CASTLE BRANDS INC. AND SUBSIDIARIES  
Notes to Unaudited Condensed Consolidated Financial Statements

NOTE 1 — ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements do not include all of the information and footnote disclosures normally included in financial statements prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”) and U.S. generally accepted accounting principles (“GAAP”) and, in the opinion of management, contain all adjustments (which consist of only normal recurring adjustments) necessary for a fair presentation of such financial information. Results of operations for interim periods are not necessarily indicative of those to be achieved for full fiscal years. The condensed consolidated balance sheet as of March 31, 2011 is derived from the March 31, 2011 audited financial statements. These unaudited condensed consolidated financial statements should be read in conjunction with Castle Brands Inc.’s (the “Company”) audited consolidated financial statements for the fiscal year ended March 31, 2011 included in the Company’s annual report on Form 10-K for the year ended March 31, 2011, as amended (“2011 Form 10-K”). Please refer to the notes to the audited consolidated financial statements included in the 2011 Form 10-K for additional disclosures and a description of accounting policies.

- A. Description of business and business combination — The consolidated financial statements include the accounts of the Castle Brands Inc., its wholly-owned subsidiaries, Castle Brands (USA) Corp. (“CB-USA”), McLain & Kyne, Ltd. (“McLain & Kyne”), the Company’s wholly-owned foreign subsidiaries, Castle Brands Spirits Group Limited (“CB-IRL”) and Castle Brands Spirits Marketing and Sales Company Limited, and the Company’s 60% ownership interest in Gosling-Castle Partners, Inc. (“GCP”), with adjustments for income or loss allocated based upon percentage of ownership. The accounts of the subsidiaries have been included as of the date of acquisition. All significant intercompany transactions and balances have been eliminated.
- B. Organization and operations — The Company is principally engaged in the importation, marketing and sale of premium and super premium brands of rums, whiskey, liqueurs, vodka, tequila and wine in the United States, Canada, Europe, and Asia. The vodka, Irish whiskeys and certain liqueurs are procured by CB-IRL, billed in Euros and imported from Europe into the United States. The risk of fluctuations in foreign currency is borne by the U.S. entities.
- C. Equity investments - Equity investments are carried at original cost adjusted for the Company’s proportionate share of the investees’ income, losses and distributions. The Company assesses the carrying value of its equity investments when an indicator of a loss in value is present and records a loss in value of the investment when the assessment indicates that an other-than-temporary decline in the investment exists. The Company classifies its equity earnings of non-consolidated affiliate equity investment as a component of net income or loss.
- D. Goodwill and other intangible assets — Goodwill represents the excess of purchase price including related costs over the value assigned to the net tangible and identifiable intangible assets of businesses acquired. Goodwill and other identifiable intangible assets with indefinite lives are not amortized, but instead are tested for impairment annually, or more frequently if circumstances indicate a possible impairment may exist. Intangible assets with estimable useful lives are amortized over their respective estimated useful lives, generally on a straight-line basis, and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying value may not be recoverable.
- E.

Impairment of long-lived assets — Under Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 310, "Accounting for the Impairment or Disposal of Long-lived Assets", the Company periodically reviews whether changes have occurred that would require revisions to the carrying amounts of its definite lived, long-lived assets. When the sum of the expected future cash flows is less than the carrying amount of the asset, an impairment loss is recognized based on the fair value of the asset.

F. Excise taxes and duty — Excise taxes and duty are computed at standard rates based on alcohol proof per gallon/liter and are paid after finished goods are imported into the United States and then transferred out of "bond." Excise taxes and duty are recorded to inventory as a component of the cost of the underlying finished goods. When the underlying products are sold "ex warehouse", the sales price reflects the taxes paid and the inventoried excise taxes and duties are charged to cost of sales.

G. Foreign currency — The functional currency for the Company's foreign operations is the Euro in Ireland and the British Pound in the United Kingdom. Under ASC 830, "Foreign Currency Matters", the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income. Gains or losses resulting from foreign currency transactions are shown as a separate line item in the consolidated statements of operations. The Company's vodka, Irish whiskeys and certain liqueurs are procured by CB-IRL and billed in Euros to CB-USA, with the risk of foreign exchange gain or loss resting with CB-USA.

H. Fair value of financial instruments — ASC 825, “Financial Instruments”, defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties and requires disclosure of the fair value of certain financial instruments. The Company believes that there is no material difference between the fair-value and the reported amounts of financial instruments in the Company’s balance sheets due to the short term maturity of these instruments, or with respect to the Company’s debt, as compared to the current borrowing rates available to the Company.

The Company’s investments are reported at fair value in accordance with authoritative guidance, which accomplishes the following key objectives:

- § Defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date;
- § Establishes a three-level hierarchy (“valuation hierarchy”) for fair value measurements;
- § Requires consideration of the Company’s creditworthiness when valuing liabilities; and
- § Expands disclosures about instruments measured at fair value.

The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument’s categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. The three levels of the valuation hierarchy are as follows:

- § Level 1 — inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities in active markets.
- § Level 2 — inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are directly or indirectly observable for the asset or liability for substantially the full term of the financial instrument.
- § Level 3 — inputs to the valuation methodology are unobservable and significant to the fair value measurement.

I. Income taxes — Under ASC 740, “Income Taxes”, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. A valuation allowance is provided to the extent a deferred tax asset is not considered recoverable.

The Company has not recognized any adjustments for uncertain tax positions. The Company recognizes interest and penalties related to uncertain tax positions in general and administrative expense; however, no such provisions for accrued interest and penalties related to uncertain tax positions have been recorded as of September 30, 2011 or 2010.

The Company’s income tax benefit for the six months ended September 30, 2011 and 2010 consists of federal, state and local taxes attributable to GCP, which does not file a consolidated income tax return with the Company. In connection with the investment in GCP, the Company recorded a deferred tax liability on the ascribed value of the acquired intangible assets of \$2,222,222, increasing the value of the asset. The difference between the book basis and tax basis created a deferred tax liability that is being amortized over a period of 15 years (the life of the licensing agreement) on a straight-line basis. For each of the three-month and six-month periods ended September 30, 2011 and 2010, the Company recognized \$37,038 and \$74,076 of deferred tax benefits, respectively.

J. Recent accounting pronouncements — In September 2011, the FASB issued Accounting Standards Update, Intangibles — Goodwill and Other (“ASU No. 2011-08”). ASU No. 2011-08 amends current guidance to allow an entity to first assess qualitative factors to determine whether it is necessary to perform the two-step quantitative goodwill impairment test. Under this amendment an entity would not be required to calculate the fair value of a reporting unit unless the entity determines, based on a qualitative assessment, that it is more likely than not that its fair value is less than its carrying amount. ASU No. 2011-08 applies to all companies that have goodwill reported in their

financial statements. The provisions of ASU No. 2011-08 are effective for reporting periods beginning after December 15, 2011, with early adoption options. The Company does not expect the adoption of the standard to have a material impact on the Company's results of operations, cash flows or financial condition.

In June 2011, the FASB issued Accounting Standards Update 2011-05, Presentation of Comprehensive Income ("ASU 2011-05"), which revises the manner in which entities present comprehensive income in their financial statements. The new guidance amends ASC No. 220, Comprehensive Income, and gives reporting entities the option to present the total of comprehensive income, the components of net income, and the components of other comprehensive income in either a continuous statement of comprehensive income or two separate but consecutive statements. ASU 2011-05 does not change the items that must be reported in other comprehensive income. This new guidance is effective for reporting periods beginning after December 15, 2011 and is to be applied retrospectively. The Company does not expect the adoption of the standard to have a material impact on the Company's results of operations, cash flows or financial condition.

## NOTE 2 — BASIC AND DILUTED NET LOSS PER COMMON SHARE

Basic net loss per common share is computed by dividing net loss by the weighted average number of common shares outstanding during the period. Diluted net loss per common share is computed giving effect to all dilutive potential common shares that were outstanding during the period that are not anti-dilutive. Diluted potential common shares consist of incremental shares issuable upon exercise of stock options and warrants or conversion of convertible preferred stock outstanding. In computing diluted net loss per share for the three months and six months ended September 30, 2011 and 2010, no adjustment has been made to the weighted average outstanding common shares as the assumed exercise of outstanding options and warrants and the assumed conversion of convertible preferred stock is anti-dilutive.

Potential common shares not included in calculating diluted net loss per share are as follows:

	Six months ended September 30,	
	2011	2010
Stock options	6,086,400	4,529,000
Warrants to purchase common stock	5,471,227	2,016,814
Convertible preferred stock	7,088,820	-
<b>Total</b>	<b>18,646,447</b>	<b>6,545,814</b>

## NOTE 3 — INVENTORIES

	September 30, 2011	March 31, 2011
Raw materials	\$ 3,302,131	\$ 2,318,260
Finished goods – net	7,121,463	7,550,820
<b>Total</b>	<b>\$ 10,423,594</b>	<b>\$ 9,869,080</b>

As of September 30 and March 31, 2011, 36% and 37%, respectively, of raw materials and 1% and 3%, respectively, of finished goods were located outside of the United States.

