As used in this report, “the Company,” “we,” “us,” and “ours” refer to Howard Bancorp, Inc. and its subsidiaries. References to the “Bank” refer to Howard Bank.

This report contains forward-looking statements, which can be identified by the use of words such as “estimate,” “project,” “believe,” “intend,” “anticipate,” “plan,” “seek,” “expect,” “will,” “may,” “should” and words of similar meaning. You can also identify them by the fact that they do not relate strictly to historical or current facts.

These forward-looking statements include, but are not limited to:

- statements of our goals, intentions and expectations, particularly with respect to our business plan and strategies, including our planned new branch in Columbia, Maryland, opening of additional branches, expansion into new markets, potential acquisitions, increasing capital, market share, loan, investments and asset growth, revenue and profit growth and expanding client relationships;
- statements with respect to expected benefits and other impacts of our acquisition of First Mariner Bank, including expected increases in non-interest expenses resulting from the merger;
  - impact of recent branch closures and the opening of our anticipated new branch on expenses;
- statements regarding the asset quality of our investment portfolios and anticipated recovery and collection of unrealized losses on securities available for sale;
- expected continued focus on commercial customers as well as continuing to originate residential real estate loans and both maintaining our residential mortgage loan portfolio and continuing to sell loans into the secondary market;
  - the expected impact of the recently enacted Tax Cuts and Jobs Act;
  - expected increases in occupancy and equipment expenses;
- statements with respect to our allowance for credit losses, and the adequacy thereof;
- our expectations regarding the pending sale of OREO properties, including the timing and impact thereof;
  - statement with respect to having adequate liquidity levels and future sources of liquidity;
  - our belief that we will retain a large portion of maturing certificates of deposit;
  - the impact on us of recent changes to accounting standards;
  - future cash requirements relating to commitments to extend credit; and
  - the impact of interest rate changes on our net interest income.

These forward-looking statements are based on our current beliefs and expectations and are inherently subject to significant business, economic and competitive uncertainties and contingencies, many of which are beyond our control. In addition, these forward-looking statements are subject to assumptions with respect to future business strategies and decisions that are subject to change. We are under no duty to and do not undertake any obligation to update any forward-looking statements after the date of this report.

The following factors, among others, could cause actual results to differ materially from the anticipated results or other expectations expressed in the forward-looking statements:

## Edgar Filing: Howard Bancorp Inc - Form 10-Q

potential problems in connection with the recent acquisition of First Mariner Bank, as further discussed in “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2017, as filed with the SEC on March 15, 2018;

deterioration in general economic conditions, either nationally or in our market area, or a return to recessionary conditions;

competition among depository and other financial institutions;

inflation and changes in the interest rate environment that reduce our margins or reduce the fair value of financial instruments;

adverse changes in the securities markets;

changes in laws or government regulations or policies affecting financial institutions, including changes in regulatory fees and capital requirements;

our ability to enter new markets successfully and capitalize on growth opportunities, and to otherwise implement our growth strategy;

our ability to successfully integrate acquired entities, if any;

changes in consumer spending, borrowing and savings habits;

changes in accounting policies and practices, as may be adopted by the bank regulatory agencies, the Financial Accounting Standards Board, the Securities and Exchange Commission and the Public Company Accounting Oversight Board;

changes in our organization, compensation and benefit plans;

loss of key personnel; and

other risk discussed in this report.

Because of these and a wide variety of other uncertainties, our actual future results may be materially different from the results indicated by these forward-looking statements. You should not put undue reliance on any forward-looking statements.

**Note 1: Summary of Significant Accounting Policies**

**Nature of Operations**

On December 15, 2005, Howard Bancorp, Inc. (“Bancorp”) acquired all of the stock and became the holding company of Howard Bank (the “Bank”) pursuant to the Plan of Reorganization approved by the shareholders of the Bank and by federal and state regulatory agencies. Each share of the Bank’s common stock was converted into two shares of Bancorp common stock effected by the filing of Articles of Exchange on that date, and the shareholders of the Bank became the shareholders of Bancorp. The Bank has seven subsidiaries, six of which are intended to hold foreclosed real estate (three of which are inactive) and the other owns and manages real estate that is used as a branch location and has office and retail space. The accompanying consolidated financial statements of Bancorp and its wholly-owned subsidiary Howard Bank (collectively the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”).

Bancorp was incorporated in April of 2005 under the laws of the State of Maryland and is a bank holding company registered under the Bank Holding Company Act of 1956. Bancorp is a single bank holding company with one subsidiary, Howard Bank, which operates as a state trust company with commercial banking powers regulated by the Maryland Office of the Commissioner of Financial Regulation (the “Commissioner”). The Company is a diversified financial services company providing commercial banking, mortgage banking and consumer finance through banking branches, the internet and other distribution channels to businesses, business owners, professionals and other consumers located primarily in the Greater Baltimore metropolitan area.

On March 1, 2018, Howard Bancorp, Inc. completed its previously announced merger (the “Merger”) with First Mariner Bank, a Maryland chartered trust company (“First Mariner”) pursuant to the Agreement and Plan of Reorganization dated as of August 14, 2017, as amended by Amendment No. 1 on November 8, 2017, by and among Bancorp, Howard Bank, a Maryland chartered trust company and wholly owned subsidiary of Bancorp, and First Mariner (as amended, the “Agreement”). At the effective time of the Merger, First Mariner merged with and into Howard Bank, with Howard Bank continuing as the surviving bank of the Merger and a wholly owned subsidiary of Bancorp. The Merger was described in the joint proxy and information statement/prospectus filed with the U.S. Securities and Exchange Commission (the “SEC”) on November 22, 2017.

At the effective time of the Merger, pursuant to the terms of the Agreement, each outstanding share of First Mariner common stock and First Mariner Series A Non-Voting Non-Cumulative Perpetual Preferred Stock issued and

outstanding was cancelled and converted into the right to receive 1.6624 shares of Bancorp common stock. To effect the Merger, Bancorp issued 9,143,222 shares of Bancorp common stock to First Mariner shareholders.

On February 1, 2017, Bancorp closed an underwritten public offering, including the exercise in full by the underwriters of their option to purchase an additional 360,000 shares, at the public offering price of \$15.00 per share. The exercise of the option to purchase additional shares brought the total number of shares of common stock sold by Bancorp to 2,760,000 shares and increased the amount of gross proceeds raised in the offering to approximately \$41.4 million, after underwriting discounts and estimated expenses, net proceeds raised in the offering were \$38.4 million.

The following is a description of the Company's significant accounting policies.

### **Principles of Consolidation**

The consolidated financial statements include the accounts of Bancorp, its subsidiary bank and the Bank's subsidiaries. All significant intercompany accounts and transactions have been eliminated.

### **Use of Estimates**

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant changes in the near-term relate to the determination of the allowance for credit losses, other-than-temporary impairment of investment securities, the fair value of loans held for sale, and fair value estimates related to acquisition accounting.

### **Loans Held-For-Sale**

The Company engages in sales of residential mortgage loans originated by the Bank. The Company has elected to measure loans held for sale at fair value. Fair value is based on outstanding investor commitments or, in the absence of such commitments, on current investor yield requirements based on third party models. Gains and losses on sales of these loans are recorded as a component of noninterest income in the Consolidated Statements of Operations. The Company's current practice is to sell residential mortgage loans on a servicing released basis, and, therefore, it has no intangible asset recorded for the value of such servicing. Interest on loans held for sale is credited to income based on the principal amounts outstanding.

Upon sale and delivery, loans are legally isolated from the Company and the Company has no ability to restrict or constrain the ability of third party investors to pledge or exchange the mortgage loans. The Company does not have the entitlement or ability to repurchase the mortgage loans or unilaterally cause third party investors to put the mortgage loans back to the Company. Unrealized and realized gains on loan sales are determined using the specific identification method and are recognized through mortgage banking activity in the Consolidated Statements of Operations.

The Company enters into commitments to originate residential mortgage loans whereby the interest rate on the loan is determined prior to funding (i.e. rate lock commitment). Such rate lock commitments on mortgage loans to be sold in the secondary market are considered to be derivatives. The period of time between issuance of a loan commitment and closing and sale of the loan generally ranges from 15 to 60 days. The Company protects itself from changes in interest rates through the use of best efforts forward delivery commitments, whereby the Company commits to sell a loan at a premium at the time the borrower commits to an interest rate with the intent that the buyer has assumed interest rate risk on the loan.

For purposes of calculating fair value of rate lock commitments, the Bank estimates loan closing and investor delivery rate based on historical experience. The measurement of the estimated fair value of the rate lock commitments is presented as realized and unrealized gains from mortgage banking activities with the corresponding balance sheet amount presented as part of other assets.

The Company elected to measure loans held for sale at fair value to better align reported results with the underlying economic changes in value of the loans on the Company's balance sheet. Loans held for sale that were not ultimately sold, but instead were placed into the Bank's portfolio, are reclassified to loans held for investment and continue to be recorded at fair value.

## **Reclassifications**

Certain items in prior financial statements have been reclassified to conform to the current presentation.

## **Accounting Pronouncements**

The FASB has issued ASU 2017-12, *Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities*. This ASU's objectives are to 1) improve the transparency and understanding of information conveyed to financial statements users about an entity's risk management activities by better aligning the entity's financial reporting for hedging relationships with those risk management activities; and 2) reduce the complexity of and simplify the application of hedge accounting by preparers. ASU 2017-12 is effective for fiscal years beginning after December 15, 2018; early adoption is permitted. The Company currently does not designate any derivative financial instruments as formal hedging relationships and therefore, does not utilize hedge accounting. However, the Company is currently evaluating this ASU to determine whether its provision will enhance the Company's ability to employ risk management strategies, while improving the transparency and understanding of those strategies for financial statement users.

The FASB has issued ASU 2017-09, *Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting*. This ASU clarifies when changes to the term or conditions of a share-based payment award must be accounted for as a modification. Under this ASU, an entity will not apply modification accounting to a share-based payment award if all of the following are the same immediately before and after the change: 1) The fair value; 2) the award's vesting conditions; and 3) the award's classification as an equity or liability instrument. Adoption of ASU No. 2017-09 did not have an impact on the Company's Consolidated Financial Statements.

The FASB has issued ASU 2017-08, *Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities*. The amendments in this Update shorten the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. The Company will evaluate the guidance in this update but does not expect it to have a significant impact on the Company's financial position or result of operations.

The FASB has issued ASU 2017-04, *Intangibles—Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment*. The amendments in this Update simplify the subsequent measurement of goodwill by eliminating Step 2 from the goodwill impairment test. The Company should perform its goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. Impairment changes should be recognized for the amount by which the carrying amount exceeds the reporting unit's fair value, however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. The impairment charge is limited to the amount of goodwill allocated to that reporting unit. The amendments in this Update are effective for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. The Company will evaluate the guidance in this update but does not expect it to have a significant impact on the Company's financial position or result of operations.

The FASB has issued ASU 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*. The amendments in this Update provide clarification on the definition of a business and provides criteria to aid in the assessment of whether a transaction should be accounted for as an acquisition or a disposal of assets or business. The amendments in this Update are effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Adoption of ASU 2017-01 did not have a material impact on the Company's financial position or result of operations.

The FASB has issued ASU 2016-13, *Financial Instruments—Credit Losses (Topic 326)*. The main objective of this update is to provide financial statement users with more decision-useful information about the expected credit losses on financial instruments and other commitments to extend credit held by a reporting entity at each reporting date. To achieve this objective, the guidance in this update replaces the incurred loss impairment methodology in current GAAP with a methodology that reflects expected credit losses and requires consideration of a broader range of reasonable and supportable information to inform credit loss estimates. The measurement of expected credit losses is based on relevant information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. An entity must use judgment in determining the relevant information and estimation methods that are appropriate in its circumstances. The guidance in this update is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. The Company is currently evaluating this guidance to determine the impact on the Company's Consolidated Financial Statements.

The FASB has issued ASU 2016-02, *Leases (Topic 842)*. The new guidance requires lessees to recognize lease assets and lease liabilities related to certain operating leases on their balance sheet and disclose key information about leasing arrangements. This guidance is effective for fiscal years beginning after December 15, 2018 and interim periods within those fiscal years. The Company is currently evaluating this guidance to determine the impact on its consolidated financial statements. The Company leases certain properties under operating leases that will result in recognition on the Company's consolidated balance sheet.

The FASB has issued ASU No. 2016-01, *Financial Instruments – Recognition and Measurement of Financial Assets and Liabilities*. ASU No. 2016-01 requires equity investments to be measured at fair value with changes in fair value

recognized in net income, excluding equity investments that are consolidated or accounted for under the equity method of accounting. The guidance allows equity investments without readily determinable fair values to be measured at cost minus impairment, with a qualitative assessment required to identify impairment. The guidance also: requires public companies to use exit prices to measure the fair value of financial instruments for disclosure purposes; requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset on the balance sheet or the accompanying notes to the financial statements; and eliminates the disclosure requirements related to measurement assumptions for the fair value of instruments measured at amortized cost. In addition, the guidance requires that for liabilities measured at fair value under the fair value option, changes in fair value due to changes in instrument-specific credit risk be presented in other comprehensive income. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017 and interim periods within those fiscal years. Adoption of ASU 2016-01 did not have a material impact on the Company's Consolidated Financial Statements.

The FASB has issued ASU No. 2014-09, *Revenue from Contracts with Customers (Topic 606)*. The guidance requires an entity to recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The guidance in this update is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period. As allowed by this ASU the Company is permitted to adopt using the full retrospective transition method for all periods presented, or modified retrospective method where the guidance would only be applied to existing contracts in effect at the adoption date and new contracts going forward. The Company's revenue stream within the scope of ASU No. 2014-09 is primarily from service charges on deposit accounts. The Company used a modified retrospective approach to uncompleted contracts at the date of adoption. Periods prior to the date of adoption are not retrospectively revised, but a cumulative effect of adoption is recognized for the impact of the ASU on uncompleted contracts at the date of adoption. The impact of guidance in this update, including method of implementation, did not have a material impact on the Company's Consolidated Financial Statements. See Note 13 for additional information.

**Note 2: Business Combinations**

***First Mariner Acquisition***

On March 1, 2018, Howard Bancorp completed its merger with First Mariner Bank into Howard Bank, a wholly owned subsidiary of Howard Bancorp, pursuant to the Agreement and Plan of Reorganization. At the effective time of the Merger, First Mariner merged with and into Howard Bank, with Howard Bank continuing as the surviving bank of the Merger. At the effective time of the Merger, pursuant to the terms of the Agreement, each outstanding share of First Mariner common stock and First Mariner Series A Non-Voting Non-Cumulative Perpetual Preferred Stock issued and outstanding was cancelled and converted into the right to receive 1.6624 shares of Bancorp common stock. The aggregate merger consideration of \$173.8 million included \$9.2 million of cash and 9,143,222 shares of Howard Bancorp common stock, which was valued at approximately \$164.6 million based on the closing price of Howard Bancorp common stock of \$18.00 on February 28, 2018.

The Company has accounted for the Merger under the acquisition method of accounting in accordance with FASB ASC Topic 805, “*Business Combinations*,” whereby the acquired assets and assumed liabilities were recorded by Bancorp at their estimated fair values as of their acquisition date.

Management made significant estimates and exercised significant judgment in accounting for the acquisition of First Mariner. Management judgmentally assigned risk ratings to loans based on appraisals and estimated collateral values, expected cash flows, prepayment speeds and estimated loss factors to measure fair values for loans. Deposits and borrowings were valued based upon interest rates, original and remaining terms and maturities, as well as current rates for similar funds in the same markets. Premises and equipment was valued based on recent appraised values. Management used quoted or current market prices to determine the fair value of investment securities.

The following table provides the purchase price as of the acquisition date, the current identifiable assets acquired and liabilities assumed at their estimated fair values, and the resulting goodwill of \$70.7 million recorded from the acquisition:

*Acquired loans*

The following table outlines the contractually required payments receivable, cash flows we expect to receive, non-accretable credit adjustments and the accretable yield for all First Mariner loans as of the acquisition date.

| Impaired loans acquired   | 29,470  | 9,644                                  | 19,826                                    | 1,055                           | 18,771                                  |
| Total loans acquired      | \$ 684,091  | \$ 9,644                               | \$ 674,447                                | \$ 10,109                       | \$ 664,338                              |

At the merger of First Mariner, all loans acquired were recorded at the estimated fair value on the purchase date with no carryover of the related allowance for loan losses. On the merger date, the loan portfolio was segregated into two loan pools, performing and non-performing loans to be retained in our portfolio.

The Company determined the net discounted value of cash flows on approximately 2,700 performing loans totaling \$654.6 million. The valuation took into consideration the loans' underlying characteristics, including account types, remaining terms, annual interest rates, interest types such as fixed or variable rate, past delinquencies, timing of principal and interest payments, current market rates, loan-to-value ratios, loss exposures, and remaining balances. These performing loans were segregated into pools based on loan and payment type and in some cases, risk grade. The effect of this valuation process was a net accretable discount adjustment of \$9.1 million at merger.

The Company also individually evaluated 57 impaired loans totaling \$29.5 million of contractually required payments, to determine the fair value as of the March 1, 2018 measurement date. In determining the fair value for each individually evaluated impaired loan, the Company considered a number of factors including the remaining life of the acquired loan, estimated prepayments, estimated loss ratios, estimated value of the underlying collateral and net present value of cash flows the Company expect to receive, among others.

The Company established a credit risk related non-accretable difference of \$9.6 million relating to these acquired, credit impaired loans, reflected in the recorded net fair value. The Company further estimated the timing and amount of expected cash flows in excess of the estimated fair value and established an accretable discount adjustment of \$1.1 million at acquisition relating to these impaired loans.

In connection with the acquisition, the Company incurred merger-related expenses relating to personnel, professional fees, occupancy and equipment and other costs of integrating and conforming acquired operations. Those expenses consisted largely of costs related to professional and consulting services, employment severance and early retirement charges, termination of contractual agreements and conversion of systems and/or integration of operations, initial communication expenses, printing and filing costs of completing the transaction and investment banking charges.

A summary of merger related costs included in the Consolidated Statements of Operations for the six month period ended June 30, 2018 is summarized as follows:

|                       |          |
|-----------------------|----------|
| Compensation related  | \$9,860  |
| Equipment disposition | 1,918    |
| Legal and consulting  | 2,005    |
| Contract Terminations | 925      |
| Accounting & other    | 965      |
| Total                 | \$15,673 |

**Pro Forma Condensed Combined Financial Information:**

The following table presents unaudited proforma information as if the merger between Howard Bancorp and First Mariner had been completed on January 1, 2018 and on January 1, 2017. The pro forma information does not necessarily reflect the results of operations that would have occurred had the Company merged with First Mariner at the beginning of 2018 or 2017. Supplemental proforma earnings were adjusted to exclude merger related costs. The expected future amortizations of the various fair value adjustments were included beginning in each year presented. Cost savings are not reflected in the unaudited pro forma amounts for the periods presented. The pro forma financial information does not include the impact of possible business model changes, nor does it consider any potential impacts of current market conditions on revenues, expense efficiencies, or other factors.

### Note 3: Investment Securities

The Bank holds securities classified as available for sale and held to maturity.

Because of the composition and remaining duration of the securities portfolio acquired in the First Mariner merger, management deemed it prudent for interest rate risk management purposes to liquidate the majority of the acquired portfolio. Thus, in the first quarter of 2018, the Bank sold nearly \$69.37 million of First Mariner securities, with no gains or losses incurred upon the liquidation, as the sales were executed within days of the merger. In addition the Bank sold \$33.0 million of pre-acquisition investment securities, in the first quarter of 2018 and recorded a loss on the sale of \$139 thousand. Nearly \$51 million of the acquired securities that were retained in the securities portfolio were recorded at fair value and were all classified as available for sale.

The amortized cost and estimated fair values of investments are as follows:

The unrealized losses that existed were a result of market changes in interest rates since the original purchase. Management systematically evaluates investment securities for other-than-temporary declines in fair value on a quarterly basis. This analysis requires management to consider various factors, which include the (1) duration and magnitude of the decline in value, (2) financial condition of the issuer or issuers and (3) structure of the security. The portfolio contained 46 securities with unrealized losses and 38 securities with unrealized losses at June 30, 2018 and December 31, 2017, respectively.

An impairment loss is recognized in earnings if any of the following are true: (1) the Company intends to sell the debt security; (2) it is more likely than not that the Company will be required to sell the security before recovery of its amortized cost basis; or (3) the Company does not expect to recover the entire amortized cost basis of the security. In situations where the Company intends to sell or when it is more likely than not that the Company will be required to sell the security, the entire impairment loss must be recognized in earnings. In all other situations, only the portion of the impairment loss representing the credit loss must be recognized in earnings, with the remaining portion being

When potential losses are identified, a specific provision and/or charge-off may be taken, based on the then current likelihood of repayment, that is at least in the amount of the collateral deficiency, and any potential collection costs, as determined by the independent third party appraisal.

All loans that are considered impaired are subject to the completion of an impairment analysis. This analysis highlights any potential collateral deficiencies. A specific amount of impairment is established based on the Bank's calculation of the probable loss inherent in the individual loan. The actual occurrence and severity of losses involving impaired credits can differ substantially from estimates.

**Special Mention** - A Special Mention asset has potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in the institution's credit position at some future date. Special Mention assets are not adversely classified and do not expose an institution to sufficient risk to warrant adverse classification.

**Substandard** - Substandard loans are inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified must have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected.

**Doubtful** - Loans classified Doubtful have all the weaknesses inherent in those classified Substandard with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently known facts, conditions and values, highly questionable and improbable.

Loans classified Special Mention, Substandard, Doubtful or Loss are reviewed at least quarterly to determine their appropriate classification. All commercial loan relationships are reviewed annually. Non-classified residential mortgage loans and consumer loans are not evaluated unless a specific event occurs to raise the awareness of possible credit deterioration.

Included in the total impaired loans above were non-accrual loans of \$28.1 million and \$12.6 million at June 30, 2018 and December 31, 2017, respectively. Interest income that would have been recorded if non-accrual loans had been current and in accordance with their original terms was \$1.0 million and \$258 thousand for the first six months of 2018 and 2017, respectively.

Loans may have their terms restructured (e.g., interest rates, loan maturity date, payment and amortization period, etc.) in circumstances that provide payment relief to a borrower experiencing financial difficulty. Such restructured loans are considered trouble debt restructured loans (“TDRs”) that may either be impaired loans that may either be in accruing status or non-accruing status. Non-accruing TDRs may return to accruing status provided there is a sufficient period of payment performance in accordance with the restructure terms. Loans may be removed from the restructured category in the year subsequent to the restructuring if: a) the restructuring agreement specifies an interest rate equal to or greater than the rate that the creditor was willing to accept at the time of restructuring for a new loan with comparable risk; and b) the loan is not impaired based on the terms specified by the restructuring agreement.

There was one new loan restructured during the six months ended June 30, 2018. In the second quarter of 2018 the Bank extended the terms of a residential real estate loan that is currently non-performing.

As a part of the modification of the land development loan restructured during 2017, the Bank agreed to forgive \$215 thousand in debt, and recorded this amount as a loss. The pre-modification principal amount on this loan was \$340 thousand, while the post-modification principal amount was reduced to \$125 thousand. The other modifications have been only interest rate concessions and payment term extensions, not principal reductions that resulted in the recordation of a loss. Thus, the pre-modification and post-modification recorded investment amounts are the same for these TDRs.

Performing TDRs were in compliance with their modified terms and there are no further commitments associated with these loans. During the six months ended June 30, 2018 there were no TDRs that subsequently defaulted within twelve months of their modification dates.

Management routinely evaluates other real estate owned (“OREO”) based upon periodic appraisals. For the three months ended June 30, 2018 and 2017 there were no additional valuation allowances recorded as the current appraised value, less estimated cost to sell, was sufficient to cover the recorded OREO amount. For the six months ended June 30, 2018 there was one loan for \$174 thousand transferred from loans to OREO, while for the same period in 2017 there were no loans transferred to OREO. The Company sold one commercial property in Sussex County Delaware during the second quarter of 2018 with a carrying value was \$593 thousand. The Company recorded a \$45 thousand gain from the sale of this property. In conjunction with the First Mariner acquisition the Bank’s OREO balances increased \$3.0 million representing 11 properties. At June 30, 2018 there were six residential first lien loans totaling \$1.4 million in the process of foreclosure.

**Note 6: Goodwill and Other Intangible Assets**

Goodwill has an indefinite useful life and is evaluated for impairment annually or more frequently if events and circumstances indicate that the asset would more-likely-than-not reduce the fair value below the carrying amount.

On March 1, 2018 the Company initially recorded \$71.4 million in goodwill relating to the First Mariner merger. Based upon updated information the goodwill was adjusted downward by \$723 thousand in the second quarter 2018 to reflect revised valuations as detailed in Note 2.

The Bank has one unit, which is the core banking operation. The table below shows goodwill balances at June 30, 2018 and December 31, 2017.

Core deposit intangible consists of premiums paid for the acquisition of core deposits and are amortized based upon the estimated economic benefits received. The gross carrying amount and accumulated amortization of other intangible assets are as follows:
