fees and other sources such as technology-related servicing fees charged to certain digital music retailers and other non-retail clients.

Combined revenue from digital downloads and subscription fees comprised approximately 82% and 79% of our total revenues for the nine months ended September 30, 2009 and 2008, respectively. Approximately 9% and 11% of our total revenues for the nine months ended September 30, 2009 and 2008, respectively, was derived from mobile services.

TABLE OF CONTENTS

Cost of Revenues

Our cost of revenues primarily consists of:

revenue sharing payments and recoupment of cash advances to artists, record labels and other content owners;
royalties to artists and publishers;
amortization of costs to acquire master recordings, digital rights and digital distribution agreements;
reserves or write-downs of master recordings, capitalized digital rights, digital distribution agreements or royalty advances that may be deemed necessary from time to time; and
other direct costs of revenues.

Our cost of revenues and corresponding gross profit is determined by the revenues earned on our available music, audio and video content. In our digital distribution agreements with content owners, which usually have terms of three to five years, we typically have an exclusive right to collect revenue directly from the digital entertainment services.

We then pay a negotiated revenue sharing percentage to the content owner.

In certain instances, with respect to higher profile labels and/or as an inducement to enter into a longer-term license agreement, we may make a royalty advance against the content owner's share of future royalties. We capitalize all such advances as a prepaid asset that we amortize as a cost of revenue as the related revenue is earned and the cash advances are recouped. We also include in cost of revenues the fees and direct costs incurred in obtaining content. For long-term distribution agreements, we amortize the legal fees and other direct costs incurred in acquiring the agreement on a straight-line basis over the shorter of the term of the related agreement or ten years. When we acquire digital rights or master recordings, we capitalize the purchase price and the direct ancillary costs and amortize the acquisition costs on a straight-line basis over ten years.

While we are typically not responsible for any third party royalties (such as artists and publishers) in our agreements with content owners, for music content that we own and for content distributed under most of our long-term distribution agreements, we are typically responsible for some or all third-party royalties (such as artists and publishers), the cost of which is included in cost of revenues. Artist royalty obligations for music and audio recordings have historically been between 0% and 15% of the revenue attributable to a specific track or album. The publisher royalties for music and audio recordings are a statutory rate in the United States, which remains \$.09 for 2009.

In connection with the allocation of the purchase price to the assets we were deemed to have acquired from DMGI for accounting purposes, we established an asset called Digital Distribution Agreements, which is a component of Music and Audio Content, to reflect the estimated fair market value of DMGI's license agreements at the Merger date. We are amortizing this asset to cost of revenues over the term of the related agreements.

Operating expenses include all costs associated with general and administrative expenses, sales and marketing and product development in order to operate the business.

Seasonality

We have experienced increased net sales in our first and fourth quarters compared to the other quarters in our fiscal year. We suspect that the first and fourth quarters of the calendar year may have seasonally higher sales, because this is the peak time for sales of music recordings in physical format, portable digital music players and other digital music listening and video devices including mobile phones (generally ascribed to increased consumer spending due to the holidays).

Critical Accounting Policies and Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, revenues and expenses and related disclosures in the consolidated financial statements. Critical accounting estimates and assumptions are those that may be material due to the levels of subjectivity and judgment necessary to account for highly uncertain matters or the susceptibility of such matters to change and that have

TABLE OF CONTENTS

a material impact on financial condition or operating performance. We base our estimates and judgments on our experience and on various other factors that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies used in the preparation of our consolidated financial statements require significant judgments and estimates. For additional information relating to these and other accounting policies, see Note 3 to our condensed consolidated financial statements appearing elsewhere in this Quarterly Report on Form 10-Q. There have been no changes in our critical accounting policies since December 31, 2008.

Revenue Recognition and Assessing the Collectability of Accounts Receivable

In accordance with accounting standards for multiple element revenue arrangements, we recognize revenue when there is persuasive evidence of an arrangement, the fee is fixed or determinable, the product or services have been delivered and collectability of the resulting receivable is reasonably assured.

Our distribution revenue from the sale of music recordings through digital distribution channels is recognized when the products are sold by the digital service providers, which provide us with periodic notification of the sales.

For arrangements with multiple obligations (*e.g.*, deliverable and undelivered music content, music publishing information and other services), we allocate revenues to each component of the contract based on objective evidence of its fair value. We recognize revenues allocated to undelivered products when the criteria for product revenues set forth above are met. If objective and reliable evidence of the fair value of the undelivered obligations is not available, the arrangement consideration allocable to a delivered item is combined with the amount allocable to the undelivered item(s) within the arrangement. Revenues are recognized as the remaining obligations are fulfilled. Revenues from multiple element arrangements were not significant during the three and nine months ended September 30, 2009 and 2008.

In accordance with industry practice and as is customary in many territories, certain physical products (such as CDs and cassettes) are sold to customers with the right to return unsold items. We recognize net distribution revenues from such physical sales when the product is shipped to retail distributors, less a provision for future estimated returns based on historical trends. We record the costs associated with shipping physical products as cost of revenues. Shipping and handling charges billed to customers are included in revenues. The physical products are the property of the recording labels and artists. Revenues from physical sales were \$0.7 million and \$1.9 million for the three and nine months ended September 30, 2009, respectively, and \$0.2 million and \$0.3 million for the three and nine months ended September 30, 2008, respectively.

We recognize reimbursements received from our customers for encoding our music content in the appropriate digital format for use by the customer under the proportional performance method as revenue in the period that the encoded content is delivered to the customer. We record cash received in advance of providing the service as deferred revenue.

In making estimates regarding the collectability of our accounts receivable, our management considers the credit profile of our retailers, current economic trends, contractual terms and conditions, historic payment experience and known or expected events that may impact the retailer's ability to pay its obligations. Historically, we have incurred minimal losses for bad debts, although this may not be the case in the future. We maintained a bad debt allowance of \$1,492,186 at September 30, 2009 and \$969,586 at December 31, 2008.