The Company recorded a reversal of its allowance for obsolete and slow moving inventory of \$24,589 during the six months ended September 30, 2010. This reversal was recorded as the Company was able to sell certain goods included in the allowance recorded during previous fiscal years. The reversal was recorded as a reduction in cost of sales. The Company did not record any reversal for the three months and six months ended September 30, 2011, nor for the three months ended September 30, 2010. The Company estimates the allowance for obsolete and slow moving inventory based on analyses and assumptions including, but not limited to, historical usage, expected future demand and market requirements.

Inventories are stated at the lower of weighted average cost or market.

## NOTE 4 — EQUITY INVESTMENT

Investment in DP Castle Partners, LLC

In August 2010, CB-USA formed DP Castle Partners, LLC (“DPCP”) with Drink Pie, LLC to manage the manufacturing and marketing of Travis Hasse’s Original Apple Pie Liqueur, Cherry Pie Liqueur and any future line extensions of the brand. DPCP has the exclusive global rights to produce and market Travis Hasse’s Original Pie Liqueurs and CB-USA has the global distribution rights for this brand. DPCP pays a per case royalty fee to Drink Pie, LLC under a licensing agreement. CB-USA purchases the finished product from DPCP at a pre-determined margin and then uses its existing infrastructure, sales force and distributor network to sell the product and promote the brands. Finished goods are sold to CB-USA FOB – Production and CB-USA bears the risk of loss on both inventory and third-party receivables. Revenues and cost of sales are recorded at their respective gross amounts on the books and records of CB-USA. For the three months and six months ended September 30, 2011, CB-USA purchased \$67,937 in finished goods from DPCP under the distribution agreement. As of September 30, 2011, DPCP was indebted to CB-USA in the amount of \$169,453 which is included in due from shareholders and affiliates on the accompanying condensed consolidated balance sheet. At September 30, 2011, CB-USA owned 20% of the entity and, under the terms of the agreement, will increase its stake in DPCP based on achieving case sale targets. The Company has accounted for this investment under the equity method of accounting. This investment balance was \$138,224 and \$155,573 at September 30 and March 31, 2011, respectively.

## NOTE 5 — ACQUISITIONS

## Acquisition of McLain &amp; Kyne

On October 12, 2006, the Company acquired all of the outstanding capital stock of McLain & Kyne. As consideration for the acquisition, the Company paid \$2,000,000, consisting of \$1,294,800 in cash and 100,000 shares of its common stock, valued at \$705,200, at closing. Under the McLain & Kyne agreement, as amended, the Company was required to pay an earn-out, not to exceed \$4,000,000, to the sellers based on the financial performance of the acquired business through March 31, 2011. The Company is also required to pay an earn-out based on the case sales of Jefferson's Presidential Select for a specified amount of cases, rather than a fixed period of time. For the six months ended September 30, 2011 and 2010, the sellers earned \$56,928 and \$44,508, respectively, under this agreement. The earn-out payments have been recorded as an increase to goodwill.

<b>Total</b>	<b>\$ 6,812,754</b>	<b>\$ 6,336,659</b>

- A. In connection with the Betts & Scholl asset acquisition in September 2009, the Company issued a secured promissory note in the aggregate principal amount of \$1,094,541 to Betts & Scholl, LLC, an entity affiliated with Dennis Scholl, who became a director of the Company at the time of the acquisition. This note was secured by the Betts & Scholl inventory acquired by the Company under a security agreement. This note provided for an initial payment of \$250,000, paid at closing, and for eight equal quarterly payments of principal and interest, with the final payment initially due on September 21, 2011. Interest under this note accrued at an annual rate of 0.84%, compounded quarterly. In December 2010, the Company amended the terms of the note to provide that the quarterly payments of principal and interest due December 21, 2010 and March 21, 2011, each in the amount of approximately \$107,000, would not be due and payable until the maturity date of such note and that such installment payments would bear interest, payable on such maturity date, at the rate of 11% per annum, compounded quarterly. In August 2011, \$220,731 of principal and accrued interest was paid on this note in connection with the closing of the revolving loan agreement with Keltic Financial Partners II, LP (the "Keltic Facility"), as described in Note 8G. At September 30, 2011, \$107,354 of principal due on this note is included in current liabilities. In October 2011, the remaining \$107,354 due on this note was converted into Series A Preferred Stock and 2011 Warrants (each as defined in Note 9) as part of the private placement transaction described in Note 9, following shareholder and NYSE Amex approval of such transaction.
- B. In December 2009, GCP issued a promissory note (the "GCP Note") in the aggregate principal amount of \$211,580 to Gosling's Export (Bermuda) Limited in exchange for credits issued on certain inventory purchases. The GCP Note matures on April 1, 2020, is payable at maturity, subject to certain acceleration events, and calls for annual interest of 5%, to be accrued and paid at maturity. At September 30, 2011, \$216,869, consisting of \$211,580 of principal and \$5,289 of accrued interest, due on the GCP Note is included in long-term liabilities.
- C. In December 2009, the Company entered into a \$2,500,000 revolving credit agreement with, among others, Frost Gamma Investments Trust, an entity affiliated with Phillip Frost, M.D., a director and principal shareholder of the

Company, Vector Group Ltd., a greater than 10% shareholder of the Company, Lafferty Ltd., a greater than 5% shareholder of the Company, IVC Investors, LLLP, an entity affiliated with Glenn Halpryn, a director of the Company, Mark E. Andrews, III, the Company's Chairman, and Richard J. Lampen, the Company's President and Chief Executive Officer. Under the credit agreement, the Company was able to borrow from time to time up to \$2,500,000 to be used for working capital or general corporate purposes. Borrowings under the credit agreement were to mature on April 1, 2013 and bore interest at a rate of 11% per annum, payable quarterly. The Company paid an aggregate commitment fee of \$50,000 to the lenders under the credit agreement. Amounts could be repaid and reborrowed under the revolving credit agreement without penalty. The note was secured by the inventory and trade accounts receivable of CB-USA, subject to certain exceptions, pursuant to a security agreement. Borrowings under this facility occurred as follows: \$1,000,000 on April 23, 2010, \$1,000,000 on September 14, 2010 and \$500,000 on October 22, 2010. In August 2011, \$2,030,137 of principal and accrued interest was paid on this note in connection with the closing of the Keltic Facility as described in Note 8G. At September 30, 2011, \$500,000 of principal due on this credit agreement was outstanding and is included in long-term liabilities. In October 2011, the remaining \$500,000 outstanding under this facility, and accrued but unpaid interest thereon, was converted into Series A Preferred Stock and 2011 Warrants as part of the private placement transaction described in Note 9, following shareholder and NYSE Amex approval of such transaction and the revolving credit agreement terminated.

D. In June 2010, the Company issued a \$2,000,000 promissory note to Frost Gamma Investments Trust. Borrowings under the note were to mature on June 21, 2012 and bore interest at a rate of 11% per annum. Interest accrued quarterly and was payable at maturity. The note could be prepaid in whole or in part at any time prior to maturity without penalty, but with payment of accrued interest to the date of prepayment. At September 30, 2011, \$2,280,877, consisting of \$2,000,000 of principal and \$280,877 of accrued interest is included in current liabilities. In October 2011, this note, and accrued but unpaid interest thereon, was converted into Series A Preferred Stock and 2011 Warrants as part of the private placement transaction described in Note 9, following shareholder and NYSE Amex approval of such transaction.

- E. In December 2010, the Company issued promissory notes in the aggregate principal amount of \$1,000,000 to Frost Gamma Investments Trust, Vector Group Ltd., IVC Investors, LLLP, Mark E. Andrews, III and Richard J. Lampen. Borrowings under these notes were to mature on June 21, 2012 and bore interest at a rate of 11% per annum. Interest accrued quarterly and was payable at maturity. These notes could be prepaid in whole or in part at any time prior to maturity without penalty, but with payment of accrued interest to the date of prepayment. At September 30, 2011, \$1,083,479, consisting of \$1,000,000 of principal and \$83,479 of accrued interest is included in current liabilities. In October 2011, these notes, and accrued but unpaid interest thereon, were converted into Series A Preferred Stock and 2011 Warrants as part of the private placement transaction described in Note 9, following shareholder and NYSE Amex approval of such transaction.
- F. In June 2011, certain directors, officers and other affiliates of the Company agreed to purchase an aggregate of \$1,005,000 of Series A Preferred Stock and 2011 Warrants as part of the private placement transaction described in Note 9, subject to shareholder approval of such issuance in accordance with NYSE Amex rules. Pending such shareholder approval, the Company issued an aggregate of \$1,005,000 in promissory notes to these affiliate purchasers, which notes and accrued but unpaid interest thereon converted automatically into Series A Preferred Stock and 2011 Warrants in October 2011 following shareholder and NYSE Amex approval of such transaction. These notes bore interest at 10% per annum and were to mature 18 months from the date of issuance. The affiliate purchasers include Frost Gamma Investments Trust, Richard Lampen, Mark Andrews and certain of his affiliates, John Glover, the Company's Chief Operating Officer, and Alfred J. Small, the Company's Senior Vice President, Chief Financial Officer, Treasurer and Secretary. At September 30, 2011, \$1,035,708, consisting of \$1,005,000 of principal and \$30,708 of accrued interest, is included in long-term liabilities.
- G. In August 2011, the Company and CB-USA entered into the Keltic Facility, a revolving loan agreement ("Loan Agreement") with Keltic Financial Partners II, LP, a Delaware limited partnership ("Keltic"), providing for availability (subject to certain terms and conditions) of a facility of up to \$5,000,000 for the purpose of providing the Company and CB-USA with working capital. The Company and CB-USA are referred to individually and collectively as the Borrower. The Keltic Facility expires on August 19, 2014. The Borrower may borrow up to the maximum amount of the Keltic Facility, provided that the Borrower has a sufficient borrowing base (as defined in the Loan Agreement). The Keltic Facility interest rate is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 3.25%, (b) the LIBOR Rate plus 5.75%, and (c) 6.50%. Interest is payable monthly in arrears, on the first day of every month on the average daily unpaid principal amount of the Keltic Facility. After the occurrence and during the continuance of any "Default" or "Event of Default" (as defined under the Loan Agreement) the Borrower is required to pay interest at a rate that is 3.25% per annum above the then applicable Keltic Facility interest rate. In addition to a \$100,000 commitment fee, Keltic will also receive an annual facility fee and a collateral management fee. The Loan Agreement contains standard borrower representations and warranties for asset based borrowing and a number of reporting obligations and affirmative and negative covenants. The Loan Agreement includes negative covenants that, among other things, restrict the Borrower's ability to create additional indebtedness, dispose of properties, incur liens, and make distributions or cash dividends. At September 30, 2011, the Company was in compliance, in all material respects, with the covenants under the Keltic Facility. At September 30, 2011, \$1,588,467 is included in long-term liabilities.

#### NOTE 9 — EQUITY

Preferred stock issuance – In June 2011 the Company entered into agreements relating to a private placement (the "June 2011 Private Placement") of an aggregate of approximately \$7,100,000 of newly-designated 10% Series A Convertible Preferred Stock, par value \$0.01 per share ("Series A Preferred Stock"). As part of the June 2011 Private Placement, the Company completed a private offering to third-party investors of \$2,155,000 of Series A Preferred Stock for its stated value of \$1,000 per share and warrants ("2011 Warrants"), to purchase 50% of the number of shares of the Company's common stock, issuable upon conversion of such Series A Preferred Stock. Subject to adjustment (including dilutive

issuances), the Series A Preferred Stock is convertible into common stock at a conversion price of \$0.304 per share and the 2011 Warrants have an exercise price of \$0.38 per share.

Holders of Series A Preferred Stock are entitled to receive cumulative dividends at the rate per share (as a percentage of the stated value per share) of 10% per annum, whether or not declared by the Company's Board of Directors, which are payable in shares of the Company's common stock upon conversion of the Series A Preferred Stock or upon a liquidation. For the three months and six months ended September 30, 2011, the Company recorded accrued dividends of \$49,927 and \$60,702, respectively, included as an increase in the accumulated deficit and in additional paid-in capital on the accompanying condensed consolidated balance sheets.

As part of the June 2011 Private Placement, certain directors, officers and other affiliates of the Company agreed to purchase an aggregate of \$1,005,000 of Series A Preferred Stock and 2011 Warrants on substantially the same terms described above, subject to shareholder approval of such issuance in accordance with NYSE Amex rules. Pending such shareholder approval, the Company issued an aggregate of \$1,005,000 in promissory notes to these affiliate purchasers. These notes, and accrued but unpaid interest thereon, converted automatically into Series A Preferred Stock and 2011 Warrants in October 2011 following shareholder and NYSE Amex approval of such transaction. These notes bore interest at 10% per annum and were to mature 18 months from the date of issuance, subject to prior conversion upon shareholder approval. The affiliate purchasers include Frost Gamma Investments Trust, Richard Lampen, Mark Andrews, and certain of his affiliates, John Glover and Alfred Small.

Also as part of the June 2011 Private Placement, certain holders of the Company's outstanding debt, including directors, officers and other affiliates agreed to purchase shares of Series A Preferred Stock and 2011 Warrants in exchange for approximately \$4,000,000 aggregate principal amount of the Company's existing debt, and accrued but unpaid interest thereon, on substantially the same terms described above, subject to shareholder approval of such issuance in accordance with NYSE Amex rules. The affiliate debt holders include Frost Gamma Investments Trust, Vector Group Ltd., Richard Lampen, Mark Andrews, Lafferty Ltd., IVC Investments, LLLP, and Betts & Scholl, LLC, (which agreed to convert principal amount, but not accrued but unpaid interest thereon). In October 2011, these notes, and accrued but unpaid interest thereon, were converted into Series A Preferred Stock and 2011 Warrants following shareholder and NYSE Amex approval of such transaction.

If the Company sells or grants any option to purchase or any right to reprice, or otherwise dispose of or issue (or announce any sale, grant or option to purchase or other disposition), any common stock or common stock equivalents entitling any person to acquire common stock at an effective price per share that is lower than the then conversion price of the Series A Preferred Stock, the holders of the Series A Preferred Stock and 2011 Warrants will be entitled to an adjusted conversion price and additional shares of common stock upon exercise the 2011 Warrants.

The Company agreed to register for resale the shares of common stock issuable upon conversion of the Series A Preferred Stock and the exercise of the 2011 Warrants.

A beneficial conversion feature ("BCF") of \$318,705 was calculated as the difference between the beneficial conversion price of the Series A Preferred Stock and the fair value of the Company's common stock at the issuance date, multiplied by the number of shares into which the Series A Preferred Stock were convertible. As the Series A Preferred is perpetual and convertible at any time at the option of the holder, there is no defined accretion period available. The Company has determined that the BCF should be recognized as a fully accreted deemed dividend on the Preferred Stock in the three months ended June 30, 2011.

The holders of Series A Preferred Stock are entitled to the number of votes equal to the number of shares of common stock into which such shares of preferred stock could be converted and are subject to anti-dilution provisions. The Series A Preferred Stock ranks senior to all classes of common stock and the Company may not issue any capital stock that is senior to the Series A Preferred Stock unless such issuance is approved by the affirmative vote of the holders of a majority of the then outstanding shares of the Series A Preferred Stock voting separately as a class.

Upon any liquidation, the holders of Series A Preferred Stock will be entitled to receive an amount equal to the stated value of \$1,000 per share, plus any accrued and unpaid dividends thereon and any other fees then due.

If the average daily volume of the Company's common stock exceeds \$100,000 per trading day and the Volume Weighted Average Price (as defined in the articles of designation of the Series A Preferred Stock) for at least 20 trading days during any 30 consecutive trading day period exceeds \$0.76 (subject to adjustment), the Company may convert all or any portion of the outstanding Series A Preferred Stock into shares of common stock. In the event of a Fundamental Transaction (as defined in the articles of designation of the Series A Preferred Stock), the Company may convert all of the Series A Preferred Stock plus all accrued but unpaid dividends thereon into common stock concurrently with the consummation of such Fundamental Transaction.

Common stock - In August 2011, a holder of Series A Preferred Stock converted 50 shares of Series A Preferred Stock, and accrued dividends thereon, into 167,490 shares of common stock.

In September 2011, a holder of Series A Preferred Stock converted 50 shares of Series A Preferred Stock, and accrued dividends thereon, into 168,404 shares of common stock.

NOTE 10 — WARRANTS

The 2011 Warrants issued in connection with the Series A Preferred Stock have an exercise price of \$0.38 per share and are exercisable for a period of five years. The exercise price of the 2011 Warrants is equal to 125% of the conversion price of the Series A Preferred Stock.

The Company accounted for the 2011 Warrants in the condensed consolidated financial statements as a liability at their initial fair value of \$347,059. Changes in the fair value of the 2011 Warrants will be recognized in earnings for each subsequent reporting period. At September 30, 2011, the fair value of the 2011 Warrants was included in the balance sheet under the caption Warrant liability payable of \$162,034. For the three months and six months ended September 30, 2011, the Company recorded a gain for the change in the value of the 2011 Warrants of \$209,899 and \$185,025, respectively.

The fair value of the warrants is a Level 3 fair value under the valuation hierarchy and was estimated using the Black-Scholes option pricing model utilizing the following assumptions:

	September 30, 2011		June 12, 2011 (issue date)	
Risk-free interest rate	0.42	%	0.56	%
Expected option life in years	2.38		2.50	
Expected stock price volatility	65	%	65	%
Expected dividend yield	0	%	0	%

#### NOTE 11 — FOREIGN CURRENCY FORWARD CONTRACTS

The Company enters into forward contracts from time to time to reduce its exposure to foreign currency fluctuations. The Company recognizes in the balance sheet derivative contracts at fair value, and reflects any net gains and losses currently in earnings. At September 30, 2011 and 2010, the Company had no forward contracts outstanding. Gain or loss on foreign currency forward contracts, which was de minimis during the periods presented, is included in other income and expense.

#### NOTE 12 — STOCK-BASED COMPENSATION

In June 2011, the Company granted to certain employees options to purchase an aggregate of 167,150 shares of the Company's common stock at an exercise price of \$0.31 per share under the Company's 2003 Stock Incentive Plan. The options, which expire in June 2021, vest 33.3% on each of the first three anniversaries of the grant date. The Company has valued the options at \$31,010 using the Black-Scholes option pricing model.

In June 2011, the Company granted to employees, directors and certain consultants options to purchase an aggregate of 1,426,000 shares of the Company's common stock at an exercise price of \$0.33 per share under the Company's 2003 Stock Incentive Plan. The options, which expire in June 2021, vest 25% on each of the first four anniversaries of the grant date. The Company has valued the options at \$285,954 using the Black-Scholes option pricing model.

Stock-based compensation expense for the three months ended September 30, 2011 and 2010 and for the six months ended September 30, 2011 and 2010 amounted to \$52,736 and \$48,404, respectively and \$84,513 and \$84,693, respectively. At September 30, 2011, total unrecognized compensation cost amounted to \$555,863, representing 3,796,250 unvested options. This cost is expected to be recognized over a weighted-average period of 8.74 years. There were no options exercised during the six months ended September 30, 2011 and options for 10,600 shares were exercised during the six months ended September 30, 2010. The Company did not recognize any related tax benefit for the six months ended September 30, 2011 and 2010 from these option exercises.

#### NOTE 13 — COMMITMENTS AND CONTINGENCIES

A. The Company has entered into a supply agreement with Irish Distillers Limited ("Irish Distillers"), which provides for the production of Irish whiskeys for the Company through 2022, subject to annual extensions thereafter, provided that the Company and Irish Distillers agree on the amount of liters of pure alcohol to be provided in the following year. Under this agreement, the Company is obligated to notify Irish Distillers annually of the amount of liters of pure alcohol it requires for the current contract year and contracts to purchase that amount. For the contract year ending June 30, 2012, the Company has contracted to purchase approximately €545,262 or \$741,382 (translated at the September 30, 2011 exchange rate) in bulk Irish whiskey. The Company is not obligated to pay Irish Distillers for any product not yet received. During the term of this supply agreement, Irish Distillers has the

right to limit additional purchases above the commitment amount.

B. The Company leases office space in New York, NY, Dublin, Ireland and Houston, TX. The New York, NY lease began on May 1, 2010 and expires on April 30, 2012 and provides for monthly payments of \$16,779. The Dublin lease commenced on March 1, 2009 and extends through November 30, 2013 and provides for monthly payments of €1,250 or \$1,700 (translated at the September 30, 2011 exchange rate). The Houston, TX lease commenced on February 24, 2000 and extends through January 31, 2012 and provides for monthly payments of \$1,693. The Company has also entered into non-cancelable operating leases for certain office equipment.

#### NOTE 14 — CONCENTRATIONS

A. Credit Risk — The Company maintains its cash and cash equivalents balances at various large financial institutions that, at times, may exceed federally and internationally insured limits. The Company did not exceed the limits in effect as of September 30, 2011 and exceeded insured limits in effect at September 30, 2010 by approximately \$200,000.

B. Customers — Sales to three customers accounted for approximately 45.1% and 43.5% of the Company's revenues for the three months ended September 30, 2011 and 2010, respectively (of which one customer accounted for 32.5% and 28.4%, respectively, of total sales). Sales to three customers accounted for approximately 44.3% and 43.5% of the Company's revenues for the six months ended September 30, 2011 and 2010, respectively, (of which one customer accounted for 30.3% and 27.9%, respectively, of total sales). Sales to three customers accounted for approximately 36.1% of accounts receivable at September 30, 2011.

## NOTE 15 — GEOGRAPHIC INFORMATION

The Company operates in one reportable segment — the sale of premium beverage alcohol. The Company's product categories are rum, whiskey, liqueurs, vodka, tequila and wine. The Company reports its operations in two geographic areas: International and United States.

The condensed consolidated financial statements include revenues and assets generated in or held in the U.S. and foreign countries. The following table sets forth the amounts and percentage of consolidated revenue, consolidated results from operations, consolidated net loss attributable to common shareholders, consolidated income tax benefit and consolidated assets from the U.S. and foreign countries and consolidated revenue by category.

## Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

### Overview

We develop and market premium brands in the following beverage alcohol categories: rum, whiskey, liqueurs, vodka, tequila and wine. We distribute our products in all 50 U.S. states and the District of Columbia, in twelve primary international markets, including Ireland, Great Britain, Northern Ireland, Germany, Canada, Bulgaria, France, Russia, Finland, Norway, Sweden, China and the Duty Free markets, and in a number of other countries in continental Europe and Latin America. We market the following brands, among others, Gosling's Rum®, Jefferson's®, Jefferson's Reserve® and Jefferson's Presidential Select™ bourbons, Clontarf® Irish whiskey, Pallini® liqueurs, Boru® vodka, Knappogue Castle Whiskey®, Tierras™ tequila, Travis Hasse's Original® Pie Liqueurs, A. de Fussigny® Cognacs and Betts & Scholl™ wines, including the CC:™ line of wines.

Our objective is to continue building a distinctive portfolio of global premium and super premium spirits and wine brands as we move towards profitability. To achieve this, we continue to seek to:

- § increase revenues from our more profitable brands. We continue to focus our distribution relationships, sales expertise and targeted marketing activities on our more profitable brands;
- § improve value chain and manage cost structure. We have undergone a comprehensive review and analysis of our supply chains and cost structures both on a company-wide and brand-by-brand basis. This included personnel reductions throughout our company; restructuring our international distribution system; reducing certain inventory levels; changing distributor relationships in certain markets; moving production of certain products to a lower cost facility in the U.S.; and reducing general and administrative costs. We continue to review costs and seek to reduce expense; and
- § selectively add new premium brands to our portfolio. We intend to continue developing new brands and pursuing strategic relationships, joint ventures and acquisitions to selectively expand our premium spirits and fine wine portfolio, particularly by capitalizing on and expanding our partnering capabilities. Our criteria for new brands focuses on underserved areas of the beverage alcohol marketplace, while examining the potential for direct financial contribution to our company and the potential for future growth based on development and maturation of agency brands. We evaluate future acquisitions and agency relationships on the basis of their potential to be immediately accretive and their potential contributions to our objectives of becoming profitable and further expanding our product offerings. We expect that future acquisitions, if consummated, would involve some combination of cash, debt and the issuance of our stock.

### Recent Events

#### Exchange of Debt for Series A Preferred Stock

In October 2011, we completed the exchange of various tranches of our outstanding debt for shares of Series A Preferred Stock, as described in "June 2011 Private Placement" below. We obtained shareholder approval of the debt exchange in accordance with NYSE Amex rules at our 2010/2011 annual meeting of shareholders in September 2011.

#### Keltic Facility

In August 2011, we entered into a revolving loan agreement ("Loan Agreement") with Keltic Financial Partners II, LP, a Delaware limited partnership ("Keltic"), which we refer to as the Keltic Facility, providing for availability (subject to certain terms and conditions) of a facility of up to \$5,000,000 for the purpose of providing working capital. The Keltic Facility expires on August 19, 2014. We may borrow up to the maximum amount of the Keltic Facility, provided that we have a sufficient borrowing base (as defined in the Loan Agreement). The Keltic Facility interest rate

is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 3.25%, (b) the LIBOR Rate plus 5.75%, and (c) 6.50%. Interest is payable monthly in arrears, on the first day of every month on the average daily unpaid principal amount of the Keltic Facility. After the occurrence and during the continuance of any "Default" or "Event of Default" (as defined under the Loan Agreement) we are required to pay interest at a rate that is 3.25% per annum above the then applicable Keltic Facility interest rate. In addition to a \$100,000 commitment fee, Keltic will also receive an annual facility fee and a collateral management fee. The Loan Agreement contains standard borrower representations and warranties for asset based borrowing and a number of reporting obligations and affirmative and negative covenants. The Loan Agreement includes negative covenants that, among other things, restrict our ability to create additional indebtedness, dispose of properties, incur liens, and make distributions or cash dividends. At September 30, 2011, we were in compliance, in all material respects, with the covenants under the Keltic Facility.

#### June 2011 Private Placement

In June 2011, we entered into agreements relating to a private placement of an aggregate of approximately \$7.1 million of newly-designated 10% Series A Convertible Preferred Stock, which we refer to as Series A Preferred Stock. We refer to this transaction as the June 2011 private placement. Holders of Series A Preferred Stock are entitled to receive cumulative dividends at the rate per share (as a percentage of the stated value per share) of 10% per year, whether or not declared by our board, which dividends are payable in shares of our common stock upon conversion of the Series A Preferred Stock or upon a liquidation. As part of the June 2011 private placement, we completed a private offering of approximately \$2.2 million of Series A Preferred Stock for its stated value of \$1,000 per share and warrants, which we refer to as the 2011 Warrants, to purchase 50% of the number of shares of our common stock issuable upon conversion of such Series A Preferred Stock. Subject to adjustment (including dilutive issuances), the Series A Preferred Stock is convertible into common stock at a conversion price of \$0.304 per share and the 2011 Warrants have an exercise price of \$0.38 per share.

Also as part of the June 2011 private placement, certain of our directors, officers and other affiliates agreed to purchase an aggregate of approximately \$1.0 million of Series A Preferred Stock and 2011 Warrants on substantially the same terms described above, subject to shareholder approval of such issuance in accordance with NYSE Amex rules. Pending such shareholder approval, we issued an aggregate of \$1.0 million in promissory notes to these affiliate purchasers. These notes, and accrued but unpaid interest thereon, converted automatically into Series A Preferred Stock and 2011 Warrants in October 2011 following shareholder and NYSE Amex approval of such transaction. These notes bore interest at 10% per year and were to mature 18 months from the date of issuance, subject to prior conversion. The affiliate purchasers include Frost Gamma Investments Trust, an entity affiliated with Dr. Phillip Frost, a director and principal shareholder of our company, Mr. Richard Lampen, our chief executive officer and a director of our company, Mr. Mark Andrews, our chairman of the board, and certain of his affiliates, Mr. John Glover, our chief operating officer, and Mr. Alfred Small, our senior vice president, chief financial officer, treasurer and secretary.

Also as part of the June 2011 private placement, certain holders of our outstanding debt, including certain of our directors, officers and other affiliates, agreed to purchase shares of Series A Preferred Stock and 2011 Warrants in exchange for approximately \$4.0 million aggregate principal amount of our existing debt, and accrued but unpaid interest thereon, on substantially the same terms described above, subject to shareholder approval of such issuance in accordance with NYSE Amex rules. The affiliate debt holders include Frost Gamma Investments Trust, Vector Group Ltd., a principal shareholder of ours, Mr. Lampen, Mr. Andrews, Lafferty Ltd., a principal shareholder of our company, IVC Investments, LLLP, an entity affiliated with Mr. Glenn Halpryn, a director of ours, and Betts & Scholl, LLC, an entity affiliated with Dennis Scholl, a director of ours (which converted principal, but not accrued but unpaid interest thereon). These notes and accrued but unpaid interest thereon converted into Series A Preferred Stock and 2011 Warrants in October 2011 following shareholder and NYSE Amex approval of such transaction.

If we sell or grant any option to purchase or any right to reprice, or otherwise dispose of or issue (or announce any sale, grant or option to purchase or other disposition), any common stock or common stock equivalents entitling any person to acquire common stock at an effective price per share that is lower than the then conversion price of the Series A Preferred Stock, the holders of the Series A Preferred Stock and the 2011 Warrants will be entitled to an adjusted conversion price and additional shares of common stock upon the exercise of the 2011 Warrants.

We have filed a registration statement relating to the shares of common stock issuable upon conversion of the Series A Preferred Stock and the exercise of the 2011 Warrants.

#### Currency Translation

The functional currencies for our foreign operations are the Euro in Ireland and the British Pound in the United Kingdom. With respect to our consolidated financial statements, the translation from the applicable foreign currencies to U.S. Dollars is performed for balance sheet accounts using exchange rates in effect at the balance sheet date and for revenue and expense accounts using a weighted average exchange rate during the period. The resulting translation adjustments are recorded as a component of other comprehensive income.

Where in this report we refer to amounts in Euros or British Pounds, we have for your convenience also in certain cases provided a conversion of those amounts to U.S. Dollars in parentheses. Where the numbers refer to a specific balance sheet account date or financial statement account period, we have used the exchange rate that was used to perform the conversions in connection with the applicable financial statement. In all other instances, unless otherwise indicated, the conversions have been made using the exchange rates as of September 30, 2011, each as calculated from the Interbank exchange rates as reported by Oanda.com. On September 30, 2011, the exchange rate of the Euro and the British Pound in exchange for U.S. Dollars was €1.00 = U.S. \$1.35968 (equivalent to U.S. \$1.00 = €0.735467) and £1.00 = U.S. \$1.56253 (equivalent to U.S. \$1.00 = £0.63987).

These conversions should not be construed as representations that the Euro and British Pound amounts actually represent U.S. Dollar amounts or could be converted into U.S. Dollars at the rates indicated.

#### Critical Accounting Policies

There are no material changes from the critical accounting policies set forth in Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” in our annual report on Form 10-K for the year ended March 31, 2011, as amended, which we refer to as our 2011 Annual Report. Please refer to that section for disclosures regarding the critical accounting policies related to our business.

Earnings before interest, taxes, depreciation and amortization, or EBITDA, adjusted for allowances for doubtful accounts and obsolete inventory, non-cash compensation expense, net change in fair value of warrants payable and dividend to preferred shareholders is a key metric we use in evaluating our financial performance. EBITDA is considered a non-GAAP financial measure as defined by Regulation G promulgated by the SEC under the Securities Act of 1933, as amended. We consider EBITDA, as adjusted, important in evaluating our performance on a consistent basis across various periods. Due to the significance of non-cash and non-recurring items, EBITDA, as adjusted, enables our Board of Directors and management to monitor and evaluate the business on a consistent basis. We use EBITDA, as adjusted, as a primary measure, among others, to analyze and evaluate financial and strategic planning decisions regarding future operating investments and allocation of capital resources. We believe that EBITDA, as adjusted, eliminates items that are not indicative of our core operating performance, or do not involve a cash outlay, such as stock-based compensation expense. Our presentation of EBITDA, as adjusted, should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items or by non-cash items, such as non-cash compensation, which is expected to remain a key element in our long-term incentive compensation program. EBITDA, as adjusted, should be considered in addition to, rather than as a substitute for, income from operations, net income and cash flows from operating activities.

Our EBITDA, as adjusted, improved 54.3% to a loss of (\$0.5) million for the three months ended September 30, 2011, as compared to a loss of (\$1.1) million for the comparable prior-year period, primarily as a result of our increased sales and lower selling and general and administrative expense. Our EBITDA, as adjusted, improved 38.0% to a loss of (\$1.6) million for the six months ended September 30, 2011, as compared to a loss of (\$2.5) million for the comparable prior-year period, primarily as a result of our increased sales and lower selling and general and administrative expense.

Three months ended September 30, 2011 compared with three months ended September 30, 2010

Net sales. Net sales increased 14.4% to \$9.4 million for the three months ended September 30, 2011, as compared to \$8.2 million for the comparable prior-year period. Our U.S. case sales as a percentage of total case sales decreased to 82.6% for the three months ended September 30, 2011, as compared to 83.9% for the comparable prior-year period due to growth in certain international markets. We continue to focus on our faster growing and more profitable markets both in the U.S. and internationally. U.S. net sales increased to \$8.4 million for the three months ended September 30, 2011 from \$7.5 million for the comparable prior-year period. 2011 U.S. net sales include \$0.2 million in sales from our Jefferson's Rye, which we launched in June 2011. The growth in U.S. sales also reflects the momentum for our Gosling's rums, Pallini Limoncello, Jefferson's Bourbons and Clontarf Irish whiskey.

The table below presents the increase or decrease, as applicable, in case sales by product category for the three months ended September 30, 2011 as compared to the three months ended September 30, 2010:

	Increase/(decrease) in case sales		Percentage increase/(decrease)	
	Overall	U.S.	Overall	U.S.
Rum	1,695	293	5.4%	1.1%
Vodka	166	1,209	0.9%	8.6%
Liqueurs	1,951	2,116	10.1%	11.1%
Whiskey	4,510	2,370	65.5%	58.1%
Tequila	(9)	(9)	(2.4)%	(2.4)%
Wine	(825)	(825)	(46.1)%	(46.1)%
Other	207	207	72.4%	72.4%
<b>Total</b>	<b>7,695</b>	<b>5,361</b>	<b>9.8%</b>	<b>8.1%</b>

Gross profit. Gross profit increased 8.9% to \$3.3 million for the three months ended September 30, 2011 from \$3.0 million for the comparable prior-year period, while our gross margin decreased to 35.0% for the three months ended September 30, 2011 compared to 36.8% for the comparable prior-year period, primarily due to fluctuations in products sold and markets where sales occur.

Selling expense. Selling expense decreased 5.4% to \$2.7 million for the three months ended September 30, 2011 from \$2.8 million for the comparable prior-year period. This decrease in selling expense was due to a \$0.2 million reduction in employee related charges, including salaries and entertainment expense. The decrease in selling expense and an increase in sales in the current period resulted in a net decrease of selling expense as a percentage of net sales to 28.3% for the three months ended September 30, 2011 as compared to 34.1% for the comparable prior-year period.

General and administrative expense. General and administrative expense decreased 11.7% to \$1.2 million for the three months ended September 30, 2011 from \$1.3 million for the comparable prior-year period, primarily due to a \$0.2 million decrease in professional fees. The decrease in general and administrative expense and an increase in sales in the current period resulted in general and administrative expense as a percentage of net sales decreasing to 12.6% for the three months ended September 30, 2011 as compared to 16.3% for the comparable prior-year period.

Depreciation and amortization. Depreciation and amortization was \$0.2 million for each of the three-month periods ended September 30, 2011 and 2010.

Loss from operations. As a result of the foregoing, our loss from operations improved 42.8% to (\$0.8) million for the three months ended September 30, 2011 from (\$1.4) million for the comparable prior-year period. As a result of our

focus on our stronger growth markets and better performing brands, and expected growth from our existing brands and recently acquired brands, we anticipate improved results of operations in the near term as compared to comparable prior-year periods, although there is no assurance that we will attain such results.

Net change in fair value of warrant liability. We recorded the fair market value of the 2011 Warrants issued in connection with the June 2011 private placement at their initial fair value. Changes in the fair value of the 2011 Warrants are recognized in earnings for each reporting period. For the three months ended September 30, 2011, we recorded a gain for the change in the value of the 2011 Warrants of \$209,899.

Gain from equity investment in non-consolidated affiliate. We have accounted for our investment in DP Castle Partners, LLC on the equity method of accounting. Gain from this investment was de minimis for the three months ended September 30, 2011.

Foreign exchange loss. Foreign exchange loss was (\$0.1) million for the each of the three-month periods ended September 30, 2011 and 2010. Foreign exchange loss is due to the net effects of fluctuations of the U.S. dollar against the Euro and their effects on our Euro-denominated intercompany balances due to our foreign subsidiaries for inventory purchases.

Interest expense, net. We had interest expense, net of \$0.2 million for the three months ended September 30, 2011 as compared to interest expense, net of \$0.1 million for the three months ended September 30, 2010. The increase in interest expense is due to the outstanding balances on our notes payable as described below in "Liquidity and Capital Resources," particularly our \$2.5 million revolving credit facility, the Frost Note and the December 2010 Promissory Notes. We expect interest expense to decrease in future periods due to the conversion of existing debt to Series A Preferred Stock and 2011 Warrants in connection with the June 2011 private placement transaction described above.

Net income attributable to noncontrolling interests. Net income attributable to noncontrolling interests was (\$0.1) million during each of the three-month periods ended September 30, 2011 and 2010, both the result of allocated net results recorded by our 60%-owned subsidiary, Gosling-Castle Partners, Inc.

Dividend to preferred shareholders. For the three months ended September 30, 2011, we accrued a dividend on our Series A Preferred Stock of \$0.05 million, as required by the terms of the preferred stock.

Net loss attributable to common shareholders. As a result of the net effects of the foregoing, net loss attributable to common shareholders improved to (\$1.0) million for the three months ended September 30, 2011 as compared to (\$1.6) million for the prior year period. Net loss per common share, basic and diluted, was (\$0.01) per share for each of the three months ended September 30, 2011 as compared to (\$0.02) for the comparable prior year period.

Six months ended September 30, 2011 compared with six months ended September 30, 2010

Net sales. Net sales increased 17.2% to \$16.8 million for the six months ended September 30, 2011, as compared to \$14.3 million for the comparable prior-year period. Our U.S. case sales as a percentage of total case sales remained relatively constant at 81.5% for the six months ended September 30, 2011, as compared to 81.4% for the comparable prior-year period due to the organic growth of certain brands and the introduction of three new brands in the U.S. market, offset by the relative growth in certain international markets. We continue to focus on our faster growing and more profitable markets both in the U.S. and internationally. U.S. net sales increased to \$14.8 million for the six months ended September 30, 2011 from \$12.8 million for the comparable prior-year period. 2011 U.S. net sales include \$0.3 million in revenue from sales of the Travis Hasse's Pie liqueurs, which we launched in September 2010, \$0.2 million in revenue from sales of the A. de Fussigny cognacs, which we launched in August 2010, and \$0.2 million in sales from our Jefferson's Rye, which we launched in September 2011. The growth in U.S. sales also reflects the momentum for our Gosling's rums, Pallini Limoncello, Boru vodka and our Clontarf Irish whiskies.

The table below presents the increase in case sales by product category for the six months ended September 30, 2011 as compared to the six months ended September 30, 2010:

	Increase in case sales		Percentage increase	
	Overall	U.S.	Overall	U.S.
Rum	6,055	2,599	10.4%	5.5%
Vodka	3,421	4,472	10.4%	18.0%
Liqueurs	4,109	4,449	13.5%	14.9%
Whiskey	4,628	3,392	37.8%	51.4%
Tequila	212	212	33.4%	33.4%
Wine	217	217	8.6%	8.6%
Other	362	362	126.6 %	126.6 %
<b>Total</b>	<b>19,004</b>	<b>15,703</b>	<b>13.8%</b>	<b>14.1%</b>

Gross profit. Gross profit increased 14.5% to \$6.0 million for the six months ended September 30, 2011 from \$5.3 million for the comparable prior-year period, while our gross margin decreased to 36.0% for the six months ended September 30, 2011 compared to 36.8% for the comparable prior-year period. During the six months ended September 30, 2010, we recorded a reversal of our allowance for obsolete and slow moving inventory of \$0.02 million. We recorded this reversal because we were able to sell certain goods included in the allowance recorded during previous fiscal years. We did not record any reversal in the six months ended September 30, 2011.

Selling expense. Selling expense decreased 1.0% to \$5.26 million for the six months ended September 30, 2011 from \$5.32 million for the comparable prior-year period. This decrease in selling expense was due to a \$0.25 million reduction in employee related charges, including salaries and entertainment expense, offset by \$0.12 million increase in selling expense in support of our revenue growth. The decrease in selling expense and an increase in sales, resulted in a net decrease of selling expense as a percentage of net sales to 31.3% for the six months ended September 30, 2011 as compared to 37.1% for the comparable prior-year period.

General and administrative expense. General and administrative expense decreased 5.2% to \$2.5 million for the six months ended September 30, 2011 from \$2.6 million for the comparable prior-year period, primarily due to a \$0.2 million decrease in professional fees. The decrease in general and administrative expense and an increase in sales in the current period resulted in general and administrative expense as a percentage of net sales decreasing to 14.6% for the six months ended September 30, 2011 as compared to 18.1% for the comparable prior-year period.

Depreciation and amortization. Depreciation and amortization was \$0.5 million for each of the six-month periods ended September 30, 2011 and 2010.

Loss from operations. As a result of the foregoing, our loss from operations improved 31.2% to (\$2.1) million for the six months ended September 30, 2011 from (\$3.1) million for the comparable prior-year period. As a result of our focus on our stronger growth markets and better performing brands, and expected growth from our existing brands and recently acquired brands, we anticipate improved results of operations in the near term as compared to comparable prior-year periods, although there is no assurance that we will attain such results.

Net change in fair value of warrant liability. We recorded the fair market value of the 2011 Warrants issued in connection with the June 2011 private placement at their initial fair value. Changes in the fair value of the 2011 Warrants are recognized in earnings for each reporting period. For the six months ended September 30, 2011, we recorded a gain for the change in the value of the 2011 Warrants of \$185,025.

Loss from equity investment in non-consolidated affiliate. We have accounted for our investment in DP Castle Partners, LLC on the equity method of accounting. Loss from this investment was (\$0.02) million for the six months ended September 30, 2011.

Foreign exchange loss. Foreign exchange loss for the six months ended September 30, 2011 was (\$0.2) million as compared to a loss of (\$0.1) million for the six months ended September 30, 2010 due to the net effects of fluctuations of the U.S. dollar against the Euro and their effects on our Euro-denominated intercompany balances due to our foreign subsidiaries for inventory purchases.

Interest expense, net. We had interest expense, net of \$0.4 million for the six months ended September 30, 2011 as compared to interest expense, net of \$0.1 million for the six months ended September 30, 2010. The increase in interest expense is due to the outstanding balances on our notes payable as described below in "Liquidity and Capital Resources," particularly our \$2.5 million revolving credit facility, the Frost Note and the December 2010 Promissory Notes. We expect interest expense to decrease in future periods due to the conversion of existing debt to Series A Preferred Stock and 2011 Warrants in connection with the June 2011 private placement transaction described above.

Net income attributable to noncontrolling interests. Net income attributable to noncontrolling interests was (\$0.2) million during each of the six-month periods ended September 30, 2011 and 2010, both the result of allocated net results recorded by our 60%-owned subsidiary, Gosling-Castle Partners, Inc.

Dividend to preferred shareholders. For the six months ended September 30, 2011, we recognized a deemed dividend on our Series A Preferred Stock of \$0.4 million, the result of the calculated beneficial conversion feature and accrued dividends, as required by the terms of the preferred stock.

Net loss attributable to common shareholders. As a result of the net effects of the foregoing, net loss attributable to common shareholders improved to (\$3.1) million for the six months ended September 30, 2011 as compared to (\$3.4) million for the prior year period. Net loss per common share, basic and diluted, was (\$0.03) per share for each of the six-month periods ended September 30, 2011 and 2010.

#### Liquidity and capital resources

#### Financing Transactions

In August 2011, we entered into the Keltic Facility, which provides for availability of up to \$5.0 million for the purpose of providing working capital. The Keltic Facility expires on August 19, 2014. We may borrow up to the

maximum amount of the Keltic Facility, provided that we have a sufficient borrowing base (as defined in the Loan Agreement). The Keltic Facility interest rate is the rate that, when annualized, is the greatest of (a) the Prime Rate plus 3.25%, (b) the LIBOR Rate plus 5.75%, and (c) 6.50%. Interest is payable monthly in arrears, on the first day of every month on the average daily unpaid principal amount of the Keltic Facility. After the occurrence and during the continuance of any "Default" or "Event of Default" (as defined under the Loan Agreement) we are required to pay interest at a rate that is 3.25% per annum above the then applicable Keltic Facility interest rate. We paid Keltic a \$100,000 commitment fee and are also required to pay an annual facility fee and a collateral management fee. The Loan Agreement contains standard borrower representations and warranties for asset based borrowing and a number of reporting obligations and affirmative and negative covenants. The Loan Agreement includes negative covenants that, among other things, restrict our ability to create additional indebtedness, dispose of properties, incur liens, and make distributions or cash dividends. We are in compliance with the covenants. As of September 30, 2011, we had borrowed \$1.6 million of the \$5.0 million available under this facility.

In the June 2011 private placement, we entered into definitive agreements to issue an aggregate of approximately \$7.1 million of our Series A Convertible Preferred Stock in a series of private placement transactions. Under the terms of the transactions, we issued \$2.2 million of Series A Preferred Stock for its stated value of \$1,000 per share and 2011 Warrants to purchase an aggregate of approximately 3.5 million shares of our common stock, to third-party purchasers. Also as part of the June 2011 private placement, certain of our directors, officers and other affiliates agreed to purchase an aggregate of approximately \$1.0 million of Series A Preferred Stock and 2011 Warrants on substantially the same terms as the third-party purchasers, subject to shareholder approval of such issuance in accordance with NYSE Amex rules. Pending such shareholder approval, we issued an aggregate of \$1.0 million in promissory notes to these affiliate purchasers. These notes, and accrued but unpaid interest thereon, converted automatically into Series A Preferred Stock and 2011 Warrants in October 2011 upon shareholder and NYSE Amex approval of such transaction. The affiliate purchasers include Frost Gamma Investments Trust, Richard Lampen, Mark Andrews and certain of his affiliates, John Glover and Alfred Small.

Also as part of the June 2011 private placement, certain holders of our outstanding debt, including certain of our directors, officers and other affiliates, agreed to purchase shares of Series A Preferred Stock and 2011 Warrants in exchange for approximately \$4.0 million aggregate principal amount of our existing debt, and accrued but unpaid interest thereon, on substantially the same terms described above, subject to shareholder approval of such issuance in accordance with NYSE Amex rules. The affiliate debt holders include Frost Gamma Investments Trust, Vector Group Ltd., a more than 10% holder of our shares, Mr. Lampen, Mr. Andrews, Lafferty Ltd., a greater than 5% holder of our shares, IVC Investments, LLLP and Betts & Scholl, LLC (which converted principal, but not accrued but unpaid interest thereon). These notes and accrued but unpaid interest thereon converted into Series A Preferred Stock and 2011 Warrants in October 2011, following shareholder and NYSE Amex approval of such transaction.

In December 2010, we issued promissory notes in the aggregate principal amount of \$1.0 million to Frost Gamma Investments Trust, Vector Group Ltd., IVC Investors, LLLP, Mark Andrews and Richard Lampen. Borrowings under these notes were to mature on June 21, 2012 and bore interest at a rate of 11% per annum. Interest was accrued quarterly and was due at maturity. These notes could be prepaid in whole or in part at any time prior to maturity without penalty, but with payment of accrued interest to the date of prepayment. These notes did not contain any financial covenants. As of September 30, 2011, \$1.1 million consisting of \$1.0 million of principal and \$0.1 million of accrued interest was outstanding under these notes. In October 2011, these notes, and accrued but unpaid interest thereon, were converted into Series A Preferred Stock and 2011 Warrants as part of the June 2011 private placement described above.

In June 2010, we issued a \$2.0 million note to an affiliate of Phillip Frost, M.D., which we refer to as the Frost Note. Borrowings under the Frost Note were to mature on June 21, 2012 and bore interest at a rate of 11% per annum. Interest was accrued quarterly and was due at maturity. The Frost Note could be prepaid in whole or in part at any time prior to maturity without penalty, but with payment of accrued interest to the date of prepayment. The Frost Note did not contain any financial covenants. As of September 30, 2011, \$2.3 million, consisting of \$2.0 million of principal and \$0.3 million of accrued interest, was outstanding under the Frost Note. In October 2011, this note, and accrued but unpaid interest thereon, was converted into Series A Preferred Stock and 2011 Warrants as part of the June 2011 private placement.

In December 2009, we entered into a \$2.5 million revolving credit agreement with, among others, Frost Gamma Investments Trust, Vector Group Ltd., Lafferty Ltd., IVC Investors, LLLP, Mark Andrews and Richard Lampen. Under the credit agreement, we were able to borrow from time to time up to \$2.5 million to be used for working capital or general corporate purposes. Borrowings under the credit agreement were to mature on April 1, 2013 and bore interest at a rate of 11% per annum, payable quarterly. We paid an aggregate commitment fee of \$0.05 million to the lenders under the credit agreement. Amounts could be repaid and reborrowed under the revolving credit agreement without penalty. At September 30, 2011, the note was secured by \$9.1 million of inventory and \$5.4 million in trade accounts receivable of Castle Brands (USA) Corp. under a security agreement. In August 2011, \$2.0 million of principal and accrued interest was paid on this note in connection with the closing of the Keltic Facility. In October 2011, the remaining \$0.5 million of this note, and accrued but unpaid interest thereon, was converted into Series A Preferred Stock and 2011 Warrants as part of the June 2011 private placement.

In connection with the September 2009 Betts & Scholl acquisition, we issued a secured promissory note in the aggregate principal amount of \$1.1 million to Betts & Scholl, LLC. The note was secured under a security agreement by the Betts & Scholl inventory acquired. The note provided for an initial payment of \$0.3 million, paid at closing, and for eight equal quarterly payments of principal and interest, with the final payment due on September 21, 2011. Interest under the note accrued at an annual rate of 0.84%, compounded quarterly. In December 2010, we amended the terms of the note to provide that the quarterly payments of principal and interest due December 21, 2010 and March 21, 2011, each in the amount of \$0.1 million, would not be due and payable until the maturity date of such note and that such installment payments would bear interest, payable on such maturity date, at the rate of 11% per annum,

## Edgar Filing: Castle Brands Inc - Form 10-Q

compounded quarterly. In August 2011, \$0.2 million of principal and accrued interest was paid on this note in connection with the closing of the Keltic Facility. In October 2011, the remaining \$0.1 million due under this note was converted into Series A Preferred Stock and 2011 Warrants as part of the June 2011 private placement.

In December 2009, Gosling-Castle Partners, Inc., a 60% owned subsidiary, issued a promissory note in the aggregate principal amount of \$0.2 million to Gosling's Export (Bermuda) Limited in exchange for credits issued on certain inventory purchases. This note matures on April 1, 2020, is payable at maturity, subject to certain acceleration events, and calls for annual interest of 5%, to be accrued and paid at maturity.

## Liquidity Discussion

As of September 30, 2011, we had shareholders' equity of \$15.3 million as compared to \$16.5 million at March 31, 2011. This decrease is primarily due to our total comprehensive loss for the six months ended September 30, 2011, offset by the \$3.1 million of capital raised in the June 2011 private placement transaction.

We had working capital of \$8.0 million at September 30, 2011 as compared to \$11.4 million as of March 31, 2011. This decrease is primarily due to the reclassification of certain notes payable from long-term to current, based on maturity dates, and a \$0.6 million increase in inventory, offset by the \$3.2 million of capital raised in the June 2011 private placement.

As of September 30, 2011, we had cash and cash equivalents of approximately \$0.5 million, as compared to \$1.0 million as of March 31, 2011. The decrease is primarily attributable to the funding of our operations and working capital needs for the six months ended September 30, 2011 and by \$0.7 million in note and credit facility payments, offset by the \$3.2 million of capital raised in the June 2011 private placement transaction. At September 30, 2011, we also had \$0.5 million of cash restricted from withdrawal and held by a bank in Ireland as collateral for overdraft coverage, creditors' insurance, revolving credit, and other working capital purposes.

The following may result in a material decrease in our liquidity over the near-to-mid term:

- § continued significant levels of cash losses from operations;
- § our ability to obtain additional debt or equity financing should it be required;
- § an increase in working capital requirements to finance higher levels of inventories and accounts receivable;
- § our ability to maintain and improve our relationships with our distributors and our routes to market;
- § our ability to procure raw materials at a favorable price to support our level of sales;
- § potential acquisitions of additional brands; and
- § expansion into new markets and within existing markets in the United States and internationally.

We continue to implement a plan to support the growth of existing brands through sales and marketing initiatives that we expect will generate cash flows from operations in the next few years. As part of this plan, we seek to grow our business through expansion to new markets, growth in existing markets and strengthened distributor relationships. Further, we are actively seeking to reduce certain inventory levels in an effort to reduce our working capital requirements and provide improved cash flow from operations. We are also seeking additional brands and agency relationships to leverage our existing distribution platform. We intend to finance our brand acquisitions through a combination of our available cash resources, borrowings and, in appropriate circumstances, additional issuances of equity and/or debt securities. Acquiring additional brands could have a significant effect on our financial position, could materially reduce our liquidity and could cause substantial fluctuations in our quarterly and yearly operating results. We continue to look to reduce expense, seek improvements in routes to market and contain production costs to improve cash flows.

As of September 30, 2011, we had borrowed \$1.6 million of the \$5.0 million available under the Keltic Facility, leaving \$3.4 million in potential availability for our working capital needs. We believe that the financing described above, combined with our current cash and working capital, and the availability under the Keltic Facility, will enable us to fund our losses until profitability, ensure continuity of supply of certain of our brands, fund future acquisitions and agency relationships, and support new brand initiatives and marketing programs. The additional capital enhances our ability to attract new brands and further strengthens our relationships with our distributors.

## Cash flows

The following table summarizes our primary sources and uses of cash during the periods presented:

	Six Months ended September 30,	
	2011	2010
	(in thousands)	
Net cash provided by (used in):		
Operating activities	\$ (2,357)	\$ (3,207)
Investing activities	(287)	(154)
Financing activities	2,157	3,008
Effect of foreign currency translation	(13)	(5)
Net decrease in cash and cash equivalents	\$ (500)	\$ (358)

Operating activities. A substantial portion of available cash has been used to fund our operating activities. In general, these cash funding requirements are based on operating losses, driven chiefly by the costs in maintaining our distribution system and our sales and marketing activities. We have also utilized cash to fund our receivables and inventories. In general, these cash outlays for receivables and inventories are only partially offset by increases in our accounts payable to our suppliers.

On average, the production cycle for our owned brands is up to three months from the time we obtain the distilled spirits, bulk wine and other materials needed to bottle and package our products to the time we receive products available for sale, in part due to the international nature of our business. We do not produce Gosling's rums, Pallini liqueurs, Tierras tequila, or A. de Fussigny cognacs. Instead, we receive the finished product directly from the owners of such brands. From the time we have products available for sale, an additional two to three months may be required before we sell our inventory and collect payment from customers.

During the six months ended September 30, 2011, net cash used in operating activities was \$2.4 million, consisting primarily of a net loss of \$2.5 million, a \$0.6 million increase in inventory, a \$0.2 million increase in accounts receivable, a \$0.2 million increase in due from affiliates, a \$0.2 million increase in other assets and a \$0.2 million credit for the net change in fair value of warrant liability. These uses of cash were partially offset by a \$0.7 million increase in due to related parties, a net \$0.1 million increase in accounts payable and accrued expenses, a \$0.1 million decrease in prepaid expenses and depreciation and amortization expense of \$0.5 million.

During the six months ended September 30, 2010, net cash used in operating activities was \$3.2 million, consisting primarily of a net loss of \$3.2 million, a \$1.5 million increase in inventory and a \$0.3 million decrease in accounts payable and accrued expenses. These uses of cash were partially offset by a \$1.0 million increase in due to related parties, a \$0.1 million decrease in other assets and depreciation and amortization expense of \$0.4 million.

Investing Activities. Net cash used in investing activities was \$0.3 million for the six months ended September 30, 2011, representing \$0.2 million used in the acquisition of fixed and intangible assets, a \$0.03 million increase in restricted cash and \$0.06 million in payments under contingent consideration agreements.

Net cash used in investing activities was \$0.2 million for the six months ended September 30, 2010, representing \$0.1 million used in the acquisition of fixed and intangible assets and \$0.04 million in payments under contingent consideration agreements.

Financing activities. Net cash provided by financing activities for the six months ended September 30, 2011 was \$2.2 million, consisting of \$1.9 million from the issuance of our Series A Preferred Stock and 2011 Warrants and \$1.0 million from the issuance of interim notes to affiliated parties. These proceeds were offset by net payments of \$0.4 million on our credit facilities and the repayment of \$0.3 million on the Betts & Scholl note.

Net cash provided by financing activities for the six months ended September 30, 2010 was \$3.0 million, consisting of the \$2.0 million borrowed under the Frost Note, \$2.0 million borrowed under our \$2.5 million revolving credit agreement and a \$0.2 million reduction in restricted cash. These proceeds were offset by the repayment of \$0.2 million on the Betts & Scholl note and \$1.0 million for the repurchase of our common stock.

Recent accounting standards issued and adopted.

We discuss recently issued and adopted accounting standards in the "Accounting standards adopted" and "Recent accounting pronouncements" sections of Note 1 of the "Notes to Unaudited Condensed Consolidated Financial Statements" in the accompanying unaudited condensed consolidated financial statements.

#### Cautionary Note Regarding Forward Looking Statements

This report includes certain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements, which involve risks and uncertainties, relate to the discussion of our business strategies and our expectations concerning future operations, margins, profitability, liquidity and capital resources and

to analyses and other information that are based on forecasts of future results and estimates of amounts not yet determinable. These forward-looking statements are made based on expectations and beliefs concerning future events affecting us and are subject to uncertainties, risks and factors relating to our operations and business environments, all of which are difficult to predict and many of which are beyond our control, that could cause our actual results to differ materially from those matters expressed or implied by these forward-looking statements. These risks and other factors include those listed under “Risk Factors” in our 2011 Annual Report, and as follows:

- § our history of losses and expectation of further losses;
- § the effect of poor operating results on our company;
- § the adequacy of our cash resources and our ability to raise additional capital;
- § our ability to expand our operations in both new and existing markets and our ability to develop or acquire new brands;
- § our relationships with and our dependency on our distributors;
- § the impact of supply shortages and alcohol and packaging costs in general, as well as our dependency on a limited number of suppliers and inventory requirements;
- § the success of our sales and marketing activities;

§ economic and political conditions generally, including the current recessionary economic environment and concurrent market instability;

§ the effect of competition in our industry;

§ negative publicity surrounding our products or the consumption of beverage alcohol products in general;

§ our ability to acquire and/or maintain brand recognition and acceptance;

§ trends in consumer tastes;

§ our and our strategic partners' abilities to protect trademarks and other proprietary information;

§ the impact of litigation;

§ the impact of currency exchange rate fluctuations and devaluations on our revenues, sales and overall financial results;

§ our executive officers, directors and principal shareholders own a substantial portion of our voting stock; and

§ the impact of federal, state, local or foreign government regulations.

We assume no obligation to publicly update or revise these forward-looking statements for any reason, or to update the reasons actual results could differ materially from those anticipated in, or implied by, these forward-looking statements, even if new information becomes available in the future.

#### Item 4. Controls and Procedures

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Disclosure controls and procedures are our controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Securities Exchange Act of 1934, as amended, is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding disclosure.

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a—15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) as of the end of the period covered by this report, and, based on that evaluation, our principal executive officer and principal financial officer have concluded that these controls and procedures are effective as of such date.

#### Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rule 13a-15 under the Securities Exchange Act of 1934, as amended, that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

## PART II. OTHER INFORMATION

#### Item 1. Legal Proceedings

We believe that neither we nor any of our subsidiaries is currently subject to litigation which, in the opinion of management after consultation with counsel, is likely to have a material adverse effect on us.

We may, however, become involved in litigation from time to time relating to claims arising in the ordinary course of our business. These claims, even if not meritorious, could result in the expenditure of significant financial and managerial resources.
