COMPENSATION DISCUSSION AND ANALYSIS

Overview of Compensation Program

The Compensation Committee (for purposes of this analysis, the “Committee”) of the Board of Directors has responsibility for establishing, implementing and continually monitoring adherence with the Company’s compensation philosophy. The Committee ensures that the total compensation paid to the named executive officers is fair, reasonable and competitive. Generally, the types of compensation and benefits provided to the named executive officers are similar to those provided to other executive officers in publicly traded financial institutions.

On February 6, 2009, the Company became a participant in the U.S. Treasury’s Troubled Asset Relief Program (“TARP”) by participating in the Capital Purchase Program. On September 29, 2010, the Company refinanced the Company’s Capital Purchase Program funding into Community Development Capital Initiative funding. The Community Development Capital Initiative is also a TARP program. As a result of the Company’s participation in TARP, The First Bancshares, Inc. and certain of the Company’s employees are subject to compensation related limitations and restrictions for the period that we continue to participate in TARP (referred to herein as the “TARP Period”). The TARP compensation limitations and restrictions include the following:

Except in limited circumstances, the Company’s most highly compensated employee (as determined on an annual basis) is prohibited from receiving cash bonus payments during the TARP period. Mr. Cole was subject to this limitation during 2014.

Except in limited circumstances, the Company’s Named Executive Officers (NEOs) and the Company’s next five most highly compensated employees (each as determined on an annual basis) are prohibited from receiving any severance payments upon a termination of employment or any payments triggered by the occurrence of a change in control. The Company’s NEOs and next 20 most highly compensated employees are subject to a “clawback” of incentive compensation if that compensation is based on materially inaccurate financial statement or performance metrics. Further, no one in this group of employees may receive any tax gross-up payment during the TARP period. The Company is limited to an annual tax deduction of \$500,000 with respect to the compensation paid to each of the Company’s NEOs.

The TARP rules further required the Company to adopt an “Excessive or Luxury Expenditure Policy.” The Company’s Board of Directors has complied with this requirement and the policy is located on the Company’s website, www.thefirstbank.com on the Investor Relations page. It is the intent of the Company’s Board of Directors that the policy remain in full force and effect for the duration of the TARP period. The policy covers, in particular, entertainment or events, office and facility renovations, aviation or other transportation services and other similar items, activities or events for which the Company may reasonably anticipate such expenditures that are not reasonable expenditures for staff development, reasonable performance incentives, or other similar reasonable measures conducted in the normal course of the Company’s business operations. All of the Company’s employees are required to comply with the policy. The Company’s Chief Executive Officer and Chief Financial Officer are primarily accountable

for ensuring adherence to the policy and for certifying that prior approval for any expenditure requiring such prior approval was properly obtained.

In addition to the foregoing limitations and restrictions, the TARP rules and regulations require the Committee to undertake a semi-annual risk assessment with respect to certain of the compensation plans, programs and arrangements maintained by the Company, regardless of whether the individual employee(s) covered by the plan, program or arrangement is a NEO. The risk assessments are intended to reduce the chance that any employee will be incentivized to take unacceptable risks in order to maximize his or her compensation under such plans, programs and arrangements.

As the TARP final rules were implemented in 2009, the Committee regularly discussed its compliance obligations with respect to the Company's executive compensation programs at each committee meeting. The Committee has depended upon guidance from the Company's legal counsel to fully interpret the extent of the application of each of these requirements in the Company's executive compensation programs.

On a related note, in June 2010 federal banking regulators issued final interagency guidance that set forth a framework for assessing the soundness of incentive compensation plans, programs and arrangements maintained by financial institutions. The guidance focuses on balanced risk-taking incentives, compatibility with effective controls and risk management, and strong corporate governance.

The Compensation Committee believes that an awareness and assessment of the impact of risk has always been, and will continue to be, a component of its analysis of executive compensation. As such, the Committee recognizes the role of risk assessment in the overall processes and procedures for establishing such executive compensation. In this regard, the Committee believes that the TARP semi-annual risk assessment and the Federal Reserve's rules will serve as a framework for reconfirming the appropriateness of the process and procedure the Committee has previously followed in reaching its decisions with respect to compensation related matters.

Throughout this proxy statement, the individuals who served as the Company's Chief Executive Officer and Chief Financial Officer during fiscal 2014 as well as the other individuals included in the Summary Compensation Table on page 16 are referred to as the "named executive officers" or "NEO"s.

Compensation Philosophy and Objectives

The Committee believes that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals by the Company, and which aligns the interests of the executive officers with the Company's overall business strategy, values and management initiatives. The Company's compensation policies are intended to reward executives for strategic management and the enhancement of shareholder value and support a performance-oriented environment that rewards achievement of internal goals. The Company has also adopted a Compensation Philosophy that provides guidance to the Committee when making decisions surrounding the compensation of the NEOs. Our philosophy generally targets near the market (peer) median for NEO base salaries with a strong emphasis on incentive compensation programs that provide an alignment between pay and performance.

The Committee evaluates both performance and compensation to ensure that the Company maintains its ability to attract and retain superior employees in key positions and that compensation provided to key employees remains competitive relative to the compensation paid to similarly situated executives of peer companies. To that end, the Committee believes in rewarding the NEOs with reasonable incentive compensation awards if Company performance meets budget and is comparable to peer group data. This is a critical piece in the compensation plan design at the Company and is realized through the ability of the NEOs to annually earn both short-term (cash) and long-term (stock-based) incentive payouts when performance justifies such awards.

Role of Executive Officers in Compensation Decisions

The Committee makes all compensation decisions for the named executive officers and approves recommendations regarding equity awards to all named executive officers of the Company. Decisions regarding the non-equity compensation of other executive officers are made by the Committee and the Chief Executive Officer.

The Committee and the Chief Executive Officer annually review the performance of each member of the named executive officers (other than the Chief Executive Officer whose performance is reviewed by the Committee). The conclusions reached and recommendations based on these reviews, including with respect to salary adjustments and annual award amounts, are presented to the Committee. The Committee can exercise its discretion in modifying any recommended adjustments or awards to executives.

Setting Executive Compensation

At our annual meeting of shareholders held in 2014 and as required by the “say-on-pay” rules of the Securities and Exchange Commission, we sought the approval, on an advisory basis, of our shareholders, concerning our executive compensation program as described in the proxy statement for that meeting. A vast majority (approximately 79%) of our shareholders whose shares were present at the 2014 annual meeting and who voted (or affirmatively abstained from voting (excluding broker non-votes)) on the say-on-pay proposal voted to approve such compensation. As a result, the Compensation Committee did not implement any specific changes to our executive compensation programs as a result of the 2014 shareholder advisory vote. The Compensation Committee intends to monitor the results of this year’s “say-on-pay” proposal vote and to incorporate such results as one of many factors considered in connection with the discharge of its responsibilities, although no such factor will likely be assigned a quantitative weighting.

Based on the foregoing objectives, the Committee has structured the Company’s annual and long-term incentive-based cash and non-cash executive compensation to motivate executives to achieve the business goals set by the Company and reward the executives for achieving such goals. To that end, the Committee has retained Blanchard Consulting Group, an independent third party consultant, to provide research for benchmarking purposes related to executive compensation. Additionally, the Company subscribes to and participates in the Mississippi Bankers Association survey, which provides the Committee with comparative compensation data from the Company’s market areas and its peer groups. This information is used by the committee to ensure that it is providing compensation opportunities comparable to its peer group, thereby allowing the Company to retain talented executive officers who contribute to the Company’s overall and long-term success.

The services provided by the independent third-party consultant , Blanchard Consulting Group, were used as the basis of comparison of compensation between the Company and the companies in the Compensation Peer Group. Blanchard Consulting Group had no conflicts of interests.

In 2013 the Committee engaged Blanchard Consulting Group to conduct an executive total compensation review. This review focused on salary, cash compensation (salary plus bonus and/or annual cash incentive), direct compensation (cash compensation plus long-term incentives), and total compensation (direct compensation plus retirement benefits and any other compensation) for the NEOs. Results from this 2013 study were reviewed by the Committee in considering salary adjustments and executive total compensation targets for 2013 and 2014. In late 2014, the Committee again utilized Blanchard Consulting Group to assess CEO base salary as compared to a peer group of eight publicly traded banks. The peer companies include the following:

- 1 MSL MidSouth Bancorp Inc.
- 2 FFKT Farmers Capital Bank Corp.
- 3 WBHC Wilson Bank Holding Company
- 4 FGBI First Guaranty Bancshares Inc.

5HBOS Heritage Financial Group Inc.
6CBAN Colony Bankcorp Inc.
7FFMH First Farmers and Merchants Corporation
8CHFV Charter Financial Corporation

Independent Compensation Consultant

Blanchard Consulting Group is a national firm with an exclusive focus on the banking and financial services industry. Blanchard Consulting Group does not provide any services to the Company besides compensation consulting services. Blanchard Consulting Group reports directly to the Compensation Committee. The Compensation Committee and executive management utilized Blanchard Consulting Group's reports and reviews to assist with decisions during 2014 but did not solely rely on them. The ultimate decisions made by the Committee and management were a balance between internal views and strategy along with the outside perspective of our independent consultant.

Compensation Policies and Practices as They Relate to Risk Management

As participants in TARP, the Company is subject to the executive compensation requirements of the Emergency Economic Stabilization Act of 2008 (“EESA”) and as amended by the American Recovery and Reinvestment Act of 2009 (“ARRA”). In compliance therewith the Committee of the Board of Directors of the Company meets at least semi-annually to discuss and evaluate employee compensation plans in light of its assessment of risk posed to the Company from such plans and to ensure compliance with executive compensation rules and regulations implemented under EESA and ARRA. The Committee met twice in 2014 to review the Company’s compensation plans and determined that the Company had no compensation plans that would encourage manipulation of reported earnings to enhance compensation or encourage unnecessary or excessive risk-taking. The compensation plans at the Bank also use a proper balance of profitability and strategic goals (such as core deposit growth, asset quality, and audit/compliance) to ensure the officers of the Bank are focusing both on profits and strategic goals that are linked to the long-term viability of the organization. The Committee has determined that there are no compensation policies or procedures that are likely to have a material adverse effect on the Company.

In addition, the Committee has incorporated restricted stock into the compensation package for the top executive officers to tie a portion of their total compensation package to the long-term performance of the Bank. The Committee utilizes a vesting provision with these equity grants to help retain key officers and allow these amounts to be eligible for any clawback policies implemented by the Board.

2014 Executive Compensation Components

Historically, and for the fiscal year ended December 31, 2014, the principal components of compensation for named executive officers were:

- base salary;
- performance-based cash incentive bonus compensation;
- equity incentive compensation;
- retirement and other benefits; and
- perquisites and other personal benefits.

Base Salary

The Company provides named executive officers and other employees with base salary to compensate them for services rendered during the fiscal year. When determining salary increases, the Committee uses a Compensation Philosophy that targets the median (50th percentile) of the competitive market for executives that are meeting performance expectations and the upper quartile of market (or the base salary range) for executives that are high performers or exceeding performance expectations. Base salary ranges for named executive officers are determined for each executive using market research and based on his or her position and responsibility.

During its review of base salaries for executives, the Committee primarily considers: 1) performance of the Company; 2) market data provided by the Company's outside consultants; 3) internal review of the executive's compensation, both individually and relative to other officers; and 4) individual performance of the executive. Salary levels are typically considered annually as part of the Company's performance review process as well as upon a promotion or other change in job responsibility. Merit based increases to salaries of the named executive officers are based on the Committee's assessment of the individual's performance. The Committee recommended to the Board that the CEO's and each named executive officer's 2014 salary be disclosed in the Summary Compensation Table (shown later in this document), and the Board accepted this recommendation. The base salary adjustments for each named executive officer for 2014 (as compared to their base salaries in 2013) ranged from approximately 2.5% up to 10% of salary.

Performance-Based Cash Incentive Bonus Compensation

The Company has established an incentive bonus compensation plan that is based upon individual performance as well as team and corporate performance. All named executive officers, except for the Chief Executive Officer, as he did not have a cash incentive plan for 2014, in the Company have unique performance goals in up to seven (7) categories. The incentive plan provides each eligible officer with a "balanced scorecard" for their short-term cash incentive award. The "balanced scorecard" establishes specific corporate and shareholder-related performance goals balanced by the officer's area of responsibility, his or her business unit, and his or her expected individual level of contribution to the Company's achievement of its corporate goals. Cash incentive payments that are authorized to be paid to eligible officers under the Executive Incentive Plan are payable on an annual basis during the year following the year in which the services were performed and are contingent only upon such executive officer's continued employment with the Company through the date of payment

During the first quarter of 2014, the Board (by the vote of the members of the Board who are not "interested directors" within the meaning of NASDAQ's independence rules, and at the recommendation of the Committee) established short-term cash incentive awards for executive officers as percentages of their 2014 base salary (with maximum earning opportunities that ranged from 10% to 30% of base salary, depending upon the executive). The individual measures utilized in the plan design include a balance of profitability and strategic bank goals that relate primarily to sales, service quality, regulatory compliance, timeliness, and financial goals. The particular measures on an individual's performance depend on the actions that are determined to be most important for that individual to achieve for the current year. The estimated bonus payouts are accrued throughout the year. Cash bonuses may be granted to executives at each year end depending on the achievement of performance targets that include growth, profitability, and quality control measures. The Company's Chief Executive Officer did not have a cash incentive plan during 2014. Performance goals for the NEOs included in the cash-based incentive plan for 2014 include Bank net income, loan growth, deposit growth, credit quality, audit results, compliance results, branch income, and individual performance. The Bank exceeded profitability goals and met or exceeded a majority of the department and individual goals in 2014; therefore the cash-based annual incentive payouts for the NEOs were near the maximum payout levels for most officers.

For the year ended December 31, 2014, the following cash bonuses were awarded:

M. Ray (Hoppy) Cole, Jr.	\$0.00
Dee Dee Lowery	22,552.88
Ray L. Wesson, Jr. (1)	13,139.70
Hayden Mitchell (1)	15,670.97
David A. Bush (1)	42,330.42

(1) Ray L. Wesson, Jr., Hayden Mitchell and David A. Bush are executive officers of the bank and not the holding company.

Equity Incentive Compensation

2007 Stock Incentive Plan

In 2007, the Company adopted The First Bancshares, Inc. 2007 Stock Incentive Plan (the “2007 Plan”). The 2007 Plan provides for the issuance of up to 315,000 shares of Company Common Stock, \$1.00 par value per share. Shares issued under the 2007 Plan may consist in whole or in part of authorized but unissued shares or treasury shares.

Awards of Company Common Stock under the 2007 Plan may take the form of a stock option, including an incentive stock option (a stock option which meets the applicable requirements of the Internal Revenue Code), stock appreciation rights (an award entitling a holder to receive an amount in cash, Company Common Stock, or a combination of both determined by reference to the excess of the fair market value of a specified number of shares of Company Common Stock over a specified price which shall not be less than the fair market value of such shares as of the date of the grant), restricted stock awards (a transfer of shares subject to certain restrictions on transfer or other incidents of ownership or subject to specified performance standards), dividend equivalent rights (an award entitling a holder to receive an amount in cash, Company Common Stock, or a combination of both determined by reference to the cash dividends paid on a specified number of shares of Company Common Stock from the date of grant), performance unit awards, restricted stock units or other stock-based awards (including without limitation, awards entitling recipients to receive shares of Company Common Stock to be delivered in the future) (collectively referred to as "Awards").

During the first quarter of 2014, the Board (by the vote of the members of the Board who are not "interested directors" within the meaning of NASDAQ's independence rules, and at the recommendation of the Committee) established long-term equity incentive awards for executive officers using shares of restricted stock (with maximum earning opportunities that ranged from up to 8,814 shares for the CEO and up to 4,000 shares for the other NEOs). The Committee utilized restricted stock to help preserve shares in the 2007 Plan as compared to using stock options and to have a stronger immediate retention vehicle for key officers. Similar to the cash-based annual incentive plan, a pay-for-performance approach is used to determine the amount of equity awards granted to each plan participant. The performance goals utilized in the long-term plan design are linked to both corporate and shareholder performance criteria and include bank net income, asset growth and credit quality. For each of these criteria, the maximum performance level was achieved in 2014; therefore, based upon the recommendation from the Committee, the Board approved the maximum amount of shares to be granted to each officer.

During 2014, the Board, upon recommendation from the Committee, granted 3,400 shares of restricted stock to the NEO's for services performed during the acquisition of BCB Holding Co., Inc.

For the year ended December 31, 2014, the following restricted stock grants were awarded:

	Granted for 2014	Granted for Acquisition
M. Ray (Hoppy) Cole, Jr.	8,814	2,000
Dee Dee Lowery	4,000	800
Ray L. Wesson, Jr. (1)	4,000	-
Hayden Mitchell (1)	4,000	600
David A. Bush (1)	4,000	-

As of December 31, 2014, there were a total of 211,278 restricted stock awards which have been granted under the 2007 Plan and no other type awards have been granted under the 2007 Plan.

Vesting and Retention Provisions Applicable to Equity Awards

The Company has implemented a policy that all shares granted through the 2007 Plan will include at least a three year vesting provision, unless extraordinary circumstances are determined by the Board. The Equity Awards earned in 2014 (consisting of the Restricted Stock Awards) will vest and be paid, assuming the continued service of each of the holders through such vesting date, as follows: Awards will vest five years from date of grant. Vesting of such Equity Awards will be accelerated in the event of the holder's death or disability while in the service of the Company or upon such other event as determined by the Committee in its sole discretion. The Company has also implemented a double trigger change-in-control provision in the 2007 Plan where unvested shares of stock granted through the plan will be accelerated upon a change in control if the executive is terminated without cause as a result of the transaction (as long as the shares granted remain part of the company or are transferred into the shares of the new company). Unvested shares issued as Restricted Stock Awards must be retained by the executive officer subject to the clawback and forfeiture provisions applicable to such shares, and therefore may not be sold, pledged or otherwise transferred or hedged during the vesting periods.

In addition, the committee has established expectations for ownership of our common stock by our CEO and Corporate Officers. Under these guidelines, our CEO is expected to attain an investment position in our common shares equal to two times his or her base salary and our Corporate Officers are expected to attain an investment position in our common shares equal to one times his or her base salary. Exceptions to these ownership guidelines may be approved by Compensation Committee for good reason.

Clawback, Repricing, Underwater Grant Buyback and Hedging Policies

As a matter of policy, we expect incentive awards of executive compensation that are made on the basis of financial metrics to be structured with “clawback” provisions that would allow the Company to recoup awards under certain circumstances such as a material misstatement of financial performance. The Committee plans to include “clawback” provisions in all short-term and long-term incentives utilized in 2015.

We also have a philosophy that we will not reprice options, stock appreciation rights, or other equity awards, the value of which derives from the value of our common shares, on account of declines in our stock price, or buy back “underwater” stock options from those who hold option grants for cash. The Company’s Board has approved an amendment to the 2007 Plan to prohibit repricing of equity awards granted under the plan and to prohibit the cash buyback or exchange for other stock awards of underwater options and stock appreciation rights.

Certain transactions in the Company’s equity securities, or which are linked to the value of the Company’s equity securities, may be considered “short term” or “speculative” in nature. These transactions may create the appearance that they were based on non-public information or that the incentives of the employees are no longer aligned with, and may in fact be opposed to, the interests of the Company and its shareholders. As a result, the Board of Directors has implemented a policy that prohibits Directors and Corporate Officers from undertaking these types of transactions, including hedging, holding stock in a margin account, or pledging stock as collateral for a loan.

Retirement and Other Benefits

All employees of the Company, including named executive officers, are eligible to participate in the The First Bancshares, Inc. 401K Plan and Trust. We adopted the 401(k) plan to enable employees to save for retirement through a tax-advantaged combination of employee and Company contributions and to provide employees the opportunity to directly manage their retirement plan assets through a variety of investment options. The 401(k) plan allows eligible employees to elect to contribute up to 100% of their eligible compensation, up to the annual IRS dollar limit. Eligible compensation generally means all wages, salaries and fees for services paid by us. We contribute 50% of employee’s deferral (up to a maximum of 6%) for each eligible employee per year to their 401(k) plan. We may also elect to make a discretionary profit sharing contribution for each eligible employee. In 2014, our employer contribution was

\$255,716.14, which was the employer matching contribution.

The Company sponsors an Employee Stock Ownership Plan (ESOP), which was established in 2006 for employees who have completed one year of service for the Company and attained age 21. Employees become fully vested after five years of service. Contributions to the plan are at the discretion of the Board of Directors. At December 31, 2014, the ESOP held 5,969 shares of Company common stock and had no debt obligation. In 2014 our contribution to the ESOP was \$7,600.00.

Supplemental Executive Retirement Plans.

Mr. Cole and Ms. Lowery participate in a Supplemental Executive Retirement Plan (SERP) with the Company that provides for a supplemental retirement benefit in the fixed amount of \$98,039 for Mr. Cole and \$53,252 for Ms. Lowery per year for fifteen years. Mr. Cole and Ms. Lowery are both 10% vested in the benefit and amounts become payable upon their death, disability, termination of employment, or retirement. The arrangement constitutes a non-qualified deferred compensation plan. The benefit is forfeited in the event of termination for "Cause" as described in the agreement. Except in cases of death or disability, the benefit will commence on the first day of the month following their 65th birthday. This plan is in technical compliance with requirements of section 409A of the Internal Revenue Code of 1986.

Perquisites and Other Personal Benefits

The Company provides named executive officers with perquisites and other personal benefits that the Company and the Committee believe are reasonable and consistent with its overall compensation program to better enable the Company to attract and retain superior employees for key positions. The Committee periodically reviews the levels of perquisites and other personal benefits provided to named executive officers.

The named executive officers participate in the Company's broad-based employee benefit plans, such as medical, dental, supplemental disability and term life insurance programs. Some of the named executive officers are provided use of company automobiles. The vehicles are provided primarily for their business travel. Personal use is taxed through the Company's payroll process. Certain named executive officer and other members of senior management are entitled to receive a cash payment upon such executive's death through the split dollar death benefit funded by bank owned life insurance.

Attributed costs of the personal benefits described above for the named executive officers for the fiscal year ended December 31, 2014, are included in the "Summary Compensation Table" on page 17.

The Company has entered into a change of control agreement as part of the Employment Agreement with its President and CEO, and the Company has agreed to take certain actions upon a change of control with respect to other key employees. The change of control provisions are designed to promote stability and continuity of senior management. Information regarding applicable payments under such agreements for the named executive officers is provided under the heading "Potential Payments Upon Termination or Change in Control" on pages 22 - 24.

Deductibility of Executive Compensation

As part of its role, the Committee reviews and considers the deductibility of executive compensation under Section 162(m)(5) of the Internal Revenue Code, which provides that the Company may not deduct compensation of more than \$500,000 that is paid to certain individuals. The Company believes that compensation paid under the incentive plans are generally fully deductible for federal income tax purposes.

Board of Directors and Compensation Committee Discretion; Adjustments

Additional performance bonuses, restricted stock, and other stock-based awards may be made within the discretion of the Compensation Committee and the Board of Directors. The Compensation Committee also may consider other factors, and may change the basis of assessing our performance in the future, based upon our annual or longer-term goals.

Compensation Committee Interlocks and Insider Participation

No member of the Compensation/Human Resources Committee was an officer or employee of the Company or any of its subsidiaries during 2014, nor has any member of the Committee ever been an officer or employee of the Company or any of its subsidiaries. No current member of the Committee or executive officer of the Company had a relationship during 2014 requiring disclosure in this proxy statement under Item 404 or Item 407(e)(4) of SEC Regulation S-K.

COMPENSATION COMMITTEE REPORT

The Compensation Committee certifies that it has reviewed with senior risk officers the Senior Executive Officer (“SEO”) incentive compensation arrangements and has made reasonable efforts to ensure that such arrangements do not encourage SEOs to take unnecessary and excessive risks that threaten the value of the financial institution.

The Compensation Committee of the Company has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K with management and, based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in this Proxy Statement.

CORPORATE GOVERNANCE

Corporate Governance Guidelines. The Board of Directors' Nominating Committee has enacted guidelines to determine director independence and qualifications for directors. The Nominating Committee Charter is published at the Corporation's website under the "*Corporate Governance*" at www.thefirstbank.com. The Board of Directors regularly reviews corporate governance developments and considers modifications to its governance charter to clarify and augment the Board of Directors's processes, including those relating to risk oversight.

The Board's Role in Risk Oversight. The Company believes that each member of the Company's Board of Directors in his or her fiduciary capacity has a responsibility to monitor and manage risks faced by the Company. At a minimum, this requires the members of the Company's Board of Directors to be actively engaged in board discussions, review materials provided to them, and know when it is appropriate to request further information from management and/or engage the assistance of outside advisors. Furthermore, because the banking industry is highly regulated, certain risks to the Company are monitored by the Board of Directors, and the Audit Committee and Risk Committee through the review of the Company's compliance with regulations set forth by its regulatory authorities and recommendations contained in regulatory examinations.

The Board of Directors has a Risk Committee which is responsible for risk oversight of the Company and regularly reports to the Board of Directors on its findings. This committee monitors compliance with regulations and policies. The other committees concentrate on specific risks for which they have an expertise, and each committee is required to regularly report to the Board of Directors on its findings. For example, the audit committee regularly monitors the Company's exposure to certain reputational risks by establishing and evaluating the effectiveness of company programs to report and monitor fraud and by monitoring the Company's internal controls over financial reporting. The compensation committee's role in monitoring the risks related to the Company's compensation structure is discussed in further detail below.

Director Independence. The First Bancshares, Inc. currently has nine independent directors out of ten. The independent directors are David W. Bomboy, E. Ricky Gibson, Charles R. Lightsey, Fred A. McMurry, Gregory H. Mitchell, Ted E. Parker, J. Douglas Seidenburg, A. L. Smith and Andrew D. Stetelman. The Board of Directors has satisfied, and expects to continue to satisfy, its objective that at least a majority of the Board of Directors should consist of independent directors. For a director to be considered independent, the Board of Directors must determine that the director does not have any direct or indirect material relationship with the Company. The Board of Directors has established guidelines to assist it in determining director independence which conform to the independence requirements of the NASDAQ Stock Exchange listing standards. In addition to applying these guidelines, the Board of Directors will consider all relevant facts and circumstances in making an independence determination. Mr. Smith is not seeking reelection and the Board does not have a recommendation for his replacement.

In the course of the Board of Director's determination regarding independence, it considers any transactions, relationships and arrangements as required by the Company's independence guidelines.

All members of the Audit Committee, Compensation Committee, and Nominating Committee must be independent directors as defined by NASDAQ. Members of the Audit Committee also must satisfy a separate Securities and Exchange Commission ("SEC") independence requirement, which provides that they may not accept directly or indirectly any consulting, advisory or other compensatory fee from the Company or its subsidiaries other than their directors' compensation.

Director Candidates, Qualifications and Diversity. In considering whether to recommend any candidate for inclusion in the Board of Director's slate of recommended director nominees, including candidates recommended by stockholders, the Nominating Committee will consider a number of criteria, including, without limitation, financial, regulatory and business experience; familiarity with and participation in the local community; integrity, honesty and reputation; dedication to the Company and its stockholders; independence and any other factors the Nominating Committee deems relevant, including age, diversity, size of the Board of Directors and regulatory disclosure obligations. Although the Nominating Committee has no official policy regarding diversity, the committee seeks well-qualified nominees, and believes its Board of Directors represents a wide variety of backgrounds.

Board Leadership Structure. The Board of Directors of the Company is made up of ten individuals, one of whom is an insider as an executive of the Company. The nine outside directors have a wide variety of business experience and bring that experience to bear in fulfilling their duties as directors of the Company. The Chairman and Chief Executive Officer positions are held separately. The Board of Directors has not named a lead independent director. All independent directors have an equal voice in the business of the Company.

The Board of Directors has a Risk Committee whose primary responsibility is oversight of the Company's risk management processes, including reviewing policies and procedures to identify any significant risks or exposures and determining the steps to take to monitor and minimize those risks. The Audit Committee is responsible for oversight of financial reporting risks, while the Compensation Committee is responsible for oversight of compensation-related risks.

Standards of Conduct. All directors, officers and employees of The First Bancshares, Inc. must act ethically at all times and in accordance with the policies comprising the Code of Ethics for Financial Officers, a copy of which can be found at the Company's internet website, www.thefirstbank.com.

Communicating Concerns to Directors. The Audit Committee and the non-management directors have established procedures to enable any employee who has a concern about The First Bancshares' conduct, policies, accounting, internal accounting controls or auditing matters, to communicate that concern directly to the Board of Directors through written notification directed to the Chairman of the Audit Committee, Doug Seidenburg, at P. O. Box 1197, Laurel, MS 39441, or by email to DougS@sburgcpa.com. Such communications may be confidential or anonymous. The Company's Whistleblower Policy is available on the Company's website, www.thefirstbank.com. The status of any outstanding concern, if any, is reported to the non-management directors of the Board of Directors periodically by the Chairman of the Audit Committee.

Stockholder Communications. Stockholders may communicate with all or any member of the Board of Directors by addressing correspondence to the "Board of Directors" or to the individual director and addressing such communication to Chandra B. Kidd, Secretary, The First Bancshares, Inc., P. O. Box 15549, Hattiesburg, Mississippi, 39404. All communications so addressed will be forwarded to the Chairman of the Board of Directors (in case of correspondence addressed to the "Board of Directors") or to the individual director without exception.

PROPOSAL 2 - APPROVAL OF AN AMENDMENT TO THE 2007 STOCK INCENTIVE PLAN

At the Meeting, our shareholders will be asked to approve an amendment to The First Bancshares, Inc. 2007 Stock Incentive Plan (the “2007 Plan”) to increase the number of shares reserved for issuance by 300,000 shares of the Company’s common stock.

We believe that the 2007 Plan is a vital element of our employee compensation program. It allows us the opportunity and ability to compensate our officers, employees and non-employee directors in a manner which offers them an opportunity to participate in our future performance while encouraging stock ownership and providing an incentive to build long-term stockholder value. In our competitive market, grants under the 2007 Plan are essential in helping us retain and motivate our most valuable employees. In March, 2015, at the recommendation of our Compensation Committee, the Board approved the increase in the available share reserve under the 2007 Plan, subject to approval by our shareholders. The Board and management, therefore, recommend that the shareholders approve this amendment to our 2007 Plan. If our shareholders do not approve this amendment, the 2007 Plan will remain in effect with its current terms and conditions and the number of shares reserved for issuance will not increase.

2007 Plan Share Reserve

As of April 1, 2015, an aggregate of 67,243 shares of our common stock remain available for future grants under our 2007 Plan, following the 2015 annual grants and adjustment for shares attributable to awards that have been forfeited or otherwise expired without being exercised and shares tendered to date to cover tax withholding obligations. We believe this is insufficient to meet the future incentive needs of the Company.

Historically, under the 2007 Plan, awards have been limited to key employees and officers and non-employee directors and all awards have been in the form of restricted stock. In administering the 2007 Plan, we strive to balance the incentive awards to our employees and directors with the interests of our shareholders and limit the potential dilution to our shareholders from the equity compensation programs. In evaluating the impact of equity compensation on our shareholders, we consider both our “burn rate” and our “overhang”. Our burn rate is equal to the number of equity awards granted during the year, divided by the weighted average of our common shares outstanding during the year, and measures the potential dilutive effect of our equity grants. The overhang is the sum of the equity awards granted but unexercised (typically options), plus the amount of equity available for grants, divided by the total shares of common stock outstanding, which measures the potential dilutive effect of outstanding equity awards, plus shares available for grant.

We aim to maintain a burn rate and overhang within that of our peer group and the banking industry in general and that is also within limits recommended by certain independent stockholder advisory groups. The Committee’s

consultant, Blanchard Consulting Group, has calculated both our burn rate and our overhang. Our burn rate for 2014, is 2.66, and the three-year average burn rate for 2012-2014 is 2.65%. Our current overhang is 6.12%, well within the banking industry range of 4% to 12% and with that of our peer companies. With the addition of the proposed additional 300,000 of reserve shares, the projected overhang will remain within the banking industry's top range of 12%.

Accordingly, the Company believes that the request for the additional 300,000 shares is reasonable and necessary to allow us to replenish the shares from previous fiscal years and to continue the current granting practices into the future so as to be able to remain competitive in the market and provide valuable incentives to our executives and directors.

Other Amendments

In addition to the proposed amendment to increase the number of shares reserved for issuance under the 2007 Plan, the Board of Directors has also approved the amendment of the 2007 Plan to: (1) prohibit the repricing and/or the exchange of stock options or stock appreciation rights for other stock incentives or cash (2) limit the number of shares which are canceled, forfeited or otherwise expire and those tendered in payment of option prices and/or tax withholdings that may be reissued under the Plan to fifty percent (50%) of the increase in the reserved shares under the plan and (3) clarify the definition of change in control. Although these additional changes to the 2007 Plan do not require shareholder approval, they are related, in part, to the increase in the reserved shares and are reflected in the same amendment; and, therefore, have been briefly explained herein. Each of these additional amendment provisions are in accordance with the current policies and practices of the Company. The clarification of the definition of the change in control does not constitute an actual change to the 2007 Plan, but rather is a clarification expanding the language of the 2007 Plan to set forth the provisions of the Internal Revenue Code and Treasury Regulations that were previously only incorporated by reference. The provisions of the amendment which prohibit the repricing and/or exchange of stock options and stock appreciation rights has been the operating policy of the Company which is now being clarified and made an express provision of the 2007 Plan. This provision, together with the provision limiting the recycling of forfeited, canceled or otherwise expired shares and shares tendered to the Company in payment of an exercise price or to settle tax withholding obligations to fifty percent (50%) of the increase in the reserved shares under the plan are designed to limit the effect of the operations of the 2007 Plan on shareholder dilution and are in accordance with industry practices. Other than these amendments, and the proposed amendment for the increase in the reserved shares, there have been no changes in the 2007 Plan since its initial adoption.

Description of the 2007 Plan

The following paragraphs provide a brief summary of the principal features of the 2007 Plan. See also the description in the Compensation Discussion and Analysis section of this Proxy under the heading for 2014 Executive Compensation Components.

Shares Subject to 2007 Plan

The 2007 Plan provides for the issuance of up to 315,000 shares of Company Common Stock, \$1.00 par value per share. Shares issued under the 2007 Plan may consist in whole or in part of authorized but unissued shares or treasury shares. We are proposing an increase in the available share reserves under the 2007 Plan by 300,000 shares of our common stock, pursuant to which the 2007 Plan will then provide for a total issuance of up to 615,000 shares of Company Common Stock.

Purpose

The purpose of the plan is to provide incentives to officers, employees, directors and other service providers; encourage stock ownership; and provide a means of obtaining, rewarding and retaining such officers, employees, directors and other service providers.

Administration of the Plan

The 2007 Plan is administered by the Compensation Committee of the Company's Board of Directors (the Committee for purposes of this Proposal No. 2). The Committee is composed solely of "non-employee directors" within the meaning of Rule 16b-3 under the Exchange Act, "outside directors" within the meaning of Code Section 162(m), and directors who meet the independence requirements of the NASDAQ Stock Market listing standards.

The Committee has the power, in its discretion, to grant stock incentives under the plan, to select the individuals to whom stock incentives are granted, to determine the number of shares of common stock subject to each stock incentive and the terms of the grants, to interpret the provisions of the plan and to otherwise administer the plan. The Committee may delegate all or any of its responsibilities and powers under the 2007 Plan to individual officers of the Company or a subsidiary, except its authority or responsibility with regard to awards to persons subject to Section 16 of the Exchange Act.

Eligibility

Participation in the 2007 Plan is limited to employees, officers, directors, and other service providers of the Company or an Affiliate of the Company who are selected by the Board of Directors or authorized Committee thereof to receive an Award under the 2007 Plan; provided however, only employees of the Company or of any of its subsidiaries may receive a grant of an incentive stock option.

Awards Under the 2007 Plan

Awards of Company Common Stock under the 2007 Plan may take the form of a stock option, including an incentive stock option, stock appreciate rights, restricted stock awards, dividend equivalent rights, performance unit awards, restricted stock units or other stock-based awards (including without limitation, awards entitling recipients to receive shares of Company common stock to be delivered in the future).

Stock Options

Options granted under the 2007 Plan may be incentive stock options or nonstatutory stock options. The exercise price of the option must be at least 100% (110% in the case of incentive stock options granted to employees who are deemed to own 10% or more of the voting power of the Company or its subsidiaries) of the fair market value of the shares to which the option is subject at the time the option is granted. Each option shall be exercisable at the times and on the terms and conditions as the Board may specify in the option agreement with respect to such option between the Company and the participant, provided that no option will be granted for a term in excess of 10 years (5 years in the case of incentive stock options granted to employees who are deemed to own 10% or more of the voting power of the Company or its subsidiaries). The value of shares of Company common stock that can be exercised for the first time by a participant in any one year under an incentive stock option cannot exceed \$100,000, based on the fair market value of the stock at the date of grant of the incentive stock option.

Stock Appreciation Rights

A SAR provides the participant a right to an amount equal to all or a specified portion of the fair market value of a number of shares of common stock of the Company on the exercise date over a specified or determinable price that may not be less than the fair market value of such shares on the date of grant. SARs may be granted to participants either in tandem with or as a component of a previously or contemporaneously granted option under the 2007 Plan or not in conjunction with other awards. Other than in connection with a change in the Company's capitalization, the Company will not, without shareholder approval, amend or modify the exercise price of a SAR and shall not exchange a SAR for cash, another stock incentive or a new SAR with a lower (or no) exercise price.

Restricted Stock Awards and Restricted Stock Units

A restricted stock award is an award or issuance of shares of common stock, the grant, issuance, retention, vesting and/or transferability of which is subject, during specified periods of time, to conditions (including continued

employment and/or performance goals) and terms as the Committee determines. Restricted Stock units are awards that entitle the participant to an amount equal to all or a portion of the fair market value of a specified number of shares of common stock, subject to conditions (including continued employment over a specified period of time and/or performance goals) and terms as the Committee determines. Restricted stock units may be settled in cash or in shares of common stock as determined by the Committee. Participants holding restricted stock awards granted under the 2007 Plan shall have such voting and divided rights with respect to those shares during the restricted period as determined by the Committee. Participants will have no voting rights with respect to shares of common stock underlying restricted stock units unless and until such shares are issued to the participant and reflected as outstanding in the Company's stock records.

Dividend Equivalent Rights

A dividend equivalent right entitles the participant to an amount equal to the cash dividends paid on a specified number of shares of common stock over a specified period. A grant of dividend equivalent rights shall be subject to such restrictions and conditions, including attainment of such performance goals, as the Committee shall determine. Dividend equivalent rights may be settled in cash or in shares of common stock valued at the fair market value thereof on the date payment is due under the award.

Performance Units

Performance units provide the participant an opportunity to receive shares of common stock (or cash in an amount equal to the value thereof) upon the attainment of stated performance goals and/or satisfaction of other terms and conditions during a performance period as determined by the Committee. The performance period and performance goals applicable to each such award will be determined by the Committee at the time of grant. Such awards may set forth a minimum or threshold level of achievement of the performance goal below which no shares of common stock will be earned and a formula for determining the number of shares earned at various levels of achievement of such performance goals. Participants receiving performance units will only have the rights of a shareholder with respect to shares of common stock, if any, actually received by the participant upon satisfaction or achievement of the terms and conditions of such award.

Change in Control

Under the 2007 Plan, in the event of a change in control, the Committee may provide for the acceleration of vesting, exercise or payment of a stock incentive. For purposes of the 2007 Plan, a change in control event includes, but is not limited to, certain acquisitions of fifty percent (50%) or more of the Company's outstanding common stock, certain changes in the identity of a majority of the members of the Board of Directors and the acquisition of more than forty percent (40%) of the Company's assets.

Amendment and Termination

The Board of Directors may at any time terminate, or from time to time amend, the 2007 Plan, or alter any award agreement or other document evidencing an award. However, no such amendment or termination may be made without first obtaining shareholder approval if such amendment or termination would: (i) increase the number of shares that may be issued under the 2007 Plan (except to the extent such amendment is made pursuant to a change in the Company's capitalization), (ii) materially change the class of participants eligible to receive awards under the 2007 Plan, (iii) reduce the exercise price of outstanding options and SARs, or (iv) otherwise require shareholder approval pursuant to the 2007 Plan, applicable law, or the NASDAQ Market Rules.

No termination or amendment to the 2007 Plan or an award thereunder may be made which would adversely affect any rights or obligations with respect to any awards granted prior to the date of such termination or amendment, without the consent of the holder of such award.

Adjustments

The number and kind of shares of common stock available for issuance under the 2007 Plan (including under any awards then outstanding), the number and kind of shares subject to the individual limits set forth in the 2007 Plan, and the terms of any outstanding award, including the exercise price of any outstanding option, will be equitably adjusted by the Committee as it determines appropriate to reflect any merger, reorganization, consolidation, recapitalization, reclassification, stock split, reverse stock split, spin-off, combination or exchange of shares, dividend or distribution of securities, or any other event or transaction that affects the number or kind of outstanding shares of the Company.

Transferability

Awards granted under the 2007 Plan generally may not be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated by a participant other than by will or the laws of descent and distribution, and may be exercisable only by the participant during his or her lifetime or, in the event of the disability of a participant, by his or her legal representative.

Federal Income Tax Treatment

Stock Options

ISOs and NQSOs are treated differently for federal income tax purposes. ISOs are intended to comply with the requirements of Code Section 422 and to qualify for favorable tax treatment under Code Section 421. NQSOs are not eligible for such favorable tax treatment.

An optionee is not taxed on the grant or exercise of an ISO. The difference between the exercise price and the fair market value of the shares on the exercise date will, however, be a preference item for purposes of the alternative minimum tax. If an optionee holds the shares acquired upon exercise of an ISO for at least two years following the grant date and at least one year following exercise, the optionee's gain, if any, upon a subsequent disposition of such shares is long-term capital gain. The measure of the gain is the difference between the proceeds received on disposition and the optionee's basis in the shares (which generally equals the exercise price). If an optionee disposes of shares acquired pursuant to exercise of an ISO before satisfying these holding periods, the optionee will recognize both ordinary income and capital gain in the year of disposition. The Company is not entitled to an income tax deduction on the grant or exercise of an ISO or on the optionee's disposition of the shares after satisfying the holding period requirement described above. If the holding periods are not satisfied, the company will be entitled to a deduction in the year the optionee disposes of the shares in an amount equal to the ordinary income recognized by the optionee.

In order for an option to qualify for ISO tax treatment, the grant of the option must satisfy various other conditions more fully described in the Code. We cannot guarantee that any option will qualify for ISO tax treatment even if the option is intended to qualify for such treatment. In the event an option intended to be an ISO fails to so qualify, it will be taxed as an NQSO as described below.

An optionee is not taxed on the grant of an NQSO. On exercise, the optionee recognizes ordinary income equal to the difference between the exercise price and the fair market value of the shares acquired on the date of exercise. The Company is entitled to an income tax deduction in the year of exercise in the amount recognized by the optionee as ordinary income, subject to any applicable limitation under Code Section 162(m). The optionee's gain (or loss) on subsequent disposition of the shares is long-term capital gain (or loss) if the shares are held for at least one year following exercise. The Company is not entitled to a deduction for this gain.

Stock Appreciation Rights

No tax is imposed on the grant of a SAR. On exercise, the holder recognizes ordinary income equal to the cash or the fair market value of any shares of common stock received. The Company is entitled to an income tax deduction in the year of exercise in the amount recognized by the holder as ordinary income, subject to any applicable limitations under Code Section 162(m).

Restricted Stock Awards and Restricted Stock Units

Grantees of restricted stock awards or restricted stock units do not recognize income at the time of the grant. When the award vests or is paid, grantees generally recognize ordinary income in an amount equal to the fair market value of the shares or units at such time, and the Company will receive a corresponding deduction, subject to any applicable limitations under Code Section 162(m). However, no later than 30 days after a participant receives a restricted stock award, the participant may elect to recognize taxable ordinary income in an amount equal to the fair market value of the shares of common stock at the time of grant. Provided that the election is made in a timely manner, the participant will not recognize any additional income when the restrictions on the shares lapse. If the participant forfeits the shares (e.g., upon the participant's termination prior to vesting), the participant may not claim a deduction with respect to the income recognized as a result of the election. Dividends paid with respect to unvested restricted shares generally will be taxable as ordinary income to the participant at the time the dividends are received.

Performance Units

A participant will not recognize income, and the Company will not be allowed a deduction, upon the grant of a performance unit. Upon settlement of the award, the participant will recognize ordinary income equal to the cash or fair market value of the shares of common stock received. The Company is entitled to a corresponding deduction in the same year the participant recognizes income, subject to any applicable limitations under Code Section 162(m).

Code Section 409A

If an award under the plan is subject to Code Section 409A (relating to nonqualified deferred compensation plans), and if the requirements of Code Section 409A are not met, the taxable events as described above could apply earlier than described, and could result in the imposition of additional taxes and penalties. All awards that comply with the terms of the plan, however, are intended to be exempt from the application of Code Section 409A or to meet the requirements of Section 409A in order to avoid such early taxation and penalties.

Tax Withholding

The Company has the right to deduct from any cash payment under an award and, with respect to any award settled in shares of common stock, to require a participant to remit to the Company an amount sufficient to satisfy federal, state and local taxes required by law to be withheld with respect to any exercise, lapse of restriction or other taxable event arising with respect to an award under the plan. A participant may elect to pay such amount in cash or by instructing the Company to withhold from the award, shares of common stock having a fair market value on the date of withholding equal to the amount required to be withheld for tax purposes. This election must be made prior to the date on which the amount of tax to be withheld is determined.

Tax Consequences of a Change in Control

If, upon a change in control of the Company, the exercisability, vesting or payout of an incentive award is accelerated, any excess on the date of the change in control of the fair market value of the shares or cash issued under accelerated incentive awards over the purchase price of such shares, if any, may be characterized as “parachute payments” (within the meaning of Code Section 280G) if the sum of such amounts and any other such contingent payments received by the employee exceeds an amount equal to three times the “base amount” for such employee. The base amount generally is the average of the annual compensation of the employee for the five years preceding such change in ownership or control. An “excess parachute payment,” with respect to any employee, is the excess of the parachute payments to such

person, in the aggregate, over and above such person's base amount. If the amounts received by an employee upon a change of control are characterized as parachute payments, the employee will be subject to a 20% excise tax on the excess parachute payment and we will be denied any deduction with respect to such excess parachute payment.

The foregoing discussion summarizes the federal income tax consequences of incentive awards that may be granted under the 2007 Plan based on current provisions of the Code, which are subject to change. This summary does not cover any foreign, state or local tax consequences.

This proposal will be approved if the votes cast favoring exceeds the votes cast opposing.

The Board of Directors unanimously recommends you vote "FOR" Proposal 2 to approve the Amendment to the 2007 Stock Incentive Plan.

PROPOSAL 3 — APPROVAL OF AMENDMENT TO THE ARTICLES OF INCORPORATION

The Board of Directors believes it is necessary to increase the Company's authorized Common Stock from the current 10,000,000 to 20,000,000. The recommended increase is needed to provide for the reservation of shares for potential future acquisitions, the 2007 Stock Incentive Plan and such other corporate purposes as the Board may deem advisable. The Board believes that additional authorized shares are required to ensure the Company's ability to satisfy these obligations, and to provide the Company with the flexibility to use these newly authorized shares for raising additional equity capital, for use in possible mergers and acquisitions, for stock dividends or stock splits, etc., which may be desirable in the future. Except for the plans described above, there are presently no arrangements, intentions, nor understandings with the respect to the issuance of any additional shares of Common Stock.

If additional stock is authorized, the Board of Directors would, without further action by the shareholders unless otherwise required by law or regulation, be able to authorize issuance of the stock at such times, for such purposes and for such consideration as it may deem desirable, without further shareholder action. Any issuance of additional authorized shares could result in the dilution of each existing shareholder's voting power, and could, depending upon a variety of factors, have the effect of diluting the earnings per share or book value per share of outstanding shares of Common Stock.

The Board of Directors, therefore, has unanimously voted to approve the proposed amendment to increase the authorized Common Stock to 20,000,000 shares and intends to vote for the Amendment at the Annual Meeting.

Holders of the Company's Common Stock do not have preemptive rights as to any class of stock of the Company. Therefore, the Company may issue any stock, any rights to purchase stock or any other security convertible into stock without first offering any such securities to the holders of the Common Stock. Holders of the Common Stock are entitled to one vote per share on all matters to be decided by the shareholders.

A copy of the proposed amendment to the Company's Articles as adopted by the Board of Directors is included in this Proxy Statement as Exhibit "B".

The Board of Directors unanimously recommends you vote "FOR" Proposal 3 to approve the amendment to the Company's Articles to increase the number of authorized shares of Common Stock.

proposal 4 – approval of independent public accountants

The Board of Directors has appointed T.E. Lott & Company, a firm of independent certified public accountants, as auditors for the fiscal year ending December 31, 2015, and until their successors are selected.

The Company has been advised that neither the firm nor any of its partners has any direct or any material indirect financial interest in the securities of the Company or its subsidiaries, except as auditors and consultants on accounting procedures and tax matters. The Board of Directors anticipates that representatives of T.E. Lott & Company will be in attendance at the Annual Meeting, be present to make a statement or be available to respond to questions.

Although not required to do so, the Board of Directors has chosen to submit its appointment of T.E. Lott & Company for ratification by the Company's shareholders. It is the intention of the persons named in the Proxy to vote such Proxy FOR the ratification of this appointment. If this proposal does not pass, the Board of Directors will reconsider the matter. The proposal will be ratified if the votes cast favoring the appointment exceed the votes cast opposing it.

The Board of Directors unanimously recommends you vote “FOR” Proposal 4 to ratify the appointment of T.E. Lott & Company as independent public accountants for the fiscal year ending December 31, 2015.

PROPOSAL 5 - ADVISORY VOTE ON EXECUTIVE COMPENSATION

The America Reinvestment and Recovery Act of 2009 (“ARRA”) requires recipients of funds under CPP to permit a separate shareholder vote to approve the compensation of executives, as disclosed pursuant to the compensation disclosure rules of the Securities and Exchange Commission (which disclosure shall include the compensation discussion and analysis, the compensation tables, and any related material). ARRA further provides that this shareholder vote shall not be binding on the board of directors of a recipient of funds under CPP, and may not be construed as overruling a decision by such board, nor to create or imply any additional fiduciary duty by such board, nor shall such vote be construed to restrict or limit the ability of shareholders to make proposals for inclusion in proxy materials related to executive compensation.

These ARRA provisions give you as a shareholder the right to endorse or not endorse the Company’s executive compensation through the following resolution:

“Resolved, that the shareholders of The First Bancshares, Inc. approve its executive compensation as described in the section captioned “Compensation Discussion and Analysis” in the 2015 Proxy Statement, including the compensation tables and any related material.”

Under ARRA, your vote is advisory, and will not be binding on the Board. However, the Compensation Committee will take into account the vote when considering future executive compensation arrangements.

The Board of Directors unanimously recommends you vote “FOR” approval of the resolution.

EXHIBIT A

AMENDMENT TO

THE FIRST BANCSHARES, INC.

2007 Stock Incentive Plan

This Amendment to The First Bancshares, Inc. 2007 Stock Incentive Plan (hereinafter the “Plan”) is made this the ____ day of _____, 2015, to be effective upon approval of the stockholders of the Company.

WITNESSETH:

WHEREAS, effective the 24th day of May, 2007, First Bancshares, Inc. (the “Company”) adopted the Plan to provide incentives and awards to certain officers, employees, directors and other service providers of the Company and its Affiliates; and

WHEREAS, the Company desires to amend the Plan to increase the number of shares of Stock for which Stock Incentives may be awarded or exercised thereunder and to make other changes.

NOW, THEREFORE, The First Bancshares, Inc. 2007 Stock Incentive Plan is hereby amended as follows:

I.

Section 2.3 is hereby amended by the deletion of that Section in its entirety and the substitution of the following:

2.3 “Change in Control” means a change in the ownership or effective control of the Company or in the ownership of a substantial portion of the assets of the Company (within the meaning of Section 409A of the Code and the Treasury Regulations thereunder, as follows:

(a) **Change in Ownership** shall mean the acquisition by any one person, or more than one person acting as a group, of ownership of stock of the Company that, together with stock held by such person or group, constitutes more than fifty percent (50%) of the total fair market value or total voting power of the stock of the Company. However, if any one person, or more than one person acting as a group, is considered to own more than fifty percent (50%) of the total fair market value or total voting power of the stock of the Company, the acquisition of additional stock by the same person or persons is not considered to cause a Change in Ownership of the Company (or to cause a Change in Effective Control of the Company as defined in Section 2.3(b)). An increase in the percentage of stock owned by any one person, or persons acting as a group, as a result of a transaction in which the Company acquires its stock in exchange for property will be treated as an acquisition of stock for purposes of this Section 2.3(a).

(b) **Change in Effective Control** shall mean:

(i) The acquisition by any one person, or more than one person acting as a group, during any 12-month period of ownership of stock of the Company possessing thirty-five percent (35%) or more of the total voting power of the stock of the Company; or

(ii) The replacement of a majority of members of the Board of Directors during any 12-month period by directors whose appointment or election is not endorsed by a majority of the members of the Board of Directors prior to the date of the appointment or election in accordance with Treasury Regulation §1.409A-3(i)(5)(vi)(A)(2).

Notwithstanding the foregoing, if any one person, or more than one person acting as a group, is considered to effectively control the Company (within the meaning of this Section 2.3(b), the acquisition of additional control of the Company by the same person or persons is not considered to cause a Change in Control.

(c) **Change in the Ownership of the Company's Assets** shall mean the acquisition by any one person, or more than one person acting as a group, during any 12-month period of assets from the Company that have a total gross fair market value equal to or more than forty percent (40%) of the total gross fair market value of all of the assets of the Company immediately prior to such acquisition or acquisitions. Notwithstanding the foregoing, there is no change in control event under this Section 2.3(c) when there is a transfer to an entity that is controlled by the Shareholders or other related person, within the meaning of Treasury Regulation §1.409A-3(i)(5)(vii)(B), immediately after the transfer.

(d) **Persons Acting as a Group.** For purposes of this Section 2.3, persons will not be considered to be acting as a group solely because they purchase or own stock of the same corporation at the same time, or as a result of the same public offering. However, persons will be considered to be acting as a group if they are owners of a corporation that enters into a merger, consolidation, purchase or acquisition of stock, or similar business transaction with the corporation. If a person, including an entity, owns stock in both corporations that enter into a merger, consolidation, purchase or acquisition of stock, or similar transaction, such shareholder is considered to be acting as a group with other shareholders in a corporation only with respect to the ownership in that corporation prior to the transaction giving rise to the change and not with respect to the ownership interest in the other corporation.

II.

The Plan is hereby amended to increase the number of shares of Stock authorized for issuance pursuant to Stock Incentives granted under the Plan by an additional Three Hundred Thousand (300,000) shares, and Section 4.2 of the Plan is hereby amended by the deletion of that section in its entirety and the substitution of the following:

4.2 Aggregate Limit. The aggregate number of shares reserved for awards hereunder shall be determined as follows:

(a) Maximum Plan Shares. Upon approval of this Amendment by the shareholders of the Company, the shares of Stock hereby reserved exclusively for issuance upon an award of or exercise or payment pursuant to Stock Incentives under the Plan is increased by Three Hundred Thousand (300,000) shares to a total of Six Hundred Fifteen Thousand (615,000) shares, subject to adjustment in accordance with Section 9.2 (the "Maximum Plan Shares"). All or any of such Maximum Plan Shares may be issued upon an award of or exercise or payment pursuant to any one or more Stock Incentives, including without limitation, Incentive Stock Options.

(b) Recycling. Shares of Stock attributable to the nonvested, unpaid, unexercised, unconverted or otherwise unsettled portion of any Stock Incentive that is forfeited or cancelled or that expires or terminates for any reason without becoming vested, paid, exercised, converted or otherwise settled in full shall not count against the Maximum Plan Shares and shall again become available for grants of Stock Incentive awards under the Plan (unless the Participant received dividends or other economic benefits with respect to such shares of Stock, which dividends or other economic benefits are not forfeited, in which case all such shares shall count against the Maximum Plan Shares). Shares of Stock surrendered in payment of an option price under a Stock Incentive award and shares of Stock deducted or withheld to satisfy tax withholding requirements also will not be counted against the Maximum Plan Shares and will again be available for purposes of the Plan. In no event, however, shall the total number of shares which again become available for grants of Stock Incentive awards under the Plan pursuant to the preceding provisions of this Section 4.2(b) after the effective date of this Amendment exceed one hundred fifty thousand (150,000) shares (fifty percent (50%) of the total increase in reserved shares under the Plan authorized pursuant to this Amendment.)

III.

Section 5.2 is hereby amended by the deletion of the last sentence thereof and the substitution of the following:

To the extent not inconsistent with the provisions of the Code or the Plan, including the prohibition on repricing of Options and Stock Appreciation Rights as reflected in Sections 6.2(k) and 6.3(c), and subject to the provisions of Section 6.09 hereof, the Committee may give a Participant an election to surrender a Stock Incentive in exchange for the grant of a new Stock Incentive, and shall have the authority to amend or modify an outstanding Stock Incentive Agreement, or to waive any provision thereof, provided that the Participant consents to such action.

IV.

Section 6.1(f) is hereby amended by the deletion of that Subsection in its entirety and the substitution of the following:

(f) Modification. Subject to the provisions of Sections 6.2(k), 6.3(c) and 6.09, after the date of grant of a Stock Incentive, the Committee may, in its sole discretion, modify the terms and conditions of a Stock Incentive, except to the extent that such modification would be inconsistent with other provisions of the Plan or the Code or would adversely affect the rights of a Participant under the Stock Incentive (except as otherwise permitted under the Plan).

V.

Section 6.2 is hereby amended by the addition of a new Subsection (k) to read as follows:

(k) No Repricing.
