Statement about Free Writing Prospectus

2 Forward - Looking Statements This presentation contains forward - looking statements within the meaning of the federal securities laws . These statements relate to anticipated future events, future results of operations or future financial performance . In some cases, you can identify forward - looking statements by terminology such as “anticipate”, “believe”, “continue”, “could”, “estimate”, “expect”, “goals”, “intend”, “likely”, “may”, “plan”, “potential”, “pre” the negative of these terms or other similar terms and phrases . Our operations involve risks and uncertainties, many of which are outside our control, and any one of which, or a combination of which, could materially affect our results of operations and whether the forward - looking statements ultimately prove to be correct . Forward - looking statements in this presentation include, without limitation, statements reflecting management’s expectations for future financial performance and operating expenditures, expected growth, profitability and business outlook, increased sales and marketing expenses, and the expected results from the integration of our acquisitions . Forward - looking statements are only current predictions and are subject to known and unknown risks, uncertainties, and other factors that may cause our actual results, levels of activity, performance, or achievements to be materially different from those anticipated by such statements . These factors include : • our ability to manage our growth, including acquiring and effectively integrating other businesses into our infrastructure ; • our ability to retain our customers, including effectively migrating and keeping new customers acquired through business acquisitions ; • our ability to attract and retain key officers and employees, including Mahmud Haq, our CEO, and personnel critical to the transition and integration of our newly acquired businesses ; • our ability to raise capital and obtain financing on acceptable terms ; • our ability to compete with other companies developing products and selling services competitive with ours, and who may have greater resources and name recognition than we have ; • our ability to maintain operations in Pakistan in a manner that continues to enable us to offer competitively priced products and services ; • our ability to keep and increase market acceptance of our products and services ; • our ability to keep pace with a changing healthcare industry and its rapidly evolving regulatory environment ; • our ability to protect and enforce intellectual property rights ; and • our ability to maintain and protect the privacy of customer and patient information . Although we believe that the expectations reflected in the forward - looking statements contained in this presentation are reasonable, we cannot guarantee future results, levels of activity, performance, or achievements . The statements in this presentation are made as of the date of this presentation, and the Company does not assume any obligations to update the forward - looking statements provided to reflect events that occur or circumstances that exist after the date on which they were made .