Recoverability of Royalty Advances

We pay advance royalties to certain record labels and artists. In accordance with music industry accounting standards, certain advance royalty payments that are believed to be recoverable from future royalties to be earned by the content owner or its distributor are capitalized as assets. The decision to capitalize an advance to a content owner or its distributor as an asset requires significant judgment as to the recoverability of these advances. We assess the recoverability of these assets upon initial commitment of the advance based upon our forecast of anticipated revenues from the sale of future and existing music and publishing-related products. In determining whether these amounts are recoverable, we evaluate the current and past popularity of the artist or songwriter, the initial or expected commercial acceptability of the product, the current and past popularity of the genre of music that the product is designed to appeal to and other

TABLE OF CONTENTS

relevant factors. Based upon this information, the portion of such advances that is believed not to be recoverable is expensed. All advances are assessed for recoverability periodically and, at minimum, on a quarterly basis.

Accounting for Income Taxes

Deferred income taxes result primarily from temporary differences between financial and tax reporting. Deferred tax assets and liabilities are determined based on the difference between the financial statement basis and tax basis of assets and liabilities using enacted tax rates. Future tax benefits are subject to a valuation allowance when management is unable to conclude that our deferred tax assets will more likely than not be realized from the results of operations. At each of the financial statement dates presented, we recorded a full valuation allowance against deferred income taxes due to our limited operating history and net losses recorded since inception. Our estimate for the valuation allowance for deferred tax assets requires management to make significant estimates and judgments about projected future operating results. If actual results differ from these projections or if management's expectations of future results change, it may be necessary to adjust the valuation allowance.

We have generated losses for federal and state income tax reporting since inception. These tax losses are available for carryforward until their expiration. In addition to potential expiration, there are other factors that could limit our ability to use our federal and state tax loss carryforwards. For example, use of prior net operating loss carryforwards can be limited after an ownership change, such as the Merger. Accordingly, it is not certain how much of our existing net operating loss carryforwards will actually be used in the future. In addition, we must generate taxable income in the future in order to use net operating loss carryforwards that have not expired.

We measure and record uncertain tax positions in accordance with income tax accounting standards, which prescribe a threshold for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. Only tax positions meeting the more-likely-than-not recognition threshold at the effective date may be recognized or continue to be recognized. The accounting standards also provide guidance on accounting for derecognition, interest and penalties, and classification and disclosure of matters related to uncertainty in income taxes. Accounting for uncertainties in income tax positions involves significant judgments by management.

Share-Based Compensation

In accordance with stock-based compensation accounting standards, we recognize compensation expense in an amount equal to the estimated fair value of share-based awards and issuances, such as stock options and warrants granted to employees and non-employees. This estimation of the fair value of each share-based grant or issuance on the date of grant involves numerous assumptions by management. Although we calculate the compensatory element under the Trinomial Lattice Model, which is a standard option pricing model, this model still requires the use of numerous assumptions. Assumptions used in this model include, among others, the expected life (turnover), a risk-free interest rate, dividend yield and assumptions as to volatility of the underlying equity security. The model and assumptions also attempt to account for changing employee behavior as the stock price changes and capture the observed pattern of increasing rates of exercise as the stock price increases. We based our assumption of the expected volatility of our stock on the historical volatility for our peer group public companies because sufficient historical trading data does not yet exist for our stock. The use of different peer group companies and other assumptions by management in the Trinomial Lattice Model could produce substantially different results.

Goodwill

Our goodwill represents the excess of the purchase price over the estimated fair values of the net tangible and intangible assets of DMGI and TVT Records as a result of the Merger and acquisition of TVT's assets. We review goodwill for impairment at least annually and whenever events or changes in circumstances indicate its carrying value may not be recoverable in accordance with goodwill accounting standards. As described in the guidance, a two-step impairment test is required to be performed on goodwill. In the first step, we will compare the fair value to its carrying value. If the fair value exceeds the carrying value, goodwill will not be considered impaired and we will not be required to perform further testing. If the

TABLE OF CONTENTS

carrying value exceeds the fair value, then we must perform the second step of the impairment test in order to determine the implied fair value of goodwill and record an impairment loss equal to the difference. Determining the implied fair value involves the use of significant estimates and assumptions. These estimates and assumptions include the estimation of future cash flows, determination of appropriate discount rates and other important assumptions. Changes in these estimates and assumptions could materially affect the determination of fair value and/or goodwill impairment for each reporting unit. We base our fair value estimates on assumptions we believe to be reasonable but that are unpredictable and inherently uncertain. Actual future results may differ from those estimates. To the extent additional events or changes in circumstances occur, our stock price remains depressed or our strategies change, we may conclude that a non-cash goodwill impairment charge against earnings is required, which could have an adverse effect on our financial position and results of operations, although it would have no effect on our cash flow.

Impairment of Intangible Assets

We test our intangible assets (other than goodwill) for impairment annually, and more frequently if there are indications of a loss in value. The most significant intangible assets that we test for impairment are those resulting from the Merger. We test for impairment on the basis of the same objective criteria that were used for the initial valuation. Our initial valuation and ongoing tests are based on the relationship of the value of our projected future cash flows associated with the asset to either the purchase price of the asset (for its initial valuation) or the carrying amount of the asset (for ongoing tests). The determination of the underlying assumptions related to the recoverability of intangible assets is subjective and requires the exercise of considerable judgment by our management. Any changes in key assumptions about our business and prospects, or changes in market conditions, could result in an impairment charge.

Recent Accounting Pronouncements

In April 2008, the FASB issued new provisions on the determination of the useful life of intangible assets, as described in FASB Accounting Standards Codification (FASB ASC) 350, Goodwill and Other Intangible Assets (formerly FASB Staff Position FAS 142-3, *Determination of the Useful Life of Intangible Assets*). The provisions amend the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset. The objective of the provisions is to improve the consistency between the useful life of a recognized intangible asset and the period of expected cash flows used to measure the fair value of the asset under U.S. generally accepted accounting principles (GAAP). The new provisions are effective for fiscal years beginning after December 15, 2008. We adopted the provisions effective January 1, 2009 and the adoption of the provisions did not have a material impact on our consolidated financial statements.

