HUDSON HIGHLAND GROUP, INC.  
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS  
(in thousands, except share and per share amounts)  
(unaudited)

NOTE 1 – BASIS OF PRESENTATION

These interim unaudited condensed consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and should be read in conjunction with the consolidated financial statements and related notes of Hudson Highland Group, Inc. and its subsidiaries (the “Company”) filed in its Annual Report on Form 10-K for the year ended December 31, 2010.

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported amounts of operating revenues and expenses. These estimates are based on management’s knowledge and judgments. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation of the Company’s financial position, results of operations and cash flows at the dates and for the periods presented have been included. The results of operations for interim periods are not necessarily indicative of the results of operations for the full year. The Condensed Consolidated Financial Statements include the accounts of the Company and all of its wholly-owned and majority-owned subsidiaries. All significant intra-entity balances and transactions between and among the Company and its subsidiaries have been eliminated in consolidation. In preparing the accompanying financial statements, management has evaluated all events and transactions through the issuance date of the condensed consolidated financial statements.

Certain prior year amounts have been reclassified to conform to the current period presentation.

NOTE 2 – DESCRIPTION OF BUSINESS

The Company provides professional staffing services on a permanent and contract basis and a range of human capital services to businesses operating in a wide variety of industries. The Company’s operations, assets and liabilities are organized into four reportable segments—Hudson Europe, Hudson Australia and New Zealand (“ANZ”), Hudson Americas and Hudson Asia (“Hudson regional businesses” or “Hudson”), which constituted approximately 48%, 29%, 13%, and 10%, respectively, of the Company’s gross margin for the three months ended March 31, 2011.

Corporate expenses are reported separately from the four reportable segments and pertain to certain functions, such as executive management, corporate governance, human resources, accounting, administration, tax and treasury. A portion of these expenses are attributable to the services provided by the corporate management to the reportable segments and have been allocated to the segments as management service fees.

NOTE 3 – RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

In December 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2010-28, Intangibles - Goodwill and Other (Topic 350): When to Perform Step 2 of the Goodwill Impairment Test for Reporting Units with Zero or Negative Carrying Amounts. ASU 2010-28 modifies Step 1 of the goodwill impairment test such that for reporting units with zero or negative carrying amounts, an entity is required to perform Step 2 of the goodwill impairment test if it is more likely than not based on an assessment of qualitative indicators that a goodwill impairment exists. In determining whether it is more likely than not that goodwill impairment exists, an entity should consider whether there are any adverse qualitative factors indicating that an impairment may exist. ASU 2010-28 is

effective for fiscal years, and interim periods within those years, beginning after December 15, 2010. The Company adopted ASU 2010-28 effective January 1, 2011. The adoption had no material impact on the Company's results of operations or financial position.

#### NOTE 4 – EARNINGS (LOSS) PER SHARE

Basic earnings (loss) per share are computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding during the period. When the effects are not anti-dilutive, diluted earnings (loss) per share are computed by dividing the Company's net income (loss) by the weighted average number of shares outstanding and the impact of all dilutive potential common shares, primarily stock options and unvested restricted stock. The dilutive impact of stock options and unvested restricted stock is determined by applying the "treasury stock" method. For the periods in which losses are presented, dilutive loss per share calculations do not differ from basic loss per share because the effects of any potential common stock were anti-dilutive and therefore not included in the calculation of dilutive loss per share. For the three months ended March 31, 2011 and 2010, the effect of approximately 2,928,389 and 2,771,459, respectively, of outstanding stock options and other common stock equivalents was excluded from the calculation of diluted loss per share because the effect was anti-dilutive.

#### NOTE 5 – STOCK-BASED COMPENSATION

The Company accounts for stock-based compensation in accordance with FASB Accounting Standards Codification ("ASC") ASC 718 "Compensation – Stock Compensation", as interpreted by the SEC Staff Accounting Bulletins No. 107 and No. 110. Under ASC 718, stock-based compensation is based on the fair value of the award on the date of grant, which is recognized over the related service period, net of estimated forfeitures. For awards with graded vesting conditions, the values of the awards are determined by valuing each tranche separately and expensing each tranche over the required service period. The service period is the period over which the related service is performed, which is generally the same as the vesting period. The Company uses the Black-Scholes option-pricing model to determine the compensation expense related to stock options.

##### Incentive Compensation Plan

The Company maintains the Hudson Highland Group, Inc. 2009 Incentive Stock and Awards Plan (the "ISAP") pursuant to which it can issue equity-based compensation incentives to eligible participants. The ISAP permits the granting of stock options and restricted stock as well as other types of equity-based awards. The Compensation Committee of the Company's Board of Directors ("Compensation Committee") will establish such conditions as it deems appropriate on the granting or vesting of stock options or restricted stock. While the Company historically granted both stock options and restricted stock to its employees, since 2008 the Company has granted primarily restricted stock to its employees. In rare cases, the Company grants stock options to certain of its executive employees at the time of hire.

The Company's common stocks that were reserved for future issuance to participants was 365,636 shares as of March 31, 2011. The Compensation Committee administers the ISAP and may designate any of the following as a participant under the ISAP: any officer or other employee of the Company or its affiliates or individuals engaged to become an officer or employee, consultants or other independent contractors who provide services to the Company or its affiliates and non-employee directors of the Company.

##### Stock Options

Stock options granted under the ISAP generally expire ten years after the date of grant and have an exercise price of at least 100% of the fair market value of the underlying stock on the date of grant and generally vest ratably over a four year period.

For the three months ended March 31, 2011 and 2010, the Company recognized \$82 and \$52, respectively, of stock-based compensation expense related to stock options.

As of March 31, 2011, the Company had approximately \$23 of unrecognized stock-based compensation expense related to outstanding non-vested stock options. The Company expects to recognize that cost over a weighted average service period of approximately 1.2 years.

- 8 -

---

Changes in the Company's stock options for the three months ended March 31, 2011 were as follows:

	Number of Options Outstanding	Weighted Average Exercise Price per Share
Options outstanding at January 1, 2011	1,548,300	\$ 12.64

Options outstanding at March 31, 2011	1,539,675	12.62
Options exercisable at March 31, 2011	1,507,425	\$ 12.73

#### Restricted Stock

During the three months ended March 31, 2011, the Company granted 640,125 shares of restricted stock to various employees. Shares of restricted stock with only service-based vesting conditions and shares of restricted stock with performance-based vesting conditions are valued at the closing market value of the Company's common stock on the date of grant. The Company recognizes compensation cost for the awards with performance conditions if and when the Company concludes that it is probable that the performance condition will be achieved. Of the 640,125 shares granted, (i) 324,125 shares vest ratably over a three year period from the date of grant and (ii) 316,000 shares vest ratably over a three year period from the date of grant based on the Company's gross margin and earnings before interest, income taxes, depreciation and amortization ("EBITDA") for the year ending December 31, 2011.

For the three months ended March 31, 2011 and 2010, the Company recognized \$517 and \$319, respectively, of stock-based compensation expense related to restricted stock.

As of March 31, 2011, the Company had \$5,050 of total unrecognized stock-based compensation expense related to outstanding non-vested restricted stock. The Company expects to recognize that cost over a weighted average service period of 1.8 years.

Changes in the Company's restricted stock for the three months ended March 31, 2011 were as follows:

	Number of Shares of Restricted Stock	Weighted Average Grant Date Fair Value
Non-vested restricted stock at January 1, 2011	953,037	\$3.64
Granted	640,125	6.36
Vested	(216,189 )	3.43
Forfeited	(69,819 )	2.41
Non-vested restricted stock at March 31, 2011	1,307,154	\$5.07

## Defined Contribution Plans

The Company maintains the Hudson Highland Group, Inc. 401(k) Savings Plan (the "401(k) plan"). The 401(k) plan allows eligible employees to contribute up to 15% of their earnings to the 401(k) plan. The Company has the discretion to match employees' contributions up to 3% through a contribution of the Company's common stock. Vesting of the Company's contribution occurs over a five-year period. For the three months ended March 31, 2011 and 2010, the Company recognized \$205 and \$233, respectively, of expense for the 401(k) plan. In March 2011, the Company issued 91,944 shares of its common stock with a value of \$602 to satisfy the 2010 contribution liability to the 401(k) plan. In March 2010, the Company issued 121,016 shares of its common stock with a value of \$541 plus cash of \$111 to satisfy the 2009 contribution liability to the 401(k) plan.

## NOTE 6 – REVENUE, DIRECT COSTS AND GROSS MARGIN

The Company's revenue, direct costs and gross margin were as follows:

	For The Three Months Ended March 31, 2011			For The Three Months Ended March 31, 2010		
	Temporary	Other	Total	Temporary	Other	Total
Revenue	\$ 163,061	\$ 55,478	\$ 218,539	\$ 135,033	\$ 45,085	\$ 180,118

Gross margin	\$ 28,906	\$ 52,292	\$ 81,198	\$ 24,477	\$ 41,944	\$ 66,421

(1) Direct costs include the direct staffing costs of salaries, payroll taxes, employee benefits, travel expenses and insurance costs for the Company's contractors and reimbursed out-of-pocket expenses and other direct costs. Other than reimbursed out-of-pocket expenses, there are no other direct costs associated with the Other category, which includes the search, permanent recruitment and other human resource solutions' revenue. Gross margin represents revenue less direct costs. The region where services are provided, the mix of contracting and permanent recruitment, and the functional nature of the staffing services provided can affect gross margin. The salaries, commissions, payroll taxes and employee benefits related to recruitment professionals are included in selling, general and administrative expenses.

## NOTE 7 – PROPERTY AND EQUIPMENT, NET

## NOTE 8 – GOODWILL

The goodwill related to the earn-out payment made in 2010 for the Company's 2007 acquisition of the businesses of Tong Zhi (Beijing) Consulting Service Ltd and Guangzhou Dong Li Consulting Service Ltd.

Goodwill, beginning of year	\$ 1,909	\$ -
Additions and adjustments	-	-
Impairments	-	-
Currency translation	13	-
Goodwill on March 31,	\$ 1,922	\$ -

## NOTE 9 – INCOME TAXES

The provision for income taxes for the three months ended March 31, 2011 was \$750 on a pre-tax income of \$744, compared with a provision for income taxes of \$252 on a pre-tax loss of \$3,886 for the same period in 2010. The effective tax rate for the three months ended March 31, 2011 was 100.8% as compared to negative 6.5% for the same period in 2010. In the current period, the effective tax rate differs from the U.S. federal statutory rate of 35% primarily due to the inability to recognize tax benefits on net losses in the U.S. and certain other foreign jurisdictions. The Company records a valuation allowance against deferred tax assets to the extent that it is more likely than not that some portion, or all of the deferred tax assets will not be realized.

Under ASC 270, "Interim Reporting", and ASC 740-270, "Income Taxes – Intra Tax Allocation", the Company is required to adjust its effective tax rate for each quarter to be consistent with the estimated annual effective tax rate. Jurisdictions with a projected loss for the full year where no tax benefit can be recognized are excluded from the calculation of the estimated annual effective tax rate. Applying the provisions of ASC 270 and 740-270 could result in a higher or lower effective rate during a particular quarter, based upon the mix and timing of actual earnings versus annual projections.

As of March 31, 2011 and December 31, 2010, the Company had \$8,158 and \$8,303, respectively, of uncertain tax benefits, including interest and penalties, which if recognized in the future, would affect the annual effective income tax rate. Reductions to uncertain tax positions, including from the lapse of the applicable statutes of limitations during the next twelve months, are estimated to be approximately \$900 to \$3,700, excluding any potential new additions.

Estimated interest costs and penalties are classified as part of the provision for income taxes in the Company's Condensed Consolidated Statements of Operations and totaled to a benefit of \$148 and \$18, respectively, for the three months ended March 31, 2011 and 2010. Accrued interest and penalties were \$1,730 and \$1,895 as of March 31, 2011 and December 31, 2010, respectively. In many cases, the Company's uncertain tax positions are related to tax years that remain subject to examination by the relevant tax authorities. Tax years that had net operating losses ("NOLs") would remain open until the expiration of the statute of limitations of the future tax years those NOLs would be utilized. Notwithstanding the above, the open tax years are 2007 through 2010 for U.S. Federal, 2005 through 2010 for most U.S. state and local jurisdictions, 2009 through 2010 for the U.K., 2000 through 2003 and 2006 through 2010 for Australia and 2003 through 2010 for most other jurisdictions. The Company is currently under income tax examination in the State of Pennsylvania (2004-2009).

## NOTE 10 – BUSINESS REORGANIZATION EXPENSES

The following table contains amounts for Changes in Estimate, Additional Charges, and Payments related to prior restructuring plans that were incurred or recovered during the three months ended March 31, 2011. These amounts are classified as business reorganization expenses in the Company’s Condensed Consolidated Statements of Operations. Amounts in the “Payments” column represent the cash payments associated with the reorganization plans. Changes in the accrued business reorganization expenses for the three months ended March 31, 2011 were as follows:

For the Three Months Ended March 31, 2011	December 31, 2010	Changes in Estimate	Additional Charges	Payments	March 31, 2011

Contract cancellation costs	103	-	-	(7 )	96
Total	\$ 3,129	\$351	\$-	\$(627 )	\$2,853

## NOTE 11 – COMMITMENTS AND CONTINGENCIES

## Consulting, Employment and Non-compete Agreements

The Company has entered into various consulting, employment and non-compete agreements with certain key management personnel, executive search consultants and former owners of acquired businesses. Agreements with key members of management, except the former Chief Executive Officer (“CEO”), are generally one year in length, on an at will basis, provide for compensation and severance payments under certain circumstances and are automatically renewed annually unless either party gives sufficient notice of termination. The former CEO had no employment agreement with the Company. Agreements with certain consultants and former owners of acquired businesses are generally two to five years in length.

## Litigation and Complaints

The Company is subject to, from time to time, various claims, lawsuits, and other complaints from, for example, clients, candidates, suppliers, landlords, taxing authorities, former and current employees in the ordinary course of business. The Company routinely monitors claims such as these, and records provisions for losses when the claim becomes probable and the amount due is estimable. Although the outcome of these claims cannot be determined, the Company believes that the final resolution of these matters, including ongoing discussion with the Company’s former CEO, will not have a material adverse effect on the Company’s financial condition, results of operations or liquidity.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. The Company’s reserves were not significant as of March 31, 2011 and December 31, 2010.

## Asset Retirement Obligations

The Company has certain asset retirement obligations that are primarily the result of legal obligations for the removal of leasehold improvements and restoration of premises to their original condition upon termination of leases. As of March 31, 2011 and December 31, 2010, \$2,683, and \$2,825, respectively, of asset retirement obligations were included in the Condensed Consolidated Balance Sheets, of which \$2,647 and \$2,627, respectively, were included under the caption “other non-current liabilities.”

Matters Under Appeal

The Company is currently appealing a decision by the Pennsylvania Department of Revenue related to its 2004 and 2005 state income tax returns. Under the appeals process, the state has filed a tax lien in the amount of \$3,508 on the U.S. operating company. The Company has posted a security bond amounting to 120 percent of the lien. The Company does not expect this bond to be drawn.

## NOTE 12 – FINANCIAL INSTRUMENTS

## Credit Agreements

On August 5, 2010, the Company and certain of its North American and U.K. subsidiaries entered into a senior secured revolving credit facility (the “Revolver Agreement”) with RBS Business Capital, a division of RBS Asset Finance, Inc. (“RBS”), that provides the Company with the ability to borrow up to \$40,000, including the issuance of letters of credit. The Company may increase the maximum borrowing amount to \$50,000, subject to certain conditions including lender acceptance. Extensions of credit are based on a percentage of the eligible accounts receivable less required reserves principally related to the U.K. and North America operations. In connection with the Revolver Agreement, the Company incurred and capitalized approximately \$1,457 of deferred financing costs, which are being amortized over the term of the agreement. As of March 31, 2011, the Company’s borrowing base was \$42,303 and the Company was required to maintain a minimum availability of \$10,000. As of March 31, 2011, the Company had \$0 of outstanding borrowings, and \$2,781 of outstanding letters of credit issued, under the Revolver Agreement, resulting in the Company being able to borrow up to an additional \$29,522 after deducting the minimum availability, outstanding borrowings and outstanding letters of credit issued.

The maturity date of the Revolver Agreement is August 5, 2014. Borrowings may initially be made with an interest rate based on a base rate plus 2.25% or on the LIBOR rate for the applicable period plus 3.25%. The applicable margin for each rate is based on the Company’s Fixed Charge Coverage Ratio (as defined in the Revolver Agreement). The interest rate on outstanding borrowings was 5.5% as of March 31, 2011. Borrowings under the Revolver Agreement are secured by substantially all of the assets of the Company and certain of its North American and U.K. subsidiaries.

The Revolver Agreement contains various restrictions and covenants including (1) a requirement to maintain a minimum excess availability of \$10,000 until such time as for two consecutive fiscal quarters (i) the Company’s Fixed Charge Coverage Ratio is at least 1.2x and (ii) the Company’s North American and U.K. operations, for the four fiscal quarters then ending, have an EBITDA (as defined in the Revolver Agreement) for such twelve month period of not less than \$500 as of the end of each fiscal quarter during the fiscal year 2011 and \$1,000 at the end of each fiscal quarter thereafter; thereafter a requirement to maintain a minimum availability of \$5,000, a Fixed Charge Coverage Ratio of at least 1.1x and EBITDA (as defined in the Revolver Agreement) for the Company’s North American and U.K. operations of at least \$500 during the fiscal year 2011 and \$1,000 thereafter; (2) a limit on the payment of dividends of not more than \$5,000 per year and subject to certain conditions; (3) restrictions on the ability of the Company to make additional borrowings, acquire, merge or otherwise fundamentally change the ownership of the Company or repurchase the Company’s stock; (4) a limit on investments, and a limit on acquisitions of not more than \$25,000 in cash and \$25,000 in non-cash consideration per year, subject to certain conditions set forth in the Revolver Agreement; and (5) a limit on dispositions of assets of not more than \$4,000 per year. The Company was in compliance with all financial covenants under the Revolver Agreement as of March 31, 2011.

On August 3, 2010, an Australian subsidiary of the Company entered into a Receivables Finance Agreement and related agreements (the “Finance Agreement”) with Commonwealth Bank of Australia (“CBA”) that provides the Australian subsidiary with the ability to borrow up to approximately \$15,516 (AUD 15,000). Under the terms of the Finance Agreement, the Australian subsidiary may make offers to CBA to assign its accounts receivable with recourse, which accounts receivable CBA may in its good faith discretion elect to purchase. As of March 31, 2011, the Company had \$9,882 (AUD 9,553) of outstanding borrowings under the Finance Agreement. Available credit for use under the Finance Agreement as of March 31, 2011 was \$5,633 (AUD 5,446).

The Finance Agreement does not have a stated maturity date and can be terminated by either party upon 90 days written notice. Borrowings may be made with an interest rate based on the average bid rate for bills of exchange

("BBSY") with the closest term to 30 days plus a margin of 1.6%. The interest rate was 6.51% as of March 31, 2011. In addition, the Company pays a 0.9% line fee based on the maximum availability. Borrowings are secured by substantially all of the assets of the Australian subsidiary and are based on an agreed percentage of eligible accounts receivable.

The Finance Agreement contains various restrictions and covenants for the Australian subsidiary, including (1) a requirement to maintain a minimum Tangible Net Worth (as defined in the Finance Agreement) ratio of 70%; (2) a minimum Fixed Charge Coverage Ratio (as defined in the Finance Agreement) of 1.4x for a trailing twelve month period; and (3) a limitation on certain intercompany payments of expenses, interest and dividends not to exceed Net Profit After Tax (as defined in the Finance Agreement). The Company has received a waiver for not being in compliance with the Tangible Net Worth ratio financial covenant under the Finance Agreement as of March 31, 2011. The waiver was obtained on April 21, 2011. The Company was in compliance with all other financial covenants as of March 31, 2011.

As of March 31, 2011, the Company had a total of \$1,834 of bank guarantees issued by CBA under the Finance Agreement that were collateralized by a restricted term deposit of an equal amount. See section "Restricted Cash" below for details.

The Company also has lending arrangements with local banks through its subsidiaries in New Zealand, Belgium, the Netherlands, Singapore and Mainland China. In New Zealand, the Company's subsidiary can borrow up to \$1,908 (NZD2,500) as of March 31, 2011 for working capital purposes. The aggregate outstanding borrowings under the lending arrangement in New Zealand were \$1,274 and \$841 as of March 31, 2011 and December 31, 2010, respectively. Available credit for use under the lending arrangement in New Zealand as of March 31, 2011 was \$633 (NZD 830). This lending arrangement in New Zealand expires on March 31, 2012. Interest on borrowings under the New Zealand lending arrangement is based on a three month cost of funds rate as determined by the bank, plus a 1.84% margin, and was 6.76% on March 31, 2011. In addition, the Company pays a 0.9% line-fee based on the maximum availability. As of March 31, 2011, the Belgium and the Netherlands subsidiaries could borrow up to \$5,144 based on an agreed percentage of accounts receivable related to their operations. Borrowings under the Belgium and the Netherlands lending arrangements may be made with an interest rate based on the one month EURIBOR plus 2.5%, or about 3.4% on March 31, 2011. The lending arrangements in Belgium and the Netherlands will expire on May 2, 2011 and June 15, 2011, respectively. In Singapore, the Company's subsidiary can borrow up to \$793 (SGD1,000) for working capital purposes. Interest on borrowings under this overdraft facility is based on the Singapore Prime Rate, plus 1.75%, and was 6.00% on March 31, 2011. The Singapore overdraft facility expires annually each August, but can be renewed for one year periods at that time. In Mainland China, the Company's subsidiary can borrow up to \$1,000 for working capital purposes. Interest on borrowings under this overdraft facility is based on the People's Republic of China's six month rate, plus 200 basis points, and was 7.6% on March 31, 2011. This overdraft facility expires annually each September, but can be renewed for one year periods at that time. There were no outstanding borrowings under the Belgium, The Netherlands, Singapore and Mainland China lending agreements as of March 31, 2011 and December 31, 2010.

The weighted average interest rate on all outstanding borrowings for the three months ended March 31, 2011 was 6.3%.

The Company continues to use the aforementioned credit to support its ongoing global working capital requirements, capital expenditures and other corporate purposes and to support letters of credit. Letters of credit and bank guarantees are used primarily to support office leases.

## ITEM 2.MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Management’s Discussion and Analysis of Financial Condition and Results of Operations (“MD&A”) should be read in conjunction with the Condensed Consolidated Financial Statements and the notes thereto, included in Item 1 of this Form 10-Q. This MD&A contains forward-looking statements. Please see “FORWARD-LOOKING STATEMENTS” for a discussion of the uncertainties, risks and assumptions associated with these statements. This MD&A also uses the non-generally accepted accounting principle measure of earnings before interest, taxes, depreciation and amortization (“EBITDA”).

### Overview

Hudson Highland Group, Inc. (the “Company” or “Hudson,” “we,” “us” and “our”) has operated as an independent publicly traded company since April 1, 2003. Our businesses are specialized professional staffing services for permanent and contract and talent management services to businesses operating in many industries and in 20 countries around the world. Our largest operations are in the United Kingdom (“U.K.”), Australia and the United States (“U.S.”). We are organized into four reportable segments: Hudson Europe, Hudson Australia and New Zealand (“ANZ”), Hudson Americas, and Hudson Asia. These segments contributed approximately 48%, 29%, 13%, and 10% of the Company’s gross margin, respectively, for the three months ended March 31, 2011.

Hudson Europe operates from 38 offices in 13 countries, with 49% of its gross margin generated in the U.K. during the three months ended March 31, 2011. ## Strategic Actions and Current Market Conditions

Our management's primary focus has been on specialized professional recruitment through our recruitment, staffing, project solutions and talent management businesses. Our long-term financial goal is to reach 7-10% EBITDA margins, with EBITDA being the measure most within the control of our operating leaders. We continue to execute this strategy through a combination of delivery of higher margin services, efficient delivery of services, investments, cost management, acquisitions and divestitures. In doing so, we continue to focus on retaining and maintaining key clients, retaining high performing revenue earning employees, integrating businesses to achieve synergies, discontinuing non-core businesses, streamlining support operations and reducing costs to achieve the Company's long-term profitability goals. We expect to continue our review of opportunities to expand our operations in specialized professional recruitment.

Market conditions have remained very mixed in the various geographies where we operate even though we continue to experience increasing demand. As various countries examine their debt situation and the impact of world events, demand for our services could change. While we are unable to accurately predict changes in general economic conditions and their effect on the levels of new hiring, we do not expect a return to significantly negative conditions in

any market, even though companies are likely to remain cautious on hiring.

## Contingencies

From time to time in the ordinary course of business, the Company is subject to compliance audits by federal, state, local and foreign government regulatory, tax, and other authorities relating to a variety of regulations, including wage and hour laws, unemployment taxes, workers' compensation, immigration, and income, value-added and sales taxes. The Company is also subject to, from time to time in the ordinary course of business, various claims, lawsuits, and other complaints from, for example, clients, candidates, suppliers, landlords for both leased and subleased properties, and former and current employees. Periodic events can change the number and type of audits, claims, lawsuits or complaints asserted against the Company. Events can also change the likelihood of assertion and the behavior of third parties to reach resolution regarding such matters.

The present economic circumstances have given rise to many news reports and bulletins from clients, tax authorities and other parties about changes in their procedures for audits, payment, plans to challenge existing contracts and other such matters aimed at being more aggressive in the resolution of such matters in their own favor. The Company has appropriate procedures in place for identifying and communicating any matters of this type, whether asserted or likely to be asserted, and it evaluates its liabilities in light of the prevailing circumstances. Changes in the behavior of third parties could cause the Company to change its view of the likelihood of a claim and what might constitute a trend. In the last twelve months, the Company has not seen a marked difference in employee disputes or client disputes, though pressure on fees continues.

For matters that have reached the threshold of probable and estimable, the Company has established reserves for legal, regulatory and other contingent liabilities. Although the outcome of these matters cannot be determined, the Company believes that none of the currently pending matters, including ongoing discussions with the Company's former Chief Executive Officer, individually or in the aggregate, will have a material adverse effect on the Company's financial condition, results of operations or liquidity.

During January 2011, significant rainfall caused widespread flooding throughout much of Queensland, Australia. On February 22, 2011, a major earthquake caused severe damage in Christchurch, New Zealand. The Company incurred losses related to these events primarily for business interruption and property damage. The Company maintains insurance for such matters and recorded \$0.3 million for estimated insurance recoveries. The Company continues to assess its losses and insurance coverage related to these events and will make adjustments as necessary.

The Company is currently appealing a decision by the Pennsylvania Department of Revenue related to its 2004 and 2005 state income tax returns. Under the appeals process, the State has filed a tax lien in the amount of \$3.5 million on the U.S. operating company. The Company has posted a security bond amounting to 120 percent of the lien. The Company does not expect this bond to be drawn.

## Use of EBITDA

Management believes EBITDA is a meaningful indicator of the Company's performance that provides useful information to investors regarding the Company's financial condition and results of operations. EBITDA is also considered by management as the best indicator of operating performance and most comparable measure across our regions. Management also uses this measurement to evaluate capital needs and working capital requirements. EBITDA should not be considered in isolation or as a substitute for operating income, or net income prepared in accordance with generally accepted accounting principles in the United States of America ("U.S. GAAP") or as a measure of the Company's profitability. EBITDA is derived from net income (loss) adjusted for (benefit from) provision for income taxes, interest expense (income), and depreciation and amortization. The reconciliation of EBITDA to the most directly comparable U.S. GAAP financial measure is provided in the table below:
