ARC Wireless Solutions, Inc.

Notes to Condensed Consolidated Financial Statements

March 31, 2012

Note 1. Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for complete financial statements. In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all of the normal recurring adjustments necessary to present fairly the financial position of the Company as of March 31, 2012, the results of its operation and its cash flows for the three months then ended. For further information, refer to the financial statements and footnotes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2011.

During the periods presented in the unaudited consolidated condensed financial statements, the Company operated in one business segment which is identified as Manufacturing which offers a wide variety of wireless components and network solutions to service providers, systems integrators, value added resellers, businesses and consumers, primarily in the United States.

Operating results for the three months ended March 31, 2012 are not necessarily indicative of the results to be expected for the full year or any future period.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of ARC Wireless Solutions, Inc. ("ARC"), and its wholly-owned subsidiary corporations, Starworks Wireless Inc. ("Starworks" or "Kit"), ARC Wireless Hong Kong Limited ("ARCHK"), ARC Wireless Inc. ("AWI"), ARC Wireless, LLC ("ARC LLC") and ARC Wireless Ltd ("ARC Ltd"). All material intercompany accounts, transactions, and profits have been eliminated in consolidation. In 2010 management determined ARCHK, our wholly-owned subsidiary, was no longer necessary and operations were terminated. ARCHK primarily managed our own China production operations which was no longer required when we transitioned to RIL during the third quarter of 2010.

Basis of Presentation

The Company has experienced recurring losses and has accumulated a deficit of approximately \$9.4 million since inception in 1989. There can be no assurance that the Company will achieve the desired result of net income and positive cash flow from operations in future years. Management believes that current working capital, and debt and equity financing contemplated by the pending acquisitions noted in Note 10, if approved, will be sufficient to allow the Company to maintain its operations through December 31, 2012 and into the foreseeable future.

Use of Estimates

The preparation of the Company's consolidated condensed financial statements in accordance with generally accepted accounting principles of the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Cash and Cash Equivalents

We consider all highly liquid debt instruments purchased with an original maturity of three months or less to be cash equivalents. From time to time we have cash balances in excess of federally insured amounts. We maintain our cash balances with several financial institutions.

Fair Value of Financial Instruments

The Company's short-term financial instruments consist of cash, money market accounts, accounts receivable, accounts payable and accrued expenses. The carrying amounts of these financial instruments approximate fair value because of their short-term maturities. Financial instruments that potentially subject the Company to a concentration of credit risk consist principally of cash and accounts receivable.

The Company does not hold or issue financial instruments for trading purposes nor does it hold or issue interest rate or leveraged derivative financial instruments.

Accounts Receivable

Trade receivables consist of uncollateralized customer obligations due under normal trade terms which normally require payment within 30 to 60 days of the invoice date. Management reviews trade receivables periodically and reduces the carrying amount by a valuation allowance that reflects management's best estimate of the amount that may not be collectible. No provision for doubtful accounts was deemed necessary at March 31, 2012 and December 31, 2011. There was no bad debt expense for the three months ended March 31, 2012 and 2011.

Income Taxes

The Company accounts for income taxes pursuant to *Accounting Standards Codification* ("ASC") 740, *Income Taxes*, which utilizes the asset and liability method of computing deferred income taxes. The objective of this method is to establish deferred tax assets and liabilities for any temporary differences between the financial reporting basis and the tax basis of the Company's assets and liabilities at enacted tax rates expected to be in effect when such amounts are realized or settled. The current and deferred tax provision is allocated among the members of the consolidated group on the separate income tax return basis.

ASC 740 also provides detailed guidance for the financial statement recognition, measurement and disclosure of uncertain tax positions recognized in the financial statements. Tax positions must meet a “more-likely-than-not” recognition threshold at the effective date to be recognized. During the three months ended March 31, 2012 and 2011, the Company recognized no adjustments for uncertain tax positions.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. No interest and penalties related to uncertain tax positions were recognized at March 31, 2012 and December 31, 2011. The Company expects no material changes to unrecognized tax positions within the next twelve months.

Reclassifications

Certain balances in the prior year consolidated financial statements have been reclassified in order to conform to the current year presentation. The reclassifications had no effect on financial condition, gross profit, or net loss.

Note 2. Share-Based Compensation

The Company accounts for share-based payments pursuant to ASC 718, *Stock Compensation* and, accordingly, the Company records compensation expense for share-based awards based upon an assessment of the grant date fair value for stock options and restricted stock awards.

Stock compensation expense for stock options is recognized on a straight-line basis over the vesting period of the award. The Company accounts for stock options as equity awards.

The following table summarizes share-based compensation expense recorded in selling, general and administrative expenses during each period presented (in thousands):

	Three Months Ended March 31, 2012	March 31, 2011
Stock options	\$ -	\$ 8
Total share-based compensation expense	\$ -	\$ 8

There were no options granted or exercised during the three months ended March 31, 2012.

There were no options outstanding at March 31, 2012.

Note 3. Earnings Per Share

Basic earnings (loss) per share includes no dilution and is computed by dividing income available to common stockholders by the weighted average number of common shares outstanding for the period. Diluted earnings (loss) per share, reflects the potential dilution of securities that could share in the earnings of the entity. For periods where the Company has incurred a net loss, stock options were not included in the computation of diluted loss per share because their effect was anti-dilutive, therefore, basic and fully diluted loss per share are the same for those periods.

The following table represents a reconciliation of the shares used to calculate basic and diluted earnings (loss) per share for the respective periods indicated (in thousands, except per share amounts):

	For the Three Months Ended March 31,					
	2012			2011		
	Net			Net		
	Loss	Weighted	Per	Loss	Weighted	Per
	Attributed	Average	Share	Attributed	Average	Share
	to	Shares	Loss	to	Shares	Loss
	Common			Common		
	Stock			Stock		
Basic EPS:						
Net Loss	\$(278)	3,091	\$(.09)	\$(113)	3,091	\$(.04)
Effect of Dilutive Securities						
Employee stock options	-	-	-	-	-	-
Diluted loss per share	\$(278)	3,091	\$(.09)	\$(113)	3,091	\$(.04)

Note 4. Inventory

Commencing January 1, 2011, inventory is valued at the lower of cost or market using first in first out (FIFO) which approximate average cost, due to the rapid turnover of inventory. The Company previously valued its inventory at lower of cost or market using standard cost which approximated average cost, and as such, the change is not considered a change in accounting. Inventories are reviewed periodically and items considered to be slow-moving or obsolete are reduced to estimated net realizable value through an appropriate reserve. At March 31, 2012 and December 31, 2011, the inventory reserve was \$99 and \$133 thousand, respectively. Inventory consists of the following amounts (in thousands):

	March 31, 2012	December 31, 2011
Raw materials	\$ 78	\$ 60
Work in progress	-	-
Finished goods	747	258
Subtotal	825	318
Inventory reserve	(99)	(133)
Net inventory	\$ 726	\$ 185

Note 5. Related Party Transactions

On January 23, 2009 we entered into the Advisory Agreement with Quadrant. Quadrant is under common control with Brean Murray Carret Group, Inc., an organization that beneficially owns 1,121,354, or 36.3%, of the Company's common stock. Mr. Young, the Chairman of the Company's Board of Directors, and Mr. Deinard, our Interim Chief Executive Officer, are each Managing Directors at Quadrant Management, Inc. Pursuant to the Advisory Agreement, Quadrant will provide the Company financial advisory and business consulting services, including restructuring services.

In consideration for the restructuring services which have been provided by the Advisor since November 2008 and for the ongoing services to be provided, ARC has agreed to pay the following: 1) an initial cash fee of \$250 thousand which was paid upon signing the Agreement in January 2009; 2) during 2009, ARC will pay an annual fee of the greater of (i) \$250 thousand or (ii) 20% of any increase in reported earnings before interest, taxes, depreciation and amortization after adjusting for one-time and non-recurring items ("EBITDA") for the current financial year over preceding year, or (iii) 20% of reported EBITDA for the current financial year, and; 3) all reasonable out-of-pocket expenses incurred by Advisor in performing services under the Agreement. Total expenses accrued for the year ended December 31, 2011 was \$250 thousand. The \$250 thousand fee for 2011 accrued at December 31, 2011 and was paid in the first quarter of 2012. Approximately \$62 thousand of the 2012 annual fee was accrued for the three months ended March 31, 2012 and is also included in accrued liabilities at March 31, 2012. The Agreement will expire on

December 31, 2013.

During the third quarter of 2010, we began utilizing the manufacturing, product sourcing, and outsourcing services of Rainbow Industrial Limited ("RIL") which is based in China. RIL is wholly owned by an affiliate of Quadrant Management, Inc., which is affiliated with us and our Chief Executive Officer. We purchase goods and services from RIL valued at approximately \$150 thousand per month; however the actual dollar amount can vary significantly with normal fluctuations in business activity.