Effective January 1, 2009, we adopted new provisions of FASB ASC 815-40, Contracts in Entity's own Equity (formerly FASB Staff Position Emerging Issues Task Force Issue No. 07-05, *Determining Whether an Instrument (or Embedded Feature) is Indexed to an Entity's Own Stock*) which applies to any freestanding financial instruments or embedded features that have the characteristics of a derivative and to any freestanding financial instruments that are potentially settled in an entity's own common stock. The adoption of the provisions did not have any impact on our consolidated financial position, results of operations and cash flows as we do not have any financial instruments with characteristics which meet the definition of a derivative instrument in accordance with these provisions.

In April 2009, the FASB issued new provisions of FASB ASC 825, Financial Instruments (formerly FASB Staff Position FAS 107-1 and APB 28-1, *Interim Disclosures about Fair Value of Financial Instruments*) requiring entities to provide disclosures about the fair value of financial instruments in interim financial information. The provisions require an entity to disclose in the body or in the accompanying notes of its summarized financial information for

interim reporting periods and in its financial statements for annual reporting periods the fair value of all financial instruments for which it is practicable to estimate that value, whether recognized or not recognized in the statement of financial position. We adopted the provisions for the quarter ended June 30, 2009 and the adoption of the provisions did not have a material impact on our consolidated financial statements.

In April 2009, the FASB issued new provisions for other than temporary impairments in FASB ASC 320, Investments Debt and Equity Securities (formerly FASB Staff Position FAS 115-2 and FAS 124-2,

TABLE OF CONTENTS

Recognition and Presentation of Other-Than-Temporary Impairments). The provisions change existing guidance for determining whether an impairment to debt securities is other than temporary; replace the existing requirement that management assert it has both the intent and ability to hold an impaired security until recovery with a requirement that management assert, (a) it does not have the intent to sell the security and (b) it is more likely than not it will not have to sell the security before recovery of its cost basis; require that an entity recognize noncredit losses on held-to-maturity debt securities in other comprehensive income and amortize that amount over the remaining life of the security in a prospective manner by offsetting the recorded value of the asset unless the security is subsequently sold or there are additional credit losses; and require entities to present the total other-than-temporary impairment in the statement of earnings with an offset for the amount recognized in other comprehensive income. When adopting the provisions, entities are required to record a cumulative-effect adjustment as of the beginning of the period of adoption to reclassify the noncredit component of a previously recognized other-than-temporary impairment from retained earnings to accumulated other comprehensive income if the entity does not intend to sell the security and it is not more likely than not that the entity will be required to sell the security before recovery. We adopted the provisions for the quarter ended June 30, 2009 and the adoption of the provisions did not have a material impact on our consolidated financial statements.

In October 2008, the FASB issued new provisions of FASB ASC 820, Fair Value Measurement and Disclosures (formerly FASB Staff Position FAS 157-3, *Determining the Fair Value of a Financial Asset When the Market for That Asset is Not Active*). The new provisions clarify the application of preexisting provisions in a market that is not active and provides an example to illustrate key considerations in determining the fair value of a financial asset when the market for that financial asset is not active. The provisions became effective immediately upon issuance and its adoption did not have an effect on our consolidated financial statements. We currently determine the fair value of our property and equipment when assessing long-lived asset impairments and the fair value measurement provisions were effective for these fair value assessments as of January 1, 2009. In April 2009, the FASB issued further clarification on the fair value accounting guidance as described in FASB ASC 820, Fair Value Measurement and Disclosures (formerly FASB Staff Position FAS 157-4, *Determining Fair Value When the Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions That Are Not Orderly*). This new provision affirms that the objective of fair value when the market for an asset is not active is the price that would be received upon selling the asset in an orderly transaction, clarifies and includes additional factors for determining whether there has been a significant decrease in market activity for an asset when the market for that asset is not active and eliminates the proposed presumption that all transactions are distressed (not orderly) unless proven otherwise. The provisions instead require an entity to base its conclusion about whether a transaction was not orderly on the weight of the evidence. We adopted the provisions for the quarter ended June 30, 2009 and the adoption of the provisions did not have a material impact on our consolidated financial statements.

In May 2009, the FASB issued a new provision as described in FASB ASC 855, Subsequent Events (formerly SFAS No. 165, *Subsequent Events*), which provides guidance on events that occur after the balance sheet date but prior to the issuance of the financial statements. The provisions distinguish events requiring recognition in the financial statements and those that may require disclosure in the financial statements and requires disclosure of the date through which subsequent events were evaluated. The provisions are effective for interim and annual periods ending after June 15, 2009. The adoption of the provisions did not have any impact on our condensed consolidated financial statements.

In June 2009, the FASB issued the accounting codification provisions (the Codification) as described in FASB ASC 105, Generally Accepted Accounting Principles (formerly SFAS No. 168, *The FASB Accounting Codification and the Hierarchy of Generally Accepted Accounting Principles*). Released on July 1, 2009, the Codification became the source of authoritative non-governmental U.S. GAAP. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. On the effective date of these provisions, the Codification superseded all then-existing non-SEC accounting and reporting standards. All other

non-grandfathered non-SEC accounting literature not included in the Codification became non-authoritative. The Codification is effective for our quarterly reporting period ended September 30, 2009. The adoption of the provisions did not have any impact on our consolidated financial statements other than changes in reference to various authoritative accounting pronouncements.

TABLE OF CONTENTS

In August 2009, the FASB issued Accounting Standards Update 2009-04, Accounting for Redeemable Equity Instruments—Amendment to Section 480-10-S99 (Update 2009-04). Update 2009-04 represents an update to Section 480-10-S99, Distinguishing Liabilities from Equity, based on Emerging Issues Task Force (EITF) Topic D-98, Classification and Measurement of Redeemable Securities. We adopted Update 2009-04 for the quarter ended September 30, 2009 and the adoption of Update 2009-04 did not have a material impact on our consolidated financial statements.

In August 2009, the FASB issued Accounting Standard Update 2009-05, Fair Value Measurement and Disclosures—Measuring Liabilities at Fair Value (Update 2009-05) which includes amendments to Subtopic 820-10, Fair Value Measurement and Disclosures—Overall of the FASB ASC. Update 2009-05 provides clarification that in circumstances in which a quoted price in an active market for the identical liability is not available, a reporting entity is required to measure fair value of such liability using one or more of the techniques prescribed by the update. We adopted Update 2009-05 for the quarter ended September 30, 2009 and the adoption of Update 2009-05 did not have a material impact on our consolidated financial statements.

In September 2009, the FASB issued Accounting Standards Update 2009-08, Earnings Per Share Amendments to Section 260-10-S99 (Update 2009-08). Update 2009-08 represents technical corrections to Topic 260-10-S99, Earnings per Share, based on EITF Topic D-53, Computation of Earnings Per Share for a Period that Includes a Redemption or an Induced Conversion of a Portion of a Class of Preferred Stock and EITF Topic D-42, The Effect of the Calculation of Earnings per Share for the Redemption or Induced Conversion of Preferred Stock. We adopted Update 2009-08 for the quarter ended September 30, 2009 and the adoption of Update 2009-08 did not have material impact on our consolidated financial statements.

For additional information relating to these and other recent accounting pronouncements, see Note 3 to our condensed consolidated financial statements appearing elsewhere in this Quarterly Report on Form 10-Q.

Factors Affecting Future Results

We have incurred losses since inception and our ability to achieve profitability in the near term is primarily dependent on increasing revenue while controlling and limiting expenses. Some of the current industry conditions and factors that we expect could have a significant impact on our future results are discussed below:

Factors Impacting Revenue and Download Rates for Music Content. Achieving profitable growth will require continued growth in the overall market for digital retail sales of music, video and other forms of media and our ability to maintain a competitive suite of digital distribution and service offerings that will be attractive to independent record labels and other owners of digital media content, as well as our ability to retain existing clients and attract new ones. We expect continued competition from entrenched music distribution companies moving more aggressively into the digital sector (e.g., the distribution companies owned by the four major music companies), other independent distributors and new entrants to the market. We believe that our revenue and download rates for music content might be affected by a number of macroeconomic factors, including:

The general economic recession;

Overall growth of the legitimate retail consumer market for digital music, in the context of a still robust so-called peer-to-peer (P2P) pirate market;

Amount of additional digital music and video recordings that are made available to consumers from all sources and the impact on average sales that results from having an increasing amount of music and video content available within the retail channels;

The pressure variable pricing or other structural change to other download pricing models will have on the expectations of the consumer for the cost of downloading tracks;

The speed and efficacy with which new digital entertainment services either through traditional a la carte downloads or subscription models or new forms of music retail such as advertising-based or P2P models enter and grow the market; and

27

TABLE OF CONTENTS

The speed and efficacy with which digital music retailers invest on one hand in product enhancements that allow them to more dynamically serve music to targeted subgroups (e.g., ethnic nationals living abroad) and, on the other hand, particularly with respect to mobile operators, integrate their sophisticated marketing segmentation and direct marketing capabilities more closely with demographically-based music marketing.

Gross Profit. Our gross profit is directly affected by our ability to negotiate favorable digital distribution agreements with record labels and other content owners. The current and future marketplace will continue to evolve and shape our ability to enter into new distribution agreements with content owners seeking to access the digital marketplace and renew existing agreements as they begin to expire. As more competitors enter this market and seek to sign similar agreements with content owners, this could adversely impact our gross profit.

Operating Expenses. Our operating expenses include all costs associated with general and administrative expenses, sales and marketing and product development in order to operate the business. These expenses increased in each of the past three years as we added additional personnel dedicated to expanding our operations and broadening our product and service offerings.

Business Development. We plan to continue to build our core music and video businesses by building on our established digital distribution relationships and by adding additional record labels and content owners, showcasing top-tier global artists and expanding our marketing capabilities. We are also exploring ways to support individual artists and companies as a turnkey, comprehensive entertainment solutions provider by leveraging our broad services platform; global sales and marketing capabilities; physical and digital distribution; business intelligence tools, solutions and support; and in some circumstances, co-investment capital. We plan to continue to develop our broad services platform, including:

Marketing and technology programs to service brands, consumer packaged goods companies and other businesses integrating music with their marketing objectives;

Placement of master recordings for synchronization use in advertising, film and television programs;

Mechanical licensing and administration of music publishing for digital sales in the United States; and

Collection of sound performance recording royalties globally, among other offerings.

Results of Operations

The following table sets forth items in our Condensed Consolidated Statements of Operations in dollars and as a percentage of revenue, as well as certain additional revenue and operating data for the periods indicated.

	For the Three Months Ended September 30,			
	2009		2008	
	Amount	Percentage of Total	Amount	Percentage of Total

Includes subscription download and streaming services on the Internet, including revenues from eMusic (which is (1) controlled by our majority shareholder) of \$731,613 and \$1,100,784 for the three months ended September 30, 2009 and 2008, respectively.

Comparison of Three Months Ended September 30, 2009 to September 30, 2008

Revenues. Revenues increased to approximately \$15.2 million for the three months ended September 30, 2009 from approximately \$14.6 million for the three months ended September 30, 2008. Revenues from digital distribution (including permanent downloads and subscription services) increased to approximately \$12.2 million for the three months ended September 30, 2009 from approximately \$11.1 million for the three months ended September 30, 2008, primarily as a result of the increase in paid downloads. The increase in paid downloads resulted primarily from a significant increase in the average number of available tracks for sale due to organic growth. The increase in paid downloads is also in part due to a more efficient global distribution process, which resulted in part from our proprietary V.E.C.T.O.R.TM system, and in part from our strong relationship with retail stores among others. TVT generated approximately \$0.2 million in digital revenue in the three months ended September 30, 2009. Revenue from mobile services decreased to approximately \$1.3 million for the three months ended September 30, 2009 from approximately \$1.8 million for the three months ended September 30, 2008. The primary cause of the decrease was the continued decline of the mobile market. Other revenue was approximately \$1.7 million for both the three months ended September 30, 2009 and September 30, 2008. Increases to physical revenue in 2009 due to the acquisition of TVT in July 2008, were offset by decreases in other revenue from licensing and music services (including placement of master recordings for use in film, television, and commercials), and other sources such as service fees charged to digital music retailers and other non-retail clients.

Cost of Revenues. Our cost of revenues increased to approximately \$11.3 million for the three months ended September 30, 2009 from approximately \$10.0 million for the three months ended September 30, 2008. Royalty expense from digital distribution (including permanent downloads and subscription services) and mobile services paid to artists, labels and other content owners and other costs increased to approximately \$10.4 million for the three months ended September 30, 2009 from approximately \$9.6 million for the three months ended September 30, 2008. The increase is primarily related to the increase in overall revenues. Included in royalty expense was \$0.2 million of

royalty advance impairment for the three months ended September 30, 2009. We did not incur such impairment in the three months ended September 30, 2008. During the three months ended September 30, 2009 and 2008, our royalties paid to artists, labels and other content owners from digital distribution (including permanent downloads and subscription services) and mobile services amounted to approximately 69% and 65% of total revenues, respectively. Other costs of revenues increased to approximately \$0.9 million for the three months ended September 30, 2009 as compared to approximately \$0.4 million for the three months ended September 30, 2008. The increase is primarily related to the increase in cost of revenue related to physical sales. Gross profit margin decreased to 25.8% of

TABLE OF CONTENTS

revenues for the three months ended September 30, 2009 from 31.8% of revenues for the three months ended September 30, 2008, partly due to the decrease in service fees charged to digital music retailers and other non-retail clients, compared to the prior period.

Impairment of Goodwill. We recorded impairment of goodwill of approximately \$14.1 million during the three months ended September 30, 2009. No impairments were recognized in the three months ended September 30, 2008.

We performed an interim goodwill impairment analysis as of September 30, 2009, due to a reduction of the Company's market capitalization for a sustained period of time, declining digital media industry growth during 2009, and the continued macroeconomic instability. As a result of the impairment analysis of goodwill, we determined that the implied fair value of goodwill was \$12.4 million and recorded the aforementioned impairment charge. For additional information relating to the impairment of goodwill, see Note 9 to our condensed consolidated financial statements appearing elsewhere in this Quarterly Report on Form 10-Q.

Restructuring Expenses. On September 29, 2009, we announced a restructuring action to reduce costs by reducing approximately 20% of our pre-reduction headcount. As a result of these actions, the annualized savings to operating expense is expected to be approximately \$2.5 million. In connection with the restructuring, we incurred restructuring cost of approximately \$0.3 million. The full benefit of these costs reduction efforts will begin to be reflected in the fourth quarter of 2009. We did not incur any restructuring costs for the three months ended September 30, 2008.

Operating Expenses. The following table sets forth the individual components of our operating expenses for the three months ended September 30, 2009 and 2008:

	For the Three Months Ended September 30, 2009		2008	
	Amount	Percentage of Total	Amount	Percentage of Total
Personnel-related expenses	\$ 2,380,958	48.8 %	\$ 2,316,549	47.5 %
Professional and consulting fees	1,036,561	21.3 %	1,222,002	25.0 %
Office expenses	833,703	17.1 %	677,549	13.9 %
Travel expenses	85,713	1.8 %	224,929	4.6 %
Marketing	123,307	2.5 %	238,331	4.9 %
Other operating expenses	415,148	8.5 %	199,445	4.1 %
	\$ 4,875,390	100.0 %	\$ 4,878,805	100.0 %

Operating expenses remained consistent at approximately \$4.9 million for both the three months ended September 30, 2009 and 2008.

Personnel-related expenses were approximately \$2.4 million compared to \$2.3 million for the three months ended September 30, 2009 and 2008, respectively. The increase of \$0.1 million was primarily due to staff added to support our new physical distribution channel that was part of the TVT acquisition and to enhance our technology infrastructure of approximately \$0.2 million, an increase in health care expense of approximately \$0.1 million, and an increase in vacation expense of approximately \$0.1 million, partially offset by a decrease in bonus expense of approximately \$0.3 million.

Professional and consulting fees were approximately \$1.0 million compared to \$1.2 million for the three months ended September 30, 2009 and 2008, respectively. The decrease of \$0.2 million was primarily due to the decrease in the number of consultants in 2009 as part of our cost cutting initiatives.

Edgar Filing: Orchard Enterprises, Inc. - Form 10-Q

Office expenses were approximately \$0.8 million compared to \$0.7 million for the three months ended September 30, 2009 and 2008, respectively. Office expenses increased approximately \$0.1 million primarily due to increases of depreciation expenses. The depreciation expense is higher due to increase in fixed assets and additional leasehold improvements since moving to the current location.

Travel expenses were approximately \$0.1 million compared to \$0.2 million for the three months ended September 30, 2009 and 2008, respectively. Travel expenses decreased approximately \$0.1 million primarily due to our initiative to lower expenses across the board and specifically eliminating non-essential travel.

TABLE OF CONTENTS

Marketing expenses were approximately \$0.1 million compared to \$0.2 million for the three months ended September 30, 2009 and 2008, respectively. Marketing expenses decreased approximately \$0.1 million primarily due to a specific expense incurred with the marketing of an artist's single during the three months ended September 30, 2008. We did not incur such expenses in the three months ended September 30, 2009.

Other operating expenses were approximately \$0.4 million compared to \$0.2 million for the three months ended September 30, 2009 and 2008, respectively. The increase of \$0.2 million primarily related to an increase in bad debt expense of approximately \$0.3 million that was classified as office expense in 2008, partially offset by a decrease in foreign transaction loss of approximately \$0.1 million.

Other Income. We had other expense of approximately \$0.01 million for the three months ended September 30, 2009 compared to \$0.2 million of income for the three months ended September 30, 2008. For the three months ended September 30, 2008, we monetized approximately \$0.2 million in a sale of an acquired artist purchased as part of the TVT asset purchase agreement. We did not have such income for the three months ended September 30, 2009.

The following table sets forth items in our Condensed Consolidated Statements of Operations in dollars and as a percentage of revenue, as well as certain additional revenue and operating data for the periods indicated.

	For the Nine Months Ended September 30,			
	2009		2008	
	Amount	Percentage of Revenue	Amount	Percentage of Revenue
Statement of Operations Data:				
Revenues	\$45,554,949	100.0%	\$41,182,368	100.0%

Includes subscription download and streaming services on the Internet, including revenues from eMusic (which is (1) controlled by our majority shareholder) of \$2,680,879 and \$3,484,820 or the nine months ended September 30, 2009 and 2008, respectively.

31

TABLE OF CONTENTS

Comparison of Nine Months Ended September 30, 2009 to September 30, 2008

Revenues. Revenues increased to approximately \$45.6 million for the nine months ended September 30, 2009 from approximately \$41.2 million for the nine months ended September 30, 2008. Revenues from digital distribution (including permanent downloads and subscription services) increased to approximately \$37.3 million for the nine months ended September 30, 2009 from approximately \$32.2 million for the nine months ended September 30, 2008, primarily as a result of the increase in paid downloads. The increase in paid downloads resulted primarily from a significant increase in the average number of available tracks for sale due to organic growth and the acquisition of TVT. The increase in paid downloads is also in part due to a more efficient global distribution process, which resulted in part from our proprietary V.E.C.T.O.R.TM system, and in part from our strong relationship with retail stores among others. TVT generated approximately \$1.2 million in digital revenue in the nine months ended September 30, 2009. Revenue from mobile services decreased to approximately \$4.0 million for the nine months ended September 30, 2009 from approximately \$4.6 million for the nine months ended September 30, 2008. Other revenue decreased to approximately \$4.2 million for the nine months ended September 30, 2009 from approximately \$4.4 million for the nine months ended September 30, 2008. This decrease of approximately \$0.2 million was primarily due to the impact of the economic recession on the ability to secure new stores contractually required to pay for delivery of content which decreased by approximately \$1.7 million, partially offset by increased physical revenue of approximately \$1.6 million as a result of the acquisition of TVT and rollout of a physical offering to select distributed labels, and \$0.1 million of additional increases to other revenue.

Cost of Revenues. Our cost of revenues increased to approximately \$33.4 million for the nine months ended September 30, 2009 from approximately \$29.4 million for the nine months ended September 30, 2008. Royalty expense from digital distribution (including permanent downloads and subscription services) and mobile services paid to artists, labels and other content owners and other costs increased to approximately \$31.4 million for the nine months ended September 30, 2009 from approximately \$28.4 million for the nine months ended September 30, 2008. The increase is primarily related to the increase in overall revenues. Included in royalty expense was \$0.3 million of royalty advance impairment for the nine months ended September 30, 2009. We did not incur such impairment in the nine months ended September 30, 2008. During the nine months ended September 30, 2009 and 2008, our royalties paid to artists, labels and other content owners from digital distribution (including permanent downloads and subscription services) and mobile services amounted to approximately 69% and 69% of total revenues, respectively. Other costs of revenues increased to approximately \$2.0 million for the nine months ended September 30, 2009 as compared to approximately \$1.2 million for the nine months ended September 30, 2008. The increase is primarily due to the increase of cost of revenue related to physical sales. Gross profit margin decreased to 26.7% of revenues for the nine months ended September 30, 2009 from 28.5% of revenues for the nine months ended September 30, 2008, partly due to the decrease in higher margin service fees charged to digital music retailers and other non-retail clients, compared to the prior period.

Impairment of Goodwill. We recorded impairment of goodwill of approximately \$14.1 million during the nine months ended September 30, 2009. No impairments were recognized in the nine months ended September 30, 2008.

We performed an interim goodwill impairment analysis as of September 30, 2009, due to a reduction of the Company's market capitalization for a sustained period of time, declining digital media industry growth during 2009, and the continued macroeconomic instability. As a result of the impairment analysis of goodwill, we determined that the implied fair value of goodwill was \$12.4 million and recorded the aforementioned impairment charge. For additional information relating to the impairment of goodwill, see Note 9 to our condensed consolidated financial statements appearing elsewhere in this Quarterly Report on Form 10-Q.

Restructuring Expenses. On September 29, 2009, the Company announced a restructuring action to reduce costs by reducing approximately 20% of the Company's pre-reduction headcount. As a result of these actions, the annualized savings to operating expense is expected to be approximately \$2.5 million. In connection with the restructuring, we incurred restructuring cost of approximately \$0.3 million. The full benefit of these costs reduction efforts will begin to be reflected in the fourth quarter of 2009. We did not incur any restructuring costs for the nine months ended September 30, 2008.

TABLE OF CONTENTS

Operating Expenses. The following table sets forth the individual components of our operating expenses for the nine months ended September 30, 2009 and 2008:

	For the Nine Months Ended September 30,			
	2009		2008	
	Amount	Percentage of Total	Amount	Percentage of Total
Personnel-related expenses	\$7,402,271	47.1 %	\$6,809,041	48.5 %
Professional and consulting fees	3,501,861	22.3 %	3,505,717	25.0 %
Office expenses	2,533,803	16.1 %	1,942,839	13.9 %
Travel expenses	467,544	3.0 %	780,296	5.6 %
Marketing	574,715	3.7 %	591,147	4.2 %
Other operating expenses	1,222,384	7.8 %	395,810	2.8 %
	\$15,702,578	100.0%	\$14,024,850	100.0%

Operating expenses increased to approximately \$15.7 million for the nine months ended September 30, 2009 compared to approximately \$14.0 million for the nine months ended September 30, 2008 due primarily to increases in personnel-related expenses, office expenses and other expenses.

Personnel-related expenses were approximately \$7.4 million compared to \$6.8 million for the nine months ended September 30, 2009 and 2008, respectively. The increase of \$0.6 million was primarily due to staff added to support our new physical distribution channel that was part of the TVT acquisition and to enhance our technology infrastructure of approximately \$1.1 million, an increase in health care expense of approximately \$0.2 million, an increase in payroll taxes of approximately \$0.1 million, and an increase in stock option expense of approximately \$0.1 million, partially offset by a decrease in bonus expense of approximately \$0.9 million.

Office expenses were approximately \$2.5 million compared to \$1.9 million for the nine months ended September 30, 2009 and 2008, respectively. Office expenses increased approximately \$0.6 million due to increases of \$0.3 million in depreciation and \$0.5 million in rent, moving, licensing, service charges and fees, and communication charges, partially offset by a \$0.2 million of bad debt expense that was classified as office expense in 2008.

Other operating expenses were approximately \$1.2 million compared to \$0.4 million for the nine months ended September 30, 2009 and 2008, respectively. The increase of \$0.8 million included increases of \$0.6 million for bad debt expense (classified as office expense in 2008) and \$0.3 million in state and local taxes, offset by a decrease of approximately \$0.1 million in foreign transaction loss.

Other Income. We had other income of approximately \$0.4 million for the nine months ended September 30, 2009, as compared to approximately \$0.3 million for the nine months ended September 30, 2008. The increase of approximately \$0.1 million was primarily due to an increase of approximately \$0.3 million of income relating to a sale of an acquired artist purchased as part of the TVT asset purchase agreement, partially offset by a decrease in interest income of approximately \$0.2 million.

Liquidity and Capital Resources

We have incurred net losses of approximately \$17.5 million and \$1.9 million for the nine months ended September 30, 2009 and 2008, respectively. At September 30, 2009, we had approximately \$4.7 million in cash and cash equivalents.

Management believes that we have sufficient resources from cash balances on-hand and cash flow to be generated from operations to fund our net cash commitments and requirements for the next twelve months. In addition, on February 5, 2009, we entered into a secured revolving credit facility with Peninsula Bank Business Funding, a division of the Private Bank of the Peninsula. Under the terms of the agreement, we can borrow an amount that does not exceed 80% of our eligible accounts up to a maximum of \$3 million, secured by accounts receivable and inventory. The term of the facility is for one year. Under the credit agreement, we are required to comply with customary affirmative and negative covenants principally relating to use and disposition of assets and to the satisfaction of financial covenants (which include meeting

TABLE OF CONTENTS

quarterly net income/loss projections and monthly cash projections). In addition, the credit arrangement contains customary events of default. We were in default under the credit agreement as a result of our failure to comply with the covenant to achieve certain quarterly net income/loss projections in respect of the quarters ended March 31, 2009, June 30, 2009, and September 30, 2009. We have obtained waivers from the Bank of such defaults in respect of the quarters ended March 31, 2009, June 30, 2009, and September 30, 2009. In the event that we are unable to meet our quarterly income/loss projections for future quarters, we will need to obtain additional waivers from the Bank. There can be no assurance that the Bank will grant future waivers to us. Should additional resources be required, management may seek to raise funds through additional financing or the issuance of debt or equity securities.

Cash Flows for the Nine Months Ended September 30, 2009 Compared to Nine Months Ended September 30, 2008

Net cash provided by operations for the nine months ended September 30, 2009 was approximately \$1.3 million. The reconciliation of net loss of approximately \$17.5 million to net cash provided by operations for the nine months ended September 30, 2009 included non-cash charges for impairment of goodwill of \$14.1 million, depreciation and amortization of approximately \$1.4 million, bad debt expense of approximately \$0.6 million and share-based compensation of approximately \$0.8 million. These net non-cash charges were supplemented by a reduction of \$2.0 million in various operating net assets, including a reduction in net accounts receivable of \$3.1 million, reduction of prepaid expenses and other current assets of \$0.4 million, an increase of \$1.2 million in accrued royalties, and an increase in accrued expenses of \$0.1 million, offset by a \$2.0 million increase in royalty advances, an increase of \$0.4 million in other assets and recognition of \$0.3 million in deferred revenue.

Net cash provided by operations for the nine months ended September 30, 2008 was approximately \$0.3 million. The reconciliation of net loss of approximately \$1.9 million to net cash provided by operations for the nine months ended September 30, 2008 included non-cash charges for depreciation and amortization of approximately \$1.0 million, bad debt expense of approximately \$0.2 million and share-based compensation of approximately \$0.7 million. As a result of our increase in revenues, our corresponding accounts receivable increased by approximately \$3.7 million whereas our royalty payable increased by \$3.0 million for the period ended September 30, 2008. Similarly, deferred revenue increased by \$1.0 million. Additionally, as a result of our content acquisition strategy, we generated approximately \$0.6 million net cash for royalty advances to secure additional music and audio content rights.

Our investing activities resulted in a net cash outflow of approximately \$1.1 million for the nine months ended September 30, 2009 as a result of the purchase of \$1.4 million of property and equipment, offset by \$0.3 million of loan repayments received. For the nine months ended September 30, 2008, investing activities resulted in a net cash outflow of approximately \$7.5 million as a result of professional fees and other expenditures of \$0.5 million that increased goodwill associated with the Merger, expenditures of \$0.6 million to purchase property and equipment and our preliminary deposit of \$6.0 million incurred in the acquisition of certain TVT assets. The property and equipment additions for the nine months ended September 30, 2008 were primarily due to leasehold improvements of \$0.6 million.

There was no cash provided from financing activities for the nine months ended September 30, 2009 and 2008.

As of September 30, 2009, we had cash and cash equivalents of approximately \$4.7 million and a working capital deficit of approximately \$2.6 million, compared to cash and cash equivalents of approximately \$4.5 million and a working capital deficit of approximately \$0.5 million at December 31, 2008.

Description of Indebtedness

Convertible Shares and Debt Instruments

At September 30, 2009, we had 448,707 shares of our Series A Preferred Stock outstanding. Our Series A Preferred Stock is not entitled to any dividend or any interest. Each share is convertible into 3.33 shares of our common stock at any time at the sole discretion of the preferred shareholders. The shares are redeemable for \$55.70 per share (equivalent to \$16.72 per common share at the conversion rate of 3.33 to 1) at the sole

TABLE OF CONTENTS

discretion of our board of directors after November 13, 2012 and only if our common stock is trading above \$30.00 per share for more than thirty days consecutively.

Off-Balance Sheet Arrangements

As of September 30, 2009, we had no off-balance sheet arrangements.

Related Party Transactions

Dimensional is the controlling stockholder of The Orchard Enterprises, Inc., owning approximately 53% of our voting common stock on a fully diluted basis as of September 30, 2009. Dimensional is also the controlling stockholder of eMusic, which provides digital music distribution services to us under a Digital Music Wholesale Agreement, dated January 1, 2004, as amended on March 12, 2007. We entered into a new agreement with eMusic dated January 1, 2009. This agreement grants eMusic worldwide rights, on a non-exclusive basis, to exploit our master recordings digitally and via the Internet through September 30, 2010. Pursuant to the agreement, we are entitled to better royalty terms if eMusic allows any other independent record label such better terms during the term of the agreement (a Most Favored Nation clause). Amounts included in revenues in connection with these services were \$731,613 and \$1,100,784 for the three months and \$2,680,879 and \$3,450,972 for the nine months ended September 30, 2009 and 2008, respectively. Amounts included in accounts receivable in connection with these services were \$716,410 and \$1,012,658 at September 30, 2009 and December 31, 2008, respectively.

For information relating to other related party transactions, see Note 14 to our condensed consolidated financial statements appearing elsewhere in this Quarterly Report on Form 10-Q.

Item 4T. Controls and Procedures

Disclosure Controls and Procedures. Management, with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)) as of the end of the period covered by this quarterly report (the Evaluation Date). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act (i) is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting. There were no changes in our internal control over financial reporting that occurred during the third quarter of 2009 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in legal proceedings from time to time in the ordinary course of our business.

On April 16, 2007, Gloryvision, Ltd. brought an action against Media Right Productions, Inc., one of the Company's labels, the Company and others in the U.S. District Court for the Southern District of New York alleging, among other things, breach of contract and copyright infringement relating to two CDs provided to the Company by Media Right in 2000. Gloryvision sought compensatory damages in the amount of \$1 million, punitive damages in the amount of \$1 million, interest, attorneys' fees, costs and injunctive relief. The plaintiffs also sought statutory damages in the amount of \$20,000 for each unintentional copyright infringement and \$100,000 for each intentional copyright infringement. Pursuant to the license agreement between Media Right and the Company, Media Right is obligated to indemnify the Company for damages, including legal fees, incurred by the Company for any claims regarding content provided to and distributed by the Company thereunder. On April 15, 2009, the court ruled in Gloryvision's favor. Pursuant to the court's finding, the Company was obligated to pay Gloryvision four hundred dollars. On June 17, 2009, Gloryvision filed a notice of appeal, which they subsequently amended on July 24, 2009, appealing the court's May 18, 2009 order denying Gloryvision's request to alter the April 15, 2009 final judgment.

On March 11, 2008, the Company initiated suit in the U.S. District Court for the Eastern District of California against TufAmerica, Inc. The complaint alleges fraud, breach of contract and various other wrongs in connection with a contract dispute with TufAmerica, Inc. concerning the number, nature and technical quality of master recordings the label was required to deliver to the Company under the contract. The Company requested various forms of relief from the court, including the return of approximately \$2.4 million in fees and advances already paid under the contract. On April 23, 2008, TufAmerica answered the Company's complaint denying the causes of action asserted against it and asserting its own counterclaims against the Company for breach of contract. Although the counterclaim did not specify an exact amount of damages sought, during the course of the dispute TufAmerica, Inc. had sent a letter to the Company claiming damages in the amount of approximately \$1.2 million. On March 25, 2009, this lawsuit was settled, subject to court approval. Subsequently, the court approved the settlement. On September 21, 2009, TufAmerica has brought an action in the Superior Court of California in Sacramento against the Company asserting breach of contract. Management believes that TufAmerica's claim was settled on March 25, 2009 and plans to vigorously defend the action against the Company.

To our knowledge, there are no other currently pending or threatened legal proceedings that could have a material effect on our business, financial condition or results of operations.

Item 1A. Risk Factors

Not applicable.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table presents information with respect to repurchases of common stock made by us during the three months ended September 30, 2009. These shares were delivered to us as payment of taxes on the vesting of restricted

stock and deferred stock awards.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Number of Shares Purchased for Announced Program	Approximate Dollar Value of Shares that May Yet Be Purchased
July 1, 2009 to July 30, 2009				
August 1, 2009 to August 31, 2009	1,490 ^(a)	\$ 1.80		
September 1, 2009 to September 30, 2009				
Total	1,490	1.80		

^(a) Represents 1,490 shares of common stock withheld by us for the satisfaction of withholding tax upon the vesting of restricted stock awards under the 2008 Stock Plan.