In our 2010 Third Quarter Form 10-Q report, as a Subsequent Event, we announced we sold all of our Raw Material Inventory to RIL in October 2010. Subsequent to this sale we realized some of the Raw Material Inventory would not be used within the next few months to produce finished goods and therefore we purchased approximately \$30,000 of this ARC China Raw Material inventory back to be held on our books until a later date. Both the sale and re-purchase of Raw Material occurred during the Fourth Quarter of 2010. As of December, 2011 we have ceased all operations at RIL and now manufacture exclusively through third party contract manufacturers in China. In January 2012 we recorded a one time charge of \$53,000 relating to the relocation of our production activities.

Also see Note 10 for other pending related party transactions.

Note 6. Recent Accounting Pronouncements

In May 2011, the Financial Accounting Standard Board ("FASB") issued an accounting update that amends ASC No. 820, "Fair Value Measurement" regarding fair value measurements and disclosure requirements. The amendments are effective during interim and annual periods beginning after December 15, 2011 and are to be applied prospectively. The accounting update will be applicable to the Company beginning in the third quarter of fiscal year 2012. As applicable to the Company, the adoption of the new guidance is not expected to have a material impact on the consolidated financial statements.

In June 2011, the FASB issued an update to ASC No. 220, "Presentation of Comprehensive Income," which eliminates the option to present other comprehensive income and its components in the statement of shareholders' equity. The Company can elect to present the items of net income and other comprehensive income in a single continuous statement of comprehensive income or in two separate, but consecutive, statements. Under either method the statement would need to be presented with equal prominence as the other primary financial statements. The amended guidance, which must be applied retroactively, is effective for fiscal years, and interim periods within those years, beginning after December 15, 2011, with earlier adoption permitted. In December 2011, the FASB issued another update on the topic, which deferred the effective date pertaining only to the presentation of reclassification adjustments on the face of the financial statements. The adoption of the new guidance is not expected to have a material impact on the consolidated financial statements.

In December 2011, the FASB issued an amendment to the accounting guidance for disclosure of offsetting assets and liabilities and related arrangements. The amendment expands the disclosure requirements in that entities will be required to disclose both gross information and net information about both instruments and transactions eligible for offset in the statement of financial position and instruments and transactions subject to an agreement similar to a master netting arrangement. The amendment is effective for fiscal years, and interim periods within those years, beginning on or after January 1, 2013, and shall be applied retrospectively. We do not expect the adoption of this accounting pronouncement to have a material impact on our financial statements when implemented.

Note 7. Concentration of Credit Risk

Two customers accounted for approximately 53% of the Company's net sales for the three months ended March 31, 2012 and one of these customers accounted for 39% of the Company's net sales for the three months ended March 31, 2012. One customer accounted for approximately 33% of the Company's net sales for the three months ended March 31, 2011. A reduction, delay or cancellation of orders from this customer or the loss of this customer could significantly reduce the Company's revenues and operating results. We cannot provide assurance that this customer or any of our current customers will continue to place orders, that orders by existing customers will continue at current or historical levels or that we will be able to obtain orders from new customers.

Note 8. Industry Segment Information

ASC 280, *Segment Reporting*, requires that the Company disclose certain information about its operating segment where operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Generally, financial information is required to be reported on the basis that is used internally for evaluating segment performance and deciding how to allocate resources to segments. The Company has one reportable segment, Manufacturing, which is a separate business unit that offers a variety of wireless components and network solutions to service providers, system integrators, value added resellers, businesses and consumers, primarily in the United States.

Note 9. Subsequent Events

Management has evaluated the impact of events occurring after March 31, 2012 up to the date of the filing of these condensed consolidated financial statements. These statements contain all necessary adjustments and disclosures resulting from that evaluation.

The Company signed definitive agreements to purchase Advanced Forming Technology, Inc., ("AFT") and Quadrant Metals Technologies, LLC ("QMT"). In addition, the Company will be renamed ARC Group Worldwide, Inc. (pending shareholder approval) and will be a diversified manufacturing holding company with operations in Colorado, Florida, Pennsylvania, Texas, Minnesota, China and Hungary. The Company has also proposed a 1:1.95 reverse stock split (the "Reverse Stock Split"). The closing of the acquisitions of AFT and QMT, as well as the Name Change, the Reverse Stock Split and certain other matters, remain subject to shareholder approval.

Highlights of the acquisitions include the following:

- ARC to acquire AFT, including its assets and operations in Hungary, for \$43 million, approximately 1.0x Book Value, in a mix of cash and a convertible promissory note.

- ARC to issue 7,857,898 shares valued at \$4.00 per share, a 36% premium to ARC's closing price as of April 11, 2012, to acquire QMT in a non-cash transaction.

On April 6, 2012, the Company entered into a Purchase Agreement (the "AFT Acquisition Agreement") with Precision Castparts Corp. ("PCC") and AFT Europa KFT ("AFTE"). The term "AFT" is used in this Report to refer collectively to the company and the business of Advance Forming Technology, Inc. ("AFTI") and the special purpose acquisition company (the "AFTE SPV") holding the Hungarian assets associated with AFTI which are currently owned by AFTE. Prior to closing, PCC will cause AFT to transfer the Thixoforming Division of AFT, including all associated liabilities, to PCC. Pursuant to the terms of the AFT Acquisition Agreement, the Company will receive 100% of AFTI and AFTE SPV, in exchange for the transfer of an aggregate of \$43 million to PCC (the "AFT Purchase Price"), of which \$25,400,000 will be paid in cash and \$17,600,000 will be paid in the form of a convertible note (the "AFT Convertible Note") maturing in five years from the acquisition closing date (the "AFT Acquisition"). QMT has received from TD Bank, N.A. ("TD Bank") a commitment letter providing for a revolving line of credit in an amount of up to \$10,000,000 and three term loans totaling up to an estimated \$18,000,000 with terms ranging from 30 months to ten years (the "Financing Arrangement"). The purpose of the Financing Arrangement with TD Bank is to finance the acquisition of AFT; to pay off all existing senior debt of QMT, AFT and their subsidiaries; and to potentially purchase new equipment for AFT's current European operations. All facilities under the Financing Arrangement shall bear interest at a per annum rate equal to a margin between 250 to 300 basis points over the one month London Interbank Offered Rate (LIBOR) and the Company and its subsidiaries will be subject to customary financial covenants. The Company, AFT and QMT's subsidiaries shall serve as the corporate guarantors of this Financing Arrangement. The Company will use the proceeds from the Financing Arrangements with TD Bank to fund, in part, the cash consideration payable in

connection with the AFT Acquisition. The Company expects to complete the Financing Arrangements prior to the closing of the Acquisitions.

The AFT Purchase Price of the AFT Acquisition will be subject to a working capital adjustment. If the net working capital of AFT, excluding the Thixoforming Division but including the AFTE SPV (the “Acquired Operations”), on the day of closing divided by the net sales (the “Net Sales”) of AFTE, excluding the Thixoforming Division and the Acquired Operation for the 12 month period immediately preceding the closing (the “Closing Net Working Capital Percentage”), is greater than 25% (the “Fixed Percentage”) then the Purchase Price will be increased by the product of (x) Closing Net Working Capital Percentage less the Fixed Percentage and (y) the Net Sales. If the Closing Net Working Capital Percentage is less than the Fixed Percentage then the Purchase Price will be decreased by the product of (x) the Fixed Percentage less the Closing Net Working Capital Percentage and (y) the Net Sales. If the Closing Net Working Capital Percentage equal to the Fixed Percentage, then the Purchase Price will not be adjusted. The adjustments shall be determined within forty (45) days by the Company with AFT granted certain rights to object to the calculation. All Purchase Price adjustments will be made in cash.

Under the terms of the convertible note, PCC may at any time prior to maturity (subject to certain restrictions) convert the AFT Convertible Note into newly issued shares of the Company's common stock at a conversion price equal to the 30-day average trading value per share of the common stock immediately preceding conversion, provided that the AFT Convertible Note may be converted only if it converts into less than 10% of the common ownership of the Company and the equity value of the Company is not less than \$176 million. Assuming a conversion price calculated as of April 9, 2012, such conversion could result, in the issuance of approximately 1,226,977 shares of the Company's common stock (approximately 629,229 shares of the Company's common stock after giving effect to the proposed 1:1.95 reverse stock split (the "1:1.95 Reverse Stock Split")). Accordingly, the Company will initially reserve such amount of shares for possible issuance to PCC under the terms of conversion of the AFT Convertible Note. The actual number of shares issued to PCC upon conversion of the AFT Convertible Note may vary in accordance with the conversion formula as of the dates of exercise of conversion by PCC. The foregoing approximations of share issuances pursuant to conversion of the AFT Convertible Note are provided for illustrative purposes only and if the AFT Acquisition is approved by the Company's shareholders, the Company will be authorized to issue any and all shares of the Company's common stock under the terms and conditions of AFT Convertible Note without limitation to a specific number of shares.

The AFT Acquisition Agreement contains a provision that the Company will close the QMT Acquisition (as defined below) at the same time as, or prior to, the closing of the AFT Acquisition, which may be waived by PCC. In addition, since the shares of the Company's common stock will be issued as consideration in connection with the acquisitions above the thresholds required for shareholder approval under the NASDAQ Rules, approval by the Company's shareholders of the QMT Acquisition and the AFT Acquisition is required for the Company to complete these acquisitions.

Consummation of the transactions contemplated by the AFT Acquisition Agreement is conditional upon, among other matters: (i) settlement of all intercompany accounts between PCC, AFT and AFTE; (ii) completion of the QMT Acquisition; (iii) transfer of the Thixoforming Division to PCC; and (iv) AFT having available cash of \$100,000 at closing. In addition to the closing conditions above, the AFT Acquisition Agreement and the related transaction agreements contain additional customary closing conditions. PCC, AFTE and the Company have agreed to covenants relating to, among others, publicity, certain tax matters, access to information, and the making of certain filings with governmental authorities.

On April 6, 2012, the Company entered into a Membership Interest Purchase Agreement (the "QMT Acquisition Agreement") with Quadrant, QMT, Carret P.T., LP, and the QMT Sellers to purchase, among other things, all of the Membership Interests. Pursuant to the terms of the QMT Acquisition Agreement, the QMT Sellers will receive an aggregate of 7,857,898 shares of the Company's common stock as the consideration in exchange for the transfer to the Company of 100% of all of the Membership Interests (the "QMT Acquisition" and, together with the AFT Acquisition, the "Acquisitions"). Such consideration shall be equal to 4,029,691 shares of the Company's common stock after giving effect to the Company's proposed 1:1.95 Reverse Stock Split, as described in further detail below. The purchase price for such shares has been set at \$4.00 per share (\$7.80 per share giving effect to the proposed 1-for-1.95 Reverse Stock Split).

Under the QMT Acquisition Agreement, Carret P.T., LP will purchase from the Company 112,648 newly-issued shares of the Company's common stock at a purchase price of \$4.00 per share (equal to 57,768 shares of the Company's common stock after giving effect to the proposed 1:1.95 Reverse Stock Split) in consideration for a cash investment in the Company of \$450,594 by Carret P.T., LP. at \$4.00 per share (\$7.80 per share giving effect to the proposed 1-for-1.95 Reverse Stock Split).

The QMT Acquisition Agreement contains conditions to each party's closing obligations, and includes the express condition that the Company receive approval from a majority of those disinterested shareholders present and voting on such proposal (in person or by proxy) at a meeting of shareholders at which at least a majority of all shares of the Company's common stock are present for quorum purposes called prior to the closing of the QMT Acquisition. The QMT Acquisition Agreement also contains a condition that if the Company is required to file an application pertaining to the continuation of listing for trading of its securities on NASDAQ or other national securities exchange, such application or applications, as the case may be, shall have been approved in writing by the respective securities regulatory organizations having jurisdiction over such application such that the Company's common stock must remain eligible and qualified for trading on at least one national securities exchange immediately following the closing date and free from any delisting determination, notice of non-compliance with listing criteria or similar proceeding.

In addition to the closing conditions above, (i) there must be not less than \$250,000 cash in QMT accounts at closing and having non-cash working capital in amount equal to not less than 20% of the trailing twelve months' net sales of the Company, as determined as of the most recent calendar month-end prior to the closing date; (ii) the Company shall have received the opinion of its financial advisor as to the fairness of the transaction from a financial point of view, which opinion shall be in form and substance reasonably acceptable to the Company and the Special Committee; and (iii) other customary closing conditions.

Prior to the closing, the QMT Acquisition Agreement may be terminated for the following reasons: (i) by the Company if the QMT Sellers or QMT has breached the QMT Acquisition Agreement; (ii) by the QMT Sellers, if the Company has breached the QMT Acquisition Agreement; (iii) by the QMT Sellers or the Company, if the closing has not occurred on or before June 25, 2012 due to the failure of any condition precedent from taking place (unless the failure is caused by the party that gives notice of the termination); (iv) by the Company in connection with a situation in which a financially superior proposal is made by another party; or (v) by mutual written agreement of the QMT Sellers and the Company.

From the date of the QMT Acquisition Agreement to the date of closing or termination of the QMT Acquisition Agreement, the QMT Sellers and QMT are required to refrain from initiating, engaging or entering into a different agreement to engage in a transaction concerning any acquisition, equity or debt financing, joint venture, merger, reorganization, consolidation, recapitalization, business combination, liquidation, dissolution, share exchange, sale of stock, sale of material assets or similar business transaction involving QMT or any subsidiary (an "Alternate Transaction"). However, the Company is expressly entitled to initiate, solicit or encourage or otherwise facilitate an Alternate Transaction with any party concerning an Alternate Transaction involving the Company, and may, subject to delivery of certain required notices, terminate the QMT Acquisition Agreement and enter into an alternative

transaction which the Special Committee believes in good faith to be a “Superior Proposal” as defined in the QMT Acquisition Agreement, giving full consideration to the potentially negative effect such alternative transaction may have on the AFT Acquisition.

The QMT Acquisition Agreement also contains a condition that if the Company is required to file an application pertaining to the continuation of listing for trading of its securities on NASDAQ or other national securities exchange, such application or applications, as the case may be, shall have been approved in writing by the respective securities regulatory organizations having jurisdiction over such application such that the Company’s common stock must remain eligible and qualified for trading on at least one national securities exchange immediately following the closing date and free from any delisting determination, notice of non-compliance with listing criteria or similar proceeding. The Company has received notification from NASDAQ that a new listing application is required in connection with the Acquisitions and the Company has initiated the new listing application procedures.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion is intended to assist you in understanding our business and the results of our operations. It should be read in conjunction with the Consolidated Condensed Financial Statements and the related notes that appear elsewhere in this report as well as our Annual Report on Form 10-K for the year ended December 31, 2011. Certain statements made in our discussion may be forward looking. Forward-looking statements involve risks and uncertainties and a number of factors could cause actual results or outcomes to differ materially from our expectations. These risks, uncertainties, and other factors include, among others, the risks described in our Annual Report on Form 10-K for the fiscal year ended December 31, 2011 filed with the Securities and Exchange Commission, as well as other risks described in this Quarterly Report. Unless the context requires otherwise, when we refer to "we," "us" and "our," we are describing ARC Wireless Solutions, Inc. and its consolidated subsidiaries on a consolidated basis.

BUSINESS OVERVIEW

We focus on wireless broadband technology related to propagation and optimization. We design and develop hardware, including antennas, radios, and related accessories, used in broadband and other wireless networks. We supply our products to public and private carriers, wireless infrastructure providers, wireless equipment distributors, value added resellers and other original equipment manufacturers. Our strategy is focused on enhancing value for our stockholders by increasing revenues while at the same time minimizing our overhead.

Growth in product revenue is dependent on market acceptance of our new ARCFlex™ family of full solution radio products, on gaining further traction with current and new customers for the existing product portfolio, as well on developing new products to support our wireless initiatives. Revenue growth for our products is correlated to the overall global wireless market and to our ability to take market share from our competitors. We continue to focus on keeping our operational and general costs low in order to improve our gross margins.

Specific growth areas are last mile wireless broadband Internet delivered over standards-based solutions such as Worldwide Interoperability for Microwave Access ("WiMAX"), WiFi or vendor specific proprietary solutions; GPS and Mobile SATCOM solutions for network timing, fleet and asset tracking and monitoring; Machine to machine ("M2M") communications for controlling or monitoring data from devices; and base stations to build out or optimize carrier networks.

During the third quarter of 2010, we began utilizing the manufacturing, product sourcing, and outsourcing services of Rainbow Industrial Limited ("RIL") which is based in China. RIL is wholly owned by an affiliate of Quadrant Management, Inc., which is affiliated with us and our Chief Executive Officer. In the fourth quarter we discontinued

utilizing the services of RIL and are now exclusively using third party contract manufacturers. In January 2012 we recorded a one-time charge of \$53 thousand relating to the relocation of our production activities.

In the normal course of business we routinely have discussions with various third parties about potential strategic arrangements. These potential arrangements may include but are not limited to investment opportunities for our cash reserves, investment by third parties in our business, joint ventures, significant manufacturing partnerships, acquisitions, mergers, reverse mergers, spin-offs, or strategic hires of personnel. Such arrangements may or may not be within our current industry.

The Company signed definitive agreements to purchase Advanced Forming Technology, Inc., ("AFT") and Quadrant Metals Technologies, LLC ("QMT"). (See Note 10 above) In addition, the Company will be renamed ARC Group Worldwide, Inc. (pending shareholder approval) and will be a diversified manufacturing holding company with operations in Colorado, Florida, Pennsylvania, Texas, Minnesota, China and Hungary. The Company has also proposed a 1:1.95 reverse stock split (the "Reverse Stock Split"). The closing of the acquisitions of AFT and QMT, as well as the Name Change, the Reverse Stock Split and certain other matters, remain subject to shareholder approval. Reference should be made to Report on Form 8-K filed by the Company on April 12, 2012 and a Preliminary Proxy filed on April 13, 2012 which provide more detailed information about these two acquisitions and the future business of the Company.

Highlights of the acquisitions include the following:

ARC to acquire AFT, including its assets and operations in Hungary, for \$43 million, approximately 1.0x Book Value, in a mix of cash and a convertible promissory note.

ARC to issue 7,857,898 shares valued at \$4.00 per share, a 36% premium to ARC's closing price as of April 11, 2012, to acquire QMT in a non-cash transaction.

Financial Condition

At March 31, 2012, we had approximately \$11 million in working capital, which represents a decrease of approximately \$200 thousand from working capital at December 31, 2011 of \$11.2 million.

We have seen a decline in orders for our legacy products from customers, both domestically and internationally as a result of the current economic environment and a market trend towards fully integrated solution products, and we do not expect to see these trends reversing in 2012. However, we continue our efforts to introduce new products and to acquire new customers, for example in the fourth quarter of 2011 we introduced the new ARCFlex™ line of low-cost, fully featured radio products. The ARCFlex™ line is one of the market's most cost-effective and fully-featured CPE solutions for the WISP.

Management believes that current working capital, and debt and equity financing contemplated by the pending acquisitions noted in Note 10, if approved, will be sufficient to allow us to maintain our operations through December 31, 2012 and into the foreseeable future.

Results of Continuing Operations for the Three Months Ended March 31, 2012 and 2011

Total revenues were approximately \$929 thousand for the three months ended March 31, 2012 and \$823 thousand for the three months ended March 31, 2011. The increase in revenues during the three months ended March 31, 2012 compared to the three months ended March 31, 2011 is primarily attributable to an increase in our new ARCFlex™ products, partially offset by a decrease in broadband wireless sales.

Gross profit margins were 42% and 30% for the three months ended March 31, 2012 and 2011, respectively. The increase in gross margin is primarily due to product mix and our focus on cutting our operational costs although cost of goods sold for the quarter ended March 31, 2012 includes a benefit from the sale of inventory that had been fully reserved for in the amount of \$34 thousand resulting in a 4% increase in gross margin.

Selling, general and administrative expenses (SG&A) increased \$266 thousand to \$633 thousand for the quarter ended March 31, 2012 as compared to \$367 thousand for the quarter ended March 31, 2011. The increase in SG&A is primarily due to accounting and legal fees of \$159 thousand associated with the contemplated acquisitions of AFT and QMT (See Note 10) and \$37 thousand in costs associated with travel to China regarding product manufacturing. These types of costs were not incurred for the three months ended March 31, 2011. Because of the costs noted above, SG&A as a percent of total revenues increased from 45% for the three months ended March 31, 2011 to 68% for the three months ended March 31, 2012. Salaries and wages, remains the largest component of SG&A costs, constituting 21% and 29%, respectively, of the total SG&A costs for the three months ended March 31, 2012 and 2011. Salaries and wages increased approximately \$24 thousand comparing the three months ended March 31, 2012 to the three months ended March 31, 2011.

Other income (expense) was \$10 thousand for the three months ended March 31, 2011 and primarily consisted of interest income. Other income (expense) was \$(35) thousand for the three months ended March 31, 2012 primarily because of a write off of dies/molds of \$53 thousand as a result of our termination of services with RIL (see note 5 above). This loss on the assets write-off is offset by interest income of \$6 thousand and other income of \$7 thousand.

There is no provision for income taxes for both the three months ended March 31, 2012 and 2011 due to our net losses for both periods.

The Company had a net loss of \$278 thousand for the three months ended March 31, 2012 compared to a net loss of \$113 thousand for the three months ended March 31, 2011. The primary reasons for the increase in the net loss in 2012 is the increase in SG&A cost, as detailed above, the write-off of the dies/molds, offset by an increase in gross margin of \$146 thousand.

Financial Condition (in thousands of dollars)

	March 31, 2012	December 31, 2011
Current ratio (1)	8.1 to 1	17 to 1
Working capital (2)	\$10,969	\$11,286
Total debt	\$1,545	\$704
Total cash less debt	\$9,538	\$10,344
Stockholders equity	\$11,345	\$11,636
Total liabilities to equity	.136 to 1	.061 to 1

(1) *Current ratio is calculated as current assets divided by current liabilities.*

(2) *Working capital is the difference between current assets and current liabilities.*

We have a cash balance of \$11 million at March 31, 2012 and liabilities of \$1.5 million.. We believe that we have the ability to provide for our remaining 2012 operational needs through projected operating cash flow and cash on hand.

The net cash provided by operating activities was \$180 thousand for the three months ended March 31, 2012 compared to the net cash used by operating activities was \$296 thousand for the three months ended March 31, 2011. The primary reason for the change despite the net loss of \$278 thousand comparing the three months ended March 31,

2012 to the three months ended March 31, 2011 was that in 2012 we increased trade accounts payable and other accrued expenses by \$858 thousand by deferring payments to a later date.

The net cash used in investing activities from operations was \$128 thousand for the three months ended March 31, 2012 compared to \$33 thousand for the three months ended March 31, 2011, primarily the result of capital expenditures for equipment and patents.

The net cash used in financing activities was \$17 thousand as a result to payments on capital lease obligations.

Item 3: Quantitative and Qualitative Disclosures About Market Risk

Pursuant to permissive authority under Regulation S-K, Rule 305, we have omitted Quantitative and Qualitative Disclosures About Market Risk.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our filings with the Securities and Exchange Commission (SEC) are recorded, processed, summarized and reported within the time period specified in the SEC's rules and forms, and that such information is accumulated and communicated to management, including our chief executive and acting chief financial officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure based on the definition of "disclosure controls and procedures" as defined in Rule 13a-15(e) promulgated under the Securities Exchange Act of 1934, as amended (the "Exchange Act").

As of the end of the period covered by this report, and under the supervision and with the participation of our management, including our Chief Executive Officer and the person performing the similar function as Chief Financial Officer, we evaluated the effectiveness of the design and operation of these disclosure controls and procedures. Based on this evaluation and subject to the foregoing, our Chief Executive Officer and acting Chief Financial Officer concluded that our disclosure controls and procedures were effective.

Changes in Internal Control over Financial Reporting

There have been no significant changes in the Company's internal control over financial reporting identified in connection with the evaluation discussed above that occurred during the period ended March 31, 2012 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None

Item 6. Exhibits

EXHIBIT INDEX

<u>Exhibit Number</u>	<u>Description</u>
3.1	Amended and Restated Articles of Incorporation dated October 11, 2000 (1)
3.2	Bylaws of the Company as amended and restated on March 25, 1998 (2)
10.2	Stock Purchase Agreement, by and among Bluecoral limited, Winncom Technologies Corp. and the Company dated as of July 28, 2006 (3)
10.3	Escrow Agreement, dated July 28, 2006, by and among the Company, Bluecoral Limited and Consumer Title Services, LLC (3)
10.4	Employment Agreement effective January 31, 2008 between the Company and Randall P. Marx (4)
10.5	Employment Agreement effective November 1, 2007 between the Company and Monty R. Lamirato (5)
10.6	Employment Agreement effective November 1, 2007 between the Company and Steve C. Olson (5)
10.7	Employment Agreement effective November 1, 2007 between the Company and Richard L. Anderson (5)
10.8	Separation Agreement effective November 18, 2008 between the Company and Randall P. Marx (6)
10.9	Separation Agreement effective November 26, 2008 between the Company and Monty R. Lamirato (6)
10.10	Separation Agreement effective November 26, 2008 between the Company and Richard L. Anderson (6)
10.11	MEMBERSHIP INTEREST PURCHASE AGREEMENT by and among ARC WIRELESS SOLUTIONS, INC., QUADRANT MANAGEMENT, INC., QMP HOLDING CORP., QTS HOLDING CORPORATION, JOHN SCHOEMER, ARLAN CLAYTON, ROBERT MARTEN, QUADRANT METALS TECHNOLOGIES LLC, and CARRET P.T., LP dated April 6, 2012. (7)
10.12	PURCHASE AGREEMENT among PRECISION CASTPARTS CORP., AFT EUROPA KFT and ARC WIRELESS SOLUTIONS, INC. Dated as of April 6, 2012 (7)
10.13	Form of Unsecured Subordinated Convertible Promissory Note (7)
